1 To 1 Tutor Subjects: Math Pupil-Tutor Ratio: Never exceeds 1:1, Typical Average: N/A Minimum Student(s) per Site: N/A Minimum Student(s) per District: 1 Grades Served: K-12th Costs (per pupil): $59.00	Tutor Owl is a high quality, research based online program proven to increase students' math skills. We tutor students in K through 12th grade in Math. During tutoring, students interact with tutors on a 1:1 ratio via computer communications in "real time" - they can hear each other and see what each one is doing on the computer screen. Students communicate with tutors through a headphone and microphone and on the cyber whiteboard software. The whiteboard allows students to draw free-hand as needed to better express themselves and to demonstrate their abilities. Our online learning materials are research-based and are aligned to your state's standardized test. Exposure to standardized testing-like material allows students to prepare for the real standardized test and grow comfortable with state exams. Tutoring takes place in students' homes on a computer that has internet access. Our lessons and tests are available in both English and Spanish. For students who do not have a computer and/or internet service at home, Tutor Owl will attempt to make arrangements with the student's school or a local community site, such as a library, to get the student access to a computer. Tutoring is offered Monday-Sunday from 9am-9 pm.	**1 To 1 Tutor** Contact Information for Organization: 2300 Valley View Lane. Ace it! Tutoring by Sylvan Subjects: Reading, Math, Algebra Pupil-Tutor Ratio: Never exceeds 8:1, Typical Average is 6:1, Minimum Student(s) per Site: 24 Minimum Student(s) per District: No minimum Levels Served: K-8 Costs: $45-$55 per hour* *The actual cost will vary depending upon district-specific variables such as transportation fees, facility fees, site density & timeframe.	Ace it! Tutoring by Sylvan brings the excellent reputation of Sylvan Learning Center into the classroom. Sylvan designed Ace it! Tutoring specifically for under-achieving, at-risk students. Our research-based Reading, Math, and Algebra programs are designed for students from Kindergarten to 8th grade. Instruction is in small groups, never more than 8:1, and includes direct instruction for each student on his/her particular skill needs. Sylvan's motivation program helps build students' self esteem while they are building their skills. Students begin with a diagnostic assessment, and then a program is developed with input from the parent and school representative. Sylvan's research-based programs target students' individual skill gaps to help them become better reading or math students. Certified teachers provide direct instruction on curriculum that is aligned with Kansas Standards. Ace it! staff offer monthly conferences with parents where student Progress Reports are reviewed. Ace it! staff also send e-mails and communicate with parents by phone frequently. As part of the partnership with schools and districts, Ace it! staff routinely contacts each student's regular classroom teacher and other members of the school staff regarding students' instructional programs to help assure that newly acquired skills are transferring to the classroom.	**Ace it! Achievia Tutoring Midwest Subjects: Reading or Mathematics Pupil-Tutor Ratio: Never exceeds 5:1 Typical Average is 3.5:1 Minimum Student(s) per Site: 15 Minimum Student(s) per District: 15 or to be determined with each school/district Levels Served: K-12 Costs (per pupil): $45.00-65.00 per hour	The basic academic tutoring program of Achievia Tutoring is diagnostic, prescriptive, individualized and motivational in reading and math instruction. The program is designed to accommodate each student's individual need in reading and math. The program is offered in a learning environment that controls the student teacher ratio to no greater than 5:1. Each student must undergo a series of diagnostic tests for reading or math to identify specific skills that need attention and/or reinforcement for either remediation or enrichment. Having identified the skills requiring attention, an individualized student learning plan (SLP) is prepared, specific to that student's needs. A typical SLP consists of 5 to 7 assignments during each hour of instruction, focusing on the skill areas requiring attention identified by the diagnostic test. The SLP is constantly updated as the student achieves mastery in the skill area receiving attention. Our data show that Kansas students progressed (on average) 1.71 grade levels in Math and 1.07 grade levels in Reading in school year 2010-2011. A typical program is targeted for fourteen (14) weeks with thirty (30) to thirty-six (36) classroom hours. Directors of Learning, who are responsible for Achievia Tutoring programs and who are involved with Title I (NCLB) programs, are state certified educators and have Master's degrees in Education. All teachers/tutors meet or exceed NCLB requirements and must undergo training in the Achievia Tutoring system. Tutoring will be offered on the student's school premises. All material or equipment required by the program is furnished by Achievia Tutoring. Parents or guardians are encouraged to review the initial diagnostic test results and will be sent a written progress report after fifteen hours of instruction or as required by district guidelines. Parents are also encouraged to review post-test results and progress at the end of the program and will receive a written report indicating the student's progress. Spanish speaking parents/guardians will receive information in their native language, if required. Progress on the student learning plan is updated daily, and parents and/or the school may review these plans upon request at any time.	**Achievia Tutoring Midwest** Jason Ewertt Vice President, Operations 902 N. Applied Scholastics International Subjects: Reading Pupil-Tutor Ratio: Never exceeds 4:1, Typical Average is 1-3:1, Minimum Student(s) per Site:3 Minimum Student(s)per District:10 Grades Served: K-8 Costs (per pupil): $45 per hour per student for small group $55 per hour for one-on-one	For nearly 40 years Applied Scholastics has been helping struggling students overcome learning barriers and improve their school achievement. Tutors use a powerful teaching method that handles the three main reasons students do not learn. The curriculum we use is our own proprietary phonics based reading program which includes readers and workbooks. It is divided into levels and a student is placed according to the pre-assessment done and allows the student to be able to address areas of weakness in reading so one can become fluent with comprehension in reading. The design of the program allows the tutor to note daily the progress the student is making and there are reviews of the materials the student has been instructed on to ensure there is 100% mastery of the materials for each level. Should a student have difficulty the program is designed so the tutor may locate the area quickly and review it with the student until there is 100% mastery of the section before moving on. Tutoring occurs twice a week each session being 90 minutes to 2 hours depending on the students' schedule. Parents are given a written monthly progress reports on what the student has done that month, days attended and how the student is progressing towards their overall goal(s) that were set for the student. If needed, a face-to-face meeting may be set up to address any questions the parent may have or the tutor may wish to address with the parent. All staff tutors meet the minimum Federal No Child Left Behind qualifications of being a highly trained paraprofessional. However, many have college degrees or are credentialed teachers. Regardless of those qualifications, all our tutors are given over 30 hours of instruction on our curriculum to start and have continuing curriculum training throughout the year. English language learners greatly benefit from the Applied Scholastics reading program because of the emphasis on vocabulary development which is very important for an English language learner as it assists them to understand and duplicate the subjects they are learning. This enables them to better meet state academic content and performance standards in reading. All instructional materials are provided. Monthly written progress reports are sent to the parent, the teacher and the district. Tutors are available for parent or teacher questions.	**Applied Scholastics International** Mary Cockburn/Federal Programs Manager 11755 Riverview Drive St. Louis, MO 63138 m.cockburn@appliedscholastics.org www.appliedscholastics.org Districts Served: USD 259 Wichita USD 261 Haysville USD 500 Kansas City, Kansas USD 501 Topeka

ATS Project Success Subjects: Reading or Math Pupil-Tutor Ratio: Never exceeds 1:1 Typical Average is 1:1 Minimum Student(s) per Site: 1 Minimum Student(s) per District: 1 Levels Served: K-12 Costs: $60.00 per hour per student	ATS Project Success offers eligible students in grades K-12 support in English language arts (including reading) and mathematics. In addition, we can serve students with disabilities, special educations students, and English Language learners. Since July 2003, we have provided SES to over 20,000 students in over 400 school districts in 30 states. We offer services online in the comfort and safety of the student's home with a loaned, pre-programmed laptop computer and dial-up Internet service at no cost to parents. The family home must have an analog telephone line or be in a T-Mobile cellular area in order for the student to participate in the program. The laptop computer is designed for each student individually. The laptop blocks all Internet usage, except for access to the SuccessMaker program for grades K-8 or the Odyssey program for grades 9-12. Although the programs can be altered to fit the needs of special education students, the computers themselves cannot be physically modified. We assess students to determine the student's instructional level and learning objectives. Next, we set and adjust the curriculum to provide activities at the appropriate level. We encourage students to complete two one-hour sessions per week. Our staff monitors the student's progress online and follows-up with emails and/or telephone calls to the student and telephone calls to their parents once each week. All tutorial staff are high school graduates and either have an Associates degree, 60 college or university credits, or have successfully completed an assessment measuring knowledge or reading, writing, and math. Most tutorial staff are degreed and certified.	**ATS Project Success** Renee Weaver-Wright 20674 Hall Road Clinton Township, MI 48038 800-297-2119; fax: 586-465-9481, info@atsprojectsuccessworks.com www.atsprojectsuccessworks.com District(s) Served: ALL

Bluestem Learning, LLC Subjects: Reading and Mathematics Pupil-Tutor Ratio: Never exceeds 4 students to 1 teacher Students in each tutoring group are in the same grade. Typical Average is 4:1 Minimum Student(s) per Site: 16 Minimum Student(s) per District: Not a requirement Levels Served: K-8 Costs: $55.00 per session per student	Bluestem Learning, LLC provides direct instruction by licensed teachers on the skills and concepts identified in the Kansas Standards, Benchmarks and Indicators. The Bluestem Tutoring Program is data-driven and indicator aligned. It is data-driven, because the student's Kansas Assessment data directs the depth and amount of time spent on each indicator. It is indicator-aligned, because the Bluestem Tutoring Curriculum was custom-designed to teach the assessed indicators at each grade level. Small group instruction is provided in reading or in math at the student's own school. Bluestem was founded by teachers who have decades of success teaching diverse populations. They have taught students of all academic, ethnic and socio-economic backgrounds. Our teachers have taught in Kansas schools, so they understand the requirements of the Kansas Standards and the Kansas Assessments. The program offers instruction matched to student's needs and abilities. Instruction begins with the data from the most recent Kansas Assessment and builds towards meeting the assessed state standards of the student's current grade level. The student's learning plan connects with the state standards. MAP tests are tracked. Bluestem students have shown improvement on the Kansas Assessment for the past five years. On the 2011 Kansas Assessments in reading and math 83.33% of the tutored students scored at meets standard or above. Bluestem teachers communicate with families and school personnel through written and verbal conferencing. Proof of progress towards the learning plan is reported to parents/guardians and to school personnel. The Bluestem staff actively works with students, the school staff and parents to help each student achieve the goals stated in the learning plan and to meet the state standards for the student's grade level. It is in its seventh year as a provider of state approved after school tutoring. Sessions in math and/or reading are offered 2-3 days a week for up to two hours. Small group sessions are taught by certified teachers using research based curriculum developed by Scholastic. Engaging environments and interactive activities help students master the skills they need to be successful. Parents are a partner in developing an Individual Achievement Plan for their child and will receive progress reports on how their child is doing. Snacks and transportation will be provided. Tutoring will run from October to April. CISKCK will work closely with your child's school to choose the best days and times for tutoring. Sessions will begin with a snack when school ends followed by tutoring. One tutor will work with 5-7 students. Throughout the year periodic assessments will be completed to see what progress the student has made. Activities from the math curriculum, DO THE MATH, will be flexible for students at different levels and provide hands on practice. Reading activities and materials from AFTER THE BELL curriculum will support phonics and fluency, comprehension and vocabulary and writing. Both programs employ a variety of activities that reinforce what has been taught during the regular school day. Materials are in English; however, both programs have guides and adaptations for the teacher to help support English Language Learners.	**Communities In Schools of KCK/Wyandotte County (CISKC** **STEVE GOCELJAK** **650 MINNESOTA AVENUE** **2ND FLOOR** **Kansas City, Kansas 66101** **913-562-0408** **913-912-1779 (fax)** **stgocel@kckps.org** **www.ciskck.org** **VERONA HUGHES** **650 Minnesota Avenue** **2nd Floor** **Kansas City, Kansas 66101** **913-562-0403** **913-912-1779 (fax)** **vhughes@ciskck.org** **www.ciskck.org** **District(s) Served:** **USD 500 Kansas City, Kansas**

Educate Online Learning, LLC Subjects: Academic Reading Math Essentials Pupil-Tutor Ratio: 1-3:1 Never exceeds 3:1 Typical Average is 2:1 Minimum Student(s) per Site: 8 Minimum Student(s) per District: 20 Levels Served: 3-12 Costs: $70-$85 per hour	Educate Online Learning, LLC is America's leading provider of live, personalized, at-home tutoring in reading or math. Educate Online has successfully served more than 56,000 SES students since 2002. All tutoring takes place online, and Educate Online will provide computers and arrange internet access, if needed, at no charge. Students log on to a virtual classroom from home, while their instructor logs on from another location. Students and teachers can speak directly to one anther and are able to view the same desktop, so they can work together effectively. All sessions are taught by U.S. state-certified teachers with at least two years of successful classroom teaching experience. Students who complete the program typically gain up to a year's growth in academic skills. Educate Online has a trained bilingual (English and Spanish) call-center staff, to handle technical problems, parent questions, and any issue that may come up during the program. Our toll free parent helpline is open during business hours, and nights and weekends, any time tutoring sessions are offered. Students take two to four 60-minute sessions each week. Sessions are offered seven days a week, after school and on weekends. Families are able to choose the days and times that work best for them. Sessions take place in the safety and convenience of each student's home – eliminating the need for transportation.	**Educate Online Learning, LLC** Angela Belt, 1001 Fleet Street, Baltimore, MD 21202 Phone: 410-843-2672 State@educate-online.com Parent helpline: 1-866-619-3382 DAC@educate-online.com http://www.educateonline.com/kansas.html District(s) Served: USD 259 Wichita USD 500 Kansas City, Kansas USD 501 Topeka

Huddle Learning Inc. Subjects: READING & MATH Pupil-Tutor Ratio: Never exceeds 7:1 Typical Average is 5:1 Minimum Student(s) per Site: 12 Minimum Student(s) per District: 18 Grades Served: K-12 Costs No Cost To Parents! Huddle bills the district $40/hour for small group tutoring and $50/hour for 1:1 tutoring sessions.	The Huddle Literacy & Numeracy Program utilizes the best of research based practices for at-risk students. Huddle focuses on a combination of computer aided instruction, direct instruction and homework help. The educational software was designed to bring assessment without testing and provide the latest means of evaluating the learner's needs, monitoring progress and delivering focused instruction in a sequential pattern. All the programs are aligned to the newest national common core standards and the district and local standards. The Lexia Reading Program provides a monthly predictor of the student's progress and a % risk of reaching year end grade level benchmarks. Reading Plus is aligned to the National Reading Standards and helps with all sub skills of comprehension. The Symphony Math Program is aligned to the latest recommendations of the National Teachers of Mathematics and Common Core Standards. Once the student completes the initial assessment, the tutor conducts a planning session with the student; parent/guardian and designated School representative to c complete the "Individualized Learning Plan" that details the learning objectives with timelines for achieving prescribed learning goals. Monthly progress reports are given to the students, teachers and parent/guardian. Parents are viewed as active partners in the child's learning program. Some activities can be completed from home with a computer & Internet access thereby extending the student's learning opportunities. In most instances the tutoring is provided at the school, while the opportunity exists to provide services at community centers at other educational partners, and/or online. Pre and Post test results from prior years are available indicating students who attend tutoring with Huddle gained 1-2.4 years of academic progress after 28-40 hours of tutoring. Results matter and our teachers are compensated on achievement and attendance results.	**HUDDLE LEARNING INC.** **501©3 Non-Profit** Dr. Donald H. Imagine Learning Subjects: Language and Literacy Pupil-Tutor Ratio: Never exceeds 8:1, Typical Average is 8:1, Minimum Student(s) per Site: 8 Minimum Student(s) per District:8 Grades Served: K-6 Costs (per pupil): $59 per hour	Imagine Learning Academy helps English learners, struggling readers, and students with disabilities in kindergarten through grade eight strengthen reading and language skills. The program combines two types of instruction for twice the educational impact: individualized instruction through an engaging software program called Imagine Learning English and one on-one and group tutoring by licensed teachers. There is never more than eight students per tutor, so students statewide will have the opportunity to receive the extra help and attention they need to truly succeed. Students attend Imagine Learning Academy for one hour two to three times a week, depending on district need. Because Imagine Learning Academy is held at the students' own schools, it's not only effective, but convenient as well. Parents, teachers, and administrators will be informed of the students' progress throughout the course of Imagine Learning Academy. Teachers and administrators will receive detailed TrueData™ progress reports at least once a month, or more often by request. Parents will receive letters after every 10 lessons the student completes in the Imagine Learning English software. The letters detail what students have learned and what they still need to practice. Letters can be printed in one of thirteen languages: English, Spanish, Portuguese, French, Haitian Creole, Tagalog, Japanese, Mandarin, Vietnamese, Korean, Arabic, Russian, or Marshallese.	**Imagine Learning** Justin Hewett 191 River Park Drive Provo, UT 84604 Telephone: 816-226-6874 Fax: 801-377-5072 Email:justin.hewett@imaginelearning.com Website: www.imaginelearning.com District(s) Served: ALL

Jefferson Learning Subjects: Reading Math Science English as a Second Language Pupil-Tutor Ratio: Never exceeds 7:1 Typical Average is 5:1 Minimum Student(s) per Site: 5 Minimum Student(s) per District: 10 Levels Served: K - 12 Costs: $50/hour per student	**Jefferson Learning** uses a research-proven learning system and the combined experience of state certified instructors. Students move from diagnosis through engaging instruction and assessment. The program facilitates comprehension that allows students to master skills that aid in reading, science, ESL and math. Student instruction is presented in a small group format of no more than 7 students per teacher. Transportation is provided at no cost after each session (where available). Students are diagnosed at the beginning of the program and placed on a learning plan agreed upon between parents or guardians and Jefferson Learning staff in order to measure success as each improves reading, science, ESL or math strategies. Bi-Monthly, Bi-Lingual reports to parents or guardians are given regarding student progress and student's teachers and administrators are regularly informed of student achievements. Jefferson Learning proudly improves student scores in Math, Science, and Reading by 1½ grade level. We have excellent curriculum and use certified teachers at the student's school to tutor and facilitate the program. Let us facilitate your child's success!!!	**Jefferson Learning, LLC** Casey Moore 10101 Thompkins Lane Oklahoma City, OK 73162 866-483-8887 405-208-3912 –state/district Fax: 405-234-4085 camoore@jeffersonlearning.com www.jeffersonlearning.com District(s) Served: ALL

Keep Hope Alive Projects Subjects: Reading, Language Arts, Math, Science Pupil-Tutor Ratio: 1:1 and small group Never exceeds 5:1, Typical Average is 1:3:5, 1 tutor for 5 students maximum) Minimum Student(s) per Site:1 Minimum Student(s) per District:1 Grades Served: K-12 Costs (per pupil): $60.00 per hour	Keep Hope Alive have been providing free, high quality academic instruction designed to help students achieve high test scores on standardized tests for many years. We provide services in reading, language arts, math and science to students in grades K-12. Services are provided 2 hours per session, 2 times per week in 1:1 and small group instructional setting. We begin our program with a pretest designed to diagnose area of student needs. We collaborate with parents to design student learning plans for correcting area of needs. We monitor student progress with interim tests and a posttest is given at the end to evaluate how well students mastered the goals set for them. We provide parents, schools and districts with monthly progress reports in addition to interim and final progress reports given and work with parents to set up schedules and location of services that are convenient for them. Our teachers are experienced and have the skills to work with students with disabilities and Limited English Proficient students. We provide all instructional materials at no cost to parents or students.	**Keep Hope Alive Projects** Roseline Amuchie 18808 Stefani Ave. Cerritos, CA. 90703 (562) 326-4411 (562) 375-5585 keephopealiveinc@aol.com www.keephopealiveinc.com District(s) Served: All

USD 500 KIDZONE BEFORE AND AFTER SCHOOL PROGRAM Subjects: Math and Reading, Writing and ESL Pupil-Tutor Ratio: Never exceeds 1:6, Typical Average is 1:5, Minimum Student(s) per Site: 12 Minimum Student(s) per District: 140 Levels Served: K-8 Costs: $60.00	**I. Program Overview and Description** The Kansas City, Kansas Public Schools' Before and After School Program, (Kidzone), is in its fourteenth year of operation. Kidzone is designed from a three-prong model of service for all students: academic support, including tutoring. Services are provided Monday, Tuesday, or Thursday, after school from 3:30 or 4:00 pm until 6:00 pm. Kidzone provides an environment that is different than the traditional school day. Students are given extra time before and after school to build academic skills learned in the classroom. As a Supplemental Educational Services (SES) provider, KidZone will provide an academic enrichment / tutoring component which will be implemented by district certified teachers, retired, and substitute teachers with assistance from paraprofessionals. The tutoring program will serve all (SES) eligible Kansas City, Kansas students in grades K-8, including low-income, special education, and English Language Learners. Math, reading, and writing will be incorporated through FASTT Math, Do The Math, and After The Bell, which offer research-based, hands-on curriculum and assessments. Teacher led small group sessions, with a 1:7 ratio, will operate sixty to ninety minutes, two to three days per week. Parents will receive ongoing progress reports regarding academic achievement.	**USD 500 KIDZONE BEFORE AND AFTER SCHOOL PROGRAM** Contact Information for Organization: Daryel Garrison, 4601 State Avenue, Suite 38, Kansas City, KS 66102, 913-627-4391 (office), 913-449-7492 (cell), 913-627-4390 (secretary), 913-669-0235 (assistant), FAX 913-627-4393, dagarri@kckps.org District(s) Served: USD 500
