Creating a Positive School Climate

Through effective prevention planning school districts and communities will be better prepared to create a positive school climate addressing environment, engagement, and safety.

As a result of this training, districts will be prepared to create an action plan to address school climate for potential Safe and Supportive Schools applications and other funding sources.

School Climate: Linking Behavior to Achievement

Free Regional Workshops

Sponsored by the Kansas Building Statewide Capacity Grant through the Office of Safe and Drug Free Schools, United States Department of Education.

Who Should Attend?

Teams of school district administrators, school counselors, superintendents, and community coalition members.

Why Should Teams Attend?

Workshop participants will learn about the correlation of risky behavior to student achievement. Additionally, participants will learn how to:

- Understand the role of prevention in student achievement
- Write SMART goals and objectives to address risk factors
- Choose evidence based practices to achieve outcomes
- Identify potential funding opportunities
