Those two districts are USD 344 Pleasanton and USD 463 Udall. Nine new districts have submitted ESSER III plans with a total value of $180 million.

There are seven ESSER III change requests this month totaling $9.7M. The Task Force is also requesting to establish a deadline for receiving new ESSER III applications by December 16\textsuperscript{th}. It was decided to hold the vote on all items until Wednesday as not all of the board members had been able to review the materials yet.

**ACTION ON PROPOSAL FOR THE KANSAS PURPLE STAR SCHOOL DESIGNATION**

In September, Deputy Commissioner Dr. Craig Neuenswander gave an overview of the proposed Kansas Purple Star School designation. Mr. Jones moved to approve the Kansas Purple Star School Designation, recognizing military-friendly schools that meet specific criteria and demonstrate a major commitment to serving students and families connected to our nation’s armed forces. **ACTION ON RECOMMENDATIONS AMENDING THE KANSAS STATE BOARD OF EDUCATION GUIDELINES AND POLICIES**

Mrs. Clifford moved that the Kansas State Board of Education approve the recommended amendments to the Kansas State Board of Education Guidelines and Policies. Mrs. Dombrosky mentioned the Mission and Vision statements as needing looked at as they are part of the Policies and Guidelines documents as they were established before most of this Board was elected. Board Attorney, Mark Ferguson said that the motion on the table does not include the Mission and Vision as it there was not a recommendation to change it. Chairman Porter agreed the topic of the Mission and Vision of the Board of Education needs to be looked at in a future Board retreat. Dr. Horst seconded. Motion carried 10-0.

**RECEIPT OF ACCREDITATION REVIEW COUNCIL RECOMMENDATIONS FOR KANSAS EDUCATION SYSTEM ACCREDITATION (KESA)**

The Accreditation Review Council (ARC) has recommended a conditionally accredited status for the next three systems awaiting recommendation. Executive summaries, accountability reports and other narratives were provided to Board members for the three systems. The ARC considers compliance and foundational structures to support a five-year process of continuous improvement. Board members will act on the ARC recommendations in November. The systems that were received by the Board in October are USD 468 Healy, Lawrence Gardner High School, and Lakemary Center.

**COMMISSIONER’S ANNUAL REPORT**

This month Commissioner Randy Watson presented his annual report to the Kansas State Board of Education, looking back data related to the goals the Board has set in relation to Kansans CAN
outcomes for measuring success. Dr. Watson reflected back to the Kansans Can Vision timeline, which provides for systems that can withstand political changes and winds along a 10-year journey to be in place by 2026.

His review of the most current data released in 2022 included the demographics of public schools. The data shows that Caucasians and African American student populations are decreasing, while the Hispanic population has the greatest increase in K-12 students. One other group also shows an increase, and that is the “Other” category which refers to mixed races and Asian races. Students with disabilities is another are of increase in our state. The largest increase of disability is in area of autism, dyslexia, developmentally delayed. Another demographic trend being seen is the migration from rural to urban schools.

One problem that stood out in the student data is that “Chronic Absenteeism” has jumped from 13.2% in 2018 to 25.7% in 2022 (defined as missing 10% or greater of the total numbers of days enrolled during the year. Some schools had Chronic Absenteeism rates of 50% or more in 2022. Dr. Watson urged that this must be looked at and change in order for students to learn.

He shared good news that graduation rates up are up overall across the state. Post-secondary Effectiveness increased by 8% over the 6 years, as shown by the most recent studied group. Possibly the most powerful of the current data is that Kansas State assessment performance shows that level 2 students are NOT failing as some in Kansas would say. They have an over 90% graduation rate, 45-62% postsecondary success rate and an average act score of 21, which is the required college admission score. Dr. Watson ended his discussion on student data urging that work must be done to move students out of level 1 score range into level 2 as that is where the most gain in success indicators is being seen. He ended his presentation with recognizing schools obtaining STAR recognition status for 2022.

**UPDATE ON TEACHER VACANCY AND SUPPLY COMMITTEE AND HIGHLIGHTS OF ANNUAL LICENSED PERSONNEL REPORT**

The Kansas State Board of Education tasked the Teacher Licensure team, the Teacher Vacancy and Supply Committee (TVSC), and members of the Professional Standards Board to identify and recommend actions to address substitute teacher shortages. Shane Carter, Director of Teacher Licensure, provided the following recommendations for the Board to vote on in November:

- Expanded Emergency Substitute License extended through the end of the 2022-2023 school year (currently expires December 2022).
- “The Third Option” to qualify for an emergency substitute license should be made permanent, which requires the applicant have a high school diploma, completion of Greenbush+ Substitute Training Modules, a background check, application, and fee. It would carry the same limitation as an emergency substitute with (60) college credit hours only.
- All state-accredited LEAs create and maintain a substitute handbook/guidelines to ensure substitute teachers are supported.
- All emergency substitute licenses extended to be valid for two years.
- Creation of a “Legacy License” for retired teachers.

Additionally, Mr. Carter provided highlights from the most recent vacancy data and licensed personnel
data collected each year from school districts.

Director: Leah Zeller
Commissioner: Randy Watson
Meeting Date: 11/9/2022

Item Title:
Act on Evaluation Review Committee recommendations for higher education accreditation and program approvals.

Recommended Motion:
It is moved that the Kansas State Board of Education accept the following recommendations of the Evaluation Review Committee for “Program Approval” for Baker University and Kansas State University.

Explanation of Situation Requiring Action:
Following the institutional application and receipt of a complete institutional report, a review team of trained evaluators was appointed to review the education preparation provider or teacher education program (as appropriate) for the above institutions based on adopted State Board policies, procedures and regulations. These are available for review by any member or members of the State Board. Each review team's report and each institution's response to the report, along with the institutional reports, were submitted to the Evaluation Review Committee (ERC) of the Teaching and School Administration Professional Standards Advisory Board. The ERC, in accordance with procedures adopted by the State Board, prepared written initial recommendations regarding the appropriate status to be assigned to each education preparation provider or teacher education program.

The initial recommendation was submitted to the teacher education institution and the institution was given 30 days to request a hearing to appeal the initial recommendation. If requested, the ERC conducted a hearing and prepared a written final recommendation regarding the appropriate status to be assigned to the teacher education program. If a request for a hearing was not submitted or the institution accepted, the initial recommendations became the final recommendations. These final recommendations have been submitted to appropriate representatives of the teacher education institutions and are now submitted to the State Board, as attached, for consideration and approval of the ERC recommendations for accreditation and program approval status.

A copy of the regulations covering this process is also attached. Staff will be on hand to answer any questions.

(1) Each teacher education institution that desires to have any new program approved by the state board shall submit an application for program approval to the commissioner. The application shall be submitted at least 12 months before the date of implementation.
(2) Each institution shall submit with its application a program report containing a detailed description of each proposed program, including program coursework based on standards approved by the state board, and the performance-based assessment system that will be utilized to collect performance data on candidates' knowledge and skills. Each program report shall be in the form and shall contain the information prescribed by the commissioner. The program report shall include confirmation that the candidates in the program will be required to complete the following successfully:
(A) Coursework that constitutes a major in the subject at the institution or that is equivalent to a major;
(B) at least 12 weeks of student teaching; and
(C) a validated preservice candidate work sample.
(b) Review team. Upon receipt of a program report, a review team shall be appointed by the commissioner to analyze the program report. The chairperson of the review team shall be designated by the commissioner. The number of review team members shall be determined by the commissioner, based upon the scope of the program to be reviewed. Any institution may challenge the appointment of a review team member. The institution's challenge shall be submitted in writing and received by the commissioner no later than 30 days after the notification of review team appointments is sent to the institution. Each challenge to the appointment of a review team member shall be only on the basis of a conflict of interest.
(c) Program review process.
(1) In accordance with procedures adopted by the state board, a review team shall examine and analyze the proposed program report and shall prepare a report expressing the findings and conclusions of the review team. The review team’s report shall be submitted to the commissioner. The report shall be forwarded by the commissioner to an appropriate representative designated by the teacher education institution.

(2) Any institution may prepare a response to the review team’s report. This response shall be prepared and submitted to the commissioner no later than 45 days of receipt of the review team’s report. Receipt of the review team’s report shall be presumed to occur three days after mailing. The review team’s report, any response by the institution, and any other supporting documentation shall be forwarded to the evaluation review committee by the commissioner.

(d) Initial recommendation. The evaluation review committee, in accordance with procedures adopted by the state board, shall prepare a written initial recommendation regarding the appropriate status to be assigned to the proposed program, which shall include a statement of the findings and conclusions of the evaluation review committee. The recommendation shall be submitted to an appropriate representative designated by the teacher education institution and to the commissioner.

(e) Request for hearing.

(1) Within 30 days of receipt of an initial recommendation of the evaluation review committee, the teacher education institution may submit a written request by certified mail to the evaluation review committee for a hearing before the committee to appeal the initial recommendation. Receipt of the initial recommendation of the evaluation review committee shall be presumed to occur three days after mailing. This request shall specify, in detail, the basis for the appeal, including an identification of each item disputed by the institution.

(2) If a request for a hearing is submitted, the evaluation review committee shall conduct a hearing. The committee shall then prepare a written final recommendation regarding the appropriate status to be assigned to the proposed program, which shall include a statement of the findings and conclusions of the evaluation review committee. The final recommendation shall be submitted to an appropriate representative designated by the teacher education institution and to the commissioner. The final recommendation shall be submitted by the commissioner to the state board for its consideration and determination.

(3) If a request for a hearing is not submitted by certified mail within the time allowed under paragraph (e) (1), the initial recommendation of the evaluation review committee shall become the final recommendation of the review committee. The committee’s final recommendation shall be submitted by the commissioner to the state board for its consideration and determination.

(g) Annual report.

(1) If a new program is approved with stipulation, the institution shall submit a progress report to the commissioner within 60 days after completion of the second semester of operation of the program and thereafter in each of the institution’s annual reports that are due on or before July 30.

(2) Each progress report shall be submitted by the commissioner to the evaluation review committee for its examination and analysis. Following review of the progress report, the evaluation review committee may remove any areas for improvement and change the status to approved until the institution’s next program review.

(h) Change of approval status.

(1) At any time, the approval status of a teacher education program may be changed by the state board if, after providing an opportunity for a hearing, the state board finds that the institution either has failed to meet substantially the program standards or has materially changed the program. For just cause, the duration of the approval status of a program may be extended by the state board. The duration of the
current approval status of a program shall be extended automatically if the program is in the process of being reevaluated by the state board. This extension shall be counted as part of any subsequent approval period of a program.

(2) At the time of an institution's next on-site visit, the new program shall be reviewed pursuant to K.A.R. 91-1-236.

(3) For licensure purposes, each teacher education program that is approved with stipulation shall be considered to be approved. (Authorized by and implementing Article 6, Section 2(a) of the Kansas Constitution; effective Aug. 6, 2004; amended Aug. 12, 2011; amended July 7, 2017.)

91-1-236. Procedures for renewing approval of teacher education program.

(a) Application for program renewal.

(1) Each teacher education institution that desires to have the state board renew the approval status of one or more of its teacher education programs shall submit to the commissioner an application for program renewal. The application shall be submitted at least 12 months before the expiration of the current approval period of the program or programs.

(2) Each institution shall also submit a program report, which shall be in the form and shall contain the information prescribed by the commissioner. The program report shall be submitted at least six months before the expiration of the current approval period of the program or programs. The program report shall include confirmation that the candidates in the program will be required to complete the following:

(A) Coursework that constitutes a major in the subject at the institution or that is equivalent to a major; and

(B) at least 12 weeks of student teaching.

(b) Review team. Upon receipt of a complete program report, a review team shall be appointed by the commissioner to analyze the program report. The chairperson of the review team shall be designated by the commissioner. The number of review team members shall be determined by the commissioner, based upon the scope of the program or programs to be reviewed. An institution may challenge the appointment of a review team member only on the basis of a conflict of interest.

(c) Program review process.

(1) In accordance with procedures adopted by the state board, each review team shall examine and analyze the program report and prepare a review report expressing the findings and conclusions of the review team. The review team's report shall be submitted to the commissioner. The report shall be forwarded by the commissioner to an appropriate representative of the teacher education institution.

(2) Any institution may prepare a written response to the review team's report. Each response shall be prepared and submitted to the commissioner within 45 days of receipt of the review team's report. The review team's report, any response filed by the institution, and any other supporting documentation shall be forwarded by the commissioner to the evaluation review committee.

(d) Initial recommendation. The evaluation review committee, in accordance with procedures adopted by the state board, shall prepare a written initial recommendation regarding the appropriate status to be assigned to the program or programs, which shall include a statement of the findings and conclusions of the evaluation review committee. The recommendation shall be submitted to an appropriate representative of the teacher education institution and to the commissioner.

(e) Request for hearing.

(1) Within 30 days of the receipt of an initial recommendation of the evaluation review committee, the teacher education institution may submit a written request to the commissioner for a hearing before the evaluation review committee to appeal the initial recommendation of the committee. This request shall
specify, in detail, the basis for the appeal, including an identification of each item disputed by the institution.

(2) If a request for a hearing is submitted, the evaluation review committee shall conduct a hearing. The committee shall then prepare a written final recommendation regarding the appropriate status to be assigned to the program or programs, which shall include a statement of the findings and conclusions of the evaluation review committee. The final recommendation shall be submitted to an appropriate representative of the teacher education institution and to the commissioner. The final recommendation shall be submitted by the commissioner to the state board for its consideration and determination of program approval status according to paragraph (f)(1).

(3) If a request for a hearing is not submitted within the time allowed under paragraph (1) of this subsection, the initial recommendation of the evaluation review committee shall become the final recommendation of the review committee. The committee's final recommendation shall be submitted by the commissioner to the state board for its consideration and determination.

(f) Approval status.

(1) The status assigned to any teacher education program specified in this regulation shall be approved, approved with stipulation, or not approved.

(2) Subject to subsequent action by the state board, the assignment of approved status to a teacher education program shall be effective for seven academic years. However, the state board, at any time, may change the approval status of a program if, after providing an opportunity for a hearing, the state board finds that the institution either has failed to meet substantially the program standards adopted by the state board or has made a material change in a program. For just cause, the duration of the approval status of a program may be extended by the state board. The duration of the approval status of a program shall be extended automatically if the program is in the process of being reevaluated by the state board.

(3) (A) If a program is approved with stipulation, that status shall be effective for the period of time specified by the state board, which shall not exceed seven years.

(B) If any program of a teacher education institution is approved with stipulation, the institution shall include in an upgrade report to the commissioner the steps that the institution has taken and the progress that the institution has made during the previous academic year to address the deficiencies that were identified in the initial program review.

(C) The upgrade report shall be submitted by the commissioner to the evaluation review committee for its examination and analysis. After this examination and analysis, the evaluation review committee shall prepare a written recommendation regarding the status to be assigned to the teacher education program for the succeeding academic years. The recommendation shall include a statement of the findings and conclusions of the evaluation review committee. The recommendation shall be submitted to an appropriate representative of the teacher education institution and to the commissioner. If the institution does not agree with this recommendation, the institution may request a hearing according to the provisions in subsection (e).

(D) For licensure purposes, each teacher education program that is approved with stipulation shall be considered to be approved.

(4) Students shall be allowed two full, consecutive, regular semesters following the notification of final action by the state board to complete a program that is not approved. Summers and interterms shall not be counted as part of the two regular semesters. Students who finish within these two regular semesters may be recommended for licensure by the college or university. (Authorized by and implementing Article 6, Section 2(a) of the Kansas Constitution; effective Aug. 6, 2004; amended Aug. 12, 2011.)
REQUEST AND RECOMMENDATION FOR BOARD ACTION

Staff Initiating: Shane Carter
Director: Leah Zeller
Commissioner: Randy Watson

Meeting Date: 11/9/2022

Item Title:
Act on recommendations for licensure waivers.

Recommended Motion:

It is moved that the Kansas State Board of Education accept the attached recommendations for licensure waivers.

Explanation of Situation Requiring Action:
SBR 91-31-42 allows any school district to request a waiver from one or more of their accreditation requirements imposed by the State Board. Requests by schools to waive school accreditation regulation SBR 91-31-34 (appropriate certification/licensure of staff) are reviewed by the staff of Teacher Licensure and Accreditation. The district(s) must submit an application verifying that the individual teacher for whom they are requesting the waiver is currently working toward achieving the appropriate endorsement on his/her license. A review of the waiver application is completed before the waiver is recommended for approval.

The attached requests have been reviewed by the Teacher Licensure and Accreditation staff and are being forwarded to the State Board of Education for action. If approved, school districts will be able to use the individuals in an area outside the endorsement on their license, and in the area for which they have submitted an approved plan of study. The waiver is valid for one school year.

REQUEST AND RECOMMENDATION FOR BOARD ACTION

Staff Initiating: Shane Carter
Director: Leah Zeller
Commissioner: Randy Watson

Agenda Number: 10 b.
Meeting Date: 11/9/2022

Item Title:
Act on New Appointments to the Professional Practices Commission

Recommended Motions:

1) It is moved that the Kansas State Board of Education act to appoint Carla Breckenridge, Leigh Anne Rogers, Ricardo Sanchez, or Shayne Henry to serve on the Professional Practices Commission representing a Public School Classroom Teacher-At Large position. The appointed nominee would serve a partial term effective November 15, 2022 through June 30, 2023.

2) It is moved that the Kansas State Board of Education act to appoint Carla Breckenridge, Leigh Anne Rogers, Ricardo Sanchez, or Shayne Henry to serve on the Professional Practices Commission representing a Public School Classroom Teacher-At Large position. The appointed nominee would serve a partial term effective November 15, 2022 through June 30, 2024.

Explanation of Situation Requiring Action:
The Professional Practices Commission (PPC) is charged with investigating and making recommendations to the Kansas State Board of Education regarding the disposition of licensees and applicants alleged to have engaged in professional misconduct. Currently, there are two open positions on the PPC – Public School Classroom Teacher (any level). The Kansas State Department of Education solicited nominations from throughout the state, and those nominations are now before the State Board. It is recommended that the Kansas State Board of Education appoint members of the Professional Practices Commission as stipulated under the statute, K.S.A. 72-2315, which states: "members shall be appointed for three-year terms and no person shall be appointed to serve longer than two full terms in addition to any term of a period less than three years."

When soliciting nominees, the Kansas State Department of Education requested / suggested nominees from school districts that are not already represented on the PPC. This suggestion is made for two reasons: The State Board wishes to spread representation around to as many different districts as possible, and because PPC members that work in the same district as an Applicant/Licensee that's accused of engaging in misconduct are usually asked to recuse themselves from the hearing. Having multiple PPC members recused often leads to a failure to reach a quorum. The Department asks the State Board to take that into consideration when making these appointments. The following school districts are currently represented on the PPC:

- USD 310 Fairfield
- USD 437 Auburn-Washburn
- USD 220 Ashland
- USD 259 Wichita
- USD 512 Shawnee Mission
USD 500  Kansas City
USD 469  Lansing

Recommended Motion:
It is moved that the Kansas State Board of Education accept and affirm the Kansas Advisory Council for Indigenous Education Working Group Mascot Reform Statement and Recommendations to the Kansas State Board of Education and Kansas Board of Regents. The Board makes a strong recommendation to Kansas K-12 non-tribal schools to adopt the actions recommended in the statement and retire Indian-themed mascots and branding as soon as possible, but no longer than within the next 3-5 years.

Explanation of Situation Requiring Action:
The Board has reviewed the KACIE-WG Mascot Reform Statement and Recommendations that were presented to them in October.
**REQUEST AND RECOMMENDATION FOR BOARD ACTION**

**Agenda Number:** 5  
**Meeting Date:** 11/10/2022

**Staff Initiating:** Tate Toedman  
**Director:** Bert Moore  
**Commissioner:** Randy Watson

**Item Title:**  
Act on ESSER II Change Requests and ESSER III Expenditure Plans for Use of Federal COVID-19 Relief Funds

**Recommended Motion:**  
It is moved that the Kansas State Board of Education accept the recommendations of the Commissioner’s Task Force on ESSER distribution of money and approve the public school district for ESSER III expenditure plans and the ESSER II change requests as presented for use of federal COVID-19 relief funds.

**Explanation of Situation Requiring Action:**  
Federal assistance to schools has been made available through the Elementary and Secondary School Emergency Relief (ESSER) fund. The federal law outlines allowable expenditures directly related to the COVID-19 pandemic, and to support student learning and student needs associated with the pandemic. The Commissioner’s Task Force on ESSER and EANS Distribution of Money has the responsibility to: provide guidance and oversight of school districts’ plans (public and private) for expenditure of those federal funds. maximize the use of federal K-12 relief funds to meet the acute needs of Kansas students in line with federal regulations and Kansas K-12 priorities. The Task Force and KSDE staff will review the applications and expenditure plans to evaluate whether the requests are tied to a pandemic-related need, are reasonable and meet the allowable uses. The information will then be presented to the State Board of Education for approval.
REQUEST AND RECOMMENDATION FOR BOARD ACTION

Item Title:
Act on Accreditation Review Council’s Kansas Education System Accreditation (KESA) Recommendations

Recommended Motion:
It is moved that the Kansas State Board of Education accept the recommendations of the Accreditation Review Council and award the status of conditionally accredited to USD 468 Healy, S0521-0000 Lawrence Gardner High School, and Z0032-4727 Lakemary Center.

Explanation of Situation Requiring Action:
In accordance with the Kansas Educational Systems Accreditation (KESA) process, systems reviewed by the Accreditation Review Council (ARC) for an accreditation status recommendation, are forwarded to the State Board of Education one month prior to the board acting. Last month, three (3) systems were forwarded to the State Board of Education for their review of an accredited status recommendation.

The following systems are once again being presented for action on an accreditation status:

USD 468 Healy
S0521-0000 Lawrence Gardner High School
Z0032-4727 Lakemary Center

This school year (2021-2022) there are 95 public and private systems scheduled for review by the ARC to provide an accreditation status recommendation. Staff will be available for any questions.
Item Title: Receive Accreditation Review Council Recommendations for Kansas Education Systems

From: Jay Scott

This past school year, 2021-2022, ninety-two (92) systems (80 public, 1 state, and 11 private) were scheduled for accreditation. Of these 92 systems, 37 entered the KESA process as year one. Thirty-five did not take a pause year, while two systems paused and then requested to be accredited with their cohort. All remaining systems, entered as year two systems; meaning, if the pause would not have been available, they would have been scheduled for accreditation in 2020-2021.

Beginning in April, and through the month of November, it is expected that the State Board will receive the Accreditation Review Council's (ARC) accreditation recommendation for all 92 systems. The State Board will have the opportunity to receive the ARC's recommendation (Executive Summary) a month prior to taking action on the accreditation recommendation.

In October, the ARC met and took its action on the accreditation recommendation for two (2) systems (1 public, 1 private). These two systems are:

Graduation Rate: The 4-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who entered high school as 9th graders four years earlier (adjusting for transfers in and out).

Success Rate: A student must meet one of the four following outcomes within two years of High School graduation.
1. Student earned an Industry Recognized Certification while in High School.
2. Student earned a Postsecondary Certificate.
3. Student earned a Postsecondary Degree.
4. Student enrolled in Postsecondary in both the first and second year following High School graduation.

Effective Rate: The calculated Graduation Rate multiplied by the calculated Success Rate.

GRADUATION RATE

The four-year adjusted cohort graduation rate is the percentage of students in a cohort, adjusted for transfers into and out of the school, district, or state, who graduate with a regular high school diploma within four years of entering high school.

ATTENDANCE RATE

Rate at which students are present at school, not including excused or unexcused absences.

CHRONIC ABSENTEEISM

Percentage of students who miss 10% or more of school days per year either with or without a valid excuse.

DROPOUT RATE

The dropout rate is calculated annually and reflects the number of seventh-twelfth grade students who drop out in any one school year. A dropout is any student who exits school between October 1 and September 30 with a dropout EXIT code AND does not re-enroll in school by September 30.

ACT Performance (2021 School Year)

ACT is a national college admissions exam that includes subject level tests in English, Math, Reading and Science. Students receive scores that range from 1 to 36 on each subject and an overall Composite score. This report provides the average Composite score for the 2021 graduating seniors who took the ACT as sophomores, juniors, or seniors.

Note: Not all eligible students completed an ACT.

Executive Summary/AFI

1. Compliance areas are **assuredly** addressed.  
   
   **ARC Comment**  
   Per KSDE the system has fulfilled all applicable requirements and deadlines for compliance.

2. Foundational areas are **generally** addressed.  
   
   **ARC Comment**  
   Tiered Framework of Supports -  
   Unhappy with their data, the system began a partnership with TASN at both the elementary and secondary levels to develop a more robust MTSS process. New curricula were identified and implemented as well as additional interventionist being hired.

   Family, Business, and Community Partnerships -  
   The system continues to implement practices that integrate all stakeholders (parents, businesses, and the community).

   Diversity, Equity, and Access -  
   Despite the lack of large diversity within the schools, the district has shown that the needs of all groups have been represented in the improvement process. The culture of the system and schools is aligned with the vision and evident in the improvement process.

   Communication and Basic Skills -  
   Needs Analysis and Goals -  
   USD 377 has shown evidence that the curricula supports structures in communication and basic skills are ongoing.

   Civic and Social Engagement -  
   USD 377 has shown evidence that the curricula supports structures in Civic and Social engagement. The system utilizes several service opportunities to give back to the community and annually celebrate its member’s commitment to the Armed Forces.

   Physical and Mental Health -  
   Curriculums in place are PATHS for elementary and Lions Quest for grades 7-12. The system is working with TASN to execute the Fastbridge SAEBRS (BSEL) assessment and analyze data accordingly.

   Arts and Cultural Appreciation -  
   USD 377 has shown evidence that the curricula supports structures in arts and cultural appreciation including opportunities for choir, band, and art. Cultural appreciation exploration through curriculum occurs at both levels of ES and JH. French I & II added in 2020-2021.
Postsecondary and Career Preparation -
The district’s post-secondary effectiveness rate has decreased, throughout the course of the five-year cycle. Although the lack of enrollment and/or return to post-secondary schooling dropped in 2020-2021 as a result of the pandemic, the system acknowledges that work must be done to address this.

3. Evidence is generally documented that Goal 1 (N/A) activities and strategies were identified, implemented and produced reasonable results.

ARC Comment
Goal: USD 377 will develop systematic processes for evaluating and updating the curriculum as well as develop instructional strategies based on the science of reading to ensure systemic growth and increased student achievement in reading. Student achievement will be measured by those meeting benchmarks for the grade level(s) on the Kansas State Assessment. Our goal is to increase the percentage of students in levels 3/4 on the Kansas State Reading Assessment for each grade level.

The system's data is inconclusive as to the level of success of measures put into place. It should be noted: Both Goals and implemented practices were changed in year four.

Areas For Improvement

Comment More Clear Goal
Rationale Remove the wordiness and get to the point. Specifically, what are you focused on? It feels like there are multiple measures occurring within this one goal with the bottom line of improving reading scores.
Tasks Just revise this goal to be more concise and specific.
Timeline 01-01-2023
System Response Thank you for consideration of our appeal. Please see the appeal artifact titled Background and then the Artifact titled AFI 3: Goal ONE

4. Evidence is not documented that Goal 2 (N/A) activities and strategies were identified, implemented and produced reasonable results.

ARC Comment
USD 377 will systematically interpret data to identify individual student needs to ensure growth and close the achievement gap in reading for all students. MultiTiered Systems of Support will be used to increase individual student learning. This will be measured by those meeting benchmarks for the grade level(s). Our goal is to decrease the number of students needing Tier 2 and Tier 3 instruction in Reading

Again, with year four changes not enough time has been allowed to determine the success of the initiatives.

Areas For Improvement

Comment New Goal
Rationale This goal is practically the same as Goal 1 (Reading).
Tasks A second goal needs to be written separately from Goal 1. They cannot be both about improving reading scores. Perhaps, review the Needs Assessment and determine a data point to focus on for this
5. Evidence is **not** documented that policies, procedures, and regulations guiding the system for the purpose of long term sustainability have been created and or updated.

**ARC Comment**

The system is utilizing ESSER funds to support the intervention positions and sees the value in the program. When ESSER funds expire, it is assumed they will allocate funds to continue funding the teaching positions but this was never stated in their documentation.

6. The evidence submitted to the Accreditation Review Council indicates the system does **generally** demonstrate significant gains in meeting the expectations of the Kansas Vision for Education and State Board Outcomes.

**ARC Comment**

Some gains are present. The downward trend in post-secondary success is a concern.

**Board Outcomes**
Social-Emotional Growth
USD 377 has increased their efforts to support students in the course of this 5 year cycle by hiring an SRO officer, Social Worker, and therapist to support students. When the cycle began instruction on social and emotional learning was not intentional nor was it evidence based. Throughout the course of the cycle the adoption of Lions Quest 7-12 was embedded as well as SAEBRS. The district has also begun monitoring attendance, course grades, office referrals, and reviewing the results to help determine interventions. Updated KCTC and SAEBRS data will be beneficial to analyze for a more accurate picture of current Social-Emotional Growth.

Kindergarten Readiness
Throughout the KESA cycle, U.S.D. 377 began utilizing and participating in the norming process with FastBridge to screen Pre-k students, they have implemented the ASQ requirements, and provided access to Tiny K and a sped 3 year old program. The 4 yr old preschool has increased in enrollment from only offering 1 section in 2018 to being close to capacity in 2 sections in 2021-2022.

Individual Plans of Study
The system begins implementation of IPS during the 7th grade year and reports using Xello. All students have an IPS by the end of 8th grade and must present their plan to parents/guardians at conferences. The IPS is reviewed by the student, advisor, and counselor to make any modifications necessary and are stored on Google Drive for both student and staff access throughout the year. This year USD 377 has 21 students taking CTE courses through Highland Community College.

High School Graduation Rate
The USD 377 Graduation rate was 69.6% in 2017. This is well below where the district has traditionally been, which had been between 80%-90%. Some changes in how the written board policy has been enforced and implemented led to a better prepared graduate. The reported 2020 Graduation Rate was 95.5% and the 5 year average is 84.6% according to the accountability report.
Postsecondary Success

Overall, the system has seen a decline in postsecondary success as defined per KSDE. Local technical colleges and postsecondary programs saw a decrease in returning enrollees post pandemic.

7. System stakeholders relevant to each part of the KESA process were generally involved during the accreditation cycle.

ARC Comment

Updates were shared with district and building level SITE councils, as well as with the Board of Education and targeted parent groups.

8. System leadership was generally responsive to the Outside Visitation Team throughout the accreditation cycle.

ARC Comment

USD 377 reached out to TASN for guidance in adopting a very rigorous and embedded MTSS process that continues to develop and move forward.

9. The system has generally followed the KESA process with an expected level of fidelity.

ARC Comment

Although the responsibility of implementation is evident at the building level, it would be beneficial to involve more staff/stakeholders in the KESA process to ensure shared ownership.

ARC Recommendation

The Accreditation Review Council recommended a status of Conditionally Accredited for this system based on the following justification.

Justification

- The Goal areas needs to be addressed. Both goals address reading scores (which did show improvement) but the requirement is two goals.
- Any Policies & Procedures developed and enacted during the cycle need to be discussed.

Strengths

The system report is well written and the system has clearly worked to improve during the process. They appear to have been implementing the KESA process with fidelity.

Challenges

The OVT report lacked detail. We relied heavily on the system report for this summary. Specifics from OVT visits need to be shared as a part of that report with an eye to the specific items for accreditation.
System Appeal

The system chose to appeal the initial ARC Recommendation based on the following summary.

Appeal Summary

USD 377 believes that the ARC did not get a good representation of the work that was conducted during the KESA cycle. USD 377 believes that the documentation that is being provided will provide insight into the work that was and continues to be done for our students. Thank you for consideration of our appeal.

Final Recommendation

The Accreditation Review Council recommended a final status of Accredited for this system based on the following justification.

Justification

The additional information provided by this system, together with the adjustments made and actions taken, established a much clearer picture of the growth of this organization and the student improvement due to the actions they have undertaken.

The institution demonstrates strategic resource management that includes long-range planning and use of resources in support of the institution's purpose and direction.

The institution allocates human, material, and fiscal resources in alignment with the institution's identified needs and priorities to improve student performance and organizational effectiveness.

The Cognia team suggested that the institution collect the data from the daily report cards and transform the data into longitudinal information over time. A dashboard can be created to track learner progress. This would also include a deep dive into the Eleot observations to measure teaching and learning effectiveness in the classroom.

The above recommendations could be a focus for the next cycle.

REQUEST AND RECOMMENDATION FOR BOARD ACTION

Agenda Number: 10
Meeting Date: 11/10/2022

Staff Initiating: Shane Carter
Director: Leah Zeller
Commissioner: Randy Watson

Item Title:
Act on Recommendations of the Professional Standards Board/Teacher Vacancy and Supply Committee Working Group

Recommended Motion:
It is moved that the Kansas State Board of Education modify the qualifications of the emergency substitute license to include high school diploma, completion of an online substitute training component, and verification of hire in a state accredited local education agency (LEA) and be limited to no more than 15 consecutive days in the same assignment. This provision expires, June 30, 2023

Explanation of Situation Requiring Action:
The Kansas State Board of Education tasked the Teacher Licensure team, the Teacher Vacancy and Supply Committee (TVSC), and members of the Professional Standards board to identify and recommend actions to address substitute teacher shortages. The working group identified the following initiatives to address the substitute teaching shortage:

1. Extend the Expanded Emergency Substitute License through June 30, 2023. The license is set to expire on December 31, 2022. This is the only recommendation that will require a vote at this time.
2. All state-accredited local educational agencies create a substitute handbook. This will require the creation of a regulation as well creation of guidelines to assist districts with creation of the handbook.
3. All Emergency Substitute Licenses will be valid for two school years. This will require amending regulation 91-1-201(f) to “The emergency substitute teaching license issued to an individual shall be valid for two consecutive school years.”
4. Creation of a Legacy License for retired educators. This will require an addition to licensure regulations 91-1-200, 91-1-201, 91-1-203, and 91-1-205.

Any initiative that requires a regulation change will be submitted thru the regulation subcommittee of the professional standards board for state board approval. A pending set of regulations will be acted on by the state board December of 2022. Future updates to regulations cannot take place until the state board reviews and votes to adopt the pending set of regulations.
Subject: Recognition of PTA School of Excellence recipients

The National PTA School of Excellence is a recognition program that supports and celebrates partnerships between PTAs and schools to enrich the educational experience and overall well-being for all students. The program also reiterates the importance of a joint commitment between PTA and school leaders to work together to achieve PTA’s National Standards for Family-School Partnerships.

Schools that exhibit improvement are honored as National PTA Schools of Excellence, a distinction that spans two years. The honorees from Kansas are:

From Shawnee Mission USD 512:
- Broken Arrow Elementary
- Mill Creek Elementary
- Shawnee Mission East High School

From Blue Valley USD 229
- Timber Creek Elementary

Members of Kansas State PTA, honored schools and their local PTAs will be in attendance.
The Graduation Requirements Task Force was established in June 2021. The purpose of the Graduation Requirements Task Force was to examine graduation requirements in Kansas from at least three lenses:

1. Identify courses to add or delete from current requirements (if any).
2. Review ways to demonstrate mastery of skills and competencies.
3. Study need for value-added assets in addition to a high school diploma.

During the May 2022 Board meeting, members of the Task Force provided an update of their work and covered the mastery of skills, competencies and value assets recommendations. The proposed graduation requirements based on the Task Force's findings and subsequent recommendations were presented at the September Board meeting and the recommendations were discussed at the October Board meeting. It was determined then that further discussion amongst the Board was necessary. The Board may take action on this item, or decide to wait until the December Board meeting.
Item Title:  Presentation by Jackson Bevan, 4th Grader at Northern Hills Elementary, Seaman USD #345

From:  Denise Kahler

The Board will hear from Jackson Bevan’s inspirational story about how he became a vacuum expert, established his own vacuum repair business and his future dreams in the vacuum industry. Jackson will be accompanied by his principal and his Project Lead the Way teacher from Northern Hills Elementary.
Item Title: Legislative Liaison Report/2023 Legislative Priorities Discussion
From: Deena Horst and Ben Jones

At the October Board meeting, Dr. Horst requested Board members submit to her or Mr. Jones potential legislative priorities for 2023. The Board will review their 2022 priorities and discuss potential new priorities for 2023.
