

Institution Information

Name of Institution: University of Kansas

Institution/Program Type: Traditional

Academic Year: 2011-12

State: Kansas

Address: 1122 West Campus Rd
Joseph R Pearson Hall
Lawrence, KS, 66045

Contact Name: Dr. Sally Roberts

Phone: 785-864-0553

Email: slroberts@ku.edu

Is your institution a member of an HEA Title II Teacher Quality Partnership (TQP) grant awarded by the U.S. Department of Education?
(<http://www2.ed.gov/about/offices/list/oii/tqp/index.html>)

No

If yes, provide the following:

Award year:

Grantee name:

Project name:

Grant number:

List partner districts/LEAs:

List other partners:

Project Type:

Section I.a Program Information

List each teacher preparation program included in your traditional route. Indicate if your program or programs participate in a Teacher Quality Partnership Grant awarded by the U.S. Department of Education as described at <http://www2.ed.gov/about/offices/list/oii/tqp/index.html>.

Teacher Preparation Programs	Teacher Quality Partnership Grant Member?
Art Education	No
Biology Education	No
Chemistry Education	No
Early Childhood Unified Education	No
Earth & Space Science Education	No
Elementary Education	No
Foreign Language Education, Chinese	No
Foreign Language Education, French	No
Foreign Language Education, German	No
Foreign Language Education, Japanese	No
Foreign Language Education, Latin	No
Foreign Language Education, Spanish	No

UKan Teach Earth and Speace Science Education	No
UKan Teach Physics Education	No
UKan Teach Secondary Mathematics	No
Total number of teacher preparation programs: 27	

Section I.b Admissions

Indicate when students are formally admitted into your initial teacher certification program:

Sophomore year

Does your initial teacher certification program conditionally admit students?

Yes

Provide a link to your website where additional information about admissions requirements can be found:

<http://www.soe.ku.edu/admission/>

Please provide any additional comments about or exceptions to the admissions information provided above:

Applicant's essays are read individually by two individual faculty members using a scoring rubric. Separation of greater than two numbers on a 4 point Likert scale requires a third reader. A numeric rating is also provided for prior experience with children and youth, experience with diverse populations or applicant diversity, and letters of recommendation. These numeric ratings are entered into a data base and statistical analysis procedures provide a weighted score across all elements. Applicants for each program are then ranked by order of score. Four of our programs--elementary, unified early childhood, and secondary English and social studies--have a capped number of applicants accepted. Middle math, middle science, and foreign language programs accept all qualified applicants.

Section I.b Undergraduate Requirements

Please provide the following information about your teacher preparation program's entry and exit requirements. (§205(a)(1)(C)(i))

Are there initial teacher certification programs at the undergraduate level?

Yes

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the Undergraduate level.

Element	Required for Entry	Required for Exit
Transcript	Yes	No
Fingerprint check	No	No
Background check	No	Yes

Minimum number of courses/credits/semester hours completed	Yes	Yes
Minimum GPA	Yes	Yes
Minimum GPA in content area coursework	No	Yes
Minimum GPA in professional education coursework	No	Yes
Minimum ACT score	No	No
Minimum SAT score	No	No
Minimum basic skills test score	Yes	Yes
Subject area/academic content test or other subject matter verification	No	Yes
Recommendation(s)	Yes	No
Essay or personal statement	Yes	No
Interview	No	No
Other Teacher Performance Assessment - KPTP	No	Yes

What is the minimum GPA required for admission into the program?

2.75

What was the median GPA of individuals accepted into the program in academic year 2011-12

3.38

What is the minimum GPA required for completing the program?

2.75

What was the median GPA of individuals completing the program in academic year 2011-12

3.38

Please provide any additional comments about the information provided above:

Section I.b Postgraduate Requirements

Please provide the following information about your teacher preparation program's entry and exit requirements. (§205(a)(1)(C)(i))

Are there initial teacher certification programs at the postgraduate level?

Yes

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the Postgraduate level.

Element	Required for Entry	Required for Exit

Transcript	Yes	No
Fingerprint check	No	Yes
Background check	No	Yes
Minimum number of courses/credits/semester hours completed	Yes	Yes
Minimum GPA	Yes	Yes
Minimum GPA in content area coursework	Yes	Yes
Minimum GPA in professional education coursework	No	Yes

What was the median GPA of individuals accepted into the program in academic year 2011-12

3.28

What is the minimum GPA required for completing the program?

3

What was the median GPA of individuals completing the program in academic year 2011-12

3.55

Please provide any additional comments about the information provided above:

Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not

completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Additional guidance on reporting race and ethnicity data.

Total number of students enrolled in 2011-12:	803
Unduplicated number of males enrolled in 2011-12:	226
Unduplicated number of females enrolled in 2011-12:	577

2011-12	Number enrolled
<i>Ethnicity</i>	
Hispanic/Latino of any race:	23
<i>Race</i>	
American Indian or Alaska Native:	7
Asian:	11
Black or African American:	11
Native Hawaiian or Other Pacific Islander:	0
White:	715
Two or more races:	36

Section I.d Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2011-12.

Average number of clock hours of supervised clinical experience required prior to student teaching	42
Average number of clock hours required for student teaching	760
Average number of clock hours required for mentoring/induction support	0
Number of full-time equivalent faculty supervising clinical experience during this academic year	17
Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	366
Number of students in supervised clinical experience during this academic year	803

Please provide any additional information about or descriptions of the supervised clinical experiences:

In all of our licensure programs candidates complete two separate clinical experiences. Candidates in Unified Early Childhood, elementary, and secondary English, social studies, math, science, and foreign language complete an 8 week student teaching in the Fall and a 12 week internship in the Spring in two different classrooms, levels, and districts. This allows our UEC candidates to student teach at the elementary and preschool levels; elementary candidates at the primary and intermediate level; secondary candidates in the middle school and high school. Our Art, Music, and Health/PE candidates are licensed PK-12 and have clinical experiences at both the elementary and secondary levels. The candidates in our UKanTeach math and science programs have extensive field experiences in each of

their pedagogy courses as well as a full semester of clinical experience in either a middle or secondary placement.

Section I.e Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2011-12. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

Subject Area	Number Prepared
Education - General	
Teacher Education - Special Education	26
Teacher Education - Early Childhood Education	25
Teacher Education - Elementary Education	50
Teacher Education - Junior High/Intermediate/Middle School Education

Section I.e Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2011-12. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Academic Major	Number Prepared
Education - General	
Teacher Education - Special Education	29
Teacher Education - Early Childhood Education	25
Teacher Education - Elementary Education	50

Section I.f Program Completers

Provide the total number of teacher preparation program completers in each of the following academic years:

2011-12: 212

2010-11: 211

2009-10: 184

Section II Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in mathematics in 2011-12?

Yes

How many prospective teachers did your program plan to add in mathematics in 2011-12?

3

Did your program meet the goal for prospective teachers set in mathematics in 2011-12?

Yes

Description of strategies used to achieve goal, if applicable:

We have a three pronged effort to increase teachers trained in mathematics. Our UKanTeach math and science teacher preparation program is one of the original replication sites for the University of Texas UTeach model. Adopting this model allowed us to move to 4-year undergraduate teacher training with students majoring in their content area. The SOE continues to offer a teacher education program in middle math and middle science with specialized training in working with the middle school child. Finally, we have a Graduate Licensure Program for individuals returning with a degree in the content but wishing to train for the teaching license.

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

As evidenced by the data, we far exceeded our 10% projection. We will continue to utilize our current methods--heavy presence at Freshman orientation, visit large freshman math courses, offer the two introduction to the profession course (Step 1 and Step 2) that provides the students information about teaching as well as early field experiences in elementary and middle classrooms.

Provide any additional comments, exceptions and explanations below:

Academic year 2012-13

Is your program preparing teachers in mathematics in 2012-13?

Yes

How many prospective teachers did your program plan to add in mathematics in 2012-13?

10

Provide any additional comments, exceptions and explanations below:

Academic year 2013-14

Will your program prepare teachers in mathematics in 2013-14?

Yes

How many prospective teachers does your program plan to add in mathematics in 2013-14?

10

Provide any additional comments, exceptions and explanations below:

Section II Annual Goals - Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. ([§205\(a\)\(1\)\(A\)\(ii\)](#), [§206\(a\)](#))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in science in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in science in 2011-12?

Yes

How many prospective teachers did your program plan to add in science in 2011-12?

3

Did your program meet the goal for prospective teachers set in science in 2011-12?

Yes

Description of strategies used to achieve goal, if applicable:

We have a three pronged effort to increase teachers trained in science. Our UKanTeach math and science teacher preparation program is one of the original replication sites for the University of Texas UTeach model. Adopting this model allowed us to move to 4-year undergraduate teacher training with students majoring in their content area. The SOE continues to offer a teacher education program in middle math and middle science with specialized training in working with the middle school child. Finally, we have a Graduate Licensure Program for individuals returning with a degree in the content but wishing to train for the teaching license.

Provide any additional comments, exceptions and explanations below:

Academic year 2012-13

Is your program preparing teachers in science in 2012-13?

Yes

How many prospective teachers did your program plan to add in science in 2012-13?

10

Provide any additional comments, exceptions and explanations below:

We hope to specifically increase the number of teachers in the physics area as this is still an area of need throughout the state. We will also increase interview opportunities for our science and math students in rural areas and increase the number of students completing their student teaching in urban and high needs schools with the hope that they will choose those districts when applying for jobs.

Academic year 2013-14

Will your program prepare teachers in science in 2013-14?

Yes

How many prospective teachers does your program plan to add in science in 2013-14?

10

Provide any additional comments, exceptions and explanations below:

Section II Annual Goals - Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (**§205(a)(1)(A)(ii), §206(a)**)

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in special education in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in special education in 2011-12?

No

How many prospective teachers did your program plan to add in special education in 2011-12?

Did your program meet the goal for prospective teachers set in special education in 2011-12?

NA

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Provide any additional comments, exceptions and explanations below:

The state of Kansas does not license special educators at the initial level.

Academic year 2012-13

Is your program preparing teachers in special education in 2012-13?

No

How many prospective teachers did your program plan to add in special education in 2012-13?

Provide any additional comments, exceptions and explanations below:

Academic year 2013-14

Will your program prepare teachers in special education in 2013-14?

Yes

How many prospective teachers does your program plan to add in special education in 2013-14?

12

Provide any additional comments, exceptions and explanations below:

The Kansas State Department of Education has asked KU to develop a program for an initial license in special education. Our special education faculty are working on an experimental/innovative program to train special education teachers for an initial blended license--elementary and high incidence disabilities. We will submit it to KSDE as an innovative program in Spring 2014. If KSDE approves our innovative program we will then bring together interested faculty from IHEs across the state to develop a set of new blended standards (like we have in our Unified Early Childhood program that is a blended general education and special education program that licenses birth through 3rd grade).

Section II Annual Goals - Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in instruction of limited English proficient students in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in instruction of limited English proficient students in 2011-12?

No

How many prospective teachers did your program plan to add in instruction of limited English proficient students in 2011-12?

Did your program meet the goal for prospective teachers set in instruction of limited English proficient students in 2011-12?

NA

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Provide any additional comments, exceptions and explanations below:

Licensure for teachers in the area of English Speakers of Other Languages (ESOL) is an added endorsement in the state of Kansas, not an initial license. The University of Kansas is committed to preparing all of our students in best practices in ESOL. To that end, all of our students take 12 of the endorsement required 18 hours of ESOL coursework and about half have completed the entire program allowing them to blend their final student teaching between general education and an ESOL practicum. By doing this they are eligible for the added endorsement upon completion of their initial teaching license program.

Academic year 2012-13

Is your program preparing teachers in instruction of limited English proficient students in 2012-13?

No

How many prospective teachers did your program plan to add in instruction of limited English proficient students in 2012-13?

Provide any additional comments, exceptions and explanations below:

Academic year 2013-14

Will your program prepare teachers in instruction of limited English proficient students in 2013-14?

No

How many prospective teachers does your program plan to add in instruction of limited English proficient students in 2013-14?

Provide any additional comments, exceptions and explanations below:

See above for explanation.

Section II Assurances

Please certify that your institution is in compliance with the following assurances. (§205(a)(1)(A)(iii), §206(b)) Note: Be prepared to provide documentation

and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

Yes

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

NA

Prospective general education teachers are prepared to provide instruction to students with disabilities.

Yes

Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families.

Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

Yes

Describe your institution's most successful strategies in meeting the assurances listed above:

We have made the coursework necessary for the added special education endorsement much more accessible to our students getting an initial teaching license. This has allowed more students to complete the coursework at the same time they are finishing their initial license. Thus, many more students have opted to complete the added endorsement in conjunction with their initial license, at least at the provisional level (individuals can teach special education students in Kansas with a provisional endorsement). We allow the prospective teachers who have completed the required provisional coursework to either blend (in same classroom) or split (in another school) their second student teaching placement. This means that they are assigned a fully certified general education teacher and fully endorsed special education teacher and student teach with both. We have also now require all candidates to complete three courses in the ESOL area as a part of their licensure requirements.

Section III Assessment Pass Rates

All program completers, 2009-10	184	183	99

Section IV Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State

NCATE

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- **integrate technology effectively into curricula and instruction**
Yes
- **use technology effectively to collect data to improve teaching and learning**
Yes
- **use technology effectively to manage data to improve teaching and learning**
Yes
- **use technology effectively to analyze data to improve teaching and learning**
Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All of our teacher candidates take an Educational Technology methods course during their preparation program. Integrating technology into classroom instruction means more than teaching basic skills and software programs in a separate computer class. Our technology training incorporates the key components of learning—active engagement with hardware and software, participation in group and individual projects, frequent interaction and feedback, and making a connection to real-world application. Our teacher candidates are taught to use technology to enhance their students' learning opportunities, reach different types of learners, and assess and analyze student understanding by multiple means. The state requires that all candidates complete and pass the Kansas Performance Teaching Portfolio (KPTP) during their student teaching. As a part of this culminating experience, each candidate must provide evidence that he/she incorporated technology to enhance student learning, and gather and analyze preassessment, formative, and summative student data. We have also made a commitment to train both faculty and students to use the new iPad technologies. The SOE provided iPads to all faculty, equipped a lab and mobile carts with iPads, are providing a Tech Camp for faculty to learn to use and teach technology use to the candidates. Also, all university student teaching supervisors were supplied with iPads and use them to both videotape the candidate while he/she is teaching so that they can review their teaching during the supervision visit and our tech crew developed an app that allows the supervisors to complete the formative evaluations on the iPad as they are observing the student. They are then able to download the evaluation to our data warehouse for our ongoing data reviews and reports.

Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- **teach students with disabilities effectively**
Yes
- **participate as a member of individualized education program teams**
Yes
- **teach students who are limited English proficient effectively**
No

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

All of our teacher candidates take two courses in instructional methodology for students with special needs during their preparation program and three courses in methodology for students with limited English proficiency. Within these courses candidates learn practices that will allow them to develop a class climate reflecting respect of both diversity and inclusiveness; to insure that all materials and activities are accessible by all students; use accessible instructional methods that address multiple learning modalities; encourage effective interactions between all students; use multiple and accessible assessment methods and tools and adjust instruction accordingly; and plan for accommodations and adaptations for students when the instructional design does not meet their needs. The state requires that all candidates complete and pass the Kansas Performance Teaching Portfolio (KPTP) during their student teaching. As a part of this culminating experience, each candidate must provide evidence that he/she can use each of these elements to address identified students with special needs including those with disabilities and students with limited English proficiency.

Does your program prepare special education teachers to:

- **teach students with disabilities effectively**
NA
- **participate as a member of individualized education program teams**
NA
- **teach students who are limited English proficient effectively**
NA

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Kansas does not have an initial teaching license in Special Education,

Section VII Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The state of Kansas has moved to a statewide requirement that all candidates must achieve a passing score on a teacher performance assessment that is completed during the clinical experience as a requirement for licensure. The University of Kansas has been involved in the development and piloting of the Kansas Performance Teaching Portfolio (KPTP) and all candidates in our initial programs complete a KPTP during their student teaching. The KPTP is designed to provide the teacher candidate an opportunity to demonstrate how he/she uses the contextual factors to design and implement a unit of study. The teacher candidate provides information about the unit's lesson plans and assessments. Specific information about how the instruction is modified for two individual students within the classroom is also required. In addition, the teacher candidate reflects on the implementation of the unit for the whole class and the two focus students. The KPTP measures the Kansas Professional Standards that have been clustered into six Focus Areas that represent key areas of teaching practice. Within this activity, candidates must show their ability to plan instruction, show their teaching effect on student learning, use assessment information (pretest, formative, and summative data), adapt/accommodate instruction for all students including ESL and those with disabilities, and incorporate technology and integrate reading strategies into their teaching. To date over 300 candidates across all of our programs have successfully completed this assessment (scored at least a minimum of 20 out of 30 points),

and we are using candidate data from the various KPTP tasks to enhance our programs. Two of our candidates have scored the only perfect scores in the state.
