28.2.2	Analyze the role of professional organizations in the forecasting trend process.				
28.2.3	Illustrate color forecasting.				
28.2.4	Explore form vs function as it relates to fashion, apparel and textile products.				
28.2.5	Demonstrate ability to select fibers for best application as determined by consumer need, trend, form and function.				
28.2.6	Analyze trends using principles and elements of design.				
28.2.7	Predict trends which are examples of good design and based upon valid influences.				

Benchmark: 28.3 Demonstrate technical knowledge and skills of equipment and procedures used in fashion and apparel.		3	2	1	0
28.3.1	Generate design that takes into consideration environmental, technical and differing price points.				
28.3.2	Demonstrate graphic communications skills in sharing trends with a variety of audiences.				
28.3.3	Prepare visual presentations which use scale, legend and symbols accurately.				
28.3.4	Analyze the relationship of the trend setter, mass production, manufacturing and selling of apparel products.				
28.3.5	Demonstrate ability to think ecologically through recycle, redesign and sustainable design thinking.				

Benchmark: 28.4 Develop career readiness in the fashion, apparel and textile industry.		3	2	1	0
28.4.1	Participate in civic/community leadership and teamwork opportunities to enhance customer relation skills (i.e. FCCLA).				

28.4.2	Interpret directions to appropriately use tools, follow procedures and establish foundational industry work habits.				
28.4.3	Create a reference of reliable sources of information (informational texts, internet, and/or technical materials) to review and apply in completing design or production assignments.				
28.4.4	Develop personal goals and objectives, including prioritizing tasks to be completed using timelines and time management knowledge and skills to improve workflow and meet deadlines.				
28.4.5	Generate new and creative ideas to solve problems by brainstorming possible solutions in lab settings.				
28.4.6	Compare and contrast the cost of doing business across price points (e.g. constructing, manufacturing, altering, or repairing textile, apparel, and fashion products, how to set pricing for fashion design work).				
28.4.7	Demonstrate safe work habits and procedures, including injury protocol, for reporting and handling accidents and safety incidents in a production lab. (i.e. electrical equipment, use of technology, cutting tools, storage of equipment, first aid, etc.)				
28.4.8	Demonstrate ability to communicate and resolve conflicts with a diverse classroom setting independently.				
28.4.10	Manage personal work habits to accomplish assignments.				
28.4.12	Create an electronic or physical portfolio for use in demonstrating knowledge, skills and experiences to include evaluations of garments, product samples, and pictures of completed work.				
28.4.13	Communicate fashion, apparel and textile knowledge to others.

COMPREHENSIVE STANDARD: 26.0 Apply foundational knowledge, skills and practices required for careers in fashion, apparel and textiles.

Benchmark: 26.1 Understand the nature of the fashion and apparel industry.		3	2	1	0
26.1.1	Analyze the production process of a garment from design to show room floor.				
26.1.2	Analyze the cost of constructing, manufacturing, altering, or repairing textile, apparel, and fashion products.				

Benchmark: 26.2 Demonstrate foundational understanding of fashion, apparel and textiles.		3	2	1	0
26.2.1	Understand basic textile terminology including weft, warp, selvage, bias, woven, knitted, felting, nap, hand and sheen.				
26.2.2	Understand the effects of textile characteristics (i.e. natural vs man-made fiber, color, pattern, weave/knit, etc.) on design, care, use, and maintenance of products.				
26.2.3	Describe manufacturing processes of textile fiber and fabrics and fabric finishing to determine appropriateness to construction qualities. (i.e. woven vs knits/looping, felting, dyeing vs printed pattern, soil resistance, microfiber)				
26.2.4	Explain the ways in which fabric selection influences garment design (i.e. fiber, fabric characteristics, texture, pattern, and finish).				
26.2.5	Use correct terminology for identifying, comparing, and analyzing the most common textile fibers.				
26.2.6	Understand textile labeling information in regards to apparel construction textiles.				
26.2.7	Identify appropriate procedures for care of textile product.				

Benchmark: 26.3 Demonstrate foundational knowledge and skills of equipment and procedures used in fashion and apparel.		3	2	1	0
26.3.1	Demonstrate basic understanding of construction content and technical vocabulary (i.e. pattern symbols, notch, baste, seam allowance, grade, trim, backstitch, darts, topstitch, basic hand stitches, basic overlock, hems & casings, zipper applications, etc.).				
26.3.2	Interpret product information and operational documents such as pattern envelopes, guide sheets, pattern symbols and textile labeling.				
26.3.3	Reference reliable sources of information and use informational texts, internet, and/or technical materials to determine-a quality apparel product.				
26.3.4	Analyze impact of failing to follow data and measurements to solve a sewing construction problem (i.e. incorrect sides of fabric sewn together, skipping a step of the construction process, incorrect measurement, wrong seam allowance width, etc.)				
26.3.5	Demonstrate skills in using a variety of production equipment, tools, and supplies according to user manuals and instructions given for fashion, apparel, and textile construction; as well as the alteration, care and repair of garments.				
26.3.6	Interpret tables, charts, and figures from a pattern envelope or instruction guide sheet to support the garment production process.				

Benchmark: 26.4 Enhance career readiness in the fashion, apparel and textiles industries.		3	2	1	0
26.4.1	Participate in civic/community leadership and teamwork opportunities to enhance customer relation skills (i.e. FCCLA.)				

26.4.2	Demonstrate knowledge of basic arithmetic operations such as addition, subtraction, multiplication, division and working with fractions when measuring, for the apparel production process.				
26.4.3	Use structured problem-solving methods and critical thinking skills when developing solutions for a garment construction problem.				
26.4.4	Develop personal goals and objectives, including prioritizing tasks to be completed using timelines and time management knowledge and skills to improve workflow.				
26.4.5	Demonstrate safe work habits and procedures, including injury protocol for reporting and handling accidents and safety incidents in a production lab. (i.e. electrical equipment, cutting tools, storage of equipment, first aid, etc.)				
26.4.6	Demonstrate ability to communicate and resolve conflicts in lab settings.				
26.4.7	Working with others in lab settings, and using positive interpersonal and teamwork skills, achieve personal project objectives in a timely manner (i.e. project management: follow directions, take responsibility, respect for others and cooperation).				
26.4.8	Manage personal work habits to accomplish assignments.				
26.4.9	Communicate goal achievement with teachers and peers.				
26.4.10	Create an electronic or physical portfolio for use in demonstrating knowledge, skills and experiences to include evaluations of garments, product samples, and pictures of completed work.
