Targeted Improvement Plan (TIP)
Application Requirements and Allowable Costs

KSDE Early Childhood, Special Education, and Title Services Team

IDEA CFDA 84.027
Published 04/16/2012
Amended 4/24/2012
Amended 5/23/2012
Amended 4/22/2013
Amended 4/18/2014
Amended 5/7/15
This document describes the purpose of the KSDE TIP program, how IDEA compliance & Kansas Integrated Accountability System (KIAS) Levels of Determination impact each allocation, allowable costs, budget instructions, as well as procedures for carry-over, budget revisions, and annual fiscal report completion. Near the end of this document are sample screen shots from the web-based TIP application of the budget pages and related TIP forms and reports. Applicants are required to read, review and follow this guidance when submitting each TIP application.

TIP applications must be entered through the KSDE Common Authentications Web Application portal. Persons submitting a TIP application must be registered users of the KSDE Authentication system and have prior approval and access to the IDEA LEA online Targeted Improvement Plan. Detailed instructions on how to use the online application are in the TIP User’s Guide located directly at http://www.ksde.org/Default.aspx?tabid=532 > Targeted Improvement Plan (TIP) or go to www.ksde.org >select Program and Services > Fiscal Resources > Targeted Improvement Plan (TIP).

For FY16, application approval, grant award notices, grant award acceptance, budget revision request submission and budget revision approval will be exchanged using the web based TIP application. Approval notices will come from the TIPHelp@ksde.org email address.

**TIP Program Purpose:** Targeted Improvement Plan (TIP) grants are intended to assist Kansas school districts in improving results for students with disabilities, specifically to innovate and/or sustain evidenced-based teaching practices identified through the State Performance Plan (SPP) Indicators and the Kansas Integrated Accountability System (KIAS) accountability/compliance process.

Availability of TIP funds is contingent upon the amount of the Kansas federal IDEA grant award. Amount of funding is determined through a base allocation which typically stays the same from year to year. (A number of years ago a base allocation was determined based on an LEA’s proportionate share of the total student enrollment of all LEA’s). In addition, there are supplemental funds which vary according to the sanctions and/or rewards as applied by the KSDE IDEA Kansas Integrated Accountability System (KIAS). Special education entities may submit one TIP application for identified district and cooperative work. Applications are renewable on a yearly basis.

Rewards and sanctions within the TIP take two forms: 1) supplemental Leadership Stipends are calculated as a result of an LEA’s KIAS Level of determination rating by KSDE. 2) LEAs who receive a Meets Requirement rating are rewarded by having the option to either complete a short or long form. The rewards and sanctions received are described on each LEA’s “Kansas IDEA LEA State Performance Plan Expanded Report” issued yearly in April by KSDE.
**Eligibility:** Only LEA’s that have signed IDEA Title VI-B program assurances and receive flow-through funds are eligible to apply. Each LEA must agree to implement and expend funds in accordance with the approved application and IDEA and EDGAR requirements. To be eligible for funding LEA’s must submit an application signed by an authorized representative for approval. Applications must contain allowable costs, identify the SPP indicators to be targeted, provide a detailed list of proposed expenditures, and a narrative justification describing how the expenditures will be used for activities which support the TIP program purpose. Applications are reviewed and approved yearly. LEA’s must also submit a signed grant award and an annual fiscal report prior to release of new funds.

**Application Submission:** Applicants need to be prepared to indicate which State Performance Plan indicators will be targeted. At a minimum, district SPP public reports [http://www.ksde.org/Default.aspx?tabid=520](http://www.ksde.org/Default.aspx?tabid=520) or the above referenced expanded report are to be used to identify the areas of need. Other pertinent local data can be used as well. It is recommended that applicants with complex plans and budgets draft a mock-up application with colleagues prior to online entry. Sample TIP screens are included at the end of this document for this purpose.

**Level of Determination (LOD) Stipends:** LOD Stipends are a reward for Special Education administrator(s) whose districts received a ‘meets requirements’ rating on the KIAS level of determination. The funding can be used to attend professional development opportunity(ies) of their choice. This professional development can be multi-faceted and includes conference or workshops, pursuit of an additional endorsement/license, memberships, or enrollment in a university program of study related to leadership. The professional development may occur in or out of state. The event may take place anytime covered by the terms of this grant award.

*Districts who receive a “needs assistance” or “needs intervention” KIAS level of determination rating are not eligible for LOD Leadership Stipends. The Stipend amount is reduced proportionately for each district who does not meet requirements and is a member of a cooperative, interlocal or service center.*

The amount of each LOD stipend each eligible District can receive is based upon member district enrollment and the small, medium, large district designation as used in KIAS file review process. Eligible “SO” special purpose school and/or adult corrections facilities each receive $1,000. The Leadership Stipend amount is considered a ‘supplement’ to the annual TIP base allocation and is optional. Using the parameters of the TIP application, Special Education Administrators determine how the Leadership Stipends are going to be used and apply for the funds in the TIP budget section.

**Completing the Comprehensive (aka Long) Form** Completion of the long form is mandatory for LEA’s who have received “completion of the comprehensive TIP” as LOD enforcement action. The TIP application form is preset to only offer the long form for LEAs who receive this sanction. These LEAs need to select and address cluster(s) that will help remediate the enforcement action. There are five SPP clusters. When completing the comprehensive form answer all five questions for each SPP cluster selected. The questions involve reporting on past, present and future TIP activities. All applicants are limited to the space/length provided onscreen in the online application, however, applicants are free to maintain and house a longer version in local files.
Districts who “meet requirements” have the option to select whether they want to complete the short or comprehensive/long form. All districts must select a SPP improvement area in order to improve efforts. IMPORTANT NOTE: if a district elects to complete the long form option then the long form box must be checked to activate the long form. Once selected, the TIP help desk must be contacted via email TIPhelp@ksde.org or call 785-291-3098 to reactivate/reset “short form” as an option.
Description of Allowable Costs and Budget Instructions

TIP Allowable Costs: The intent of TIP funds is to supplement and enhance services and supports being provided for learners with disabilities. TIP funds cannot supplant existing daily operating expenses of salaries, benefits, positions, supplies, equipment, or contractual items. Additional staff or faculty time may be needed to coordinate TIP activities, sustain professional development, and/or provide release time for activities/training. Participation in sustained professional development, planning time, and opportunities to collaborate with colleagues across pre K-12 partner school faculties, and across colleges and universities may be critical to achieve the stated purpose. This includes reasonable in and out of state travel, lodging, meeting supplies, materials and refreshments necessary to conducting an activity. Costs associated with training, consultants, purchase of documents/books/materials, and conducting staff recruitment and retention activities are permissible.

The purchase of furniture, construction and/or remodeling of facilities is not allowed.

Allowable Direct Costs:

Personnel Salaries/Wages
- Extra duty stipends and/or substitute costs to allow participation of educational teams of faculty administrators and their university and family partners in project activities is permissible.
- Salaries for dedicated personnel time to facilitate or coordinate improvement efforts and/or conduct sustained professional development efforts are permissible.
- Using funds to simply fill positions, meet daily caseload requirements, or fund a hard to fill position is considered supplanting and is not allowed.

Personnel Benefits
- Benefits for dedicated personnel time to facilitate or coordinate improvement efforts and/or conduct sustained professional development efforts is permissible. Benefits for substitutes, extra- duty or part time assignments related to TIP activities is also permissible.

Travel
- In-state travel to professional development related to targeted improvement strategies. Travel costs for which state general fund reimbursement is allowed (i.e. staff travel for instruction of students) may not be charged. Limited out-of-state travel is allowed if reasonable and clearly related to the targeted improvement and a part of a sustained professional development plan.

Assistive Equipment/Instructional Technology
- Computer equipment and software purchases are allowed if they are instructional in nature, or an integral tool needed for the achievement of learners with disabilities. Membership costs to the Kansas Infinitec Consortium are included in this line item.
- Cost of construction or remodeling of facilities is not allowed.

4-23-2015
Supplies
- Limited purchase of curricular and instructional materials needed for meetings in-services/workshops. This includes access to critical information needed to support professional development or student achievement such as the fee needed for an online website membership. List the types of instructional materials to be charged to the grant and the estimated cost per item or groups of items.

Contractual
- Consultant or professional development fees and expenses;
- Expenses associated with conducting meetings of school staff and community members, and university faculty, or other partners; this may include room rental and/or refreshments for the meetings; may include partial tuition reimbursement for coursework or consortium participation.

LOD Leadership Stipend
- LOD Stipends may not be reallocated to another line item. The amount cannot be combined with another line item and must be described separately. If funds are not wanted, enter a zero amount and total amount requested will be reduced accordingly. Special Education Administrators determine how the Leadership Stipends are going to be used to support leadership development. A short description of the names and types of events or classes, whether it is for registration, travel, books, materials and the estimated number participating is to be included.

Indirect Costs
- Are capped at the indirect cost rate the district has on file with KSDE. Administrative rates will vary.
- Examples are general operating costs such as use of copier/fax/office equipment, office space, accounting, phones, administrative oversight, etc.

**Formula for determining the maximum indirect costs amount that can be set aside:**

<table>
<thead>
<tr>
<th>Formula for determining the indirect costs:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Amount Requested =</td>
<td>- $125,000</td>
</tr>
<tr>
<td>b. Administrative cost rate =</td>
<td>- 5.00%</td>
</tr>
<tr>
<td>c. Administrative cost rate + 1 =</td>
<td>- 1.05</td>
</tr>
<tr>
<td>d. a ($125,000) divided by c (1.05) =</td>
<td>- $119,047.619 - Direct Cost</td>
</tr>
<tr>
<td>e. a ($125,000) minus d ($119,047.619) =</td>
<td>- 5,952 - Indirect Cost</td>
</tr>
</tbody>
</table>

**Budget Entry Instructions**

When completing the TIP budget, only the IDEA Title VI-B funding stream is to be included. The budget justification must include how expenditures are related to the applicant’s implementation of improvement strategies and activities related to SPP indicators. Proposed TIP funding amount cannot exceed the TOTAL allocation available. Total allocation available is the FY2016 base allocation plus optional leadership stipend, if eligible.

In the “Costs” column, enter a subtotal for each direct cost line item. The “Justification” field is to be a

4-23-2015
listing of the different costs and should add-up to the direct cost line item sub-total. In the “Justification” field, enter a list of the expenditure type and how amounts were calculated. The “Justification” field is text only and will not calculate numeric entries. At the end of this document is a screenshot of the budget page.

The following are examples of what would be considered a minimal level of detail expected for the:

- **Salary Line Item example:** Extra-duty stipends ($40 per day for 40 teachers) to attend professional development on literacy and numeracy. Skills of at least 40 general and special educators to instruct and provide interventions for learners with disabilities will be increased.

- **Contractual Line Item example:** Consultants ($500 x 5 days of professional fees x 3 people) to provide summer professional development related to Literacy and Numeracy for general and special education teaching teams.

- **Travel line item example:** $430 dollars per 20 persons to offset registration, lodging, mileage and per diem to attend the MTSS Symposium, Ski-Hi Intervener Summer Institute and/or a related training.

**Budget Revision:** FY2016 Budget revisions will be entered and approved using the online TIP application.

The budget revision form needs to be submitted for approval when the direct cost line item transfers exceed 10% of the grant total or an additional cost/new activity within line item expenditure is needed to achieve the TIP purpose. Instructions for submitting a budget revision are: 1) Current budget figures will auto-populate in “Present Budget” column; 2) Enter amount of desired change in “Requested Change” column; 3) Use a minus (-) sign when reducing a line item amount; 4) New or revised amounts appear in “Amended Budget” column and; 4) Equipment/tech/supplies changes require examples and justification.

**Carryover:** FY2015 Carryover will be handled outside the online TIP Application. While the online Annual Fiscal Report (AFR) contains a field for reporting carryover, a separate carryover request needs to be submitted prior to AFR submission. Submit carryover requests via email. Carryover is available for activities proposed but not completed prior to the end of the grant year or June 30th. Typically a carryover will extend the grant award for an additional 90 days through September 30th. Send an email to TIPhelp@ksde.org by June 30th with a brief description of activities proposed but not completed, the estimated amount of carryover needed and that funds will be carried over until September 30th.

**Annual Fiscal Reporting:** FY2015 Annual Fiscal Reports will be entered and approved using the online TIP application. The annual AFR must be completed, submitted, and approved online before the system will generate the next grant award letter and grant award document. This document is to be calculated by the district business manager and/or business office. The online form will auto-populate many cells. The amounts for carryover, encumbered, and unexpended funds will need to be locally calculated and entered by the district business manager and/or business office.

Unexpended funds should not be included in the encumbered amount and are not the same as carryover. Unexpended funds are the fiscal year grant amount not expended, not drawn down, not encumbered and/or not obligated prior to the end of the fiscal year. Unencumbered funds will remain in a districts prior year Form 240 TIP account and will be subtracted from the following fiscal year grant award.

4-23-2015
Questions regarding TIP application preparation should be emailed to TIPhelp@ksde.org or by calling 785-291-3098. Kerry Haag, Assistant Director, and Karen Maddox, Senior Administrative Assistant of Early Childhood, Special Education and Title Services are the TIP help desk and will be happy to assist as needed.

May 1, 2015

Dear Tom:

I am pleased to inform you of the approval for Fiscal Year 2015-2016 of your Targeted Improvement Plan, Project #20736, in the amount of $31,443.

The Grant Award Document is now accessible to you via the Grant Award Document page of the TIP web application. Please access the page, review the information and click the SUBMIT button to electronically sign the document and submit it to KSDE. The official grant award notification can be found by going to http://www.ksde.org/Default.aspx?tabid=515. The payment process will be on a monthly basis this year and will begin after all documents are processed and approved. Please request payment by accessing Form 240 online at www.ksde.org. Any questions regarding Form 240 should be directed to Nicole Norwood at 785-296-2020 or nnorwood@ksde.org.

Please refer to the Special Project #20736 when contacting our office. If you need clarification or further information, please email TIPHelp@ksde.org or call 785-291-3098.

Sincerely,
Kerry A. Haag
Asst. Director
Early Childhood, Special Education & Title Services
