Kansas USDs Transportation Data

The School Finance Section of the Kansas State Department of Education has compiled selected data regarding the transportation of students.

This report contains information on the number of: pupils transported; bus drivers; bus accidents; district-operated bus routes; contracted bus routes; and the miles traveled and costs for various bus routes.

We hope this report will be helpful to school boards, school administrators, and others interested in the transportation statistics of local public school districts.

Dale M. Dennis
Deputy Commissioner
Fiscal and Administrative Services

Craig Neuenswander
