*There is an overlap in the submission window for courses in KCCMS, assignments to educators in EDCS, and STCO records in KIDS. There is a period of time (the time varies depending on the system) that the system will accept both the prior year data _and_ the current year data. It is important that careful attention be paid to the year the data is being associated with during that period of overlap.

**Data collected on CTE courses in the KIDS STCO collection by June 15th will be available in the Pathways system for the assigning and updating of students. The deadline for completion of those updates is August 15th.
