Registration Process for Summer KCCRS Workshops

Wichita State University

Wichita State University in conjunction with Wichita Public Schools will offer three summer workshops to prepare Pre-K – high school math teachers for the Kansas College and Career Ready Standards for Math. This workshop will be one hour of graduate credit and will be June 3 - 7 from 8:30 – 11:30 at Corbin Education Center. These workshops will be offered in three levels:

- **Grades Pre-K – 2**: counting and cardinality, "subitizing", place value, addition and subtraction computation
- **Grades 3 – 5**: whole number computation with understanding; fraction number sense and computation
- **Grades 6- Alg**: ratios and proportional relationships; linear and non-linear functions

To register for these workshops please follow these steps:

1. If you have previously enrolled in graduate level coursework at WSU, or if you are not sure of your status, please call the Graduate School at 316-978-3095 to verify that you have a valid graduate level enrollment status. If you do, it is possible you will need to reactivate your status with the Registrar's Office, so that you can be cleared to enroll. Reactivation instructions follow.
    a. Go to www.wichita.edu/reactivation to fill out the online reactivation form.
    b. Once your previous grad status has been reactivated, the Registrar's Office will contact you to let you know that you are eligible to enroll.
2. If you have no previous Graduate Status at WSU, you will need to apply for admission. Use the following link: www.wichita.edu/gadmf
    a. On the above page, you can choose either the "Apply Online" option, or you can select the pdf version of the application if you wish to print and submit a paper application. There is a one-time $50 fee to apply to WSU Graduate School.
    b. You may apply as a degree bound student (if you wish to seek a graduate degree) or apply as a non-degree applicant
    c. If you apply as a non-degree applicant use "Category B" (for teachers). If you wish to expedite you application process include your Social Security number on your application. That way the Graduate School can go directly to the KSDE website to verify your Teacher License.
3. Once you have completed the application to Graduate School and your Teaching License has been verified you will be sent your letter of admission and your WSU ID number.
4. With your WSU ID you may set up your student account to allow you to enroll on-line and pay fees.
5. These are the course numbers for the workshops:

Course Name	Course Number	Room Number at Corbin	CRN
CCRs-M 1 (Pre-K – 2)	CI 750AA	156C	33616
CCRs-M 2 (Grades 3-5)	CI 750AB	251	33617
CCRs-M 3 (Grades 6 – Alg)	CI 750 AC	159	33618

6. **Full tuition support will be provided by a grant, with reimbursement upon completion of the workshop, for the first 20 people enrolled in each course**. Enrollment in each section is limited to the first 20 students. You will also be provided with a textbook for the appropriate level class. The textbook will be from the National Council of Teacher of Mathematics (NCTM) "A Series for Teaching Mathematics: Developing Essential Understanding of …" (the exact title of the book you will receive will depend on the level of the workshop).
