Credential Incentive Program Awards

2017-18 credits, audited in FY19
Revised August 2018

PURPOSE OF AUDIT

The 2012 Legislature changed funding of CTE approved classes that are offered at Community Colleges or Technical Colleges so that funding of those classes flows through the State Board of Regents. Kansas High Schools are encouraged to send 11th and 12th grade students to those programs. To aid the Unified School Districts in this endeavor, the legislature created the Credential Incentive Program. Each school year, to the extent there are sufficient moneys appropriated to the career technical education incentive program, the state board of education shall make an award to a school district for each student who has graduated high school having obtained an industry-recognized credential in an occupation that has been identified by the Secretary of Labor as an occupation in highest need of additional skilled employees. (K.S.A. 72-4489(b)(1))

Requirements

1. Student must have graduated from High School within the 2017-18 school year.
2. Student must have obtained **one of the *approved** industry-recognized credentials prior to graduation or by December 1st immediately following graduation from High School.

Districts were to submit their list of graduates who qualified for the Credential Incentive Program **through the KCAN report in KIDS (or KPAC)** by May **18th** to the Career and Technical Education team.

Number of claimed students will be included in the Master USD Write up program for each district submitting a claim. A list of students will be provided to audit staff.

Key dates:

High school graduation date requirement:	2017/2018 or 2016/2017 school year
Deadline to obtain credential:	Prior to December 1st following graduation from high school
Deadline to submit claim:	May 18, 2018

AUDIT STEPS

1. Verify all students listed have graduated from High School during the 2017-18 or 2016-17 school year*. Check dates on the report for accuracy.
2. Ensure the district has evidence that the student has obtained the required credential. Evidence can be a copy of the student's credential or a list of students earning industry-recognized credentials provided by the awarding agency (community college, technical college, credential program, etc.). The credential could have been awarded prior to graduation but *(in order to be included in a claim for 17-18)*, no later than May 18, 2018. If the credential is awarded after that date, it may be included in the district's 2018-19 claim if awarded by December 1.

* In 2017-18, students who graduated in 2016-17 and obtained their certification between May 18 and December 1 may be included on the 2017-18 report.

REPORTING REQUIREMENTS

1. The claimed number of students can be found on the Credential Incentive Program page of the current USD audit write-up.
2. For any student found to not qualify, list the student's name and mark the appropriate box as to the reason the student does not qualify.
