

Teaching and Training Pathway Courses
Descriptions, KCCMS Code and Credit Value

Introductory Level Courses:

22207—(Kansas title) Career and Life Planning (.5 cr)

(SCED Title: Self-Management)

Description: Self-Management courses introduce students to the skills and strategies helpful in becoming more focused, productive individuals. These courses typically emphasize goal-setting; decision-making; managing time, energy, and stress; and identifying alternatives and coping strategies. They may also allow students to explore various career and lifestyle choices.

45001--Introduction to Family and Consumer Sciences (1.0 cr)

(Kansas developed course)

Description: Introduction to Human Services B offers a look into the many occupations (paid and unpaid) linked to providing for the basic needs of children, individuals and families. Occupations will include nutrition educator, child care provider, social worker, foster parent, credit counselor, geriatric care provider, senior citizen care director, food service provider, restaurant manager, culinary artists, interior/textile designer, event planner and family and consumer sciences teacher.

Technical Level Courses:

19051—(Kansas title) Orientation to Early Childhood Development (1 cr)

(SCED title: Child Care)

[NOTE: 19051 is included as an alternative for Human Growth and Development. Teaching and Training is K-12 education in focus and not early childhood has this indicates. The Early Childhood Development and Services (EDCS) pathway embraces the birth to age 5 occupations,

including early learning. ECDS should be used if your school is wanting to offer early child education experiences.]

Description: Child Care courses provide students with knowledge about the physical, mental, emotional, and social growth and development of children from birth through childhood. Main topics include the fundamentals of working with infants, toddlers, and older children; providing healthy environments; evaluating child care settings; and the practices, regulations, and opportunities in the child care industry. Often, Child Care courses provide students with practical experience in a child care center. Advanced topics may include various learning theories; development of activities; operation of a child care center; recognition of childhood diseases, abuse, and neglect; and first aid/emergency training.

19151—(Kansas Title) Teaching As a Career

(SCED title: Teaching Profession)

Description: Teaching Profession courses introduce students to the principles underlying teaching and learning, the responsibilities and duties of teachers, and the techniques of imparting knowledge and information. These courses typically expose students to and train them in classroom management, student behavior, leadership and human relations skills, assessment of student progress, teaching strategies, and various career opportunities in the field of education.

45004—Human Growth and Development A (.5 cr)

(Kansas developed course)

(NOTE: For schools who had an earlier pathway, 22204 course code was replaced with 45004 effective 2012-13 school year.)

Description: Human Growth and Development A provide students with knowledge about the physical, mental, emotional, and social growth and development of humans from conception to old age, with a special emphasis on birth through school age. Course content will provide an overview of life stages, with a strong tie to prenatal and birth processes; fundamentals of children's emotional and physical development; and the appropriate care of children.

45014—Human Growth and Development B (1.0 cr)

(Kansas developed course)

Description: Human Growth and Development B provide students with knowledge about the physical, mental, emotional, and social growth and development of humans from conception to old age and information on the occupations associated with meeting the needs of people. In addition, this course helps students discover how individuals respond to the various stages of the life span, with a strong tie to teen years, adulthood and later years.

Application Level Courses:

10260--Educational Trainer

(Kansas developed course.)

[**NOTE:** The course allows students to teach others how to use technology or software. It is not performing IT work, but the actual teaching of the “how to use” to others (e.g. community partners, teachers, fellow students).]

Description: Educational Trainer course provides instruction and practice for students who can train teachers, peers, and community individuals in the effective integration of technology. Training on various technology tools, professional demeanor, customer service, and troubleshooting are part of this course.

19152—(Kansas Title) Teaching Internship

(SCED title: Educational Methodology)

(**NOTE:** This course is commonly used to indicate the student remains in your building for the internship.)

Description: Educational Methodology courses prepare students to teach and guide others. These courses typically provide opportunities for students to develop their own teaching objectives, to design lesson plans, and to experience teaching in a controlled environment. Students examine and practice teaching strategies, learning styles, time management and planning strategies, presentation and questioning skills, classroom management, and evaluation techniques.

19198—(Kansas Title) Teaching Internship—Workplace

(SCED title: Education-Workplace Experience)

(NOTE: The course is commonly used to indicate the student leaves your building for the internship.)

Description: Education—Workplace Experience courses provide students with work experience in fields related to education. Goals are typically set cooperatively by the student, teacher, and employer (although students are not necessarily paid). These courses may include classroom activities as well, involving further study of the field or discussion regarding experiences that students encounter in the workplace.
