Kansas State Department of Education

Title I Schools and Districts

Identified for Improvement for 2011-2012

The Elementary and Secondary Education Act (ESEA) requires Title I schools and districts that do not make adequate yearly progress (AYP) for two consecutive years be identified for improvement. The identification must occur prior to the beginning of the school year so that parents may make informed decisions regarding their children's schools. Each school and district had opportunities to review their state assessment results, attendance and graduation data, make corrections, and file appeals if they disagreed with the AYP decision. After a school or district is identified for improvement, it must make AYP for two consecutive years to be off improvement.

Title I Districts Identified for Improvement for 2011-2012 Summary

- 34 Title I districts are identified for improvement for 2011-2012; in 2010-2011there were 24 districts identified for improvement
- Three districts went off improvement: USD 257 Iola, USD 398 Peabody-Burns and USD 503 Parsons
- USD 424 Mullinville disorganized; therefore, it is not on the improvement list
- 20 districts have no Title I schools on improvement
- 3 districts that are not on improvement have Title I schools on improvement
- 6 districts on improvement in 2010-2011 made AYP in the area identified for improvement; USD 480 made it in reading but not in mathematics
- 14 districts are in 1st year of improvement
- 12 districts are in corrective action status (3 or more years on improvement)
- 12 districts are on improvement for only reading; 7 are on improvement for only mathematics
- 15 districts are on improvement for both reading and mathematics
- 2010-2011 AYP district reading targets were 86.0%
- 2010-2011 AYP district mathematics targets were 82.3%
