Mission

To prepare Kansas students for lifelong success through rigorous, quality academic instruction, career training and character development according to each student's gifts and talents.

Vision

Kansas leads the world in the success of each student.

Motto

Kansans Can

Success defined

A successful Kansas high school graduate has the **academic preparation**, **cognitive preparation**, **technical skills**, **employability skills** and **civic engagement** to be successful in postsecondary education, in the attainment of an industry recognized certification or in the workforce, without the need for remediation.

Outcomes

- Social-emotional growth
- Kindergarten readiness
- Individual Plan of Study
- Civic engagement
- Academically prepared for postsecondary
- High school graduation
- Postsecondary success

The Kansas State Board of Education does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs and activities and provides equal access to any group officially affiliated with the Boy Scouts of America and other designated youth groups. The following person has been designated to handle inquiries regarding the nondiscrimination policies: KSDE General Counsel, Office of General Counsel, KSDE, Landon State Office Building, 900 S.W. Jackson, Suite 102, Topeka, KS 66612, (785) 296-3201.

Kansas Alternate Early Literacy Screener KDG-3rd grade

Overview

The path to leading the world in the success of each student depends on the ability to read at grade level. When students enter kindergarten, teachers should be keenly aware of each child's oral language ability and ability to learn the written language of English. In accordance with the Kansas State Board of Education vote in November 2019, all schools must screen students for dyslexia or characteristics of dyslexia. For some students, the universal screeners are not an appropriate measure for determining their reading proficiency. As such, the Kansas Alternate Early Literacy Screener was developed as an alternate screener for students with a **most significant cognitive disabilities** (SWSCD).

The term "most significant cognitive disability" isn't a separate category of disability. It is a designation given to a small number of students with disabilities for purposes of participation in the statewide student assessment program. This subgroup of students referred to in the Individuals with Disabilities Education Act (IDEA) and the Elementary and Secondary Education Act (ESEA) as having the "most significant cognitive disabilities" constitutes less than 1% of the student population. The students are: within one or more of the existing categories of disability under IDEA (e.g., Intellectual disability, autism, multiple disabilities), and whose cognitive impairments and adaptive behaviors may prevent them from attaining grade-level achievement standards even with extensive direct individualized instruction and substantial supports.

Learner Characteristics

- A most significant cognitive disability with co-existing deficits in both communication and adaptive behavior. Typically functioning 2 1/2 or more SD below the mean.
- A most significant cognitive disability impacts learning, memory, judgment and processing which impacts learning acquisition.
- Perform substantially below grade level expectations on the academic content standards for the age-appropriate grade they are enrolled, even with the use of accommodations and modifications.
- Require extensive, specially designed individualized instruction, and substantial supports to achieve measurable gains in the grade-and age-appropriate curriculum (at a reduced depth, breadth and complexity).
- Requires more time for:
 - a. Processing
 - b. Opportunities to generalize language.
 - c. Time to learn and process language.
 - d. Alternate ways to communicate including augmentative.
 - e. Alternative communication to supplement or replace speech or writing.

About the Screener

The Kansas Alternate Early Literacy Screener is a simple rubric that assesses students' early literacy skills as they relate to skill domains within English Language Arts (print concepts, phonological awareness, phonics and word recognition, fluency and comprehension). The rubric is meant to be completed for each student with a SWSCD (grades KDG-3) by their teacher, based on the student's performance on Individualized Education Program (IEP) goals and every day early literacy instruction within the classroom.

The following factors must be met for a student to be eligible to take the Kansas Alternate Early Literacy Screener:

- Student is in grades Kindergarten, 1st, 2nd, or 3rd grade; and
- Student has a most significant cognitive disability that significantly impacts intellectual functioning and adaptive behavior; and
- Student is learning content linked to the DLM Essential Elements; and
- Student requires extensive, repeated, direct individualized instruction and substantial supports to achieve measurable gains in the grade-and-age-appropriate curriculum, and
- Determined by the IEP team.

Participation in the alternate screener is NOT determined by:

- A disability category or label.
- Poor attendance or extended absences.
- Native language/social/cultural or economic difference.
- Educational environment or instructional setting.
- Low reading level/achievement level.
- Anticipated student's disruptive behavior.
- Impact of student scores on accountability system.
- Anticipated emotional duress.
- Need for accommodations (e.g., assistive technology/augmentative and alternative communication (AAC)) to participate in the assessment process.

The screener is not, necessarily, a screener that is required to be administered directly to a student or a group of students. The rubric is meant to be completed for each SWSCD (grades KDG-3) by their teacher, based on the student's performance on IEP goals and every day early literacy instruction within the classroom.

Scoring

For a student to score at a performance level for beginning, middle or end of year, they must be able to do each skill listed within a performance level, (except in the 'Not Yet Emerging' level) to a level of mastery as determined by the teacher (80% correct or 80% independence is a general guideline for mastery). As performance levels are determined for each skill domain, the points should then be transferred to the Score Sheet (see screenshot below).

After they are added up, the student's overall score will then be determined by the Scoring Guide. **For EOYA Reporting, refer to the EOYA reporting section below.**

Examples of sources of data used to complete the ELAA include:

- Anecdotal notes
- Work samples
- Photographs
- Videos
- Performance data

There will be a great amount of variety in how each indicator is assessed for each individual student. Consideration should be made for each student about whether assistive technology is required for a student to learn or demonstrate a skill. For example, a student could identify a detail in a story by selecting a message on a single message output device or they could select their answer from a field of five. Each indicator should be assessed in the same way and given the same supports for all three testing windows (Beginning of the Year (BOY), Middle of the Year (MOY), and End of the Year (EOY)).

EOYA Reporting – KIDS System

Field D61 Dyslexia Screener - 08 – KS Alternate Screener

Current grade (in KIDS) must be KG, 01, 02, 03, 08

Field D62 – Dyslexia Subtest - There is only one reported rubric for each grade (KDG, 1st, and 2nd). These have been identified on the rubric

01 – Phoneme Segmentation Fluency – [Table 2: Reading Foundation Phonological Awareness](#) (record EOY score for Kindergarten)

02 – Nonsense Word Fluency – [Table 3: Phonics and Word Recognition](#) (record EOY score for 1st Grade)

03 – Oral Reading Fluency – [Table 2: Fluency](#) (record EOY score for 2nd Grade and 3rd Grade – rate and accuracy)

04 – Reading Comprehension – Grade 8

Field D63 – Dyslexia Spring Performance Level – Use Score from Scoring Guide End of Year Table

00 – Not assessed

01 – Below Benchmark (Score of 1, 2, or 3) – when subtest is 01, 02, or 04

02 – At or above Benchmark (Score of 4 or 5) – when subtest is 01, 02, or 04

11 - Below Benchmark (Score of 1, 2, or 3) – when subtest is 03

22 - At or above Benchmark (Score of 4 or 5) – when subtest is 03

This document is modified with permission from the Utah State Board of Education *Early Literacy Alternate Assessment and KEEP Alternate Assessment*.

8th Grade Comprehension Requirement

- Report the spring results from **EE.RI.8.5**
 - 00 - Not assessed
 - 01- Mastery not demonstrated = below benchmark
 - 02 Mastered =at or above benchmark

The results from the writing testlets are reported on the student's end-of-year Individual Student Score Report.

All students are assessed in this EE for C1.1. Complete

Claim: ELA.C1 Students can comprehend text in increasingly complex ways.
 Conceptual Area: ELA.C1.1 Determine Critical Elements of Text

Essential Element	Initial Precursor	Distal Precursor	Proximal Precursor	Target	Successor
ELA.EE.RI.8.5 Locate the topic sentence and supporting details in a paragraph.	Understand category membership Complete: Mastered 03/08	Identify explicit details in an informational text	Identify key details supporting the main ideas	Identify the topic sentence and supporting details	Identify the main idea and supporting details
