2007 - 2008 KANSAS PARENTS AS TEACHERS BORN TO LEARN™ ANNUAL PROGRAM REPORT SUMMARY

Parents as Teachers (PAT) is an award winning parent education and family support program serving families throughout pregnancy until their child enters kindergarten. The program is designed to enhance child development and school achievement through parent education accessible to all families. The Parents as Teachers Born to Learn™ model offers families personal visits by certified parent educators; group meetings; developmental, health, hearing and vision screening; and linkage with community resources. It is a universal access model that is adaptable to the needs of diverse families, cultures and special populations. Programs are funded through a variety of public and private sources.

The information contained in this annual program report summary illustrates the reach and impact of PAT Born to Learn™ programs over a 12 month period. Programs can use the PAT quality standards to enhance the quality of services, increase their impact, and broaden their reach to achieve the vision that all children will learn, grow and develop to realize their full potential.

The information in this summary is based on data from 88 Annual Program Reports representing 111 Parents as Teachers program sites in Kansas. The typical reporting period is July 1, 2007 to June 30, 2008.

PROGRAM REACH

- 19,504 children
- 14,217 families
- Family Ethnicity:
