D) **THIS IS THE TIME FOR THE MODERNIZATION AND IMPROVEMENT OF OUR WORK**

A) **THERE IS A CALL FOR CHANGE**

A change in:

How children are taught.

How teachers are prepared.

How children are identified for special education.

How we use research for informing instruction and behavior.

---- And if I may be so bold ----

How to get along and build positive, productive relationships.

B) **IMAGINE THIS**

1) **You're a mouse running across an elaborately decorated rug.**

- a) The ground would merely be a blur of shapes and colors.

5) **This is not a complaint...but a report –**

- a) Relationships have our attention in many ways that they never did before,

6) **Tougher to know how to belong...**

- c) **Or...to *want* to belong.**

- 7) **There are individuals who we encounter in our work,**
 - a) Who manage to change the nuances and subtleties of debate.
- 8) **Into black /or white rigidities.**
 - a) With the personal derogation of those who dare to disagree.

This is almost the last thing his son had done. When at this moment, it is this very word that hung in the air, he got up and had gone down the stairs to his death.

If one could have cried then, **don't go down**, if one could have cried **stop... there is danger**. But there was no one to cry.

No one knew then what so many knew now. That these thoughts were unprofitable.

It is our habit to dwell on what might have been, but what could never be.

There is no point in imagining that if one had been there...

One could have prevented the thing that happened...only because it had not been prevented.

It is the pain that did that...that compelled one to these unprofitable thoughts.
