Representation

One of the most significant contributions each Council member makes is that of **representing their stakeholder group.**

Advocacy

There is a place for advocacy at Council meetings. During discussions you might take sides, favor a position or support a position. However, in the final analysis, hopefully the Council can come to consensus and provide meaningful advice that leads to change for children and youth with disabilities.

Special Interest Advocacy

There are special groups in the State that are advocacy in nature

1. Protection and Advocacy
2. Disability Organizations
3. Professional Organizations

Advisory

- To give advice
- To inform
- To counsel
- To recommend
- To suggest

Advisory Council Procedures

Adhere to State Open Meeting laws. All advisory Council meetings and agenda items must be announced far enough in advance of the meeting to afford interested parties a reasonable opportunity to attend. Meetings must be open to the public.

If possible, provide meals or refreshments at Panel meetings.

Guests

It is important to have a separate seating section for guests and non-council individuals.

Technical Assistance System Network (TASN)

A flexible technical assistance system funded and directed by KSDE which provides supports to schools for the purpose of improving outcomes for all students, including students with disabilities by providing support to educators and families.

Recommendations for Advisory Panels

- Close working relationship with the State Director
- Membership orientation
- Understand council functions
- Advisory, not advocacy in nature
- Discuss current issues and trends
