Purpose of the Educator Data Collection System and Licensed Personnel Report

The purpose of the Educator Data Collection System is to collect information about the professional and demographic characteristics of district staff across the state of Kansas. The data is collected and compiled in aggregate form for use by educational researchers, school districts, the KS Board of Education, and the United States Department of Education.

The Licensed Personnel Report is a submission of the data entered in the Educator Data Collection System. All positions requiring a licensed staff member should be reported with the assignment(s) from the Educator Data Collection System. The Licensed Personnel Report will provide data needed by the Kansas State Department of Education to make evaluations of all licensed staff to satisfy statutory and/or regulatory requirements.

The Educator Data Collection System and Licensed Personnel Report User Manual has been developed to guide school districts through the web application and report and to answer questions. The Educator Data Collection System and Licensed Personnel Report web application also has an online HELP section to assist districts as needed. Questions regarding the Educator Data Collection System and Licensed Personnel Report should be direct as follows:

Licensure files are stored in the Teacher Education and Licensure database using social security numbers. Once an educator has submitted an application with KSDE, they are issued an educator identification number. Therefore, the social security number and/or educator identification number in the Educator Data Collection System must match the accompanying numbers in the Teacher Education and Licensure database.

You may search for a group or an individual with the following categories:

- Building
- Social Security Number
- Educator ID
- Date of Birth (DOB)

Staff Assignment Report:

The Staff Assignment Report (SAR), also known as the “kick-out” report, lists licensed staff that is not qualified, not fully qualified or not highly qualified for their assignments. The data collected from the Licensed Personnel Report is released to the public in aggregate form on the building and district report card each fall. The data is also used to determine if a district and/or building meets the QPA Quality Criterion 5 and/or No Child Left Behind highly qualified teacher requirements.

Please review the Staff Assignment Report for errors. In some cases a social security number, name, assignment, and/or grade level may have been entered incorrectly.

You can access the licensure information for staff members on the Licensure Lookup page of the KSDE website at <https://svapp15586.ksde.org/TLL/SearchLicense.aspx>

The Staff Assignment Report is based on licensure/certification records. These records change daily. Corrections made to the Licensed Personnel Report can be verified the following day. Staff members hired since the submission of your 2009-2010 Licensed Personnel Report should be added at this time. Do not delete a staff member who has left since the beginning of this school year. Staff members who have left the district should be removed during next school year’s reporting process.

QPA Quality Criterion 5 – Licensed and Fully Certified Staff or KAR 91-31-32 (c) (5) states that “100% of the teachers assigned to teach in those areas assessed by the state or described as core academic subjects by the United States Department of Education, and 95% or more of all other faculty, fully certified for the positions they hold.

- United States Department of Education core academic subjects are: mathematics, English language arts, reading, social studies, civics/government, foreign language, fine arts, economics, history, geography, science, and elementary education.

No Child Left Behind, Title IX, Section 9101 (23): The term ‘highly qualified’ (A) when used with respect to any public elementary or secondary school teacher teaching in a State means that:

- the teacher has obtained full State certification as a teacher or passed the State teacher licensing examination, and
- holds a license to teach in such State, except that when used with respect to any teacher teaching in a public charter school, the term means that the teacher meets the requirements set forth in the State's public charter school law; and
- the teacher has not had certification or licensure requirements waived on an emergency, temporary, or provisional basis

Staff Assignment Report Definitions:

Staff Assignment Report – Possible Flags:

Not Licensed:

The staff member is not certified / licensed or has an expired certificate/license. Issuing payment for services is a statutory violation (K.S.A. 72-1390). Consult your school district legal representation for corrective action. The flag is a violation of QPA Quality Criterion 5 and NCLB highly qualified (if in a core academic subject).

If the social security number has been entered incorrectly in the Licensed Personnel Report, the staff member will be flagged as “not licensed.”

Licensed – Unqualified:

The staff member holds a standard* or non-standard** license / certificate but does not hold the correct subject and/or grade level endorsement for the listed assignment. The flag is a violation of QPA Quality Criterion 5 and NCLB highly qualified (if in a core academic subject).

Licensed with Provisional Endorsement – Qualified:

The staff member holds a Kansas license with a provisional subject endorsement. The flag is NOT a QPA Quality Criterion 5 violation. If the assignment is in a core academic subject, the flag is a violation of NCLB highly qualified.

Non-Standard** License – Qualified:

The staff member holds a non-standard license/certificate with the correct subject and grade level endorsement for the listed assignment. The flag is NOT a QPA Quality Criterion 5 violation. If the assignment is in a core academic subject, the flag is a violation of NCLB highly qualified unless they have completed content testing and gained licensure from their origination state OR if they hold a restricted teaching license.

Licensed with Waiver:

The staff member holds a standard* or non-standard** license / certificate without the appropriate subject or grade level endorsement, but the school district has been granted a waiver allowing the individual to serve in the assignment. The flag is NOT a QPA Quality Criterion 5 violation. If the assignment is in a core academic subject, the flag is a violation of NCLB highly qualified.

Not HQ for Assignment:

The staff member is licensed / certified with the correct subject and/or grade level for the assignment, but has not met the federal “highly qualified” requirement for NCLB. The district should monitor this individual and resubmit the Kansas Content Rubric or Special Education/ESOL HOUSSE checklist once the individual has met the requirements.

*Standard License – initial license, professional license, accomplished license, 3-year certificate, or 5-year certificate

**Non-Standard License – interim alternative license, restricted teaching license, one-year non-renewable teaching license, exchange license, or transitional license,

Frequently Asked Questions

Should I report non-licensed professionals?

No, the licensed personnel report only collects data on faculty licensed by the Kansas State Board of Education. You will not report non-licensed professionals such as Junior ROTC instructor, Nurse, School Audiologist, Social Worker, Speech Pathologist, Occupational Therapist, Physical Therapist or Athletic Director.

What is included in salary?

Base salary is the amount of the base contract. It does not include any supplemental contracts or any board paid fringe benefits.

Salary + supplemental & fringe = TOTAL SALARY. It includes base salary, supplemental contracts and board paid fringe benefits.

Board paid fringe benefits (employer paid) include group life, group health, disability income, accidental death and dismemberment and hospital surgical, and/or medical expense insurance (do not include employee reduction benefits under Section 125 plans). Board paid fringe does not include social security, workers' compensation and unemployment insurance.

We are still in salary negotiations. Do we have to complete the salary section? If so, what salary do we use?

Yes, you need to complete the salary section. If salaries have not been determined for this school year, use last year's salaries. Once salaries are determined, update at that time.

How do I report a substitute teacher?

If a teacher is employed full time and happens to have a substitute license, the teacher should be reported the same as any other faculty member. List the teacher's actual assignment(s) and the number of classes per assignment.

If the substitute is employed as a full time contracted substitute, list the assignment as substitute-contracted. If the substitute works "on call", do not report the substitute in this report.

How should teacher assignments be determined?

The assignment should be the actual position held by the staff member. The assignment may or may not be the same as the endorsement(s) on the license.

Should duplicate assignments be listed?

No, do not list duplicate sections of the same assignment. Use the "number of classes" box to report this information.

How should I count number of classes?

Consider an elementary classroom as one class. Consider elementary music, art, physical education and other specialty teachers and support staff as one class per building. In middle schools, junior highs and high schools count the total classes taught per assignment. The total classes taught should not exceed the FTE for the faculty member.

What is a CIP code and how do I find out which CIP code to select for the .5 funded courses?

The CIP code is assigned by the Career and Technical Education staff at KSDE. It is a funding code and a program approval code. If you can't locate the code, call the KSDE Career and Technical Education team at 785-296-3951 or log on to the CaTE system.

How do I report licensed teaching personnel employed by a cooperative, inter-local or service center?

All licensed teaching personnel in a USD sponsored cooperative program or inter-local must be reported by the district where the staff member actually works. The same policy applies to service centers.

How do I report licensed staff that works in more than one district?

An employee who is employed by more than one USD should be reported in the following manner. The employee's FTE and salary should be prorated and reported by each district accordingly.

How do I report hourly rate staff?

Report an estimated salary for employees who work at an hourly rate.

Should salaries be prorated for full-time or part-time personnel who teach in more than one building?

No, do not prorate salaries for either full-time or part-time personnel who work in more than one building. Salary information is on the Staff Profile section, not the FTE section.

What grade levels should be listed for administrators, directors, supervisors, and support staff personnel?

Administrators, directors, supervisors, coordinators and other support personnel assignments should be reported with the appropriate grade levels for the assignment. *However, do not check PreK.* Check all levels K-12 for district superintendents. Enter PreK assignments separately. Do check the PreK box for preschool or early childhood special education teaching assignments.

Should study hall, planning periods or activity periods be listed?

No, these assignments no longer appear in the assignment list. We only collect data on classes that require a licensed teacher. Teachers assigned to "In-School Suspension" should be included in the report.

Should we submit a printed copy of the report?

No, the report is submitted via the Educator Data Collection System web application. Do not send a printed copy. You may want to print a copy of the report for your district records.

Do we still get a "kick-out" report or turn around document?

Yes, the "kick-out" report is called the Staff Assignment Report (SAR). The SAR is an electronic report. We no longer mail reports to districts. Select the Staff Assignment Report from the Side Bar Menu.

Appendix A: Race/Ethnicity Sample Letter

Sample Staff Letter

To All School District Staff:

In order to comply with federal reporting requirements, every school district in Kansas is required to annually report employee data by race and ethnicity categories to the Kansas State Department of Education (KSDE). KSDE does not report individual data to the federal government but does report the total number of educational staff in various categories in each school.

The federal government recently adjusted the reporting categories for race and ethnicity, and all staff members are being asked to update their information. With the new reporting categories, individuals must identify themselves by ethnic group (either Hispanic/Latino or not Hispanic/Latino) **and** by *one or more* racial groups (American Indian/Alaska Native, Asian, Black/African-American, Native Hawaiian/Other Pacific Islander, White).

Please update your information by completing the enclosed form and sending it to your school principal by [DATE]. If you have left the item blank or refused to self-identify, observer identification will be used.

For more information about the data reporting categories, please visit the Race/Ethnicity Regulations page at the KSDE website under News/Publications. The URL address is as follows:
<http://www.ksde.org/Default.aspx?tabid=3370>.

Sincerely,

[NAME OF SUPERINTENDENT]
Superintendent of Schools

Appendix D: Data Import

File Format Instructions:

All districts have the ability to upload their personnel data directly into the Educator Data Collection System web application. If you choose to import your data, the data file(s) must be either a tab delimited or comma delimited file.

- The data must be divided into separate files and uploaded in the following order:
 - Staff data
 - F.T.E. data
 - Assignment data

Importing Instructions:

1. On the Side Bar Menu choose "Import Text Files"
2. Under the heading "Import from a text file (format must meet standard established by Department of Education)" type in the full path and file name of the file to be imported.
OR Press the "Browse" button. The "Choose File" window should pop up. Navigate to the file, select the file and click on the "Open" button.
3. Press the "Upload" button. You should receive a message indicating that your data was imported successfully.
 - a. You may receive an error message indicating that the import was not successful and an error description. This will be followed by a message indicating the line number of the record on which the error occurred. After that there will be a message showing the record's contents. **Make note of all three messages.**

If an error occurs, the most likely causes are as follows:

1. Improper field layout or content. An error message that includes the phrase "Type mismatch" would be an indication of this.
