# Kansas Special Education State Performance Plan
# Levels of Determination

In February of each year, KSDE submits an Annual Performance Report (APR) of the State Performance Plan (SPP) to the Office of Special Education Programs (OSEP). In writing the current year's APR, KSDE analyzes data from the previous school year and measures the results against targets established in the SPP. Fiscal Management data and Compliance Indicator data from the current year's APR is used to measure whether a district met Substantial Compliance*.

As part of the current year APR process, KSDE assigns one of the following Levels of Determination (LOD) to each district: Meets Requirements, Needs Assistance Year 1, Needs Assistance Year 2+, Needs Intervention Year 1, Needs Intervention Year 2, Needs Intervention Year 3+ and Needs Substantial Intervention. A district's Level of Determination is arrived at by examining two factors: 1) the number of current year Compliance Indicators where Substantial Compliance was met (SC), and, 2) the Level of Determination from the previous year (Prev LOD). Within each Level of Determination are criteria for the SC and Prev LOD factors. The Levels of Determination, Factors and Criteria specific to each LOD are listed below. The number of current year Compliance Indicators where Substantial Compliance was met (SC) is the factor that will be used to determining the LOD when a district does not have a Level of Determination from the previous year (Prev LOD).

## Meets Requirements Factors & Criteria:

SC: Substantial Compliance met for Fiscal Management and Indicators 4B, 9, 10, 11, 12, 13, 15 and 20 in the current year.
