The District's Accomplishments and Challenges

Accomplishments: Prairie Heights, USD #295, has been successful in attaining a high degree of academic success in the classroom. Students have received an above average academic background from our fine staff of teachers. Individual students have received the State's Academic Standard of Excellence Awards in several areas of the core academics. The district has been instrumental in providing the computer technology for students to be knowledgeable in this area. Grants have been written dealing with students' need for more reading and writing skills. The district emphasizes the need for reading and written language skills, and has been instrumental in providing support and training, along with the financial support, to achieve success in these areas.

Challenges: The district has the challenge of declining enrollment, which in turn will create a decline of the money available in which to operate. Our district is not alone in dealing with this problem, yet we are confident that we will be able to provide a commendable education for our students.

The challenge of recruiting teachers to Western Kansas will continue to be a problem that will have to be addressed, along with the challenge of recruiting highly qualified teachers in every area of education.

Challenges exist, and will continue to exist, but the district feels confident that they will be able to provide a good education to each student attending the Prairie Heights school district.
