

PERSONAL FINANCIAL LITERACY FACT SHEET 2013-2014

Senate Bill 74, enacted by the Kansas Legislature in 2003 states: “The Kansas State Board of Education shall...

1. Authorize and assist in the implementation of programs on teaching personal financial literacy: consumer financial education, personal finance and personal credit.
2. Develop curriculum, materials and guidelines for instruction on personal financial literacy.
3. Develop standards and objectives for all grade levels within the existing mathematics curriculum or another appropriate subject-matter curriculum.
4. Encourage school districts to select those textbooks which contain substantive provisions on personal finance, including personal budgeting, credit, debt management and similar personal financial topics.”

Definitions:

KSDE recognizes the following definitions in all documents related to personal financial literacy to promote clarity and consistency across the State.

(Source: www.jumpstart.org)

“Personal Finance—the principles and methods that individuals use to acquire and manage income and assets.”

“Financial Literacy—the ability to use knowledge and skills to manage one’s financial resources effectively for lifetime financial security.”

Standards:

The Jump \$tart National Standards in K-12 Personal Finance Education have been identified as the financial literacy standards for Kansas.

(www.jumpstart.org/national-standards.html)

The overall competencies:

- Apply reliable information and systematic decision making to personal financial decisions.
- Use a career plan to develop personal income potential.
- Organize personal finances and use a budget to manage cash flow.
- Maintain creditworthiness, borrow at favorable terms and manage debt.

- Use appropriate and cost-effective risk management strategies.
- Implement a diversified investment strategy that is compatible with personal goals.

KSDE recognizes these standards are addressed in established course competencies:

Mathematics—provides prerequisite number sense and computational skills students need to study financial literacy.

Social Studies— provides a context for the importance of financial literacy and economics, though not aimed at personal financial literacy in particular, providing for the development of parallel concepts.

Family and Consumer Sciences—teaches personal financial literacy skills directly. The Consumer and Personal Finance course competencies were designed to address financial issues and consumer rights and responsibilities as it relates to individual and family decision making and lifespan goal setting.

Business—includes finance competencies in course competencies as they relate to business, finance and entrepreneurship.

Teaching Resources:

Jump \$tart provides a comprehensive collection of financial education resources. (www.jumpstart.org)

Federal Reserve Bank of Kansas City offers curriculum materials and professional development for Kansas teachers and classrooms. (www.kc.fbr.org)

Kansas Center for Economics Education offers curriculum materials and professional development for teaching economics, personal finance, and entrepreneurship. (www.councilforeconed.org/)
