FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

REPORT 12: EXPENDITURES AS OF DECEMBER 2023

Dr. Randy Watson
Kansas Commissioner of
Education

December 2023 marked the mid-point of the fifth school year since the onset of the pandemic. What began as a global public health emergency in March 2020, continued to impact schools across Kansas and the country. Kansas educators, school administrators, support staff members, parents and students all faced unprecedented challenges. Just last year, the 2022-2023 school year, turned out to be closest to “typical” since the onset of the pandemic, **the new baseline**. Yet, the priority remained, as it has from the beginning - to keep Kansas students engaged in quality learning under extraordinary circumstances while ensuring the safety and well-being of all.

Throughout this entire period, the Kansas State Department of Education (KSDE) has provided guidance to public and private schools to help them navigate the disruption caused by the COVID-19 pandemic. KSDE support has included resource guides, technical assistance, direct financial support for targeted local needs, as well as assurance and oversight to maximize the benefits of the federal aid.

A series of timely resource guides were launched by the Continuous Learning Task Force¹ which was established in response to the global pandemic. The task force comprised of more than 50 volunteer educators and administrators, developed the first guide in only 72 hours to support learning through May 2020.

The promise of multiyear federal relief funds bolstered our resilient teachers and leaders across the state with the recognition that the many impacts of the pandemic would take time, tools and increased capacity to address. KSDE reallocated the majority of the state funds locally to ensure every district received a minimum level of financial relief and to strengthen support for students with disabilities. Thanks to reporting by our public and private schools, KSDE and the Kansas Office of Recovery present the twelfth report on the utilization of federal COVID-19 crisis response, relief and recovery funds.

Federal relief funding will continue to be critical to our schools through this last school year of financial support. Relief funds have been critical to facilitate learning recovery, following global pandemic disruptions, while staying focused on the Kansas State Board of Education’s ambitious vision of leading the world in the success of each student. We will report quarterly on the cumulative use of funding as Kansas continues to support student learning and growth. Despite the difficulties of the pandemic, I believe now more than ever that when we come together, Kansans Can.

Sincerely,

A handwritten signature in black ink, appearing to read "Randy Watson", written in a cursive style.

Dr. Randy Watson
Kansas Commissioner of Education

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS REPORT 12: EXPENDITURES AS OF DECEMBER 2023

Executive Summary Spend At A Glance

Context of Reporting Period

March 2020-December 2023

QUARTERLY REPORTS

This report is the twelfth in a series of quarterly updates on the cumulative use of federal COVID-19 relief funds by public and private K-12 education systems approved by the Kansas State Board of Education. These reports feature the most informative data available on expenditures by districts and schools, including the final draw down of federal funds once the full oversight process has been completed. A temporary discrepancy can be noted between district expenditures and final draw down, which reflects the time needed to implement federal accounting processes and fiscal oversight. This lag time is most evident in the appendices.

By the spring of 2023, Kansas public and private schools had experienced something close to a typical school year for the first time since the onset of the global pandemic. Educators, students and families had returned to school in the Fall of 2021 with high hopes, only to be sidetracked by two waves of COVID-19 variants that continued to disrupt **Learning Recovery** efforts. Fall of 2022 was approached with a renewed expectation for a greater degree of normalcy associated, in part, with the CDC approval of and access to a COVID-19 vaccine for children aged 6 months and older which became available in June 2022. Over the summers of 2022 and 2023, school districts made use of multiple recovery opportunities for students, staff members and families. Districts offered accelerated learning and credit recovery for students across elementary, middle and high school. KSDE directed their ESSER funds for supplemental professional development LETRS coursework on reading and literacy, in keeping with the science of reading and free to teachers pre-K through third grade. KSDE ESSER funds were also reallocated to offer the free Sunflower Summer enrichment program for Kansas youth and families across the state.

KSDE established and refined a series of assurance processes over the course of the first year of the global pandemic to maximize potential benefits and assist public and private schools with the use of federal relief funds. Federal aid can be drawn down incrementally through September 2024 (see Table 1, p. 13), following the state oversight process. Draw down of federal aid must be preceded by an oversight process that began with locally developed plans, submitted through a common state application and multistep approval process, followed by a state financial audit of the locally incurred expenses (see Table 3, p. 17). Relief funds flow from three consecutive federal acts, authorized in March 2020, December 2020 and March 2021.

The federal relief funds eligible for expenditures during this reporting period included Elementary and Secondary Emergency Education Relief (ESSER) II, ESSER II Special Education (SPED), as well as the remains of ESSER III for public schools and Emergency Assistance to Nonpublic Schools (EANS) I and EANS II for private schools (see Table 1, p. 13). Public school districts were directed to expend all of their ESSER I related funds before tapping into their approved ESSER II award. Similarly, ESSER III funds will not be spent until districts have depleted their ESSER II award, nor will private schools expend EANS II awards before EANS I funds have been depleted.

The 2019 Coronavirus Relief Fund (CRF), provided directly to districts by the counties, was the **first source of federal relief funding and was completely drawn down (100% expended)** by March 2021 prior to this reporting period. Those expenditures are accounted for in Report 1¹, and will not be repeated here.

Public and private schools continued to navigate unprecedented supply chain disruptions, increased staffing demands and staff shortages. Even while the federal government waived fees for school meals through July 2022, food services departments in districts across the state have been challenged. The combination of unfilled food supply orders, staff shortages and increased student demand has stressed districts' capacity for daily delivery of a hot lunch and breakfast. Shortages of classified staff members, including paraprofessionals, custodians, bus drivers and maintenance personnel, have disrupted services and added duties to existing staff. Pre-existing shortages of teachers and other certified staff members in some parts of the state further stressed capacity to deliver programs and services.

Summer school opportunities were offered for credit recovery and to accelerate Learning Recovery. Nearly three-quarters public school districts expended federal funds to offer summer school enrichment and credit recovery over the summers of 2022 and 2023.

KANSAS EDUCATORS STEPPED UP

Fifty educators from across Kansas joined KSDE to develop an instructional **action plan** for the remainder of the 2020 school year within **72 hours** of school buildings being closed in the state and throughout the country. This team grew to **1,000 Kansans** over the summer of 2020 and produced the *Navigating Change Guide* to support learning into the fall of 2020, as the global pandemic raged on.

TOTAL EXPENDITURES THROUGH DECEMBER 2023

Public and private schools continued to leverage federal relief funds through December of 2023. This reporting period marks the beginning of the last school year in which the **Learning Recovery** resources will be available to address the educational disruptions triggered by the onset of the global pandemic.²

Summary of Funding and Expenditures. Multiple incremental funding sources were available during this quarterly reporting period, ending December 31, 2023. Funds continued to be spent in order of availability, as required. The initial CRF, for example, was completely expended by March 2021. All of the ESSER I and ESSER II funds had been depleted as well as all of ESSER I SPED and ESSER II SPED funds as of this reporting period. Over \$980 million of all available ESSER funds have been expended, excluding the initial \$80 million in CRF funds. Over \$22 million of all available EANS funds have been reported as expended by private schools through December 31, 2023.

Per pupil funding varies, in part, by federal relief package. The ESSER I fund allotted, on average, about \$186 per Kansas public school student, including administrative fees. The ESSER II fund award allotted about \$815, on average, per student attending public schools and about \$1,350 per student attending approved private school applicants (see also Table 1, p. 13).

Figure 1: Summary of Public School Funding and Expenditures

Three of the incremental funding sources were available to public schools during this quarterly reporting period. The first two funding sources had already been completely expended. As noted in Figure 1 in the dark blue portion of the pie charts, 100% of ESSER I funds and ESSER I SPED funds were expended, as were 99% of ESSER II funds (all but about \$125,000), and 99.5% of ESSER II SPED funds (all but \$9,000), while 69% of district ESSER III awards have been depleted through the same reporting period. Per pupil expenditures were estimated based on a total student count of 451,579 annually in public schools across Kansas and for which 46% on average were eligible for the free or reduced-priced lunch program (see Appendices, p. 39).

Figure 2 - Summary of Private School Funding and Expenditures

Both incremental funding sources to private schools were available during this quarterly reporting period, with this being the last window to spend EANS I funds. As noted in Figure 2, 74% of EANS I funds were expended and 20% of EANS II funds, as of December 2023. The remaining \$6 million of unclaimed private school EANS I funds were applied to other eligible programs, including the Governor's Emergency Education Relief Fund (GEER)³. The Kansas State Board of Education approved plans for nearly \$39 million total EANS funds for private schools. EANS I per pupil expenditures were estimated based on a total student count of 17,008 annually. On average, 25% of the private school students were eligible for the free or reduced-priced lunch program or received a scholarship, among the approved EANS I recipients (see Appendices, p. 101). Fewer private schools were eligible for EANS II funds, because of changes to the federal requirements that targeted a higher school population of at-risk students. EANS II recipients dropped to 26 private schools, 4,684 students, averaging 47% free and reduced lunch.

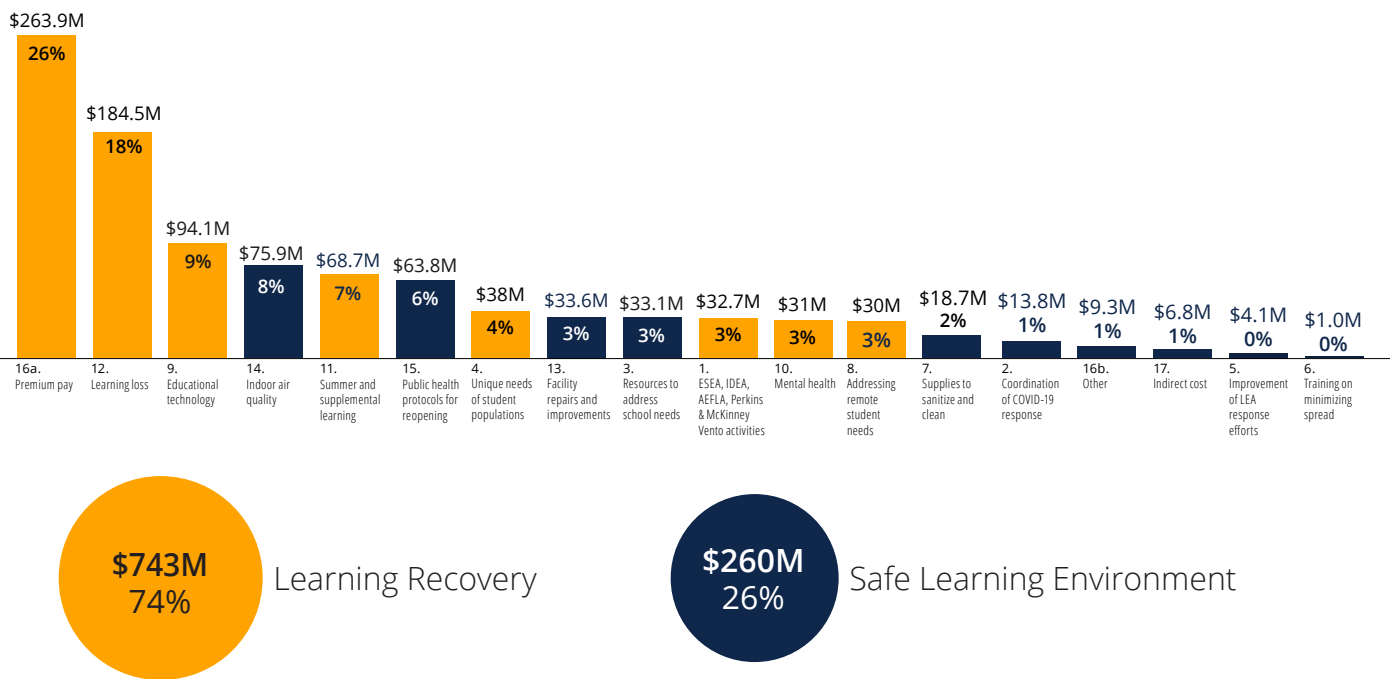

TOP USES OF FEDERAL RELIEF FUNDS

Local expenditures were restricted to the federally defined allowable use categories. The Commissioner’s Task Force⁴ on ESSER and EANS was charged with oversight and guidance on the use of the federal funds. The Task Force identified two broad-use categories to better understand how pre-K-12 education is maximizing the allowable uses. **Learning Recovery** are COVID-19-related expenditures that most directly impact students and support for student learning. **Safe Learning Environment** are expenditures more closely aligned with COVID-19 safety coordination, mitigation protocols and pandemic-related facility modifications and pandemic-related sanitation demands. One allowable use, continuity of operations, reflects both broad types of expenditures and includes one-time premium payments for teachers and support staff members.

Initial demands on federal resources to establish and maintain a **Safe Learning Environment** for in-person learning mode were informed by time, research and public health experts. Following comprehensive access to vaccines and restored capacity to deploy standard communicable disease protocols, more resources could be allocated to **Learning Recovery** in the latter school years. This was relevant particularly in districts with high population density.

Figure 3 - Public and Private: Allowable Use Expenditures Across All Available Funds

Of all available federal relief funds, ESSERs and EANS, combined, \$743 million, or about 74% of funds, have been used to address **Learning Recovery**, and \$260 million, or 26%, were expended to ensure a **Safe Learning Environment**. The top four allowable use categories as of December 31, 2023, included staff premium pay (26%), learning loss (18%), education technology (9%) and indoor air quality (8%).

Note: Categorization based on self-reported function/object codes and allowable uses from public and private schools; data include ESSER I, ESSER I SPED, ESSER II, ESSER II SPED, ESSER III, EANS I and EANS II expenditures.

KSDE has provided technical assistance to help support staff members of Greenbush Service Center and participating private schools meet reporting requirements.

District Stories

“ ESSER III funds have been spent on elementary, middle, high school teachers to address learning loss with vulnerable students who have fallen behind; school counselor, school social workers for additional support for chronic absenteeism intervention teams; literacy director, literacy coach for additional support for literacy instruction; technology implementation coordinator targeted to review and analyze student support progress of recouped learning loss with tiered systems of support; educational technology; curriculum for summer camp, additional learning materials for students, student transportation; staff to attend professional development in the area of professional learning communities, literacy; premium pay retention incentive pay for employees. ”

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS REPORT 12: EXPENDITURES AS OF DECEMBER 2023

COVID-19 Context for Current Reporting Period

March 2020-December 2023

QUARTERLY REPORTING OF CUMULATIVE EXPENDITURES

This report is the twelfth in a series of quarterly reports documenting the cumulative use of federal COVID-19 relief funds by Kansas public and private schools (Report 12). The series is intended to summarize the ways in which Kansas public and private schools have used federal COVID-19 funding to address pandemic-driven needs. Federal funds available to districts during this reporting period included ESSER II, ESSER II SPED and ESSER III for public education and EANS I and EANS II for private schools. **Report 1**¹ summarizes district expenditures used to keep students and staff members safe while engaging youth in learning during the first four quarters of the global pandemic. **Report 2**² summarizes cumulative expenditures through June 2021. **Report 3**³ summarizes cumulative expenditures through September 2021, **Report 4**⁴ through December 2021, **Report 5**⁵ through March 2022, **Report 6**⁶ through June 2022, **Report 7**⁷ through September 2022, **Report 8**⁸ through December 2022, **Report 9**⁹ through March 2023, **Report 10**¹⁰ through June 2023, and **Report 11**¹¹ through September 2023. Upcoming **Report 13** will focus on cumulative expenditures through March 2024.

THE GLOBAL PANDEMIC DURING THE REPORTING PERIOD

Current fourth graders experienced COVID learning disruptions during critical formative years - grades K, 1 and 2.

In the fall of 2023, Kansas public and private schools were starting their fifth school year of teaching and learning since the onset of the global pandemic in March 2020. A variety of protocols previously used to manage the spread of COVID-19 were on hand if needed by districts. However, expenditures for comprehensive mitigation practices were largely scaled back and illness protocols were folded into long-standing board policies on communicable disease. ESSER expenditures related to maintaining a **Safe Learning Environment** commonly continued in use of higher quality air filtration practices. The extra nurses or other public health personnel who had supported mitigation efforts for 12 to 24 months following the pandemic onset, were not a significant part of the expenditures leading into the 2022-2023 school year, in parallel with the widespread access to vaccines for all age groups. Some disruptions to learning still continued, but in the new form of lingering absenteeism among students and ongoing staffing shortages - both among certified personnel (e.g., teachers, principals, superintendents, social workers, counselors) and classified personnel (e.g., paraprofessionals, bus drivers, food service, custodians, maintenance).

District Stories

“These funds ensured that we are staffed at levels that prevent disruption to the operations of the school system as well as ensure that student learning is not negatively impacted.”

– Halstead USD 440

THE GLOBAL PANDEMIC AT ONSET

At the onset of the global pandemic, Kansas public and private schools were approaching 2020 spring break. In a matter of days, the teaching and learning of over 500,000 Kansas youth were disrupted, along with 55 million students across the U.S. in 124,000 public and private schools. Nearly every state either ordered or recommended that buildings remain closed through the end of the 2020 school year until data could be gathered and in turn begin to inform safe practice¹². Teachers and staff members suddenly had to redesign lesson plans for remote learning and find alternative ways to provide meals, counseling and other support services through May 2020. Students of all ages had to adapt to a new digital classroom where they no longer sat side-by-side with their peers. Parents had to adapt to changes on multiple fronts. This transition was difficult for communities without access to the technology and connectivity necessary for students and teachers to make use of alternate learning modes. It shined a spotlight on pre-existing barriers related to broadband access. More broadly, administrators were tasked with formulating plans to both effectively manage a remote way of operating and plan for a safe return to in-person learning.

THE GLOBAL PANDEMIC AND DISRUPTIONS TO LEARNING

Since the onset of the global pandemic, disruptions of varying degree continued to interfere with educators' persistent efforts to fully engage students in **Learning Recovery**. A three percent drop in public and private school enrollment fall of 2020 indicated that some parents had the opportunity to keep their children home or in alternate learning modes while waiting for access to a vaccine, waiting for school masking policies to align with family preferences, and/or more information on the effectiveness of mitigation protocols. About a quarter of Kansas public school families chose to enroll their children in virtual and remote learning modes offered through their home districts during the 2020-2021 school year, even when the option for in-person learning was available. The following 2021-2022 school year demonstrated that COVID-19 was not wholly behind us as waves of the Delta and Omicron COVID-19 variants hit school communities. This new reality of continued disruptions was both a shared source of frustration across Kansas, as well as a testament of educators' sheer determination to find a way forward for students and families. Summer and fall 2022, were launched with cautious optimism for a more typical school year or at least a noticeable reduction in disruptions as efforts to facilitate **Learning Recovery** intensified. Disruptions to teaching and learning over the course of the global pandemic were associated with a variety of ongoing factors:

- The promise of a **Safe Learning Environment** for students, staff and their families in the first 28 months of the pandemic, during the wait for safe vaccines at all ages, required extraordinary measures. Families chose to enroll their children in virtual and remote learning modes, particularly in high population-density school districts where social distancing was not an easy option. Students returning to full in-person learning modes had to regain the focus and rhythm required to be engaged in school for seven to eight hours a day.
- Ongoing staff shortages added an extra demand on existing teachers, custodians, nurses, food service and maintenance staff, administrators and bus drivers left to cover essential services. No relief from staff shortages were in sight, as competing industries strengthened compensation packages for a smaller pool of eligible employees.
- The additional COVID-19 related job responsibilities of school nurses, needed to help keep students and staff members healthy, stretched the capacity of an already taxing role.
- Supply chain disruptions added an additional layer of complication and stress to the adults responsible for providing a hot lunch and breakfast to students (with demand on the rise following federal lunch fee waivers) or keeping sanitization and PPE supplies on hand, in addition to typical building supplies.
- Days out of school with coronavirus or in quarantine to minimize additional exposures removed students and staff members from the classroom, as did a rise in chronic absenteeism.
- Maintaining a **Safe Learning Environment** in order to keep school doors open required some reduction in extracurricular opportunities and extra time each day to implement risk mitigation protocols through school year 2022.

Steps to minimize disruptions called for extraordinary resource allocation across a variety of fronts:

- To hire additional counselors and teachers needed to accelerate.
- To recruit needed substitute teachers and paraprofessionals.
- To pay custodial overtime and purchase sanitation supplies.
- To hire additional nurses and health-related staff members through school year 2022.
- To secure aid time needed to cover socially distanced lunches through the school year ending 2022.
- To support and retain administrative and teaching staff, under extraordinary pressure to pivot on demand, maintain quality instruction, and be responsive to a stressed population of students, parents and patrons.

All these costs exceeded services being restored under the Gannon school finance resolution. These needs represented significant, incremental upfront costs on top of the regular operating expenses that districts incurred to continue providing services to students in the near-term and to address **Learning Recovery** in the medium- and long-term.

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

REPORT 12: EXPENDITURES AS OF DECEMBER 2023

Federal Funding Sources

Federal relief funding has been essential to Kansas public and private schools in their efforts to minimize disruptions to learning while keeping students and staff members safe through the global pandemic and waves of community spread. A summary of all the COVID-19 federal relief funds for public and private schools is provided here (see Table 1). More details on the different funds can be found in **Report 1**¹ of this series and on the **KSDE website**². During a 12-month period, the federal government passed three consecutive COVID-19 relief packages, all of which included funding set aside for pre-K-12 education. These incremental funding streams provide critical resources needed, above and beyond restoration of state funds, to address the aspirational goals of the Kansans Can Vision. Private school systems were also eligible for the Paycheck Protection Program (PPP)³ to address educational needs immediately following the time of COVID-19 onset. However, after December 2020, private schools had to choose either PPP or EANS I federal aid to address continued learning disruptions caused by the global pandemic.

The first federal COVID-19 funding streams for Kansas pre-K-12 education were established under the CARES Act⁴ on March 27, 2020. The CARES Act included specific funding for public and private schools, known as CRF and ESSER I. These two streams represented the only incremental funding sources for Kansas school districts in 2020. Districts were expected to manage these funds without the assumption of further relief. Uncertainty about the continuation of federal aid and their allowable uses persisted for school leaders nearly a year into the pandemic until the passage of the CRRSA Act⁵ by Congress on Dec. 27, 2020 (H.R. 133). The CRRSA Act included specific funding for EANS I for private schools and ESSER II for public schools. ESSER funds were required to be allocated to public school districts through the Title I formula, where 90% of the award flows directly to Unified School Districts (USD) and 10% may be allocated at the discretion of the state. EANS funds were distributed on a competitive application process per federal guidelines to eligible private schools, based in part on poverty levels, defined as a function of free and reduced-price lunch participation or scholarship recipient.

The last round of funding for districts and private schools was signed into law March 11, 2021, through the ARP Act⁶, which included EANS II and ESSER III. These funds were intended to be used primarily in school years 2022-2023 and 2023-2024. The state approval process for this last program has experienced some delays, in part, because of changes in the federal guidelines. Public and private schools, for example, were required to gather and address additional community input for the local district plans prior to submitting ESSER III applications for approval. Opportunities to ensure more community input took additional time to administer and incorporate into the final applications. The federal eligibility criteria for EANS II funds were also revised with stricter poverty guidelines.

This reporting period includes cumulative expenditures from district ESSER II and ESSER III funds, along with the state's portion of funds released by KSDE to support local special education services, referred to as ESSER II SPED, and EANS I and EANS II expenditures by private schools. School districts and private school systems have one year to obligate the funding after it is received. All CRRSA Act funds had to be drawn down by September 2023 and all ARP Act funds must be drawn down by September 2024. Funding appropriately obligated for grant activities that extend beyond the obligation date is allowable.

ESSER III	Formula	ESSER federal funding allocated according to the federal Title I formula directly to districts after spending plans approved by KSBE, 15 federal allowable uses.	\$ 748M	September 2024	\$ 1,701
ESSER III True Up	Discretionary	KSBE directed supplement to formula aid that ensures all school districts receive no less than \$625 per student.	\$ 20M	September 2024	

Note: Discretionary grants: Funding may be directed by state agency, within limitations established by Congress. **Competitive:** Awarded using priority criteria established by Congress. **Formula grants:** Disbursed using formulas determined by Congress (such as Title I). **The SPARK (Strengthening People and Revitalizing Kansas) Task Force** determined investment priorities for the CRF funding received by the state.

The use of COVID-19 relief aid is restricted to a federally defined list of categories, as noted in the CRRSA Act and carried through the ARP Act (see Table 2). The allowable use categories for public school districts under ESSER and for private school systems under EANS are somewhat similar. Substantial overlap exists in allowable supports, but they are separate programs with different parameters governing the use of funds. One main difference stems from general restrictions on use of federal dollars. Under the ESSER program, public school districts receive direct funding, and all equipment and supplies utilized to support the schools remain the property of the public agency. Nonpublic schools can only receive public funds indirectly, and equipment must be returned at the end of the program. The EANS program provides services, supports and assistance through a competitive application process to eligible nonpublic schools to address educational disruptions associated with COVID-19. The ESSER program distributes all funds through the Title I formula and regulations. All public school districts and private schools were required to submit plans for approval by the State Board of Education.

In Kansas, the Commissioner’s Task Force on ESSER and EANS is charged with providing oversight and guidance on the use of these funds. The Task Force has grouped the long list of categories into two broad types of expenditures to better understand and maximize use of funds.

- **Learning Recovery** are COVID-19-related expenditures that most directly impact students and support for student learning.
- **Safe Learning Environment** are expenditures more closely aligned with COVID-19 safety coordination, mitigation protocols and pandemic-related facility modifications and daily sanitization demands.

The color coding in Table 2 indicates the eight gold allowable uses aligned with **Learning Recovery** and the nine blue allowable uses aligned with **Safe Learning Environment**. One allowable use, Continuity of Operations, is reflected in both groups of expenditures.

District Stories

We are tracking our K-5 students who attended summer school last summer to determine the impact summer instruction has had on long-term learning and retention of skills. Initial results are positive for 85% of students who attended summer school. We will continue to monitor their growth. Our high school students who have been receiving instruction with our math interventionist are seeing tremendous gains on the FastBridge Automaticity Assessment. Ninety-eight percent of students have seen growth anywhere from 24% to 200%+. We held another session of summer school June 2023 and will update and track the data from it to continue to monitor student growth.”

– Halstead-Bentley USD 440

Table 2: Federal Allowable Use Categories

USE TYPE ● Learning Recovery ● Safe Learning Environment

ESSER	EANS	ALLOWABLE USE CATEGORIES
1	—	ESEA, IDEA, AEFLA, Perkins, and McKinney Vento Activities: Any activity authorized by the ESEA of 1965.
2	2	Coordination of COVID-19 Response: Coordination of preparedness and response efforts of local educational agencies with relevant agencies.
3	—	Resources to Address School Needs: Provide school leaders with the resources necessary to address the needs of their individual schools.
4	—	Unique Needs of Student Populations: Activities to address the unique needs of student populations with special needs.
5	—	Improvement of LEA Response Efforts: Developing and implementing procedures and systems to improve the preparedness and response.
6	6	Training on Minimizing Spread: Training and professional development for local staff on sanitation and minimizing the spread of infectious diseases.
7	7	Supplies to Sanitize and Clean: Purchasing supplies to sanitize and clean the facilities of a local educational agency, including purchase of personal protective equipment (PPE) and other materials or supplies for reopening and safe operations.
8	8	Addressing Remote Student Needs: Plan and coordinate for long-term closures, including meals, technology, IDEA, consistency with requirements.
9	9	Educational Technology: Purchasing educational technology, including hardware, software and connectivity for students.
10	10	Mental Health: Providing mental health services and supports.
11	11	Summer and Supplemental Learning: Plan and implement activities related to summer learning and supplemental after-school programs, including reasonable transportation costs.
12	12	Learning Loss: Address the academic impact of lost instructional time among a local educational agency's students, including redeveloping instructional plans or initiating and maintaining education and support services.
13	13	Facility Repairs and Improvements: School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission, including physical barriers to facilitate social distancing, create signage and leasing space.
14	14	Indoor Air Quality: Inspection, testing, maintenance, repair, replacement and upgrade projects to improve the indoor air quality in school facilities, including portable ventilation systems.
15	15	Public Health Protocols for Reopening: Developing strategies and implementing public health protocols in line with CDC guidance, expanding capacity to administer COVID testings, including hiring nurses.
16a	16a	Premium pay for building staff.
16b	16b	Continuity of Operations: Other activities that are necessary to maintain the operation of and continuity of services.

Note: All 16 authorized use categories are allowable under the ESSER program. The EANS programs includes some of the same use categories, but not all are allowable by nonpublic schools.

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

REPORT 12: EXPENDITURES AS OF DECEMBER 2023

KSDE Oversight and Supports

From the beginning of shutdowns and throughout the global pandemic for this reporting period, KSDE has provided oversight, financial support and guidance to pre-K-12 public and private schools.

Table 3: KSDE Supports for Schools

KSDE Assurance Process

A series of checks were put in place and refined over the course of the first year of the global pandemic to assure public school districts and private school systems used federal relief funds as intended. Kansas Commissioner of Education Dr. Randy Watson created the Commissioner's Task Force on ESSER and EANS in February 2021 to offer guidance and oversight of plans developed for expenditure of federal funds. Details on the Task Force can be found on the [KSDE website](#).¹ An application process, developed by KSDE, was implemented to gather the information necessary to help schools comply with state and federal law, approve applications, and report regularly on the use of EANS and ESSER funding.

The Task Force was established to review applications in recorded public meetings and ensure all information entered in the application is made available for public disclosure. During Task Force meetings, applications were reviewed for recommendations to the Kansas State Board of Education for final review and approval. The public school application window has been rolling, in part, to manage the volume of applicants. The private school application window was first opened just weeks after the award notice and closed early April 2021 and again in April 2022. It was competitive, in accordance with federal requirements.

Expenses incurred by public school districts are self-reported by allowable use categories and submitted to KSDE monthly for financial audit prior to release of federal allocations for draw down. Oversight of expenses incurred by and for private school use is managed by Greenbush Service Center. The Service Center then submitted expenses to KSDE for audit and drawn down of EANS funds.

KSDE Finance Support for Schools

Ten percent of each successive ESSER fund was awarded to state departments of education, with 0.5% of the funds set aside for administration.² KSDE directed significant portions of its allocation to support COVID-19 related needs of local special education services. This included state funds to bolster support for USD special education services, \$8 million ESSER I SPED and \$24 million ESSER II SPED to be used over a two-year period, through September 2023. Another portion of the state's ESSER funds was allocated to public school districts that did not qualify for federal relief aid through Title I criteria, referred to as a True Up. Every USD received a minimum of \$300 per pupil regardless of their free lunch participation rate, with the addition of ESSER II True Up of \$11 million total and ESSER III True Up of \$20 million, also to be used over a two-year period through September 2024.

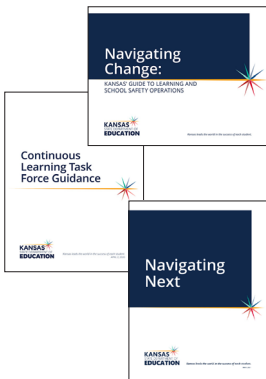

Table 3: KSDE Supports for Schools

KSDE Resources and Supports

Timely instructional support was also provided by KSDE and lead educators including:

- The Continuous Learning Task Force Guidance³
- Navigating Change: Kansas’ Guide to Learning and School Safety Operations⁴
- Navigating Next⁵
- Sunflower Summer Program⁶
- Kansas LEADS⁷
- LETRS (Language Essentials for Teachers of Reading and Spelling)⁸

KSDE state Elementary and Secondary School Emergency Relief (ESSER) funds were allocated to support the development of three resource guides. The **Continuous Learning Task Force Guidance**⁹ was developed in just 72 hours in mid-March of 2020 by 50 educators convened by KSDE. The rapid deployment of this guidance enabled districts to pivot quickly to remote-learning environments.

During the summer of 2020, KSDE worked with nearly 1,000 Kansans to develop **Navigating Change: Kansas’ Guide to Learning and School Safety Operations**⁴. This comprehensive document was designed to help schools continue supporting students across multiple learning environments, with details on core competencies, assessments and implementation across learning topics by grade level.

In the second half of the 2020-2021 school year, KSDE developed **Navigating Next**⁵, an education action plan to guide districts through the completion of the school year and preparation for the 2021-2022 school year.

KSDE reached out to statewide partners and leveraged federal funds to augment local summer learning opportunities. This partnership generated the Sunflower Summer enrichment program for all Kansas youth and their families. The Sunflower Summer Program gives students a chance to learn while visiting attractions across Kansas, including zoos, museums, historic landmarks, libraries and outdoor locations. Families download a free app to begin education adventures.

The 2022 **Sunflower Summer Program**⁶ included 90 different venues or locations across Kansas. The program was open to all students in preschool through grade 12, children with disabilities enrolled in the 18-21 program and up to two adults. This innovative program was designed to help children and families stay engaged in learning throughout the summer months.

Kansans from every county participated, with a total of 193,000 children, parents and caretakers visiting the different sites as of September 2023, since the program was launched on July 1, 2021.

The **Kansas LEADS**⁷ (Linking Educators Across Districts) Conference was launched in 2022 to expand a teacher leadership network across Kansas. A team of Kansas Teachers of the Year (KTOY) designed staff development to assist teachers in learning how to teach differently because of issues related to the pandemic. A LEADS conference was designed, led by educators from across the state, and offered two times per year through 2024. This reporting period included a meeting in April 2023 in Wichita, hosting about 175 educators per conference. The next meetings are scheduled for April 19-20, 2024, in Wichita and November 8-9, 2024 in Hays, More can be found [here](#)⁷ on Kansas LEADS.

Table 3: KSDE Supports for Schools

LETRS™⁸ is a professional learning course from Lexia®¹⁰ for instructors of reading, spelling and related skills. LETRS™ stands for Language Essentials for Teachers of Reading and Spelling. State ESSER funds were allocated to allow Kansas teachers of grades pre-K-3 to take this course, free of charge. This professional learning enhancement opportunity was launched in August 2021 and is completed over a one- to two-year period. Cumulatively, 6,653 teachers have participated. The course addresses fundamentals of reading instruction including phonological awareness, phonics, fluency, vocabulary, comprehension, writing and language, customized for K-12 teachers in LETRS™, as well as LETRS™ for Early Childhood and LETRS™ for Administrators. The course is designed for novice and veteran teachers to strengthen professional knowledge of language structure, development of the reading brain, and how to nurture the development of foundational literacy skills. More can be found here⁸ on LETRS.™

District Stories

We increased expenditures in LETRS™ training, Greenbush, and class size reduction. LETRS™ training allows us to pay teachers for completing professional development as recommended by KSDE. This allows teachers to better support students, many of whom had learning loss via COVID. ”

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS REPORT 12: EXPENDITURES AS OF DECEMBER 2023

Summary of Expenditures

March 2020-December 2023

This summary provides a closer look at expenditures by the **Learning Recovery** allowable uses, by the five ESSER funds, by the two EANS funds, by special education and by demographics of the school communities.

When considering the cadence of relief fund expenditures, it is important to note that **a lag occurs between the initial district spending and the draw down of federal funds** for reimbursement. Districts must have their spending plans approved by KSDE and may only draw down reimbursement for allowable uses after costs are incurred. The cumulative expenditures reported by district in the Appendices only include those expenditures that have been reimbursed by the federal funds. However, the body of this report includes all district expenditures through the reporting period, including those that await reimbursement. Recognizing this lag time allows KSDE to prepare quarterly reports, maximizing the use of the most relevant data available.

Expenditures were self-reported by public and private schools, in accordance with federally defined allowable uses, through a reporting process administered by KSDE with support for private schools from Greenbush Service Center.

The **cumulative expenditures** by Kansas public school districts reached \$980 million of available ESSER funds (excluding the initial \$80 million of CRF Spark¹ funding), and expenditures by private schools reached nearly \$22.5 million of available EANS funds.

Per pupil funding reported as a function of the total federal relief allotment varies by fund and ranges between \$186 to \$2,769 per student. While the total award for students in public schools is larger, the average per pupil allocation for private school students is greater. The actual per pupil expenditure fluctuates as funds are spent and are reported in the Appendices each quarter, by fund and by school district or private school.

Per Pupil Allotment by Fund

PUBLIC SCHOOL FUND	PER PUPIL ALLOCATION	PRIVATE SCHOOL FUND	PER PUPIL ALLOCATION
ESSER I	\$ 186	EANS I	\$ 1,350
ESSER II	\$ 815	EANS II*	\$ 2,769
ESSER III*	\$ 1,701		

Note: Private, nonpublic schools were eligible for PPP federal relief funds during the time period immediately following onset of the global pandemic.

*The ESSER III and EANS II funds are intended to be used over a two-year period.

Figure 4 - Public: Number of Districts that have Drawn Down All their Allocation by Fund —

Rate of fund depletion as of Dec. 31, 2023, reflects the incremental nature of the awards. Of the 286 Kansas public school districts (see Figure 4):

- 100% had drawn down their entire ESSER I allotment.
- 100% had drawn down all SPED I funds.
- 99% had drawn down the entirety of the more recent ESSER II funds.
- 99% had expended all of their ESSER II SPED allotment.
- Only 29 districts had depleted all of their ESSER III award.

Note: ESSER III funds were awarded with the intent of supporting intervention for 24 months and are not likely to be fully drawn down until closer to September 2024.

District Story

This [District Story] contains corrections and clarifications, especially for ESSER II.

“Purchase orders were examined to remove some items ordered but not received for more accurate totals. All ESSER I, ESSER I SPED and ESSER II ESSER II SPED expenses have been reported. ESSER III is also completely planned for. The effects of COVID-19 continue to be felt. The district continues to struggle with filling vacancies. Increasing COVID-19 cases have caused substitute shortages. Students continue to attend after school programs and engage in Tier 2 and 3 interventions to combat learning loss.”

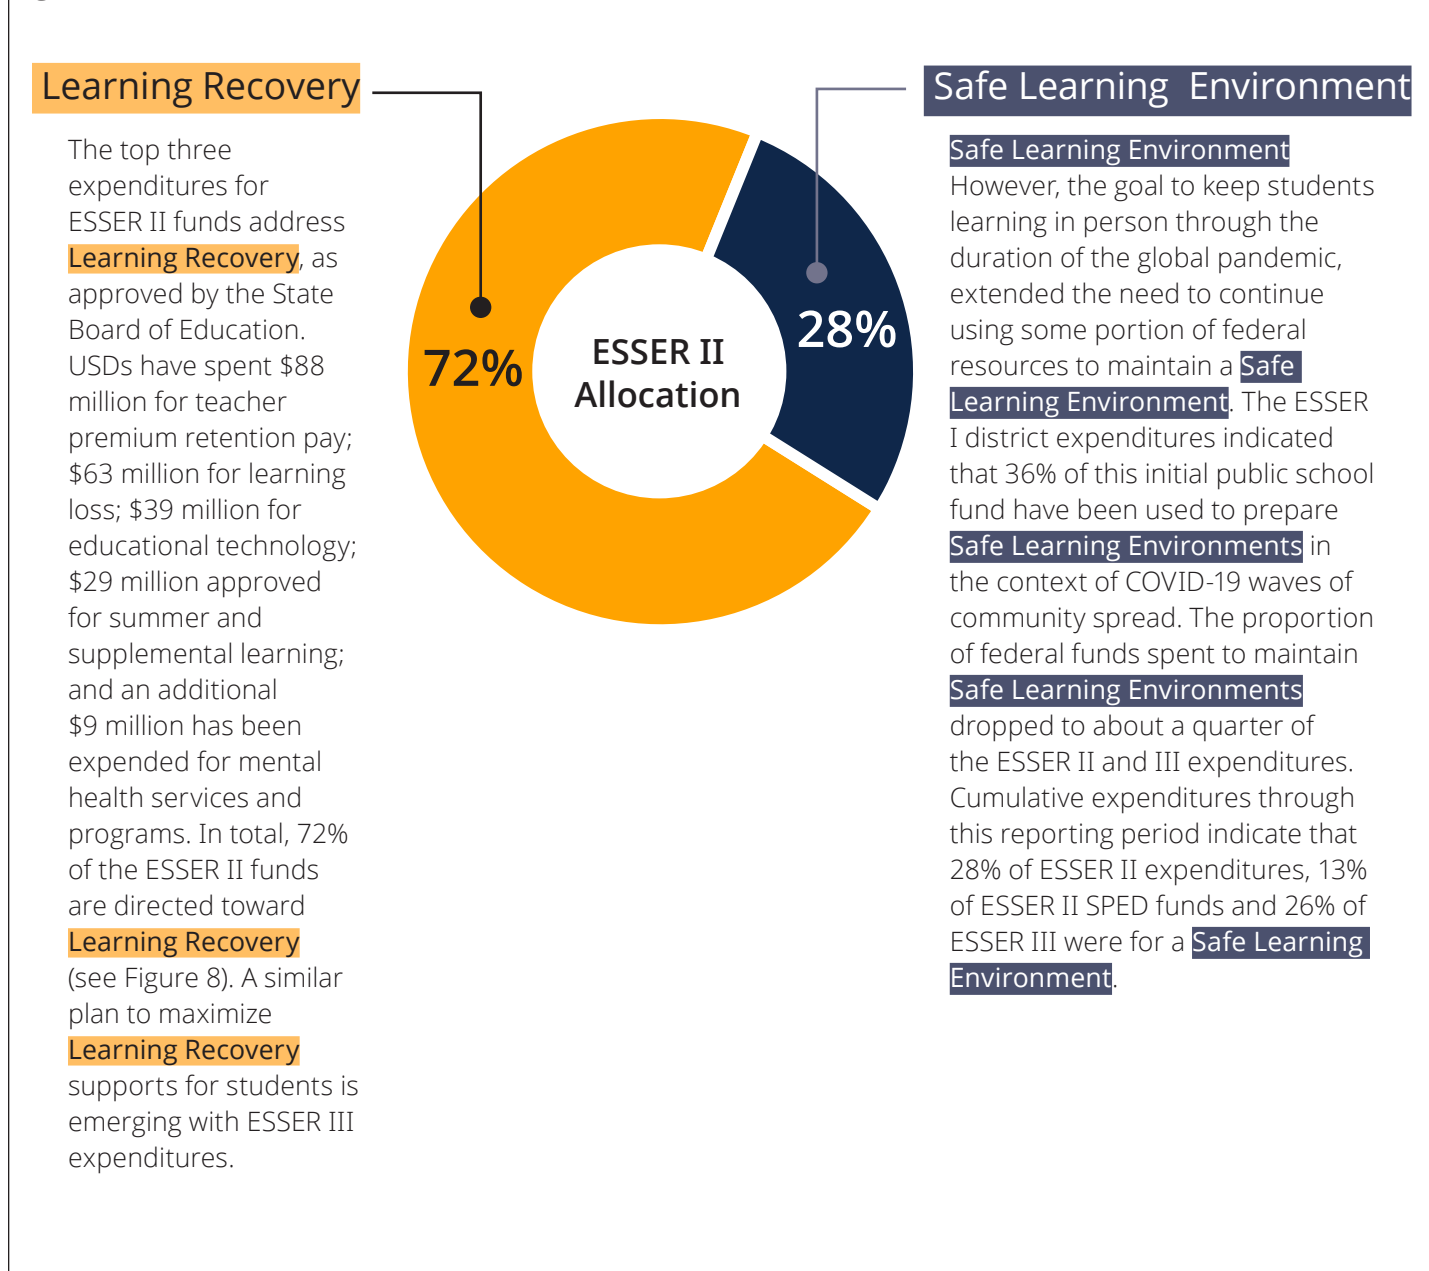

– Topeka USD 501

Note. This District Story reflects the auditing and correction process that KSDE uses to help local districts maximize the appropriate use of ESSER funds.

Learning Recovery

The portion of federal relief funds being used for **Learning Recovery** increased from about two-thirds to about three quarters since the initial onset of the global pandemic. While the need to maintain a **Safe Learning Environment** remained, resource allocation to achieve this safety goal was sustained with fewer investment dropping from 36% of ESSER I allocations, to 28% of ESSER II, to 26% of ESSER III allocations, to date. This shift in need over time freed up more ESSER II at 72% for **Learning Recovery** (see Figure 5) and, to date, and 75% of ESSER III allocation² for **Learning Recovery**.

Figure 5 - ESSER II District Funds

Learning Recovery

The top three expenditures for ESSER II funds address **Learning Recovery**, as approved by the State Board of Education. USDs have spent \$88 million for teacher premium retention pay; \$63 million for learning loss; \$39 million for educational technology; \$29 million approved for summer and supplemental learning; and an additional \$9 million has been expended for mental health services and programs. In total, 72% of the ESSER II funds are directed toward **Learning Recovery** (see Figure 8). A similar plan to maximize **Learning Recovery** supports for students is emerging with ESSER III expenditures.

Safe Learning Environment

Safe Learning Environment
 However, the goal to keep students learning in person through the duration of the global pandemic, extended the need to continue using some portion of federal resources to maintain a **Safe Learning Environment**. The ESSER I district expenditures indicated that 36% of this initial public school fund have been used to prepare **Safe Learning Environments** in the context of COVID-19 waves of community spread. The proportion of federal funds spent to maintain **Safe Learning Environments** dropped to about a quarter of the ESSER II and III expenditures. Cumulative expenditures through this reporting period indicate that 28% of ESSER II expenditures, 13% of ESSER II SPED funds and 26% of ESSER III were for a **Safe Learning Environment**.

Note: ESSER II the most current fund fully allocated.

ESSER Public School District Expenditures

Three of the five incremental ESSER funds were available to Kansas public school districts during this reporting period. The cumulative expenditures reached \$896 million of available ESSER funds. As noted previously, \$652 million or 73% of funds, have been used to address **Learning Recovery** and \$244 million or 27%, were expended to ensure a **Safe Learning Environment** (refer back to Figure 3).

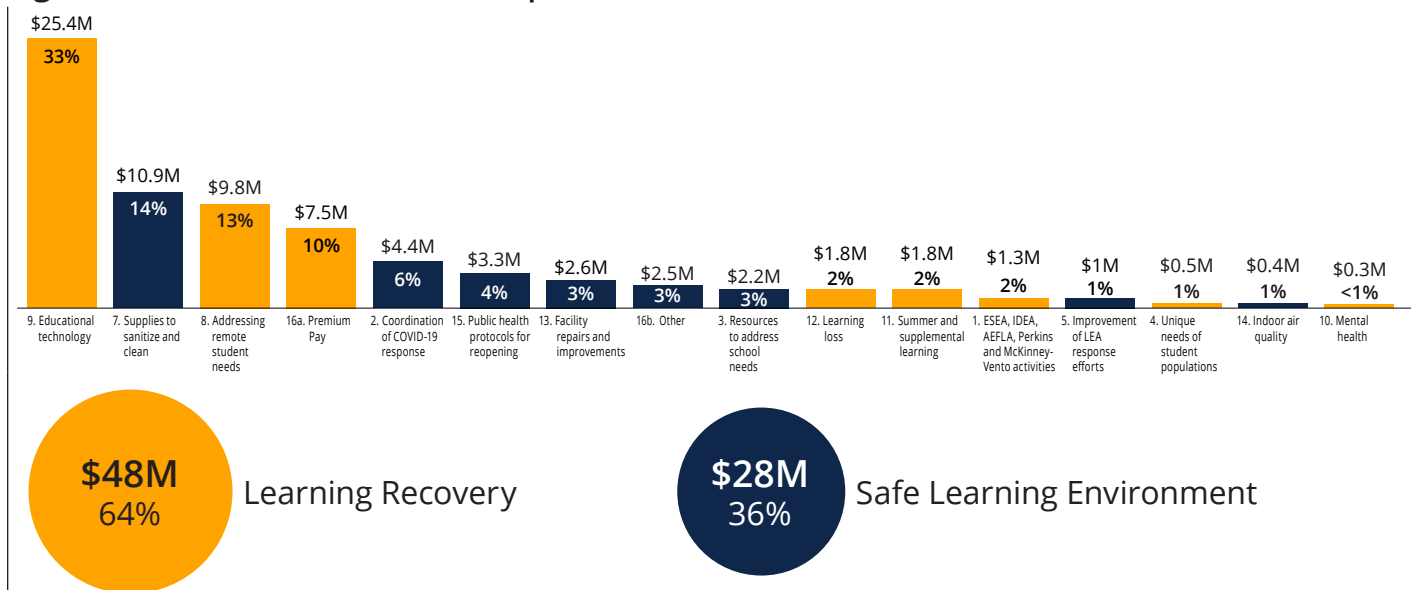

ESSER I EXPENDITURES

By December 31, 2022, districts self-reported that expenses for all of the \$76 million allocated under ESSER I funds had been incurred, as noted in Report 8. Nearly three-quarters of the expenditures were mapped to the following four allowable uses (see Figure 6):

- **Educational technology:** \$25.4 million (33%)
- **Supplies to sanitize and clean facilities:** \$10.9 million (14%)
- **Addressing remote student needs:** \$9.8 million (13%)
- **Premium pay:** \$7.5 million (10%)

Of ESSER I expenditures, 64% of allowable uses were on **Learning Recovery**, with 36% associated with **Safe Learning Environment**.

Figure 6 - Public: Allowable Use Expenditures across Available ESSER I Funds

Note: Categorization based on self-reported function/object codes and allowable uses from districts; data include ESSER I expenditures.

ESSER I SPED EXPENDITURES

By December 31, 2022, public school districts self-reported that expenses for all of the \$8 million in the ESSER I SPED allocation had been incurred, as noted in Report 8. Just over half of the expenditures were mapped to the following three allowable uses (see Figure 7):

- **IDEA:** \$1.8 million (22%)
- **Premium pay:** \$1.4 million (18%)
- **Unique needs of special populations:** \$1.2 million (15%)

Of ESSER I SPED expenditures, 85% of allowable uses were on **Learning Recovery** and 15% associated with **Safe Learning Environment**.

Figure 7 - Allowable Use Expenditures across Available ESSER I SPED Funds

Note: Categorization based on self-reported function/object codes and allowable uses from districts; data include ESSER I SPED expenditures.

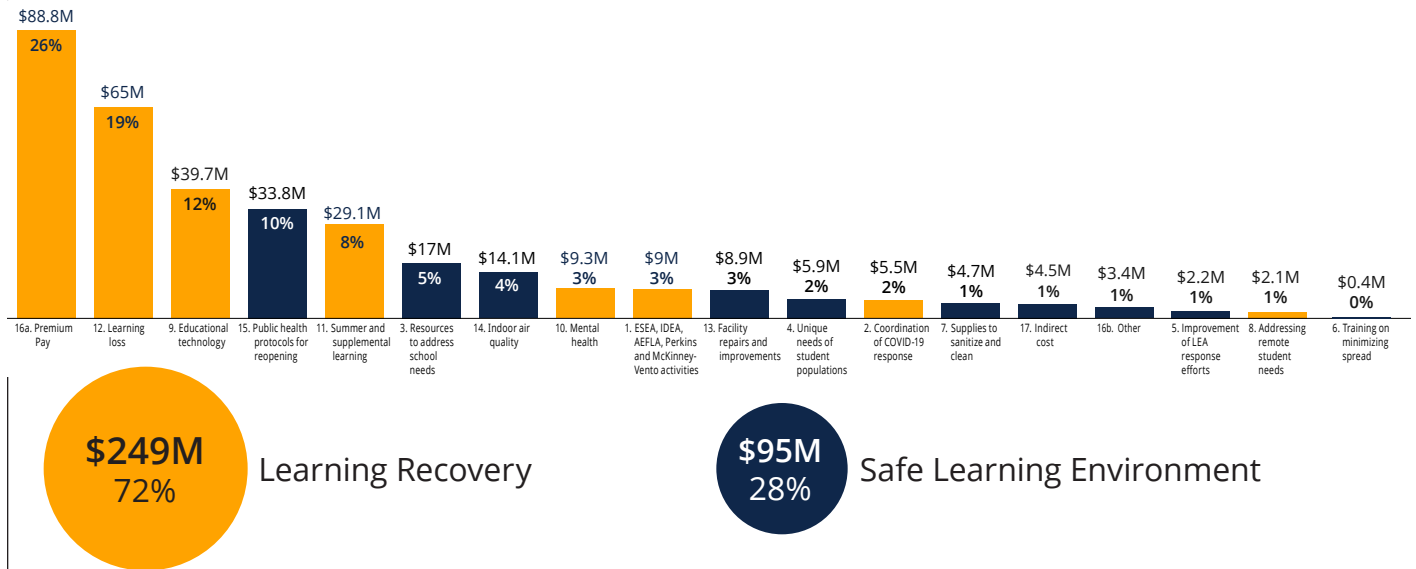

ESSER II EXPENDITURES

As of December 31, 2023, public school districts had incurred expenses over \$343.5 million of their \$344 million ESSER II allocation. More than half of expenditures were mapped to the following three allowable uses (see Figure 8):

- **Premium pay:** \$88.8 million (26%)
- **Learning loss:** \$65 million (19%)
- **Educational technology:** \$39.7 million (12%)

Of ESSER II expenditures, 72% of allowable uses were on **Learning Recovery** and 28% associated with **Safe Learning Environment**.

Figure 8 - Allowable Use Expenditures across Available ESSER II Funds

Note: Categorization based on self-reported function/object codes and allowable uses from districts; data include ESSER II expenditures.

District Stories

“Goddard USD 265 continues to utilize ESSER funds to fund two primary areas: 1) fund long term substitute teachers of at least one per building to assure the ongoing operation of our schools, and 2) fund summer school opportunities for all students. The opportunities include both at-risk and enhancement.”

– Goddard USD 265

ESSER II SPED EXPENDITURES

As of December 31, 2023, districts had expended all but about \$9,000 of the \$24.1 million in ESSER II SPED allocation expended over 24 months. The majority of expenditures were mapped to the following four allowable uses (see Figure 9):

- **IDEA:** \$5.9 million (25%)
- **Premium pay:** \$5.4 million (22%)
- **Learning loss:** \$3.6 million (15%)
- **Unique needs of student populations:** \$3.2 million (13%)

Of ESSER II SPED expenditures, 87% of allowable uses were on **Learning Recovery** and 13% associated with **Safe Learning Environment**.

Figure 9 - Allowable Use Expenditures across Available ESSER II SPED Funds

District Stories

“ESSER II SPED funds were used for an additional para to help with learning loss.”

– North Lyon County USD 251

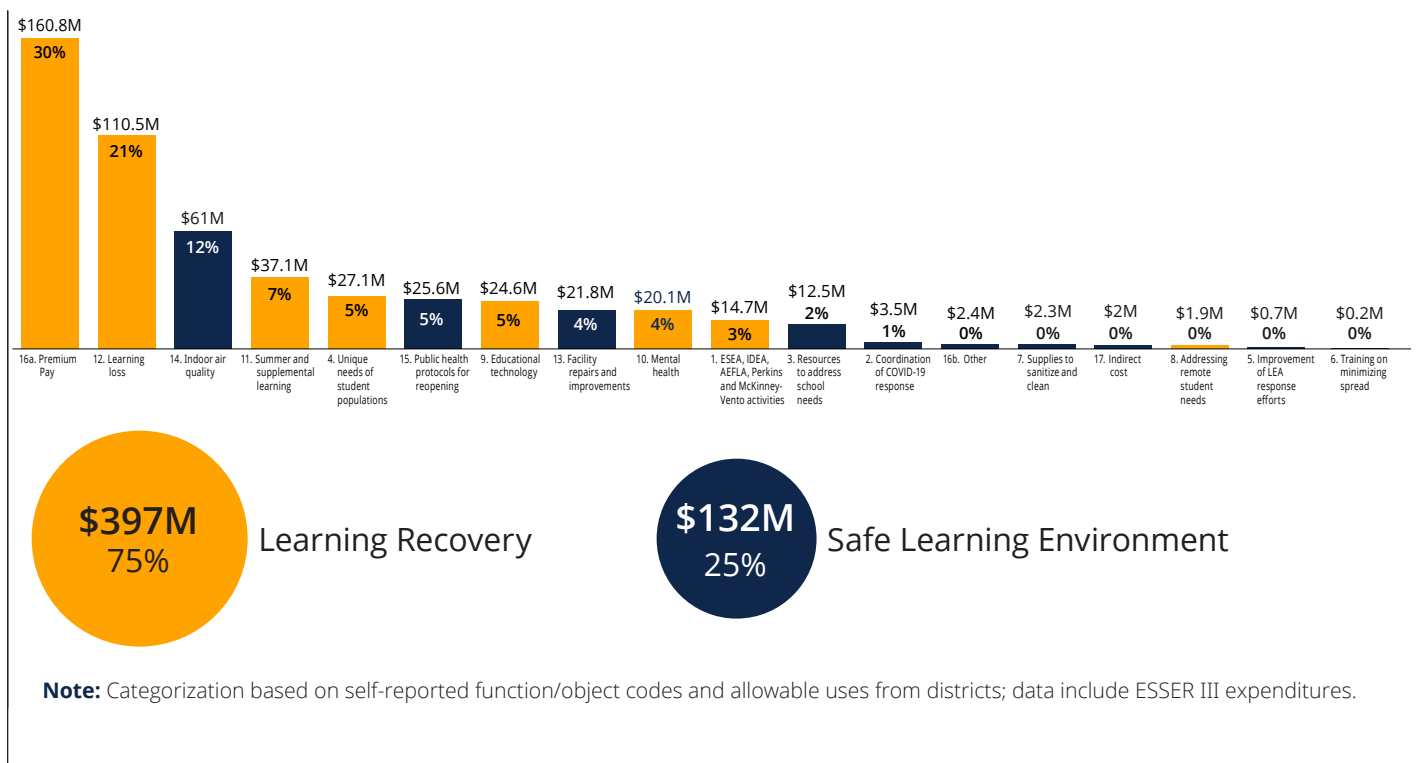

ESSER III EXPENDITURES

As of December 31, 2023, public school districts incurred over \$528 million in ESSER III expenses, of the \$768 million ESSER III allocation, to be expended over 24 months. The top initial expenditures were mapped to the following four allowable uses (see Figure 10):

- **Premium pay:** \$160.8 million (30%)
- **Learning loss:** \$110.5 million (21%)
- **Indoor air quality:** \$61 million (12%)
- **Summer and supplemental learning:** \$37.1 million (7%)

Of ESSER III expenditures, 74% of allowable uses were on **Learning Recovery** and 26% were associated with **Safe Learning Environment**.

Figure 10 - Allowable Use Expenditures across Available ESSER III Funds

District Stories

“ This quarter, ESSER III funds were used for staff premium retention stipends, after school tutoring programs, LETRS™ training, and salaries for instructional coaches, school improvement specialist, school nurse, social worker/family liaison, school psychologist and iReady. iReady is a new tool being used K-12 for benchmark assessments. Based on results, teachers will use the data to determine tier 2 and tier 3 interventions.”

– Bonner Springs USD 204

EANS Private School Expenditures

Two incremental EANS funds were available to Kansas private schools during this reporting period. The cumulative expenditures reached nearly \$20 million of the total \$38.7 million approved EANS funds. Of all EANS I and II funds expended, \$18.1 million, or 93% of funds, have been used to address **Learning Recovery** and \$1.3 million, or 7%, were used to ensure a **Safe Learning Environment**. Note that 90% of the EANS I recipients were private schools with small enrollments and small enough class sizes to social distance within existing classrooms.

One other point of difference between the EANS and ESSER programs is that four of the allowable use categories were not applicable: 1 ESEA, IDEA, AEFLA, Perkins and McKinney-Vento activities, 3 Resources to Address School Needs, 4 Unique Needs of Student Populations, and 5 Improvement of LEA Response Efforts. Six others allowable use categories were either not used and not reported out separately due to EANS coding protocols: 2 Coordination of COVID-19 Response, 6 Training on Minimizing Spread, 10 Mental Health, 11 Summer and Supplemental Learning, 16a Continuity of Operations - Premium Pay and 16b Continuity of Operations – Other.

EANS I EXPENDITURES

As of December 31, 2023, private schools had expended just under \$17 million of the \$23 million in EANS I allocations. In order to maximize the use of the unclaimed \$6 million by the December 2023 deadline, the remainder was reallocated to other COVID related education programs, including the Governor’s Emergency Education Relief (GEER) Fund. Almost all the expenditures were mapped to just three allowable uses. Note also that the private school reporting procedures coded expenditures on two of the federal allowable use categories under the same code, such that expenditures on remote student needs and on learning loss are not differentiated (see Figure 11):

- **Remote student needs and/or Learning Loss:** \$13.4 million (79%)
- **Educational technology:** \$2.4 million (14%)

Of EANS I expenditures, 93% of allowable uses were on **Learning Recovery**, with 7% associated with **Safe Learning Environment**.

Figure 11 - Allowable Use Expenditures across Available EANS I Funds

Note: Categorization based on self-reported function/object codes and allowable uses by private schools; data include EANS I expenditures. Note that four of the federal relief fund Use Categories are not applicable (N/A) for private school use, due to program differences.

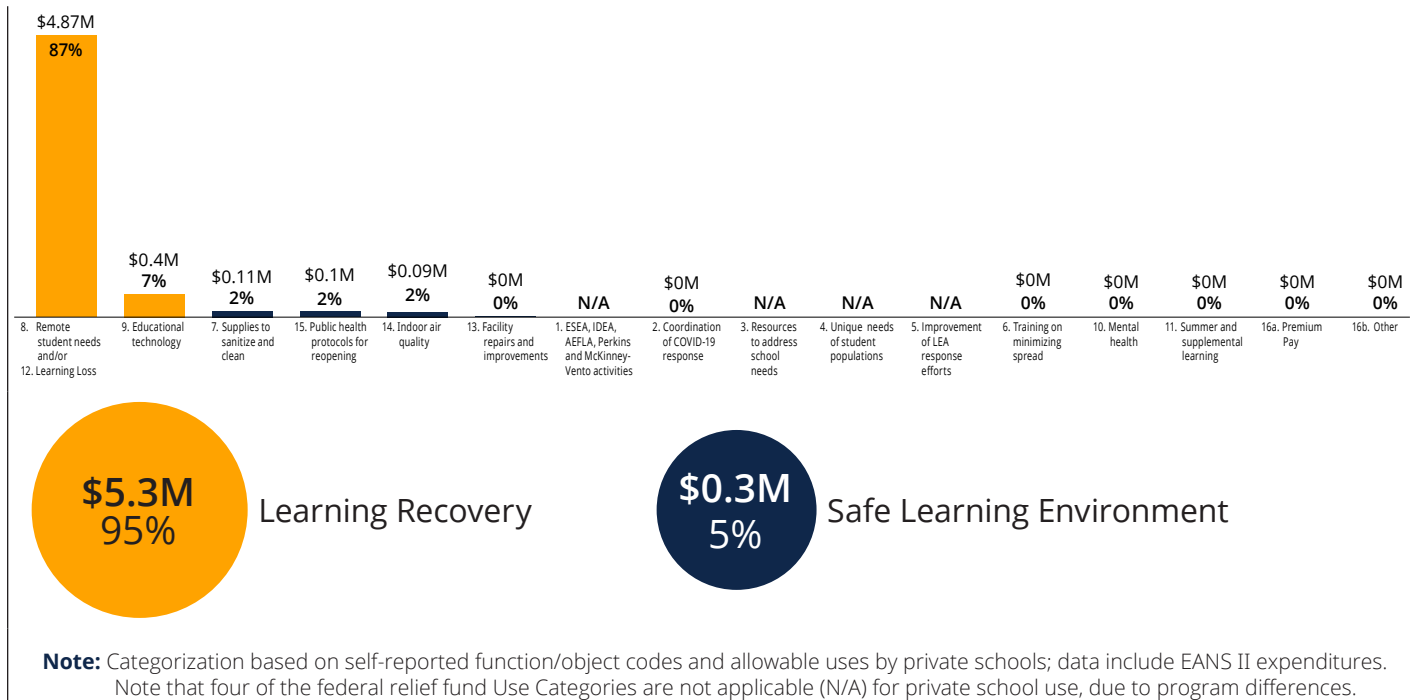

EANS II EXPENDITURES

As of December 31, 2023, private schools had expended \$5.6 million of the \$15.7 million in EANS II allocations. Again, almost all the expenditures were mapped to just three allowable uses. Also, private school reporting procedures continued to combine two of the federal allowable use categories under the same code, such that expenditures on remote student needs and on learning loss are not differentiated (see Figure 12):

- **Remote student needs** and/or **Learning Loss**: \$4.87 million (87%)
- **Educational technology**: \$0.4 million (7%)

Of EANS I expenditures, 95% of allowable uses were on **Learning Recovery**, with 5% associated with **Safe Learning Environment**.

Figure 12 - Allowable Use Expenditures across Available EANS I Funds

Special Education

KSDE directed a total of \$32 million of the state’s portion of ESSER funds back to local school districts for support of special education services impacted by the global pandemic. Districts reserved these funds specifically for students with disabilities. As of December 31, 2023, districts had spent all of the \$8 million ESSER I SPED allocation and all but \$125,000 of the \$24.1 million ESSER II SPED funds available. Together, 86% of the ESSER SPED expenditures were for **Learning Recovery** uses, including (see Figure 13):

- **IDEA:** \$7.7 million
- **Premium pay:** \$6.8 million
- **Unique needs of special populations:** \$4.5 million
- **Learning loss:** \$4.2 million
- **Educational technology:** \$1.7 million

Figure 13 - ESSER I and II SPED Funds by Allowable Use by Categories

District Stories

“New use of funds this quarter include: hiring additional Title I staff; providing support to engage with Native American students including tutoring services; and providing a new hire incentive stipend to fill special education teacher openings.”

– Lawrence USD 497

Expenditures by District and School Demographics

District enrollment and poverty level are two key factors that influenced federal relief fund expenditures (see Table 4). Profiles of public and private school expenditures are provided, based on the number of students enrolled in 2020-2021, the percentage of students eligible for free or reduced-price lunch and allowable uses. Demographically, the private schools approved for EANS I funds were similar to public school districts of small-to-medium enrollment and low-to-medium poverty. Only 31% of public school students, compared to 94% of private school students, were enrolled in schools of this setting - smaller enrollment and low rates of poverty. The public school districts with these characteristics were less likely to have used remote and hybrid learning modes and less likely to have spent federal relief funds on the remote needs allowable use category.

Table 4: District or Schools Expenditures by Enrollment and Poverty

	Enrollment small/medium and poverty low/medium		Enrollment small/medium and poverty high		Enrollment high and poverty low/medium		Enrollment high and poverty high	
	PUBLIC	PRIVATE	PUBLIC	PRIVATE	PUBLIC	PRIVATE	PUBLIC	PRIVATE
% of districts or schools	76%	90%	14%	10%	8%	0%	3%	0%
# of districts or schools	216	64	39	7	22	0	9	0
% of students	31%	94%	5%	6%	40%	0%	24%	0%
# of students	141K	16K	24K	<1K	179K	0	107K	0
% of students in remote or hybrid at peak spread	31%	Unknown	23%	Unknown	86%	N/A	91%	N/A
% Total allocation	34%	87%	9%	13%	23%	N/A	34%	N/A
\$ Allocation	\$40M	\$20M	\$10M	\$3M	\$27M	N/A	\$40M	N/A
% Spent on remote learning	28%	N/A	33%	N/A	11%	N/A	38%	N/A

Notes:

- **High poverty level:** 60-88% students approved for free/reduced-price lunch.
- **Low/medium poverty level:** <60% students approved for free/reduced-price lunch.
- **High enrollment:** 3K-47K students.
- **Small/medium enrollment:** < 3K students.
- **Student count:** Unweighted, nonvirtual full-time enrollment (FTE).

While COVID-19 drove significant incremental needs across all Kansas districts, high-poverty districts were particularly impacted by the transition to remote and hybrid learning modes. Federal aid was especially critical for students in high-poverty districts who were more likely to lack the technology and connectivity to access classes during remote learning, as reflected in Table 4.

- **High-poverty public school districts, regardless of enrollment, spent more proportionally on remote learning than districts with lower poverty levels**, with 33% high poverty vs. 22% low poverty in small/medium districts and 38% high poverty vs. 11% low poverty in high-enrollment districts.
- **Larger districts were more likely to have used remote and hybrid learning modes** in the 2020-2021 school year, including 91% of large, high-poverty districts and 86% of large, low-to-medium poverty districts at a peak time of community spread. This rate of remote and hybrid learning modes compared to 23% and 31% respectively of low- and high-poverty districts with small/medium enrollment.

This Kansas trend compares to national data (NTPS, 2022) in which public school teachers in cities and suburbs (86% and 87%) reported such learning mode shifts at higher rates during the onset of the pandemic in spring 2020, compared to teachers in towns and rural areas (75% and 77%).³ Transitioning to in-person learning in places where the rate of COVID-19 transmission was higher carried significant risks, especially considering the large volume of students and staff members who occupied the buildings. Adequate social distancing in classrooms was difficult to achieve given the large class sizes and limited square footage. Many students and families chose to remain partially or fully remote throughout the entire 2020-2021 school year. For the large, high-poverty districts, the additional educational needs of the student population were reflected in the faster rate of expenditures.

District Stories

We are continuing to draw down our ESSER III funding. In this last quarter, the majority of funding was used to help with the salaries of an additional kindergarten teacher and two additional staff aide positions. This has allowed a more effective student to teacher ratio, which provides for a higher quality of one-on-one and small group intense intervention for our students. This continues to prove beneficial to our students.

Also, we are using the funding to help with the salaries of a social worker and counselor positions. These positions have given our students a much-needed resource to help them overcome the many social/emotional issues created by remote learning and isolation from the past.

Our Homework Helpers program has also benefited from the funding and has been used for salaries and supplies. A small portion of funding was used on supplies that we had purchased for our Jump Start Summer school program from August. This program gives extra learning opportunities for struggling students.

Lastly, we used funding to purchase some laptop computers for staff that did not get updated ones prior. This technology continues to allow staff to be able to have the needed resources to be able to educate remotely if the need arises.”

– LaCrosse USD 395

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

REPORT 12: EXPENDITURES AS OF DECEMBER 2023

Looking Ahead: Future Needs and COVID-19 Funding

KSDE will continue to report on the use of federal COVID-19 funding on a quarterly basis. Districts began to spend ESSER III funds and EANS II funds school year 2022-2023.

INCREMENTAL STEPS FORWARD

Districts continue to prioritize academic and social-emotional recovery for students and staff, with the understanding that this priority has required sustained and incremental investment over multiple years. Learning recovery time for students, as well as social-emotional and mental health resources are, and will continue to be, key to ensuring students are supported through the educational disruptions associated with the global pandemic. Ongoing use of adaptive assessments and other metrics will continue to inform educators about the day-to-day learning needs of at-risk students.

The sense of urgency to address **Learning Recovery** has been shared by educators, parents and students alike. Persistence and paced expectations for progress are an important mindset throughout these school years, including those supported by federal relief funds and beyond. This reporting period ending December 2023 is marked by a renewed expectation that the worst of COVID-19 related disruptions are in the past. And that an intensified focus on **Learning Recovery** is moving forward, driving growth from this new baseline of student performance. The commitment to full-time, in-person learning for Kansas youth, who are required by law to attend school, will also require continued monitoring of health and safety of students and staff. A **Safe Learning Environment** was especially critical when young students did not have access to a vaccine and during peak periods of community spread - particularly in large districts and high population density communities.

PANDEMIC IMPACT ON CONTINUITY OF EDUCATION LEADERSHIP

The global pandemic has coincided with a spike in retirements across business and industry. Education has not been spared this trend. Superintendents and district administrators in Kansas and across the country continue to retire at notably higher rates, as do general and special education teachers. In the fall of 2021, districts reported a total of 1,253 teacher vacancies, which grew to 1,628 vacancies by fall 2022, and held at 1,634 vacancies through spring 2023. About 500 of the spring 2022 job openings had no applicants, and another 640 vacancies were left unfilled because the applicants were not fully qualified in the teaching endorsement area. By spring 2023, this increased to 683 teaching positions with no applicants and 762 left unfilled because candidates were not fully licensed. The 2021-2022 school year was also noted for 63 superintendent changes from the previous school year and another 66 in the 2022-2023 school year.¹ This means that 20% of Kansas public school districts were under new leadership during an incredibly challenging time for pre-K-12 education systems. Implications for the educational system extend well beyond the local communities impacted, complicated by staffing shortages and the ongoing global pandemic. Grow-your-own programs and continued collaboration and expanding partnerships will be essential across disciplines and sectors. Recruitment of qualified candidates into education administration higher education programs, along with recruitment and retention of teachers, calls for attention and continued support for higher education. Where we find challenge, we will continue to exercise grit - the drive, stamina and fortitude to push through challenges and obstacles until success is achieved.

District Stories

- Additional staff provide help for students who have experienced learning loss due to the pandemic. These include classroom teachers, interventionists and virtual interventionists who, serving in small group, pull-out/push-in interventions, smaller classes or additional reteaching opportunities.
- Social workers/family support workers to support the mental health needs of students and families.
- Family engagement funds to build community and provide outreach to families.
- Professional development: To increase student engagement, the integration of project-based learning will be occurring over the next few years.
- Full-time substitute teachers in all attendance centers: The pandemic has caused a substitute shortage which impacts the classroom.
- Staff Wellness: Well-being of employees allows them to be more resilient and cope with the additional demands caused by the pandemic. These funds will be used to provide activities for staff.
- Staff Retention and Recruitment: Retention incentive pay to retain staff. The pandemic has impacted the ability to recruit and retain staff. Additional resources have been added for recruitment.

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

REPORT 12: EXPENDITURES AS OF DECEMBER 2023

Glossary

A

Adult Education and Family Literacy Act (AEFLA): Federal act and state grant program that supports adult education and English language training.

Allocation: For the purposes of Kansas ESSER reporting, refers to funding reserved for each school district to use within the set of ESSER allowable uses to address incremental COVID-19 needs. Under ESSER, school districts are allocated funding for discretionary use across a set of allowable uses. This funding is theirs to spend through the duration of the program.

Allowable Uses: Set of eligible uses defined by the U.S. Department of Education for the federal COVID-19 elementary and secondary school funding. ESSER and EANS each have their own set of allowable uses. Districts must use their allocation within the allowable uses under ESSER, and nonpublic schools may only be approved for requested services or assistance that are eligible under EANS allowable uses. Eligible uses of funding must fall within the set of allowable uses and also address an incremental COVID-19 need.

American Rescue Plan (ARP): Federal COVID-19 relief package enacted March 11, 2021, which included additional funding for public schools (ESSER III) and private schools (EANS II).

C

CARES (Coronavirus Aid, Relief and Economic Security) Act: Federal COVID-19 relief package passed on March 27, 2020, which included the first COVID-19-related federal funding programs specifically for pre-K-12 education (ESSER I), as well as state discretionary funding that was partially allocated to pre-K-12 education (CRF).

Continuous Learning Task Force Guidance: Document developed by more than 50 Kansas educators to guide schools and school districts on how to continue to provide services for students in the immediate aftermath of school shutdowns in Spring of 2020.

Coronavirus Relief Fund (CRF): Funding the state of Kansas received from the federal CARES Act. A portion of this funding was allocated directly to Kansas counties that were directed to allocate a portion to local school districts as discretionary funding. School districts received \$80 million in CRF discretionary funding.

Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act: Federal COVID-19 relief package passed Dec. 27, 2020, which included additional funding specifically for public schools (ESSER II) and private schools (EANS I).

E

EANS (Emergency Assistance to Nonpublic Schools): Federal funding awarded to the governor and administered by the State Educational Agency (SEA) to assist nonpublic schools with COVID-19-related needs.

Elementary and Secondary Education Act (ESEA): Federal education law enacted to provide all children significant opportunity to receive a fair, equitable and high-quality education and to close educational achievement gaps.

Elementary and Secondary School Emergency Relief (ESSER): Federal funding awarded to State Educational Agencies (SEAs) for the purpose of providing local educational agencies (LEAs) with emergency relief funds to address the impact of COVID-19 on elementary and secondary schools.

Eligible Value: For the purposes of Kansas EANS reporting, refers to funding for approved, eligible requests for services and assistance for nonpublic schools. Under EANS, nonpublic schools are not allocated funding for discretionary use, but instead may apply for services and assistance to address COVID-19 needs. The value of the approved services and assistance is tracked as eligible value but is not a set dollar amount allocation; if services and assistance are fulfilled for less than the original estimated cost, the remaining amount returns to the EANS funding program.

ESSER Formula Allocation: Portion of the state's ESSER allocation that is reserved for distribution to LEAs. Under federal law, 90% of ESSER funds are granted to LEAs by formula based on ESEA Title I, Part A allocations. This funding can then be used at the district's discretion within the set of ESSER allowable uses to address incremental COVID-19 needs.

ESSER SPED: Supplemental discretionary aid from Kansas' ESSER I and ESSER II allocation that the Kansas State Department of Education (KSDE) allocated to LEAs specifically to support special education services and students with disabilities.

Expenditure: For the purposes of Kansas CRF, ESSER, and EANS reporting, refers to funding that has been used to date by districts, interlocals or schools out of the total amount allocated or value approved.

F

Full-Time Equivalent (FTE): Captures the number of full-time equivalent students by accounting for parttime students to the nearest tenth. Nonweighted, nonvirtual FTE enrollment is used to track district size in CRF and ESSER reporting.

Headcount Enrollment: Captures the number of total students enrolled based on headcount with no adjustments for part-time students. KSDE uses headcount enrollment to track the number of students approved for free or reduced-price lunch. This data is used as a proxy for district poverty level in CRF, ESSER, and EANS reporting.

I

Individuals with Disabilities Education Act (IDEA): Federal law that ensures all children with disabilities have available to them a free appropriate public education that emphasizes special education and related services designed to meet their unique needs and prepare them for further education, employment and independent living.

K

Kansas Interlocals/Special Education Cooperatives: Public education organizations that provide educational services, which may include special education services to students, in partnership with school districts.

L

Lag time: A period of time between the initial district expenditure and the draw down from federal funds. This report utilizes finalized, lag data. Districts follow three steps when using federal aid to purchase goods, services or employ staff members:

1. The district budgets for the costs from the federal aid.
2. The district pays the provider or employee out of local funds once the product is received or as the work is completed. Most districts manage cash flow using reserve funds.
3. Only then may the district draw down federal aid to reimburse the expense.

Only expenses that have completed all three steps by the close of the reporting period are included in the report. Budgeted and unreimbursed expenses are captured in future reports.

Local Educational Agency (LEA): A public board of education or other public authority within a state that maintains administrative control of public or secondary schools in a subdivision of a state. In Kansas, refers to Kansas school districts and interlocals.

M

McKinney-Vento (McKinney-Vento Homeless Assistance Act): Federal act that authorizes the federal Education for Homeless Child and Youth Program, which provides public resources and programs in a more coordinated manner to meet the critically urgent needs of the homeless.

N

Navigating Change: Document and resources developed by nearly 1,000 Kansas educators, health officials, policymakers and other stakeholders to help schools support students across remote, hybrid and inperson learning environments as they prepared for the 2020-2021 school year.

Navigating Next: Document developed by KSDE with updated guidance on how to support students through the end of the 2020-2021 school year and how to prepare for the 2021-2022 school year.

P

Perkins (Carl D. Perkins Career and Technical Education Act): Federal act and source of federal funding to states for the improvement of secondary and postsecondary career and technical education programs.

S

SEA (State Educational Agency): State agency primarily responsible for the state supervision of public elementary and secondary schools. In Kansas, refers to the Kansas State Department of Education (KSDE).

SPARK (Strengthening People and Revitalizing Kansas) Taskforce: Created in 2020 by Gov. Laura Kelly, this task force was a coalition of business, community and legislative stakeholders who determined investment priorities and oversaw spending of CRF dollars. In 2021, the Kansas Legislature amended the make-up of the SPARK Taskforce and refined the oversight process. SPARK will continue to play a role in the allocation of state discretionary dollars received from ARP.

T

True-Up: Supplemental discretionary allocation of COVID-19 federal relief funds, as determined by the state, which provides public school districts a minimum amount of per pupil ESSER aid.

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

REPORT 12: EXPENDITURES AS OF DECEMBER 2023

Appendix

The Appendix catalogues the allocations and expenditures by district for each source of federal COVID-19 relief funding utilized through the end of the reporting period. The “CRF and ESSER Aggregate” report tracks cumulative spending by district for all federal COVID-19 relief funds and is followed by reports that break out cumulative spending by district in each distinct federal funding stream. Expenditures reported in this Appendix lag behind the reporting on local expenses incurred due to federal draw down rules and the time needed for fiscal oversight and processing at state and local levels.
