## Overview

As required by Federal law, and outlined on KSDE's ESOL/Title III homepage, services are to be provided to students who have a first language that is not English or have a language other than English in the home until they are deemed proficient in English. Title III provides funding to support services designed to enhance English language learners' fluency in English and immigrant students' understanding of American culture. These services should provide students with the academic and social language they need to succeed in their educational pursuits. The guidance about "who" needs to be served and for what purpose is clear. However, in terms of how services are provided to English Learners, there is no one required program model. Districts implement various types of program models to serve English Learners. In fact, many districts have more than one program model within their district. In almost every case and model, ELs with varying levels of English proficiency will be in general education classrooms and will need different levels and types of supports to access grade-level content.

## School and Family Partnership for English Learners: Requirements and Recommendations

As is with any student, connecting to and partnering with his/her family has many tangible benefits. Among these are more regular student attendance, higher student motivation, students staying in school longer, higher grades, and higher educational aspirations. Here is a link to *A Guide for Engaging ELL Families*: [www.colorincolorado.org/article/connecting-ell-families](http://www.colorincolorado.org/article/connecting-ell-families)

There are also other laws related to our obligations to EL students and their parents/guardians. The US Department of Education has a plethora of information and tools regarding schools' civil rights obligations to ELs and their limited English proficient parents/guardians. Here is a link: <https://www2.ed.gov/about/offices/list/ocr/ellresources.html>

Here is the bottom line:

*The obligation not to discriminate based on race, color, or national origin requires public schools to take affirmative steps to ensure that limited English proficient (LEP) students, now more commonly known as known as English Learner (EL) students or English Language Learners (ELLs), can meaningfully participate in educational programs and services, and to communicate information to LEP parents in a language they can understand.*

## Understanding the Standards

The Kansas Standards for English Learners, 2018, are designed for use by all educators who are involved in the teaching and support of English Learners (ELs). The premise of these standards is supporting individual students to gain a level of proficiency with the English language that allows them to be highly successful in obtaining grade level academic standards in as short of time as possible. Both social English and academic English are required to attain mastery of the English language and of school success. When each teacher that has an English learner “takes ownership” for that student and supports him/her through appropriately scaffolded, highly experiential and collaborative instruction that is based on grade level curriculum, English proficiency can be expedited for a student.

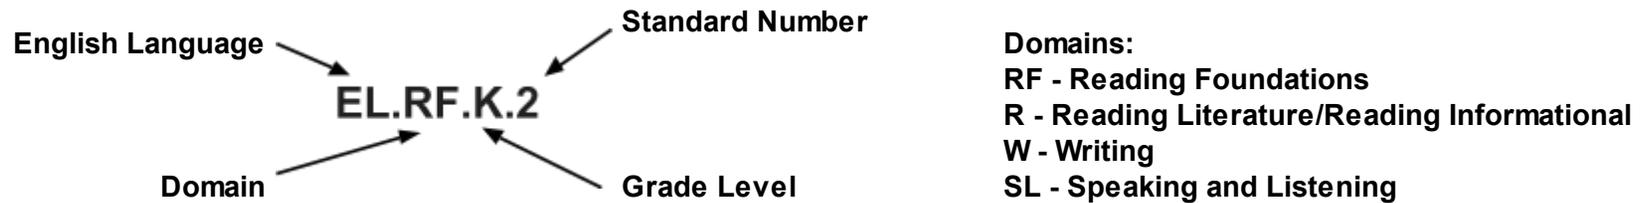

The Kansas Standards for English Learners, 2018, were developed for grades K-8 and grade bands 9-10 and 11-12. This standards document illuminates the critical language, knowledge about language, and language skills that are necessary for ELs to be successful in schools. The four domains of English Language Arts - Reading, Writing, Speaking and Listening are the foundations for these standards for ELs, as these domains apply to all students. As such, the English Learner standards in this document are progressions of the specific grade level ELA standards within the four domains that squarely address language acquisition and development. They are drawn directly from the Kansas Standards for English Language Arts, 2017. They also align tightly to the previous Kansas EL Standards (ELPA21). (see 2018 Kansas Standards for English Learners Crosswalk matrix below)

These standards share the vision of the Kansas Standards for World Languages. “Studying another language and culture provides powerful keys for successful communication: “knowing how, when, and why, to say what to whom” (National Standards, 1996). The organizing principle for language study is communication, which highlights the social, linguistic, and cultural aspects of language. The approach to second language instruction endorsed here is designed to facilitate meaningful interaction with others, whether they are on another continent, across town, within the neighborhood, or in the classroom.” The Kansas Standards for English Learners bridges the social and academic purposes of language to meet the needs of ELs and helps prepare them for their endeavors after they graduate.

<b>2017 Kansas ELA Standards</b>		
<b>Reading - receptive language</b>		
Demonstrate understanding of the organization and basic features of print. (RF1)	No	
Demonstrate understanding of spoken words, syllables, and phonemes. (RF2)	Yes	1
Know and apply grade-level phonics and word analysis skills in decoding words. (RF3)	Yes	1
Read with sufficient accuracy and fluency to support comprehension. (RF4)	Yes	1
Read closely through multiple interactions with a text in order to determine what the text says explicitly and to make logical inferences; cite specific textual evidence when writing or speaking to support conclusions drawn from the text. (RI/RL1)	Yes	1
Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas. (RI/RL2)	No	
Analyze elements of plot as they relate to the meaning of a text. Extract meaning and purpose from informational text by analyzing its structure and organization. (RI/RL3)	No	
Recognize the ways in which the author's word choice and use of figurative language deliberately influences meaning, tone, or mood within the context of the text. (RI/RL4)	Yes	8
Understand how an author uses text features and other elements to organize text (e.g., How do chapters work together to build a book?) and affect meaning. (RI/RL5)	No	
Recognize that different perspectives can be presented in different ways for different purposes. (RI/RL6)	No	
Adjust their reading to accommodate non-print formats (illustrations, graphs, video, etc.) in addition to print formats, in order to understand content. (RI/RL7)	No	
Follow the logic of an argument based on the validity of the claim and evidence presented. (RI8)	Yes	4, 6
Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take. (RI/RL9)	No	
Apply their knowledge of language and how it works to a variety of contexts and situations. (RI/RL10)	Yes	2, 7
Understand vocabulary and word use in a variety of contexts by consistently building knowledge of new words, as well as employing strategies for determining meanings of unfamiliar words. (RL/RI11)	Yes	8
Understand word meanings, and nuances in word meanings when reading. (RL/RI12)	Yes	8
Interpret meaning from a variety of texts on their own. (RL/RI13)	Yes	1

<b>Writing - expressive language</b>		
Use valid reasoning and relevant and sufficient evidence to support a written argument. (W1)	No	
Create coherent, well-organized explanatory texts to convey complex ideas about a variety of topics. (W2)	No	
Create coherent, well-sequenced real or imagined narrative texts with developed plots, characters, and dialogue. (W3)	No	
Create texts appropriate for specific purposes, audiences, and tasks. (W4)	Yes	2, 3, 4, 9
Employ a recursive writing process – including planning, drafting, editing, and revising – to refine and improve their writing. (W5)	No	
Effectively use a variety of digital tools to produce original works both independently and collaboratively. (W6)	No	
Engage in an inquiry process to build an understanding of a range of topics, and create meaningful work based on their learning. (W7)	No	
Locate information from a variety of sources, evaluate the credibility and accuracy of sources, and use information from multiple sources to create original texts. (W8)	No	
Locate and use supportive and relevant evidence from a range of text types to strengthen original works. (W9)	No	
Accurately and effectively use standard English grammar and usage when writing. (W10)	Yes	10
Accurately and effectively use the mechanics of standard English for the purpose of productive communication. (W11)	Yes	2, 10
Write routinely over varied time frames for a range of tasks, purposes, and audiences. (W12)	Yes	2, 7, 9
<b>Speaking - expressive language and Listening - receptive language</b>		
Engage in civil discourse, and express original ideas professionally, clearly, and persuasively in a variety of settings and with diverse partners who both agree and disagree with their point of view. (SL1)	Yes	2, 4, 6
Synthesize information presented in diverse media and formats, assessing its relevance and accuracy according to purpose and audience. (SL2)	Yes	1, 2
Objectively assess the relevance, accuracy, and validity of a speaker's claim and supporting evidence. (SL3)	Yes	6
Prepare a variety of presentations, each with a clear line of reasoning, meaningful organization, appropriate style, including information, findings, and supporting evidence suitable to a specific purpose and audience. (SL4)	Yes	2, 3, 4, 7, 9
Strategically incorporate appropriate digital and graphic elements into presentations to express information and enhance an audience's understanding. (SL5)	No	
Effectively adapt speech to fit a variety of contexts and communication situations. (SL6)	Yes	7
Accurately and effectively use standard English grammar and usage when speaking. (SL7)	Yes	10
Use a variety of context-appropriate words in a range of situations, and engage in effective strategies for determining word meanings and adding new words to a personal vocabulary bank. (SL8)	Yes	7, 8

## How to Read the English Language Standards Codes

## Understanding the Levels of English Language Acquisition and Performance

### Guiding Principles of Language Development

1. Students' languages and cultures are valuable resources to be tapped and incorporated into schooling.  
Escamilla & Hopewell (2010); Goldenberg & Coleman (2010); Garcia (2005); Freeman, Freeman, & Mercuri (2002); González, Moll, & Amanti (2005); Scarcella (1990)
2. Students' home, school, and community experiences influence their language development.  
Nieto (2008); Collier (1995); California State Department of Education (1986)
3. Students draw on their metacognitive, metalinguistic, and metacultural awareness to develop proficiency in additional languages.  
Cloud, Genesee, & Hamayan (2009); Bialystok (2007); Chamot & O'Malley (1994); Bialystok (1991); Cummins (1978)
4. Students' academic language development in their native language facilitates their academic language development in English. Conversely, students' academic language development in English informs their academic language development in their native language.  
Escamilla & Hopewell (2010); Gottlieb, Katz, & Ernst-Slavit (2009); Tabors (2008); Espinosa (2009); August & Shanahan (2006); Genesee, Lindholm-Leary, Saunders, & Christian (2006); Snow (2005); Genesee, Paradis, & Crago (2004); August & Shanahan (2006); Riches & Genesee (2006); Gottlieb (2003); Schleppegrell & Colombi (2002); Lindholm & Molina (2000); Pardo & Tinajero (1993)
5. Students learn language and culture through meaningful use and interaction.  
Brown (2007); Garcia & Hamayan, (2006); Garcia (2005); Kramersch (2003); Díaz-Rico & Weed (1995); Halliday & Hasan (1989); Damen (1987)

6. Students use language in functional and communicative ways that vary according to context.  
Schleppegrell (2004); Halliday (1976); Finocchiaro & Brumfit (1983)
7. Students develop language proficiency in listening, speaking, reading, and writing interdependently, but at different rates and in different ways.  
Gottlieb & Hamayan (2007); Spolsky (1989); Vygotsky (1962)
8. Students' development of academic language and academic content knowledge are inter-related processes.  
Gibbons (2009); Collier & Thomas (2009); Gottlieb, Katz, & Ernst-Slavit (2009); Echevarria, Vogt, & Short (2008); Zwiers (2008); Gee (2007); Bailey (2007); Mohan (1986)
9. Students' development of social, instructional, and academic language, a complex and long-term process, is the foundation for their success in school.  
Anstrom, et.al. (2010); Francis, Lesaux, Kieffer, & Rivera (2006); Bailey & Butler (2002); Cummins (1979)
10. Students' access to instructional tasks requiring complex thinking is enhanced when linguistic complexity and instructional support match their levels of language proficiency.  
Gottlieb, Katz, & Ernst-Slavit (2009); Gibbons (2009, 2002); Vygotsky (1962)

The EL Standards Performance Level Rubric profiles the general stages of language acquisition, as well as continuums related to:

- i. social language (language used for social interactions, e.g., to communicate feelings, needs, wants, directions)
- ii. receptive language (reading and listening to understand the words, sentences and meaning of what others say or what is read)
- iii. expressive language (writing and speaking to put thoughts into words and sentences in a way that makes sense and is grammatically accurate)
- iv. access to grade-level curriculum (having the receptive, expressive, and social language skills necessary to engage in on-grade academic tasks)

These constructs are constantly at play as communication happens in any classroom and/or content area (math, science, social studies, ELA, etc.). To better understand and support your ELs, ask yourself where they would fall on the various parts of this rubric. A common occurrence is that a student's social language is more developed than their receptive language, and that receptive language is often more developed than expressive language.

These standards create a foundation upon which successful English language instruction is built. They frame expectations of “what students need to know and be able to do” at an advanced level of English fluency and how that relates to a mastery level. Each standard has a description of various touch points of proficiency along a continuum of performance so language acquisition can be understood. Student performance with any given standard is described increasing capacities ranging from: “beginning/level 0” < “emerging/Level 1” < “developing/level 2” < “approaching/level 3” < “proficient/level 4” < “mastery/level 5”. By using these performance descriptors as a lens to understand “what a student CAN DO,” a teacher can design instruction based on a student’s strengths and commensurately support the student through level-appropriate scaffolding and sensory, graphic, and interactive instructional techniques.

To further understand the levels, it must be noted that “beginning/level 0” is not counted as a level but as the ground zero point where students begin to formally learn English. Students at this level have very little, if any, English language and will rely heavily on gestures and graphics to communicate - and may be essentially non-communicative in a “silent period.” Therefore, there are five levels of measurable production. The goal for all students, ELs and non-EL peers, is meeting the grade level standard which is captured at “mastery/level 5.” At this level, students fully and independently function with mastery of English across all grade appropriate settings and academic disciplines. However, the state’s determination of “proficiency” central to decisions regarding EL participation in Title III programming and measured through the Kansas English Language Proficiency Assessment is at “proficient/ level 4.” Performance at this level is considered “proficient” because a student demonstrates a level of advanced fluency where he/she produces language utilizing varied grammatical structures and vocabulary that

- 1) Is comparable to native speakers of the same age.
- 2) Allows independent access to grade-level curriculum and content skills.

Students advancing through the stages is a highly individualized process and timeline because acquiring an additional language is a very complex undertaking. ELs are tremendously heterogeneous and diverse. Progress in acquiring English has individual variability depending on factors such as:

- A school’s program type
- Age at which the student entered the program
- Initial proficiency level
- Native language literacy
- Linguistic and cultural background
- Life and educational experiences
- Additional needs (e.g. health, disability)

STAGES OF SECOND LANGUAGE ACQUISITION		
Stage	Characteristics	Approximate Time Frame in Each Stage*
<b>Silent/Receptive/ Pre-production Stage</b>	They have very few oral skills and may only respond nonverbally by pointing, gesturing, nodding, or drawing.	<b>0-6+ months</b>
<b>Early Production Stage</b>	They listen with greater understanding and can produce a limited number of words, phrases, and simple sentences.	<b>6 months-1+ year</b>
<b>Speech Emergence Stage</b>	They have better comprehension and produce simple sentence and make common pronunciation errors.	<b>1-3+ years</b>
<b>Intermediate Fluency Stage</b>	They demonstrate increased levels of accuracy and correctness and are able to express thoughts and feelings.	<b>3-5+ years</b>
<b>Advanced Fluency Stage</b>	They produce language utilizing varied grammatical structures and vocabulary, comparable to native speakers of the same age.	<b>5-7+ years</b>

KS STANDARDS FOR ENGLISH LEARNERS PERFORMANCE LEVEL RUBRIC					
Level 0: Beginning	Level 1: Emerging	Level 2: Developing	Level 3: Approaching	Level 4: Proficient	Level 5: Mastery
<b>Stage of Language Acquisition</b>					
Students at Level 0 are in the <b>Silent/Receptive Stage</b> . They have very few oral skills and may only respond nonverbally by pointing, gesturing, nodding, or drawing.	Students at Level 1 are in the <b>Early Production Stage</b> . They listen with greater understanding and can produce a limited number of words, phrases, and simple sentences.	Students at Level 2 are in the <b>Speech Emergence Stage</b> . They have better comprehension and produce simple sentence and make common pronunciation errors.	Students at Level 3 are in the <b>Intermediate Fluency Stage</b> . They demonstrate increased levels of accuracy and correctness and are able to express thoughts and feelings.	Students at Level 4 and Level 5 are in the <b>Advanced Fluency Stage</b> . They produce language utilizing varied grammatical structures and vocabulary, comparable to native speakers of the same age.	
<b>Using language to communicate in social contexts</b>					
Students at Level 0 have very limited or no understanding of English. They may respond nonverbally to simple English commands or questions. They may use single words to represent ideas. They may imitate verbalizations of others.	Students at Level 1 communicate in simple everyday social and routine situations by using language supports such as memorized phrases, commands, or questions. They may use simple structures correctly but produce many basic errors.	Students at Level 2 use English to communicate but have some difficulty expressing themselves completely due to limited vocabulary and command of language structures.	Students at Level 3 use English to communicate and express themselves. They begin to use and understand more complex language structures in which they are familiar.	Students at Level 4 fluently communicate and express themselves, even in new or unfamiliar settings.	Students at Level 5 fully and independently function in any English speaking environment with native speaking peers with no guidance or support.
<b>Using language to construct meaning (Reading and Listening)</b>					
Students at Level 0 have very limited or no understanding of English. They may construct meaning through illustrations, graphs, or maps.	Students at Level 1 begin to construct meaning by decoding and recognizing high-frequency words from simple texts relying heavily on pictures and illustrations. Students begin to understand basic academic and content-related vocabulary and functional expressions.	Students at Level 2 construct meaning from less complex and more literal text for which they have background knowledge and vocabulary. Students begin to use and understand general academic, content-related vocabulary and basic academic words and expressions.	Students at Level 3 construct meaning from most grade-level text with support but may occasionally have difficulty with complex or abstract concepts and expressions.	Students at Level 4 comprehend with considerable fluency and construct meaning and locate information from grade-level text. They read independently but may occasionally struggle with abstract concepts, vocabulary, or expressions.	Students at Level 5 construct meaning from grade-level text, drawing from both explicit and inferential text. They have command of technical and academic vocabulary as well as idiomatic expressions.
<b>Using language to convey ideas (Writing and Speaking)</b>					
Students at Level 0 have very limited or no understanding of English. They may be able to produce text that is copied from a model. They may draw pictures with single words to represent ideas or thoughts.	Students at Level 1 may produce minimal original text or speech with most text copied or adapted from a model. Ideas are expressed using high frequency, simple words, chunks of language, or simple phrases. Limited vocabulary and errors in writing and speaking hinder communication.	Students at Level 2 may produce original or adapted text that is generally comprehensible when simple sentence patterns and grammatical structures are used. They are developing the use of conventions, begin using some specific content words and expressions when appropriate, and vocabulary attempts to fulfill the writing purpose.	Students at Level 3 produce text and speech that are generally comprehensible with emerging cohesion of sentences and grammatical structures. There is general consistent use of basic conventions. Usage of specific and some technical content area words are attempted, and vocabulary generally fulfills the writing purpose.	Students at Level 4 produce text and speech that are related to the purpose that include a range of sentence patterns and grammatical structures. They consistently use conventions appropriately, technical and abstract content related words are appropriate, and vocabulary usage and grammatical errors do not interfere with meaning.	Students at Level 5 produce clear, well-structured texts of varying degrees of complexity, appropriate to purpose, situation, and audience. They have command of precise vocabulary, sentence patterns, and grammatical structures. Errors in writing are minimal and on par with grade level, native speaking peers.
<b>Using language to engage in grade-level content</b>					
Students at Level 0 have very limited or no understanding of English. They do not have the language skills to access grade level curriculum even with intensive accommodations and/or modifications.	Students at Level 1 do not have the language skills necessary to access grade level curriculum without intensive accommodations and/or modifications.	Students at Level 2 do not have the language skills necessary to access grade level curriculum without accommodations and/or modifications.	Students at Level 3 are able to access some grade level curriculum, but still must rely on accommodations and/or modifications in some areas.	Students at Level 4 have sufficient language skills necessary to access most grade level curriculum and content skills.	Students at Level 5 have command of language skills allowing them full access to grade level curriculum and content skills.

## Supporting English Learners in the Content Area/Classroom

### Guiding Principles for Instructing ELs

1. *Potential* - ELs have the same potential as native speakers of English to engage in cognitively complex tasks. Regardless of ELP level, all ELs need access to challenging, grade-appropriate curriculum, instruction, and assessment and benefit from activities requiring them to create linguistic output (Ellis, 2008a; 2008b). Even though ELs will produce language that includes features that distinguish them from their native-English-speaking peers, it should be the expectation that they achieve all of the KS content standards to prepare them for post-secondary endeavors.
2. *Funds of Knowledge* - ELs' primary languages and other social, cultural, and linguistic background knowledge and resources (i.e., their "funds of knowledge" [Moll, Amanti, Neff, & Gonzalez, 1992]) are useful tools to help them navigate back and forth among their schools and their communities' valuable resources as they develop the social, cultural, and linguistic competencies required for effective communication in English. In particular, an awareness of culture should be embedded within curriculum, instruction, and assessment provided to ELs since "the more one knows about the other language and culture, the greater the chances of creating the appropriate cultural interpretation of a written or spoken text" (National Standards in Foreign Language Education Project, 2006, p. 37).
3. *Diversity in EL Progress in Acquiring English Language Proficiency* - A student's ability to demonstrate proficiency at a particular ELP level will depend on context, content-area focus, and developmental factors. Thus, a student's designated ELP level represents a typical current performance level, not a fixed status. An English language proficiency level does not identify a student (e.g., "Level 1 student"), but rather identifies what a student knows and can do at a particular stage of English language development, for example, "a student at Level 1" or "a student whose listening performance is at Level 1." Progress in acquiring English may vary depending upon program type, age at which entered program, initial English proficiency level, native language literacy, and other factors (Bailey & Heritage, 2010; Byrnes & Canale, 1987; Lowe & Stansfield, 1988). Within these KS Standards for English Learners, we assume simultaneous development of language and content-area knowledge, skills, and abilities. ELs do not need to wait until their ELP is sufficiently developed to participate in content area instruction and assessment. "Research has shown that ELs can develop literacy in English even as their oral proficiency in English develops (Bunch, Kibler, & Pimentel, 2013, p. 15).
4. *Scaffolding* - ELs at all levels of ELP should be provided with scaffolding in order to reach the next reasonable proficiency level as they develop grade-appropriate language capacities, particularly those that involve content-specific vocabulary and registers. The type and intensity of the scaffolding provided will depend on each student's ability to undertake the particular task independently while continuing to uphold appropriate complexity for the student.
5. *Students with Limited or Interrupted Formal Education* - ELs with limited or interrupted formal education must be provided access to targeted supports that allow them to develop foundational literacy skills in an accelerated time frame (DeCapua & Marshall, 2011).

6. Special Needs - ELs with disabilities can benefit from English language development services (and are required to have language development goals as part of their Individualized Education Plans [IEPs]). Educators should be aware that these students may take slightly different paths toward English language proficiency.
7. Access Supports and Accommodations - Based on their individual needs, all ELs, including ELs with disabilities, should be provided access supports and accommodations for assessments, so that their assessment results are valid and reflect what they know and can do. Educators should be aware that these access supports and accommodations can be used in classroom instruction and assessment to ensure that students have access to instruction and assessment based on the KS Standards for English Learners.
8. Multimedia, Technology, and New Literacies - New understandings around literacy (e.g., visual and digital literacies) have emerged around use of information and communication technologies (International Reading Association, 2009). Relevant, strategic, and appropriate multimedia tools and technology, aligned to the KS Standards for English Learners, should be integrated into the design of curriculum, instruction, and assessment for ELs.

The *Kansas State Literacy Plan and Guide to Literacy Learning* outlines some important tasks for educators who work with ELs. These include:

- Identify whether the school atmosphere is accepting of multiple perspectives that are presented through cultural differences.
- Identify students' biographies.
- Identify the sources and kinds of supports students have at home.
- Identify the different languages spoken and how similar they are to English.
- Determine the proficiency of students in their native language and in English.
- Consider how students approach the reading process and literacy. Their idea of literacy may vary from the mainstream understanding.
- Identify if there are cultural/religious issues to be considered.
- Determine whether assessments measure ELs language understanding or content understanding.
- Determine the effectiveness of collaboration between EL teachers and homeroom teachers in making instructional and assessment decisions.

When instructional accommodations within core instruction take into account students' sociocultural, linguistic, cognitive, and academic backgrounds, the need for intervention may be greatly reduced. Pre-assessment, pre-teaching, scaffolding of instruction, and formative assessment enables teachers to best support ELs to attain lesson objectives and to develop the skills measured on summative assessments. Providing opportunities for student dialogue and interaction throughout instruction enables ELs to practice language and literacy skills, as well as sharing in the diverse perspectives and understandings among peers.

In the Kansas Standards for English Learners, decoding related standards have been included for post-primary grade levels that were deemed not applicable in the ELA Standards document because decoding/phonics is a skill set that pertains to early stages of literacy. However, many ELs who are in post-primary in age are actually in the early stages of English language literacy. Timothy Shanahan (2017) advises the following related to phonics instruction and ELs:

1. Teach phonemic awareness and phonics to ELs at the beginning stages of literacy.
2. If said students can already read in the home/dominant language, you should be able to reduce the amount of phonics that is needed to the extent that there is overlap between the two languages.
3. If students are phonemically aware in their home/dominant language that is phonetic-based and they understand the sound - symbol connection, you shouldn't have to do as much with phonics explicitly and can focus on decoding embedded in the larger realm of literacy (though there can be a benefit from focusing explicitly on those English sounds that may be unfamiliar).

Shanahan also reminds us that ELs often struggle in reading and may require some kind of intervention to give them targeted teaching. However, he says, that just because a reader is struggling doesn't automatically mean the problem is with decoding. That is especially true for ELs who are assigned to extra decoding work even when their decoding skills are adequate. For them the extra focus/intervention should be on developing English language (extra support on vocabulary, meaning, comprehension and use).

Vocabulary consists of the words we understand when we hear or read them (receptive vocabulary) and words we speak or write (expressive vocabulary). We build vocabulary by picking up words that we read or hear and through intentional word development by directly teaching vocabulary. Gathering meaning from written context is much more difficult than gaining meaning from oral language. Experiential learning is also a critical avenue in gaining vocabulary.

There are effective and ineffective methods for teaching vocabulary:

- Truly robust vocabulary instruction requires explaining and then reinforcing the meanings of words through multiple contexts and interactions with the words.
- Vocabulary instruction is maximized by focusing on learning processes and experiences that help students make connections between word meanings and ideas.
- Using visuals, having students explore phenomena, or immersing in experiential learning are robust processes that couple with students speaking with and writing with words to interact and practice them and connect the word to concepts.
- Tying the meaning of a word to how it is used, to situations where it is used and to related words creates real, physical connections and "word ownership" in the brain.
- Memorizing word definitions and word lists is not effective as there is no process or experience for students to make the connections that allow them to remember and "own" the word long term.

Drs. Isabel Beck and Margaret McKeown developed the concepts of “word tiers” in 1987. A word’s frequency of use, complexity, and meaning determines the tier in which it fits. There is more than one way to select words for tiers, and Tier 2 and Tier 3 are not all clear cut in their tier classification. Students with mature vocabularies and age-appropriate literacy skills understand and use words from all three tiers. The three tiers are:

**Domain Specific Vocabulary - Tier 3 Words:**

These are subject related, domain specific words that are plentiful in number but low-frequency use. These words are of a technical nature and are important when specific needs arise within a subject, such as having a conversation about the weather or writing a lab report in chemistry class or going to the bank to open an account. These words represent the concepts, processes, and understandings that make a subject or domain specific. There are about 400,000 words in the English language that fall into this category.

**Academic Vocabulary - Tier 2 Words:**

These are academic words that are general enough to be used across all domains but are not a part of students’ everyday social language. Tier 2 words are the words that characterize written text - but are not so common in everyday conversation. They are words needed to complete an activity or process academic tasks but they are *not* the words representing a lesson’s primary content objectives. Again, these words are academic but they are general enough to be used across all domains. They possess a higher utility than Tier 3 words. They are characteristic of a more sophisticated vocabulary or formal language. These words strongly influence speaking and reading. They are the words that increase our descriptive vocabulary and allow us to describe concepts or processes in a detailed manner. There are about 7,000 word families.

**High Frequency Vocabulary - Tier 1 Words:**

These are the basic words that appear commonly in everyday life and typically do not have multiple meanings.. Because they are used frequently in various contexts, these words are absorbed via continued natural exposure. For students who have rich experience with the English language, these words rarely need to be explicitly taught. However, for students who do not have a depth of command or exposure with English such as ELs, then direct instruction of Tier 1 words could be beneficial.

Though the various Tiers of Vocabulary are meant to support more formal registers of communication, remember that informal communication is also important to develop in the classroom. The relaxed discourse of informal communication or social language is critical for social bonding, cooperative learning, literature interpretation, and information processing. Students need to be taught the value and application of both registers.

Vocabulary instruction builds knowledge at the word and concept level. Word knowledge strategies also include using Cognates (words with common origin such as night/English and noche/Spanish), prefixes and suffixes.

**Note:** The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students. These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words for instruction. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the academic/learning goals.

The following charts contain general supports by proficiency category that classroom teachers should incorporate into lesson designs to meet the needs of English Learners. Depending on the lesson and the skills of the student, some of these supports may be more appropriate than others. At times, more than one support may need to be employed in a given lesson or part of a lesson. Also, it is important to recognize that older learners may need more support because of the increased grade-level skills expected while students are developing English skills. Research shows that it is particularly important for classroom teachers to provide structured opportunities for ELs to work/learn collaboratively with a partner and in groups.

## Classroom Supports for Beginning and Emerging Students

These supports may be appropriate for English learners at all levels of English proficiency but are particularly useful for beginning and emerging students just beginning to develop English skills (see description above). Students at this level may need more supports than students at higher levels of proficiency. Generally, supports should be determined on an individual basis and should be removed when no longer needed by the student.

### **Beginning and emerging students will need support to build VOCABULARY knowledge and skills:**

- Pre-teach vocabulary using non-linguistic representations.
- Provide a bilingual list of cognates.
- Have student identify cognates within the lesson.
- Provide bilingual dictionaries.
- Provide an anchor chart with processes
- Provide word lists/charts with definitions and illustrations.
- Provide a word bank or word wall with pictures.

### **Beginning and emerging students will need support to promote DISCOURSE and ACADEMIC TALK:**

- Ask students questions to guide thinking and engage them in discourse (Ex. "What do you know?" "Can you show me?").
- Allow for sufficient wait time for student to respond in English.
- Provide sentence frames to help students communicate thinking.
- Provide multiple opportunities to practice academic language:
  - Call backs
  - Pairs/small groups
  - Exit tickets
  - Cooperative learning activities (Ex. Numbered heads together, inside-outside circle, etc.)
- Have student prepare and practice response in writing before sharing out.

### **Beginning and emerging students will need purposeful SCAFFOLDS to access grade-level content:**

- Provide short video clips of demonstration.
- Provide formulas.
- Provide manipulatives and visuals.
- Provide sentence frames or sentence starters. Provide a list of steps and teacher modeling.
- Provide a graphic organizer.
- Use color coding to identify steps and/or words.
- Provide calculators/teach calculator skills.
- Provide skeleton/simplified notes.
- Use online resources to chunk/adjust teaching and build background knowledge.
- Provide extended time for guided practice.
- Support student use of a formula chart or interactive notebook.
- Provide examples with something familiar before moving on to the abstract.
- Provide bilingual support when available.
- Use realia.
- Pair student with a peer throughout entire activity (if possible with a student who has the same native language).

### **Beginning and emerging students may need the opportunity to DEMONSTRATE UNDERSTANDING in different ways:**

- Demonstrate knowledge using multiple representations.
- Have student respond with non-verbal cues (thumbs up/thumbs down).
- In partner work, have student respond through paraphrasing or revoicing.
- Modify assessments or assignments (Ex. Reduce the number of tasks).
- Provide extra time to practice and complete assignments.

## Classroom Supports for Developing Students

These supports may be appropriate for English learners at all levels of English proficiency but are particularly useful for students who are developing grade-level English language skills (see description above). Many of these supports are similar to supports for beginning and emerging students but over time may be able to be removed or adjusted as students increase their comprehension and production skills.

### Developing students will need support to build VOCABULARY knowledge and skills:

- Provide a word list with important terms.
- Identify vocabulary that may have multiple meanings or synonyms.
- Provide an anchor chart with illustrations and definitions.
- Provide bilingual support.

### Developing students will need support to promote DISCOURSE and ACADEMIC TALK:

- Provide multiple opportunities to practice math language:
  - Call backs
  - Pairs/small groups
  - Exit tickets
  - Cooperative learning activities (Ex. Numbered heads together, inside-outside circle, etc.)
- Provide sentence frames/sentence starters (for speaking and writing).
- Engage student in academic conversations to develop problem-solving skills.

### Developing students will need purposeful SCAFFOLDS to access grade-level content:

- Pair student with a peer.
- Share additional teacher models with student.
- Develop concepts around familiar concepts.
- Provide examples and non-examples.
- Make connections to prior learning.
- Provide time for guided practice.
- Provide manipulatives.
- Guide student use of a formula chart or interactive notebook.
- Provide formulas, worked out programs, and real life examples for student to add to notebook.
- Provide examples with something familiar before moving on to the abstract.
- Provide bilingual supports when available.
- Provide calculators.
- Provide skeleton notes.
- Provide graphic organizer.
- Use online resources to chunk/adjust teaching and build background knowledge.
- Use color coding to identify steps and/or words.
- Use realia.

### Developing students may need the opportunity to DEMONSTRATE UNDERSTANDING in different ways:

- Provide additional time to practice with scaffolds before turning in assignment.
- Encourage students to create visual models to represent what's happening in the problem.
- Modify assignments/data.

## Classroom Supports for Approaching and Nearly Proficient Students

These supports may be appropriate for English learners at all levels of English proficiency but are particularly useful for students who are nearing grade-level English language skills (see description above). At this level of proficiency student may need fewer and different types of supports although they may benefit from some of the same supports as other English learners. These supports may also be appropriate for newly proficient students who will need support particularly around academic vocabulary and discourse. Generally, supports should be determined on an individual basis

### **Approaching and Nearly Proficient students will need support to build VOCABULARY knowledge and skills:**

- Help students create vocabulary lists (with student illustrations)
- Provide word list with important terms.
- Provide bilingual dictionary/word list.
- Emphasize the use of key vocabulary in complex sentences to help student answer questions.

### **Approaching and Nearly Proficient students will need support to promote DISCOURSE and ACADEMIC TALK:**

- Provide sentence frames/sentence starters (for speaking and writing).
- Engage student in academic conversations to develop problem-solving skills.
- Emphasize the use of key vocabulary in complex sentences to help student respond.
- Provide opportunities to talk about content using cooperative learning structures.

### **Approaching and Nearly Proficient students will need purposeful SCAFFOLDS to access grade-level content:**

- Use color coding to identify steps and/or academic language.
- Provide manipulatives.
- Provide calculators.
- Provide graphic organizers.
- Partner with a peer.
- Build background knowledge.
- Make connections to prior learning.

### **Approaching and Nearly Proficient students may need the opportunity to DEMONSTRATE UNDERSTANDING in different ways:**

- Provide more opportunities for student to create his/her own problems and explain reasoning.
- Encourage student to create visual models to represent what's happening in the problem.

## Kindergarten Candidate Vocabulary Words for Instruction

The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students.

These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the learning goals.

## First Grade Candidate Vocabulary Words for Instruction

The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students.

These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words for instruction. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the academic/learning goals.

## Second Grade Candidate Vocabulary Words for Instruction

The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students.

These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words for instruction. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the academic/learning goals.

## Fourth Grade Candidate Vocabulary Words for Instruction

The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students.

These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words for instruction. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the academic/learning goals.

## Fifth Grade Candidate Vocabulary Words for Instruction

The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students.

These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words for instruction. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the academic/learning goals.

## Sixth Grade Candidate Vocabulary Words for Instruction

The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students.

These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words for instruction. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the academic/learning goals.

## Seventh Grade Candidate Vocabulary Words for Instruction

The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students.

These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words for instruction. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the academic/learning goals.

## Eighth Grade Candidate Vocabulary Words for Instruction

The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students.

These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words for instruction. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the academic/learning goals.

Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
<b>EL.SL.9-10.6</b>	<b>Effectively adapt speech to fit a variety of contexts and communication situations.</b>	Listen to various conversations and determine which is informal or formal English. Use one-word responses, short phrases, and/or simple sentences in social conversations.	Produce simple sentences during social conversations and/or classroom discussions.	Distinguish between informal and formal English. Provide some examples of when to use formal English.	Recognize a context or task that requires formal English and use that register.	Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate.
<b>EL.SL.9-10.7</b>	<b>Accurately and effectively use standard English grammar and usage when speaking.</b>	Use basic nouns and verbs to describe familiar surroundings and actions.	Use basic language that includes frequently occurring nouns, verbs and prepositions in simple sentences. (Subject-verb agreement may not be correct.)	Use a variety of phrases and clauses to add variety and interest with correct subject-verb agreement.	Demonstrate command of the conventions of standard English grammar and usage by speaking in parallel structure and utilizing various phrases and clauses to add variety and interest.	Demonstrate command of the conventions of standard English grammar and usage when speaking. a. Use parallel structure. b. Use various types of phrases (noun, verb, adjectival, adverbial, participial, prepositional, absolute) and clauses (independent, dependent; noun, relative, adverbial) to convey specific meanings and add variety and interest to writing or presentations.

<b>EL.SL.9-10.8</b>	<b>Use a variety of context-appropriate words in a range of situations, and engage in effective strategies for determining word meanings and adding new words to a personal vocabulary bank.</b>	Offer single-word responses that indicate agreement or disagreement, draw, and/or point to pictures of common items found within a school and/or home environment. Repeat names of these frequently used words or remain in silent period absorbing surroundings.	Acquire high-frequency words and names of common items found within a school, home, and/or other familiar surroundings.	Acquire and produce grade-appropriate academic and domain-specific words and phrases.	Acquire and use grade-appropriate general academic and domain-specific words and phrases accurately. Demonstrate independence in gathering vocabulary knowledge and considering word choice important to comprehension.	Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening the post high school level; demonstrate independence in gathering vocabulary knowledge when considering a word important to comprehension or expression.

## Ninth-Tenth Grade Candidate Vocabulary Words for Instruction

The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students.

These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words for instruction. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the academic/learning goals.

## 11th-12th GRADE ENGLISH LANGUAGE STANDARDS

Reading Standards		Level 1 Emerging	Level 2 Developing	Level 3 Approaching	Level 4 Proficient	Level 5 Mastery
		By the end of each English Language Performance Level, an English Language Learner will be able to...				
<b>EL.RF.11-12.2</b>	<b>Demonstrate understanding of spoken words, syllables, and phonemes.</b>	Produce primary sound for some of the 26 letters. Recognize some consonant and vowel sounds by saying the letter name, when prompted.	Recognize medial short vowel sounds in CVC words and long vowel sounds in CVCe words by saying the letter name and stating if the sound is short or long with support.	Identify short and long vowel sounds in spoken single-syllable words with minimal support. Decode single-syllable words by blending all phonemes with support. Identify and produce initial and medial vowels, including final phonemes in spoken single-syllable words with support.	<p>a. Distinguish long from short vowel sounds in spoken single-syllable words.</p> <p>b. Orally produce single-syllable words by blending phonemes, including consonant blends.</p> <p>c. Isolate and produce initial, medial vowel, and final phonemes in spoken single-syllable words.</p> <p>d. Orally segment single-syllable words into their complete sequence of phonemes</p>	Mastery of this standard is expected at Grade 2. The progressions are included for those students beyond Grade 2 who have not yet mastered this standard.
<b>EL.RF.11-12.3</b>	<b>Know and apply grade-level phonics and word analysis skills in decoding words.</b>	Recognize initial, medial, and final consonant sounds by pointing to corresponding printed letters and saying the letter name. Recognize medial short vowel sounds in CVC words and long vowel sounds in CVCe words by pointing to corresponding printed letters and saying the letter name. Recognize	Recognize common consonant and vowel digraphs by selecting corresponding printed ones. Decode by blending phonemes and recognize high-frequency words within simple text with support. Identify number of syllables in a single word by clapping for each vowel sound. Select correct inflectional endings for	Apply knowledge of all letter-sound correspondences with minimal support. Change word meaning by selecting appropriate grade-level common prefixes and derivational suffixes for roots with minimal support. Identify inconsistent but common spelling-sound correspondences with support. Read	Employ grade-level phonics and word analysis skills in decoding words within the lower range of the grade-level band for literal and abstract text. Change word meaning by applying appropriate grade-level affixes, including Latin suffixes (ible, able, ation) to roots with little to no support. Read unfamiliar multisyllabic	Mastery of this standard is expected at Grade 5. The progressions are included for those students beyond Grade 5 who have not yet mastered this standard.

		high-frequency words within simple text relying heavily on pictures.	roots (-ed, -ing, -s) with support.	unfamiliar multisyllabic words accurately in context and out of context with support.	words accurately in context and out of context without support.	
<b>EL.RF.11-12.4</b>	<b>Read with sufficient accuracy and fluency to support comprehension.</b>	Echo read a short sentence or paragraph to approximate the model reader in accuracy, rate, and expression.	Read decodable text with expression while relying on picture clues for accuracy and understanding with some prompting and support.	Read near grade level text with some errors and some dis-fluency while relying on strategies such as pictures, context to confirm understanding and rereading to self-correct with support, if needed.	Read on-level texts with purpose and understanding with accuracy, appropriate rate, and expression by rereading when necessary with some errors and self correction.	Mastery of this standard is expected at Grade 5. The progressions are included for those students beyond Grade 5 who have not yet mastered this standard.
<b>EL.R.11-12.1</b>	<b>Read closely through multiple interactions with a text in order to determine what the text says explicitly and to make logical inferences; cite specific textual evidence when writing or speaking to support conclusions.</b>	Point to a picture and/or a single word in response to a direct text-dependent question.	Match flagged sentences in the text to direct text-dependent questions	Cite textual evidence in response to an explicit text-dependent question.	Cite textual evidence in response to explicit or implicit text-dependent questions.	Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text, including determining where the text leaves matters uncertain.
<b>EL.R.11-12.4</b>	<b>Recognize the ways in which the author's word choice and use of figurative language deliberately influences meaning, tone, or mood within the context of the text.</b>	Match tone word or phrase from read aloud text by pointing to pictures depicting various emotions.	Match tone words and/or phrases from designated read aloud text with definitions.	Point out words and phrases used in text that strongly influence the meaning or tone .	Point out words and phrases used in text that strongly influence the meaning or tone and determine their meaning (including figurative, connotative, and multiple meaning words/phrases).	Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the impact of specific word choices on meaning and tone, including words with multiple meanings or language that is engaging.

<b>EL.R.11-12.8</b>	<b>Follow the logic of an argument based on the validity of the claim and evidence presented.</b>	Identify various parts of the world (ex. continents, countries) and the United States of America when provided with a map or globe.	Produce a single word or phrase to explain an important fact about the United States of America or the world after listening to text.	Produce complete sentences to explain the purpose or argument of an important United States of America or world text.	Present the fundamental purpose, arguments, or premises that are important for one to understand after repeated interaction with an important United States of America and/or world text.	Delineate and evaluate the reasoning in seminal U.S. and world texts, including the application of constitutional principles and use of legal reasoning and the premises, purposes, and arguments in works of public advocacy.
<b>EL.R.11-12.10</b>	<b>Apply their knowledge of language and how it works to a variety of contexts and situations.</b>	Offer single-word responses that can indicate agreement or disagreement (yes/no), draw, and/or point to pictures indicating preference of career choices.	Use vocabulary words from text to better comprehend the text and write about it.	Use knowledge about words and language to comprehend basic text and write basic text.	Use knowledge about language and how it functions to better comprehend text and write meaningful, effective text.	Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading.
<b>EL.R.11-12.11</b>	<b>Understand vocabulary and word use in a variety of contexts by consistently building knowledge of new words, as well as employing strategies for determining meanings of unfamiliar words.</b>	Use context clues or reference material (picture of elementary level) to understand words.	Determine the meaning of unknown words and phrases by using context clues or consulting reference material to understand or verify the meaning.	Determine the meaning of unknown words and phrases by using context clues or consulting reference material to understand or verify the meaning or part of speech of a word or phrase.	Determine the meaning of unknown words and phrases by using context clues or consulting reference material to understand or verify the meaning, part of speech or etymology of the word or phrase.	Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grades 11–12 reading and content, choosing flexibly from a range of strategies. a. Use context as a clue to the meaning of a word or phrase. b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech. c. Consult general and specialized reference materials, both print and digital, to find the

						pronunciation of a word or determine or clarify its precise meaning, its part of speech, its etymology, or its standard usage. d. Verify the preliminary determination of the meaning of a word or phrase.
<b>EL.RI/L.11-12.12</b>	<b>Understand word meanings, and nuances in word meanings when reading.</b>	Match a picture with a picture representing the opposite meaning.	Give a word with the same or opposite meaning when given a related word.	Demonstrate understanding of synonyms and antonyms and some figurative language.	Demonstrate understanding of figurative language, synonyms/antonyms, and nuanced meanings of words.	Demonstrate understanding of figurative language, word relationships, and nuances in word meanings. a. Interpret figures of speech in context and analyze their role in the text. b. Analyze nuances in the meaning of words with similar denotations.
<b>EL.R.11-12.13</b>	<b>Interpret meaning from a variety of texts on their own.</b>	Point to a picture or sight word in a simple story.	Read simple paragraphs and stories.	Use reading strategies, modified text to read appropriate nonfiction and literature.	Read and comprehend appropriate nonfiction and literature, including stories, dramas, and poems at the lower range of the grade-level band of quantitative and qualitative complexity for Grade 11-12.	Read and comprehend grade-level appropriate nonfiction and literature, including stories, dramas, and poems.

<b>EL.W.11-12.4</b>	<b>Create texts appropriate for specific purposes, audiences, and tasks.</b>	Produce writing that consists of copied text or simple words about an event or topic with a lot of support and scaffolding.	Produce writing that shows some organization with regard to task and audience.	Produce writing that begins to develop an idea with organization included that is relevant to the the task and audience.	Produce organized writing that develops an idea, uses the writer's voice, and is appropriate for task and purpose.	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
<b>EL.W.11-12.10</b>	<b>Accurately and effectively use standard English grammar and usage when writing.</b>	Draw or illustrate simple nouns and action verbs.	Write complete sentences. Subject/verb agreement may not be correct.	Write various types of sentences (ex. simple, compound, complex) in composing essays for appropriate tasks and purposes.	Write using the conventions of standard English grammar. a. Vary sentence composition for effect. b. Apply knowledge that written language usage changes over time and according to task, purpose, and audience.	Demonstrate command of the conventions of standard English grammar and usage when writing. a. Vary syntax for effect, consulting references for guidance as needed. b. Apply the understanding that usage is a matter of convention, can change over time, and is sometimes contested. c. Resolve issues of complex or contested usage, consulting references as needed.
<b>EL.W.11-12.11</b>	<b>Accurately and effectively use the mechanics of standard English for the purpose of productive communication.</b>	Capitalize sentence beginnings. Use end punctuation, although some errors may be present or use may be inconsistent.	Use capitalization correctly. Use end punctuation although some errors may be present or use may be inconsistent. Spelling errors may be evident.	Demonstrate correct capitalization, punctuation, and spelling, including usage of hyphens.	Demonstrate command of standard English capitalization, punctuation, and spelling when writing. a. Hyphenation conventions may be used, but with errors. b. Most spelling is correct.	Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing. a. Observe hyphenation conventions. b. Spell correctly.
<b>EL.W.11-12.12</b>	<b>Write routinely over varied time frames for a range of tasks, purposes, and audiences.</b>	Draw or illustrate to express thoughts. Copy and/or write words/phrases for a purpose over short time frames. Invented spelling may be used.	Demonstrate ability to use written expression through simple sentences. A mix of words and drawings or illustrations may be used.	Write complete sentences to form a paragraph for a discipline-specific task and audience over an extended time frame.	Write well-organized cohesive paragraphs appropriate to task, purpose and audience.	Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes.

<b>EL.SL.11-12.1</b>	<b>Engage in civil discourse, and express original ideas professionally, clearly, and persuasively in a variety of settings and with diverse partners who both agree and disagree with their point of view.</b>	Offer single-word responses that indicate agreement or disagreement (yes/no).	Respond in simple sentences when addressed and show engagement even with limited participation. Follow the rules of discussion.	Participate in the discussion by exchanging ideas and comments and responding to and/or asking questions.	Follow the format of the discussion and participate in conversations through multiple exchanges building on others' ideas or expressing their own.	Fully participate in collaborative discussions, exchanging ideas, comments, questions, information and observations fluently.
<b>EL.SL.11-12.2</b>	<b>Synthesize information presented in diverse media and formats, assessing its relevance and accuracy according to purpose and audience.</b>	Engage with media to comprehend a topic through pictures.	Engage with media to learn information about a topic. Express facts learned in a few words and/or simple sentences.	Combine multiple sources of information and evaluate the accuracy of each source.	Combine multiple sources and formats of information to make decisions and solve problems. Know to utilize credible sources and data.	Integrate multiple sources of information presented in diverse formats and media in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.
<b>EL.SL.11-12.3</b>	<b>Objectively assess the relevance, accuracy, and validity of a speaker's claim and supporting evidence.</b>	Provide a basic written, drawn, or spoken explanation about the speaker's topic.	Identify the speaker's argument/main point of view or emphasis.	Identify the speaker's argument, main point of view and emphasis and some powerful words used.	Identify the speaker's point of view, reasoning and evidence, powerful words, point of emphasis and general tone or feel of the speech.	Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.
<b>EL.SL.11-12.4</b>	<b>Prepare a variety of presentations, each with a clear line of reasoning, meaningful organization, appropriate style, including information,</b>	Draw a picture or provide a basic description of a personal experience.	Produce an opposing viewpoint using a supporting detail for a specific audience.	Present information from one point of view supported with clear evidence for a specific purpose and audience.	Present information that includes opposite viewpoints supported by evidence and that is clear and appropriate to purpose and audience.	Present information addressing opposing viewpoints and using supporting evidence, clearly, concisely, and logically for a specific purpose, audience, and task.

	<b>findings, and supporting evidence suitable to a specific purpose and audience.</b>					
<b>EL.SL.11-12.6</b>	<b>Effectively adapt speech to fit a variety of contexts and communication situations.</b>	Listen to various conversations and determine which is informal or formal English. Use one-word responses, short phrases, and/or simple sentences in social conversations.	Produce simple sentences during social conversations and/or classroom discussions.	Distinguish between informal and formal English. Participate in role playing scenarios and decide which register is appropriate.	Demonstrate fluent command of English appropriate to a variety of situations and tasks.	Adapt speech to a variety of contexts and tasks, demonstrating a command of formal English when indicated or appropriate.
<b>EL.SL.11-12.7</b>	<b>Accurately and effectively use standard English grammar and usage when speaking.</b>	Use basic nouns and verbs to describe familiar surroundings and actions.	Use basic language that includes frequently occurring nouns, verbs, and prepositions in simple sentences. (Subject-verb agreement may not be correct.)	Produce various types of sentences (ex. simple, compound, complex) in presentations for appropriate tasks and purposes.	Demonstrate command of the conventions of standard English grammar and usage when speaking. a. Vary sentence composition for effect. b. Apply knowledge that spoken language usage changes over time and according to task, purpose, and audience.	Demonstrate command of the conventions of standard English grammar and usage when writing or speaking. a. Vary syntax for effect, consulting references for guidance as needed. b. Apply the understanding that usage is a matter of convention, can change over time, and is sometimes contested.
<b>EL.SL.11-12.8</b>	<b>Use a variety of context-appropriate words in a range of situations, and engage in effective strategies for determining word meanings and adding new words to a personal vocabulary bank.</b>	Offer single-word responses that indicate agreement or disagreement, draw, and/or point to pictures of common items found within a school and/or home environment. Repeat names of these frequently used words or remain in silent period absorbing surroundings.	Acquire and produce high-frequency words and names of common items found within a school, home, and/or other familiar surroundings.	Acquire and produce grade-appropriate academic and domain-specific words and phrases.	Acquire and use grade-appropriate general academic and domain-specific words and phrases accurately. Demonstrate independence in gathering vocabulary knowledge and considering word choice important to comprehension.	Acquire and use accurately general academic and domain-specific words and phrases, sufficient for the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

## Eleventh-Twelfth Grade Candidate Vocabulary Words for Instruction

The Tier 2 and 3 words, nor the Tier 1 words for that matter, included in this document are NOT included as lists of words to be memorized. They are included because they are words found in the various Kansas Academic Content Standards documents (ELA, Math, Science and History-Government and Social Studies) or other academic words that students might not know which are important to the grade level standards and useful in helping students understand the content or exercise the skills of those disciplines. They are included to raise awareness of the vocabulary capacity students need to comprehend and communicate about the Kansas Academic Standards at their grade level. They represent the real demand of the English language in our schools. They reinforce that vocabulary instruction is not only imperative for ELs, it is important for all students.

These tiered lists are simply candidate words for instruction. Thinking in terms of tiers is just a starting point to vocabulary instruction - a way of framing the task of choosing candidate words for instruction. The task of choosing words is one meant to be executed at the classroom level so it can match the student need with the academic/learning goals.

## Questions and Answers

The hope is these Kansas Standards for English Learners provide guidance and insight into key matters and effective practices. However, the document may not answer all questions so with that in mind, here are some questions you may have about English learners in your classroom:

Q: How do I know the proficiency level of an English Learner in my class?

A: It is important to learn the proficiency level of the English Learners (ELs) in your class. The staff in charge of the English Learner program in your district or school can help you obtain this information. Included in this document is an EL Performance Level Rubric that profiles the general stages of language acquisition, as well as continuums related to social language, receptive language (reading and listening), and expressive language (writing and speaking). These constructs are critical in any content area (math, science, social studies, etc.). This rubric may inform teachers of the productive and receptive skills of students. Please note that levels of proficiency are fluid and at any point a student may demonstrate more or less proficiency in different domains.

Q: How long will English learners be in each level?

A: Students move through proficiency levels at various timelines. Typically, students will be at lower levels of proficiency for a shorter period of time and stay at a progressing level for more time. However, many factors influence student's proficiency levels including, but not limited to: age, prior schooling, initial English proficiency level, amount of English they are immersed in each day, etc.

Q: How do I know which supports are appropriate?

A: First, talk with someone in the district on the ELL team who understands language acquisition. They can provide information around supporting students in the classroom. Teachers can also use the *Leveled Classroom Supports for ELs* charts included in this document as guides for providing supports during their lessons. These charts would be excellent to utilize in a PLC setting, as well.

Q: How long should English learners get supports?

A: That depends on the student. Supports are meant to be applied on an individual basis to help students access grade level content and should be gradually removed as students demonstrate grade level knowledge and skills.

Q: What does it mean that an English Learner is proficient?

A: A student is proficient when he or she has attained a level of English language skills necessary to independently produce, interpret, collaborate on, and succeed in grade-level content. A student's proficiency is measured on the Kansas EL Assessment and a proficient score is all 4's or 5's on the reported areas.

Q: Is it still appropriate to provide supports to English Learners who are proficient?

A: Yes. Proficient students, while no longer receiving supports from the English language program, may still need support in the general education classroom. For example, students may still need support accessing certain academic vocabulary and content-specific knowledge and skills. These students may have been able to "exit" the EL program by receiving all 4's on the Kansas EL Assessment which means they are considered "proficient." However, they have not reached the grade-level goal of "mastery/level 5" where they fully and independently function with mastery of English across all grade appropriate settings and academic disciplines.
