**ADJOURNMENT**

# KANSAS STATE BOARD OF EDUCATION

## MISSION

To prepare Kansas students for lifelong success through rigorous, quality academic instruction, career training and character development according to each student's gifts and talents.

## VISION

Kansas leads the world in the success of each student.

## MOTTO

Kansans CAN.

## SUCCESSFUL KANSAS HIGH SCHOOL GRADUATE

A successful Kansas high school graduate has the

- Academic preparation,
- Cognitive preparation,
- Technical skills,
- Employability skills and
- Civic engagement

to be successful in postsecondary education, in the attainment of an industry recognized certification or in the workforce, without the need for remediation.

## OUTCOMES FOR MEASURING PROGRESS

- Social/emotional growth measured locally
- Kindergarten readiness
- Individual Plan of Study focused on career interest
- High school graduation rates
- Postsecondary completion/attendance

**Item Title:** Discussion of proposed Executive Order 20-58

Kansas State Board of Education members will publicly review and discuss proposed Executive Order 20-58 which has the effect of closing public or private school attendance centers in the State of Kansas.

**Item Title:**

Act on Resolution 2020-1

**Recommended Motion:**

It is moved that the Kansas State Board of Education affirm proposed Executive Order 20-58 by resolution that this Executive Order is in the best interests of the students in Kansas.

**Explanation of Situation Requiring Action:**

On Monday, July 20, 2020, Governor Laura Kelly announced proposed Executive Order 20-58 which has the effect of closing public or private school attendance centers in the State of Kansas.

House Bill 2016 became law in June 2020. Section 7 states: *“Notwithstanding any other provision of law to the contrary, no executive order issued by the governor pursuant to K.S.A. 48-925, and amendments thereto, that has the effect of closing public or private school attendance centers in this state shall be effective unless and until such order has been affirmed by the state board of education by adoption of a resolution by a majority of the members of the state board.”*

Attached are the proposed executive order and a resolution affirming the proposed executive order.

**EXECUTIVE ORDER NO. 20-58**

Delaying the 2020-2021 K-12 school year

**WHEREAS**, securing the health, safety, and economic well-being of residents of the State of Kansas is this Administration's top priority;

**WHEREAS**, Kansas is facing a crisis-the pandemic and public health emergency of COVID-19-resulting in illness, quarantines, school closures, and temporary closure of businesses resulting in lost wages and financial hardship to Kansas citizens;

**WHEREAS**, the United States Departments of Health and Human Services declared a public health emergency for COVID-19 beginning January 27, 2020, with now more than 3,698,000 cases of the illness and more than 139,000 deaths as a result of the illness across the United States;

**WHEREAS**, the World Health Organization declared a pandemic on March 11, 2020;

**WHEREAS**, a State of Disaster Emergency was proclaimed for the State of Kansas on March 12, 2020;

**WHEREAS**, on March 13, 2020, the President of the United States declared the ongoing COVID-19 pandemic of sufficient severity and magnitude to warrant an emergency declaration for all states, tribes, territories, and the District of Columbia pursuant to Section 501 (b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. § 5121-5207 (the "Stafford Act");

**WHEREAS**, on March 13, 2020, the President of the United States pursuant to Sections 201 and 301 of the National Emergencies Act, 50 U.S.C. § 1601, et seq. and consistent with Section 1135 of the Social Security Act, as amended (42 U.S.C. § 1320b-5), declared a national emergency that the COVID-19 outbreak in the United States constitutes a national emergency beginning March 1, 2020;

**WHEREAS**, as of this date, in Kansas there have been 23,334 reported positive cases of COVID-19 spread among 102 counties, including 307 deaths;

**WHEREAS**, after a steady trend of decreasing metrics, recent weeks have seen the numbers of COVID-19 cases, hospitalizations, and deaths spike across the nation, including a significant increase in cases in Kansas;

**WHEREAS**, this worrying trend of increased COVID-19 spread is a danger to the health and safety of every Kansan and also presents a serious threat to reopening and reviving the Kansas economy;

**WHEREAS**, the State of Kansas must remain flexible to account for the evolving nature and scope of the unprecedented public health emergency posed by COVID-19, and school administrators and teachers must have an opportunity to prepare for safe and effective student instruction in light of the current status of the pandemic with the beginning of the school year approaching;

**WHEREAS**, the current state of the COVID-19 pandemic, in which disease spread is steadily increasing in Kansas and the number of cases, hospitalizations, and deaths from COVID-19 are spiking nationally, delaying the beginning of the fall 2020 K-12 semester until after Labor Day will give schools time to plan accordingly and will give our state a chance to reverse these dangerous trends;

**WHEREAS**, for the aforementioned and other reasons, and in recognition and furtherance of my responsibility to provide for and ensure the health, safety, security, and welfare of the people of the State of Kansas, delaying in-person instruction in K-12 public and private schools is necessary to promote and secure the safety and protection of the civilian population;

**WHEREAS**, Pursuant to L. 2020 Special Session Ch. 1, Sec. 7, an order that has the effect of closing public or private school attendance centers is only effective after a majority of the members of the State Board of Education determines such order is in the best interests of the students in this state and the Board adopts a resolution affirming such an order;

**WHEREAS**, on July 22, 2020, the State Board of Education determined that this order is in the best interests of the students in this state and adopted the necessary resolution; and

**WHEREAS**, in these challenging times, this Administration will do whatever it can to avoid immediate dangers to the health, safety, and welfare of Kansans.

**NOW, THEREFORE**, pursuant to the authority vested in me as Governor of the State of Kansas, including the authority granted me by K.S.A 48-924 and K.S.A 48-925(b) and (c)(11), and pursuant to the authority granted me and the State Board of Education in L. 2020 Special Session Ch. 1, Sec. 7, in order to ensure that Kansans can help keep each other safe and keep our businesses and schools open as we restore our economy, I hereby direct and order the following:

1. K-12 public and private schools shall not allow attendance, instruction, athletic practice or competition, rehearsal, performance, or other interaction of an instructional manner—including virtual, online, and any other direct or indirect means of providing instruction—between faculty/staff and students of public or private K-12 schools from August 10, 2020, through Sept. 8, 2020, except that the following activities may occur:
  - a. Students enrolled concurrently to receive college credit may attend classes and K-12 faculty/staff may provide instruction for college credit in locations other than K-12 school attendance centers;

- b. Enrollment of students for the 2020-2021 school year and other administrative activities may occur in K-12 school attendance centers or elsewhere; or
  - c. Screenings and evaluations of students to determine accommodations and placement needs for the 2020-2021 school year may occur in K-12 school attendance centers or elsewhere.
2. All schools should work with their local governments and county health departments to determine whether to continue appropriate non-prohibited meal provision, childcare, or other community uses of school facilities or resources while complying with all directives regarding social distancing, hygiene, and other methods of slowing the spread of COVID-19.
  3. Non-accredited private home schools are not subject to the provisions of this order.
  4. This order should be read in conjunction with other executive orders responding to the COVID-19 pandemic that are still in effect and supersedes any contrary provisions of previous orders.

This document shall be filed with the Secretary of State as Executive Order No. 20-58. It shall become effective immediately and remain in force until rescinded or until the statewide State of Disaster Emergency extended by House Bill 2016 enacted during the June 2020 special session relating to COVID-19 expires, whichever is earlier. This order may be extended or modified as circumstances dictate.

## RESOLUTION 2020-1

July 22, 2020

WHEREAS, the Kansas State Board of Education is responsible for the general supervision of Kansas' K-12 public schools comprised of nearly 500,000 students;

WHEREAS, because of the COVID-19 pandemic, Kansas schools find themselves thrust into a period of rapid change, uncertainty, and heightened stress and anxiety for educators, parents and students for the coming year;

WHEREAS, Kansas schools, based on the Navigating Change guidance document developed by nearly 1,000 Kansans and distributed by the Kansas State Department of Education, are currently developing local plans to reopen K-12 schools this fall;

WHEREAS, delaying the start of the 2020-2021 school year until after Labor Day Weekend will provide educators across the state much-needed time to prepare themselves, their classrooms, and their materials in accordance with locally-developed plans to reopen K-12 schools;

NOW, THEREFORE, pursuant to the authority granted by L. 2020 Special Session Ch. 1, Sec. 7, we the Kansas State Board of Education determine that Executive Order 20-58 – which has the effect of closing public and private school attendance centers – to be in the best interest of the students in the State of Kansas.

AS SUCH, the Kansas State Board of Education hereby affirms proposed Executive Order 20-58 on this the 22nd day of July, 2020.

Signed,

Kathy Busch  
Chairwoman  
Kansas State Board of Education

Timestamp	First Name	Last Name	Organization you represent	City respondent resides	Comments
7/20/2020 16:19:44	Susan	Eder		Bonner Springs, KS Lea	I teach kindergarten in the Basehor-Linwood school district, USD 458. I strongly support postponing our start date until after Labor Day. Our district is working hard with parents and teachers to formulate a plan to keep everyone safe when we return to school. The extra time would allow for a more successful opening of schools, including time for professional development, teacher collaboration, adoption of safety protocols and rearranging schools to accommodate changes for safety. The steep rise of coronavirus cases in Kansas is very alarming. A postponed start date might give the mask mandate time to take effect and improve conditions. Thank you for your consideration.
7/20/2020 16:24:07	Alison	Parnacott	USD 259 employee	Wichita	It is imperative that your body votes to affirm the governor's EO. Covid 19 is spreading rapidly through my community. The plans currently proposed by my district are insufficient to protect students or staff from harm. I am relying on you to protect my students, my family, and myself. This isn't about politics; it isn't about precedent or local control. This is about science, safety, and public health. Please do the right thing.
7/20/2020 16:24:51	Maria	Ramirez	Teacher	Wichita	School should be delayed until cases have lessened.
7/20/2020 16:25:00	Karla	McGinnis		Derby	Please pass EO 2058. Give us time to get superior safety measures in place. We can go forward after Labor Day knowing that we have ensured safety for our students and staff. Kansas kids deserve the best we can give them.
7/20/2020 16:26:01	Amy	Hageman		Manhattan	Please vote in favor of delaying the start of the school year until after Labor Day.
7/20/2020 16:28:09	Shaunna	Millar		Wichita	Please delay the start of the school year. Our cases are continuing to rise in Sedgwick county, and we need more time help mitigate the risk to our teachers, staff, students, and families. We owe our community every chance to be healthy and safe. I am the parent of a middle schooler and feel that this is imperative for the preparation for the school year, whether students attend in person, online, or remotely.  Thank you.
7/20/2020 16:28:45	Nancy	Smith	Teacher	Olathe	Thank you for your consideration of pushing back the start of school until after Labor Day. As a parent and a teacher, I feel that this time frame would hopefully make Kansans more aware of what they can do to slow down the spread of Covid-19 so that schools can open safely. In order for teachers to be properly inserviced and buildings prepared, the extra three weeks would make for a much smoother start to the school year. Our lives could possibly be in your hands and your decisions could impact the health and safety of our children and school personnel. Please do not take that responsibility lightly. The Governor is a strong advocate for the safety and health of Kansas children and school personnel...I hope you are also!!
7/20/2020 16:28:59	Marisa	Moreno		Wichita	I emailed the following to all of you but am sending this because I know you have been bombarded with emails and this might be a better way to communicate with you.  I am in support of Governor Kelly's desire to postpone the start of the 2020/2021 school year. While I understand the myriad benefits that children get from being in school, I do not think Kansas is ready for physical attendance. I am a social worker for Wichita Public Schools. I know that one of the arguments against delaying is the worsening of children's mental health. But how will their mental health be any better if they are physically in an environment that is potentially damaging to their health or their loved ones' health? How will they even be able to concentrate on learning? And what about staff? How will staff be able to support students if they have the same worries? More affluent families (families of both students and staff) will have more choices - such as the decision to homeschool or quit jobs - but how is this fair to our less affluent families? Thank you for your time.
7/20/2020 16:30:32	Emily	Judson		Wichita	Please support the Governor's order delaying school.
7/20/2020 16:32:25	Jocelyn	Baeza	USD 259	Wichita	Please vote to delay the start of school as Gov Kelly mandated.
7/20/2020 16:34:07	Elizabeth	Upton		Wichita	Protect our children and educators, delay the start of school.
7/20/2020 16:34:12	Richard	Fischer		Park City	Please do the right thing and delay the school opening as the Governor has outlined.
7/20/2020 16:36:34	Shellby	Bevan		Cheney	I feel that delaying the start date for school would be most beneficial for student and staff safety.
7/20/2020 16:36:42	Rebecca	Killen		Lawrence	Please approve this Executive Order to keep Kansas students and teachers and all their families safe. We are counting on you.
7/20/2020 16:37:44	Kolt	Bevan		Cheney	Respecting Governor Kelly's order to delay the start date for school in Kansas will protect student safety.

7/20/2020 16:38:07	César	Miran		Wichita	Delay school
7/20/2020 16:38:23	Kathrin	Wohlford	Parents everywhere	Wichita	Please do the right thing and DELAY the school opening as the Governor has outlined. Save Our future leaders and their families.
7/20/2020 16:39:35	Kimberly	Garnica		Wichita	I believe that local control is best when possible, but local areas are NOT doing what is necessary. Please uphold the governor's executive order to give districts time to do what is best for students, staff and the community.
7/20/2020 16:40:05	Jill	Dodge	USD 491	Eudora	I am in favor of delaying school until September 8.
7/20/2020 16:40:07	Allison	Polanis		Leawood, KS	Please vote to accept Governor Kelly's executive order to delay school opening until after Labor Day. COVID-19 cases are increasing at an incredible rate in Kansas and it would not be prudent to send students, teachers, staff, and others (bus drivers, for instance) back into schools just yet. School districts need more time to make sure that a return to school is safe.
7/20/2020 16:40:41	Bobbie Jo	Moran		Wichita	I am a teacher and a parent. I know it is inconvenient, but it is best for the health of school staff and students to delay the opening of school until after Labor Day. I have class sizes of 32 students, with 6-8 classes a day. There is no way to social distance in my room unless I would have only 1/3 of my students. I have asthma, and I am very concerned about getting ill. With cases rising, delaying school is the right thing to do.
7/20/2020 16:41:16	Sharon	Powell Quincy	personal	Wichita, KS	I believe we should follow the Executive Order of the Governor of Ks. She is following the science and medicine and that is the only path available to any one of us with health issues of KS residents at heart. Economy, "socialization" of the kids, are second and third. The children are resilient and will recover from this. We need to make absolutely certain the health of our students and our staff is of the highest concern when making this decision!
7/20/2020 16:42:29	Robert	Roth		Stilwell	The Kansas BOE should vote to open schools without delay. According to the state's own statistics, no person under the age of 29 has died from Covid19 and the number total number died under age 65 is 68 people, a relatively small number well under pandemic level. It should also be noted that out of 307 total deaths, 180 (58.6%) have occurred in long term care facilities. Kansas has many counties with very low case rates and many with no reported cases. I had two grand children go through distance learning in Miami county. It was little better than no learning at all. The subject matter will need to be taught again from the beginning but now at the next grade level. Keeping schools closed any longer cannot be justified.
7/20/2020 16:43:46	Fernanda	Belton	Usd259	Wichita	Please... wait to open schools...
7/20/2020 16:43:56	Cara	Snyder	Myself	Topeka	As a parent of a school age child and a teacher
7/20/2020 16:44:03	Chandra	Stauffer	teachers	Wichita	Please delay! I'm an elementary teacher and can't wait to meet my new crop of students, but I can wait till it's possible to keep them safe. Right now that is a Herculean task that even teachers can't perform. Please rank health and safety above politics. PLEASE.
7/20/2020 16:44:34	Lori	Killen		Lawrence Kansas	Please approve the delay in the start of the school year. I want to keep our teachers and students safe. The delay will provide more time to assess the spread of Covid. It will also provide teachers more time to plan for on line learning and how to carry out safety protocols in our schools.
7/20/2020 16:44:38	Amy	McGarrah -Sauce	MOMS	WICHITA	It is still unsafe to hold in school class. Everything should be moved online until the state has better control of the virus. Things now are worse than when they decided to cancel school for the remainder of the year in March. In what way would it make sense to start school again? Any way that this goes my kids will not be attending school in person until I feel it is safe to do so. I felt like it wasn't safe in March and that they made the right call. There is no way it's even close to safe now. Beyond caring for the safety and health of kids and their families you should also show that same concern for the teachers/staff and their families too. I'd rather go through one or two hard years of navigating the new normal of homeschooling than to risk the lives of the students, teachers, staff and all their families. Who will teach the kids when the teachers die and who will there be left to teach? It's not worth the risk.
7/20/2020 16:44:52	Melissa	Hurley	USD 359	Argonia	I think that delaying the start does give schools a little extra time to plan and implement procedures to keep students safe, but I feel it should be recommended and each district make their decision based off recommendations and their communities.
7/20/2020 16:45:43	Cara	Snyder	Myself	Topeka	As a parent of a school age child and a teacher
7/20/2020 16:47:20	Jennifer	Decker	USD 491	Lawrence	I support Governor Kelly's executive order delaying the start of the school year until after Labor Day.

7/20/2020 16:48:10	Jacqueline	Brown		Alma	Please vote in favor of delaying the school start. I believe that many districts need the additional time to receive additional laptops or ipads for students and for teachers to continue training on using LMS such as Canvas. Many teachers are not yet comfortable with remote education. I know that technology staffs are working hard to get equipment ready and available. The additional weeks will also allow our state to get better control of infection rates especially in college towns where students will be arriving and mixing with the community. Thank you for your work.
7/20/2020 16:48:37	Janel	Sanford	Social worker	Bentley-Halstead	Please let the children do partial days and small groups and virtual school. Too many people do not believe this is real. The children do not get to decide their own safety. As a social worker, i also understand that there are children at risk and need to be in school. This is a hard decision to make. God bless you.
7/20/2020 16:48:47	Christie	Klein	Usd 259	Wichita	We need to get this virus under control before we even think about risking lives. I don't even understand how peoples lives are an option. Everyone's health should be the most important thing.
7/20/2020 16:50:35	Terri	Ruland	Parent	Wichita	I think we should delay in school education until after Labor Day.
7/20/2020 16:51:42	Terry	Collins		Paola	Open schools on time. It is totally ridiculous to have any restrictions because of COVID-19. Turns out it is really bad for older people with comorbidities and really minor for everyone else. When the media changed from advertising deaths possibly due to COVID-19 to CASES of COVID-19, that was a darn good sign the 'pandemic' was over.
7/20/2020 16:51:54	Brian	Killen	Self	Lawrence	Not safe enough at present
7/20/2020 16:53:31	Ashley	Lunkenheimer	Na	Derby KS	The CDC director says schools need to be open. In April, Kansas saw the lowest DCF reporting in 10 YEARS! The damage we will do to kids will be incomprehensible if we decide to close schools for a virus that does not affect them. There are ways to mitigate risk- but kids need school. Please stand on the right side of history. Please do not let poor, impoverished kids to be a political pawn. There is absolutely nothing more privileged right now than closing schools.
7/20/2020 16:53:46	Julianne	Ramsey		Halstead	Keep schools closed until after Labor Day
7/20/2020 16:54:32	Eric	Killen		Lawrence	Approve the delay!
7/20/2020 16:55:59	Aaron	Schoenhofer	USD 259	Wichita	Please do the right thing and delay school openings as the governor has outlined.
7/20/2020 16:56:08	Lorna	Larson	Self	Lawrence	Please approve the delay in opening schools.
7/20/2020 16:56:46	Cara	Snyder	Myself	Topeka	As a parent of an elementary age student and a high school teacher with USD 501, I urge the Kansas Board of Education to approve Governor Kelly's mandate to delay the start of school until after Labor Day, 2020. The health and safety of our children, staff, administrators, should be priority number one. With cases rising across the country and in our own backyards, this delay and starting school virtually should not be a debated issue. It is the safest route for all involved. Delaying the start to school will give schools the valuable time to prepare for phased-in returns to small group in-person learning. It is imperative that such a mandate be heeded. Thank you for your service.
7/20/2020 16:57:17	Edye	Freund		Carbondale	I encourage the KS school board to reject the governor's latest executive orders regarding the delay of school and mandating how districts should reopen. The board has already done the hard work and voted to give the districts the flexibility to do what is best for their area. One size does NOT fit all. Vote no Our kids need to be back in school.
7/20/2020 16:57:53	Sandra	Macias	USD259	Wichita	I am in support of starting school in August. I believe the school districts have worked very hard to put safety measures in place to mitigate the spread of Covid. It is time to go back.
7/20/2020 16:58:34	Lori	Locke	Olathe District	Overland Park	Please approve the Governor's recommendation. We need to wait to send our kids to large group settings until our state isn't a hotspot. We need to see if the masks help bring numbers down. Even if our kids would be ok the teachers and staff may not. I want nothing more for my kids to return to school, we did not like virtual learning, but now is not the time.
7/20/2020 16:59:10	Amanda	Wen	Maize USD 266 and Ha	Wichita	I fully support a delayed start to the school year, as I believe it is in the best interests of everyone involved to have more time to prepare, adjust to guidelines, obtain supplies, train teachers, and watch our virus numbers improve. However, I would like some guarantee that school will start by September 9, even if it does have to be fully online to begin the year. Further delays will impact next year and beyond, and will hurt our children academically. To sum up: Yes to delaying until September 9, no to delays beyond that. Thank you for the opportunity!

7/20/2020 17:00:46	Joshua	Sant	Self	Sterling	Delay closure
7/20/2020 17:00:53	Samuel	Beaulieu	Usds	Lawrence	Please approve the delay
7/20/2020 17:01:43	Crystal	kochenower	spouse of usd 259 educa	wichita	<p>I am pleased Governor Kelly announced her plan to issue an executive order to postpone the start of school in the midst of COVID-19. My husband is a teacher and I believe that its important to keep our family safe and reduce the risk of exposing countless others to an unprepared school environment.</p> <p>You never imagine being in your thirties and having a discussion with your spouse about increasing his health, life and short term disability plans in anticipation of going back for the upcoming school year.</p> <p>Kansas schools need time to set up and our teachers need time to prepare for the events ahead of them. While its not ideal to put my family's lives at risk, it is apparently part of the job in today's world and I begrudgingly recognize that.</p> <p>Please accept Governor Kelly's executive order!</p> <p>Thank you.</p> <p>A concerned teacher's wife, -Crystal Kochenower</p>
7/20/2020 17:02:11	Kristin	Gayden	USD 259 and Parent of	Make	Please support delay
7/20/2020 17:02:14	Carol	Stephens		Mccune, Kansas	Let school start as usual. Students have been home long enough. Take temps. No masks.
7/20/2020 17:02:16	Kelly	Hylton	Parent	Abilene	Schools should open according to the the already-approved school calendar for 2020-2021. Masks should be allowed but not required. The setting should be as normal as possible for the mental health of our kids.
7/20/2020 17:02:43	Bonnie	Gates		OVERLAND PARK	Ok to waiting until Labor Day but it is imperative, our children must be back in school this fall!
7/20/2020 17:02:57	Dulcinea	Rakestraw		Wichita	I support delaying the start of school until after Labor Day.
7/20/2020 17:03:47	Zephyr	York		Wichita	As a parent of an asthmatic child and a caretaker of an entire house oof immune compromised people I do not feel safe having my children physically in school. I firmly believe online schooling for a district as big as ours is the only safe way to continue.
7/20/2020 17:04:32	Sade	Collier	Parent if USD 259 stude	Wichita	I want to keep the delay until after labor. So irritating hearing one thing last week and now we have to wait on the school board. Impossible trying to make arrangements for students. Keep them home until after labor day
7/20/2020 17:05:17	Heather	Garrison		Carbondale	I don't think we need to wait until after Labor Day to start. This virus isn't going anywhere we need to start building immunity to it. Our kids need to be in schools for their safety both physically and mentally. Let parents decide if they want to send them.
7/20/2020 17:05:31	Courtney	Nottingham	KCKPS	Lawrence	Please delay school until after Labor Day. We need to allow time for the virus numbers to lessen, for administrators to make sense of the Navigating Change document, and for teachers to have time to plan for remote or in person learning.
7/20/2020 17:06:45	Karen	Diaz		Shawnee	I support the governor's executive order. It is not a closure, it is just a delay, hopefully it will help give a chance for community spread to close down and for schools to be more prepared to open safely.
7/20/2020 17:07:03	Julie	Martel	Self as a substitute teach	Larned	Yes we need the delay. Thank you!
7/20/2020 17:07:12	Heather	Humbolt	Sub teachers	Mulvane	I believe the school year should be delayed. Children's safety comes first. What emotional.damage too are we going to do to them if their teacher dies because of this and a student brings it in. Have you thought of their mental well being also?
7/20/2020 17:07:18	Carrie	Griffin		Shawnee	I fully support Governor Kelly's order to delay the start of school.

7/20/2020 17:07:41	Jeff	Maxwell	USD260	Derby	I am concerned on how districts decide to open. A mandate needs to be made so that districts require an on-site option for schooling and an Online option for schooling. Giving parents and schools options such as these will provide healthy families with the option of normalcy in sending their children to school. It would also provide a sense of security for those who would may have compromised health to do Online schooling for the fall. Thank you for your time,  Kansas Teacher of 18 years.
7/20/2020 17:08:02	Debbie	Guan	Blue valley schools	Kansas City MO	Please delay in person school till there is no new cases for 14 days, to protect lives of Kansas students, all school staff and their families, INCLUDING your children and families!
7/20/2020 17:08:09	Carol	Stephens		Mccune, Kansas	Masks are a form of child abuse. No Masks ☹️
7/20/2020 17:08:12	Adelita	Aldava		2445 Mascot Ave. Wich	I am pleased to hear school has been delayed. This is a worldwide health pandemic. If there was ever a time to delay school, it is now. Inconveniences and preferences do not trump public safety.
7/20/2020 17:09:17	Sarah	Eubank		Pratt	I think this is a big mistake. Numerous studies have shown that children don't spread the virus to anyone. It makes sense to have adults wear masks, but not children. I work as a Family Nurse Practitioner and can tell you that having children wear masks is not a practical expectation nor is it recommended by the AAP for children under the age of 12 to wear masks. Period! Furthermore, the mental health crisis I am seeing and treating in the pediatric as well as adult population is going to be much more serious and far reaching than anything COVID related.
7/20/2020 17:09:29	Linda	Taylor	USD 457	Garden City	I agree with the delay start of school. I do not feel that it is safe for schools to reopen safely. I also believe that hours and minutes should be decreased if a late start is approved. Going to school till the end of June is not in the best interest of anyone. I also dont believe that school should be started with remote learning.
7/20/2020 17:09:59	Devin	Wilson	Parent of 2 high school #	LENEXA	Please vote to support Governor Kelly's order to keep school buildings closed until after Labor Day. Pandemic COVID-19 is completely out of control in our communities, and we need to demonstrate a continuous trend of decreasing percent positive COVID-19 cases for at least two weeks, and at a level of below 2.0% positives before we consider steps to begin a phased, methodical approach to opening school buildings. It's unfortunate that during a global pandemic, that we are divided as a nation instead of coming together to stamp out the coronavirus swiftly and decisively. Some have even referred to this as a hoax and made it somehow partisan. COVID-19 has killed 140,607 Americans as of my writing. Thank you for serving our great state!
7/20/2020 17:10:30	Mandy	Adams		Derby	Comment removed due to profanity
7/20/2020 17:11:21	Tiffany	Haynes Reed		Wichita	I am a school counselor and agree with a delay to the start of the school year. Kansas continues to see increases in cases. People are refusing to social distance and wear masks. I fear for my safety as an educator and for the safety of my students and their families. This isn't about politics this is about the health and safety of our community members. Thank you!
7/20/2020 17:11:34	Renae	Johnson	USD 497	Lawrence	Please accept Gov. Kelly's recommendation to keep school closed until after Labor Day. I have 3 school-aged kids and I work for the District myself. We need the time to allow the District to plan and supply us w cleaning equipment. My husband is immuno-compromised, and I fear his and our health is threatened by returning to school before (1) districts are ready (2) COVID+ cases haven't decreased (3) poorer and rural communities across the State aren't adequately prepared.
7/20/2020 17:11:34	Debbie	Durham	Community mumber	Kansas City	Please support and back Gov Kelly's executive order. Not enough is known about this virus to place our children, teachers, bus drivers and support in harm's way. Involving politics into this issue is very irresponsible. You have far too many children that come from groups that have had high mortality rates from virus. To place children in classrooms would be asking for disaster...because they are just that, children. Not supporting the health of our children is a reckless move
7/20/2020 17:12:11	Michelle	Mason		Olathe	Please delay schools to allow time to put into effect the guidelines put forth by the BOE. As a parent and a teacher I feel this time will help our schools put together the best environment for the students' return.

7/20/2020 17:12:41	Christi	Kidd	Parent	Wichita	We are doing more harm to our children than the virus. Children need normal and stable. The fear and paranoia will have serious consequences on the current generation of children. School needs to resume as normal. Sure teach the children about hygiene to help prevent infections but masks, distancing, temp checks, etc is only instilling fear. Give the decision making to each school district so that they can make decisions that fit the needs of their community. There is no need for the one size fits all top down decisions that the governor keeps trying to impose on the state. Thank you.
7/20/2020 17:13:09	Holly	Rook	Parent and Full-time W	Overland Park - District	<p>I would like to “weigh in” on the discussion for extending/delaying the start back to school. Here is a little bit of background on our family. Eric and I are a double income household (both working full-time) and without family support nearby. Both of us have no teaching background.</p> <p>We have tried to do online learning and it does not work for our family right now. Both of the boys are very extroverted. I believe that extending/delaying the school year would be a governmental misstep. I believe that as parents and taxpayers, we have the ability to make decisions for the good of our family. We will probably start looking for an alternative possibility to educate our children. We have complied with the Governor’s orders, mask mandates, social distancing, meeting virtually for church (it has been hard for smaller local churches to pivot), but we are asking you to please consider “overruling” her decision to delay opening the schools on Wednesday.</p> <p>This has been difficult for everyone and I know that you have to weigh information and facts, but the data that I have studied is that out of about 20,000 cases in KS, there have been 300 deaths (information posted 7/20/2020). If I did the math, that is 1.5% mortality rate on cases. I think that the greater cost is kids are learning to be more distanced in an already isolated generation. I worry about the mental/emotional toll that this is taking on the parents and kids. Thank you for considering our viewpoints.</p>
7/20/2020 17:13:25	Christan	Rose		Towanda	Thank you for your dedication to keep kids safe.
7/20/2020 17:13:29	Claudia	Tovar		Wichita	Please delay, as a para educator and parent we need more time to get ready.
7/20/2020 17:13:38	Lucas	Jacobsen	Myself	Goddard	This is a joke. Governor Kelly needs to be impeached. The legislature needs to step in and strip her of anything that resembles authority. She is clearly trying to break the law and the constitution. Where is the basis for such mandates? Where are the studies that show that this virus is harmful to students?
7/20/2020 17:14:40	Leslie	Gish		Topeka	Each district and private school needs to be allowed and empowered to decide when and how to begin the 2020-2021 year. As a parent of a student attending a private catholic high school, I do not believe that we should have to adhere to the same calendar as other public (or private) districts.
7/20/2020 17:14:35	Laura	Harrison		Topeka	Staff should return prior to Labor Day, students should return after labor day. From there each district can decide how to start the learning environment based on their Covid-19 case count.
7/20/2020 17:14:41	Susan	Focke	Susan Focke Daycare	COLBY	Schools need to open these kids need them We daycare providers have been open from the beginning and we are doing all the precautionary things to keep kids safe so will schools Let each school board decide when to return to school We have very few cases in western kansas LET US GET BACK TO LIFE

7/20/2020 17:15:16	Christopher	Hines		Paola	<p>Dear Board and whomever it may concern,</p> <p>As a substitute teacher (while working toward my full license), this time has been extra stressful for my family and I. I, thankfully, was able to find work during this crisis but it has not been enough to continue to support my family. I know substitute teachers will be needed this school year more than ever but if we wait to open, I am afraid I will have to find another job and not be able to be available this school year to my local districts. This is extremely saddening to me as I would miss the students I have worked with and would make my journey to becoming a licensed teacher even harder. I am for a choice by school district to adjust their school calendars as the local boards of education see fit without punishment for not making the required hours. I would be willing to drive to an "open" district to be of assistance during this time until my local schools opened. I want to help and be in the classroom this year but I also must think of my family.</p> <p>Thank you for your hard work and consideration of my comments, Mr. Hines Paola, KS</p>
7/20/2020 17:15:41	Laurie	Denk		Lindsborg	<p>This delay is necessary. Honesty, folks. If e don't have a hard core plan in place, I am not coming. It would make me ill to end my 36 years in education this way, but my life matters too. I spent all of my energy disinfecting, hand washing, and distancing during a recent staph infection. It didn't work. How will we prevent my students and me from COVID.</p>
7/20/2020 17:16:00	Bev	Keys	Private school	Topeka Kansas	<p>First and most importantly, the governor is ignoring the Kansas Statutes that put control of schools in the hands of local school boards. She says we are burdening them with these tough decisions, that is hogwash! That is what tough, down to earth, problem solving Kansans were born for!</p> <p>Second, very little of the evidence she gave was about the population of people who attend school except citing the South Korea study. What about our own Children's Mercy recommendations or the American Pediatric Association? Are we really kore trusting of South Korea than our own medical doctors.</p> <p>Third, the mandates are overreaching and controlling! They spread fear and create an even larger gap in our children's education!</p> <p>I beg you! Let the local school boards decide and if they need help, then let them ask. We have lost a quarter of school doing it her way. Now it's time to give Kansas people their turn at solving this problem!</p>
7/20/2020 17:16:01	Kathy	Rich	None, but I teach at Cen	Hutchinson	<p>Prayers for all of you making these difficult decisions. 1) please let us start remotely in August 2) please allow local BOEs to decide based on local health 3) please don't require teachers mask with all the talking we do 4) please keep listening to all medical opinions, not just those who are strictly CDC/WHO Thank you!</p>
7/20/2020 17:16:21	Danielle	Edwards	My family	Scott city	<p>I think the 3 week push back is a great opportunity for our schools to get things ready for when kids come back. I think the BOE should approve the governors mandate</p>
7/20/2020 17:16:38	Michaela	Hastings		Wichita	<p>School should be held online as long as necessary until safety can be promised.</p>
7/20/2020 17:16:55	Cory	Zellers	Parent	Dodge City, KS	<p>Please support the Governor's plan to delaythe start of school. Schools are not ready. Kansas is not ready. Please don't make the kids and teachers in our communities suffer because we are unprepared.</p> <p>The KSDE took all summer to put together the guidance. Now the COVID situation has drastically changed for the worse in the last few weeks. Schools need more time to figure out how to ensure everyone is safe. Starting schools on time is not worth a single student or teacher getting sick.</p> <p>Thank you for giving the public the opportunity to provide input.</p>
7/20/2020 17:17:01	Megan	Smith		Haysville	<p>As a teacher, I am grateful for the decisions you are making. I know this is a no-win situation, but you are putting the kids' and teachers' health first with this executive order. Thank you!</p>
7/20/2020 17:17:22	Sharon	Skidmore	Community member, ret	Usd 373	<p>Do not delay schools, no masks</p>

7/20/2020 17:17:45	Kayleigh	Glover		Shawnee	Yes absolutely keep it closed until after Labor Day. Our children are not sacrifices to get people back to work sooner. Employers must offer flexibility for working parents who sometimes are faced with no other choice than to take their kids to work even though they are terrified they will get sick or bring covid home to vulnerable family members.
7/20/2020 17:17:59	Brandon	Claypool	Parent and educator	Stilwell, KS	I am writing you to ask you to listen to science and Governor Kelly about delaying the start of the school. I am a parent of two kids (3rd and 9th grade) and teacher/coach of 22 years, so I am looking at this from two different perspectives but both tell me that we need to delay the start. I desperately want to get back in the classroom with my students because we need each other and we will get back together soon but right now is not the time. I love my job and give them everything I can each and every day but I lay awake at night now worried that I might have to give them my life because I am forced to go back to school before we need to be there. If not me, it will be one of my colleagues or god forbidding, one of my students. I work in a 6A high school and I know for a fact, the things we need to do to stay safe are going to be a monumental task and one doomed to put people at risk. We just don't have the space and resources to make it happen. I have already had one teacher in my department resign because of the stress of the situation. I cannot do that. I have to pay my bills and feed my family. I have a passion for education and have invested 22 years in it, so I want to teach and help my students grow. It is time put all politics aside and use common sense. I watch media and leaders (including my school board) meet virtually and eliminate face to face meetings but people want me to return to a building with approximately 2000 people in it. Just think about that and whether or not you would want to enter that building or send someone in your family into it not knowing what awaits you. As for my kids and from the parental perspective, I want my kids to go to school but I know they can wait and will still be successful. My 3rd grader is already quite nervous about returning with everything going on around us and worried about what could happen to her, her friends and her teachers/staff. My Freshman is a great student and can thrive in any system, and is a sports fanatic and ready to go to high school and play football. And I want him to have that opportunity but we have discussed and know it is important to delay the start of school and his season to be safe for EVERYONE. By the way, I am a football coach as well and know the importance of having sports for our kids but more harm will come from starting too early and stopping before we even try to play games. Delay the start and actually give us a chance to play a shortened season and play games. Once again, I beg you to use common sense and use your position to make a stand for what is right and smart. DO NOT let politics guide us into a dire situation. Be strong leaders that advocate for what is right. Demonstrate to the young people of our great state what it means to stand up and do the right thing. Show them that they matter and you value them. It will be a lesson they will remember forever. Thank you for your time and god bless.
7/20/2020 17:18:02	Rachael	Meza		Wichita	I work at and have children that attend schools in USD 259 and I highly support starting school late or an all online order.
7/20/2020 17:18:43	Larry	Trussell		NEWTON	I believe starting the school year late is a very reasonable approach to the current situation. My wife is a retired teacher and we have two daughters that are teachers and one who is a social worker in the Newton school district. I am a retired official with BNSF Railway and a lifelong Republican. I have been telling anyone that will listen that the start of the school year should be delayed before I heard anything about it from the Governor's office.
7/20/2020 17:18:52	Sally	Scott		Lindsborg	Quit delaying . Our children need interaction.
7/20/2020 17:19:21	Emaleigh	Brown		Derby	Please follow governor Kelly's order and delay schools. Give teachers adequate time to plan for online instruction. Give our state time to get numbers down before we throw staff and students in buildings.
7/20/2020 17:19:40	Sandra	Whittemore		Wichita	Our teachers need to do what's right for kids. They can wear masks, they can social distance as much as possible. Kids need true education, they need to be in class and need to learn from real educators. I understand teachers are nervous- but so were nurses, doctors, grocery store workers, police officers. They will lose total support of the community by demanding to not work.
7/20/2020 17:20:39	Lori	Sevedge		Chanute	Please delay the opening of school to give teachers and staff more time to prepare and be ready for all the changes.

7/20/2020 17:21:08	Bob	Sno		Topeka	Please keep in mind not only the health of students and the adults who work at schools. Allow school districts the extra 3 weeks to prepare and make a safer environment for everyone. Social distancing in a school will be very difficult. Remember many staff and teachers are over age 50 . Please allow this bill to pass and look to our future with safety in mind. Kansas has peaked this last weekend with 500 cases of Covid per day. Yes , we need school, but first it needs to be a safe environment for all. Together we can forge ahead and have a great school year. It just needs to be delayed. Thank you.
7/20/2020 17:21:10	Ashley	Giebler	Blue River Elementary i	Overland Park	Please vote yes on the EO. It will allow BV and other districts time to plan effectively. It will also give time to help flatten the curve again and make it safe for all staff and students.
7/20/2020 17:21:37	Sherri	Rawlins	Citizen, retired educator	Newton	I request you support the Governor's EO delaying the opening of school until after Labor Day and requiring masks in schools.
7/20/2020 17:21:43	Michaela	Cavlovic	Teacher	Olathe	If you don't approve the order to delay school you need to make it 100% online so we are not risking our lives, our students lives and the possibility of them taking it home to their family's
7/20/2020 17:21:52	Brittany	Rogers		Wichita	Do not mandate masks for students k-5th. Even the state board of education does not recommend that they wear them. This will cause only more problems that it needs. Not only are kids in this age group rarely seen with any effects of this virus but this age group does not understand how to properly wear a mask. The state health department website even says to exempt those kids who would risk even more of a risk of transmission to kids who touch their face more when a mask is worn. THIS IS ALL KIDS, even a lot of adults! I have never seen so many people at Walmart touching their face before. I sat and just watched and counted an adult touching their mask to readjust at least 3 or 4 times at the registers....adults!!! In a short time frame!!! What do you think young kids would do!? Masks are not normal for kids, they would be fighting teachers all day long to keep them on. This will take away all learning time and cause the worst kind of distraction. Also please allow the kids immune system do what it needs to do so we don't have many more health issues. The kids need germs to build an immune system at this age, otherwise you create an immunocompromized society. Let kids go back to school like normal!!!!!!!!!!!!
7/20/2020 17:21:53	Jenni	O'Crowley		Douglass	This should be a local decision. Not the Governor. Vote to allow our local BOEs to make decisions based on the data in our district
7/20/2020 17:22:11	Eric	Johnson		Holcomb	Can the the mask mandate for students not be as strictly enforced (or be voluntary) , for example if the % of active cases, for that local population is less than 1%  Also is there a local authority to ease up on, or strictly enforce the mandate? Like that of the statewide mandate to require mask, being up to each county on whether to enforce it.
7/20/2020 17:22:52	TINA	GEHLEN	UD 312	HUTCHINSON	In the end, what if students refuse to wear mask? Support Gov. Kelly's executive order of moving the start date of school until after Labor Day.
7/20/2020 17:24:26	Christie	Woods		Horton	The governor is killing education. Not for my 7 year old that will now be home schooled, but for children that do not have that option. Children that do not have the home support that they need. Children that don't have food stability. I could go on of the 'have-nots' that the governor continues to ignore and under-serve.  Treating my small rural district of about 600 total the same as the urban districts is completely irresponsible. The governor was supposed to be 'pro-education' but has turned out to be just 'pro-teacher union'. It's sad.
7/20/2020 17:24:47	Kristine	Mahaney		Olathe	School needs to begin on time without restrictions
7/20/2020 17:24:59	Debra	Kellogg	None	Wichita	Please vote to uphold... I would like my granddaughter... whom I am guardian of to have a safe school to attend. I am over 50 with asthma and if I dies... because she brings it home...who will take care of her??? The state???
7/20/2020 17:26:27	Jenessa	Gonzales	Olathe Public Schools	Olathe, KS	To protect staff and students, please enforce Governor Kelly's order to allow schools to have more time to come up with a plan to keep our kids and staff safe. Giving the extra time not only allows more time to plan and get PPE, but also allows time for the spread to slow. Johnson County, Wyandotte and Douglas have out of control spread right now. Please allow us the gift of time to try to protect our kids, families and staff.
7/20/2020 17:26:50	Teri	Moss		Hoxie	Masks should not be worn by healthy children. They are detrimental to their immune systems

7/20/2020 17:27:04	JILL	FOSTER-KOCH		Topeka	The governor has said just a few more weeks, just a few more weeks, how many times now? Everything keeps getting pushed back. What's to say she won't do that again? When is enough, enough? You have the decision to change that. You do not have to adhere to the governor's RECOMMENDATIONS---not a requirement. Our total deaths of children aged 0-17 years, in Kansas, from COVID-19, is still zero. Influenza is more deadly than this virus and yet we've never shut schools down during flu season. The governor said the reason for not opening schools was to be to flatten the curve, not eliminate it. If this were truly about keeping people safe, nothing would be open. If we can visit places with large capacities, like Walmart or the pools, why can't we have schools open? Kids are working retail jobs, around the public, they're socializing with their friends, but we can't have schools open. This makes no sense. The governor has said children 10 and under are not required to wear a mask, so why would we make masks mandatory at school? Are those over the age of 10 the only ones getting it? No. If a person must wear a mask to keep the other person safe from them, then why would only staff and older kids be required to wear a mask? Again, this makes no sense. It defeats the purpose of what we've been told about the masks. I firmly believe if you do not open up schools in August, you will have many families that will pull their children out of the district, and send their children to another district that is opening up, a private school, or will homeschool. There is potential to have major funding issues, schools are already underfunded, we don't need to add to it. I've seen multiple Kansas educators commenting online with things like "we shouldn't be forced to risk our lives" "keep schools closed" etc. If teachers and districts won't stand up and advocate for their professions and our kids, then parents have no choice but to make a stand the only way we are able. Maybe if there is a funding crisis children and education will be put first again. We need to get our kids back in school and sports. The transmission from child to child and child to adult is EXTREMELY low. The detriments to not returning to school, currently with this latest research and data, far outweigh the risk of the virus. GET OUR CHILDREN BACK IN SCHOOL IN AUGUST.
7/20/2020 17:27:16	Lindsey	Sleeper		Lawrence	Please support the order to keep schools closed!
7/20/2020 17:28:00	Elizabeth	Robinson	Parent	Chanute	I fully support delaying the reopening until after Labor Day. Our district isn't even announcing their return to school plan until August. I am the parent of an immunocompromised elementary aged child. I am deeply concerned with potential exposure risks. The schools struggled last year with strep, respiratory issues and the flu. They have struggled to find enough subs and transportation workers - that was pre-COVID. I also live in a county that voted to opt out of the mask order. Both my husband and I work in education, safety must be the first priority.
7/20/2020 17:28:00	Rachel	Pierce		Kansas City	Please vote to delay the start of school in Kansas

					<p>I am the mother of two beautiful daughters, ages 10 and 12. We have spent many days discussing COVID19 and how it's impacted their lives.</p> <p>As a parent it's my responsibility to decide what is best for my children. I can't imagine anyone taking that decision from me. If I am comfortable with my child attending school then my child should be allowed to attend school. Those parents who are not comfortable should have the ability to opt out of in person classes and instead learn at home. It should be at the parents discretion.</p> <p>At this point the issue has become so political we have lost sight of what is important the children. Each child is different and similar to learning, no two children learn the same, no two children's circumstance with regard to COVID19 are the same either.</p> <p>Deciding whether the risk of COVID19 outweighs my child's need to be in social situations is my decision. Deciding whether the risk of COVID19 outweighs my child's need for in person education as she prepares for SAT and ACTs is my decision. Deciding whether the risk of COVID19 outweighs my child's need to participate in classroom learning is my decision.</p> <p>These are not decision the Governor or anyone else can make for me on behalf of my child. She knows nothing of the Mental Health issues that plague these kids, which has only compounded life with social distancing for many. She knows nothing of the self isolation that occurs for many of these kids who have no other outlet for socializing besides school and how serious it is to withhold that.</p> <p>I ask that you turn this recommendation from the Governor, over to the parents and let the parents, parent. Ask the Governor to provide in-kind support to the Education system so that each district is able to offer in-person AND at-home schooling, that is the role of the state. Leave the parenting to the parents.</p>
7/20/2020 17:28:11	Kristi	Drewel	My family	Great Bend, Kansas	Thank you.
7/20/2020 17:28:22	Megan	Byrnes	Parents	Topeka	Please vote yes and uphold this executive order.
7/20/2020 17:28:30	Robert	Sanford		Bentley	I do not think school opening should be delayed. Should open at normal time.
7/20/2020 17:28:53	Erin	Wells		Rose Hill	<p>What happened to K-5 not having to wear masks? I have an 8 yo and he struggles to stay focused to learn as it is. Now add having to wear a mask, and he won't get anything done, but will likely become a discipline problem.</p> <p>My son and 5 yo grandson have attended day since the beginning of all this and they've been fine. Maybe the education side should figure out how day cares are doing it and follow suit.</p>
7/20/2020 17:29:32	Deedee	Landes		Hesston	I think it is in the best interest of our communities and our economy to delay the start of school. While this isn't something that I personally want, I think it is the safest thing to do. There are growing numbers of children carrying and spreading this virus and we need a better handle on it before we force kids together. I think if we social distance and wear masks we have a chance if slowing it and making education safe.
7/20/2020 17:29:35	Nick	Cheney		Girard ks	I feel like schools and sports need to start in August like planned . I teach and coach and I'm ready to go back . So are the kids .
7/20/2020 17:30:46	Mary	Denham	Household Retired educ	Frontenac	Thank-you for your decisions to keep Kansas children and safe. Thank-you for following CDC guidelines
7/20/2020 17:30:45	Jodi	Hetherington	Teacher	Wichita	As a school employee, I am asking that you vote to accept the EO. Simply put, I do not think it is safe to return to school at this time. Also I think it gives school districts adequate time to ensure the proper PPE needed to safely return. The Governor and several medical professionals made it clear that our community COVID 19 numbers are on the rise, and may very well continue to do so. I am asking to please vote to accept the EO, in order to protect our children, students, and staff.

7/20/2020 17:31:28	Rachael	Shipley	I'm a teacher in Mulvane	Derby	I 100% agree with delaying the start of the school year. The large counties are not the only ones with rapidly increasing infection numbers, and as cases rise, so does the likelihood that infection will pass among students, staff, and families. When you start to unravel where a case starts and how far it spreads, the effects are far-reaching, making the reality of keeping students, staff, and families safe and healthy difficult at best and impossible at worst. This also makes quarantine situations exponentially more likely, affecting staffing and seat time. It just makes more sense to wait and give the numbers a chance to go down before we jump in. Please vote to accept the order.
7/20/2020 17:31:29	Bailee	Fosse	Goddard Schools	Wichita	Please keep the start date of the school year after Labor Day. The cases in Kansas have reached a high and it would be irresponsible to go against the Governors orders and rush children and faculty back into the schools. The lives of Kansas teachers, staff and children are at risk, and those lives matter. Please do the right thing.
7/20/2020 17:31:49	AJ	Terry	Pittsburg High	Pittsburg	We HAVE to get our kids back to school and activities for their mental health well being and the continuation of social maturing.
7/20/2020 17:32:01	Janet	Carr		Riverton	School has been out long enough and our kids need to get back to normalcy. They need their friends, their structure, their routine and they need their extra curricular sports etc. Baseball was taken away from most elementary aged kids and they needed it too. The numbers show only 1% of death rate and that is IF the numbers have been reported correctly, which i doubt. Enough is enough. I don't want people sick but i certainly don't think the numbers support all this stuff.
7/20/2020 17:32:35	Kimberly	Byers	Usd259	Wichita	This is the LEAST we can do at this time. Thank you, Governor. If we don't start late, then online learning only should be the rule the first 9 weeks and then move toward in building as time proves prudent.
7/20/2020 17:32:40	Isaiah	Gayden	Student	Maize	Please delay schools, I feel that it is best for everyone.
7/20/2020 17:33:03	Carrie	Wedel	N/a	Tonganoxie	I urge you to uphold Governor Kelly's executive order. I am a staff member at Tonganoxie Elementary and parent of two elementary age students. We need more time to plan and prepare. Our numbers continue to rise. We want to be back, but not until it is safe. Please don't let this rest on the shoulders of local boards. They have to live in the community and face the backlash. Make this decision for them. Thank you.
7/20/2020 17:33:13	Heather	Newton	kansas city kansas publi	Olathe	I strongly am for reopening schools after labor day, I want to go back but want it to be safe for everyone!!
7/20/2020 17:33:14	Kaelyn	McCall		Lawrence	Please approve the Executive Order to delay the start of school to give districts time to implement the measures in the reopening plan.
7/20/2020 17:33:44	Chalina	Seems		Phillipsburg	Yes, I think we should delay school until after Labor Day. And then we should have online school until the number of cases decreases.
7/20/2020 17:34:12	Regina	Winemiller		Pittsburg	Please support the governor's Eo and listen to the experts and don't cave to pressure to reopen during the spikes we have seen lately. Thank you!
7/20/2020 17:34:39	Alison	Fees	Parent	Iola	I'm fine with delayed opening of schools in order to keeps my kids safe
7/20/2020 17:34:42	Nikki	Buck-Stewart	Parent	Olathe	I strongly support EO 20-58.
7/20/2020 17:35:35	Maggie	Mead		Overbrook	I work in a small Osage county school. I would appreciate you delaying the start of school until after Labor Day to give schools the additional time to prepare. After Labor Day I would think we can resume to our building with all the extra precautions in place to give it a try.
7/20/2020 17:35:41	Leslie	Dumcum	Parent of multiple studer	Pleasanton	Please allow the local school boards the ability to pick the start date. At a minimum please do not delay all activities that could be taking place up until school starts. The kids have been conditioning for weeks and no issues. They need this outlet. I myself have several children with mental heath issues and the end of last school year being locked down and losing sports did a number on them. They need to be in a building and they need to have their activities. When you weigh the risk, the negative emotional and mental aspect is a much larger risk than the virus is.
7/20/2020 17:35:47	Ashley	Thompson		Columbus	The kids are losing so many things by withholding school. As a parent I want my kid in school but don't want them to be forced to wear a mask, not be able to enjoy recess or even lunch time with their friends.
7/20/2020 17:35:47	Marlene	Howe		abilene	open schools as regularly scheduled
7/20/2020 17:35:48	Tiffany	Pratt	SMSD	Overland Park	As a SMSD teacher, I would like to go back to work as planned on August 6th so that we can plan online instruction. Delaying the start of the teachers does no good. If we are delaying, make it the students and lower the number of contact hours for the school year so teachers have time to build good online instruction. Why this was not done over the summer, I do not know. School districts should have been planning this the entire time.

7/20/2020 17:36:04	Jenny	Jordan		Overland Park	Please vote to approve the EO by Governor Kelly. Schools need time to plan to ensure safety for students and staff.
7/20/2020 17:36:27	Bobbi	Caggianelli		Overland Park	I support the executive order to delay the start of school at least until after Labor Day.
7/20/2020 17:36:27	Nicole	Bieker		Great Bend	Please allow individual districts to make the decision as to when school will start. This should not be a one size fits all decision. Communities such as Wallace County should not have to wait on Wichita to start school. Please allow districts to make the decision based on what is best for their students, teachers, and community.
7/20/2020 17:36:31	Jessica	Slaughter	USD 259	Augusta	Please don't open schools. Go online only until there is a vaccine that's been tested. Everyone keeps saying parents will have a choice that's safe for their kids. What about our health. The kids will not keep masks on and we are going to spend all day following or trying to follow the new guidelines. Please we don't want to die from this nor have to pick between our health or jobs.
7/20/2020 17:36:38	Mandi	Pritchard	Middle and high school	Overland Park	My family is in support of delaying the start of school until after Labor Day. Hopefully we will see a decline in Covid cases by then and in addition will give schools more time to prepare.
7/20/2020 17:36:40	Samantha	Odell		Wamego	We need to start school in August even if it just online. These kids need routine. Something to look forward to and if it isn't safe to meet face to face, they need to utilize the means we used from March to May and give these kids something to look forward too.
7/20/2020 17:37:01	Linda	Nightingale		Topeka	We need to have a staggered approach. Based off of data. Time on-line. Time where we are on a block schedule. At school day 1 .. home day 2. Give smaller class size.  Some kids will need to be at school more often. SPED kids without health issues. Kids who are low-income, no internet access, home is not safe.
7/20/2020 17:37:06	Amanda	Budden	The Budden Family	Topeka	Open School, please. There needs to be an inperson option. I am a substitute teacher and plan to be available to sub, so I'm putting skin in the game !
7/20/2020 17:37:13	Jera	Hoffmann		Goddard	As a teacher at USD 268, I urge the KSDE to support Gov. Kelly's executive order delaying the start of school. We need time to prepare with the Navigating Changes document in our schools and this provides us just that.
7/20/2020 17:37:18	Michelle	Ernst		Buhler	We need to delay the start of school. Cases are rising and too many lives are at risk.
7/20/2020 17:37:23	Mona	Hull	Parent of K-12 children	Iola	Please do not delay school after Labor Day. Childcare providers and centers have been open throughout Covid- on 10 clusters and 40 cases since Covid-started. It can be done safely!
7/20/2020 17:37:23	Kendelle	Runer	Elementary Teacher	Hiawatha	Please vote to keep Governor Kelly's executive order in place! Schools are going to turn into COVID parties, if we aren't careful. Teachers need this additional time to get all of our ducks in a row.  Furthermore, if Governor Kelly should mandate schools be closed, I would appreciate a vote to AGREE with her. Cases are high, cases are rising, and this is alarming. It's easy to say kids haven't been overly impacted, but that's more than likely because kids haven't been out and about as much as normal, since March.  Please, above all, do NOT make a decision that can put Kansas teachers, school staff and students and their families at risk. Our families do NOT need to bury their teachers, they do NOT need to bury their children, and we do NOT need to spread this virus any further than it's already being spread.
7/20/2020 17:37:39	Crisanne	Thompson	Parent and Teacher	Leon	Please consider supporting our Governor and give school more time to prepare for kids. Teachers do not yet know how or what is required by our districts but will be required to educate and keep kids safe we need time to know what to do. This year is going to be really hard for everyone hopefully it will end on a more regular note.  Thank you for your consideration Crisanne
7/20/2020 17:37:40	Mary	Vanhooser	Parent and teacher	Olathe	I really think delaying school for three weeks will give both parents and teachers time to plan and prepare for our new normal. The time will be spent working to get things ready for whatever this crazy school year throws our way. It will help keep children safer as we look toward fall.
7/20/2020 17:37:43	Jason	Ostmeyer	Colby Public Schools	Colby	I support the governor's decision to delay the start of the K-12 school year until September 9. I am a teacher and feel schools need that extra couple of weeks to plan procedures and find all of the necessary equipment and sanitizers needed to start the year safely.

7/20/2020 17:37:52	Stephanie	Tobin	Chanute high school	Chanute	I hope they do not cancel sports. Many of the fall athletes have been working hard all summer. Especially in the smaller 4A schools they are not seeing cases within conditioning / practice as they are following guidelines
7/20/2020 17:37:52	Shannon	Hall	I'm a parent and school	Goddard - work in Wich	I support delaying in-person school until the cases decline. It is not safe to return right now. I also support delaying school until after a Labor Day, but suggest we only return when it is safe.
7/20/2020 17:37:54	Rosalina	Foust	wichita public schools	wichita	Postpone the start of school please. Don't put all these children at risk when numbers are still rising
7/20/2020 17:37:57	Alex	Underwood	Hays High School	Hays, KS	I strongly feel the KSBoE should uphold the governor's planned executive order to give communities a chance to slow the spread of the virus and for districts to digest the massive amount of material we were handed mere days ago. For districts who are already in the re-design process or who have been planning ahead, they might not need as much extra time, but in districts like Hays USD 489 who had been patiently waiting on guidance from KSDE, we need the time to ensure our students have a strong year ahead of them. Please give us the time we need for a safe reopening. Respectfully submitted.
7/20/2020 17:38:26	Jason	dunbar	parent	Valley Center	open school as normal. The students need to get back to school.
7/20/2020 17:39:15	Alyce	Gawlas	Myself, but I am an educ	Chanute	Please approve the executive order postponing the beginning of student instruction until after Labor Day. The delay would allow ample time for school staff members to meet together to develop instructional and operational policies and procedures based on the guidance document released in mid July. Many teachers' contracts do not require them to return to work until the middle of August, the schools have no ability to force them to return to work sooner, so the extra time to meet, plan, practice ect. Is really vital to developing a complete plan. The need to make up that educational time can be met with extending the length of the school day and/or extending the school calendar in the summer of 2021. Thank you for taking the time to ask for input from the public on this decision. No choice made will make everyone happy, as those of us involved in planning next year already know. If school starts back in-person full time, it will not be the school that parents and children remember. If schools start on a hybrid or virtual delivery method, people will also be upset.
7/20/2020 17:39:30	Jesse	Slicer	Parents	Olathe	Please accept Governor Kelly's executive order to postpone the start of school in the midst of COVID-19. Hearing that there will be required safety measures is great news, however we do need to respect our medical and scientific recommendations to ensure a safe future for our students. Thank you.
7/20/2020 17:39:32	Amy	Freeman	USD210	Hugoton	I know you all will make the decision you feel is best for our students, staff, and families. I appreciate all the work you are doing and wish you the best in making a very difficult decision.
7/20/2020 17:39:35	Cathleen	McDonnell	None	Leawood	Please allow children to return to school. Please do not require masks on younger children - 6th grade and under. Thank you.
7/20/2020 17:39:53	Alexis	Kuharich	USD 368	Olathe	Governor Kelly is doing what is best for teachers and students! She is giving us a voice to protect us. Please follow her guidance and help keep us safe. This is not about politics or the ego of who has power. This is keeping children and faculty alive. Schools are not adequately supplied or prepared for school to resume. Listen to your teachers- we need protection! Follow Governor Kelly's mandate.
7/20/2020 17:40:19	Anne	Wille	Parent/Teacher	Shawnee	Please Please open for our kids sakes!! It goes way beyond just education these kids- some need a school for their safe space- some need to be fed- others need the social for their well being- others can NOT be successful with online learning- we are not reaching every child this way- give the option but let one option be in the classroom!
7/20/2020 17:40:29	Bryanna	Riddle	Parent	Andover	Please vote to confirm Gov. Kelly's executive order. The numbers are too high to return. A decision needs to be made. I'm tired of waiting to plan. Give me the plan so I can get everything prepared. Thank you.
7/20/2020 17:40:55	Stephanie	Petermann		Holyrood	Our children need schools to reopen. Their mental health and educational needs are suffering. The harm we are doing our children outweighs the possibility of getting sick
7/20/2020 17:40:56	Racheal	Courtois		Osage City	Reject the governors mandate for schools and leave it up to the schools and counties to decide what is best in their own districts.

7/20/2020 17:41:39	Jill	Stern	Cedar Hills Elementary	Overland Park	I have been an educator for 23 years. I am a wife to a middle school principal and a mother to 2 high school freshmen. As a 2nd grade teacher, I have thought about what my school day will look like upon return to school. There would be days my classroom wasn't cleaned, I'd run out of supplies - both for cleaning and teaching because let's face it, teachers aren't always put first. But now I'm to teach and ensure the welfare of my students and family is safe during a global pandemic? This is not okay. Sure I'm in a bigger city than others in the state of Kansas. All politics aside - please. Teachers are not safe to return to building. We have to get this under control. I tell my second graders that it's hard to take ownership and it's hard to be a leader. You have the chance to do the right thing, no matter how hard you think it is. I stand with Governor Kelly's executive order. For the health and safety of Kansans, I would expect you would, too.
7/20/2020 17:41:43	Stephanie	Messerly	I have children in school	1442 N Parkdale	I support Governor Kelly and making sure that children and staff are safe
7/20/2020 17:41:49	Mary	Hall	Teacher, USD 443	Dodge City	It is my hope that you follow Governor Kelly's plan. There is so much to get ready in such a short time. We need to go into this with every advantage we can. Why start behind? Why start with missteps when we have time available. Some districts are small and may be able to prepare more quickly but by doing that they lose the opportunity to benefit from collaboration with other districts. This is new to all of us. There are so many questions we do even know to ask. Please error on the side of safety.
7/20/2020 17:41:54	Sheila	Hite	Olathe Public Schools	Olathe	Delay the schools. We need to insure that the students and the staff are safe. The extra three weeks will help the districts have time to develop a plan to ensure safe in person learning in the schools.
7/20/2020 17:41:57	Kody	Epp	Open Spaces Sports	Hoxie	Please do not choose to follow this order. Let our kids get back to school as planned. They have been out of education long enough. Don't allow Governor Kelly to be a dictator.
7/20/2020 17:42:13	Eric	West	Teacher/Coach	Burlingame	Please follow the governors recommendation and close schools until September 8th. Many teachers will be out at risk by starting a school year and we would like the extra time to prepare with our colleagues and administrators to make sure we are as safe as possible! Thank you
7/20/2020 17:42:21	Denise	Martin		Salina	Schools need to be back open as originally scheduled in August!
7/20/2020 17:42:41	Matthew	Rome	Hays High School	Hays	In short, we are seeing an unprecedented spike in cases, and schools desperately need more time to prepare and implement safety precautions. An August opening seems less and less reasonable as days pass and decisions are not made. Open schools when it is safe for kids, not convenient for adults.
7/20/2020 17:44:22	Marci	Henderson-Hodge	teacher	chanute	please delay school opening.
7/20/2020 17:44:27	Alison	Moeller		Liberal KS	I very much support the EO keeping schools closed until the 9th. There is so much we don't know about COVID. We are seeing more children with it. We don't know if there are long term issues. Schools need time to prepare to protect us
7/20/2020 17:44:30	Charlotte	Thomas	Tax payer	Troy	School needs to start on time! No masks! Let each district make their own rules!
7/20/2020 17:44:42	MEREDITH	JOHNSON		Pleasanton	These kids NEED to be back in sports! The transmission rate from healthy teens is very low. The benefits of sports and activities far outweigh the extremely low chance of getting the virus.
7/20/2020 17:44:49	Ryan	West	Teacher	Topeka	I think the after Labor Day start is necessary to ensure more safety and time to get schools ready. Then the numbers should dictate if we open in person or online
7/20/2020 17:44:59	Jennifer	Olt		Hays	Please support the Governor's EO to delay school starting. Teachers need the time to adequately plan based on their districts' plans. Let them have the time to do what's best for our kids.
7/20/2020 17:44:59	Stacy	Katzenmeier	USD 497	Eudora	Support the delay of school opening!!

					<p>I respectfully ask the Kansas BOE to give schools the time to open as safely as possible. Three weeks to get it right is not too much to ask. As a teacher, I know that the logistics of reopening our school safely is daunting: Even if our numbers of positive cases were currently lower than they are now, we'd have our work cut out for us. Bottom line, I think we can agree that the acceptable number of student and school staff deaths is ZERO. The following is a short list of what we'd need to prepare for a safe(r) opening.</p> <ol style="list-style-type: none"> <li>1. Logistics. We've had an 1100 page document from the state outlining what is expected dropped on us this past week. Logistically, expecting districts to prepare buildings, parents, teachers, and students adequately by August 13 to 19th is a huge challenge. Every element of school (lunchroom, PE, busing, hallway traffic during passing period, libraries, etc.) will be addressed. We'll also have to have several plans in place to pivot as quickly as possible in the event that we have to close down, to online, or reopen in person. We have to get all of these scenarios as close to perfect as we can.</li> <li>2. Supplies. Many districts have been trying to acquire the supplies needed to return to school safely. This includes masks, face shields, sanitizing spray and wipes, thermometers, barriers for therapy, etc. Many of these supplies are in short supply.</li> <li>4. Technology. Many school districts (including mine) aren't 1:1. They're scrambling to acquire more laptops and mobile hotspots for if/when we have to go online. Online computer programs are being purchased for students who choose online only.</li> <li>5. Staff. Districts are shuffling staff to try to move teachers into online-only positions for students who sign up for exclusively online learning. Teachers and other staff will have to be trained in procedures to deal with students with symptoms, sanitizing their rooms, etc. Teachers will also be trained in new online programs.</li> <li>6. Parents. Districts have a lot of information to get out to parents regarding elective online programs, procedures and policies about busing, lunch, phases of reopening, Covid exposures or symptoms, travel policies, etc.</li> </ol> <p>As educators, our goal is first to teach children in the safest, most nurturing environment. We want to teach our students IN school, IN PERSON. However, teachers are real people with health concerns, and have family members who we don't want to bring it home to. We're allowed to want a safe working environment for ourselves, too. With all that is expected, it would be a disservice to everyone to reopen in mid-August.</p>
7/20/2020 17:45:05	Olivia	Wallace	Piper School District	Overland Park	
7/20/2020 17:45:09	Megan	Clark	SLP-USD 320	St. George	I strongly recommend local school districts deciding on when school should start. Each county is different. Please reject the Governor's order.
7/20/2020 17:45:38	Sarah	Henderson-Hodges	parent	chanute	please delay school opening
7/20/2020 17:45:49	Jessica	Ramsay	Teacher	Valley Center	In person school is too risky.
7/20/2020 17:45:50	Lane	Gerber		Lakin	Will mask mandate be enforced and by whom. What if students fail to comply?
					<p>I highly encourage the delay of schools. For multiple reasons.</p> <ol style="list-style-type: none"> <li>1. The cases in Kansas are rising.</li> <li>2. Finding cleaning supplies and hand sanitizer is still difficult. We need this to be safe. We need this to keep a clean environment. In doing the math on average each teacher will need about 405 containers (80count) of Lysol wipes to have 25 student areas wiped down every hour for the whole year. So far I've found 3 since March.</li> <li>3. The guidelines approved by you take time to implement successfully. If you don't stand by the time needed then I can only assume you don't care about the guidelines (Now mandates) for safety or learning.</li> <li>4. Not approving shows lack of leadership on your part to keep Kansans safe. Sometimes being a leader means taking a stand for the greater good. (To those saying it should only be local choices makes me wonder why you need to exist at all. If you can't make decision then why should we need you?)</li> <li>5. As an educator I need more time to study the standards bands and plan how I can best teach those with the changes we will have in the year. I need time to prepare a successful online classroom. Otherwise it won't be much different than in March due to lacking extra time to plan.</li> <li>6. Are you okay with going back too early and having it result in deaths? This virus is not a hoax. It's real. If you don't believe it you have no business being a leader.</li> </ol>
7/20/2020 17:45:51	Shelby	Byrd	Shawnee Mission School	Overland Park	
7/20/2020 17:45:51	Jeanine	Lytton	Usd 305	Salina	I support the order to delay opening schools.

7/20/2020 17:45:52	Megan	Miglianti	Blue Valley Schools	Overland Park, KS	As a teacher, I support the EO to delay the start of school so our buildings may have the time needed to acquire the necessary safety equipment and supplies. I don't actually feel safe going back to work (in person) full time, but I don't think we really get a say in that matter. I need my benefits and income in order for my family to survive so that means I must work. It is my hope that delaying the start of school will also give our community time to slow the spread of COVID-19 before we send our children and school staff members back to school.
7/20/2020 17:45:53	Jill	Chard	Parent	Fredonia	I support Governor Kelly's order and her recommendations. I also think it makes sense to switch fall and spring sports
7/20/2020 17:46:31	Michelle	McHugh	Mother of two teens in C	Overland Park	I think we are better off safe than sorry and we should start school after Labor Day. The spike has me concerned for my family and our community.
7/20/2020 17:46:41	Crystal	Miller		Louisburg	Vote in favor of the delay to allow schools to put in protocols and time to purchase any items needed for those protocols.
7/20/2020 17:46:44	Jennifer	Elliott	I am a parent and a teach	Overland Park	I feel very strongly that we must delay in-person schooling while the number of COVID-19 cases is on the rise. Not only is it dangerous for school children, but it is dangerous for all of the adult employees in a school organization: bus drivers, administrators, paras, Lynch workers, nurses, aides, teachers, secretaries, custodians, and many others. We can start school online and attend in-person when the number of cases goes down considerably. Many of us are in the high risk category, and many people that we come home to are also at risk of getting the coronavirus. There are alternatives to in-person schooling that we can utilize. Please listen to the voices of medical professionals and those affected. Thank you!
7/20/2020 17:46:45	Bryant	Wilks	USD 266-Custodial Dire	Maize	I fully support Gov. Kelly's E.O. Delaying school opening date. As someone who is working to source and purchase the needed PPE supplies to open safely, we can use the extra time to receive all of these supplies. If this requires reducing or eliminating scheduled school breaks throughout the year then that should be considered. We all want schools to resume all of their operations, we just want to make sure we do it in a safe manner and not rushed. Thank you for your consideration to this matter.
7/20/2020 17:46:47	Leann	Voor Vart	Blue Valley SD parent a	Overland Park	We need time and preparation to be ready to fulfill the plan you have outlined. It is not safe yet and we are NOT ready. Remember- we are not "on the clock" yet! After 23 years of teaching, don't make me ( and many others) hang my hat up early out of fear of safety and being ill prepared. I am ready to, but would prefer to work and see my "kids" again- at a safe distance, fully masked, with a smaller class full of sanitizer! You are meeting online and in public you are encouraged to be 6 feet apart. In person, that 6 feet goes away and we will be face to face. Not safe YET.
7/20/2020 17:47:05	Michelle	Kleinschrodt		Wichita	I would like to see the start of school delayed but also maybe a split learning environment for all ages.
7/20/2020 17:47:07	Laura	Vincent		Lawrence	Schools need to be opened. Think about those parents who are barely struggling to keep up. Think of the unprivileged community; who is feeding them? Educating them? Loving them? What about the special needs community that depends on school for structure and stability?
7/20/2020 17:47:34	Kim	Bragg		Olathe, Kansas	I urge you to vote in favor of Governor Kelly's school delay. As infection rates climb in Johnson County, as well as other counties in our state, our schools and teachers need time to plan for student safety. We all know how important school is for kids and families. We all want students in school back with their friends and teachers. If school starts in 3 to 4 weeks our kids will most definitely go back remote. If we give schools more time by adopting Governor Kelly's plan, we are drastically increasing the chance of going back to school in person. Thank you for your time.
7/20/2020 17:47:20	Karla	Black		Derby	The kids, especially in Secondary Schools, need to get back to learning. Being out of school for the better part of 6 months makes it very difficult for them to learn to learn and to retain prior knowledge. On top of this, kids in the upper school levels are missing out on many activities and learning events. In that place, they are playing video games and not focusing their energies in a productive way.  Please open the schools and let the local BOE work within the guidelines your organization released earlier.  Thank you!

7/20/2020 17:47:36	Robert	Woods		Wichita	I fully support this order, and find it unfortunate that our education system is the one with ultimate power over our public health decisions. Within the last week, I have seen how dangerous this could be for the entire population, not just those with children in school. A close friend just had a 10 year old child pass this virus on to her grandparents , who are both over 80 years old. I feel this scenario is likely to repeat many more times if children rush into the classroom during the worst concentration of the virus, we have seen in our area since the start. We may also see that worsen as the case count climbs from the gatherings that took place over the 4th of July weekend. As for my own children, I would possibly consider returning them to school on the September start date, IF, cases are declining and their schools, have a common sense plan in place to mitigate spread. If their schools force the regular start date, my children will be attending an online program of our choosing. I will not force my children into danger, or have them unnecessarily further spread this virus to others, in the name of furthering the republican political agenda. . Many parents I have spoken with, have similar plans for their children, regardless of their political views.
7/20/2020 17:47:45	Christin	Elson		Wichita	I am a teacher and have a child going in to Kindergarten. I would like to see a downward trend prior to beginning this school year.
7/20/2020 17:47:50	Sarah	Koehn		Bel Aire	KEEP IN-PERAON SCHOOLS CLOSED until cases are declining for 14 straight days. You will literally kill students and teachers.
7/20/2020 17:48:02	Jennalee	Ekeland	Mother of 4 children in	Halstead KS	School can, at the very minimum, begin in August online. It is not necessary to delay education and then cut out a large chunk of summer. Children need the accountability of education. It doesnt need to be delayed. Everyone knew this was going to be an issue. We've had 4 months to prepare for this.
7/20/2020 17:48:17	Christi	Weldon		Olathe	I urge you to please uphold the Governor's order to delay in person learning until after Labor Day. If our State BOE doesn't feel it is safe to meet in person to make this decision, how is it safe for students and staff? Districts need additional time to plan for all learning options that may be encountered this school year. Thank-you!
7/20/2020 17:48:14	Kimberley	Vogle	Me	Wichita	I wanted to Thank Governor Kelly for making some decisions that are hard choices. Thank you for your leadership your dedication to the safety and well being of the people and economics of our great state.
7/20/2020 17:48:27	Darby	Trusdale	Blue Valley - 3rd grade	Overland Park	As a teacher, I want nothing more than to begin school, meet my new students and start teaching. With that being said, I think the education those sweet kids receive will be better after Labor Day rather than rushing to start school in August. It gives schools time to prep and plan, as well as give parents more time to plan and understand schools process for starting in the safest, most organized way possible. Thank you for your time!
7/20/2020 17:48:30	Nicole	Kerschen		Kingman	Open schools in August. Or at least each county decide. Have only had 5-8 cases in our county and shouldn't have to follow the same guidelines as Wichita or Kansas City.
7/20/2020 17:48:42	AnaLisa	Black		Dickinson	I think if it seems a safer option to wait until after Labor Day to open, that's what the schools should do. People would rather have in class vs online most of the time. I decided to homeschool my 2nd grader (because we believe in implementing bible into school and also would prefer her not to wear a mask all day ) and are sending our high schooler to public school because she doesn't mind wearing a mask and has accepted that's what it will likely be. I think Kansas should do whatever seems like the safest option.
7/20/2020 17:48:45	Daniel	Falk		Wichita	Schools need the time to get ready. Delay the start so kids and staff can return safely.
7/20/2020 17:48:54	Nicolle	Schellet		Olathe	I strongly support Governor Kelly's order to keep schools closed until after Labor Day. With cases spiking around us in Johnson County, it would be irresponsible to send everyone back in mid-August. Giving everyone a little more time to get ahead of this and prepared are the only practical and safe things to do. Let's put our kids and educators ahead of political agendas!
7/20/2020 17:49:00	Cynthia	Leniton	Parent/Tax Payer	Grenola	I feel the decision for start dates should be controlled by local school boards.
7/20/2020 17:49:09	Kerri	Cushing	Meadows Elementary U	Topeka	I strongly agree with the recommendations from our Governor.
7/20/2020 17:49:13	Jen	Dixon-Perkins	Teacher usd 497	Lawrence	No school until after Sept 9, then no brick and mortar till Covid nubers go down.
7/20/2020 17:49:38	Jen	Sample		Olathe	Keep em closed till Labor Day. This gives us time to prepare etc with all the new cleaning, distancing etc protocols
7/20/2020 17:50:02	Chad	Christensen		Wichits	The decision to open up should be kept to local school boards. It is my belief you can not lump USD 259 into the same category as a 1 A school in Western Ks.
7/20/2020 17:50:09	Rachel	Binder	USD 229	Overland Park	Please delay the 20-21 school year. As a high school teacher, I am terrified to return. As a mother of a first grader, I am again terrified to send my son.

7/20/2020 17:50:32	Mackinzie	Brungardt		Garden City	Maybe we should just opt into the zoom learning like we finished the school year off. Consistency needs to be the focus, once you start being inconsistent with the learning ways the harder it is on children. Let alone my son does not need or is enforced to wear a mask at daycare, he's active and a mouth breather. The mask for him is not an option, but online learning would be and the comfort of not having him in a mask that I know he will have issues with is my concern. Besides there are plenty more parents who worry about actually sending their children to school mask or no mask. So why not just get us through this first semester during cold/flu season by really playing it safe and mandate at home learning for the semester. To me that seems more logical with the concerns I've witnessed amongst parents.
7/20/2020 17:50:34	Kaley	Falk		Wichita	Having schools open now will cause more of a spike and will result in having to close again if safety measures are not in place. By delaying the start of the school year you won't evidently give more time for safety precautions to be put in place. School should be delayed.
7/20/2020 17:50:36	Dustin	Bell	Hoxie schools	Hoxie Kansas	We need to get our kids back in school at normal starting time. The option to compete in sports needs to be available as well. Those who don't want to don't have to, but there needs to be the option of choice. We can't rob the kids of these opportunities any more.
7/20/2020 17:50:47	Jasmine	Hernandez-Ochoa		Haysville	Yes delay
7/20/2020 17:51:25	Anna	Davila	Kansas Public School T	Leavenworth	We need the extra planning time to implement safety protocols to keep everyone (staff and students) safe. Please strongly consider delaying the start of school until after Labor Day.
7/20/2020 17:51:28	Jennifer	Weide		Pretty Praire	Please give the control to the local school boards. They know what is best for their community.
7/20/2020 17:52:06	Carolyn	Day	2nd grade teacher, paren	Mulvane	Please please keep school closed until labor day. The risk of staff and students is not worth it. As a teacher I would much rather safely return to school 3-4 weeks late as to risk having bury a student or a coworker.
7/20/2020 17:52:08	Deana	Miller		Peru	I am a teacher of 24 years, I ask that you support Governor Kelly's executive order to delay schools opening until after Labor Day. Since districts just recently received the guidelines it is almost impossible to have these in place and teachers trained to make our buildings safe. I have been in the school setting many years and have witnessed districts saying they are doing things that in fact they are not, just to keep parents and the public happy. This is life or death situations for teachers and students, it must be done correctly. As a teacher I don't want the liability of one of my students becoming infected or worse dying in my classroom. I am at an age where I possibly would not be able to survive the virus. Opening schools is like using teachers and students as guinea pigs to see how this bad experiment will work. We do not know enough about this virus to have face to face learning. This goes against everything doctors and scientists are telling us to do to slow down the infection rate. What kind of example is the state board of education not instilling in children by going against the governor's executive order and all the health experts advice. Very poor role model for students! We are teachers we can educate students when it is safe. Death or long term effects from the virus are not reversible. Stop playing politics with our health!
7/20/2020 17:52:34	Tiffany	Rufe		Wichita	Delay the school year
7/20/2020 17:52:45	Linda	Martin	Paraeducators	Lawrence	Thank you Governor Kelly for standing strong and listening to science. Your strong actions show you care about the health and safety of the students and staff in public schools of Kansas.
7/20/2020 17:52:49	Jennifer	Yearout	USD 259	Derby	Safety needs to be first priority. Safety for students, staff, families of students, families of staff. Life is more important than politics. Keep the buildings closed and instruction online until the number of positive cases decline and we have a vaccine. I teach elementary special education. My husband teaches in a high school. My son is in middle school. My mother is a retired teacher and I help take care of her, she is disabled. I do not want to attend a student or a staff member or one of my friends or family funeral this school year.
7/20/2020 17:52:50	Rachelle	Thoman		Basehor	Please support the governor's order to delay school until after Labor Day. I'm a mom to 2 elementary students and am an elementary library media specialist. I want to see our kids safely back in school. I am dedicated to providing the best program I can to my students. I believe our schools will be better prepared for new guidelines if we have additional time to prepare routines and procedures, to communicate our plans to families, and to purchase PPE/sanitizing supplies. Thank you.
7/20/2020 17:52:58	Roger	Falk		Wichita	Opening schools too quickly would be a mistake. The governor is right to order a delay. Schools will need time to prepare for the challenges of the covid era. I delay make sure that we open in the smartest way and don't risk students health unnecessarily.
7/20/2020 17:52:58	Jason	Hoppe	My family.	Lenora	Don't destroy Children's lives. Reopen the schools!

7/20/2020 17:53:02	Alisha	Schwinn	Teacher	Topeka	I want schools open.
7/20/2020 17:53:03	Kaleena	Pendergraft	Myself and and my stud	Wichita	This is a good idea. I fully support it for all the reasons Governor Kelly already mentioned. It is not at all safe to go back into the classroom right now, teachers and students will get very sick and without subs to back them up, it will be a mess. Thank you for doing the right thing to protect teachers and students.
7/20/2020 17:53:06	Jessica	Kalender-Rich	My family	Overland Park	Thank you for looking out for Kansans. It is only through mask wearing, social distancing, and hand hygiene that we will be able to resume school in safety. This pause will allow for the numbers to hopefully plateau, if and only if, people do the right thing. If numbers are increasing, I would also support a further delay.
7/20/2020 17:53:14	Robin	Weinand		Olathe	We want our children to be able to be in school, but only if Covid numbers go down. Please don't start school until after Labor Day to allow for numbers to decrease and teachers to set up for the changes.
7/20/2020 17:53:17	Cori	Edington	Teacher	Cherryvale	You should follow what the Governor's executive order states. We should definitely have masks and social distancing to keep the students safe.
7/20/2020 17:53:28	Jamie	Martin		Columbus	I absolutely agree to hold off until the situation gets better. The virus is not under control yet. Waiting is our best option until more treatments and a vaccine is available.
7/20/2020 17:53:30	Kristen	McAsey		Abilene	Thank you for the opportunity to voice my opinion. I do not believe that keeping school facilities closed until after Labor Day is in the best interest of our children, their well being or education.
7/20/2020 17:53:33	Amber	Rea		Tonganoxie, KS	Schools need to be virtual until this virus is under control. There are too many students and staff lives at stake. Virtual learning can be done well if we have the time and training to get it started now.
7/20/2020 17:53:34	Eliza	Salinas	USD 259	Wichita	Delay school to prepare teachers and staff.
7/20/2020 17:53:37	Heather	Holt		Abilene	Please, for the safety of our children, follow the governor's order. I want my children to be back in school, but I just don't see how that is going to happen. If the districts are left to decide, our children will haveko protection. They will say they are just guidelines. Make it mandatory!
7/20/2020 17:53:39	Mandy	Swift		Topeka	I strongly believe that all schools should start ON TIME and not be delayed. Pediatricians all over are saying it's vital for kids to be back in school. Our cases will continue to rise because our testing continues to increase and because it's a virus! Our death count is lowering and that's where we should be focusing! And the fact that children are not transferring this from peer to peer or child to adult.
7/20/2020 17:53:40	Abby	Thompson	USD 443	Dodge City	The State Board has been dragging their feet in releasing mandates for school districts for months. They have now allotted us three weeks to plan for whatever conclusion they come to this week. This is NOT enough time to prepare our schools and classrooms for social distancing, prepare our schedules to reduce congestion in common areas, and allow ALSO teachers time to prepare content. Districts and teachers need time to prepare for this school year given each district's independent plan. Please pass Executive Order 20-58 so teachers can effectively teach this year no matter WHAT circumstances we are thrown into.
7/20/2020 17:53:41	TABITHA	MARRIOTT	Teacher in Olathe	SPRING HILL	I agree with the EO. We need to enforce the social distancing though. Don't pack our classrooms and say masks will be enough to keep everyone safe.

					<p>Dear Kansas BOE,</p> <p>I am in support of a delayed opening for our K-12 schools if it means I can minimize the risk of exposing my higher risk children to complications associated with COVID-19.</p> <p>There are several promising vaccine trails underway that may be finished within the next 6 months. Why rush to expose our children when protection may be available by the time Christmas break concludes? Why rush into starting when the state is experiencing a sharp increase in cases?</p> <p>Think of the logistics of trying to get subs for teachers or classrooms that experience an exposure event? Take me for example, if schools open face-to-face and one of my children comes home or wakes up with a cough and fever I will need to self quarantine until we get tested and get the test results back. If they are positive, I'll have to self quarantine for two weeks after they get better because there is NO guarantee that I would have become infected at exactly the same time. Maybe they give to me on day one, maybe they give it to me on day five, or day ten.</p> <p>This becomes a logistical nightmare, I'll have to move my classes and labs online until I can get back, which may be 4 weeks when everything is said and done in the best of scenarios of COVID-19 infection.</p> <p>If they stayed home, if schools focused on online learning until a vaccine is available, we stand to gain momentum in recovery and not be burned out and dealing with sickness and daily stress of when will it hit me? My family? My school?</p> <p>I think students are more adept to online education than we imagine and it serves as an important option between forced exposure and a discontinuous education. I'd rather have delayed starts and online education than face the possibility of student or faculty deaths in a forced reopening. Are you prepared to live with that on your conscious? I know I'm not, and that's why I'm doing what I can to voice my support of Governor Kelly's decisions.</p>
7/20/2020 17:53:49	Andrew	Ouellette	Parent of K-12 Students	Pittsburg, KS	
7/20/2020 17:54:28	Tori	Price		Wichita	Plexiglass between desks. Masks only in hallways/buses
7/20/2020 17:54:31	Theresa	Cregger		South Hutchinson	I think and feel children need to get back to school asap so they can learn however if children are wearing mask to me that hinders there learning. If my granddaughter has to wear a mask to school and can't breathe then we will have to home school. Let the children get back to normal. The masks aren't any better. Let's all get back to a normal without masks.
7/20/2020 17:54:33	Abigail	Dedeaux	USD 259, Brooks Middl	Wichita	I am a school social worker in USD 259. My oldest son is also starting kindergarten this year in Wichita Public Schools. Both as a committed employee and as a parent, I stand with Governor Kelly and agree that we should delay the start of school to ensure adequate safety measures are being met, for the good of students, staff and families in Wichita Public Schools.

7/20/2020 17:55:01	Laurie	Heisel	Teacher in USD 232 and Olathe	<p>After watching Governor Kelly's press conference last week and again today, as an educator and a parent I fully support her decision to close schools until Labor Day to allow districts the opportunity to plan how to start the 2020-2021 school year with all necessary Covid-19 mitigation mandates in place. I feel that she has shown great leadership during this time of uncertainty. I also feel that she makes these difficult decisions using science and facts, not out of fear or party politics.</p> <p>As an educator in the DeSoto school district, I have concerns about returning to school in person as our case count rises. As a parent of students in the Olathe school district, I am apprehensive about sending my children back to school this fall. I know that both districts will make the best decisions they can for their students, but since so much is unknown about this virus, it is hard to be confident that even the most strict guidelines will keep our children and their families safe. This is not how I envisioned my 17th year in the classroom starting, and I miss my students and colleagues, but we must do what we can to keep everyone safe and healthy.</p> <p>I hope that you support Governor Kelly's executive order to keep schools closed until Labor Day. I hope you support the teachers, school staff, students, and all the families of Kansas, and support this measure to give districts this much needed time to make these hard decisions and to implement the guidelines that have been adopted by the Board you serve on.</p> <p>Thank you for your consideration and service,</p> <p>Laurie Heisel Olathe, KS</p>
7/20/2020 17:55:11	Rebecca	Hess	BVSD Parent and BVSI Overland Park	<p>My thoughts are this. We only have one chance to do this right once. If there is illness and long term complications, possibly death it is not worth the risk. To anyone. My kiddos are anxious and afraid of going back too early, as well as myself. Waiting carries no anxiety, only the hopes of better methods in place to keep us safe when we do go back.</p>
7/20/2020 17:55:14	Diana	Ambrosier	k-12 school teachers Norton, KS	<p>I think when considering school safety not only should students be considered but the teachers. We are probably more vulnerable and more likely to get the coronavirus and have lasting effects of it. Please consider the success we have had with online schooling. Also, it is going to be very difficult to make up the 2 weeks that may be mandated for a late start of schools. It would be most likely that the KSBOE would have to make an exception to their rules on hours required for schools since most schools since making up this time may become difficult with other issues possibly arising.</p> <p>Thank you for your consideration</p>
7/20/2020 17:55:18	Chase	Nichols	USD 259 Wichita	<p>Please keep schools closed until after Labor Day. This will provide us teachers adequate time to make necessary adjustments to meet the needs of students while also being safe. Thank you.</p>
7/20/2020 17:55:18	Kim	Davis	Olathe public school kin Lenexa	<p>Please vote in support of EO 58. Moving the start of school to September 8th will not cause long term damage to anyone. Starting school August 13th may endanger me. Johnson county Covid numbers are out of control and we need more time to put the virus in check.</p>
7/20/2020 17:55:21	Don	R	Kansas City Kansas Sch Kansas City	<p>If school is closed due to the Wuhan China Virus, No teacher , nor board of Education member should be paid. And all taxes taken out of the payroll of taxpayers should be given back to that taxpayer.</p>
7/20/2020 17:55:28	Allison	Copple	Belleville	<p>I completely agree that face coverings and sanitizing should be enforced. Starting school three weeks late, while providing more time for teachers to prepare a plan, moves the start of school closer to flu/other illness time (winter). I would love to be in-person for as long as possible, and if there is an increase in cases as the year progresses, I don't want to lose valuable in person time with students.</p>
7/20/2020 17:55:41	Tiffany	Cohlmi	Private school teacher Wichita	<p>I am a teacher that has underlying health issues. I am terrified to go back to work. I think giving our district an additional 3 weeks is a wonderful idea. We will be able come up with a plan to safely get our students AND teachers back in the classroom</p>

					<p>I would like to voice my support for Gov. Kelly's executive order to delay school openings until after Labor Day. I'm just a concerned citizen who thinks the health and safety of Kansans should be paramount when making these decisions. We shouldn't rush kids (not to mention teachers, administrators and staff) back to school when we're in the middle of COVID-19 spike.</p> <p>I think the governor is practicing good common sense.</p> <p>Thanks for your time.</p>
7/20/2020 17:56:09	Gillian	Titus	N/A	Westwood	
7/20/2020 17:56:21	Kristie	Sojka		Wichita	While our case numbers of Covid continue to rise, I support the delay to begin the 20-21 school year.
7/20/2020 17:56:25	Colleen	Koerner	USD 259	Wichita	I'm willing to go back to in-person school, maybe a few days and online the others. I have an infant, as well as other kids, at home and am very concerned about them contracting it. I know I keep seeing doctors talk about how it's not effecting children, but it is. I just pray for you all that the decisions made are in favor of keeping everyone safe!
7/20/2020 17:56:34	Erin	Tork	Parent of students in US	Topeka	I am in favor of school starting as scheduled with common sense precautions taken
7/20/2020 17:56:34	Hannah	White		Overland Park	Please delay.
7/20/2020 17:56:48	sam	king	Parent	chanute	I don't think we should be opening at all, not until we've got a vaccination or viral spread is under control, which it very much isn't.
7/20/2020 17:57:13	Eric	Skoglund		Shawnee	I strongly urge you to affirm Governor Kelly's order. Viruses are not subject to politics and no matter how much we are tired of dealing with safety measures, we need to stay the course. Current case numbers MUST be given time to cool down to decrease the chance that my high school classroom is a super spreader event each hour of the day. Opening at all will be fraught with issues including availability and willingness of substitute teachers, how to maintain distancing in buildings which are not made for them, remediating ventilation issues, and so many more. Our districts need time to prepare for these eventualities. If you want in-person education to last beyond the first few days, affirm this order. If you would rather see schools have to quarantine and close chaotically en masse by the first of September, then I guess you should reject the order. But your decision seems clear.
7/20/2020 17:57:23	Mary	Charity		Topeka	The Governor made this ruling in order to allow time for numbers to (hopefully) go down due to mask usage. This is not political - it is about the safety of all stakeholders - students, teachers and people in their homes. By taking a measured, well-thought out safe approach to opening, we have the greatest chance of being successful as we get back to face to face learning. If we rush into this and it does not go well, we create trauma and lose trust that our schools are able to provide a safe learning environment for Kansas kids. I encourage you to set aside politics, and vote to uphold this order to delay (not deny) the start of school so that safety measures can be put in place, and hopefully people will do the right thing g and wear masks to curtail the uncontrolled spread of this virus.
7/20/2020 17:57:29	Krystal	Knobloch	Madison Elementary &	Madison	I really feel like the executive order is overstepping Gov. Kelly's authority. This isn't a one size fits all. It should be left up to the county or district to decide. We are in a small rural community that has had a total of 11 cases since this all began. Why should we have to go by the same rules as Wyandotte Co. or Johnson Co. or Sedgwick Co? She should put her trust in the leaders of the schools and counties to make those decisions. It's an over reach of power. We are against starting after Labor Day and have the same hours required to complete the school year. That puts us well into June! We are against mask wearing for the students. My family doctor does not support masks as well as my sister who is the infectious disease control officer at a local hospital. It will do more harm than good. They will be constantly touching their faces! I see it all the time in adults and I can imagine kids will be much worse. We do feel there are certain practices that can be put in place to help with the safety and health of staff and students and we trust our reopening committee and school board to make those decisions. Not the governor. Thank you for listening and considering our concerns.

7/20/2020 17:57:35	steve	Woody		Atwood	Dear Kansas School Board. I am a substitute teacher and a three sport coach and also a sponsor for various other school related activities {Extra-curricular and otherwise} While delaying the opening of the school year until after Labor Day is in its-self not a death sentence for our schools { Many districts over the years have opted to not start the school year until after labor Day} The shutting down or not allowing any other activities I.E extra curricular -sports etc.. would be a disaster for not only the students but for all those adults involved in facilitating these activities. We would like to believe that as adults, we can make safe, intelligent and comprehensive decisions for our School districts and students. I agree with others that a one size fits all mentality is not what our education system can withstand. We all know that extra-activities are not needed to graduate from an accredited Kansas High School. But we all also know that these activities are VERY instrumental in the social and mental well being of the students We, as teachers and extra-curricular sponsors all know that a lot of students will keep their grades up in order to be able to participate in these extra activities. And any teacher or parent will tell you countless stories of how their students would not have made the grades that they did, if not for the pressure of not getting to participate because their grades would not allow it.. It has been proven that the on-line classes for all students were not a rousing success. In fact, many students, parents and teachers deemed it a failure to educate our Kansas students to the levels that we have been aspiring to for years. Taking away sports, forensics, scholars bowl, odyssey of the mind etc..and remanding students to just classroom education will not produce the quality of people that will be ready to lead us old folks in our waning years. I would prefer that we start school at it's Aug date, but as mentioned before, a Sept 9th start would not be a deal breaker. I ask that you consider ALL the things that sculpt our students lives, not just the education side when you consider your vote on Wednesday Districts across the state have been following the KSHSAA Summer guidelines and doing it responsibly and effectively. I ask that you also vote to let the KSHSAA season of activities proceed with no delays or postponements. . There are many, many child pediatricians and child development experts that testify that our country needs to get our kids back into the classroom, not on-line, and to let them participate in ALL other things that have been a part of the public school system for decades. And lastly, the mandate for everyone to wear a mask will be a nightmare for those trying to enforce it. Teachers at the primary level have their hands full trying to maintain classroom decorum, keep students from running down the hallways, keeping them from touching each other and many many other everyday situations that will always arise when working with primary school aged kids. Can you imagine what this will be like at the K thru Jr High level grades. Like trying to keep cats in a box!! Or pushing a log chain around the yard. Sorry that this got
7/20/2020 17:57:36	Leslie	Schmidt		Olathe	1. The governor is blatantly ignoring the law. If you don't stand against that, when will she give back any of her power grab. 2. Children's Mercy suicide hotline is exploding. The ugly side of all these lockdowns is depression, anxiety, and hopelessness. These kids matter too. 3. As a tax payer, when do I start getting refunds and tax breaks? More than half of the state budget is k-12 schools. If they aren't operating, I shouldn't have to pay for it.
7/20/2020 17:57:44	Stephanie	Andrasek	Usd 428	Great Bend	Please delay start of school to after labor day or longer to keep our teachers and students safe

7/20/2020 17:57:46	Allison	Lawrence		Overland Park	<p>Dear Board Members,</p> <p>My name is Allie Lawrence, and I am a resident of Overland Park, and teach in the Olathe school district. I am writing you today to share my thoughts about delaying the reopening of schools.</p> <p>I am a conservative Republican, and support the idea of local control, but the health and safety of our students, staff, and families is not a partisan issue.</p> <p>Teachers are givers, we give our time, our money, and our hearts to EVERY single child that walks through our doors. That love we have pushes us to make personal sacrifices for our students, and we do so willingly. We completely reworked education in a matter of weeks to continue to support students in March and didn't bat an eye. We want to be back in our classrooms with our kids, but we don't want to be back when the risk is so high, especially in larger districts with higher community spread rates. I shouldn't have to have 'Living Will' on my list of back to school to-do's.</p> <p>Please, I urge you to put politics aside and think about the negative consequences of sending kids and adults back before community spread is minimized. I don't want to attend the funeral of a colleague or student, or god forbid my family, because politics got in the way of doing what is right for kids. Three additional weeks isn't going to cause lasting issues for our kids, however, losing a friend, family member, or teacher will.</p> <p>Thank you for taking the time to read my concerns, and honestly reflecting on what is best for the students of Kansas.</p> <p>I wish you all good health, Allie Lawrence</p>
7/20/2020 17:57:56	Taylor	Higbee		Olathe/teacher and Prair	<p>Please support Gov Kelly's EO as she couldn't have come to this decision easily or without considerable evidence. Our district needs time to put appropriate measures in place to help teachers feel comfortable returning to in-person work. School must look different in the fall but our mental and physical health takes priority in order for teachers to be healthy enough to help students feel more comfortable with required changes. Help us put on our masks first.</p>
7/20/2020 17:58:02	Sandra	Reed		Andover	<p>Please postpone school opening and use public health professional recommendations when making decisions regarding the safety and health of our school children and employees.</p>
7/20/2020 17:58:06	Danese	Lindsay	None	Kingman County	<p>I agree with Governor Kelly's mandates. She is making the right decision. I am a Registered Nurse and have worn masks for 50 years. It protected me and the patients I cared for. It is the medically and scientifically approach to stop this disease</p>
7/20/2020 17:58:19	Daniel	Meisch	Usd413	Chanute	<p>Please allow access to the schools for summer workouts! It is very important to the athletes!</p>
7/20/2020 17:58:23	Lishe	Kaiser		Hoxie	<p>Do not delay the start!</p>
7/20/2020 17:58:23	Jake	Moss	USD 412	Hoxie	<p>We need a regular start time. A one size fits all approach does not work well for Kansas.</p>
7/20/2020 17:58:32	John	Robinson	Self and Family	Lawrence	<p>Schools need to open on time. Our children are already behind, and the loss of social interaction is a detriment to their overall growth and maturity. While covid-19 is real, we know that it is less dangerous to healthy young people than anyone. Requiring social distancing, and masks when it cannot be achieved, will temper any danger. Parents should also have the choice to keep children home, and work online, if they deem it necessary. There will be circumstances where other health issues change the dynamic for that child, and parents should have the choice. We have to get back to as close to normal as possible or we will lose an entire generation. Every day right now is imperative in the development of our kids. Please get them back to school.</p>
7/20/2020 17:58:36	Megan	Ford	USD 457	GARDEN CITY	<p>We want to go back to the classroom!</p>
7/20/2020 17:58:47	Megan	ardt	blue valley school distric	Kansas City	<p>Delaying the start of the school year allows schools and staff to put in place a concrete plan to keep students safe in the school or at home. As an educator working with special education students I do not see a possibility to my students returning to school, practicing distance, and wearing a mask. People will get sick, people will die, and teachers will go under appreciated again.</p>
7/20/2020 17:58:49	Leah	Towle		Lawrence	<p>I fully support the decision to delay the school year. It is the safest choice for our teachers, kids, and their families. It is okay to sacrifice a perfect school year to keep Kansans alive.</p>

7/20/2020 17:59:01	Amanda	Belknap	USD 257 IHS	Iola	Support the governor's executive order. She has made a careful decision based on data to do what's in the best interest for the health of staff, students, and their parents/grandparents. Kansas Covid numbers are increasing. We need the extra time to put things in place for the safety of all involved.
7/20/2020 17:59:03	Tiffany	Scheffler		Kansas City	Uphold the governor's order. I actually wish it would extended longer, since we have seen spikes after each holiday weekend. We cannot proceed as normal. We cannot open schools in the face of rising numbers. It is not the job of schools to make up for systemic societal failings i.e. access to childcare, food assistance, other services. Remember March? April? May? What has changed?
7/20/2020 17:59:12	Beth	Schmelzle	USD 378	Riley	NO MASKS! THEY WILL BE BREEDING GROUNDS FOR EVEN MORE BACTERIA AND VIRUSES.
7/20/2020 17:59:25	Krista	Yates	I work for USD#204 Bo	Bonner Springs, KS	I feel anything less than Virtual School at this time will be doing our community a huge disservice. I fear even waiting until after Labor Day, another holiday weekend, will not help us safely slow the spread or help work on flattening that curve again. With an outbreak, our close-knit community will quickly suffer. Being in Wyandotte County we are at such a high risk for exposure. There are so many unknowns still and we are quickly learning kids are not immune and indeed can become very sick from Covid-19. Even if they are not showing signs, we have to consider our students who's only caregiver may be their elderly grandparent. We have to think of the students and those who have family members who are high risk. Please seriously look; even if you have to break it down to certain counties or Districts, at the numbers, the risks, and how great of a % the chances are looking at our schools quickly having an outbreak and having to do quarantine after quarantine. The stress of back and forth will be more detrimental to our students and staff's health. The worry over someone we know and truly care about becoming sick and possibly having to lose their lives, is going to be much harder for young students to have to wrap their minds around than school from home which they were quickly thrown into back in March. Overall most Districts, teachers, staff members, families, quickly adapted to that as well as they could with no heads up. This time we can and will be more prepared. I would rather have to tell a student they will be doing school from home again to prevent someone in our building from getting sick, than having to try and explain to a student that because we went back without understanding we have lost a staff member or one of their friends is no longer with us. My kids sat back in February at my Granny's funeral, and again just this past Saturday at their Papaw (my Father's) funeral and I can assure you they do NOT want to lose anyone else. Thank you for your tireless efforts during this undoubtedly stressful time.
7/20/2020 17:59:26	Ruth	Amick	BLUE VALLEY SCHO	OVERLAND PARK	I support the Governor's order to delay start of school until Sept. 9th. I do not feel we know enough about COVID-19 to ensure safety of staff and students particularly during a spike in cases in our area.
7/20/2020 17:59:29	Christopher	Escalante		Topeka	Accept the delay. We are currently one of the top states per capita in new cases. 3 weeks won't have a significant negative impact on the academic year but could have numerous benefits. It will give teachers and administrators more time to prepare for a safe reopening with whatever mix (online, in-person) ends up being necessary. As a parent of students. As a son of a teacher. It's just not worth the gamble.
7/20/2020 17:59:35	Nicole	E		Marion	The governor's announcement is the most communication I have seen in regards to keeping my kids safe in the school setting. I am in favor of both executive orders. I know my comments are one of many, but please hear that I know parents are worried for children's/staff/families safety. Please let science guide your vote and not politics.
7/20/2020 17:59:52	Pam	Sims	My family	Abilene	Start school on time these kids are suffering enough! They need school and sports!!!!
7/20/2020 17:59:55	Jackie	Whitley	Taxpayers	Winfield	Schools need to open with no masks mandates. Over Half my Property taxes go to schools. I want a refund if Kelly thinks she is a Dictator. Masks don't protect from a virus. In 2018 way more Kansans died from flu. Kids die from flu not Covid19. Masks should be a choice. The recovery rate doesn't warrant schools delaying.
7/20/2020 17:59:55	Erica	Castillo	Olpe school usd 252	Emporia	My children would like to start school in August. Regardless there will be a spike in covid no matter what.
7/20/2020 18:00:05	Jeremy	Mohn	Blue Valley USD #229	Olathe	Recent evidence from large scale studies has confirmed that adolescents spread COVID-19 just as freely as adults. Please consider the health of the teachers and staff in middle schools and high schools who could be sent back to poorly ventilated classrooms with very little in the way of personal protection. For most of us, under these conditions, it is not be a matter of if we will be infected. It is instead a matter of when we get infected and how long we will be incapacitated by it. When this happens to high school teachers—particularly those of us who teach upper level courses—our students will not have anyone able to teach them complex course material.
7/20/2020 18:00:05	Morgan	Crabtree	Osawatomie USD 367	Parker	I support the delay to watch case numbers and allow schools time to try to comply with the safety requirements. However, I would prefer starting online to keep the calendar and teacher contracts closer to original terms.

7/20/2020 18:00:07	Krista	Hart		Gardner	Please vote to adopt this executive order. We need the delayed start so that we can plan and make accommodations. I haven't even been able to have access to my classroom since March, and I would typically have already spent countless hours over the summer doing just that. I'm already freaked out about having to be in the classroom every day with 25 students. Please give us all the chance to figure out how we are going to adjust to meet the needs of students in our classrooms with all of the changes that are necessary in a way that will allow all students to succeed.
7/20/2020 18:00:14	Ally	Schaffer		Bonner Springs	Please support Gov. Kelly's order to delay the start of school. Not only will this extra time allow for Covid-19 cases to hopefully drop, but it will also provide districts adequate time to make their plans using KSDE's recently released guidelines and to acquire important safety and mitigation supplies Please put teachers, students, and everyone we go home to above politics, and prioritize our health and safety!
7/20/2020 18:00:16	Christine	Drinkhouse	USD 497, Lawrence	Lecompton	Please delay the opening of public schools so we will have more information on COVID and teachers can train and plan. Thank you.
7/20/2020 18:00:56	Suzanne	Martell		Topeka	As the number of Covid-19 cases steadily increase, I believe it would be in the best benefit of students and school staff to delay the start of school until after Labor Day. I do not make this opinion lightly. I am a special education teacher in a specialized Autism classroom; my students thrive on consistency and stability. The classroom is just the place to provide what they need. However, we cannot provide what my students and many neurotypical average students need if we are short staffed because of illness, quarantine, or staff members that have underlying conditions. Please take this into consideration when you are making a decision on the Governor's EO to delay the start of school. Myself, and many other educators and our families know that it is never easy to make a decision that could be considered "political". We also understand the stance that government should not play a large role in mandating our actions. Unfortunately, Americans, not just Kansans, have shown that they are not willing to participate in common sense and common courtesy measures, such as mask wearing and social distancing, in order to keep the curve flattened. This decision is not going to be easy for you and I respect the State BOE members that have personally answered my emails when I have contacted them. Thank you for your time and consideration.
7/20/2020 18:01:01	Heather	Moss	public school teacher	Bonner Springs, Kansas	I strongly support Governor Kelly's executive order to delay the start of school until after Labor Day. First, schools need time to plan how they will implement the Covid-19 mitigation strategies. Second, teachers need time to plan for effective remote, hybrid, and in-person teaching formats. These first two points apply to all Kansas districts. Even in areas with very few or no cases, the situation could change rapidly, and school districts need to be prepared. Unfortunately, most Kansas districts have not been forthcoming with their plans for responding to COVID-19 this upcoming school year, which leads me to believe more time is needed. Lastly, the delay in starting school will give Kansans much-needed time to practice mitigation strategies so we can begin to see a decline in Covid-19 cases which will make in-person school safer for everyone. I do not believe it is responsible or safe to start any form of in-person K-12 school until there is a 14-day decline in cases in Kansas.
7/20/2020 18:01:14	Roberta	Holt		Galena	The schools need to open. Kids are going to be so far behind they can't catch up. They need school for physical & mental health. Let the districts decide if & when they need to close. With 59 cases on the county & 1 death there's no need to close the school or push back the opening. It's also hard for parents that work & don't have child care or the time to do long distance learning.
7/20/2020 18:01:15	Daniel	Meisch		Chanute	I think it will be safe to start school on August 12th. Kids do not appear to get the virus easy or spread it easily. It will be safer for them to have them in school where they can be monitored!
7/20/2020 18:01:23	Monika	Swanson		Leawood	Please open the schools as planned in August! The kids need this! And please consider looking into the psychological effects of kids wearing masks. Kansas only has a high number of "cases" because of high numbers of testing! Anyway kids are not in danger to get infected. Please look at European countries where the kids are back in school without problems!!
7/20/2020 18:01:40	CaSsandra	Davidson		Wichita	Please leave schools closed through the fall its not safe
7/20/2020 18:01:58	Maeve	Bolin	USD469	Lansing	Please follow the governor's orders. Districts do not want to be on their own in making these decisions. It creates distrust when teachers and staff do not agree with the district. I am a leader in my building, and I have talked with many teachers who do not want to go back until we know it is safe. We aren't trained health professionals. We need additional time preparing to get it right for our students and trying to drive numbers down.

7/20/2020 18:01:59	Stacy	Marvin		Overland Park	Please vote to delay school until after Labor Day to let our schools prepare and gather all of the appropriate safety items!
7/20/2020 18:02:00	Michelle	Ochs		Dodge City	As a teacher, I would much prefer to teach my students in person. HOWEVER, I'm not sure that large or high poverty districts can get enough hand sanitizer, masks, thermometers, etc. in order to safely start "on time." If you leave this decision up to local governments, or individual school boards, I fear there will be no consistency across the state. It would be totally unfair for a school to start on time while its football/volleyball/marching band/forensics team/etc. opponent in the neighboring county decides to start late.  I know there is no easy decision with this, and no matter what you decide you will upset many. However, I feel the best decision is to uphold Executive Order 20-58 if not for the sake of safety, then for the sake of consistency.
7/20/2020 18:02:00	Kimberly	Simmons		Topeka	As a teacher, a daughter and a single parent, I urgently encourage you to adopt the governor's executive order pushing for a delay of opening in person classrooms. The safety of teachers, students and their respective families should be a priority and large school buildings do not create an environment that is conducive to that. While schools are a vital part of reopening the economy, they are also not intended as child care facilities in a pandemic. Please consider that other front line workers are not placed into one small space with 20+ children for 7 hours a day. Their meetings with others are brief and thus, safer. Delay the start, allow safety measures to be put into place!
7/20/2020 18:02:08	Kelly	Smitj	USD453	Leavenworth	Yes, please delay Re-opening and go on-line only until bi-weekly case counts are zero!!!!
7/20/2020 18:02:33	Amanda	Vanausdall	USD 259	Wichita	Please approve the executive order to delay the start of schools. I am a teacher, I live with family that is high risk for contracting severe symptoms from Covid, please allow extra time for districts to prepare for the safest return to school. I love my students, I want to be with them in person, but it should be safe. I hope that we don't put ourselves in a position to be short of healthy teachers and subs, and risk shutting down in the middle of the semester, a later start will decrease that risk.
7/20/2020 18:02:34	Lydia	Dainty	USD 493	Columbus	I fully support the Governor's decision in the delay of school. Our county (Cherokee) has not been taking safety measures and has had an increase in cases. This week our county fair is taking place along with a full carnival with rides. We need time to see where our numbers are standing. I am also a public school teacher and know we need the extra time to prepare properly for the mandates that are taking place. We haven't even begun to discuss the lengthy amount of guidelines and procedures.
7/20/2020 18:02:38	Marcy	Hurlbut		Sylvan Grove	Please let the individual school districts decide what is best for those individual communities. The needs of the larger schools versus the smaller schools are much different and shouldn't be addressed in one lump decision.
7/20/2020 18:02:44	Dusty	Killian	Caney Valley	Caney	Swapping fall sports for spring sports is a good idea for all sports except football. This is because of the grass fields that the majority of Kansas schools play on will not be as safe to play on because the grass will be dormant in most areas until late April. Creating an unsafe surface for athletes.
7/20/2020 18:02:46	Jaime	Schalk	Mom of 5	Columbus	My kids need a normal school year. This is a joke. It literally makes me want to throw up. I am having so much anxiety from this, I can not even imagine what it is going to do to my kids when they find out!!! And the mask thing is a complete joke!!! Little kids wearing masks!!!!???. Yeah that is going to go well! I have to wear one now while in summer school with my kids, and there are times I can hardly breathe!!!! This is only going to cause more people to get sick, not help protect them!!!!!!
7/20/2020 18:02:51	Victoria	Gosselaar	Olathe Teacher	Olathe	As a teacher I do not feel it is safe to resume in person schooling. My father is immunocompromised, and while I don't live with him, I can't imagine not being able to see him because of the dangers of my job. I love my students and will do everything I can to ensure they succeed, but my family will always be more important. Online learning is a viable option, and more focus should be put on how to do distant learning successfully, rather than fighting to put kids back in brick and mortar school.
7/20/2020 18:03:07	Lindsay	Siek	USD 102	Cimarron	Open back up in August. NO masks!
7/20/2020 18:03:21	Reed	Szambecki	Southern Coffey County	Gridley Ls	Why would you delay when they have found it's harder to contract during warm weather than when it's cold. Makes no sense to delay in that case!
7/20/2020 18:03:22	Honey	Coash		Garden City	I don't believe we need to delay school in our community any further. We haven't seen another spike here and I feel the socio-cultural and emotional development of our children is at risk the longer they are kept from being in school

7/20/2020 18:03:22	Jennifer	Bettles		Herington, KS	I am an elementary teacher and a parent of school age children. I support the governor's executive order to postpone the start of school until after Labor Day. I feel this time is needed for teachers and schools to properly prepare and for numbers to stabilize. I feel it is what is in the best interest of our children. I also feel that, locally, decisions have been made across Kansas to opt out of the mask mandate and the Ad Astra plan, in the interest of politics rather than public health. I do not want to see the same thing happen in regards to safely reopening schools.
7/20/2020 18:03:27	Melissa	Phelps		Kansas City Kansas	I believe that postponing the start of school the is best option for the safety of everyone. It will hopefully give us time to get the virus under control as well as make a good plan for school to start safely.
					As a mother and a teacher, I am incredibly grateful for the Executive Order that Kansas Governor Laura Kelly will be issuing in a few short days that keeps Kansas schools shuttered until at least September 9th. Yes, there will be challenges... more time at home, delay in athletics/activities, trying to find childcare, etc., but these challenges can and will be overcome. I firmly believe more positives than negatives will come from this...  Positive 1) THE GIFT OF TIME- The Kansas Reopening Task Force created a 1,100 page document that outlines how schools can safely reopen. This is a very complex and well-written document that will take time to digest. The extra three weeks gifted to schools will allow us to take those recommendations, as well as the data from our local communities, to create a complete plan that supports and protects all stakeholders in our communities.  Positive 2) IMPROVED QUALITY OF INSTRUCTION- Included in the 1,100 page document, referenced above, were prioritized standards for grade level bands. These prioritized standards may require teachers to make adjustments to the content they teach, the depth of knowledge they teach those skills to, and how they assess students for mastery. They may also have to consider alternative methods of instructional delivery if we end up in a digital or hybrid learning situation. These adjustments take time. Giving teachers three extra weeks to evaluate these instructional changes should result in higher quality lessons for your children!  Positive 3) CHANGING THE COURSE OF COVID. Numerous doctors and scientists have said that if everyone in our country would wear masks in public for the next 4-8 weeks, we could slowdown or even reverse the current trend of increasing COVID cases. At the earliest, Kansas schools could open in about 6 weeks. Can you imagine how different our COVID data could look in 6 weeks?!? If we wear masks regularly we have a greater chance to give our students a "normal" school year. After the mess of last school year, who wouldn't want that?!? I'm wearing my mask. Hopefully you are too! #wearamask #theworldisbiggerthanyou  Positive 4) SCHOOLS ARE BEING IMMEDIATELY REDESIGNED FOR THE BETTER. Through the coursework required for my second master's degree, I was struck at how little our educational system and coursework has changed in the last 50 years. This global pandemic is allowing schools to make sweeping changes that will provide better
7/20/2020 18:03:33	Jennifer	Stoops		Kansas City, KS	We have no business reopening the schools at this point. Cases are rising, and if you choose to reopen schools, it is strictly for a political agenda. For ONCE, think about the health and well-being of Kansas citizens. Postponing the opening of schools for three more weeks will NOT be detrimental to our students. Do the right thing. Follow the governors EO.
7/20/2020 18:03:37	Joshua	Donaldson		Lawrence	Keep schools closed until after Labor Day—at the bare minimum. It is completely unsafe and unconscionable to send students, teachers and staff back in these current conditions
7/20/2020 18:03:39	Kate	Carter-Brown	Olathe School District	Roeland Park	As a parent of two kids in public schools and spouse of a teacher in Public schools, I support the delay of the school year until after Labor Day. If COVID trends continue as they are currently, I'd support a further delay. The safety of our kids and teachers should not be jeopardized.
7/20/2020 18:03:51	Chad	Weinand		Olathe	Keep this decision local!
7/20/2020 18:03:56	Sheryl	Setter		Douglass	Until there is a better handle on Wichitas Covid situation, I fear for the students who would be required to attend school. It's a foolish idea to think that students will be willing or able to follow social distancing regulations, they cant even wear a hat inside the building, face masks is a stretch.
7/20/2020 18:04:07	Phylisha	Harley		Wichita	

7/20/2020 18:04:30	Corrina	Carlos	Myself	Dodge City KS	Good evening. I am an ESL teacher at Dodge City High School and the mother of a DCHS Student. I am writing this to show my support for Governor Kelly's executive order to delay the start of Kansas Schools. Dodge City has been hard hit by Covid-19. Our school district needs this additional time to take the guidelines presented by KSDE and put them into place in a way that will meet the needs of our unique district. I am 52 years old and I am in the at-risk category for being negatively impacted by covid. I have been teaching for over 20 years. I worry for my students, their families, myself and my family. I am deeply saddened to see so many fellow Kansans care so little for all the people who have given years of their life to educate students. I pray that our State Board of Education will not only protect the children but the people who have supported the students year after year. Please do what is right to protect all of us. Thank you for your consideration.
7/20/2020 18:04:59	Kerry	Wright		Whiting	School needs to start on time with no restrictions.
7/20/2020 18:05:14	Greg	Will	My grandchildren	Newton	Absolutely no to both EO's
7/20/2020 18:06:11	Amy	Green	Salina school teacher	Salina	The cases statewide and in Saline County are much greater than we had in March when we shut down. Please have us start with distance learning or in September to help with the spread of the virus.
7/20/2020 18:06:17	Bob	Archer	None	Topeka	Parents, who can, are stretching to send kids to private schools now due to this delay. This will ultimately hurt public education and increase the unacceptable achievement gap. Please deny. Thanks.
7/20/2020 18:06:37	Johnny	Dunlap		Spearville, KS	Following this common sense order will give districts more time to put procedure, policy, equipment, and personnel in place for our best possible attempt to create a safe and successful learning environment. Playing politics right now is not only evil, it's also stupid. If you try to hide behind "local control" you are just abdicating leadership and exhibiting cowardice.
7/20/2020 18:06:42	Kathryn	Feightner	Olathe school district	Olathe	Please delay school opening until after Labor Day. Numbers are skyrocketing every day in Johnson County!!
7/20/2020 18:07:06	Jamie	May	USD 373 and USD 262	Park City	I believe it is a good idea and also to require online online if the covid trends keep up.
7/20/2020 18:07:08	Christina	Carr		Beloit	I feel that this decision should not be a one size fits all. Some rural counties have very few cases and should be allowed to open schools. The decision should be left up to each school district and the county health officials in their area.
7/20/2020 18:07:14	Jordan	Adame		Liberal	No to a delayed school year
7/20/2020 18:07:24	Leah	Yancey	Teacher/ parent	Great bend	Approve the EO !! Start school on September 10th
7/20/2020 18:07:27	Michelle	Jones		Topeka	I disagree with the governors order to delay the start of school until after Labor Day. The hardship this will put on parents needing to find childcare and the need for children to get into a predictable routine amongst their peers, outweighs the benefits of holding off on school. Schools have been painstakingly preparing for the start of school all summer. Somehow daycare workers have managed to take care of children since the start of this pandemic, and I see no reason school districts can't do the same.
7/20/2020 18:07:27	Stephanie	Meyer	Blue Valley School Dist	stilwell	No delay. Please start school on time. Things will not get better in 3 weeks. The districts and state department of Ed has had all summer to get things ready.
7/20/2020 18:07:30	Levi	Lacy		Overland Park	I am asking you to please vote in favor of this executive order from our Governor. The extra time will give teachers and school districts the necessary time to plan and make sure they are ready for students to return safely. Let's not make this about politics and keep the safety of all Kansas as the top consideration. Thank for all you do
7/20/2020 18:07:30	Kayla	Josefiak		Burdett	School needs to open, for the mental health and well-being of students everywhere. Further more, MASKS do not need to be implemented; perhaps a clear shield of sorts, but I genuinely fear for the mental health of our society following all these mandates Gov Kelly has put in place.
7/20/2020 18:07:31	Sherry	Roth	None	Madison	As a teacher and parent I support the delay of the start of the school year. At minimum, I support starting schools completely online until the covid numbers decline to a safer number of cases.
7/20/2020 18:07:32	Teresa	Louderback	USD 480	Liberal	Please delay school, our numbers are high, they kids we teach are going home to the plant workers.
7/20/2020 18:07:32	Teresa	Louderback	USD 480	Liberal	Please Delay School!!!
7/20/2020 18:07:34	Leah	Towle		Lawrence	I fully support the decision to delay the school year. It is the safest choice for our teachers, kids, and their families. It is okay to sacrifice a perfect school year to keep Kansans alive.

7/20/2020 18:07:35	Emily	Hamm		Ottawa, KS	Please accept the governor's order and proceed with public health as a first priority. Education can be creatively reworked in the virtual space, but loss human of life cannot. Our numbers are rising. We need you to do what's best for the students and teachers.
7/20/2020 18:07:38	Sandra	Detar	Mother	Kincaid ks Anderson's c	I feel my kids need be school learning because when they grow they need know responsible I believe this virus is Democrats lies to control USA
7/20/2020 18:07:44	Cheryl	Griffin	Citizen and grandmither	Emporia	Children need to be in school not only for a good education that our tax dollars go to but for their good mental health as well and for gaining social skills. If teachers dont want to teach let them stay home and hire teachers that will . If they insist on teaching online then cut their paychecks by half.
7/20/2020 18:07:46	Pam	Qualls		Riverton	I am writing in support of delaying the start of the school year. Kansas has a concerning number of new cases of the Covid virus each day and I am extremely concerned for students and staff. This is a time to put politics aside and come together in unity for the benefit of our children. Thank you
7/20/2020 18:07:52	Kahil	Chisko		Augusta	Yes. School should always start after labor day
7/20/2020 18:07:54	Debra	Lopez	Teacher	St. Paul	I strongly believe we need to get back to school and have our kids in front of us. I also believe that pushing back everything until Sept 8 would give schools time to get their ducks in a row since we didn't receive guidance from you until last week. We all want to do what is best for kids. I believe that if the start of school is pushed back then all activities should be also. It just doesn't make sense to me that we are talking about if/when we can have kids I. The classroom but no one is concerned about kids playing football or volleyball. Football is a full contact sport. You can't wear a mask safely and there is no such thing as social distancing. Let's all mask up, use safety precautions, and get back to working with kids!!!!
7/20/2020 18:08:11	Leah	Towle		Lawrence	I fully support the decision to delay the school year. It is the safest choice for our teachers, kids, and their families. It is okay to sacrifice a perfect school year to keep Kansans alive.
7/20/2020 18:08:19	Natalie	Collins	Parent and Teacher	Cherokee	I support the Governor's decision. It is best for students if schools have time to adequately prepare.
7/20/2020 18:08:26	Nicole	Cauveren	USD 344	Pleasanton	There are currently 15 active cases in Linn County, with only one hospitalization and zero deaths since beginning in March. I think it is unfair to take children away from the social aspect that children get from school/organized sports. I do not understand taking this away from our children, as feel like more damage is being done that the virus itself. May children needs social interaction for their mental well being and I do not see where leaders are taking that into account. I have seen this personally with my own children. Taking away sports is also taking away a venue for them to learn healthy habits that they will use for the rest of their lives. My son has gained 10 lbs since the stay at home order was put into effect, and is now being bullied from other children who are calling him fat! He is 8 years old! We would not have this problem if he had been active in his usual sports, instead of not being able to participate. Please take these things into consideration when making your decision. Kids need recreational activities!
7/20/2020 18:08:53	Melissa	Stramel		Colby	This is definitely a decision best left to local school boards. Here we have two active cases. Delaying school makes no sense in light of this. I'm sorry you went through so much work to have to do more now, but I hope you stick with your original plan and vote against the governor's.
7/20/2020 18:08:54	Krista	George	Myself,	Galva/ McPherson coun	Please vote to keep schools closed until after Labor Day. Our children and citizens lives are at stake.
7/20/2020 18:08:59	Amy	Harvey		Wichita	What if there were some guidelines in place on opening on time vs after Labor Day, such as the number of positive cases per 100k has to be under a certain number to open on time. Also, the district has to submit their plan for sanitation and PPE (and make it public) to be approved before opening. This puts each district in a position to make decisions based on what's happening in their community.
7/20/2020 18:09:20	Amy	Condrey	KCKPS (Stony Point So	Spring Hill	Due to data collected in the last week, I feel that it is. It in the best interests of students, staff members, or families in the community to continue with in-person plans at this point. I support Governor Kelly's executive order, as I feel that even one life lost to the corona virus is too many. Given the current spread and rising numbers, giving schools time to prepare for in-person learning and even starting online would be the best course of action in my opinion. I don't with to bury my students or coworkers, nor do I wish to bring the virus home to my family. Thank you for your consideration.

					<p>As a mom of a severely disabled son, I'm begging you to start school without restrictions. He has had no therapy, no interaction with staff and friends, and is very agitated to be out of his typically wonderful routine. His ONLY social life IS school. Please think of him and classmates as you make your decision.</p> <p>As a mom of a six year old who's first year in school was completely turned upside down at the most fun time of the year, I'm begging you to let him return to school so he can enjoy being a kid again. He was in the prime of really mastering reading, ready to have his first field trip, and so excited to participate in his first track meet. He misses his friends and the much needed social interaction to help him develop mentally, physically, and emotionally. Because of a virus with very minute danger (less than the flu), we took away all the things little ones like my Kindergartener love about school.</p> <p>As a mom of a 13 year old who loves academics and athletics, I'm begging you to let these kids go back to school without restrictions. The emotional toll this has taken on my teenager has been heartbreaking. Both my husband and I are essential, so our 13 year old had to step in as teacher and babysitter to her brothers. Please let her get back to some normalcy.</p> <p>As an essential worker, I beg you to let our kids get back to school! We did not budget for an extra 3 months of care for our disabled son. Unless you as a board are prepared to reimburse families for the extra childcare we are incurring and lost vacation/sick time, I'd ask that you put our already paid tax dollars to work and get the kids back to school!</p> <p>And finally, as a citizen who knows the reality of the home lives of some of the kids in our district, I am BEGGING you to start back to school with no restrictions. Their lives, their health, and their safety absolutely depend on it. We have to look out for them. We've thrown them to the wolves for 5 months. We have to do better.</p>
7/20/2020 18:09:29	Lorie	Johnson		Columbus	Thank you.
7/20/2020 18:09:38	Kristina	Johnson	Piper USD 203	Johnson	This is an issue that resides on science, not party line.
7/20/2020 18:09:52	Meghan	Muntz		Olathe	Please consider the delay of school until after Labor Day for the safety of students and staff. Most businesses around the JOCO area are still operating at home and plan to do so until the fall/ 2021 calendar year. If adults are afraid to be in office buildings with each other then we should be afraid for students, teachers, and staff health too. Thank you for putting health and safety first.
7/20/2020 18:09:53	Lisa	Coble	Blue Valley	Olathe	Please keep teachers and students safe by delaying the start of the year!
7/20/2020 18:09:57	Amy	Hasenclever		Lebo	I urge the BOE to open as normal. We sheltered in place in March as a precaution to lower the curve as we learned more about the virus. Now that we have seen lower severe cases than expected, it is time to quarantine the sick and at-risk and let the well regain normal classroom learning. Delaying the opening of schools will not slow the spread. The youth will continue to intermix in their day-to-day as if they were in school anyway as they are doing now. Please open our schools as normal!!!
7/20/2020 18:10:27	Charles	Keller	Golden Plains USD 316	Selden	I am opposed to delaying school any further than we already have. We have a well thought out plan to reopen schools that includes an least desired, but workable online option to restarting education. Why should we have to wait? If we are going to lose three weeks how will we be able to make that up without some sort of relaxing of the mandated 1116 hours? We need to get kids back in school.
7/20/2020 18:10:29	Sarah	Mosher	Parent	Olathe	Please vote to delay the start of school until after Labor Day. It has been difficult to find cleaning supplies that are vital to the students and teachers and this would allow extra time for us as parents to gather said items. The numbers in the state of Kansas are rising at tremendous rates and this time would allow people to be smart and wear masks in accordance with the statewide mandate in order to get our numbers back down. We all want our kids to be able to go back to school but we must be safe about it. This is the safest way in order to make sure the schools have what they need.

7/20/2020 18:10:30	Julie	Vodehnal	Blue Valley teacher & p	Overland Park	Thank you for putting the health & safety of all KS students & educators first & for voting in support of the mandate to delay the start of school. This will provide time for staff to prepare to implement the ksde guidelines. One student or staff death is one too many.
7/20/2020 18:10:47	Amanda	Strickler	Extra curricular activitie	Colony	I understand what the governor is trying to do with delaying the start of school. However, I don't agree with delaying all student activities! Student activities are much smaller groups than the whole student body. Many students rely on these extra curricular activities to pass school, show up to school, and behave in school. Please consider letting sports teams start practice, organizations meet and serve their community! Students need these organizations and activities. These are much smaller and controlled groups. Our summer programs have been flourishing because kids want something to do and to try and have a sense of normalcy. Please don't delay these opportunities for our students. Thank you for listening.
7/20/2020 18:10:54	Julie	Fugett	parent - USD 497	Lawrence	Please vote YES on Governor Kelly's EO!
7/20/2020 18:11:07	Holly	Palacio	Parent of three students	Olathe	Please oppose the blanket one size fits all mandate. Our School Board and District staff know how to keep our students and staff safe and they will. The Governor needs to worry about the state economy and leave education to the educators. Thank you!
7/20/2020 18:11:17	Sara	Slack		Overland Park	Please keep schools closed until after Labor Day. The safety of students, teachers and staff is in your hands. This would give teachers time to prepare online learning and help school make smart choices for being students back safely!
7/20/2020 18:11:23	Dana	Strickland	Self	Abilene	Please keep children safe and close school.
7/20/2020 18:11:34	Patsy	Triffet		Hutchinson	The quicker we get back in school, the sooner our children start to resume learning. Unfortunately we are allowing fear to govern our lives. Time for common sense resume and we learning begin for our children.
7/20/2020 18:11:39	Jeri	Jacobs	USD 412	Dresden is. 67635	Let them go to school and play ball. You are doing more damage to these children then good.
7/20/2020 18:11:41	Alexandria	Gilley	I am an elementary teach	Hutchinson, KS	I believe that schools need more time to get ready to open. We are nearing our original start date and many districts have not yet released details about specific reopening plans. Our teachers are incredibly stressed and anxious and pushing back the start date would help alleviate some of that pressure. My colleagues and I care deeply about our students and we want to make sure we get this right. My concern is that if the decision is left up to the districts, many will choose not to delay; including those in counties like mine with increasing case counts. Student and staff well-being is at stake, and having the opportunity to create solid plans is vital.
7/20/2020 18:11:42	Tracy	Balkenbusch	Retired Kindergarten Te	Olathe	Schools should be open in August! Our district is prepared to give parents a choice. Teachers and students will be in a safer environment moving forward than we ever had prior to covid.
7/20/2020 18:11:52	Kaci	Bryant	Teacher and Parent	Merriam	Please keep schools closed. I am nervous for my child to return and for myself as I am pregnant.
7/20/2020 18:12:05	Logan	Brown		Wichita	We need to really consider the long term effects of opening to early. Our national pride is getting in the way of solutions and we need to listen to the experts.
7/20/2020 18:12:16	Elizabeth	Darling	USD 250	Pittsburg	This order should be supported. Rushing back into in-person school before our local infection rate has substantially decreased will ultimately maim or kill students, teachers, family members, and create a petri dish for community spread.
7/20/2020 18:12:19	Allie	Lockwood		Topeka	Please vote to move start date and to keep the start date flexible. Please allow flexibility in required time and hours for students. These are unprecedented times and we need to make sure all our safe. I don't want to sacrifice my mom, my son, my daughter. I don't want my child to be the one to spread the virus to a teacher or classmate. We don't know enough about this pandemic to keep students safe. Please, vote to move start date to after Labor Day.
7/20/2020 18:12:23	Sarah	Roefeldt		Lawrence	Please vote yes to delay schools. It is vital everyone's health and safety.

7/20/2020 18:12:38	Traci	Johnson	I am a classroom teacher	Green - I teach in Riley.	I think the order to delay school is appropriate considering the numbers of cases in Kansas. I myself am at high risk due to being pregnant and worry about being back in the classroom with students. I want to be in the classroom as much as any other teacher but only under safe conditions where I am not putting my health, unborn child, and family at risk. This also allows for us to be able to plan and work with other colleagues to better plan for the school year opening. It also allows for us to prepare for whatever teaching may end up looking like. I am very concerned and worried about school. The anxiety and worries I have about my health and teaching continues the closer we get to school starting with no set plan as of yet.
7/20/2020 18:12:38	Mindi	Gray	USD 259	Wichita	Please think of the health, wellness and safety of the adults that have and will continue to devote this lives to educating students. I have worked with children for over 20 years and would like to continue to do so in a safe environment. I have been immunocompromised for the last 4 years, considered high risk in two categories and I'd rather not die for the job that I love. I speak for many when I ask for thoughtful consideration of keeping schools closed until after September 9, and offering a virtual platform for afterwords when numbers continue to rise.
7/20/2020 18:12:47	Stephanie	DeJulio		Olathe	Doctors and medical professionals say we should open the schools and get kids back in school. It causes more harm to them to postpone. (See the segment on MSNBC regarding the NBC news story.) I do not believe we are a country based on fear OR a people that supports punishing children in the HOPE that we prevent harm to others.
7/20/2020 18:12:58	Delana "Annie"	Kaylor "Caylore"	I am a public school teacher	Mulvane	I agree with delaying school, and I think schools will need to consider remote learning beginning Sept.9 unless the numbers are down. Then return to school masked when it is more safe to do so. I also believe bars and indoor dining need shut back down and events that draw large crowds. Thanks for keeping Kansans safe. I didn't vote for you, but I agree with what you're doing. Don't back down to pressure.
7/20/2020 18:12:59	Tyler	Bruce		Plains	Please vote to have schools start after Labor Day. There is SO MUCH confusion right now for school administration, local school boards, teachers, parents, and students. If you vote to start earlier, then schools will NOT be prepared to start. As a teacher, we should not be the ones to take all the blame and brunt of this issue for the lack of preparation for the state. Please do not do this! Start after Labor Day. If not, it will be a terrible result.
7/20/2020 18:13:12	Whitney	Gilbert		Abilene	No I think if the school district is ready to let them .
7/20/2020 18:13:28	Joe	Holman	Chanute High School Teacher	Chanute, KS	I urge the board to support this mandate. Without it, we will likely have to close down schools again, which will be very inconvenient. Please vote yes.
7/20/2020 18:13:36	Jessica	Borgerding		Clay Center	I believe it should be up to each district to decide when school will open. We currently have 3 active cases in the county, which isn't the same situation as other counties and districts.
7/20/2020 18:13:43	Judy	Tankersley	Teacher	Wichita county.	Masks- are traumatizing and have you ever been in a first grade classroom? Random sneezing happens- is she going to require 15 masks a day per child? Who is going to fund that? Athletics, musicals.... this is more than heartbreaking..... you could call me if you want to visit more! 620-375-4994
7/20/2020 18:13:45	Tricia	Nibarger		Overland Park	As a parent, I'm asking you to please avoid Governor Kelly's unnecessary delay in re-opening our state's schools.  School districts have been aware of the need for sanitizer and other supplies for months now, so the governor's rationale for the delay is easily refuted.  Allow individual districts to decide when they are ready to open. Perhaps some districts will decide on their own that they need extra time to obtain supplies, and that is fine--but there's no reason to force that decision on every school statewide.
7/20/2020 18:13:47	Heather	Johnson	USD 243	Waverly	Thank you for your attention and service to our students during this difficult time.  Reopen with no mask requirements. My answer is not due to child care. My daughter is 14. My answer is this because we do NOT believe this mandate is needed. My daughter will be homeschooled if this goes into effect. Thank you for allowing public comments.
7/20/2020 18:14:06	Michele	Love		Topeka	I ask the KSBOE not support the Governor's proposal to delay the start of school. This decision should be left up to individual school districts.

7/20/2020 18:14:27	Brandi	Hartman	Parent of 5 school age kids	Andover	I fully support the Governor's decision to postpone the school openings and the safety precautions she has recommended.
7/20/2020 18:14:36	Erin	Ebert		Topeka	As a para working in an elementary school, also a mother of 3 teenagers who are scared to go back to school, as well having a granddaughter that is 3, there is no reason to not have a late start. Most of the teachers and paras are scared to go back, even though we miss our kids, but we have to think about our families as well.
7/20/2020 18:15:04	Keah	Rob	USD 480	Liberal	Postpone school until sufficient amounts of breathing medicine can be available as well as cleaning supplies.
7/20/2020 18:15:37	Courtney	Canfield	USD 446	Pittsburg	We need to stick with the governor and delay the start of school. As a middle school teacher there is absolutely no way to guarantee that the students will follow all necessary guidelines and procedures. These students don't understand what is going on and unfortunately are extremely influenced by people at home. Some of which listen to and recite a lot of false information. Please keep our schools and everyone in them safe.
7/20/2020 18:15:41	Jessica	Oliver	Blue Valley Schools teacher	Overland Park	Please delay the start of school until after Labor Day to allow schools time to get the supplies necessary. Then, PLEASE let us have in person school, our students and my own children need the socialization in person school provides!
7/20/2020 18:15:44	Candy	Grabber		Topeka	I support the governor's decision to wait to start school. I feel that anything we can do to save the lives of children and educators, we should do.
7/20/2020 18:15:51	Aaron	Chiappetti	USD 259	Wichita	Please uphold Governor Kelly's order to delay the start of school.
7/20/2020 18:15:54	Cheryl	Schwarz		Topeka	Thank you Governor Kelly for protecting the children and teaching staff in Topeka. My daughter is a teacher and is very concerned that she could bring the virus back home to her family as well as children spreading it to their families. She will not be able to see her new grandchild that will be here in October as her daughter is concerned that she might have been exposed if she goes back to teaching. Our children do need an education, but only if it can be done safely. I feel the delay will give our schools time to prepare for the year ahead. I completely agree with your decision of delaying the start time.
7/20/2020 18:15:59	Veronica	Samaniago		Leawood	Unsafe for children and faculty
7/20/2020 18:16:05	Amy	Shideler	None	Shawnee	The districts should decide whether or not they are ready to open. If this is indeed about getting hand sanitizer, etc, Governor Kelly would not have tweeted that "she can not in good conscience open schools with the rising number of cases." Let the districts determine their own needs. Many rural communities can safely open in August using the guidelines. Don't let our kids fall further behind. It's been too long as it is. The American Academy of Pediatrics position is for kids to be back in school. Please let the districts decide if they are able to start back up earlier. These kids need to be back in school if possible.
7/20/2020 18:16:07	Kay	Mitchell		Hill City	I would recommend to wait until September 8th to start school. We are not a babysitting a service and from doing summer school this summer with a group of children who will be attending Kindergarten in the fall they have not regressed in their skills since March. 2 1/2 - 3 weeks is worth the wait to have our community, families and staff ready physically and mentally.
7/20/2020 18:16:14	Karla	Christy	Olathe school district	Olathe	I'm ok with a delay in the start of the school year. I want to feel safe as a teacher and with my kids. The current rate of covid cases is too high right now
7/20/2020 18:16:24	Denise	Van Cleave		Galesburg	I fully support Governor Kelly's executive orders and urge the state school board to do so as well. As a middle school teacher and parent of triplets who will be high school seniors, I am concerned for the health of all four of us. As much as I want to have our students in school, I can't help but be worried about being in an old school with poor ventilation with 25+ students in my room at a time. The fact that I need to make sure my will and life insurance policies are in order before beginning school indicates to me that something here is just wrong. For those who think local school boards should be in control, I have to respectfully disagree that that should always be the case. Our local school board includes members of our local fair board who blatantly disregarded CDC recommendations to have our fair as usual. It begins this week, and I can't help but wonder how that will affect our county with regard to positive COVID-19 cases. It concerns me that the well-being of myself, my children, my students, and my colleagues could be in those hands. Please give our administrators time to adequately plan and meet with stakeholders, especially those of us who will be in classrooms. We desperately want our students back in our schools, but we cannot ignore the fact that our old normal is no longer safe.

7/20/2020 18:16:36	Melissa	Seiwert	Teacher for Usd 259	Cheney	Please do not take chances with our health or that of students. If you think it is safe to open schools then I expect to see all of you at a school to help out when it opens. We will need subs and paras. Please listen to data and not public opinion. We are not babysitters. Please do not treat us that way.
7/20/2020 18:16:48	Carey	Gerdes	Teachers	Wichita	We should keep out children safe. We should keep teachers safe. We need to stop the spread.
7/20/2020 18:16:49	Elva	Rose		Olathe	As a mother, I do not want my daughter to be at risk. School must be delayed.
7/20/2020 18:16:50	Tony	bates	Pleasanton schools	Pleasanton	I have never written a letter regarding education to anyone in my lifetime and I am 54. This is not about the kids health. This is about elderly health. Having kids wear masks is impossible. Not one kid has died in Kansas. If teachers have to teach with masks you are going to have some law suits. I cant talk more than 5 minutes in a mask how do you expect teachers to teach with one. Governor Kelly has caused me to protest publicly for the first time. I will not stop till she is out of office
7/20/2020 18:16:55	Sarah	Williams	Piper Unified School Di	Kansas City	Please support Governor Kelly's delayed school start for the health and safety of all teachers and students.
7/20/2020 18:17:00	Todd	Sigwing	USD 259	Cheney	As a teacher I am ready to go back to school. I miss my students and the daily interaction. As excited as I am for another new school year I hope you vote to delay the start of the year. If cases continue to go up it is not safe. I have spent the summer avoiding all activities that involve large groups of people so I can keep myself and my family safe. I would hate to go back and get sick. Three more weeks to better prepare will not have a negative impact on the students.
7/20/2020 18:17:02	Anne	Detmer	ihdetmer@smsd.org	Overland Park	Please delay the start of the school year until 9/8. Please forgive some hours to allow students to help with planting crops in June. Thank you.
7/20/2020 18:17:03	Joshua	Sant	Self	Sterling	Delay the opening of schools as proposed, please.
7/20/2020 18:17:05	Alexandra	Rome	Holy Family Elementary	Hays	I am hugely in favor of Governor Kelly's executive order to delay school. Students and staff alike are very worried about starting school in person as schedule, particularly with cases rising so quickly. So many of these people are or are in very close proximity to people at high risk for COVID-19. Schools do not yet have the resources for protection, and there are so many staff members who come in contact with every student in the school - or even multiple schools. My top priority is the safety of my students and the safety of my husband (who is also a teacher in the area). Please support the executive order to delay school.
7/20/2020 18:17:13	Winter	Elliott	USD 457	Garden City	<p>Leave the decisions to the districts.</p> <p>Currently, summer schools are happening, proms happened, graduations happened, two a days are happening, strength and conditioning is happening, sports are happening and schools have already been preparing for an August start either remotely, in person or a hybrid. Districts should be able to make their own decisions based on the circumstances and virus prevalence or lack thereof in their own counties.</p> <p>The state tracks county data for a reason. The state has counties for a reason. We cannot treat each county as if they are one.</p> <p>Mandating that schools open in September means that the school year will be pushed into June. Calendar committees will once again have to come up with her another plan, staff contracts will need to be revised yet again.</p> <p>79/102 Kansas counties have had less than 100 COVID-19 cases since the start of the pandemic! This a cumulative number and does not reflect the actual number of active cases in that county. Local health departments are better suited to report active cases and these Same health departments have been working with local districts to create and implement a safe reopening plan for their county!</p>
7/20/2020 18:17:16	Tracy	Smith		Overland Park	Please delay the start of school or encourage online first semester until the curve flattens.
7/20/2020 18:17:31	Taylor	Gillespie	N/A	Macksville, KS	I believe school should start on time. I coach at our local high school and kids are ready to go back. If this is about the kids we should listen to them. All of my athletes and others from the community are ready for them to go back. Our county has one case. It shouldn't be a statewide thing for others that have little to no cases. Thank you for doing this and thank you for your time to let everyone be heard.

7/20/2020 18:17:35	Megan	Chretien-Penderg	I am a parent and a nurs	Oakley	Please vote in favor of Governor Kelly's executive order. The extra time is needed to further mitigate this virus and to allow schools and teachers to prepare adequately for the upcoming year. It would be futile and more harmful to the kids to open schools and then have to close them down again.
7/20/2020 18:17:51	Heather	Quaas		Kansas City	I would encourage you to support the delaying the start of school. Please consider the data we have and the safety of all students, staff members, and their families.
7/20/2020 18:18:01	David	Hardy	Myself	Overland park	Voting in opposition to the governor's order is not insensitive to the concerns related to covid 19. It permits folks who are in a particular community to make the right decisions for the community—whether in agreement with the governor's order or not. The local leaders are in a better position to respond to local needs. One size fits all is rarely a good fit for anyone.
7/20/2020 18:18:13	Candice	Croomes	Usd 259	Wichita	Please look at the number of cases! We will be killing students and staff if we go back now.
7/20/2020 18:18:24	Emily	Bolinger	Jefferson county north	Winchester	Open schools, kids need to build their immunity. They need the learning & interaction with other kids.
7/20/2020 18:18:33	Kellie	Arnold	None	Overland Park	I do not feel safe having my daughter return to public full classes at this time. It isn't fair to the teachers, building staff or the children.
7/20/2020 18:18:42	Kaitlin	Morrow	Teacher in Olathe Public	Olathe	As an educator, I believe it is essential to have the additional 3 weeks to prepare for students. Going back early will be rushed and we will not be able to ensure student and staff safety. Please grant us the additional time to prepare adequately. Lives depend on it.
7/20/2020 18:18:47	Melody	Robinson		Halstead	I think yes we should follow the governor's timeline for schools and the wearing of masks for all above age 5
7/20/2020 18:18:50	Jamie	Rowan	Teacher/Parent	Great Bend	I support the delay in order to prepare classrooms/schools as suggested by the KSDE.
7/20/2020 18:18:56	Megan	Blackburn		Clay Center	Teachers need this time. Please give them what they need to help keep kids safe and do an awesome job educating them.
7/20/2020 18:19:19	Rhonda	Ray		Hugoton	Please delay school opening until after Labor Day. Thank you.
7/20/2020 18:19:27	Suzanne	Gay	Blue valley school empl	Overland Park	In-person schools puts us all at risk. It's unfair to ask teachers and other school staff to risk our lives and the lives of our loved ones because that is "easier".
7/20/2020 18:19:31	Karla	Ruder	Private citizen	Plainville	I trust professional educators to provide a safe as possible environment for our students. Teachers should do what every other essential worker has been doing for months. Put a mask on and go to work
7/20/2020 18:19:42	Pamela	Thompson		Pittsburg	I am concerned as a special ed teacher that I work with a severe population of students who will not be able to wear a mask. How will I insure the safety of my students, 1:1 staff that are essential to the support of my students and myself if we return to school who the numbers are high. I am seriously considering taking the year off.
7/20/2020 18:19:55	Donna	MacKay		Douglass	Open the school. Kids are getting further behind.
7/20/2020 18:19:59	Whitney	Sandoval	SPED618	Wichita	As an educator and parent of school-aged kids, I support delaying the start of the school year. Ideally, we would use this time to develop solid remote/virtual learning platforms and lesson plans. Not only for students who choose to stay home but for the inevitable frequent absences of staff and students. I think it makes the most sense to create a curriculum that can be self paced by each individual student
7/20/2020 18:20:00	Karen	Burrows	USD 507 Satanta	Satanta	Delaying the start of the school year will give us needed time to understand the Navigating Change document and prepare for the coming school year. Our local cases are increasing right now, so it will also give us time to get the spread under control,
7/20/2020 18:20:05	Christine	Frederking	USD 331 teacher	Wichita	I urge you to approve the governor's EO. I wholeheartedly believe that she is doing the best thing for all of Kansas. As a teacher, I can tell you that I have yet to hear of a plan for my district which is very concerning in and of itself. I do believe a plan is being made, but having 3 extra weeks for teachers to adapt to that plan is of utter importance as it will literally help save lives by slowing the spread of the virus. I truly hope and pray that whenever we do return to school we don't learn that the virus wasn't prevalent in children because we moved children out of school buildings. However, I believe that is exactly what we are going to find- a rapid rise in cases in children because this will be the first time that many have been in an enclosed space (with severely outdated ventilation systems) with other children since the beginning of all of this in March. I'm urging you out of fear for the safety of my student's, families, and my health, approve the EO. I don't want to be forced out of education because the wrong decision is made.

7/20/2020 18:20:31	Brent	Davis	None	Overland Park	Let the kids have their lives back. They are missing out on so much that is important to growing up. Not only their education but their extracurricular activities, like debate, drama, sports, music and the arts. Also the personal interaction with classmates, adults and their teachers. They missed out on much last year and another year of missing out will be permanently damaging I'm afraid.
7/20/2020 18:20:35	Pamela	Callaway	Parent/Guardian	Topeka	Do NOT delay the school start dates...send KS kids back to school in August! KS government needs to stop messing with Kansas kids learning and futures. Where is the concern for the at risk kiddos in abusive homes, hungry and mental health issues—I see no concern for these issues!! No masks for children. Make the teachers wear masks! How many kids need to develop headaches or pass out from CO2 issues before you put the mask issue to bed?
7/20/2020 18:20:42	Zoe	Newton	Parent	Sedan	Please vote no. The science is clear that children are at least risk and are not super spreaders. We can and should protect our older teachers and children who have comorbidities that put them at high risk. The children learned almost nothing online and they are already behind -- poor rural children will suffer very badly and we may never catch up. The American Association of Pediatricians recommends that schools be opened for in person learning. We are very small in Chautauqua County. We don't have the challenges of other areas who have been hit hard -- we've had five cases here. Please allow our local school board to decide, with our community, what is best for our children. One size does not fit all.
7/20/2020 18:20:46	Aubrey	Kelly	Parent of Student and Sc	Olathe	I had a thought the other night. It may be a bit unorthodox, although I genuinely think it may help alleviate anxieties. I don't know how realistic this would be, but I will share my thoughts. We are living in a time of extreme uncertainty. I think most parents and educators can agree the last quarter of school was difficult. Children have been out of in person classes for 4 months and it will be hard to assess what they may have retained throughout these unprecedented times. What if we retained all students for the 20/21 school year. Having them repeat their grade remotely. Raise the age of kindergarten to 6. If parents have the resources for tutors or other outside sources to help their kiddos go on to the next grade, then that can be their personal choice if they have the means to do so. I don't see how, in the given circumstances, children can return to school safely. Much less get a valuable year of education in the coming year. If children repeated their grade, most educators would already be able to identify the children in their classrooms that may need more support. They will already have a rapport with parents and students. Possibly have teachers and paras reach out personally or go to those homes to make sure the families have the resources they need. There are many programs for new moms or children on state insurance; where nurses, health educators, or advocates come for in home visits monthly. Curious if something like that could be implemented within the education system. I understand it would take a lot of work to implement a plan that resembles this. Although, it could help alleviate the stress of parents and students alike. Teachers are brilliant and resilient; I'm sure they could expand beautifully on this concept. The course work wouldn't be too difficult for students and parents that don't have the means to help support ongoing new curriculums. I'm assured they would feel better about facilitating learning for their children. Grandparents, neighbors, or general support people within parents and students lives would feel a lot more comfortable in helping "teach" these lessons if parents are unable to do to work. I could expand more on how this could be beneficial to society as a whole, but I prefer not to write a novella at the moment! I would also genuinely love to see universal pre-k as well. There is a myriad of ways this would be beneficial. I think it would be an extraordinary investment for our future. It would help identify students that may need extra supports and
7/20/2020 18:20:48	Opal	Ewbank		Parsons, ks	I think having a child ware a mask all day long is alot. Im a housekeeper at a hospital and its hard to ware one all day long. Kids that have breathing problems will have a hard time too. My son is autistic and he don't understand why he needs to ware a mask all day long. It be real hard for him.
7/20/2020 18:20:57	Misty	Lambeth	Olathe	Olathe	No in school until COVID cases are going down.
7/20/2020 18:21:15	Chelsea	Gates		Eureka	Delaying the start of school is taking measures to help keep our children and teachers safe.
7/20/2020 18:21:26	Jennifer	Owens	Teach	Olathe	Please vote to keep school closed until after Labor Day. Keep students and teachers safe.

7/20/2020 18:21:33	Shannon	Hale	My family	Columbus	With very few cases in Cherokee County, I truly hope that our schools reopen on time. It is extremely necessary and imperative that our children have in class instruction. The benefits, from social interaction alone are extremely important for their development. So much has been taken from these kids already, I hope and pray that you choose to allow our kids back in the classroom soon. Their teachers need them and they need their teachers. As for the masks being required. I completed understand the importance of wearing them to keep this virus from spreading. However, as the mother of an almost 6 year old boy, I can unfortunately assure you that in lower grades, the masks will do very little to stop any spread in the schools and classrooms. If/ when they keep them on, it will not be for long and they will be more of a distraction than anything. Thank you for your time. I know the decision you have ahead of you is not an easy one.
7/20/2020 18:21:47	Kelli	Baucom	School Counselor	Olathe	Please uphold the executive order and give us more time. More time to keep our students, staff and stakeholders safe. We are experiencing record numbers of cases in Kansas right now and we need to get control of this to the extent that we can. Covid-19 is a novel virus so information is changing on at least a daily basis. A new study out of Korea today indicated that our middle and high school students are able to spread this virus very efficiently. Let's please be able when this passes be able to look back and know that we made decisions to protect Kansas students, educators, support staff and families.
7/20/2020 18:22:04	Leah	Scott		Everest	Please open schools as soon as possible. No delay. Our kids are ready to be back in school and I feel as a parent it is safe enough.
7/20/2020 18:22:09	Crystal	Moore	Usd 348	Baldwin City	Please just give us a remote learning option and don't force us to risk our children's and teacher's lives as an experiment during this pandemic!
7/20/2020 18:22:12	Dana	Schmelzle	Parent	Seneca	Open the schools on time don't require mask most of these schools are checking temperatures and washing hands and that should be fine the governor making this political and retaliating and bawling around over people not wearing masks she should be ousted
7/20/2020 18:22:18	Shelli	Burrows	Parent	Rolla	I feel that schools with low COVID-19 cases in there town should get to open up as planned. If the district feels it is safe to open then they should be able to open sooner.
7/20/2020 18:22:25	Christine	Vohs	Olathe School District	Olathe	I support the governors order to postpone to Labor Day. We are absolutely unprepared to start with all of the restrictions that need to be considered. I teach Kindergarten, which is going be even more challenging, in light of the things we need to do to be adequately prepared. PLEASE consider the mental wellbeing of the people you are asking to be prepared to do the work. Stress DOES impact our ability to be effective instructors. It DOES impact our families. It DOES impact our mental health. This year will be hard enough without starting at an emotional deficit. Allowing us to be prepared is also in the best interest of our students, as it will hopefully, limit the number of times we have to start and stop in person instruction. Please do not make this a political battle but consider what is truly best in a highly unusual situation. Thank you!!
7/20/2020 18:22:49	Jenny	Burrus	Wichita 259	Wichita	If we delay the start of school I am asking you all to lessen the required hours needed for this school year. Many of us already have plans and things booked late May/early June. I do not want teachers and students to have to go weeks later because of required hours. Kansas is one of the highest hours required for schools anyway.
7/20/2020 18:22:58	Ladonna	Stewart	Satanta schools	Satanta	I dont think we should delay it. The kids are behind already and i believe they shouldnt have to wear mask cause i feel like it will expose them more cause they will be touching their faces and they are uncomfortable and sports should be able to go on as usual
7/20/2020 18:23:12	Kendra	Temaat	USD 491	Lenexa, KS	As a music teacher in an elementary school of almost 900 students, the extra time that Governor Kelly is giving us to prepare for the coming school year is imperative. The lives of my students are too important. Forcing us back into the school buildings before it is safe puts my students in danger. We need the time to create and implement ways to keep them safe. This global pandemic is uncharted territory. If we start school too early, we are destined to fail and have a full shut down again, which would have an extremely negative impact on our economy. Please help us keep our students and staff safe. Please support the mandate to give us extra time.

					<p>There are many more cases of COVID-19 now than when we shut down schools in March. The numbers of those infected continues to rise. It would be illogical to send children back for face-to-face instruction given the current data and could lead to more cases among teachers and staff members. Imagine how community spread might affect entire school districts, towns, or countries all through the interaction of children. It just doesn't make sense.</p> <p>To throw the decision on starting times back to individual districts is irresponsible. This is especially difficult for folks who live in one district and teach in another. Doing the "right thing" may mean that the safety of children will have take precedence over the desires of some of your constituents. Please consider the lasting effect this will have upon communities and how your actions will show educators where your true priorities lie.</p>
7/20/2020 18:23:13	David	Row		Mission	Please follow the governor's lead and delay the start of school until at least September 9th.
7/20/2020 18:23:23	Kelly	Peters	Beloit High School	Jewell	Please allow local school districts to start on time with the schedules they voted on in the spring. Thanks.
7/20/2020 18:23:25	Sonia	Matson	Blue Valley School Dist	Olathe	I have been a teacher in Blue Valley for 21 years. I love what I do. I have a 2 teenage kids and a 75 year old mother who lives with us. It is not safe to go back to face to face instruction. There is no way I can do what I love to do effectively with all of the guidelines that would need to be met. I taught online for 4th quarter and was able to put out very well structured lessons. Students learned and were eager to participate . The online option until we can flatten our curve is what students and staff deserve. We should be asked to chose between our health, the health of our family and students and our jobs. With all of the precautions that would have to be put in place, I think it would be impossible to keep students from wanting to be in close proximity because that is human nature. Teachers are not nurses and should be required to provide health services to students. There are too many what ifs at this point. Online is safest for everyone.
7/20/2020 18:23:43	Lauren	Kelly	My Children	Olathe	I feel a hybrid opening of schools on the normal schedule should be allowed. If some parents want to do online, great, if some wish to send them in person, also great. With the additional safety and health mandates Governor Kelly is implementing, please let our kids return to school as normally scheduled. At least K-4...as those are the ones who apparently do not spread the virus like adults...based on the South Korea study the Governor mentioned.
7/20/2020 18:23:48	Katie	Ellena	USD 501	Lawrence	Please vote yes to delay the school year. The more time we have to prepare the safer environment we will be able to provide for our students as they are always our top priority.
7/20/2020 18:23:56	Rachael	Cox		Manhattan, Kansas	Please keep schools closed until after Labor Day. Our school districts need the time to prepare to keep students and teachers safe.
7/20/2020 18:23:58	Susan	Blubaugh	Buhler USD 313	Rural Harvey county on	Please support Governor Kelly. We need the time to prepare. I am retirement age with health problems
7/20/2020 18:24:02	Traci	Bruggeman	USD 316 Golden Plauns	Selden	Please do NOT delay the start of our schools, our kids need us now!!
7/20/2020 18:24:04	Amber	Pagan	Shawnee Mission Schoo	Gardner	As a parent and teacher I would like to wait to go back to school until September because hopefully we will be able to lower our COVID numbers. I would like to be back with my students in person and my kids want to be back with their friends. We have been working on keeping masks on all summer and my going to be 1st grader still struggles with keeping his mask over his mouth and nose. I do not like to live in fear, but it is a little scary. I have gone to community testing twice and tested negative both times. I believe that waiting until September 9th will give school districts the time they need to start successfully. My dad recently had a brain bleed and is in rehab, so he falls into the high risk group. I will have to start limiting my visits to weekends only. Thank you for taking the time to listen.
7/20/2020 18:24:10	Dina	Parent	Teacher	Weir	I am fully supportive of Gov. Kelly's delayed school starting date. I believe this is in best interests of safety for students and staff. Districts just received the Navigating Change document last week!! This time is needed to make buildings safe, and allow teachers to plan multiple models of instruction., so that we can start school in person and stay that way.
7/20/2020 18:24:34	Robin	Bergkamp	Self	Garden City	Please get our children back to school iin August with as much normalcy as possible.

7/20/2020 18:24:35	Casey	Graves		Rossville	<p>I'm asking that you please allow our children back in school. They need the structure, interaction and education. I would also ask that masks not be required. It's going to be unsanitary. Children will not leave them on, won't properly wear them, will sneeze in them, trade with friends, drop on the dirty floors, etc. I also believe we are killing children's immune systems by doing everything that's been proposed for sanitation. Washing hands and sneezing in elbow has worked just fine thus far. There are also many children that NEED the school. Their home lives are not ideal. There will be way more lasting effects on our youth if they're locked up in front of a computer screen to virtual learn, which in my opinion will never work. It's simply not the same. Let these schools have a choice. Let the parents have a choice in how their children are educated. That is our God given right here in the USA.</p> <p>Thank you, Casey</p>
7/20/2020 18:24:51	Gerald	Gullion	The kids	Chapman	This delay of opening our schools is politics, plain and simple, stop making our kids suffer because of your political agenda Governor Kelly.
7/20/2020 18:24:51	Karen	Wilson		Hays	Please consider approving the governor's order to delay the start of school. This will allow districts the time needed to delve into the Navigating Change document and create plans that are best for their district. This is a wonderful opportunity for schools to create well thought plans that address the needs of students and staff. Let Kansas schools once again pave the way and be examples of what education should look like when addressing the health and well-being of our children. Please vote to accept the governor's executive order to delay the opening of school.
7/20/2020 18:24:53	Jena	Brunswick	Self	Scott City	<p>Governor Kelly,</p> <p>Please reconsider this decision. A one size fits all does not work in our state. Some rural areas have very low case counts and very small class sizes. We can no longer delay the emotional and educational well being of Kansas youth. There are many options that could be used to get our students safely back to school and activities. I expected you to exhaust every, single option available to return to school. Zero options have been utilized to get our children back in the classroom and back to activities. We have had ample time to prepare and gather supplies. We have had ample time to implement a plan. I view this situation as a 100 percent failure. Our youth are suffering at the hands of politics. I expect everyone to work together to put differences aside and figure out a plan that makes our Kansas students and athletes mental health, physical health and education a priority by returning them to the class room and activities as scheduled with safe, responsible measures put in place. You can do better, we can do better and Kansas can do better.</p>
7/20/2020 18:24:55	Terry	Smith	Parent/ teacher/ coach	Emporia	As KSHSAA will follow your lead, I would like to see close contact, and direct contact well defined and not open to interpretation. I am very much in favor of reopening schools and sports, however with a level playing field for all Kansas schools. What worries me is some may interpret close contact or direct contact differently. Thanks for the opportunity to share my thoughts.

7/20/2020 18:25:12	Sarah	Haar		Cheney	Please let local districts make decisions for themselves. Do not decide a one size fits all model for any aspect of dealing with COVID. You don't expect students to learn and teachers to teach by that model, so don't apply it in this instance either. We have had minimal exposure in our district and don't deserve to be blanketed in with hot spots and other cities within our county that are showing high numbers. The mental health of my young children is suffering. My 10 year old openly talks about being depressed. My 6 year old asks if she can go to school every day because that's where she is happy. I understand kids need to stay safe and so do teachers. But, I also believe that we can effectively keep everyone safe while attending in person classes. Pushing back school isn't going to change anything. Except maybe allow more families to go on vacations. That's what I've been listening too- families excited that they have time to get in one more trip. Keeping kids on a normal school schedule also keeps families in town and back on a schedule where they are less likely to get out and do things. Kids here are still out playing together, doing normal summer activities. School actually slows them down and limits the time they have to go do other things. Please, do not make a one size fits all decision. Encourage schools to open safely on their terms.
7/20/2020 18:25:12	Charity	Bathurst	Abilene High School	Abilene	We need to start school. It will leave room in our schedule for un foreseen circumstances later. Kids are ready. Allow our local district the opportunity to facilitate a learning plan that best fits the needs and health of our community. I am a high school teacher. Although I wouldn't mind more time to plan, there will never be enough time. It is better to begin and get everyone back into their routines. I am willing to sacrifice planning time.
7/20/2020 18:25:40	Jamie	Mcintyre		Liberal, KS	I think we should wait until after Labor Day to start!
7/20/2020 18:25:40	Mary	Olin	Public school teacher an	El Dorado	I reside in El Dorado, but teach in Andover. My oldest 2 children (7 year old twins) attend school in Andover. I am very much in favor of EO 2058 and 2059. It would be of great detriment to our students and educators to open schools when COVID cases are rising exponentially in our area and state.
7/20/2020 18:26:02	Jennifer	Britt	USD 385 Andover Public	Wichita	I am a 1st grade teacher and I am very concerned and worried about starting the school year in-person due to COVID numbers spiking in our area. Please consider passing our Governor's executive order to delay the start of schools to give our districts more time to dig into KSDE's recommendations so we can safely start the school year. Thank you for your time and consideration.
7/20/2020 18:26:12	Brandon	BECKMAN	Hoxie grade school and	Hoxie	Do not delay the start of school, the kids have been hurt enough through this pandemic that is nothing more than a political scam to hurt our great president. TRUMP 2020
7/20/2020 18:26:15	Graham	Rees		Olathe	Please support the order. As a parent of school aged children more time is needed to ensure decisions for their safety.
7/20/2020 18:26:18	Staci	Hobson-Birnell	KCKPS 500	Kansas City, KS. Wyand	I fully support order 2058.
7/20/2020 18:26:23	Jason	Cooper	None	Topeka	K-12 students need to get back immediately. These students will need all the help they can get this year. They need every day given to them, to offset the lack of schooling last year. If they cannot start before Labor Day, then the days missed need to be added to the end of the school year in May/June. No matter what happens in May/June the days will be completed.
7/20/2020 18:26:25	Jennifer	Mowdy	Frontenac USD249	Pittsburg	As a teacher and a parent, I firmly believe that the delayed school start date is undeniably necessary to give our districts and educators the time needed to properly prepare for the enormous task of educating our children while keeping them and our teachers and staff safe and protected. This is a monumental undertaking, and if we are fighting against an August deadline (around 20 days for my district) then I'm deathly afraid that shortcuts will have to be taken, alternate solutions won't be discovered, and vital safety supplies will not arrive in time, all to the ultimate detriment of our innocent students, dedicated teachers, and hard-working staff. Please. Give us the time we all need to make necessary changes to an institution that has not been changed in a hundred years. We all work miracles every day, but we need a little help with this one. None of us want to die or bury our students because a few extra weeks were just too much to ask for. Thank you.
7/20/2020 18:26:40	Taryn	Tyler	Teacher	Shawnee	Please look at local health records and see that our COVID case numbers are way too high to open right now. If board meetings can't even be held in person as a large group, then schools SHOULD NOT open in August. As long as KS is considered a red zone then we need to delay or be strictly virtual.
7/20/2020 18:26:42	Christine	Campbell	Self	Overland Park	Thank you! I think this is a good decision. Now we need the community to do their part to help stop the spread.

7/20/2020 18:26:45	Mallory	Case		Manhattan	Please follow the executive order of delaying schools. I am a physical educator who sees over 400 kids in one week. I am scared for my safety and my family's safety. The delay will allow us to watch as other states begin school to see if it is safe. It will also give coronavirus in Kansas time to leave. Please show teachers that you care about them and follow the delay.
7/20/2020 18:27:20	Krista	Mealman		Spring Hill	please vote no to delaying school. And if we delay find a way to allow for all the sports, clubs, activities, open houses etc to take place during that time.
7/20/2020 18:27:34	Mary	Harrison	usd 259: Wichita West	Wichita	delay then open virtually- stay virtual until vaccine
7/20/2020 18:27:40	Misty	Wrwn	High school teacher	Hugoton	Please, please support the governor.
7/20/2020 18:27:43	Mindy	Curry	Colby Schools	Colby	Please start school on scheduled start date in August.
7/20/2020 18:27:44	Rochelle	Walsh	Self	Topeka	Please start school as quickly and normally as possible. It is good for the kids. It is good for our community!
7/20/2020 18:27:59	Hannah	Carlson	USD 450 Shawnee Heights	Topeka	Please delay the start of school so that teachers have time to adjust to new teaching styles, again. We also need time to get supplies for a safe return like hand sanitizer, thermometers, masks, etc. I am a pregnant teacher and the wife of a Covid nurse. I do not want to expose anyone and I do not want to be exposed especially since I am high risk. One death of a teacher or family member of a student is not worth it at all.
7/20/2020 18:28:02	Ress	Vocler		Frontenac	NO MASK MANDATES! It is unhealthy for kids to rebreath their own air all day!
7/20/2020 18:28:16	Ryan	Lacen	Usd 493 school board	Columbus	Please do not pass either of her orders. I think we can take them as recommendations and decide at the local level. Mask should be a choice. Do Not delay school let us get as many days in before the flu season hits !!!!!
7/20/2020 18:28:22	Jeff	Auslander		Overland Park	Please follow the guidance of the American Pediatric Association that kids need to be back in school. My 4 kids do!! Please send them back in August too!
7/20/2020 18:28:22	Kori	Lopez		Cimarron	Please do not approve the executive order. Instead, allow local districts and their communities to work together for what is in their best interest.
7/20/2020 18:28:35	Jessica	Schultz		Bonner Springs	Schools should be open. It will hurt students more to not be able to attend a secure place than covid will ever hurt them.
7/20/2020 18:28:59	Teresa	Pearson		Ottawa	Just make a decision that all of Kansas is on the same page....
7/20/2020 18:29:00	Sarah	Reeder		Overland Park	I do not believe it is necessary to keep students out of school through Labor Day. The CDC, the Academy of Pediatrics, and many, many doctors have already voiced opposition to keep schools closed any longer. It is time to let our kids regain their educational opportunities and take care of our most vulnerable students who are without necessary technology and parental support to thrive in a home learning environment.
7/20/2020 18:29:06	Kaitlin	Loud	Blue Valley	Olathe	I strongly believe that this executive order is in the best interest of staff and students. However, as a special education teacher to students with significant disabilities, I honestly believe that these students should start school before their general education peers in order for us teachers to prepare them for what this new school atmosphere will look like, and allow teachers to collect data to see where these students are currently functioning. This will also allow teachers to create plans that will better support student needs for the upcoming year.
7/20/2020 18:29:10	Sarah	Rogers		Wichita	Please support Governor Kelly's order. This will allow staff time to prepare and to do the BEST job possible of protecting students and themselves when students return to buildings. I am a teacher and I want very much to see my students and teach in person, but NOT at the expense of anyone's life.
7/20/2020 18:29:13	Christine	O'Loughlin	Teacher at HHS	Hugoton, KS	One size does not fit all. The ordering of masks, temp. checks daily for all entering the building (ages 5 and above) should be given to each Local BOE to decide....some counties have zero to 40 cases total since the beginning....we should entrust our locally elected boards -- guided by the county health depts. to determine what is best for our individual districts.
7/20/2020 18:29:26	Carly	Begley	USD 268	Pretty Prairie	I think starting after the Holiday would help districts save a significant amount of money. I would hope that if we wait that we can return F2F with less drastic measures.
7/20/2020 18:29:26	Steve	Combrink		Columbus	It's pretty clear the governor's decision to delay is more political than anything else. Schools are ready, kids are ready, open the schools. At least leave it up to the districts.
7/20/2020 18:29:31	Jamie	Esser	Parent	Olathe	Please uphold governor Kelly's order
7/20/2020 18:29:43	Teresa	Hogan	Blue Valley School District	Overland Park	Please keep in mind the safety, health, and life of each school member. If we suffer loss of life for ANY students, teachers, support staff, office staff, ANYONE, it's too great a loss. Please allow in person schooling to wait until the virus is better contained. Right now, I don't even want to leave my home.

7/20/2020 18:29:51	Sarah	Butler	Self (teacher)	Macksville	Teachers/administrators need a little time to come up with plans to follow new mandates and guidelines, but not 3 weeks. Students have been socializing and participating in activities all summer. They don't need more time away. 6 months is going to leave a major gap to cover.
7/20/2020 18:30:03	Todd	Lacen	Parent	Columbus	Please do not delay school let get more days in before winter. We should have a choice on masks Pediatricians do not recommend it. Our teacher will have to focus on masks not in teaching.
7/20/2020 18:30:13	Linda	Graham	Yes, delay	Pittsburg	Yes
7/20/2020 18:30:24	John	Brennaman	citizens of garden city	garden city	start school on time nothing going to change in one month
7/20/2020 18:30:24	Brenda	Thompson		Gardner,KS	Open the public schools with no limitations and include all sports and activities
7/20/2020 18:30:33	Shelley	Colby	Grandparent	Andover/wichita	Open the schools for our children.
7/20/2020 18:30:34	Amanda	Lanning	Parent	Colby	Please allow kids to return to school as previously set.
7/20/2020 18:30:46	Kyleigh	Hamlin	I work for USD #257	Humboldt/Iola	I do not agree with making children wear masks in school, other precautions can be taken but these kids need as much normalcy as they can get. This craziness shouldn't be brought to schools. Wash their hands, put plexiglass between them, etc. but forcing them to wear masks for 8 hours a day is unacceptable!
7/20/2020 18:30:47	Alicia	Meyers	Parent in Blue Valley Sc	Overland Park	I am in favor of in person learning. My children need to be back in school- for their social and mental health. Virtual Learning was an epic fail at our house this past spring. I think it's important for class families to be formed and kids to be comfortable before any type of necessary online learning occurs.
7/20/2020 18:31:09	Diane	Petrella		Leawood	Please open schools and let kids play sports! School last spring was a joke- all five of my kids have fallen behind- my husband and I work full time and cannot homeschool. With such a small percentage of people effected by this virus in this area, it does not make sense to lock our kids at home.
7/20/2020 18:31:13	Tara	Barnes		Overland Park	The schools are not safe to open at this time. Please follow the recommendations of Governor Kelly.
7/20/2020 18:31:29	Beth	Baldwin	Teacher with Shawnee H	Berryton	Please approve the executive order. Covid 19 needs to be trending down, not up, in order to safely open schools. If we are going to distance education, teachers need time to prepare and do it well. If we are in person, schools need time to purchase PPE and other ways to protect students and staff, including sufficient sanitizer, plexiglass etc. As more data on the effects of Covid 19 on children is released, we know that children can get and transmit the virus. It would be irresponsible to start school in person too soon. Please approve the executive order and delay school starting until September 8.
7/20/2020 18:31:39	Justin	Thompson		GARDNER	open the johnson County public schools! No masks! Have sports and activities!
7/20/2020 18:31:53	Patricia	Cooper	Teachers & Parents	Wichita	School is an ESSENTIAL service. Kids must be in school. Teachers : you've watched all your neighbors & friends go to work this whole time- at Dillons, Wal-Mart, Home Depot, & your favorite restaurants. Guess what? WE'RE FINE. Let families start up their lives again! REJECT the order to wait til September! Mandatory Masks for adults only.
7/20/2020 18:31:53	Susan	Hall	USD 408	Marion	I support Govenor Kelly's mandate to begin school following Labor Day. Since the document published last week, I've spent hours simply reading through my grade band and the safety protocols. We as educators need time to design how we are going to implement the plan as well as prepare for the unknowns that the virus continues to display daily. Right now procuring the necessary PPE in order to keep our staff and children safe is taking more time due to shortages. (Plexiglass etc) I want to teach. I missed being with my students in the spring however I want my students and my family as well as myself to feel that least we are prepared. Those three weeks are necessary to put all of the plans into place. We spent a great deal of the summer in limbo waiting for this document to be presented to us. Now that it here, time to digest and work with our colleagues is vital.
7/20/2020 18:31:54	Steven	Granzow	Self	Lincoln, Ks	Open up Kansas schools without restrictions or conditions!
7/20/2020 18:32:04	Jessica	Schneider		Osawatomic	Please vote to approve executive order 20-58. With the number of Covid-19 cases increasing in our state, each school needs time to organize safety and health procedures. This additional time will benefit school's in the long run. Also, this time can be used to make a seamless transition to both in person and remote learning for this school year. Consider not only the student's health, but also staff, faculty, administration and families of each child. With increased contact, the spread of this virus is inevitable. Thank you for your consideration.

					<p>I am troubled by Governor Kelly's impending executive order to delay the start of the school year for Kansas schools. Although the schools have many extra logistical challenges and considerations this year, they have had four months to contemplate these and prepare. Ultimately, as Kansas has such varied communities state-wide (in regards to population and also COVID-19 spread), decisions about when and how schools will convene should be made at a local level.</p> <p>I respectfully request that you consider my concerns and prevent this executive order from moving forward.</p>
7/20/2020 18:32:06	Michelle	Fees		Overland Park	Thank you for your time and for serving us Kansans during this very tumultuous time. I appreciate that it's a tough job!
7/20/2020 18:32:09	Robbie	Strahm		Baldwin City	<p>I am thankful for the leadership of Governor Kelly in the decision to delay the opening of K-12 schools in KS. The decision to put safety first for children, parents, families, staff, and the community at large is extremely important. This isn't a decision that should come down to political affiliation, but rather the science and research. This virus is too new to fully understand how to protect our children and school staff in a full time, indoor environment. We need more time to assess how the opening of school may affect the spread of the virus and to prepare and evaluate the best way to move forward safely. As a grandparent, retired nurse practitioner, and Kansas community member, I believe that unnecessarily putting children, families, and teachers at risk during a deadly pandemic is unconscionable. Teachers miss their students. Students miss their classmates and teachers. We all miss our lives before this pandemic, but we don't want to lose them forever. This delay is temporary. Death is permanent. Please support Governor Kelly's executive order to delay the opening of K-12 schools until after Labor Day.</p>
7/20/2020 18:32:59	Andrew	Owens		Olathe	Not opening schools until covid cases are under control is a smart idea, it all schools will have the materials to open safely. All teachers, staff, and students are at risk of getting covid and passing it to others, there are too many questions to be asked if 1 student or adult tests positive for covid. Will the entire school need to be tested? Will it only be a class room getting tested? Who will be responsible to administering tests? There is not a solid plan for what will happen if something happens at this time. After a plan comes out for how to respond to positive covid tests then we can think about going back to school because if we do open, there will be students and teachers testing positive
7/20/2020 18:33:24	Nicole	Miller	Teacher	Olathe	I support the delaying of the school year.
7/20/2020 18:33:27	Brandon	Booi	Colby Public Schools	Colby	Please Open schools now!! Our children are ready and so are the teachers! One size does not fit all. Colby is a small rural community. It is time!!
7/20/2020 18:33:43	Jerrett	Strube		Eudora	The governor's order should stand. The health and safety of students, teachers, and their families are at risk. This is not a local problem, this is a global problem. In the absence of national leadership, it is up to you as our ejected officials to lead the state and affirm Governor Kelly's executive order.
7/20/2020 18:33:46	Joy	Eakins	Parent/Data Analyst	Wichita	<p>Board Members - I have extensively studied the data around COVID spikes in Kansas and you can view it at our website <a href="http://www.cornerstonedata.com/ourwork.aspx">www.cornerstonedata.com/ourwork.aspx</a>. In our review, very few counties are increasing at any kind of alarming rate - and this Exec Order will unfairly hinder those counties who are not growing or who have already had the largest growth and moved on (Ford, Finney). Kansas' numbers are not like Texas, Florida, California - nothing like those. Our LOCAL boards and commissioners have the ability to make the necessary decisions for us, and I urge you to allow our students to return to classes.</p> <p>As a parent of a rising Senior - he is competing with students around the country for spots in one of our Service Academies. He already lost 9 weeks of education last year, please do not force him to lose another month or more. The price our students will pay for the loss of education - particularly our most vulnerable - will be difficult to overcome. Please let local boards and commissioners make the decisions we elected them to make.</p> <p>Thank you - Joy Eakins</p>

7/20/2020 18:33:52	Matthew	Ricketts		Olathe	Approve Governor Kelly's executive order. We have more cases of COVID 19 now than we did in March, and extra time can potentially help flatten the curve and provide districts more time to put systems in place based on the Learning Plan approved for this school year.
7/20/2020 18:34:22	Michelle	Tribbey	Parents	Overland Park	Please please get these kids back to school IN PERSON. Sept 8th will be almost 6 months of no meaningful education. How can we tolerate this? My kids are supposed to sit for the ACT this year. Not to mention the toll the isolation has taken on their mental health. I know there are two sides. So give us two option. In person if you prefer, online if you don't. The virus won't be leaving soon, lets learn to perservere with it.
7/20/2020 18:34:24	Emily	Anders		Olathe	It is time to get our kids back in school. They've already suffered so much from being abruptly taken out last year, losing community, sports and education. Online school should be an option for those who don't feel comfortable coming back. We shouldn't punish those of us who are ready. In Johnson county alone it's a 99.8% survival rate. HOW does that warrant keeping our kids out even longer? Children's mercy, AAP and so many more doctors have recommend kids be back in school. When we cancelled school in the spring it was to flatten the curve - we did that. Now we have to stay in and not do life until it's gone? Kelly keeps pushing the target goal back and it's making our head spin. How do we know if we allow her to push school back, that she won't just close it all together? Please protect our children!!!
7/20/2020 18:34:28	Michelle	Leeker	Usd497	Wellsville	With the cases still on the rise, i support the delay of start of schools.
7/20/2020 18:34:40	Jada	Tubbs		Colby	Please do not delay anymore. Please do not require masks.
7/20/2020 18:34:46	Deidra	Haupt	Self	Scott City	Decisions to open and close schools should be decided by individual school districts. All health protocols should be determined locally.
7/20/2020 18:34:51	Matthew	Whitney	USD489	Hays	Our numbers in Hays are really beginning to grow with covid-19. Please, for the love of God, do not open school up until after we are ready to do so. Numbers need to be down and preferably nonexistent. Many of our teachers in our school district are over the age of 50 and have health issues. Please do the right thing and help protect students, teachers and parent's lives.
7/20/2020 18:34:54	Sheila	Krohe		Topeka	I am 100% in support of the delay in starting schools for this school year. Please vote to keep our kids safe and in support of the KSDE guidelines already given.
7/20/2020 18:34:55	Amanda	Rhodes		Kansas City USD 204	It is unsafe to open schools! Teachers will be exposed and possibly infected and then take it home to their families. Unacceptable. I support Gov. Kelly's order to delay the opening of schools
7/20/2020 18:34:56	Patricia	Cooper	Teachers & Parents	Wichita	School is an ESSENTIAL service. Kids must be in school. Teachers : you've watched all your neighbors & friends go to work this whole time- at Dillons, Wal-Mart, Home Depot, & your favorite restaurants. Guess what? WE'RE FINE. Let families start up their lives again! REJECT the order to wait til September! Mandatory Masks for adults only.
7/20/2020 18:35:29	Heather	Grimsley		Overland Park	Support Gov. Kelly's mandate delaying the start of school. Our children and staff should not be in mass gatherings while the number of Covid cases & test positives is increasing. Protect our students and teachers instead of making this political. Covid is real and dangerous, even if you don't know someone who has it. Listen to Dr. Norman and others (KCMO has gone virtual for the fall due to KC health department recommendation) in the medical field.
7/20/2020 18:35:30	Jami	Cole		Overland Park	I don't understand the downside of allowing school districts to have more time to prepare to educate our children and keep them safe. If you are on the BOE I would assume education is important to you. When you rush the school districts your actions are in direct opposition to that mission to educate our kids. Please give these districts more time and pass the governor's order. Thank you.
7/20/2020 18:35:46	Dana	Byers		Lindsborg	Let each district set when and how they will open schools. Please over turn the governor's executive order.
7/20/2020 18:35:52	Brenda	Bergman	USD380	Vermillion	Delaying school is only a temporary fix that will shorten and destroy the semester. Start as soon as possible and if needed then keep the kids and staff home in December. Do what's best for kids!
7/20/2020 18:36:00	Julia	Schomacker	USD 259	Cheney	Delaying the beginning of school makes sense. Numbers are higher now than they were in March. Numbers are continuing to rise and people still aren't taking precautions. It worries me that my kids and I will be at risk by pushing schools to open. Students are not behind. They are doing fine. We need to take our time, do this right and continue to lead the nation in education the same way we did in March. Help teachers and students in Kansas stay healthy and safe.

7/20/2020 18:36:17	Autumn	Stone	USD 251	Attica	Start school on time. Do not delay my child's education and opportunities any further for this. Masks being mandated is ridiculous, how will young kids develop social and speech skills if they can't see lips and mouths.
7/20/2020 18:36:26	Brigham	Tiafau	Parent of children in K-	Olathe	I want my children back in school now. Enough of this nonsense. We were told from the beginning that we will shut down to flatten the curve. We did that so why are we still shut down? I don't trust Governor Kelly anymore because I think it's political now. Have some Balls, will ya? Look at what the Board of Education of Orange County, California did today. They chose to override their governor executive order and voted to return to regular school schedule without masks. They did this after doing a study in which they were able to make up their minds with courage and faith like we always did. I encourage you to look at what they did. Also, look at what happened to the N1H1 pandemic. How many deaths were reported then and we were not lock down? Let the kids go back to their normal lives. They need it. We all need it. Have courage and not be held back because of fear mongering politicians. I'm sorry but I'm really pist.
7/20/2020 18:36:37	Jennifer	Schumaker		Gardner	Dear KS Board of Education members, Please uphold Governor Kelly's Executive Order issued Monday, July 20, that all Kansas schools delay their start until after Labor Day. Regardless of in person or remote learning, this delay will provide our schools and teachers much needed additional time to prepare for whatever scenario comes next. In addition, we hope a three week delay may support a downward trend in our state's positive cases of COVID-19. Families will also be able to utilize this time to prepare their homes for remote learning, gather a supply of much needed (and currently difficult to find) sanitizing products, procure multiple masks for their children that will be needed for in person learning, and continue to help children mentally and emotionally prepare for a new school reality. Once again, I urge you to support Governor Kelly's Executive Order regarding the delay of the school year until after Labor Day.  Thank you, Jennifer Schumaker
7/20/2020 18:36:43	Kristy	Woodworth		Wichita	NO Masks for students!! Especially elementary students. The disease spread will be much greater if you have students wearing masks. The students will continually be messing with their masks, increasing the spread of germs. Young children are often soft talkers---with a face covering, it will be even more difficult to understand them.
7/20/2020 18:37:00	Tracie	Holcomb		Topeka/Rossville	I am asking that you reject the governor's orders to delay school starting. This is not one size fits all and the decision needs to be Left up to the districts. These kids have been out of school for 6 months already. I teach in one district and my child attends in a different district. I have the resources and knowledge in place to safely bring my students back, I am not worried one bit about my daughters district. We are failing these kids and not just in academics. They are socially suffering. 3 weeks may not seem much longer, but tell that to the abused or neglected child at home. The Governor has repeatedly back tracked on her orders. What makes you think she will allow this in September? It's a district decision and needs to be that way. Again, I teach and I want to go back now. Thank you!
7/20/2020 18:37:04	Kim	Burgardt		Tecumseh	I fully support the delayed opening by Governor Kelly. Schools and teachers need time to prepare and gather the necessary supplies to open safely.
7/20/2020 18:37:17	Shawna	Cole	Usd 231	Olathe	Do the right thing, politics aside. Approve the order.
7/20/2020 18:37:33	Julie	Pasta	My family	Topeka	Please do not delay the opening of schools. Students need structure, friends, new things, movement, routine, non-parental mentors and many more things schools provide! Some even need food and a safe place to be where abuse is seen and documented. Covid spread is low among children and teens and guidelines can be put into place to keep things as safe as possible without hindering the nature development of a child. Death rates are very low in adults. Teachers do not need to be making out their wills in an effort to be dramatic. Essential workers have been working for months to provide our needs in the middle of the epidemic and education is essential! Thank you!
7/20/2020 18:37:36	Roger	Holthaus	Teacher	Centralia	Keep the schools open, I'm tired of Governor Kelly's politics

7/20/2020 18:37:37	Julie	Gadwood	Teacher, Olathe School	Olathe	This delay in starting the school year must be supported by the Board of Education. It gives districts time to be prepared with supplies for safety measures. It gives teachers more time for deep planning since the Navigating Change Educational Plan has been approved. Even more importantly, it protects lives! While children may or may not contract the virus the way adults do, they can still spread the virus to others in their schools, homes, and extracurricular activities. This delay allows for citizens to wear their masks to see if we can flatten the curve. This decision should not be made for political gain, but to protect all citizens. This virus is NOT a hoax. Please, support Governor Kelly's executive order to delay the opening of schools until after a Labor Day.
7/20/2020 18:37:39	Robert	Smith	Usd 210	Hugoton	Please don't deprive my son an education!!! No delays!!! They are already behind from this as it is! The result could impact them for years socially and academically!!!
7/20/2020 18:37:42	Fredrick	Utlaut	Usd204	Bonner Springs Ks	I support order 20-58
7/20/2020 18:37:47	Colleen	Zehr		Gardner	Thank you for taking into account the health of our staff and students by accepting the executive order. While I normally would say local control is necessary, the health of both entities as well as their families takes precedence. Saving even just one life makes the delay worth it! Please vote to accept the order.
7/20/2020 18:37:50	Coleena	Woods	Parent	Manhattan	Thank you! I would prefer school to start on time in room classes
7/20/2020 18:37:59	Kim	Heyse		Olathe	Delay opening until pandemic is under control
7/20/2020 18:38:15	Sarah	Arkell	Parent	Overland Park	Let local boards decide what's best for their districts because this sets a dangerous precedent going forward.
7/20/2020 18:38:17	Terri	Anderson		Burlington	USD #244 and I suspect many other school districts have been working really REALLY hard to prepare for the school year. USD 244 is ready to start on schedule. Please listen to your school board leaders of the districts and do not make this a political decision. Our kids need the structure of the classroom. Many will not get that at home.
7/20/2020 18:38:20	Amanda	Harcus	USD259	Wichita	I support the executive order to delay the start of schools.
7/20/2020 18:38:21	Jesse	Yarochowicz		Salina	Pushing back school until Labor Day allows for us teachers to prepare ourselves and our classrooms for all that is to come. We need extensive time with our administrators to prep.
7/20/2020 18:38:25	Mike	Rothwell	Blue Valley SCHOOLS	Stilwell	Our children need community an engagement to help adequately accelerate their academic and social learning. This happens in school. No one under the age of 40 has died in our county. They may get sick but they will rebound quickly. I am more concerned about the flu and mental health issues than Covid. This virus is very contagious but not sending kids to the hospital. If we stick with the plans of the Governor we will most likely choose a home school option. This will burden our family more but the mental and academic health of our kids is a much larger risk than this virus.
7/20/2020 18:38:55	Chrissi	Hurd	My school district	Lenexa	Please let the executive order stand and push school opening back until after Labor Day. We are still wildly unprepared to return to in person instruction safely. As a special education teacher, I especially concerned due to severe health concerns among my students as well as worried about providing the instruction they need in a safe manner. Please consider the negative impact reopening now could have on not just the students, but also on the teachers and staff working with them. We want to be the best we can for students. And right now, the best we can do is keep them safe and healthy at home.
7/20/2020 18:39:06	Nicole	Morrison	Teacher and Parent	Topeka	The start date for schools should not be delayed, especially if the schools are doing online learning! If schools in Kansas are NOT prepared at this point we have failed! School should start on time!
7/20/2020 18:39:08	Virginia	Buettgenbach	USD 259	Andover	Please for the sake of students, staff, and family members, please agree with the governor and delay school opening!!! Our life's matter! My 2nd year old with a weak immune system matters!! Please consider everyone's health and safety!

7/20/2020 18:39:39	Carrie	Blasi	Teacher and parent	Olathe	Please use data and facts to drive your decision. Districts and teachers need time to prepare for learning this fall in regards to the KSDE guidelines. Even one life lost is too many! While I would love to teach in person, I am terrified of the risks. As a kindergarten teacher, I need time to process and figure out how I will teach whether it be virtually or in person with so many restrictions. It will also give time to see how the covid cases pan out in the next few weeks. Please do not make this a political issue! Please also consider that many meetings are help virtually because of the risk but you are considering sending teachers and students for 7 hours a day into an indoor area with 20-25kids and 660 total. Please think about what's best for the health of everyone!
7/20/2020 18:39:46	Mark	Swanson	NA	Leawood, Kansas	I am against interfering in any way with a normal school year. Kids need to be in physical school and without distancing or masks. This is safe for teachers and for all the other adults who the kids spend time with. Meanwhile the psychological damage to children of distancing and mask wearing has to be avoided. I say this as a father of an 18 year old and a 20 year old.
7/20/2020 18:39:50	Jamie	McKee	Usd 462	Arkansas City , Ks	I have been without a pay check since May , along with other Paras who have been off as well in many school districts. We are only contracted for 9 months out of the year so starting in Aug is a huge blessing for us to receive. Paychecks again , we have asked if the governor gets this approved to start later do we start getting paid starting in August when our particular school WAS suppose to start or so we have to wait till we start to get paid after Labor Day. Will be able to file unemployment because we didn't start in August . I know a lot of single parents that would like to get back and get paid , being a para it's hard to find jobs that will hire you when you tell them it's just a summer job till school starts . So for the sake of these single parents I hope that you guys do not approve to wait till after Labor Day or at least let the schools start online and then after Labor Day transition back to the buildings . Thank You
7/20/2020 18:40:02	Abigail	Easter	None	Cheney	Please postpone schools until after labor day
7/20/2020 18:40:04	Nancy	Spohr	Myself	Clearwater	I am an educator and my answer is a full no. One thing you need to consider is that teachers are stuck in contracts and are being pulled around on a string by their employers. If they delay the start and require masks (both of Governor Kelly's mandates), I will need to resign from my job to homeschool my son with asthma. Yet I have be informed by a school board member that spoke with the superintendent that I am under contract and there could be consequences. So I am forced as a teacher to choose between my child's success in school and my career in a pandemic? Unbelievable!
7/20/2020 18:40:10	Cole	Kevin	School	Parsons	Please consider delaying school through the Labor Day weekend. It's critical to slow the spread, allow administrators and boards of education the time necessary to open in a safe, secure environment.
7/20/2020 18:40:10	Ronda	Southall		Olathe	I am requesting that you vote to open the schools on time in August. I have two middle school students that both have IEPs. This last quarter of school they were unable to get the services they needed per their IEPs. There is no plan to make up for missed services. The longer the schools are closed the further they will fall behind their peers in academics and social skills. My soon to be 8th grader has dyslexia and reads at a 2nd grade level. There is no reading instruction to help him develop reading skills in an online environment. I do not support masks in the classrooms as it will impede learning as much of learning is non-verbal communication. I am concerned that if we allow schools opening to be postponed to after Labor Day that it will be easier to push it further to the right as this virus isn't going away and the numbers will always seem to support not opening the school buildings. So many kids will miss out on education, social skills and IEP services if the start date continues to be moved. Parents will continue to struggle to work and provide care for their kids if they aren't in school. I am asking that schools open on time, many schools are providing both in person and online options, let parents decide what is best for their family and lets start school in August.
7/20/2020 18:40:11	Adam	Dean	USD 259	Wichita	School buildings need to stay closed until at least Labor Day. It is too risky to send a students and staff in this environment. We must bring down the COVID numbers before we can resume in-person learning. It's just that simple. My district (and many others) is doing a great job in preparing for multiple learning scenarios in keeping students and staff safe from COVID. I urge you to vote for and accept Gov. Kelly's executive order, so we can get our buildings safe again.
7/20/2020 18:40:13	Amy	Clement	Olathe School District	Olathe (where I teach, li	In person school should be delayed until there are no new cases in a county for 14 days. Thank you.
7/20/2020 18:40:16	Pamela	Kim	Parent.. Heritage Christi	Stilwell	Please do NOT delay school. Open as scheduled. Vote NO on Gov. Kelly's plan. Thank you!

7/20/2020 18:40:20	Elizabeth	Eyhorn		Wichita	Schools should remain closed until there has been a significant amount of time with no new cases. Schools have plenty of time to prepare quality virtual learning if they know that is the goal.
7/20/2020 18:40:21	Jenna	Rehmert	Mom looking out for her	Olathe	Please vote no and get these kids back to school! Science shows kids are not spreading this and the good outweighs the bad on getting them back to school. These kiddos deserve to learn and have their lives back to normal. Teaching them to live in fear is not the answer. There is a way to do this safely for all. Give the families that want their kids in school the opportunity to do so.
7/20/2020 18:40:24	Robert	Chestnut		Kansas City	Delaying the school year is detrimental to the students. They've shady missed out on so much.
7/20/2020 18:40:37	Heather	McClellan	Self	Olathe	Please keep schools closed for the safety of all - children and their families as well as teachers/school staff and their families.
7/20/2020 18:40:49	Amy	Kopp	parent and school board	Hiawatha	I strongly feel that we need to get kids back into our buildings. Our kids need school!! A "one size fits all" for the start day of all schools in Kansas does not make sense to me. Each district along with their county health officials are capable of making the best decisions for their individual school districts.
7/20/2020 18:40:52	Stacy	Wolf	USD 315 as a Teacher;	Oakley, KS	As both a parent of children in the USD 274-Oakley school district and a teacher in the USD- Colby school district, I recommend delaying the start of school until after Labor Day to help districts read, train and implement with the Navigation 2020 document.
7/20/2020 18:41:06	laura	Broeckelman		Overland Park	Only til Labor Day but open right after!
7/20/2020 18:41:24	Rachel	Martin	Parent	Abilene	PLEASE, I beg you, open the schools up in August at regular time. I have a preschool child who needs and wants to be in school. He is on a speech IEP and has had no services since March. We have been diligently working with him at home, but there's so much more he gets out of going to school and having face-to-face interaction with the teachers and the other students. Thankfully I have found him private lessons over the summer but those have ended and so without school starting until after Labor Day he will go almost another two months with no speech services. It may only be Preschool, but this is a critical time for him and early intervention is very important feel like we are missing out being at home and not at school. Also, I know a lot of children who have not been lucky to get intervention at home or special services like we have paid for private speech services and I can't imagine how badly they need to be in school. Daycare's, swimming pools, church camps all of those have been open and I feel like school is much more essential than any of those. From our standpoint, everyone is tired of isolating so the kids are going to get together whether they are at school or not. Again, please open up school in August and go against the governor. Thank you for your time.
7/20/2020 18:41:32	Trish	Courtney	Independent	Overbrook	Please don't open the schools. Our children's lives are not worth the risk
7/20/2020 18:41:37	Monica	Ediger		Olathe	Exempt private schools from this order.
7/20/2020 18:41:40	Halle	Connors		Independence	Please vote in favor of Governor Kelly's executive order. This is a delay, not a cancellation, which will give teachers adequate time to prepare lessons which are equitable for all students. We had to prepare for last Spring in a rush and, while we rose to the challenge, it was far from perfect. Please give us the time to perfect that system now. It would be a disservice to both teachers and students not to vote in favor of the executive order.
7/20/2020 18:41:42	Katie	Ryan		Overland Park	I think it is most respectful to teachers and students to start the school year after Labor Day. This gives the teachers more time to work on their curriculum for this unprecedented year. The students will benefit as well from having a better set of instructions ready. Lastly it will give us all an even more clear picture of COVID-19 cases.
7/20/2020 18:41:48	Haylee	Haynes	USD 320 Teacher	Wamego	I am a 3rd grade teacher. I desperately want kids to be in our classrooms 5 days a week as close to normal as possible (with the obvious precautions) starting on our ORIGINAL start date! (August 19th)
7/20/2020 18:41:52	Tanna	Smith	USD 241 school nurse,	Sharon Springs	We currently have zero cases in Wallace County. If we need to extend winter break like they are discussing, then we need to be in school right now. This decision needs to left up to local health officers and local school boards. We have met, we have a plan, we're ready to start school.
7/20/2020 18:41:57	Stefanie	Hurley		Overland Park	Please support Governor Kelly's Executive Order to delay the start of school until AFTER Labor Day!

7/20/2020 18:42:07	Eric	Eakins	My public school senior	Wichita	Schools have to be opened and fully functional on time. Activities too. I have a senior in public high school who needs to finish the year strong to achieve his life goals. Any person who tries to take that away from him will lose my vote and I will work for their opponents in the next election. Enough is enough. Quit hurting the kids to gain political power. I've paid my taxes and obeyed the law. I expect my representatives to represent me and my family. Protect the nursing homes. Let those afraid choose a plan B. Plan A is living our life and taking chances every day as always. If you really believe only one life would be saved you would lower the speed limit to 5 MPH but you don't really believe that. It's political, stop it.
7/20/2020 18:42:08	Erin	Colvin	Olathe USD 233	Olathe	I support the governors executive order during these unprecedented times.
7/20/2020 18:42:18	Sherry	Bosley-Bradford	Self. Grandma	Hutchinson	Good job Governor. Stay Strong
7/20/2020 18:42:24	Jennifer	Showman	Parent and teacher	Salina	Please delay the start of school. As a teacher we are not ready for students to enter the school. It is a matter of their safety as well as my safety and my family's safety. We don't have our cleaning products. We don't have our face shields. Schools are just not ready to start. Our county numbers are still increasing. It is not safe.
7/20/2020 18:42:27	Marie	Schuknecht		Overland Park OSD 233	I am for delaying the school year until after Labor Day and hope options for in person and online are available to meet the needs of various family needs.
7/20/2020 18:42:50	Laura	Mcglathlin	Kids in Cherokee co	Galena	Our kids have been going to summer school, summer weights, summer sports, with no masks. Putting school and sports off is ridiculous. Mandating masks and temperature checks will be a crazy task for our children and our teachers. It should be a choice. Parents who don't want to send their kids can keep them home. This is never going to work nor will it help.
7/20/2020 18:43:12	Lea	Finfera	Teacher	Lenexa	Please vote to delay opening of schools! As a teacher in Olathe, we are not prepared!!! I work in a Title 1 building and we won't have a single thing donated from parents. These parents sent their kids to school sick before Covid, so we need to be prepared.
7/20/2020 18:43:16	Shandi	Webster	USD 408	Hutchinson	Our students NEED to physically be in school Monday-Friday. They need consistency and structure to receive the quality education they deserve. Our families need students to be in class learning from our wonderful educators. Teachers can help custodial staff clean rooms daily to help with the spread of germs.
7/20/2020 18:43:20	Rebecca	Hayworth		Benton Whitewater	Please open schools with good hygiene practices and temperature checks, but no masks required (optional is fine). Do not close schools just because one person gets it. Minors in the data show very few hospitalizations and deaths. We do not close for the flu or for colds.
7/20/2020 18:44:23	Jenni	B	USD 428	Great Bend	Delaying the school start date changes absolutely nothing! This virus is not as deadly as they are making it out to be! It WILL NOT go away. You are delaying an immune response that needs to happen while it is still warm out and the sun is shining! This is when our immune systems are at their prime!! We all know deep down, this is a political response to a virus that has a higher survival rate than the annual influenza. Kids are THE LEAST effected by this. School needs to return on time and NORMAL!! There is NO reason for masks, social distancing, eating in classrooms, washing or sanitizing EVERY HOUR?? Anyone with half a brain knows that all they will get done is washing hands and yelling at kids about their masks which takes away from their learning!!! You can't tell me that kids won't "lose" their masks, mess with them all day, thus encouraging more germs to be spread. Just use common sense!! Take temps ONCE a day...that's it! These are OUR children!!! Please do not include them in this asinine political agenda!

7/20/2020 18:44:53	Athena	Hansen	N/A	Olathe KS	Failure to continue student education during the last quarter of the 19-20 school year was understandable as no one could have foreseen the situation we are currently facing as a global community. However, further delays in re-starting school in some fashion (online or otherwise) are putting our children at risk of educational delays and shortcomings beyond those already resulting from the early end of the previous school year. The only acceptable option is to provide some type of structured online learning opportunities for our children as an absolute minimum. Has this been considered? If anything, due to the delays from the spring early closure- school should be initiated earlier NOT later! There have been several months to prepare and plan for some type of online learning environment or other alternative so if this has not been the case I am extremely disappointed. I strongly urge you to think about the futures of our children who will now be further delayed in their education by additional delays. Keeping them out of school or failing to provide an online learning or other opportunity is irresponsible and unacceptable. Please consider this before you jeopardize our children's futures by delaying the start of school. Something must be done to educate these children and to make up for the deficiencies they are bound to face upon return to a formal educational program.
7/20/2020 18:44:58	Regina	Stevens	USD 500	KCMO	I teach in KCK and am concerned with returning to school with full classes. I have family members at risk, as well co-workers. Safety is priority. If we are having to quarantine every time someone is exposed we will get nothing accomplished. Online learning can work with certain expectations and protocols in place.
7/20/2020 18:45:02	Sam	Amburgey		WICHITA	Please follow the delay start to school as recommended by Laura Kelly. This will give schools adequate time to plan what school will look like this fall and put systems in place. I would appreciate it.---school counselor
7/20/2020 18:45:03	Samantha	Buchanan		Overland Park	As a teacher I feel we need to return to the classroom when we can do so safely. A decision this important cannot be left to the districts' discretion. Please approve the order to delay the start of school.
7/20/2020 18:45:10	Angelica	Morel		Wichita	The board of educators needs to push for schools to open on August 11 2020 as planned. Do Not Delay School Opening! If for some reason physical school opening is delay till September 2020, then online school opening needs to happen on August 11, till there is a physical school opening so students Do Not miss a day of school! Kids need to be in school, learning and socializing for the well being of our kids!
7/20/2020 18:45:11	Kara	Weigand		Olathe	Kansas schools should open as scheduled. All the mandates Gov. Kelly issues in EO 59 (masks, hands sanitized hourly, social distancing, arrival temperature checks) should be in place.
7/20/2020 18:45:16	Robin	Mussa	Parent	Pittsburg	Consideration should be given to a phased in plan that allows students and teachers to be safe. Virtual, BLENDED with smaller class sizes and A/B days and the a traditional schedule by Oct 1 if data dictates it's safe and proper safety measures can be implemented for all. Schools need to reopen and students need extra curricular activities.
7/20/2020 18:45:17	Kurt	Preisser	Usd 332	Cunningham	Strike this mandate down. Local school boards need to decide. This is not a one size fits all issue. Our small school would lose several students to home school if the mask mandate is upheld.
7/20/2020 18:45:28	Christina	Harmon	Vote to open schools	Olathe	Kids need the social aspect of learning and the one on one with the teachers. If kids are with their families traveling this summer, going to the stores, teens working, or gathering to play with their friends they will be fine attending school. I believe if a teen child is able and willing to hold a job they need to be in school. This virus is not affecting our children like the government is instilling fear in everyone. Being a nurse I have worked this entire time and have remained healthy. The kids and teachers are capable of doing the same thing. Our kids need person to person school.
7/20/2020 18:45:38	Terry	Cox	Private citizen	Wichita	Comment removed due to profanity
7/20/2020 18:45:40	Christa	Moore	Olathe District Schools	Olathe	Please support the governor's order to delay the start of school. Educators need time to put safety measures in place and we need to have a better idea of how well masks are working before sending students and staff back to schools. We are concerned for our students safety, our safety as employees, and also the safety of our families. Especially those of us that live with someone who is medically high risk. Please support the governor.
7/20/2020 18:45:42	Angie	Boone		Cheney	Please approve to give schools time to prepare.
7/20/2020 18:45:56	Kalli	Nicholson	Myself, I am a teacher	South Haven	I would like it if the state BOE passed the executive order to hold off the start of school until after Labor Day. I am on the planning team and with the extra time we can get ready for every scenario and get ready for remote learning. Thank you.

7/20/2020 18:46:02	Devon	Tschumakow	Kckps	Kansas City kansas	Please vote in favor of the Governor's EO. Although it takes power away from the local school board we have seen over the last few months that some people don't believe in this virus and the risk it involves. They are only worried about themselves and not other people and it seems that local boards have not responded in the way to protect all individuals in the county ex. Not requiring individuals to wear masks. It also allows for equity in all districts because one district will not have more learning time than another. It also allows for districts to prepare staff for mitigation techniques and teaching online with the work done by the learning for the future committee members.
7/20/2020 18:46:12	Rhonda	Abell	My child attends Oakley	Oakley	Please allow schools to start WITHOUT a delay. Please allow the entire fall sports season to take place. If folks can go to stores, travel, etc all with masks then the kids can go to school with masks. Please look at the real data, schools can open safely, WE NEED SCHOOLS TO OPEN IN AUGUST! Thank you!
7/20/2020 18:46:16	Megan	Kohlman		Hesston, KS	You have the opportunity today to give our communities, students, and teachers the gift of time. For our communities, the time to stop the spread, to free up hospital beds for when later waves come (because they will come, and every county in our state relies on hospitals in large cities for care). For our students, the time to allow our schools to plan for them, to prepare for possible disruptions due to outbreaks, to stop the spread so activities may commence safely. For teachers, time to plan, to use the Navigating Change document which you all approved last week to not just survive but to plan how our schools and students can thrive even in these circumstances. Please give us all this gift of time. Every one of us needs it, no matter the circumstances of our local district or county. Thank you.
7/20/2020 18:46:47	Melissa	Baldwin	Myself	Olathe	Keep them closed the entire first semester and then re-evaluate
7/20/2020 18:46:53	Jo	McCormick	Myself	Lenexa	Please support the governor's executive order.
7/20/2020 18:47:01	Lisa	Edgerton-Johnston		Topeka	Lets keep our kids safe.
7/20/2020 18:47:03	Anita	Scheve	USD 489 Hays; I am a p	Hays	I implore you to please UPHOLD the governor's executive order to delay the start of school for two reasons: 1. To allow the mask orders to slow the spread of Covid-19, so that spread is less likely to occur when in-person school begins. 2. To provide adequate time for schools to plan from the state's guidance document and procur the necessary resources (many cleaning items are backordered, as are technology devices).
7/20/2020 18:47:13	Haley	Washatka	Elementary Student Pare	Shawnee	Please follow the Governor's request to not open schools until after Labor Day. I feel as though this will give the schools, administrators and teachers more time to adequately prepare for the school year to keep staff and students safe.
7/20/2020 18:47:41	Kelli	Carr	Elementary Education T	Bonner Springs	Please support the Executive order to delay, not close, the 2020-2021 school year. This will give us time to have some very well needed plan time with the new regulations so that our students can return to school in a safe and healthy environment!!! Your vote for this executive order would be greatly appreciated!!!
7/20/2020 18:47:43	Kelly	Morgan, PhD, M	USD 450	Tecumseh	As a Scientist, teacher and parent of two high school students - please delay the start of school and allow us to bring the curve down so that we can start in person and develop relationships with our students. Starting completely online (which we'll have to do if starting on time) will not allow us to build relationships with the 140 students each high school teacher works with - and motivating them to do rigorous work without a relationship will be next to impossible.
7/20/2020 18:48:02	Laurel	McClellan	Myself	Olathe	What will happen when I get over Covid, but my friends, parents, and grandparents die because I brought it back from school? How will I live with myself knowing I gave it to them? What will happen to people who have an immunodeficiency or have asthma? Is in person education more important than living?
7/20/2020 18:48:12	Jacquelyn	Matthews	Myself	Shawnee	Vote in favor, our school board plan was vague and did not account for mandated safety measures, they need more time to make school safe
7/20/2020 18:48:14	Brandi	Wark	School board member/p	Colby	Let school and ALL activities resume on schedule for the best interest of our children.
7/20/2020 18:48:25	Chrissy	Bolze		Topeka	Reject this EO. One size fits all, even in Topeka, doesn't work for delaying schools. Our kids need their education! Allow for those who are uncomfortable to do online. But those who are not immune compromised or aren't afraid, let them get back with their peers and teachers and learns what they fell behind on!! They need this consistency and they need their education.

7/20/2020 18:48:30	HOLLY	STUEWE		Topeka	I have two high school students. I believe that the local school boards should be able to decide what's best for our kids. We should not have to follow the governor's "one-size-fits-all" order. I personally believe that the kids should start school on time, in August.
7/20/2020 18:48:32	Heather	Boos		Topeka	I support the postponement of schools due to COVID-19. Children and teachers should not go back till it is safe and risk of disease spread is minimal.
7/20/2020 18:48:39	Emily	Myers	Olathe Schools - teacher	Olathe	Delaying schools is the best way to make sure we are prepared to go back safely. We need more time to see what happens with the virus, and give teachers and school officials opportunity to plan. Right now we have no information about how school will be conducted. I teach an AP class that has a very tight schedule already, but I value my health and my students' health more than points on my syllabus this year.
7/20/2020 18:48:40	Jaimie	Clausing	My family	Topeka	Our kids need to be physically present in school starting in August full time Monday thru Friday.
7/20/2020 18:48:44	Windy	Fry		Goddard	No masks required for students. After Labor Day is fine.
7/20/2020 18:49:00	Marie	Preston		Lenexa	As a teacher, I want what is best for my students. Right now, science has shown that students can become infected and infect others at a high rate. Please don't see this as me wanting to be "lazy" or wanting to shirk work. I want to see my students, I want to be in my classroom building them up to become thinkers, questioners, and explorers. However, there is a difference between wanting to be in school and feeling safe enough to be in school. As of right now I'm scheduled to report on August 6th and students will report on August 12th. That gives me FOUR days to prepare my classroom, learn safety procedures, and make sure that the environment that my students are in is not only SAFE FOR ALL, but also still welcoming and warm. Four days is not enough time to be fully prepared for what this school year will offer. By pushing back the start date you allow teachers time to put together their classrooms in a safe way, properly learn and practice safety procedures, while also giving us time to plan on case we do have to return to online learning. This is an opportunity to listen to those in the trenches of education, teachers. Please, listen to what we have to say. We love our kids and want to see them, but we want to do it in an environment that is safe for ALL. Thank you.
7/20/2020 18:49:09	Jitka	Durman		Pittsburg	I'm against delaying school. Kids need to interact with peers. Depression and abuse is on the rise. For a lot of kids that grow in poverty and others school is a safe place where they get breakfast and lunch. Please reopen the schools without delay.
7/20/2020 18:49:12	Diedre	Altic	I am an elementary teacher	Ottawa	I have missed my students and want to teach, but delaying the start of school 3 weeks will help me plan and hopefully help flatten the curve here in Franklin County. It will not hurt us to go 3 more weeks in May. In fact when I went to school it was Labor Day to Memorial Day. I love teaching and my students and I can be an effective teacher in person or online, but not if I'm sick or quarantined. Something you could do to increase the amount of teaching time we have available is to ease the amount of testing that is required. Please approve the governor's executive order to delay the start of the school year to help us be better prepared.
7/20/2020 18:49:30	Jennifer	Hunt		Spring Hill	We need to be back to school at the original planned date in August. Our kids social, emotional, and academic well-being is at stake. We should be considered an "essential" part of society and can implement additional safety measures just like other local businesses have done for weeks. The governor is attempting to strip away the ability of parents to make the best choice for their families as well as the individual district's ability to make optional learning plans available that meet the needs of their community and students. Kansas educators and administration have worked an immeasurable number of hours on plans for every kind of scenario, only to be slapped in the face within hours of the plan being accepted by the State School Board. We need to be treated like the professionals that we are and trusted to do our jobs.
7/20/2020 18:49:32	Tessa	Mckenny	Precious employee	Prairie Village	Highly support this. Our kids are not guinea pigs, and teachers are not LITERAL super hero's.
7/20/2020 18:49:35	Brendon	Pishny		Olathe	It's time to get these kids back in school. For their sake please don't delay the start.

					The KSBOE should support the delay in starting school in order to get schools and staff ready for the coming year. There's still so many unanswered questions about this virus that it is unwise to start school as usual. Educators should follow science and when science can guarantee the safety of staff and students, then schools should open as normal. I don't think it is inaccurate to state that school classrooms are living petrie dishes. Every year sees cold, flu, lice and pink eye being passed from student to student, student to teacher. Every year teachers have hand sanitizer and lysol spray on hand to keep germs at bay. Does it stop the illness from going through the school? Absolutely not. Why would we think this is any different? I hope you will put the health and safety of Kansas citizens foremost in your decision and support the Governor's mandate. Thank you.
7/20/2020 18:49:39	Barbara	Haynes		Wichita	
7/20/2020 18:49:45	Katelyn	Kennedy		Kansas City	The Covid case numbers are too high to send children and staff back to school. We need to get case numbers down before we force teachers and students into cramped and poorly ventilated classrooms.
7/20/2020 18:49:50	Christy	Friedrich	SMSD Parent	Merriam, KS.	School needs to start and there needs to be in person classes. For the emotional & mental health of our children, for stability, food & a sense of safety. I have to advocate for all of the kids who rely on school for more than just education. Please open schools! In person.
7/20/2020 18:49:53	Melissa	Brown		Wichita	I agree that masks for kids should be worn. I do not agree that school should be post poned. Daycare system was never given a time to regroup. And they are doing just fine. Temp. Checks are necessary before entering class and wear a mask. No more group gatherings like assembly. Special class should be via zoom or skype so classes are not passing thru the same room. That will cut down on exposure. Please consider. Thank you.
7/20/2020 18:49:58	Tina	Caldwell	Olathe School District	Olathe	Please keep the schools closed until after Labor Day.
7/20/2020 18:50:07	Chelsey	Donelan		Colby	I vote to not delay the start of the the 20-21 school year
7/20/2020 18:50:25	Melissa	Burdiek		Wichita	Postpone school reopening until after Labor Day so COVID-19 cases can drop and not continue to spike!
7/20/2020 18:50:41	Andra	Baldwin		Emporia	I support the Governor's proposed executive order to delay the start of the school year. This delay is necessary to ensure the safety of thousands of students, teachers, school staff members and their families throughout the state. Please cast your vote keeping this in mind. You are trusted to protect the safety of so many around Kansas!!
7/20/2020 18:50:43	Sharon	Mathiesen	The children of our state	Kansas City	Kids need to be in school we weathered the flu and the swine flu without closing the schools. This virus will be here like the flu we need to build our immunity and let herd immunity fight this. The great thing is kids don't carry this virus or have a severe reaction unlike the flu!
7/20/2020 18:50:46	Crystal	Winters	USD259	Wichita	Please approve the extended time or move all schools to virtual only due to increase in cases lately.
7/20/2020 18:50:54	Mary	Sharp	Teacher of KS	Parsons, KS	Delay schools until after Labor Day. Look at research and consider 6-12 be online for the first 6 weeks.
7/20/2020 18:50:57	Brandon	Clausing	My children	Topeka	Kids need to be physically present in school starting in August with NO masks!
7/20/2020 18:50:57	Rebecca	Frecks		Gardner	As a parent and educator I ask that you support the Governor's executive order. Our children and staff are too important to risk. Districts need time to develop a plan that will ensure everyone's safety.
7/20/2020 18:51:00	Tina	LaTurner	Special Education	Galens	Please vote no to postponing school until after Labor Day. My special education students have lost at least a semester of learning in the time schools have been closed. Please allow districts to make their own decision. I would respectfully ask that you vote no to also stop the governor's continued over reach of her office. Please vote no. I am praying 🙏 for all of you!
7/20/2020 18:51:04	Eric	Kremer	My kids	Shawnee	Extremely disappointed in the governor's decision today, the kids need to be back in school. All of the school districts have put together solid plans to get kids back into the building, 3 weeks isn't going to change anything. If they have to have 3 more weeks to prepare at least let the school activities start on time. Most of the activities starting in the fall are outdoors anyway

7/20/2020 18:51:20	Chasity	Gaines		Frontenac	Governor Kelly is once again over stepping her role with these masks mandates where she makes sure she covers herself by the law by stating "If you cannot practice 6 feet social distancing" she does this because by LAW she cannot force masks. She did the same on our children now and this needs to END. Our children weren't wearing masks and were doing fine, since this state mandate she placed both children have fear of this virus, both now have anxiety over the numbers, both are now focusing on a virus instead of enjoying their summer. This has damaged the mental health of our children and I am already fed up with the State on other issues regarding Unemployment, so this is my officially ENOUGH MOMENT. I let that go and now I am daily having to ease both our children they are fine, and will be safe. And having to show them the science that even if they got it, it would be good for their immunity to heal from, having the antibodies is a PLUS not a NEGATIVE. Our children sitting at school with masks on is going to distract them, it is going to keep them in fear, AND I AM SO OVER THE PUSH TO BE AFRAID OF THIS!!!!!!!!!!!! Our oldest missed her soccer season because people were afraid, being afraid making decisions for children has lead our daughter to upping her Zolof. Our youngest developed depression and turned to eating her feelings. We are also a Law Enforcement family so our girls have been hit on all sides from everyone, people on the streets to their own Governor. It is time to stop this, it is time to get back to normal. Hand washing centers would be excellent, hand sanitizers being required is good. BUT MASKS is going to mental bound our children and we are above this, we are better then this. We don't need to fall for fear and panic and we don't need to mentally effect our children any longer. Allow kids who want to wear masks to do so is good, but we need to allow children who do not want to wear the masks the freedom of not wearing them. I want to see what data she is using to support her masks mandates. Here is my data from The Association of American's Physicians and Surgeons <a href="https://aapsonline.org/mask-facts/">https://aapsonline.org/mask-facts/</a> .
7/20/2020 18:51:37	Jayne	Muncy		Hugoton	I do not agree with this executive order. I believe it should be left up to the individual counties as not all counties are the same. Each is being impacted differently so it doesn't make sense to treat them all the same.
7/20/2020 18:51:42	Cassie	Medley		Paxico	When considering delaying the start of school, please take into account the fact that a 1,000 page document was just given to districts last week, now needs to be developed for their individual district and then approved by their local school board, and then finally given to teachers. This presents an extremely short deadline and provides almost no planning time for teachers. Many parents felt that distance learning was not successful in the spring, and that is primarily because teachers had minimal time to plan for it. Now that we have a very thorough and well thought out document to guide the potential for distance learning this fall, we need adequate time to use the document to plan. We may not be starting the year with distance learning, but the inevitability is there, and restructuring our curriculum now will make for a smooth transition to distance learning. This will only be possible if teachers are given time to plan and prep, which will only be possible if the start of the school year is delayed. This is not simply an issue of if the number of positive cases dictate delaying the opening of school, this is about ensuring a successful school year regardless of the number of positive cases. Please support the governor's executive order, thank you.
7/20/2020 18:51:50	Jane	Bush	Olathe North High Scho	Overland Park	This is crucial for counties with a large covid count, to give districts time to get the PPE, thermometers and procedures for opening school. Personally I hope that Olathe opens remotely, but if we have to open face to face, PLEASE give us the time to get things prepared.
7/20/2020 18:51:56	Jennifer	Zimmerli	Olathe Northwest High	Overland Park	I think we need consistent plans in Johnson County with Kansas City due to the number of families that live and work throughout the city. For example, I live in OP, my husband is a paramedic for KCFD, and I teach in Olathe. If we all travel for work, then what my husband is exposed to in KC is what I will expose my students to in Olathe, and vice versa. Given this risk of exposure, I think it's unethical to cross pollinate exposure in this way, and it is irresponsible to increase exposure of a first responder when the city has a shortage of personnel. I can solve this issue by teaching online. I have nearly a decade of experience as a virtual school teacher so I am prepared and confident I can accomplish this. As cases of Covid rise in Johnson County we must follow the directives of scientists and health care professionals to control the spread. My spouse works 60-hour shifts due to system demand and a lack of workers. Closing our schools helps protect our vital first responders and the communities they serve, as well as our medical infrastructure. I have tried to get tested for Covid the past two weeks and it is clear the health department is not keeping up with demand. It takes a week to get a test and another week to return results. We must do better with testing and access to healthcare before we reopen schools.

7/20/2020 18:52:12	Susan	Leininger		Bonner Springs, KS Wy	To delay now would give the virus time to die out, hopefully, or at least give schools a chance to reorganize funding and programs for the coming months. I feel it is a great disservice to our communities to throw everyone back together and "see what happens." It feels irresponsible and unnecessary. Our state can implement some programs on the local level, perhaps, to take into consideration alternative ways to care for and support students and their families. There cannot be business as usual under such unusual conditions.
7/20/2020 18:52:14	Melissa	Wheeler	parent, special educator	Louisburg	I greatly appreciate having some more time to prep myself and my staff to doing what's best for our kiddos.
7/20/2020 18:52:34	Marissa	Legleiter	Teacher	Arkansas City	We, as educators, analyze and interpret data on a daily and sometimes hourly basis. I believe we should look at the data. What does that tell us? I believe it means we should not be in school until cases start going down. A lot of school systems, I'm thinking Israel, have doubled their case loads since school has started up again. I implore you to analyze the data because that clearly shows we should not be in a school building right now. I believe that is what Governor Kelly is doing. I ask that you uphold it for everyone's safety. Thank you.
7/20/2020 18:52:44	Kelsy	Higgins	Usd 331 school counselor	Kingman	Yes, I believe you should support the Governor's executive order to protect school staff and students.
7/20/2020 18:52:58	Pamela	Herrick	KCKPS	Raytown, MO	I urge you to support the Gov.'s executive order to delay the start of school for the 20-21 school year. This would give the districts more time to prepare for the changes necessary with COVID 19. I am a Kindergarten teacher and have concerns about what the best practices will be for the safety of my students and myself in order to have a safe environment for us to learn.
7/20/2020 18:53:03	Sarah	Meyer	Usd 233 Olathe	Lenexa KS	Keep schools closed. It is NOT safe to reopen at this time in person.
7/20/2020 18:53:05	Rebecca	Drews		Topeka	I am in favor of Governor Kelly's order.
7/20/2020 18:53:09	Christi	Schreffler		Olathe	Please support Governor Kelly's executive order to delay the start of school. This will allow us, as school employees, crucial time to secure supplies and make plans to put the KSDE recommendations in place. If these are not in place, we risk having to change learning platforms for students quickly which negates the stability and consistency we are trying so desperately to provide.
7/20/2020 18:53:16	Erin	Jeffrey	My house	Olathe	Please do not approve a delay. Our school was suppose to be prepared in not starting in school. Do online for the first week. Set expectations for the kids there before school starts in person if it must be delayed. It doesn't take 3 weeks to get hand sanitizer and thermometers.
7/20/2020 18:53:29	Brooke	Jennings	USD #305	Salina	I am a parent and a teacher. I truly feel that we are not ready for schools to open in August. We just got the recommendations back from the state and it would be beneficial to have time with other teachers to come up with lessons with each other. If not, it's going to be rushed and not well prepared. Also, I know many, many teachers who are truly worried about their health and that is going to raise a lot of stress levels. I would rather go to school into June and start After Labor Day. It just makes sense. Please think about the teachers and the amount of stress they are already under. Don't just throw us back into the classroom because it's best for the economy. Give us the time we need to truly have a plan to teach under these strenuous circumstances.
7/20/2020 18:53:35	Sara	Pittman	Shawnee heights school	Topeka, ks	I fully support the Governor's executive order to delay the start of school. I am a parent and employee of the district. Whatever happens just needs to happen so that everyone knows when we will start. The BOE needs to do their vote so that we know when the start will be.
7/20/2020 18:53:53	Deneen	Schoenfeldt	USD 501	Topeka	School should be 100% remote until the state (or at the least, county) has gone 14 days with no new cases. It is impossible to social distance in a classroom. And hybrid is a logistical nightmare for teachers and parents.
7/20/2020 18:54:21	Shannon	Skoglund	NA	Shawnee	I strongly support the XO and encourage the board to uphold it. A delay will give districts a chance to plan around new circumstances. Mandatory masking will help keep schools open.
7/20/2020 18:54:31	Julie	Becker		Great Bend	Open schools now, mask to be optional not mandatory.
7/20/2020 18:54:36	School	Teacher	Teacher at USD #435	Abilene	Please vote yes on Governor Kelly's order. We want to go back to school, but we need this time to make plans and arrangements to keep everyone in the school environment safe. We need your guidance, as local control is clearly not working to keep us safe and slow the spread. As a teacher who is considered to be at risk, I'm very concerned about just charging right into in-person school in a couple weeks without time to implement needed safety precautions, and time to plan lessons that will be easily adaptable for rigorous distance learning if needed. Thank you.

7/20/2020 18:54:47	Jeremy	Sekavec		Hoxie	We do not need to delay school. I have been on the front lines the whole time working as an essential worker. We had people from all over the country stop in the store. Never did I get sick nor did I wear a mask. I have seen the negative effects on my children not being able to be around their kids and not having the activities that school provides. Please let our children go back to some what normalcy
7/20/2020 18:54:48	Dana	Nolan	ROSE HILL KS	Rose hill KS	Expert after expert have said that the kids need to be back in school. The kids have been out for 5 months and desperately need to go back. Pediatricians say they need to go back.. School is over a month away and cases should be declining because the mask work, right? The CDC NEVER EVER SAID that schools should be closed in the first place. I am a RN and have gone to work to take care of patients at the hospital since this pandemic started. I'm ok and my kids are ok. It's a virus with a recovery rate of over 99%. The shrine bowl just happened and it went well. Please do not delay school.. the protective measures can be put in place within the next month.. and if Parents don't want to send their children then they can stay at home but so many parents do not have that luxury. I work with children in behavioral health and the suicidal attempts and depression due to isolation has been astronomical in our area.. kids need school and they need it yesterday..
7/20/2020 18:54:54	Jessica	Vaughn	Parent	Colby, KS	I do not support delaying the start of the school year
7/20/2020 18:54:58	Becky	Meili		Gardner	I do not think that schools need to stay closed until after Labor Day. I'm not really sure what a couple of weeks is going to do and if schools aren't prepared already with cleaning supplies and the such, I'm not sure what to think. There has been plenty of time to gather all that is needed and to come up with a plan if Covid is not in a place they would like it to be. If they start in September, that will be almost 6 months kids will have been out of school. These kids needs some normalcy in their lives, not to mention those that have been stuck in an abusive home this whole time with no escape. If you choose to keep schools closed until September, I ask that you rethink making sports wait that long. Club and rec teams have been playing all summer long with barely an issue, not sure why school can't do that same. I know there is no easy answer, but I do hope you reject the governor's plan.
7/20/2020 18:55:17	Ryan	West	Teacher	Topeka	I think the after Labor Day start is necessary to ensure more safety and time to get schools ready. Then the numbers should dictate if we open in person or online
7/20/2020 18:55:32	Christina	Nelson		Olathe	I agree with Governor Kelly, I would like schools to postpone the school year until after Labor Day.
7/20/2020 18:55:34	Regan	wayman		Wichita	If we are following science and Data, why are we not following the guidance of the AAP, along with the pediatricians who helped develop the coalition to safe school reopening? They showed data of low transmission spread for under 10 and also stated that grades under 5th (10 years) should be in person as soon as possible and do what is needed per county for middle and high school. They also recommend no masks for under 10 not under 5. I don't mind the masks and starting later but one size doesn't fit all. And if following science and data, why is this being over looked? Lastly, much data is showing that athletics/activity should be promoted. I hope this doesn't stop what as been going. Sports are a huge reason why many inner city kids show up and care about school. It also is a healthy and positive in all kids lives. We would be crazy to think that kids are going to just sit at home. They will be doing things together and likely not safe choices if athletics are taken away.
7/20/2020 18:55:39	Justin	Isch		Madison	Delaying school is a joke!!! Common sense is not being used by leadership!!
7/20/2020 18:55:54	Natasha	Mai-Bowmaker	K-5 parent	Wichita	I would really like for school to be delayed until the number of new cases has been on steady decline for 14-21 days. I would LOVE for school to be online/remote only until we have had zero new cases for 14 days. I feel as a parent sending our children and educators into large group settings like a class room we will have way too many kids sick, and unresponsible parents will send their sick kid to school regardless of any rule you set in place. Please do the right thing in regards of our children and educators.
7/20/2020 18:55:56	Erin	Finley	School district	Topeka	Please support the Governor's executive order. It will allow everyone extra planning time to make school safe. Making school safe will hopefully decrease the amount of closures needed during the year.
7/20/2020 18:55:57	Rebecca	Retz	USD 259	Wichita	Please give the school districts in Kansas more time for the mask mandate to help bring down the number of new cases and spread, receive the orders for protection supplies and train staff properly so students and staff can return to school safely and with the mental state NEEDED in order to function and learn. This HAS to be done right. No politics, just common sense. UPHOLD the Governor' order. No Politics!
7/20/2020 18:56:12	Erin	Engle		Olathe	Delay school

7/20/2020 18:56:15	Nicole	Perez		Kiowa	It's time for kids to be in school! Not all communities are the same we have had one case in our community. Depression is setting in I see it in our community and it's sad, a lot of our kids school is their safe place 5 months has been way to long for these kids! Please please get our kids back to school and sports as regularly scheduled in August! My senior son has worked to hard for his final year of football and educational scholarships to not get that chance!
7/20/2020 18:56:28	David	Dean	Myself	Clay Center	I believe that schools should open as they usually do. I see no reason to delay them.
7/20/2020 18:56:54	Matthew	Baer		Topeka	Pleased approve the order. School districts need time to put health orders in place and prepare for safe and effective instruction.
7/20/2020 18:57:01	Kemberly	Selman	Olathe Schools	Overland Park	I support the governor's order to postpone to Labor Day. We are absolutely unprepared to start with all of the restrictions that need to be considered. I teach 1st grade, which is going be even more challenging, in light of the things we need to do to be adequately prepared. PLEASE consider the mental wellbeing of the people you are asking to be prepared to do the work. Stress DOES impact our ability to be effective instructors. It DOES impact our families. It DOES impact our mental health. This year will be hard enough without starting at an emotional deficit. Allowing us to be prepared is also in the best interest of our students, as it will hopefully, limit the number of times we have to start and stop in person instruction. Please do not make this a political battle but consider what is truly best in a highly unusual situation. Thank you!!
7/20/2020 18:57:06	Jim	Baucom	Parent	Lenexa	Please support the decision to delay the start of school for 2020-2021.
7/20/2020 18:57:12	Jennifer	Feldkamp	My family	Lincoln	This is outrageous! My county has 1 active case. 1. Experts everywhere are saying kids should go back to school and that they have a far smaller chance of having complications or dying from this virus. So why all the heavy handed mandates about schools? Why rip away control from the local communities who are all dealing with COVID in different ways? Why not give us the freedom to do what we feel is right. In case it's not clear, no one is asking Governor Kelly to save us from this virus. She can't! It will spread, regardless of whatever action she takes. So what, then? We sacrifice our kids' social emotional health? We sacrifice our liberty? We sacrifice our kids' education? School WILL NOT go well if kids are forced to act against their nature while they're there. Honestly, if you're going to make school like a prison for these kids, just do us all a favor and cancel the 20-21 school year all together, go remote, and pick up next year when hopefully this madness is over. Please don't sentence our kids to a miserable school year just to make a political statement, flex your power, or whatever the reason is for these orders. Please stop denying the experts who are recommending kids go back. Please rethink this terrible idea. Our kids' year, and perhaps their entire development and future depend on it.
7/20/2020 18:57:13	Kylie	Baxter	Usd420	Osage City	I am in favor of keeping schools closed until after Labor Day. This will allow educators to prepare for and read through the Navigating Change document. It will also allow us to prep lessons for A mixture of remote and on site Learning. Thank you!
7/20/2020 18:57:14	Brooke	Applegate		Cimarron	The need for our children to be back in school is very high. I teach Kindergarten and my students basic needs are not being met at home and it's my job to help them feel safe and secure. Delaying school is keeping them in survival mode longer. Their mental and emotional health is truly suffering by not being in the classroom. Summers are hard enough on kids as it is and with the closure of schools since March they hav even struggling much longer. I do not fear going back to school. I took on this career knowing I put myself and my own children at risk of bringing home a sickness and that hasn't changed even with Covid-19. Extra precautions will be taken but being back in the building with my students is what I need and what they need in order to learn successfully and to be safe.
7/20/2020 18:57:32	Allison	Dollins	USD 506/SEK Interloca	Independence	Please uphold the mandate to delay the start of schools!
7/20/2020 18:57:32	Regan	Holthaus		Wamego	Vote No in delaying school. Each school district has it's own set of needs that should be addressed when setting their calendar. The school start date and all heath guidelines lines should be done at the local level.
7/20/2020 18:57:51	Kathy	Myers		Colby kansas	Here in western Kansas we are not dealing with quickly rising cases of covid. . I would like us to have the ability to decide when we start. It seems to me that out here it is better to start as scheduled and save those 'delay weeks' for the future. What if the need is really there in the winter? We may need those weeks this winter. I'd like our local board to be able to look at the decision.

7/20/2020 18:57:55	Daniel	Schaffer		Bonner Springs	<p>You should support Gov. Kelly's proposal to delay school opening until Labor Day. If schools open in August, we put the entire public health system at risk. Students shouldn't receive newsletters and notifications that their teachers, custodial staff, administration, or counselors have died.</p> <p>This pandemic is unprecedented in our lifetime and it falls to us to take unprecedented measures in response.</p> <p>You can save lives today, I hope to God or whatever you believe in that you take the proper steps to protect your family, my family, and all families that you don't know.</p>
7/20/2020 18:58:18	Allison	Sears		Olathe, KS	I think schools should be delayed in opening and work online until we have found the proper measures to open them in person. How will we do electives? PE? Passing period?
7/20/2020 18:58:19	Elisabeth	Bennudriti	Olathe	Lenexa	Our governor of Kansas is looking out for the best interests and health of all of stakeholders: students, teachers, staff and families. Covid is nothing to play around with - we don't even know the lasting effects it could have on people's overall health. Personally, I love my job. I love teaching. The students I meet become "my kids" for years to follow. We are not trying to skip out on anything, or being lazy. We just need TIME to get ready, to make school as comfortable and SAFE as possible for everyone there. WE are there. WE are the ones who will take care of sick children, worry when they are not in school. WE are the ones who will go home not feeling well, worried that we will not return, and who will love our students the way WE do? WE NEED TIME! Please, let us have time and uphold the governor's EO to start schools after Labor Day.
7/20/2020 18:58:27	Don	Forster	Educational community	Wichita	The conventional wisdom from the medical professionals tells us to wait and see where cases and numbers go through the month of August. Also, we already know this virus can be passed within a school from other countries reporting exactly that fact. Please remember that your decision involves the innocent lives of over one-half million Kansans. Why not mandate all schools begin online continuous learning by August 17th?
7/20/2020 18:58:29	Rebekka	Voss	Parents	Hillsboro	I have 3 school aged children, 8th, 11th and 12th, and absolutely agree with delaying. As a matter of fact, schools should consider online options to start out the year and delaying sports if Covid cases continue to rise. Should cases decline, this should be re-evaluated biweekly as we progress through the pandemic.
7/20/2020 18:58:29	Rebecca	Killen		Lawrence	Please approve this Executive Order to keep Kansas students and teachers and all their families safe. We are counting on you.
7/20/2020 18:58:29	Bonnie	Zimmerman		Lenexa	Please uphold Gov. Kelly's order to postpone school until after Labor Day. Keep our kids, teachers and staff safe.
7/20/2020 18:58:34	Nolan	Lewis	Teachers	Lenexa	It is not currently safe to open schools. Teachers and students WILL get sick if the board doesn't act.
7/20/2020 18:58:39	Brian	Harris	None - Myself	Leawood	Delay the start of school to provide time for all school districts to be ready to respond to what will be a challenging fall. Students, teachers, and parents across school districts and counties will be interacting on a daily basis and the chances for transmission is high unless preventative measures are taken now. This is a national public health emergency that requires extraordinary measures to make sure our schools are safe. What is a few weeks if we have done all we can to insure our students will be safe in our schools? We do not want to be like our neighbor, Missouri, who has an obviously ignorant Governor. Our Governor Kelly has proposed common sense steps to protect our students. Support her!
7/20/2020 18:58:41	Dawn	Ayers		Topeka	Please!!! Keep them closed and give staff enough time to get supplies and plan! We are going to need it.
7/20/2020 18:58:50	Linda	Blain		Wichita	I believe the prescribed measures are necessary to give everyone involved the best opportunity to learn and be as safe as possible.
7/20/2020 18:58:55	Sonya	Smith	Parent of students in Wi	Wichita	<p>Thank you, Governor Kelly, for continuing to make efforts to keep Kansas residents safe and healthy.</p> <p>I fully support waiting until September 9th (or later) to start the new school year. If we must expose teachers, staff, students and their families to a potentially deadly virus when a vaccine isn't available, we should wait until the school administrators and staff can set up a, somewhat (but not really), "safer" school environment.</p> <p>The schools were closed when the country, in particular - our state of Kansas - had way fewer Covid-19 cases than we are currently facing. The numbers are only going to increase. I can't wrap my head around how and why it's a good idea to open schools now.</p>

7/20/2020 18:59:00	Kevin	Koelzer	Tax paying citizen	White city	Open schools for kids sanity and social skills
7/20/2020 18:59:03	Lacy	Pfannenstiel	Norton	Norton	Please do not delay school. Our children have already suffered from school being closed and forced to participate in online learning. Children need to be in school learning with their peers. So much more than book work is taught at school, in the school building that our children have not had since March! Please remove any and all mandates such as face coverings and temperature checks and let's open schools as planned and not let the governor take any more freedoms away from our children to learn! Stop and think! Parents know when to send their children to school and when not to! Let the parents be parents and the teachers be teachers. If parents choose not to send children to school then they have made the choice to go back into online learning. I'm concerned with the lack of progress my own children in high school are making because education is not what it used to be. Not all students can learn sitting in front of a screen. Many need hands on learning and interactions with others to learn. Our children need us to advocate for them now more than ever. They want to be IN school and go back to normal!
7/20/2020 18:59:10	Nichole	Worley	Teachers	Olathe	I worry about my health and bringing it home to my family. My elderly parents live with me and I feel worse than the doctors because they are head to toe sterile and have control over the patient who is 1:1. I will be in a building that will be overcrowded and I have kids puking in my room every year because parents send them to school sick. I love my job and I love my students but I am worried about my own family safety! I certainly do not get paid doctors wages but I am expected to parent, teach, counselor and protect them all.
7/20/2020 18:59:18	Shawna	Bloom		Topeka	We would like schools to open on time, and in person. No masks.
7/20/2020 18:59:30	Kristi	Miller	USD290	Baldwin City	Support the EO
7/20/2020 18:59:46	Terah	Thompson		Olathe	I feel our children need to return to school as soon as possible. They have already been out 4 months and the continuously learning was very lacking for the last quarter. It wasn't even required or graded. Essentially it was all review. I do believe everyone should wear masks and as much as possible social distance. It is time for some normalcy, structure and an education. They also need school for emotional health. Thank you.
7/20/2020 19:00:06	Kenzie	Singleton	My children	Ottawa	Please keep the schools closed, until numbers of COVID cases are decreasing. Follow the CDC guidelines and keep our children safe. They can get caught up.
7/20/2020 19:00:21	Jeff	Slater	USD 454	Topeka, KS	We need to be OPEN minded to allowing online learning to go on while still providing KSHSAA sanctioned sports. If a student chooses online learning, they shouldn't be "banned" from attending or participating in extracurricular activities. The bottom line is if kids are handling the school work, home or online, they should still have that option to do extra curricular's. Attending school a full day and then going to an athletic practice is much higher risk then doing online learning and attending a 2 hour practice. I have no issue with masks being recommended if that's what provides the safest environment for kids. I also have no issue with a delayed start. However, I do have an issue with shutting things down, assuming this will "stop the spread" when in reality, kids are still congregating and interacting. Let's find a way to RESPONSIBLY provide school and extracurricular's to our kids. Let's start acknowledging the benefits behind a healthy and active lifestyle. Thank you for all the hard work and listening.
7/20/2020 19:00:21	Jennifer	Flick	I'm a parent of two K-12	Great Bend	I don't see how this makes a difference in the Covid situation. However, if it allows schools more time to get prepared then I'm for it. Actually, I'd like to see a legislative change that permanently changes the school year from after Labor Day to right before Memorial Day. This August- May schedule doesn't make sense. Let parents and students finish out the summer instead of half weeks until after Labor Day. More so, pools and rec classes don't open until June, so why end so early in May with nothing for kids to do. I'd like to see the change made permanently.
7/20/2020 19:00:21	Cindi	Thomas	USD 500	Leavenworth	Please vote for the delay. School communities need time to review, plan and implement the details from the state plan. Kansas students and school staff deserve safe environment.
7/20/2020 19:00:21	Michelle	Connolly		Overland Park	I'm ok with delaying but only until the week following labor day. I think the flu is more of a risk to our children than covid. I don't want to have kids get sick (which they will with strep and flu like normal) and have a panic and school closings. We do NOT want to do school online like we did 4th quarter last year.
7/20/2020 19:00:30	Dawn	Justice		Hutchinson	I am a school teacher in Hutchinson and I feel students have been out of school too long. Please tell the schools to open up on the original scheduled first day of school. We need to get back in the classroom.
7/20/2020 19:00:37	Beth	Conaway		Medicine Lodge	Please delay the start, but adjust the number of days required.

7/20/2020 19:00:39	Kristina	Hills		Colby	I think we need to start schools ASAP and then follow the colleges and take an extended break during flu season. We also cannot say all counties are the same. Some have not even had any confirmed cases! We are not the same as eastern Kansas. And if my young children are required to wear masks I will homeschool them myself, not through the school so they won't see any money from my children.
7/20/2020 19:01:07	Austine	Pugh		Norton	Please consider voting to uphold Governor Kelly's mandate. We have some very vulnerable students and staff in our district. There is no reason to not err on the side of caution with public health. As a special education teacher, I'm worried about our students that are at a higher risk. I'm worried about our teachers and support staff who are older or have health concerns. Please consider holding up this mandate to see what the state of Kansas looks like after Labor Day. Thank you for your time and energy spent on this hard decision and all the extra unexpected meetings you've had to hold in the last few months. Whatever you decide, you are appreciated.
7/20/2020 19:01:08	Michelle	Tharman	N/A	Long Island, KS	Our kids and teachers need to be able to see each other face to face. There really is no "normal" right now... but, requiring masks, for all in the educational environment, will keep everyone safer. I recognize fully that the science changes regularly, but wearing masks is the best option we have right now. Delaying the school start date until September will give school districts time to plan appropriately.  I ask you to please support the Governor and work with her, rather than as opponents, to show a united front for our kids, our schools and our state. We are losing the battle when we play politics. We need to work together lest we all suffer and fail.  Thank you for your consideration.  Michelle Tharman 174 West 800 Road Long Island, KS 67647
7/20/2020 19:01:09	Matt	Thoman	My kids	Basehor	Our district only offered full in person or online only. It would be nice to see a hybrid option and keep kids out of school some during the pandemic.
7/20/2020 19:01:10	Lori	Trisler	USD 259	Wichita	I agree with the governor's executive order regarding schools in Sedgwick County the numbers do not support going back in person earlier.
7/20/2020 19:01:14	CHERRIE	LINDSEY	Teachers	OTTAWA	Please give the districts the three weeks to prepare. This will give time for everyone to get prepared and get used to the idea. I teach in a small school and people are scrambling.
7/20/2020 19:01:18	Daniel	Dick	Maize USD 266	Maize	As a teacher in the Maize school district, I think it is important that we are given more time to plan for the opening of schools in September. There are many variables we are facing with this next school year. We are experiencing a massive change to our jobs as teachers for this next year and I don't think any of us feel prepared. COVID is a complex and sadly has been made into a political issue. Please take a stand for schools and allow the Governors EO to happen and delay the beginning of the school year.
7/20/2020 19:01:19	Alana	Kennedy	USD 443	Dodge City	I believe the delay will help teachers and administrators prepare to teach in a variety of platforms and ensure safety.
7/20/2020 19:01:26	Meghan	Armstrong	Parent	Olathe ks	I think it is a good idea to push school back...a hybrid plan would be nice if school does go on as planned after Labor Day.
7/20/2020 19:01:29	Laurie	Wendland	USD 233	Olathe	Please delay the start of school and accept the Executive order of our Governor.
7/20/2020 19:01:39	Becki	Evans	Usd 394	Wichita	Please leave the control of each district up to each local BOE. The people in the community will do what is best for their school. Differentiation is important.
7/20/2020 19:01:41	Cecily	Blackman	My family	Olathe	I feel schools need to open on time with expectations of precautions in place (masks etc). Many of us including direct care staff in my field of individuals with special needs have been working this entire time safely. Our children have lost so much already and in my opinion if adults can engage in activities like going to bars and casinos then children can safely engage in and deserve their education.
7/20/2020 19:01:42	Kathryn	Harter	USD 233 and USD 458	Olathe	Please do not go back in person until cases go down for at least 14 days.
7/20/2020 19:02:07	Christopher	Hernandez	Santa Fe Trail Communi	Dodge City	I think school should start in August. Time to get these kids back to normal is well needed!

7/20/2020 19:02:14	Jennifer	Klindworth	Parents	Olathe	I support delaying the start of schools and alternating schedules until there is a vaccine or low community spread.
7/20/2020 19:02:17	Lea	Harding		Norton	Great plan! Thanks for doing what you can to keep our kids safe!
7/20/2020 19:02:34	Traci	Ridder	School based occupation	Marienthal, KS	I think school should begin in August as regularly scheduled in accordance with each individual County with appropriate safety measures in place.
7/20/2020 19:02:38	I agree with her	Garvey	Guest teacher	Wichita Ks	I'm leery of going into a classroom where I do not know the kids and school or the procedures for protection.
7/20/2020 19:02:47	Stacy	Dillinger	Family	Hugoton	I ask that you do not uphold the mandate. We are a rural area and are not having the rise in Covid cases like the urban areas. I also ask that masks not be required in schools. Those with health issues and young students will have adverse affects. Thank you for your consideration.
7/20/2020 19:02:48	Erik	Leon		Topeka	Schools in Europe have reopened safely and their students are now U.S. students are falling even more behind their peers in other countries. There is no justification to set back American kids' education even further. These decisions should be made locally, and private schools especially should be permitted to make their own decisions as to how they wish to operate this year. One size fits all is NOT the answer! I ask you to vote NO on these overreaching executive orders just issued by Governor Kelly.
7/20/2020 19:02:53	Carrie	Paschke	I don't represent an organ	Overland Park	The data we have now doesn't support keeping kids home any longer. Studies are showing us again and again that children are not vulnerable to Covid like other groups, and that they aren't generally spreaders of it either. Over 30 countries have reopened schools since May and the anticipated 'spikes in cases' just aren't happening. Even considering those adults in our schools, the survivability rate just released this week from Johnson County is 99.984%. Please let students who are comfortable return to school for their own well-being. We need to look out for the mental health of our next generation and we can not let unnecessary fear, politics, or 'projected models' (none of which have been accurate to-date) keep us from giving our kids the best chance to succeed. They are worth it.
7/20/2020 19:03:02	Jim	Means	Spring Hill School Distr	Spring Hill, Ks	I feel our schools need to reopen as originally planned. Kids have been out of school since mid March. The majority of Pediatric doctors and counselors agree that kids need to be in school for learning and social development. The damage done far out weighs the risk of contracting Covid in children.
7/20/2020 19:03:17	Michelle	Ehrsam	Parent	Olathe	There is no reason why we can't start at least on line. Our kids are already behind due to the last quarter following with optional learning plan. I understand not starting in person but our kids education should not keep being postponed.
7/20/2020 19:03:33	Colleen	Gillum	Kaw Valley USD #321	Rossville	I would really like school to start for all children. I am a grade school secretary for 20+ years. I do think it could more risky for larger schools in Wyandotte & Johnson County, where the covid cases have been higher. Maybe their districts would decide to delay their start. But the smaller schools in rural counties should be given the opportunity to start. The other options that I think should be considered is allowing the high school students to return in August. Our school students are capable & willing to social distance and wear masks if necessary. They have proven that during summer activities. Please, give these students a chance to learn.
7/20/2020 19:03:40	Laura	Harrington	Central Kansas Christian	Great Bend	I have no issues with delaying start of in-person classes until after Labor Day but I do not understand why schools cannot offer remote learning before that if they are prepared for it (which many have been preparing for all summer). I am concerned with the impact delaying all instruction would have on when school the school year ends in Spring 2021.
7/20/2020 19:03:40	Aimee	Strickland	USD 447 Cherryvale-Th	Cherryvale	As our Districts School Nurse and Head Volleyball Coach, I hope you approve our Governors EO to delay school start. While I really appreciate all the hard work put into the 20-21 guidelines, it comes with so much information, that a delayed school start will allow us the proper time to plan, order supplies, and make sure we are prepared for a very different school year. If we have a longer time to plan, the less chance for errors and throwing things together. The medical supplies that I order, are already given a delayed shipping date. I can only imagine that once all the other schools begin to order, it will only delay the orders even more. Delaying start, is the safest, wisest choice.
7/20/2020 19:03:44	Haley	Remsburg		El Dorado	Please consider delaying the start of school until after Labor Day per the EO from Governor Kelly. I am a mother of 3 children, wife of a district employee and a USD 490 school board member. The extra time for teachers to prepare is vital to start school in the best way possible during this pandemic. Thank you for your consideration.

7/20/2020 19:03:51	Caitlin	DeFilippo	Kansas resident	Lawrence	I believe that Governor Kelly's executive order should be confirmed. The rates of infection in our state are not yet stable, and outbreaks are happening in various places, both rural and urban. This is a good step toward keeping our communities safe.
7/20/2020 19:04:04	Jayne	Malsom		Auburn	I am an educator and am very concerned with not only the health and safety of myself and my students, but also that of my family at home. Please approve the executive order to allow the cases to perhaps come down a bit, but to also allow ALL school districts, teachers, administrators, and local school boards to prepare. We need time to work with our local county health offices so that we can provide the BEST and SAFEST education possible for the children of Kansas, while at the same time maintaining the health and safety of Kansas educators
7/20/2020 19:04:09	Sara	Brockman		Clay Center	I would like Gov. Kelly's mandate upheld to reopen schools after Labor Day so we can get the case numbers down.
7/20/2020 19:04:24	Bre	McClintock		Salina	I'm a firm believer our children need to be in school for their overall mental, emotional, physical and social health. My 7 year old was so upset when he overheard me talking about the possibility of school being online again this year. He misses his friends, teachers, and academic structure. I'm not sure what delaying school for 3 more weeks will accomplish. I am in full support of whatever USD 305 decides. Superintendent Linn Exline has went above and beyond keeping our community informed. I hope the final decision is made with our students best interest in mind. This is such a confusing time for children in our world and returning to school in a timely fashion can give them back some sense of normalcy.
7/20/2020 19:04:26	Jennifer	Potochnik	Teacher, USD 259	Wichita	Teachers needs time to prepare to receive our students in the safest way humanly possible. Add the days to the end of the year.
7/20/2020 19:04:28	Lacy	Schneweis		Wichiya	Put these kids back on school full time. This is ridiculous that they are suffering because the people "in charge" can't get their heads out of their butts and realize they are damaging these innocent kids!!!!
7/20/2020 19:04:31	Marcia	Lance		Olathe	If it's truly due to not being prepared , why? They've known about this for months. If it's just to delay to appease those who are scared then what will 3 more weeks do ? Those people will never be ready. I saw you open and if high risk or too scared then stay home
7/20/2020 19:04:40	Kira	Otte		Downs	I see no need to rush the opening of school. We need to make sure we can do this safely.
7/20/2020 19:04:57	Nicole	Serrien	Minneapolis Lionbacker	Minneapolis	Stay Closed thru September
7/20/2020 19:04:57	Erinn	Bradstreet	Teacher/parent usd437	Topeka	Delaying the start of school is okay but please consider sleeting sports workouts to continue.
7/20/2020 19:05:04	Amanda	Preno	Educators	Gardner	How are we goong to keep students and staff safe? Please, pleas, I beg of you, think about the safety of our students, their families, my life and my family. Please to not make this about Dems VS Republicans. We deserve more than that. We deserve to have you the Board respect out life and keep us safe. Please vote yes on this Order.
7/20/2020 19:05:04	Sarah	Mattie		Lenexa	Refer to my email for full commentary--you should be able to search your inbox for my name. I am a former teacher who quit because of the constant threats to life and limb of my students, from school employees, other students, and the buildings themselves. Three weeks isn't enough, but it's a start and the least you can do.
7/20/2020 19:05:30	Jennifer	Wiltse	USD 232 DeSoto school	Shawnee	As both parent and 3rd grade teacher I implore you to support the governors order to delay the opening of schools. On Johnson County the cases of COVID 19 are rising faster than ever. This is not the time to use politics to play with the lives of our state's children and teachers!! The guidelines from the state school board were just released last week. Districts need time to evaluate the new regulations and decide on the safest plan possible for teaching our children. I want nothing more than to have student back in my classroom and to send my own children to the schools they love but it is currently not worth the risk of other lives at this time. Please give schools the time they need to make the most effective plan possible and support the governor's order!
7/20/2020 19:05:33	Karen	Haughawout		Park City	Please continue to work for the safety of the students and staff. Virtual school would be the best choice as long as the Covid Cases continue to rise.
7/20/2020 19:05:36	Dawn	Nolde		Larned	I find it absolutely idiotic that you think the deaf need to go without masks when what they need is to be able to see OUR mouths. Masks will cause kids to touch their faces more which will spread more germs than no mask. This virus is spread through water droplets. Therefore unless someone sneezes or coughs directly in your face, your biggest issue is still surfaces and hands. Unless a face shield is used, no mask will do any good in the face of a sneeze/cough. Maybe you should get a lesson in how to handle this from the governor of South Dakota and let free people live free.
7/20/2020 19:05:37	Eriel	Milhon	Republicans	Hugoton	Open the Schools...NO MASKS

7/20/2020 19:05:43	Kyadda	Callahan	Parent- Delaware ridge	Bonner springs	Thank you for pushing back the opening of schools. I think it is Absolutely the right decision. Our district is in Wyandotte County. We are trying hard to make the best decision for our boys. I think the extra time give our districts time to solidify/modify plans so that our children but also all the staff can feel safe! Thank you for doing the right thing. I know so many of our teachers and staff are scared because they have family at home to worry about.
					I'm a high school physical education teacher in Kansas City, Kansas. I love my job. I love my students. I would love to go back to school as usual in August, but that's not a safe or viable option right now. Even if we did go back, things wouldn't be "normal" in my class under social distancing guidelines. Go ahead and take the fun element of team-oriented or interactive fitness activities out of Physical Education. Individual fitness and individual sport drills it is. Who wants to pay for my school to get enough equipment so students don't have to share or go through an insane amount of disinfectant? What about the other three PE classes happening at the same time? Has it also become my job to sanitize every piece of equipment after every use? If so, who is providing the cleaning supplies? Let's talk about 30-40 students in each class breathing heavily during exercise. Gyms and fitness centers have already been labeled as high-risk places to go in public by many health officials. What makes a school gym any different? How am I supposed to enforce social distancing and wearing masks among 30-40 teenagers? "Just have class outside. Problem solved." There are days in August and September that sports practices are limited due to dangerous heat. Also, who will provide tents for shaded workout areas, sunscreen, water bottles, hats, appropriate clothing for my already disadvantaged students? There is so much more to the equation than just reopening the schools. Putting the safety of students and teachers at risk to go back to a physical school is not worth it. How many deaths would this account for? I'd rather not take the chance.
					I'll be the first to admit that online learning in the spring wasn't great, however, we only had two weeks to prepare. This summer, I've been participating in professional development trainings to prepare for either more (and better) online learning or returning to in-person instruction. These professional development trainings are not free. I'm paying for them out of my own pocket. This isn't the first time I've spent my own money during my free time to better the educational experience of my students. Now that we have time to adequately prepare, why aren't our districts or states paying teachers and paying for teachers to learn how to effectively teach online? This is a relatively new concept that most of us have little to no experience with. Give us a chance to learn to do better.
7/20/2020 19:05:43	Josie	Owens	Kansas City Kansas Pub	Overland Park	Yes, school is important for so many reasons beyond a general education. I would love nothing more than to start fresh and return to school normally, but it is not my job to put my life at risk to babysit your high school students. It is my job to educate your high school students in a safe environment. Though it is not ideal, everything we would do in
7/20/2020 19:05:51	Josh	Bowers	USD 380	Corning	Please allow students to return as originally scheduled. We live in a rural area and should not be lumped in with larger districts. 13 counties account for 87.1% of the cases. Let all districts and counties decide for themselves. Thank you
7/20/2020 19:06:02	Leslye	Wilhm		Olathe	I am asking to please delay the opening of schools. There is not enough information that supports reopening safely. Many companies around the country are asking employees to return to the office in 2021. Why do teachers and students need to be the ones to test out the waters first? What is being asked is that a teacher with 150 Students a day and be in a room with poor circulation and no windows and possibly without proper PPE for eight hours a day. We are scared because we do not know what is going to happen. We are scared at what could happen. Why put all of us in harms way just so that kids have a place to go? How will it be handled if students and teachers get sick or worse? I encourage anyone to do what is being requested of us teachers. Come to the classroom, stay in our rooms for 8 hours trying to make sure all students are following protocol. Please listen to our voices. I think we all know it is not safe to open now, next month or the rest of the year. Please help us.
7/20/2020 19:06:06	Sam	Scherer	A teacher	Lenexa	Schools need more time to prepare. Teachers need more time to prepare. Please accept the mandate!
7/20/2020 19:06:08	Mael	Brown	Parents of Kansas Kids	Hesston KS	Stop denying our kids their right to a FAPE, start school as normal! Parents who wish to not send their kids 5 days a week can find their own solutions in home school, online, etc. make it THEIR problem at not being ok with 5 full days, not yours.
7/20/2020 19:06:11	Erin	Engle	Teacher and parent	Olathe	Delay schools. Virtual schools

7/20/2020 19:06:32	Cathy	Jones		Stockton	Please keep schools closed until after Labor Day. Cases are rising in our neighboring counties and I am worried that we will see bigger spikes soon. As a parent and an educator I am worried about becoming infected or having my young children infected. I have elderly family members who I depend on for child care. They live in senior apartments. One of them being infected would be bad for all of them. I also have coworkers who have elderly family members, babies, and health issues. I would hate to see them become infected. I would prefer school to be held online this year. What is the plan if we have a case in our small school? Please help keep us safe!!
7/20/2020 19:06:48	Christine	Hogan		Olathe	Please uphold Governor Kelly's executive order to delay the opening of Kansas schools. The number of Covid cases is continuing to rise. I reside in Johnson County where our numbers are now the highest in the state. I am very concerned about the health of students, faculty, and the students' families if we restart school during this spike. I have been an elementary educator for 34 years. I am also a 56 year old mom to a 13 year old who is also stressed about starting school in person. He is worried that he will contract it and he worries about Covid's short and long term affects. He is petrified that either my husband, also an educator, or I will get it and possibly die! Living day to day in this pandemic is hard enough emotionally and mentally! We mostly stay home, wear our masks if we do have to go out, and social distance. But, if we have to go to school in person everyday during this spike our efforts have been for nothing! I implore you to do the right thing and support the start of schools at least after Labor Day! Hopefully, by then the number of cases will be down. Schools will also have an opportunity to have a safe and solid educational plan in place for in person and remote learning. Thank you for your consideration! Christy Hogan USD231 teacher USD230 parent
7/20/2020 19:07:00	Natalie	Lindsey		Eudora	Please consider the lives going back unprepared will impact. Schools were prepared to go back when KS was flattening the curve. We are no longer there and will not be for the foreseeable future, as people are rushing to get back to doing things normally. If we keep rushing things, there will be nobody left to get back to normal. Please vote to delay schools. It truly is the next smartest option as nobody is willing to shut schools down again. Which is the only fully safe option.
7/20/2020 19:07:09	Katie	Perry		Derby	I believe there shouldn't be a delay. Children are not a big source of transmission of the virus.
7/20/2020 19:07:10	Heather	Thompson		Hanston	Start school like normal, no restrictions, no masks, just go on with life as normal. You can't treat every school the same, some place have no current cases. Kids are especially resilient anyways so let them get on with their lives and stop ruining their childhood over a virus that has been and will continue to be around for a long time. It's no different than the flu which can cause people with already weakened immune systems to get really sick or die. We don't go crazy for the flu and shouldn't for what is especially the common cold bug. Start school like normal!
7/20/2020 19:07:20	Kendall	Toren		Shawnee	Please delay school openings. The CDC has designated Kansas as a red zone and we've seen an overwhelming spike in cases in the last couple weeks. This isn't about politics. This is about keeping teachers, staff, and families SAFE physically, mentally, and emotionally. The amount of stress you would be putting teachers and school staff under is significant. We are all concerned for the well-being of students, but we must also consider the wellbeing of those who will be in the schools with students. Please set partisanship and pride aside and think about what's best for our communities. Delay school openings.
7/20/2020 19:07:27	Douglas	Wolff	Teacher - KCKPS	Overland Park	I feel delaying the start of school will greatly benefit all districts' ability to safely open buildings. As a teacher, I need this additional time to properly prepare for hosting students in the classroom, as well as prepare for a possibility of simultaneously teaching students both in person and remotely.
7/20/2020 19:07:37	Sharon	Ludwig	Retired teacher, mother	Leawood	Please delay in-person instruction until infection numbers go down. Opening schools should only be done when it is safe for students AND teachers.

7/20/2020 19:07:44	Linda	Willoughby	Educator/grandparent	Minneapolis	I support starting after Labor Day to ensure time for districts to properly prepare for the safety of our student I'm s and their families, teachers and staff and their families. Rushed options are never thoroughly planned and executed and I can't imagine the guilt a student or teacher might carry if they thought they were responsible for making others sick let alone if one of their friends or a teacher dies. We can't say it won't happen here. We have to be as prepared as we can be to do this right and safely for all.
7/20/2020 19:07:52	Wendi	Matthews	Parent and teacher in Ol	Overland park	As long as you can keep us safe... let's go back.
7/20/2020 19:08:03	Paula	Athey	USD 231	Gardner	In favor of postponing until after Labor Day for safety of students & staff.
7/20/2020 19:08:10	Carrie	Englert	Cure of ars	Prairie Village	Please do not delay opening of schools.
7/20/2020 19:08:13	Sara	Friesen Guhr	USD 373	Newton	I am a School Social Worker in the Newton, KS public schools. I am also the parent of USD 373 students. I urge you to support Governor Kelly's upcoming Executive Order delaying the start of school. We are in unprecedented times and we MUST do everything we can to provide for the health and safety of our students, school staff, families and communities. The social emotional impact of severe illness and death will be much greater than starting the school year later with health precautions in place. Travel happens between Kansas counties, therefore making it necessary and appropriate for this to be a statewide order. Consistency matters. School staff also needs adequate time to digest and put plans into place now that the KSDE recommendations have been released and approved by you. School Districts will need to look at calendars and how a late start to school impacts them, but this is something local BOEs are used to and capable of doing.  Please, continue to show that Kansas is in the forefront in the Nation of being proactive, positive and UNITED in our response to COVID 19. We led the way in March. Let's continue to do so with the start of the 2020/2021 school year.  Thank you
7/20/2020 19:08:16	Jessica	Arthur	USD 260	Derby	As an educator, this will give us the time necessary to learn and meet all restrictions and be trained for More efficient online learning as well, just in case.
7/20/2020 19:08:20	Megan	Grimes		Minneapolis	if masks are mandated we will not be sending our kids to school. My daughter has a lung disease and its not healthy for any of my kids or anyone else's kids to wear masks all day
7/20/2020 19:08:43	Hannah	Lincol	Teacher	Eudora	I am asking that you please pass this executive order. As a teacher, I fear for the lives of my students families, should they bring COVID-19 home from school. We need time to prepare for the extreme (but necessary) protocols that will be put in place in our buildings. I want to keep my students and their families, and myself and my family safe. In order to do this, we need the time and training to teach during a pandemic. Thank you.
7/20/2020 19:08:47	Laura	Castillo	Turner USD 202	Kansas City, KS	I agree with the order to delay the opening of schools. I work for the school district in the admin building, but also have a child that will be starting 2nd grade. With the rise in cases recently and them continuing to increase, I fear for my daughter's safety and the safety of other students and staff and ultimately their families. There is too much unknown about this virus to risk our students and staff. It can spread like crazy in a classroom and school. If we closed down in March for way less, I don't see how we can even be considering reopening schools in our current situation. Thank you for your consideration.
7/20/2020 19:08:47	Jennifer	Duenes		Topeka	I appreciate what the governor is doing. I am in support of kids wearing masks to school, and do not think delaying school is an issue.
7/20/2020 19:09:13	Lori	Kutilek	USD 268	Cheney	This should NOT be a one size fits all approach. This should be a local decision based on local data and local restrictions.
7/20/2020 19:09:25	Stacy	Martindale		Rose Hill	The mandate to have all children wear a mask is completely insane!! Why is the government allow to make a decision for my children. Open the schools 2 weeks late and let my child and my family make a choice that is right for us rather than the government making that choice for us.
7/20/2020 19:09:29	Jill	Wahl	Parent, IEP student	Montezuma	Schools being delayed is delaying much needed IEP services for my child that already break in the summer. We live in a part of the state without the opportunity to find private services. By delaying to after Labor Day, services will take an even longer break than a typical summer putting my child at risk for more delays.
7/20/2020 19:09:30	Martha	Lisk	Self	Garden City, Kansas	Please make the health and safety of children, administration, teachers, and staff a priority. Also, please consider that many staff people are hourly workers and have very limited sick leave.

7/20/2020 19:09:36	Kara	Wolf		Quinter	Please leave the authority up to the individual counties and school boards, as to when, and how, to open schools. In my county there has been 2 cases this whole time. Our kids are together at the pool, playing summer sports, and fair week, and cases aren't rising. This is ridiculous. And please, do not mandate masks for children!
7/20/2020 19:09:39	Wendy	Hill	SMSD	Prairie Village	I am completely fine with school starting after Labor Day. This assumes the administration spends time on protocols and what online school looks like IF there is hybrid or virtual learning only. how there is no plan already is infuriating. I would, at a minimum, want my children in a school part time.
7/20/2020 19:09:40	Beth	Simon	Teacher	Hays	Please return control of school start and future school decisions to local level!!! Some counties do not have the cases other more populated areas do. A one-size-fits-all approach is not a smart precedent to take. I am a teacher, and I want nothing more than to get back to face-to-face classroom approach. Our children are suffering by not being in school. That does not mean that we cannot take precautions and have other plans in place, however, these decisions need to be based on local community outbreak. Thank you for taking the time to ask for public opinion.
7/20/2020 19:10:12	Morgan	Holy	Parent and substitute tea	Olathe	Delaying children's learning for a virus that is less dangerous than the flu or possibly equal is a terrible mistake. Just because one Person out of 100 COULD become ill or die does not make it okay for the world to stop. It's terrible but no one is making anyone send their children. If prople don't feel safe keep them home but the rest of us and our children should be able to come fine I with life and learning. Also for children wearing masks.. that's a joke. Adults can't walk around without touching them and to tell kids to wear them because it's safer is BS. All kinds of germs (possibly Covid) will be all over their masks that they touch all day and then have pressed against their face all day. That's far more dangerous to them. And again, if a kid or parent wants to wear a mask let them.. but forcing people is not okay. I'll get a medical note for my kid before I make them wear one
7/20/2020 19:10:15	Charlotte	Anderson	SPS Library	Lawrence	I am 64 and want to teach but have underlying health issues which makes Covid very high risk for me and my husband
7/20/2020 19:10:23	Elizabeth	Akins		Derby	I do not think we should be postponing school.
7/20/2020 19:10:24	Shelley	Lierz	Olathe Public Schools	Overland Park	Please DO NOT DELAY the start of school. Kids need to be in school and in sports and activities!!!
7/20/2020 19:10:29	Chelsi	Holinde	Jefferson Elementary Sc	Great Bend Kansas	Please consider letting our kids go back to school on time. These kids have had so much taken from them in such a short amount of time. My kids in particular lost their state wrestling tournament, 1/2 their baseball season, their last nine weeks of school. They lost out on education, friendships, sports etc. They need to get back in school and back to as much normal as they can! So many of these kids need school to escape from the craziness at home, to battle depression, to seal a safe place! Please reconsider making our kids wait another 3 weeks!! Thank you!
7/20/2020 19:10:29	Indy	Sali	DNA Enterprises	Overland Park	Please support GovKelly's Order. We do not yet know the long term consequences of catching the Covid-19 virus. You could be relegating children, teachers and staff that may get the virus to life long harm and consequences.
7/20/2020 19:10:33	Scott	Rose	Na	Fredonia	I think the decision to reopen inperson school and the restrictions required should be made at the local school board level.
7/20/2020 19:10:44	Krista	Hardesty		Minneapolis	If children, K-12 are required to wear a mask at all times and social distance, than we should without a doubt start school ON TIME. Schools should be prepared to open on time. They have had months to plan for this, knowing that it wouldn't go back to "normal".
7/20/2020 19:10:53	Kelli	Svatos	Olathe School District U	Olathe	Please uphold the delay to schools. Numbers are spiking and it is not safe for students or adults.
7/20/2020 19:10:55	Reed	Howard	USD 233	Olathe	Open schools on time. We cannot continue to live in fear of a worst case scenario that is less and less supported by data. We are crippling our community by not allowing ourselves to be resilient and resourceful as we figure out how to live.
7/20/2020 19:11:09	Denna	Rice	Parent	El Dorado	If masks are required for the kids, I'm praying they aren't going 5 days a week ALL DAY. At least hoping for shorter days/weeks. PLEASE
7/20/2020 19:11:22	Stephanie	Ganoung	USD 480	Hays	I work for the local school district and would like for the opening of schools to be delayed past Labor Day so schools can open safely.
7/20/2020 19:11:38	Jennifer	Matney	I am a teacher for USD 2	Wichita	Please consider the health risks for everyone. Please delay the start of school. Consider the hybrid modelwhen students return unless there is a drastic decrease in cases of Covid. Thank you.
7/20/2020 19:12:03	Brooke	Batman	USD 102 and USD 443	Cimarron	Schools need to open ASAP immediately after Labor Day
7/20/2020 19:12:05	Haley	Walker		Ashland	The local board is capable of keeping their district safe, a state-wide order &/or mandates takes the freedom and voice of our people away. Let each district make their decision.

7/20/2020 19:12:07	Karen	Schechter		Hugoton	Do not approve. We live in a small town where there are fewer cases of covid19. Our students are playing many different sports together both inside & outside so they are already together frequently. The students need their time together. Please do not require masks. Kids do not wear them properly & how they are cleaned cannot be controlled.
7/20/2020 19:12:14	Dana	Bridwell	I am a teacher	Goddard	I hope the State Board of Education listens to the facts. People are getting sick, hospitals are full, this virus can be deadly. I am a teacher and want to be with my kiddos, but putting us back in school before this dies down a little is like putting a Mento into a Coca Cola! It will erupt! Kids don't understand germs and how they spread. They pick their noses and touch us teachers...they sneeze or cough and touch us...they go to the bathroom, and touch us. I encourage you to go visit a daycare right now and see how the germs are spreading. I've been teaching for 24 years and know how kids work. Please trust the people that do this day in and day out.
7/20/2020 19:12:29	Kari	Burchett		Osawatomic	I do not support delaying school another 3 weeks. That will bring "summer break" to 6 months with our children getting further behind. I know my young child has not retained anywhere close to where he was in March. Schools have worked to be ready. Delaying does not change COVID and further limits time for education. If the school year is extended into June, interest will be lost as always in the spring. We may need COVID days out of school. We can't continue to ignore the needs of the future generations.
7/20/2020 19:12:36	Dr. Haley	Olson	Seaman School District	Topeka	Please vote to approve Executive Order 2058. As an educator of 13 years who has trained pre-service teachers, I know how much an engaging and hands-on classroom is vital for education. However that is not possible right now with COVID-19. Our students also need a loving and safe environment to learn in. The safest environment right now is to delay school until September 9th, or after, to allow schools and districts to put CDC mandates in place, and plan how best to proceed with the school year. Thank you for voting for the safety and well-being of our students and staff. Dr. Haley Olson
7/20/2020 19:12:40	Catherine	Witte	None	Topeka	I agree with the Governor's executive order. I also commend her for all of her efforts in trying to keep Kansan's safe during this pandemic. Including lockdown orders, mandatory face masks, and holding news conferences to keep citizens advised and updated at this critical time. She has done a better job than many other governors and we should be proud to call her our Governor.
7/20/2020 19:12:46	Jessica	Green	Olathe Public Schools &	Olathe	As a teacher and parent, it will be incredibly disruptive to my students and children to return to school in person. If my daughter is quarantined due to a close contact exposure, I will be the caregiver to stay home with her for two weeks. This will increase the demand for a sub in my classroom and disrupt my students' learning. I have also only seen 80 hours of covid leave - which does not account for multiple quarantines. I would much rather give students a consistent experience by beginning online and returning to school when frequent quarantines are less likely. The argument about student and staff deaths due to covid seems to downplay my real concerns - missed instructional time and serious short and long term health concerns. A staff member who contracts covid May recover from the virus within a few weeks, but may not be able to return to work for much longer.
7/20/2020 19:12:57	Nikki	Meier	USD 437	Topeka	I am currently a kindergarten teacher in USD 437. I have been in education since 1998 and I LOVE what I do! I would like to advocate for teachers and students to go back to school. I see "science" being presented on both sides of the arguments. However, I see a 98-99.9% recovery rate pretty solid in the data from COVID-19. I see children almost exempt from getting sick from it and the data showing more and more the rareness that asymptomatic children pass it onto their families. I deleted all social media off of my phone and have been trying to listen to reputable sources and not all the fear and emotional rants. Fear is illogical. Fear is destroying our nation. I want to go back to work, I believe we are safe and the safest and healthiest place for our kids is in school. We say we do what's best for kids, and I realize some say keeping them out is best, but I respectfully disagree. Please consider overturning the governor's executive order. Thank you for allowing me to be a part of the process!

7/20/2020 19:13:00	Tina	Cowden	USD233	Olathe	I am a 60 year old, 2nd grade teacher who is concerned for my own health but also that of my students and their families. It is unrealistic to expect 2nd graders to wear a mask all day, and not expose germs to each other. I believe until the case numbers are reduced and continue on a downward trend, we should be doing online lessons with out students and not risking the lives of Teachers, students and all the families involved. Please consider these things when you rule.
7/20/2020 19:13:00	Dena	Short	Parent	Pittsburg	I ask you to please keep schools closed until after Labor Day. Covid cases are only increasing in Crawford County, and for the safety of our children I ask that they delaying schools reopening. This virus is proving that it can effect children. I personally know of 4 children in my town who tested positive, as well as a teacher aid in my classroom tested positive. For the safety of our students and staff PLEASE don't reopen school until after Labor Day.
7/20/2020 19:13:07	Sara	Cunningham	USD 290	OTTAWA	I 100% support delaying the start of the school year. My students will be ready to go when buildings open. But, I want the buildings ready for them. Our faculty and staff deserve the safest work environments. Our students deserve healthy environments. They deserve adequately prepared staff for this ever changing world.
7/20/2020 19:13:16	Gwen	Rodriguez		Hugoton	These student have already lost 3 months of good education! A one size fits all rule isn't fair to these students! Let the local school board control their schools! That is what we elected them for!
7/20/2020 19:13:17	Rendi	Aitken		Cheney	Don't delay school! Keep as normal!
7/20/2020 19:13:25	Kayla	Woody		Fort Scott	Comment removed due to profanity
7/20/2020 19:13:57	Robin	Wilson		Shawnee	Please support the delay of school. Once school is back in session, distancing and PPE should be required.
7/20/2020 19:14:00	Miles	Spencer	Kansas resident	Olathe	We are data driven and the data shows that kids, teachers, and EVERYONE is at risk by sending kids back to school. Social distancing is impossible in schools. Support the executive order!
7/20/2020 19:14:25	Samantha	Montgomery		Olathe	Please vote in favor of Governor Kelly's order to delay the start of school. Districts need the time to develop a strong plan based on current numbers. As a para in an Olathe high school, I would like to see more plans in place to keep the staff safe. Paras (myself included) work with non-verbal students with autism who won't be able to wear masks.
7/20/2020 19:14:26	Shawna	Palmer	Parents	Topeka	We should be able to start on time if we are online. The whole state shouldn't have to delay starting school if there are only seven counties that are hot spots.
7/20/2020 19:14:53	Heather	Springer		Olathe	Please keep schools closed until after Labor Day. The extra time will allow teachers and staff time to implement the new regulations and prepare for students to return safely. This will also allow time for cases, particularly in Johnson county, to trend downward.
7/20/2020 19:15:04	Eryka	Benteman	Self	Topeka	Today is a very sad day for local government.
7/20/2020 19:15:05	Ericka	Pursley		Independence	If the students have to wear a mask for there safety then it's not safe enough to open the schools doors. Its ridiculous to put this on our youths shoulders. Open the school back up at the normal time with NO masks
7/20/2020 19:15:08	Barry	Evansq	Topeka West High Scho	Topeka	Please follow the guidance of our Governor. Its really the only safe way to go. Its only a three week wait and hopefully by the start of September, we will be in a better place with the number of COVID cases and understanding that masks are important to the stopping the spread.
7/20/2020 19:15:11	Nichole	Saket		Crawford co kansas	Open in September! Scale back on mask requirements.
7/20/2020 19:15:21	Jessica	Gaddis		Waverly	Please support our Governor's order. All schools need to be the same.
7/20/2020 19:15:34	Graciela	Guthrie	My daughter will attend	St. Mary	Please do not delay the start of school and do not require the kids to wear masks.
7/20/2020 19:15:45	Stephanie	Dryer	Wichita USD 259	2224 w 24th st north, wi	please allow for the delay in starting the school year.
7/20/2020 19:15:55	Chad	Carmichael		Overland Park	I support delaying the start of schools until medical and scientific data supports in-person learning.
7/20/2020 19:15:56	Casey	Rittel	Independent, Employed	Salina	As a pregnant, mother of two school aged children, that works within an elementary school- please DELAY the opening of KS schools until after Labor Day. I'm concerned for my healthy, my children's health and the health and safety of my students and co-workers. I miss my students, my schedule and our it alchemy- and I am more than ready to return to the classroom, but not at the expense of everyone's safety. I want to return when it is safe and appropriate to do so. Returning when numbers in KS are at an all time high has my family gravely concerned about the inevitable community spread and repercussions of mass gatherings.
7/20/2020 19:15:57	Shonda	Serpan	Spring Hill School Distr	Spring Hill	Please let these kids begin school and athletics and not delay it anymore. Transmission child to child and child to adult is extremely low, and the mental health of my child will be challenged if she has to delay school and sports any longer. If some want to do virtual, that is fine, but we should have the option.

7/20/2020 19:15:58	Mary	Vanausdall	Teachers	Shawnee	I think that we need to start school after Labor Day, to make sure Covid numbers go down. We don't really know how it will affect children in the long run.
7/20/2020 19:16:01	Holly	Clark		Olathe	I love that you are waiting until at least after Labor Day. Hopefully the masks will help and the numbers will go down and we can go back eventually. I would rather online school and think bullying in the school is so bad my kiddo would be better at home. I would Like online only option so all students get the same and make it work. For those with AP classes, labs or projects students can go in just for those classes.
7/20/2020 19:16:09	Cassandra	Maughan	Parent	El Dorado	I am fully in support of all kids age 5 and up wearing masks in school as well as the social distancing measures and hand sanitizer. Without these steps I would not feel ok sending my kids back to school this year.
7/20/2020 19:16:31	Jeanette	Harris		Phillipsburg	As an emergency substitute teacher, I think delaying the start of school is one of many things that should be done. Mandatory masks is, in my opinion, the most important thing. The logistics of opening schools while putting all the precautions in place to help prevent infections or spread of infection, like providing for social distancing, staggering class times or days, providing remote learning for some, dealing with crowded lunchrooms, transportation, recess, sports, etc, is going to require extra time and preparation which can be aided by delaying the start of school. Normalcy is not on the menu.
					I am including a copy of the email you each should have received from me last week. I would like to add, I do not envy the position you have been placed in to make this decision. Please know that my feelings have not changed since last week when I penned the following letter and this opinion please not come to easily, but after countless hours, days, nights and weeks researching and studying Covid-19. I have been in close contact throughout this entire process with my mentor and colleague, a physician with over 40 years experience and the Public Health Officer in the county in which I work. Please, allow local districts and counties to have a say in this matter. I realize that many others may feel differently and uncomfortable about reopening, but that is why the option for distance learning is available. Thank you for your consideration. My letter to the board follows.  Members of the Board,  I am emailing you the same item I emailed to my area representative, Jean Clifford, earlier today. I find myself overwhelmed by the compulsion to voice my opinion related to Governor Kelly's announcement yesterday. I realize only one of you represent me in particular, but please don't take this matter lightly, as I am sure there are constituents in each of your areas with the same concerns.  My email to Ms Clifford follows:  I am speaking as not only the Vice President of USD #217 Rolla, KS, but also a Registered Nurse for Labor and Delivery at SWMC in Liberal and a mother of 5 wonderful Kansans. I am very concerned about the "one size fits all" mandate the governor announced yesterday. I am asking for your support in allowing this decision to be left up to local districts and county health departments, per the guidance provided by the taskforce that worked so very hard to create this very robust document.  Positive numbers are increasing of course because testing tripled between April and June, tests were more readily available and the testing restrictions were highly relaxed. What is not readily available to the citizens are the morbidity
7/20/2020 19:16:40	Courtney	Reza	USD #217	Rolla, KS	
7/20/2020 19:16:43	Keri	Niegsch		Frontenac	My children need to be in the classroom not at home alone trying to learn
7/20/2020 19:16:44	Tammie	Wolt	Mom of a junior in high	Gardner, Kansas	Please do not support the Governors mandate. We do not want to start school after Labor Day. Also, my child does not want to wear a mask all day to school. I do not support either mandate. Thank you.
7/20/2020 19:16:45	Rebecca	Lipasek		Baxter Springs	Low cases, start school as originally planned.
7/20/2020 19:17:11	Brandy	Woltkamp		Lenexa	As a resident of Kansas I would like to offer my support of Governor Kelly's Executive Order for schools to remain closed until after Labor Day. With the out of control rise in cases in Kansas, specifically Johnson County, this would give the school districts time to fully prepare to return for the school year. I would encourage my representative to vote in favor of the E.O.

7/20/2020 19:17:16	Michelle	Fuentes	Public school teacher	Wichita	I request that you delay school until after Labor Day. However I am concerned that even doing this will still not allow us in larger districts to return to school safely. I wish for schools to be closed until it is safe for all to attend.
7/20/2020 19:17:18	BRANDEE	Cressler	Parent of usd 265 high s	Wichita	Our house fully supports Gov Kelly delayed opening. People as well as the BOE need to take this more serious than they do. DELAY OPENING
7/20/2020 19:17:25	Jennifer	Beech		Olathe	Please open schools on time in person this August
7/20/2020 19:17:33	Donna	Peters	None	Olathe	Get the kids back to school please
7/20/2020 19:17:42	Amanda	DeWitt	Myself	Lawrence	Schools are not currently prepared for students to be in the buildings. We need to delay school to save the lives of the students, staff, and staff's families.
7/20/2020 19:17:47	Penny	Tallman	Mulvane high school	Mulvane	No. Start school
7/20/2020 19:17:48	Amanda	Hawkinson	Parent	Bel Aire	I believe that it is necessary to delay the start of school for the safety of all those involved. The safety of our children should be our top priority and giving schools the time to implement necessary steps is imperative.
7/20/2020 19:17:56	Rebecca	Boehm	Parent/former teacher	Kansas City	Please uphold the governor's executive order and give our kids, teachers, support staff and administrators a safer school. With Covid numbers as high as they are my children will not be attending in person classes. I am very worried about my children's friends and teachers especially with no masks being required in elementary school.
7/20/2020 19:17:57	Brandy	Johnson		SALINA	I don't understand what delaying 3 weeks is going to do. If you didnt have funding for masks and thermometers and hand sanitizer that we know you are going to require the parents to supply anyways (other than the thermometers) then how are you going to magically get the money on 3 weeks? And you will also be lucky to find anything since everyone is going to be shopping for the same items.
7/20/2020 19:17:58	Brian	Pfannenstiel	None	Norton, Kansas	Open schools before Labor Day.
7/20/2020 19:18:02	Aimee	Thompson		Chanute	My son has been dedicated to long distance running since the 4th grade when a PE teacher noticed he had a gift. If he gets to do cross country in the fall he more than likely will be on the varsity team. This has been his goal since THE 4th GRADE! Taking his freshman year of sports away from him erases a goal he has been training for since he was 9 years old! Please don't take sports and activities from our kids!
7/20/2020 19:18:04	Heather	Lowe		Olathe	One size does not fit all. Not ALL Kansas schools should have to wait to open. The AAP is advising to open schools for the health, social, emotional, and learning needs of our students. You have already put forth guidelines to mitigate risks. If parents aren't comfortable sending their kids to school, then they can choose the online option. As for teachers, no other profession has gotten to complain and not have to go back to work...nurses, store clerks, restaurant workers, etc all have had to continue to do their jobs. It's time for teacher's to step up and do ours (yes, I am a teacher!).
7/20/2020 19:18:25	Shelby	Volkmer	USD 233	Olathe	OPEN THE SCHOOLS ASAP!!!
7/20/2020 19:18:31	Mitchell and Cheryl	Hawkins	Kansans and other Amer	SCRANTON	We support the Governor's executive order to hold school reopening off until after Labor Day. It is very obvious that the rate of the corona virus is increasing. As people are not taking it seriously, I fear that sending children back to school will continue to endanger fellow Kansans. Research indicates that although children may not be as susceptible to the virus as adults, they are still carriers. As children come down with the disease they will bring it home to their families, who will in turn become sick and possibly die. Reopening school endangers teachers, paras, and other staff members who will also bring it home to their families. Given all of this and knowing that there are breakthroughs occuring toward a vaccine as early as in the fall or at least by January 2021, is it really worth opening schools and putting Kansans in further danger? Please consider this subject carefully before making a decision. Thank you for your time. Mitch and Cheryl Hawkins
7/20/2020 19:18:35	Erin	Rydquist		Jetmore	I think each school district should be able to work with their county health nurse to make decisions for their schools. One size fits all just doesn't work for western Kansas.
7/20/2020 19:18:57	Nicole	Simeon	Northern Valley School	Almena	I don't think starting later is gonna make a difference in numbers. I think they should start on time. Kids need to be back in school! They have been out too long already and some are suffering from it.
7/20/2020 19:18:58	Kelsey	Lindberg	Pike Valley High school	Courtland	SCHOOL should open on normal schedule, not be delayed into September!
7/20/2020 19:19:12	Doreen	Carriger	Elementary	Ottawa	Please follow the science and the executive order from our Governor. As numbers continue to rise, maybe the extra time will allow Kansans to follow mask and safety protocols to flatten our curve. Politics have no place in the response to a pandemic. The safety of students, children, and staff should be considered. Thank you.
7/20/2020 19:19:16	Benjamin	Bogue	Parents	Olathe	I don't see what difference three week delay does. I think schools should start on time.

7/20/2020 19:19:21	Karen	Fresh		Maize	Please don't make this political. Please don't vote against the governor's mandate because you want local BOE to have control of decisions. Ask yourself if it is safe to go back to school. RIGHT NOW. If not, vote to accept.
7/20/2020 19:19:21	Sara	McAtee		Olathe	Please support the governor! Safety first! No place for politics!!!
7/20/2020 19:19:31	Debbie	Gudenkauf	USD233	Leawood	Please vote to delay school - yes, kids need to be there but we are at record settings Covid numbers. Sending them to school could push us toward another complete shut down.
7/20/2020 19:19:35	Ashley	Gillaspie	Teacher and parent	Ottawa ks	I support delaying. I also support hybrid or virtual until new cases are at a 0 for 14 days
7/20/2020 19:19:51	Belinda	Andrews-Brumfi	Retired	Pittsburg	Support the Governor's efforts to begin the start of Kansas Public Schools no sooner than Labor Day. Support those educators in your districts who are making every effort to plan for the safety and well being of the students you serve as State Board of Ed. Members. God bless you in making decisions to keep Kansas youth as healthy as possible.
7/20/2020 19:19:52	Jon	Bishop	Parent/Taxpayer/Citizen	Pittsburg	I am writing to you in support of our Governor's decision to delay, not shut down schools. Time is time and the fact is we don't know the long term affect of COVID-19. Please allow the schools to get their affairs in order knowing that they will have to prepare for 3 different delivery methods for educational purposes.  There have been rabid parents around the state griping about how their sons/daughters might not be able to play. I'd rather have my kids around to live their lives, not to sacrifice because they didn't play their game in August. Even local football organizations...The MIAA...are delaying their activities until the end of August and can't compete until the end of September. JUCO's have moved football to the Spring. There's obviously a reason why.  Please take the recommendation of scientists, not Politician's who have their own agenda.
7/20/2020 19:19:57	Sherri	Alverson	Teacher	Centralia	I'm in the high risk category due to age and I had a heart attack last summer, but I feel that most kids need us to be present to learn, build relationships, and to be social. I need to be with people also. The parents can't do this alone with a I-pad while trying to hold a job. We need to get started on time and not wait til Sept. and use the back-up plan if the need arises.
7/20/2020 19:19:57	David	Struve		Kansas City	Keep it closed until Labor Day. Our schools are not prepared and there are not the resources available. I have no confidence in our district able to keep students and staff safe.
7/20/2020 19:20:05	Christy	Hale		Lenexa	I am a Johnson county teacher and I support a Governor Kelly's order to delay schools. Districts need time to prepare now that we have the document from the state. Thank you!
7/20/2020 19:20:06	Elaina	Zumalt	KCK School District soc	Liberty	The amount of anxiety, stress, and risk there is to return to in person instruction is a huge burden to bare at this moment. Please choose to delay the start of school to better prepare for hopefully online learning as Covid isn't just going to disappear anytime soon.
7/20/2020 19:20:20	Samantha	Moran		Salina	Our district has a solid plan already in place to deal with the different possibilities. Let districts start fully online until each district is able to put into place the guidelines provided for operating face to face instruction within buildings. As a Special Education teacher, my students need to get back to their education to continue to make progress towards their goals. Additionally, we are federally required to complete IEPs annually and many will be due before Labor Day. This is a serious legal issue that needs to be addressed if districts are unable to do any version of schooling until after Labor Day. During the shutdown in March-May, the federal level did not make any exceptions to those rules and we will still be required to uphold those legal documents.
7/20/2020 19:20:26	Kelly	Smith		Olathe	As a healthcare worker with 4 kids in the Olathe Schools, I believe we should listen to the governor and delay the opening of our Olathe schools. With Kansas having the most CoViD cases per capita in our nation (and Johnson County having the most cases in Kansas), there is no question that we need more time to flatten the curve and prepare our classrooms to be as safe as possible. Sadly, I think it will take people not being able to send their kids to school to finally take this pandemic seriously.
7/20/2020 19:20:29	Myra	Craig	Olathe school parent	Olathe	The students need to be in class. The statistics show there is minimal risk for students to go to school. In Johnson county of over 600,000 people there have been a total of 16 people that have died that were not a nursing home resident! We make choices and risks driving, eating a poor diet, which has way more consequences than COVID. This virus will have to go through our community either way. Please let the children with the lowest risk go to school and focus on the high risk nursing home and elderly in our community.

7/20/2020 19:20:52	David	Brucker	Kansas Parent	Olathe	Schools and activities should resume. The mental health of these children missing out on all activities they've worked hard for is terrible. Our numbers so the elderly is most at risk and not those commonly found within the educational system.
7/20/2020 19:20:55	Haley	Grabast		Salina, KS	I feel like starting after Labor Day will give school districts ample time to find a way to keep children and staff safe and healthy.
7/20/2020 19:20:57	Mariah	Ramos	Spring Hill High School	Spring Hill	Hello,  I am a science teacher who is urging you to uphold Governor Kelly's order to delay schools. While there are valid concerns regarding the effects on students being outside of school, not a single one of them outweighs the likely death or critical illness of a student, staff member, or family member. If for some reason you don't approve the delay then please mandate if county cases are rising schools must go remote. Kansas is currently one of 18 states that is recommended to scale back reopening. That must include schools to keep people safe. Please make the right (and safe) choice. Thank you.
7/20/2020 19:21:15	Laura	Klaassen	Teacher	Lawrence, KS	Please support the Governor's Executive order to begin school after Labor Day. I want to be the absolute best teacher to my students and I work my tail off during summer preparation so my students receive that from me. With little guidance/lack of answers from my school district, I feel ill prepared for teaching this fall let alone abiding by the new safety protocols. I believe rushing into the school year beginning with so many changes will be detrimental to all involved. Please support Governor Kelly.
7/20/2020 19:21:19	Erika	Showalter		Overland Park	I think it is a well-researched and educated idea to delay school starting until after Labor Day. This allows districts to prepare their staff for protocol changes, get buildings ready with supplies, and hire people/change positions based on district needs. I am an educator and it takes awhile for appropriate supplies to be distributed especially in larger districts. All district personnel as well as students need to be kept safe during this time and if delaying school increases the ability to do that and better plan, then this option seems the best rather than closing and reopening schools. If virtual options are made available to families, it gives schools more time to prepare the logistics of that as well.  I also think that if cases are increasing in certain areas, then they should have to be learning remotely until the number of cases remains the same or decreases. If cases are on a decline, then in person classes resume.  The bottom line is how do we keep staff and students safe. The Board of Education has a duty to maintain the safety of their stakeholders. If delaying school by a month can increase the safety of everyone, this should automatically be the answer. Politics aside, safety should be the first and foremost thought on every board member's mind.
7/20/2020 19:21:21	Megan	Day		Emporia	As both a solo parent of 2 school-aged children and an elementary school social worker, I ask you to vote in favor of Governor Kelly's executive order delaying the start of schools in Kansas until after Labor Day. This is not a radical plan and this does not mean that schools will not be opening- it simply provides much needed time for districts to read the 1,088 page guidelines thoroughly and create a plan with their community stakeholders for their individual community. Districts will also have a few extra weeks to obtain the supplies needed to keep students and staff as safe as possible. As state board members, it is time to put politics aside and lead from the top in the best interests of all Kansas children, families, and educators. The science shows that the pandemic is worsening- again, this is not political... it is science. Leaving this decision to individual districts will likely result in many rushing to re-open their buildings without adequate preparation. We can all see how various communities across Kansas have opted out of the mask mandate, which aligns with the rising cases of covid-19 across the state. A September start time for schools provides districts with the extra time needed to best prepare for this unusual school year. I ask you to set aside politics and vote in the best interests of children, families, educators, and other school staff. You have been elected to lead and I hope that you are able to critically examine the data, effectively weigh the pros and cons of this decision, and put the safety of children and educators above partisanship.

7/20/2020 19:21:34	Mark	Schmidt		North Newton	You must follow the Governor's order. It is an order backed by science, removing the political debate surrounding the mask issue. Our teachers, staffs and children deserve the right to protect their families. While I don't feel an online program will take the place of in class learning, it is the best alternative we have right now in uncertain times. One staff or child death is too much. If we have the chance to prevent a death toll we have to take it.
7/20/2020 19:21:40	Michelke	Laubenstein	Usd234	Fort scott	Uphold Gov Kellys order to delay school until Sept 9th. Our teachers need time to prepare for various teaching environments using the Navigating Change guidance. You will be supporting teachers & ensuring education reform efforts are implemented with fidelity regardless of how the pandemic changes various districts' educational delivery methods.
7/20/2020 19:21:45	Katie	Todd	Teacher USD 490	El Dorado	Please vote to approve the governor's order. We need the time to make appropriate plans to make school safe for our staff and students.
7/20/2020 19:21:59	Stephanie	Matteson		Leavenworth	I feel it is ignorant for a group of tenure educators to want to open school districts with any in person classes. Leavenworth being in the top 3-4 counties with the highest amount of cases. We need to put our teachers, elderly caregivers and our children's lives first. When we cave to pressures from political parties instead of listening to science I begin to doubt our educators representing us with ignorance and greed.
7/20/2020 19:22:10	Sydney	Liposchak	Kansas resident	Mission, KS	As a middle school teacher, I can honestly say that I'm extremely nervous to start back with in-person school so soon. I don't want to put myself, my family, my colleagues, and my students in harm's way. Covid-19 cases are climbing and are so much worse than when we initially switched to virtual learning in mid-March.  Giving us the extra three weeks, and starting after Labor Day, would give teachers and administrators the gift of time. We need to figure out how to SAFELY return to school, protecting our staff and students from Covid-19 and possible outbreaks. How will we social distance in classes that normally have 30 + kids in them? How will we make sure students don't share materials? How will we do temperature checks in schools with large numbers of students? Will there be proper PPE provided for us as well as cleaning supplies (we can't even get clorox wipes in stores anymore)? Please gift us this time to figure out how to return to schooling as SAFELY as possible.
7/20/2020 19:22:11	Kelli	Littrell		Cimarron	Starting schools at a later date or making these children wear masks is not going to change any outcome. To say the least this is a bad idea, and we should move towards a more regular start to the school year. Nothing should have to change or make working harder on all the teachers who are putting in the time and effort to accommodate any and all students.
7/20/2020 19:22:22	Liz	Dickinson		Lenexa	Yes, we should delay the start of the 2020-2021 school year.
7/20/2020 19:22:30	Leanna	Chaffee	Usd437	Topeka	Please open schools safely, on time. Kids need to be in school and are at far greater risk staying at home than contracting the virus. Districts can provide options for those not ready or at high risk to return. Activities have been in session since June. Plans have been made. Open the schools on time. Thank you!
7/20/2020 19:22:32	Spring	Hill	Parent	Edna	My kids attend Labette county. My husband and his dad graduated from there also. My kids need the outlet that sports gives kids. They love the team work and joy that comes from participating in sports. Please let our kids play. It is necessary for healthy, well rounded kids that become adults. They learn you don't always win and you can work harder when you lose.
7/20/2020 19:22:43	Alicia	Looney	Parent	Derby	This is not an easy decision to make. I think allowing the school year to start three weeks late will give the school administrators valuable time to gather PPE and essential cleaning supplies to keep the students and staff safe. There is also the need to rearrange classrooms to allow students to distance. Three weeks is not insurmountable in terms of hours. Please allow the Governor's recommended plan to start school after Labor Day with accommodations and safety measures.
7/20/2020 19:22:49	Shanna	Natalini	None	Pittsburg	Open schools in Aug when they typically open! DO NOT DELAY!
7/20/2020 19:22:57	Heidi	Cox	Brewster 314	Brewster	One size does not fit all. Open schools on time or leave it up to local boards.

7/20/2020 19:23:08	Sydney	Liposchak	Kansas resident	Mission, KS	<p>As a middle school teacher, I can honestly say that I'm extremely nervous to start back with in-person school so soon. I don't want to put myself, my family, my colleagues, and my students in harm's way. Covid-19 cases are climbing and are so much worse than when we initially switched to virtual learning in mid-March.</p> <p>Giving us the extra three weeks, and starting after Labor Day, would give teachers and administrators the gift of time. We need to figure out how to SAFELY return to school, protecting our staff and students from Covid-19 and possible outbreaks. How will we social distance in classes that normally have 30 + kids in them? How will we make sure students don't share materials? How will we do temperature checks in schools with large numbers of students? Will there be proper PPE provided for us as well as cleaning supplies (we can't even get clorox wipes in stores anymore)? Please gift us this time to figure out how to return to schooling as SAFELY as possible.</p>
7/20/2020 19:23:12	Rhonda	Meyer		Olathe	<p>Please support the Governor's EO to delay the start of school until after Labor Day. No matter if a community is currently experiencing high rates of infection or not, schools - especially staff members- need additional time for training, planning and preparing for any teaching scenario, not only after Labor Day, but at any point in the school year. Teachers have never been trained to teach in a hybrid or remote situation and to not give them additional time to be prepared would be like sending me into a burning building and handing me a firefighter suit and a hose without training on how to use the equipment.</p> <p>I understand some of you support local school board decisions about this, however, please consider the ramifications later to students when a district who needs to close and staff were not provided training to teach remotely. We will be right back to the problems and difficulties that were seen in last quarter.</p> <p>I know this is an extreme difficult decision and there is no clear right or wrong answer, however I believe that the benefits of waiting will clearly help prevent negative outcomes in the future.</p> <p>Thank you for your service to the education of our youth.</p>
7/20/2020 19:23:20	Annie	Varsolona	Teacher	Frontenac	<p>Please support the Governor's Executive order for the safety of students, teachers, staff and their families. It love my students and want to be back in school, but I want to do it safely. I love my students but I love my family more. I should not have to put their health or mine in jeopardy to do my job. Please support order 20-58.</p>
7/20/2020 19:23:45	Laura	Harris	Olathe School District	Olathe	<p>Please delay the start of school opening. This gives teachers and staff time to prepare and learn how to keep children and adults safe. Every school procedure and interaction until this point in schools has required physical closeness. From the way that building layout is designed, food distribution, simple classroom procedures, moving about the school etc. As an elementary teacher, we have spent decades or more learning evidence based pedagogy that promotes student engagement. These strategies include manipulation of shared tangible tools and resources and student collaboration. For this reason, teachers are literally going back to the drawing board without data backing new education practices that promote physical distance. The tools, procedures, and methods now being used or prepared for classrooms are new to both teacher and student. Teachers need time to learn how to use and implement digital tools and develop new procedures for the school areas to keep children safe. Families will need time once these procedures are developed to teach and practice with small children to prepare them for bus riding, school arrival and dismissal, and other building procedures. Please uphold the delay of school opening.</p>
7/20/2020 19:23:46	Jenny	Edwards	Parent of USD 233 student	Olathe	<p>I fully support the Executive Order from Governor Kelly. Schools are not prepared to provide and solve for the pandemic, especially given that our society is seemingly incapable of implementing and following policy that would slow the spread. We cannot in good conscience put teachers, staff and students in harms way just to try to prove we can "return to normal". Virtual learning plans must be considered normal at this point, particularly when our local school board holds its meetings virtually at this time. Thank you.</p>
7/20/2020 19:23:57	Caleb	Lee	Olathe Teachers	Olathe	<p>Uphold the order. Save lives.</p>
7/20/2020 19:24:09	Lisa	Mason	Oak Street	Goddard	<p>Delay til after at least Labor Day</p>
7/20/2020 19:24:15	Brooke	Howell	Usd232	Shawnee	<p>REMOTE LEARNING THIS ENTIRE YEAR PLEASE!!!!</p>
7/20/2020 19:24:17	Kathleen	Peters	Teacher at USD 206	Whitewater	<p>I think we should go to back to school on our scheduled start back date. Most of our kids NEED teachers who care for them and teach them. They don't need to be sitting at home (many of them) alone. I am a public school teacher and a mother of four school-aged children.</p>

					Delaying the start date for school adds financial and emotional stress in an already stressful time. This requires me to find extended childcare for the time that school has been delayed, which will be a financial burden. I respect that some parents don't want to send their children to school and have the luxury of staying home with them, but I do not. I appreciate the options set forth by the school district to provide at-home, in-person and hybrid options. My son receives more than just education when attending school in-person. During the 2019-2020 school year I saw an improvement in his social and emotional health resulting in a huge increase of self-confidence. I have watched his creativity, imagination and self-confidence diminish since schools were shutdown in March. He needs Language Arts, Science, Math and Social Studies. He needs Art, Library, Music and PE. He needs time on the playground with his friends. He needs structure. He needs to accelerate his education not delay it!
7/20/2020 19:24:26	Mindy	Hickel		Olathe	
7/20/2020 19:24:36	Tom	Schechter		Hugoton	Do not wait until after Labor Day. Kids have been together for six weeks. Rural areas are different then urban areas because kids are in the open more. No face masks.
7/20/2020 19:24:38	Lindsie	Nygaard		Valley Center	I think school should start in August like normal. I believe our children have missed out on so much over the past few months. I am afraid as to how this will affect them long term.
7/20/2020 19:24:38	Melissa	Scott	KCKPS	Olathe	Please vote to delay in-person learning until after Labor Day.
7/20/2020 19:24:57	Michael	Frint	Myself	Manhattan	Please follow the medical facts and science and NOT what our other leaders are doing on this matter and following political allegiances. This is a health and public safety issue and nothing more. The COVID numbers are increasing and schools have somewhat of a plan and the state just provided a plan. More time is needed to prepare. While I am in education as my profession I know no plan is perfect but the medical facts say we aren't ready for mass gatherings yet, ie schools. Please keep our kids and educational staff safe by following the governor's order to wait until after Labor Day to start school.
7/20/2020 19:25:01	Cindy	Richardson	Kansas teachers	Derby	THANK YOU. Kansas teachers feel valued when you put staff and student health first. If businesses and even school boards are meeting REMOTELY to decide our fate, we should not pull together large groups of children and school staff. If Kansas closed school when Kansas Covid numbers were relatively low, it doesn't make sense to open when Covid numbers are currently increasing by the thousands!
7/20/2020 19:25:03	Kathleen	Newdham		Merriam	Keep the schools closed till labor day. Please don't cancel fall sports!!
7/20/2020 19:25:03	Hillary	Garcia	Parent USD 453	Leavenworth	Hi! I am fine with students starting in August, normal schedule. I have twins going into 9th grade. They have been working out for football and volleyball since early June. 0 issues to my knowledge with COVID spread or illness among the athletes. We had online learning only this past semester, for 8th grade. It was awful. Our school only required 13 year olds to check in (and email was acceptable) vs. being online 2 times a week. My students were completely disengaged, often asking to just miss a day altogether. Rarely were more than one or two students online when they popped on. They fell so far behind and we struggled. I'd favor an option of homeschooling or in person but allow those of us who want to return on time to do so.
7/20/2020 19:25:06	Lisa	Carbon		Topeka	Please allow kids to practice sports and open up facilities. My sons mental health is declining due to no sports and school being delayed. Hes going to be a Senior this year and feels things are slowly being taken away
7/20/2020 19:25:17	Jeff	Rydquist		Jetmore	I feel the kids have been out of school for far too long and need to get back into a somewhat normal routine. I also feel that each school board should work with their local county health officials and school staff to help determine what is best for their district instead of being mandated to follow a cookie cutter solution that won't work for everyone.
7/20/2020 19:25:18	Rusty	Slusser	Home	Cheney	Open schools no later tuesday after Labor Day.....maybe it's at home online first 9 weeks....or a hybrid. Make sure schools do what they can to wear masks when kids are grouped together.....have parents sign waivers..
7/20/2020 19:25:23	Tom	Franek	Parents	Beloit	How on earth are you going to keep Young children K-3 wearing masks? And what are you going to do if and when the children Refuse to wear them.? Are you going to make parents keep those children home, and if so are you going to supplement them for childcare.
7/20/2020 19:25:25	Nicole	Jenkins	OLATHE schools.	Overland Park.	Please accept Governor Kelly's mandate to delay school start. We need to keep teachers and students safe. Once community spread is decreasing schools could safely start in person.
7/20/2020 19:25:26	Rebecca	Rookstool		Wamego	Let's model for our kids how sacrificing looks for the greater good. Thanks to Governor Kelly's leadership. Pools, daycare, sports teams, camps, are all open. School should be open too.

7/20/2020 19:25:28	Shawn	Mason	Oak Street	Goddard	Delay til after Labor Day at least
7/20/2020 19:25:29	Christina	Smith		Pittsburg	Please let them play. They need the socialization with their friends. They need something constructive to do. As a society we tell our children to get outside and play but yet we are not letting them go outside and play. Thank you for your time.
7/20/2020 19:25:35	Matt	Sallman		Olathe	Please start school per normal schedule. Thank You.
7/20/2020 19:25:46	Courtney	Shepherd	USD233 5th grade teach	Olathe	I think schools should be closed until Labor Day and we should do online schooling if our numbers are rising!!!!
7/20/2020 19:25:48	Jamie	Lonnberg	Hodgeman County/USD	Jetmore	Please no. Please don't apply a one-size-fits-all plan to all districts. My district is small. We are not dealing with the same problems as largely populated areas. Masks are not recommended by pediatricians. We need to get as much face-to-face learning done as possible in case of an outbreak. We don't need three weeks. We need to start ASAP.
7/20/2020 19:25:57	Rebecca	Mandala		Mulvane, KS	Please approve this order which will give schools and communities more time to prepare for safe schooling this fall!
7/20/2020 19:26:01	Jessica	Doering	Minneapolis Grade Scho	Delphos	I agree that school should be postponed until after Labor Day! The safety of our kids, teachers, and support staff has to come before everything else.
7/20/2020 19:26:18	Jamie	Engstrand		Wichita	Delay school reopening!
7/20/2020 19:26:29	Jacci	Lei	Parent	14350 W. 81st Terrace	I think we should delay the start of school. I think teachers need more training to do online work. It is reckless to send children where we KNOW they can get sick.
7/20/2020 19:26:44	Jerome	Engstrand		Wichita	Delay school reopening!
7/20/2020 19:26:49	Katy	Kinney	WestRidge JR High	Lenexa	Please delay school until Labor Day or start online/virtual school on time.
7/20/2020 19:26:55	Rorie	Yontz		Derby	It's pointless. Open the schools. If everyone else can go to work and kids can participate in extracurricular activities, go swimming, etc. with precautions in place, then they can go to school.
7/20/2020 19:26:56	Andree	Pledge		Overland Park	Starting after Labor Day seems smart and will give districts the time to prepare for the year. Hopefully it will also allow for some form of in-person class. If rushed, I worry we will be all online by October. This is not a political issue with the Governor and KSDE - it's about doing what is right for the kids and community. Please uphold the EO and help us start to contain this virus before it's too late.
7/20/2020 19:26:56	Andrea	Calderwood	Goddard	Goddard	Online only
7/20/2020 19:27:01	Stephanie	Smith	In	Wichita	In the interest of public health, in particular the teachers, schools need to remain closed per the governor's order.
7/20/2020 19:27:04	Andrea	Kelley	Schools	Sedan	I want school just like everyone else, but I also don't want to get sick. I can't afford it. I know this will seem selfish but my son has had two surgeries recently. I owe \$6,000 to 2 hospitals. I don't want to lost anyone I love. Also, I am the school nurse and I worry about the students and not just when I'm there. I want them to be healthy and I want there families to be healthy. I don't want to lost a student or a teacher to this virus. Or, a student Or staff members have long term health affects from this. Please for just one year can we please take precautions? Just one year. Thank you for listening.
7/20/2020 19:27:13	Tracy	Homan	Educator	Fort Scott	We need to do everything possible to stop the spread. We need time for the number of cases to decline. We also need time for schools to plan and prepare. We just received the guidance from the state, so now we need the time to implement it. In order to start in the safest way possible, we need to delay the start until after Labor Day.
7/20/2020 19:27:22	Carrie	Skorupan	Teacher	Overland Park	Kids need school! parents need to return to work and if we make good choices with smaller class sizes and think outside of the box. We can make school work. Online school does not work in Kindergarten for students/parents/teachers
7/20/2020 19:27:30	Heather	Froese		Cimarron	If you keep schools closed then during that extra few weeks elementary students should be brought in individually to each classroom teacher from previous year 2019-2020 with masks and other PPE to do some sort of testing to figure out where they are to prepare for the 2020-2021 school year. Or do online zoom class for those few weeks with pervious teacher for like a jump start before they move on to the next grade.  High school and jr. High should start class online as a test run for online in case the schools would need to shut down. To prepare and plan ahead for what might come.
7/20/2020 19:27:34	Lauren	Tehel	Magdalen catholic scho	Wichita	Please start k-12 in all schools!! Kids need education now! The virus isn't going anywhere!
7/20/2020 19:27:46	Mandy	Lofgren	USD 475	Junction City	Please delay so we can be prepared with the PPE necessary and all the protocol in place for everyone's safety.

7/20/2020 19:27:51	Cheyenne	Schnider	Colby Grade School	Colby	I would really encourage a delayed start. As an educator I do this job to protect my students and take care of their well being. The people in rural Kansas do not think this virus is a real threat. They have went against every health official saying to mandate mask, social distance and I fear they will continue to do so. PLEASE do the right thing we can not take care of our students if we are all getting sick every other day. We need time to prepare as educators we deserve that much after what happened the past few months! Please don't make us choose between the health of our families and risk our own children. We need time to get this done right and not rushed. We can do this!
7/20/2020 19:27:53	Bethany	Mosburg		Garden city	I would like if the board votes in favor of Gov. Kelly's order to delay school until after Labor Day.
7/20/2020 19:28:02	Nancy	Riecker		Emporia	Please approve this extension! Give us time to prepare and slow the spread.
7/20/2020 19:28:05	Kristina	Mullen		Bennington, KS	Please allow schools to open as soon as possible. Each district should be allowed to decide if they are ready or not. Our school district already has a plan and supplies ready to go. Thank you for your hard work and dedication to keep long students well physically and emotionally.
7/20/2020 19:28:07	Chad	Carmichael		Overland Park	I support delaying the start of schools until medical and scientific data supports in-person learning.
7/20/2020 19:28:08	Molly	Romer	Parent	Olathe	Kids need to be in schools. I am a firm believer this is best for the mental health. Covid numbers are at the bottom compared to flu car crashes breast cancer etc. I feel like they can get back to a somewhat normal which is better then nothing.
7/20/2020 19:28:12	Corey	Meyer		Olathe	We need to delay the start of the school year until we have better safety measures in place for students and teachers.
7/20/2020 19:28:20	Jennifer	Greenlee	Baldwin Elementary Pri	Baldwin City	<p>Good Evening,</p> <p>I am a preschool classroom para educator. I work at the primary center in Baldwin city.</p> <p>I have many concerns with our schools reopening, but at the very least I support them not opening until September 9.</p> <p>I understand that kids need to be in school. As educators, we want to be there too! But it's just not safe for anyone involved right now.</p> <p>I am 37 years old and have a condition called chronic hereditary pancreatitis. I was born with this and in turn, I am also diabetic because my pancreas does not work. I'm sure you are aware that being diabetic makes you high risk.</p> <p>My daughter, Makayla is 7 years old and headed into second grade. Since my disease is hereditary, that means it's been passed on to her. She's not diabetic as a result, however she is also high risk.</p> <p>My Mother, (I'm sure you can see where this is going), is diabetic as a result of chronic hereditary pancreatitis.</p> <p>My family is not the only family in harms way as a result of working in and attending school. My daughter and myself not only have potential to contract Covid, we could pass it on to my Mother or any other high risk person outside of school. Am I supposed to keep my daughter away from her grandparents and family in order to attend school for months on end?</p> <p>Among many obstacles funding is not there to properly keep schools clean and sanitary. Our jobs will turn to daycare and cleaning instead of teaching kids. We cannot return until it is SAFE.</p> <p>Thank you for listening. I appreciate the impossible task that you have been faced with.</p>
7/20/2020 19:28:23	Diane	Mason	Public Education	Hays	Please uphold Gov. Kelly's decree to delay the start of school until after Labor Day. This is not an unreasonable decision. If not her plan, then what is your idea for the health safety of staff, students, teachers? Just today, I received notice that a positive case of COVID was identified at Fort Hays State University; the virus is alive and well. Thank you.
7/20/2020 19:28:35	Lacey	Grogan		Saint Francis Kansas	Open our schools. Provide opportunities for hand hygiene and lets move on!

7/20/2020 19:28:36	Kristina	Scott		Goddard	Please delay the opening of schools until after Labor Day or until our cases are on a decline. I am a teacher and can't wait to get back to my colleagues and kids, but not at the risk of losing one of them to COVID. I am also a parent with 2 kids (1 a freshman and 1 5th grader) who want to see their friends and participate in band, football, and cheer. We all have been following the recommendations and wearing masks. We hope that our community will see the importance of this and use these next few weeks to follow suit and get our state back on track for a reopening that will look and feel more like a normal school year. I don't envy your position and pray for you daily that God will guide your decisions. Bless you and bless the great state of Kansas!
7/20/2020 19:28:39	Rachel	Ommerman	parent	Shawnee	Please vote in favor of Governor Kelly's executive order to give the schools more time to make the best choices to make everyone safe and educate our kids.
7/20/2020 19:28:53	Ashley	Richardson		Cheney	School start in August as normal
7/20/2020 19:28:48	Sydney	Liposchak	Kansas resident	Mission, KS	As a middle school teacher, I can honestly say that I'm extremely nervous to start back with in-person school so soon. I don't want to put myself, my family, my colleagues, and my students in harm's way. Covid-19 cases are climbing and are so much worse than when we initially switched to virtual learning in mid-March.  Giving us the extra three weeks, and starting after Labor Day, would give teachers and administrators the gift of time. We need to figure out how to SAFELY return to school, protecting our staff and students from Covid-19 and possible outbreaks. How will we social distance in classes that normally have 30 + kids in them? How will we make sure students don't share materials? How will we do temperature checks in schools with large numbers of students? Will there be proper PPE provided for us as well as cleaning supplies (we can't even get clorox wipes in stores anymore)? Please gift us this time to figure out how to return to schooling as SAFELY as possible.
7/20/2020 19:28:58	Susan	Goodwin	Shawnee Mission School	Leawood	Please be smart and think out of the box when thinking about school starting
7/20/2020 19:29:12	Stacey	Sales	Olathe USD 233	Olathe	I am an Olathe teacher and parent. I am pleading with you to uphold Governor Kelly's EO stating the school start should be delayed until after Labor Day. Not only will this give us time to reduce viral cases in Kansas, it will allow districts adequate time to obtain supplies needed for safe re-entry, to train teachers and staff about safety, and to prepare the best learning environments possible for students both in the classroom and those learning remotely. It will allow immunocompromised teachers like myself the possibility of returning to in person teaching, which is what we want more than anything. Do not leave this up to individual districts to make the decision for themselves. Doing so will continue to encourage the spread as some will opt to begin in just two to three weeks. The results of that could be devastating and will likely lead to further re-closures of many districts.
7/20/2020 19:29:15	Sandrah	Pierce		Pittsburg	I'm not afraid to return to work myself. I can wear a mask. However, with numbers growing in Crawford Co. daily I fell this is something we should consider. If teachers would get sick.. who's going to sub for them. I think this is something to take into consideration. Also as for fall sports, I think travelling and bring sickness to the respective areas should be considered.
7/20/2020 19:29:15	Aimee	Probasco		Gardner	I believe schools should start back at their original start dates. Parents that do not want their children back in the school buildings yet can choose the virtual learning option. Not all parents have the luxury of staying home with their children an extra three weeks or have extra funds for longer summer care. I am sure schools were already putting plans in place before this executive order and they can continue on with those plans.
7/20/2020 19:29:20	Alicia	Beeson		Norton	I don't feel mandating masks to counties with a low covid rate should be wearing masks. Masks cause breathing issues, anxiety, and could cause long term harm. The governor should not be allowed to make decisions in counties she never even visited.
7/20/2020 19:29:31	Jacki	Adams	Maize Elementary	Maize	We need your help to let our kids go back to school! They NEED this so much!! Please consider letting them go back in August and the kids under 5th grade please consider NO masks!! Please please our kids love school and it will be so much harder on them in the long run! Please listen to the pediatricians!!
7/20/2020 19:29:40	Elizabeth	Tally	Blue Valley Schools	Overland Park	As a teacher, I believe it is best to keep our students and staff safe. Schools should be delayed until after labor day, assuming the numbers go down. Safety should always come first when I consider the students and staff that I love dearly.

					Schools need to reopen on time (for my district is Aug 11), without restrictions for the kids. On site, no masks and little social distancing. Hand washing, elbowing for coughs/sneezes, and not allowing sharing food or drinks is always a practical health policy which will go a long way if emphasized with this virus. According to studies and information from many doctors of various practices, the risks to children for serious illness from this virus are “statistically zero” and the spread between children, or children to adults, is “exceedingly rare”, based on those facts I feel pushing the start of school back (which will cost teens their fall sports seasons) is not only unnecessary but irresponsible. Many children would be better off getting the virus than stuck in bad home situations with no escape any longer than they already have been. Many student athletes need these seasons for college scholarship opportunities. The detrimental psychological/emotional impact of not being able to socialize with friends as they learn from their teachers is immeasurable. Kids need schools open. Parents need schools open - remote DOES NOT work for extended periods and, would cost me my job as I would need to be home with my 8 year old, we have no sitter available or means to pay them if the school program is shut down again, I imagine there are many families in the same boat. If there are teachers or staff with concerns for their own health or a loved one at home they can wear masks and face shields and gloves plus social distance and practice good hygiene to keep themselves safe - if those things work as we’re told they do, they should be amply protected. The kids don’t need to continue to have their lives upended for a virus that isn’t going anywhere (so, how many more times will the governor push the start date back?), has less than 0% chance statistically of making them even ill at all, adults or compromised children can protect themselves from if they follow precautions themselves, and has a 99.9% survival rate for those who get it. There just is no sensical justification to delaying the start of school, costing families more weeks of daycare expenses or lost work hours, and costing older kids their sports seasons. None. The cases of this illness increased for many reasons (huge increases in testing, elective surgeries scheduled so more ppl in hospitals with possibly positive tests, false positives, marches, parades, protests, possibly outright flubbing the numbers...etc.etc;) but hospitalization and death rates have decreased or maintained - so, why the renewed vigorous restrictions? It makes no sense. Children are the least vulnerable population so, with precautions the vulnerable adults and students can take to protect themselves and the fact there are proven treatment regimens now available, why would we take such restrictive measures as to keep kids away from their education, sports, and social health? Please make your decision by listening to the studies, statistics and top pediatricians recommendations, rather than a politician. Thank you for your time.
7/20/2020 19:29:42	Katie	Mikesell		Aurora, KS	
7/20/2020 19:29:42	Susan	Arp	KCKPS - USD 500	Overland Park, KS	I teach one of the most at-risk students in our state: 3-5 year children that qualify for Head Start AND have autism so severe that they require a more restive environment to learn and be successful in school. I beg you to give districts time to develop a safety plan and train teachers on how to implement! Thank you.
7/20/2020 19:29:46	Kirk	Zimmerman		Andover	Please open schools as soon as possible. Online or homeschooling can be offered to those who feel uncomfortable. Let each district decide. And for the love. We need sports!!! My own children have become withdrawn. Football. Cheer (normal. With stunting. Etc). Basketball. All of it. With precautions. Wash hands. Screening. But these kids are hanging out together out of school anyway. They will be fine!
7/20/2020 19:30:07	Michelle	Willey		Derby	Yes, delay until after Labor Day
7/20/2020 19:30:12	Morgan	Lee		Olathe	I do not want to see my students, my co-workers, or myself in danger. Please do not reopen schools until the medical and health professionals deem it safe and necessary. That time is not now.
7/20/2020 19:30:20	Carla	Heideman		Andover	Please delay the start of the school year for the safety of our students, faculty and staff. School was cancelled in March due to the virus and now cases are increasing significantly every day. How can we open schools? It is unreasonable to demand so much out of our teachers and unrealistic that students will keep masks on all day.
7/20/2020 19:30:20	Alison	Persaud		Overland Park	I 100% support delaying the start date. It’s pretty inconsequential in the scheme of things and while I doubt our numbers will go down by then it at least gives them a chance.
7/20/2020 19:30:36	Melissa	Buteyn		Wichita	We need to have a plan that has phases like the state shut down does, based on the percentage of positive tests. If a district is in an area with a high positive rate, they must be virtual until it is lower. Schools should be safe for adults and students. Returning to school now in the Wichita and KC areas would be disastrous. Please use science and not politics to be stewards of our safety.

7/20/2020 19:30:38	Jenny	Covey	Parent/Teacher	Uniontown	I support starting school after Labor Day. The governor is trying to help Kansas schools. Please support her executive order. I love my job and look forward to every year with my students. This is my 23rd year of teaching. I am terrified for my daughter and all our students. My sister and mother also work in the public school system. Kansas needs to get the virus under control before we go back to school. Please do everything you can to protect our staff, students, and the families they go home to. I am also very worried about students—including my own—participating in sports. Traveling to other schools and having close contact with lots of other students seems like a recipe for the virus to spread even more.
7/20/2020 19:30:49	Susan	Topping	My family	Derby	Please uphold Governor Kelly's executive order to delay the start of school until after Labor Day,
7/20/2020 19:31:04	Lori	Bettis	Teacher	Overland Park	Please vote to delay to give us teachers time to adequately prepare and to get Covid numbers down so we can ALL be safe! We teachers want to be in school but we want to be prepared and safe as well! Thank you!
7/20/2020 19:31:06	Shayna	Leahy		Hiawatha	I work at a small rural Kansas college In a county with very few Covid cases. We held 8 days of in-person classes before flipping to remote instruction due to quarantining symptomatic students and their roommates due to exposure. Last week we had 1 positive Covid case. Today we have 10. Our classrooms had 6-ft social distancing spacing for desks, masks were requested in public spaces. Our students are "adults" who can understand and follow rules.  Please uphold the governor's order. Our schools are not ready for this. Even with best practices in place this virus spread through our students quickly. Please give our schools time to better prepare. You will help save lives.  Now, more than ever, we need a unified state response to this crisis. All Kansans need to work together to stop the spread. Thank you.
7/20/2020 19:31:09	Robin	Kingeter	Johnson County Resider	Overland Park	Please delay the start of school for the health and well-being of our students, their families, and the people who work in schools. It is not worth risking lives.
7/20/2020 19:31:09	Cheryl	Ritter	Educator in USD 305	Salina	Local school boards should make decisions on local schools.
7/20/2020 19:31:21	Ty	Cass	USD 388	Ellis	Our children need purpose and our children need the best education they can get. That is in a physical classroom and taught by the great teachers in our state, counties, and cities. I believe they can attend school safely with the protocols that were already drawn up and were to be put in place before the Governor issued her mandate. Also, these students need extracurricular activities that give them purpose and drive to be the best they can be. I've seen these students deflated time and again when they think school and activities will not happen. They need purpose and some normalcy to be the best they can be. Please vote to go forward with school on schedule and against the Governors latest mandate. Thanks for your service.
7/20/2020 19:31:21	Rita	Ortolani	Tax paying citizen of Ka	Independence KS	1. Education has had since mid March to plan. Delaying should not be necessary. Parents and students should not pay the consequences of the lack of planning. Our high school made no changes in curriculum from the day school dismissed until the end of school. The lack of communication from the teachers was unacceptable to keep a student on track. 2. I don't trust the governor that school won't be delayed again and again if she is granted this initial overreach. 3. All children are entitled to attend school and an equitable education. 4. Again 2 weeks won't make a difference - I believe it would only be the first of many delays.
7/20/2020 19:31:50	Helen	Meiss	Parent	Shawnee	Please uphold Governor Kelly's order to delay school start.
7/20/2020 19:32:15	Rachael	Roth	Parent of a High School	Topeka	I implore you to accept Governor Kelly's EO delaying the start of school. It is imperative that we do all we can to keep our students, staff and their families safe.
7/20/2020 19:32:20	Karla	Defore	Wellington High School	Wellington	I believe that as Covid-19 is not under control in many areas of the state, school districts need extra time to prepare for the safe return of students and staff to school. Procedures need to be developed, vetted, and practiced. Please vote for delaying the start of school.
7/20/2020 19:32:22	Gentry	Slocum	Hugoton public schools	Hugoton	This should be a district decision. Our community has had summer weights and basketball, football and volleyball since they were permitted to with zero cases of COVID. Kids need these activities.

7/20/2020 19:32:23	Cami	Cook	Parent and Teacher at U	Bucklin	Please let us go back to school! Our kids need this. Let them play sports! We are in western Kansas and can't risk going to school in June. That would effect wheat harvest and so many of our kids help with harvest. Please let us go back to normal!
7/20/2020 19:32:40	Eryn	Koons		Salina	Delay start til Sept
7/20/2020 19:32:45	Jodi	Pille	Blue Valley	Eudora	Our Elementay kiddos cannot learn online. They need to be back in school. To not open the doors, this will only hurt our lower level and children that need one on one learning and supports.
7/20/2020 19:32:49	Jessica	Harris		Merriam	Please keep school buildings closed. Give the districts more time to come up with a safe plan that is realistic. I am a kindergarten teacher. Right, now there is not enough time to ensure the safety of students and the adults who serve them. Please keep us safe.
7/20/2020 19:32:51	Jessica	Traffas	Parent	Wichita/Goddard	Please open our schools ASAP!
7/20/2020 19:32:55	Sara	Wenke		Lawrence	Delay school please- so hopefully we have the funding and time for the districts to get ppe and rooms set up properly. Also hopefully we'll see a down trend in covid. Thanks!
7/20/2020 19:33:08	Sean	Roth		Topeka	Please accept Governor Kelly's Executive Order delaying the start of school. It is important that we do all we can to keep our students, staff and their families safe.
7/20/2020 19:33:11	Sara	McKinney	Parent	Olathe	I support Kelly's order to delay school opening. Schools just got the 1100 page guidelines. Some guidelines are now mandatory. School Districts must have all this in place to ensure student, teacher and staff safety. Even one child or teacher or staff member dying from contracting Covid-19 is unacceptable. Community spread is still going in Kansas. We need to see a decline. Waiting until Sept will give the mask order (at least in those counties that enforce it) time to work. Our students, teachers and staff deserve and need the extra time.
7/20/2020 19:33:37	Sandy	Phillips		Chanute	Let local school boards decide what is best for their schools!
7/20/2020 19:33:40	Deanna	Cox	Parent at Westridge Mid	Lenexa	I fully support the Governor's decision to delay opening schools opening for the 20-21 school year and implore you to do the same. Cases of Covid 19 are rapidly rising and the safety of students, teachers and support staff must be your first priority.
7/20/2020 19:33:46	Pamela	Ernatt	N/A	Wichita	Have grandchildren in city schools. Would prefer in classroom schooling is delayed till COVID 19 is, at the very least, trending downward.
7/20/2020 19:33:47	Jason	Vinsonhaler		Topeka, KS	<p>I want to share my comments regarding Governor Kelly's orders that schools in Kansas may not open until after Labor Day and the recommendations of the KSBOE be mandates. I have several concerns with both decrees. September will mark six months since our children have been in school. The distance learning experiment was fine for some and a disaster for others. Among my three kids one thrived, one did okay, and one struggled mightily. None want to repeat the experience this year. I appreciate the work the you and our school board have done in planning to return kids to school in a manner that enriches the kids while protecting vulnerable staff and students. I also appreciate the work that went into the state board of education's guidelines. It appears that hard work at all levels means very little to our governor. Our governor also seems to believe that Wyandotte and Wallace Counties are the same. They are not the same in many ways but under these orders, they are treated exactly the same.</p> <p>I am profoundly disappointed in the governor's orders and the way they were presented. School districts have been working diligently since March on how to safely reopen schools so our children can receive the full benefit of their education, which includes socialization and extra curricular activities. We must get our kids back in school so we do not fall behind other states (and nations) who are taking a more rational approach in balancing the needs of our children while combatting covid-19. Local control is critical for the health and wellbeing of our children.</p>
7/20/2020 19:33:48	Courtney	Doll	My family	Andover	I think that delaying the start of school is good idea. I honestly think that going virtual for at least the first 9 weeks or until we can get the virus spread under control is a good idea as well. It's not safe right now to expect teachers, other staff and students to be in school buildings. The people in our communities that want in-person school to start need to start doing what's right and wear a mask and practice social distancing. When adults can do that and our numbers start going down, then you can consider putting students and teachers back in buildings. Even one death is one too many. It doesn't have to happen. We can be safe and be smart about this.

7/20/2020 19:33:50	Becky	Breeding		Great Bend	Please open schools on time. This may only seem like a few weeks now, but these weeks matter especially if in the first few weeks of school are going to be used for grief counseling, etc as noted in your recommendations. Delaying school only delays learning opportunities for Kansas kids.
7/20/2020 19:34:03	Jamie	Begaye	Kansas City Kansas pub	Kansas City	Vote yes to delay start of school to allow schools to acquire sufficient supplies for safe reopening
7/20/2020 19:34:13	Amy	Housman	Para at SKACD 613	Cimarron	Dear Board,  I am a Para with SKACD 613, Southwest Kansas. I fully believe we need to hold off on school starting in person for now. I would be fine for starting with homeschooling, if needed, but with the upturn in Covid and the lack of people abiding by the social distancing in our area and not wearing masks to protect others, I feel myself and my kids would be in danger of contracting it and then therefore passing it on to others if we're in such close contact. Even if there is a mandate for taking temps, many kids I work with are filled with Tylenol and sent to school, thus no visible temps, and then later sent home when the Tylenol wears off, so I don't think all parents can be trusted to adhere to this on their own.  I also know we have many older, 50+, support staff and teachers in our school system and I don't want them to fear contracting Covid or chance losing them if they are too fearful to continue working there. And what if someone does contract Covid and infects multiple people and then many support staff and teachers are out sick or have to be quarantined for 2 weeks? We don't have that many subs to take on the load.  Please consider these thoughts. I appreciate your time!  Sincerely, Amy Housman
7/20/2020 19:34:15	Amy	Kremer	Parent KS High School	Shawnee KS	Please reject the executive order to delay schools
7/20/2020 19:34:14	Shaw	Schwindt		Rolla	I believe we should start school as usual normal time and no masks, our children have been around each other all summer, everything else opened up so why not schools, we are a small rural town not a large city with lots of covid cases
7/20/2020 19:34:43	Kim	Fread		Olathe	I really hope that you consider delaying the start of school to allow districts the opportunity to prepare for the future of our schools. Our schools need to be prepared for what in person learning is going to look like and for the cleanliness of our buildings. I also believe it will be very helpful for teachers as we are treading into the unknown. Please consider this time has preparation and also an opportunity for our numbers in our county to go down.
7/20/2020 19:34:50	Darcie	Randall	USD 471	Dexter, Ks	Delaying school will not make Covid-19 go away. Students have already missed their last quarter of school last school year. They are ready for school, to see people, to socialize, and have some sort of normalcy in their lives. We should start school before Labor Day.
7/20/2020 19:34:57	Jessica	Fortner	Parent of 3 school age ki	Eudora	Keep us all safe. Please delay the start of the school year so schools can prepare to make learning environments safe. There hasn't been time since the report was released last week to make proper plans. Also, while cases are on the rise, counties like mine need to start as remote learning. It's simply not safe for anyone. Kids, teachers/staff, and the community at large.
7/20/2020 19:34:57	Jeffrey	Berkenmeier		Burlington	Enough with the politics. Doctors say it's fine for kids to get back in school; so get them back in school. Enough is enough.  Don't punish our children and ultimately the economy my keeping kids at home.
7/20/2020 19:35:04	Ron	Alexander	Chief of Police/Pastor L	Colby	I believe the decision to start should be left to school districts, decisions based on local case counts. I also believe the schools should start as normal without delay.
7/20/2020 19:35:11	CEOLAH	COLSTON	TPS 501	SILVER LAKE	I agree

7/20/2020 19:35:12	Christina	Rosser		Garden City	Keeping school closed till after Labor Day isn't going to make a difference to me. Either way, my children will be doing school from home. I do not believe in wearing a mask, neither does any of my family therefore, I will not send my children to a place where they would be required to wear one. So as long as masks are required, my children will not be in a classroom.
7/20/2020 19:35:29	Jeremie	Tharp	Olathe Teacher	Olathe	As a teacher, I'm terrified that so many people are ready to throw us to the wolves "for the kids". I know how students learn best, and if we decide to proceed as planned, I'll be trying to teach a classroom of eight year olds from their separated desks, in a best case scenario. Every teacher knows that's not how children learn. A few extra weeks will allow us time to adapt, plan for these scenarios, and meet the needs of our kids. Also- I have elderly parents who need me. If I am forced to go back to school to early, I will not put them at risk and they will be forced to go it alone. I hate this entire situation. There is no way to win. But please, please hear our voices. Three extra weeks of direct instruction (especially adapted to COVID precautions) is not worth the cost. We are not asking for years. We are asking for weeks.
7/20/2020 19:35:30	Stephanie	Shanelec-Keeler	USD 259	Wichita	Please fully support our governor's executive order to delay the start to our 2020-2021 school year.
7/20/2020 19:35:39	Ashley	Wright		Colby	One size doesn't fit all for the governor's orders. Something that works in Eastern Kansas probably won't work in Western Kansas. Please leave the decision to our local district officials.
7/20/2020 19:35:42	Amber	Witt		Garden City	I'm ok with delaying school as long as we get to go back no matter what after Labor Day! My kid is struggling with behavior problems and I feel like it's because of not having her structure of everyday school in her life! They have been out since March with having no play dates and barley getting to have aMy summer activities to do! Please let's get back in school ASAP!! But also keep the kids as safe as possible!!
7/20/2020 19:35:50	Sheika	Chalfant	Teacher	Effingham	Vote no! Decision to open should be left to local school boards. Rural small schools should not be treated like large urban districts.
7/20/2020 19:35:56	Megan	Robertson	Teacher for Kansas City	Overland Park, KS	Please uphold Gov. Kelly's order to delay the start of the school year.  We all want our kids back to safe learning, especially in my program where I serve a population of families who are living in poverty, often food-insecure & rely on school for many other resources. But we have to move forward safely — we, as teachers (and administrators) need time to prepare our environments (which we haven't had access to since Spring Break), we need time to collaborate about the new expectations and learning standards, and we need time to digest and plan for a new kind of implementation. (Not to mention, many of my families also don't have good access to medical care, hygiene, or have the necessary care to keep themselves and others healthy. We need time to figure out the best way to help everyone be safe in learning conditions and stop the spread.)  Please stand behind the governor and give us more time, both as educators and as individuals trying to navigate this different way of life.
7/20/2020 19:35:57	Traci	Spear	Kansas kids and parents	Cherokee	Delaying the start of school is not in the best interests of anyone, especially the kids. My county is one of the highest poverty and domestic violence rated counties in Kansas. They need the structure and interaction with other kids and especially caring adult teachers.  Delaying sports takes even more away from these kids as many are roaming the streets in groups of friends with nothing to do while their essential parents are at work and the welfare parents are pushing them out of the house. Most of them are together in one way or another already. Summer Rec leagues and camps without a significant rise in cases.  Kids, parents and teachers need to be back in the classroom and on the playing field.
7/20/2020 19:36:13	Alana	Dotson	Maize Ks — vermillion	Wichita	Please postpone until 9/3 to allow schools time to prepare and then let them open how they see fit. What works in a rural area with less cases will not work in Sedgwick county where we have a lot of cases. Please protect our teachers and staff.

7/20/2020 19:36:24	Kim	Vail		Overland park	Please delay the start of school until cases are declining significantly. Our children do not need to be exposed with so many cases on the rise. They will get sick, some will die. Many will carry or home to their families. Teachers and staff do not need to be exposed, get sick, some will die, and they too will take it home to their families. It is irresponsible to put thousands of children and staff in harms way when online classes would be a good temporary SAFE solution.
7/20/2020 19:36:26	Jeanine	Mindrup		Olathe	I don't think you should approve the school delay. It should be a local decision. I agree that Olathe should delay in person school but there are lots of rural districts across Kansas with no active cases that should be allowed to start. I also think not approving the delay would allow districts to at least begin online in August and maybe transition to in person later. Starting online in August would help the AP and College Now students not get behind.
7/20/2020 19:36:34	Sandy	Duling		Wichita	We are not afraid. Our kids need normalcy
7/20/2020 19:36:34	Alex	Breeding		Great Bend	Open schools on time.
7/20/2020 19:36:57	Adriane	Sims		Colby	Please do not delay the start. Kids need the structure, routine, safety, and emotional support that school can offer them. They need to be back in school. Their skills and retention of their educational is diminishing the longer we procrastinate this. They are emotionally becoming further detached from how to handle dealing with others.
7/20/2020 19:37:14	Jacee	Dobbs		Colby	Do not delay. Covid will still be here in September. Our children need to be back in school and a stable routine.
7/20/2020 19:37:16	Dee	Wright	SMSD PTA	Leawood	Please Delay the 2020-2021 school year at least until January or until the CDC and experts of Covid feel it is safe
7/20/2020 19:37:21	Roy	Webb		Smith County	Needs to be left up to each district. Kids are at a very very low risk. Lots of information coming out of Europe show near zero transmission from kids to adults. No Masks open up and let our children return to normal!
7/20/2020 19:37:22	Jamie	Tomlinson	Teacher	Overland Park	Please delay opening schools until after Labor Day or until we see a decline in the number of COVID cases.
7/20/2020 19:37:31	Kendra	McBride	Parent	Hays	Please postpone the start of school to September to give schools and communities time to mitigate the spread of COVID to better protect our children, teachers, and families! Our family of 5 includes 4 high risk members, including children who attend public schools. If schools reopen without major changes in place, we will be forced to homeschool. Our kids want to attend Hays High, but their safety much be assured. Please approve the Governors mandate to postpone schools and enforce protection measures. Thank you.
7/20/2020 19:37:33	Addie	Johnson		OLATHE	Please let schools open as scheduled, in August. The students are suffering in multiple ways. The American Pediatrics state that kids need to be in school. There always have been, and always will be, risks to living life. We must not stop. Teachers should be considered essential, front line workers. (I am a teacher...I don't mind...it makes me proud). People need to stop acting like we haven't have months to plan for reopening. The governor failed by not giving adequate time for districts to know her expectations. If she wanted districts to have enough time, she should have released her plans in June. We've had the time. The kids need school...NOW! Don't punish the kids for lack of leadership.
7/20/2020 19:37:40	Billie	Royal		Olathe ks	I have a son on treatments every 2 weeks that would be very dangerous for me to go back to school
7/20/2020 19:37:44	Jamie	Jellison	My home	El Dorado	I support Gov Kelley's decision to delay school starting. I have three children. They attend 8th, 9th, and 12th grade. All three are on IEPs on different spectrums. In my own community, we have had Covid-19. We had several children (teens) who tested positive in our community after one gathering. Most were okay but one was sick for a while. Now, we have a couple of individuals in our high school administration team who have tested positive. My husband is a firefighter /EMT-A for our community. We realize statistically that our children will most likely be able to survive Covid-19. What happens if he brings something home and my children carry it to a teacher (not aware that they have it)? What if the teacher is unable to win the battle against Covid-19 or has long-lasting effects? What if several teachers become ill at once? I know some teachers are very prepared to open the rooms to children and I know some have fears. I know I can't trust many parents to keep their kids home if they are not feeling well. They don't do it now and those same people refuse to wear masks etc.  I come from a very long line of public educators and truly value our schools and teachers. I have buried a child already years ago and I can't imagine the guilt I would feel if something happened to another child or even a teacher. The numbers in Kansas are skyrocketing and we need to get this under control. I am asking you to be brave in deciding/recommending what to do. Many times any more being brave is not the politically popular thing to do. Do not use our children and teachers as political pawns in this battle.

7/20/2020 19:37:46	Shanda	Lane	USD 290	Ottawa	No masks for younger kids! I'm ok with starting late.
7/20/2020 19:37:50	Amber	Moody		Eudora	I would prefer an online only option for my kids grades 6-12 for the Fall Semester
7/20/2020 19:37:52	Wylie	Ernatt	N/A	Wichita	I support Gov. Kelly's mandate that schools begin after Labor Day.
7/20/2020 19:38:05	Andrea	West	Private Citizen	Shawnee	Please support Governor Kelly's executive order. Schools need time to prepare and develop a remote learning plan that will be needed. Throwing something together doesn't benefit anyone and the usual preservice days will not be sufficient.  Thanks!
7/20/2020 19:38:10	Megan	Sullivan	Self/family	Hugoton	I am in favor of a schools reopening as normal and in favor of sports and activities resuming as normal. I am a healthcare professional. I do have a child who has special needs and two who are typical learners, all 3 attend USD210. Their mental health is important and with that returning to their routines and their people at school is important. I understand the potential risks of contracting COVID-19. I am still for kids returning to school with precautions in place like a waiting area outside the nurses office for sick kids to wait for their rides home, temperature checks, and frequent hand washing. These are difficult decisions to make and no one answer is going to be perfect for everyone, however we cannot live in fear and remain in our homes endlessly.
7/20/2020 19:38:18	Debra	Felix	Olathe USD	Shawnee	With the covid numbers still rising, we need to hold up. Spend the next few weeks to figure out a solution that is best for all. We need more staff, student class size reduced, time to clean between classes. I know for a fact that class specials haven't even been planned. Wait, solve the problem, then open up!
7/20/2020 19:38:25	Nancy	Hackler		Wetmore	We are a rural school in a town of about 400. We don't have the same class sizes or instances of COVID-19 as the larger towns and cities. Why are we being tested the same? I am raising a 16 year old grandson, who is very athletic. The idea of forcing him to wear a mask, ALL DAY is not something I am in favor of. I do not believe it is healthy to keep our kids in masks for 7 or 8 hours a day. Why can our individual school districts decide not only mask mandates, but also when school should start. We allowed our counties to make decisions regarding wearing masks into businesses and public, surely our school district leaders are capable of making the same kind of decisions for our kids.
7/20/2020 19:38:35	Judy	Scheuerman	USD#428	Great Bend	Start these kids back to school as regularly scheduled ...they have been out of the school setting now for close to 5months ... 2-3 week delay is not going to accomplish much , that can't be done right now & in next few weeks !
7/20/2020 19:38:48	Leslie	Stewart	USD 500	Mission	Please open safely. We cannot control what our families do outside of school. Please provide us with protective gear, Lysol wipes, germ juice ... I want to teach them but at what costs.
7/20/2020 19:38:57	Liz	Jackson	Olathe	Olathe	I agree with delaying school
7/20/2020 19:39:13	Andrea	DeHart		Olathe	I'm a school district employee, and given the current COVID-19 numbers, I don't think it's safe to have in-person classes.
7/20/2020 19:39:19	Tracy	Cooksey		Wichita	Kids need school. They need proper education, socialization, safety and food. Children are not prone to covid themselves nor prone to passing it. I have grandchildren in Wichita, Maize and Andover that all have both parents working. Inconvenient to delay and in nobody's best interest.
7/20/2020 19:39:22	Katelyn	Mattson-Levy		Alden	Vote to uphold the Governor's EO
7/20/2020 19:39:32	Jackie	Cook		Great Bend, KS	Please open schools on time in August. Our youngsters have sacrificed enough. They need their routine day and social learning back. My granddaughters miss school more than ever. Thank you.
7/20/2020 19:39:42	Beth	Traxler	Parent & Teacher	Olathe	I do not think it is safe to open the schools at this time. The task force has included us, as well as 17 other states that should pull back on opening at this time. Case numbers keep rising and until we have no new cases for 14 days it is not safe for students, teachers or other school personnel to be working within the walls of a school building. As a teacher, I am in favor of teaching virtually, even though that is beyond my realm of knowledge. However, that is the thing about teachers- we are flexible and can easily adapt and learn quickly in order to do what is best for our students. I employ you to vote with the safety of all Kansas citizens in mind. Thank you
7/20/2020 19:39:42	Kristen	Selland	USD 415	Horton	I would prefer starting on time with precautions in place.

7/20/2020 19:39:49	Dorothy	DeNeve	Olathe District Schools	Olathe	I cannot imagine that we can keep kids, teachers and staff SAFE by reopening brick and mortar schools! As a second grade teacher, I know the quality of engagement and instruction would be significantly diminished with all the mitigations that are required to keep this virus from spreading in our schools. The only sure thing to do is to call it remote learning for the fall semester then to reassess. If we can't do that, we can at least delay according to Gov. Kelly's executive order for giving us more time! Time to plan, time to curb the spread, time to prepare to provide the instruction our kids deserve!
7/20/2020 19:39:53	Stephanie	Thomas	My family	Colby	I would like the delayed start to stand. We received the 1100 page document a month before school was to start. Administrator and teachers are having to change the physical layout of classrooms, the schedule, and even the way they enter and exit. We need time to come up with solutions and two weeks will not irreparably harm my students if it means that we can be prepared in ways that may not happen without that time. Do I want masks in school? No, I don't, but I also know kids that lick teachers desks, so honestly I think it is probably a necessity. I also think if so many parents would just get out of their own dang ways and get over the idea of being told what to do, we might be able to drastically decrease the number of cases Kansas has.
7/20/2020 19:40:20	Carol	Poell		St.Marys	As a retired elementary teacher, and a mother of a k-12 school principal, I feel very strongly that you need to support our governor's decision to delay school opening until Sept. 9th. This time is needed to ensure that our buildings and classrooms will be ready to hopefully provide a safe environment for our children and grandchildren. My son, the principal had a kidney transplant 3 years ago, so he has a compromised immune system. I know he will do his best to ensure the safety of the students in his care. Their lives and future health are more important than any football game that kids and parents are missing. Just because the numbers are low in NW Ks. except for Logan Ks., Many still feel that they are safe and that they will not give up their freedom. Wonder how they might feel if it was their life they had to give up. I also have a son who is a hospitalist at Asension Via Christi who slao had a kidney transplant 4 years ago, and is caring for more covid patients every day in Manhattan. Please don't let politics get in your way when you are making this decision.I am so proud that Gov. Kelly is a strong leader for Kansas.
7/20/2020 19:40:30	Megan	Scott	Parent	Olathe	Please vote to support Governor Kelly. As a state, when we closed school in the Spring, we protected our children. We have an obligation to do that again. Although you released guidelines, they were released in an almost 1100 page document. Take the burden off the schools to allow them to execute your plans well. They should not rush through it. 3 weeks is completely manageable. Schools can adjust teachers professional days to before the year begins to allow this to happen.
7/20/2020 19:40:34	Valerie	Flavin	USD 443 - Dodge City	Dodge City	In order for staff to fully prepare for the year with the new regulations and Navigating Change recommendations, please uphold the order to delay schools until September 9. This should NOT be a political decision, rather it is in the best interest of students and staff to ensure that we are fully prepared for the upcoming year.
7/20/2020 19:40:52	Alisha	Begler	My home	Hays	Please I beg you to delay the school year. We have too much at risk.
7/20/2020 19:41:06	Mary	Hardesty	Wichita Diocese School	Wichita	If it was too dangerous in March and April it is certainly too dangerous now.
7/20/2020 19:41:07	Brooke	Adams	USD 259	Wichita	I fully support the order to postpone the start of the school year. We absolutely should not return to school until the safety of students and teachers, such as myself, can be guaranteed. No student, or teachers' life should be put at risk, regardless of "how small the chance is." Any lives lost due to a premature return to school is too many. I am in favor of postponing the school year, or continuing distance learning until it is safe to return to schools.
7/20/2020 19:41:12	Katie	Strickert	Teacher	Wichita	I think we need guidelines- if county numbers are lower than — we can return to in person schooling. If numbers are higher than— you must do remote/distance school or cancel.

7/20/2020 19:41:15	Stephanie	Green	My family	Effingham	<p>Vote No.</p> <p>Covid-19 is an issue. No doubt about it.</p> <p>We have to take it seriously, again, no doubt about it.</p> <p>Counties that have steady daily increases should absolutely consider delaying the start of school!</p> <p>That said, the other 100ish counties SHOULD NOT have to delay unless their local county leaders, district leaders, and Health dept leaders deem it necessary.</p> <p>Leave #LocalControl where it belongs, at the local level. Let the districts decide what is best for their communities.</p> <p>Atchison county has 50 cases, 6 active. Thats with almost no enforcement of masks even though they didn't opt out. Stores are now demanding masks, schools will apparently require masks, it will get better. Give us the chance to show that Rural Kansas IS NOT the same as its urban counterparts.</p> <p>Thank you for the time and effort you all have put into the guidelines you recommended! I have read MOST of it and I genuinely appreciate the attention to detail. As a SpEd para and a parent of 5, I look forward to working through this pandemic and coming out better on the other side!</p>
7/20/2020 19:41:24	Stephanie	Bodkins		Winfield	<p>I am a parent of children in elementary school, as well as an employee at an elementary school. The governor's decision to delay the start of school is the right decision. My children need to be in school and I want to be at work; however, we deserve to be as safe as possible in the school environment. All of our kids and staff deserve time to make necessary decisions to keep us all safe. Please honor the governor's decision to delay the start of the 20-21 school year. Thank you for your consideration.</p>
7/20/2020 19:41:27	Krista	Alexander	Parent & Teacher @ US	Colby	<p>It is my opinion that schools start at the original scheduled date. I feel it is not only important for my personal children and students academically but also is vital for their social and emotional well being. I feel like these decisions can be made at a local level dependent on the number of cases in each community.</p>
7/20/2020 19:41:39	Alex	Kremer	Kansas high school stud	Shawnee KS	<p>Please reject Governor Kelly's executive order to delay the start of school</p>
7/20/2020 19:41:40	Maryteresa	Kissell		Lenexa	<p>If children are 6 feet apart, then masks should not be worn. Children need to see faces in and be seen as part of social development.</p>
7/20/2020 19:41:59	Tina	Andrews	Self	Medicine Lodge, KS	<p>Our kids need school to be open and masks should be optional!! Do your research!</p>
7/20/2020 19:42:00	Stacia	Mitchell	Bluejacket Flint	Shawnee	<p>Please delay start to be better prepared</p>
7/20/2020 19:42:17	Tessa	Spreier		Rush	<p>SCHOOL NEEDS TO START</p>
7/20/2020 19:42:17	Rosie	Garrett		Olathe	<p>Please consider the staff necessary for our schools to be successful. Children are not the only ones whose health could be effected by Covid19. Many subs will probably chose not to replace a teacher who has become ill. The protocol from previous years is to split classes between other classes if a sub is unavailable.....this is certainly not a safe option. Checking with districts to see how often this has occurred might be additional information you need to make a proper decision on school returning face to face. Please note the many businesses that are choosing limited hours, etc... Shouldn't we consider children's needs in the same way?</p>
7/20/2020 19:42:17	Kim	Murphy		Olathe	<p>I recognize this is a very challenging decision for each of you. I am praying for you to have wisdom to make this difficult decision. It is my preference that school starts on time in the classroom but at the very least online.</p>

7/20/2020 19:42:27	R	V		Leavenworth	I would like you to vote in favor of the governor's order to delay the start of school to allow our community additional time to recover. I also think a push to open in stages beginning with a virtual or packet learning format would be a good move. This allows districts to begin operations safely and thus protecting staff and students. Teachers should not be subjected to an unsafe environment with students and community staff members congregating in large numbers. Many staff members are from outside communities and crossing state lines to come in to work. This increases the possibility of infection for all, especially those that are high risk or with special needs. Opening schools in person could be unsafe for staff and their families. If staff is exposed to Covid-19 or a family member contracts it the loss of pay could be detrimental to teachers and staff that live paycheck to paycheck. Losing 1/3 pay and risking the lives of teachers is not what we were called to do. Vote to keep staff and students safe!
7/20/2020 19:42:32	Jenni	Behymer	Myself	Overland Park	I ask that you please re-consider opening up school on time for Blue Valley. My son who is going to be a sophomore at Bluevalley needs it! School is so much more than academics, these teens need the socialization, sports and activities. My son plays football and he is so excited to play varsity this year. It gives him something to look forward to and keeps him busy and focused. My daughter who is going to be a senior at KU is student teaching in Olathe starting the first week of August. She had her study abroad program canceled and is looking so forward to being with the kids in August. She needs the structure in her life as well. Please re-consider, the kids will follow safety protocols to keep each other safe. Thank you for your time.
7/20/2020 19:42:35	Mandy	Williams	Stockton High School U	Stockton, Kansas	I support starting school after Labor Day.
7/20/2020 19:42:42	Peggy	Kaiser	Substitute Olathe Schoo	Shawnee, KS	I am very concerned school starting in the next few weeks, the data clearly shows that cases are increasing, even in the smaller counties. I think upholding the governor's order to delay school only three weeks will help the school districts have time to prepare. It also helps them from having to make those decisions, decisions that could be based on politics not data. School districts starting or delaying classes is going to upset people. It would be better to let the Governor and the State Board of Ed take the "blame."
7/20/2020 19:42:48	Michael	Bultena	Small school districts	Hoxie	The decision to begin school before/after Labor Day is a local board decision that should be made in conjunction with local health departments.
7/20/2020 19:42:54	Angela	Lewis	Parent	Independence	If there are people still working from home, why would we even consider sending our children out?? I have two children in public school and one has asthma. I am also a single parent. Please keep schools closed until after Labor Day to give more time to see if the numbers go back down. We owe that to our children and the teachers.
7/20/2020 19:43:04	Chelsea	Steffen		Larned	Please do not close schools until after Labor Day. We have low positive cases, and don't feel the need to stay gone any longer. Our administration is on top of things, and I trust them to keep our kids safe.
7/20/2020 19:43:07	Drew	Thomas		Prairie Village, KS	Please uphold Governor Kelly's Executive Order to delay the start of schools. My first grade daughter, her classmates, teachers, and school community need this extra time to get the re-opening right.
7/20/2020 19:43:13	Ed	McClellan	Olathe 233 parent	Olathe	Please delay school start to after Labor Day due to Covid pandemic.
7/20/2020 19:43:21	Brad	Wildeman	Colby 315 Teacher	Colby	I don't need my children to bring this home.
7/20/2020 19:43:20	Jamie	Bazil		Topeka	Please leave the decision of school opening up to the Local School Boards
7/20/2020 19:43:20	Jamie	Bazil		Topeka	As a parent and teacher I feel it is extremely important to get back into the classroom as soon as possible. If we wait until after Labor Day it will be 6 months since a child has been in a classroom. That's too long!! So many kids have not done any academic work since they were in the classroom the beginning of March. It is in the best interest of the kids in Kansas to be in the classroom and the sooner the better!!
7/20/2020 19:43:23	Laura	Rayome	My family	Lawrence	I didn't create this pandemic, my actions did not exasperate this pandemic, however I am stuck with the repercussions. It is my firm belief that we have got to get covid-19 control in Kansas before we send kids back to the classroom. I support the delayed start and thoughtful, science based return to school plans. That includes making sure that we have cases on the downward trend. Currently cases are on the uptrend and I do not feel comfortable sending my kids to school at all let alone start in August. I know that a lot of this fuss has to do with local control, but at some point somebody has to take responsibility and do the right thing. That's the way I was raised, and that's the way that Kansans used to be. I support 20-58!
7/20/2020 19:43:26	Meagan	Englert	KNEA member, parent	Hays	I approve the school delay for 2 reasons. 1) Teachers need time to train and implement new plans and procedures 2) My doctor has recommended I do not return to the classroom until numbers have stabilized rather than growing exponentially. She does not feel it is safe for anyone (teachers or students) at this time.

7/20/2020 19:43:29	Emily	Forte		Wichita	I would prefer school be delayed. Cases are skyrocketing. I'm at high risk working in healthcare and I don't want to pass it to my kids who pass it to all their classmates. We also have grandparents who help with kids, which is the case in many households. Really, until a vaccine is available, it should be illegal for schools to be open.
7/20/2020 19:43:31	Brittany	Wahlers		Cheney	Please open up schools. These kids need structure, social interaction, and learning.
7/20/2020 19:43:33	Jill	Widdice	usd453	Leavenworth	I think it is a very good idea to wait until after Labor day!!
7/20/2020 19:43:36	Michelle	Mettlen	Colby USD 315	Colby	Please for the safety of all, delay the start of school until after Labor Day. As a teacher, we also need the additional time for planning, getting our classrooms prepared, and making sure we have adequate cleaning supplies.
7/20/2020 19:43:45	Adrianna	Seward	School nurse	Wichita	I am the nurse at the biggest school in the state of Kansas. I don't feel like it is safe for us to start school at this point in person. How can we have the appropriate PPE or purchase enough thermometers to test everyone in a school of 2400???? Where's the money to create a negative pressure room to properly isolate a student showing symptoms let alone 10 at once? What about the parents who lie and knowingly send their sick kids to school? Are you going to pay for my hospital bills if I become critically ill because you didn't protect me?
7/20/2020 19:43:50	Christina	Griffin	Soule elementary Dodge	Cimarron	Online remote learning only! Too many risks
7/20/2020 19:43:54	Heather	Brown	SMSD teachers	Lenexa	Please reopen schools with choice and safety precautions in place.
7/20/2020 19:44:09	Amy	Albrecht	USD 489	Hays	I am in favor of a post-Labor Day start to the school year to give school boards time to formulate a safety plan for students regarding Covid-19, as well as giving parents the time to make necessary arrangements for our children.
7/20/2020 19:44:24	Diane	Bale		Derby	I am really concerned for the lack of structure and social interaction doing online learning and therefore am asking that you open KS Schools. If other parents disagree they can choose to use the K-12 program.
7/20/2020 19:44:32	Mitch	Beims	Self	Wichita	Delaying of schools is dangerous and unnecessary for our children who have nearly a zero percent chance of dying from the virus. I have a MS in educational administration and I am concerned the Governor is getting pressure from the Teacher's Union to make her orders. Local schools should be able to determine the safety of their own children. Teachers who are concerned about their health should stay home this year. Children who are NO risk should not be penalized for those teacher's concerns. Your decision is a big one, because school vouchers will get passed if you allow her mandates to go unchecked.
7/20/2020 19:44:41	Jana	Powell	Blue Valley School Dist	Overland Park, Ks	I am a Para Educator in the Blue Valley School District. I strongly agree with the delayed start for Kansas schools. I will be 61 this month and am very concerned about the in person classroom! I think it is in the best interest for the staff and students to delay the start of school. There are still too many unknowns about this virus. With COVID cases on the rise it makes no sense to throw us back in too soon! I feel right now it is better to be safe then sorry! Thank you
7/20/2020 19:44:42	Mary	Glick		Quinter	Leave it up to each District how they see fit on when and how to open our schools. This is not a one size fits all issue. My child needs in person one on one learning. Our teachers were not meant to teach virtually.
7/20/2020 19:44:43	Kris	Meyer	USD 232	De Soto	Teachers are the essential workers of our future. Our future is in the hands of our beloved children who need so desperately to learn, socialize, & most importantly, to feel safe while accomplishing it all. As educators, we must lay our eyes on and listen to our students to ensure their physical safety and emotional well-being.  We CAN accomplish this epic task, but we need time. When Kansas Governor, Laura Kelly mandated a delayed start of schools, she had the best interests of educators & students at heart. In order to do this right, we need time.
7/20/2020 19:44:46	Jamie	Blackburn		Dodge City	Please support the governor's efforts and vote to delay the re-opening of schools. Kids deserve it! As a parent, educator, and community member—I stand behind Governor Kelly. Our schools need time to plan and prepare in order to keep everyone as safe as possible.
7/20/2020 19:44:47	Katrina	Long	USD 272	Lebanon	We are a rural school and we have no active cases. I understand taking precautions and trying to better our sanitizing practices, but let's let these kids get back to life. If they don't, I'm afraid we are going to have more problems on our hands with mental health issues.

7/20/2020 19:44:53	Shelly	Graff		Overland Park	I am "just" a teacher and I will do whatever needs to be done in the best interest of my students. However, please keep in mind that I did not sign up to be a front line worker, which is exactly what you are asking us to do when discussing in person school. We shouldn't be hearing things like "death waiver", personal protective equipment, or normal. Nothing about this school year is going to be normal, but it can be safe. We should be making the decisions about In person school based on scientific facts, not political or economical beliefs and wishes. Science doesn't yet know the extent to which kids can contract, carry, or transmit the virus. Science doesn't yet know the long term effects of contracting this virus. Science doesn't yet know who will or will not be effected and to what extremity that person could develop symptoms. There are a lot of people that we are putting at risk when we discuss in person school. Instead, let's uphold Governor Kelly's order to postpone school and give educators the chance to plan effective distance learning that ensures the safety of everyone involved.
7/20/2020 19:44:53	Amy	Oades	Blue Valley	Overland Park	Please do not open schools until it is safe for teachers and students to go. Please follow the governors orders.
7/20/2020 19:45:05	Nina	McTaggart	Parent	Cimarron	Hello, Please keep the schools closed until a 50% virtual/50% in person schedule can be put in place. There is no (mathematical) way to socially distance the amount of children in the classrooms. Children may not get very ill from COVID, but their family members could. Please keep Kansas safe!
7/20/2020 19:45:21	Scott	Samyn		Olathe	I don't believe there needs to be a delay. Regular precautions should be ready by then, children are not at high risk, faculty should be main concern for wearing masks. And masks should not be worn all day, especially if children are at their desks, socially distanced. Can be worn if traveling in hallways or to another room.
7/20/2020 19:45:30	Melissa	Carrell	Special education	Augusta KS	I am concerned that if we wait until after Labor Day we are setting our system up to fail. We all know after every holiday cases go up. Let's get the kids in now teach them the platforms they are going to be learning from and educate the parents on it so when we go to online after the holiday we are set up for success. 7 months is to long for our kids to not be face to face with a teacher. I say that as a teacher and a mother of 3 children who are dying to get back to school. We can not learn the way we did in the spring it was not learning and we can not continue to push off school. Our students need us and teachers need them. Politics need to stop playing games with the school system. Let us go back to school!!!!!!
7/20/2020 19:45:39	Michelle	Hubicki		Cheney	Please be thoughtful of controlling the spread. Businesses will not be able to function in the winter if they can't be indoors. We don't know what the long term effects of this virus will be. This could decimate families and communities. Please use education and science to make decisions about education not politics.
7/20/2020 19:45:46	William	Brame		Kansas City	Please delay reopening until it is safe. Allow the EO to go in effect please.
7/20/2020 19:45:49	Anna	Tinoco		Topeka	Please follow the executive order. As a teacher and a parent I am terrified to go back into schools right now. The current plan has me going every day all day with no day to clean. I don't see that lasting very long and I need time to prep my room, my routines, and figure out how to keep 15 three year olds safe in my room while also keeping myself safe. The way it is right now, I don't even want my child going into the school in person. Please honor the EO and at least give us teachers a fighting chance.
7/20/2020 19:45:59	Brad	Zuzenak	Parent	Olathe	I disagree with delaying the start of school in order to get supplies. If that is the true reason, what have the school districts been doing since March when the students were sent home? Contact J Riegers and get hand sanitizer or go to Costco because I'm there weekly and they have palates of it. Colleges are starting early and yet the governor thinks starting 3 weeks late is the answer.
7/20/2020 19:46:03	Allison	Briley		Lenexa	I support delaying the school year.

7/20/2020 19:46:06	Gina	Brillhart	Myself- High School Te	Wichita	As a high school teacher, I agree with the governor's order to delay the start of schools. She has health and science informing her decisions, not politics. At my school, Southeast High School, there are almost 2,000 students alone, besides staff. Some of my colleagues currently have cancer, past surgeries, and health issues that put them at risk. Our building is overcrowded. In one day I have well over one hundred students in and out of my room. There is no way to social distance in my room, I'm packed to the brim. I teach art, so there are a lot of supplies being shared. Going full steam ahead and back to school without any schedule modifications, even with masks, is reckless. We need a solid plan based on science and data, so we have benchmarks to meet as we gradually return to school and have time to make revisions and plans to best educate our students safely. I would rather we wait to open fully than open normally and then have to close again a month later, again uprooting student and parent schedules and possibly resulting in the death of students or staff from being exposed. Please look at the science and data and make a decision based on the health of staff and students and support Governor Kelly's orders.
7/20/2020 19:46:07	Jen	Smith		Erie	They delay doesn't seem very encouraging. I'd rather get it started and ease up around flu season if necessary. A late start and cutting down summer break seems even more daunting. Can we do 4 days a week?
7/20/2020 19:46:09	Sara	Asoian		Wichita	I hope that you will stand with Governor Kelly and keep teachers, staff, and students safe by delaying the start of the school year. If you are not able to delay the start, ALL schools should do online only.
7/20/2020 19:46:10	Jennifer	Sikkel	USD 232	Lenexa	As a teacher and a mother, I strongly support the executive order to delay the start of the school year until after Labor Day. Not only could a delay help stop the spread of Covid 19, it will provide districts and their teachers with enough time to adequately prepare for the challenges that lie ahead. Please prioritize the health and safety of the students and staff members. Thank you!
7/20/2020 19:46:15	Anne	Bakker	Renwick school district	Garden Plain	AS a single mother who works as a paraprofessional and attending college classes for a teaching degree I feel that parents should be able to choose to send their kids back. Those that do not can do virtual school. I can't go without work much longer and if I am doing my college courses I won't have time to help my two children on my own. Even doing half the kids two days a week and the next the next two days would be more beneficial. Plus my youngest i could not do school work at home. She simply wouldn't do it. I'm afraid she is so far behind. It's very stressful and the kids are lazy with the virtual work. What kid at home wants to do school work? None. At least some middle ground. If daycares can stay open then whats wrong with schools?
7/20/2020 19:46:26	Elizabeth	Rigdon	high school parent	Olathe	In person school, sports, and extracurricular activities are important aspects of our children's health and development. Please allow them to begin on time, with precautions in place. Many health experts are saying this can be done safely and the statistics with Covid do not merit the extreme measure of delaying our school year. I appreciate your hard work and attention to what is best for our students and families.
7/20/2020 19:46:38	Sheryl	Glidden	My child!!	Haysville	Open the schools. Not 1/2 way either. Students need the social side of school to develop. On line learning IS NOT the same. Might as well just home school if that's your solution...at least the public schools will miss indoctrinating my son this year!
7/20/2020 19:46:40	Kayla	Myers	Parent	Ness City	I do not agree with the mask mandate for K-12. To ask 5 year olds to keep a mask on for 7-8 hours a day is absurd and quite frankly dangerous. They won't leave it alone, it'll be huge distraction, not to mention the germs all over it. If masks are required for all schools, watch your numbers go down. How sad! Leaning towards home school more and more and not through the school district.
7/20/2020 19:46:42	Amanda	Juenemann	School	Colby	As a teacher and as a parent, I feel like the school delayment is not being adequately thought through. These kids need to be in school and who is to say that it won't keep getting pushed back more and more. I think we should start as scheduled before in case we need to let out earlier during the winter when there could be a spike in cases even though we have had worse flu seasons than this and yet we are shutting down things. I feel like we also need to consider that there are several differences all throughout the state. Johnson county has way more cases than out here in western Kansas. Why can't we leave it up to the individual schools as to what would be the best for them?  I hate seeing what the governor is doing to our schools. We all have kids who need to be in school for their education but also for their safety. For some, school is the only place they feel safe and we are keeping them from that.

7/20/2020 19:46:47	Nicole	Elam		Derby	Start online learning ONLY until covid is under control!!!! It's too risky for students and staff!!!!
7/20/2020 19:46:51	Heather	Froese		Cimarron	I believe masks and social distancing should be required
7/20/2020 19:46:59	Miranda	Toburen	Myself	Topeka	Don't delay or unnecessarily restrict in school classes.
					I am glad the final decision on this matter is in the hands of the KSBOE rather than the governor and I will respect its decision. I believe that each school district should decide for itself whether it feels the need to postpone the start of classes especially when remote learning is an option and in-person classes require masks. One issue being mentioned is a spike in cases after the Memorial Day weekend. Delaying the start of school until right after the Labor Day holiday weekend does not appear to be conducive to slowing the infection rate anyway. Given the large difference in number of students in school districts across the state, a blanket order covering all districts does not seem logical. Some daycare locations have more children in attendance than some school classrooms would have for in-person classes, but the daycare locations were not closed. I personally went to a haircut appointment last week at which there were 10 people in a small shop, with at least 5 of those people likely being age 65 or older. All were wearing masks and socially distancing to the extent possible, but this setting seems to be far more of a concern than a school setting. There is also a large discrepancy in the number of Covid-19 cases in counties across the state. This again leads one to believe the decision should lie with each school district in the state rather than a state-wide mandate.
7/20/2020 19:47:18	Bruce	Wilson		Manhattan	
7/20/2020 19:47:22	Aimee	Casady		Olathe	In support of delaying school start date.
					As a teacher for USD314, I believe we should be starting school in August rather than waiting until September. We need to get the kids back in the classroom and then deal with the number of virus cases as they come in...why wait another 3 weeks to see what numbers are going to do. People will travel over the holiday weekend, which could in turn increase the numbers; which will then put the schools at another 2 weeks before starting. At that point, we will be October before the kids are back in the classroom. Just start schools on time, especially in the areas where there are low number of cases. We cannot use a blanket approach to not starting/starting school based on some counties having higher number of cases.
7/20/2020 19:47:51	Tammy	Higerd	Brewster Public School	Colby	
7/20/2020 19:47:57	Kari	Nilsen		Andover	We really need to delay school until at least September 8th, or later. This will enable parents to make plans for their kids and schools to prepare. We CANNOT put our children, families, or school staff at risk when we have other options.
7/20/2020 19:48:00	Brandi	Murphy	Parent	scott City	kids need to be back in school and without these ridiculous restrictions that in the long run our going to hurt our kids more than protect them. Masks and hand washing/sanitizing every hour will kill their immune systems making them more susceptible to the virus. Get our kids back to school for their physical, mental and emotional wellbeing!!!
7/20/2020 19:48:03	Lacey	Lyne	Parent	Sterling	Not all areas are seeing a peek in COVID cases. In the areas where we are stable, I don't understand why our kids have to wait even longer to go back to school. As a single mother who already works 3 jobs to make ends meet, I now have to find more money to cover childcare for a longer period of time. Where will that extra money come from? Since my child has been out of school, for what will be 6 months by the time we start, how will this affect his future? Please allow local admin to make the choices that work for us and not just one choice for the masses. Thank you.
7/20/2020 19:48:04	Patrick	Casady		Olathe	In support of delaying the start of school year.
7/20/2020 19:48:05	Eileen	Honors	parent, Olathe School D	Olathe	I support the governor's executive order to delay in-person classes until after Labor Day in order to give schools additional time to create plans for a safe school environment.
7/20/2020 19:48:14	Jessica	Kubic		Tecumseh	Please shorten the required amount of schools day then!

7/20/2020 19:48:20	Deena	Wilson	special education related	Lawrence	My district has been working on back to school plans since June. I have been involved in several different task force groups and the plans we were making at the beginning of June were for a community with much lower transmission rates. The concerns of our staff and families has changed in recent weeks and the plans we made back in early June are not great plans now. Districts need time to solidify and train staff for whatever new model they will roll out. The world has changed and school needs to change as well. It will be far from business as usual. The extra time can be used for high quality professional development, planning and outreach to families for needs assessment. Districts need time to plan for a safe return to school in buildings that are not equipped for social distancing. They need to plan for anxious teachers and anxious students who have been avoiding crowd for several months now while the world has gone crazy. We need to give everyone some grace. Please extend that grace to schools, staff, children and families by supporting the Governor's order to delay the start of school until after labor day.
7/20/2020 19:48:22	tony	Meyers	Parent of 9th grade student	Olathe	the school year should be delayed until after labor day or better yet until the percent positivity falls to under 5 percent and the infection rate falls to under 10 new cases per million population for 14 consecutive days. distance learning should commence without this restriction.
7/20/2020 19:48:24	Julie	Barrett Jackson		Olathe	Please keep the kids and staff safe and delay In person education for a year
7/20/2020 19:48:29	Crystal	Ratcliff	ISD 492	Butler County	LOCAL government. Local districts and school boards making decisions for their community!
7/20/2020 19:48:33	Jill	Canning	Shawnee Mission Public	Shawnee, Kansas	As a teacher and parent, I believe it is in the best interest of all parties to delay the start. This will give teachers/schools time to be plan adequately as well as allow the numbers to, hopefully decline. Please follow Gov. Kelly's order for the delaying of schools.
7/20/2020 19:48:37	Thomas	Retz	WSU	Wichita	Please do not open schools during this COVID surge, it is obviously unsafe and probably counter productive.
7/20/2020 19:48:41	Tiffany	Chandler		Olathe	I urge you to vote yes, on the executive order to delay schools opening until September 9th or later. School districts have just recently received the guidelines for reopening and have a new executive order outlining PPE/safety measures. It is crucial that districts have enough time to analyze the guidelines and outline a plan to include these and the new executive order. Additionally, cases are rising all across Kansas. It is important to spend some time watching the rise to see if it continues, flattens, or decreases so districts can act accordingly. It is imperative that we know how we are going to open schools safely, prior to opening. Please vote yes on the executive order and make the safety of teachers, staff members, students, and their loved ones a priority. Thank you.
7/20/2020 19:48:43	Rachel	Doss	Independent	Topeka	Please let each district decide for themselves when to go back to school. This is not a one size fits all.
7/20/2020 19:48:44	Tiffany	Bohm	Parent	Olathe	Please accept the executive order to allow time for our case rates to decrease. This also allows our educators time to gain the professional development needed and put plans in place to implement the Navigating Change guidelines.
7/20/2020 19:48:45	Jennifer	Mumpower		Maple Hill	Please let the counties and local school boards decide when local schools should open. This is not a situation that warrants a one size fits all mandate.
7/20/2020 19:48:58	Lauren	Craig	USD 489	Hays	I agree that the start of the school year should be delayed
7/20/2020 19:49:07	Denise	Ash	A-W teacher	Topeka	Please delay to keep us all SAFE!
7/20/2020 19:49:09	Katie	Brooks	USD 500 KCKPS	Kansas City	Please delay the opening of school for the health of both the students and staff. If movie theatres are not being reopened, schools shouldn't. It just shows how we are under valued.
7/20/2020 19:49:10	Lori	Pierce	Usd 259	Wichita	Please delay the start of school and make sure our students and staff are safe!!! Our COVID numbers are out of control right now!
7/20/2020 19:49:16	Yvette	McDonald		Wichita	I feel like delaying school is putting children who already live in questionable circumstances in a position to suffer abuse at the hand of a parent who doesn't know how to deal with them in the first place. I love my children but honestly with absolutely nothing much to do we are sick and tired of each other. If it's hard in an "easy" home how much more difficult is it in a home where people have short tempers and little to no patience. What about special needs children who need a schedule? They are so thrown off. We need to get back to school. Yes, I'm a teacher, but honestly I worry more about catching lice than this virus.
7/20/2020 19:49:21	Melanie	Gilliland	Auburn Washburn 437	Topeka	Our kids need to go back to school

7/20/2020 19:49:26	Nolan	Crosson		Concordia	Requiring masks for young elementary school students is unreasonable & impractical. We'll homeschool our little kids before we put that kind of additional stress on them & their teachers.
7/20/2020 19:49:37	Cari	Brown	Olathe Public Schools k	olathe	Please, please, please consider delaying start of school. As a kindergarten teacher and parent of 5 children 10 and under, I'm so anxious and nervous about returning to in person school. I'm STRONGLY considering keeping my own kids home as my husband has a health concern and we can't afford for him to get sick. Our covid numbers continue to increase and putting all of these kids together is going to lead to even more cases. This is not forever. Students will be ok. This is just a set back and we need to be smart and delay and give it more time to show a decrease in cases. Teachers need to prep and districts need to come up with supplies, procedures, etc for everything that will come up from in person school. There is so much to think about and EVERYONE will need to be educated on this. This can't all be done in the 5 day in service time we normally have before school starts. Thank you for your time and consideration.
7/20/2020 19:49:38	Lynne	Bird	None	Wichita	I believe for the safety of students and staff the start of school should be delayed
7/20/2020 19:49:41	Paul	Buck	School board member	Sedan	I think we are going to do our children a disservice if we do not get them back in school the virtual learning just does not work with kids
7/20/2020 19:49:49	Tiffany	Birk	Usd 232	Lenexa	I think we should wait to hold full in person classes until the Covid rates go down. Districts/teachers need time to prepare for safe student learning.
7/20/2020 19:49:51	Brett	Hoedl		Olathe	Please vote to support Governor Kelly's EO delaying school start. It's the right thing to do to help stop the spread. Trust the health experts that are advising her.  Thank you!
7/20/2020 19:49:52	Keith	Temaat	Former educator	Hutchinson, KS	I taught instrumental music in Kansas for 37 years and I know the importance of the State Board of Education's role in our schools. I would ask you to support Governor Laura Kelly's executive order to delay the start of school until after Labor Day. This will give the schools more time to adequately prepare for the students and teachers safe return.
7/20/2020 19:49:55	Tisha	McNown	Usd 286	Sedan	Our children need to be in the classroom and playing sports FOR their mental health.
7/20/2020 19:49:57	Amy	Camp	Parent and teacher	Overland Park	Reopen our schools. We've been ready and can handle the mandates put into play. Our kids need school face to face. They need to be surrounded by their peers to learn how to socialize and interact with others. Let parents decide what is best for their own families. Open our schools!!
7/20/2020 19:50:03	Kimberly	Treff		Olathe	I support a delay in the start date in hopes of returning to school in person
7/20/2020 19:50:10	Christa	Feese		Overland Park	Schools should not be delayed and need to open on time!
7/20/2020 19:50:10	Julie	Smith		Pittsburg	Not in favor of masks for kids!
7/20/2020 19:50:16	Tanya	Mathieu	District 3 - USD 233	Olathe	Please uphold the governor's mandate to postpone school opening. As a teacher and a parent, I believe it will only benefit the schools, teachers, students and families to have a better plan in place and time to reduce the number of positive covid cases in the state.
7/20/2020 19:50:20	Mary	Krejci	Parent / teacher	Merriam	Please do the right (scientific fact based) thing and keep schools closed.
7/20/2020 19:50:21	Aaron	Law	USD 362	Pleasanton	Support the Governors order, give schools adequate time to prepare after the Department of Education had released their guidelines. 6 weeks to prepare is better than 3 weeks. As far as the argument that some rural schools and counties have no cases, you don't know that for certain because we don't have adequate testing every where. For our safety back the Governor.
7/20/2020 19:50:31	Benjamin	Forte	Myself a concerned citiz	Wichita	I'm highly appreciative that the school year has been delayed, because putting kids back into the classroom will increase the spread of COVID-19 & put the well being of every family & Teacher's loved ones at risk by being back in the classroom
7/20/2020 19:50:32	Becky	Brummett		Wichita	I agree with the order to delay the start of school. It seems very reasonable and prudent when our Covid cases are rising. I have a highschool aged son and I would rather we delay the start of school than start on time and have an outbreak in the schools and have to shut down. My oldest daughter is a doctor at Wesley and I know the doctors who work with her in the critical care units agree with the delay, also, as the hospital fills up. I believe there is no harm in being cautious with a delay but not delaying could unnecessarily cost the lives of students, teachers, staff and family members.

7/20/2020 19:50:41	Donna	Long	I work in KC..my opinio	I live in Mo but have tau	There is no good answer..everyone loses ..but please support the governor and err on the side of safety..I am at risk due to age..please..
7/20/2020 19:50:44	Janice	Lipoglav		Frontenac	We need to have our schools open on the regular dates, not the middle of September. Our children's education is priority one. Experts throughout the U.S. have expressed concern if these children are not in school. Our future in your hands. Open and keep these schools open for our kids sake.
7/20/2020 19:50:52	Megan	Carmichael		Colby	I do not think we should delay the start time. What good will two weeks do besides put our kids further behind.
7/20/2020 19:51:06	Jennifer	Shea	KCKPS USD500	Kansas City	Please sign the order to delay the opening on the school year in KS. Rates are rising and there are so many unknowns. We cannot put teachers, staff, and students at risk.
7/20/2020 19:51:15	Andrea	Merrick	Mom of 3 kids (one with	Frontenac	As a teacher I want to go back and teach my students in my classroom, and I want my school-ages children to attend school with their teachers and classmates ASAP. BUT, I am concerned for all families if schools start back in building before our COVID numbers drop significantly. My 2 year old has intractable epilepsy, among other diagnoses, and when she gets sick she has even more seizures and has ended up in the hospital for it. My reason to wait for schools to reopen is personal, and not everyone has someone so fragile at home to worry about, but I know that enough precautions cannot be made to prevent a spread in schools based on the rising cases recurrently happening.  Please consider waiting until numbers drop significantly before opening brick and mortar. It's not what I want, but it's what my family needs to keep all of us as safe as possible.
7/20/2020 19:51:18	Jan	Carroll		Olathe	Delay start of 2020-21 school year until after Labor Day, but no later. Start 9/9/20. I would consider doing the same for following years also, having school from Labor Day to Memorial Day be the norm.
7/20/2020 19:51:19	Julie	Dunkelberger	USD 259 - East High	Wichita	My school has 2400+ students and there is no way to provide adequate social distancing (two of my classes next year have 35+ students and the others are all nearing 30). Our building is 150 years old and we have an inconsistent HVAC system. Even with mandatory masking, my students and I will be at risk. Our administrators have indicated that enforcing mask-wearing will be no small challenge (and likely impossible). Cases are on the rise in Sedgwick Co to the point that the White House has implored us to take COVID-19 more seriously. If we even hope to make our school safe, there is no question that we need extra time to put recommended safety measures in place. In that case, I wholeheartedly support Governor Kelly's recommendation to postpone the start of the year and believe it is the only sane and healthy way to try and protect our students and ourselves if we go back to school in-person.  The reality is, however, that we will likely be forced to go fully virtual within a few weeks of starting school. Why not save the money from outfitting our old schools with expensive precautions and plan to start school on time - but virtually - for all? And let's save lives while we're at it! Then our beginning-of-the-year inservice meetings can be spent mastering technology to make our lessons meaningful and engaging for students rather than being used to discuss how to keep our kids safe in an inherently unsafe environment.
7/20/2020 19:51:20	Blake	Stuart		Lawrence	Our kids need to get back in school and it needs to happen before Memorial Day. Additionally, I don't understand how schools are going to enforce masks and social distancing at the elementary school level. I'm hopeful the main priority for our schools returns to educating our children, as it should be.
7/20/2020 19:51:22	Matthew	Bohm	Olathe educator and par	Olathe	Please think about the health and safety of students and educators. We are not at a place where schools can safely open with the rapidly growing COVID cases. Losing even one student or staff member from infection in our schools is one too many.
7/20/2020 19:51:23	Marilee	Gundlach		Colby	Please do not mandate schools to start after Labor Day and to wear masks. There is NOT a need for this, the death rate does not show this is not a pandemic. The added stress of not being in a social setting and getting their lives back to their normal is much more harmful than this illness.
7/20/2020 19:51:27	Holly	Hatton	Teacher	Lenexa	I am completely in favor with the Governor's EO with concern to the DELAY the start of school until AT LEAST after Labor Day. I am a teacher who is 52 years old. I am not willing to endanger my health by participating in the in person school model until our state is in DECLINE of Covid positive cases for 14 days

7/20/2020 19:51:45	Nathan	Feese		Overland Park	No delay, open schools on time.
7/20/2020 19:51:49	LeArta	watkins	Our family	Derby	We don't believe that in person classes can start until this pandemic is under control in our state as per CDC guidelines. Little kids especially can't distance themselves nor can they keep from touching things. Our teachers and staff need to be protected. If I were teaching which I did for more than 25 years, I would resign!!
7/20/2020 19:51:53	Emily	Spencer		Topeka	School decisions should be left to local school board districts. Please reject executive orders.
7/20/2020 19:51:58	Janeal	Lischke	Heritage Christian Scho	Topeka	Please allow each school board to do what is best for each school.
7/20/2020 19:51:56	Sarah	Spencer		Olathe	Please follow through with this executive order. We are nearing the end of July and because of this order we have no clear plans from the district about what the fall entails. Everything has been pushed back because while we wait to see if it passes or not. Expecting teachers to report to work and teach students 3 weeks from now with no clear plan communicated as of yet is irresponsible. Give districts and teachers the time to prepare the safest environment for students. Not to mention COVID cases are back on the rise and this is far more out of control than it ever has been. I'm so anxious for the health of my coworkers and students. We all deserve to return to a safe environment.
7/20/2020 19:52:02	SARAH	BORISKY		Stilwell	Please delay the start of the school year until COVID cases start to steadily decline! Our kids, families, and all school staff, bus staff, and more depend on schools not opening until COVID risk level is much much lower. Have online only classes for the fall and then hopefully the spring will be much better for reopening.  #11th highest = Kansas Infection Rate: 1.20 (High)Overall Risk Level: Red (Critical) "We've ranked every state in the U.S. by infection rate, from lowest to highest. We've also included Covid Act Now's overall risk level for every state, which takes into account the positive test rate, ICU availability, and number of contact tracers as well. The risk level is either green (low), yellow (medium), orange (high), or red (critical)."
7/20/2020 19:52:12	Pauline	Folsom	None	Morrill	Science shows that children very rarely pass this virus to others. Resume in school education.
7/20/2020 19:52:13	Rhonda	Unruh	USD 460 - Hesston Eler	Hesston, KS	I am a mother and teacher. I teach in the elementary school setting and know that the enforcement of face masks for students is NOT a good choice. It will be utter chaos trying to keep the masks on them correctly, will end up spreading more germs from them messing with them constantly, and I don't feel it is good for their health because it restricts airflow. There have been enough studies and pediatric organizations who have already endorsed NOT restricting students by making them wear masks to see this is not a good idea. I mentioned I am a parent as well. I have a senior son who dearly loves participating in sports, music, and other activities. By delaying the start of the school year to after Labor Day and restricting schools from doing any student instruction, including sports or any extracurricular activities between August 10 to September 8, our youth will suffer greatly. They need these activities and face-to-face instruction for their mental, physical and emotional health. I'm praying so hard the members of the state BOE will see the insanity of Gov. Kelly's executive orders, and will vote to leave the decision of when to start school up to individual districts, not require masks for young students, AND allow sports and activities to continue as they have successfully been doing throughout the summer break.
7/20/2020 19:53:00	Jennifer	Balsbaugh	Parent	Overland Park	Please leave it up to each district to chose. A one size fits all isn't fair in this situation.
7/20/2020 19:53:10	Jamie	Balthazor		Stockton	We do not need to make masks mandatory! Only optional!
7/20/2020 19:53:12	JoDee	Copple	USD 239	Minneapolis	I am ok with schools starting a little later than normal; only because it will allow my school district a little more time to prepare for the year. If by delaying means my kids will be able to go to school and not have to do online then that is what is needs to be done. Online schooling is NOT the way to go!!
7/20/2020 19:53:20	Sarah	Ayers	Educator for OPS	Olathe	Support the delay of school openings for student and staff safety!
7/20/2020 19:53:22	Regina	Tireman		Olathe	Please keep the Governor's order in place and wait to open school until after Labor Day. This will give our schools additional time to prepare and plan especially if virtual learning needs to be addressed.
7/20/2020 19:53:22	Sarah	Mercer		Wichita	I would like to see schools open AFTER Labor Day.
7/20/2020 19:53:23	Robin	Anderson	Andover Middle School	Wichita	Thank you for mandating masks. Please continue to make universal decisions so no one district has to come up with their rules. Please keep up the good work.

7/20/2020 19:53:29	Aubree	Vargas	Winfield High School	Winfield	<p>I feel that is a smart decision to delay school. As a teacher, I understand what extra preparation needs to be put in place for school to happen and for us as staff to make it a safer environment for kids to go to school and the staff. Half a million students and teachers are at risk, especially high risk teachers or students, we need to consider this when deciding overall. 1 life or 300 lives. Every life is precious and important. Even if it is "1% will die." That is 1% too many. 1 death too many, 1 sickness to many! We need to do all we can to protect our teachers and students.</p> <p>Thank you for all you do for our education system. We are in trying times and it is calming to look to you all as leaders. Thank you!</p>
7/20/2020 19:53:36	Carolyn	Walker	grandparents	Topeka	The kids need to be back in school as soon as possible. Let the individual districts decide what will work best for them. Keep the gov. out of the decision. It NE can do it so can KS. They are starting on time and starting fall sports.
7/20/2020 19:53:37	Jamie	Miller		Olathe	PLEASE open the schools back up on time.
7/20/2020 19:53:39	Kourtney	Yantis		Pittsburg	Please uphold the Governor's executive order not only as a safety measure, but also to give teachers and districts time to prepare a plan to keep us all safe. At this point we would have less than a month to prepare, and safety concerns aside, no teacher will feel comfortable jumping into a new school year with new BOE recommendations with less than a month to prepare. This pandemic is not a political issue, please do not make the mistake of treating it as one. Please consider the health and safety of teachers and students. There are times when local control shouldn't outweigh every other consideration, and a pandemic is one of them.
7/20/2020 19:53:42	Jennifer	Wenderott		Alma	Please allow schools to open in August without madatory mask. If you follow the Governor's orders you are going to bankrupt schools.
7/20/2020 19:53:44	Kirstin	Todd		Lenexa	Please let our kids go to school!!!
7/20/2020 19:53:56	Arleen	Clinesmith	USD323	St George	I would like to see school start on time with no delays.
7/20/2020 19:53:56	Tara	Brigham	Parent	Pittsburg	Stay closed until ATLEAST after Labor Day and re-evaluate at that point. We don't know enough about this to put our children at risk.
7/20/2020 19:54:02	Jennifer	Bruns	KCKPS	Overland Park	I'm still extremely anxious about even returning to the building after Labor Day. I live with my elderly mother who is also immune compromised. I'm terrified of bringing COVID-19 home to her, her getting sick and dying. I work with preschool special education who are not going to keep masks on, need assistance wiping their nose when they sneeze, have to have diapers changed, put toys in their mouths and don't understand social distancing. Plus we have small classrooms with 20 students and 3 teachers at all times, not to mention when related services or counselors come into the room. While it's starting to become evident that children can get Covid-19, it's definitely been proven that they are carriers. I am also immune compromised as well as several teachers in my building. I urge you to pass the executive order given by Governor Kelly and even possibly look at online learning all of fall semester until we have a significant amount of time with no new cases. The health and safety of everyone has to be the top priority!!!
7/20/2020 19:54:12	Shawna	Paulin		Wichita	I strongly urge the Kansas State Board of Education to uphold the governors executive order. It makes sense to give schools extra time to prepare for the implementation of safety protocols to keep all students, teachers and staff healthy at this unprecedented time in our history. Yes it is important to have children return to normalcy as soon as possible but there is not going to be anything normal about this school year. Waiting these few additional weeks will help school districts have the opportunity to be sure all teachers and staff fully understand the many new procedures that must be implemented. They cannot be expected to do this in a rushed and haphazard way. There is too much at stake here- the health and safety of our children and those that we entrust our children to for the school year must be the top priority in making this decision.
7/20/2020 19:54:15	Gayla	Mead	My child and grandchild	9018 W Meadow Knoll	Please keep the schools closed until the spike in cases has stopped and until there is a better plan to open safely. The plans I have read about do not seem plausible, let alone safe. Thank you.
7/20/2020 19:54:25	Rebecca	Peterson	Self	Valley Center, KS	I agree that school opening should be delayed. I work for a school district and have an autoimmune disease that puts me at a higher risk if I were to get sick. I also have elderly parents that have health issues as well. We need to do what is right to protect our health. How is putting over 400 people in a building going to stop the spread. Please do what you have to do to keep people like me safe. Thank you. Rebecca

7/20/2020 19:54:26	Amy	Reist		Ingalls	Please consider what the governor has said. It's 3 weeks. It's not gonna kill us for an extra 2 weeks to prepare and make sure we are all safe!
7/20/2020 19:54:26	Shawna	Paulin		Wichita	I strongly urge the Kansas State Board of Education to uphold the governors executive order. It makes sense to give schools extra time to prepare for the implementation of safety protocols to keep all students, teachers and staff healthy at this unprecedented time in our history. Yes it is important to have children return to normalcy as soon as possible but there is not going to be anything normal about this school year. Waiting these few additional weeks will help school districts have the opportunity to be sure all teachers and staff fully understand the many new procedures that must be implemented. They cannot be expected to do this in a rushed and haphazard way. There is too much at stake here- the health and safety of our children and those that we entrust our children to for the school year must be the top priority in making this decision.
7/20/2020 19:54:32	Benjamin	Cardon		Olathe	As a teacher, this EO affects me directly. As a parent of school-aged children, this EO affects me directly. I fully support Gov. Kelly on this executive order, and strongly encourage BOE members to support her as well. My school is NOT prepared to have either in-person or virtual school at this point. Giving us more time to prepare will GREATLY enhance our ability to effectively teach our youth. In addition, as a teacher, I am scared for my LIFE (not my livelihood, not my freedoms, but my LIFE) if I return to teaching right now with the COVID numbers we have. As a parent, I am scared for MY LIFE, my CHILD'S LIFE, and the LIVES of the staff at my kids' schools. I do not want to send my children to school right now. Kansans have not done what is necessary to driving down the numbers (wearing masks, socially distancing, etc), and the consequence of that is we SHOULD NOT re-open schools yet. It is ludicrous to risk so many lives, to ask teachers to again try to come up with completely different lesson plans on the fly (teachers have not had instruction or time to develop completely different lesson plans as of yet to allow for an effective virtual option of teaching). Moreover, MANY teachers are also parents of school-aged children, as am I. With my wife working (since a teacher's income is not sufficient alone to provide for a family), if my children are taking virtual classes, and I am teaching virtual classes, there is a problem. To start school with virtual teaching, and at the same time expect teachers to completely revamp their teaching, combined with having teachers be parents at home, would put an overwhelming load to too many of our teachers. The quality of education would suffer to an unacceptable level in far too many cases. The only logical and appropriate response is to support Gov. Kelly in delaying the opening of school until at least Sept. 9th. Any vote otherwise is a direct assault on teachers, their livelihoods, and their very LIVES. I hope and pray and beg you, as a parent and a teacher, to support Gov. Kelly and vote in favor of EO 20.58.
7/20/2020 19:54:34	Michelle	Voth		Newton	I am writing to you as a concerned member of the USD 373 community. My daughter is a preschooler and my husband is a teacher in this district. I recognized the extreme difficulty in making decisions surrounding school reopenings. I urge you to rely most heavily on recommendations and evidence from the nations leading scientists and public health officials. Governor Kelly's executive order does just that by delaying the start of the school year. Please block out the rest of the "noise" and focus in on the safety and well-being of our teachers, our children, and our Kansas communities. Even one death as the result of opening schools too soon is too many. Please understand the seriousness and gravity of this pandemic and your decisions surrounding it.  Thank you, Michelle Voth

7/20/2020 19:54:38	Shannon	Sundberg	Stony point south	Overland park	I am a kindergarten teacher, and though students are said to not be as easily susceptible to COVID, I am concerned with the data that shows this. Schools have been closed since March, so large gatherings of students has not really taken place to the extent of a school building. My school is also an open concept building- meaning no doors or 4 walls. My immune system is quite high, however last year I was sick more than I have ever been in my teaching career. Influenza A ran rampant in my classroom. There were days when I was missing half my class. We sanitized daily, washed hands nonstop and kept distance between everyone, and still tested positive for influenza A. I know from 14 years of experience that my kindergarten students will have a very difficult time adhering to the guidelines- if not impossible. Knowing how rampant and quickly influenza ran last year, and all precautions that were taken, worries me about the health and safety of my students, their families, and the staff- all of whom do not know how their body, or their families' immune systems, will respond to this virus.
7/20/2020 19:54:41	Ellen	Backus		Topeka	I teach 5th grade and my husband teaches high school in Topeka Public Schools. We are also new parents to a 3 month old daughter. Please approve Governor Kelly's executive order. Sending students and staff into buildings in the middle of an airborne viral pandemic is dangerous. We need to take every possible measure to protect students, staff, and families. Governor Kelly's executive order mandates the minimum requirements necessary for anyone to return to school. Please keep my family and my students' families safe.
7/20/2020 19:54:48	Mike	Tireman		Olathe	I am asking you to keep Governor Kelly's order in place as cases right now are continuing to rise and the metrics do not support school reopening at this time.
7/20/2020 19:54:48	Kari	Liggett	None	Olathe	Please stay closed until after Labor Day at least!! I would like to see schools closed for months until the numbers decrease considerably.
7/20/2020 19:55:04	Cary	Semler	Parent	Lawrence	Delaying school for the safety of the students and faculty. Having online or a hybrid of online and in person classes. Just being safe. I have a child that has health issues, he really wants to go back to school but it's just not safe.
7/20/2020 19:55:08	Stacy	Kramer	Holy Trinity School and	Lenexa	Why is Governor Kelly ignoring the advice from medical professionals who advise that children aged K-6 do not need to wear masks? I thought she was following the advice of professionals. Seems like she is more concerned with politics now than with our children's safety and future. Very disappointed!
7/20/2020 19:55:15	Veronica	Blanco	Parent @USD443	Dodge City	Delay the the start of the 20-21 school year and make mask mandatory for all. Please keep the safety of our kids and staff a priority.
7/20/2020 19:55:15	Emily	Beye	Self	Overland Park	Teachers and schools need the 3-extra weeks to really prepare all the measures that are mandated. I would MUCH rather send my Kindergarten daughter 3 weeks "late" and keep her in school for a longer stretch, than send her on-time and be back out after only a few weeks. Please uphold the governors decision.
7/20/2020 19:55:18	Adam	Balthazor	Fathers	Stockton	No mask mandate
7/20/2020 19:55:25	Ann	Roe	Teacher	Arkansas city	Schools should open in August like normal
7/20/2020 19:55:41	Deana	Plume		Wichita	KEEP SCHOOLS CLOSED UNTIL AFTER LABOR DAY!!!!
7/20/2020 19:55:41	Allison	Day		Leavenworth	I believe starting after Labor Day is what is best for students and teachers. This will give staff extra time to solidify their plans to ensure student and staff safety.
7/20/2020 19:55:43	Paula	Sears	Cheney USD 268	Cheney	Please use the adopted plan in the Navigating Change document! It is a safe, good plan and LOCAL districts should decide how they'd like to proceed with school based on their spread. It should NOT be a statewide decision. Thank you for your time and consideration during this difficult time. Sending prayers!
7/20/2020 19:55:43	Jessica	Wilson	usd 447	Cherryvale	As a teacher, we need more time to prepare for what is being expected of us. My district hasn't given us much guidance (yet) as to what our classrooms should look like, how our schedules need to change, what programs/tools are available for online, etc. We need time to set up and train so that opening back up is done as safely and efficiently as possible.
7/20/2020 19:55:47	Desire	Fiscus		Mulvane	I would prefer to start in August as scheduled with social distancing standards in place.
7/20/2020 19:55:48	Victoria	Morris	KCKPS USD 500	Lenexa	I'm asking that you uphold Governor Kelly's executive order to delay the start of school until after Labor Day. As a state, we are seeing the number of cases rise rapidly. States and countries that have reopened daycares and schools are seeing that they have a rise in cases involving children. As a teacher, I will be on the front lines of this epidemic. I live with 2 people who are at high risk to die from this disease. Please, delay the start of school until after Labor Day so that Local districts can get the supplies we need and train all staff to safely return and deliver education we can be proud of while keeping children, teachers, staff, and the multitude of families involved safe.

7/20/2020 19:55:52	Judith	Landis	Retired	Olathe	I support delaying the start of school under the current circumstances. Unnecessary risk should be minimized. Teachers and students will do their best to learn and the state will not regret its prudence.
7/20/2020 19:55:55	Elizabeth	Schurman	University of Kansas	Lawrence	Sending teachers for face to face classroom work is insane. Happily at KU I have been able to choose to teach online. Most of my career, though, I have taught high school. I would quit teaching if I had to be in a building with students. I always taught really troubled kids, and we struggled with them in many ways. There is no way I would struggle with them over masks. Teenagers will not wear them. Some parents will tell them they don't have to.... A friend of mine just proctored the ACT, and she couldn't even get THOSE students to stay masked. How will it be with our traumatized, stretched to the limit, struggling students? Teachers will die.
7/20/2020 19:55:58	Merrilyn	Shobe		Overland Park	Please uphold the delay to give staff adequate time to prepare & for the numbers to start decreasing. Thank you!
7/20/2020 19:55:58	Saul	Reza	Rolla school district	Rolla, Ks	Does the governor, state department of education, the state board of education have any plans to supply hand sanitizer and masks to schools? These could be purchased in bulk by the state and supplied at a much lower cost or at no cost to districts than if districts purchased themselves, even if they can find sanitizer for every classroom. Also if a classroom has a sink and soap dispenser, why must sanitizer be used? This is putting additional unneeded constraints on districts.
7/20/2020 19:56:03	Kimberly	Potter	Special Education teacher	Pratt	I support the Governor's EO to delay the start of school until after Labor Day. I'm concerned for the safety of our students and staff as our cases are continuing to rise.
7/20/2020 19:56:07	Joe	Hoffman	Desoto school district in	Desoto	Schools need to be open. The numbers don't add up, if 99% of people who get Covid are fine, it doesn't make any sense to shut down schools. Please look at facts and make decisions based on that. Thank you.
7/20/2020 19:56:08	Kim	Borchers	Parent	Topeka	Overtun EO 20-58 and push back on the one size fits all mandates EO. You know that children 6th and under should not be burdened with a mask mandate.
7/20/2020 19:56:13	Becky	Frank	USD 329	Alma	I am not in favor of forcing students to wear masks at school.
7/20/2020 19:56:18	Linda	Squires	None	Arkansas City	Please open the schools back up! No masks. Our children and grandchildren need to get an education. This being off school so long is NOT healthy for them. Please do the right thing! Thank you
7/20/2020 19:56:19	Lesley	Beck		Olathe	Please approve the governor's order to delay the start of school until after Labor Day. It is important that we give districts time to make sure that school starts in the safest & smoothest way possible.
7/20/2020 19:56:23	Erin	Balthazor	USD 271 Stockton School	1111 s 1st Stockton ks 6	Please allow our children to be educated and go back to school!! It's hard on them mentally and emotionally! We live in a small rural community where things don't come easy so the least we want for our kids to have them an education and be able to not fall behind and have the freedom we as Americans should have our rights!
7/20/2020 19:56:23	Julie	Fletcher	Kansas City Kansas Public	Overland Park	I am a teacher in USD 500 and have a special needs daughter at home and am very fearful of bringing the virus home to her. I applaud Governor Kelly in keeping schools closed until after Labor Day. Please help her out in caring for the people of this State with your vote on Wednesday.
7/20/2020 19:56:26	Saran	Mitchell	USD 305	Salina	I am a teacher in a k-5 school. I am terrified for the safety of myself and my students if we open, as numbers continue to spike.
7/20/2020 19:56:29	Megan	Laurent	OT	Lenexa	We had a plan and the district board should be the ones who delay the start of school, if needed. If we are going to start online (based on numbers and upward trends) let's just start when planned!
7/20/2020 19:56:32	Jacqueline	Moore	Citizen, spouse of school	Wichita	I am in favor of delaying the start of school until after Labor Day as a minimum response to the fact that cases are on the rise in Kansas, and in Wichita in particular. We need to get cases down before we send kids back to school. There's too much potential for kids and employees to be come ill and then spread the virus into the community.
7/20/2020 19:56:34	Shelby	Evans	USD 210	Hugoton	Please vote to open schools after Labor Day. Teachers need time to prepare for the new guidelines and prepare for what is decided by our district.
7/20/2020 19:56:37	Karlie	Cooper		Overland Park	Please do the right thing and follow Laura Kelly's order to delay school opening. In a surging pandemic, new information is coming so quickly and we need extra time to ensure it is safe for students and teachers. We also need time to consider the issues of lack of substitutes, lack of nurses willing to work (my school currently cannot fill its nurse vacancy), and lack of PPE for staff. I believe strongly that we should not dare open up public school buildings with cases rising as they are. We are much worse off than we were in March. This would be leaving a burning building only to enter again into larger flames.
7/20/2020 19:56:41	Arline	Mck	Dodge City High School	Dodge City	Please let school open on time. The kids we interact with are suffering from no activity, no school. Please let them go back

7/20/2020 19:56:41	Hannah	Yakel	USD 259 SPED teacher	Wichita	I urge you to please vote in favor of Governor Kelly's executive order to delay school until after Labor Day. As a teacher and parent, it would be beneficial to have to extra time to continue to teach my daughter proper mask wearing habits and to make proper positive literature to help in teaching my students correct protocol that aligns with correct social distancing and mask wearing.
7/20/2020 19:56:47	Helen	Stoll	Myself, but I'm staff at J	Overland Park	Delaying the start of schools as long as possible is the right thing to do and I support it 100%. We should have at minimum a two week downward trend in new positive cases before considering any attempt at face to face instruction.
7/20/2020 19:56:55	Abby	Gillan	USD 489	Hays	Please delay the start of school until after Labor Day. Schools, families, and communities need this time to plan. Schools need time to procure necessary supplies to keep kids safe. This shouldn't be a political issues. It's an issue of logistics and planning.
7/20/2020 19:56:58	Lawrence	Simmons	USD 506	Edna Kansas	Dianne Strange kids have been in summer school,kids have been in fall sports conditioning, kids have been in sports and camps, kids have been on buses, kids have been at the pool and still no major outbreak. Decisions should be up to districts, why hold off school where schools and staff are ready or have no or very few cases in the area. I 100% believe its a virus but i 100% believe its been blown way out of proportion.
7/20/2020 19:56:59	Tennele	Hankins		Park city	Please allow districts time to dive into the recommendations and have solid opening plans and training for staff instead of a half - done approach that doesn't keep all stakeholders safe. Our children, teachers, school staff, and families deserve to feel safe when walking through our schools' doors.
7/20/2020 19:57:03	Courtney	Fitzgerald		Shawnee (DeSoto-Mill)	I stand with the school boards decision to open schools as planned and as scheduled. The school board already made the decision based off of a team of teachers, staff and medical professionals that deemed it safe and absolutely necessary for kids to be back in school. Schools are doing what is necessary for virtual and in person options. The whole health of our children include BEING IN SCHOOL helping them create social connections, emotional connections, physical connections, educational connections & religious connections (our children attend Catholic school). My social work background also tells me that many children will fall through the cracks if they do not have a school to go to. Children will be left hungry, unsupervised, uncared for, abused and left to their own devices. These children will not be learning new skill sets, doing arts and crafts with their parents, or finding ways to cope with this unprecedented situation. We NEED our schools to open. Thank you for your time on this matter.
7/20/2020 19:57:09	Mary	Nichols		Winfield	I think using hand sanitizer every hour is a mistake. It's hard in skin and I believe it's generally not a good idea. Washing hands prooermy every with soap would be much better and use hand sanitizer in between as needed. Please check into the hazards if too much hand sanitizer.
7/20/2020 19:57:12	Christina	Scott		Eureka	I'm am all for going back to school. But I feel like if we start on time August 20th in my district, you aren't giving parents time to prepare with school supplies, school shoes, clothes, and then add enrollment fees on top of that. Our town is a poverty town and we usually have a big school supply drive but that isn't happening this year. A majority of our kids get their supplies there. I think we need to think of the parents when it comes to starting on time now.
7/20/2020 19:57:19	Jessica	Allen		Saint George	Please delay the opening of schools for the safety of students and teachers. Our cases are up in Kansas and we need all the time we can get to get things better under control.
7/20/2020 19:57:36	Jacob	Tireman		Olathe	Please keep the order in place for school to not reopen until after Labor day. This will give our schools additional time to prepare for the safety mandates put in place. Schools also need time to make sure they have proper PPE, sanitizer and cleaners before reopening. Numbers are rising and it is not safe to open schools at this time.
7/20/2020 19:57:37	Chloe	Shantz		Goddard	I believe schools should be opening at regular August start times without masks for children below 6th grade. Starting after Labor Day is only going to further halt my children's education.
7/20/2020 19:58:14	Anne	Lightcap	Parent USD 232	Shawnee	I am a school nurse as well as a parent. We need more time to educate staff and prepare for the upcoming school year with all the Covid mandates. Please support the Governor's decision to delay school. I say let only the required classes for graduation be taught and the rest are optional online. I have a son set to graduate May of 2021.....he should be allowed to take only credits he needs and go to Ju co for some college classes. Please waive the vision and hearing, CPR for all HS this year. Allow non contact sports and waive 504/IEP mandates for nurses. I have 1000 kids and 75 staff. I cannot physically take everyone's temp each day.

7/20/2020 19:58:18	Denise	Humphrey	Grandparent / sports coach	Lenexa	Children need to be in school the longer you wait the more people travel if you left the normal start date people would have start staying home and it would get back under control. Schools have plans in place giving families choices. We can't hide forever. Students have been out working during COVID get on social media they are together so put them in school. Children have been in day care and have not been sick. Put them in school wear mask, change no drinking fountains, but allow water in containers, less socializing in large area.
7/20/2020 19:58:23	Rita	Lesser		Rural Lecompton	I urge the State Board to approve Governor Kelly's mandate. While I feel it is extremely important to get kids back to school, the health and wellness of our community is more important. Delaying the start date will give schools time to better train staff in preparation for the new school year, and it will allow Covid cases to hopefully decline. I know of people (not just a person) who have lost their life to this virus, and I hope we can become part of the solution, not the problem.
7/20/2020 19:58:30	Ashley	Burdick	Teacher in USD 266	Wichita	I believe that we must delay in person classes until it is safe (or until there is a true plan for the safety of all staff and students) for staff and students to return to school. In person school risks my life, my family members' lives, the lives of my children, the lives of my co-workers unnecessarily.
7/20/2020 19:58:38	Januarie	Bridges		Quinter	Please allow each district make decisions best for it not a blanket rule for all
7/20/2020 19:58:42	Cindy	Hughes	Columbus school	Columbus	Start school earlier. No masks and allow sports.
7/20/2020 19:58:45	Elise	Tireman		Olathe	It is not safe to open schools at this time when numbers are rising.
7/20/2020 19:58:53	Mariah	Wallin	Wabaunsee county citizen	Alma	Schools should stay close!
7/20/2020 19:58:56	S	M	Parent	Derby	I absolutely will not send my child to Kansas schools if they are required to wear a mask for 8 hours a day. Absolutely absurd. You think a child is going to learn anything with a mask across their face?! My child has braces and is terrified her braces will get stuck to her mask. The unnecessary anxiety you are placing in our children is enough for me to keep them out of school and teach them myself!!
7/20/2020 19:59:05	Mindie	Foster	Self	Effingham	I have a student that is ready to be back into school. He doesn't learn from online schooling as he doesn't understand it. He has been out of school since the beginning of all this Covid. As a parent I feel that postponing school is not going to make much of a difference. The spread is still going to happen. I feel we should let there be some normality to students life. Including more structure as there was before our life with Covid. These students need something to look forward to and for some school is all they have.
7/20/2020 19:59:06	Jeanette	Nixon	Goddard Schools	Cheney	I want to open the schools! Let the parents decide if they will send their kids!
7/20/2020 19:59:11	Linda	Freund	concerned citizen of Kansas	Overland Park	I am urging you to PLEASE listen to our governor. I am a concerned parent of a teacher and have three school aged grandsons. The numbers of COVID are continuing to rise in our area. The schools are NOT prepared to open and need this extra time. Ask yourself if you would want to go be in the classrooms on a daily basis and risk taking it home to your families. Something tells me you wouldn't. Not only are you risking the health of our teachers and students it also extends to their families. At this time I feel it is URGENT to listen to our governor.
7/20/2020 19:59:12	Karen	Ettinger	KCKPS	WYandotte	Based on the current rate of positive COVID-19 infection in Kansas I feel that the safest thing for student, staff and families is to vote yes on Governor Kelly's executive order delaying the start of school until after Labor Day.
7/20/2020 19:59:15	Loghan	Currier		Wichita	Delay the start of school so that schools are able to get the supplies they need to keep students and staff safe!
7/20/2020 19:59:21	Katlyn	Purkapile	Edgerton Elementary	Edgerton	I don't think there's anything wrong with delaying school until after Labor Day, but my kindergarten and preschool child who are both enrolled at Edgerton Elementary will not attend if they have to wear masks all day long. I will be pulling them both out of school to homeschool until further notice. This decision absolutely breaks my heart, but young children should not be required to wear masks all day long.
7/20/2020 19:59:26	Cindy	Connellan		Prairie Village	I support Gov. Kelly. This should be about health - not politics.

7/20/2020 19:59:30	Kristin	Robertson	Parent and employee in	Olathe	I fully support the delay of school not starting until after Labor Day. The numbers need to take a downward trend before we even consider sending kids/adults back into the schools for everyone's safety. I support the guidelines laid out by Laura Kelly and feel they are even on the conservative side. I love kids and work with the younger ones and I want school to be a safe and positive environment for them. I believe a virtual option for awhile might be the best case scenario for this. Masks are going to be necessary, social distance is necessary, hand washing is necessary and those things alone in a classroom of kindergarteners would be a full time supervisory role for teachers. Perhaps learning during these unprecedented times, especially for the youngest of our students, would be better virtually so their first experiences in school aren't fraught with the extra stress of being policed with these things and the fear that is there with increasing numbers right now.
7/20/2020 19:59:32	J	Lickteig	USD 447	Cherryvale	I feel like delaying can only help the spread and more importantly help give schools time to prepare.
7/20/2020 19:59:34	Shawn	Jett	Self/parent	Colwich	My son will be in first grade this year unfortunately our governor took our kids out of school too early last year I believe they could've finish the school year safely at some point for the well-being of all children not just my son schools need to open back up and teachers need to go back to work we need to put our trust that the schools can find a solution to open back up safely I am maintaining my job safely by washing my hands and wearing a mask I believe that schools could open up with safety plans in place please open our schools do not allow this governor to stop our children from their God-given right to an education the fear mongering needs to stop and teachers need to get back in the classroom I do understand some people are health compromised if things can't be put into provision to help them then maybe they should set this year out same as for any student that has severe health issues but for the kids that do not Have health issues that are healthy they should be allowed to go back to school schools are a safe haven for children who are not safe at home teachers are another set of eyes for children that are being abused it makes me sick to think how many children have been in this situation for months and it can go on and on and on if Governor Kelly is allowed to continue doing what she is doing please open our schools
7/20/2020 19:59:47	Kathy	Kusek	Olathe 233	Parkville	I have worked at Olathe for 22 years. Yes keep the schools closed until Labor Day. I work in the office and their is no ppe yet. If the cases are higher than when we closed before, Why wouldn't you keep it closed? Why risk it?? Wait until we have a significant drop in cases before you risk your students and staff. Thank you.
7/20/2020 19:59:48	Corinne	Hoard		Wichita	I want my kids back in the classroom. They need the structure and to be around their peers. Have remote learning as an option for those who are not comfortable with it but open the schools back up. I don't care if we have to wait until after Labor Day for that but open these schools up! And do not delay sports; these kids need it, the schools need it, the communities need it. Do not make these kids wait until Sept 8 to start practices they have been waiting long enough. Let them have a little bit of normal back.
7/20/2020 19:59:59	Kelly	Bielefeld		Clearwater	Delay the opening of schools. It is only three weeks and will help schools a great deal.
7/20/2020 19:59:59	Jennifer	Knight	Parents	Olathe	Please support Gov. Kelly's mandate.
7/20/2020 20:00:09	Tasha	Dean	My Family & children!	Pittsburg	Thank you Governor Kelly! We appreciate everything you are doing to keep Kansas safe!
7/20/2020 20:00:16	Laurie	Holden	Lansing School District	Lansing	PLEASE follow the Governor's executive order on the new start date for K-12 schools. Our cases are going rising every day here in LV county. Governor Kelly has shown strong, proactive, leadership based on the science of this pandemic.
7/20/2020 20:00:29	Audrey	Pool	Usd 397	Lawrence	Delay opening!
7/20/2020 20:00:30	Annmari	Lopez		Great Bend	School needs to open in August, and masks should be optional!!
7/20/2020 20:00:36	Jennifer	Constance		Kansas City, KS	People talk a lot about the impact of this order on students. But please consider the teachers and their families in this decision,too. We have spouses and children who are at risk with our exposure. We love our students, but our physical wellbeing and that of our families is just as important as our students'. Our mental health should also be considered. Just as opening and then closing school would have negative impacts on the mental health of students, teachers would feel the same negative effects. We will be entering flu season shortly after school resumes; COVID would be devastating to add to the mix.
7/20/2020 20:00:39	Haley	Unruh	Private	Cimarron	Please open schools.. The toll isolation takes on children is irreversible and can be devastating. In order for the economy to get back on track kids HAVE to be in school.

7/20/2020 20:00:46	Carrie	Phelps		Goddard	Schools need to be open. I'm a single mom working for a school district lost all my over time for the last 5 months which cost me \$700+ a month in income loss and you expect me to continue paying daycare for my 8 year old child. Let alone attempt to find one that has space for him. I have been going to work, my boyfriend has been working, my sons dad has been working and my sons step mom is working. We have all gone places like dillons, Lowe's, Walmart for months without mask on!!! Open schools help my empty pocketbook out and let kids be kids. Parents can make the decision on what to do with their own kids!
7/20/2020 20:00:46	Laura	Allison		Cherryvale	Please support the mandate for the health and safety of everyone's children. I think the order already does not do enough (but I will take what I can get); I see no reason why children as young as 5 years old cannot be required to wear a mask. I do not feel safe sending my children to school without a mask and without their peers wearing a mask.
7/20/2020 20:01:19	Braydi	Hishmeh	I'm a teacher	Topeka	I do NOT think we should delay the start of school. I am a teacher and I want to start in person teaching WITH my students in August. Please vote against Gov Kelly's order so that we can get our kids back in school! Teachers and school districts worked ALL summer on a document so that we will be ready for kids to return in August. We are ready, there is no need to delay.
7/20/2020 20:01:21	Tammy	VanHoozier		Valley Falls	Once again our governor is going against our rights. This is another huge overreach on her part. People should choose wether they want to wear a mask or not. She should not be able to decide that or if students, staff and visitors wear masks in school. She should also not be able to force schools to start later. She definitely needs to be recalled.
7/20/2020 20:01:19	Gillian	Luévano	KCKPS	KCMO	Please vote to uphold the executive order to delay the opening of schools for students until after labor day. As of now, teachers will have 4 days to prepare for school to start, an amount of time that is too short while not during a pandemic. To ensure a safe learning environment, whether online, in person, or a hybrid, teachers and schools need time to plan and gather supplies. Also, if you are meeting virtually to vote on this please do not expect in person school to happen. You need to lead by example.
7/20/2020 20:01:24	Magan	Brown	N/A	Basehor	As a hospital employee I understand the heavy decision. However, with mitigation it is safe to return. Kids are struggling with anxiety and depression and need structure and learning.
7/20/2020 20:01:33	Marilyn	Sanders	Sedgwick county special	Wichita, KS	I support using the 3 weeks delay for preparations including inservice days, IEP meetings, classroom Modifications etc which would normally be done throughout the year.
7/20/2020 20:01:34	Julie	Peterson		Great Bend	Please open schools as per our normal and customary tradition.
7/20/2020 20:01:49	Blake	Yakel		Wichita	I urge the Board to vote in favor of the executive order to delay school until after Labor Day. As a parent of a 1st Grader and spouse of a teacher, I want to ensure that everyone has ample time to have the necessary tools to keep schools safe throughout the entire school year.
7/20/2020 20:01:50	Ciara	Quinones		Kansas City	Either way, a plan needs to be put in place ASAP. If you're going to do online learning you MUST give teachers time to plan, support and plenty of professional development on how to effectively implement student learning. Teachers must be accountable for student engagement. Online learning MUST be engaging, not just assignments and fill in the blanks. You need to find a way for students to have PHYSICAL BOOKS AND MATERIALS.
7/20/2020 20:01:55	Kathrin	Wohlford	Parents everywhere	Wichita	Please do the right thing and DELAY the school opening as the Governor has outlined. Save Our future leaders and their families.
7/20/2020 20:02:07	Katie	Nease	My Family, My school	Clyde	Please don't delay school. My children are in a stable home and still are aching for school. Imagine those kids that have been at home since March and need their teacher's care, their classroom structure, stability and social, emotional and academic needs fulfilled. We got this! Allow for District Choice!
7/20/2020 20:02:18	Jada	K		Wichita	Mandatory temperature checks for everyone entering the building?! Have you seen the sizes of our schools in Sedgwick County? I can't think of anyone else more out of touch with reality than the KS governor and the KS Dept. of Education. Pulling my kids out this year!
7/20/2020 20:02:28	Mary	Allison	None	Sedan	Please delay the starting dates for schools in Kansas. It is not safe for teachers and students. Their needs to be strong safety measures in place as well before reopening schools. Masks and social distancing should be ordered at the very least. Thank you for the chance to comment on this issue.
7/20/2020 20:02:30	Jane	Jackson	USD 500 - Pre K	Kansas City	I feel very uncomfortable and unprepared about going back to school, I feel we need the extra time in order to be better prepared, whether in person or online.

7/20/2020 20:02:32	Tracy	Gervais	Usd232 parent	Shawnee	Please vote to return to school and allow athletics. Allow districts to decide if they need more time. Joco has plan and is ready to go. We have had 6 months to analyze how to return safely and should not delay at all but for sure not past 9/8/20 and I worry the gov will keep pushing back. Follow the stats and the science — Ku med and children’s mercy agree with return. Politicians should not over rule that.
7/20/2020 20:02:33	Lindsey	Baribeau		Manhattan	I agree with delaying the start of school until after Labor Day. This will give us teachers time to collaborate and work together to create a well managed plan for the year. I prefer not to just throw something together and everyone, teachers and students, feel like we are not giving our best. Thank you for the consideration.
7/20/2020 20:02:35	Koren	Dechant	Usd352	Goodland	Please do not agree to the governors “one size fits all” approach to education and the delaying of the states of the school year. Our children needs to be at school. Their education depends on it. Even trying the best they can teachers cannot deliver what the students need off site. The need the support of in person education. Not to mention the thousands of children state wide that are low income that need to be at school, it really is their safe place. As someone that works for the district it breaks my heart knowing that these students are not able to be at school.
7/20/2020 20:02:36	Ashley	Lesser		Dodge city	I feel that the Board of Education should uphold the governor’s order to delay schools until after Labor Day. This will give districts time to be ready to meet all the safety requirements necessary to reopen schools in a safe and organized way. I was extremely disappointed to see the response from district 6’s member stating that this time is not necessary and should be up to local decision. One reason she gave for this is that schools have had months to think about this and are already ready to go. As someone who is an educator and has multiple family members in multiple districts who are educators I can tell you this statement is a lie and a gross misrepresentation of what is happening in schools right now in every district. We are not ready. We need the time and training to be ready. Please put your political agendas aside and do what is best for our students, staff and teachers and uphold the governor’s mandate to delay the opening of schools.
7/20/2020 20:02:37	Ben	Burdick		Wichita	Comment removed for profanity
7/20/2020 20:02:40	Destiny	Love		Chanute	I feel like it is very important for our children to get back to school to socialize with other students and teachers face to face. I also feel fall sports is very important and will bring some normalcy back to their lives including camaraderie with their teammates.
7/20/2020 20:02:40	Jessica	Thompson	Kansas Educator	Kansas City	Please uphold Governor Kelly's executive order to delay the opening of school to September. As an educator at a high school in Wyandotte County, I am concerned with the increasing cases in Kansas and Missouri. Delaying the start of school allows for district administration and stakeholders to digest the guidelines set forth by KSDE, develop a plan to reopen schools, and prepare teachers and families.  Prematurely opening schools puts all Kansans at risk.
7/20/2020 20:02:48	Erica	Arnold		Overland Park	Until cases decline, I don’t feel it is safe to put our children or teachers in a position where they could contract this illness. Please delay in-person school at least until after Labor Day for areas experiencing increasing case counts.
7/20/2020 20:02:52	Jessica	Kowalewski	My classroom in Lansing	Lansing	I agree with the order. We should wait until after Labor Day to open schools!
7/20/2020 20:02:58	Linda	Tekuelve		Leavenworth/Lansing	Keep our students and staff safe!
7/20/2020 20:03:12	Rebekah	Downing		Lawrence	We need to follow the governor delay. Lawrence has not even been able to keep Boys and Girls Club open all summer. We can catch up on school but we shouldn't risk our kids, teachers and school staff just to get back to normal.
7/20/2020 20:03:12	Jenna	Ludvick	None	Shawnee, ks	Open the schools with in person classes when originally planned. No delays no online, for all, if people are afraid to let their kids leave home, give them the option of remote learning . Thank you
7/20/2020 20:03:15	Brandon	Hada	Nickerson High School	Hutchinson	My children will NOT wear a mask! I will file lawsuit after lawsuit if they are told to wear one!

7/20/2020 20:03:22	Amber	Cooper		Salina	I think schools should open when they were originally scheduled. Delaying school opening closer to cold/flu season doesn't make any sense. Also, kids should be in school, face-to-face with a teacher, like normal. Two working-parent families and single parent families are going to struggle to manage remote learning and/or a hybrid model. I don't want my kindergartener to sit in front of a screen all day long in order to learn. And who are a lot of these parents going to rely on when they have to work? Grandparents. The older, most vulnerable generation, who we are trying to protect will be at a greater risk because they will now be watching their grandchildren during the day. Please consider having children in school, on time.
7/20/2020 20:03:26	Krista	Miller		Topeka	I feel the extra 3 weeks will give school districts time to plan and prepare. Teachers need time to prepare as well. We need to look for what is best for students and families and staff and that's keeping everyone healthy and safe.
7/20/2020 20:03:34	Brooke	Winter	USD 268 Cheney School	109 N Washington Cher	I feel the delay of school for our healthy, small town is a poor decision. We are ready, willing and able to start school in August. This is the viewpoint of the majority of our staff and parents. Please consider that a one size fits all approach to dealing with Covid is not a fair or responsible way to make decisions. Thank you!
7/20/2020 20:03:34	Tyson	Schroeder	High School Teacher	Dodge City	The rate of infection and mortality rate for children is next to nothing. You have a better chance of drowning. We need to get back to school with all of the normalness that we had before the shutdown. This includes all the extracurricular activities! You say follow the science. I guess I would say follow the science. The dangers to students outside of school is greater than this virus. Mental health issues, suicide, self harm, abuse in all shapes and forms. I fear we are not thinking about these other issues and are only focused on this one. I personally had one of my students take his own life back in April. Was it because of the lockdown? Not being in school? The hopelessness of the world? I don't know, what I do know is that if we don't get back in the classroom with face to face teaching we will see more students attempt and complete suicide. I would encourage you to not vote with the governor's executive order to delay the start of school? What was the reason? Because of the numbers? Do you really think the numbers will be lower 3 weeks from now? And then what? Delay another 3 weeks? You have to go and go now and put out the fires at a local level when needed.
7/20/2020 20:03:49	Nicole	Wilson	My children	Lakin	So who is buying all these masks? And who is responsible when a child becomes dizzy, nauseous or sick from breathing their own CO2 for 8 hrs a day 5 days a week? Or worse if they pass out and injure themselves or God forbid die due to this??  Not to mention how much masks can compromise the immune system. Not exactly the smartest move during a pandemic????
7/20/2020 20:03:55	Alisha	Gibb	Parent of school age child	Latham	Our children NEED to be back in school, sooner rather than later. The fatality rate and hospitalizations evidence is not in support of delays and mandates ordered by the governor. I feel strongly that each district should be able to implement the appropriate return to their classrooms. This has never been a one size fits all issue. We are a very rural district with little to no cases.  I am NOT in support of the mask mandate in any way, shape or form. The general adult population can't properly wear masks, yet we expect children to wear these all day without touching their faces, pulling them down or playing with them. This is absurd. For those who wish to wear them, by all means let them. But for parents who don't have the same feelings the mandate should be revoked.  The bottom line is that children thrive when surrounded by friends, teachers and structure. The past five months have been anything but structured. My children are blessed to be in a safe, loving home. The fact is that there are too many that rely on school for a safe haven and good meal. Please don't delay this any further.
7/20/2020 20:03:56	Emily	McBee	Olathe School District	Olathe	Please vote to push class starting date back to Sept 8
7/20/2020 20:04:06	Sandra	Cromwell	USD 437	Topeka	I appreciate Governor Kelly's approach of using data and science to support her decisions. We must keep students and staff safe.
7/20/2020 20:04:15	Christy	May	Parent of JR high and middle schooler	Cimarron	I wish we would not delay that long. Our area doesn't have many cases, starting the end of August would be reasonable. Allowing sports to start practicing would help keep kids busy in our small town and not get anymore couped up. My little special needs boy needs his therapist and to get back to school.

7/20/2020 20:04:36	Jeff	Maska	Concern Ed citizen	Hays, ks	Delay opening school until after Labor Day
7/20/2020 20:04:43	Ann	Heise	USD 490	Wichita	Delaying the start of school gives us teachers time to make learning more safe and meaningful with our covid cases increasing. Please consider our desires to provide quality and meaningful education to the children of Kansas while not risking the health and safety of teachers, staff and students. Thank you.
7/20/2020 20:04:44	J	Leonard		Topeka	As a parent of two school-aged children (elementary and middle school) in Shawnee county, I feel very strongly about the need for our children to be in and return to school in a classroom setting for their mental and psychological health and well being. As I write this today, our children have already been out of school for more than 20 weeks, as our Governor was the first in the nation to cancel schools in March and is now attempting to further delay our children from returning. It is my sincere hope that the SBE take into consideration the desire of parents like myself, and several others in our community, that do want our children (safely) back in school. More than anything, I want you to hear and understand the position of parents such as myself that are not necessarily on board with the Governor's plan and order to delay returning to school.
7/20/2020 20:04:46	Marcy	Ranfled		Valley Center	I think it is in the best interest of our children NOT to wear masks at school for any reason. Kids cases and deaths are EXTREMELY low. If a child feels sick they may stay at home. When will the children be able to go to school with out a mask? If this virus is here to stay, then we need to deal with that and not wear masks for the rest of our lives. Please, for the sake of humanity, do not require masks at school.
7/20/2020 20:04:47	Jennifer	Simmons	USD 352	Goodland	I honestly don't know how I feel...whatever is best to protect our children and teachers and staff is the best decision. I can see the benefits but at the same time what if an outbreak occurs after school starts... what will happen? I am also concerned about the masks... I have children with asthma, one being severe. I wish I had a better response and I pray for guidance for everyone in this situation!
7/20/2020 20:04:48	Caitlin	Sotelo	Alta Brown Elementary	Garden City	Please consider following the governors order. While in Garden City we have worked hard to make a plan and even had committees going before the plan came out, the extra time will only help the safety and health of students and staff. I teach in a kindergarten self contained special education classroom with 5 other adults and 15 students some of whom are medically fragile. These students don't know how to cover their mouths or sneeze into their arms. The extra time will give us time to get necessary supplies and come up with procedures to keep everyone safe!
7/20/2020 20:05:03	Morgan	Owen		Colby	No Delay
7/20/2020 20:05:07	Linda	Nowak	Lansing parent/teacher	Lansing	Please give our schools the extra time they need to figure out how to best serve our students and teachers. Keep Gov. Kelly's order.
7/20/2020 20:05:15	KyLeigh	Wilson	Usd 443 and usd 613	Dodge City	Start school on time online and move to in person when safe without masks.
7/20/2020 20:05:16	Kim	Niehues	Olathe Schools	Olathe	I support the decision of governor Kelly's of waiting to start until after Labor Day!
7/20/2020 20:05:16	LeeAnn	Hulse		Overland Park	Open the schools on time but be safe about it. These kids havent had organized schooling in 5 mths
7/20/2020 20:05:26	LIZ	BAIR		WICHITA	I would rather be safe then sorry. If there is a 1% chance my family can contract this, it is too much a risk. I back Governor Kelly 100%.
7/20/2020 20:05:37	Ashlea	Marsh		Concordia	Open us up in August!
7/20/2020 20:05:51	Naomi	Sevart		Wichita	Please vote to delay the start of school until after Labor Day. As a kindergarten teacher, there is nothing more that I want to meet my new students, however, I think it needs to be done later than August. The safety of all school personnel and their families and students and their families is more important than starting school a bit earlier. Teachers need time to learn new safety procedures and protocols and for preparing safe learning environments for all. Delaying the start of the school year will allow us to do so.
7/20/2020 20:05:54	Crystal	Ludowese	USD 297 St Francis Ele	Goodland	Delaying is fine. BUT can you please help with the mandatory masks in small children?? PLEASE. 10 hours a day (including bus time) is far to long for my 7 and 8 year olds to wear masks. Thank you

					<p>I am a teacher in Louisburg, KS and my child is also a student in the district. I am writing to ask you to approve Governor Kelly's executive order regarding the 2020-2021 school year.</p> <p>The executive order postpones the start of our school year by a few weeks. This provides valuable time for educators as we have the monumental task of creating the best, multi-faceted plan possible in unprecedented, ever changing times. We must have a solid plan for safety and learning before we enter into the school year. The science and statistics surrounding this virus are changing daily. The rate of progression for this virus in our local communities is also increasing each day. It is imperative that your vote be based on the most recent data and scientific discovery from reputable sources. After all, that is what we would expect of our students.</p> <p>When Governor Kelly's state-wide mask mandate was left up to individual counties we saw that the majority of counties refused to uphold it. This resulted in most counties experiencing increases in COVID-19 cases at higher rates than if masks would have been required. This was an unnecessary and costly mistake. Many counties and/or cities have already back-tracked and now have voted to uphold the mask order after cases increased drastically. We cannot afford mistakes to be made at local levels that endanger our students and staff and jeopardize the best chance we have for a successful school year. Some decisions are too important to be left to chance and the hope that others make responsible choices. The students and teachers, like myself, should not be subjects in a local control experiment.</p> <p>One of the history standards that I am responsible for teaching is that choices have consequences. As I take my students through the civilizations of history we study leaders, the choices they made, and the consequence that resulted. Some choices helped lead to success of civilizations and other choices, unfortunately, led to disaster for civilizations. I ask each of you one question. When future students learn of our Kansas history during this pandemic, and they will, what leadership will you be remembered for?</p> <p>Please vote to approve the executive order so that we, as educators and parents, have this time to better understand and adapt to the health crisis that we are now faced with. Our students deserve only the best from all of us.</p>
7/20/2020 20:05:59	Tiffany	Musil	USD416	Louisburg	
7/20/2020 20:06:10	Sara	Olson	Kansas City Kansas US	Lenexa	Please uphold Gov. Kelly's executive order. Protect the lives of students, their families, and school staff. As elected officials, you have a moral imperative to govern, and passing the buck by saying "It is a local control issue" seems like a way to skirt around taking responsibility for our state's schools. Sometimes the right decision may not be popular, but you must put Kansan lives above the drive to "get back to normal." It's not normal, and pretending everything is fine to placate the squeaky-wheel constituents will have devastating consequences for Kansas families.
7/20/2020 20:06:14	Brendan	Burke	None	Salina	Please keep our children and teachers safe by keeping schools closed.
7/20/2020 20:06:22	Christina	Nelson		Manhattan	Please support our Governor on this executive order. She is trying to keep our children safe, as well as faculty and staff.
7/20/2020 20:06:26	Kendra	Kelley	Colby High School	Colby	I would prefer school and sports to start on the normal time
7/20/2020 20:06:33	Kelly	Seward	Olathe School District	Olathe	Please do not start school until after Labor Day!!
7/20/2020 20:06:41	B	K		lebo	Please vote to delay the start of school. It is not safe for teachers or students. If lives are lost due to schools opening too soon, that's on you - board members. I don't know how you could ever live with yourselves knowing you had the opportunity to prevent it. Just one life lost is one too many. Please don't make this political. If you truly care about students, their lives, their families, their education, and those that educate them, then you know there is no way you could safely open schools yet. We learn more and more about this virus every day - delaying school a few weeks can only help us be better prepared and give us more information on how to proceed.
7/20/2020 20:06:42	Josh	Simmons	USD 352	Goodland	no delay
7/20/2020 20:06:56	Melanie	Remp	USD 500	Mission	I love my students more than anything, but I know they are already at risk due to food insecurity and pre-existing conditions. We can operate virtually and still provide services like food for students. Getting sick could be deadly for my students and their families. Give us time to figure out appropriate resources that will keep our students and families safe.

7/20/2020 20:07:04	Susan	Blochberger	Shawnee Mission reside	Lenexa, KS	I support the governor's order to postpone KS schools start date to Labor Day. Schools need time and personal protective equipment to start with the recommendations that need to be considered. Organization in school buildings is going to be even more challenging, in light of the things teachers & staff need to do to be adequately prepared. PLEASE consider the mental wellbeing and health risks of the people you are asking to do the work and listen to health professionals. Stress DOES impact the ability to be effective instructors. It DOES impact school families. It DOES impact mental health. Delaying the opening of schools while Covid 19 cases have increased is also in the best interest of staff and students, as it will hopefully, limit the number of times schools have to start and stop in-person instruction. Please do not make this a political battle but consider what is best in a highly unusual health situation. Thank you!!
7/20/2020 20:07:05	Amber	Gray	Parent	Sterling	I believe that our state is not a one size fits all. I believe that us smaller communities where numbers are low can still start school with Protections in place for all involved. Our school district has already made plans on how to handle the start of school and do so safely. For those that don't feel safe they have the option of online schooling. I realize No matter the decision people won't be happy so I feel this option is best to suit each district based on what they are comfortable with. Tks for your consideration!!
7/20/2020 20:07:09	Allison	Edwards	Blue valley schools	Overland park	We can't have large social gatherings or have funerals and attend weddings with/for loved ones why would we send our children to school. It only takes one child or teacher to get sick and shut it all down Again. It isn't worth it. Yes our educators love our children endlessly but why put them in danger and then they take it home to their families especially those of us that have been so committed to just stay home and not risk anything.
7/20/2020 20:07:12	SERENA	Fellers		Topeka	I am so thankful for this executive order. It will save lives. There are other states who are choosing to open up next month. Let's keep our children safe and watch how the other states choose to deal with the virus, and learn from them so we CAN open safely and efficiently in September. I beg of you to please approve this delay and keep our children safe. I have two kids. One who is a liver transplant recipient. Please show my family that his life matters just as much as the others. Follow the science. This won't last forever. Our kids will get back into the classroom. But for now, it's just not safe. I've been an educator, a student and now a parent of a student. I know the implications this executive order come with, but in the end, it keeps our children, our vulnerable and our teachers safe.
7/20/2020 20:07:10	Julie	Childerd	Starside	De Soto	Schools should start on August 13th like originally planned.
7/20/2020 20:07:23	April	Frederick	Olathe Public Schools	Olathe	Please support the executive order, for my own children as well as myself and my students
7/20/2020 20:07:38	Whitney	Matthews	USD500	Olathe, KS	I am concerned that my already under funded building will not be able to keep students and staff safe. I am severely immune compromised and worry that rushing back without proper training and enough safety precaution will result in my death.
7/20/2020 20:07:40	Robin	Kingeter	Johnson County Resider	Overland Park	Please delay the start of school for the health and well-being of our students, their families, and the people who work in schools. It is not worth risking lives.
7/20/2020 20:07:40	Emily	Bryan		Olathe	If we delay opening schools, it'll only push kids further behind. The longer it gets pushed out, the more likelihood we will have school closures going into winter months due to covid, abstinence due to the flu, bad weather, etc. They need as much in person school in before covid causes closure or online schooling. By labor day it will be 6 months since they have been in school! As a working parent, it was very difficult to navigate 2 kids schedules and online learning and it will be especially more difficult with more requirements and expectations with online schooling in the fall
7/20/2020 20:07:48	Gregg	Glennemeier		Norton	Do not delay the start of school
7/20/2020 20:07:51	Nicole	Ratzlaff		Olathe	We support the delay and all measures to keep Kansans safe.
7/20/2020 20:08:01	Garrett	Hiebert	Goessel USD 411	Newton	I support the executive order as a reasonable first step to protect the health and safety of students, staff, and community members. Thank you.
7/20/2020 20:08:11	Marcy	Saylan		9421 West 163rd place.	Delay school for 20-21 school year
7/20/2020 20:08:24	Nichelle	Holinde	Mom of students	Great Bend	Comment removed due to profanity

7/20/2020 20:08:31	Kelli	Bennett		Wichita	Working for a KS School District, I think it is best to do school online until at least January. I am also a mother to 8 kids that attend various school districts in the area. I realize that children are supposedly less likely to get the disease, but I don't want my son or daughter to be the 1 case that does. Why are you asking us to send our children back or teach in schools yet many meetings have been held online. Sending hundreds of kids to a school building is asking for trouble. Please consider your own son or daughter when voting today!!!
7/20/2020 20:08:35	Brandie	Brock	USD 102	Cimarron	Do what is best for students and teachers. If you vote to open at regular time, stop voting to cut funding. We will need more funds to keep the schools sanitized and prevent illness from spreading. I would suggest funding for masks for teachers.
7/20/2020 20:08:37	Megan	young		Spring Hill	Allow school sports and at least a hybrid option. These kids need school!
7/20/2020 20:08:40	Lacy	Wolters	Great Bend High School	Great Bend	Our district needs the extension of time to ensure that the very best safety precautions are in place prior to reopening buildings for students and staff. Barton County is experiencing an uptick in cases that needs to be taken into consideration as we move forward with the reopening plans. As a parent and fellow educator, I support the decision to delay school until September.
7/20/2020 20:08:41	Lindsay	Sheets		Hays	Open after Labor Day only if safe
7/20/2020 20:08:44	Rodger	Smith		SHAWNEE	No delay
7/20/2020 20:08:44	Crystal	Shaffer		Topeka	Kids need to be in school. No masks. No masks for teachers either. Masks are a choice not something to force on people. Open the schools and let the kids in. Teach them, feed them, love on them.
7/20/2020 20:08:45	Jennifer	Nickelson	Lansing USD 469	Leavenworth	Please move forward with delaying the school year. This is a once in a lifetime pandemic.
7/20/2020 20:08:52	Erin	Dedrickson	Children of USD232	Shawnee	We feel it is very important to the health and well-being of our children to be in in-person school starting as planned on August 13, 2020. We are willing to abide by any and all safety measures to ensure the commencement of school on time without any delays.
7/20/2020 20:08:53	Jennifer	Payne		Olathe	Our private catholic schools have been preparing for in-person classes for 4 months now. Please don't sign the Governors EOs. Set guidelines and if individual schools can meet the requirements, let them start in person.
7/20/2020 20:08:57	Beth	Schafers		Wichita	Please support Governor Kelly's extension for the start of the school year. A few extra weeks could save lives. It is the responsible thing to do - for our children, our teachers and staff, and our communities. Thank you!
7/20/2020 20:08:58	Jeni	Rainforth	Parents	Spring Hill	Do not delay school read facts and speak with doctors who know the truth.
7/20/2020 20:09:02	Sue	Huff	Myself	Lenexa	Send the children back to school in August. They have missed so much already and they are not afraid. They are braver than the adults about going back to learn and be with their peers.
7/20/2020 20:09:04	Denise	Thomas		Overland Park	School should not be open. Lives are at risk. This is a once in a 100 year pandemic. Safety should be your number one concern. Do not sacrifice teachers and students.
7/20/2020 20:09:06	Teresa	Enneking	Usd312	Hutchinson Ks	I support the Governor!
7/20/2020 20:09:08	Maureen	Hurd	Olathe Voter, Resident a	Olathe	I am writing to express support for Governor Kelly's recent order to keep schools closed until after Labor Day. I also support how she has handled this pandemic. She shows sound decision making skills based on science and is not pressed to make decisions from political pressures. I believe her good intention is to allow the schools time to prepare and maintain safe standards for the children and the staff who support them in the schools.  As we all know this entire pandemic has made us question everything and while I believe children attending school is extremely important, it is not worth taking chances with their lives and the school personnel who support them everyday. Thank you for your consideration.
7/20/2020 20:09:19	Karen	Rogenmoser		Topeka	Please support Governor Kelly's executive order. Let's keep health of others in mind and not make this a political power play. Thank you for protecting my health and the health of others.
7/20/2020 20:09:23	Toni	Archambault	Lansing Schools	Lansing	I am good with my kids returning to school on schedule. I am comfortable with good cleaning procedures and social distancing. I am ok without them wearing masks, but will support masks if that is the decision.
7/20/2020 20:09:25	Terri	Current		Auburn	I believe it is the best interest of our children to open schools on time and with as little disruption to their normal school experience as possible. Please allow each school board to do what they believe is best for their students and schools. All Kansas schools cannot be lumped together and treated the same. Please do not go along with Governor Kelly's executive order. You have the right and responsibility to override her order. Thank you.

7/20/2020 20:09:26	Deliece	Hofen	parent	Olathe	One child, one staff member losing their life because we didn't delay school until their is a vaccine is truly not worth it. Teachers shouldn't have to risk their lives. Students should not be put at risk either. We need to keep people safe. Maslow's hierarchy. Simple ethics. Please do the right thing. Virtual school only until there is a wide spread use of the vaccine. Then let's get back to in person school and do it really well! Thank you!
7/20/2020 20:09:26	Jennifer	Juliano		Olathe	Please approve the order to delay the start of the 2020-2021 school year. The continued spike in Covid cases makes reopening in-person and on-time dangerous to all students , faculty, and staff at schools. Please keep them all safe by delaying the start in order to hopefully see a decline in cases and a solid plan set forth by all districts to deal with the pandemic.
7/20/2020 20:09:38	Amanda	Newell Green	KCKPS USD 500	Shawnee	The health of our children and families depend on this, please uphold the governors order to delay school.
7/20/2020 20:09:43	Logan	Heine		Alma	Waiting until after Labor Day to start will allow us teachers to get a grasp on how we will be providing instruction as many of our districts haven't even came up with a solid plan yet.
7/20/2020 20:09:50	Patrick	Retz	Self	Wichita	Need more time to develop plan & let outbreak cool down.
7/20/2020 20:10:02	Megan	Holcomb		Eudora	I think the delay of school should be upheld. However, if you decide to strike down this Executive Order in favor of local control I believe you should issue guidelines for the return to in person instruction. In areas where the virus is surging, it should most definitely be delayed, but sadly we can't always depend on the districts to make the right/safe choice, especially when feeling pressured by the State board. And lastly, I find it disconcerting and hypocritical that all these meetings about the return to in person schooling are being held VIRTUALLY. When we are preparing to ask our children (our most precious commodity) and teachers (a shrinking commodity) to enter into rooms for hours at a time while wearing masks and the adults making these decisions are not even doing the same.
7/20/2020 20:10:06	Melissa	Bane-Shelton	my child	Reading	My child attends Lebo Jr.Senior High in Coffey County. Please DO NOT delay opening school. Open on time. No mandatory mask.
7/20/2020 20:10:11	MeLisa	Gonzalez	Teachers	Olathe	Please follow the executive order and delay the start of school. Covid 19 is real and is scary. We need to put more things in place. The delay will help.
7/20/2020 20:10:14	Kendra	Rexroat	Lansing school district 4	Lansing	Yes. Please do not open before Labor Day. Stay closed as long as needed to find a good solution.
7/20/2020 20:10:16	Nyah	Small	Student	Horton	This delay is just a stepping stone into the governor taking control over our entire semester. I failed miserably at online school. My GPA dropped, and I am going into my senior year. If pediatricians recommend we go back, then what's the delay? The longer you keep us away from each other the more our immune systems suffer. If there are parents that are uncomfortable sending their kids to school then they should have the option to either home school or learn online, but don't let that affect everyone else. I am a hands on learner. Stop trying to quarantine the kids who aren't sick. We need our freedom back.

7/20/2020 20:10:18	Meagan	Costantini		Pittsburg, KS	<p>I am a Pittsburg, KS resident and a step-mother of a 14 year old going into her freshman year of high school.</p> <p>Please support schools starting after labor day!</p> <p>I would love to see schools telecommute for the first semester, especially until the spread of the virus is under control.</p> <p>I am high risk due to a chronic illness and so is my husband. We have our daughter half the time, one week on, one week off. Because there is 50% custody we don't really have any say what happens if school is in session. Further my mom is over 70 and high risk and my husband's parents are in their mid 70's and extremely high risk (COPD and one with cancer).</p> <p>If school in session we have to pick between our health and being able to see our daughter. We also have to choose between being able to see and help our parents and our daughter.</p> <p>We take all precautions we can, have groceries delivered, etc. Even if we got 3 extra weeks it would be a blessing for our family.</p> <p>Our family is not alone. I have friends that have lost parents, grandparents, best friends, and other loved ones to this virus. Kids are not immune, their parents are not immune.</p> <p>Even 3 weeks will allow schools to better prepare, science to advance, and for Kansas to see just how this spike in cases will play out. Please support our kids and support the governor's order.</p>
7/20/2020 20:10:27	Shannon	Cockrell	USD 260	Derby	<p>Safety first!!! Until there is more information and supplies can be provided to schools, students, and teachers, I feel the delay is necessary. I am also immuno-compromised and I know several other adults and children who would struggle with the stress of returning to an in person group setting when there is still so much we need to learn about this virus and how we can protect ourselves, our students, and their families. That being said, I miss my coworkers and the students in the elementary school that I work in. This isn't a one-size-fits-all situation so flexibility is important but I strongly support the delay until we can answer more questions and put minds at ease.</p>
7/20/2020 20:10:31	Richard	Bender	Elementary Teacher	Overland Park	<p>Please vote in favor of Gov. Kelly's executive order. It will be impossible safely open up schools right now.</p>
7/20/2020 20:10:31	Devan	Castle	My child	Hoxie	<p>Let the local BOE decide for themselves</p>
7/20/2020 20:10:36	Katie	Murphy	Teacher and Parent	Topeka	<p>Please vote to uphold the order and keeps all students and staff safe</p>
7/20/2020 20:10:37	beth	terlip		frontenac	<p>i am encouraging you to reopen kansas schools as normal. I have 4 kids in use 249 district. I will not send my kids back to school if they are required to wear a mask all day, this is many studies suggesting it is not safe for children and this will be a huge liability for our schools, masks should be optional. I will not enroll my children in frontenac virtual school either. The Spring semester online was less than adequate and my children need more. I am not in favor of a hybrid schedule either. There have been and will be many options for this who are immune compromised or have fear of returning. There should be options for us as well. There has been 1 covid related death in our county (btw the woman overdosed she did not die of covid. she did not even know she had it and neither of her children who live on the home with her contracted it). Our county currently has 5 people hospitalized (no minors) none of which are critical. Our other area hospitals covid patients have decreased as well and we have not yet come close to capacity. Many will not get the vaccine (myself and family included) and even if a vaccine was approved it would likely be even less effective than the flu vaccine, which has been around for years and is only 50% effective. Life must resume for Americans. If elementary age students will in daycare if they are not in school. More children will die of the flu, suicide, abuse, car accidents each year than covid. Open our schools !!!!</p>

7/20/2020 20:10:39	Christy	Chrisman	Spring Hill High School	Spring Hill	I am torn on which way to go. Here are my 2 main thoughts. With all the requirements needed in the schools to attend in person, will this will cause a distraction all the time. Second, what is the protocol if a student or staff test positive to Covid-19? With the numerous intermixing of students in different classrooms this would potentially take out a very high number of students and staff
7/20/2020 20:10:50	Jacqueline	Kennedy	USD469	Lansing	I think it is important to follow the governor's EO to hold the start of school until after Labor Day. Our districts need time to make plans that will work for each building. The logistics of social distancing alone needs careful thought. We also need time to see a decline in cases to determine how to teach our kids: remote learning, in-person learning, or a hybrid of both. I also hope the state BOE will have guidance on how to utilize Professional Development days to pay teachers for this foundation setting and still have days built in to the regular school year to tweak learning as this virus ebbs and flows. I implore you to adopt the governor's guidance.
7/20/2020 20:10:52	Jamie	Blackburn		Dodge City	As a parent, educator, and community member—I stand behind Governor Kelly. Our schools need time to plan and prepare in order to keep everyone as safe as possible.
7/20/2020 20:10:53	Laurie	Hoover		Lenexa	We should absolutely approve the governor's order to delay school. We need time to prepare how to protect our students and staff particularly at the secondary level where the virus is spreading among teenagers. We have many teachers and staff in high risk categories.
7/20/2020 20:10:59	Amanda	Barnett	Mother of 2 school age kids	Riverton	Please consider starting school on time and not delay it. Our kids are already behind from the spring closure. With safety measures placed in person school can be safe. Thank you for the consideration.
7/20/2020 20:11:00	Erin	Gould		Roeland Park	Please delay school start and give everyone a chance to better plan for how to teach remotely. Until KS has the virus under control, we need to keep our distance so our children and teachers can stay safe. I'd rather suspend school for an entire year than have one person die a preventable death.
7/20/2020 20:11:08	DeWayne	Coffman	Self	Kechi	There is never going to be a perfect time to go back to school. Enough with the executive orders and let's get back to work and school!!!!!!
7/20/2020 20:11:10	Allan	Gilson	Concerned parent and li	Olathe	Please follow the governor's guidance. School must be delayed, and may need to go on line for the year. Do not make this issue political. Thank you!
7/20/2020 20:11:17	Annette	Hoskins		Robinson, KS	I am a tax-paying citizen of Brown county. The greater harm will not be the coronavirus, but rather the intellectual, social, mental, and God forbid, in some cases physical, harm done to our kids by delaying school even further. Please vote to re-open our schools on time and get our kids back on schedule! Thank you.
7/20/2020 20:11:17	Kimberly	Courtney	AES and AHS	ASHLAND	Open schools like normal with counties setting their own mask guidelines
7/20/2020 20:11:21	Sally	Dyke	Self	Belleville	Let the local school districts determine best for their school.
7/20/2020 20:11:27	Kristin	Nyberg	Kansas City Kansas Pub	Independence MO	Delaying schools until at least Labor Day gives districts additional weeks to prepare and plan. It is not safe for teachers, staff, students to return to schools until there are no new COVID cases.
7/20/2020 20:11:46	Martha	Slack		PECK	Yes, delay until Sept. 9 to allow flattening of the curve and covid response training for staff.
7/20/2020 20:11:47	Kendra	Marshall		Pleasanton	Do what's best for the safety of everyone involved.
7/20/2020 20:12:09	Alicia	Cooper	USD 450	Tecumseh	The safety measures set out in the executive order in order for schools to be back in session are so extreme they would never be able to be accomplished. Masks all day for all grade levels will be impossible for younger elementary kids. Kids need learning in a school setting, with teachers face to face. Many pediatricians have stated it is safe for kids to return to school. They are experts in that field, we should listen to their advice. It is heartbreaking to me that we have gone from "distance learning is not good enough" to "distance learning will be the only option with these safety mandates in place." Our kids are being robbed of the education they deserve.
7/20/2020 20:12:12	Ashley	Pearcy	Hugoton High School	Hugoton	Open school's as planned!
7/20/2020 20:12:26	Angela	Randall	Concerned parent	Lawrence	I would like you to actually consider the science behind the delay in staying the 2020-21 school year. With the current rise in the number of covid cases in Kansas it does not make sense to start schools now. The three week delay will allow school districts figure out the best plan for their area. If everyone can take this time to wear masks and continue to social distance then we have a chance of lowering those numbers. We've seen the increase in cases in children ages 10-18. What happens when they infect a teacher? Or their parents? Children can receive an education without being but in danger. Our children are not guinea pigs. Teachers shouldn't have to risk their lives. Please vote to delay the start of school.

7/20/2020 20:12:29	Veronica	Murray		Abilene	There is no replacement for in person education at any age. I believe that precautions should be followed and school should start on time, along with sports that have enough coaches, participants, and officials to carry on. Those who are at risk or concerned should be offered an alternative. I also believe that local governing organizations make the best decisions for local conditions and represent the local population, therefore should have the "control".
7/20/2020 20:12:36	Joyce	Harris		Topeka	It has been said multiple times by both Governor Kelly and Dr. Norman that local control is best because they know their communities best. Therefore the the situation of delaying the start of school I believe this decision should be left to the local schools boards and the communities they serve. The "one size fits all" approach is is not in the best interest of the students of the state of Kansas. Thank you for making sure you are doing the very best for the state of Kansas.
7/20/2020 20:12:39	Karen	Thirnton	Teacher, grandparent	Garden City	I believe the decision of when to start school should be left to each local district. If they believe they can start safely as per the agreed upon calendar set, then do so. If they believe they need to wait then they can wait.
7/20/2020 20:12:40	Joanne	Brinsfield	Family	Eudora	Please uphold Gov. Kelly's executive order
7/20/2020 20:12:47	Erika	Courson		Derby	I think school needs to start back soon. My daughter really needs it
7/20/2020 20:12:56	Marla	Hayden		Sabetha	I am a teacher and a parent. I want to go to school as normal as possible. I don't think we should be mandated to wear a mask. It should be up to the parents. I also have an autistic son and he is not going to wear a mask.
7/20/2020 20:13:03	Casey	McCord		Leavenworth	Please support the executive order so that kids and teachers can return to school safely. Lives are at stake.
7/20/2020 20:13:09	Andrew	Bock	Mill Valley High School	Shawnee	I definitely believe that we should delay the start of the school year. Schools need the extra time to get all the necessary supplies ready for the beginning of the year during this uncertain time. Teachers need the extra time to ready their classrooms for proper social distancing practices and to adjust their lesson plans accordingly. Also, many teachers are in age groups that have proven to be at risk when exposed to COVID-19, and they deserve the time to be able to organize their classrooms and do their jobs without fear of being hospitalized or worse. Beyond this, I am an assistant tennis coach, and I desperately want our kids to be able to have a season, even if it is a shortened one. With the recent increase of coronavirus cases in Kansas, it seems that delaying the school year is the best option for keeping our teachers and students safe, as well as increasing the chances for having extracurriculars in the fall/winter. Better safe than sorry.
7/20/2020 20:13:10	Ashley	Niehues		Sabetha	I strongly hope they vote for us to start after Labor Day...I work at the school district and have children attending and I do not think a few extra weeks is too much to ask for. The children and staff both deserve the safest environment possible and need that extra time to prepare. I know for a fact our district could benefit from it and we are a smaller school so I can't even imagine the larger schools. Be proactive and give all the time needed and then start into things slowly to ensure safety verse jumping in too soon and then needing to shut down.
7/20/2020 20:13:20	Erin	Krehbiel	Parent and occupational	De Soto	I think the extra time is critical to get procedures in place too to keep kids safe. In areas where numbers are higher like ours how are we going to quickly test and contact trace to prevent massive outbreaks. Schools need time to plan and prepare. Lives depend on it!
7/20/2020 20:13:23	Jennifer	Mackey		Valley Center	Delay
7/20/2020 20:13:29	Melissa	McGlothlin		Cherryvale	I am in favor of Governor Kelly's executive order and hope you vote to support her decision. Thank you.
7/20/2020 20:13:31	Jessica	Parke	Kansas City Kansas Pub	Overland Park	We are not prepared to go back to school in person. I subbed every single day during 3rd quarter due to a sub shortage. We will have an even greater demand for subs and a decreased supply because of Covid. If i am subbing every day again, i will not have the necessary time to plan for my instructing my own students. There are 800 middle schoolers in my school. There is no possible way we can keep them a safe distance from each other or staff. I think it's more important to consider safety now instead of politics. Please keep us safe!

7/20/2020 20:13:31	Sara	Miller	Rock Creek High School	Westmoreland	<p>I am a public educator in USD #323, Rock Creek, and I have taught high school for 30 years throughout northeast Kansas. I am writing in order to urge you to support Governor Kelly's executive order to push the start of public schools until after Labor Day. We need those three extra weeks to see a decrease in COVID-19 and the effects of a statewide mask order. We also need time to put a plan in place for our district and to buy necessary supplies to safely reopen schools.</p> <p>I am very concerned about the health of my students, my colleagues, and myself once school begins. Please take Governor Kelly's order into consideration. In addition, please rise above partisan issues to help our state. I am a registered Republican but I still very much support Governor Kelly, because she is putting the health of Kansans first. Thank you for considering my request and for serving the students of Kansas.</p>
7/20/2020 20:13:33	Haylee	Boulanger		Eureka	Students are going to weight room, camps, tournaments, previously scheduled scrimmages in their leagues, etc, so what would be different than practices and scheduled games?
7/20/2020 20:13:47	Scott	Tempero	Myself	Ellis	I am aware of the need for safety for kids and faculty in its importance, it is important to start schools before Labor Day. Delaying strains the parents financial resources, and the kids need for socialization. I am in favor of parents choice as to their children attending in class, or online.
7/20/2020 20:13:48	Ashley	Manrose		Topeka	Please do something about this executive order! Our students can not be expected to attend school this way, let alone having our teachers trying to enforce this. Our students are already behind, lets not continue the trend.
7/20/2020 20:13:54	Kristina	Carlson		Olathe	Please delay the start of school for the safety of our community. Online only the first quarter would be ideal.
7/20/2020 20:14:09	Dr. Keith	Ratzlaff	Blue Valley Parent	Olathe	I support Kelly at this time. Keep them closed. Online learning until we know more.
7/20/2020 20:14:11	Leta	Logan	Myself	Caldwell	This is the worst thing I have ever heard. I will be forced to pull my children from the school So that they may have a better chance at learning. I AM BITTERLY DISAPPOINTED IN YOUR LACK OF GOOD SENSE.
7/20/2020 20:14:28	Leslie	Foster		Olathe	I know you are getting lots of comments so I will keep mine short. I am asking that you please vote in favor of Gov. Kelly's EO to delay the start of school.
7/20/2020 20:14:29	Jennifer	Shields	Cherry Street Youth Center	Chanute	We would like the Board to consider each region separately. The needs and effects of COVID 19 are different around the state. What is right for metro areas is not right for rural areas. Small districts vs larger districts needs also vary. One size can't fit all.
7/20/2020 20:14:35	Marla	Knaus	Quinter Public Schools	Quinter Kansas	We need these kids in school with no masks and we don't need to delay! This virus is a hoax trying to control us! Let's stand up for our rights
7/20/2020 20:14:40	Don	Degenhardt	None	Hays	Wait until after Labor Day
7/20/2020 20:14:49	Jennifer	Barnhart	Parent, school employee	Overland Park	I write as a parent and employee. I implore you to please accept the Governor's order and delay the start of school. The order allows for more time for the numbers of positive COVID tests to go down and for districts to make necessary changes to improve the safety for students and school employees. I want my students to be learning and safe, I miss them dearly, but we cannot have 700 middle schoolers (25-28) in a classroom. My child cannot be in a high school, with 1500 or so students. I understand the concern about students social emotional health, being out of school was challenging. However, in my opinion as a mental health professional, I believe them being in school under the stressful situation and environment will be more detrimental to staff and students' mental health. Please give the gift of time, it's a very small price to pay for safety. On the other hand students and staff getting sick and/or dying is an unacceptable price to pay. Thank you for your time and service.
7/20/2020 20:14:56	Gina	Hester		Cherryvale	I don't know if school needs to be delayed because I'm afraid schools will be shut down at some point because of exposures. I want masks to be mandatory though, we need to protect not only our children but also the people who take care of them.
7/20/2020 20:14:56	Sherry	Brenton	USD232	Lenexa	Delayed start in case of remote learning. It is a great way for teachers to prepare for the best possible lessons during this difficult time and to slow the spread and see where we are after Labor day.
7/20/2020 20:14:58	Mindy	Waldron	USD233/ USD232	Shawnee	As a usd232 parent and usd233 teacher I am asking that you uphold the EO to postpone the start of school. This will allow proper protocols to be put into place, allow teachers to adequately prepare for a new way to teach, allow our State Covid numbers to drop and allow districts to come up with a plan on how to open while keeping all stakeholders safe.
7/20/2020 20:15:01	angela	olmstead		derby	Let the kids return to school. It is the best thing for them.

7/20/2020 20:15:22	Shara	Reilly	Parent and teacher in US	De Soto	Please support the governor's order to delay the start of school until after Labor Day.
7/20/2020 20:15:27	Brett	Schreuder	Farmers	Cawker City	Open schools regular schedule
7/20/2020 20:15:29	Barbara	Geers	Retired career KS public	Shawnee	I fully support the delayed start. The added time gives school districts time to make necessary adjustments in staff assignments, student assignments, and effective delivery for the fall opening. Nothing will be easy and they need support to make anything work under these conditions. Thank you in advance for working to keep everyone safe and educated under healthy, well planned systems.
7/20/2020 20:15:31	Lynsi	Martinez	Circle Greenwich Eleme	Benton	I fully support the governors executive order to delay school until after Labor Day. My school is in Sedgwick County, and we have seen a surge of cases within the last few weeks. I have twin 3 month old daughters and a 4 year old son at home who I need to protect. I love my job and I miss my students but we need to be smart and safe about reopening. We shouldn't just consider if the kids could get the virus or how well they have been shown to recover, but how they have family members that may compromised if they brought the virus home. We need to see a steady decline in cases in order for schools to reopen face to face instruction.
7/20/2020 20:15:37	Molly	C	Elementary school	Frontenac	Close until after Labor Day. Give the school time to prepare for the year.
7/20/2020 20:15:37	Jeremy	Denney	None	Great Bend	Delaying the start of the school year was the right choice. Everybody needs to be safe - students and teachers.
7/20/2020 20:15:38	Reid	Frohlich	My family	Scott city ks	Do not delay school. The risk of delaying education is far greater than the risk of COVID.
7/20/2020 20:15:44	Jessica	Zemler	N/a - I am a parent with	Olathe, KS	I urge you to accept the governor's executive order delaying the start of school. I am a parent with kids in 5th and 2nd grade. We all want our children to resume their schooling, but doing so when many districts across the state are not ready will ultimately spread the virus to our children, teachers and parents. School districts were just provided the plan from the state last week and they only today got details about the executive order mandating masks and sanitization of hands. They need more time to be able to fully comply with these requirements and protect their staff, students, and families. And parents that have no other choice than to send their children to in-person schooling this fall especially those who do so due to home circumstances or work circumstances deserve to be as protected as possible from this deadly virus. Please vote to uphold the executive order. Thank you.
7/20/2020 20:15:44	Amy	Schafer		Bel Aire	The kids should not return to school in person at all until this is under control. Too many kids will not take proper steps in keeping safe and healthy! Plus, there are parents who have serious health issues and have been doing everything in their power to stay healthy and clear of the virus throughout all of this. If just one child returns to school with this virus because parents wanted them in class and not at home, this could spread like a wild fire putting each student attending school and their family in harms way. This is just too risky and classes should resume online until the numbers are not rising at a fast rate like it currently is doing.

7/20/2020 20:15:46	Trisha	Alexander		<p>My question is how is 3 weeks going to make a difference? This virus isn't going away in 3 wks or for the next year. How are the children going to hear their teacher when they are wearing a mask? I can't hear the cashier when they are 2 ft in front of me. How do we expect kids to keep a mask on all day without messing with it? Keeping hands away from the face is more important and this is just encouraging it. Making kids use sanitizer every hour...God gave us bacteria on our skin for a very important reason. We will see an increase in illnesses just from this. My kids pediatrician said the number of prescriptions he has written for depression has sky rocketed...how is this helpful to our kids? I have a kiddo who is dyslexic and if we start then go to online that will not benefit him and he will fall behind. Inhave a senior who can't even get into an act because they have cancelled or moved them back or they are full because of limitations on amount of people you can have in area. How is that helpful to him? He has desires to play college football or basketball and has spent alot of time preparing for this since he was in 4th grade ..hownis this fair to him? The kids aren't even allowed ro practice until school resumes even though teams have been lifting weights with no issues a summer. By not allowing school, not allowing practice this pushes season back even further...and this is what is best for my child?? No it isn't. Studies disproved this...kida need activities and school and friends. Kids have not been affected. Do we need ro protect elderly and immune compromised...yes...but no one is telling them they have ro get out. Let parents choose whether they want to send their kids...if they don't choose an online platform, don't want to play sports or watch them? Don't, bit let the one who do choose to do so. Three weeks isn't going to change much...schools are already prepared and if they aren't three weeks isn't going to change much. We as parents are asked ro go ahead and enroll our children, pay for enrollment and yet we have no plan or no idea what is going on! You guys are taking away opportunities and moments these seniors will never have again...ever! When you were a senior would you have liked that? Would you have wanted your year to go on as it should and play a sport or activity some for the very last time?? These are things that are important to them so why are we taking that from them?? To make us feel better prepared?? I say it again this virus will still be here in 3 weeks! I ask that you take all of this into consideration and remember these are things that can and will affect them...especially my senior! Do what is right and let the parents decide what is best for their children. At least let counties make the decision because some places are not as affected as others and even then we don't know if numbers are correct. We have 11 active cases in McPherson, 1 hospitalization and 0 deaths. We are changing the course of education for 11 active cases?? It doesn't add up! Thank you for allowing me to give my honest opinion. Sincerely, mom of 5</p>
7/20/2020 20:15:49	Adam	Kinzer		<p>It is time to get back to the new normal, and the best way to do that is get kids back into the classroom. I'm ready to do what I do best and that is teaching young people. As an educator I will take all the necessary precautions to not only keep myself safe, but also my fellow co-workers but most importantly my students. Lastly I have a daughter who will be an 8th grader this year and my wife who is also a teacher have no worries about sending her to school. She needs to get back to some sort of normalcy, with her studies, extracurriculars and with her friends. Please open up the schools. Thank you</p>
7/20/2020 20:15:49	Called	Schraeder		<p>Vote to reject Governor Kellys' mandate to delay the start of school and also vote to reject the mandate for all children, staff, and visitors to wear masks. We all know how important the school routine is regarding the development of our children. Take into account the setback that our children have already incurred by concluding the previous year so soon.</p>
7/20/2020 20:16:00	Kellie	North	Teacher	<p>I want to return to school. I want to teach my children, but I desire to do all of this SAFELY! The information we get regarding COVID, changes from moment to moment (depending on who you listen to) I listen to doctors/scientists, who have been very clear stating that it is not safe to return to school. It is not safe for anyone! I have diabetes, if I get this deadly virus, I could die. Additionally, there is no way that we can be expected to keep children in masks, keep them social distancing, make sure they are practicing proper hygiene, comfort them with ALL the emotions that overwhelm them, and teach them! No one can! I implore you to do the right and safe thing, open school only when it is safe to do so.</p>

7/20/2020 20:16:09	Amanda	Lesser	USD 443	Dodge City	I am in favor of delaying the start of school. Districts are not prepared and the spike in cases are worse now than when school buildings were closed in the first place. I live in a district where many of our students have huge families in town and/or live in multi-family homes. That factor was a reason why COVID-19 spread so quickly in Dodge City, and schools were closed at that point in time. The spread will only become worse if we open, even with precautions. I believe it is necessary that all districts propose models for in person, hybrid, and distance learning. At the same time, districts need time to create those models. The models thrown together at the end of spring break worked, but not effectively nor efficiently. In my district especially, it was a flop. To open schools up at their normally scheduled dates will result in a lot of trial and error learning and trial and error safety precautions, something our state can't afford right now. Ultimately, no one will be happy with whatever is decided, but the safety of our students, their families, staff, and their families come first. I do not want to sacrifice any lives just for the sake of opening on time.
7/20/2020 20:16:09	J	Kornis		Shawnee	Please OPEN in person school with an online option for those who wish to stay at home. Sports open to all. I'm a substitute teacher with a high school student and college children. I need to work. My college kids need in person instruction. My high schooler need a life back to normal.
7/20/2020 20:16:16	Morgan	Peterson		Overland Park	Please uphold the governors executive order to keep schools closed an extra 3 weeks. People who work in schools are scared to go back and so far our districts have not provided any information on what the school year will look like. We do not have enough time without pushing the start date back to prepare for what in person teaching might look like or have enough time to prepare for online only at this point. Districts need more time to see if cases go down and if it might be safer for us to just keep learning at home. How many student and teacher lives are you willing to sacrifice just so kids can be in school? Because personally I think the number should be zero.
7/20/2020 20:16:21	Kimberly	Parks		Salina	I feel this should be left as a local decision. Let the community decide what is best.
7/20/2020 20:16:21	Jana	Becker		Plainville	Please allow our students to start on time as they are already falling behind as some parents are not able to "teach" at home while trying to hold down full time jobs to provide for their children. As a health care worker, I can not take off work to make sure my child is able to fully participate in all classroom work/activities. The children miss each other and are becoming depressed and confused. Also, please reconsider the mask order for younger children. You run MORE of a risk of sickness and exposure to things by incorrect wearing of a mask as well as little hands touching, pulling, and not understanding the proper ways. Adults have a hard time wearing these correctly and you expect my 5 year old to?! Thank you for your time and consideration.
7/20/2020 20:16:22	Chrysanne	Grund	Wallace County Kansas	Wallace	Please allow local school boards to make decisions about the start and continuation of school. Situations are different all across the state and we need to get kids back to school when we can.
7/20/2020 20:16:24	Channing	Hawks	Family	Hugoton	I support starting after Labor Day but believe it should be up to each county and their school board and local health officials  I do not support wearing masks as I believe they are a false sense of security and also believe they make people touch their face more than not wearing them.
7/20/2020 20:16:24	Linda	Meyers	Olathe school teacher	Overland Park	Please consider the health and safety of students, staff and the community when considering how school should happen this semester.
7/20/2020 20:16:26	Lindsay	Murray		Olathe	Don't keep me alive by keeping me from living. Please open schools and choose faith and good management over fear and hysteria.
7/20/2020 20:16:44	Courtney	Bell		Wichita	Please approve the governor's order. To do otherwise would be monumentally irresponsible, considering recent increases in Kansas Covid 19 spread and the new South Korean study that shows 10-19 year olds spread the virus at the same rate (if not more) than adults. Even with safety measures in place, there are too many variables that could contribute to community spread. Allow health officials to monitor the situation and districts to adjust to the second executive order, as well as the 1100 page guiding document you provided.
7/20/2020 20:16:50	Amanda	Snyder	Parent of 3 USD271 kid	Stockton	I'm for following CDC guidelines. Delay opening schools and protect both our staff, kids, and the families that they all come home to. It is our civic duty to protect those around us.

7/20/2020 20:16:55	Abby	Powell	Haysville GEAR UP	Wichita, Kansas	Given the continuing rise in covid cases in the state of Kansas and in Sedgwick county, I think it is best to delay the start of school with the hopes that the cases will be declining by the opening date in September. If school opens once cases are declining and smaller in number (whenever that may be) it will be safer for students, teachers, staff and families in our community.
7/20/2020 20:17:01	Amanda	Blackburn		Labette county	Please keep teachers and students safe!!
7/20/2020 20:17:26	Rebecca	Bachman	Parent	Hiawatha	My husband and I strongly feel that school needs to start as initially planned in August. If we postpone it until after Labor Day, it will directly coincide with the start of cold and flu season, and we all know Covid isn't going away anytime soon. Let's don't waste time, start school soon! We fear that school will have to go completely virtual before winter is over, so let's get started on the in person schooling as soon as possible! Virtual learning is not the same, and these kids suffer from it. We would love to see in person schooling done at least through Thanksgiving or early December. Then re-evaluate things at that time. Thank you for your consideration in this matter.
7/20/2020 20:17:26	Madison	Bowmaker	N/A	Derby	I don't want the Covid 19 and go to school, I'd rather do home school and be safe in my own home.
7/20/2020 20:17:31	Elizabeth	Barbeau	Olathe School District	Olathe	Thank you for taking the time to consider everyones wellbeing. As a parent and an educator, I know you are faced with an impossible decision. A decision that takes into account so many variables. So thank you for all your efforts in this unprecedented time.
7/20/2020 20:17:45	Brittney	Soto	Elementary School Staff	Salina	I'm requesting that the board accepts the order and delays school until after Labor Day. As a mom of a newborn and a toddler with respiratory issues, I'm extremely concerned about school reopening prematurely. Our states numbers are at an all time high and getting young children together who constantly put hands in their mouth and touch items and each other is reckless.i love my job and miss my students but we need to protect our students, staff, their families.
7/20/2020 20:17:47	Kristen	Maxwell	Teacher in KCKPS	Mission	<p>Hi, my name is Kristen Maxwell. I am a teacher in KCK and live in north Johnson County. I lived and worked in the Wyandotte High School attendance area for 8 years, before moving in with my parents in my childhood home to help care for my sister, a quadriplegic with Cerebral Palsy.</p> <p>I am writing to urge you to uphold Governor Kelly's forthcoming Executive Order on delaying the start of the school year. I am an ESL teacher and have spent my career working with vulnerable students and their families, both in non-profit and school settings. This past year I was one of 3 newcomer ESL teachers at Central Middle School, serving students from across USD 500 who were new to the US and had interrupted schooling of 1 year or more. Though many of my students did not fare well with digital learning, they were all still alive and well when I visited their homes to return their supplies at the end of the school year. Many of my refugee and immigrant students live in multi-generational households. Grandparents often being responsible for watching the children while those of working age (and ability) work. Wyandotte County has already seen some of the worst rates of Covid-19 in the state, and I can not begin to imagine how that could be exacerbated with a hasty return to school and the dangers it could put our students and their families in.</p> <p>I also know that though I myself am not considered high risk, I provide care for my sister who is. She has left the house 2 times since March, both in the last month for doctors' appointments. I and another colleague who lives with her father who is battling lung cancer have weighed the decision of finding alternate housing if school were to resume in person without the proper safety measures in place. It would provide a strain on our families we are providing care for, but would ultimately keep them safer.</p> <p>We are living in unprecedented times. I was thinking back to meetings I was having with co-teachers at this time last year, and how we never could have imagined our jobs becoming what they did. I do not believe that schools have begun to wrap their minds around what lies ahead and need more time to be in compliance with both the physical and learning components of the plan released.</p> <p>Please uphold Governor Kelly's executive order.</p>

7/20/2020 20:17:59	Katlin	Gray		Lenexa	Voting to delay the school year for students would be beneficial for the safety of all involved. It would also give the schools, mainly teachers, time to prepare for the year based on whatever plans the districts release. Teachers can plan for the year using technology. They can prepare their rooms for in person learning when that happens. Districts will also be able to adequately train their teachers and to acquire the proper PPE. Please consider this when voting on the Governors executive order.
7/20/2020 20:18:15	April	Ogden	Public school teacher	Wabaunsee	Opening after Labor Day would give our district and opportunity to prepare our classrooms in a manner that allows for social distancing, communicate to parents/community the details if how things will "look" in each building, organize staff committees to meet day to day procedures.
7/20/2020 20:18:20	Leslie	Gast		Overland Park (Olathe s	I believe that we have already set children back enough with online distance learning from March to May, and I'm concerned that not enough people are putting the well-being of our children first and foremost. Online learning is not an acceptable substitute for school. I believe that the benefits of in-person education FAR outweigh the risk of children getting COVID-19 (in Johnson County, the chances of a child being hospitalized with the virus is about 1 in 180,720 - I did the math). As far as the teachers and staff being more at risk, I feel confident that they can maintain social distance from each other and take precautionary measures while being in the same building. Any parents or teachers who are concerned with their own or their children's health and would like to opt out of in-person schooling should certainly be given the opportunity to do so. Pediatricians should be the experts who have the most clout in this discussion and they recommend in-person schooling with no delayed start. So, PLEASE vote to allow individual districts to decide whether or not to delay the start of in-person school. This decision should be the responsibility of individual parents, pediatricians, and educators, NOT politicians. Thank you for your time.
7/20/2020 20:18:23	Jenifer	Phillips	USD 500	Kansas City, MO	I'm a mom, wife, and parent. I'm a resident of KCMO but I teach in KCK. I'm entering year 14 of my teaching career, but my 3rd with USD 500. I absolutely love where I work. My coworkers and students are beyond amazing! I care deeply for them all. I truly miss my students. I know how important teaching in person is. Online truly doesn't reach every kiddo. However, I am a bit terrified to go back to in person learning. Covid cases are rapidly rising on both sides of the state line in the Kansas City metro. It makes absolutely ZERO sense to resume school in person right now. I would be devastated if any of my students, coworkers, or family contracted Covid. It would also be a huge burden to school states if teachers start falling ill. Please, please consider delaying the start of school, per Governor Kelly's order. We also really need to consider remote learning until Covid cases decrease significantly. Thanks.
7/20/2020 20:18:25	Amy	Wegner		Leawood	Please open public schools by Labor Day, no later! Kids need education and social interaction. We are doing a disservice to our children by keeping public schools closed.
7/20/2020 20:18:30	Andrew	Bock	Mill Valley High School	Shawnee	I definitely believe that we should delay the start of the school year. Schools need the extra time to get all the necessary supplies ready for the beginning of the year during this uncertain time. Teachers need the extra time to ready their classrooms for proper social distancing practices and to adjust their lesson plans accordingly. Also, many teachers are in age groups that have proven to be at risk when exposed to COVID-19, and they deserve the time to be able to organize their classrooms and do their jobs without fear of being hospitalized or worse. Beyond this, I am an assistant tennis coach, and I desperately want our kids to be able to have a season, even if it is a shortened one. With the recent increase of coronavirus cases in Kansas, it seems that delaying the school year is the best option for keeping our teachers and students safe, as well as increasing the chances for having extracurriculars in the fall/winter. Better safe than sorry.
7/20/2020 20:18:50	Jan	Ackerman		Colby	I oppose delaying school, the children need to be educated!
7/20/2020 20:18:53	Shawntel	Shirkey	USD 259	Wichita	Delaying the start of school is the best thing we can do right now to keep everyone in our community safe. Schools are not built to keep safe social distance. If we open schools, we can guarantee a major rise in COVID-19 cases and hospitalizations.
7/20/2020 20:19:05	Allison	Johnson		Olathe	Please uphold the governors executive order to delay the start of school in order to protect children and school staff.

7/20/2020 20:19:09	Jori	Nelson	Public school teacher	Prairie Village	Uphold the Governor's order to keep teachers, staff, students, and families safe. Make Kansas proud!
7/20/2020 20:19:10	Randy	Elam		Derby	Too risky for in person classes until covid is under control, online learning only!! Keep the staff and students SAFE!!
7/20/2020 20:19:10	Trisha	Smith		Shawnee, KS	I agree with Governor Kelly 100% and beyond. Not only should we delay the start of school until after Labor Day, but we should Also have 14 days straight of no new COVID-19 cases before we even consider doing in-person school.
7/20/2020 20:19:11	Kelsey	R		Ashland	We never shut down daycare and didnt make those kids social distance. why take away education from our children that need it. Most parents cannot teach as well as our teachers. Do not hinder our future by making school a hard environment to learn in.
7/20/2020 20:19:20	James	Cressler	Parent	Wichita	Support DELAY opening for schools
7/20/2020 20:19:21	Emily	Forte		Wichita	I would prefer school be delayed. Cases are skyrocketing. I'm at high risk working in healthcare and I don't want to pass it to my kids who pass it to al their classmates. We also have grandparents who help with kids, which is the case in many households. Really, until a vaccine is available, it should be illegal for schools to be open.
7/20/2020 20:19:22	Tiffany	Long		Lenexa	Approve this delay for schools to have time to better prepare for what will be the safest for children, faculty and staff!
7/20/2020 20:19:24	Regan	Veach	Olathe school teacher	Overland Park	Please vote to delay school start!
7/20/2020 20:19:36	Rosemary	Maxwell	Self-taxpayer	Mission	The start of school should be delayed until the case numbers are back down considerably.
7/20/2020 20:19:41	Heather	Curry	parent	Olathe	I think giving the school districts extra time to prepare to open for "in person" school is a wise decision. There is no way in about 4 weeks school could open in an organized way when teachers haven't even been told a plan. And have had no time to prepare for this upcoming year. Sure, I wish they could go back sooner, but if it means they are more prepared to keep this virus under control at school, and be able to stay in school, I support that. Being able to start school prepared and ready and not have to change directions as much only helps the students and teachers. The kids mental health is at the breaking point and going back to school, too early, then having to shut down again only makes it harder on the kids. They desperately need in person school, even if it looks different! The kids need sports for their mental health and social well being! Please find a way to keep fall and spring sports!
7/20/2020 20:19:57	Kellie	Schmalzried	USD 482 school board r	Dighton	USD 482 is prepared to start school as scheduled! Our staff and our administrators have done a phenomenal job over the summer preparing for the opening day and should be allowed to do so. This should be a county by county decision based on cases and spread. We do not have any new cases and all previous cases (less than 10) have fully recovered. Our children should get to go to school as scheduled!
7/20/2020 20:19:59	Christina	Miller	Parent	860 N Westlink wichita	I support Gov. Kelly. Push back the opening for our schools until Sept. 9th. After watching the Wichita BOE meeting last week, our schools are not ready. Our hospitals are stressed. Our teachers are scared. We will not go back in August. Funding for Wichita schools will be affected by the parents who are not ready. Give us time.
7/20/2020 20:20:01	Kathy	Clapp	Greenbush	Independence	I believe schools should be closed until deemed safe. Teachers need to use this time to make online classes more rigorous and structured. Districts need to be made safe.

7/20/2020 20:20:01	Beth	Sarver	The Kansas City Sudbur	Shawnee Mission	<p>There are too many variables at play to make school safe for in person learning. The variables that no one seems to be discussing are as follows...</p> <p>Students with behavioral concerns, trauma and disabilities that make it essential that they are able to be in close proximity to teachers... what's the plan for them? The most high needs kids are often already poorly served by schools. With diminishing staff capacity, how will these kids be cared for? Teacher stress levels were already through the roof... with the compounding impact of covid and all of the unknown variables, how will teacher mental health be supported, protected? What about the adrenal fatigue that plagues our teacher populations working with these high needs kids, could their weakened immune system become more susceptible to covid? Since our state is so divided around a comprehensive plan, how are teachers to know if there students come to school from homes that believe science and practice appropriate social distancing , etc or those who come from homes that believe this is all a hoax and attend a variety of gatherings with family and friends. Every person and household that interacts with the systems in person are comprised of multiple variables that could become catalysts for the spread of covid. Family of privilege and means will do what is best for these children and families who are most often disenfranchised with again be more susceptible to the spread of covid.</p> <p>The fact that public schools are even considering in person instruction right now is ridiculous. Our boys will be kept home. We all want schools to open safely, but the lack of coherence in planning makes that statistically impossible.</p>
7/20/2020 20:20:17	Brianne	Vinson		Eldorado	<p>Children need to get back to school. They need to learn and grown their minds. I have a soon to be first grader whom my husband and I are positive would be reading by now if it weren't for the premature closure of schools. I am more than capable of teaching her from home and that is just what we will do this year. I am fortunate enough to have a husband who works so that I can stay home and take care of our children. My sister is in the opposite situation. She has 4 children and absolutely HAS to work to put food on the table. She doesn't have time for her workload as it is. How will she spare time for homeschooling? You are abandoning the children who live in abusive homes. Why? Because you're scared of a less than 1% chance of death? Newsflash...we will all die someday. This generation of young children are on the track to die uneducated and afraid of something that 99% of our population has yet to contract since the month of March! Get schools open and don't leave those who are less fortunate behind! And yes, I'd like to know what ever happened to "No child left behind". You are leaving them ALL behind! So far 6 months behind and I bet you our lovely governor isn't finished with her delays. Also, masks do not work! I feel you should give everyone the choice on if they should wear them. Forcing things will not put you on good terms with already extremely frustrated parents.</p>
7/20/2020 20:20:23	Roni	Ventura		Overland Park	<p>I am a teacher. I want nothing more than to be with my students in a classroom! With that being said, I fully support the delay of schools until after Labor Day. This small amount of extra time will not harm students' education. Many schools across the country do not start until after Labor Day to begin with. It will allow for teachers and districts to better prepare for the fall. Most importantly it will give our state time to lower our COVID numbers so that it will be safer to return to, and maintain, in- person teaching. This is a step in the right direction for the safety of our students and staff. Please vote in favor of the Governor's Order.</p>
7/20/2020 20:20:27	Joy	Hord	My family	Olathe	<p>Yes, I am 100% in favor of delaying the start of the 20-21 K-12 school Year.</p>
7/20/2020 20:20:31	Emily	Preston		Bel Aire	<p>If you delay schools, you are going to have an entire group of students who are even further behind in learning, who will likely never catch up. Science shows COVID isn't spread between children/from children to adults like it is spread from adult to adult. Are you going to shut down every flu season now? Do the right thing for Kansas students. Don't push them even further behind.</p>
7/20/2020 20:20:42	Erin	Thomas		Linn Valley	<p>I am a teacher. I do not want to get sick, nor do I want to pass any illness along to my students and their families. COVID cases are blowing up in Kansas, and around our nation. Starting schools now is reckless and unsafe. Please support our governor.</p>
7/20/2020 20:20:43	Pam	Howze	Teacher and parent	Kansas city	<p>I dearly wish that we were ready to go back but unfortunately due to a number of failures and inability of people to follow directions we are not. I like the idea of waiting until after Labor Day to see where we are. I think teachers need training and may have to start sooner but not at the beginning of august. I just don't know that training will really be effective for that long.</p>
7/20/2020 20:20:43	Courtney	Thurman	I am a Parent	Olathe	<p>I vote to delay the start of school</p>

7/20/2020 20:20:52	Laura	Fasl	Olathe Northwest high s	Lenexa	School should absolutely open as planned on August 14. This virus is going no where and we have to learn to live with it! It has a 99.8% recovery rate with 78% of deaths occurring from Covid age 65 & over. ZERO deaths under age 25. The detriment not going to school will have on our kids has the potential to be devastating. Chances are the schools will close down during winter months so let them be "normal" at the start of school. This decision will cause more harm to our children than COVID-19 will. The idea of the early school dismissal in the Spring, the subsequent lockdown, closure of businesses, wrecking of our economy and wearing of masks was all designed to flatten the curve so that our hospital systems were not overwhelmed. It was NEVER designed to get rid of the coronavirus. NEVER. Is delaying school and cancelling sports and camps going to get rid of the coronavirus? No, it's still going to be there after Labor Day. And if the number of positive cases is not hovering around zero, Governor Kelly is going to delay school further. It's ridiculous.
7/20/2020 20:21:00	Chad	Lynn		Olathe	Get the kids back in school. They need this for their mental health. We have to consider all aspects of health. Transitioning to home will be easier once teachers can meet and set expectations if they need to go back online.
7/20/2020 20:21:00	Meri	Miller-Kahle	6th grade sped teacher	Manhattan	Please let us have until after Labor Day before we go back. We need the time to plan and prepare! Please vote to follow Gov Kelly's EO!
7/20/2020 20:21:17	Norton	Ritter		Baldwin City	Close the schools
7/20/2020 20:21:31	Amanda	Brooks	Teacher - KCKPS	Lenexa	Please support Governor Kelly's E.O. to delay the start of schools. With the numbers trending upward and our lack of knowledge of how this virus will affect us in the long term, we are subjecting students and teachers to possible long-term effects. This is not about party. This is not about what you think Governor Kelly's power should be or not. This is about our students and our teachers. We should be doing everything that we can to protect them.
7/20/2020 20:21:37	Jennifer	Creek	Olathe Public Schools (b	Prairie Village	Please vote in support of Governor Kelly's Executive Order to delay the start of the school year. I want nothing more than to be in school teaching my students. I know that it is vital to their well-being. However, it is simply impossible to ensure the safety of students, staff, and parents if we return to in-person learning to soon. Students cannot learn and thrive if they are sick or worried about the health of their peers, teachers, and parents in their life. I also feel strongly about protecting the local control given to the school boards in the state, and appreciate that is a consideration in your decision. But we have seen that people are prioritizing politics over science, and community health is not always driving decisions. Hoping people will just follow a recommendation without a mandate and strong leadership is apparently not enough. At this point, that mentality has not been successful in keeping this virus from spreading. Please—please—vote to support this Executive Order to delay schools and give administrators time to make plans that support and protect our community.
7/20/2020 20:21:59	Rachel	Nyp	Parent	Lawrence	Please let our kids go back to school on time in Aug. Delaying school is harming our children and depriving them of an education that we pay for with our taxes. Their is no reason our schools shouldn't be prepared. They had all summer to prepare to go back to school.
7/20/2020 20:22:00	Marissa	Anderson	Parent of K-12 student	Olathe	Please delay school until after Sept 8 or even later to keep our students and teachers safe
7/20/2020 20:22:02	Taryn	Robinson	Blue valley	Johnson county	I do not thing going back to school this fall is a good idea. We are not moving in the same direction and people are not taking this serious. But.. if we are going to go back at some point I would like to suggest we go on winter break 2 weeks early. This will allow family to quarantine before traveling family for Christmas. My father in law has stage 4 cancer and if we don't take our kids out of school 2 weeks early then we won't be able to see him till after the first of the year. Just a recommendation. Thank you
7/20/2020 20:22:09	Jessica	Rogers		De Soto	I think it is a very reasonable idea to keep schools closed until after Labor Day. I am also looking forward to learning more about remote learning options.
7/20/2020 20:22:10	Michelle	Pfister	n/a - parent	Olathe	want kids to return to school, my daughter will be a senior at Olathe West HS, studies indicate that young people are not spreading the virus or becoming very ill if contracted, 85% of deaths in Johnson County, KS have been 70 yrs old or over, with 70% being over 80. Middle school and high school students can wear masks, wash hands, and distance when necessary, need in person learning for education, socialization, mental health and general well being. Families should be given the option of in person school, and maybe staff that is concerned can teach virtually. But, many people have to return to work regardless of their profession. And, I know many teachers who want to be there, and want their kids to be in school. Thank you!

7/20/2020 20:22:14	Sarabeth	Morgan	USD497	Lawrence	Thank you so much for putting the safety of students and teachers above political games!! I 100% support a delayed school start in Kansas, given the data. If trends continue upward, please also consider extending this delay as needed.
7/20/2020 20:22:16	Verneda	Edwards	Self	Spring Hill	I hope that you will vote to uphold Gov. Kelly's mandate to delay the start of schools. As Covid-19 case continue to climb in our county it is irresponsible to think schools can begin on time. Preparing for the year is overwhelming. Time is needed - to quell the number of cases and to make adequate preparations.
7/20/2020 20:22:20	Catherine	Wolfe	olathe School Districf	olathe	Yes! Delay for safety of everyone!
7/20/2020 20:22:31	Shirley	Thompson	Self	Osborne	Each district should make the decision about reopening according to the local situation. Many districts will be ready on schedule and should be allowed to start. There are too many detrimental effects of mask wearing for extended periods and incorrect use is a false security. Schedules can be adjusted if the local numbers of COVID-19 cases build. At the present time I believe our county has only had three or four cases. Very few people in this county have worn a mask. Funeral meals of 60 to 100 people have been held with no consequence of this virus.
7/20/2020 20:22:33	Claudean	McKellips	Teacher for Over 20 yea	Lawrence	If you are meeting virtually, you know, it is not safe to open schools. If Kansas goes online; everyone gets to live.
7/20/2020 20:22:34	Matthew	Glenn		Leawood	The start of school should be left up to the districts to decide.
7/20/2020 20:22:37	Jessica	Ellison	Lansing USD 469	Lansing	School should remain out of session until at least after labor day, preferably until after most of the threat of COVID-19 has passed.
7/20/2020 20:22:59	Jennifer	Axman		Hoisington	I believe the school year, at a minimum, should be delayed until after Labor Day and students should be mandated to wear masks. Temperature checks should be required for all staff and students every day, as well as, frequent hand washing. I also believe that the required hours for this school year should be waived.
7/20/2020 20:23:00	April	Dugger		Colby	I believe we need to open as normal as possible. They've been through enough. Sanitizing every hour is going to kill good bacteria as well and weaken their immune systems. Good hand washing. Set a timer. Make it a game. Turn it into a lesson. Get creative with it. These kids need normalcy. Please.
7/20/2020 20:23:07	Mwlany	Barnes	Grandparent	Andover	Online learning only until a vaccine is available. Sedgwick County reported 365 children between birth and 20 years of age positive for COVID 19 in the last week 7/20/2020.
7/20/2020 20:23:13	Cathy	Huebner		Lawrence	Please vote to delay the start of school and follow the governors executive order to allow school districts to create safe plans for return and to allow communities with returning college students to evaluate what those returns do to Covid cases in those areas.
7/20/2020 20:23:20	Rebecca	Prue	Elementary Parent	Topeka	If we are going to start all virtual, make the phases longer than 5-7 days, so we can start on time. The phases ideally should be no less than 14 days since that is the 'incubation period'. Please remember our kids need this structure and as a working parent we need it too.
7/20/2020 20:23:22	Andy	Gigstad	Blue Valley Elementary	Overland Park	I understand the governor's requirement to wear masks, sanitize, and social distance. However, why should that push back the start of school? It certainly seems like the first of many delays. I am a working parent that has barely been able to survive the shut-down and the start of school in August served as a beacon of hope for my family. Every resident in the state of Kansas has been required to wear a mask since early July and both masks / sanitizers are much easier to purchase. So, again, why delay? To serve as another way for the governor to exercise her power. Give me liberty or give me death...Please consider the fate of our youth and don't allow the governor to demonstrate the power to mandate how local Kansas schools operate.
7/20/2020 20:23:27	Alicia	Dean		Wichita	With Sedgwick county cases on a quick rise, I feel it is best to give schools the extra time to make accommodations, train staff, and get a better grasp on the trajectory of COVID-19 in our area. I am a 30 yr old, healthy adult and am on day 18 of covid, and it is believed that I caught it at my summer job, where I care for a teenage special needs child. I do want kids back in school. I also want to give our school leaders the time and grace that is needed to plan for the safest return possible.

					<p>I am commenting as a parent of three elementary-aged children (one with health challenges), and as a teacher. Please accept and follow through with Governor Kelly's executive order to delay school start dates until Labor Day. This EO follows CDC guidelines of low community transmission being a necessity before opening schools fully. It includes safety guidelines that will be necessary in keeping both staff and students as safe as possible in these dangerous times.</p> <p>My health, my wife's health (she teaches also), my children's health, my students' health, and the health of scores of co-workers and family members depends on us following the CDC guidelines. Look at the recent outbreaks at camps in Texas, Illinois, Georgia, and Missouri for a peek at what our schools could become, especially given that 40 states are showing increases of infection cases. Just today I saw a student death and a teacher death, both in Florida.</p> <p>I ask that you put aside the political pressures and act in the best interest of the lives and safety of Kansans in general. More than the lives of students and teachers is at stake, as each person in a school has family at home, friends at church, and other contacts outside the school. The risks of opening schools too early without ensuring safety are immeasurable, and the disruptions (like in March of 2020) that could occur if we start unprepared but then have to close schools would be equally devastating. Given several weeks of preparation time, including a chance for the increases to flatten out, will allow local school boards to craft policies and procedures that will work for their communities, as well as procure PPE for employees and students. Plus, there's a small benefit to transfer students if we all start on the same schedule.</p> <p>Local boards and communities can still have a vigorous debate about whether their schools should offer only distance learning, or have limited or traditional in-person learning, or something in between, a delay now (during a recognized increase in cases) will at least give school leaders time to put proper safety precautions in place.</p>
7/20/2020 20:23:32	Jason	Hibbs	Children who attend Winfield KS		
7/20/2020 20:23:33	Kate	Wozniak		Prairie Village	We need to see AT LEAST a 2-3 weeks of a downward trend in cases prior to even consider opening schools.
7/20/2020 20:23:34	Aaron	Roach	Father of USD 350 student	St. John	<p>I believe delaying the start of school is stripping away our children's right to an education. If it's safe to have kids travel all over the state playing sports, it's safe for kids to get back to school. Stafford county has had 2 cases with 0 deaths over the last several months. Why should we be treated the same as Sedgwick county or any other hot spots?? Our students need to get back to school where they can further their education and engage in the social activities that are essential for young children. I truly believe that Gov. Kelly will do all she can to prevent the youth of KANSAS from entering school this year. This is a slippery slope and she is not fit to lead this state. My daughter will be in 1st grade this year. Since the second week of March, the regression I have seen in her is something that saddens and angers me. Our kids deserve the best education possible and taking that away from them is nothing short of selfish. It should be left up to the parents on how they want their children to be educated, not a liberal governor following her own parties personal agenda. DONT NOT LET HER RUIN THEIR FUTURES!!!! My wife will be starting nursing school this fall as well as working part time. I have a full time job as well and we cannot have full time teacher put on our shoulders too. That is not fair to us and ESPECIALLY not fair to our children. I trust that you all have the children of Kansas's best interest at heart and that you will make the right decision. Please let our students go back to school on time and trust that parents and educators know the best course of action for each of their students and children. Thank you and God bless you for the task you've been given.</p>
7/20/2020 20:23:38	Shannon	Leitch	Parent of students and a	Wamego	<p>Please allow the governor's orders to stand as they are. The extra time will allow districts and their teachers and staff get the buildings prepared. Teachers will also have time to do professional development for not only the safety measures for their buildings but also for the competencies. This will allow time for decisions to be made and enacted. Buses and their drivers, kitchen staff, and other auxillary staff members will be able to have things ready to go for a September start date. Contingency planning can happen for all concerned and those plans can be shared and prepared for by communities. We all want to return but please respect that the return needs to happen with proper planning. Thank you.</p>

7/20/2020 20:23:42	Mary Ann	Woirhaye	private citizen, patron of	Overland Park	Please veto the Governor's executive order to delay the opening of schools. There is no evidence to suggest that a 3 week delay will reduce the spread of infection of Covid-19 and it harms at-risk students by deepening the economic and educational divide. Most school districts had already put together reopening plans with both in-person and virtual options giving families choice. If school opening is delayed until September, we risk never opening doors to students. A virtual-only Fall is not an option for working families. It categorically disadvantages students who do not have parental oversight. Further, the promise of "better" virtual options falls on skeptical ears given that the continuous learning in Spring was so, so poorly executed. Schools are absolutely an essential service and teachers are essential workers. We ask for the opportunity to begin class work in August.
7/20/2020 20:23:54	Ashley	Banks	Parent	Overland Park	Open schools at regular start date
7/20/2020 20:23:54	Janice	Tetley	Community member	Olathe	Schools need to open as planned with the option for in school or remote learning.
7/20/2020 20:23:56	C	Chay Thompson	My kids	Wichita	Online only for now numbers are going up
7/20/2020 20:24:06	Deanna	Benavides		Overland Park	In order to keep all kids and staff safe, we need to delay the start of school! In-person learning will lead to unnecessary sickness and possibly death. I don't see how anybody could be okay with that.
7/20/2020 20:24:07	Meagan	Witkowski	Parent of Olathe SD stud	Overland Park	I believe school should start in person after Labor Day and all students and staff MUST wear masks.
7/20/2020 20:24:11	Amanda	Kippenberger	None	Derby	Schools need to stay closed until after Labor Day and children need to wear masks in school.
7/20/2020 20:24:11	Michael	Black	SMSD	leawood	Waiting a couple more weeks won't do anything. What is "long enough", a week, a month, a YEAR?! Covid isn't going anywhere. This IS the new norm. Get the kids back to school on time. Enough is enough.
7/20/2020 20:24:15	Natasha	Janousek		Lenexa	I urge the board to accept the Governor's recommendation to delay the start of the 20-21 school year. I am a teacher and do not feel safe going back to school while the numbers of cases are rising significantly in my area. Please keep the students and staff of all schools safe.
7/20/2020 20:24:16	Rachael	Werth		Goddard	Please allow school to begin in August
7/20/2020 20:24:19	Amanda	Volkman	Parent	11750 n ridge rd sedgwi	6 months is to long for summer break. They want to go to school and they need to. If we can do it safely I dont see the problem. We the parents should be the ones to decide whether or not to send them to school not the governor. The kids need to start sooner than later. Lots of kids are behind already becuse of closing schools down 2 months early. Dont let them get even more behind. Thank you.
7/20/2020 20:24:27	Olivia	Heffner	Parent of 3 children in C	Lenexa	I have 3 children in the Olathe Public School District. One in Elementary, one in middle school and one in high school. I want all 3 of my children back in school and all 3 of my children want to be back in school. However, I believe not only do the children need to be protected but teachers & the rest of the adult staff need to be protected too. Teachers haven't been given any information on what is going on and they need time to prepare after they find out because they will be the ones watching over our children when our children return. I don't want schools to feel rushed to open leaving proper precautions overlooked. I think after Labor Day is a good timeframe to start back up compared to a few weeks from now. Thank you.
7/20/2020 20:24:40	Sara	Alderman	Teacher and Parent	Alma	Delay start of school allowing schools to develop a safe plan to re-open. Require masks k-12 to protect all the students and staff.
7/20/2020 20:24:40	Heather	Rubesch	My family that includes	Prairie Village	Since I have high schoolers, I would like to see at least a few days a week of in person learning. It will be really hard for upper high school kids to get the full curriculum of advanced science and math courses online. I would also be willing to give up electives, sports, etc so they can focus on graduation requirements and redeploy those specials teachers to core courses. That would allow for reduced class sizes.
7/20/2020 20:24:40	Tabitha	Rainwater	KCKPS	Kansas City	For the health and safety of employees, children, and families, please strongly consider delaying the beginning of the school. This will ensure students, staff, and all families will be away from the chance of exposure to COVID-19. This will also give teachers time to prepare for whatever they're district decides to do for the fall semester.
7/20/2020 20:24:45	Paula	Alters		Olathe	Please listen and respect the recommendations of both Governor Kelly and the scientists regarding delaying the start of the school year. There is a reason that they are making these critical decisions for the State of Kansas. They would like the children back in school as well but know that right now, we must be very careful and stay focused on the health of our fellow men and women. This virus is too contagious and dangerous not to take it seriously. My family, my neighbors, our community would appreciate you upholding the Governor's mandate and recommendation.

7/20/2020 20:24:46	Kirstin	Gray	Maize USD 266	Wichita	I think schools should open. If parents want to keep their children at home then by all means they should be able to do that. My child is in special education classes and is already falling behind despite our best efforts at home. I want my child in school.
7/20/2020 20:24:54	Tammy	Roberts	Parent	Salina	I believe it is safe for my sophomore to return to school in August. USD 305 had released a well thought out plan to keep students safe and I believe they are acting on the best interest of all parents with their options.
7/20/2020 20:25:03	Candice	Chay Thompson	Wichita	Wichita	Numbers are high online only
7/20/2020 20:25:12	Jeremy	Shank	Parent	Shawnee	I believe that delaying the school year is necessary. We need to keep students, faculty, and other staff from contacting Covid-19. It will keep not only those in schools from contracting the disease but also their family members. A delay isn't keeping students from learning, just extending their summer break until the cases go down in number. This disease is easily spread and we will lessen the chance that we will need to quarantine during the school year and disrupt learning in the middle of the year. Delaying a few weeks is better than stopping and then restarting in the middle of the year. There isn't any need for politics in this choice only for the safety for oh children and teachers. Please approve the Governor's executive order and take this disease seriously when others will not.
7/20/2020 20:25:16	Esteban	Aranguiz	Burden-central	Atlanta,ks	I don't think that the school year need to be delaying. If we follow all the procedures and requirements that the governor want, be no problem, as longest the parents support them. Parents and schools need to be one team.
7/20/2020 20:25:17	Mandy	Kennedy	Wichita Public Schools	Wichita	Open schools up on time as usual
7/20/2020 20:25:20	Matthew	Ryan		Colby	Start back to school on time!!!
7/20/2020 20:25:24	Shannon	Everard		Overland Park	Reject the Governor's order and let the districts decide. Kids need to be back in person in school and sports!
7/20/2020 20:25:25	Wendee	Olmstead	None	Cheney	Please let the children have some normalcy. Let them start school and sports and school activities as usual.
7/20/2020 20:25:30	Lisa	Simpson	teachers	Wyandotte	I strongly believe that the start of school should be delayed. It will give the schools and teachers the chance to develop a safe plan for the re-opening of school.
7/20/2020 20:25:48	Danyale	Yarger		Goodland	The schools should remain closed until a later date. People always have sent their kids to school sick this will be no different and I'm not willing to risk the life of my child or that of the teachers it's stupid!
7/20/2020 20:25:49	Cheri	Pryor	Blue Valley School Dist	Overland Park	I am a teacher and have been a teacher for 27 years. I am asking you to please uphold Governor Kelly's EO. Teachers and staff desperately need this extra time for training and planning for this unprecedented school year and to fully learn all of the protocols to keep students, teachers and staff safe. There is much for us to do and know and learn before students return to school. I feel worried and scared for everyone right now as there are so many unknowns with this virus. I want our district to do what is safe, just, and prudent so that we do not lose lives. Thank you for your consideration.
7/20/2020 20:25:57	Kathleen	Bock	Olathe USD 233, Olathe	Shawnee	As a veteran teacher of 32 years at Olathe North High School, I never thought we'd be faced with a health crisis that would effect my students and me. I'm truly scared to return to school on Aug. 10th and risk my life because I do have underlying health concerns. With our Covid numbers and hospitalizations increasing in our area in recent days, I would feel more comfortable waiting to start school until after Labor Day. I would love nothing more than to start the school year normally and safely with my students, but I feel it's impossible at this point. Please vote to uphold Governor Kelly's Executive Order that will allow teachers and schools to fully prepare our classrooms and get supplies we need to stay safe. A gift of a few weeks will allow us to get our Covid numbers down. My husband is a substitute teacher for DeSoto USD 232 and also coaches two sports. My son also coaches at Mill Valley HS in DeSoto. THIS EFFECTS MY WHOLE FAMILY. Please think about your decision with everyone in mind. Thank you.
7/20/2020 20:26:01	Kally	Hearron		Overland Park	As a mom with a daughter that is going to be a senior and one that is a freshman I believe with my whole heart that my kids need to be back in school with friends and routine. I believe with proper measures such as masks and hand hygiene this can be done safely for everyone
7/20/2020 20:26:02	Amy	Banks		Alma	Please please do not vote against the executive order to delay schools opening. For the safety of our students and staff it is imperative that you approve this delay so that Admins, Nurses, Teachers and all staff can put together a comprehensive plan to ensure the safety of all.

7/20/2020 20:26:03	Bill	Martinie		Olathe	Please vote to uphold the Governor's executive order. I know it is a very difficult decision but the safety of our students, teachers and the families of those involved is too precious to risk as this virus rages uncontrolled. Thank you
7/20/2020 20:26:05	Lara	Caldwell		Overland Park	I support the delay.
7/20/2020 20:26:07	Cate	Eighmey		Olathe	I support Governor Kelly's executive order to delay the start of school!
7/20/2020 20:26:08	David	Allen	USD 335-BOE Presiden	Soldier	Please allow local districts to determine what is best for our districts
7/20/2020 20:26:11	Janna	Dressman		Frankfort	I encourage you to support Governor Kelly and delay opening schools until after Labor Day. Kansas is considered a red zone state due to our coronavirus rates/cases. Our hospitals are filling up. I am a single parent, teacher, and mother of a child with health conditions and multiple hospitalizations due to respiratory illnesses (including pneumonia). Also, teachers need time to prepare since the 1000 page document was recently released.
7/20/2020 20:26:19	Holly	Osborne	Parent of 2 school age cl	Derby	I support the Governors decision to delay the start of school until after Labor Day. Please do the same
7/20/2020 20:26:22	Marci	Jennings		De Soto	Please delay the start of in person school.
7/20/2020 20:26:36	David	Reber	Kansas citizen and taxp	Rural, Leavenworth Cou	If you are meeting remotely to discuss the opening of schools, you shouldn't be opening schools.
7/20/2020 20:26:40	Jacqueline	Sweet		Wichita	My children attend USD 265. I request that you please support the governor's decision to delay the start of school for the 2020-2021 school year. I understand that there are districts in the state that have not been hit as hard as Sedgwick County, but I am honestly afraid for my children to attend in person school any time within in the next few months. I request that our county is ordered to not have in person school until our county levels are deemed safe by our county health officials.
7/20/2020 20:26:42	Rita	Hopson	NA	Phillipsburg	I feel schools should not start until after Labor Day and then with several precautions in place. Maybe online 3 days and 2 days in class with 1/2 class at a time. If one group was Mon-Tue and the other Thur-Fri there would be time between to sanitize while doing an on line day. Also I think there should be divider shields between children. Even though children don't present symptoms as often, it is believed they can be carriers. It would be a shame if a child lost their grandparent because they brought it home from school.
7/20/2020 20:26:55	Jordan	Boone	Parent	Wichita KS	Please delay school until after Labor Day
7/20/2020 20:27:10	Jennifer	Robinson	My family	Olathe	Please adopt and observe Governor Kelly's executive order, delaying the opening of Kansas schools until after Labor Day. Allow schools time to secure the PPE and supplies needed as well as training staff for the additional responsibilities of virtual as well as in person learning. The infection rate in our county continues to rise and this is the wrong time for students to return to school safely. Put the health of our students and teachers first!!
7/20/2020 20:27:13	Mary	Hensley	Hensley family	Topeka	Please allow the school board and schools to determine when the beat time for their school to start is. Maybe give them an option to start online for the first 6 weeks and then move to classroom learning. But many students don't learn well online. Please leave that control up to the school.
7/20/2020 20:27:25	Travis	Gray	USD 232 (Mill Valley H	Shawnee	I urge the board to vote against the governor's emergency order on delaying the start of school. Kansas' population is too diverse to have a blanket order for the entire state. Let school open on time, and give school districts the local control they deserve. It is also very important for our kids to have extra curricular activities in their lives. It is healthy for them mentally and physically. It also keeps them out of trouble. **KSHSAA needs authority to allow practice for fall sports. If a delay in the start of school ends up being passed by local school districts, then the kids will lose half their seasons. Please allow them to start practice prior to the start of school. Thanks for your consideration!
7/20/2020 20:27:30	Amy	Hinrichs		Emporia	Please keep schools closed at least until after Labor Day and reevaluate as it gets closer. COVID cases are going up yet again. It is not safe, yet! We closed schools in the spring with less cases than we have no. I would be absolutely devastating to our children and their teachers to go back while the virus is so rampant. Please make a wise decision!
7/20/2020 20:27:31	Miranda	Hamilton		Topeka	I am happy the start of the school year is being delayed. It gives schools and families more time to prepare and be safe.
7/20/2020 20:27:31	Vickie	clipstonLenexa		Lenexa	Unless we are waiting for a vaccine. We should begin school now . We need masks, shields, protectors on the table to separate the children, no more than 10 in a classroom. EFFECTIVE TEACHING!!!! On line learning does not work for young children.

7/20/2020 20:27:47	Samantha	Creekmur	Open up the schools!	Wichita KS	Open up the schools! Not everyone can afford and to teach their children how to learn everything they need to know in life! School is where they need to be for the learning! A lot of children has IEPS by not them children going to school is messing up with the children that has IEPS. Two of my children has IEPS and they want to go back to school and learn! They don't want to stay home! My 5 year old boy is looking forward to school! How else are we supposed to get used to this NEW VIRUS if we can't get used to it been AROUND! My kids went into depression due to them NOT going to school! Is that what you want children to get is DEPRESSION! Depression is not a good thing! I had to help one of my children out of it! So please children back to school! Let them parents make the Decision not to our governor! We have the rights to let them go to school or NOT! But my CHILDREN wants to GO BACK and NOT LIVE IN FEAR!
7/20/2020 20:27:49	Callyne	Brown		Salina	I think it is in the best interest of all Kansans to keep schools closed. The number of positive covid cases and deaths are on the rise. There is no way to actually keep children, teachers or support staff safe until we have a better idea on how to do so. If distance learning must be done for the semester, this is the time to figure out how to do it properly.
7/20/2020 20:28:06	Jessica	Pereira	Parent of 3	Wichita/Maize	Open the schools without restrictions!! This is ridiculous!!!
7/20/2020 20:28:11	Cathy	Wieland	parent	Colby, Ks	please start school on time, do not delay
7/20/2020 20:28:13	Liz	Burke	Parent	Salina, KS	Please accept and support the Governor's executive order to postpone school until September. Hopefully people will take mask wearing and social distancing seriously so we can flatten the curve. It will also give school districts time to plan to meet students and staff's safety needs. Also please consider virtual/distance learning for districts based on their needs in their community. Thank you for the consideration.
7/20/2020 20:28:14	Megan	Larson	USD239	Minneapolis	I feel it would be best practice to not resume most students on site / brick and mortar until the number of cases have plateaued or decreased. To begin school as numbers are still rising does not seem safe for community.
7/20/2020 20:28:20	Nina	Wilson	USD259	Wichita	I hope you support and uphold Gov Kelly's EO to delay school starting until September, mostly because teachers and staff will need more time to plan and implement the necessary changes to our school day. It is NOT All Systems Normal. I cannot teach my tried and true music curriculum. I don't know if I'll be able to teach in my classroom or from a cart. I don't know if I' can use ANY of my normal learning tools: instruments that need shared, social dancing, even the natural child's instrument: singing! I have taken uncounted hours of virtual PD this summer on my own time with no recompense, just in hopes of wrapping my brain around how to make this learning experience meaningful, and hopefully joyful. Yet, all of these hours of PD can't help when I don't have the district's plan in front of me. Gov Kelly recognizes this. She values the countless hours educators and community members put into the plan, but we can't possibly process the details of this plan, no less be ready to implement it, in a few short weeks. She is also giving our urban communities time to prepare by lowering the infection rates, and for parents to make arrangements for the inevitable switch to online learning that is bound to happen. Please, honor her sensibility.
7/20/2020 20:28:21	Kristine	Middendorf	Self	Olathe	Please vote to keep schools closed until September 9. The urban communities need to flatten the curve before we return.
7/20/2020 20:28:22	Elva	Rose		Olathe	As a mother, I do not want my daughter to be at risk. School must be delayed.
7/20/2020 20:28:25	Shauna	Rumbaugh		Spearville	Please accept Governor Kelly's pending executive orders regarding K-12 schools. I appreciate all the work the Kansas BOE and so many others have done to protect our students and teachers while providing the best educational opportunities possible under the challenging circumstances. School districts need time to determine how to proceed and implement the board's recommendations, and delaying the start date will help them accomplish that. Thank you for your time and service to Kansas education!
7/20/2020 20:28:41	Dana	Grammon	Phillips County Health	Logan	I believe without a doubt that schools need to start after Labor Day and also all KSHAA activists suspended until that time as well. If you don't shut the sports down, it does no good to shut down school
7/20/2020 20:28:42	Erin	Kelly		Ottawa	Kansas is now one of the leaders in new Coronavirus cases. Furthermore, every instance of students gathering in large groups has resulted in infections. It would be irresponsible to ask students, teachers, and staff to put themselves at risk.
7/20/2020 20:28:45	Leigh	White	Parent	Shawnee	I feel it would be in the best interest for classes to resume in person before Labor Day as safely as possible. There is no substitute for in person schooling for students.

7/20/2020 20:28:51	Carrie	Gardner	Blue Valley and Piper	Kansas City, KS	I am a mother of two children that will be attending Piper schools in the fall. I am very concerned that they have no had adequate time to prepare for my children to attend school safely. I didn't realize how much this was weighing on me until I watched the Governor's announcement and I was literally brought to tears as a rush of relief flooded over me. For that moment the knots in my stomach, that I hadn't even realized I was carrying, released and I finally felt hopeful that our schools would be able to prepare to keep my most prized possessions safe upon their return. And that relief was taken away all too soon when I realized there was still a chance this decision would get overturn. Immediately, the anxiousness returned and I again began fearing for my children's health. I too am an educator in the Blue Valley School District and though I am very concerned with my own safety I wanted to first address my concerns as a parent for though this virus isn't impacting children as severely I do worry about the long term effects that we may not be aware of yet. So I ask you as both a mother and an educator to please think about our children and their teachers safety and follow our Governor's guidance in allowing schools more time.
7/20/2020 20:28:53	Kenneth	Sweet		Wichita	My three children attend school in USD 265. I request that the governor's order to delay school is honored. I also ask that Sedgwick county be ordered to delay in person school until Covid numbers are deemed safe by county health officials
7/20/2020 20:28:54	Tami	Cowley	Self	Horton	Personally I think this entire this is utter nonsense. I have a special needs kid who needs her school and teachers. When the schools shut down in March my house became a war zone instead of her safe zone due to her not having her normalization and her sped teachers. She is in the sped room for much of the day. And as far as her wearing a mask; good luck. She's 15 with the mental and developmental capacity of a 6 year old. Plus she has sever ADHD, among multiple other mental health issues. Someone or something needs to stop this insanity! I, in absolutely no way, feel the the governor is right in what she's trying to do. Where was all this panic and paranoia during the H1N1 era? It caused more deaths than this mess has. As far as I'm concerned she is way overstepping and needs to be stopped
7/20/2020 20:29:01	Randi	Krier		Wichita	Please open schools on time. I am a 6th grade teacher anxious to go back to in-person school. Our kids are suffering. I have heard from so many parents who are worried about their children's mental and physical health from staying home. This virus has a 99.9+% survival rate, and the mortality rate for people ages 0-25 is nearly ZERO. Why are we punishing the kids for something that really doesn't affect them? Number of cases means nothing; hospitalizations and deaths are going down. At the very least, give parents the choice whether to send kids to school or keep them home. Please, for the sake of the children, let us go to school.
7/20/2020 20:29:04	Sue Ellen	Arnold	None	Wichita, Kansas	Listen to Governor Kelly. Three weeks is a small price to pay for the safety of our children.
7/20/2020 20:29:13	Kari	Mitchell	Parent and teacher	Wichita	Covid numbers have been too high locally and we need a few more weeks to see numbers fall. Teachers need a delayed start to prepare for in class and the expected switch to online learning at a moments notice. Food services for families would be a relief for that burden many families face. Thank you for your service and consideration.
7/20/2020 20:29:23	Olivia	Haney	N/A	Kansas City	I went to school in the olathe school district and constantly felt over like the students were packed in like sardines. I can not imagine trying to safely social distance in any of the schools. This is also too big of a stress to add onto teachers already overwhelming workload.
7/20/2020 20:29:25	Hannah	Gabel	USD 259	Wichita	We should not physically open schools until COVID cases have been in a steady decline for an extended amount of time. We need to delay the start of school until after Labor a day so we can make sure all teachers and staff members are adequately prepared for all the new protocols we will be dealing with. There needs to be a clear matrix for districts to follow that shows when remote, hybrid, and in person are acceptable and it needs to be BASED ON SCIENCE. Please understand that we teachers WANT TO TEACH! But we want to be able to do so safely and to the best of our abilities. The longer it takes officials to make decisions, the less time we have to prepare for our kids. This is not a political issue and should not be treated as such. This is about the numbers. Listen to the experts and support your teachers.
7/20/2020 20:29:36	Emily	Decker		Hays	I don't believe we are ready to start school mid August. I believe we should formulate a plan, and start after Labor Day.

7/20/2020 20:29:42	Jessica	Franz		Olathe	I 100% agree with the governor's assessment that is based on recommendations of public health experts. Additionally, the AAP recommends the same thing. In places with growing cases, schools should remain closed. If our cases were going down, there may be an argument to open. Unfortunately, Kansas is currently number one in cases per capita. That is not a statistic we want. Until we can turn our curve around and cases are going down, schools should remain closed.
7/20/2020 20:29:47	Avery	Goering		Mulvane	Make the choice safest for our kids and our school staff. Push back the start date. Determine if in person is viable, or if we need to go all online. As a teacher, I can tell you, there is no possible way of getting my students properly socially distanced. And they certainly aren't going to wear their mask without playing with it.
7/20/2020 20:29:48	Dianne	Carpenter	Parent & Staff at Elementary	337 N Arroyo St, Olathe	I am okay with starting school in September. I have an autoimmune disease but I'm am still ready to return. The confusion caused by so many conflicting reports has frustrated me beyond the point of crying. Therefore I have come to peace with returning & taking the risk as well as sending my three children. I am fine wearing a mask - I have special ordered ten clear masks as the children I work with in special education really need to see my face. Thank you for the opportunity to voice my thoughts.
7/20/2020 20:29:50	Mary	Colvin		Weir	We just received the guidance from KSDE. We need TIME to put everything into plans and action. We had to rush to turn in a dime in the spring and it didn't go well. Let's not go about it the same way again. The delay is what is best for everyone!
7/20/2020 20:29:51	Jessica	Lynn	SMSD parent	Prairie Village	It is not safe to return to school with infection rates this high and climbing. Protect students their teachers and their parents by delaying. Work to bring infection rates down before reopening
7/20/2020 20:29:53	Judith	Zerr-Schamberger		Hays	Please keep the schools closed till after Labor Day! Also don't hesitate to close schools if CV numbers go up. Everyone legal age needs to have a will!
7/20/2020 20:30:05	Kelly	Stromberg	Parent of school age child	Leawood	I think that school should not physically open until a period of at least two weeks with no new cases of Covid19. I think that clubs that can meet over Zoom SHOULD be allowed to continue.
7/20/2020 20:30:05	Morgan	Travis		Wichita	Open up schools and let kids learn. They need the social interaction and to be around other children. It's essential for them. Kids aren't being affected by this virus and teachers can wear masks like every other profession has to currently.
7/20/2020 20:30:09	Amanda	Fisher	None	Olathe	I urge you to please agree to uphold the executive order to delay the start of school in Kansas. This will allow teachers, students, staff, and their families to stay safe and healthy rather than possibly being exposed to CovID 19 unnecessarily. I do not want to choose between a profession I love and the health of myself and others.
7/20/2020 20:30:15	Justin	Mumpower		Maple Hill, Ks	Please allow the counties to make the decision on when schools should start. Our county currently only has one active case, making 39 total with 38 fully recovered. I have 2 high school students and a wife that is a teacher. They are all ready to get back to school. Thank you, Justin Mumpower

					<p>PLEASE ALLOW KANSAS SCHOOLS TO OPEN AT THEIR OWN DISCRETION!</p> <p>In short, I disagree with Governor Kelly using her executive powers to delay the opening of all Kansas schools.</p> <p>Many districts from around the state have taken hundreds of hours, spent hundreds of thousands of dollars, and painstakingly worked through the spring and summer to ensure opening on time, or earlier, for the 2020-2021 school year.</p> <p>With that being said, I completely understand that some districts and locations in Kansas may not be ready, or COVID related circumstances may encourage a delay in their opening.</p> <p>Allow this to be a decision made at the local level, and not an all-encompassing mandate from the top.</p> <p>The American Academy of Pediatricians supports students being in schools this year. Every European nation that saw their students return to school experienced a zero percent increase in disease transmission.</p> <p>If students and staff do not want to return, they do not have too. No one is forcing anyone to send their child to a public school, and no one is forcing any Kansas citizens to teach in a public school setting.</p> <p>In closing, please vote no in regards to Governor Kelly's desire to delay the start of the 2020-2021 school year. All the choice to be made at the local level. Thank you for your time.</p>
7/20/2020 20:30:15	Kelly	Williams	Nemaha Central High School	Seneca	
7/20/2020 20:30:23	Kristin	Robertson		Topeka	Communities across the state are vastly different; schools and districts deserve the chance to make their own decisions regarding reopening. Trust our educators to know what's best for their students!
7/20/2020 20:30:29	Trinda	Wheeler	Blue Valley	Olathe	Please support the executive order. The document you unveiled last week needs more time to be implemented and new Covid case numbers are still rising. Also, please consider upgrading the guidance shared during last week's meeting on "determining" which "type" of instruction to be holding (rising=virtual, flat=hybrid, low/decreasing=in person) to something more binding. It was the most useful piece and I've not seen it in the official document.
7/20/2020 20:30:34	Martha	Davis	Elementary school	Sedan	I work at Sedan Elementary as the administrative assistant. These children have been out of school for far too long. School is a safe haven for a lot of kids. It's a place where you are fed, you are taught life lessons and most importantly you are felt loved by someone. I am from a small school where social distancing will be doable. We have small enough class sizes. So why not just let each district decide what they want to do? I am sure each district has been working hard this summer in order to prepare for the start of school next month.
7/20/2020 20:30:34	Laura	Harpold	USD #500 Kansas City	Kansas City	Please delay the return to school until after Labor Day. The State of Kansas is currently in the Red Zone...classified as "Out of Control" on the spread of the virus. How can we consider putting the lives of students, teachers and families at risk? Stop politicizing this as a Republican blocking a Democratic governor. This issue is about health and safety. Please, do the right thing...vote to support the delay. Thank you!
7/20/2020 20:30:36	Liz	Gravatt		Lawrence	I appreciate your service on the State Board of Education, and I cannot imagine how impossible this decision seems. Please delay school until after Labor Day, and even longer if necessary. This would be a temporary delay, instead of a possible long-term delay for students due to extended illness, or death. We are in a situation where every option available is bad, and each option comes with bad consequences. As a teacher myself (Bachelor of Music Education, and I own/operate a horseback riding lesson business) I cannot bear the thought of losing any of my students to this pandemic, or the thought of them losing me. I wish I had the magic answer, but I don't. The best I can think of is outdoor classrooms, which still come with insane logistics, but I absolutely believe that any kind of in-person learning will be disastrous to physical health (illness/death), mental health (there's no way to make in-person learning anything like it "normally" is, which will in itself be traumatic), and morale for students, teachers, staff, volunteers, etc. Teachers are already in short supply, the substitute pool will be smaller, and when there's nobody left to teach, then what? Again, I'm afraid I do not have the answer. I wish you all courage as you consider this monumental decision. Thank you for the opportunity to express my thoughts.

7/20/2020 20:30:39	Dede	Bien	Parent	Overland Park	Shutting down our schools with the lowest death rate during this pandemic is absolutely ridiculous. This is a virus we need to learn to live with. Teachers are essential employees, get back to work and get children back in schools. Shame on our Governor for making this political!!!
7/20/2020 20:30:40	Julie	Orton		Saint George	Please do not wait until after Labor Day to open schools. Children have already missed too much precious classroom time and my kids are falling behind as it is. They also should not wear masks as they are not proven to protect against virus transmission, they will be a distraction and children will touch them thus making them even more ineffective. I also worry about how they will be uncomfortable to wear as well all day. Wearing them on busses and into classrooms is fine but all day is ridiculous.
7/20/2020 20:30:40	Danielle	Whitmer	Haysville GEAR UP	Rose Hill	I support Gov Kelly's decision to postpone opening schools.
7/20/2020 20:30:42	Sherry	Jackson	Myself and I work for UI	Salina	I teach for Salina School District. I am NOT in favor of school being postponed for many reasons. Please read below and please keep schools on their original schedule to open.  Just so you know I'm 55 and have been a teacher for over 30 years. My first responsibility is to my students. Children NEED to be back in school. Teachers that are able to teach need to be back in school. Here are a couple of reasons why: 1. We have many children in high risk environments and are being abused and neglected. School is the only structured safe place for them. This is a HUGE reason and must be considered. We have to send a message to these kids that we care about their well being and their education. If this group of kids have to continue to stay home, the results will be devastating. The results are already devastating. My heart just goes out to the little boy who was locked in a shed during quarantine in Wichita. There are many many more kids in equally dire circumstances. 2. I actually teach in a middle to higher socioeconomic school and while some of my students thrived online, many could not handle it. I saw alarming signs of depression in the short time of online school. Students need socialization and many kids could not understand why we couldn't go to school or why they couldn't see their friends. Many of my families struggled to make sure their kids were attending class and doing their work while they were at work. 3. We also cannot raise a generation of kids who are scared of their own shadows and who cannot think for themselves. The adults have to model rational thinking during this time and stress to kids good hygiene practices and to stay home when sick but to not be afraid to get back to normal life. 4. This virus has a very low death rate. While positive cases are being reported of rising, death rates are going down. For some reason people do not want to talk about this aspect of the virus. 5. People ( teachers, families, students, everyone) need to take control of their immune health. The depts of health at our state and national level should be putting out information about building immunities naturally. People need to eat healthy and get exercise and take responsibility for themselves. I truly get it that our health compromised individuals need to be protected but our healthy people need to be going about daily life. 6. There are hundreds of thousands of viruses around us and in us. Our bodies are wonderfully made to fight those viruses daily. We will never go back to school if we take this kind of draconian action every time a virus rears its ugly head.
7/20/2020 20:30:49	laurie	smith	USD 305	Salina	Definitely wait!!
7/20/2020 20:30:54	Jamie	Rice		Spring Hill	Open the schools! Let the kids get back to normal!! And no mandatory masks for Elementary (or any other age, but especially the young ones). This is an actual joke at this point. I will homeschool my kids if they have to go to a prison-like school where they have to leave their personal liberty at the door! My children's health is my responsibility not yours. Mask up your teachers if you must, but let's get back to normal! Enough with the fear.
7/20/2020 20:31:02	Lisa	Ross	USD437	Topeka	I am a teacher and parent of four public school students. We live in Shawnee county. Given the guidance that you issued just last week, our schools need the extra time to get prepared and to give us as teachers time to pull together lessons that will be delivered in a new way. Please vote to delay the start of school. This is the safest and most effective way to open up the school year this year. Thank you.
7/20/2020 20:31:06	Megan	Lee	De Soto USD232	Lenexa	I respectfully request the board to vote YES on delaying the start of the school year. As both an educator and a parent, I am very concerned about starting school in-person within the next few weeks. The number of Covid cases in our area are rising rapidly without an end in sight. I want my children, my students, my fellow educators, and myself to have a safe environment in which to return. Thank you for all you do for the state of Kansas.
7/20/2020 20:31:09	Linda	Fadely	USD #286	Sedan	Please don't open up the schools until after Labor Day!

7/20/2020 20:31:31	Abby	Smith		Wichita	Open after labor day
					As a special education teacher my first priority has always been to keep my students safe. I once had a parent ask me what I would do if a lockdown was called due to an intruder and her son with autism was in the restroom or somewhere other than the classroom where he might not understand what to do. I told her I would go get him so he would hopefully be safe. This school year will be no different, I want to keep my students safe and with current COVID 19 numbers continuing to climb across the state I firmly believe we are not safe returning to the buildings yet. Many of my students have significant medical needs that also concern me. Like many others, I also believe that students need the socialization that school in an average year provides but there is nothing average about this year and socialization will not be the same. For example, since I teach in a functional special education setting we often play board games to practice turn taking, communication, and so much more. These opportunities will not be an option this year. In order to return to a face to face educational setting we will need so many resources that are not currently available. I know virtual is not optimal but what learning environment will be optimal this year? If my students and the staff that supports them cannot remain healthy, if we see even one death in our school related to COVID-19 we have seen too many. I've had students and staff both die in my 18 years as an educator. Those are things you never forget or recover from so why would we take the risk of lives for a less than optimal education due to social distancing, frequent disruptions to clean surfaces, wash hands, etc. I want to be at the school with my students but I want to be safe and be able to continue to see my parents with underlying health concerns outside the school day without fear of exposing them. Currently, I believe the delay until after Labor Day should be supported and if we continue to see our numbers climb a virtual school year should be implemented state wide. One life lost from exposure at school is too many! I feel the same way for my own children as well. Thank you for your time!
7/20/2020 20:31:32	Brooke	Claypool	East Central Kansas Spe	Prescott, KS	
7/20/2020 20:31:39	Bobbi	Hogue	Olathe Public Schools	Olathe	Please delay the opening of schools!!
7/20/2020 20:31:50	Timothy	Lee	CHS	Haysville	Why would we go back to school now when the cases are at a record night when we left school when the numbers weren't even a 1/3 of what they are now?

					<p>The decision by Governor Kelly to postpone the start of K-12 schools to after Labor Day is yet another example of her administration's inability to plan effectively and to govern with a data-driven, fact-based approach.</p> <p>In her news conference, the governor indicated that school districts needed additional time to purchase supplies and equipment to mitigate the spread of Covid-19 once classes begin. The Kelly administration, the Kansas State Department of Education, and the school districts have had all summer to make these plans. That they have failed to act in a timely manner does not reflect well on the state's leadership. Someone might object by saying that the KSDE plan for reopening in the fall was only released this week. That is correct, but KSDE should have completed its plans earlier so that preparations could be made in time for the start of the fall semester. Everyone has recognized that additional preparations for fall learning would be required, so why wasn't a reasonable timeline settled upon?</p> <p>Governor Kelly and Secretary Norman often tout themselves as leaders who base their decisions on science and data. But when they fail to reopen our schools in a timely manner, they ignore a growing body of evidence that suggests that school children are not serious disease transmitters and that keeping kids out of school hurts our youth scholastically, emotionally, and even physically. The American Academy of Pediatrics has advocated for reopening schools in a safe manner. Numerous pediatricians have echoed the AAP's statement. Children's Mercy Hospital in Kansas City has stated that it is safe for Kansas City-area schools to reopen this fall with appropriate precautions. Are Governor Kelly and Secretary Norman really suggesting that they know better than the AAP, numerous medical professionals, and the preeminent children's hospital in our region? It seems that they are defying the data and the science by delaying the start of schools.</p> <p>Meanwhile, child abuse reports have dropped dramatically across the nation, leaving child health professionals worried about the system that protects vulnerable children. Kansas has an appalling record on taking care of at-risk children already. Governor Kelly's decisions only compound that crisis.</p> <p>Kansas children have already lost precious instructional time due to the closure of schools in the spring. The governor now threatens to exacerbate that by taking away three weeks of learning for the fall semester. Our children deserve</p>
7/20/2020 20:31:57	Christopher	Childers		Pittsburg	
7/20/2020 20:32:01	Connie	Ernatt	Parent	Wichita	It is unsafe for school at this time!
7/20/2020 20:32:02	Adam	Schultze	None	Shawnee, ks	Please start school and school activities. The positive test count is not a reliable metric because of changes in testing quantity performed. Hospitalization and death rates have been counted more consistently and have remained relatively flat. School age children are at an extremely low risk, and their parents are a very low risk. The harm to the quality of our children's education is dramatic and will be seen in the ACT test scores next year. Please allow school to without further delay.
7/20/2020 20:32:04	Natalie	Randall	Natalie K. Randall, Atty	Dodge City	I hope each of you received the individual emails I sent out regarding my concerns. Most everyone in our area understands that the schools will be a source of reigniting the infection within our community, which has been hard hit already. Giving the teachers and staff, including my husband who is a bus driver, adequate time to put proper measures in place while, maybe not a perfect solution, is simply better than going forward without being adequately prepared. Please respect the Governor's decision in giving everyone adequate time to make the most common sense arrangements that can be put in place at this time.
7/20/2020 20:32:13	Christine	Bachtel	USD 469 Lansing	Leavenworth County, La	Please do not open schools before Labor Day. We are still rising in cases in Kansas and in our county. We need to give it chance to start lowering before we reopen schools.
7/20/2020 20:32:27	Robin	Simmons	Olathe 233	Spring Hill	I support the Governor's EO.
7/20/2020 20:32:30	Jenni	Howard	Teachers	Topeka	I support Gov Kelly's decision to delay schools. We have a lot to figure out and just received the info to do so. Give the schools time so that teachers and students are safe.
7/20/2020 20:32:47	Katie	Norwood		Olathe	I fully support the Governor's executive order delaying the opening of schools. Please give schools the time to prepare. Olathe is not ready to open. Our numbers are too high. Please protect our children and beloved teachers.
7/20/2020 20:32:50	Rona	Kramer		Cimarron	I think It's a great plan to delay school until after Labor Day.
7/20/2020 20:32:53	Darcy	Demetre Hill		Olathe	I support Gov. Kelly's executive order to delay school until after a Labor Day. While I'm eager for our kids to return to the classroom, I think schools need additional time to plan and implement a safe return.

7/20/2020 20:33:05	Jenny	Babiuch	Parent in Olathe SD	Overland Park	I am desperately concerned that school will not open this fall. I am a single mother of three school age children. Two of my children have an IEP and must be in-class to learn effectively. My son, Pablo, has autism and needs one on one, in-person learning. Remote learning is not acceptable in this situation! I understand all families have different situations and I respect that . Please do not punish the children and families that require in-class learning. We have been told modifications have been made in the classrooms - so let's wear masks and make it work. Thank you.
7/20/2020 20:33:17	Xi	Jin	classroom teacher	Leawood	Please delay the reopening or start the new school year online! The cases are surging! Reopening school will make the situation even worse!
7/20/2020 20:33:19	Johnna	Flack	Most teachers in Kansas	Easton	Give the schools time to prepare for students and their safety. Not 1 school will be prepared in 3 weeks. 6 weeks is more doable. I also believe you should mandate a hybrid type learning order. It will allow students to be in school and allow for social distancing. 1 dead kid is too many. 1 dead teacher is too many. Do the right thing. Follow the science and those that are experts.
7/20/2020 20:33:19	Margaret	Haik	parent	Overland Park	The cognitive dissonance over this issue is amazing. Science experts tell us that the worst thing to do during this pandemic is to gather large groups of people indoors for extended periods of time. Yet, that is what we are considering doing for our children. Somehow we're trying to justify it as "necessary." Why? It is not necessary; it will be dangerous. We will do more damage to our children's educational and emotional growth if we constantly have to shut down for a week here and there to disinfect the school when someone shows up sick. School needs to be delayed or put online until it is TRULY safe to get them all under one roof again.
7/20/2020 20:33:21	Lisa	baumgard		Usd 437	school needs to start in August and should be in person
7/20/2020 20:33:21	Christine	McPherson	Shawnee Mission School	Tecumseh	It is not practical to screen temps on all students or and staff daily. The youngest students need to be able to see faces to learn effectively- masks are not needed as they have not been required by daycare centers and have been no outbreaks-Why are they required for schools??
7/20/2020 20:33:24	Kristen	Harshaw		Topeka	I am a special education teacher, am the mother of a 4 year old who will start preschool in a public school this year, and am 5 months pregnant with another little guy who will eventually go to public schools. Please support Governor Kelly's executive order to delay the start of school until after Labor Day, as it will allow for more time to develop a plan to keep my students, my sons, my colleagues, and myself safe.  It is my sincere hope that school districts can use this time to involve teachers in the development of inclusive virtual learning plans, to ensure everyone's safety in the months until we have a vaccine for COVID-19 accessible to everyone who enters our school buildings.  Thank you!
7/20/2020 20:33:41	Amanda	Lattimer	USD434	Carbondale	As both a parent and as a teacher here in Kansas, I am asking you to stand with Governor Kelly to do your best to keep our students and staff safe as we reopen schools. We need to ensure that the schools are able to prepare for safety measures and that we do this right. By doing so, hopefully we will be able to ensure less virus transmission and stay in our buildings longer. We need to work in unison not divided. This should be about the safety of all of the lives that come into our buildings.

7/20/2020 20:33:50	Monica	Wright		Cimarron	<p>I'm glad the governor signed an executive order to help get schools ready for the school year. In my opinion, I hope we go to a hybrid/online learning model for at least this year. I have an asthmatic child that gets very, very sick at least 1 or 2x a year; I don't want to imagine what that looks like adding covid to the scenario. We do what we can to protect ourselves at home. But realistically, we all know schools spread illnesses quicker than grocery stores, even with protective measures in place. I have 4 children entering the school system this year, with a wide range in age, I would like to think that the older ones would be safer but the transferring of classes in a small areas like the hallways gives concern. The younger kids, just given their age and learning of hygiene processes will bring a risk as well.</p> <p>I'm a nurse at a local hospital, I've seen the patients with chronic issues succumb to the virus and I've watched a healthy person fight for over a month, to just be able to leave the hospital. I've been at the bedside when a mother, not much younger than I, facetime her children, again not much younger than my own and tell them the nurses in the costumes were her friends and not be scared. Imagine if a young child is on the receiving end of the costume nurse? And just imagine for a moment that I was that mother with the ill child. Not only am I unable to help the community in my job role, I am pulled away from my other children to be with the sickest one. I say this not for sympathy for me, but for a perspective for others to what we are putting our communities at risk for.</p> <p>My nurse brain says we have to protect everyone, even the ones that are not at as high of risk because it spreads so easily and again we put people that are more vulnerable at risk. Our teachers will get ill, the students will get ill, their families will get ill and then it spreads to their workplaces and their families. We live in a rural area that travels to bigger towns to work, we will spread it back and forth in some way. Just how the virus started in our county. I hope this helps with the process of what to do moving forward. I get you can't please everyone, but I'm hoping we can take this into consideration when deciding.</p>
7/20/2020 20:33:50	Amy	Duever		Herkimer	<p>There is no reason to delay school opening. Students aged 18 and younger are not severely effected by the coronavirus, nor are they the spreaders of the virus. More students die from the flu and we do not close schools for the flu.</p>
7/20/2020 20:33:51	Alexa	Heim	Representing myself as a	Wichita (67209)	<p>I strongly support the executive order from Governor Kelly. I also wrote to my BOE representative last week to urge him to also support the executive order. I believe this executive order is helpful in many ways. One being, we have the chance to slow down the number of COVID-19 cases. Two, educators have more time to prepare for students. Three, this gives parents more time to weigh the different options they have available for their child. I strongly feel that with the spike in cases in Sedgwick county, a delayed start would keep our community safe. I am asking the board today to please support Governor Kelly's executive order and delay the opening of schools. Students and staff members deserve to go back to school in a safe environment.</p>
7/20/2020 20:33:49	Alisha	Kough	Self	Scott city	<p>This order does not fit every school district! We have had 19 total cases since this all began here in our community. We have not had a huge spike even after we opened back up. Our students have been going on vacation and gathering in larger groups and still...no spikes in our community. I firmly believe each community should have the choice on how to open their schools. These kids that we are keeping home are only being delayed more and more with these rules. And with each set back we are making it that much harder for the teachers to do their jobs and meet educational benchmarks with these students.</p> <p>I am a mother and step mother of seven kids from fourth grade to freshman in college. I will tell you right now that the solution is not delaying the education of our children but rather implementing better solutions and working on plans in the event we actually need to move back to online schooling. In our community there is zero need for such a delay. Let the communities have a say. Let us do what fits our situation. Our state has way more rural areas than we do cities or even very large towns. It's a lot like if I were to give all of my children the same curfew or bedtime. The needs of a nine year old are different than college student. It wouldn't make sense. Celebrate our diversity and encourage a different approach than other states and let us decide.</p>
7/20/2020 20:33:55	A	N		Wichita	<p>Please keep the delay and or go to virtual learning as our number of cases continues to climb. Please keep us and our families safe.</p>

7/20/2020 20:33:58	Lindsey	Shriver		Overland Park	Please keep schools closed until after Labor Day. This will allow schools to better prepare for the safety and education for our children.
7/20/2020 20:34:02	Janette	Parker	Parent	Olathe	Keep schools closed until it is safe. We can not expect students or teachers to risk their lives indoors with this virus. Start school online and move to in person when it is safe.
7/20/2020 20:34:02	Michael	Pruitt		Country	Kids need to get back to school, they are the least affected.
7/20/2020 20:34:02	Peter	White	Parent	Shawnee	For the mental stability of our youth, the students need to return to school prior to Labor Day. Nothing can replicate in school learning and after school activities for young maturation.
7/20/2020 20:34:04	Chelsea	Lincoln		Shawnee, Ks	I believe that the state school board should vote against the governor's order. To many children rely on the services that schools provide in addition to the education they are being taught.
7/20/2020 20:34:05	Elaine	Scheelk		Shawnee	I ask that you please uphold the Governor's mandate to keep schools closed until after Labor Day. This allows our educators more time to prepare adequate plans for both in person and potential distance learning options as well as providing adequate processes for sanitizing, check in and distancing requirements. The investment of time is a common sense way to be more prepared and to allow the mask mandate to effect a change in the trajectory of the viral spread. Thank You, Elaine Scheelk
7/20/2020 20:34:14	Kristie	McBratney	TPS 501	Lawrence	Support schools delayed start. Safety first. Planning for safety is best.
7/20/2020 20:34:17	Marie	Giago	Moms	Lawrence, Kansas	Yes, delay the start
7/20/2020 20:34:19	Andy	Potterf		Goodland ks	I believe this order from the governor is over reaching and as it has been stated before you can't put the state of Kansas in a one size fits all shoe. There is major differences between the east and the west half of the state. The county which I reside in has 9 case with 7 recovered. Why should children and teachers be made to wear masks with so few cases?
7/20/2020 20:34:21	Angie	Malwitz		Liberal	I support schools opening late. This would allow teachers to be better prepared for the demands of educating students in times likes these.
7/20/2020 20:34:23	Sloane	Freeman		Sharon, KS	The schools need to open at regular time. If we are seriously considering closing longer thru the winter, the kids need to start on time. I've been worried about the kids that don't get a meal at home, that don't get cared for, that don't get loved at home. Kids whose parents don't care if they get their school work online done or not. Kids that need school for a safe place. Kids that need extra educational tools, on an IEP. Parents aren't teachers, otherwise we would have gone to school to learn how to teach. Kids have a low risk of contracting COVID, as has been shown in many studies. Require masks, whatever you need to, but we cannot let fear control the future of our children's livelihood. We need to provide cleaning measures and give schools the supplies needed for proper cleaning. We do have to protect everyone, but keeping everyone out of school longer is not the answer. It only cripples the future.
7/20/2020 20:34:29	Rebecca	Carlson	Usd233	Spring Hill	Do not accept the delay in school let us start on time and get learning going.
7/20/2020 20:34:31	Traci	Longberg		Wichita/Maize	Delay it! We need Covid numbers down & not a death sentence for our kids, teachers, staff, etc. I am really happy about the masks, but feel that online is not going to hurt our kids until a vaccine is in place. It is all about lives and everyone should be safe. Unfortunately, schools happen to be the number one breeding ground for illnesses. I really think that the phases should be put into place like Topeka, Ks. This will allow the online learning transition to be in place when the Covid numbers rise and we have to quarantine again during flu season.
7/20/2020 20:34:34	Stephanie	Drymalski	Myself	Liberal	I am in support of this order. I believe starting later will help my school district prepare and ensure that when they do open schools it will be done safely. I believe without this order, my district - which has the 2nd highest percentage of COVID19 cases in the state would decide to open in August without a well thought out plan that puts students and staff at risk.
7/20/2020 20:34:36	JAMIE	ZACARIAS		WICHITA	School should be delayed to avoid further cases.
7/20/2020 20:34:44	Katie	Entwisle	Usd #263	Derby	Please delay the start of the 2020 school year until after the number of Covid-19 infections begins to decline. The fear of losing a loved one, be it a child or adult, is not worth the risk of starting school as previously scheduled in August.
7/20/2020 20:34:45	Amy	Gingrich		Olathe	Please vote yes to delay schools opening until after Labor Day. I am a Kansas teacher and I do not feel we are prepared to keep our building staff safe!

7/20/2020 20:34:52	Geri	Hartley	Parent	Ozawkie	I agree with following the gov order. We should promote following the order of our leaders. In addition, it will not be absolutely detrimental to the children of our state to delay a few weeks. I represent in juvenile or child in need of care cases and have had 3 of my own. While schools need to open in person, they don't need to rush to open in person immediately. Allow us to get numbers under control.
7/20/2020 20:34:53	Debi	Woltz		Lenexa	The entire first semester of the 2020-21 school year should be remote learning only. Once teachers begin falling ill from contamination in classrooms, then there will be no staff to teach in the classroom OR virtually. Please keep our teachers, staff, and children safe AT HOME.
7/20/2020 20:34:56	Bekki	Ringle	- None -	Salina	I support delaying the opening of Kansas schools. Teachers and support staff deserve time and preparation to reinforce their health and well-being. Many counties throughout Kansas have not enforced a mask ordinance, and it's disheartening to think we can send them back in a couple weeks to be closed in with those who haven't taken any precaution and could be asymptomatic. To whom it may concern,
7/20/2020 20:34:57	Levi	Hogan		Olathe	The current situation with the novel coronavirus pandemic is dire in our nation, including in the state of KS. Cases of COVID-19 have been rapidly rising, and this rise cannot be statistically explained only by increased testing.  This virus is deadly for many, and those that survive can have potentially lifelong crippling effects to their lungs, heart, brain, and other organs. In fact, we still don't even know the true impact of COVID-19 on future health. It's best to take a cautious approach that assumes these effects may even be worse than we now realize.  All of this means that if we open schools, and pack everyone into them, we will have death. Rampant outbreaks are inevitable, and deaths will accompany this sickness. This isn't alarmism, it's a firm scientific projection based on the last few months of data. Many, many students will get sick when schools reopen. Some will die. Many teachers will get sick, and some will die (at a higher proportion than students). Janitors will get sick and die. Administrators will get sick and die. Lunch staff will get sick and die. The families of all of these groups, including vulnerable and elderly family members, will get sick from their students transferring the virus home, and some of those family members will die. And many will propagate the virus further in their workplace and communities. How will the school system even handle these crises? And the lawsuits that will inevitably arise?  There are also many deleterious effects of keeping schools completely closed. Students are delayed further in learning and social development, and parents are put in tough positions without the childcare that school provides during the workday. A particularly concerning impact is that students from lower-income families, disproportionately students of color, are impacted even more by a lack of in-school learning, and potentially a lack of the regular meal schedule they receive at school. Critically, the achievement gap already experienced between white students and students of color will be exacerbated as schools stay closed.  However, these same populations vulnerable to an increased achievement gap are also the populations most vulnerable to COVID-19. And if it comes down to missing part of another school year, or dying/having family members die, the better option is clear: keep schools closed, engaged in remote learning. Work to find ways to make this as effective and
7/20/2020 20:35:04	Bridget	Remer	A parent and a teacher	Silver lake	Do what is right to keep kids, teachers and families safe! Delay school until numbers decrease.
7/20/2020 20:35:06	Peggy	Cowan	Self/retired/grandparent	Olathe	We stand with Governor Kelly & her leadership. Keep our children, teachers & school personnel safe.
7/20/2020 20:35:09	Robin	Schwanke	None	Colby	I believe they delayed start date, after Labor Day is a good idea.
7/20/2020 20:35:20	Jenni	Penka	Parent	St. Francis	I feel kids need to get back to school and get a good education. Shorting school years will not help that. My children do not learn well via online learning either. We live in far northwest Kansas where we have not had issues with the virus.
7/20/2020 20:35:30	Kelly	Grist	My family	Lenexa	Delay opening. Five teachers time to prepare for online or partial school.
7/20/2020 20:35:34	Laura	Peacock-whiteside		Lenexa	I fully support the delayed opening as a parent and a teacher. There are no feasible or safe ways to bring students back in person or even hybrid now. There must be at least 14 days of no new cases before students and teachers can be brought to school buildings.
7/20/2020 20:35:49	Crystal	Zacarias	WSU	Wichita	The school year should be postponed.

7/20/2020 20:35:54	Shawn	Curry	Colby high school paren	Colby, ks	Start school, and activities on time. The emotional and psychological damage to the kids will be worse than COVID could ever be!!!
7/20/2020 20:35:54	Kelli	Kniffen	Parent/Substitute Teach	Olathe	We are not prepared to start the school year under the current conditions. Teachers need training in teaching online and hybrid teaching. Cleaning and PPE supplies need to be obtained. Please approve this order and spend the time and money on training teacher, paras and staff best online teaching practices and how to teach their kids to interact safely and acquiring PPE and cleaning supplies to make it possible for a safe return when case numbers go down.
7/20/2020 20:36:01	Jennifer	Johnson	SLP's	Wichita	Please wait to start school, my personal children as well as the children on my case load deserve more than your assumptions that we will be safe. This virus has proven it can mutate, it will make the students and staff I'll- at what cost? Academics can be taught and retaught. Life's if families can not be put in 2nd place. Thank you
7/20/2020 20:36:01	Ellen	Cleveland		Tonganoxie	Please vote to uphold the governor's mandate and delay the start of school.
7/20/2020 20:36:04	Carol	Edwards	Wichita	Wichita	These kids need to go back to school, they need it and so do the parents!! The kids that have iep's need the consistently of the work and mental work that they can't get from the parents that don't know how to home school!! If you let this governor do this then you except everything that she is doing and it's wrong in so many ways!! I have been reading a lot about different countries that just left everything as is and they are already over the cov-19 and that's the way it be, but it's not!! You and the governor want everyone to live in fear and that's not the way it it should be, especially with our children!!
7/20/2020 20:36:13	Tricia	Howell	My five school kids	Lansing	THEY NEED TO BE BACK IN SCHOOL!!!! SEND THESE KIDS BACK TO SCHOOL!!!!
7/20/2020 20:36:23	Adam	King		TOPEKA	Definitely delay the opening of our schools!
7/20/2020 20:36:28	Kira	Teeter		Grinnell	I emphatically oppose postponing the opening of schools. Kids need to go to schools and return to some semblance of normalcy.
7/20/2020 20:36:33	Julie	White		Spring Hill	Begin the school year on time!! The kids need to get back in the classroom!
7/20/2020 20:36:44	Anita	Johnson	Ashland USD 220	Ashland	Please keep schools closed until Labor Day to give them the time to prepare given the new rise in infections and to give the public the opportunity to help lower the rate of infection in Kansas.
7/20/2020 20:36:52	Stephanie	Bowen	Olathe School District	Olathe	As a grandmother of school age children, and a health care professional, I think that the delay of school is very unnecessary, I believe the wearing of face masks for children would be completely in effect, and unhealthy for the child. I do encourage extensive hand hygiene, with multiple hand washing throughout the day, and the practice of keeping your hands to yourself, also hand sanitizers available. Temperatures being taken are a fine screening tool, unless the child is Asymptomatic. I think a delay in school will only put children behind even further than they are from only having virtually a 1/2 year last year. Common since plays a huge factor in this decision, and educating the kids is far better than isolation. Thank you!!
7/20/2020 20:36:54	Teresa	Bradshaw	Kingman HS	Kingman	I am a former PreK teacher and director, but currently working as a paraeducator in an Olathe School District SPED preschool classroom to be more available to my own three children during their middle and high school years. (7th, 9th, and 11th) As both an educator and parent I believe it's best for our kids to be in school. However it is not worth the major health risk to students, teachers, additional district staff, and all of their family members to return when numbers are still increasing. At much as the kids and I love school and extracurricular activities, we are nervous to do in person learning with the current risks and covid cases steadily increasing. Please vote to uphold the governor's executive order delaying school until after Labor Day. Whether families and districts ultimately decide in person or virtual, this will allow districts, administrators and teachers to plan and take the necessary precautions to make learning as safe and effective as possible.
7/20/2020 20:36:55	Natasha	Pyle	My family	McPherson Ks	Delayed start would help schools have time to implement precautions, obtain necessary supplies, and remodel rooms if necessary. Teachers would have time to get training on effective distant learning techniques and develop lessons to accommodate those who are in school. It might allow time for numbers to go down as well.
7/20/2020 20:36:58	Jill	Clements	Parent in SMSD	Roeland Park	Please allow kids to return to school before Labor Day. Kids are getting bored which then causes other issues. Also, most teachers I have talked to want kids to return. Thanks for all you do to protect our kids!
7/20/2020 20:37:01	Richard	Cleveland		Tonganoxie	I support Governor Kelly's executive order. I appreciate her listening and reading the science to protect our students and teachers. More than anything I want my kids to be able to go back to school, but it's not safe since so many are not following the guidelines to protect others. This is not a political issue; this is a human life issue.
					Please vote uphold the governor's mandate to delay the start of school.

7/20/2020 20:37:09	Anne	Rose		Abilene	Please consider starting school on time and in person!! These students need to be back in the classrooms, participating fully in activities and teachers want to teach!!! Let's resume our normal schedule in masks if needed. Studies show that young people don't contribute much to the spread of this illness. But they do need an education and the "continuous learning" they did in the fall was ok, but no where near the amount of education they would have gotten in class. Parents, teachers, and kids are ready to get back to business!!!
7/20/2020 20:37:10	Kelly	Smith	Olathe public schools	Olathe	As a teacher and parent I request that you uphold the governor's mandate to postpone starting school. The extra time will allow larger districts more time to train staff and gather supplies to protect both staff and students. The additional time will also hopefully allow the mask mandate to decrease the numbers of people testing positive. Please vote with Science and not with politics.
7/20/2020 20:37:16	Sarah	B	Blue Valley School Dist	Olathe	Thank you for representing our State. I ask that you please uphold Governor Kelly's executive order to begin school after Labor Day. As an educator in Kansas for over 25 years, I want nothing more to return to the classroom. However, opening schools now is reckless as we watch our COVID numbers rise. I'm not sure how as an educator I can guarantee my students and families safety along with my own family. I have always told my students that my job is "to keep you safe". With small classrooms, limited supplies, and a small substitute pool makes learning difficult under these unusual circumstances. With the current mask mandate, hopefully the extra 3 weeks will allow us to bring our numbers down to begin school safely. Thank you again for your time in considering the safety of the students and faculty of Kansas Schools!
7/20/2020 20:37:24	Jennifer	Nelson		Overland Park	Please delay school starting to keep our children and teachers safe.
7/20/2020 20:37:29	Megan	Wyman		Cimarron	Delaying school is detrimental to our children's learning. They've been out of school since March and many completely missed the last quarter of learning. They're behind where they need to be going into a new year already. This also means that there is no jump start available to help the children who were already behind in March. This gap is going to continue to widen. Also, we live in a rural farming community, and moving into early summer with children still in school will cause many challenges for these children and families.
7/20/2020 20:37:32	Lance	Herron	Parent from Eudora Hig	Eudora, Ks.	My high school son has been playing baseball with a Lawrence team in tournaments around the state and soccer with his high school team, the entire summer. There have not been any problems with this epidemic. They all know the precautions that they need to take and are doing a good job of social distancing when not involved in action. These kids need to have their sports! There have been numerous studies saying that a kid's well-being is much higher when they are allowed to be themselves. My other son's high school career was ended abruptly, please allow these kids to resume normalcy. If a kid is fearful, then he can choose to not play, but more than 90% of high school kids want to play their sports.
7/20/2020 20:37:43	Kate	Boetcher	SMSD	Lenexa	I am in agreement that school should begin late. It will give teachers more time to plan how to do it safely.
7/20/2020 20:37:45	Stacea	Yell		Belvue	As not only a parent but also as someone who works in early childhood education and also has worked in the school district. I fully support a delay in returning to school. I have personally spoken with teachers who have told me about children being sent to school ill and not being picked up until school was almost over. I have also seen this in my own experiences with childcare. There are many other reasons why I feel this would be one of the best options but this is always in the front of my mind.
7/20/2020 20:37:48	Rachel	Hancock	David Brewer Elementar	Kansas City	I believe we need to delay the start of the 20-21 school year until at least after Labor Day to allow school staff to prepare according to the guidelines set out by the state. I also believe this is in the best interest for the students/staff to allow more time to hopefully flatten the curve and lower local cases. Thank you.
7/20/2020 20:38:06	Abi	Sanny		Wichita	I support the mandate and hope the state board does too. As an educator I want nothing more than for teachers and students to be back together. I also don't want to put anyone in an unsafe position. Please follow the recommendations and keep our kids and my colleagues safe.
7/20/2020 20:38:07	Adrian	Waller	Wichita HS South	Wichita	Delaying the school year is the correct decision and should be supported for the safety of both students and staff, as well as the family members those people could potentially infect.

7/20/2020 20:38:08	Keith	Lunkenheimer		Derby	Teachers are the only essential workers permitted to protest showing up for work and still be paid. Learning is not nearly as effective online as it is at school and Kansas schools must open on time. By delaying opening we go further into flu season, have students who won't know their teachers and vice versa and risk a lesser time in school. Now is the time to get back to school so if we have to close in winter we have at least had some good instructional time .
7/20/2020 20:38:10	Ellie	Sickman		Tonganoxie	I hope you will vote to delay the start of school.
7/20/2020 20:38:11	Kali	Craft	KCKPS	Gladstone, MO	As a 3rd grade teacher and a brand new mother of a newborn son, I would like the board of education to please consider delaying school until after Labor Day. Let the virus cases in the state of Kansas calm down and allow schools to prepare better for opening back up safely with students, families, and staff in mind.
7/20/2020 20:38:11	Traci	Forman		Topeka	no delay. Teachers wear masks if they choose. Kids do Not wear masks
7/20/2020 20:38:35	Jilk	Hoefler	Me	Wichita	Keep schools open and on track
7/20/2020 20:38:56	Jeff	Schwinn	Parent	Topeka	What are working parents to do with even hybrid options. Half at school and half at home is a joke. I want my kids in school where my tax dollars are sent. How are people to maintain jobs with trying to figure out what to do with kids while still be held accountable for getting them on virtually. Impossible!!
7/20/2020 20:39:00	Michelle	Miller		Lenexa	<p>Open schools / reject governor's order</p> <p>For context, I have 3 young children (preschool, Kindergarten, and 2nd grade students). My husband and I work full time. Young children (especially the incoming Kindergartener) need adult supervision as they are just learning how to focus and learn. I lived a nightmare this past Spring working from home with 3 young children. It doesn't work. The children are neglected and no one should endorse neglecting children.</p> <p>Eventually, I found alternative daycare options that were open and able to enroll my children. I learned of this miraculous option via other parents. Nearly all working parents in the neighborhood sent their children back to daycare. I can guarantee you that if schools don't open, working parents will continue sending children to daycare. Why are daycares perceived to be safe for children, but schools are not? School administrators should be looking at daycares for the guidance on how to safely gather children. I would very much prefer my children attend elementary school with professionally trained educators rather than a daycare. I know many daycares are offering private Kindergarten, which again supports my assertion that other business entities are finding ways to safely gather children.</p> <p>I understand some teachers have concerns about going back to work, but what makes teachers different from any other essential worker? Health care workers, grocery store workers, and daycare workers to name a few haven't skipped a beat and have found their new normal. Teachers should do the same.</p> <p>Last week, I listened to the Olathe Public School Board of Education briefing. I heard 90% of parents want their children back in school. Thus, I conclude with the assertion that I am not alone – the majority of parents want schools reopened.</p>
7/20/2020 20:39:06	Betsy	Tipping		Topeka	Please support Governor Kelly, the educators, school staff and children. As educators we need time to fully understand the KSDE plan and be prepared for students to attend school in person. We need time to get safety protocols in place since the number of cases of Covid 19 are continuing to rise.
7/20/2020 20:39:10	Hannah	Haack	Smith County memorial	Smith Center	Mandatory mask wearing is ridiculous in kids. Please allow schools to just use common sense with distancing, good hand washing. Delaying school will not change the virus. Let's start school and allow people to work and be productive.
7/20/2020 20:39:22	Bob	Selby	Retired educator in post	Colby	Please, please accept the executive order to delay the start of school until after Labor Day. I have only one grand daughter who will be in the 6th grade in the Buhler School District although she lives in Hutchinson, KS. Perhaps the extended 3 weeks to allow the school district to plan on how to handle this virus could save her life. Please vote to delay the start of school until after Labor Day!

7/20/2020 20:39:36	Heather	Rush		Atchison County	If we delay start date then revisions to the required number of days need to be looked at, This summer kids missed out on camps, vacations, sports and other social activities that help ensure students be well rounded people. Kids (and parents ) need to be thinking that life will get back to normal. The mental health of our nation needs to be considered as much as our physical health!
7/20/2020 20:40:05	Bryce	Fuhrmann		Derby	Safety comes first! I am so grateful that our governor stood up for the well being of our children, teachers, administrators, and support staff, as well as all whom they come in contact with. As the board of education, I trust that you, too, will make the proper decision.
7/20/2020 20:40:16	Elisha	Cairns	USD 418	McPherson	Please do not open schools until after Labor day. As a grade school teacher I am incredibly fearful of returning to work as cases continue to rise in my county and surrounding ones. We need time for mask ordinances to work and cases to decrease. I beg everyone on the school board to put aside politics and think about what is best for students and staff. We can all agree that children need to be back in school, but it seems that if that happens in August we are signing up for a quick turn around into online learning which is not the best for them. Please extend the start of school until after September to give districts more time to prepare, teachers more time to prepare, and parents more time to prep their children for the changes to come this school year.
7/20/2020 20:40:20	Patsy	Bastin		Haysville	Delaying schools means there will be less total school time period. Schools will close undoubtedly during flu season and it makes no sense to close in late summer- districts have had 6 months to prepare and 3 additional weeks is ridiculous. Get these kids back in school- you are harming them by not!
7/20/2020 20:40:20	Danielle	Stephens		Lawrence	Please support Governor Kelly's executive order to delay the start of school for the fall till after Labor Day. The students and all school staff are depending on you to keep them safe. School districts in my opinion, especially USD 497 my local district, also need this additional time to prepare for the return to brick and mortar school. I have three students, one high school and two elementary, who are nervous to return to school buildings due to the increase in cases in Douglas County.
7/20/2020 20:40:23	Dan	Pyle	My family	McPherson	Send the kids to school! 90% of pediatricians recommend it and will send their own kids. 10-15% will homeschool and draw money away from school districts. So dont have in person school at your own peril!!
7/20/2020 20:40:24	Ange	Allen	USD 335	Soldier	Please, please let local school boards as elected officials fulfill their responsibility to make decisions for OUR local school. Please do not mandate a one size fits all policy. Thank you for your dedication to Kansas school children.
7/20/2020 20:40:34	Andrea	Nichols		Lenexa	Totally good giving schools a few more weeks to prepare for opening!
7/20/2020 20:40:36	Emily	Lawler-White	Parents Group	Leavenworth	Listen to the Governor. Look what happened when we didn't listen with the masks...we became one of the highest covid states. Please keep our kids safe and delay the school opening if at all this year.
7/20/2020 20:40:45	Kimberly	Askew		Overland Park	please vote to delay opening schools until after labor day. It will give us more time to be trained more thoroughly in how to keep our students and ourselves safe while in our classrooms.
7/20/2020 20:40:57	Kristen	Meek		Spring Hill	Please delay the opening of school to allow schools and parents more time to make informed decisions

					<p>I am in support of Governor Kelly's Executive Order delaying the start of school until after Labor Day. I read a statement from Dr. Horst earlier today and was disappointed in her response. She stated that it was up to the local school boards to make this call. While under normal circumstance, I would agree with this statement, these aren't normal circumstances. There are times that the larger government entity needs to make the call for the greater good. As politely as I can state this, our local school board members in our rural towns do not have the knowledge or competency to make such a decision. There is so much divide on what the best course of action is and it has become highly political. The well-being and health of children, teachers, and their families should not be political. I don't trust local school board members to put their personal beliefs aside and listen to teachers, school nurses, and administrators on what our concerns are.</p> <p>We need to be prepared. Dr. Horst stated that we should already be mostly prepared because we've had months. That just isn't true. We were just given the guidance document last week. Some tentative plans were made, of course, and as always, we will be ready to do whatever it is the BOE decides, but those extra three weeks would give us the ability to have a sound plan, rather than one hastily put together. It could be the difference in having school remain open for the remainder of the year, rather than the back and forth between brick and mortar and remote learning we will more than likely face if we don't have the precautions we need in place. Give us the time we need to make this new normal as seamless as possible.</p>
7/20/2020 20:41:01	Michelle	Krause	USD 115	Seneca	Thank you for your time.
7/20/2020 20:41:21	Greg	Farney	Sterling JH and High Sc	Sterling	No delay, Start on time, full activities
7/20/2020 20:41:22	Jamie	Russell	None	Bonner springs	We don't need to start up school when covid 19 is all time high in my opinion
7/20/2020 20:41:42	Susan	Alexander	Myself	Perry	I teach in Topeka at Washburn University but live in Perry district. Please keep schools closed until Labor Day and then have them all go virtual for a month and see if all of us Kansans can't work together to get this virus under control.
7/20/2020 20:41:46	Ellen	Pollom		Overland Park	Please uphold Governor Kelly's mandate to keep schools closed until after Labor Day, for the safety of both our children and the hard-working teachers and staff who are not prepared to be front-line workers. It will be difficult enough to put safety measures in place in our already-crowded classrooms. Please allow time to see her mask mandate have a positive effect on our case numbers before opening schools back up.
7/20/2020 20:41:49	Sara	Dreisbach		Cherryvale, KS	Please support the governor's orders, especially the one requiring masks. As a school employee with some health issues and elderly parents I care for I am scared I will bring the virus home to them. The science proves that masks work and are really the only prevention we have until a vaccine is created. Please back the science. Please support our teachers and staff. Please support the governor.
7/20/2020 20:41:52	Robbie	Adams	Maize elementary	Maize	Please help us get our kids in school!!!! They need to go back! Please listen to the pediatricians!!!
7/20/2020 20:41:53	John	Fiedler	Parent	Olathe	I am in favor of delaying schools starting.
7/20/2020 20:41:59	Renee	Newbanks	KSBofE	Olathe	These kids have been on a roller coaster of emotions. Too keep them in the dark on what school is going to look like is very hard on them emotionally. We are desperately looking forward to sports at the HS level. As a former collegiate athlete, I understand how much they need to play sports in order to function and do well in school. A lot of kids would not try to succeed in school if they didn't have sports that pushed them to be successful academically. Please don't ruin another year of sports/academics/events like what happened in the Spring of 2020.
7/20/2020 20:42:00	Traci	Kallhoff	Self- I am a HS teacher	Wichita	I support the governor's order to delay school until September. There has been so much uncertainty and waiting by all of us - as parents and teachers that the additional time is necessary for proper planning. Also, if at all possible please urge districts to consider hybrid schedules OR online (remote) for at least the first 9 weeks, if not the entire first semester. Especially in counties with high numbers right now.
7/20/2020 20:42:04	Hanna	Murrell		Fort Scott	Thank you for hearing our comments!
					I think we should follow the governor's recommendations to start school after Labor Day. Students K-12 should wear mask when social distancing cannot occur. Fall sports should be switched to spring and spring to fall. For all indoor sports I think fans should be limited to 4 per student participant.

7/20/2020 20:42:07	Windy	Garrett	Self	Kansas City	You must consider the health, wellness and safety of all, not just students. Many students are sent to school ill, so parents can work. Please support a delay that would better allow staff to plan and prepare for such situations.
7/20/2020 20:42:09	Adina	Van Os		Wamego	I am a school staff person (food service). I feel very strongly that postponing the school year is a smart and right decision. It gives time for school employees to come up with a safe plan for their classrooms/departments as well as gives families time to come up with the best plans for their children's education and health safety.
7/20/2020 20:42:11	Angeline	Spader		Auburn	There is no reason to extend the shut down 3 more weeks! These kids need to be back in school! The schools are ready for them to come back and prolonging it is doing nothing!
7/20/2020 20:42:15	Keshia	Causey		Great Bend	Our children are already hurting from schools closing down early in the spring. How much more lack of education can 1 individual take? Remember the phrase "use it or lose it"? Well, that's exactly what is happening to our youth at this moment. Our teachers are already SOOOO underpaid but now they're going to be expected to help catch these kids up from the lack of school completed earlier this year, come up with potentially 3 different formats of lesson plans. This is just all uncalled for. I also think individual counties or school districts should be able to chose what is best for them. Some counties have minimal cases while others are "hot spots" and should potentially hold off until after Labor Day but for those that have minimal cases shouldn't be expected to hold off. This isn't a one size fits all virus. Kids have been playing summer sports since June 1, but the media is telling us we're seeing a surge since July 4 parties which makes no sense at all. Thank you for your time!
7/20/2020 20:42:16	Julie	Brown		Mission	PLEASE uphold the EO to delay school openings. Our schools need more time to get this under control and put a solid, healthy and sustainable plan in place.
7/20/2020 20:42:26	Jason	Kingman		Lawrence	Please vote to uphold the executive order to delay the opening of schools.
7/20/2020 20:42:28	Katie	Knieling		Larned	Over the summer we have moved to a new town where are our kids are new and have no friends yet. Their ages are four and eight. They are very social little girls and need school For education as well as social interaction. Please do not delay school opening Or follow the executive orders that Governor Kelly has put in place. Our children deserve an education and school experience opportunity just as we were given growing up. The virus is not going to just "disappear ". We cannot alter these kids lives any longer. It is going to start affecting them physically as well as mentally. My husband and I both work on the front lines. He is in law-enforcement and I work in EMS. I understand taking precautions and trying to prevent The spread of Covid just as you would take precautions against influenza, But please don't be extreme and make our children (as well as the teachers and school staff) suffer!
7/20/2020 20:42:32	Laura	Oaks	Private citizen	Basehor	All for keeping schools closed until after Labor Day! Also very much for hybrid return to school...2 days in and 3 days out.
7/20/2020 20:42:37	Katrina	Hawkins	Parent to three students	Leavenworth	Keep schools closed until after Labor Day, please! Keep our kids safe and once schools do open please require masks.
7/20/2020 20:42:43	Kellie	Campbell	Ottawa USD 290, and a	Gardner	Please delay school so we have more time to prepare. Thank you.
7/20/2020 20:42:45	Kate	McNeil		Olathe	<p>Thank you for all of your hard work and service during this difficult time and what, I'm sure, will be a difficult year. I ask that you support Governor Kelly's executive order to keep our children, and all school employees, safe. I appreciate her leadership in listening to health officials and putting the safety of Kansas students and staff (teachers, administrators, paras, custodians, etc.).</p> <p>I have a child entering kindergarten and a child entering middle school. Any other year, this would be an exciting time for all of us. But, this year, I'm concerned for the health of everyone involved in the schools. Right now, Kansas is still in a bad place with COVID, but we can get to a better place.</p> <p>Thank you for supporting the governor's orders to prioritize the health and safety of our kids, teachers, and families!</p>

7/20/2020 20:42:48	Beth	Nelson		Olathe	I am a parent and an educator in Olathe. I fully support Laura Kelly's EO to keep schools closed until after Labor Day. She was right in March when she closed schools and then also when she mandated wearing masks. Unfortunately, politics came into play and went against her best efforts to keep us safe. Now, we have numbers rising again. Please do the right thing for our students, educators, school staff and all the family members they will go home to at night. Let's be an example of a state that bases decisions on science and health to save lives rather than one of the the states that learns the hard way.
7/20/2020 20:42:51	Donna	Maska	Concerned citizen	Hays	Please keep schools closed until at least after Labor Day for the safety of our educators and students!
7/20/2020 20:43:07	Krysten	Hearron		Overland Park	As a Senior in high school I have already missed a very influential portion of my junior year which meant losing a lot of guidance for beginning a new step into college. Losing the last quarter of my junior year was something that I will not be able to get back, and not starting off my senior year on time will only lead to more stress for my class. Delaying school means extending it farther into our summer, which is the time we will be using to prepare for our arrival to our next step in life whatever that may mean. As someone who suffers from chronic asthma and other pulmonary issues, I cannot find a justifiable reason to continue with this order. If you must send us with masks that we will do it. But considering this disease is droplet spread and not airborne, if we have masks as previously ordered there would be even more lack of reason to send us to school. Just like every other disease to plague the US in current times it will most likely be around for a long time coming, and holding us back from social interaction at this point in time would be more for a political show than for the so called safety of the people being affected.
7/20/2020 20:43:09	Kyle	Joyce	KCKPS	Kansas City	Please uphold the Governors order to delay the start of K-12 schools until after Labor Day.
7/20/2020 20:43:13	Shelby	Wittman		Cimarron	If our area is safe to return to school, then please do so. Lets not have our kids fall further behind.
7/20/2020 20:43:19	LaDonna	Ward		Ulysses	If extending the reopening will help schools better prepare and also give time for the "State of Disaster Emergency Declaration" to expire Sept. 15th (along with any Covid, Governor enforced mandates, like masks requirements). Wait. Our kids don't need to be forced to comply to the Governor's insane requirements.
7/20/2020 20:43:40	Stacy	Ritchhart	USD 469	Lansing	After Labor Day.
7/20/2020 20:43:44	Becky	Smith	None	Olathe	Please open schools in KC on time!!!!
7/20/2020 20:43:48	Elizabeth	Agin-Erwin		Madison	Pass her order, delay school openings
7/20/2020 20:43:49	Susan	McRae	Parent and School Secre	Overland Park	Please vote with Laura Kelly to keep our schools closed until at least Labor Day for the safety of our kids and the safety of the staff in schools. Thank you!
7/20/2020 20:43:57	Andreaia	Moore	Hugoton Middle School	Hugoton, KS	Local control, no delay in school or sports.  Yes, we are far too concerned with only one aspect of students/humans. Physical health is important, I do not deny that. But what happened to caring for the whole of a person? Educators/Parents/Students (everyone involved). Attempting to isolate will continue to degrade mental health as well as the economy and schools are not exempt from this whatsoever of course. So, be flexible and as we know, nothing is set in stone. There has never been more than 0.7% of the population of Stevens County with an active infection, so I think we should try starting school (especially in this area) and adjust as needed.
7/20/2020 20:44:01	Kelly	Wiechman		ANDOVER	I think that delaying school will be better in stopping the spread of Covid 19. I believe that this should be done not only to protect the students, but also the families of students and teachers. Please delay the opening of schools our communities need it.
7/20/2020 20:44:09	Pam	Jackson	None	Lawrence	Please do not open before Labor Day I have not heard any sufficient safeguards available yet.
7/20/2020 20:44:13	Jessica	Kramer		Clay Center	PLEASE please open our schools on time!
7/20/2020 20:44:22	Alyson	Lumry	Parent of hs student and	Meade	As both a parent and teacher I feel it is vital for our students' mental and physical health to return to school. I feel KSDE's plans that were developed this summer should be followed. The 3 options of in school, hybrid and online options should be available.
7/20/2020 20:44:31	Darcy	Farney	Sterling Jr/High school	Sterling	Don't delay school or activities. Start on time.
7/20/2020 20:44:29	Lacy	Blaney		Wichita	Schools should be delayed for the safety of our children, for the teachers, for the faculty and staff as well as for the family members at home.

7/20/2020 20:44:33	Delaine	Molt		Horton	Leave it up to the school district. I will be my senior year this upcoming fall at Horton high. Our school is small and should not be treated the same as a Kansas City school.
7/20/2020 20:44:36	Rachel	McRae	concerned citizen	Overland Park	My mom works at a Blue Valley school, and my brother also attends one. Sending them back to school would put my entire family at risk. The school district does not pay my mom enough to ask her to risk her life and I simple be in a building when it is completely unnecessary
7/20/2020 20:44:39	Panya	Amphone	Wichita Public Schools	Wichita	Please delay the school year! It is not yet safe and the systems we have in place are not adequate for safely sending students back to school. As an educator, I know that delaying school until numbers start to decrease is the best option.
7/20/2020 20:45:11	Patricia	Hildenbrand		Topeka	I support delaying the start of in-person classroom instruction the fall through at least September 9, and will be closely watching the number of new cases to make a decision on when to send our daughter.
7/20/2020 20:44:59	Megan	Ernst		Olathe	Please vote to keep schools closed until after Labor Day or longer. Please keep our students and teachers safe! Thank you!
7/20/2020 20:45:21	Laura	Labertew	Teacher and parent	Mcpherson	PLEASE VETO Gov. Kelley's order! Put kids back in school. I am a teacher in McPherson. I have a Junior and a Senior who desperately want to finish their high school careers and need to go back to school and get to participate in activities. I understand the need for safety measures, but we can do that! If it means our children get the quality, in-person education they deserve and get to play the sports and participate in all the other activities they have worked so hard to be apart of, then we will can do what is asked. My own children as well as many, many peers, have been to multiple, multiple activities all summer long and have finally gotten that spark back. They want to do things, to be with peers, to work, to compete! This will not change. They will be with large groups of people whether they are allowed to go to school or not. They want to be in school, with their friends, learning, creating, and being kids! I worry greatly about the emotional and social state of children if they are required to stay at home any longer. Parents have to work and cannot be held responsible for their children's education while trying to maintain employment. This is creating hostile home environments for some kids. I teach Special Ed...what about those kids...they need us, they need to be in school, they need our in-person support, they want to be in school. I know there are risks..but there are risks in everything we do. This virus has taken over our lives since March and it's time to move on. Our kids deserve better! Our kids deserve a quality education, sports opportunities, social opportunities, teacher direct support, etc, etc. I could go on and on...I just beg of you to LET US GO BACK TO SCHOOL! Thank you!
7/20/2020 20:45:21	Deirdra	Kuhlmann	self	Stockton	I feel that the school may need this time to get extra training and supplies and the funding and money in place to help prevent unnecessary spread of COVID19. I also believe that not all schools need to have the "all masked " rule. If we are letting parents choose whether to send their children or choose at home learning. I am wondering how/who provides all these masks? I am also concerned with the actions of refusal of wearing masks, at certain age levels rebellion and refusal will look different. Teachers need to be able to teach not be on mask watch. Online /home learning should be last resort due to an outbreak in the county. Parents cannot afford to risk job loss/paychecks. Hopefully encouraging masks to prevent shut down will help some. I am a teacher and I just want go to work and know what to prepare for!
7/20/2020 20:45:34	Samantha	Armistead	Teacher at Blue Valley U	Overland Park	Please uphold Governor Kelly's order to postpone the reopening of schools. I am a teacher. I want to teach, but I also have a family. I have a family that depends on me. I'm personally terrified to enter an over-crowded school environment with limited access to hand washing/sinks and not enough space to social distance. We do not have COVID under control. Science does not yet understand the current and long-term risks/effects of this disease. I go above and beyond for my students, but I don't want to knowingly risk death in a preventable scenario.
7/20/2020 20:45:35	Hollyann	Kessler		Dodge City	PLEASE vote to uphold and enforce the executive order. We, as a state, have shown we cannot appropriately make decisions at the local level. This provides ALL districts with an equitable start to the year and an equitable timeline for athletics and activities to begin. Delaying school also gives teachers and staff adequate time to prepare for the vastly different teaching environment we'll be in this year.

7/20/2020 20:45:37	Mary Lou	Bills	Olathe West HS/own far	Olathe	More for my own family than my job... My daughter is a middle schooler with extreme anxiety, high functioning Autism, and asthma. While she hates being in social situations, she is tired of being home and is ready to start school. HOWEVER, she is scared to go to school with her asthma and the possibility of getting COVID. Couple that with her anxiety and it's not a good situation. She would like to be in school, but only if we can do everything possible to make it safe. So I vote for a later start if that will give us the time to put something into place to keep everyone safer.
7/20/2020 20:45:38	Zachary	Stoltenberg		Tonganoxie	The governors order ignores science and the cdc recommendations. Decisions should be left to individual school districts. Statewide mandates and decrees are wrong.
7/20/2020 20:45:40	Kami	Booi	Colby Public Schools	Colby	Please allow our kids to start school and sports as scheduled! Waiting until after Labor Day is not the answer!! These kids need normalcy in their lives! They already have had so much taken from them! I have a Senior and a Freshman this upcoming school year!!! They so desperately want to return to school and play their sports! To make those long lasting memories. It is what they live for!!! Please don't allow this very disgruntled Governor to continue to make decisions that hurt our youth!! Thank you!!!
7/20/2020 20:45:45	Tanya	Wilson		Stilwell	Urging a vote for schools to open for education and activities for those who wish to attend in person. There is no right way forward, so options are needed. Some families need to or want to elect virtual learning options and other families will need to periodically quarantine, requiring more options.  Delaying or closing schools does not cause kids to interact less and in many cases, especially with teens, if school is closed, they will be interacting without health safety modeling. We have tried hard as parents to follow the rules, but many a parent will tell you that closing schools does not stop kids from interacting. They will follow reasonable rules, but they will not stop being kids, having fun and pursuing goals.  Holding back schooling and activities hurts the kids in so many ways educationally, emotionally, physically and mentally. School closing is not protecting our community, it is pushing kids away from schools, from the many opportunities that school provides and away from a structured approach to health safety.  Options are critical when there is no one right way forward.  I ask you to re-explore how families who wish to continue school starting in August may do so. What a great story that our community believes in our public schools and the ingenuity of our communities to find a way forward. Don't try to do it alone. Call on us, we will answer.
7/20/2020 20:46:02	Ashley	avery	usd 500	kansas city	virtual learning. Its not safe for teachers, staff, or students. I can not afford my child to bring home covid to me or their dad because this has turned political. Please think about everyones health & safety
7/20/2020 20:46:06	Rose	Galliant		Wichita	I really don't want my daughter to be delayed in school, and by pushing the start of school back I think she will fall behind along with everyone else. And even at that my income is with the bus system, getting students back and forth to school so now I'm also losing money to be able to survive. Not to mention my daughter has an IEP that needs to continue and since there hasn't been school for 4 months now and will be 5 and half months when they start back up now idk how any, little own my daughter can catch up.
7/20/2020 20:46:07	Debra	Laughlin	Self	Mount Hope	Delaying is not necessary. Kids can begin online and then move to in person. We live in a world where sickness is a given and we cannot continue to be fear driven. Masks for teachers should be optional unless they are ill or prefer one. Let the local districts and school boards decide this. The state does not need to.
7/20/2020 20:46:16	Shayna	Conant		Cimarron	Please open schools!!! Our kids need to go to school, not only for education but to see their friends and teachers. My husband and I work full time jobs and can not give our kids the time they need to learn like they do in school. And for what it is worth, the kids are not going to keep masks on! I have a 8 and 5 year old and they will not keep them on, they are kids! They will be touching their face more with the mask on than without.
7/20/2020 20:46:19	Connie	Taylor		Olathe	Yes, delay school. Let's make sure children, parents, teachers, and support staff will be safe.

					<p>Please uphold the Governor's executive order. As a teacher in Kansas City, Kansas and a parent in Shawnee Mission, I am incredibly worried about the gamble of sending children, teachers, staff, and others back to school too soon. Ignoring the order sets the stage for the same type of problems that make the order a necessity in the first place.</p> <p>Unfortunately, Kansans' willingness to ignore health protocols have proven that it is absolutely necessary to 1) avoid opening schools to soon and 2) allow everyone more time to make sure that we have the absolute best plans in place to serve students and families.</p> <p>I know this creates a difficult situation for parents and kids, but the possible outcomes of rushing back into school before we are ready spells disaster for everyone.</p>
7/20/2020 20:46:21	Adriane	Metcalf		Shawnee	
7/20/2020 20:46:21	Brandi	Mertens	SCKSEC	Kingman	I support the governor's order.
7/20/2020 20:46:42	Danielle	Hayworth	My child	Wichita	As a parent who's child has a IEP but also health issues please postpone school until we see a decline of the virus. Yes my child is going into high school behind but after already losing a child it scares me to have to put my child in that position really that she's going to the biggest school in Kansas. Adults don't even want to wear mask to the store how can we expect our children to really when they might have parents who doesn't think wearing a mask is even right. I would t want your job deciding what to do and I don't have the answers but all I can say is I'm scared. I already know one person who has died from it and don't want to see more. I'm willing to see breaks being canceled anything to keep our kids and school staff safe. And you know parents will send there kids to school sick it happens all the time then what will happen really in middle and high school where they have different classes I can see it spreading so fast.
7/20/2020 20:46:54	Lacey	Kenyon		Palco	I don't believe it is the best interest to delay. Why couldn't this had been decided sooner? Delay in order to get supplies? I'm sorry. Covid has been affecting schools since March. Delaying makes ZERO sense. For the mental and social well being of my daughters. I can tell you right now this is doing more harm than good. For me especially, financially. I'm a nonclassified employee who is also a single mother and that's taking away almost TWO weeks' worth of income from me. LET US GO BACK TO SCHOOL! Let our kids go back. Otherwise, I'm almost positive Covid and all of these mandates will be spiking the suicide rates among the youth in this state. But its ok, we can just continue to ignore that to push a stupid agenda, right?
7/20/2020 20:47:01	Kimberly	Cole		Hutchinson	I am a parent and teacher and I feel like the order to delay school is in the best interest of students and staff. By delaying school, teachers will have more time to prepare. It will also give more time for Kansas numbers to go down.
7/20/2020 20:47:03	Whitney	Schmale	Olathe Public Schools	Olathe	I am a counselor in a school of about 1950 students. The community I reside in is pretty divided on mask wearing. I don't have any confidence that our students will abide by the safety precautions we set forth for them. They don't wear it in public places why would they wear it at school. Our classrooms are packed with 26-30 kids. I have no idea how we will socially distance within our space. My husband teaches at the same school and our son attends there as well. If one of us tests positive I'm assuming our entire family would have to be gone. As a counselor my colleagues would have to pick up my slack. Please consider making at least first quarter virtual.
7/20/2020 20:47:32	Heather	Waters		Lansing	Health matters. Keep school buildings closed to ensure safety of Kansas kids and families.
7/20/2020 20:47:42	Betty	Beaver	Grandparent	Overland Park	Please vote to delay the start of schools in Kansas until at least after Labor Day to help curb the spread of COVID 19.
7/20/2020 20:47:59	Shelby	Muha	Myself, teacher in Olath	Olathe, KS	I urge you to follow Governor Kelly's Executive Order to give cases of COVID-19 numbers a chance to come down and school districts adequate time to prepare for meeting safety guidelines for students. As a teacher, I do not feel safe being back in a school building right now and ask that you keep me and my family's health a priority for you. I can't reason with those that refute scientific evidence, and I ask, that as an educated school board, that scientific evidence holds value for you too. We have to come together to overcome this and get COVID-19 under control, or we will pay the price for many days, months and years to come.

7/20/2020 20:48:00	Val	Shober	Parent	Inman	School needs to start in August as planned, but if you decide to wait until September 9, let fall sports be able to practice starting as planned on August 17th. These kids have missed so much already, let them participate in fall sports as planned.
7/20/2020 20:48:02	Sally	Kennedy	Usd286	Sedan	Starting school should be delayed to give districts time to prepare for extra safety measures. Sports are NOT a reason to start school in August.
7/20/2020 20:48:05	Kristi	Sextro	Teachers	Horton KS	Our children NEED to be back in the classroom!!
7/20/2020 20:48:10	Brooke	Rose	Parent of 3 BV students	Overland Park	I would like to express my preference to uphold the orders to delay schools. Scientifically our numbers are worse now than when the decision was made to close schools in the spring. More is being learned daily about how/when this virus is transmitted and our children should not be an experimental group. They are our future. Delaying schools will give more time to “flatten the curve” which is what we tried to do in the spring and it worked. In my opinion, we opened back too soon and there are many in our community that do not take this seriously and are not respecting the orders to wear a mask, which is evident in our numbers. Those that do not view this as danger are the same ones wanting to start back to school. By doing so, the rest of the community (children, teachers, staff, parents and grandparents) are all being put at risk. By delaying schools, we can protect those and also show that for “normalcy” to return we have to respect the mandates and orders. I fully want my children to be back in school but safely and not in a manner to which a waiver must be signed or in a manner this is unsafe. As a parent that has lost a child, no percentage, no matter how small, is worth it. Thank you for your time in reading this message.
7/20/2020 20:48:14	Jae	Mills		Goodland	Schools should resume as normal for the western side of the state. Let the parents decide if their kids should wear a mask or not!
7/20/2020 20:48:21	Lisa	Friend		Derby	Our children need to start school around Labor Day. No masks required, optional.
7/20/2020 20:48:21	Melissa	Martin	Parent	Marion	Schools should be delayed! I do not want my child to get sick.
7/20/2020 20:48:25	Alisha	Cox	Conway Springs K-8 Sc	Cheney	I fully support the delay of school until after the Labor Day holiday.
7/20/2020 20:48:37	Kobie	Kempf	Student	Derby	As a student I feel as if it is unnecessary for us to not go to school until September. If you think about it and look into it, many parents are letting kids go out to stores, or out in public in general. When you look at it many of us students have been together and around each other in large and small groups even as Covid-19 is going on. I feel as if we should be able to go to school as long as we are following the rules that are assigned, and for the kids that do not follow the rules or the students that’s parents do not want them in the building have the opportunity to do online. Teachers could livestream the class while it’s in session so the kids doing online can follow along and still attend the class. And if that is “too much work” then put in the extra effort and make it happen if y’all care about our education as much as you push it on us then be willing to go the extra step. If we cannot attend in person, I feel as if we should start off with online in August and when we are able to go back to school then just resume on where we left off. Online school has no restrictions on masks and does not put people “in danger”. If we do this then we will still be on track for the usual time that school starts back up. As a student I feel as if we should also be heard and voice our opinions on this decision.
7/20/2020 20:48:39	Tracy	Woolf	Mill Creek Elementary	Lenexa	I strongly encourage the State School Board to put the safety of Kansas teachers and students first by delaying the start of school until after Labor Day.

7/20/2020 20:48:48	Alyssa	Holsworth	Blue Valley Teacher	Overland Park	Please support the governor’s executive order to delay start of school.
7/20/2020 20:48:58	Serina	Ruffin	Parent	Kansas City	The schools should not be opened yet as CDC and health department recommends.
7/20/2020 20:49:00	Leigh Ann	Vermillion	Usd 226 and usd 483 M	Plains	Yes school need to stay closed until September giving everyone a chance to figure things out. We are spiking in the SWK now.
7/20/2020 20:49:04	Sara	Talley		Olathe	Please uphold the governor’s executive order to delay the start of school. Kansas is still considered a red zone. Schools need time to take steps to put in place the mitigating measures Governor Kelly announced today. This also gives us a couple incubation periods to hopefully see a turn around in our numbers. It is not safe to reopen when our numbers are still trending upwards. Please give schools the time they need and help keep Kansas children and educators safe.
7/20/2020 20:49:07	Tammy	Fowler		Oskaloosa	Start at regular schedule

7/20/2020 20:49:29	Melissa	Hiatt	Parent	Overland Park	What will happen with our IEP students who are not receiving services with school being closed/online? They have been left behind and forgotten it seems. Even if school opens later or is online, many of these students REQUIRE in person therapies and education. Please consider the neediest student's education and lack of services when determining your response.
7/20/2020 20:49:39	Jennifer	Fields		Galena	No to wearing masks for K-12 school age children.
7/20/2020 20:49:42	Brandi	Fernandez	Parents	Lenexa	I feel we have had since March to be preparing. I'm a nurse and have been working during this pandemic, caring for covid patients, educating my family and friends. The kids need school, social interaction and we are prepared. Another 2 weeks isn't going to make a difference. Numbers are up yes, but hospital numbers are good. I think all people are ready. There is never going to be 100 percent agreement on this subject, but the risks of not going out weigh waiting 2 weeks for sure. My daughter is a high school teacher, she wants her students in class. I have an 8 year old, he wants to go to school. He has wore a mask at Jcprd camp, he is prepared, he wants to learn at school. I cannot home school and had the luxury of my son having a sister for a teacher who helped him with a smile, but even they were over online schoolwork. He has ADHD and the last thing he needs is more screentime. We are ready,, take precautions, educate students and parents, but let them go to school. My daughter was a senior this last spring. It's not the school work she missed, it was soccer, friends and the end of senior year. Friends lost along the way, time she cannot get back. Let's not start the way we ended. Thank you.
7/20/2020 20:49:48	Blythe	Edelman		Kansas City	Please delay the 2020-21 school year. The numbers of corona virus keep rising. One death of a student or staff member is one too many. I know the argument is that there are some districts with little or no cases, but if we send hundreds of students and staff into crowded buildings, those numbers will rise and it will inevitably spread. Please give teachers time to prepare and our state more time to see where the case numbers are going before we throw everyone into a potentially unsafe situation. The virus does not know city and county borders.
7/20/2020 20:49:53	Traci	Lang	Elementary School	Great Bend	Please delay opening schools until after Labor Day. For the public health and safety of all. K-6 Certified Elementary Teacher
7/20/2020 20:49:56	Mallory	Borrego	USD259	Wichita	I am writing in favor of delaying schools until after Labor Day. I am starting my 11th year teaching for Wichita Public Schools. As we continue to navigate uncharted territory, more time and training is needed to make sure we are prepared to meet the needs of our students. We quickly need to become healthcare experts, counselors, social workers, and curriculum specialists with new banded standards. The extra time to prepare will be essential to making sure the start of our year is as smooth as possible. I also am a mom of three children that attend private schools here in Wichita and would like their own teachers to feel confident with the environments they will be teaching in.
7/20/2020 20:49:59	Heather	Wolf	Shawnee Mission School	Lenexa	I teach special education students. Sometimes they don't keep their bodily fluids to themselves. Sometimes they come to school sick. Sometimes they are not able to keep the personal space bubble between themselves and others. I miss them, I want to teach them, but I want to do it safely. I'm high risk. I care for my high(er) risk mother. Please help us with funding. With flexible teaching plans. With appropriate PPE for students and teachers. With extended Sick leave. Safe guidelines. Please. I love my job, but who will teach them when I'm sick/gone?

					<p>As a mom of four young kids, I ask that you please approve Gov Kelly's recent orders.</p> <p>This pandemic has laid bare so many harsh realities that our society has failed to address: a lack of affordable childcare. A lack of affordable healthcare. A lack of jobs that pay a living wage. A lack of jobs that acknowledge employees are also moms and dads who are responsible for raising families.</p> <p>Instead of fixing these things, we seem to dump it all at the feet of our underpaid teachers and underfunded schools. Parents can't afford childcare - schools. Parents can't afford to feed their kids nutritious food - schools. Kids don't have a safe place to go for help - schools. Kids need internet access - schools. Kids are bored and parents are overwhelmed - schools. Kids need to socialize - schools. The economy needs to reopen - schools. On top of that, they're also responsible for education. We're asking teachers to be superheroes and schools to be one-stop shops for all of our country's ills.</p> <p>Think back to this spring - in a matter of days, teachers were expected to all of the sudden convert their entire classroom experience onto a digital platform. There was no playbook for this. No guidance or best practices to follow. And absolutely no time to do it in. And teachers just...did it. They made it happen for our kids. The virtual learning wasn't a super enriching experience for our family and it was messy to manage. But our district, along with schools around the country, have spent the last four months building the infrastructure and parameters necessary for a meaningful and productive virtual experience so our kids can learn and our teachers can teach in a safe environment.</p> <p>Because after all - we are in the midst of a global pandemic. We can all demand "normal" because our kids "deserve" it until we're blue in the face. But a global pandemic just isn't normal. If we wanted schools to safely open, we should have already done what was necessary to make that possible (and our political leaders should have mandated and enforced it). Other countries did and now they are safely moving forward. We as a country didn't and here we are - with uncontrolled community spread and rapidly rising cases.</p>
7/20/2020 20:50:05	Danielle	Robinson	My family	Prairie Village	
7/20/2020 20:50:07	Sharon	Clark	Grandma	Wichita	I believe delaying the start of school is wise.
7/20/2020 20:50:10	Laura	Evans		Wichita	While there's probably no realistic way to get the virus under control, postponing until September gives districts and schools more time to come up with a game plan, and more time to allocate necessary resources.
7/20/2020 20:50:25	Robert	Everard		Overland Park	Reject Gov. Kelly's delayed school proposal.
7/20/2020 20:50:28	Nikki	Braam	Kansas Teacher	Kansas City	Please stand with Governor Kelly in her decision to delay the start of school. Our children, families, custodial staff, bus drivers, health and nutrition staff, and educators deserve to return to the safest environment possible and more time to prepare will help make that happen!
7/20/2020 20:50:30	Carrie Jo	Gros	Self - I speak as a teacher	Topeka Kansas	Please delay until after Labor Day - we need time to prepare.
7/20/2020 20:50:33	Tiffany	Swinehart		Overland Park	<p>It is necessary we not open schools until after Labor Day (or even LONGER) to provide extra time for schools/teachers to prepare for this unprecedented school year. This also allows time for the mask order to be in place for 2 months, which hopefully will cause the virus rates to decline.</p> <p>If BOE and school board meetings are still being held online, why would you send adult teachers and children to school in-person so quickly.</p> <p>Kids may not show that they are spreaders of the virus, but we still don't know the effect the virus may take on kids bodies after a year or longer. We need more data.</p>
7/20/2020 20:50:58	Bryan	Blankinship		Sedan	Comment removed for profanity

7/20/2020 20:50:58	Caitlyn	Eakin		Great Bend	Open up the schools at a normal time and in a manner that does not mandate a requirement of masks but a choice of parents, teachers, students. It is the governments duty to defend our Constitutional Rights, not our health. Science shows us that children who suffer from toxic stress or multiple ACEs benefit great from 5 positive influences to every 1 negative influence. This is why schools need to be open and in-person. At what point do we take a look at the statistics that show us that this virus is less dangerous than the seasonal flu and that the CDC has openly admitted to combining testing and that the antibody test shows a positive, including for the common cold. The precedence you continue to set will have a lasting effect on our youth and school system for years to come. Let the legacy of your decision in this moment be from common sense and practical thinking.
7/20/2020 20:51:03	Jan	Degenhardt		Hays	After Labor Day
7/20/2020 20:51:19	Laura	Juranek	I am a teacher and a parent	Olathe	I support Governor Kelly's order to delay schools!
7/20/2020 20:51:21	Katie	Jackson	School	Concordia	Please wait until September 9th to open schools. It is just not safe right now and school personnel need to be able to devise a plan to increase safety measures.
7/20/2020 20:51:26	Julia	Spillman	USD 233	OLATHE	As a parent and an educator, I believe and support in class learning. These children (and I have triplets going into kindergarten this year) need to be in the classroom to get the best education they can. While I took my 15 month old to the pediatrician last week, she said that the kids need to get back to school. It is in their best interest. If you do the math less than 1 percent of Kansas's population have tested positive. And that 1 percent we are scared of. What worries me even more are all the tests that are being performed by just opening the swab and not administering it and getting a positive test, that skews our results. These kids thrive in the classroom and for some, the teachers are the ones that care for them and make sure that they are loved and helped. When we aren't in the classroom we lose that. Please consider giving the teachers and parents the choice of what they want to do. Not dictate what the government wants us to do. If this truly isn't political, then it will be left up to the parents and teachers on how they want to proceed. The government controlling my children's education isn't what I signed up for when I had them nor decided to place them in public education. They nor I are puppets.
7/20/2020 20:51:28	Jeff	Jones	Kansas Teacher USD 42	Otis	I am a physical education teacher in USD 428. I firmly believe that schools should open as scheduled, however, I do believe that all districts should start with a Hybrid Schedule where students attend every other day. That way on any given day schools would only have half of the students in the building. This will give us a safe way to get our students back into the building while providing staff a much safer way to educate students. Students would only be in the building part time but teachers would be able to give students more one on one time with reduced class sizes. This method would serve as a gateway to getting students back in the classroom full time and would be much more effective than trying to teach virtually.
7/20/2020 20:51:29	Danielle	Bernard		Kearney	For everyone's continued health and safety I believe it would be best to delay the school year until at least after Labor Day
7/20/2020 20:51:31	Darcy	O'Toole		Wichita	I ask that you delay the start of school. As an educator, I miss my kids. I miss our talks, our lessons, and even recess duty. However, I am high risk and at least three of my students next year are high risk. I'm only 25, but have asthma and previous lung damage from pneumonia with sepsis. There's nothing more I would rather do than go back to work. It's my second home, and my colleagues are my second family. I depend on my latchkey paycheck to pay my student loans and that's a job I'll be missing as well. However, I want to go back when it is safe for everybody. Delaying the start of schools allows us time to procure PPE and individualized school supply bundles, which I'm sure we'll be buying with our own money. I will do whatever is necessary to keep us safe and still provide a quality and equitable education. Delaying until September also allows time for our numbers to, hopefully, decrease. I urge you to delay school, for at least a few weeks until after labor day, to give us time to get what we need and set up our classrooms in a way that will keep us all safe while we learn together.
7/20/2020 20:51:34	Sharon "Vinnie"	Reed		Wichita	Please delay the start of school until it is safe for us all. I am willing to meet face-to-face with students but not with my current number of students. My kids are little and will not social distance. I will never get a group of 3-5 year-olds to stay away from each other and many of them have dressing and toileting needs that can be handled without close contact. If that's not safe then opening school is not safe.
7/20/2020 20:51:35	Brooke	Steenhard	Steenhard household	Olathe	I agree to delaying the reopening to allow the mask mandate to help slow the spread.

7/20/2020 20:51:35	Amanda	Harrison	myself, I am a teacher th	Moundridge, KS	The cases of Covid continue to rise in the state of Kansas. It is clear that sending teachers and students to school is not going to be safe. How many teachers don't have pre-existing conditions, pregnancy, etc? I want to tell my own children that our Kansas state board and school systems are doing everything they can to keep them safe. I hope that you make the right decision for us to postpone in person school until a safe solution can be found.
7/20/2020 20:51:43	Terri	Schmitt	USD 233	Overland Park,KS	Of course
7/20/2020 20:51:45	Katie	Shaw		Ashland	School needs to resume. No mask requirements. Leave everything up to the local board to decide. There are many rural Kansas schools that have very few if any Covid cases. Locally, we need to be able to decide what is best for our community. Thank you!
7/20/2020 20:52:18	Hannah	Clarke	Get Our Kids back to Sc	Spring Hill Ks	Please open our schools for in class instruction. The social emotional cost on families and children far outweigh any risks
7/20/2020 20:52:29	Stacey	Smith	USD 500	Shawnee	please vote to postpone opening schools. Kansas is a red state and that alone makes it unsafe for students and staff to return to school. Children may be at low risk but please consider all the teachers and staff who wish to stay safe for their own families sake. Teachers lives matter!
7/20/2020 20:52:43	Elizabeth	Reller		Shawnee, KS	As a teacher, I support delaying the start of school to allow more time to adequately prepare for all of the changes this school year will bring. Thank you for your support in keeping educators, students, and their families safe.
7/20/2020 20:52:44	Stephanie	Iams	Parent	Olathe	We are in a pandemic. Correct? I understand the importance of schools opening . However, for our entire school community and community at large safety is my number one priority! I would like to see school closed until pandemic is under control . At least the entire first semester. At that point in time I will need data driven statistics with scientific evidence to show it is safe to return to a school building. At this time my children will be at home using what the school district provides through technology for their education. Let me add emotional, social, mental and physical health are a concern to many I wonder how children would react if a peer or teacher passed away from the virus? That would be a tough one to swallow. Talk about depression, emotions etc. We have known ( our community) about the pandemic since March. We have responsibilities to our community and our families... we have been making adjustments for our children for 4 months. Planning and preparing to provide the healthiest environment at home. This includes, adjusting work schedules. moving work home, education, technology, games, physical exercise, reading, writing , pitching a tent in our yard, tracking the pandemic, movies, cooking, etc and making additional sacrifices monetary ! I simply won't put my kids in unknown territory . Safety is ALWAYS FIRST.
7/20/2020 20:52:58	Patrick	Miller		Lenexa	I want schools to open. There is no public safety benefit, since working parents will be forced to put their children in daycare. If daycares can figure this out, then I am sure schools can as well.
7/20/2020 20:53:22	David	Ackerman		Manhattan	This is no doubt a tough situation and the decision you all face is tremendous. No only are having to focus on the children, faculty and staff but their families as well. I have known several people who have contracted COVID19 and sadly a few whom have passed as a result. I would wish that suffering on no one and I certainly hope you recognize all the risks here (I am sure you do). Our children and these wonderful staff members surely want to be back in the classroom but equally, I am sure they want to do so with safety and confidence. They do not want to be test subjects or pawns in a political game. The smart thing to do here is recognize the risks and manage against those as best as possible. Delaying the start is a great first step as is considering a hybrid model (at the very least). Florida is a perfect example of going into reintegration too soon and without the necessary safeguards in place. I k ow you cannot please everyone but protection comes before pleasing. I wish you grace, wisdom and humility in your decision.
7/20/2020 20:53:29	Angela	Place	(my family - 3 teenagers	Leawood	Please support the Governor's order! A short delay helps us slow the spread of this virus and prepare for a more successful (and longer-lasting!!!) in-person school year. Thank you!
7/20/2020 20:53:32	Kristin	Shorb		Topeka	I do not support the delay of the new school year. I believe children need to get back into the routine of the school year and back to active learning. The risks of children getting or spreading Covid-19 are minimal and do not justify keeping children out of school an additional three weeks.
7/20/2020 20:53:36	Jennifer	Johnson		Spring Hill	I fully support delaying the start of the school year until September 8th or beyond. Teachers and staff members need time to get prepared and to make school as safe as possible.

7/20/2020 20:53:43	Sara	Winter		Pottawatomie	There are 5 active cases and zero hospitalizations in PT county. I feel it's time to open the schools here. Online learning was not adequate for the long run. Our teachers are not prepared to begin a school year with kids they don't know. It was different in the spring when they already had an established classroom.
7/20/2020 20:53:43	Lazons	Stovall	Kansas NEA	Kansas City, Kansas	It is imperative that students in K-12. stay closed. As the cases rise in the state. We need to protect teachers and their students. Students often go home to grandparents and other care takers who are a high risk for covid. There is no way to keep kids and teacher safe in buildings that were not designed to handle a pandemic. Children do get sick. We all want our students to learn but we must be safe and smarter than this virus. Social Distancing is key. Unfortunately we can not social distancing in small classrooms. Please, I implore you to support the Governor and relay the school starting. All students should start school virtual.
7/20/2020 20:53:44	Karen	King		Wichita	Please do NOT delay the start of school for our children.
7/20/2020 20:54:01	Julie	Terry		Stilwell	Please delay school starting. In fact I think virtual is needed through Christmas. At least. Our children are precious. Even one child or teacher lost is to many. A few months is a small amount of time to sacrifice to make sure our families are safe. Laura Kelly was elected to make these decisions. Let her!
7/20/2020 20:54:05	Cindy	Fritts		Eureka	Please do not delay the beginning of school. As a special education para I worry about how much time my students have already missed. Look at the data we may have an uptick of positive cases but the hospitalizations and the deaths are what we need to look at.
7/20/2020 20:54:06	Alphonso	Meza		Wichita	Please keep schools closed until after Labor Day, however if you won't do that please recommend online only as I have 2 kids in extremely packed middle and high schools. Along with my children my wife works in wine of their schools as well.
7/20/2020 20:54:08	Deborah	James		Haviland	I think that schools should not yet open since the regulations and recommendations which schools are expected to meet were put before the superintendents at such a late point in the summer. I believe that the leaders who put together the recommendations for health and safety should have had this information to the school districts earlier in the summer so that classes could have begun on time. I am also disappointed that activities (for example theater and debate) where physical distancing and other proper precautions could be taken must also be delayed.
7/20/2020 20:54:12	Rebecca	Light	Parent of student. Own	Pittsburg	Please reopen schools sooner than later. While my student will be fine, there are a lot of children whose mental and physical health are suffering during their time away from school. If retail workers, Healthcare workers and support staff, food distribution workers and many more can continue to work through the pandemic, then so can the teachers. Cares Act allows for workers to take FMLA to care for themselves or loved ones impacted by COVID. That is always an option for teachers. 90% of families want to return to school. Online options should be available for those with health concerns. This could be offered through a joint central State education arm partnered with local schools as to not put a strain on the resources at the local school level. Furthermore, a large population of children have been active in team sports all summer long With no negative reportings thus showing that these activities should continue. Child care centers are open as well and have adapted. Schools should not be an exception to the norm. Children are statistically not a risk group. Only those over the age of 60 with comorbidities are statistically at risk and they should take appropriate precautions without risking the health of our children.
7/20/2020 20:54:17	Jayne	Fincher		Overland Park, KS	PLEASE OPEN OUR SCHOOLS!
7/20/2020 20:54:26	Christine	White		Shawnee	We attend a private school that is ready to begin in August. Districts that are ready should be allowed to begin.
7/20/2020 20:54:36	Nancy	Sapp	USD443	Dodge City	I believe for the safety of the staff, students and their families I believe it is best to delay school until after Labor Day. Schools are going to have a difficult time even with social distancing, temperature checks, cleaning and such so a few more weeks can help continue to work on have to cover all this. Also with the increase in numbers throughout the state we seem to be getting worse rather than declining in numbers. Yes most children do learn better with a teacher but 1) there is already a teacher shortage and 2) there are even fewer substitutes especially since many substitutes who are in long term teaching positions.

7/20/2020 20:54:38	Jennifer	Schley		wamego	Please open schools in as much as a normal way as possible. Please do not shut down our schools or kids' sports/events for a virus that has a 98.7% survival rate. It is rare for children to infect others. Children need socialization and do not learn well online. We won't send our kids back to school if electives aren't offered. We won't send them back if they are at their desk for 8 hours a day. We will forgo enrollment and hire a tutor to come into our home and teach them. We pray it does not come to this decision. Thank you.
7/20/2020 20:54:43	DJ	Chezski	n/a	Basehor	School should be online for an entire semester. If child care is needed, it should be provided, but school should occur online.
7/20/2020 20:54:49	Megan	Steele	Private education	Manhattan	Please allow schools to open and open with no restrictions. Children will play with their masks all day causing more germs to be around their face than normal. Children should not be punished because adults are having political and power play issues. Let's out our children back in schools and be normal.
7/20/2020 20:55:02	Jolynna	Addink	KCKPS	kCK	I am an instructional coach with 4 children. We are dispersed in 4 different KCKPS schools. One of my daughters (age 11) is medically fragile. The risk for her is too great to attend; however her risk of being exposed second hand from her siblings is significant. Please consider families like ours. I worry about my community in WyCo. A friend, and fellow leader's family is currently suffered. This the third family in a week that WE KNOW.
7/20/2020 20:55:03	Barbara	Meyer	USD 259	Wichita	I support delaying start of school due to increased COVID cases in our state
7/20/2020 20:55:07	Kristen	Houston		McPherson, Kansas	As a 5th grade teacher and parent of two children in the district I would strongly encourage SBOE members to vote in favor of the Governor's EO. Until COVID cases in Kansas are on a consistent downward trend, I don't feel safe in a school building with 350 students and staff in enclosed, small spaces. In addition, my high schoolers will be exposing themselves to hundreds of people each day as they pass in the halls. We have been conservative by following recommended guidelines and now myself and our children will exponentially increase our exposure to the virus. Again, please vote with the Governor to delay schools allowing safety measures to be put in place and staff to be trained well in those safety measures.
7/20/2020 20:55:10	Abigail	Crawford		Hugoton	I support delaying the start of school until after Labor Day. I think the risks are too high for students, parents, and school staff to safely open on time. This extra time will allow teachers and staff to better prepare. Although including the safety measures of masks and temperature checks may be burdensome, it is what is best for the community at large and our country. If fall sports are cancelled or delayed the temperature checks give athletic trainers another opportunity for meaningful work.
7/20/2020 20:55:39	Cyndie	Aumiller	Teacher and community	Hoxie	Gov. Kelly is over-reaching and exerting control and power over ALL Kansas schools, parents, and children. Living in an area of the state where COVID cases are few and far between is forcing our children to lose out on a quality education because a few counties have had numerous cases. (Whether those cases are actual is another argument). After having a forced virtual classroom last spring, I can tell you that even the active parents were done after two weeks. Then there were the parents who didn't interact AT ALL...who I did not hear from...from Spring Break until the end of the school year. In addition, her mandate that everyone must wear masks is a ridiculous power grab...most likely to force you to bend to her will on the late start date. The American Academy of Pediatrics has stated that children under the age of 12 should NOT wear masks.
7/20/2020 20:55:39	Jennifer	Charlton	Parent	Olathe	I am grateful that the school system has ppe and screen for symptoms . I do want to protect our teacher and students. However., the risks of not offering in person classes for students will be so damaging emotionally and intellectually. Both my husband and I work and not prepared to home school again. If day cares, bars and reestraunts can be open( over night summer camps have even been open) we are doing a huge injustice to not provide education to our children. I have a nephew who need special services and a son who turned from a happy trees to a depressed teen I. A matter of months without school or sports. The risk of dying from the flu is greater for children than. Coronavirus. If we don't send our children grandparents who are at risk feel they need to step in and help. I will wear my mask and pay for those who need one but we cannot throw aware our children's learning and social development out of fear . Please consider all the statistics- depression, obesity, those in need of services and those for who school is a safe haven and open the schools. I will do my part, I will encourage distancing, mask, hygiene and will continue to care for patients in the hospital as I have for the last 20 years, Please reopen for our children and families.

7/20/2020 20:55:41	Joyce	Tice		Hoxie	I feel strongly that school in our area of the state can start at their regular schedule. Not every school starts at the same time normally, so if the eastern schools in the state want to start later let them. Let it up to each individual USD to decide!
7/20/2020 20:55:54	Prasanthi	Dandamudi	N/A - parent	Overland Park	I'd like to request the board to consider exploring creative ways to provide quality virtual education to kids instead of forcing families to expose themselves to this deadly virus. We have already lost 143,000 people in the US as of today - do we really want to gamble with more lives, especially of kids?
7/20/2020 20:55:57	Josh	Devader	Wabaunsee county scho	Maple hill	Open the schools. More damage done with them closed
7/20/2020 20:56:02	Jamie	Pasek		Russell	We've had very few cases in our rural community. This should not be a one size fits all order.
7/20/2020 20:56:14	Alan	King		Wichita	I have concerns about the welfare of our children if you delay classes.
7/20/2020 20:56:16	Shelley	Minnick	Teacher	Derby	Please accept Governor Kelly's EO to delay the start of school. Teachers were just given the information for returning to school and have a lot to do to prepare our classrooms for a new way of doing things. Also it will give us time to hopefully see the numbers start to go down. I'm personally very concerned about my health and safety, as well as my students.
7/20/2020 20:56:19	Mackenzie	Renner	Teacher	Topeka	As an at risk teacher, I would prefer for school to start after Labor Day or later. I'm scared for my health and the health of my family. I teach 1st grade and they don't know how to keep their germs to themselves.
7/20/2020 20:56:20	Kelly	Brown	USD 271	Hays	I think that this is a great idea. It gives districts more time to create and implement plans of learning as well as complete any needed training in order to keep our students and families safe. In order for us to give our students the best learning we can in times as uncharted as these, we need the ~3 weeks to prepare and familiarize ourselves with the competencies and the Navigating Change document.  I also know that different parts of the state are dealing with vastly different situations. The rural districts are less impacted by COVID, but possibly are more impacted by school shutdowns as the number childcare providers available is much lower than in a more heavily populated area so parents are having to either change their job or quit so someone can be home with their children.  I would like to see school return to the classrooms and in order for that to happen we need to be as prepared as we can. This means having plans for learning as well as creating the safest environment we can for our students.
7/20/2020 20:56:21	Lynnette	Hibbs	Usd465	Winfield	I want to wait to start school on September 9th so we have a better idea about facts and science regarding COVID 19 cases in the state.
7/20/2020 20:56:26	Jennifer	Robinson	USD 259 - parent	Wichita	With the recent increases in COVID-19 cases in Sedgwick County, I have been anxious about sending my kindergartener to school in a few short weeks. I was surprised and relieved at the Governor's announcement to delay back to school until September 8th. It is my sincere hope that our community will work together to bring the number of active cases down significantly so we may return to school safely.  I urge you to support Governor Kelly's initiative. Our children's and teachers' lives depend on it.

7/20/2020 20:56:29	Matthew	Hanne		Wichita	<p>A few years ago, Kansas tried “a real, live experiment” in economics and tax cuts. That experiment was a failure. Kansas is at the precipice of another experiment, and this time we are considering using the children, families, teachers and school staffs of Kansas as the experimental subjects.</p> <p>There might very well be areas of low community spread in Kansas where such an experiment might be successful. But there are many other areas where community spread is higher, risk factors are higher, and this real, live experiment we are considering will result in real sickness and death.</p> <p>You have been elected as trusted leaders to shape the lives of children throughout the state. Please consider the highest moral call to “do no harm”, and approve of executive order 20-58.</p> <p>Furthermore, you have the power to be stronger leaders by recommending starting the year with distance learning in counties that have significant case loads, until such a time that community spread is reduced to acceptable levels. The burden of leadership is great, and I cannot imagine how difficult these decisions must be. However, when it comes to the health and safety of Kansas families, I believe we must err on the side of caution. We need you to be the leaders who will work to protect us. Let us be a state that shows how we can effectively deal with the threat we all face, rather than an example of how to abdicate responsibility.</p>
7/20/2020 20:56:29	Casie	Tullis	Parent of students	Leon	<p>Allow each district to manage their own staff and students with regards to start dates and how they manage the students learning. Each district is unique to the community, families, and children they serve. Remember in your own words one size doesn't fit all.</p> <p>Emerging medical research is proving that students do not transmit to adults. Whether they are in a school or home setting. The adults are the ones who transmit to each other. The students should not have to wear masks and maintain 6 ft. Allow adults to implant their own measures to protect them selves keeping kids normalcy in the learning setting.</p> <p>Thank you from a register nurse and mother of two public school students</p>
7/20/2020 20:56:31	John	Lane	USD 233	Olathe	Give us time to prepare. Give us until after Labor Day.
7/20/2020 20:56:34	Todd	Maxey		Olathe	Please delay schools from opening before Labor Day. Schools need more time to get plans together and it gives a quarantine period for after the holiday.
7/20/2020 20:56:43	Bill	Roller	My children	Olathe	I strongly disagree with delaying the start of the school year. They need school for so many reasons. I have seen first hand how idle time effects them. They need some normalcy back in their lives.

					<p>I thought Emison Mitchem said it very well.</p> <p>☞ For those of you saying "If essential workers can work, teachers can work, and our kids need to be in school!" I get where you're coming from. I want you to imagine the first day of school.</p> <p>☞ Kids will get on the bus. They will be packed together, because my district (like many) has ruled that it is too expensive and time-consuming to do staggered bussing. They will be excited to see their friends, and they will talk, share items, and do all the things they missed doing on the bus, and this will be great for their emotional health. Eventually some of them will take off their masks, because one or two kids didn't come with one to begin with, and who's scared of this thing anyway?</p> <p>And so, before 10am, you have had your first super-spreader event in the district. No, the kids may not all get sick, but a few of them will. A few of those will die, as we've seen in news reports. They probably won't be your child, so this does not matter to you. It is a sacrifice you were prepared to make.</p> <p>☞ Kids will enter school. If this is done in a staggered manner, we will lose significant instructional time. Kids will sit at their desks, and if they are in a Title I school like mine where most parents can not afford to stay home and support kids during Digital Learning, we will have at least 80% of the population in the classroom. A classroom with truly socially distanced desks can seat about 8 people. Realistically, we will have 25-30 children packed together. Some of them will play with their masks or, if their parents are anti-mask, they will refuse to have those masks on.</p> <p>☞ A teacher will now have to teach in a classroom where they are no longer allowed to have group activities, so vital for young learners, unless they are in a contactless digital format. Hopefully the school will have enough computers for those students without their own devices. Hopefully the teacher will be able to maneuver quickly enough to stop students from Snapchatting their friends, or logging on to any number of non-educational websites, so that they can do their lesson.</p>
7/20/2020 20:56:50	Vicki	Peerson	Support Staff	Kansas City	A teacher will also have to choose between instructing effectively and protecting themselves and the people they may
7/20/2020 20:56:50	Nichole	Wynn		Bel Aire	I support the Governor's delay on opening schools until the virus is under control. I believe the safety of the students and teachers is more important than the timing of school starting. We have to make our decisions on science. I trust you to make the best decisions you can with the evidence available. Thank you for serving our community!
7/20/2020 20:56:58	Sarah	Zink		Larned	We should start school on time and ignore the mask and social distancing mandates.
7/20/2020 20:56:58	Lana	Reinhart	Minneapolis High School	Minneapolis	As a teacher in a 7-12 building, I am very concerned about starting school face-to-face with the rising number of Covid 19 cases in Kansas. Wearing masks will help slow the spread, but I'm afraid teens will forget to socially distance—I've already witnessed this with summer conditioning. There is no way to effectively keep them apart. I am in favor of delaying the start of school in hopes the spread of the virus will get under control. Online learning would be a good option for awhile.
7/20/2020 20:56:59	Brandy	Ochs	USD 457	Garden City	Please allow districts to open when they have planned for the 2020-2021 school year. I feel students belong in school, that is where they grow socially, emotionally, and academically. If you look at the COVID 19 data children 18 and younger are very unlikely to get it and are rarely asymptomatic carriers. Trust our district and county health department to keep kids safe in school. Thank you.
7/20/2020 20:57:00	Greg	Robinson	USD	Burrton	This order would only put our school calendar back 2 weeks. This time can easily be made up with a few extra minutes a day. Two weeks is an incubation period and could have a major impact on the positive numbers we are currently looking at. Please allow the numbers to drop!
7/20/2020 20:57:03	Susan	Schurman	SMSD paraprofessional	Kansas City, MO	<p>Grateful for delayed start to post Labor Day, and would prefer simpler solution of online only, with possible exceptions for particular special needs students. School buildings are not set up to keep students distant, and children will not be able to learn well with adults masked and focused on safety rather than teaching and learning.</p> <p>Latest research indicates children are more vulnerable to effects of exposure than was assumed previously, and they also may carry the virus to others.</p> <p>We must reduce the spread to negligible risk before we open school buildings.</p>

7/20/2020 20:57:16	Julie	Patterson	Usd 437	Topeka	Please approve the governors executive order to delay!
7/20/2020 20:57:24	Kristen	Crosbie	MVHS	Lawrence, KS	I hope you will keep in mind teachers as well as students as you decide to reopen. We are more at risk than they are.
7/20/2020 20:57:26	Michelle	Meier		Olathe	I teach 4th grade in the Olathe public school district. I would like the board to support the Governor's Executive order to postpone the start of school. We need time to prepare our schools and procedures to keep ourselves and our students safe.
7/20/2020 20:57:33	Karen	Wondra		Wichita	I do not think this is the time for in person school, the COVID rates just keep going up. It's like a game of roulette. I work in a school and for one will not feel safe. I need my job but it could mean my life. I also think you should for one year only reduce the number of Required school hours. To reduce the stress that is causing, in this uncertain time.
7/20/2020 20:57:33	Victoria	Gibson		Overland Park	I was not in favor of delaying the start of school. My kids' lives have been torn up for months. As long as the schools can open safely and within the guidelines given to them by the CDC and the state BOE, then I feel that the schools should have been allowed to open on time. I feel that families should be allowed to choose if they can have school in person, online, or a hybrid approach, at least in the beginning. I personally am in favor of our family returning to school in person, using masks and social distancing.
7/20/2020 20:57:43	Jeanine	Jantz	Children's mental health	Mulvane	Back to school options should be left to individual schools/districts. One plan can not for schools of 100-300 and over 1000 students. Some counties don't even have any cases or less than 5 cases.
7/20/2020 20:57:46	Stephanie	Lawton	My family	McPherson	Please uphold Governor Kelly's orders. These are common sense measures to keep children and staff as healthy as possible. I'm worried for the safety of my family and community. Please allow schools the time they need to prepare properly for back to school. Thank you.
7/20/2020 20:57:49	Sara	Ruddy		Olathe	As a 1st grade teacher, I completely support the decision of Governor Kelly to delay school until after September 8. This will give school districts time to develop and instill a plan that will keep our students and staff safe. It is absolutely NOT safe to open schools right now, and as someone who works with little kiddos, I can see this virus spreading like wildfire once we are back in school. Thank you for making the decision to keep our students and our staff healthy and safe.
7/20/2020 20:57:53	Jeremy	Kersenbrock	Heartland Christian Sch	Colby, KS	Delaying the start of the year is unnecessary for our rural location and small school. We are tired of the one-size-fits-all dictates from Topeka and demand the opportunity to make the best decision for our school locally.
7/20/2020 20:57:56	Sara	Mochel	Olathe School District	Overland Park	please delay the start of school in order for staff to properly prepare for this unique teaching situation. Also consider fall flu and allergy season. As an Elementary teacher I am very concerned about my safety and the safety of my coworkers and students. I am slated to have 26 students in my 3rd grade classroom and I'm frightened.
7/20/2020 20:57:58	Cheryl	Slupski	Parent of Pratt USD 382	Cunningham KS	The use of masks on grade school children is going to prove to be a huge distraction to the students. I myself am an asthmatic and wearing a mask I mess with my face more simply because I can not breathe. There is no way a child will not play with their mask. The delay of opening schools is understandable, but the Northeast counties can not be used to justify what is being done in the smaller rural counties.
7/20/2020 20:58:19	Sausha	Friesen		Inman	Open schools as scheduled! Not every school district has cases of Covid. Just because large schools need more time to open doesn't mean the small schools need more time. These kids need to be in school in August and most kids are ready to be there!
7/20/2020 20:58:21	Brittany	Hiebert	Goessel USD 411	Newton	I fully support Governor Kelly's executive order to begin the 2020-2021 school year after Labor Day for the safety of our students, staff, and communities. Please push for a safe start to the school year for all districts across the state beginning in September.
7/20/2020 20:58:28	Jessica	DeWild	K-12 Teacher	Lenexa	There is no way to avoid all risk of illness with COVID-19 or any other virus. Our kids need to return to school. The sooner the better.
7/20/2020 20:58:32	Jamelle	Brown	Kansas City, KS Public	Kansas City	With the uprise in cases, why would we risk putting the safety of our students, staff and community at risk? I'm NOT OK with playing Russian roulette with innocent lives by prematurely reopening schools. Please vote to push back the date after Labor Day or make a decision to start everyone with virtual learning.
7/20/2020 20:58:32	Katherine	Roth		Larned	Parents have to work to pay bills, extra daycare expenses or not being able to work because kids aren't in school is putting a strain on our economy. My kids have to go to daycare whether school is open or not so I can work and there aren't enough daycares with full time openings to go around. What is the difference between daycares and school?

7/20/2020 20:58:53	Belinda	Amend		Goodland	I believe it is important to delay school in order to be better prepared to keep everyone as safe as possible.
7/20/2020 20:59:01	Tonya	Lott	Nike Elementary	Garder	Please please open schools for in person!! My 3rd grader is desperate to go to school, to get out of the house and socialize with his peers and learn. If they go back September 9th it will have been 6 months since they have had formal school. It is ridiculous!!! His mental health has suffered greatly from this stay at home order and school being cancelled. I'm worried about my son's health, his mental health, not the fact he could get covid. My daughter has attended daycare through all of this and there have been no problems at all. Two parents have tested positive in the last month, but nothing prior to that. These kids need in person school, not some virtual attempt. How are teachers supposed to bond with their students if school starts virtually? My kindergarten will be zooming with strangers that she has no chance of getting to know and feel comfortable with. Please open schools!!!!
7/20/2020 20:59:05	Debra	Voeltz		Cimarron Kansas	Kids need to be in classrooms, early learning is to important to leave it too on line learning. N
7/20/2020 20:59:13	Chelsea	Robertson		Basehor	They should delay school until after Labor Day.
7/20/2020 20:59:23	Elizabeth	Langa	Teacher- Kansas City Ka	Lawrence, KS	As a teacher I am worried about my students and my colleagues. I want to go back to the classroom but I do not believe it is safe to do so as cases of Covid19 continue to rise in Kansas. I understand that this is a difficult decision and that the ultimate goal is to get students back to normal. However, I am begging that you support Gov. Kelly's executive order and allow the state and districts to properly prepare for the year. I also understand that this is not a one size fits all solution but in the end, we are all in this together. Kansans have the power to get this situation under control and allow the safe return of students to school. Delaying the beginning of the year puts the responsibility on all Kansas citizens, not our children or vulnerable teachers who would otherwise be making life threatening decisions about returning to school. Send the message that we care about our children and that we all need to have a hand in ensuring our students are educated and safe.  I do not want to lose students, friends, colleagues, or members of our school community to irresponsible situations. I am ready to fight for our students. I am not ready, at 24 years old to die or be permanently disabled. Thank you for you work. We appreciate the seriousness of this decision and understand you can't please everyone or meet the needs of everyone. But please, please put safety first. Best, Elizabeth Langa Teacher, Kansas City Kansas Public School
7/20/2020 20:59:24	Diane	Rothen		Olathe	I believe schools should stay closed until at least Labor Day.
7/20/2020 20:59:28	Leslie	Wheeler	Staff and parent	Olathe -Blue Valley Sch	As a parents and teacher my heart aches for the decisions that we all have to make. However, we have so few answers that we are needing more time to gain knowledge. This order gives us time but also allows the teachers the opportunity to gain knowledge and comfort with a plan. Daily our decisions are altered by new information. But yet one thing remains, companies are not going back to work, they are having zoom meetings. Yet teachers and students will be asked to go into classroom for 8 hours a day with the same group of students. This is not a trip to Walmart or Home Depot or evening the doctors office. You are asking us to put ourselves in positions that no one else in the country is doing. Where else are people staying in a 300 square foot room with 20 to 30 people for 8 hours except for education and childcare. That tells me where we truly value education during a pandemic.
7/20/2020 20:59:41	Bonnie	Stuck		Prairie Village	Please support Governor Kelly's executive order! I feel like it's the responsible, safe thing to do. We must keep students and teachers safe.
7/20/2020 20:59:43	Jamie	Harter	Myself	Olathe	I support Governor Kelly and you, as the Kansas BOE should as well. I've heard arguments that it should be local decisions but in this time of an unprecedented pandemic, the Federal government has failed the country and given the states the entire burden of protecting their citizens. Rather than focusing on politics and undermining the governor, why not work together to support the state and protect our citizens and not give any extremists a reason to not follow the science. We saw how the challenge to Ad Astra went, how state mandated mask orders went and our numbers of cases rise. There are D1 college athletes in Kansas who had Covid and a month later still struggle to breathe and exercise, why would we want to put our teachers and children and lunch room staff and janitors in harm's way if the science does not support it. Spend your time working with the governor on a plan, not wasting time telling your constituents that this was not done correctly. Those things can be addressed later, protect Kansans first.

7/20/2020 20:59:46	Heather	Busch		Cimarron	Kids in Kansas need the safety, security and education that school provides. They need to be back in the classroom sooner than later. The virus is here and will be here for a long time. Virus and weeds are two things that Kansas residents know how they can and will mutate. If you allow this delay to happen then the kids won't be back in the classroom at all again. The kids need every aspect or we will see more depressed kids harming themselves.
7/20/2020 20:59:48	Erin	Simon	Usd 259	Colwich	I'm a special education teacher of students with cognitive impairments and autism as well as a mom to a newborn and toddler and a stepmom to a Renwick student. Our current area is high in numbers for Covid19 and numbers on children are low because they've been kept home. Furthermore, there's not enough knowledge on this virus to make assumptions that it doesn't affect kids or that they aren't carriers (they very much are and I would suggest looking into Israel's school opening to see how that went). Yes, other countries have opened up but they had their numbers controlled, here our numbers are only getting higher. Our kids definitely need to be back in schools but not at the risk of themselves, teachers or their families. Please vote in favor of the executive order to keep kids and teachers safe. Nothing is ever worth the risk of the lives of students or teachers.
7/20/2020 20:59:55	Erin	Henry	KCKPS	Merriam	I do not feel safe returning to teach, I do not feel safe sending my kids who could be become carriers to vulnerable members of our family. I do not believe funding will be adequate to supply what we will need to proceed safely in person.
7/20/2020 20:59:58	Jesus	Salinas	Parent	Andover	3 weeks delay is what teachers need to prepare
7/20/2020 21:00:11	Amy	Hopson		Monument	I don't believe the governor is acting in the best interest of every citizen of Kansas. You as a BOE are more in tune to the needs of children and educators. And above this, every school and school district in Kansas has different needs and demographics. I believe that those we have elected as local school board members have a vested interest in the students of our communities and will do the best job at deciding for our children. Please put the power at the local level. I am afraid that if our governor gets her way here she will continue to push back the start date of schools even in communities that are not affected. As a preschool teacher I do not feel it is appropriate for my students to wear masks in the classroom either. As a parent, I do not want my healthy daughter wearing a mask during the entire school day. As an RN, I believe long-term mask wearing is a breeding ground for bacteria with the warmth and moisture. When I was working in a hospital setting, we were to wear masks for up to 30 minutes and then dispose of them. While this pandemic has made even hospital caregivers not follow protocol, I believe some of the deaths in the medical community could have been avoided if the proper PPE were available for caregivers and masks were not used in the community. Fabric homemade masks are faulty and retail workers are not even wearing them properly. I could teach my students proper wear, but don't believe quality education would occur in the presence of masks. Thank you for giving us a voice!
7/20/2020 21:00:16	Desiree	Campbell		Emporia, KS	I am commenting to encourage the board to pass Governor Kelly's order to delay the start of school. I work as a middle school teacher and want to be able to provide the best education and experience I can for my students, whether it is in person or through remote learning. This is just a delay so that we can prepare for our students and communities and keep school a safe and positive environment for our students and staff.
7/20/2020 21:00:17	Anissa	Engel	USD 437	Topeka	I agree with the order! I'm glad we have a governor who is putting the health and safety of our kids and educators first!
7/20/2020 21:00:32	Jonnie	Wright	School	Kansas City Kansas	Please hold off on our school year to help reduce exposure to Covid 19.
7/20/2020 21:00:34	Cathy	McDonald	Olathe Public Schools	Overland Park	The delay of school starting is ABSOLUTELY the right thing to do!! Teachers are frightened; parents are terrified for their children's safety ... and educators need time to truly learn how to prepare and present successful distance learning.  As a grandparent of three young children, I value them participating in their in-person instruction - BUT NOT YET! The data is clear that we need time for the virus to be controlled. With asthmatic children, we cannot take the risk of them being infected.
7/20/2020 21:00:41	Tara	Fowler	USD 500 KCKPS	Kansas City	I teach in Kansas. Live in Missouri. I want nothing more than to see my students in-person... WHEN IT'S SAFE to do so! I also want my own children to get back to in-person schooling... WHEN IT'S SAFE!!! Numbers must go down and stay low with no new cases for consecutive days before that can be considered!

7/20/2020 21:00:47	Michael	Mangino		Olathe, KS	Delaying the school year is foolish, irresponsible, and based upon faulty conclusions and irrational panic. It is an embarrassment to the state and the people we trust to lead.
7/20/2020 21:00:54	Michael	Harris	Kansas Speech Commur	Wichita	Please support the Governor's position and keep schools closed through Labor Day, at minimum, to allow for increased preparation to come into compliance with public health recommendations.
7/20/2020 21:00:54	Pamela	Wyatt	Washington Elementary	Wyandotte	Delay the start of school
7/20/2020 21:00:58	Katie	Olson	USD 227	Jetmore	Please allow local governing boards to do what is best for their students. Our county needs are not the same as Wyandotte County's needs for example, and we should not be treated the same.  As an educator, I understand that students have different needs that can't be addressed the same way, so I do what's best for each of them. I ask you to do what is right and put your faith in the people who elected you. Let local governments make decisions that directly affect their people.
7/20/2020 21:00:58	Cindy	Kulp	My Family	Leonardville, KS	We would like schools to open as originally planned. My son does not do well with online classes.
7/20/2020 21:01:01	Delfina	Martinez	Shawnee Mission	Merriam	Do not open schools until after Labor Day
7/20/2020 21:01:18	Brock	Hartshorn		Topeka	There is no reason to open schools now with cases on the rise. It just raises the possibility of a quarantine and schools closing. The schools will still need to complete the requirements of hours of education for the year. This is easily done with the September start date. It also allows more time to possibly get the virus under better control. We can't risk our older teachers and citizens that will be at risk. Many students would be going home to grandparents that are their sole providers of care and possibly spreading it to them. At this time during this pandemic you can not have the the possible deaths of students teachers parents and grandparents on your hands. Please vote to follow the governor and start school 3 weeks later. Thank you
7/20/2020 21:01:38	Nick	Bartkoski	USD 259'parent	Wichita	With the recent increases in COVID-19 cases in Sedgwick County, I have been anxious about sending my kindergartener to school in a few short weeks. I was surprised and relieved at the Governor's announcement yesterday to delay back to school until September 8th. It is my sincere hope that our community will work together to bring the number of active cases down significantly so we may return to school safely. I urge you to support Governor Kelly's initiative. Our children's and teachers' lives depend on it.
7/20/2020 21:01:52	Ellyn	Mulcahy	None	Riley County	Please delay school in person until it is safe to do so as per public health guidelines and as supported by the CDC and the Governor of Kansas.
7/20/2020 21:01:54	Kristy	Lewis	Parent	Rossville	Please consider opening our schools on the original start date. My soon to be 2nd grader has actually regressed in his reading skills and needs to be back in the classroom. He needs the encouragement from his teacher as well as his parents. I've also noticed an increase in his anxiety being away from school this long. He truly needs the routine back in his life. I have no doubt the school will be making all the sanitation steps to keep everyone as healthy as possible.

7/20/2020 21:01:56	Chris	Hahn	N/A	Lucas	I am writing you tonight to voice concerns over the executive order 20-58. In recent months I have spent the time to educate myself on the growing pandemic that is covid-19. I have also been very vocal on social media platform such as Facebook and different groups within dealing with the mandates giving by our governor. The growing concern among the people and parents is when will this stop. These mandates are not about the safety of our children. Pediatrician across the country have been vocal in saying get the kids back to school. Countries across the world have reopened there schools and performed study's showing that the spread of covid-19 has not increased due to reopening of schools. We cut last year short I had to quit my job to stay home and care for a child who could no longer attend school. Parents across Kansas are ready to get back to life and don't think school policies should be dictated by political mandates. But I don't want to focus on the political side of things. As politics should not dictate the education of our children. Kids across the country are ready to go to school see there friends. Student athletes have trained over the summer waiting the opportunity to play the very sports they love and we as parents love watching. Studies have shown that covid-19 has a very extremely low asymptomatic transfer rate and even a lower child to child rate. They also show that also show that the younger and healthier you are the less likely for serious impact from contracting covid. The elderly and those with pre existing conditions are the ones at risk, not our children. Instead our children are at risk of loosing valuable time with learning both common core education and social interaction skills for later in life. Governor Kelly states the reason for waiting to open schools is to give time to teachers and facilitate members to prep , get need supplies, and I quote " Governor Laura Kelly said. "The additional three weeks will provide schools time to work with their counties to get the necessary mitigation supplies like masks, thermometers, and hand sanitizer while providing local districts time to thoroughly review the curriculum options from the State Board of Education to figure out what strategy is best for their district." this mandate hasn't even been discussed here at your meetings. You haven't even decided if your to inforce this mandate. So why prolong children's education, why prolong the interactions that develop our children for a mandate you haven't even discussed yet. That's putting your cart before the horse. You have the opportunity to show the nation that we as Kansas truly do have the best intentions for our children's education and for our parents. The longer you wait to open schools the more time adults have to wait to find jobs which in turn boosts our economy. The risk of a child dieing or spreading covid is less then that of the flu. I have not ever seen these kinds of actions being taken against the flu. Don't let political agendas stop our children's social and common core education. Let Kansas lead the way for other states to show education is not politics. Thank you for your time. And I truly hope you have the best
7/20/2020 21:02:00	Theresa	Irsik	USD 477	Ingalls	Please follow the governor's mandate and give our schools time to prepare. Otherwise, I feel administrators will feel pressure to start on time without proper planning in place.
7/20/2020 21:02:03	Wayne	Koch	Parent	Home	Start school on time with mo restrictions
7/20/2020 21:02:05	DIANE	LINDQUIST		LENEXA, KS	I am pleading with the Board to vote against the governor's executive order to keep schools closed. My son is a senior this year and I have seen a not so good change in him and his friends this summer. They have no hope for their senior year. No one is giving them hope for their future. No one is answering their questions of when this will end. There is a rise of teenage suicide since the close of school last March. I have a much greater concern for our children's mental health than I do of them getting COVID. If they get COVID, they have a less than 1% chance of having to seek medical attention and less than a 1% chance of it being fatal. If Kansas continues to go down this path of no school for our kids, we have a much greater risk of losing them to suicide. These kids have been put through enough. Please put an end to this and let our kids go back to school.
7/20/2020 21:02:15	Cheryl	Diehl	Wamego High School P	wamego	My oldest daughter recently graduated Wamego High School. To watch her be devastated by not playing her last softball game was awful. As of now we know a little bit more about COVID19. I am a healthcare or essential employee. I have been exposed numerous times and am very fortunate to not have caught this virus. Wamego and the surrounding communities that I work in are rural, yes but have always gone that extra mile or two. Please pleas allow the athletes to practice with precautions as they were this summer. These athletes are held to a different standard and they repect all of the precautions just so they can compete with sports activities and to interact with their friends. Please consider this and Im sure these decisions are very difficult.
7/20/2020 21:02:23	Rachael	Robinson	USD 369	Burrton	Please vote to keep the delay. As teachers we need time to put thing in place to keep evryone safe. We also need to give time for the curve to flatten before putting kids back in the classroom.

7/20/2020 21:02:32	Casey	Grace	Olathe Public Schools	Olathe	<p>I support the Governor's decision to delay the start of school. At this juncture, Johnson County's data regarding the spread of COVID does not indicate enough of a slow or plateau. While data is showing that children are less likely to transmit/contract the virus, I feel that much of the data collected on this reflects a time when children were not in large (classroom-sized) groups, or represents countries who have approached and managed the spread of the virus differently.</p> <p>Additionally, while schools will always pull together what is necessary to keep students safe, it seems that much of our typical planning and preparation has been put on hold and staff/administration are now in need of additional time in order to prepare for the school year ahead.</p>
7/20/2020 21:02:34	Susan	McRae	Parent and School Secre	Overland Park	Please vote with Laura Kelly to keep our schools closed until at least Labor Day for the safety of our kids and the safety of the staff in schools. Thank you!
7/20/2020 21:02:48	Nicole	Rushton	Parent	Norton	I would like to see school start with online, few hours a day of zoom Teaching. That way the teachers are still teaching and kids are still seeing classmates. Then slowly start with half the class Monday Tuesday clean Wednesday and the other half Thursday Friday. This will keep our kids learning.
7/20/2020 21:02:54	Anita	Perdue	Retired Teacher (KCK).	Work in KCK, Live in C	<p>I am concerned about schools being re-opened while the COVID virus is NOT under control. I'm a retired teacher who wants to work as a substitute teacher in the schools in the KC area. I live with my 80 year old mother who has many health conditions that put her at a very high risk. We have been following all of the guidelines that include staying home, wearing a mask out in public as well as social distancing. From what I have read, the KC area is a HOT spot for COVID.</p> <p>The worked at Central Middle School in KCK for 30 years. I have a lot of wonderful memories of teaching with some fantastic teachers/staff. The students were amazing. But this school is a breeding ground for germs. Over the years, I've watched as the number of custodians working in the building declined. There were many days that I knew areas were not cleaned very well.(short staff). There is a need for staff/students to be able to wash their hands, the water doesn't get very hot. In fact, most of the faucets in the restrooms/locker rooms only have cold water. The classrooms are not very big BUT class rosters are at an average of 30-40+ students. (Depending on the hour and what subject that is taught). There is NO way to distance students 3 feet, and it is suggested to distance 6 feet.</p> <p>Many classrooms have tables and chairs, not individual desks.</p> <p>When I go to the store I see a lot of empty shelves where cleaning supplies used to be....How do I know that there will be supplies at the school(s) that I will be working in? I don't remember ever seeing closets at school overflowing with cleaning supplies. I used to have to buy a lot of supplies when I taught school but that's not really an option.</p> <p>Many teachers are worried about getting the virus, sharing it with family....I don't want to get sick. I don't want my family sick. I don't want my co-workers and their families sick. I don't want any of my students and their families to get sick.</p> <p>I know this is difficult decision to have to make. But I am asking that you consider delaying the opening of our schools. I hope this will allow schools to be able to purchase the supplies needed for each classroom, make the school buildings safer, determine how students will learn. Allow the schools to plan for either teaching face to face or online learning. Is it safe for all students and staff to return? Is it safe for students to ride the bus?</p> <p>Please consider the School year start to be delayed, then monitor the number of cases that are being reported in the area. There has to be a better time to return. It's not safe now.</p> <p>Thank you.</p>
7/20/2020 21:03:07	Shawnda	Wishart	USD 375	El Dorado KS	I fully support waiting until after Labor Day for schools to open. It gives the districts time to plan for all of the safety measures that need to be implemented as well as teachers to plan how to keep students safe while continuing the quality education kids deserve.
7/20/2020 21:03:13	Courtney	Warden		Hesston	I would like schools to open on site regular time!
7/20/2020 21:03:13	Teresa	Kidd	USD 259	Mulvane	Some districts should wait, some could open as scheduled. Districts need flexibility in making the decision.

7/20/2020 21:03:14	Cheyenne	M		Wamego	My kindergarten team needs time to figure out how we're going to divide classes since Round Up was cancelled, how we're going to replace morning tubs, what to do with our large rectangle tables, divide math manipulatives for individual students, revise our recess and lunch schedule. There is so much that needs changed before school starts and we need time to do so. Yes, we have spent our summer talking and brainstorming, but so much keeps changing. We need to plan all of that while also deciding who will teach online and HOW to teach kindergarten online. The extra time would help with all of this and allow us to set up for what will undoubtedly be a hard year.
7/20/2020 21:03:19	Brandy	Hayes	Teacher	Lawrence	I am a teacher and a parent in the district. We cannot send our kids to schools that are unsafe. Doing so would put thousands of Kansans' lives at risk. Please vote in favor of Governor Kelly's Executive Order.
7/20/2020 21:03:27	April	Easton		Topeka	I want my child to start school in August in person in the school classroom. He deserves to learn in the best environment with great teachers.
7/20/2020 21:03:33	Susan	Barr	Shawnee Mission School	Overland Park	I support the Governor's EO that delays the start of the school year. It will be my 13th year as a Kansas Educator this August. From the time I began working as a teacher, the safety of schools has always been the most important factor. If students do not feel safe at school, they will not learn. I understand the need for students to be around their peers, develop social-emotional skills, participate in activities, etc -- but none of these are more important than the health and safety of our students and staff. Working as a school counselor, I can tell you that anxiety was off the charts pre-covid. I can guarantee you it hasn't gone down since then. Please support the Governor's EO which encourages the safety and health of our students and staff, allowing time for virus cases to decrease and a better start to the school year for all students.
7/20/2020 21:03:33	Angela	Zimmerman	Parent - 5 children	Colby	I am NOT in favor of school starting AFTER Labor Day. Start school on the original scheduled date. These kids need to return to a schedule. They are children, they thrive on schedules. What benefit do we have starting later, missing school days, because if the schools decide to act like the colleges and not allow students back after Thanksgiving due to the 'scare' of getting sick WE WILL NEVER BE IN SCHOOL!!!! It is time to toughen up, your grandparents did! We have a virus, we have the flu bug, we have West Nile, we have, the list goes on. Time to put things into perspective and get on with life and quit using the children as a crutch! And we are REALLY concerned about their health, think of their mental health. Being isolated at home away from friends, not suppose to hug people, there is the risk, mental health risk. it is MY RESPONSIBILITY to take care of our children and keep them healthy, let me do my job, it isn't the states responsibility. I will decide to keep them home from school if I feel they need to be home due to illness. Fear isn't a reason. Let's get back to class and educate our children and allow them to grow in knowledge and social skills and remember to laugh again. PLEASE override the Governor's opinion on starting schools later. Allow each district to decide what is best for their school district. Some may need to start later, but here in Thomas County, for 5 active cases, there isn't a need to postpone the start of school. Thanks.
7/20/2020 21:03:40	Joycelyn	Fasulo	USD 233	Olathe	As a parent of three children that attend Olathe Public Schools and as a middle school teacher for the Olathe Public Schools I urge you to support Governor Kelly's Executive Order to delay the reopening of schools. Here in Johnson County the data is showing that cases are on the rise and it is simply not safe to be indoors in large numbers. Please support Governor Kelly's Executive Order to allow the district administration more time to create a plan and train staff on the mandates. This delay will also allow mask mandates and businesses choosing to roll back reopening to slow the spread and lower the number of infected citizens. Support the decision to allow schools to open SAFELY.
7/20/2020 21:03:44	Heather	Betzen		Wichita	Since families are given the option to homeschool, virtual learning, etc. and receive a similar curriculum to in-person learning, schools need to open up for everyone that is ready for the in-person learning. We are delaying the start without knowing the state of the virus will be any better in September.
7/20/2020 21:03:46	A	Rawalt	Teacher	Olathe	Please please please the community spread of the virus in my area is too high to do in person schools without a specific plan and time to prepare for the new guidelines. Many teachers like me are at high risk to infection and have other family members who are also high risk. I'm a rational person but I'm terrified of getting COVID-19. There needs to be more time with people wearing masks to see if the percent positive number will decrease. Teachers work hard to make sure everyone else is taken care of now it is time for someone to stand up for our safety. Thanks!
7/20/2020 21:03:52	Kaley	Robinson	USD 500	Lawrence, Kansas	Delaying the start of school will give teachers time to prepare how to safely start school.

7/20/2020 21:04:03	Jessica	McGuire	USD 489 Parent	Hays	Please uphold the mandates of the Governor and allow for a delayed start, masks, hand sanitizer, etc. Kids need to be IN school and it's going to be hard to make that happen if we take little to no precautions. Put kids first, not your personal grudge or opinion.
7/20/2020 21:04:11	Jennifer	Sowards		Pratt	Please let school start. The kids need in the school.
7/20/2020 21:04:21	Jennifer	Robinson	Andover public schools	Wichita	I'm a teacher and I am terrified of going back to work in USD 385 with the numbers as high as they are right now. I urge you to support the governor's executive order and keep schools closed until after Labor Day so officials have time to reevaluate the situation before sending everyone back. It is my sincere hope that our community will work together to bring the number of active cases down significantly so we may return to school safely. I urge you to support Governor Kelly's initiative. Our children's and teachers' lives depend on it.
7/20/2020 21:04:25	Julie	McClure	Concerned teacher USD	Lyons	Dear State Board of Education members, The delay of the start of school is a smart idea that should be followed for a number of reasons. First, the districts were JUST presented with the Navigating Change document (1000 pages +) last week. Delaying the start of school would allow district administrators, faculty, and staff to devise a workable plan of action for their district regarding safety precautions for their employees and their students, and subject competencies. Secondly, many districts are just now seeing an uptick in COVID-19 cases in their communities. I live in a rural community and until recently we had been spared the high numbers of COVID. Thirdly, the South Korean study of the age group of children that are most likely to spread COVID is alarming as that 10-19 year old age group is half of a district's population (6th-12th grade.) People compare cruise ships to a Petri dish, the same is true of schools. There is NO way to social distance in our classrooms. Some of us do not have the luxury of a 1:1 student/desk ratio. I had 4 ft. long tables in my classroom, large enough for 4 students to sit around each table. Last year I spent my own money on purchasing "flexible" seating for my 6th grade students (\$250.00.) Not only do I now not have seating for my students, my room is not large enough to keep students 6 ft. apart if all students attend on the same days.  Lastly, as long as the State Board isn't comfortable, or thinks it's unsafe to meet in person is it reasonable to conclude that it would be safe for teachers and students to meet in person? I'm wondering, if you won't meet in person with adult peers, how you would feel being told that you were expected to meet in person with 15-30 students 6 times a day for 45 minutes each time?  I realize that face to face education is best. I would love to be in my classroom if it weren't for COVID, but at what cost? Do we need to have educators contract COVID and possibly suffer from long term effects or possibly die? Or worse yet, have that happen to innocent children before we admit that this virus is not only serious but also has so many unknowns that are associated with it.  On a personal note. I am almost 58 years young, I am a breast cancer survivor after taking chemo and radiation treatment and I am worried about how this virus will affect my health. I have a 3 year old grandson that I want to watch grow up. I have elderly parents that will need looking after eventually. My husband is 10 years my senior and has
7/20/2020 21:04:27	Dianna	Waite	A concerned citizen	67401	I won't insult you by giving you all the evidence why you should support the Governor's EO. Despite what the White House press secretary said, The science must be followed. Put your partisan politics aside and do the adult thing. If we delay school and are wrong about it, we will have missed some days that can be recovered. If we don't delay and a child or teacher dies, how will you live with yourself, knowing you could have stopped it.
7/20/2020 21:04:28	Hillary	Hopkins		Prairie Village	I appreciate the governor making difficult, responsible decisions for the welfare of her constituents. Thank you!
7/20/2020 21:04:30	Cynthia	Alford		Altamont, KS	I'm a teacher and I would like for students to attend school on the date originally set by USD 506 rather than waiting until after Labor Day. The damage Covid has done to the educational and social emotional needs of the students needs to end now. Families and the economy are also suffering as parents cannot return to work because of child care issues. Child abuse reports have gone down significantly. I doubt very seriously this is because abuse is stopping, especially in these stressful times. The costs to the kids of staying out of school are much higher than the benefits. Send us back to school, please!
7/20/2020 21:04:33	Jennifer	Batson		Assaria, KS	I think this is a very SMART idea!!!! We are not through the worst of this situation yet. Putting a group of kids together inside of one building is just going to be a breeding ground for COVID.

7/20/2020 21:04:37	Alisha	Aiken		Prairie Village	Please follow the order from Governor Kelly. It is in the best interest for all students and staff and families to delay the start while local numbers continue to rise.
					Dear State Board of Education members, The delay of the start of school is a smart idea that should be followed for a number of reasons. First, the districts were JUST presented with the Navigating Change document (1000 pages +) last week. Delaying the start of school would allow district administrators, faculty, and staff to devise a workable plan of action for their district regarding safety precautions for their employees and their students, and subject competencies. Secondly, many districts are just now seeing an uptick in COVID-19 cases in their communities. I live in a rural community and until recently we had been spared the high numbers of COVID. Thirdly, the South Korean study of the age group of children that are most likely to spread COVID is alarming as that 10-19 year old age group is half of a district's population (6th-12th grade.) People compare cruise ships to a Petri dish, the same is true of schools. There is NO way to social distance in our classrooms. Some of us do not have the luxury of a 1:1 student/desk ratio. I had 4 ft. long tables in my classroom, large enough for 4 students to sit around each table. Last year I spent my own money on purchasing "flexible" seating for my 6th grade students (\$250.00.) Not only do I now not have seating for my students, my room is not large enough to keep students 6 ft. apart if all students attend on the same days.  Lastly, as long as the State Board isn't comfortable, or thinks it's unsafe to meet in person is it reasonable to conclude that it would be safe for teachers and students to meet in person? I'm wondering, if you won't meet in person with adult peers, how you would feel being told that you were expected to meet in person with 15-30 students 6 times a day for 45 minutes each time?  I realize that face to face education is best. I would love to be in my classroom if it weren't for COVID, but at what cost? Do we need to have educators contract COVID and possibly suffer from long term effects or possibly die? Or worse yet, have that happen to innocent children before we admit that this virus is not only serious but also has so many unknowns that are associated with it.  On a personal note. I am almost 58 years young, I am a breast cancer survivor after taking chemo and radiation treatment and I am worried about how this virus will affect my health. I have a 3 year old grandson that I want to watch grow up. I have elderly parents that will need looking after eventually. My husband is 10 years my senior and has
7/20/2020 21:04:37	Julie	McClure	Concerned teacher USD	Lyons	My boys are 16 and 11 years old. We've had Covid. They are fine physically. Emotionally, they need to be in school with their peers. If people can go out to eat, shop in grocery stores, Walmart, malls, liquor stores, go to nightclubs, why can't our children who have been the healthiest through this pandemic, receive an education and build relationships with their peers. Please consider allowing local school boards to make their own decisions based on the amount of cases in their community and the danger to the students.
7/20/2020 21:04:45	Jana	Strunk	Mothers everywhere	Wamego	Please please please overturn her on anything the State School Board can overturn her on, this should be up to each individual district to set plans up, not the Governor. A mandate was voted against for mask in our town giving control to the school for their decision making! Please please fight for the residents as Governor Kelly does not care for the safety, health and wellbeing of our children!
7/20/2020 21:04:45	Jessica	Henderson	UDS 416	Miami county, Louisbur	This is in support Governor Kelly's delay so that schools have more time to prepare for WHATEVER method of schooling will be safest. As a School Counselor I help build the Master Schedule for our building. I'm puzzled to find space and ways to keep everyone safe in our building. As someone who has access to all class sizes. I feel morally and ethically responsible for all of our 1,863 students. How can I tell parents that their precious children are being kept safe with mitigation practice. When I know its not possible. If we open schools I would like to open our building safely. I wouldn't be able to sleep at night knowing we packed 27-30 kids in a classroom.  I also have an underlying health condition that has added an extra stressors to my life. I'm only in my 30s with a little one year old and I don't want to die.
7/20/2020 21:04:55	Elva	Medina	Education	Olathe, KS	
7/20/2020 21:05:03	Lisa	McFadden		Concordia	For Gov. Kelly's plan of waiting to start after Labor Day.

7/20/2020 21:05:09	Christele	Marsh	Olathe Schools District	SHAWNEE	<p>I think it is a good idea to delay the openings of schools in order to have proper safety standards and for staff to be well trained. Administrators, teachers, parents, and students need to be on the same page with non-negotiable items with no room for interpretation.</p> <p>I also think that districts need to decide and let teachers know by August 10 how the teaching will safely take place so that teachers can prepare and adjust. I think there needs to be a waiver about reducing the number of contact hours as it is not realistic to try and catch up in the situation we are in.</p> <p>TO THE KANSAS STATE BOARD OF EDUCATION MEMBERS.</p>
7/20/2020 21:05:22	Bethany	Service	Kansas City Kansas, Pul	Shawnee, KS	<p>I want to thank you in advance for supporting Governor Kelly's Executive Order to delay the opening of schools. She has worked endlessly to keep Kansans safe by consulting with health officials before making any decisions. So I know that when Governor Kelly announced the executive order last week, it was prefaced with research and much consideration.</p> <p>COVID-19 affects many people in many ways. Some just get a case of the sniffles while others end up in the ICU even though they have no underlying health conditions. A favorite fact that people like to throw around is that kids aren't affected as much. While this may be true, according to an article in USA Today they can still spread the disease. (<a href="https://www.usatoday.com/story/news/health/2020/07/17/coronavirus-can-kids-spread-covid-19-spreadquestions-answered/5450062002/">https://www.usatoday.com/story/news/health/2020/07/17/coronavirus-can-kids-spread-covid-19-spreadquestions-answered/5450062002/</a>)</p> <p>Many of our students live with people who are members of the vulnerable population. Whether they are older or have an underlying health condition, these children could potentially spread it to people who could get really sick from the virus. There are many teachers who are a part of this vulnerable population as well. We deserve to work in a safe and healthy environment. We deserve the peace of mind knowing that we don't have to update our wills before the school year starts. We deserve to not have to fear that we are bringing home a ruthless virus to our own families. We deserve the same basic rights as anyone else.</p> <p>Thank you for taking the time to read my email. I look forward to your approval of Governor Kelly's Executive Order.</p> <p>Sincerely,</p> <p>Bethany Service Vocal Music Teacher Eisenhower Middle School, USD 500</p>
7/20/2020 21:05:29	Kelly	Williams	Wichita Public Schools	Wichita	<p>I am writing to you to please do what the governor and KDHE recommends and delay the start of school until after Labor Day. Our state is currently one of the hot zones for COVID19 and Wichita has had rising numbers each day. The only way we are going to return to normal is to stay in small groups or stay home, as I've been doing. I am the secretary and was recently diagnosed with COPD so I'm concerned about the many people I come in contact with being carriers of COVID. If we have extra time to implement all the safety procedures, I will feel safe as possible. We also need time to make sure all kids and staff are safe. It's going to take a lot of planning to keep kids in one room and make sure they have supervision at all times. Having the extra time will help administration get things in place. Please keep the safety of our children and teachers and staff first. None of this is political so I hope you listen to the advice of the doctors, scientists, KDHE and delay starting of school.</p>

7/20/2020 21:05:29	Jamie	Florio		Wichita	I highly think we should keep schools closed for the 20-21 school year. No ones health should be put on the line. Especially when we know this virus can effect every single person in the school building. This virus can also be brought home to parents putting the entire family at risk. We also have no idea what health risks the future holds for those infected. The school district that we attend already have classrooms busting at the seams with class sizes, making it impossible to social distance. What happens when one kid gets infected? Does the whole school quarantine for 14 days? What about outside play equipment? Will kids not be allowed to play on it? Playground equipment is used by every single child in an elementary. I just don't know how schools are going to open up and it be physically safe nor mentally healthy?
7/20/2020 21:05:34	Elizabeth	Oxandale	Kansas City Kansas Pub	Overland Park	The normal 5 days that are contractually reserved for teachers at the beginning of the school year are completely insufficient given that the world and education look nothing like the world and schools we all left in March. We MUST provide teachers time to work to prepare with their district and administration for the health, safety and education of our students for whom we so deeply care.
7/20/2020 21:05:35	Robin	Fuksa	My house	Mulvane	Start school no later than the day after Labor day. My kids are NOT online learners. We have 6 kids adopted from the Kansas foster care system. They need their classrooms back.
7/20/2020 21:05:36	Misty	Hansen		Manhattan	With COVID cases rising all the state, and the data being released about children spreading the virus as much as adults, we need to keep schools closed until after Labor Day. Not only for the safety of our children, but the safety of all teachers and staff as well.
7/20/2020 21:05:37	Traci	Johnson	Teacher and parent	Plainville	I feel we need to open schools in August. It is crucial for our children return to school. They have been out so long as it is. I worry about their emotional health as well as their physical health. This waiting and wondering what will happen is agonizing for everyone, including the kids. I teach elementary and the thought of them wearing masks all day is ridiculous. Keeping them focused throughout the day is tough enough without the added distraction of a mask. I know schools will do everything in their power to keep the students and faculty safe. We need to think about the kids and get their education and mental well being back on track.
7/20/2020 21:05:41	Erica	Dryden		Stockton	I am a teacher in NW Kansas. We have cases spiking in the counties north and south of us. I am in support of Governor Kelly's order to delay school until after Labor Day to try to mitigate the spread of COVID-19
7/20/2020 21:05:54	Katie	Lix	none	Osborne, KS	No masks!!! Please don't let the children get caught up in this political mess. Our rural school is small, our county has had only three cases. Please don't use the same rules for our 1A school that you use for 4, 5, even 6 A schools. Praying for normalcy again soon!
7/20/2020 21:06:02	Amber	Brassfield	USD 271	Woodston	I think wearing masks all day is a danger to students. What is the difference in going to public spaces without them. I feel wearing a mask all day is more dangerous than not wearing one. I'm ok with delaying school as long as they have school. I am a single mother of 4 children and it would be impossible for me to even think about home school. I am currently looking for a second job to make ends meet and I know I can not work and home school my children. I think we should just get through this virus like the rest of them. But that is just my personal opinion.
7/20/2020 21:06:03	Joe	Waldron	Usd453	Shawnee	I am a parent of a USD 232 student and a Teacher in USD 453. I ask that you uphold the Governors EO to delay the opening of school until 9/9/20. The delay in the start will allow for the schools to prepare for the unknown challenges that Lay ahead. Teachers and school administration also need time to prepare. It is all of our hopes that the state of Kansas will start to trend downward and no longer be a hot spot for the virus. Thank you for guidance and putting the safety of all stakeholders First.
7/20/2020 21:06:07	Holly	Shriner	Shawnee Mission School	Overland Park	Please delay until September
7/20/2020 21:06:09	Trey	Lockwood	Every small local School	Horton	Comment removed due to profanity
7/20/2020 21:06:13	Ashley	drinnen		Sterling	do not delay! This virus is a joke with a 98.6% survival rate. Nothing should be closed and no masks should be worn!!!!
7/20/2020 21:06:17	Channing	Hawks	Family	Hugoton	I support starting after Labor Day but believe it should be up to each county and their school board and local health officials  I do not support wearing masks as I believe they are a false sense of security and also believe they make people touch their face more than not wearing them.

7/20/2020 21:06:21	Carolyn	Finken-Dove		Olathe, KS	Highest number of new cases today. Younger victims also affected. Long term effects of COVID not known. Medical and public health experts inform the Governors actions. Please approve and support Governor Kelly's Executive Order. She has the safety and best interest of parents, children, teachers and staff in mind.
7/20/2020 21:06:23	Shannon	Russell	N/A	Overland Park	I'm a parent & in support of kids waiting to begin the school year, possibly even later than the Gov's order of Labor Day. I would support school waiting until January, and running until November (every year). I don't think it's safe now to have kids together in small, outdated buildings that can't guarantee enough cleanliness in air ducts with the virus so out of control.
7/20/2020 21:06:30	Marlena	Hunley	My family	St. John	To whom it may concern; Please give the power to "decide" to the counties and individual school districts. Unfortunately, we are not heard out here in rural Kansas. We should not forgo the same precautions as cities. We have not had the exposure, or the number of people in and out of our small town like other large cities. We have had TWO confirmed cases in our entire county and NO deaths, since March. Congratulations on pushing more and more parents into homeschooling. Stop taking away our ability to take care of ourselves, which we do rather well out here. I hope my opinion is read and heard. Enjoy your day and wash your hands.
7/20/2020 21:06:36	Elva	Medina	Education	Olathe, KS	This is in support Governor Kelly's delay so that schools have more time to prepare for WHATEVER method of schooling will be safest. As a School Counselor I help build the Master Schedule for our building. I'm puzzled to find space and ways to keep everyone safe in our building. As someone who has access to all class sizes. I feel morally and ethically responsible for all of our 1,863 students. How can I tell parents that their precious children are being kept safe with mitigation practice. When I know its not possible. If we open schools I would like to open our building safely. I wouldn't be able to sleep at night knowing we packed 27-30 kids in a classroom.  I also have an underlying health condition that has added an extra stressors to my life. I'm only in my 30s with a little one year old and I don't want to die.
7/20/2020 21:06:37	Maryjo	Kerringer	Resident of Overland Pa	10506 W 168th Terrace	We really need to have some form of in person school, even if modified or part time. The online school did not work out well at all. My kids do much better with actual instruction and they both always go for extra help during Timber time when needed. The teachers didn't do much "teaching" during the online period and some teachers were not very responsive to questions. It is important fir them to have structure and social groups to help them learn. Plus the activities at school keep them busy and disciplined so they don't get into trouble. I feel their education will suffer without the person to person interaction. Plus if you look at the stats for JOCO, not a single person under 40 has died. Most teachers are younger and can certainly social distance from kids. Research is showing someone has to be close enough to you in order to transmit the disease and teachers can stay far enough away so there is no transmission . Partial online in order to keep Kids to a minimal would be fine but without some classroom learning in person most kids will suffer the consequences . Our kids get A's but they work really hard for them and my daughter has bad anxiety so without a schedule, I am worried about her mental health. High anxiety levels among kids seem to be common and this has been extra hard on those kids. I feel compromises can be made to keep everyone safe but also continue to educate our kids in the best possible way. I am begging you to please open in person school In some form. Compromises can be made and most parents will do what is necessary .
7/20/2020 21:06:55	Joanna	McAlister	Educator	St. John	For the sake of allowing teachers, support staff, and classified personnel to put the new plan into place & collaborate on, please let the schools remain closed until after Labor Day. It's inevitable that schools will have to work remotely at some point, so give us time now to collaborate and come up with the best lesson plans & collaborations so our students are able to continue to learn, whether in person or remotely.
7/20/2020 21:06:55	Sara	Winter		Pottawatomie	There are 5 active cases and zero hospitalizations in PT county. I feel it's time to open the schools here. Online learning was not adequate for the long run. Our teachers are not prepared to begin a school year with kids they don't know. It was different in the spring when they already had an established classroom.

7/20/2020 21:06:55	Bobbi	Eveland		Wamego	Please veto the governor's executive order. We have many children that are living in nightmares in their homes. Physical and sexual abuse has skyrocketed along with depression and suicide among of children. We need to get back into the classroom. Virtual education is no comparison for in classroom learning. Parents have to work outside the home to provide for their families. As a small business owner I had to take on a second job when our restaurant had to be closed for dine in. We were working so much to make ends meet our young son fell behind. No one cared he was missing several assignments. Our home has always prided ourselves on making education a priority, but it had to fall to the way side when bills had to be paid. Our situation is extremely mild to others, as many children lived in a complete nightmares that they suffered unimaginable trauma. That will never go away. Open schools. Planning for worst case scenarios should have happened in March. This push back in start dates will only open the door to go continuing to push back opening schools,
7/20/2020 21:06:57	Chris	Schremmer		Pittsburg	Please vote to overturn the Governor's order to delay the start of school. Our children need in person instruction, sports, and extra-curricular activities. The risk of the loss of these things far outweighs any risk to them from this virus. 0 deaths under the age of 25 have occurred in Kansas. Please send the decisions for school back to the local school districts to determine how to best implement the plan laid out by the State school board, and let parents decide what is best for their children.
7/20/2020 21:06:54	Glenda	Ruff	Myself	Lenexa	Please don't open schools while it is not safe. If you are meeting via zoom kids shouldn't be in school. If baseball games and car races are limiting the number of people allowed, kids shouldn't have school. If fairs and festivals are cancelled, kids shouldn't be in school. I hope you consider starting when it's safe and still going 181 days. School can last til July if it's safer. Thank you.
7/20/2020 21:07:00	Amy	Meng		Manhattan	Thank for taking this comment! I believe we need more time to communicate to need to do our part for the greater good of the community to get our numbers down to keep our kids safe and to listen health experts. My husband is a pediatrician and we have several nurses and doctor friends who are scrambling and do not know what they will do if school does not open, yet I do not have a choice and have to keep my kids at home because I am high risk for Covid. I know many kids and families who are wanting school to return to normal, but it needs to be communicated that we need to do our part, and this is a health crisis, it is not going to be normal. I have a senior this year, and the losses are great. But we have to think of the greater good and the long term effects our actions have and not put your decisions on families. We have to think of the cost and the effects on teachers to flip flop this year. It needs to be based on need, not choice. It needs to be delayed until Labor Day, so that the teachers and schools are prepared. Thank you!
7/20/2020 21:06:58	Colleen	Connor	Parents	Lenexa	I applaud the governor's efforts to push back the school reopening. This will give more time for the mask mandate to work and try to reduce our positivity rate. I have serious concerns for the safety of our students, teachers, and staff at the schools if we open back up while our cases are still climbing. I agree that students need to be in school but we need to listen to science and do it cautiously.
7/20/2020 21:07:03	Tori	Goetz	Parent	Oakley	I would like the authority of when to start school be decided on at the local level. Currently we have no active cases. It makes sense for us to go to school now as eventually we will need these two weeks down the road if our numbers of COVID rise.
7/20/2020 21:07:06	Staci	Petersen		Topeka	Although this has been hard on all of my kids, my oldest is suffering the most. He is 14 years old and has autism. He will be a freshman. He got little to nothing out of online learning in the spring. It is just not feasible for a lot of SPED kids. With these classes being much smaller, it would seem that they could at least have exceptions for these kids that need the special support provided by the educators that have been specifically trained to handle their disabilities. His regression will be bad enough, having had very little structure from March through May. But if this continues I have no idea how long it will take to get him back to where he had been prior.
7/20/2020 21:07:19	Dawn	Irvin		Clearwater	Children 5th and under shouldn't be required to wear the masks they will be more of a distraction than anything. Younger children are proven not to spread the virus or be infected or get seriously I'll like older kids. If you want the masks for faculty and older kids fine, but let the school boards decide what is best for their schools and let the younger kids focus on education not how they can mess with their new mask all day.
7/20/2020 21:07:32	Karen	Ulmer	Paraprofessional	Derby	Please start school I need to get back to work and get paid again. Since paras can't get Unemployment. Plus my kids are so ready to get back to school already. They miss their teachers and their classes
7/20/2020 21:07:33	Brian	Stromgren	Parent	Osage City	The classroom my daughter will be in is small and it will be very difficult for her to maintain 6 feet distancing.

7/20/2020 21:07:39	Kana	Hurt		Wichita	I strongly support delaying the start of school. It is so clear that the cases are increasing now and I am very concern to send my kids to school until we see actual number declines and school can provide safe environment.
7/20/2020 21:07:39	Elanor	Klenda		Marion	Wait to open the schools. Give teachers time to plan and districts time to collect the necessary materials. We need to open schools only when it is safe for everyone!
7/20/2020 21:07:46	Holly	Bradley	Parent in usd 233	Olathe	Please, do the right thing and give schools a chance to get the supplies and ppe needed to help protect teachers, staff and students when and if numbers of cases in our state decline and it is safe for them to be in the classroom.
7/20/2020 21:07:47	Traci	Rhodes	Teacher/Coach in Blue	Overland Park	Please delay until our numbers have drastically gone down and we can safely return to in-person education. This will be my 31st year to teach but I also have many autoimmune factors that now put me at a greater risk. Teaching students is my whole world. I can't wait to see them. Thank you for your consideration.
7/20/2020 21:07:55	Julie	Pickard	Parent and Teacher	Olathe	Please uphold Governor Kelly's executive order to delay the start of school.  I am a parent and teacher in Kansas. I desperately want my kids back in school this year. (I have a senior.) I desperately want to be back with my kindergarteners. (I cannot imagine what virtual kindergarten will be like.) I desperately want schools to open. However, I want us all to be safe. I think Governor Kelly's executive order to delay school is a fabulous way to give ourselves more time to hopefully decrease the number of Covid cases and SAFELY open up our schools so the most children and parents will be comfortable attending. Otherwise, I fear, we will be closing our doors after just a couple of weeks and many unnecessary positive cases.
7/20/2020 21:07:58	Steven	Craft		Tonganoxie	Sending teachers into classrooms is as thoughtless, irresponsible and wrong as sending children right now. Please do not start in-class classes at Kansas schools.
7/20/2020 21:08:36	Shelby	Deozier	Self	Coffeyville	I think school should reopen as normal
7/20/2020 21:08:38	Ryan	Campbell	None	Olathe	Please vote NOT to delay opening schools. Also, please do whatever possible to overturn the mandates that were put in place today. A reasonable approach would be to allow the guidelines be just that and not mandates. Local schools and districts should be able to make the best decisions for their students, teachers, and families, not a single person in Topeka.
7/20/2020 21:08:45	Melissa	Cramer		Ashland Kansas	School needs to start back up and no masks. It is our right to refuse that our kids have to wear a mask. We will move to another state if this happens.
7/20/2020 21:08:48	Achsa	Duncan	No One, but Children	Hugoton Kansas	Get Our Children, Back in School, They are the Important Ones, NOT Lazy Teachers, Good Ones Care!!!
7/20/2020 21:08:50	Brooke	Browning		La Cygne	I feel the recommended delay until Sept 9th is the correct action. This benefits students and staff alike, allowing optimal time for school districts to prepare not only for screening, but response to increasing positivity rates once school resumes.
7/20/2020 21:09:00	Rachel	Campbell	Sedan Elementary	Sedan	Our students need to be back in school. They have already missed valuable education time due to the covid-19 shutdown. Please get them back into the classroom and let our school year go on as planned.
7/20/2020 21:09:04	Angela	Krug		Olathe	Please, for the safety of students and educators, delay the opening of schools until after Labor Day.
7/20/2020 21:09:04	Lisa	LaRocque	My family	Cawker City	There is no evidence that COVID 19 is any more dangerous for our kids than the flu. Of course there are exceptions but so is the case with the flu. We have more treatment and knowledge than we did in March. Open schools on time and without requiring masks for those who are healthy. Temperature checks are fine but requiring masks is not healthy and has no benefit to children. Let people decide for their own families.
7/20/2020 21:09:05	Angelica	Stieben	PTA President	Colby	I I believe school should begin in August as usual. I don't think postponing the start will bring any added prevention.
7/20/2020 21:09:07	Jamie	Brusin		Overland Park	Yes the schools should stay closed until after Labor Day and until the number of cases has gone down and stayed that way for a reasonable amount of time. Kids should not be forced to wear a mask in their face for 8 hours a day in a small classroom
7/20/2020 21:09:08	Sherri	Perkins	Parent	Wichita	Return to school on time with out face mask requirements
7/20/2020 21:09:15	Valerie	Chapple		Roeland Park	Preparation is key. With districts just now being able to put plans in place, the front line teachers and staff need time to implement and lesson plan (and creat backup plans) for the coming year.  Please support the Governor's decision to delay school openings. Thank you.

7/20/2020 21:09:19	Joann	Soderlund	Teacher/USD 409	Leavenworth	I'm asking that the 2020/2021 school year start after Labor Day. Please give districts a chance to make plans and gather PPE. Please give the curve time to flatten. Please protect the lives of Kansas children and their teachers.
7/20/2020 21:09:26	Ashlee	Johnson		ANDOVER	Kids should be going back to school and not in masks! I am all for giving parents the option to send their kids to school in masks or keep them home but it should be an option not a mandate. Kids cant wear a mask all day, they are constantly touching it and pulling it down and it loses any kind of medical benefit. Wearing a mask in PE is risking their health especially kids with asthma like mine. Please give parents the option to not have their kids wear masks and to choose to send their kids to school full time, if a parent has a problem with it they can keep their kid home. Parents cannot afford to stay home and teach their kids any longer, this is causing so much stress as they lose pay and benefits. Employers are only going to be understanding for so long and daycare is not affordable for everyone, especially one that can do their online learning with them. Please vote to not enforce the mandate and formulate a plan that puts the kids back in full time with no mask mandate but giving those that are worried the ability to have their child wear a mask if they want and to keep their child home.
7/20/2020 21:09:26	Melissa	Schwindt	Educator / Parent	Valley Center	These kid's need to be in school. Their social/emotional well-being trumps any unreliable covid test! Our data is not reliable. I will be checking into private school if I do not see our schools are doing their part to keep school normal. Teacher's cannot teach in a mask. Students will not focus in a mask. Hand sanitizer every hour is toxic! Let's stop with the political agenda's and get back to life! These kid's are all over and everywhere all summer. Spending nights with friends, playing sports, shopping, daycare, swimming. Open up our schools. Compromise immune system is an excuse. What have the compromised done all these years they were surrounded by influenza, pneumonia, and other viruses and bacteria. If they are so compromised they cannot do their job, just like any other job, they should find another. This is not insensitive, it is LIFE. Our children need normalcy. They need on-site education. No masks, no hand sanitizer, on-site learning, virtual if need be.
7/20/2020 21:09:34	Angie	Ross	USD 437	Topeka	Please do NOT delay the opening.
7/20/2020 21:09:40	Val	Reiss	Wallace County Commi	Weskan	Our county currently has had zero Covid cases. This is a restriction our county does not need currently. When it is needed, our county will adopt it
7/20/2020 21:09:42	Patricia	Myers	Rice County Special Ser	Lyons	I would advocate for a delayed start to the 20-21 school term. Cases are climbing, in the age ranges of young and old, in our small county/community. Hopefully the cases will decrease in order to allow us to open schools with a flattened virus outbreak. Being allowed time to prepare for students and the increased requirements will hopefully allow us to continue flattened virus numbers in our communities.
7/20/2020 21:09:45	Rick	Dirks	Office Solutions, Inc	Medicine Lodge	Three weeks won't do anything, open the schools. You have had all summer to figure it out.
7/20/2020 21:09:53	Steven	Tieszen	My family	Newton	The mandate to require masks affects those who are already disadvantaged unfairly. The governor removes her mask when she makes a speech so that those who are hard of hearing are able to read her lips to assist in understanding. The logic of that applies to children in school especially the younger ones who can not read yet. If you mask all of the students you exclude those who need to see others mouths to assist in understanding. The exclusion does not help these people who are in need. There are those children who have hearing impairments, and there are children who are developmentally delayed that need to see others mouths to learn to speak clearly. If this mandate stands the state is not abiding by the rules for least restrictive environment. The state is in fact hurting those who need help.
7/20/2020 21:09:53	Laura	Croley	Derby USD 260	Derby	kids need school for their mental health. Let the ones who want to stay home stay home and do online. My special needs child gets nothing from virtual school. Daycares are still open. Schools need to open.
7/20/2020 21:09:53	Rocky	Lochhaas	KCKPS	Kansas City	I am a teacher in KCKPS. I implore you to delay the school year until after Labor Day in order to give time for the cases to decline in our area and for administration and teachers to plan and be trained in proper safety measures.
7/20/2020 21:09:54	Natalie	Post	None	Saint George	Being on the front line, being a dental hygienist and also part of the covid testing, I feel and several of the doctors I worked with feel, kids need to get this and develop a natural immunity! Let's not wait until flu season to open up schools and sports! If you are immune compromised take precautions! I have risked my health for 33 years being face to face with patients, if I can work everyone can work! Let's have faith and stop dumbing down our children! Open everything!

7/20/2020 21:09:59	Meliss	Modig	KNEA—Public School	Topeka	Please support this Executive Order. I am a teacher and am so worried about the spread of COVID-19 and it's health effects on students, staff, and their families. My husband is immunocompromised and I worry I will be exposed at school, especially after social distancing so much this summer. The delay will give educators a chance to implement our plans and look over the KSDE recommendations. It is about keeping Kansas safe.
7/20/2020 21:10:10	Elizabeth	Mlotkiewicz	USD259 and my Family	Wichita, KS	Please accept the Executive Order to delay school to give us time with an actual plan. We have spent all summer waiting for guidance. It JUST came out. We need time.
7/20/2020 21:10:11	Eunice	Dokko		Mission	Based on current and projected data, it is not safe to reopen school buildings for face-to-face learning and a delay to the start of the school year will help districts adapt to the guidelines only recently released by the state. Please consider the significant risk to students, families, and school staff if Governor Kelly's executive order is not approved by the board. Thank you for supporting the executive order to delay school start dates!
7/20/2020 21:10:24	Jen	Spilker		Olathe	I support the governor's decision to delay the start of school in order to give schools time to best prepare for in-person and virtual school. Please consider that there are many teachers, staff, and family members who may be more profoundly impacted by students attending in-person school without proper guidelines in place. Thank you
7/20/2020 21:10:33	Cassandra	Ware	Wellsville Middle School	Wellsville	Please do not open schools until after Labor Day. Our positive Covid-19 cases are on the rise. I work as a para, at Baldwin High School, and my daughter attends Wellsville Middle School. I don't want to put either of us at risk, nor do I think opening back up is the right call for our teachers and staff.
7/20/2020 21:10:36	Mark	Congdon	Cair Paravel Latin School	Topeka	Respect the local school boards. They are in place for a reason. Delegate the decisions of opening date and safety precautions to them!
7/20/2020 21:10:51	Colleen	Markman	Havencroft Elementary,	Olathe	In order for our district and teachers to have adequate time to secure resources, materials and teachers to plan procedures, protocols and lessons to meet the mandated safety guidelines, the start date of school needs to be pushed back until after Labor Day
7/20/2020 21:10:52	John	Gray	Children	OVERLAND PARK	I appreciate that there are many differing and sincerely-held views on how to best and most safely educate our children during this challenging time. As a parent of son with special needs, I believe that the continued school closures are taking a greater toll on our kids' emotional and mental well-being than the physical risk that such closures are intended to alleviate. In addition to the educational value of being physically in school, a big part of public education is also the social and interpersonal interactions and opportunities for extra-curricular activities, such as band, choir, sports, etc. To the physical risk that is being cited as the reason for the governor's order, I see no realistic medical end game that justifies the continued closure of school and the required physical separation of children from their teachers and fellow students. A continued delay will simply mean a spike later when things open up. For those that are not comfortable sending their kids to school, a high quality remote learning OPTION should be offered (NOT REQUIRED). I respectfully ask that the board vote against the governor's order and PHYSICALLY OPEN OUR SCHOOLS in August. Thank you for your consideration.
7/20/2020 21:10:59	Taylor	Smith	USD 512	Prairie Village	Today (7/20) Kansas recorded roughly 1,300 new Covid cases, a number that represents the dire situation our communities are in and have faced since March. Prior to Governor Kelly's executive order to delay the start of school, it was unclear whether or not our district (SMSD) was fully prepared to safely open schools in August. Safety must take precedent when it comes to opening schools, as the loss of a student, teacher, administrator, coach, or other school personnel is unacceptable. As a teacher, we did not sign up to go into a battle field, but to create a safe and loving environment where students grow their potential. We simply cannot do that if we don't have the necessary time and supplies to make our schools safe for them. That said, I ask that you place your fears of "government overreach" aside and support Governor Kelly's executive order. After all, liberty is ultimately lost if life is not protected.
7/20/2020 21:11:10	Charlotte	Hall		Hudson	If masks & social distancing really work, then we need to start school on our scheduled August date. Classified employees are counting on this too for their paychecks! They've been unpaid all summer & this is not much warning for them to have planned for an additional 2+ weeks off unpaid.
7/20/2020 21:11:18	Danielle	Schumacher	Parent	Hays	Delay school is fine with me so they can figure out what's going on and how they will do school. The MASK thing is flat out stupid! No kid will be able to focus. I have kids with speech issues, and a boy who thinks its fun to Jack around with thr mask chew on it, put it over his eyes, on his head use it as a sling shot you name it! Total over reach by the govenor

7/20/2020 21:11:35	Ken	McRae	I'm a parent	Overland Park, KS	I am in favor of delaying the start of the school year. New cases of COVID continue to climb and it is reasonable to believe hospitalization rates and deaths will skyrocket in the coming weeks. This delay will allow everyone the opportunity to get more information before deciding if it is safe to resume in person schooling as usual or if adjustments will have to made.
7/20/2020 21:11:36	Patsy	Bastin		Haysville	Delaying schools means there will be less total school time period. Schools will close undoubtedly during flu season and it makes no sense to close in late summer- districts have had 6 months to prepare and 3 additional weeks is ridiculous. Get these kids back in school- you are harming them by not!
7/20/2020 21:11:42	Rochelle	Cannon		Shawnee	I think schools should be online only for the first semester.
7/20/2020 21:11:50	Karrie	Hammeke	Parents/Students	Great Bend	The deadly risk for children is so low that they are more likely to die on their drive to school then from this virus. Don't fall for the fear-mongering. Look at the data. And please consider their mental and social health as well when you make this decision - they are just as important. Thanks for your time.
7/20/2020 21:12:04	Kayla	Tottress	High School Student in	Kansas City	I have asthma which is a underlying health condition. My school is hosting 1000+ students when the max size is 750. Having students compacted in such a small space will increase covid cases. There is no absolute way to stop the spread by gathering at school again, you dont know how students or who students interact with outside of the building. Online Learning is your best bet. Students will not willingly wear a mask all day long, they just wont. Someone will argue their freedom whether to wear a mask or not. Someone will cough on some as a joke but it could mean life or death. There are too many variables to open back up the buildings. My school, or my district, is not the cleanest. We regularly run out of soap, tissue, and we dont even have paper towels. This should be more than enough evidence, so I rest my case.
7/20/2020 21:12:12	Melissa	Bush	I am a parent and a sub	Wichita	We should definitely wait until after Labor Day. We should really take our cues from other big cities and close for the semester.
7/20/2020 21:12:15	Ashley	Miles		Overbrook KS	We support delaying school.
7/20/2020 21:12:22	Jesyka	Stifter	Prairie View	Parker	I believe schools should open with safety precautions in mind. I have a 2nd grader and 7th grader and they both need to be in school. I also am a teachers aide and believe the students I see on a regular basis need to be in school. Their academics and social/emotional needs need to be met. Both my children struggled with "isolation" from their peers/teachers. Online schooling for middle school was awful and I'm hopeful we never have to travel that road again. I understand the seriousness of the virus but we are not teaching our children anything by keeping them home.
7/20/2020 21:12:25	Kara	Chapman		Manhattan	Please support the Governor's EO. It will allow more time for schools to plan and hopefully allow the virus cases to decline. There is not enough testing available to quickly quarantine and contact trace, at least not in Riley County. Being in school at all costs doesn't help kids mental health. Nothing will be traditional about in person teaching and learning this fall. A few weeks delay won't hurt any of us. Thank you for considering this EO order.
7/20/2020 21:12:34	Kristin	Allan	USD290	Ottawa	Please return students to schools. Resume all classes, activities and sports. Allow local boards to determine what is best for their community and how to keep their students and staff safe. I believe that students are suffering by a delay in their educational process, not only academically but emotionally.
7/20/2020 21:12:46	Kyla	Knapp		Sterling	With all due respect, schools need to open on time! This time of "social distancing" has been hard on children and parents alike. My husband and I have been working the entire shutdown, without a work at home option. It has been such a burden and expense finding childcare for young, school age children, not to mention the guilt of feeling responsible for our children falling behind due to limited home school time due to being "essential." They need to be in school!

7/20/2020 21:12:47	Laura	Colon	parent/educator	Overland Park	<p>Please support Gov. Kelly's move to keep schools closed until after Labor Day. The additional 3 weeks will give the staff time to prepare for the multiple senerios they will face in the coming school year. This will also allow time for COVID19 cases to come down, so our children and staff will be safer.</p> <p>Kansas children will NOT be behind their peers nation wide, as the entire nation is facing the same problem. Many states do not start until after Labor Day anyway, and our students have always preformed well against those states. I see no reason why a delay of 3 weeks would change that.</p> <p>Our teachers already hold many hats but one of them should not be "front line" worker. While my children's teachers love them, they should not be asked to put their life (and the life of their loved ones) on the line to this invisible enemy. I understand there are concerns beyond education that need to be considered (access to technology for distance learning, meals for at-risk children, etc) but, right now, everyone's health should come first.</p>
7/20/2020 21:12:51	Jessica	Pecenka		Spring Hill	<p>Please open the schools. Students need in person learning. Many pediatricians, healthcare organizations and professionals have said that the benefit outweighs the risk. By not allowing students to go to school you are putting them at risk for more consequences. The delay of school opening is not for the students. It is for the faculty. If masks actually work as some studies have shown, faculty can wear a mask to mitigate exposure. It is important to put process in place but it is just as important to get students back in the classroom to prevent further learning delays and social issues. If parents are concerned, there any many wonderful homeschool programs. Any thoughtful, forward thinking school should have been discussing plans and determining different learning solutions in the classroom since school was let out in March. Thank you for thinking of what is best for our children.</p>
7/20/2020 21:12:56	DeLynn	Farson		Abilene	<p>Will delaying school really make a difference in stopping the spread of COVID??? This virus will be around for a long time, why keep delaying stuff. School is extremely important for the kids.</p>
7/20/2020 21:12:56	Laura	Hoobler	USD 259	Wichita	<p>Please, let the numbers go back down before we head back into the schools. As a parent and a specials teacher there are so many potential contacts that could result in infection. It's 3 weeks, please, Gov. Kelly has the best of intentions.</p>
7/20/2020 21:12:58	Ashley	Clark		Emporia	<p>As an educator, I support Governor Kelly's order to delay the start of school. Given the increasing number of active cases throughout the state, we need a solid plan to address so many new challenges going into this school year. While I realize the need for students to be back in the buildings, I don't feel schools should be opened at the risk of the health a d safety of all of those required to make a school properly function.</p>
7/20/2020 21:13:01	Lisa	Renz	USD 489 teacher	Hays	<p>Please delay our start. Cases are in the increase in our community and those all around us. Allow us the time to safely open.</p>
7/20/2020 21:13:06	Madison	Handy	KCKPS USD 500	Kansas City	<p>We should go back to school after labor day with masks and sanitation measures in place. Virtual learning should be an option as well as in person classes.</p>
7/20/2020 21:13:07	Megan	Anthony	USD 500	Overland Park	<p>Please uphold both of the Governor's EO's (delay and then mask requirements once F2F school starts) for the heath and wellbeing of all students, staff members, and families.</p>
7/20/2020 21:13:16	Patricia	Perez Bellew	Olathe Public Schools	Kansas City	<p>As an SLP in Olathe I would like to ask that Laura Kelly's executive order be followed and children be safe in schools by either delaying the start of the school year and/or following all distancing and mask rules</p>
7/20/2020 21:13:14	Catherine	Ryan	I'm a Parent in usd469	Lansing	<p>School buildings need to stay closed until covid-19 numbers go down. People need to be safe in schools. In Lansing there is no availability to have social distancing with going back full time. Hybrid &amp; remote learning are the safer options and need to be mandatory. Also contact hours with the students need to be mandatory and have a plan for all teachers/staff to meet the needs of the students.</p>
7/20/2020 21:13:17	Gina	Galat		Olathe	<p>I do not feel that it is safe to send children back to school yet.</p>
7/20/2020 21:13:19	Amy	Goertz		67235	<p>I have 5 kids in school, and would like to see school start on time in August.</p>
7/20/2020 21:13:29	Taylor	Nading	School Speech-language	Manhattan	<p>A delay in the start of school will help us professionals that require close proximity (due to the various disabilities we work with) to come up with the best possible solutions to working closely with students, whether that be a virtual set up or eventual in-person set-up. Thank you for taking public comments on this topic. I also appreciate how hard everyone is working to come up with as best of a game plan to keep everyone safe.</p>

7/20/2020 21:13:34	Stephanie	Manley	Myself	Lawrence	Please uphold the EO and postpone school until Covid19 decreases. Please give schools much needed time to plan, get PPE etc. You must put the Health and safety of Kansans first. If it's not safe enough for your board to meet in person, for ppl to meet for sports gatherings etc its definitely not safe for children to gather in schools! Thank you for your service.
7/20/2020 21:13:39	Stuart	Griffiths	My kids. They go to US	Riley	I hope that you all vote on the side of caution and affirm holding off school for several more weeks so that we can get a great start but a start that is relative to these unrepresented times. I would like to think we could take politics out of the equation and just leave the kids, teachers and all staff in the decision. Thanks for your careful thought out decision.
7/20/2020 21:13:39	Rebecca	Knapp	Parents	Olathe	Please, please, please uphold the governor's mandate. It is not safe to send the kids back yet and the schools have not released their plans to parents to decide whether or not they are comfortable sending their kids to school in person. Please do what's right and give them a bit more time.
7/20/2020 21:13:48	Rachel	Ebert	Elementary Teacher and	Lansing	A delay in opening schools can only benefit our students and at this point. With only weeks remaining and no solid answers or plans in place, school boards are left scrambling to put detailed documents together in order to be prepared for school openings in whatever fashion. As a teacher, I still have no answers to all of the questions I have, so cannot begin to plan yet. As a parent, I have no solid answers as to what options are being offered for my children for the upcoming school year. What I do know is that Covid numbers in our area are rapidly increasing and it is the job of community leaders to keep children safe. Scrambling to put things together and hoping it will work is not the way to safely send children to school. Data is all is that is talked about in school systems, so let's look at the current data and listen to the medical experts here. School calendars can be adjusted and student contact hours still met. The safety of students, teachers, staff, and ultimately the community is what is most important.
7/20/2020 21:13:49	Cassie	Phye	USD 382	Pratt	please keep our kids safe! No school before September 8th!
7/20/2020 21:13:53	Stephanie	Fawcett		Eudora	Please send our children back to school in person on August 13 as originally planned. While our district did the best they could under the circumstances, online learning was less than satisfactory, and the lack of structure and socialization is detrimental to our children's health. We have a lot to make up for due to the last quarter of last school year being online and we need to get them back in the classrooms where they can learn.
7/20/2020 21:13:57	Michelle	Motsinger	Auburn Washburn NEA	Burlingame, but I teach	Please give us time to plan and prepare our return to school by delaying the school start date until after Labor Day.
7/20/2020 21:14:00	Michelle	Graham	Kansas City Kansas Pub	Kansas City	For the safety of all, school needs to be delayed for at least 9 weeks. The trauma of dying students and teachers would be unbearable.
7/20/2020 21:14:02	Brian	Stromgren	Teacher	Osage City	As a member of our Back to School Task Force, I am well aware of the Navigating Change document. Our district is having difficulty obtaining hand sanitizer to fill the sanitizing stations. The extra lunchroom tables will not arrive prior to our August 14 start date. Teachers and administrators need additional time to plan for the unknown.
7/20/2020 21:14:06	Connie	Evans	Teachers	Lansing	Stay closed until after Labor Day
7/20/2020 21:14:16	Trista	Williams	John Diemer Elementary	Overland Park	Please uphold Gov. Kelly's decision for a late start so our schools can be prepared and our teachers can be fully trained to put practices in place.
7/20/2020 21:14:18	Jenny	Molina		Plainville	I believe school should start on time this year. Students are already behind from the end of last year. Personally my kids have said multiple times they didn't learn anything with distance learning because they were just trying to get the work completed and done so they didn't have to worry about it.
7/20/2020 21:14:26	Marta	Silva	Olathe Schools	Lenexa	As an educator and a mother of a 13-year old in the OSD I would like to express my support for governor Kelly's executive order to postpone the reopening of our school until September to lower the number of current infections and prepare for the different scenarios we will for sure encounter when we return to school. Please protect our communities in these uncertain times.
7/20/2020 21:14:27	Shauna	Churchman	Teacher USD 323	St. George, KS	Give local school boards full control. All districts should NOT be treated the same!
7/20/2020 21:14:32	Kelli	Thompson		Olathe	I think the delay is important. With the school year so closely approaching, it will provide schools time to prepare for the safety guidelines. Also, as mask mandates are just beginning, the CDC says 4-8 weeks of mask wearing will drastically help. Starting after Labor Day will give the mandate more time to show improvements. The delay is only about 14 school days for my district. This is not a detrimental amount of time.
7/20/2020 21:14:37	Yerrie	Morris		Olathe	Stayed closed until after Labor Day! Then start virtual!!

7/20/2020 21:14:46	Lorna	Ford	No organization	Jetmore	Please follow the Governor's EO and open schools after Labor Day. This gives schools time to put together a well thought out plan that will work, not one we hope will work. Hope is not a plan!
7/20/2020 21:14:48	Andrea	Carr	District 500 Early Child	Shawnee KS	I live in the Shawnee Mission school district but work in the Kansas City Kansas Public Schools (Dist. 500). I work with pre-k students in a special education collaboration classroom. I am highly concerned for the health and safety of the students and staff I work with. The ability to "social distance" is hardly applicable to the age range and developmental capabilities of my students. Many require hand-over-hand instruction, adult proximity and other modifications that require less than 6 feet to use. Until we can guarantee that every student can safely return to school without needing to be 6 feet apart and not being able to touch our students to help them successfully participate in school; we need to implement on-line platforms. These platforms were helpful and created a safe way for students to participate and engage with their peers and teachers in March through the end of the year. Parents also participated and were very involved.  Please consider the health and safety of all students and staff- including those who work in early childhood. It is not possible to properly teach 2, 3, 4 and 5 year olds without being in close proximity.
7/20/2020 21:14:57	William	Beck		Chanute	Open schools at the normal time
7/20/2020 21:15:01	Charleen	Stessman	Public schools	Topeka	Please delay the start of school till after Labor Day to give schools time to consider how to open safely.
7/20/2020 21:15:04	Sarah	Rudman		Palco	I am in favor of opening schools as usual, without informing the executive order that Governor Kelly just placed, masking kids 5 and older. I think it is an order that will potentially lead to more deficits among our children. How are the kindergarteners going to be able to study and learn phonics when their teachers mouth is covered. How about the 1st graders learning sight words and annunciation? I fear heat exhaustion when they go out and play. I fear more germs getting to their face with a mask on than without a mask. I am a nurse and I touch my face more now than I did at the beginning of March before I was told to wear a mask for a 12 hour shift. I appreciate your document sent out prior to the Governor postponing school, advising certain things pertaining to school. I, however, feel very strongly against masking the children. My children to go a small school, their class sizes are small and I don't see wearing a mask as a necessary recommendation. Thank you for your consideration and I pray for all of you and your families during this trying time.
7/20/2020 21:15:08	Kathy	Goetsch	USD475	Junction City	I am a 2nd grade teacher and I love my job and even more than that, I love the students and adults that I get to interact with on a daily basis. With that being said, I believe that it is NOT safe to bring students and adults back into a school. I understand that parents need to go back to work and they want their kiddos to get the socialization they absolutely need, but what they don't understand is that coming back in the middle of a pandemic that is getting worse not better, will not result in the socialization they think will happen. Instead the children will be kept 6 feet away from each other and their heartbroken teachers who can't tie their shoe for them or hug them when their feelings are hurt. I love my students and cannot wait to be able to teach them again and be able to do things the way they should be done, but now is not that time. Thank you for thinking about all of the teachers and students and putting their safety first and postponing the opening of schools until after Labor Day.
7/20/2020 21:15:12	Natalie	Gladstone		Goddard	Not a good decision. There have been many daycares and camps open without problems. Sports without problems. 40,000 kids at the YMCA youth area and no problems. Open our schools on time. Especially for parents that both work.
7/20/2020 21:15:14	Timothy	Hamm		Ottawa, KS	The order to keep the schools closed is in the best interest and safety of the children and adults in our state. This is my adamant plea to ask you to accept the governor's recommendations.
7/20/2020 21:15:19	Samantha	Cheek		Eudora	This is ridiculous! There is no way you can expect children at that age to wear a mask practically 7 hours a day! You don't want social gatherings of more than 10 yet you want to put 20 or more students in a classroom together! If school is not done online I will home school my child!

7/20/2020 21:15:26	Traci	Mayberry	constituent	Basehor	With many family members and friends that are educators, their health and that of everyone who would be inside a school building, is of paramount importance to me. I implore the Kansas State Board of Education to comply with Governor Kelly's EO to delay the opening of schools until after Labor Day (Sept. 9). This delay would have minimal negative effect on schools and allow districts to more effectively prepare for the possible in-person classes at that point. Politics should NOT have any part in this decision. It is a PUBLIC HEALTH issue and the KSBOE will be held accountable for every illness or, even worse, death that occurs as a result of allowing thousands of people into enclosed buildings where social distancing will be impossible, masks will be played with more than not, hygiene will not be guaranteed and teachers will be asked to manage a pandemic instead of educate students. Returning to school may eventually work for some communities, but the larger cities are currently experiencing dramatic infection increases. Pay attention to the SCIENCE and MEDICAL EXPERTS. Put politics aside and do the responsible thing and allow the governor to lead this state. If she's mistaken, it's on her. If she's correct, we ALL benefit.
7/20/2020 21:15:37	Brian	McDanel	Mill Valley High School	Shawnee	I hope the state school board votes this executive order down and schools begin on time. Administrators have been working on this for months. The plans are in place. We don't need a few more weeks. Let each district implement their own plan. Education is a local endeavor. Blanket edicts for such a diverse set of districts shortchanges and disempowers the local people elected to make decisions for their communities.
7/20/2020 21:15:42	Jeanette	Stromgren	Parent	Osage City	Please delay the start of the school year until after Labor Day.
7/20/2020 21:15:58	Samantha	Abel		Spring Hill	Delay schools- support Kelly!!!! Give schools a fighting chance.
7/20/2020 21:16:12	Jessica	Steinbarger		Andover	I have wrestled with whether returning to school is the right thing for students or not. On one hand, you have students not in school and potentially missing out on a few educational opportunities. On the other hand, you have students in school who will potentially be exposed to a virus, along with the adults around them. The question I have continually asked myself is, "What is going to be more traumatic? Students missing out on some instructional time, or students losing an educator / friend / family member because we returned to school too quickly?" In my mind, it will be far more traumatic for a student to lose someone they love. We can always catch students up on what they miss (in fact, as educators, we do it all the time anyway!). What we cannot do, is take away the pain from our students when they lose someone around them. What we cannot do, is ask them to learn while they are grieving. What we cannot do, is tell them that their lives and the lives of those around them are not important by not doing absolutely everything in our power to protect them. PLEASE. Delay the start of school so that we can make effective plans to protect our students. Thank you for your time and for what you do.
7/20/2020 21:16:17	Anne	Rogers		Plainville	-A Fourth Grade Teacher I think you should let schools start when they are suppose to and sports too. These kids need to be in school and not at home. NO MASK
7/20/2020 21:16:18	Mandy	Ballenger	None I'm a parent and n	Wamego	I think the best option is to delay the school year until after Labor Day. I have a compromised immune system and I am being put at risk because parents will send kids to school that my have Covid and not have symptoms. And I don't care what people say, there is no way to keep track of all the kids wearing masks or making sure they wash their hands. And there is no way to keep the students 6 feet apart. It will be best to delay school for the heath and safety of students, teachers, and family members!!
7/20/2020 21:16:25	Aaron	Parr	DOD civilian	Buhler	Yes I believe that school should be delayed until after Labor Day for the safety and concern of the students and teachers. Even if that means school doesn't end until sometime in June.
7/20/2020 21:16:26	Deb	McManus	Teacher for USD 437	Topeka	I agree with Governor Kelly. I think we need the time to prepare for the kiddos to start school.
7/20/2020 21:16:29	Shelby	Bruckerhoff	Parent of school children	Wamego	To try to forcibly continue to deny my children their right to a free and appropriate public education after already taking valuable months away is a gross misuse of power! Students have already missed months of valuable instruction, social skills, and social emotional development. I BEG you to vote down this mandate as well as the mandate requiring masks and forced hand sanitizer every hour! I am fighting for my children's right to their educational in the least possible restrictive environment, which does NOT include a mask, but I also feel that I have to speak up against the government trying to make blanket laws telling me how to best parent my children! These mandates need to be stopped before more rights are taken away from us! Please vote to protect our constitutional rights!!

7/20/2020 21:16:32	Michelle	Schaal		Olathe	As of 7/15/2020 more children have died in the US this year of Influenza (ages 0-24 = 284 deaths) than from COVID 19 (ages 0-24 = 179) There have been approximately 30 million positive Influenza reported versus 3.6 million COVID 19 cases. (Reports from the CDC) I feel strongly that our children need to return back to a normal school year. The continuation of delaying the school year will adversely effect our children mentally. Children need & crave peer interaction. They also need structure that a normal school year provides. Please let our kids be kids & begin & maintain a normal school year. Thank you
7/20/2020 21:16:35	Zach	Brown	South East of Saline	Assaria	We talked tonight with our kids about the governor saying they will have to wear masks, we have 3 kids ages 11, 9, 7. 7 year old was in tears because she hates wearing a mask just in the time we are at a store. They were excited to go back to school now they are just fearing it, not because of covid, because they are dont want to wear masks. Please get rid of this requirement.
7/20/2020 21:16:37	Lisa	Gamber	Kansas	Hutchinson	Please keep schools closed until after Labor Day, this will save lives!
7/20/2020 21:16:41	Elizabeth	Peuser		Stilwell	We are in a time of so many unknowns, however, it seems as many think they know all of the answers. I will not claim to be one of them. What I do know is that we are not out of the woods with this pandemic. I personally know more individuals that have been diagnosed with COVID-19 in the last three weeks than I did the previous twelve weeks. Some of these have been hospitalized and some have been children. I support the executive order to delay the start of school in Kansas. It is important to use these next six weeks to reduce the number of COVID 19 cases in Kansas and allow the schools to get the proper equipment to safely return to school. Please think about the children, their parents, their grandparents and the school staff, their families, etc. Each and every one of these individuals deserves the best that can be provided for their safety.
7/20/2020 21:16:55	Disha	Gaba		Overland Park	Safety of kids comes first and foremost. I support delaying the 20-21 K-12 School Year and providing virtual options for kids learning
7/20/2020 21:16:57	Beth	Gonzalez		Ottawa	Please vote to delay schools reopening/ face to face learning.
7/20/2020 21:17:01	Wendy	Isle	My children	Coffeyville	Please do not delay until after Labor Day. People will have more time to vacation and spreading around more. If parents want to wait then let them take the remote learning option so the ones who support onsite learning can get this school year going and students back into a learning routine. Thank you for the opportunity to express our families opinion.
7/20/2020 21:17:06	Chase	Winters	Self	Mound Valley (USD 50)	As a healthcare worker seeing things first hand and the effects that COVID-19 can have on the lives of all those it affects. I support the executive order to postpone the start of school later than usual and the higher restrictions on masks and cleaning. However, if you are going to start school again, I suggest extending all breaks and giving people a quarantine period so they can see their families during Christmas break. I personally know of some people who have immune compromised family members that they will not be able to see until next summer due to the risk they would be putting them at. It is highly possible that schools will become hotspots for COVID and it will set our country back. We have more cases currently than when we started and I think that all people in charge should take a step back and see what effects the politicization of this virus is doing to the citizens of Kansas. We should be working to eradicate the virus. Putting more restrictions in place should be a top priority. You should also consider doing this year strictly online of mostly online to protect the teachers. Teachers are not babysitters and should not be an innocent pawn in this that does not have an active day in what happens. Leadership needs to open their ears and listen to how this virus will affect teachers. You should protect your staff, not put them at risk. It is 100% possible to do all learning online this year until the virus passes. Also, sports should not be a top priority. It seems like that's all the leadership cares about. Please reprioritize.
7/20/2020 21:17:07	Lindsay	Bench		Wichita	As a parent, and a teacher's wife, please, please support the governor's order. I am deeply concerned for my husband's safety. His resources are already stretched to the limit in his work. Please give his district time to gather their resources, to make back up plans, and to make back up plans for the back up plans.
7/20/2020 21:17:09	Kristi	Jacobs		El Dorado	Please delay school reopening. It does not seem safe right now for the kids to all be back together. My husband and I work full time and my son needs to be around his peers but our kids aren't guinea pigs and it needs to be safe for them to go back. Until Kansas gets its numbers down please keep them home.

7/20/2020 21:17:16	Debbie	Miller		Olathe	The schools need to reopen on schedule. The student's academic, social & mental health needs depend on getting back in the classroom with a routine as normal as possible. If the governor is going to "mandate" temperature checks then she also needs to be able to fund them & realize the amount of lost instructional time it will take.
7/20/2020 21:17:18	Kathleen	Varberg		Leawood	I would like to voice my support of the executive order. As a 1st grade teacher I cannot imagine returning to the classroom at this time when we are continuing to see spikes in our coronavirus cases. We know that distance learning is nowhere near as effective or equitable, but that is the only form of instruction that would be safe for all involved at this time. We need more time to get Covid cases under control and districts need more than two weeks to finalize, communicate, and train staff on plans to return safely, given that the state's recommendations were released only a week ago.
7/20/2020 21:17:23	Pam	Fish	Olathe school district pa	Olathe	Please delay the start of schools until at least after Labor Day. With rising COVID-19 cases, it is not safe to send students back to school. Thank you.
7/20/2020 21:17:24	Krista	Neifert	USD 443	Dodge City	I think it will be nice for teachers to have that extra time to plan for all of the changes. I am very nervous about going back to school. I think that kids, even with instruction, are not going to follow all the protocols all the time. Sicknesses are always sweeping through the school.
7/20/2020 21:17:28	Abigail	Matulka	Blue Valley Schools	Olathe	Please keep schools CLOSED until after Labor Day. Common sense must play a role. Covid cases are rising in record numbers. Virtual learning is an option while we stay out of school for a short period of time. If we have this option, why can't we take advantage of it? I don't feel comfortable being surrounded by hundreds of students each day and then going home to my family. My dad has cancer and faces many health issues as a result. I cannot see my dad if I return to work. I also have a four month old baby. We don't know how Covid affects infants.
7/20/2020 21:17:32	Bhusan	Chand		Overland Park	Yes, I support the current delay. However, we must look at starting a well structured Virtual program soon.
7/20/2020 21:17:37	Madalyn	McNally	Teacher	Kansas City	As a teacher with a few years of experience, I fully support the delay of beginning in person instruction. I have had class sizes of 37 students before, and I do not foresee the likelihood of consistently successfully monitoring large class sizes to ensure the health and safety of all students and staff. I am personally not comfortable returning to in person instruction when the amount of COVID-19 cases is continuing to increase daily.
7/20/2020 21:17:41	Alison	Evans	My children	Lenexa	Please vote to keep schools closed until after Labor Day. This gives our schools a chance to keep our kids safe.
7/20/2020 21:17:53	Gail	Whitley	Elementary school	Jamestown	I would like to see in building classes to begin August 11th as it was scheduled. If we do wait until after Labor Day to begin in class learning then I'd like to say I do not want to start with virtual. I'd rather wait and skip some of the breaks to get in our days.
7/20/2020 21:17:53	Lori	Clayton		Ottawa	I want the schools to remain closed. If my grandson gets the sickness, he could give it to me unknowingly. Accepting the governor's order is in the best interest of all citizens of Kansas.
7/20/2020 21:17:58	jennifer	brooks	parent of 5, K-12	abilene	Please allow the children to learn in person ASAP. What is to be gained from a 4 week delay? The virus won't magically disappear. I trust the American Academy of Pediatrics who have stated that children cause minimal spread. What is really going on here?
7/20/2020 21:18:01	Rebecca	Brewer		Olathe	I don't think delaying school 3 weeks is going to make any difference. Rip the bandaid and move on.
7/20/2020 21:18:01	Amy	Hyken-Lande	Self (Mental health ther	Overland Park	Propose splitting up the student body (a.m./p.m. sessions) for core classes (option of zooming actual class). Friday can be virtual for electives. Distancing, masks, hand sanitizer stations.
7/20/2020 21:18:05	Laura	Mermis		Lenexa	I do not believe that we should delay opening schools until Labor Day. Students are ready to get back to school and normal life. Masks and hand sanitizer should be sufficient. Thank you for your consideration.
7/20/2020 21:18:10	Karen	Siebert	My family	Prairie Village	Please follow the Governor's executive order to delay the start of school until after Labor Day, and to require masks.
7/20/2020 21:18:17	Gretchen	Farrell	My family	Olathe	Please do not punish our children. The data shows that under 70 in Johnson County has a death rate lower than influenza. We haven't cancelled life for other viruses. Let families choose what is right for their family. Freedom of choice is all we are asking for. If masks are needed, that is fine. Let these kids live!

7/20/2020 21:18:18	David	Moore	USD259	Sedgwick	I believe that schools should delay opening to help protect students and staff. With the number of students/staff in school buildings, it would be nearly impossible to create an environment that keeps people safe and healthy. There are also the issues of what happens when students and or staff get exposed to Covid-19 in the school environment and the impact that will have, such as required time away, contact tracing, and pay(for staff). Another evaluation should be done, after the delayed start, before in person school would resume to ensure that COVID-19 cases are trending down consistently.
7/20/2020 21:18:24	Ronda	Huber		Paola	I would like to see this passed. It gives schools time to properly prepare and gives us time to try to flatten the curve again.
7/20/2020 21:18:26	Kate	Steeves	Parent of three students	Wamego	Schools should stay closed until AFTER Labor Day! Please consider the health and wellness of students and teachers.
7/20/2020 21:18:28	Linda	Graff	My family of educators	Overland Park	The decision to open schools after Labor Day is important. It will provide additional time to weigh public input and the possibility of putting front-line teachers, paras, administrators, custodial staff, food services, nurses, bus drivers, clerical staff, etc. in harm's way during an uncontrolled pandemic. Children's education is important, opening the economy is important, saving jobs, too. However, the lack of control of this Coronavirus jeopardizes the safety of every adult involved in the process of in-school education at this time much more so than younger children. Does Kansas meet the CDC standards for opening? Fourteen days of downward trend of cases? Let's go back to the model originally posted to assure everyone there is control of this virus before opening schools. Until control can be proven, school opening should be delayed past Labor Day, if not for the entire semester or control of the virus is accomplished.
7/20/2020 21:18:31	Daren	Krier	None	Wichita	Please overrule the Governor's order to delay school. This decision should be left to each individual school district based on the current pandemic environment their district is facing. The decision should not be a state ruling, but a local decision by people closer to the situation in their community.
7/20/2020 21:18:35	Vanessa	Marks		Stafford	Comment removed due to profanity
7/20/2020 21:18:37	Laura	Delargy		Olathe	Please consider starting school on time on August 12th. I feel we need to get the children back in school for some type of normalcy and also for positive mental health.
7/20/2020 21:18:44	Kayla	Harrity		Olathe	Delaying the start of schools as long as possible is the right thing to do and I support it 100%. We should have at minimum a two week downward trend in new positive cases before considering any attempt at face to face instruction. I understand that there are many negative consequences to delaying the start of school and it is not an easy decision, but we have to keep the health and safety of our children at the top of our priorities.
7/20/2020 21:18:45	D	Clayton		Ottawa	Schools should be closed. It is best for kids.

					I am a self-contained special education teacher. I work mainly with elementary students who have an autism diagnosis. My students struggle keeping a sticker on their shirt - let alone a mask on their face. I once had a student rip the glasses off one of my paras because she usually wore contacts and he did not like that she had something on her face. My students need structure and routine. Online learning is not possible for my students. It was absolutely heartbreaking to try to work with them online - and to see them and their parents have meltdowns because they wanted and needed to be in school with their peers. As much as I want to be in the classroom with my students - I want us to be safe and healthy. This January I had THREE positive cases of the flu in my classroom (of 8 students) because parents gave their child tylenol in the morning so they could come to school without a fever. I do work with students who have weakened immune systems. If parents continue to send their children to school with minor illnesses, how do I know they will keep them home if they have COVID or have been exposed to COVID. I want to be back in the classroom. I NEED to be back in the classroom... we're going on 5 months of being out of the classroom. However, with that being said when we go back, I want to make sure the correct procedures are in place. I will have a senior in high school this year in my household. He already missed JR prom and track season. He missed out on welding and lifeguard training - something he was very passionate about. I cannot see him also miss out on football, wrestling, homecoming, and prom his senior year because we rushed back to school and had to close down again. 3 weeks is not going to make a huge difference academically, but it will make a huge difference to teachers and school districts to have more time to prepare and train in order to keep our facilities clean and safe. We need to focus more on mental health and physical health. This has been an extremely traumatic experience for a lot of students and parents. Please, just let us have the extra 3 weeks to prepare. Accept Governor Kelley's order for schools to start AFTER labor day.
7/20/2020 21:18:46	Neeley	Walgren		Haysville	
7/20/2020 21:18:50	Barb	Moody	Classroom teacher	Topeka	Please support Gov. Kelly's delay the start of school until it is safe for teachers and students to be face to face.
7/20/2020 21:18:50	Maggie	Matteson	USD 305	Salina	As a para educator and a student in TAP program getting back to work inside a classroom is important finically and for my education.
7/20/2020 21:18:53	Caroline (Laine)	Waldron	USD 232	Shawnee	As a high school senior in the USD 232 district, I ask that you please consider the health of the teachers and students as we jump into such an uncertain time with the beginning of school. The schools need more than the time they have now to gather the supplies needed and nail down a strong plan to move forward with. Delaying the start to after Labor Day would satisfy those needs and would make my peers and I more comfortable going into our last year of high school due to the additional safety measures taken. We want to be protected and thought of as well as the teachers and staff in every level school around the country. Please put health first and realize that delaying the start of school would be the safest option.
7/20/2020 21:18:57	Brad	Smith		Gardner	This is LUDICROUS. Has the governor worn a mask for any extended time? Has anyone noticed how difficult it is to even speak with a mask on? What about children who wear glasses? They will suffer all day long with fogged up glasses not being able to see the board or their work. Stop the insanity. Quit living in fear. Drop the mandates all around. If people want to live in fear and torture themselves with masks, fine. But don't force others who are level headed and not screaming the sky is falling like Chicken Little to do the same.
7/20/2020 21:18:59	Deidre	McNamee		Plainville	Open our schools and give us the option to follow the mask mandate.
7/20/2020 21:19:01	Nicolas	Carr		Topeka	I think this is right choice. We are worse off now than in March so sending students into a confined area will be disastrous.
7/20/2020 21:19:03	Susan	Reazin	elementary teacher and	Lyons, KS	Schools should be delayed to give staff appropriate time to adjust to the guidelines set by KSDE Navigation Change document.
7/20/2020 21:19:10	Brittany	Brenner		Overland Park	If my job won't even have 12 professional adults meet in a single room for 45 minutes (and that's with masks and social distancing), why the heck would I want my kid to be in what will probably be a worse situation?? They'll have more people and probably all kinds of issues keeping masks on and social distancing respected (and anyone who believes who believes otherwise has completely forgotten what it was like to be a kid). Not to mention I'm immune suppressed and what germs will he bring home to me... keep our kids safe! A 2 week delay is absolutely nothing compared to sick or dead kids.

7/20/2020 21:19:14	Jessica	Rush		Colby	Please allow our kids to go back to school. They need to be in school! Also, please allow them to have extracurricular activities. They learn so many life lessons from them. It also gives them motivation and ambition to do well in school! I am a working mom and see how much all my kids need the interaction and structure. Thank you.
7/20/2020 21:19:16	Priscilla	McShane	Usd259	Wichita	Please abide by the order to delay school. Starting after Labor Day will be better for our students and staff in the long run. Teachers need the extra time to prepare for whatever this school year may bring.
7/20/2020 21:19:16	Faith	Bilyeu		Shawnee	Kids need to be in school and play sports. Mental health is just as important as physical health! Thank you
7/20/2020 21:19:24	Tina	Summers		Overland Park	Please keep the governor's order as she issued it.
7/20/2020 21:19:32	Brianna	Wolf		Hill City	Kids NEED to get back to school. My kids have been out of school an entire month longer than other kids because we went on their first vacation. Upon returning, we were quarantined. On the last day of quarantine, school was canceled. If they are out of school for the entire month of August, they will have been out for SIX MONTHS! The amount of education lost that I cannot give them while my husband and I work full time (also necessary to provide for our family) is heart wrenching. Every year kids lose a little bit over the summer. This summer, though, the kids are losing a LOT.  Kids have to be in school. Kids need to learn. They need to grow socially. They need the STRUCTURE that school brings. We can't find daycare so we have kids staying home alone. That's not structure. That's unsafe.  There are Kids that are home not getting fed. Kids are home getting abused. School is their safe place and right now they don't have that. We can't keep waiting. We need to start. The kids need the schools.
7/20/2020 21:19:33	Jeannette	Bryant	None	Lawrence	Please follow Gov Kelly's opening schools plan. Better yet, wait until October. Our children and teachers and staff deserve to be treated with the respect and the SAFETY they deserve.
7/20/2020 21:19:42	Misty	Poe	Teachers	Holton	Vote against the state mandate. Give local government the power to decide what is best for them. Delaying the opening of school is probably wise for larger school districts. However, small districts with few cases in their county could open with very low risk. Give the choice to the local governments.
7/20/2020 21:19:59	Ben	Rivers		Wichita	First, thank you. This has not been what you thought you were signing up for, I bet. Hopefully you have a lot of well thought out responses to read, so I'll try to keep mine short. Please vote to start after Labor Day, so that our school communities have time to implement "Navigating Change." Schools are flexible and can pivot, but that time will allow them to fully realize the best way forward for their communities under "Navigation Change." Also, the numbers have to come down. Wichita is too close to capacity to handle the unknowns that will come as kids go back to school. And Wichita is a hospital hub for a lot of the surrounding area.
7/20/2020 21:20:06	Bobbi	Koreen		Topeka	Do not delay the school year!!!
7/20/2020 21:20:13	Laura	Huffman		Kansas City	I support the governor's order to delay school opening until after Labor Day. I have 2 elementary school students and I am not comfortable with them returning to school in a few weeks due to the Covid-19 virus spreading too fast. I am happy to keep them home an extra 3 weeks to give my school district extra time to prepare for the school year. Please vote in favor of the order.
7/20/2020 21:20:18	Kelly	Roberts	Family & teacher	Shawnee	With the rapid increase in covid cases, our staff currently does not have the provisions or safety training necessary to return to in person school before Labor Day. We have all been poring over the 1000+ document on guidance for reopening, but no one knew exactly where we would stand in August regarding cases locally. Our district spent money to procure a better online platform and some safety gear. However, we are not ready to see kids safely in just a couple of weeks. Teachers have been working all summer, as have our districts, but I think you can agree this had been a constantly evolving situation. We request that you approve the Governor's order to delay the start until Labor Day.
7/20/2020 21:20:22	Carrie	Fisher	Gardner Edgerton Public	Gardner	Allow schools to open!! Please!!! There is NO reason to have a state wide exec order keeping schools closed. The kids need to be in school.
7/20/2020 21:20:20	Ashley	Swanson-Hoye		Kansas City	With the continued rising cases of COVID-19 in Missouri I feel, as a parent to and entering kindergartener, that schools should delay opening. In addition, more support should be given to districts so they can facilitate strong online programs. The fewer children at school can help reduce the spread of COVID-19.

7/20/2020 21:20:24	Angela	Moore	USD 383	Manhattan, KS	<p>We teachers desperately need this time in order to be ready for the dizzying array of possible teaching situations. This year is more like going to battle than going back to school. It is frightening, stressful, exhausting and anxiety ridden. Most of us have not stopped working even though we are not on contract. We feel overwhelmed. Our entire district's elementary staff needs to be trained in the online software we will be using because none of us have ever used CANVAS before and didn't in March because our district hadn't decided then what online platform we were to be using. Also in March did not have the technology to roll out online. We did paper packets. As it currently stands we will receive training at the beginning of August with an August 6 start date. At that time we would have to be prepared to teach fully online, fully at school and possibly a hybrid depending on what happens with the COVID rates in Riley County. The speed and complexity of back to school is already causing teachers to melt down. The additional pressure from the national level adds salt and stress to the wound.</p> <p>We carry the love we have for our students and families but also the burden of responsibility we have to keep all safe and kids learning to the best of our abilities. The reality is we spent the whole summer trying to get ready for a million possibilities in a changing, turbulent, politicized crazy nation and pandemic. Districts are struggling, leaders are struggling. There are no good answers. We are having to be prepared for online, in school, half in, half out, and any number of things. We are having to write wills, prepare for the worst, figure out if anyone will buy us thermometers, learning to use online software we have never heard of, wondering how are spouses are going to fare if we end up on quarantine every other week. Wondering if we get COVID if our medical expenses are even covered, wondering what happens if there are no subs, worrying about being good teachers, worrying about parents, students, everything.</p> <p>I teach with good, strong hearted people and we are all falling down lately and cracking with stress. It is a lot, and as hard as this is, it is for the best so we can do our jobs well and keep our own families and loved ones safe (we hope). Please support Governor Kelly's suggestion to start school after Labor Day. We need it. We desperately need it. We want to teach with excellence and in safety. We need time to do this. This is a year like no other. I pray we can all take a deep breath, think creatively, get outside the box and get through this safely.</p>
7/20/2020 21:20:36	Courtney	Stone	USD 233	Olathe	Please vote yes to delay the start of school so we , as teachers, can have time to create virtual lesson plans to ensure education can continue at the level children deserve! This also allows for time for the percent of positive cases of Covid 19 to decrease.
7/20/2020 21:20:45	Brooke	Morrison	elementary school	Baldwin city	our kids need a 'normal' school year, in person for the full year, and the younger kids (elementary school) without masks. Kids have a very low transmission rate and should not put our faculty at any increase risk.
7/20/2020 21:20:48	Bailey	Thode	USD 259	Wichita	I do not support the Governor's executive order to delay the opening of schools. Our job as educators is to do what is best for students. I do not believe it is in the best interest of students to delay the start of school. They mental and physical health is suffering from not being in school. Our students with disabilities are not receiving adequate services, if any services at all. Many students live in home we're good is scarce or there is some of abuse happening. Many students need the consistency and security of school.
7/20/2020 21:20:51	Heidi	Weis		Mission	Please support Governor Kelly's exec order and delay school start until after Labor Day.
7/20/2020 21:20:55	Kimberlee	Gastineau	n/a	Olathe	Any delay will be a challenge, but safety first. It would be amazing if we could look at getting as much packed in before Thanksgiving as we can, then shut it down after Thanksgiving the way the colleges are, since we will be barreling into flu season.
7/20/2020 21:20:59	Ashley	Voelker		Palmer, KS	This should be based upon county by county and district by district. You should not shut down every school district because of the number of growing cases throughout heavily populated areas. We are in rural Kansas where we have had one confirmed case and the governor wants to delay us opening with restrictions. No no no no.
7/20/2020 21:21:01	Alissa	Williams	Parent	Cimarron	Open schools and no masks for the elementary kids

7/20/2020 21:21:02	Peter	Vanderhorst		Kansas City Kansas	<p>If it legitimately helps us reopen in-person to postpone opening until after Labor Day, then great. Children and staff will not have their educational, relational, emotional, or other needs adequately met by extended distance learning.</p> <p>While it is true that Covid-19 is a serious illness, it is also true that very few young people, especially at the elementary level, are contracting or transmitting the disease. Scientists believe this illness will be with us for the foreseeable future. We cannot shut down interminably.</p> <p>What's more, we are teaching young people to live in constant fear, instead of helping them understand that there is an element of risk in nearly all of life. Safety has become a god and we can't guarantee it. But we can help kids learn and grow, and the best way to do that is in person.</p> <p>Thanks for your service.</p>
7/20/2020 21:21:06	Jaimie	Hobbs	Teacher	Kinsley	<p>Schools should remain closed until after Labor Day.</p> <p>Please leave the school decisions up to each district based on their needs. Our county has only had two cases. I have a child going into 1st grade and another child in pre-school. These are such vital years in their development. My kids do not have IEP's and do very well in school. The transition to online learning this spring was hard for them. They didn't understand why they couldn't go to school and see their classmates and friends. Keeping their attention in online learning was nearly impossible. I have no doubt our school district did the very best with the situation at hand, but with my own children it was all review. There was no new material presented to them. It was all things they had learned. I don't see any benefit at all to delaying their school by 2-3 weeks.</p> <p>My 6 year old recently asked me how many "weeks" she had been out of school and when I replied "16 weeks" her eyes got huge and she said "why can't people just cover their mouth when they cough and stay home if they're sick". A 6 year old understands it. With our "distance learning" in the spring, I was providing licensed daycare to 6 students total, not including the other 5 children in my care. Talk about a lot on a persons plate. The parents of these kids were essential workers (I myself included, who works part-time at our local hospital). How is being in a daycare any different from school? In a daycare more toys go into children's mouths, they touch each other's things, drink from each other's cups. We stepped up our hand washing and covering our mouths when they cough and we have had 0 cases.</p> <p>This fall I am enrolled at the community college in the nursing program. I have worked for the last year to finish up my pre-reqs to be able to apply. My husband and I carefully planned out our budget so we could make sure we could juggle me working part-time, attending school and still having our youngest child in daycare while the older two attend school. As working parents, trying to better the lives for us and our children, we will not be financially able to pay for 3 children full time in daycare. This would be a huge set back as I have sold my daycare and taken a job only part-time.</p> <p>It would be one thing if it was just a 2 week delay, but in my personal opinion and others I've talked to, this is just a step for the governor to again delay more time once we approach Labor Day.</p> <p>Please do what is best for the children in our state and community for not only their education, but also their mental health and allow them to start school on time. The impact on their lives already missing this much in person learning is</p>
7/20/2020 21:21:10	Gabby	Roach	Daycare owner, health c	St. John	
7/20/2020 21:21:10	Jason	Parker		Vassar	I feel the order needs to be accepted to give the schools time to prepare for the new guidelines.
7/20/2020 21:21:22	Amos	Bazil		Topeka	Our students (my 4 children included) need in person education. Pushing the school start date or mask mandates with no end in sight, tangible targets or end dates is not a plan. Please open schools and educate Kansas children
7/20/2020 21:21:23	Chris	Krug	Myself	Olathe	It is absolutely in the best interest and most prudent decision to abide by the executive order and delay school opening. I implore the board to demonstrate their awareness and respect for our students and teachers.
7/20/2020 21:21:28	Vera	Daniels	USD 469 Lansing Midd	Lansing	Please vote to follow EO 20-58. Teachers need time to prepare for a school year unlike any they have ever had before. If we want to be able to offer our students the best possible education this year, we need time to prepare well as we have never had to deal with anything like this before. Please remember that this is a pandemic causing the problems and it has nothing to do with politics. Thank you for doing the right thing.
7/20/2020 21:21:29	Katherine	Herrenbruck	My elementary aged chi	Overland Park	Please uphold Governor Kelly's order stating kids won't go back until after Labor Day. This will be the deciding factor for our family along with masks being mandatory!!!

7/20/2020 21:21:39	Brandi	Y.		McPherson County	Please, for the mental health of our children, keep schools OPEN. Parents and children should be able to choose to school traditionally or online via their home. Please....
7/20/2020 21:21:41	Krysten	Hearron		Overland Park	As a Senior in high school I have already missed a very influential portion of my junior year which meant losing a lot of guidance for beginning a new step into college. Losing the last quarter of my junior year was something that I will not be able to get back, and not starting off my senior year on time will only lead to more stress for my class. Delaying school means extending it farther into our summer, which is the time we will be using to prepare for our arrival to our next step in life whatever that may mean. As someone who suffers from chronic asthma and other pulmonary issues, I cannot find a justifiable reason to continue with this order. If you must send us with masks that we will do it. But considering this disease is droplet spread and not airborne, if we have masks as previously ordered there would be even more lack of reason to send us to school. Just like every other disease to plague the US in current times it will most likely be around for a long time coming, and holding us back from social interaction at this point in time would be more for a political show than for the so called safety of the people being affected.
7/20/2020 21:21:53	Stacie	Palmisano	USD 233	Louisburg	Please vote yes, this virus is too dangerous and not worth the risk. My family, my students will bear risk.
7/20/2020 21:21:59	Laura	Kramer	parent	EDGERTON	Follow the governor's order; she is following the recommendations of scientists and medical professionals, and has the best interests of children, teachers, families, and communities at the forefront of her executive order. 7/20/2020 21:21:59	Anica	Henderson	America	Los Angeles	Education plays an important role in fostering individual well-being and self-fulfillment, maintaining social stability, and securing the future of a nation. No great civilization in the history of humanity has taken education lightly. <a href="https://www.theepochtimes.com/chapter-twelve-sabotaging-education-part-i_2636144.html">https://www.theepochtimes.com/chapter-twelve-sabotaging-education-part-i_2636144.html</a>
7/20/2020 21:22:12	Erin	Torres	Kansas City Kansas Pub	Blue Springs	As much as I am ready to get back into the school year and see all of my students again. I am in agreement with Governor Kelly's executive order to postpone the start of schools to give school districts the opportunity to better prepare for students and staff coming back into buildings where social distancing may be impossible in areas like classrooms.  I am a specials teacher, meaning that in the course of one weeks time I will see all 500 plus students at my school. I worry that I will be the carrier between classes. If our district requires specials teachers to travel from room to room I will potentially become a carrier spreading COVID from one grade level to the next. As the art teacher I would be bringing supplies that would need to be used and shared by all 500 students in the building through the course of a weeks time. I think giving Wyandotte county's numbers an opportunity to go down before we put students back into schools would be beneficial to the community.
7/20/2020 21:22:14	Mandi	Bega		Wichita	I'm a para with a high risk child. I don't want to have to decide between providing for my family and keeping my child safe. It's not just about the children; it's about the teachers, the paras, the secretaries, etc. We all know parents will give medicine to reduce fever and send their students to school. All it takes is one. Remote learning is the best option. The numbers are the numbers and we have to look at them. We can't assume that they are being altered and we can't make this political. ONE sick child can expose an entire school. It's not fair to put school staff lives on the line just so parents can go back to work. This is NOT the problem of school staff. This is a worldwide pandemic and we must treat it like that. In person classes are not safe and waiting until a couple days after Labor Day is not going to change that fact. People are gonna participate in one last hurrah and September will not flatten our curve. Plan ahead and make the right decision for our kids and school staff!!!!

7/20/2020 21:22:16	Page	Anderson	Mill Valley High School	Shawnee	Hello, thank you for taking the time to send out this survey and for reading over the replies. This upcoming school year marks my 6th year in education. I am an English teacher at Mill Valley High School. Since March, like many, our lives have been turned upside down. We have a 19 month old at home. Working from home with her was next to impossible. My husband, who works for an insurance company in KCMO, is also working from home and still is. As challenging as online teaching was, there was one positive, my family was SAFE. This upcoming school year and the situations and conversations surrounding it have caused me immense amounts of anxiety. The thought of going to a single building with 1300+ students and 100+ staff members is debilitating. I honestly do not want to go back - at least not at this time. Laura Kelly's decision to postpone the school year was a wonderful decision, it gives our district more time to plan. However, I believe we need to switch to an online-only format until at least January. Cases are still on the rise and people are dying. Absolutely NO STUDENT OR TEACHER should face that possibility. I miss my students and I am willing to what I can to help them, but I also need to keep my family safe. I hope everyone making these important decisions considers these statements when deciding on the fate of the 20-21 school year. Thank you.
7/20/2020 21:22:27	Emily	Wederski	Colby Public & Private	Colby	It is in the best interest of our children to start school on time and to NOT delay it any further. Delaying only hinders their future.  We also disagree with K-12 wearing masks. Take their temps at the door and let them in. However even taking temperatures isn't the solution. Some people run lower body temps than 'average' while some run higher body temps than 'average' and that's just their genetic makeup.
7/20/2020 21:22:28	Terri	Stein	Olathe School District	Lenexa	As a highly committed educator, I 100% support the delay of school until after Labor Day. This will allow a little more time to see if COVID cases will begin to decline once again. If not, I support virtual learning. Not only is there concern for students, but many live with extended family or grandparents. I also share concern with many colleagues over the safety of staff. Any death is another too many and the long term effects of the virus are still unknown. Thank you.
7/20/2020 21:22:30	Katy	Flentie	Teacher	Winona	Please be closed until after Labor Day. We have county fair this week. The likelihood of an increase of cases will extend into the start of our school year. Teachers also need time to prep for the additional precautions and create a smart and well thought process.
7/20/2020 21:22:35	Steve	McManus	Husband of a teacher	Topeka	We need to do what the governor put in her executive order. She does not need politicians to undermine her when she's just doing what is best for our safety.
7/20/2020 21:22:47	Chad	Schuetz		Kechi	I am a parent of 3 students in the Valley Center school District, my wife works in the Derby district and I'm an educator in El Dorado. With the recent guidance approved, having additional time to develop local plans would be welcome. With the majority of school staff coming back on contract in August, having the opportunity to fully develop and train staff on plans would seem best practice.
7/20/2020 21:22:51	Kelsey	Reynolds		Lenexa	I think all Kansas schools need to wait to open until after Labor Day at the earliest.
7/20/2020 21:22:51	Alisha	Holyfield	Lansing USD 469	Leavenworth	I support the Executive Order 2058. I agree that delaying the 20-21 school year will allow school building administrators, teachers, and staff to plan effectively for students safe return to the classroom as well as time to make sure protective measures are in place.
7/20/2020 21:22:55	Amber	Sonnenberg	Teacher	Garden City	Let districts decide what is best for their community. We are not having a spike here in Garden. Also delaying the 1st day will push us closer to beginning of flu season and with current regulations (temp check) could keep kids out of class. Sooner we get started the more time students can be trained on the online expectations in case they get quarantined.

7/20/2020 21:22:57	Dr. Annie	Hoekman		Abilene	I believe in the safety of all constituents! But this is not a one size fits all situation. If a district needs the time to implement or gain control over the spread, then they should have the right to open when they deem safe. But other areas are low infections, small schools, or maybe even ready to implement and open. Please leave it up to local school boards and counties. I do not understand the rationale or common sense of this eo. You have kids from primarily the same towns/counties who have not been out much mandated to start late, but will allow colleges and universities to open, most early, with kids coming from all over the states and other countries with no mandate to start late. School is a lot more than academics and assessments. A vaccine may do no good if antibodies are not being held in bodies that have tested positive. We have to get back to some normalcy and routine, even if the routines are new, for all families!
7/20/2020 21:23:03	Jennifer	Imhoff		Kansas City	Delay the opening of school or commit to online learning for the first semester and then make decisions for our children based on more COVID-19 information from our health officials. If children are our future, it's our responsibility to see to it that their future is the best.
7/20/2020 21:23:03	Angie	Malik		Ottawa	I don't agree with postponing or in-person opening the schools at all. They should start on time VIRTUALLY. It's not what everyone wants, but it's what everyone needs to do right now. Postponing them for a few weeks isn't going to fix anything or change the outcome, it will just happen later. The same way the numbers are now climbing and weren't in March. Money should be spent on broadband and getting internet access to every student, rather than cleaning supplies and masks. Too much time will be wasted in the school day disinfecting, hand washing, breaks, etc. If a student tests positive in the school...does the whole school shutdown for 2 weeks? Then after two weeks out, then two weeks back, another student or teacher tests positive...does the school shut down for two weeks again??? It couldn't just be a class, it would be every student and faculty... they all use the same bathroom facilities, lockerroom, gym, cafeteria, and school buses. Virtual is answer this year, there's no other way.
7/20/2020 21:23:14	Tanya	Rees	Blue valley school distru	Leawood	In person School should not be delayed past labor day
7/20/2020 21:23:16	Carrie	Brungardt		Goodland Kansas	Remember last years flu? It was a bad one. And it's being said the coronavirus is going to be worse in fall and winter. Although I believe school is very important for a child's stability as well as a safe place for many, we shouldn't put teachers or children in danger. As much as I want the two I'm raising, in school learning, I also don't want anyone to jeopardize a life. Adults or children. I think it's hard enough for teachers to teach...and now, having to deal with the virus as well. The safety precautions will be relentless. I want kids back in school for their sanity as well as my own. But, I'm definitely ok if they don't open. Prayers!!
7/20/2020 21:23:18	Garrett	Higgins	USD 331	Kingman	First off I would like to say that I am a teacher and not a doctor. Therefore I have no claim to know what is best for the health of the public. I do know that kids need school, teachers need school and I myself included need school. However, I don't know that they need school to start in the middle of August. The delay of school puts a major stressor on a lot of parents as to how to handle their kids while they have to go to work. I myself do not have that worry but I understand the concern. With that being said (and me not being a doctor) if the health of any Kansan is compromised due to returning to school then I don't know why we would. I want nothing but the best for everyone during this time. But I also do not want to compromise the people of my community. I realize this is something that affects my career and possibly my salary as an educator. I don't know what's best and I truly put my trust in all of you that are in the positions to make the correct decisions. I know it will feel like there is no correct decision no matter what is decided due to the hostility of the public outcry, I however am one resident that will support whatever decision is made. Thank you.
7/20/2020 21:23:21	Aly	Millert		Lenexa, KS	Please Delay the start of schools
7/20/2020 21:23:21	Megan	Carrier	USD 500	Kansas City, Kansas	It is not safe to go back right now. I want more than anything to teach my kids and hug them but now is not the time. We need to see a drastic change in cases. I teach Kindergarten and those little are not going to follow the necessary guidelines. I'm going to be teaching more hygiene than academics. Please, please wait until the time is right.
7/20/2020 21:23:39	Shaaron	Beye		Cherryvale	Please delay the start of the 20/21 school year. My husband is a custodian at the K-6 grade level. I have a compromised immune system as I have several life threatening illnesses. Delaying the year will help the administration get the necessary things it needs to help have a successful start of the year. Hopefully by starting school after Labor Day Kansas will see a decline in the number of positive COVID cases. Thank you!

7/20/2020 21:23:49	Megan	Campbell		Merriam	Please support the Governor's order. It just makes good sense. Three weeks is not a huge sacrifice if it means kids, teachers and families are safer when school does start.
7/20/2020 21:23:51	Tasha	Lara	Mother of a student	Havensville	Please listen to the Health Officials and do as the Governor recommends. Education can be taught a few weeks later if that means that the schools can be better prepared for COVID.
7/20/2020 21:23:56	Kelly	Stuck		Olathe	We are not prepared to keep students, staff and our community safe at this time. More time is needed to put safety measures in place.
7/20/2020 21:24:07	Jonathan	Dansel	Comment removed due	Sharon Springs	Comment removed due to profanity
7/20/2020 21:24:08	Rick	Perkins		Wichita	<p>Please reconsider mandatory masks for 5th grade to K. These teachers are going to have enough to do without constantly having to remind kids about masks.</p> <p>Many of these kids have been running in packs all summer already and have exposed each other daily, making there own collective if you will.</p> <p>Keeping in mind not all counties and districts have thd same problems and require local board solutions. That's why we have local boards right.</p> <p>Consider the pressure you put on daycare systems and providers with your decisions. In addition the pressure you put on working families with your decisions.</p> <p>Thanks.</p>
7/20/2020 21:24:08	Emma	Worley		Olathe	I believe this executive order should be upheld. Schools need more time to prepare their staff and Kansas needs more time to get their COVID cases under control. Schools are severely under prepared for what your asking if us. As a teacher I still don't know our schools plans and am expected to prepare everything with less than a month's notice. If I'm expected to be in a classroom I need time to make sure it is safe and ready to teach a group of children safely.
7/20/2020 21:24:07	Abbie	Emmons	n/a	Shawnee	Please support the delay in schools opening. I am sad because I do think kids do better in school, however I don't think it's currently safe for teachers or students. the COVID numbers in Kansas are alarming. I do think the state re-opened too early (back in May). I was so proud when Gov. Kelly issues stay at home orders in mid-March because I think that played a big role in us not becoming hot spots. We need to keep our teachers (and students) safe. It's not worth risking anyone's health. My husband and I both work and it's stressful to have to figure out how we'll manage, but I'd much rather figure out how to manage a delay in school than a sick family. Quite frankly, peoples reasons for wanting kids to be in school aren't strong enough for me. We can parent our own children and figure out a slight inconvenience until Kansas (all of it - not just JoCo) gets COVID under control. I teared up watching Gov. Kelly's announcement last week because I'm relieved we don't have to worry about schools re-opening yet. I will figure out how to work and have a kid at home a bit longer and appreciate our governors concern for health.
7/20/2020 21:24:38	Brenda	Gladfelter	USD437 employee	Topeka	Support delay until Sept. or until incidence is at an acceptable level
7/20/2020 21:24:45	Kelly	Wornall		Lenexa	The kids need to be in school. My fear is our governor will continue to push a start date. Kansas is not a one size fits all state. Options for learning need to be made and the governor needs to follow the direction of the BOE and medical advisors other than Dr Norman.

					<p>Opening schools shouldn't even be on the table right now. It simply is not safe. If we open right now, the way conditions stand, we WILL see a surge in cases and we WILL lose people. Teachers, staff members, students and family members of each will get sick and many will die. I understand the desire to return to normal, but normal isn't even a possibility right now.</p> <p>A return to school will mean the loss of proven, effective teacher practices and strategies as we attempt to enforce masking (because we all know how difficult it will be to ensure our students remain masked all day long) and social distancing (because we as educators know, having worked in these buildings, there isn't enough space, classrooms or staffing to adequately provide social distancing).</p> <p>Our schools are experiencing unprecedented overcrowding due to decades of underfunding and teacher shortages. These issues won't go away simply because we want to live in a fantasy world where normal is possible. In fact, "normal" has been inadequate for public education for a very long time. Teachers manage more responsibilities with less resources and inadequate salaries every single year and we're expected to do so with smiles on our faces.</p> <p>And now, we're expected to make do in a pandemic in unsafe environments, which, okay, we've all worked in those moldy classrooms in poorly ventilated schools with crumbling foundations, so a safe environment hasn't exactly been a part of our reality for a long time, but now we're talking an unsafe environment whose ultimate consequence could be death, and it's just not okay.</p> <p>We teachers have put up with a lot for a very long time. We accept the imposed guilt and the responsibility and we get to work every year with a can-do attitude, but we're now expected to not only risk our lives in doing so, but the lives of our students, our family members and their family members.</p> <p>In my case, I'm at-risk, as are my parents and my nephew. Going back to work will effectively end my ability to see them for the foreseeable future. It's unacceptable. Schools need to remain closed.</p>
7/20/2020 21:24:46	Amy	Culey		Kansas City	
7/20/2020 21:24:54	Amber	Neaderhiser		Parnell	Keep schools closed-SAVE LIVES.
7/20/2020 21:24:56	Jennifer	Forrest	Blue Valley Schools	Olathe	I'm a teacher and a parent in the Blue Valley School District. I support Governor Kelly's decision to delay going into schools until after Labor Day. We need to get our Covid numbers under control. I am a diabetic and do not want to be inside with a bunch of 4th graders not wearing masks. This is why I also support wearing masks inside the schools. I'm not comfortable putting my health at risk and feel safer if we all wear masks. It's a pain but it's a sacrifice we all need to make
7/20/2020 21:24:57	Lori	Allen	USD 500	Shawnee	Bring teachers back at normal schedule time per their contracts. Delay students starting until after labor day. Allow each district to decide on teaching format (in person, hybrid, remote) based on current virus trend for their area.
7/20/2020 21:24:59	Christy	Svoboda	Usd230	Louisburg is	Please keep schools closed till numbers go down. Online schooling please.
7/20/2020 21:25:04	Amy	Voelker	Preferred Pediatrics	Olathe	I support the Governor's mandate to delay the start of schools. As our numbers of positive COVID tests continue to rise from community spread it becomes less and less safe for our kids to gather in schools. We need more time to get spread under control, ramp up our ability to test kids rapidly and to implement the new guidelines for safety in schools. We need the State BOE to uphold the mandate statewide. Otherwise some districts will force schools open, increase community spread and jeopardize all chances for other districts to open.
7/20/2020 21:25:09	Stephanie	DeMaree	USD 500	KCK	<p>Please allow us more time to plan a thorough and purposeful plan, especially because our community has such a high amount of cases. I worry for my colleagues, my students, and my family. We did not sign up for this and it's unfair to allow the same people who called us superheroes not more than months ago, to now hold us responsible for the economy. It's not our jobs to risk our lives so that people can keep working.</p> <p>Thank you.</p>

7/20/2020 21:25:11	Darcy	Weaver		Olathe	I want my teachers to feel prepared and safe. This entire pandemic has been everyone looking out for themselves, not looking out for their fellow human. And not allowing our teachers the time to get into their classrooms and adjust is just disrespectful. These educators already are so giving of their extra time and give money when they don't have it. This isn't a joke, this virus. And everyone took it seriously in March and April. But now, it doesn't suit them. It's selfish. The virus isn't real...tell that to the 85 sets of parents in Texas dealing with little ones all having it. Or the campers in Missouri. Please listen to the science. Our governor is doing all she can to protect us. Please don't stop her just to for politics.
7/20/2020 21:25:21	Elizabeth	Rogers	USD 500	Kansas City Kansas	I agree with delaying the start date, to allow staff, teachers, And social emotional department plan and properly prepare on welcoming back our students. We also need time to learn how we are going to implement these new procedures. This is a trying time for everyone, and we all want our kids to have the best education. But let's not let the fear of our kids are not learning if they are not receiving face to face services. Just because a building is closed does not mean the kids are not learning online. I feel the delay is the best, as we still don't have enough information on how this virus effects kids. We need more time to plan accordingly to ensure everyone's safety, mentally, physically and emotionally.
7/20/2020 21:25:30	Travi	Robinson		Olathe	Please accept the Governors order. As a parent of a medically fragile child and an employee of the school district, I will not only be leaving a vacant position that my district will inevitably struggle to fill in a timely manner (because let be honest, there's not a big market to go into a Covid exposure guaranteed environment right now), I will be pulling my child from school. I simply cannot justify the risk this would subject my family to. I haven't seen my elderly parents since March. By sending my child and myself back into a building with over 600 people, I don't know the next time my daughter would be able to see her grandparents. She is their only grandchild. The state of Kansas is simply not ready to take on this dangerous and irresponsible endeavor and anyone who decides we are will most certainly have blood on their hands soon enough. Teachers are stressed, parents are stressed and being in a classroom with no physical contact allowed and masked for 8 hours a day isn't an environment conducive to quality education. Kansas can do better. Please, do the right thing. We only have one chance at this. Is rushing it really worth the potential risk? One death is one too many.
7/20/2020 21:25:31	Tiffany	Shields	My family	Overland Park	Thank you for considering our family/community safety. As much as we want the kids back to on campus school, it's not the responsible thing to do with the current surge in cases. Maybe we could have the freshman-Senior graduating credits reduced to 16--4 coresx4 years. We could go ahead and let the kids start virtual classes and then transition to in-person when cases are under control.
7/20/2020 21:25:36	Derek	Dillinger	Self	Stevens county	No reason for a delay, implement the safety standard and move on
7/20/2020 21:25:36	Erin	Fenley	Mother of K-12 children	Overland Park	If delaying the start of school until after Labor Day will ensure more safety for teachers, kids and administration I think the time allowed could be used very valuable. I am a healthcare worker and I feel at minimal risk in a hospital working with Covid positive patients or pending covid patients due to the safety measures the system takes and the training we have had. If the delay of school is pushed further back due to increased cases and in hopes the virus will decrease or I don't believe that is effective for our youth to thrive in this world/economy. I think all aspects need to be considered; safety, general health and mental health. As a healthcare worker I don't have the option to not go to work due to the potential risks. While I imagine more planning of safety measures need to be instilled and more training of teachers, substitutes, nursing, custodial services. Viable virtual options need to created or done through established systems. I believe schools should open before or after Labor Day, not without careful planning to minimize risks but open to allow kids the opportunity for on-site learning.
7/20/2020 21:25:38	Steven	Millert		Lenexa	Delay school starting until cases come down
7/20/2020 21:25:38	Sandy	Schadegg	Usd 102	Cimarron	Please follow the Executive Order and keep schools closed until after Labor Day. Thank you

7/20/2020 21:25:44	Karin	Clemmer	Parent	Salina	Children need to be back in school on time. They will have been out 6 months by Sept. They are going to spend a minimum of nine weeks trying to catch up on the classes/information they didn't learn last spring. Also when would they make up the weeks they'd be missing by starting a month late? These kids need the structure, routine, face-to-face learning that school provides. My son needs sports and the socialization that school provides. I fear the anxiety disorders and mental health issues that are being created in our children by promoting the fear, the OCD cleaning, and the masks. Regarding the mask mandate: the research is too inconsistent to make it worth the frustration. Teachers need to focus on educating, not masks. And really, let's be honest, our district has said they will provide one mask/gaiter per student- is that one mask going to have the saliva/snot/bacteria washed out of it every evening? The kids will be getting sick/spreading germs just from wearing a used/dirty mask.
7/20/2020 21:26:01	Shawna	Dutton		Lansing	My child needs to be back in school. She needs to be around people, not just those with whom she lives! She has been participating in sports all Summer with no incidents!
7/20/2020 21:26:04	Dawn	Sholtz	USD 473	Chapman	We need to get these kids back to school. Our children deserve a solid Education. They have already fallen behind. We need our leaders to be child focused. Options for the immune deficiency yes. But we need to get back to Educating. Safe yes. Perfect not possible. We are raising children to have limited choices for their futures by not providing the timely Education. If you plan to delay school then the amount of hours required will have to be changed. My children deserve a full education.
7/20/2020 21:26:05	Kim	Fink	Concerned Parent	Abilene, KS	Ask the true professionals, the ones in the trenches, what they think. Every teacher I've spoken to wants the extra time to plan how they are going to best teach our children, and go it safely. Let's trust them to do their job and get out of their way without micromanaging them.
7/20/2020 21:26:09	Laura	Wiltanger	Olathe School District-te	Olathe	Please uphold the governor's order postponing school until after Labor Day.
7/20/2020 21:26:10	Linda	Riedel	Retired Educator	Kansas City	School should be delayed until after Labor Day so that planning and safety are laid out to benefit teachers, students and parent. There is a lot on the line.
7/20/2020 21:26:15	Tina	DiMarzo		Larned	I work front-line in this whole COVID pandemic. I have 3 boys ages 5, 8, and 11. This is my youngest first year of full day school. There is no way he will keep a mask on. We went on an airplane just last week and it was a struggle for ALL my boys. I don't want him to hate school when it is just all starting for him. He needs social interaction and friends to play with. My 8 year old has autism. It's already a daily struggle with school WITHOUT all the extra now being put in place. He needs to be able to attend school normally. Learn to communicate and interact with peers. Changing everything is really going to mess with all the kids with special needs. My 11 year old - this is his FIRST year of middle school. He stated if they are going to make them wear masks and stay 6 feet apart and have all this stuff in place he would rather be homeschooled. I am truly hoping you open school. NORMALLY without all the extra precautions. I want my kids to be able to attend public school. The virus is never going to just disappear. It's like the flu. The flu kills thousands of people too. I think just the standard precautions of covering your cough, washing your hands, sneezing into a napkin is enough.  I am at the point of having to make the hardest decision ever. If the kids are going to have to wear masks, social distance, not have a normal everyday life, I will have to homeschool. This is breaking our kids down mentally! I pray you make the right choice for everyone involved. You have a lot on your shoulders right now.  Thank you, Tina
7/20/2020 21:26:28	Kelli	Cox	Parent	Olathe	Please accept Governor Kelly's recommendation. I have close relationships with many educators and school leadership on the Olathe school district that openly tell me they are not ready to open school in any capacity on schedule. As a parent, this give me zero confidence in sending my children back to school at this time. The school needs direction on how to prepare and turn adequate time to prepare. They haven't even opened enrollment yet, it continues to be delayed as they cant articulate what we are enrolling for. I desperately want my kids in school and to play school sports this fall. But I also think my kids deserve the best possible experience. Thank you for listening.
7/20/2020 21:26:29	Nora	Gibson	USD 383	Manhattan	I am a teacher and a parent. I feel it is very important to push the start date back to after Labor Day for many reasons. The main reason is this will keep schools from having to rush to get materials ordered and in place. And to revise their plans. It also Gives teachers extra time to rearrange classrooms and learn a digital format. I am also hoping with the delay it will give time to flatten the curve.

7/20/2020 21:26:30	Kaci	Crooks		Madison	A delay to the start of school is the right choice. Please don't force our teachers, staff and students into a situation that you know is unsafe.
7/20/2020 21:26:31	Melissa	Hewlett		Wichita	I feel like we need to consider the students and teachers and their health instead of worrying about not being in class. We all know there will be parents sending their kids to school sick. We can't afford that right now. We either wait to open now or close down in several months when the virus effects more than we care to see...
7/20/2020 21:26:33	Lisa	Duncan	USD 437 Teacher	Topeka	Please approve Gov. Kelly's executive order and delay the start of school until after Labor Day. Do not throw us teachers and our children into such an unsafe environment. All schools should start virtually until it is safer anyways.
7/20/2020 21:26:39	Jessica	Vaughn	Parent	Colby, KS	I do not support delaying the start of the school year
7/20/2020 21:26:42	Shea	Finley	Sacred Heart School	Colby	School needs to begin, without masks being mandatory!
7/20/2020 21:26:45	Kimberly	Caminos		Overland Park	I support delaying the beginning of the school year.
7/20/2020 21:26:48	Amanda	Stewart	Turner USD 202	Edwardsville, KS	I am a fifth grade teacher who does not feel comfortable going back to the classroom while Covid cases continue to rise. I think we are rushing this to help working families, however it will be impossible to adhere to social distancing guidelines. We are talking about children here. They are going to refuse directions. They will misuse masks. The virus will make its way into the buildings. Some will get very sick. Some will die. We are going to have an unprecedented need for substitute teachers, and our sub pools are already very shallow. We can't split classes to cover for these classes without teachers. I see huge problems in our future if we open up now. Please be responsible and wait for Phase 4 to reopen.
7/20/2020 21:26:51	Chelli	Cranmer	USD 385	Andover	Please delay the start of school until after Labor Day. I actually started to feel like it would be possible to start school with students in the building if we pushed the start date back so we could prepare and get the PPE and procedures in place. Don't make this a political decision.
7/20/2020 21:27:09	Danny	Driskill		Haysville	I don't see how it's even up for debate. Overall public health outweighs returning to school.
7/20/2020 21:27:11	Amy	Brownlee	Spring Hill Middle Scho	Olathe, KS 66062	Please uphold the delay to start school until after Labor Day! There is always SO MUCH to do to prepare for a new school year on a normal year, but this year we NEED extra time to open safely. My district is already making plans for staff to use this time to train for new protocols and to better prepare for possible hybrid learning scenarios.
7/20/2020 21:27:14	Anna	Kauss		Gardner, Topeka	Delaying opening is the best option in order to keep students and staff safe. They have family they come home to and it's the easiest way to continue spreading the virus.
7/20/2020 21:27:17	Jessica	Young		Tribune	I don't think schools should be delayed. I do think it should be up to individual counties/school boards to decide.
7/20/2020 21:27:23	Kara	Schridde		Great Bend	As a staff member in the school system I would like the opening of schools to be delayed in order to allow for more time to prepare for the safety of the students. As a parent of elementary age children I would like the opening to be delayed to allow more time to make a decision on whether to enroll my own children for in person or virtual learning. At this point, I am not comfortable with sending them to in person learning. I am also not comfortable having to go back to work in the schools and being exposed to so many students. Even if I choose to keep my own children home for virtual learning, I still worry about the risk of of bringing the virus home to them because I am forced to go back to work as a school staff member.
7/20/2020 21:27:26	Patty	Rogenmoser	Kansas school children	Topeka	Open schools on time! The governor's order is a travesty!
7/20/2020 21:27:36	Kaci	Crooks		Madison	A delay to the start of school is the right choice. Please don't force our teachers, staff and students into a situation that you know is unsafe.

					<p>This year I will kick off my 19th year as a third grade teacher in the Blue Valley School District. There is nothing better than Back To School time. The excitement of getting our classrooms ready and meeting our students for the first time is usually in the air this time of year. However, this year there is a very different feeling. Teachers and staff members are feeling anxious, nervous, scared, worried, and torn. We so desperately want to be in our classrooms with our students engaging them in meaningful learning experiences, but we don't feel prepared to do that YET! My district provides me with four professional development days before my students are supposed to walk through the doors to begin the year. On a typical year I can barely get prepared in those four days. How in the world will we be prepared this year? I am asking that you join with Governor Laura Kelly and postpone the beginning of the school year until after Labor Day, so schools can prepare for an amazing year ahead. I understand districts have started preparing, but teachers and staff members haven't even been informed of these plans. We need more than four days to learn how to put these plans into action.</p> <p>Not only am I teacher, but I'm also a mom of two elementary aged boys. Like most parents, I want them to experience the fun and excitement that we know happens within the walls of their elementary building. I just don't see how that can be done at this time in a safe way. Their classrooms are too small to allow for social distancing. My 6th grader will have 29 students in his class this year. How can they safely social distance with such a huge class size and a small classroom space? If their desks will even have room in the classroom, they will have to sit in their seats all day as many officials have talked about staff members moving to them instead of kids moving about. Kids haven't sat in one spot for longer than 30 minutes for 5 months. How will we expect them to do that for 7 hours a day?</p> <p>We don't need to race to the start line. We need to make sure we do it right. Extra time will help us get it right!</p>
7/20/2020 21:27:36	Erika	Haas		Overland Park	
7/20/2020 21:27:43	Diane	Meyers		Shawnee	Children should NOT go back to school until it is actually safe to do so. We should at least wait until guidelines are met for opening states as previously issued by the CDC. That means TWO weeks with no new COVID cases. We do not have the testing and contact tracing capabilities do otherwise. We should not be risking the lives of our children, teachers, staff and families of all.
7/20/2020 21:27:48	Cole	Ballard		Cimarron	How is covid-19 going to look or be any different the end of August compared to right after Labor Day? What then is the point for the delay???? Kids need to be in school at a minimum for their mental wellbeing. In addition, what is best for one district is not necessarily what is best for the next. Leave it as a local decision. Vote this ridiculous Executive Order down.
7/20/2020 21:27:49	Andrea	Heinen	None/ parent	Topeka	I would like schools to open if there is a way to safely do so. Middle school students could stay in the same room and have teachers rotate. Lunches should be done in classrooms. PE should be outside as much as possible. Masks should be mandatory for all.
7/20/2020 21:27:51	Chris	Donelan	Me	Colby	Do not delay let the parents decide what they will do with there kids
7/20/2020 21:27:53	Noelle	Sliva	I am an elementary educ	Olathe	I ask you to vote yes and stand with Governor Kelly's order to delay the start of school. As an elementary educator AND as a parent of an elementary student, I feel like the delay is absolutely necessary in order for planning and precautions to be put into the place to protect the health and lives of both students AND school staff. Without adequate time to secure safety materials/supplies, and thoughtfully plan out safety measures, I will not feel safe returning. We need time to be adequately trained to ensure that online learning will be high quality, as our students deserve the very best. I am also hopeful that the delay will also give time for the masking mandate to start to bend the curve. Please vote yes.
7/20/2020 21:27:54	Amy	Schmidt	USD 373	Newton	I am very thankful for the EO as our community spread is over 10% in our county. I think it is the safest move in terms of health for our entire community, not just the students and staff. We need to get this under control before we begin large gatherings as a school day would present.
7/20/2020 21:27:55	Mary	Enderud		udall	I would be interested in starting school up, maybe a hybrid plan that works for everyone involved.

7/20/2020 21:28:18	Teresa	Murray	Teachers	Olathe	As a teacher I do not feel prepared to return to school. Maybe our district is more prepared than I think but know nothing. Please don't play with our lives or the lives of our students and all the families lives. The numbers are higher than when we closed school in the first place. I'm ready to go back but it needs to be safely. I don't feel safe.
7/20/2020 21:28:20	Jeremy	Riggs	n/a	Olathe	Caution is needed. Please comply with the EO and delay school starts. Teachers and admin need more time to ready and prepare, and we need to get the virus better under control. Teachers and students' lives should not be put at risk.
7/20/2020 21:28:25	Hannah	Weller		Wichita	Please delay the start of school. Cases are on the rise and it is not safe for students and staff to be confined in a school for multiple hours each day. It's best to do a statewide mandate so that everyone is on the same page and our whole state is doing the same thing. Thank you for doing the only right thing. Delaying school will keep kids and teachers safe!
7/20/2020 21:28:32	Susan	Cruzan	Parent	Overland Park	I think this is so much safer for all to delay or start virtual learning!!!
7/20/2020 21:28:34	Gerry	Smith		Wichita	Please wait to start school until after labor day
7/20/2020 21:28:34	Hannah	Plank		Baxter Springs, KS	If you take into account when schools closed in March, to after Labor Day, it would mean kids would have been out of school for almost 6 months. 6 months. For many kids, that's 6 months without loving/trusting adults, routine, resources and regular meals. Also, look at the recent findings from Children's Mercy KC. Based on data compiled from all over the world, virus isn't transmitted among kids nearly as much as adults. look at the article. It's not the only one from reputable sources to say so.
7/20/2020 21:28:40	Melissa	Potter	Shawnee Mission School	Lenexa	We need to have rapid testing available for our teachers and students, we need to make sure our schools have PPE for staff, sanitizing materials and a plan in place for when teachers and students get sick. Substitutes are already in short supply-how do we make sure classrooms are covered when a teacher gets sick? School districts need this extra time to prepare to educate in a pandemic.
7/20/2020 21:28:48	Sara	Farrar	St Thomas Aquinas High	Overland Park	Please vote to open in person classes for our schools K-12. I am a teacher and mother of three in the Archdiocese of KCK. We need our kids in school. Mentally and socially our kids need to be with their peers. This is causing depression and anxiety among so many kids. Our Missouri neighbors are all going to school. Some of them live in Kansas and attend Missouri schools. Seems messed up. It is. Please help get our kids back in school ASAP
7/20/2020 21:29:01	Janette	Foster		Olathe	Please make a decision quickly so working parents can plan in the event there will be no in person school. I really hope that at least a hybrid/part time in person option is offered. Also I work with children with special needs who cannot learn remotely. Please consider an in person option for those children who cannot afford to lose a year of services.
7/20/2020 21:29:10	Antoinette	Vigil		Lansing	I do feel that schools should not open until after January. This will allow the residents to comply with the mask rule and hopefully the positive cases to go down. As a parent and School employee, I don't feel comfortable with allowing my children to go to school
7/20/2020 21:29:22	Tiffany	Smith	USD233	Olathe	Please consider delaying the opening of our schools. This is a pandemic and should be considered as one, not a political issue. I'm scared for the safety of my family, especially my children. We have worked so hard these past months to limit our exposure to this virus and opening schools now could take all those efforts away.  Along with being a mother, I am also an educator. As an educator I'm afraid of the lack of communication and training we have been given during this time away from school for what school structure could look like this year. This extra time could be used to prepare staff members so we are aware of the options given to parents and how it will impact us as educators so we are able to be the best we can be in this new situation for our students.  Please consider doing what is necessary to help the students and children of this great state. Take a stand and do what I right for the betterment of the entire state. Keep us, educators, students and Kansas families safe and healthy. Honor the Governors educated decision to delay the opening of schools.

7/20/2020 21:29:27	Kathy	Jones	USD 402 Augusta Publi	Halstead	<p>Please accept the Executive Orders given by Governor Kelly.</p> <p>As an educator who has been part of the Navigating Change process, schools need time to best prepare for face to face, hybrid, and remote learning.</p> <p>As an educator with autoimmune issues, I am concerned for my students, my colleagues, and myself. What good am I as an educator if I cannot do my job? I understand the findings from the American Academy of Pediatrics, but also know research on children under age 12 is changing almost daily. When I became a teacher, I took an oath, en loco parentis. I do not care to endanger any of my 400+ students.</p>
7/20/2020 21:29:47	Sally	Dennis	Retired teacher and gran	Overland Park	I fully support 20-58. Schools need to delay the start of school with the hope that our virus numbers go down and the schools can obtain the necessary material to begin face to face interactions.
7/20/2020 21:29:53	Renee	Neff	SMSD/Student	Lenexa	Please give this State time to recover from this outbreak. Your most vulnerable student's are counting on you to protect them from this virus. You can't protect them from much in this world, but you can try to keep them and the teacher's safe. That's the only way you can help save lives!
7/20/2020 21:30:08	Betty	Wheeler	Myself	Thayer	Let school districts decide for their own community schools. I'm a teacher. I've been stuck in my house for 5 months because of this "horrible" virus and I literally only personally know 1 person who has had it. I can't teach effectively with a mask and most students can't effectively learn online. Enough.
7/20/2020 21:30:10	Michelle	Vink		Ottawa	Our kids need to be in school!!!! This is not helping them, but hurting them!!
7/20/2020 21:30:11	Dr. Christopher	Smith, EdD		Wichita	School opening needs to be delayed until after Labor Day to give opportunity for districts to plan to implement the executive order signed by Gov. Kelly regarding safety precaution requirements. This will also allow for the recent influx of newly identified positive patients to seek quarantine and medical care and prevent further uncontrolled community spread. It is a win-win for schools and communities.
7/20/2020 21:30:12	LeAnn	Walters		Lenexa	I request that schools start sooner than Labor Day. I worry about the safety of some of our at risk students should we continue to delay in person instruction.
7/20/2020 21:30:12	LeAnn	Carlton		De Soto	Please do not open schools until after Labor Day.
7/20/2020 21:30:19	S	Leeds		Olathe	As a Kansas school district employee the extra time to ensure the safety of students and staff would be greatly appreciated. I do believe students need to be back in the classroom as long as it is safe to do so. Once all PPE is in place, teachers and staff trained on protocol then bring our beloved students back. We miss them! There are still so many unanswered questions, so many unknowns and things seem to change daily. A few more weeks to ensure the health and safety of our students and staff is worth the wait. Thank you!
7/20/2020 21:30:21	Leah	Bowers	USD 405	Lyons	I STRONGLY agree for the EO to be passed, delaying school until September 9th. Not only do we not know the long term affects of Covid-19, we have also seen a tremendous rise in cases since we first released school. The precedent was set in the spring when school in a physical setting was released and we went virtual. The additional weeks of prep and keeping an eye on numbers of cases will allow for more educated responses to the copious ways that schools will need to adjust. It is likely that the short delay will not even be enough.

7/20/2020 21:30:24	Kristen	McCullough	My children	Olathe	<p>It is well known that Johnson County, Kansas is a hot spot for COVID cases right now. It is also well known that our teachers, administration, and other faculty are not prepared, nor equipped to clean and teach in the buildings.</p> <p>As a para in an Olathe middle school, I'm not sure I am prepared to go back nor am I prepared to have four of my five children entering the public school systems that are ill equipped to guarantee our safety (within reason). Even if I don't have anyone in my immediate family that is at high risk, my fifth child will be staying with her grandma and grandpa who are both at risk, not only because of their age group, but also because of their health. May not sound like much but me, myself, I will have over a hundred contacts during a school day. Multiply that by four because of my four children in other schools who are going to all come back home with my fifth child and pass around whatever they've picked up who will, in turn, take that and pass it on to her grandparents.</p> <p>Do kids need to go back to school? Absolutely! Should they be going back right now? In the midst of an upswing in cases? Absolutely not! Please give our schools and teachers more time to prepare for what school will look like when we do return.</p> <p>I know that whatever choice you make, you're going to catch flack from the opposing side. I believe that whatever choice you make, you're making with the best interest of all involved in mind.</p> <p>Thank you.</p>
7/20/2020 21:30:25	Suzanne	Dewey	Olathe Public Schools	Shawnee	I support postponing in-person classes in areas that continue to have significant cases of Covid-19. I feel that schools are not able to successfully implement social distancing and other sanitary practices necessary to protect the students and staff.
7/20/2020 21:30:25	Crystal	Mason	KCK Public Schools	Kansas City Kansas	At this point we have waited so long to begin planning that if we were to start and had any type of virtual choice in August nothing will be ready and our kids will not be receiving quality instruction.
7/20/2020 21:30:26	Jody	Smith	Osawatomie public scho	Osawatomie	<p>I understand the risks but my kids are depressed due to not having activities, they have already fallen behind due to loss of 7 weeks of classroom time. I don't want them to fall further behind or lose interest in school period. Our small community hasn't been bothered by as many cases, as well as other smaller communities across the state. I believe it should be up the the parents on whether they want in class or online but school needs to start on time. These smaller schools have the ability to still be safe and have good practices in place. My poor kiddos went from sports everyday to literally nothing overnight due to someone else's fear! We cannot out run death, we will go when it's our time and if that means my kids get to go to school, participate in their activities and be happy then we will risk it! We are a very active family but the restrictions are causing mental health issues which is already a nightmare in this society so please give us our sense of normalcy back!</p>
7/20/2020 21:30:33	Tera	Jensen-Battese	Parent	Overland Park - Olathe	<p>Kids need to get back to school now. I have a middle schooler and a grandchild in elementary school. I see signs of boredom, inactivity (due to limited places open to go), social awkwardness and even depression/frustration. My middle schooler loves school but has a hard time with online learning as there is no motivation, no interaction and if there is a question, the answer is delayed on waiting for email response. There is not enough evidence to support kids staying home. How are they going to keep up at current grade level when not in school? Also hard to be part of a band when there are no members with you. These kids love school and I feel they are being held back and punished for an issue they have very little risk of getting or spreading. Our future generation is at risk of no independent future.</p>
7/20/2020 21:30:38	Lauri	Martínez	USD 501	Topeka	I support the governor. I think she makes a wise choice. I feel safer with her leadership. I believe that as long as there is a threat, school should not be in person and should continue with distance learning.
7/20/2020 21:30:38	Laura	Girard	Parent of incoming 6th	Olathe	Please support governor's proposal and show unity in our state. If school starts before districts are prepared it is a lose-lose situation.

7/20/2020 21:30:39	Rachel	Villareale		Bel Aire, KS	As a teacher and spouse of a school employee, I would like to see the State BOE support and adopt EO 20-58. I realize some board members want to put the onus on the local school boards to make the decision on when to start school. Gov. Kelly has utilized the top-tier people she has at her disposal (Commissioner of Education, various scientists, other industry leaders) and has arrived at this decision; she is uniquely suited to have access to so much information. If she has decided that this is the best route for our schools, I would hope the Board would trust the work she and her team have done to make this recommendation. Regardless of the COVID situation in all districts, teachers and all school staff need time to prepare to use the Navigating Change document released by Commissioner Watson last week, to gather necessary materials to open successfully (hand sanitizer, PPE, thermometers, masks, etc), and to be prepared to implement new protocols for a variety of situations. We know students need the social elements of school, but we also know that if we cannot meet the bottom-tier needs of Maslow's Hierarchy of Needs (notably safety needs), our students will not be able to learn to their best abilities, or at all. I know the discussion has included lots of references to data supporting that students are not likely to catch or carry COVID, but there is new information coming now that says otherwise. The adults in school buildings also do not operate in their own vacuums; we interact by necessity with other staff, and in many situations co-teach, so there is plenty of opportunity to spread there as well. Not opening as scheduled puts a hardship on many, but there are ways those in power can assist those people without opening schools. Thank you for your consideration of my thoughts, and for your service to both our profession and our state.
7/20/2020 21:30:42	Sarah	Salem		Ellinwood	I am strongly against the mask mandate in school and I am against the delay of school opening. This is just another virus, don't ruin our children over it.
7/20/2020 21:30:46	Becky	Campbell	Parent	Mulvane	I 100% support delaying the start of the school year. It will give districts time to finalize plans. I wholeheartedly believe parents and teachers are pretty evenly divided. Let the teachers who do not want to be in person stay home and teach virtual classes to the students whose parents do not want to send them back. Let the ones who do want to teach in person, or do not want to teach virtually go back to their classrooms to teach the students who need in-person instruction...for whatever reason.
7/20/2020 21:30:52	Monica	Apollo		Gardner KS	I am a physician assistant and mother of 2. My son 3 1/2 yo got into the peer model preschool program and my daughter 6 will be in 1st grade. As a healthcare provider I do feel school should be pushed back to start at a later date. We need to get numbers down before I would allow my children into before school programs/ bussing to school and into a classroom. We need to keep staff and children safe and let that be our number priority. I stand behind the Governor Kelly.
7/20/2020 21:30:53	Dawn	Conners	Individual	Olathe	Please don't delay school! Me and millions of others have safely worked thls whole time, and a lot of us without gloves/masks or bathing in hand sanitizer. I love my teachers and what they do but the drama of "we're not ready, it's not safe!" has gone on too long. My child and hundreds of others are ready to go back to school and there are medical experts that agree. Stop delaying the inevitable! For the vulnerable in our schools, please stay home and protect yourself. The rest of you sitting in fear while kids suffer, and you collecting a pay check, should be ashamed of yourself and possibly consider a new career. Remember "We're in this together" so get out there and work with our children - TOGETHER!
7/20/2020 21:31:01	Adena	Thiesen		Wichita	Please uphold Governor Kelly's order to delay the start of school. As a teacher and a mom, I am very nervous about the consequences of ignoring the science and placing politics above safety. I believe delaying the start of school will give the mask ordinances time to help slow the spread so that when we open we will be less likely to spread it at school. I also, as a teacher, would love the gift of time to plan and prepare for this unprecedented year. We need time to ensure the best and safest environment for students to return to. I believe this needs to happen state wide because it is only a matter of time for the virus to spread to smaller counties. Also, as our hospitals in Wichita are nearing capacity, there will be nowhere for smaller communities to send their most severe cases. Please do the right thing.

7/20/2020 21:31:02	Kiley	Moody		Wamego	I've been helping with physical activity opportunities for kids aged kindergarten to seniors in high school. They've been wearing masks since early July while working out and have complied and done great! Kids are willing to do whatever is asked so that they can play and be around their friends. I think school should be in session. For some children school is their safe place and is their only opportunity to end the cycle they are in. Also, we are living in our new normal. There is no guarantee this virus is going away and even if a vaccine is created, more than likely most people will not receive the vaccine. There is no discussion about this. Most everything I read will state...has been cancelled until there is a vaccine. What is the long term plan? We can't all stay in our homes! The young people are being affected by all of these decisions the most and don't have a voice. I urge you all to think about the young people. Thank you!
7/20/2020 21:31:05	Susan	Yates	Teacher	Ottawa	I am in favor of delaying the start of school. Our cases are on the rise, and there is so much we don't know about this virus. I will be in contact with 120 elementary students per day, and that scares me. My chances of contracting Covid through one of my students is high due to the number of kids I would be around per day. Additionally, if I was the one that infected a student which led to hospitalization or even death for them I could not forgive myself.  Additionally, I don't want to increase my chances of bringing the virus home to my son who is compromised with asthma and lungs that don't function at full capacity or my husband who own and operates a dairy farm with his father who is extremely compromised.  Let's play it safe and give it more time to learn a little more about this virus before putting everyone at risk.
7/20/2020 21:31:05	Wichita	Teacher		Wichita	Please, for the love of all that is good in the world, uphold the Governor's order. In-person school should not start until AT LEAST September 9th for the entire state. Individual districts with higher COVID numbers should then have the option to extend that start date later if needed. And, once schools do re-open, they must open to VIRTUAL ONLY learning until we have gone 14 consecutive days with no newly reported cases. That is the ONLY way to keep our students, staff, and families safe. Not following these common sense guidelines could lead to a serious teacher shortage - due to teachers stepping away from the profession, or quarantine and/or hospitalization from being exposed. We want to be there for our students, but in order to do that, we must be kept alive and healthy. Even police working-dogs are given the protection, and training, they need to do their jobs safely when they are issued bullet-proof vests.
7/20/2020 21:31:08	Adam	Clark	USD 500 Educators	Kansas City	Wyandotte county's Covid-19 numbers are the worst in the state and our state's numbers are one of the worst in the country. We should be starting back as remote/virtually only. Class sizes do not allow for social distancing. Please vote yes on the Executive Order.
7/20/2020 21:31:13	Lynne	Umscheid	Usd 383. Lee elementary	Wamego/Manhattan	Please protect our educators, students and citizens. Please support Gov. Kelly
7/20/2020 21:31:19	Allison	Mangold	Olathe School District	Olathe	Olathe School District most definitely needs the delay to better prepare for the school year. Because our district school board has not been able to give a definitive answer as to how we will be teaching this school year I feel we need the delay and then a decision by our board...allowing the time extension to better prepare for that decision and how it will be implemented
7/20/2020 21:31:26	Nicole	Chapple	Olathe	Olathe	Please delay the start of school - this is a scary situation for our students, teachers, administrators, and all staff. Show your support and care for those who would be, quite literally, putting their health & lives on the line. Thank you for your consideration.

7/20/2020 21:31:35	Stephanie	Wescott	USD 373 Teacher	Wichita	<p>To whom it may concern,</p> <p>Please support for Governor Kelly's latest order regarding delaying schools until Labor Day. I am a concerned 3rd grade teacher and I 10000% support her decision. We need more time to get our school prepared for a safe student return. Our virus infection rate also needs time to decline. Without this extra time, I am afraid for what would happen. It is not safe to go back to school right now. Her decision allows educators more time to put things in place that will make everyone feel more safe. Our school district just received the guidelines and is working on a plan to keep everyone safe, but it include building and purchasing things we just don't have enough time for. This order gives us that necessary time. I also support the mask mandate and temperature checks. I know many other teachers stand by her decision as well. Please take that under consideration when you are voting this week and please support our governors order. She is just trying to keep our students, teachers and communities safe. Isn't that what we all want?</p>
7/20/2020 21:31:36	Ashley	Oliver	Cheney Teachers Associ	Cheney	<p>Please overturn Gov. Kelly mandates, we have only 1 case and want to get kids in school soon before we have to go to a different model. Going to school in June is not feasible for our small farm community and the kids will need to work on the farms in June. I want it safe but we are not Wichita, etc. not the whole state is in the same boat as other cities. If you decide to NOT overturn it then I ask that you change the recommendation for school days and hours that are required. We are losing 21 school days by starting after Labor Day. The kids miss us and we miss them. Plus the kids are already all together and we are doing ok! Please again over turn her decision to get us in school now! Waiting until after Labor Day will only keep people going to the lake, large gatherings and parties.</p>
7/20/2020 21:31:37	Julie	Christlieb	Olathe West	Olathe	<p>Wait until after labor day</p>
7/20/2020 21:31:43	Mary Beth	Brown	Blue Valley School Dist	Overland Park	<p>The coronavirus counts in Kansas continue to rise. Please give schools the chance to be safe places for students and teachers, uphold the governor's decision to postpone the opening of schools until after Labor Day.</p>
7/20/2020 21:31:46	Michelle	Peterson		Abilene	<p>Open the schools. The numbers of positive cases are low. If we are allowed to have summer sports all summer then we should be allowed to attend schools. As a coach and a teacher, it is important to get these kids back into a routine. Kids need the food programs and even the simple safety of school because many home lives are not good! If masks are the answer, then let's wear them. However, delaying school is only going to let kids fall farther behind.</p>
7/20/2020 21:31:53	Faith	Scott	Brougham Elementary-U	Olathe	<p>I am a Counselor at Brougham Elementary in Olathe, Kansas. I have been in education for 22 years. I am also the mother of a 14 year old who is preparing to enter 9th grade, her first year of high school. Please, please allow us the additional time to adequately prepare for our students. We need the opportunity for our staff to unite, organize, and prepare. We desperately want to be together with our staff and students again. However, we are also very concerned that we will have all the precautions in place so we can all be as safe as possible. I want my daughter's teachers to be prepared and ready. As a counselor, I go back on Wednesday. I am fully aware of the social-emotional implications, which is why I believe it is critical we also consider the emotional health of all those involved.</p>
7/20/2020 21:31:57	Susan	Ellsworth	Parent	Overland Park	<p>Our state trends are moving in the wrong direction. Even areas that don't have much spread are likely to see activity soon. Until community spread comes down we cannot even think about putting our community together for onsite learning. Being unified in this decision from the top-down will not only protect our citizens but will also have the nation take notice that Kansas is not messing around, and we expect the entire country to work together to beat back community spread and get the virus under control.</p>

7/20/2020 21:32:00	Patricia	Betzold		Wichita	<p>This should be left up to the school districts, there are many counties in the state that have very few positive cases and it is unfair to hold them back because of other counties that have more cases. Those schools also likely struggle from a funding perspective and keeping them on course would be the best way to go. Not sending kids back to school is also going to widen the gap between wealthier and poorer children. Wealthy people can send their children to private schools, but the poorer community does not have this option. The same principle applies to wealthier families that don't have two working parents, one can stay home and keep a child on track but if both are working the child will have no one to work with them at home. Lastly, this honestly makes no sense, my husband and I both work, we've sent our children to daycare since the shut down started, also to summer camps and they've both played baseball. We've had no issues. I don't understand what the difference is between having a bunch of kids at school together and having a bunch of kids at camp or daycare together. If we keep kids out of school it's going to put the majority of the burden on mothers who already struggle with a gender gap at work most likely. There are already virtual schools in place for children who's parents don't want their kids to attend. But I really need my 2nd grader who struggles with reading to be in school. He needs a better chance to catch up to his peers and he needs to see his friends. Please give the schools and parents the choice. If you want to slow down the spread close the Bars...the majority of cases at this point are coming from younger adults who spend more time socializing.</p>
7/20/2020 21:32:03	Ami	Kenney		Olathe, KS	<p>Please don't make parents rush to make this choice for their children. Schools need time to come up with valid plans, we need time to look at the numbers of vivid cases, parents need time to make the best decisions for their children. Please delay opening of schools for the safety of our children.</p>
7/20/2020 21:32:19	Kimberly	Campbell	Family / parent	Olathe	<p>Districts throughout the state have invested significant time in preparing multiple learning options for families this fall and reviewing the previously distributed KSBOE guidelines. Our own elementary school building principal was one day away from communicating the options and guidelines to us until the governor issued her mandate delaying school last week.</p> <p>Working families, single parent families, families of students who receive services through the school simply MUST have the option to send their students to in-person school this August. If families are receiving an option for virtual learning, the in-person school option for an August start must be offered. Our kids have been out of a structured, proactive learning environment since the first week in March. The compounding issue at stake is truly their education. Teachers already tell us that the first 5-6 weeks of school are largely review. If schools do not start until mid-September, students will not even begin to learn new material until late October. Again, they have been out of a structured learning environment since March!</p> <p>At a minimum, please consider adopting the governor's mandate as guidance. Consider allowing independent public school districts throughout the state to start as late as September 9 with no penalty. Districts who are ready to go can (and should) start as soon as possible. Health and safety are being taken into account when a CHOICE is given to families and to teachers. However, when this choice is taken away or delayed, you are asking families throughout the state to make impossible financial decisions.</p> <p>The governor's September 9 mandate is a unilateral decision disproportionately affecting certain Kansas counties that have not had high case counts and are not experiencing a current increase in cases. Case counts are not the only data point that should be referenced when looking at reopening schools in August. The entire picture, including how COVID affects certain age ranges of public school age children, must be referenced. If you have not seen this thoughtful analysis by a California based epidemiologist, please review:  <a href="https://www.facebook.com/tracy.hoeg/posts/10219475853940261?__tn__=K-R">https://www.facebook.com/tracy.hoeg/posts/10219475853940261?__tn__=K-R</a></p> <p>Please open our schools in August. Please make a commitment to help our kids return to learning. People still have</p>

7/20/2020 21:32:25	Hamie	Waggoner	USD 220	Ashland, Ks	As an RN and a Mom of a junior and a 3rd grader I feel for their emotional well being these kids NEED to be back in school! Three weeks is NOT going to make any difference with spread of the virus but I am worried it will affect these kids after losing the last 9 weeks of school last school year. Also masks for these kids is a WAY BIGGER infection control risk than no mask!! It is hard enough for medical personnel to use them correctly much less a 3rd grader! They will constantly be messing with them or putting on somebody else's mask which directly exposes them to anything and everything the other may or may not have! Thank you for your consideration.
7/20/2020 21:32:32	Ashley	Pineau		Leavenworth	Please vote yes to support the delay. District 1 saw almost triple the new cases from Friday to Monday (12 to 33) this is alarming! We cannot in good faith send our children back into a building when we can't even go to the grocery store without a mask. Please keep our children safe.
7/20/2020 21:32:32	Kari	Semrad	Goddard USD 265	Goddard	I believe masks should be considered for 2nd grade and above, but please move forward with in-person school and fall sports! Consider an opt out if a teacher is high risk, but please give students needed structure to create some level of a new normal. Trust districts to make their own right decisions. Thank you.
7/20/2020 21:32:34	Leah	Reilly	Social worker in school	Resides in Kearney, Mo	I believe delaying school in order to allow covid cases to decrease is in the best interest of staff, students, and families. I personally have a 3 month baby at home and am so scared to bring covid home to him. Other staff and students family's also have high risk individuals in their home, or high risk themselves. I do believe students need to be in school, in person, but this needs to occur in a SAFE environment. Schools need time to collect proper sanitation- currently we have been given baby wipes to sanitize- and time to figure out how to safely implement proper protocol to combat COVID. The delay would also give the county time to see if the cases decrease. I do not want to put my life at risk, my babies life at risk, my students lives at risk, or my peers lives at risk because we opened too quickly without the proper safety measures in place.
7/20/2020 21:32:34	Aimee	Reed	Olathe school district pa	Olathe	Please allow students to attend in person school after Labor Day. Not only is a good education a part of their development, but learning social skills with their peers in equally important. Would not be interested in online learning... it was a joke this spring. No accountability. No learning. Lacked that interpersonal attention that an in person teacher can provide. Thanks!
7/20/2020 21:32:35	Laura	Ross	PTO	Gardner	Please do not continue to delay school opening. 23k reported COVID cases in our state (there are likely more that we're not tested/reported) and only 307 deaths. Not worth putting our children's education on hold. I have 5 children KDG, 3rd, 7th, 8th & 10th. They need their friends, sports, dance, activities and most importantly their classes! My high schooler is now depressed because of all of this. She was bawling after Watching the news today.
7/20/2020 21:32:40	Shelby	Burnett	Usd464	Basehor	I feel that school should start Sept. 9 or later due to the rise in cases of Covid19. Within Leavenworth county cases are steadily rising for community contact. Until we get community contact under control schools cannot open safely. For the health of students, staff and additional employees school should take these rise in cases into consideration when planning for the 2020-2021 school year.
7/20/2020 21:32:49	Amber	S	Usd259	Sedgwick	I think it should be delayed. As some of us have kids that aren't healthy at all. Such as auto immune kids, cancer kids. Chronic illness.
7/20/2020 21:32:52	Lynda	Alderman	USD 290. VP Board of	Ottawa, KS	When Governor Kelly announced last week that she was going to sign an executive order to move back the start date for school to after Labor Day one could almost hear a collective sigh of relief from all around the state. This was a wise move on her part. It gives school districts time to adequately plan and train for what type of instruction they choose to deliver when school does start. Please support the governor in this decision.

7/20/2020 21:33:02	Michelle	Newland		Wichita	I was very relieved to hear schools had another month to get things in place. I have two school-age children and I am a teacher. I was very concerned by my district's first plan in which elementary schools go back with no reductions in class sizes and no guarantee students would wear masks. My own girls have not been to a store or to a restaurant since the beginning of March. This is asking them to be in larger groups than they've been in for months. Also, Sedgwick county is also showing a sharp rise in cases and we are almost at capacity for hospitalizations. My students ride buses to school and these buses go to three separate schools. How long till one student on a bus is positive and three schools have to shut down for quarantine? That is a lot of back-and-forth disruption for students if we go in and out of quarantine frequently. I also don't have a sink in my classroom so I'll need a lot of additional supplies. When I closed my classroom for the summer I was asked to give up my surplus of cleaning supplies and hand sanitizers to those that needed it immediately. Now those are hard to come by and I was worried about them being available to me. For me and my family, there was more questions than answers about how we would be kept safe and I felt a clock ticking down till we all had to be back. I was getting very anxious and hearing the governor say that she would be giving us more time to figure things out was an answer to my prayers. Please uphold the delay to give everyone time to figure out specifics.
7/20/2020 21:33:09	Thomas	Mead	My family	Wichita	Delay school opening until cases level out and new cases are on a decline.
7/20/2020 21:33:11	Rebecca	Stanley	Myself	Kansas City	We should not be in school. It is not safe for our students, teachers and staff members. In my opinion, school should be closed until the number of Covid cases is significantly decreased. The governor is making the right call.
7/20/2020 21:33:13	Jean	Johnson		Milford	Please vote to uphold Governor Kelly's Executive Order for schools to delay opening until after Labor Day. The number of positive cases is climbing rapidly in the state and we need to keep our students and staff safe.
7/20/2020 21:33:13	Kelly	Smith	self	Hays	Delaying the opening of school is the right decision! Virus cases in Kansas continue to grow, and we don't know enough about the trajectory to say with certainty it's safe for our kids to be confined together. If our kids stay safe, they have the rest of their lives to catch up on what might fall behind in this year. But losing friends, losing family members, suffering potential long-term health effects - this is the kind of damage that can't be fixed.
7/20/2020 21:33:17	Dawn	Westfahl		Sylvia	I feel like delaying school or going online is perfectly fine. I absolutely disagree with children being required to wear masks. I feel like it would be used more as a toy than protection.
7/20/2020 21:33:20	R	H		Baxter springs	Kids need to go back to school, not only for education Purposes but mental and social purposes. So many of the kids depend on the schools for food and as a safe place.
7/20/2020 21:33:26	Kim	Baldwin	Parent	Valley Center	Delaying now will save lives. Why are we even considering returning now with numbers higher than they were when we left in March? Delay start, then slowly phase back in like we did with businesses opening back up.
7/20/2020 21:33:28	D.	Green	Homeowner	Pratt	Open schools before labor day
7/20/2020 21:33:34	Jennifer	Lightcap		Olathe	The kids need to be in school... the mental risk to these kids severely outweighs the risk of the virus. Life is full of risks and this isn't different. Drugs, crime, suicide and other mental health issues will rise and is way more dangerous than the virus. Safety precautions in place a must including masks, hand washing, health screenings but put the kids back in school.
7/20/2020 21:33:40	Trisha	Parker		Shawnee	Please delay the start of the school year or go with online instruction. With rising cases it is not safe for students (and their families), teachers, and staff to return. Teachers shouldn't have to choose between the jobs and their health.

7/20/2020 21:33:53	Micah	Arnett	Parent	Pittsburg but attend Fro	No easy answers to any of this. I have 6 kids (11th, 8th, 6th, 3rd, 1st, Pre-k). I want schools to be in session and safe. I'm okay with delaying school. I just don't understand why sports. Kids have been conditioning and having open gyms successfully all summer. I think having desks instead of tables. Not sharing supplies. Limiting classroom movement. It can all be done safely. I don't think it is fair for teachers to be responsible for teaching in person and online. Too hard. They would be "on call" at all hours. I do not think our district is equipped to go totally online. It was a great effort last spring but teaching new curriculum and information- I don't think they are ready. Will teachers be in their rooms or teaching from home? All of these things are at school. Policies for when someone rests positive?? I think so much of this could've already been decided. We had since March. We knew the virus wasn't going away. Yes we have active cases in our county but hospital is not overrun or out of beds. It just doesn't make sense to me to be completely remote. With 6 kids and working 2 jobs I will honestly say I have no idea how I will manage it. It's my opinion that schools are essential. Kids need structure. A schedule. Social interaction and learning from a teacher. (I was a PE teacher for 12 years) but it's an overwhelming challenge to be responsible for teaching all 6. Sports. I don't want my daughter to miss more. Her team won first round of state basketball to have or ripped away 10 minutes after we won in overtime. That was a reaction. Not a well thought through decision. There was plenty of room to social distance there. That was not a good call. Then losing the spring softball season when we were returning state champions. I understand sports aren't the end all be all, but they are so important. If it makes sense to switch the fall and spring season let's do it and plan it so these kids have a chance without losing it all again. My daughter is being recruited and needs this. I feel like we pushed back the start date to announce that we won't be starting in person. All the unknowns are the hard part. Parents need time to plan. I have a child on an iep. Actually 2 of them. We all know some kids will not be able to do school. No internet. No supervision. Our kids are at risk when they are not at school. I appreciate all the hard work and hard decisions.
7/20/2020 21:33:56	Amanda	lynch		McFarland	No schools need to open and it needs to be normal. Making students wear masks is only going to be a distraction make the adults wear them. Students are not at risk at all and have been proven that they do not transmit the virus either. There is no reason to keep schools closed or make students wear masks
7/20/2020 21:33:57	Alyse	Skaggs	USD 469	Lansing	I do not feel safe with school operating as normal. Until COVID-19 numbers go down in Kansas and Kansas City, MO, I personally would like school to be online.
7/20/2020 21:34:00	Erika	Toomey	Cair Paravel Latin Scho	Topeka, KS	Our family wants school to start on time in August in person.
7/20/2020 21:34:08	Julie	Whitehead	Bus driver at prairie vie	Lacygne	I believe we should go back to school as scheduled August 13. I also believe if we are taking temps perhaps they should be done as children are getting on the bus, that way if they do have a fever we aren't hauling them to school with the other passengers and they are able to go back home right then. I have no problem taking temps and documenting on my route and keeping others safe. I also don't believe drivers should be wearing masks with buses with no AC. What's going to happen when a driver passes out from the heat/mask and can't breathe properly while transporting the children?
7/20/2020 21:34:08	Annette	Bright	USD 500	Overland Park	There hasn't been enough time to plan what we're going to do. First we need to wait for the powers that be to make a decision so we even know how to plan. I taught 22 kids in my room last year, two with very specific medical needs that would make Covid a likely death sentence for them. I need some assurance that stuffing kids into a poorly ventilated room isn't going to cause any of us in that room to become ill, permanently damaged, or dead, and so far, I haven't heard anything that makes me believe there is a sensible plan in place to keep us safe. We need time and we need a plan, both of which are in short supply. Please vote to delay the opening of schools until we have those things.
7/20/2020 21:34:09	Heather	Hargitt	Quinter public school U	Quinter	I'm very disappointed in the delay of the school year. My county has had 2 cases of Covid-19 both recovered and doing fine. My children's mental and physical health have been severely affected by the shut down of public school. My children missed out on milestones we will never be able to make up. They have missed their friends, their teachers and the structure of a regular school day. Please don't harm our children even further by delaying the start of the school year.
7/20/2020 21:34:17	Diane	Quinn	Teacher	Lenexa	The kids need to be in school both academically and socially. Please open our schools up.
7/20/2020 21:34:22	Denis	Stanley	Myself	Kansas City	School should not be in session. It is unsafe. Our kids should be doing online learning.

7/20/2020 21:34:24	Deann	Atkinson		Kansas City	Please keep the Labor Day School order. We opened up the city too early and opening schools up too early will endanger our children, teachers and other family members.
7/20/2020 21:34:26	Judy	Merfeld	Teachers	Leavenworth	I have a niece that is a teacher in your state. She has an autoimmune disease. Please consider keeping schools closed until it's safe. Thank you.
7/20/2020 21:34:29	Nathan	Troyer	Concerned parents and t	Lansing	I am a parent of a student and a teacher in USD 453. I ask that you uphold the Governors EO to delay the opening of school until 9/9/20. The delay in the start will allow for the schools to prepare for the unknown challenges that Lay ahead. Teachers and school administration also need time to prepare. It is all of our hopes that the state of Kansas will start to trend downward and no longer be a hot spot for the virus. Thank you for guidance and putting the safety of all stakeholders First.
7/20/2020 21:34:29	Stacy	Parker		Olathe	We are all for school not starting until after Labor Day!
7/20/2020 21:34:32	Megan	Hoban	Parent	Leawood	Our kids need to go to school. This is not a political game.
7/20/2020 21:34:34	Sue	Clay	Citizen	Wichita	Please do not allow students and teachers to attend regular classes until covid is under control. Meeting virtually is obvious the format you have chosen for your meetings. So do not allow students and teachers any less safety than you are utilizing yourselves. Thank you.
7/20/2020 21:34:40	Ashley	Prettyman	Personal	Overland Park	The children need and want to be in class together. Many of them are playing outside together in their neighborhoods or being babysat by the same sitter, together. Many go to church together and wear masks. Many have sleepovers at friends house or go on vacation with a friend. Many go to target with a mask, or for a haircut with a mask. I'm asking you to delay school longer than it's already been out. They can go to school with all wearing masks, or 6 and up, whatever age you choose. Parents are making tough choices and leaving underage kids at home because they have had to return to work. Maybe many people are back at work in society and wearing a mask, I feel the same should be asked of teachers.
7/20/2020 21:34:43	Leslie	Noon		Wichita	The school opening delay until after Labor Day will save lives.
7/20/2020 21:34:45	Lisa	Gray	USD259	Wichita	I agree with the order to delay the opening of schools
7/20/2020 21:34:57	Emily	Bond		Overland Park	Please support Governor Kelly's order to delay school openings in light of the coronavirus pandemic. We take doctors' advice when we're sick with any other disease, and this time should be no different. Physicians are clear in their recommendations to delay the opening of schools to avoid a rise in Covid cases and deaths. Please protect your constituents and the children of Kansas by supporting Governor Kelly's order to delay school openings.
7/20/2020 21:35:00	Chris	Eskam	Usd 102	Cimarron	We need school and sports to start now!
7/20/2020 21:35:03	Carol	Stone	Myself	Columbus	No reason to delay school  These kids need structure and socialization. As for the mask, it is harmful to your health. We have had bad flu seasons and no masks were ever warn. You will have more lung problems if masks are required. Children will not keep their hands off thier face and masks. You are training them to be sheep Follow the leader whether right or wrong. In this case it is wrong
7/20/2020 21:35:13	Nicole	Gawer	Parent and school social	Overland park	Uphold the order. Kids under 10 may be less likely to get /give CoVid but teachers and staff are very at risk. Let the effects of the mask order kick in so numbers are going down before school starts. The most prevalent negative feedback from the spring was that there wasn't quality /continuity in teaching Have staff come back so they can plan prior but with no kids until after Labor Day. That time will allow districts and staff to provide higher quality remote learning when school does start. That time will also allow districts to have better plans for when teachers do get sick. Provide funding so extra staff can be hired to facilitate temperature taking, hand washing, plan and lunch time for teachers when kids do come back to buildings.
7/20/2020 21:35:15	Abbey	Lax	Usd 500	Wyandotte	Students should start late and distance learn aka online learn. I have had covid and know many who have or had it. It spreads easily and a school would be the perfect hotspot.
7/20/2020 21:35:26	Melissa	W	Clearwater Creek Eleme	Olathe	I feel if you're questioning the safety of staff and students in any way then it is better to keep the schools closed until the spread of this awful disease slows and the curve is flattened. Let's keep everyone safe and stay home!

7/20/2020 21:35:33	Laura	Strecker	Holy Cross Elementary	Hutchinson	I support Governor Kelly's decision to postpone the start of school. As teachers we need time to make the adjustments needed to keep students and adults safe. We need time to plan what school will look like and even where the classrooms will be. What does lunch look like? Recess. Arrival dismissal etc. We need time to look at the document KSDE put out last week to properly plan. I want to be back in the classroom and I want my students there with me. However if we don't get this right I am afraid we won't be there for the long haul. Please allow us the time to properly plan and prepare. Nothing is more important than the safety of our students and the adults that work with them. Please know we have been meeting and discussing all of this throughout the summer but no final decisions could be made until we had the KSDE document, (which is 1,000 pages) the plan from our diocese and any other pertinent information. Thank you
7/20/2020 21:35:34	Debbie	Konomos	Myself	Kansas City	Schools should be closed until Covid cases go down. It is not safe.
7/20/2020 21:35:34	Paul	Receniello		Lee Summit	Don't reopen the schools
7/20/2020 21:35:37	Lindi	Cox		Wichita/Goddard Attend	I work in Wichita and have a child in Goddard. I believe the Governor's Order needs to be implemented. Taking a couple of extra weeks to better prepare and for the COVID case numbers to hopefully fall will only help all involved. Students will benefit from a safer and better organized educational experience and teachers/schools/districts will have adequate time to train on new protocols and prepare the classrooms for a year unlike anything we've ever seen.
7/20/2020 21:35:38	Nicholas	Peterson		Abilene	It is very important to get kids back in school as soon as possible. Delaying the start of school will only make kids fall farther behind. Make them wear masks and social distance when possible.
7/20/2020 21:35:41	Gabe	McGuire	Hays High School	Hays	I believe that for this school year that online school should be heavily pushed or even required. Going to school and attempting to social distance would be nearly impossible with the already too small classrooms and hallways.
7/20/2020 21:35:45	Megan	Lewis	N/a	Wichita	Yes! Delay! I was just tested for COVID today and it's scary! I hate to think about how many teachers and students will have to be tested, not to mention, show up positive. I am a single parent but WILL figure it out. I'd rather figure it out then my children get sick!
7/20/2020 21:35:45	Alicia	Misse	Parent	Olathe	Please support Governor Kelly's executive order 58 to delay the opening of school so school districts can prepare for the safe arrival of students
7/20/2020 21:35:51	Emily	Coleman	Myself	Springhill	Open up schools on time, no restrictions
7/20/2020 21:35:57	Shelby	Lewis	Teachers	Kansas City, KS	Please uphold the executive order to delay the opening of schools until September 9th. Teacher and student lives depend on a well-thought-out, comprehensive, and above all, SAFE plan to resume the school year. If it was not safe for us to be in-person in March, it is not safe for us now.
7/20/2020 21:35:58	Leah	Finn	Shawnee Mission School	Overland Park	Children need to be IN school and IN person learning! Please consider starting August 17th for the emotional, mental and social well being of our kids of all ages!!!
7/20/2020 21:36:03	Kathy	Goetsch	USD475	Junction City	I am a 2nd grade teacher and I love my job and even more than that, I love the students and adults that I get to interact with on a daily basis. With that being said, I believe that it is NOT safe to bring students and adults back into a school. I understand that parents need to go back to work and they want their kiddos to get the socialization they absolutely need, but what they don't understand is that coming back in the middle of a pandemic that is getting worse not better, will not result in the socialization they think will happen. Instead the children will be kept 6 feet away from each other and their heartbroken teachers who can't tie their shoe for them or hug them when their feelings are hurt. I love my students and cannot wait to be able to teach them again and be able to do things the way they should be done, but now is not that time. Thank you for thinking about all of the teachers and students and putting their safety first and postponing the opening of schools until after Labor Day.
7/20/2020 21:36:04	Meagan	Emerick	My children	Olathe	Please vote for our children to return to school at the previously scheduled time, without masks, and in the classroom. This is ridiculous. The number from Johnson County do not support what the governor has chosen to do, school age children are not getting Covid at a high rate, and we have no deaths in children. Open our schools! Our children need their normal education immediately!
7/20/2020 21:36:07	Kristi	Jacobs		Cherryvale	I agree with the governor 100%. I feel as though the lives of our students, teachers, and staff should be the upmost concern. The school is not separate from the community, the decisions made will impact the community outside the school grounds. I do understand there are single working parents, I used to be one, there are ways to work out of the home now. I think we need to modify the school year for everyone's safety.
7/20/2020 21:36:11	Chris	Dixon		Tribune	Open the schools up! Let parents and teachers make choices.

7/20/2020 21:36:17	Dana	Schamberger	Parent	Leawood	Please uphold the governor's mandate to delay the school start in KS. I live in Johnson County and am very worried about my kids starting in a few weeks. It is not safe with the rise in cases we have right now. Please don't rush and risk the safety of the students and teachers. Thank you.
7/20/2020 21:36:24	Cathy	VanDeventer	Retired teacher and parent	Wichita ks	Numbers are going up in Sedgwick county about 1,000 a week. Teachers students and teachers families deserve to fill safe. Your job is to keep them safe. We only get one shot at this. Please do it right PLEASE
7/20/2020 21:36:34	Ruthanne	Arace	KCKPS	Kansas City	I would love to start the year as normal but there is no safe way to make this happen. My classroom is not big enough to separate 20+ students all day. I teach first grade and I can even begin how to keep them wearing masks and staying apart from their friends.  As for washing hands every hour that is an impossible feat. At my school we have five classrooms sharing two bathrooms with six sinks. While trying to do this with social distancing i can't even imagine how that would work.  Please take these things into consideration when you make your decision. Please protect the students and school employees of Kansas because there is no way to be in school safely and follow the CDC guidelines.
7/20/2020 21:36:40	Jennifer	Forbes	Parent and teacher in US	Garfield	As a parent, I am afraid to allow my 7 and 9 year old to attend school in person. As a teacher, I am afraid to go back to school. Please do not have us start school before Labor Day. My mother and mother in law are both immunocompromised. My elderly mother will be living with us throughout the fall and winter. I am very concerned about my children or myself bringing COVID home to her. I also am concerned, after seeing the recent Children's Mercy's COVID webinar, that half of children with COVID do not have a cough or a fever. How will we teachers know/suspect and refer to the school nurse which children may be ill, if they can have COVID without a cough or fever? Maybe there are lots more children with it, but they are just not being tested, because they don't seem to have any symptoms.
7/20/2020 21:36:41	Missy	Leavitt	my kids	colby	Homeschooling as long as masks are mandated
7/20/2020 21:36:51	Lisa	Bennett	Usd 210	Hugoton	I don't think that this executive order is a one size fit all. Our town and school size is small therefore should be able to mandate it with local government.
7/20/2020 21:36:58	Jeremy	McGuire		Hays	This will be better for the students and staff. That's what it should be about, not politics. I fully support the delayed start of school.
7/20/2020 21:37:10	L. B.	Fogt	Olathe North- Teacher/	Overland Park	It is crystal clear we cannot return to school at all this semester. Possibly not this spring. There are kids that NEED to be in school (for special resources or because they do not have food/ a safe place to be). We should focus on those kids. As a teacher, I think we could possibly operate safely at 25%. Not calling the semester now is wasting time figuring out how we can accomplish teaching while minimizing disparities between students. I'm sure this is not the popular choice because it will cause a great deal of people a great deal of inconvenience. But it's the right thing to do. We're all suffering through this. We're going to have to work as a team, go above and beyond, and do more than was previously expected of us. Drastic changes need to happen to make this remotely successful. I don't plan on sending my 3 elementary kids to school. I hope I don't have to return if I can teach remotely or in my classroom without students present. We don't know the long term affects if this disease. We know it scars lung tissue and things like smoking that scar lung tissue cause lung cancer. In-person school is not a risk I'm willing to take because schools are too crowded and there is not a safe plan to make that work. Send kids back that need to be there. Everyone else should be home. WE NEED TO GET CREATIVE NOW... not August or September.
7/20/2020 21:37:18	Amy	Crumrine	Andover Middle School	Andover	Please open school as scheduled August 18th
7/20/2020 21:37:19	Terri	Lemos		Wichita	I ask you to think of the safety of the staff and students at all schools. Maintaining the order is of the utmost importance to allow districts to prepare for a safe start to school. It will also give districts time to share with everyone what they are doing to keep people safe. This will lower the anxiety of families and educators allowing for a more successful learning experience. As leaders, please take a stand and keep everyone safe.
7/20/2020 21:37:24	Angie	Konda		Colwich, KS	I think we need to send our kids back to school while taking safety precautions as soon as possible. Please overturn Gov. Kelly's executive order and allow schools to reopen when they were originally scheduled.
7/20/2020 21:37:36	Alyssa	Gerrity	Olathe Public Schools	Olathe	Please open our schools on time. Our kids need to be in school.
7/20/2020 21:37:46	Streif	Jenifer	USD 263	Mulvane	Comment removed due to profanity

7/20/2020 21:37:50	Jennifer	Berutti		Overland Park	I am a parent of school-age children, and a public school teacher in Kansas. I want to be with my students at school and my children want to learn with their friends. HOWEVER, until we can do so in a way that protects the health and safety of ALL, in-person school isn't the best option. Please allow the school districts of Kansas time to make proper preparations for a safe return to learning for ALL. Thank you.
7/20/2020 21:37:54	Anthony	Swartz		Overland Park	The kids should be back in school without masks. The data is clear that the death rate declining. The risk to teachers and students is so minimal. You are much more likely to get killed driving to school than by the virus.
7/20/2020 21:38:01	Kristina	Hill		Salina	it's unreasonable to expect a 6yr old to wear a mask for 8 hours without it getting touched, food on it, lost, dirty, played with etc.
7/20/2020 21:38:03	Katie	Mangelsdorf	My family	Lenexa	Please listen to Governor Kelly. She is using data and science to address this crisis. This is a public health issue, not a political issue. If the Board is meeting virtually due to Covid 19, then why would they vote to put children back in classrooms? K-12 needs to stay virtual until this crisis is addressed appropriately and there have been no new cases for 14 days. It is much more dangerous now than it was in Spring. Keep our kids home, keep our teachers and staff safe.
7/20/2020 21:38:08	Brooke	Buchanan-Jackson		Overland Park	Why would you open schools now when this pandemic is out of control? I fear for my child! Then there are the teachers, bus drivers, custodial, all staff. It's not going to do any harm to delay to see where we are with the pandemic. It's insanity to start now. My child is afraid to go to school because of everything. This isn't about politics, it about life and death. You go back now, it's death for so many. Please choose the lives of all involved with school.
7/20/2020 21:38:12	Danielle	Lutz	USD 349	Stafford	I'm fine with delaying the school year
7/20/2020 21:38:15	Stacy	Ahlich	Blue valley parent	Overland park	Please support the Governor's delay of the start of school. There are too many unknowns with this disease and we can not play Russian Roulette with our kids, teachers, parents. Several companies in the area have delayed employees returning until January and these are adults who can social distance. My Son's school has tables, you can't social distance with those. You can't control your bubble as every expert says we should when you put a bunch of kids in a school. Every doctor says no mass gatherings, that is school. It is not safe. I want my two kids at school, but only when cases are declining. That is what Europe did. We should have all virtual in the counties with rising cases. We closed schools and kids were kept home, we can't know how/if they can spread, they have been home and unexposed. Don't make us parents make an impossible decision. Do the right thing, delay the start of school and when September 9th comes if cases are not going down have everyone do virtual school. That is the only safe option.
7/20/2020 21:38:16	Brian	Page	Parents	Olathe	I support waiting until after Labor Day to get school started. I also feel very passionate that we MUST start then and that all extra curricular activities get started with safety procedures that health professionals feel are necessary. Our kids need to get back to school, their activities, their sports, their friends and their teachers.
7/20/2020 21:38:19	Jill	Kline		Topeka, Kansas.	Keep our kids safe and protected. Keep schools closed until after Labor Day, and the virus numbers start dropping.
7/20/2020 21:38:28	Jennifer	Smith		Kingman ks usd 331	I feel it should be virtual classes again. My kids and I are asthmatic. Myself being severe. This covid 19 and the unknown scares me. I can't risk my life or my children's life. My children would be devastated if they brought it home, they would blame themselves if it killed me. I would feel the same if sending them to school, they get sick and something happens to them. I couldnt live with myself.
7/20/2020 21:38:30	Stacy	Dean	Mill Valley high school	Shawnee	Hello! The upcoming year is my daughter's senior year. I would like the district to do everything possible to make it a safe and positive experience. I think that delaying the start of school will help blunt the spread of the virus as well as give the schools more time to prepare. Also, I work in healthcare. I think the opening can be successful if proper precautions are taken. You might think about partnering with a local hospital for recommendations. Thanks!
7/20/2020 21:38:38	Angela	Wilcox		Parker	From a parent standpoint, it would be nice to start school sometime in August so the kids can get back into school and get started in case there's another shutdown. As a teacher, it would be nice to start school after Labor Day or even the end of August so we can learn how to teach in the middle of a pandemic, get prepared for remote learning if it comes to that, and have some extra time to plan and prepare for students. I am so conflicted but I know our KSBE will make the best decision and I want to say thank you for looking out for teachers, students, and Kansas Education.

7/20/2020 21:38:38	Sarah	Westbury		Wichita	Please, please, please approve the Governor's executive order. As a teacher in an extremely low ses school, I can't help but wonder: what if the reason students/children have not been contracting this virus is because we have mandated their social distancing via school shutdown?If you know anything at all about an elementary classroom, you know that mandatory masks and/or social distancing are simply impossible. We are grossly understaffed and custodians are few and far between when they decide to show up. Therefore the mandatory sanitation that is supposed to take place, well forgive me if I don't believe it will happen. I have no evidence to show otherwise. I'm lucky if my trash is emptied every day. The floors are never swept and the bathrooms are atrocious. Ultimately, we will never know if we overreacted, but we will absolutely know if we did not react appropriately. No child or teacher should lose their life because the community is worried about the economy. For a profession that creates all other professions, we sure are not valued. Give our districts time to fully gather the ppe needed. 3 weeks may not even be enough but it's far better than starting im August. Please, approve the order!!
7/20/2020 21:38:47	Andrew	Lindeman		Topeka	It is unfortunate to see that the covid "pandemic" has been subjected to such political maneuvering as evidenced today by Governor Kelly's orders. For someone who has proclaimed education to be a top priority (and lied about school finances from a campaign promise) it is disheartening to see that education is being taken away from young minds. Online learning is NOT an option. I recognize this order does not prompt online learning - yet. Delaying the start of school does not provide additional time to understand the impacts of this virus on our kids, teachers and staff. Clearly the "experts" cannot agree and do not have the ability to isolate and study cases of the virus in a controlled environment. It could be years before we know the specifics of the virus and how it impacts kids. At this point the virus appears to be less deadly than the seasonal flu and schools do not typically shut down for that and IF that happens the decisions are made at a local level. If Gardner has 25% of their kids out for school it wouldn't make sense for Colby to close. Delaying school for 3 weeks is not a decision to be made at the state level, period.
7/20/2020 21:38:49	Margaret	Purdue	USD 489	HAYS	I am in favor of the Executive Order 20-58 and delaying the school year. I am advocating for the delay of the start of the school year for a few reasons. 1. I believe this will give administration time to make the best possible decision for their communities while keeping students and teachers safe. 2. I believe this will give communities time to see how the virus is progressing, and if there are changes that need to be made to how school runs this year. 3. This will personally provide me with some peace of mind knowing that I will have more time to prepare for the decision that is made on what school will look like this year. 4. Most pressing on my mind, I am 28 weeks pregnant. My pregnancy shouldn't be threatened by a completely preventable escalation of occupational risk. The precedent has been set for moving school both by date and to a virtual mode, and Kansas educators are more than capable of the added challenges that may present themselves. By delaying the beginning of the year, the most informed decision can be made not only for the health of my current student, but for the health of my unborn child and family.
7/20/2020 21:38:52	Jonann	Ellner	Educators	Olathe	Please honor Governor Kelly's executive order to delay the start of Schools. Schools are not prepared.
7/20/2020 21:38:53	Amy	Hunter		Leawood	Please open the schools. Our kids need to get back in the schools and they don't need to be going late in June if we start later. We need to get back on a normal schedule
7/20/2020 21:38:54	Shannon	Olson	USD 259 - teacher. USD	Newton	Please follow Gov. Kelly's executive order and approve the delay. Please also provide a community spread matrix that lets districts know when they need to hold school virtually and when we can return to in-person classes based on the community spread in their county AND the availability of testing with rapid turnaround for results. None of the masking and distancing will prevent COVID from tearing through our schools if there is rampant community spread. Thank you for your consideration.

7/20/2020 21:39:03	Amy	Hamilton	Parent	Leawood	We have had ample time to prepare for both online or in person learning. Our kids can safely go to school. If you use actual science based data to make your decisions you would see that. We have plenty of parents that allow their children to go to school every year unvaccinated against the flu, yet they have no issues sending them to school. The seasonal flu still has a greater mortality. We need our kids to go to school. This political mess has got to stop. This is about educating our kids! Let's be better than this! This is not a risk to our children. Let's go!
7/20/2020 21:39:30	Kathy	Stenzel	My family	Hays KS	Please operate schools as normal. Kids need the normalcy in their lives. Children cannot be left at home alone socially isolated. The months they have been are already affecting them. Please give them something to look forward to. Don't make the cure worse than the problem. Start school as usual.
7/20/2020 21:39:31	Kim	Hanrahan	Saint Thomas Aquinas	Overland Park	Please let kids attend school with Covid precautions in place
7/20/2020 21:39:54	Antonio	Manley	Lawrence	Lawrence	Are you personally willing to visit a classroom of young children the first week of school or substitute teach for all the teachers who will quit? Teachers can't teach from the grave. I listen to doctors and science, both say it's not safe! Please don't make a deadly mistake you won't be able to fix.
7/20/2020 21:39:56	Ashley	Dumler	Elementary Education T	Wakefield	Dear KSBE, I am extremely concerned about the governor's orders today. She has obviously never been a kindergarten teacher. Can you imagine Kindergarteners wearing masks 7 hours a day? The filth? The chewing on them? The sheer germs from trying to get them to wear them after they've chewed on them? I don't know what can be done about this mandate but I beg you to reconsider. If I have to wear a mask all day, I will reluctantly do so, but I will do it. My kiddos do not need to do this and I truly believe the additional germs will truly outweigh the benefit to wearing a mask. As an educator and a parent, I am highly against keeping our schools closed till Labor Day. I truly believe our children need the stability of school and the mental effects will most definitely outweigh the virus effects. Please consider the toll this is taking on families. Families, especially in this area, are working. They're essential. They need school to be essential too. Our children are literally having their childhood removed from them. My son will never be 7 again and he's essentially lost the entire year of being 7. How long do we continue to take away their childhood? There are many dangers in the world that have a much higher fatality rate and we take those risks daily. As a teacher and a parent, I'm willing to look at the data and assume the risk. I believe others are too. Please consider this when casting your vote.
7/20/2020 21:40:05	Jerri	Loewer		Burden, KS	The local school districts are the only ones that can truly decide when they are ready to reopen. (Not some magical date chosen by the governor. ) If the local school district makes the determination that they have the protocols and supplies in place, they should be allowed to open at that time. If they are ready, what does delaying the opening actually accomplish?
7/20/2020 21:40:08	Kellen	Levien		Olathe	Comment removed due to profanity
7/20/2020 21:40:18	Nicole	Espinosa	Usd 259	Valley Center	With the increase in cases in the state of Kansas, it is in the best interest to protect our children and staff from spreading and contracting the COVID 19 virus. Please consider delaying in person school sessions and a very slow and gradual phase in process to keep everyone safe. With so many students and staff members that have underlying health issues, it is in the best interest to delay in person school until the cases have shown a steady rate of decreasing numbers.
7/20/2020 21:40:19	Heidi	Timmons	Bonner Springs Edwards	Bonner Springs	I support Governor Kelly's EO to delay the start of school until after Labor Day and wholeheartedly encourage our state BOE to support it as well. This is a health and safety issue, not a political issue. As a parent and teacher, we are faced with the decision to have me return to work to be exposed to 350+ students each week (elementary music), have our kids return to middle school and elementary school or to have me quit my beloved teaching job to keep my kids home to online school. A two week delay does not solve all of the tremendous health and safety concerns we are faced with, but it does give our state a chance to bring our number of cases down by social distancing and masking and it gives our districts additional time to train on the Navigating Change documents and develop plans to implement current health and safety measures. Please consider supporting this delay to allow our staff, students, and families a chance to get school off to the safest start we can. Thank you!

7/20/2020 21:40:20	Gretchen	Downey	My household	Overland Park	<p>Please take the time the Governor has delayed to listen to the parents and teachers who are extremely concerned for their child's safety as well as the staff with in the school district. There needs to be a solid plan. There needs to be proper protective gear for both students and teachers. If it makes more sense to do remote learning with reduced class sizes for those parents who feel comfortable it seems doable. There is no reason to put the health and well being of district staff as well as student health in jeopardy. Unfortunately, the current environment has allowed for people to disregard the advice of health professionals and the CDC. I irk these irresponsible actions are case numbers have us all in the position to make a potentially life threatening or altering decision. Our kids have been the most sheltered from this virus and unfortunately just because they get it and recover does not mean there will not be lasting damage to their health.</p> <p>Please take the time to make an educated, health conscious decision. It may not be the popular one but please make it the right one.</p>
7/20/2020 21:40:30	Megan	Beckley		Abilene	<p>Please wait to open schools so it gives them more time to plan and give proper training to teachers and staff with all the safety and new guidelines they will need to implement.</p>
7/20/2020 21:40:31	Spencer	McGlothlin		Cherryvale/Coffeyville	<p>I think they should push the school back to past labor day but also forgive the hours needed. Without forgiving the hours teachers really can't prepare and get paid because of existing contracts with schools.</p>
7/20/2020 21:40:31	Nicole	Sears		Shawnee	<p>You have had since March to figure out options for the school year, and consult with online schools to figure out how to do online learning well. (Not like it was last semester.) If you feel it's unsafe to return to school in person, then start online school until you feel it's safe. Delaying school solves nothing and helps no one. Children really need to be back in the classroom ASAP. Kids want it. The work force relies on it.</p>
7/20/2020 21:40:44	Michele	Berens		Tampa	<p>I teach second grade at Hillsboro Elementary School and I fully support Governor Kelly's recommendation to delay the start of school until after Labor Day. This would give our staff time to formulate plans not only for the logistics of students returning to our buildings, but also for teaching virtually if needed. We realize virtual learning will look much different than this spring, so time to collaborate with our peers is critical. I urge you to uphold the Governor's E. O. 20-58 to delay the start of school. Thank you!</p>
7/20/2020 21:40:48	Kiley	Groom	Wichita Public Schools	Leon	<p>Please consider delaying the start of school until after Labor Day. As a teacher entering my 16th year of teaching, so many changes is simply overwhelming and the extra time to get the health of our city in better control while having time to digest and plan for whatever the coming months may bring us could be invaluable. Thank you for your time and consideration.</p>
7/20/2020 21:41:05	Katie	S	Blue Valley	Overland Park	<p>Do NOT mandate masks for elementary students &amp; do NOT delay the start of the school year.</p>
7/20/2020 21:41:11	Emily	Davies		Hiawatha	<p>I support the delay in opening schools. I think this extra time will be crucial for school districts to effectively implement the mandates of today's executive order. I believe it will also give parents more time to prepare for whatever changes their school district may have in terms of schedule.</p> <p>Our superintendent said last week that our district does not yet have plans for bussing or good service. It seems to me that districts have a lot to figure out, and to train their staff on. Extra time will allow these details to be decided so that once kids are back in school, we can avoid outbreaks and hopefully keep schools open.</p>
7/20/2020 21:41:11	Julie	Goetz		Salina	<p>I would like school to start as originally scheduled in the middle of August. If wait until Labor Day, kids will be out of school for 6 consecutive months! My children are ready and wanting school and sports to begin as originally planned in mid-August. Being back at school is critical for their brain development, social development AND physical well being by participating in sports. I believe school districts are, or will be by mid-August, ready to have classes resume. They've been putting together plans for weeks of various scenarios to open back up and provide education to students. Offering students/parents the choice of online or in-person allows parents to make the decision they believe to be in the best unrest of their children and family, but education and extracurricular activities NEED to begin mid- August.</p>
7/20/2020 21:41:16	Kristina	Burton	USD 500	Kansas City	<p>Please delay school until after Labor Day so numbers can go down and teachers can have more time to mentally and emotionally prepare</p>
7/20/2020 21:41:24	Jennifer	Hertel		Shawnee	<p>The virus cases are still on the rise. Protect teachers and students with online learning. Not allowing those who chose to learn online if allowed, to be in extracurricular activities promotes people to rush to school instead of being careful and enjoying an activity with less people or less exposure time</p>

7/20/2020 21:41:28	Deyna	Smith	Teacher USD 353 / Pare	Derby	Delaying school until after Labor Day allows schools and teachers to make efficient plans to move forward into the 2020-2021 school year. Guidance has just been given from the state in the last few days and the local districts and BOE need to have time to put these suggestions into a workable plan to fit the needs of their community and students.
7/20/2020 21:41:29	Jen	Treaster		Hutchinson	Start school as planned, wear masks, social distance students. This is going to be around long term until a vaccine is created & this, along with peoples lives will continue to be pushed back over & over.
7/20/2020 21:41:32	Melanie	Pohlenz		3025 SW Mulvane	No to late start
7/20/2020 21:41:36	Benjamin	Forte	Myself a concerned citiz	Wichita	I'm highly appreciative that the school year has been delayed, because putting kids back into the classroom will increase the spread of COVID-19 & put the well being of every family & Teacher's loved ones at risk by being back in the classroom
7/20/2020 21:41:39	Ashley	Bennett	USD 232 Mill Valley Hi	Shawnee	Uphold the mandate to delay.
7/20/2020 21:41:47	Misti	Grady	Parent if 3 children in O	Olathe	Do not open schools before Labor Day. Also, I'm fine if they are all virtual this year. We don't need more COVID cases from schools opening up. I want to keep my kids home and safe.
7/20/2020 21:41:51	Sharon	Bertolio	Southeast Kansas Educa	Pittsburg	Please uphold Governor Kelly's executive order to delay the start of school. School staff and students deserve to be safe. The delay will allow schools to develop effective plans to address the steps needed to maintain all of the necessary precautions as well as to plan for the best way to ensure uninterrupted education should another school closure be required. The delay can easily be made up with a slight adjustment of the length of the school day. As an educator, the first thing I learned is that we must be flexible. We must remember that education is a fluid process and it's not helpful to maintain the rigid thought that we must start in August because we always start in August. If we start later and nothing bad happens, what harm has been done? None. If we start early and we're wrong, it's too late.
7/20/2020 21:41:53	Chris	Mann	Self	Lawrence	Follow Governor's Orders
7/20/2020 21:41:56	Amber	Kling		Olathe	Kids need to get back to school! Parents need to work, kids need structure, and socialization! Delaying the start of school will be a huge detriment to our children and their future! The negatives associated with going back to school do not outweigh the negatives parents will face trying to teach their children at home. Parents could lose their jobs trying to come up with alternative care for their children waiting for school to start. I would rather see my kids wear masks daily then continue to delay their education, their sports, and their friendships. COVID has taken far too much from this country. Do not let it take our children's education!
7/20/2020 21:42:01	Abby	Younts	USD 262- Valley Center	Valley Center	It is not safe to open schools right now. PLEASE consider the health and safety of not only the kids, but the TEACHERS AND STAFF that will be with them for 7 hours a day 5 days a week. I want more than anything to go back to my classroom, but not if it means leaving my husband and widower and my children without a mom. Or if I were to be an asymptomatic carrier and bring Covid home to my family or my immune compromised parents. It's not safe and the responsible thing to do is DELAY!
7/20/2020 21:42:15	Crystal	Drake	Myself	Milton, Ks	I'd rather know for sure my children are safe. Rather than send them to school too early and not give the school board enough time to be certain all kids and teachers are safe.
7/20/2020 21:42:17	Camille	Leonard		Iola	I feel that schools need to re-open. Children need to be in the classroom. Remote learning is not a reasonable expectation for parents or students, especially those working parents. Kids can't be expected to receive the education they deserve sitting in front of a computer 7 hours/day. They need the interaction with their teachers and peers for their mental and social well-being. Children also need to be able to participate in extra-curricular activities.
7/20/2020 21:42:19	Shellie	Ellis	My family	Leawood	Please uphold the executive order. Besides creating unnecessary additional chaos in reversing the order, delaying school start is a prudent thing to do. Despite 3+ months to prepare, school districts have not adequately planned nor notified parents of plans to protect the public or meet children's needs. Peer school districts across the country have identified ways to depopulate buildings and meet educational requirements, while prioritizing social emotional needs. Kansas has stuck its head in the sand. Please use this reprieve to retain the only positive thing left about Kansas.

7/20/2020 21:42:20	Jessica	Pratt		Overland Park	Do not delay school. Our children have already missed out on so much valuable education and socialization. The numbers are not going to change (unless perhaps someone actually takes a look at how they arrive at these numbers), so let those of us that feel safe sending our children to school, send them back. If parents want to keep their kids home, then let them. Please do not delay this any longer, it's just an excuse to force all of our kids online. I have 3 elementary school kids and a preschooler, both my husband and I work full time, and I know I am not alone in this situation. How do you expect kids to learn at home when there is no one there to teach them? Kids need to get back to the real world, they need to go back to physical school. Delaying until after Labor Day, will turn into delaying until after Halloween , then thanksgiving, Christmas, New Years, where does it end? Our kids are already going to be behind states that never closed , do we want them further behind? NO! Also I don't know if the mask issue is up for debate, but you cannot expect teachers to be mask police, children to wear them 8 hours a day. What about kids with glasses, or asthma, or speech issues, soft spoken kids, hard of hearing? They will all fall behind as a byproduct because so many of their needs will be ignored "for safety". Let children's immune systems do what God designed them to do! Who knows maybe children being in school is the key to herd immunity. Please vote this down and tell Gov Kelly that she does not hold unilateral power, show her that you are educators and know what is better for Kansas children. Plus Kansas is a vastly different population across the state , your telling me your going to allow her to treat children in Coffeyville the same as kids in Shawnee Mission or Blue Valley? That's obserd! Please vote no and send our kids back to school as scheduled
7/20/2020 21:42:36	Diana	phillips	320	Pottawatomic	Please allow districts the time to adequately prepare to keep everyone safe. Delay the start of school until after Labor Day. Admin teams are working tirelessly to work out all the details to allow face to face, remote learning and a hybrid model. It is a challenging time and this should not be a political issue. We want schools open, we just want time to prepare properly for this new method of instruction while we keep everyone safe. Thank you. I am a current educator of almost 18 years as well as a parent of both a middle school student and high school student.
7/20/2020 21:42:50	Angela	Bunger	USD 383	Manhattan, KS	I am asking you to please uphold the governors decision for schools in Kansas not to start until after Labor Day. It is imperative for educators to have the time needed to train and prepare to be effective both in an in person, virtual or hybrid setting. It is also imperative that we give our school districts time to put the proper Safety protocols in place as mandated by Gov Kelly. As an educator and a parent of two school-age children, I want nothing more than to be back at school with my students and for my children to be back in their activities. However, I do not believe risking my life or the life or my fellow educators and staff should take a back seat for our desire to return to normal. Now more than ever, our health and safety should take a priority not just for schools, but for our community. Please chose to uphold Gov Kelly's mandate and not turn this back on districts as you are putting school boards in an awful position. As an elected official in a time of great uncertainty, we look to this board not to take the easy way out, but to stand behind our governor. In doing so, you allow districts to set plans in motion to move forward. If you pass the buck, the waiting game continues for teachers with uncertainty, anxiety and feeling that our lives meant so little to you, as educators would then wait for local board decisions.  Governor Kelly has proved herself once again as a strong leader for our state and made the difficult decision by allowing school staff this time to prepare and also to better reflect on the safety of our community. So many times in education, we are not seen as professionals. Our budgets are cut, we are asked to do more with less, and leaders at the national level continue to show their lack of support for public education in their decisions. Please show educators in our state you value our need to plan and prepare in these unprecedented times and most of all, that you value our health and safety.  Thank you for being an advocate for us and upholding the decision that Governor Kelly has made to protect educators, students, and our communities in Kansas.  I will be watching your upcoming meeting with great interest. I am certain that if it is unsafe for this board to meet in person, then surely you will also extend that same level of concern and safety to the public educators and students across KS and uphold Gov Kelly's decision.

7/20/2020 21:42:57	Brooke	Gibson		Shawnee	Please support opening schools after Labor Day. My two kids are suffering emotionally. Online school was not productive and led to increased stress for both my children and myself. My kids have two parents who work full time. We cannot in any way be an effective full time teacher as well. I am a pediatric nurse. The American Academy of Pediatrics support kids going back to school. Kids have not shown to be huge vectors as they are with influenza. I am in full agreeable with schools from the Missouri side who have provided families with a choice. Online or in person school. I think this is reasonable and gives each family a measure of voice in the matter.
7/20/2020 21:43:00	Molly	Mosher	USD 475	Chapman	I appreciate schools starting later - after Labor Day. As a low incidence special education teacher - my students' families need to have as much time as possible to determine if in building classes are best for them this year. Rushing into coming back into the building is a very risky thing to do for students and teas here!
7/20/2020 21:43:14	Susan	MINICH	kckps	kansas city	My children are terrified to return to school in person at this time. They have a hard time keeping masks on long enough to grocery shopping or even a doctors appointment. My 6 year old will constantly say mom i can't breath. I am an educator for special needs. These students are very vulnerable and fragile. They can't keep masks on either. I believe online learning should be informed until there is atleast 2 weeks of no new cases. Just allowing athletics in the last few weeks, there have been several cases among students. Passing periods will not be able to obey social distancing...have you been in a high school lately? Please keep in mind not only the children but family and staff as well. I live with my sister who has no immune system in orser to take care of her toom we are risking many lives. Please think of safety first!
7/20/2020 21:43:19	Alyson	Voth	Parent	Cheney	Please allow kids to start school in classrooms according to their normal start dates per their district. The CDC has recommended all students return to school. Let the districts make accommodations to allow kids to succeed. The state of Kansas has flattened the curve!
7/20/2020 21:43:20	Johanna	Sorenson	Catholic grade school/ a	Leawood	Start school ON TIME!! Do what is right! Life has to move forward. Children are panicked and restless. They need stability! Take control of this. A child's mental stability and happiness is so important Right now! Thank you.
7/20/2020 21:43:26	Amy	Edmondson		Overland Paek	please approve the delay of in person classes for the state of KS.
7/20/2020 21:43:35	Mendi	Sommerla	Children in Shawnee Mi	Overland Park	I want the school year delayed to ensure that schools have a chance to get supplies, and a way to support children through virtual learning. The cases in Johnson County are on the rise, again. The number being high would only keep going up because kids are in school.  The district hasn't given us any details of how they will deal with Covid-19 being in a school or classroom, or how they plan on supporting special needs kids virtually.  How will you control parents sending their kids to school with all the symptoms of COVID-19 and not having a fever? How will prevent kids from taking their masks off throughout the day? How will teachers teach virtually for those that have special needs? Once this informs is provided to us, I would feel more comfortable with my kids attending in person classes.  My kids hate wearing masks and I can't imagine them wearing them for 8 hours straight.
7/20/2020 21:43:36	Niccole	Jasper	Parent of student and a t	Olathe	I believe we need to reopen school in phases, offering virtual school until October, then offering a hybrid school where parents can choose to send their children or continue virtually, then a return to school after the first of the year for everyone.

					As a nurse who has been working throughout the pandemic I am fully aware of how potentially dangerous this virus can be. With that being said, I do think that schools, teachers, and staff can work together and formulate plans on how to keep our children safe. Delaying the start of school to begin after a holiday weekend makes no sense from an infection control/prevention stand point. Our state has proven time and time that people will have mass gatherings on holiday weekends. I would rather see us start school "on time" and put measures in place to prevent/slow the spread of this virus. Honestly, I fear that if we wait to start until after Labor Day weekend, the governor will be standing in front of the podium announcing yet another delay due to being aware of mass gatherings on that weekend. If we are having classes within school buildings, the delay makes no sense. While I appreciate that it may give teachers more time to prepare for the new guidelines, all the teachers I know can put together wonderful plans in no time. That's part of their magic. Teachers are unsung heroes who are capable of so much more than they're credited for. Put some safety measures in place and get these kids in class! Thank you all for taking the time to hear the voices of Kansans.
7/20/2020 21:43:37	Darcy	Moody		Pomona	
7/20/2020 21:43:38	Hanna	Townley	USD 298	Lincoln	I feel that delaying school will not help anything, but will hold Covid around longer which will delay school even longer.
7/20/2020 21:43:39	Rochelle	Kohlmeier		Garnett	Please delay the opening of schools until after Labor Day. Allow the schools to develop plans that will allow time to prepare, plan and train for all of the new factors we will be facing.
7/20/2020 21:43:40	Madelaine	Harvey		Wichita, Kansas	Please delay school. I would not be opposed to having online class work for at least the first nine weeks
7/20/2020 21:43:59	Angie	Kemmerer	Self	Fort Scott	This is a very difficult time to be in education. As a teacher, I miss my students. As a parent with an 8th grader and an 11th grader in public schools I worry about our ability to keep them and all their loved ones safe. They want to be back in school. They want to see their friends. They want a sense of normalcy. But we have often talked about the differences between wants and needs. We need a safe plan for school reentry. We need alternative learning options until everyone can be safe. We need to do the best we can with what we know. Needs have to come before wants.
7/20/2020 21:44:03	Breckan	Shrimplin		Garden City	This shouldn't even be a question. We are accumulating cases much more rapidly than we were when schools were closed in March. People are still reluctant to carry out the proven mitigation strategies, we have no clue what the long term effects will be on those who contract this disease, let alone how many children will die as a result of returning to school before we have proven treatments or vaccines. Please make these decisions based on science and best practices, not politics.
7/20/2020 21:44:03	amber	garrett		Shawnee	Elementary school students need to be IN schools! they do not learn from online classes. they do not need to spend MORE time in front of screens. Working parents cannot provide the oversight young children need during the day and oversee their virtual education. I will enroll my students in a private center or daycare that offers elementary education as they are starting to do because my child doesn't learn from strangers they've never met before and putting off the start of school after many have been out of school since march just means it will continue to harder on students and teachers. Education is essential. Bars and restaurants are not.
7/20/2020 21:44:04	Samantha	Hill	USD 231	Gardner, Kansas	I believe that delaying the start of school will just keep pushing everything back. Kinds NEED school. My daughter NEEDS that structure and guidance outside of her parents and family. With all the rules that will be put in place, will delaying the start of school REALLY help? Let our kids get back to learning in school. Also, for us, remote learning did NOT go well in our household.
7/20/2020 21:44:07	Amanda	Focke	My children in USD 316	Rexford	I'm all for the late start, but please don't make our kids have to wear mask. There is not positive way for our children to learn while dealing with a mask for 8 hours. I have one who has vision disorders, there is no way she will be able to learn anything with a mask. And my littles will be the same way. I have a 5th, 3rd, Kindergartener, and a preschooler. Please put our children's sanity in line along with all those teachers who will have to deal with kiddos and mask all day, while trying to teach them the state requirements.
7/20/2020 21:44:17	Sheree	Reece	Parent and coach	Overland Park	Please let the kids go to school. Please let the kids play (especially) outdoor sports. If they get the virus it's typically mild and they are unlikely to get it outdoors. They've been through so much the past 5 months. Please give them some normalcy. Sports are healthy mentally, physically, and emotionally. Schools around the world have been resuming and yet we are looking at postponing.

7/20/2020 21:44:19	Crystal	Tryon		Spring Hill	Please re-open schools, with precautions such as temperature checks and masks in place. Children need engaged learning and socialization. Parents are not teachers. Mental health should also be considered. 6+ months of solitude is not good for our children's mental health.
7/20/2020 21:44:33	Ritney	Sutton	NA	Olathe	Please re-open schools as normal and allow masks to be OPTIONAL!!!
7/20/2020 21:44:40	Jacob	Stutzman		Emporia	Please approve the governor's order. Districts, buildings, and parents need the additional time the adequately plan for safety.
7/20/2020 21:44:59	Mattie	Chitwood		Conway springs	Decision should be up to each district not one decision for whole state. Each school is in a different position and should be allowed to make decisions based on what's best for them.
7/20/2020 21:44:59	Amy	Weishaar		Lawrence	Please uphold Executive Order 20-58. To delay the start of school will give school districts, teachers, and staff needed time to better prepare for and feel more confident about on-site and remote learning. Let's support our educators who have been heroes throughout this pandemic. Let's prepare the best and safest learning environments we can for our students, teachers, and staff.
7/20/2020 21:45:03	Sarah	Plese	USD 500/teacher, Shaw	Prairie Village, KS	Delay start of schools to protect staff and students.
7/20/2020 21:45:05	Miriam	Horton	Concerned parent	Garden City	I urge all board members to leave reopening plans in the hands of the local districts. If they follow your well thought processes they will not be at the whims of the govenor. In study of the science following observation in other countries Ireland/Norway transmission in schools is minimal or non existent if care is taken. The governor of our state is not currently following the will of the people, please do not follow her lead.
7/20/2020 21:45:10	Daw	Riggs	Teachers/Parent	Garden City	Please do not open schools before Sept. 9th-I do not feel it is safe for my daughter or myself. Educators need assurance they will be protected and provided adequate PPE that won't come out of our own pockets.
7/20/2020 21:45:18	Travisray	Salyers	Santa Fe Trail HS	Overbrook	Accept the governors executive orders to delay school.
7/20/2020 21:45:20	Scott	Fluke	Olathe Public Schools	Olathe	<p>I am writing to request that you vote in support of Governor Kelly's executive order to delay the opening of Kansas schools until after Labor Day.</p> <p>I wish this measure were not necessary, but the data clearly shows that it is. When we respect social distancing measures and wear masks, we keep ourselves and our community safe. Unfortunately, cases in the state are rising. In fact, in my area cases are rising at a rate of approximately 7 times the rate they were when schools were first closed in March. The data suggests that opening schools too soon will inevitably lead to outbreaks and quickly closing down again.</p> <p>I am a psychologist in our school system, and I confront he realities of trauma and mental health on a daily basis. Staying home is hard, but we must protect our students from the repeated trauma of deaths in the school community. If we open too soon, staff and parents will die. I cannot tell you how many parents and teachers will die, but the data suggests it will be far more than one.</p> <p>You are in a powerful position to prevent some of this needless death. Please protect Kansas teachers and families by voting to support Governor Kelly's executive order. Teachers will be watching, and will remember your decision when it is again time to vote for our representation. This is a vote educators will remember.</p>
7/20/2020 21:45:24	Donnie	Palmer	Teacher for USD 501	Topeka	Please vote no to that mandate to delay schools. Every district that is located in a hot spot for cases is starting online with school. We should be allowed to start online schooling sooner rather than later. We are probably going to end up online for most of the Fall Semester. It's so important for the mental health of our children to start school in August. Not every county and district is the same. Please return control to each local school board and local health department. Thank you.
7/20/2020 21:45:29	Jennifer	Fisher	USD 234	Fort Scott	Open schools up on time. If mask are suppose to be the fix it all, then why is there a problem getting the schools opened up. Wear a mask. The parents should have the choice and the choice should be if you are comfortable sending your child to school let them and if not allow online as an option. The Covid isn't going any where, you have to live around it like any other virus and it will take every parent, teacher and staff to make it a safe and clean environment. Open schools up on time! Thank you!

					I feel that each school district should have control over their start dates. If you need to wait for a week or so or if you need to do virtual, then that's what your district should do. But, if you want to start as scheduled, your district should have that choice. Each district has a different situation and they should be able to address those situations individually. Those that do not feel their students should be in the school building, yet, should choose that. But what about a voice for those of us that want our students back in school? Each side should be able to adjust their plans according to their needs. The Navigation plan has options for all of these scenarios. We need to get our students back in class. We need to keep control in the local districts as it is designed. Please, let the local districts have their control. We are all concerned for students' safety and each school will do what is best for their students. We always have.
7/20/2020 21:45:31	Nadine	Hope	Cunningham High Scho	Cunningham	
7/20/2020 21:45:39	April	Gardner		Wichita	I agree with the mask mandate and delaying of the schools to prepare.
7/20/2020 21:45:43	Deb	Meehan	Olathe schools	Lenexa	Delay please!!
7/20/2020 21:45:52	Laurie	Reed	My grandchildren	Shawnee	Comment removed due to profanity
7/20/2020 21:45:53	Laura	Heintzman		Ottawa	I strongly support waiting to start school until September. It is important to take the time to plan well. The safety of our teacher and children should be the top priority
7/20/2020 21:45:57	Jessica	Wilson	USD 312 Haven	Maize	As a Kansas educator, I would like to express my support of the executive order to delay the start of school until September. The extra time will better allow for teachers and staff across the state to prepare for what will be the 2020-2021 school year. Teachers are resilient in nature and will be ready no matter the outcome, but the extra time would be great to prepare for some of the unexpected scenarios that this school year is bound to bring during this time of pandemic. Thank you.
7/20/2020 21:45:58	Kristen	Birch		Maple hill	I personally think they should start in Aug. There is no reason to wait until after Sept. People will be exposing themselves to others over labor so you aren't helping the matter any. Some kids need the one on one attention like mine. They have a learning disability like dyslexia and online learning did not work for us. The teachers will do their best to keep the kids safe. I worry more about it not starting and what will happen to the kids. they will be depressed and upset.
7/20/2020 21:45:59	Ashley	Long	USD 305 Teacher and p	Assaria	The start of school should NOT be delayed. Students need to be back in school and are ready for some consistency that school provides. Please allow individual districts to make the decision on their own if they are ready to open their doors to students.
7/20/2020 21:45:59	Brian	Quick	I am a teacher, represent	Shawnee	Please uphold the governor's order. Districts should not start until we either have a vaccine (a long shot this year to have one and see it distributed widely), or until cases have dropped for 2 straight weeks (four would be ideal because the incubation period is two weeks). Perhaps some counties could go back earlier or stay in session, but the health of everyone in a school, from students to staff, should be put above all else. We can make remote learning work. Not one person should have to choose between their child's health and an education. Not one person should have to decide between their own health and a paycheck.

7/20/2020 21:46:01	Amber	Cooleyp		Olathe	<p>It is deeply disturbing to me to see that it seems only education employees advocating for schools to remain closed have a voice. The ones who are ready and willing to get back to work and provide for their students are having their voice stifled! I've talked to educators across the state and it seems to be the consensus they cannot openly advocate for reopening all the while the ones who want to stay closed have been using their school and personals social media accounts to shame people, to post ridiculous memes accusing those who want schools open of wanting to "slaughter" them for the economy and bully anyone who dare disagree. I can't for the life of me understand how this became political, our children deserve better!!</p> <p>There are hundreds, maybe thousands of children in my community alone who haven't felt safe since March 12. They are desperately waiting the news of whether they will get to go back to school soon or not because that is the only part of their life that is good. I understand there are challenges, but acting like we cannot reopen schools until this virus is gone is just simply more dangerous for those children than the virus itself. Their lives may depend on being able to get back to school! I know there are school staff that have legitimate health concerns, I would be happy to step in and sub to help fill whatever void there is because of that.</p> <p>I am willing to accept whatever risks their may be to help provide some stability for the kids who are suffering because I was on of those children growing up. I didn't have a safe home most days, my parents were drug addicts, I was abused and neglected and ended up in foster care. I can imagine what a lot of those kids are living through right now because I have lived through it myself and it breaks my heart. I am 42 years old, but I remember it like it was yesterday, those memories do not go away and they never fade. Only by the Grace of God was I able to overcome and I am thankful I am a survivor. Not everyone is or will be as lucky as I have been.</p>
7/20/2020 21:46:03	Carla	Stukenholtz		Dodge City	<p>Please consider allowing schools to reopen on a district by district basis. Some of us have flattened the curve and aren't seeing an increase in numbers. Why treat all districts the same, when they aren't? If numbers increase after schools open then let's address that district by district, school by school and class by class instead of freezing all activities and education. Kids need to get back into class and their activities.</p>
7/20/2020 21:46:11	Amy	McGuire	parent and community n	Cunningham, KS	<p>We have fewer than 200 students K-12. Our teachers know each and every one of those students. WE DO LIFE TOGETHER. We are FAMILY. Our situation is NOT THE SAME as Wichita or Olathe or Dodge City, even. PLEASE consider giving control to individual districts. One size does NOT fit all where covid is concerned. Thank you for your time!</p>
7/20/2020 21:46:12	Carrie	Lough	Parent	Wellington	<p>Thank you for taking the time to read our comments. In our small community the coronavirus seems to suddenly be running rampant. We have jumped from 3 cases to 72 and counting in a matter of two weeks. This is with no school. Those numbers are going to skyrocket if we open up schools too quickly. While children aren't particularly susceptible to this virus, my fear is they will unknowingly spread it to their families, grandparents, and staff members. I don't feel it is right to use our children and teachers as a science experiment for covid and just wait to see what may happen. Doctors don't even know the long term effects from this virus yet. Furthermore, we all know there will still be those parents that give their children fever reducers and STILL send their children to school sick. We also know that most kids even the older ones do not social distance well or wear masks appropriately. While I like everyone else is more than ready to get my kids back in the classroom, it's not worth risking my teacher friends lives, my children's lives, or my parents lives when we have other viable options. While online school might not be the first choice, it is the safest choice we have right now. At the very least, let the governor do her job and let's see if our numbers start to go down to a more acceptable limit. Kansas should not be this bad off and expect normalcy. We need to let the administration have time to come up with plans and not rush into this. What's wrong with starting off online and watching the situation play out. If things go well THEN integrate back into the classroom, but don't risk our children's and our educator's lives!</p>
7/20/2020 21:46:32	Katelin	Saunders	KCKPS	Johnson	<p>Please follow the governors orders to delay the start of school in order to put the health and safety of all students and staff first.</p>
7/20/2020 21:46:34	Marsha	Vogrin		Lenexa	<p>I am a mom with a son at MPE and a son at PRT. They need to go back to school in person. The death rate for children is extremely low for Covid cases. It will do more harm than good by online schooling. Give Us a choice. Give our children a chance. Those that don't feel comfortable can keep their kids at home.</p>

7/20/2020 21:46:42	Gail	Snowbarger	Parent and staff member	Olathe	<p>I support delaying students until after Labor Day and delaying STAFF the same respective number of days or as many as possible. I also believe we have had enough “out of the norm” in the past six months to last a life time :) so I also support district calendars being allowed to finish at their typical time, meaning flexibility in completing mandated contact hours with students (example: extended school day, shortened breaks)</p> <p>Taking into consideration the varying needs of the districts across the state of Kansas, I also support allowing districts either the choice to begin as schedule or to delay until after Labor Day. Another variation of this might be to delay the start of the school year state wide and allow districts in areas with little to no outbreak to write a variance to begin as regularly scheduled.</p> <p>I desire to see the state of Kansas work together for the good of students and educators. I would be so terribly disappointed to see our amazing students and hardworking staff pay the price for Democrats and Republicans jockeying for power. Please be the wonderful Kansans that I know you are! Show the world how to cooperate, instead of how to compete and fight.</p>
7/20/2020 21:47:00	D’Arcy	Meng		Garden City	<p>Since March, my out going, funny loving, social, straight “A” student’s mental health has been in total jeopardy. She cries, worries, and feels worthless. My daughter and I have determined that getting Covid 19 and being quarantined for a few weeks would be healthier than missing anymore days of school and activities. Kids need social interaction, activities, sports etc...sitting at home day after day and looking at their phones is not helping! Get them back in school!!!!</p>
7/20/2020 21:47:03	Gabe	McGuire	Hays High School	Hays	<p>I believe that for this school year that online school should be heavily pushed or even required. Going to school and attempting to social distance would be nearly impossible with the already too small classrooms and hallways.</p>
7/20/2020 21:47:04	Sara	Schmidt	Teacher and Parent USD	Atwood	<p>I beg and plead that you vote against Governor Kelly’s executive order to delay school until after Labor Day. This decision should be left up to each individual district and one person should not be allowed to make that decision for the entire state. What works for larger districts might not for smaller ones and vice versa. This is not a one size fits all. We are not all in the same boat. As a parent and teacher I fell like I should be able to decide if I get to send my children to school in person. I do not feel threatened by COVID-19 both as an educator and a parent. Please vote no on Wednesday so we can make our own decisions that we feel is best for our families, community and schools!!</p>
7/20/2020 21:47:08	Shaquela	C.		Wichita	<p>I have a newborn and a husband with an underlying condition. I will not send my children to school (whom all are in elementary). Even if they open back up and require kids to go back instead of delaying like they should I will not send them until this calms and our numbers decline</p>
7/20/2020 21:47:12	Emily	Rose	Citizen of Topeka	Topeka	<p>I think it is wise to wait and open schools when the infection rate is lowered and it is more safe to do so. What happens when a staff member or student tests positive for covid? Shut down and then restart? Then another positive case...shut down and restart? We are in much deeper as far as cases go than when school was cancelled in March. I personally don’t think opening schools right now is the wise thing to do.</p>
7/20/2020 21:47:12	Amanda	Mogoi		Wichita	<p>My husband and I are nurse practitioners. My husband works in the emergency room at two local hospital seeing Covid cases every single day. I run a primary care clinic with a high risk population. We both believe that delaying schools until after Labor Day is an appropriate option. I appreciate Governor Kelly’s insight and care that she has taken with this issue. I have a second grader, first grader, and a two-year-old. I will not be sending my children back to school with masks are not required.</p>
7/20/2020 21:47:14	Lynn	Kasten	Weskan School	Sharon Spgs	<p>We need to open our school. Students need to be in school for so many reasons: social, security, meals, and to gain what they lost at the end of last year. Most all students learn more by face to face instruction. Have you ever taught art to grade school students through a computer screen? It is VERY difficult and nearly impossible because all families do NOT have supplies needed. My understanding is that as long as we practice good hygiene there should be lower threat of contamination to others. Our kids need to start school at our regular date in August. Plus, there is NO cases in our county and very few (if any) in our surrounding counties. Please do NOT make a decision where one rule for every school-each district is unique.</p>

7/20/2020 21:47:16	Todd	Roberts	parent	Goddard	I am absolutely for delaying school if it will provide time for teachers and districts to get things prepared for a hybrid model that will be going on this year. It also allows for teachers to get training and understand best practices for keeping students safe.
7/20/2020 21:47:30	Jean	Mears	USD 500 KC KS	Overland Park	Teacher students and families are not safe with an August reopening. Please delay
7/20/2020 21:47:32	Vicki	Kohl		Olathe	I urge you to SUPPORT the governor's EO to delay the opening of schools. School staffs have not had the time to fully review your "Navigating" publication, nor have they been able to plan much of anything yet because the conditions have been a moving target. Were they planning for online school, in-person school, a hybrid? Should they plan so that at a moment's notice they can move from in-person to online? Do schools have the supplies they need to assure hygienic safety and social distancing. The science says that children 10 & older can transmit the virus as readily as adults. The way most schools are now, it will be impossible for classes to socially distance. If the state were to adopt mask-wearing now, there would be a chance that the positive cases could get to within a reasonable margin. There are many variables to work out, and starting schools by August 14 does not give schools a fighting chance to do the job reasonably well. They need more time. Let's not play politics with the lives of our children and teachers.
7/20/2020 21:47:39	Kellie	Katz		Edwards	School should stay closed till after Labor Day, then become hybrid if we need to return to the classrooms! If masks need to be worn, I believe online should be the answer!
7/20/2020 21:47:39	Crystal	Wise		Gardner	Our kids need to be in school
7/20/2020 21:47:40	Kalisha	Suarez		Salina,KS	I believe we should delay the 2020-2021 school year until after Labor Day.
7/20/2020 21:47:41	Angela	McKenna		Andover	Please let school begin when scheduled. Districts have already worked for weeks to have a plan in place and are ready to begin the year. The data does not support postponing school and our children's mental and emotional well being is as important and their physical well being.
7/20/2020 21:48:01	Vickie	Greene		Gardner	My kids need to go back to school for their mental well being.
7/20/2020 21:48:08	Jessie	Fluke	Olathe Schools	Olathe	Please vote to support Governor Kelly's executive order to delay school until early September. COVID does not care what political party we support. It is here and it is spreading rapidly whether we like it or not. The only way to prevent our community from needing another shut down is to decrease the spread. Data from around the country and around the world indicates that we are only a few weeks from being out of control.  Schools are small and cramped. Social distancing will not work in those settings. The virus will spread to students and to families. Please prevent this and prevent another shut down by voting in favor of the executive order.
7/20/2020 21:48:18	Darren	Doll	Self	Wichita	As shared with my state BOE rep, though in a more brief comment. I support delaying school reopening until after Labor Day. Data /statistics speaks for itself and it's a mere few additional weeks. We need to see the trends decline and with the recent uptick here in late June/early July, delaying will be invaluable and possibly life saving, not only for kids, but for teachers and many others that can be infected from school related community spread.

7/20/2020 21:48:35	virginia	macha	Supporter of our Teachers	lola	First I appreciate all the hard work this Board made in the effort to open our schools. Months of work after the sudden closing of our schools should never be over shadowed by an executive order. This Board was elected by the Voters on your ability to know what is best for Education in Kansas and that trust we have placed in you to lead has more than once in the last 4 months been circumvented. I have spent much time on the ground listening to the one word that is repeated most often. Normal...Parents, Teachers, High School Students want some kind of return to Normal, even if it is modified. They want to start school like normal, they want to figure it out, and they are exhausted by the scare tactics being used by Government officials. They have little faith in what they hear about COVID19, they have less use for all the numbers being paraded out each day. We are all frightened sure, but when every Governor order is a one size fits all, even when it comes to our schools, the governor is clearly out of touch. No matter the school district, large or small, each comes with their problems that will never be identical. Just like individual instruction, each District has a duty to use a best fit approach that reflects a comfort level among all concerned. This distraction of the Governor issuing a directive that circumvents your authority as a Board will undermine the credibility of any future decisions or actions you make. It is unfortunate that you have been placed in this position and be assured you will be the person left holding the proverbial bag. Tomorrow will take leadership, but the end decision should be start school on time. It is your duty.
7/20/2020 21:48:45	Ann	Metcalfe		Minneapolis	Please vote to delay the opening of schools! Already with all of the indecision, teachers have even less time to prepare for so many unknowns and so many new requirements. There are still so many liability questions that remain unanswered and cases are still on the rise. It is inevitable that the virus will penetrate schools so it is critical that all stakeholders know exactly what the plan is for every situation. This is not currently the case. I'm afraid that if it's left to my local school board, they will push to open immediately because of the pressure of a few loud voices, when teachers have had very little time to plan and prepare to meet the new safety guidelines AND be prepared to move to an equitable and effective online platform, as we all know is inevitable. Parents are already nervous about their children being exposed, let's give the school staff a chance to do it right!
7/20/2020 21:48:50	Frannie	Miller	Parent of Junior High and	Lyons	Colleges are moving up the start time to be done before flu season. I think we should just start and try to do the best management we can and get as much time as we can in the classroom. This is important to the mental health of our children. I don't understand why the hybrid model is not the first choice as they would get some in classroom instruction, have learning at home and limit the amount of contact with other students.
7/20/2020 21:48:52	Tashina	Sorensen-Adams	Parent	Hutchinson	Here is my point of view on all this. We the people where is the we it's I want this and I want that. So here goes I'm all for some good old hand washing if your trying to keep germs down. Hand sanitizer is for if you can't get to water to wash your hands. Then you wash your hands when you get around a sink. Also please explain to me how kids aren't going to get sick from all the hand sanitizer they have on there hands. Mask, mask, mask that is sure a hot topic right now. I'm going to say that no kids shouldn't have to wear them because they are going to mess with them, not keep them on. We the people need to stand up for this so I'm doing that. You want me to wear a mask fine I'll stay home and not go out but you are taking away from our children what they need and want. Do you honestly think kids are going to stay 6ft apart? Do you think kids are going to keep mask on? Do you think that any kid needs to have them on? I'm mean we don't even know how it effects them. Kids need to be normal and if you make them wear mask guess what they will get sick but it wont be from covid 19. It shouldn't be up to the govner to say they need to wear them. I don't want my children wearing a mask to school and I don't want to have to remote teach them either because the whole reason we are opening schools is so we can have kids in them. Really what is the point if your going to send our children to jail. Not school jail. No mask
7/20/2020 21:48:53	Chris	Fluke	Olathe Public Schools	Olathe	Please support Governor Kelly and delay the opening of schools to September 9th. It will give us time to prepare a safe plan for all students and staff. Almost everyone I've spoken to on the Olathe School District staff agrees we need time to prepare.
7/20/2020 21:49:09	Meg	Kaemmer		Overland park	I am concerned this is just the first step before the school year gets cancelled completely. My children are already struggling with the amount of education they have lost over the last 5 months. I work full time and have to hire a sitter to stay with them. They do absolutely nothing but watch tv or watch an iPad. This is so detrimental not to be socializing or learning. I told my daughter yesterday school is delayed and she cried. She doesn't want to stay in this house anymore and misses the interaction with her friends.
7/20/2020 21:49:17	Lindsay	Siebert	Parent	Manhattan	Covid numbers are rising. Why would we send our kids back to group settings and expose them and us.

					<p>Please pass the EO to delay the start of school until September 8.</p> <p>My husband and I are both teachers and we have our own children.</p> <p>Having these extra weeks will give time to prepare and hopefully have new cases drop.</p>
7/20/2020 21:49:13	Kristin	Neufeld	USD 373	Newton	Please delay the start of school.
7/20/2020 21:49:29	Debbie	Stramel	Wallace County Public S	Winona	Living in a county that has less than a handful of cases and my children going to school in a county that has had zero cases of Covid, I feel we should not be a cookie cutter one size fits all decision in the Governor's response to starting school late. Schools like ours would benefit from starting school on time. I also believe we have shown our own responsibility without our counties following a mask order and continue to defy the state increase so why should we not be allowed to make good decisions for our kids in school and sports. Areas that are being highly hit are understandably delaying but most of the west side of the state is not in that scenario. My children have been to livestock shows with over 500 people in attendance as well as camps with over 300 attending and managed to stay healthy. I feel they can manage school in this same manner and we should have the right to choose our course. It feels as though all our independence is being stripped away one issue at a time with no end in sight. Thankyou for listening.
7/20/2020 21:49:36	Therese	Cook		Colby	Our children NEED to be back in school. There is research out there that proves children are not an "at risk" population. Please allow each reach to make their own determinations and regulations on return to school. The demographic makeup is not equal in the entirety of the state. The rural regions look very different with class sizes than the urban regions.
7/20/2020 21:49:37	John	Hudson	Homeowner	Overland Park	Start in-class school on time. Use recommended safety procedures, and weigh child suicides, loss of academic development, lack of school-provided meals to children in need, lack of child supervision and care, etc against the unlikely chance of children contracting the deadly COVID-19
7/20/2020 21:49:51	Christina	VanCleave	Parent	Edwardsville	Kids in the Life skill classroom needs school to be in person not virtual. I am okay with fewer days of school. I know there are no perfect solutions and safety is important but we have more knowledge. I think the governor is just buying time and schools are going to be canceled. Parents need time to prepare because they have to work. I want all teachers to be safe!! But please the ones who are still going out and posting their vacations and gatherings makes me question. Please do not cut us off and have us do virtual.
7/20/2020 21:49:53	Cheryl	Sonnenberg	My Family	Garden City	Open the schools on time no restrictions. Get over it, it is not goi g to kill you.
7/20/2020 21:49:45	Mandy	Bive	Usd 270	Plainville	Let the kids go to school when school is to start. Dont make them wait. They've already endured enough with how the school year ended. They NEED to be in school with teachers and their peers and have the chance to have a normal life that they havent had in the last 5 months. Let the kids play sports and have other activities, they've already been playing summer rec sports as well as starting school sports practices.
7/20/2020 21:50:03	Amber	Paddock		Pierceville	I don't believe 3 weeks will change many things. I believe kids need to be in school. I dont think they need masks if you are taking temps daily? They ate going to become a distraction and something else for kids to get in trouble with.
7/20/2020 21:50:05	Donna	Niles		Maize	I support the executive order, although I know it will be difficult for staff to implement and enforce mask wearing. I'm willing to supply masks for my child and contribute hand sanitizer to the school.
7/20/2020 21:50:36	Gail	Dunbar	Retired superintendent	Lebo	I support the governor's plan to delay opening of schools. Schools need time with instructional staff to prepare for an entirely new instructional environment. I have four grandchildren in public schools and they will not attend in person until it is safe. A student in their school district has a positive test and has participated in summer conditioning which has now ended. How can we have in -person class with rising numbers like we are seeing?
7/20/2020 21:50:41	Shasta	Whisler	Parent	Valley Center	I don't think it's the smartest idea however I know my children are more than ready to get their lives back to normal.

7/20/2020 21:50:45	Wayne	Krause	#HelpUsPlayKansas	Olathe	<p>First, I am writing to you to recognize your leadership and support you in this unprecedented situation. I am thankful for you and know your heart is to do what is best for the people of Kansas.</p> <p>Second, I am writing to you in preparation for the Kansas School Board of Education Vote on the mandate to delay school opening.</p> <p>I respectfully request that we work with you to ensure a safe school environment that accomplishes both of the following:</p> <ol style="list-style-type: none"> <li>1) Safe School opening following the Board of Education Return to School Plan</li> <li>2) No delay to student participation in school, athletics, and activities.</li> </ol> <p>In response to the Mandate delaying School opening statewide, Please vote the mandate down and allow the individual districts to make their own decisions.</p> <p>This will allow each district to make the decision that is best for its community. The situations vary widely across the state and a one size fits all approach does not make sense.</p> <p>Based upon the information available, I believe we are able to send them safely back to school and activities now. I also believe we do more harm than good if we delay starting school and activities on time.</p> <p>I am one of the over 6,200 people who have signed the #HelpThemPlayKansas petition supporting all #Kansas High School Students who voluntarily choose to engage in 2020 sports and activities this fall without delay.</p> <p>We all are thankful for the leadership you have provided in leading through the Covid-19 pandemic and know that you have our support.</p>
7/20/2020 21:50:48	Kelly	Buckley		Lyons	It is a lose lose decision I realize but one more perspective is a single parent teacher who has to leave her kids home who are supposedly old enough at 9 and 14 but not for 8 hours a day for 5 days a week for three weeks because we have to go back to school but they don't. They are too old for child care but shouldn't have to stay home so long and prepare their own meals etc. Just another perspective.
7/20/2020 21:50:50	Linda	Tilton	Myself— a parent	Scott City	Please let local school boards decide when their school can open. Local boards can make the best decisions for their students. Schools (& activities) need to get started sooner than later. Children need school, sports and extracurricular activities.
7/20/2020 21:50:52	Kelly	Elias	Parent of school age kid	Gardner	I agree that our districts and teachers need time to successfully prepare for whatever school looks like - be it in person or online. I would rather wait until August to know that my kids were getting a well planned and thought out education.
7/20/2020 21:50:54	Andrea	Raaf	School district	Madison	Waiting to start school is one more loss for our children. Odds are decent that we will have to do some closures as we get closer to cold/flu season. Getting them back in a classroom on time to get their minds working is pertinent. As this virus seems to effect children mildly on the medical side, the other lasting effects I believe we will be learning about for years, unfortunately.
7/20/2020 21:50:58	Paul	Kemp		Garden City	Please allow this executive order to go through. I think delaying start is important for schools to prepare for the start of school. This is a pandemic and our schools need to be prepared to make sure all stay safe. 3 week delay isn't going to be a huge issue if our schools can stay in session.
7/20/2020 21:51:01	Bridget	Brown		Assaria	The governor should not be allowed to delay school in this manner. School districts need to be able to decide for themselves with their own set of factors on the situation.
7/20/2020 21:51:04	Darcy	Couse	Parent at USD 299 Sylva	Lucas	Let the schools decide if they are ready to have kids back and then parents in that district can decide if they want kids to go back or not. Not all districts are the same and should not be treated the same.

7/20/2020 21:51:36	Talia	Baker		Bonner Springs and KC	PLEASE support Governor Kelly's order to delay school opening. This will give everyone time to lower the numbers, and better plan for the safety of all those involved in schooling. Students, teachers, staff and all their families!! Do what is best for all, not the few.
7/20/2020 21:51:42	Debbie	Walburn	None	Lawrence	I am writing to strongly urge you to support Gov. Kelly and mandate EO 20-58. As a school district employee who has 2 family members that also work for schools and 2 grandchildren in public school, I feel that a later start for schools is needed. We cannot expect the schools to be ready to safely open and have staff trained by a mid-August opening. PPE's and other safety equipment needs to be ordered. Many of these items are in short supply. Protocols and procedures need time to be formed and staff trained on them. Please think about the health and safety of our children and staff - not politics.
7/20/2020 21:51:45	Debbie	Messerly	Concerned grandparent	Olathe Kansas	I am a firm believer in following the science. We should not expose our children, teachers and administrators to the dangers of the Covid virus. Perhaps online learning would be advantageous. Is it true that children can't register for school until they are current with all of their vaccinations? Why would we expose them to a life threatening virus such as the Covid? Children can easily succumb to peer pressure. Their maturity level isn't ready for the rules to stay safe during a pandemic.! I think waiting until after Labor Day is advisable.
7/20/2020 21:51:46	Krid	Shirley	School Librarian	Ottawa	I appreciate delaying the school year. I travel to three elementaries and I am very, very concerned about the health and safety of our students and staff. I think this will give us more time to acquire much needed disinfecting equipment. I need time as well too work with my staff on getting the library and the books ready. I also will be working on implementing social distancing in the library while trying to teach and conduct classes. I also need this time to make plans in the event that we need to work virtually. Please continue to support the delay in opening our schools.
7/20/2020 21:52:03	David	Henderson	My family!	Potwin	Quit wasting taxpayer money on a hoax. Kids need to go to school and it be just like it was. No masks and no Plexiglas. No sanitizer every hour. Your just trying to scare them, control them and make their immune system weaker. Your socialist vs isn't going to be tolerated.
7/20/2020 21:52:04	Abby	Geist		Olathe	I would like the school board to vote in support of Gov. Kelly's order to delay schools opening until after Labor Day. Our community is struggling with COVID cases on the rise! Our schools would benefit greatly from more time to prepare safety measures and make decisions about in-person vs online.
7/20/2020 21:52:16	Danielle	Hall		Ashland	I want to wait til at least Labor Day weekend to send my kids back to school hopefully the numbers will start slowing down.
7/20/2020 21:52:16	Cassie	Brumage		Manhattan	I support the executive order to delay the start of school to after Labor Day 2020.  The state needs to time to bring down new case numbers down. District need time to come up with solid plans. Teachers need the time to prepare.
7/20/2020 21:52:17	Jason	Sims		Eskridge	Yes, please keep schools closed till after Labor Day, if not longer. Maybe stay closed 2 weeks after Labor Day. All activities that were suppose to happen in July are happening Labor Day weekend. This weekend is also the "last" weekend of the summer & so many people get together. Please keep our children safe. As a parent of 2, I am seriously considering virtual learning. Opening schools back up really scares me. Schools are a germ factory & seeing how fast the flu & strep throat can spread through a school..imagine this virus. After attending a funeral 20 family members got the virus. It spreads quickly & we are going to have a mess on our hands once all schools open their doors. I hope hospitals are ready for beds to be full with kids & teachers.
7/20/2020 21:52:28	Shana	Sowles	Parent	Olathe	Open up schools. Where will this end? I will be taking me fifth grader out of school at this point, and possibly my two high schoolers. I am amazed what the governor said this afternoon, in response to a question about taking temperatures daily at high schools prior to students entering the building. A few short years ago, the fears were about school shootings. So all entrances but a select few were closed "for the students' safety." But now, they will open all the doors "for the children's safety". School shootings have taken more students lives than Covid. I am just at a loss for words. What about any of this makes sense? My family of 5 has been out and about since may 21st. My teen daughter has been working on the restaurant business throughout Covid, averaging 26 hours a week. We don't wear masks. We are smart about washing our hands, etc. We have been to big box stores many times since the shut down. We have been fine! I believe this is because we allowed our immune system to protect us. We didn't hole up and destroy our immune system. Don't do the same for the kids!

7/20/2020 21:52:29	David	Cromer	Self	Topeka	Schools need to open on time. Teachers are essential workers. They can wear masks if they want to. Parents need to get to work and to do that, the majority of parents need their kid in school. Schools provide many essential services. If you do not then it is political aka, anti-Trump, liberal politics. If you do not open schools, then I expect schools to be shut down too for the flu virus EACH year from now on.
7/20/2020 21:52:38	Erin	Dowell		Mulvane	I get that everyone wants kids to be safe but first extending summer to after labor day is not gonna change much but requiring all students to wear masks all day at school wont work for most kids. I have one kid that would do ok with online learning but I have 2 that have to go back to in class school they cant do online learning.
7/20/2020 21:52:41	Angela	Hahn		Stockton	In regards to the facts at hand it is fairly reasonable to believe the coronavirus has a low impact on children and appears to not spread easily through that particular population. In fact influenza appears to be more deadly to children then the coronavirus yet we allow it to run rampant through schools without closing them down when high percentages of children are infected. It is my belief that the schools should be opened at the earliest possible date especially in the rural areas where the active Covid case rates are very low. I know that our district in particular has been preparing since March for how to handle this re-opening. I have full faith in our faculty and staff that they have a good plan that is workable and they should be allowed to present that plan at the very minimum to the Board of Education to allow our school which is lower in population than those in the cities to return to normal classes. I'm sure the most difficult task is to avoid transmission of the illness to those in the population who may be more at risk Including older teachers and staff but i'm sure there are solutions including the possibility of teachers remoting in to a classroom. This can keep teachers safe while allowing kids to be back in their semi-normal environment. As a healthcare professional and EMS volunteer I have personally witnessed the effects that the panic about Covid is causing including delayed treatment, missed diagnosis, depression and loneliness in our populations. In fact in our community the shut down has been much more dangerous to our citizens than the illness itself. I believe wholeheartedly that the negative effects of these closures on our children are far worse than the risks of re-opening schools at this time. If there are parents who are concerned about their children being in school there are multiple free online educational options, As well as, I'm sure, remote learning options from the school.
7/20/2020 21:52:37	Michael	Parsons	None	St marys	The coronavirus numbers in kansas are to high to put kids back in school right now but I am not a doctor. I am a parent of a high school freshman that needs to be with her teachers and her classmates. Let the doctors tell us when it is safe to return to school and leave the political bs out of it.
7/20/2020 21:52:45	Michelle	Sanders	USD 259	Wichita	Please keep our teachers and staff safe by delaying the reopening of schools until September. My children do not want to be at school without their teachers and friends in a healthy environment.
7/20/2020 21:52:45	Veda	Hogue		Haysville	I do not think the statistics warrant our kids wearing masks all day. And this choice should be left to the parents. I have a 2nd grader and 7th grader.  Below would be my compromise, though I am 100% for not having them wear them at all.  For grade school, I do not believe they should be required to wear the masks all day. In my job we do not wear masks around each other as working together is similar to living together (I work in a building with about 30 co-workers). The classroom is the same. Once in their class rooms they should be allowed to remove the masks. And hand sanitizing should only be used when leaving and arriving to the classroom.  For middle to high school maybe once they are seated they can remove the masks. But during passing periods they wear them and hand sanitize when arriving and leaving class rooms.
7/20/2020 21:52:47	Diane	Egger	None	Independence	Post Labor Day opening makes sense.
7/20/2020 21:52:50	Crystal	Crank		El Dorado	Please delay the start of the school year to after Labor Day.
7/20/2020 21:53:11	Cindy	Laub		Wichita	Please don't delay past Sept 8th. Social distancing when possible, masks all the time, and hand sanitizer every hour are precautions that will slow the spread of the virus. We cannot eradicate those disease....all we can do is slow the spread. WE CAN DO THAT AND ALLOW KIDS BACK IN SCHOOL!

7/20/2020 21:53:20	Tammy	Hutcheson	Hutcheson Hacienda	Garden City	If starting school after Labor Day allows for a normal experience for our K-12 students, this is great AS LONG AS districts are required to wrap up by Memorial Day. If there is not going to be an opportunity for some normalcy and/or the school year to be wrapped up prior to Memorial Day, let's just get started. Districts should have been working on a plan for months.
7/20/2020 21:53:24	Julie	Westmacott	Retired Kinder teacher/g	Olathe	Reopen after Labor Day? - YES. Schools should not reopen until it is safe for everyone. Masks are not enough and would be a nightmare to manage for young ones. Schools need more money for PPE, ventilation systems, plexiglass, and more staff. Schools are not prepared to open safely and BTW the pandemic is still raging. No one is expendable. Some students and staff are very vulnerable. Officials have had since March to prepare and it appears nothing has been done. Not safe- September is not long enough.
7/20/2020 21:53:24	Lauren	Carver	USD 204	Kansas City	I hope the delay to the start of school will pass so our students and teachers will have a free me weeks of safety. Hopefully more people will take this seriously and take the appropriate measures for the common good so we can return. I don't feel like children should be the ginea pigs of reopening even if it is inconvenient for some.
7/20/2020 21:53:30	Kendra	Taylor	Parent	Kck	Consider our children, teachers and staff and not your political party. It is not safe for our kids to go back to school.
7/20/2020 21:53:32	Shane	isle		Coffeyville	open schools up on schedule in August.
7/20/2020 21:53:34	Sara	Brockman		Clay Center	I would like Gov. Kelly's mandate upheld to reopen schools after Labor Day so we can get the case numbers down.
7/20/2020 21:53:45	Kathryn	Thiessen		Ottawa, KS	I do not want to delay the start of school because students have been out for too long. The students need to be making some sort of connection with their teachers to move in the right direction. I do not want to have students (K-5) wearing masks. It will be a huge distraction in the classroom setting. I think that it should be up to the parents discretion.
7/20/2020 21:53:45	Janet	Benninga		Manhattan	I have four grandchildren in the Kansas school system and I fear for their safety by going back to school at this time with the COVID virus going up. By delaying the start of classes schools will have more time to better prepare. My grandchildren are in Johnson county where numbers keep going up. Please consider delaying school until after Labor Day.
7/20/2020 21:54:00	Amanda	Gonzalez		Kansas City	Delay start
7/20/2020 21:54:01	Lisa	Sullivan		Kansas City, KS	I cannot imagine anything more irresponsible at this point in time than reopening schools for in-person classes. We cannot go to the grocery store or worship in our churches without masks and a minimum of 6ft between us. It is ludicrous to think that students can ride buses, sit in classrooms, and interact with each other, their teachers, and essential school personnel without putting all stakeholders at risk of illness or even death.
7/20/2020 21:54:01	Marissa	Miller	Private school	Independence	How are grade schooler going to have to wear a mask all day and learn. I feel like if I send my child to school I am jeopardizing his education
7/20/2020 21:54:03	Melissa	Hart	Parent	Olathe	Yes! Please, and Thank You! Protect our children and keep doing what you're doing, Gov. Kelly. We support you.
7/20/2020 21:54:24	Sheen	Brogan		Atwood	Let every school board, district decide. In Atwood we currently do have any cases. No way Masks can be worn by kids under 12 all day long in school.
7/20/2020 21:54:30	Kristin	Rodell	USD 266	Wichita	My daughter is immunocompromised due to cancer treatments. There is a possibility that I will not be able to return to my current position and will need to teach virtually. Not only will the late start allow for time to flatten the curve of the virus and save lives, it will also allow educators like myself to prepare for and become acquainted with a complete change of curriculum and standards.  I urge you to support the governor's plan. Thank you.

7/20/2020 21:54:38	Nick	Gillock		Overland Park	I am a public school teacher in Olathe. I teach middle school choir to around 150 students a day. I have spent months pouring over research into the potential health risks that accompany singing as the country deals with a rampant pandemic. I've spent so much time designing plans A, B, and C for what a potential start of the school year will bring. There is no scenario in which I am not ready to give my best to my students and provide them with the most fruitful education possible. I am fully in favor of Governor Kelly's executive order delaying the beginning of the 2020-21 academic year. This is a common sense measure to help our schools adequately prepare for what will be an inevitably messy time. We can not in good conscience open the schools without taking concrete steps to insure the safety of the students, their families, and each school's staff. Schools need masks, hand sanitizer, and ample cleaning supplies. They need time in their buildings during contract time to properly configure their classrooms and leaning spaces to maximize the available area. They need the time design COVID-19-specific student behavior policies and draft a plan for implementation. This is just what is need to ensure we can begin a school year. Equally frightening is the inevitable substitute teacher shortage, the potential mass gatherings around high school athletics, the vague answers being given in relation to sick leave, and the lack of a coherent plan surrounding what will happen when that first positive test eventually rolls in. The outcome of contracting COVID-19 is not a binary; you do not simply recover or die. Those who survive can, in addition to passing the virus on to more vulnerable populations, suffer long term health consequences that are not as headline-worthy. As a teacher who loves each and every one of his students and cannot wait for normal life to return, I firmly support Governor Kelly and those who are striving to ensure we have as safe a return to school as possible.
7/20/2020 21:54:47	Rachel	Mawhirter		Great Bend, Kansas	I don't feel that there is any value in delaying school by a week or two, if the reason is to somehow flatten the curve. Because it's just delaying the inevitable. If we wait until Corona has died down, they'll never get back to school and these kids need structure and normalcy. My boys are in 1st and 4th grades and it is impossible to teach them at home in any qualitative way. Resuming a normal school year, even if it means wearing masks and modifying the schedule some, is better than avoiding the school building all together. I see no reason to delay school because the COVID-19 situation probably won't be any better in September than it is in August, and the benefits to these kids mental and emotional health far outweigh the physical risks.
7/20/2020 21:54:57	Katie	Geisendorf		Hiawatha	A definitive plan needs to be put in place ASAP for teachers and parents whatever it may be. It is understood that things may change as the year progresses. Our kids need a game plan too, they have had so much change and disruption this year they need some sort of stability to prepare for and look forward to.
7/20/2020 21:54:56	Gary	Ostmeyer	USD 315	Colby	I support Executive Order 20-58. Educators need that time to prepare and Kansas needs that time for mask wearing to lower the spread of Covid 19.
7/20/2020 21:54:58	Angie	Bell	USD 500 KCK School II	I teach in Kansas City K	My own children and my students deserve to be safe. Wyandotte county has a large number of positive cases and I don't want to risk bringing it home to my own children and our tiny town. Many of my students would come to school, even if positive, because their families can not take off work. Please vote yes on the governor's mandate and protect the families that voted you into office.
7/20/2020 21:55:00	Mike	Fluke	Johnson County Commu	Olathe	I believe it is safer for the students to delay the start of school. Covid numbers are still on the rise. Please keep our kids safe.

7/20/2020 21:55:06	Bobbi	Westmoreland		Hutchinson/Nickerson	<p>First, I am writing to you to recognize your leadership and support you in this unprecedented situation. I am thankful for you and know your heart is to do what is best for the people of Kansas.</p> <p>Second, I am writing to you in preparation for the Kansas School Board of Education Vote the mandate to delay school opening.</p> <p>I respectfully request that we work with you to ensure a safe school environment that accomplishes both of the following:</p> <ul style="list-style-type: none"> <li>•Safe School opening following the Board of Education Return to School Plan</li> <li>•No delay to student participation in school, athletics, and activities.</li> </ul> <p>In response to the Mandate delaying School opening statewide, Please vote the mandate down and allow the individual districts to make their own decisions.</p> <p>This will allow each district to make the decision that is best for its community. The situations vary widely across the state and a one size fits all approach does not make sense.</p> <p>Based upon the information available, I believe we are able to send them safely back to school and activities now. I also believe we do more harm than good if we delay starting school and activities on time.</p> <p>I am one of the over 6,200 people who have signed the #HelpThemPlayKansas petition supporting all #Kansas High School Students who voluntarily choose to engage in 2020 sports and activities this fall without delay.</p> <p>We all are thankful for the leadership you have provided in leading through the Covid-19 pandemic and know that you have our support.</p>
7/20/2020 21:55:10	Chris	Soto	Community Member	Salina	I'm voting for the school board to delay school to start until after Labor Day. Our recent numbers have increased rapidly and I believe unfair to place our students and teachers at risk. My wife works in an elementary school. We have a newborn baby and a toddler with respiratory issues. I'm very concerned about their safety. Please make the hard call and delay school.
7/20/2020 21:55:10	Margaret	Beddall		Leavenworth	Please support Executive Order 20-58 (Delaying the 20-21 K-12 School Year) for the sake of our students and their families, educators and building staff, and our communities. The recommended delay will allow time to accurately assess COVID-19's spread or decline, to secure PPE for all schools, for each school in our state to have adequate time to make plans for their particular school, and for all schools to continue planning for future contingencies in the event that online teaching becomes necessary during the school year.
7/20/2020 21:55:12	Annie	Braun	Garden City	Garden City	Open schools on time but with precautions such as mandatory masks, half capacity, hand sanitizer, etc.
7/20/2020 21:55:12	Brandy	Ybarra		Andover	Please delay the start of school to protect the staff and students of Andover and Wichita!
7/20/2020 21:55:25	Rob	McCally		Ottawa	Delaying school 3 weeks in order to prevent COVID 19 numbers from increasing among school aged students and education personnel is necessary. There is no reason to intentionally put groups of people in jeopardy of risking their health when preventative measures can be used. This time also allows school districts to structure their resources and professional development in order to better meet the needs of in-class instruction, online or hybrid educational platforms throughout the following school year.
7/20/2020 21:55:27	Joanna	Bjerum	Newton High School	Newton, KS	Please uphold Gov Kelly's Executive Order. There is no feasible way that we can keep students and staff safe in the current upswing of positives in our area. Our area does not function as a bubble and other people are interacting with each other regardless of district with which they reside. Please follow the Governor's brave leadership and help us slow this spread. I am the mother of two elementary school children and married to an essential worker. I do not want to live with the fact that I could have exposed someone at school or that my children and myself could be exposed there.

7/20/2020 21:55:26	Betsy	Bellinger	USD 259	Wichita	I support the delay of the school year and EO 20-58. Please listen to health experts first and foremost before anyone else. Safety should be the number one concern for our students and staff. We are counting on you to make wise decisions based on science, health, and safety. Please allow time for local initiatives to work and numbers to come down and for the schools to have more time to implement safety measures. My classroom is way over capacity regardless of any social distancing with no windows. I am very concerned that this environment goes against all CDC recommendations.
7/20/2020 21:55:37	Morgan	King	Myself	Lindsborg	Delay school to help teachers get a plan, and hopefully the spikes will go down.
7/20/2020 21:55:37	Shelby	Bowen-Warren		Wamego	Do not delay schools opening.
7/20/2020 21:55:39	Jackie	Schafer		Little River	Start schools; our kids deserve an education. My child has been out of school way to and needs to return! How do you think children 5 and above are going feel about wearing a mask all day? They will be playing with their masks all day long and not get any learning done. I think each district should have their right to decide what's they think is best for their kids.
7/20/2020 21:55:41	Jennifer	Sutherlin, BSN, N	Individual	Overland Park	In my opinion, it is not safe to open schools to any in-person learning at this time. Cases in younger demographics continue to rise and there is simply not enough evidence to keep our children safe. On the contrary, multiple countries have attempted School reopening, only to see outbreaks that have resulted in further shut downs. All while uncertainty in staffing and supply chain for PPE and testing supplies continue. I say this as a household with 2 parents working full time. While this will definitely present a challenge for working parents, I definitely prefer this to the risk of reopening.
7/20/2020 21:55:43	Todd	Thacker	Olathe Public Schools	Overland Park	Please do the safe thing for students, teachers, staff and all of their families. Delay in person school by at least a month or two until the virus can be contained. Too many people have not taken it seriously this summer and the number of positive results will only continue to rise if we return to in person classes too early.
7/20/2020 21:55:45	Lisa	Kilmer		Wichita	I support delaying the 20-21 school year.
7/20/2020 21:55:48	Laura	Fasl	Olathe Northwest high s	Lenexa	School should absolutely open as planned on August 14. This virus is going no where and we have to learn to live with it! It has a 99.8% recovery rate with 78% of deaths occurring from Covid age 65 & over. ZERO deaths under age 25. The detriment not going to school will have on our kids has the potential to be devastating. Chances are the schools will close down during winter months so let them be "normal" at the start of school. This decision will cause more harm to our children than COVID-19 will. The idea of the early school dismissal in the Spring, the subsequent lockdown, closure of businesses, wrecking of our economy and wearing of masks was all designed to flatten the curve so that our hospital systems were not overwhelmed. It was NEVER designed to get rid of the coronavirus. NEVER. Is delaying school and cancelling sports and camps going to get rid of the coronavirus? No, it's still going to be there after Labor Day. And if the number of positive cases is not hovering around zero, Governor Kelly is going to delay school further. It's ridiculous.
7/20/2020 21:55:50	Pamela	Palermo	Shawnee Mission Schoo	Shawnee	I do not think schools can open safely until the number of COVID cases are low and declining steadily for at least 14 days. I feel like delaying the start of school is the least we can do to allow the schools that can open an opportunity to prepare to do so safely.
7/20/2020 21:56:05	Sandy	Clark	None	Cherryvale KS	With so many in Southeast Kansas denying the seriousness of the virus our numbers are climbing rapidly. Our children should be kept safe as a priority for them and communities. Please extend opening schools until at least after Labor Day to give achools a chance to get sanitizer stations ready and give the teachers a chance to make sure they are not carriers of COVID.
7/20/2020 21:56:12	Lynne	Schreiner		Kingman	Get kids back in to school! Do not delay any longer, please. Their mental health is of the utmost importance. And please let them play sports.
7/20/2020 21:56:13	Andy	pauls		Wichita	Please do not make a state wide sweeping decision like this. Allow individual schools to decide what is best for their area. Those closest to the students are in the best position to make the decision.
7/20/2020 21:56:16	Molly	Weiss		Benton	My son was highly exposed to covid (15 hours in close proximity to the next day positive person). He was not wearing a mask at the time of exposure, and did not get ill; nor did he pass on the virus to anyone in his family. Children deserve an education and they deserve their childhood. They are not at risk not do they pose a risk to society. Please consider the risks of delay... more abuse and neglect of at risk children, education gaps continue to increase, less funding to schools, and more.

					<p>I would suggest starting the school year in a remote format that can transition to a blended learning format once it is deemed safer for all parties involved (students, teachers &amp; families).</p> <p>This is actually different than the way I felt a few weeks ago when my district questionnaire came out. Things have absolutely changed in such a short time. I believe this is due to more people out and about doing things. This mirrors what would happen with an in-school experience. With the marked increase in confirmed positive cases around the Leavenworth county region, I feel it would be unwise to engage in on site schooling until there is a steady decrease and minimal cases are again the norm. For a stretch, there was a streak where cases were reported at 0-2/report. Personally, I would like to see numbers approach that infection rate again (not the 14-17 cases/report that we are seeing now). More cases = more opportunities for spread. I watched the Lansing school board meeting Monday evening and it was stated that social distancing will not be possible to the extent that the CDC recommends. Combined with likely improper mask use, questionable hygiene that is inherent with children of all ages, and extensive hours in school buildings, I think we would be setting ourselves up for a potential outbreak. I believe we must first get the virus "under control" (reducing the community spread as much as possible) and then resume more in-person/building interactions. We are all yearning to get back to normal, but to rush back without community responsibility and CDC recommended complete precautions in place would put us in a worse position in the long run. Students will get sick. Teachers &amp; staff will get sick. There would be much more reactive education happening vs. taking our time and easing back in methodically and deliberately. (As an example, the Ft Leavenworth SAMS class on post started a few weeks ago. There have already been a few instructors who have tested positive. What does this look like in a K-12 school district with classes coming in and out of quarantine?)</p> <p>Kindergarten has proven to be a bad health year for every one of my boys. For all 3, their first year of full time school was one of many colds and viruses. This past year was no different. My child was enrolled in 5 day pre-K and he had many illnesses. These bugs were also brought home to me and as such, I was ill for a lot of the year. There is no reason in my mind to think that this virus would be any different. Kids will pass this around and adults in their lives will be infected. Even if it holds true that kids won't get as sick, the adults they come in contact with do not have that luxury. I don't see how we can in good conscience rush into full time in-person schooling knowing that transmission will occur</p>
7/20/2020 21:56:18	Erin	Cecil		Lansing	
7/20/2020 21:56:26	Stephanie	Walsh	Aurora Public Schools	AURORA	Yes until we have no new cases and going down.
7/20/2020 21:56:30	Jennifer	Stipetich	Part time teacher	Liberty	Please wait until after Labor Day to open school. In fact wait till our state has this infection rate down
7/20/2020 21:56:42	Elaine	Robinson	School	Kansas	Delay school year online learning only
7/20/2020 21:56:47	Tracie	Wright	Olathe School District	Olathe	With Covid cases at an all time high and continuing to rise in Kansas, it seems irresponsible to even consider opening schools at this time. The current data shows a drastic jump in the number of children are testing positive and this is without even being in a school setting. We cannot risk the safety and health of students and staff with this virus being so wide spread in our community. Once we can flatten the curve, it would be appropriate to consider reopening schools, but not until that happens. Teachers want to be back in the classroom! We miss our students, but we should not be expected to return until it is proven safe. If numbers continue to increase, virtual learning is the best option to ensure everyone's safety. Please allow Governor Kelly's executive order to keep schools closed until at least Labor Day to pass. Our state, students, and staff need more time!
7/20/2020 21:56:48	Tyller	Torrez		Topeka	If our children cannot go to school, I don't want any school. I cannot realistically home school 4 children while raising 2 babies. This also now presents a child care issue because both parents work. What about single moms? Where will the children go? Their dad and I work around corona virus every shift at work. None of us have been sick. Sanitize and clean, but don't delay.
7/20/2020 21:57:11	Crystal	Martinez	Usd 457	Garden city	I would prefer schools to be delayed in the opening process.
7/20/2020 21:57:21	Justine	Hadley		Atwood	I think the decision on when to begin and what precautions to take should be left to the district to decide. Here is rural northwest Kansas we don't have the same challenges of larger districts.
7/20/2020 21:57:26	Samantha	Roberts		Manhattan,KS	As a teacher I would really appreciate the extra time to work with the teachers in my district to come up with contingencies as well as ensure we can all operate the technology we will be expected to use throughout the year. At this point, my district hasn't given any answers regarding assignments, class schedules, etc, which has become very worrisome in this climate where I feel like I need to plan for everything. I just can't do anything until decisions are made and I'm running out of time.

7/20/2020 21:57:31	Sara	Roberts		Winfield	Hi, I am a stay at home mom of 5! A 7th, 5th, and 1st grader. I have a 4th kid, who is suppose to start pre school. I am fine with starting school after labor day. My 7th grader, mentally needs to go back to school, my 5th grader has dyslexia, dyscalculia, and needs to have his IEP needs met! However I am against students wearing masks. It will cause a huge distraction!! You cannot expect little kids to wear a mask all day. Especially ones with sensory disorders, or autistic kids, who do not do good with change. My husband is a police officer and has worked through this pandemic. With good hygiene and covering the mouth and nose when coughing and sneezing, will help. This virus has a high recovery rate, no different then the flu. I appreciate your time and know this is not an easy decision. Thank you
7/20/2020 21:57:41	Britnee	McKinney		Colby	What does delaying the school year do? It just lets us all have the opportunity to keep traveling and invite more risk to exposure before the start of the year. Also, we would start closer to the colder months so the virus would just be getting ready for the second wave. It would be better to just get started on time so that students and teachers could get set up with possible online schooling in case schools were to shut down again. During April and May, lots of my peers posted photos and videos of get-togethers. Teenagers will get together anyway! As far as the length of the year, what was the plan with this? Was the school year going to be cut short, or was the whole year going to be shifted? It seems like this plan wasn't even thought through! Governor Kelly's decisions have proved many things about her character, including the fact that she is selfish and power-hungry. Through many of the decisions she has made for the state of Kansas, she has attempted to take freedoms from citizens. There are some communities, like Colby, that aren't even close to the amount of cases or population as places like Topeka.
7/20/2020 21:57:49	Linda	Schukman	Self	Leavenworth	Please refer to medical and scientific information as you make your decision. I thank you all for serving on the board, especially during this very tough time. I urge you to support Gov Kelly's order, so we can have a small chance to get the virus under control, and school districts can have adequate time to prepare.
7/20/2020 21:57:49	Trisha	Smith	USD 239	Minneapolis	Out kids should be IN SCHOOL! They should be IN SPORTS! They should get to be kids! I am a nurse and the Deputy Director at our health department. Our local schools district spent a great deal of time planning for the best way to keep our children safe while keeping their lives as normal as possible! Governor Kelly is WAY OUT IF LINE!
7/20/2020 21:57:51	Teresa	Hall	Relative of a staff memb	KC	My daughter teaches and has a 4 month old child. Not only would she need to make sure her students were safe at all times, she would also have the worry about contracting covid and taking it home to her family. Please delay reopening of schools.
7/20/2020 21:57:51	Julie	Samuels	Pre K - 12	Osawatomic	The idea of having time to prepare for school is a gift. We asked educators to change how they teach in a matter of hours and they did an outstanding job. We have learned so much about the process. Now, we need time with our teachers to reflect, pivot and fully understand Navigating Change: Kansas' Guide to Learning and School Safety Operations. By allowing districts to work with their staff prior to students arriving for school would be beneficial for all to ensure we are providing the best learning environment for our students and families.
7/20/2020 21:57:55	Cyndi	Haines	Parent	Topeka	Why don't you let the families and teachers choose between going to school or the online option? I think decisions like this hurt our kids and put them in way more danger than this virus ever will. Already hurting families are being made to find childcare or leave their kids at home. How are people going to afford to arrange for child care? How are these kids going to catch up? How will they be fed when they rely on meals? How will their mental and physical health be affected by these decisions to close and delay our schools? I simply don't understand. The facts surrounding this virus do not justify delaying or closing our schools. Please, give us the choice!
7/20/2020 21:57:55	Beth	Schlesener	USD475	Hope	I support the governor's decision to delay schooling and I hope the school board votes to uphold her decision. Please put the safety of teachers, Staff,, and students before your political bias.

7/20/2020 21:57:59	Sara	Kopper	Parent and employee of	Newton	Please support the delay to give our schools and teachers time to develop rigorous, engaging and safe options for education that include a hybrid model for the health of everyone. Three more weeks will be doable for kids' emotional health and can make a huge difference in the educational experience this year. Teachers being less anxious and more prepared will help our kids return with less anxiety and give them engaging lessons. With case counts rising, more time to prepare can help make education meaningful and safe for all.
7/20/2020 21:58:01	Kellie	Allison	Democrat	Sedan	I'm against opening back up fully unless there are stricked safety safety rules set in place to keep staff and children safe. As a para professional I'm worried about social distancing. Especially with children who love hugging everybody. I also believe it should be required to wear a mask.
7/20/2020 21:58:03	Carissa	Hearn		Stafford	K
7/20/2020 21:58:11	Carrie	Allen	Parent	Fort Scott	I am not in favor of delaying the start of KS schools. Each district can decide when they are comfortable starting the school year. For those in areas with higher percentage of cases they may decide to start later, but other schools in areas with lower percent of cases should not be delayed. All schools should have resources or solutions in place for remote learning, whether it is because school is delayed, individuals are at risk or in the event that a student does become ill.
7/20/2020 21:58:15	Amanda	Ridder	Myself	Manhattan	I truly believe the smart thing to do is to wait to open schools until after Labor Day. 1. We can see what happens with the numbers & how other states fair opening schools. 2. This gives districts more time to put precautions in place to make sure we are not rushing back into schools without proper PPE and protocols in place. I live in Riley county. May 31 we had 66 cases of Covid. Today we have 398. That's an outstanding rate of growth in number of active cases that's not going to improve when the college students return to our community. Our teachers, students and their families deserve for the board to wait and see what happens with the numbers and to give districts more time to prepare. Please approve the governor's order. Thank you.
7/20/2020 21:58:16	Pearl	Rassette	Mom of child, teacher in	Garden City	Delaying will help us have a safer start to the year. Kids were already practicing here and they aren't social distancing and many not wearing masks. Please follow the executive order.
7/20/2020 21:58:17	Abbi	Smith	MI grade school	Medicine Lodge	This is NOT a one size fit all. We have little to NO case in our county and we DO NOT need to make our kids wear a mask or start school any later. You had multiple teachers put together guidelines to us to follow. They spent hours upon hours working on that, and we have implemented their guideline. Why have them spend so much time on it to throw it out. Why can't each district decide what's best off your guidelines. This is not a ONE SIZE FIT ALL. Stop taking our rights away and please let us do what's best for us.
7/20/2020 21:58:19	Kim	Wantschik	Parent of 3 kids with IE	Olathe	I support delaying the start of the school year for the safety of children and teachers and our community.
7/20/2020 21:58:25	Melissa	Gener		Overland Park	I'm a physician, mom of 4, and the wife of a high school teacher. My husband's School is not currently prepared for students to return in August. There are no additional precautions in place. We visited the school over the weekend to see what had been done and there were no changes from last year in March. He class rosters are full (24 student) and social distancing will be impossible in his classroom. We have already chosen to do virtual school for our own children to protect them. My husband doesn't currently have the luxury of choosing to keep himself safe. If you allow schools to start in Mid August as originally planned, he will be exposed to 125 additional people everyday (and that doesn't include exposure to teachers and staff, that's just his students) with little, if any additional protection. The schools need more time to prepare. Please give them that time.
7/20/2020 21:58:30	Jeremy	Demuth	USD 382	Pratt	I'm not for delaying our kids education, so my vote is against this executive order. We had already established our model for returning to safe educational standards proposed by KSDE. Our children's future relies solely on returning to quality education in the classroom. Science shows kids are not the main concern for this virus, but they are the ones getting punished more than those who should be on heightened distancing for their health safety.
7/20/2020 21:58:32	Wei	Lu		Overland Park	Could school open at middle of August as originally scheduled but flexible teaching methods are provided? If COVID-19 case is still rising, school can start with online class. When COVID-19 case is reduced, school can be adjusted to in-person class at any time. The online class means the students meet the teacher online at the same schedule as regular school hours. Meeting students online once or twice a week may not be an option. Thank you!
7/20/2020 21:58:39	April	Kemper	Parent	Pratt	Do not delay. Get these kids in school

7/20/2020 21:58:39	Audra	Levis	None	Salina	Classroom management, especially in the lower grades is super challenging. Adding the mandatory mask will make it impossible. Teachers were already maxed out! What percentage of the Kansas population passed away over the last 16 weeks? How does that compare with the percentage of last year or years before looking at the same time frame? Is there an increased difference and if so is it enough to justify the great cost in liberties Kansans have experience over the last 16 weeks?
7/20/2020 21:58:47	Sheri	Heron		Wichita	There are government agencies and businesses not yet open in Wichita because it isn't safe. Why are we considering it safe to open schools? I want assurance that social distancing will be possible in every classroom. Covid is temporary, and health and safety should be the priority
7/20/2020 21:59:00	Katherine	Houlehan		Leawood	I fully support the delay in starting school—for the Safety of students and staff alike.
7/20/2020 21:59:04	Debbie	Moody	KSSDB	Wichita	Please delay the beginning of the school year
7/20/2020 21:59:09	Daniel	Beyer		Wichita	I'm a school bus driver for the 259 district. I support the delay of school amidst this pandemic. We can't take chances with the lives of our kids. We need to wait until we are at a point where we can guarantee our students safety. If we rush into this we could very well damage the health and lives of students and teachers alike. I'm not trying to underplay the importance of school. But it's better to wait then to open up and get everyone sick and have to shut down again.
7/20/2020 21:59:25	Kelly	Dewey	parent	McDonald/Atwood ( Ra	We are a rural community (1-A school) with no cases. Please leave it up to local school boards and officials. It shouldn't be a one-size fits all solution. The kids have been together and again we are a small school. They need to be in school!
7/20/2020 21:59:26	Lynda	Downing		Bucklin	Please postpone opening. Our school district needs more time to prepare.
7/20/2020 21:59:30	Michele	Wolff		Wichita	PLEASE delay school opening. It's not safe yet.
7/20/2020 21:59:33	Takara	Brownridge		Junction City	I agree with school starting after labor day but I feel that e-learning would be best until second semester. I do and I know there are many other ways to be exposed to COVID. There are people saying that as teachers we should be preparing a will. I'm 25. Is being in school really worth it? Asking for myself, parents, students, anybody really who will be in a school.
7/20/2020 21:59:35	Dawn	James		Buhler	I agree that Reno County is not ready for students to attend school. School should be considered when COVID cases are leveling out, PPE is secured, and testing is widespread. Thank you for your hard work and dedication to our children!
7/20/2020 21:59:37	Arlene	Clark	Personal	Topeka	I think it should be left up to the county kids need to go back to school if leaving it up county isn't an option then you should send kids back as soon as possible I was a former teacher if kids wait much longer they are loosing valuable learning
7/20/2020 21:59:41	C	Russell	Kansas Teacher	Lawrence (teach in a dif	Please support Governor Kelly's executive order. Being a teacher in a fairly wealthy district, I still went the entire year last year without my hand sanitizer dispenser being filled because they only has enough to fill classroom teachers instead of SPED teacher's rooms. I think time and money will be needed for teachers to be safe going back without having to spend our first several paychecks on cleaning supplies and protective equipment, let alone prep for 3 different potential service models that we may have to move in and out of throughout the year.
7/20/2020 21:59:49	Amanda	Cousins	Paraprofessional at king	Kingman	Let school happen like normal. No masks no distance. We can't live in fear of something that has had less impact than H1N1 where people still lived life normally
7/20/2020 21:59:50	Rhiannon	Minster		Overland park	I am very happy the school year was postponed. I want my sister to have a great senior year, and most of the important events are in the spring. If delays, or even online schooling, will keep everyone safe for a good reopening in the spring then I'm happy.

7/20/2020 21:59:50	Anna	Hamilton		Leawood	I am a rising junior at Blue Valley North High School. Throughout the governor's press conference regarding her executive orders, she claims that she cannot, in good conscience, open schools in mid August this year. On the contrary, how can the Board of Education, in good conscience, make the decision to continue jeopardizing the education of Kansas students. The decision to eliminate, in essence, an entire month from the school year would have significant implications on the amount of material that students are able to learn in the academic year. I am a student with a rigorous schedule, filled with 6 AP classes out of my 7 class schedule. Each of my classes are so content heavy, that missing even a week of those classes means missing a piece of it that we cannot get back, due to the tight schedule we must keep in order to get through all of our content before the AP exams in early May. I feel that with online learning last quarter, I have missed a fourth of each of my classes, as there is no way to replicate the in-classroom experience from home. It is crucial that we students go back to school this fall, not only for the educational aspect of our lives, but for our mental health. There are certain relationships that exist within the school setting that do not necessarily exist outside of it. The extension of our time away from school will most certainly be met with an onslaught of mental health issues within our teens, and sadly, the continuing rise of teen suicide rates, as students will not be able to access their school's mental health resources in the same way outside of school. I beg you to consider the students and how much we NEED school in our lives and send us back to school, with the necessary precautions to keep us and our school staff safe. Thank you.
7/20/2020 21:59:54	Diana	Beitz		Topeka	As a teacher who is considered high-risk, please seriously consider postponing the start of school. I do not want to be collateral damage.
7/20/2020 21:59:55	Staci	Montgomery	I am a public school edu	Almena	This is NOT a Partisan ISSUE! It is a SAFETY issue! Please follow through on Gov. Kelly's order to wait to open. We are just now seeing how the virus is attacking our rural areas. We need the time to prepare our schools, our rural health care, and our students for proper protocol. Schools will struggle to have masks, hand sanitizer, etc. by the regular scheduled date. Waiting will ease the stress of those basic needs.  Will we know right away if following this is the mandate is the right decision? Probably not. But if we open too soon, we will find out very quickly if you've made the wrong decision. Err on the side of caution, please.
7/20/2020 21:59:57	Devan	Collins		Shawnee	It's not safe for children to return to school. Nor is it just the children that need to be considered in the return to school, the hundreds of adults that make a school operate are also at risk. If we closed schools in March out of caution, it's utterly ridiculous to imagine opening schools in-person when the country and state are still breaking records for daily case increases. Teachers are not responsible for child care and should not be put at risk so other adults may return to work. I am not a babysitter willing to risk my life and contract this plague. I am an educator who would like to see her students when it's safe and we're all still alive. We can't teach when we're dead.
7/20/2020 22:00:04	Kelly	Jenkinson	Student	Dighton	Open schools normally & on time.
7/20/2020 22:00:11	Taylor	Rodriguez	Usd 231 and usd 290	Gardner	Please open schools!
7/20/2020 22:00:12	Erica	Massman	Parent	Leawood	I trust Kansas Public Health officials and agree with following the science to protect students and teachers. Delaying the start of the school year is the right thing to do.
7/20/2020 22:00:23	Kimberly	Martin		Overland Park	I am a school nurse in JOCO and parent of a senior at SMS. We can not open until our cases have decreased consistently for 2 weeks or we will be shutting schools constantly and will have no teachers able to work due to quarantines. It is not feasible to check the temperatures of 600 to 2400 staff and students daily upon entry. This will take all day and will risk people congregating in close quarters at entrances and there is no good evidence that is effective. Only 40% of adults develop fevers and fewer kids do. People are contagious 2 to 3 days before symptoms start. It will also be hard to maintain distancing in classrooms. Mandatory masking and hand sanitizer every hour is feasible and once our numbers allow for in person learning these should be done. Please support the executive order so we have extra time to see if our cases can drop below the gating criteria so that we can have at least a blended opening when we start.

7/20/2020 22:00:29	Ryan	Kirchoff	None	Garden City	This is absurd. There is absolutely ZERO data that shows kids are at risk. They have a better chance of being struck by lightning than becoming seriously ill from this. Its time to listen to the data, and stop hiding. Kids are needed for herd immunity. School is a necessity. The 6 weeks of online schooling to end last year was a complete and total waste. My kids (9 & 7) were not challenged, missed their teachers and friends, and got absolutely nothing out of that. They will have been out of school for nearly 6 months on Labor Day. Please let counties decide whats best for our kids. Not some political hack in Topeka.
7/20/2020 22:00:39	Lynann	Hageman	Teachers and parents	Cunningham	Start school at regular time. Temperature check before school and at noon. Teachers wear mask if they want.
7/20/2020 22:00:44	Corey	Dunlap		Kinsley	As a teacher in a small, western KS district, what is beneficial for us may be different than what may be beneficial for urban areas and larger districts. Please consider allowing districts to decide for themselves when is appropriate to open their doors. Many schools and districts are ready now!
7/20/2020 22:00:48	Bobbi	Westmoreland		Hutchinson/Nickerson	<p>Hello, I am writing you as the mother of 2 school aged children &amp; wife of a Para/Coach. I stay home with my special needs child, so my husband is our only source of income. If you accept the order, PLEASE ensure that it includes provisions for Classified staff to still somehow get paid. Being a 9 month employee that isn't salaried, they aren't eligible for unemployment benefits. Classified staff/Paraprofessionals are essential to the schools, but if they are all forced to find other jobs, there will be no support staff available for when schools do open! Teachers are already paid for the year, so they are content with having extra time to plan, etc. We are currently living off of his coaching stipends which sounds like that could be getting pulled from us at any moment, too. It's also not fair to the seniors who are potentially being forced to forfeit their sports/extracurriculars which ultimately could cost them scholarships, etc. Most of all, the special education students are not being thought about at all. They are struggling the most here. What about the kids who don't have the best home life? Please reject the order. Let the districts go through with starting school as already planned. Parents can choose to do virtual distance learning option if they don't feel comfortable. Have waivers for sports participation if necessary.</p> <p>Respectfully,</p> <p>Bobbi Westmoreland 620-262-5422 Dhmmama@icloud.com</p>
7/20/2020 22:00:55	Kathy	Bigelow	Parent	Shawnee	I support the executive order to delay the start of school and require masks and hand sanitizer.
7/20/2020 22:00:58	Kim	Sramek		Atwood	Yes to delaying- no to masks for the younger kids
7/20/2020 22:00:59	Brenda	Schwing		Wichita	I think the local school districts should have the power to make their own decisions about how schools will operate based on the conditions in their area. There is a wide range of how areas are affected by COVID and school decisions should not be a "one size fits all" approach. Thank you for your time.
7/20/2020 22:01:01	Robin	Reed	USD 332	Cunningham	Our small district has much different needs than the larger districts in Kansas. Please let these decisions be left up to the individual districts with assistance from local health departments.
7/20/2020 22:01:08	Megan	Duerksen	USD 411 - teacher	Goessel	I felt so relieved when the governor announced this as I have put off planning for this fall given all the unknowns. I think this lets districts know it's okay to start late, to give extra time and attention to safety. I would also hope that this gives the virus time to slow down too. Maybe this could increase the chances of meeting on-site!
7/20/2020 22:01:09	Dina	Parent	Teacher	Weir	I am fully supportive of Gov. Kelly's delayed school starting date. I believe this is in best interests of safety for students and staff. Districts just received the Navigating Change document last week!! This time is needed to make buildings safe, and allow teachers to plan multiple models of instruction., so that we can start school in person and stay that way.
7/20/2020 22:01:10	Elizabeth	Stang		Salina	I am in favor of masks in schools.
7/20/2020 22:01:15	Jennette	Rogers	Parent of 3 children who	Cunningham	Please allow my children to start school in August. They desperately need this. Online did not work for them and my oldest was depressed. I voted for Kelly as our governor because I thought she was for supporting schools and quality education. I am sad to see her not supporting education. This mandate isn't but what is best for my children. We live in a small school. Please let our school board decide what is best for our community. Give us a chance please. At the very least, compromise and think of just letting 6-12 go back to school. Then bring the younger ones in later. The older ones really need each other.

7/20/2020 22:01:15	Michelle	Schulze	Lebo High School	Melvern	Please delay the opening of schools. We are in the middle of an outbreak, and schools need more time to prepare. Starting school will be dangerous for all students, especially for my daughter who has asthma.
7/20/2020 22:01:16	Jason	Nichols		El Dorado	You do what you think is best. I want kids to go to school and I want sports (I am a teacher and coach), but I also know these are difficult decisions to be made. Do what you think is best.
7/20/2020 22:01:26	jill	stuart	olathe kansas	olathe	The decision should be local - up to the districts/counties, NOT STATE WIDE
7/20/2020 22:01:26	Kaitlin	Duboise		Hutchinson	Please delay opening schools! Our children and teachers deserve The extra time to decide if they shod return to school. Ks is a red zone.
7/20/2020 22:01:27	Sara	Passan	Parent	Prairie Village	Done
7/20/2020 22:01:30	Benjamin	Hohly	Myself	Overland Park	I believe the governor's orders are valid. The infection rates are too high to expect a safe return to in person instruction. I am a teacher and don't feel comfortable with an immediate return to school.
7/20/2020 22:01:31	Rosanne	Woolf	-	Cheney	PLEASE, let the children carry on their lives. Let them go back to being students, learners. They are hungry for a stable schedule. Adults are not thinking of the little ones. They are not carriers, they are being punished for adults who are living in Fear!
7/20/2020 22:01:32	Erin	Dugan Michaud	None	Salina	Please vote in support of giving schools the extra time to prepare. We are living in unprecedented times and all stressed and anxious about what will happen in our future. I appreciate all the effort that you have put forth into safeguarding the future generation. 7/20/2020 22:01:45	Jake	Thimesch	USD 259 Southeast Hig	Wichita	I think delaying until after Labor Day is a good move. My wife is also a teacher. My son is about to be in fourth grade, and our other children attend daycare at the same school that I teach in. We need the number of new transmissions down before we go back because my family doesn't have an option. We're going to be in schools and most likely exposed to the virus. My city is a hot spot, and my zip code has seen an uptick as well. We need things to be as safe as possible.
7/20/2020 22:01:51	Adam	Cohen	Parent	SHawnee	I support the executive order delaying the start of school and requiring masks and hand sanitizer
7/20/2020 22:01:55	Dallis	Rogers		Olathe	I have an only child going in to 2nd grade and my spouse and I both work. In fact my wife works for the school district. My son needs to be at school for his social and emotional well being. During the lockdown he changed significantly. During most of the day he sat by himself as I am an essential worker outside of the home and she was on zoom meetings all day. I noticed signs of depression and withdrawal. His progress we made educationally during last year is gone. He will be behind when he goes back without a doubt. I am asking you to consider the studies of covid 19 that show that not only do children rarely contract the disease but also almost never transmit it to adults. Furthermore only 26 children under the age of 15 have died from the disease and all were immunocompromised. Nearly 150 have died from influenza. The cure cannot be worse than the disease and I believe we have reached that threshold. Please take the advice of nearly every pediatrician and get these kids back to school! Thank you!
7/20/2020 22:01:56	Jessica	Gould		Osawatomic	Please allow districts to make their own decisions. A rural school and a larger district cannot possibly be compared. Also, many kids have already safely been participating in summer sports such as travel ball and wrestling. Not to mention the large number of students statewide that have been attending (safely) summer conditioning programs. If a parent doesn't feel safe sending their child after reviewing the districts safety plan then they should choose another option for their family such as virtual or homeschool. Every child is different but I can tell you there are so many that need school for their safe space.
7/20/2020 22:01:57	Jennifer	Howerton		Overland Park	100% support the EO delaying the start of school. I cannot fathom, with the rise of cases, why we would not give our kids every chance to have as normal a school year as possible: delay start and PRAY that Kansans distance/wear masks, so we can keep each other safe.
7/20/2020 22:01:59	Hunter	King		Hutchinson	Keep schools closed
7/20/2020 22:02:07	George	Francis	Self	Olathe	Do not send our children back to school until it is safe. That would be following the CDC Guidelines and metrics for reopening. Keep the children home as long as necessary. And don't forget about the teachers and staff. They will be exposed also.

7/20/2020 22:02:14	Amanda	Cartwright	Piper middle school teacher	Basehor	<p>As a teacher and a parent I believe it is best to provide schools the time (and money) to implement the wonderful plan you provided us last week. This extra 3 weeks could help see if cases in counties most effective level off/ decrease and provide teachers the ability to best prepare for the year ahead and receive training needed to implement new policies.</p> <p>As a teacher my fear is not being comfortable with new requirements before returning to school and then not performing these to fidelity. Many schools are purchasing new programs that staff need trained on, or are moving to competency based learning. The extra time before starting school will help teachers gain confidence in these items and the new building requirements pertaining to cleaning and disinfecting.</p> <p>All teachers want to return to their classroom and students. But we also believe that returning to school is not worth a single life being lost because of a quick return to normal. This year will not be normal and the safety of our children is always at the front of teachers mind.</p> <p>Politics aside, ask yourself what is best for the students? Would I want my child, grandchild, or other family members in school buildings exposed to a virus we don't truly know the long term affects of, or have good data on how it affects children.</p> <p>Thank you for your time.</p>
7/20/2020 22:02:17	Jennifer	Storey	USD 500- Lowell Brune	Mission	As a kindergarten teacher with a compromised immune system due to an autoimmune disease, I am terrified to return to school in person. I understand the importance of children being instructed in person, especially with teaching such a young age group of students; however if I get sick there is a VERY GOOD chance of me being hospitalized and possibly not recovering. This isn't coming from me, this is coming from my specialist who oversees my disease. I am a dedicated, caring, loving, talented educator. Please treat me as such and delay the school year to increase the likelihood of me staying healthy and being able to educate these young minds for many years to come. Thank you.
7/20/2020 22:02:17	Nicole	Thieme		Pratt	I believe delaying the start of in person school is the best option. I believe Laura Kelly has the peoples best interest in mind. My kids will be homeschooled this year and will not be guinea pigs.
7/20/2020 22:02:27	Linda	Dold	Olathe elementary para	Overland Park	School should start in September. Teachers need time to prepare for all the expectations the current circumstances are requiring.
7/20/2020 22:02:27	Ann	Garrison	USD 306	Salina	Do not delay school
7/20/2020 22:02:33	Heather	King	Concerned parent and te	Fort Scott	You have got to keep them closed until we get this under control. My 18 year old son got it from being around a positive person in doors for less than four days. It is not going to be good to get them together in a classroom until we figure this out.
7/20/2020 22:02:39	Matt	Olson	Parent	Hays	Keep schools closed and give us back our tax money. We will show you how much better private citizens are than government.
7/20/2020 22:02:42	Mac	Atha		Bel Aire	<p>Keep teachers, staff &amp; students SAFE. State requires vaccinations to be in schools, but this highly communicable virus does not...yet. Please make the right choices for our teachers, staff &amp; students. Without healthy teachers to teach the children, who will? Especially specials teachers. They will see the WHOLE school, if they get sick, the whole school will have been infected. Or they will pass the virus from room to room.</p> <p>A solution, have specials do live streams so that students can interact and ask questions. Students need specials to have something fun to look forward too.</p> <p>I realize there isn't a "right" answer, but the health and safety should be paramount.</p> <p>Thank you for all your hard choices. We know it's not easy. - In prayer...</p>
7/20/2020 22:02:46	Matt	Olson	Parent	Hays	Keep schools closed and give us back our tax money. We will show you how much better private citizens are than government.

7/20/2020 22:03:04	Dorie	Falcon	USD 305	Salina	I want to have the schools open and have the kids come to face to face classes. We can try the masks, distancing as much as possible, and the sanitizing. Let's see what happens! The kids are playing together at each other's houses.
					<p>I'm writing to voice my opinion on the upcoming school year. I'm in favor of opening as scheduled. I know that perhaps the governor doesn't agree but in our community we do not have a huge spike in Covid-19 cases. These kids we are delaying from entering the schools are falling more and more behind. Let's face it most of us parents aren't equipped with the knowledge we would need to teach our children at home. We made the last nine weeks of last school year work but It was not helpful for the children. With seven kids I can tell you that our kids learned very little of anything. You have some excellent teachers but not all of them are tech savvy. And let's talk about zoom meetings and elementary school kids, it consists of about five minutes of instruction and 45 minutes of redirecting the students. It didn't work. Now, add in the fact that most parents that were home are now working again. They need the income but if they weren't much help to their students before it's only going to get worse.</p> <p>Older kids need the structure of being with their classmates and teachers. I know we want them to be responsible, but if a student doesn't want to participate in a classroom setting they most certainly won't participate in zoom meetings. The fight that ensues to get them to the meetings only distances them further from learning the content the teacher sets before them.</p> <p>Rather than only offering criticism and complaints and in the spirit of compromise, I offer a possible solution. Now we don't know how sports will play out this year, but what if we lengthened the school days to be able to have Friday's off? That would give Friday's to janitorial staff to clean and disinfect. It would also give teachers time to work on online options should we get to a point that might have to be implemented. Should we have to go online again it needs to be more uniform. Information needs to be easy to access for parents of every student. As parents we need to know, even with our older kids, what they are supposed to be doing. During a typical school year the teachers are able to monitor and encourage kids to get stuff done. Online does not foster that. It becomes the parents job and some students don't share what they are supposed to be doing.</p> <p>If we delay the kids going into actual school we are only hurting their educations and making the jobs of the teachers More difficult to get them back on track. In our community, we have already been going on vacations and having large gatherings. Our covid numbers have not spiked. The governors solutions do not apply to every community including ours. Covid is not going away any time soon. We have to do our best to move forward and protect not only our health but also the minds and livelihoods of our students' futures.</p>
7/20/2020 22:03:40	Tyler	Kough		Scott City	
7/20/2020 22:03:42	Rachel	Cook	Blue Valley School Dist	Olathe	Please delay school in person to allow schools the required materials to keep our teachers, students, and staff safe. Students are able to spread this virus and it's not worth putting even 1% of the population in harms way.
7/20/2020 22:03:44	Jo	Skidmore		Goddard	Please vote to have schools start after Labor Day. Please help keep students and teachers safe after all the ways we have tried to stay safe all summer. Social Distancing will work and needs to be priority when we return. Thank you
7/20/2020 22:03:44	Beth	Oller, MD	Solomon Valley Family	Stockton	I believe it is in the best interest of public health and the safety of students and employees to delay opening unless and until it can be proven we have a significant downward trend. I think that planning at least the first quarter online is most feasible.

7/20/2020 22:03:49	Crista	Strong	My children, my school,	Bel Aire	<p>The choice is simple. Either we are free in America or you are going to take our freedom away and shut down schools, BUT make us keep paying for them. Talk about taxation without representation. My children attend private school so I pay for public schools, yet receive no benefit from it. So are we free or not? I mean, are we still free if we are not protesting? Because we know they are free from mandates or consequences. So are the rest of us still free and truly represented by those we elect to speak for us?</p> <p>If people are scared and want online the online option has been available for over a decade already. It is called K-12 online. If people want to send their kids to school let them. If they do not want to put a filthy germ soaked mask on them they should not have to. We are free to choose in this country and this state how we want to live. You are forcing all of us to live the way only some of us want to. I should not be controlled by someone else's fear. Do your job and represent your constituents. We do not all want to keep our kids home or not teach. I want to get together and actually educate the kids I teach.</p> <p>The powers that be have been dishonest and misleading with data and we have NO faith in them or their information. Many of us are smart enough to notice they only post positive cases without listing the numbers of hospitalizations or deaths. We are not all unable to realize the manipulation. People choose everyday to make many choices that affect their health in negative ways, but we do not take everyone else's freedom away as a result. The chances of a child dying in a car wreck on the way to school are higher than a child getting and dying from COVID. Stop taking away our options.</p> <p>It was useless to limit our draconian governor's powers if you weren't going to actually stand up for what the majority of the people want.</p> <p>Kelly wants to wait until after Labor Day to start school so that people will get together for the holiday right before school starts. Then we may get an uptick of cases within the first couple weeks and she can blame it on schools and shut down the world again. By then kids will have been out of school for 6 months. Some of these kids will never recover. For many of them they have not had a safe place to go or a good warm meal or a hug and intellectual</p>
--------------------	--------	--------	-------------------------	----------	---

7/20/2020 22:04:02	Jim	Turner		Scott City	<p>It is absurd to throw a blanket policy over every district in the state. I believe local districts and communities are smart enough to do what is best for their people.</p> <p>We have had 160+ kids, 7th-12th grade, in 5 groups, going through our summer workouts in a weight room. We have stayed under the prescribed number, no mask, and do not have a single case. We clean the equipment after each group. I have had 4 kids text me the morning of, not feeling well. They were all checked and received negative results for COVID before returning. We have kids traveling throughout Kansas, and neighboring states for family events and athletic competitions. Still, not a single case.</p> <p>I am not saying the virus isn't real, but if we don't live in fear of influenza, and every other harmful thing in the world, why are we of this. I would venture to say more high school kids die from car accidents, than from this virus. Is the Governor going to make an executive order taking the keys away from all teenage drivers? Yes, I realize the virus can impact others, but so can a teenage driver. If the on-line health department's statistics are correct, there hasn't been a school age child die of this yet.</p> <p>The latest science shows that children are not at a high risk. Why are they still being punished? I hope that some common sense is used, to allow community's to make their own decisions. Parents would always still have the option to homeschool their children if they don't feel that it is safe.</p> <p>Finally, by the Governor's plan, as I read it, kids are going to be allowed to continue being active and competing throughout the state, then on August 10, it all stops for 3 weeks, then Shazam, all our problems are fixed! The schools don't need three weeks to figure out how they are going to handle the kids coming back. What has every administrator been doing the last 4-5 months since she cancelled school. Our Superintendent &amp; administrators have been consumed with this exact thing since a March.</p>
7/20/2020 22:04:11	Sarah	Lilly	Blue Valley Schools	Olathe	I strongly believe that school should be offered in a virtual setting until this virus is under control. I am a young teacher with no underlying medical conditions and yet still do not feel comfortable being in a close contact environment jeopardizing the health of so many people I love and care about. Think of how traumatic it would be to send your child to school and have one of their teachers get sick and potentially die! I can't imagine the social emotional toll that would take on a child. It is hard to even mention that happening, but that is the reality children will face if schools are reopened. Please keep everyone safe. Please keep schools closed. Please require online learning for all.
7/20/2020 22:04:27	Tonya	Pearson		Wellsville	Please don't delay our kids' school year.
7/20/2020 22:04:45	Amber	Glover	Olathe Public Schools	Olathe	As a teacher and parent I am not comfortable returning to school until this virus is under control. I cannot guarantee the safety of my students and fear for the health of my family. Please do not let our children and staff die.
7/20/2020 22:04:49	Cindy	Houtwed	I am a teacher	Cunningham	As a prek teacher, I am ready to go back to school! I am not in favor of masks for the grade school students. They will be a distraction to learning. If this means taking temps as walk into school fine. I personally saw students struggle with the virtual learning, including my grandkids. Some kids never even got on. I tried several ways to get a hold these students. Please do not put masks on grade school students and do not cancel school! Thank you
7/20/2020 22:04:54	Arlette	McIff		Olathe	I do not have school aged children, but am a K-5 Title 1 teacher. I'm not desirous to put anyone in danger, yet it seems that students being out of school for 5 months is enough. With the CDC warning that things will probably get much worse starting in Oct., it seems delaying the start of school makes it more likely that we really won't have students in school much at all. It seems like masks are our best option.
7/20/2020 22:05:14	Lesley	Brown	Parent	Shawnee -USD 232	For staff and student health/safety, schools should be remote and not held in person until covid case numbers are declining. With increasing numbers, on-site is not safe at this time and should be considered only once numbers are declining. Masks, social distancing, hand washing, and other safety procedures are an absolute must. Youth sports especially for indoor or close contact are not safe at this time.

7/20/2020 22:05:18	Kaitlyn	Bumgarner	Teacher at WPS	Wichita	I am a teacher in the Wichita school district, my husband also teaches in this district. As a teacher that is in the high risk category due to the fact after several years of fighting infertility my husband and I are finally pregnant with our first miracle baby, I am extremely nervous about going back to in person. Teaching special education I fully understand the importance of in person learning. However I also understand the importance of life. Life for students, teachers, staff, and families kids will be bringing germs home to. How can you put a price on someone's life by going back to soon? Our district is already under funded and we don't get the supplies we need as is. So I have little faith that we will get the proper supplies needed to keep ourselves, students, and families safe. And if so it definitely won't happen as quick as a couple weeks, when we are supposed to go back. In my opinion if you want us going back every teacher should be provided an n95 mask at zero cost to them. Supplies need to be given without out of pocket money spent by teachers, that we already spend hundreds of our own dollars a year getting stuff the district won't provide us. If you are going to treat us like front line workers, like nurses and doctors, then we should be provided the same safety gear they are. No kid wants the emotional burden knowing they brought germs to school that killed their friends and teachers. This will have much more of an emotional tole then taking some more time off or distance. Please don't make this political but think about the kids, adults, families and their safety. Think about the emotional toll it will take to watch friends, coworkers, and teachers die. Think about the safety of all! Think about our communities and the businesses. Think about what you are asking of us! In a setting where we can't control or maintain the safety measures taken in most places. Give the state and district time to make a good, safe plan and have time to implement it before staff and students start showing up. Stand up for physical and emotional health of the Kansas people, not just short term but long term!! Help us to have a long, strong, impactful life!! The classroom is full of our future leaders don't cut that opportunity short for them! Please follow the order and give us more time to prepare for a safe return for ALL!!
7/20/2020 22:05:22	Debora	Zachgo	Usd 298	Lincoln	As a local school board member I think we need this extra time to prepare for opening school in the safest way possible for students and faculty. The extra time will allow us the ability to aquire extra supplies and change the school day around to allow for smaller class sizes and plan ways to distance staff and students. I do not want students and faculty to be forces to wear mask in the classroom. We need time to modify the way we are doing things to limit the need for masks. I have concerns that requiring mask will cause families to keep their students at home. And for some families at home learning was a struggle. If we take a little extra time to plan and organize things better we can offer a safe opportunity for students to learn. Please do not require masks, recommend them for those that feel they need to wear them but do require them. In our community we have only had 5 positive cases and 4 have recovered. In communities were it is wide spread I understand the need for masks, allow local districts to make the mask decision based on local health recommendations.
7/20/2020 22:05:27	Melissa	Gansen	Holy Trinity	Olathe	Please consider the needs of our children to be in school. We need our kids to return to in person classes for their mental health and to not fall behind in their education.
7/20/2020 22:05:27	Maria	Montano		Garden City	I would rather wait until after Labor day to see if our cases go down. I'd rather keep my kids safe.
7/20/2020 22:05:31	Amber	Zwierzychowski	SCKSEC / Chaparral Hi	Kingman	Our local board of education members have their hands tied by political and financial pressures. They, and many other districts are in panic mode. Our local BOE will not have a plan until 2 1/2 weeks before school starts.  Please support the governor's mandate to postpone school reopening in order to give the local health departments, schools, and teaching staff time to adequately prepare for the school year and its unique challenges.
7/20/2020 22:05:37	Kelli	Calhoon	Self	Shawnee, KS	Please approve the Governor's order to delay schools until after Labor Day. Our students deserve to have schools opening with adequate and appropriate PPE for them and for the educators and staff at each school. Our educators, admin and staff deserve to be protected and to have adequate time to develop a plan to have socially distanced in-person, hybrid, or virtual learning. An adequate program cannot be developed and implemented in two weeks. Please give our educators the time they need to provide our students a well-thought out and good experience with their schooling during a difficult time. Please don't add to the stress for our kids during these unprecedented times by making them enter a school that isn't adequately prepared.
7/20/2020 22:05:38	Nikole	Liles	Piper USD 203	Kansas City	Approve the delay to allow the schools time to make the safest decisions
7/20/2020 22:05:41	Amanda	McDonnell		Overland Park	Do NOT delay school

7/20/2020 22:05:49	Robert	Nowlin	Kansas City Kansas Pub	Kansas City, Kansas	Waiting a few weeks to start school would give us an opportunity to meet as a staff and plan. As a SPED teacher, it would give me and opportunity to go through my case load and design individualized plans for each student providing that the district has a reopening plan announced.
7/20/2020 22:05:55	Amy	Martin	Teacher	Easton	As a teacher we always need and want more time to get our lesson plans done, collaborate with our teachers, etc... Now I'm asking for TIME to prepare for this upcoming year. I need time to figure out my classroom procedures, I need time to collaborate with my co-teachers to figure out the best ways to instruct, I need to figure out how to manage restroom breaks, lunch, and hallway procedures. We always need more time, but this is TIME that will not be wasted and can benefit everyone in the end!!
7/20/2020 22:05:55	Amy	Higdon		Kansas City, KS	Opening schools to in person learning is a recipe for disaster!
7/20/2020 22:06:03	Susan	Marshall	Fort Riley Middle School	Manhattan	Please uphold Governor Kelly's delayed school starting mandate for the safety of both students and teachers. The extra time will allow districts more time to implement KSDE's recommendations and for the virus rate to slow down. Thank you for your time.
7/20/2020 22:06:04	Gerardo	Perez		Wichita	I agree for the safety of our students and staff, including teachers, bus drivers, and any other person who contributes to our students education.
7/20/2020 22:06:05	Christina	Krause	Mother	Enterprise	The schools need to reopen and all classes and activities resume as usual.
7/20/2020 22:06:06	Jentri	Hahn		Tribune	I do not think it will make a difference/prevent disease spread if we delay the start of school. The harm of children not starting school and activities in August will far outweigh any positives that might come out of delaying until September. Kids need school and social interaction ASAP!
7/20/2020 22:06:06	Amanda	Gritzke		Overland Park	Please delay school starting
7/20/2020 22:06:11	Aimee	Kozushko	Parent	Derby	Delay school opening. Follow order
7/20/2020 22:06:12	Sarah	Crumrine	Parent of 3 Kansas students	Sedgwick	Local schools and health departments should be given control. Masks and social distancing and temp checks will be impossible and likely damaging for kids. Each district should have a remote option and also an in person option. I fear for the teenagers' mental health if they are not back with activities and school this fall. I am also a teacher. I'm ready to be back in my classroom. If we need masks to start the year, that's fine. But there needs to be an end in sight. When cases are down, health departments can lessen the restrictions. Social distancing isn't how humans interact and it can't be enforced in schools. This latest mandate has gone too far. I am heartbroken for the kids.
7/20/2020 22:06:17	Janr	Luthi	Parent	Madison	I support delaying the opening of school until after Labor Day.
7/20/2020 22:06:19	Christina	Krause	Mother	Enterprise	The schools need to reopen and all classes and activities resume as usual.
7/20/2020 22:06:42	Jessica	Wilson	Teacher at USD 310 Fair	Turon, KS	Our kids need to be back in school!
7/20/2020 22:06:48	Melissa	Taylor	Parent	Lawrence	Delay start of school until September. Social distancing should be happening in the classroom even when masks are worn.
7/20/2020 22:06:48	Shannon	Kaiser	Parent	Hoxie	Send our kids back to school as normal and on time
7/20/2020 22:07:03	Sheila	Demoret		Dodge City	I am a school teacher and I urge the state BOE to open schools up on time. My school district is a low income district and many of our children have been and continue to be separated from a safe support system. Our schools provide more than just education for our students. I fear that we are doing our students a grave disservice. I urge you to advocate for our children and leaving politics out of the decision making.

					<p>Please Submit Comments to The Kansas State Board of Education prior to 4:30 PM Tomorrow. The Board meets to vote on Governor Kelly's Mandate to delay School and Athletics until After Labor day @ 10 AM This Wednesday 7/22/2020</p> <p>Suggested Comment to submit:</p> <p>First, I am writing to you to recognize your leadership and support you in this unprecedented situation. I am thankful for you and know your heart is to do what is best for the people of Kansas.</p> <p>Second, I am writing to you in preparation for the Kansas School Board of Education Vote the mandate to delay school opening.</p> <p>I respectfully request that we work with you to ensure a safe school environment that accomplishes both of the following:</p> <ul style="list-style-type: none"> <li>•Safe School opening following the Board of Education Return to School Plan</li> <li>•No delay to student participation in school, athletics, and activities.</li> </ul> <p>In response to the Mandate delaying School opening statewide, Please vote the mandate down and allow the individual districts to make their own decisions.</p> <p>This will allow each district to make the decision that is best for its community. The situations vary widely across the state and a one size fits all approach does not make sense.</p>
7/20/2020 22:07:10	Rob	Johnson	Teacher	Pittsburg	
7/20/2020 22:07:15	Lynn	Just	Hillsboro High School	Marion	Please delay school! Districts and teachers need the time to plan how to return safely.
7/20/2020 22:07:23	Tricia	Tadlock		Gardner	I have a incoming Freshman who is on a iep needs extra help with school. I have another Child with ADD that learns and does so much better in a classroom setting. All 4 of my children need the social aspect. Being out of school since March .This is getting ridiculous. My children choose not to do the home based learning cause all the teachers said its not required. So they did not take it seriously.
7/20/2020 22:07:33	Rhonda	Guess	Tax payer	Kansas City, Kansas	College needs to be delayed as well
7/20/2020 22:07:41	Suzanna	Paneno		Hays	Start after labor day. Do not require masks for 5th and under!!!!
7/20/2020 22:07:44	Amy	Hofer		Olathe	Please allow kids to participate in sports/extracurricular activities as planned. If classrooms need more time to prepare, to open in the safest way possible, then in person classes can begin after Labor Day... as long as classes actually do resume at that time. Kids need to be IN SCHOOL.
7/20/2020 22:07:46	Elisa	Mendoza		JC	keep schools close until after labor day please
7/20/2020 22:07:47	paul	schmidt		overland park	thank you
7/20/2020 22:07:50	Joy	Brown	USD232	Kansas City	I am a special education teacher. Though I miss my kids more than I can express, we are ABSOLUTELY NOT ready to go back to in person instruction! Our cases are rising statewide. Patients are contracting the virus at a younger age. This is not a political issue, it's medical! Why is the BOE, whose very institution relies on evidence and data for instructional decisions, choosing to ignore the evidence this time? Which of you are willing to roll up your sleeves and risk your life on a daily basis? Until every local School board is willing and able to 1. Hold open meetings in person and 2. Spend 40+ hours per week in a classroom with nothing more than sanitizer and a cloth mask, this shouldn't even be a discussion or decision to be made. NEVER in my career have I felt this devalued, and more importantly, never have I feared for the safety of my students and colleagues as I do now. How many kids and staff have to die before the BOE decides to do the right thing? I implore you to follow Gov. Kelly's example and do the right thing. Please. Kids' and teachers' lives are at stake.

7/20/2020 22:07:52	Danita	Price	USD 290	Ottawa	As an educator and a parent of an elementary, middle school, and high school student I URGE you to stand with our Governor and delay the school year! Although I believe in local control, at a time like this we need our leader to step in because Kansans are not taking this pandemic seriously. Yes, the death rate is low, but how do you explain that to that low percentage parent that lost their loved one which could be a principal, teacher, para, custodian, bus driver, food service, or student?!! When I was growing up we started the school year after Labor Day and with numbers spiking in so many communities it makes sense to wait instead of throwing our school staff and students into the unknown! Leave out politics, keep our schools SAFE!
7/20/2020 22:07:55	Megan	Greenway		Wichita	My son will be starting kindergarten this year and I fully support postponing the start of school until after Labor Day. If the BOE decides to override Governor Kelly's potential executive order and force schools to start at the usual time, we will be keeping him home to learn virtually until a later date when we feel it's safe to have in-person class. I really want him to have a somewhat traditional start to school, so in-person class is preferred. We will not send him to school however during a COVID surge. Thank you for your consideration.
7/20/2020 22:07:58	Kristie	King		Westmoreland	I support starting school at a later date and allowing schools additional time to obtain items necessary to ensure school can be conducted safely. With that being said, I absolutely want my children back in school this fall. I also want them to make-up the academic loss they suffered this past spring. Thank you for your attention to this matter.
7/20/2020 22:08:16	Tammy	Rowlett	my child	wichita	thank you governor for caring
7/20/2020 22:08:17	Samantha	Kessler	Kessler household- stud	Towanda	I would like children to return to school on time in my area, but also know that not all districts are the same. I believe each district is fully capable of making a decision to best fit its individual community. If there is an option to allow districts to choose when to start school, between August 12 and September 9, that is the option I prefer. I also ask that the mask not be mandatory. Students/staff/parents can decide what to do for their families. Elementary students will spend more time being taught/learning how to wear a mask than they will learning academics/curriculum, which is not why they go to school. Masks do not prevent the spread, but they do provide a false sense of security. I witness too many adults using "improper" mask hygiene to believe that students can use them in a manner that is effective.
7/20/2020 22:08:21	Allison	Edgar		Topeka	We have been closed since March 5th. Kids need to get back to real learning (crisis school was not learning) we need to stop using our kids as political poker chips and let the districts (who have been preparing all summer) to do what they have prepared. Stop messing up thousands of people's plan that they spend days and weeks doing! Let each district decide what's best for them!
7/20/2020 22:08:29	Shelly	Haya	6th grade teacher at USI	Maple Hill	Please support Governor Kelly's executive order to delay the start of school until after Labor Day. I feel that this is in the best interest of both students and staff. Thank you for your time.
7/20/2020 22:08:34	Tiffany	VanSickle		Olathe	I absolutely do not feel like Kansas should be treated as a whole where education is concerned. Since the Olathe School District has already been preparing for at least some online learning, I feel that they should still be able start on 8/13-14. Even if we need to do the first couple of weeks online, the kids need to be back "in" school! I really feel like the decision should be given to each district and how ready they feel!
7/20/2020 22:08:34	Nakeisha	Franklin	Parent	Kansas City	Thank you! Please accept the Govenors executive order to delay the start of school for the kids and staffs safety
7/20/2020 22:08:41	Nancy	Henderson	USD 259	Wichita	COVID cases are too high to safely attend schools at this time. In-person school should be delayed until we flatten the curve. As a teacher in a high poverty school, I know the safety guidelines will not be followed because it is impossible given our facilities. I'm not confident our district leaders will make the best decision and will succumb to the pressure to go back too soon. It is a recipe for disaster.

					The Governor is going to far with her school agendas. These kids dont need to wear a mask, sports and school don't need to be delayed. Let's get these kids back in school and get everything back to normal. Once everything goes back to normal this will eventually disappear. The virus is there but with the survival rate being so high this leads to a political stunt for the Democrats! Let's get back to living life and quit being in fear. We all know after November 3rd that this will all be over.
7/20/2020 22:08:43	Matt	Engroff	The one that truly cares	Columbus	Sincerely, Matt Engroff
7/20/2020 22:08:48	Rebekah	Consiglio		Olathe	I worry about the safety and health of our students and staff. Please approve Governor Kelly's executive order.
7/20/2020 22:08:55	Andrew	Long		Lenexa	Please keep schools closed for the foreseeable future and go virtual to keep children, families,teachers and staff safe!
7/20/2020 22:08:57	Meghann	Miller		Gardner	Comment removed due to profanity
7/20/2020 22:09:02	Stacy	Brunner	Kckps-teacher	Overland park	Time and funding is needed to make all the adjustments to classrooms needed and to train staff on new procedures. Also - I'm very worried about the spread of Covid. I feel we will teach for 2 weeks then quarantine for 2 weeks . How many students/staff/extended family are we putting at risk in order to have kids in the classroom. Yes the classroom is best-but this is a difficult time and sometimes you need to take a step back in order to go forward.
7/20/2020 22:09:06	Emily	Meireis	USD 310	Langdon	I don't think there is a clear cut answer, but keeping kids and staff safe should be the number one priority.
7/20/2020 22:09:10	Jennifer	Wintermote	None	North Newton	While my daughter is only 3 and not yet in public school, both of my parents are educators in USD 260 and my father has several health conditions that place him at high risk for COVID-19 complications. Please approve the governor's EO and allow their school district to adequately prepare to protect the health of all students, faculty, and staff in our great state—my daughter deserves a happy childhood with her beloved Grammie & Opa. Everyone who enters our school buildings Should take home new knowledge, friendships, and knowledge of a job well done—not virus that could alter their life or the lives of a family member forever.
7/20/2020 22:09:21	Michelle	McHugh	Mother of two olathe sch	Overland Park	I am all for a safe start back to school but I agree with Governor Kelly. My children will not be in school until she deems it is safe. After Labor day and not before should kids and teachers be back in school.
7/20/2020 22:09:27	Casie	Luedke		Lyons	The consequences of the children not going back to school far outweigh the possible risk they may face in school due to COVID. Students education has already suffered due to the end of last year and everyone being online. We must not continue to allow students education to suffer due to something that isn't even as deadly as the flu.
7/20/2020 22:09:33	Shana	Palla	Parent and educator	Overland Park	Please delay the start of school. It will give us 3 more weeks to see what is happening nationally to schools that start earlier. Learn from others. See what is working and what isn't.
7/20/2020 22:09:38	Christie	Williams	Olathe 233	Olathe	Please protect our students and teachers and listen to the data.
7/20/2020 22:09:38	Josie	HEROLD	parent of school aged ch	Olathe	Get the kids back to school, in the safest way possible. Whether limiting number of kids, staggering days or passing periods. Implement more handwriting, social distancing, temperature monitoring.
7/20/2020 22:09:47	Kelsi	Randolph		Cimarron	As a parent I am comfortable with school starting in August like originally planned.
7/20/2020 22:09:52	Kathryn	McAllister		Macksville, KS	Please make these mandatory orders up to each school district to enforce. All districts are different and should not be treated the same. As a teacher and a parent, I want students to return the the classrooms to have face to face instruction, but do not feel it's necessary for masks to be mandatory, nor do we need to delay extra curricular activities and/or the start date of school. We can't keep shutting everything off. Let the kids play!
7/20/2020 22:09:58	Veronica	Lilly		Salina	We shut down schools in March when Covid numbers were way lower than now. So why is it safe to open if the numbers continue to increase? Are the schools going to have the capabilities to properly clean the masks the kids are wearing and touching all day? Will the janitorial staff be properly trained on how to clean in these situations? I'm sure there are different protocols on how and when to clean many different surfaces. Temperature checks need to be done when entering a school bus each morning. Not upon arrival at school. Kids that are transported other ways (ie parents), should then have their temperature checked upon entering the building. I believe it should required to have extra janitorial staff and school nurses on site for this year. In case those staff members become sick. I fear if those staff members are out because of sickness, will more follow because of less cleaning and less medical attention happening.

7/20/2020 22:10:03	Elizabeth	Tincknell		Cherryvale	Please support Governor Kelly's plans if you choose to reopen schools in person at all. Kansas was in fairly good shape until the legislature forced her to release decisions to the politics of local counties. It should not be a political decision. It is public health.
7/20/2020 22:10:09	Ashli	Smith	Public School Educator	Lawrence	Our district, teachers and staff, need to time to create a comprehensive plan and allow time for planning, preparation and training before returning to the classroom safely. Please vote in agreement with Gov. Kelly, and keep KS students' return delayed until after Labor Day.
7/20/2020 22:10:10	Tara	Durr	Teacher and parent	Norwich	Keep regular start dates. Have kids wash hands often, sanitize often, Wear masks, use common sense. Continue activities and athletics as planned.
7/20/2020 22:10:10	Tonya	Beyer		Wichita	Schools should open after Labor day as scheduled, with those who can school from home doing so, allowing those who really need to be in on site classes because of economic or other family situations to do so with less risk/ more ease of social distancing.
7/20/2020 22:10:13	Anna	Fredericks	KCKPS	Kansas City	I do not feel it's safe to return to school in a couple of weeks. It will not be possible to follow CDC guidelines and many lives would be at stake.
7/20/2020 22:10:16	Jennifer	Buie	parent & teacher in publ	Wichita	Schools need time to process all of this. Trying to rush to get everything done seems CRAZY. I am not going to find out when or in what mode I'll be teaching until literally days before our school is supposed to be opening it's doors. I don't understand the logic in this from my districts perspective. I appreciate the governor's delay. It allows school districts to not rush into the school year.
7/20/2020 22:10:17	Hector	Morillo	public	Garden City	If Walmart has stayed open throughout all of this, schools should be open. As far as schools needing time to adjust to any changes to protocols, one day should take care of it all. The arbitrary decisions on what could or could not operate during this fiasco is all over the map. The mortality rate of this virus (if figures are true) is less than the flu.
7/20/2020 22:10:19	Jennifer	Gray		Assaria	I disagree with delaying schools. Why did we wait all summer without starting to make a plan. We don't delay schools for the flu. And why a state mandate. Shouldn't different districts have the final say? Especially smaller districts like Southeast of Saline? I just don't understand why we are waiting until a month before school starts to start making rash decisions.
7/20/2020 22:10:19	Linda	Steele	Tribune Greeley County	Tribune	Let our local school board members make decisions about OUR school!
7/20/2020 22:10:28	Rosanne	Price		Meade	Do NOT approve the executive order. Let the decisions be made locally. One size does NOT fit all.
7/20/2020 22:10:29	Jayci	Smitherman		Haviland	I would vot NOT to delay the start of school, at least for rural western Kansas.
7/20/2020 22:10:31	Melanie	Folkerts		Hays	Please delay the 20-21 K-12 School Year for the safety and health of our students and teachers.
7/20/2020 22:10:46	Amanda	Martin	Parent of 6	Goodland	We have no active cases, and under 10 total in our county. Start school as usual. Please let local school boards, administrators and health officials make the call
7/20/2020 22:10:49	Sherelle	Simmons	NA	Olathe	We need reopen when there is a viable plan that has been presented to teachers and parents.
7/20/2020 22:10:58	Shannon	McDonough		Mission	Please allow parents options for their children, especially working parents that are unable to work from home and will not be able oversee virtual school activities for elementary aged students.
7/20/2020 22:11:04	Ashley	Rankin		Louisburg	Please vote to keep all of Gov Kelly's mandates up to individual districts.
7/20/2020 22:11:07	Tressa	Beezley		Girard	Please start school on time and do not delay the school year.
7/20/2020 22:11:08	Ruth	Hansen		Lawrence	I agree with Governor Kelly's executive order to delay the start of school.
7/20/2020 22:11:16	Abigail	Tullos		Wichita	Pass the order to allow staff to better prepare and numbers to decline. Schedule a vote quickly.
7/20/2020 22:11:17	Sahra	Go	Desoto School District	Overland Park	As an educator, affirm Gov Kelly's decision. We are not ready. Protect students and staff. Staff is not willing or wanting to go back under these conditions.
7/20/2020 22:11:17	Tamara	Roberts	USD 333	Concordia	Make schools follow a certain criteria. For example, if local health dept still show increases in cases, require them to go online. If they are showing no new cases for a certain time frame, let them teach face to face. If they have any new cases pop up, do a hybrid or back to online. Our families, kids, and teachers got pretty darn good and were in a groove with online by the end of the year. It wasn't ideal but it worked. I am worried about Quarantine procedures if a student of mine tests positive. If we continue procedures that we were to follow all summer, that would potentially include 100 students and teachers to Quarantine. Then what happens? Lack of substitutes is a huge issue in our district as well. With all this being said, not all communities fit the criteria of being in danger of contracting the virus and if they have to follow the same rules for attending later than planned, it isn't what is best for kids!

7/20/2020 22:11:27	Edith	Middleton		Overland Park	Delay
7/20/2020 22:11:27	Jessica	Kannady	USD 352	Goodland	Start in Aug. please
7/20/2020 22:11:28	Hayley	Barnes		Hays	Open the schools with NO MASK mandate. The choice should be optional. My children have stayed healthy and I will not jeopardize their immune system due to the governor and her mandates. She will have them all more sick by flu season due to no immune system. Open school on time! Our children need the socialization and structure with their education. I do not want Laura Kelly stepping in
7/20/2020 22:11:31	Jessica	Kannady	USD 352	Goodland	Start in Aug. please
7/20/2020 22:11:34	Ashley	Chiddix	Kansas City, Kansas Public Schools	Basehor/Kansas City	<p>I feel very strongly that a slight delay in reopening schools for the upcoming school year is a necessary move, specifically for schools who are going to have to adapt to an entirely different way of thinking and approaching instruction this year. Not only will we be required to do all of the typical “first day of school” planning, but we will now be mandated to adhere to very strict guidelines that will certainly challenge us in ways we never thought possible. We are not asking for several more months. Rather, we are asking for a few extra weeks in order to be able to train and rewire our brains for the betterment of our students. Furthermore, I truly believe that with the current rise in Covid-19 cases (more abundant in other counties), it is essential to the safety of not only our students and high-risk staff but their many family members who will undoubtedly be exposed to a potential deadly virus. By allowing Kansas a few weeks extra to prepare, we can hopefully bring those numbers down even more in an attempt to truly “flatten the curve”.</p> <p>Please strongly consider approving Governor Kelly’s EO, as the future of our students and teachers alike truly depend on it.</p> <p>Thank you kindly for your consideration.</p> <p>Sincerely, A dedicated music teacher who really just wants to get back to doing what she loves best - making beautiful music with her beloved K-5 kiddos</p>
7/20/2020 22:11:36	Leah	McPeak		Hiawatha	Please uphold the governor's order. It is right for Kansas and will keep our kids safe. It will be difficult for the local school boards to uphold her order if you vote against it.
7/20/2020 22:11:49	Leah	Towle		Lawrence	I fully support the decision to delay the school year. It is the safest choice for our teachers, kids, and their families. It is okay to sacrifice a perfect school year to keep Kansans alive.
7/20/2020 22:11:54	Michael	Cossmann		Jetmore	This virus is something we need to learn to live with and I do not mean by living in a bubble. What may be needed for some does not necessarily need done for others. You all can't possibly know what is best for everyone. This issue needs to be dealt with at the local level. The state board of education needs to make sure that this issue stays in the hands of the local school districts not the one size fits all approach that is being forced upon all of us.
7/20/2020 22:11:56	Andrea	Shepard		Kansas City, KS	I am a teacher and my mother has terminal cancer. If I start school before the numbers reduce drastically, and risk exposure to Covid, I will be unable to go see my mother. I am terrified that she will die without me being able to see her or be with her. I love and miss my students and know it would be best for them to be in school as scheduled, but this is a recipe for disaster and heartbreak. I am in favor of the after Labor Day delay.
7/20/2020 22:11:59	Marlin	Heger	Individual	Hugoton, Kansas	No Delay.
7/20/2020 22:12:04	Lee	Sappingfield	Senior in Kansas HS.	Lenexa	Look at the death rate in Kansas of people under 20. 7/20/2020 22:12:08	Robin	Stock	Special Education Teacher	Wichita	Please vote to support Governor Kelly’s executive order to protect our communities. The numbers across the state of COVID 19 are staggering and we must as a state to get this down before we can open the schools. We must make this difficult decision to protect children, staff members and everyone’s extended families. Please protect Kansas!
7/20/2020 22:12:09	Whitney	Davis	USD 482	Dighton	Our children need to be in classroom school. They need teachers, routine, learning, structure, and social interaction. We may have to do something things different and be creative but they need to be back into school! Please allow our Rural district to go back into the classroom in August.

					<p>Hello, I am a parent living in the Goddard school district. I implore you to VOTE NO on Governor Kelly's executive order and open schools as scheduled and on time.</p> <p>The science clearly shows kids suffer more from being out of school than they do from this virus. Our kids' future is being sacrificed in the name of teacher safety and by Governor Kelly's partisan politics when all other essential employees are going to work. Teachers should be no different. Teachers are ESSENTIAL to our kids future just as much as police officers, firefighters, grocery store workers, etc. are to the functions of our society.</p> <p>Keeping our kids out of school will have long and lasting detrimental effects well beyond this virus. Our kids deserve better and deserve to get back to school and preparing for their future. I plead with you to do all you can to insure schools open ON TIME and with a five day a week option. Our kids deserve this, they have sacrificed enough!</p>
7/20/2020 22:12:09	Maury	Kerschen		Wichita, Goddard Schoo	
7/20/2020 22:12:18	Melissa	Meier	Golden Plains Highscho	Selden	do virtual school
7/20/2020 22:12:21	Liz	felich		baschor	yes
7/20/2020 22:12:21	Lindsay	Croft		Olathe	Please vote yes to approve the Governor's executive order. With the rising Covid numbers, it's not safe for staff and students to be in school.
7/20/2020 22:12:21	Rebecca	Davis		KCK (Piper district)	I support delayed school year starting after Labor Day
7/20/2020 22:12:25	Lorena	Carrillo	Parent	Dodge City	I don't feel safe sending my child to school yet. I am torn because my child has a learning disability and the remote learning did not work for us. My son is at the high school. If kids could alternate going to school - year round - maybe this will lessen the number of bodies present in a room at one time. I have another child at one of the middle schools and again I am afraid there are way too many bodies in a room/hallway/class. My middle school child was a premature 2 lbs 11 oz boy, while he was fairly healthy, he is my miracle baby. I don't want to place his life in this kind of jeopardy. We are not ready.
7/20/2020 22:12:27	Benjamin	Coffelt	Myself and my family	Osawatomie ks	Please cancel in session school for the 20 21 year. Make the call now so teachers can effectively plan a remote learning plan so that the year can move forward smoothly instead of saying in session and then realizing after there is a huge explosion of coronavirus and then switch gears after teachers and students are infected.
7/20/2020 22:12:29	Jill	Albers	Teacher	Cheney	Let us open, in person, when we planned to. Our district has zero positive covid tests. It should be on a district by district basis not state wide.
7/20/2020 22:12:30	Anjanita	mendenhall	iola school	iola	Comment removed due to profanity
7/20/2020 22:12:31	Ingrid	Ricke	USD 332	Cunningham	Open schools and do away with mandatory masks!
7/20/2020 22:13:01	Andrew	Turner	Self	Overland Park	I have a high school senior and would rather one of her final lessons be that adults and political leaders respect science and public health over the false idolatry of money.
7/20/2020 22:13:12	Thomas	Derstein	USD 422	Greensburg	I am a high school math teacher. Please support Governor Kelly's EO pushing school back. Cases are on the rise and Kansans need a unified plan to address the upcoming school year. Our failure as a state has been not having a unified approach to combating COVID-19. Additionally, a late start lowers the possibility of hybrid or virtual instruction, both of which negatively impact our disadvantaged students at a disproportionate rate. So again, please support the EO on Wednesday for the health of our students, teacher, and families. Thank you.
7/20/2020 22:13:16	jeremy	sutton	Parent	Wichita	To the state board of education...I think your approach and preliminary decision to disprove the governor idea on the status of school this year is ridiculous. There is no reason to give the authority to each district and school as to when to open back up. Allowing ALL school the additional time to ensure all students are safe as possible is the important fact here....you are not looking at the best interest of the students as a whole and need to approve both bills the govern has places before you. The political games that are being played with not only our safety but not the safety of our children is unbelievable
7/20/2020 22:13:16	Amanda	Stoltenberg	Oakley USD 274	Oakley KS Logan Count	Let it start regular with no masks

7/20/2020 22:13:18	Jonathan	Gerrity	Lawrence Public School	Olathe	Please do not let the politics of either political party influence your decision. Please consider nonpartisan scientific knowledge about COVID-19, as little as may exist currently, and the safety and holistic wellbeing of Kansas's children and their families before any other considerations. I have heard from fellow graduate students who teach secondary special education how difficult e-learning often is, with video games and other distractions plaguing zoom sessions. I am extremely worried that even greater than the fear of COVID-19 directly harming the physical health of children is the fear of the impact of many months of lost or severely limited education for our students. It is simply disastrous. For many students, there may be a desperate need for the safety and provision meeting in their school building affords. I believe there should also be broad exemption for any who may fear to be at risk of significant symptoms of COVID-19. There should be zero consequences for teachers, staff, or students that may need to or believe they need to stay home. However, many students desperately need to go to school. I do not claim to know the best way forward, and I trust that KSDE will make a wise choice based on science and the needs of our students and their families - a choice that balances all of the aforementioned concerns.
7/20/2020 22:13:23	Kristin	Watkins		Jackson Heights area	Children should not resume in person classes until they can be held as normal. Under the current circumstances, regardless of what protections are in place or not in place, schools will be an environment full of constant, toxic stress and worry. What happens to a kid who lives in the reptilian part of his brain all day, every day? What will happen when someone inevitably contracts this virus either at school or in a kid's family? What happens when someone gets sick and dies and the kid feels responsible? Where I live everyone knows everyone and they know their parents and grandparents, etc. And yes where I live is full of mask hating republicans and they raise junior republicans who already walk around all day calling the teachers "dirty liberals." One of our board members (who I suspect has dementia) made an anti-mask battle cry at a public forum for our school. She told parents that "immunity is earned" and "it's in god's hands" and "we could all die tomorrow". Then she said our school was going to win the award for most immunity. That insane diatribe was met with cheers and applause by the parents! They are apparently okay with risking the lives of their children to win some fictional award. At any rate, I brought my kids into the world and it's my job to care for them (and not the job of the public school system to provide daycare) so I am keeping them home with me for their own good. For the sake of humanity I would recommend everyone else do the same.
7/20/2020 22:13:30	Brigitte	Nelson	USD 239	Delphos	Local stakeholders need to decide. It should not be a one size fits all answer. Decisions should be made by local school and health boards.
7/20/2020 22:13:41	Jonathan	Foote		Wichita	The opening of the school year should be delayed until resources can be allocated to meet the logistical needs of having students safely in school and to be compliant with CDC recommendations. Online school should be supported. Funding should be taken from other budgetary fields and the implementation of a wealth tax on people in the state who earn more than \$100,000 a year. The needs of the many outweigh the needs of the few, and wealth should be redistributed to keep lower class citizens passive and quarantined
7/20/2020 22:13:44	Casey	Carter		Emporia	I am urging the State Board of Education to uphold Governor Kelly's EO. As elected officials, it is your responsibility to vote based on your constituents, not your own political opinions.
7/20/2020 22:13:47	Krystal	Hilscher		Olathe	No mask mandates for kids in schools!
7/20/2020 22:13:53	John	Adams	None	Valley Center	Please open up school. It will do much more harm than good to keep school closed and to not have sports. The science does not back up the need to close down, delay, or do a hybrid. Kids need to be in school.
7/20/2020 22:13:55	Linda	Morgan		Goddard	Please keep teachers and staff safe, delay until at least after Labor Day!
7/20/2020 22:13:56	Lisa	Simmons		Valley center	Ok with delaying 2 weeks if it helps administrators plan for the year
7/20/2020 22:13:58	R	Raylene Hinz Penner		Topeka	Please do not overturn the Governor's proposed school opening date.
7/20/2020 22:14:12	Ken	Wright		Cunningham	Our kids need to be back in classes at school. They need the interaction with teachers and peers they have been out too long already. School needs to start on time not waiting until after Labor Day. I understand some adjustments need to be made but delaying the start or not letting them in their schools is not the adjustments needed.
7/20/2020 22:14:24	Bridget	McGuire		Olathe	The governor has the best interests of students and educators in mind, unlike the extreme right GOP legislators. The extra time gives our schools the ability to be prepared to open up safely for our students return, which should be the goal. If you rush this, like you did opening the state, we will never get out of the hole that the legislature has created!
7/20/2020 22:14:38	Matthew	Sims	Colby public schools	Colby	Allow local school district to decide start times and not the one size fits all approach.

7/20/2020 22:14:57	Natalie and Dav	Brown	Blue Valley School Dist	Leawood, Kansas	Due to the facts that the number of COVID-19 cases continue to rise with a large percentage of cases in our teens, schools need time to prepare buildings and staff with safely regulations, and parents have yet to receive the school plan options from districts to make the best decision for their families, it is necessary to delay the start of school until after Labor Day.
7/20/2020 22:15:03	Ryan	Murphy	USD 237	Smith Center	I prefer to keep schools closed until after Labor Day. i prefer this on a normal summer even without COVID. Labor Day is just like the official end of summer. but allow sports to begin practice sooner.
7/20/2020 22:15:04	Timi	Howard	Usd 290	Pomona Kansas	I want everyone to be safe. So open when it is safe.
7/20/2020 22:15:05	Angela	Ringler		Sylvan Grove	We have one active case in our county, let local health agency and local school board make the decisions.
7/20/2020 22:15:17	Sheila	Walton		McFarland	Please delay school start.
7/20/2020 22:15:31	Chelsea	Guatavson		Assaria	Let's get kids back in the classroom ASAP.
7/20/2020 22:15:40	Elizabeth	Anderson	Public schools	Lenexa	My 5-year-old grandson is currently battling Covid, which he contracted from his pre-school teacher. His primary symptom was hives, but he has been ill about 10 days with various other maladies and 2 hospital visits. Parents think they want normal school, but that cannot happen this year because of the danger of contamination. No groups, no creative lessons, no socialization because of contamination. Absences are another thorny issue. If she were teaching, my daughter would have used all of her sick days. If she contracts it next, she would be receiving deducts. This disease has too many unknowns, including long-term negative effects. Attending school 1-1 should not occur unless Covid cases are down to single digits at least. Starting after Labor Day has many benefits: lessons can be prepared for delivery (hopefully online), Covid could be gotten under control, and supplies to sanitize could be organized.
7/20/2020 22:15:42	Kaitlin	Willcutt		Wichita	Delay school until at least September
7/20/2020 22:15:55	Carrie	Barth	I am a parent of two high	Baldwin City	I think these types of decisions need to be based on a district by district basis. I have two high school teenage daughters. Both want school to start prior to Labor Day. Both want school in person. And both want sports to start on schedule. If we have a high number of infections at some point and the severity of illness is high, then decisions to make changes at that time should happen. My kids have been playing sports since the first of June with zero issues. Kids across the world are going to school in person. Kids across the world are going to daycare. At this time I am not seeing a reason kids shouldn't start on schedule.  None of us signed up for any of this, but we all are continuing on with life and careers and figuring things out as we go. The lack of education that my kids received in the spring was frightening, frustrating, and I am very concerned about the level of education they will receive in the future if they do not have school in person. My kids spent hours every day in the spring and did not get the same level of support from their school.
7/20/2020 22:15:57	Rosemary	Lesser	None	Wichita	I do not agree with delaying the start of school as a requirement for all schools, districts, locations. If there is to be a delay it should be handled at the local level (one size does not fit all). The local districts and private schools know what is needed for their students. Thank you.
7/20/2020 22:16:04	Karen	Eichorst		Olathe	I support Governor Kelly's executive order to delay the start of school and ask that the Board vote to approve the order.  There can be no "normal" as the school year begins, regardless of what parents desire for their children. The social aspects of school that so many crave cannot occur in the current situation. If schools cannot properly prepare then there will be spread of the disease. That is simple science.
7/20/2020 22:16:06	Amber	Groeling		Topeka	Please stand up for the health of the students and staff you serve and vote to support Governor Kelly's executive order.  I really believe the science points to getting kids back into classroom. Research is trending kids are not passing the virus on as adults. Kids thrive in the classroom, not online. I think it should definitely be up to each district to decide.

7/20/2020 22:16:06	Tracy	Brewer		Osawatomie	I believe this is needed to give the school districts extra time to get safety measures in place and get information on how to proceed to families so everyone is on the same page so the students can attend school which is greatly needed. Not only do the schools need time but also school bus drivers and personnel they need guidance on how to seat students and such, if they have to skip seats to transport students then the schools need to address that also because some bigger cities will have to find extra transportation. As for Osawatomie I'm sure they would have to adjust school times to accommodate those adjustments. All kids need to be in school but it has to be safe for them because some students school is the only place they feel loved.
7/20/2020 22:16:06	Joseph	Weber		Wichita	Actually enforce the wearing of masks and delay. We will not know how many it will save but we will certainly be able to count the deaths from going back while cases are rising faster than ever. We do not want Wichita, Sedgwick County, or Kansas to be the next Florida or New Jersey. Three extra weeks will allow us to see how reopening is going and to hopefully actually flatten our steep upward curve.
7/20/2020 22:16:07	John	Olson	Olathe Public Schools	Overland Park	I like it—there is still hope that it could calm down but it looks as though we may be starting virtually.
7/20/2020 22:16:12	Amber	Dillard		Olathe	I feel that children's social/emotional issues are going to get worse if the kids don't get back to school and stop being isolated. I agree with giving each family the choice of in person or online BUT I feel that it should start on time just like it normally would.
7/20/2020 22:16:14	Travis	Rink	Goddard	Goddard	Please keep politics out of this decision and follow guidance from medical professionals along with Governor Kelly. As an educator, husband, and father, the safety of all those I work with and live with are an utmost priority. You have a difficult decision just as we do in our district to redesign what education and learning looks like. This additional time that is consistent will allow teachers and those in our school community to make necessary changes and adapt to the results of a new way of providing education. Thank you for all you do.
7/20/2020 22:16:40	Sam	D		Macksville	We need to shut Kelly and her ridiculous mandates down. Do research, masks and all these restrictions are going to mentally and physically destroy our kids. She has been sacrificing kids since March, it is time it comes to an end. It has never been about our health. This virus and everything else is a political scam that has done nothing but destroy America. I'm not saying the virus isn't real, but if you look at the entire picture you can easily see how skewed all the numbers and such are. Stand up and fight for our American rights and freedoms before they are gone.
7/20/2020 22:16:31	Elizabeth	Nordberg		Wichita	Please open schools before Labor Day. The health and mental well being of so many children is at stake right now. It is far greater than the danger posted by Covid-19.
7/20/2020 22:16:50	Kendra	Fowler	Teacher	Newton	I support the decision to delay school. It gives teachers a chance to plan for the changes, gives additional time to see if our numbers go down.
7/20/2020 22:16:52	Kristin	Shuck	USD 500	Shawnee	Opening schools as it stands does not afford safety for our children. Teachers need time to learn new procedures. Children need to have a chance at "normal," meaning they won't be starting and stopping because of COVID-19 cases in their buildings.
7/20/2020 22:16:57	Susan	Fath	Wichita Public schools	Wichita	Covid cases are on the rise. Not safe for our children or our teachers/school employees. Once a child or employee gets sick with the virus will schools Quarantine for 14 days will school shut down? Will just that classroom or people closely involved with that child or employee have to quarantine? Too many "what ifs". Class sizes need to be limited. Masks, sanitizing stations in classrooms and hallways, temperature checks when students and staff report along with visitors. It's discouraging to see a template that will be sent to families that is already written for staff or students who may get sick with covid and pass away. (Something that was seen from an out of state district) virtual learning may be best to do At this point until vaccine is found.
7/20/2020 22:17:03	Sheila	Eccles		Labette county	Why start these schools so late. Besides you start so late now the students will have to go longer. This is not fair to the students. You took them out early they couldn't finish the school year. This has gone way to far. Its time to get these kids back to a normal day for them. They have suffered enough. Lets get these schools started and get the year started like it suppose to and get it over with the same day its suppose to dismiss. The students shouldn't have to suffer because adults are running scared and being sheep.

7/20/2020 22:17:05	Kelley	Waddell		Louisburg	Governor Kelly- There are many decisions you make that i support. However, your mask mandate in schools is not one. As a professional social worker, advocate for abused and neglected children, and mom, I cannot support this decision. Our children are being punished, not protected. ZERO children have died in Kansas. ZERO. They are being used as a political tool and it's disgusting. People will get sick. And that's ok. Our ICU's are not overloaded, our hospitals are not at capacity. That was what we were preventing, right? Let individual communities determine what works best for them. Do not mandate our state based on a couple of 'hot spots.' Trust your voters. Trust Kansas.
7/20/2020 22:17:07	Sara	Coffman		Olathe	Delay is okay, but PLEASE OPEN.
7/20/2020 22:17:15	Nathan	Purdue	USD 489	Hays	Please make the decision to support the governor's decision to delay the start of school. We have precedent that our teachers can overcome; our students can as well. This virus presents a present and preventable risk, and time to coordinate for administrators and faculty is essential. A normal opening necessarily removes that careful planning time.
7/20/2020 22:17:17	Mira	Mullen	Educators	Wichita	I agree with waiting until after Labor Day. We are doing this for the safety of children and staff. Good call on waiting to open schools!
7/20/2020 22:17:27	Michele	Kleineweber		Eudora	Three weeks is more than reasonable considering the possible consequences. This gives us a window to observe what happens in communities that rush to send their kids back to school. I'm so sick of the hand wringing over this, most of the parents I know who vehemently oppose the delay are freaking out about sports, incredibly selfish. While I agree, most kids will make it through this relatively unscathed, I'm not ready to roll the dice with my son's life, hoping he won't be one of the small percentage who get really sick. By the time our children would show symptoms, parents are already infected, parent's colleagues, grandparents. It's 3 weeks, c'mon.
7/20/2020 22:17:30	Karri	Kuhls	USD 233	Overland Park	OPEN THE SCHOOLS! I have been a public school educator for 28 years. It has been INCREASINGLY more and more important for students to have CONSTANT mental health services on a daily basis. Kids need teachers, counselors, administrators working along side them assisting them in all aspects of their lives. More and more kids are slipping into a deeper level of depression because they don't have access to these services anymore. Let parents send kids to school if they want to and let them keep them at home too if that is their choice as well. If kids aren't allowed back, there will be more and more kids left unattended at home. For the sake of the kids... OPEN THE SCHOOLS!
7/20/2020 22:17:33	Jackie	Euler	USD 469	Lansing	Please don't make this a political issue. Let our superintendent have the extra time to make sure that teachers, students, and other staff members are safe when they return to school. It is a difference of 3 weeks. I don't care if I have to work into the middle of June if I know that I will be safe returning back to school. As of now, the numbers in Leavenworth County are rising each day. Schools closed down in March with less cases. I feel more anxious and nervous to be teaching inside the classroom now than I did in March. Please do what is right and support the Governor's executive order.  Thank you, Jackie Euler
7/20/2020 22:17:47	Dale	Kirmer		topeka KS	Schools need to start on time in August with classrooms and sports. Camps, summer baseball, and other activities have been going on for 2 months without incident. As a nation, we are wasting time that our children can not get back in learning, growing and excelling. Quit the scare tactics and proceed with healthy actions.
7/20/2020 22:17:52	Travis	Dillard		Olathe	open schools normally
7/20/2020 22:17:52	Jennifer	Prekopa	Wichita Public Schools	Wichita	I am in favor of the order as well as anything else that keeps our students, parents, and staff safe and keeps this virus from spreading.
7/20/2020 22:17:53	Melissa	Barnett	Public School	Dodge City	As an educator of Kindergarten students, I do not feel comfortable entering the classroom with the numbers rocketing right now. There is no way I can expect a 5 year old to keep distance from their classmates and keep a mask on for 6.5 hours a day! I also feel that Districts are going to need time to sort out the details of not only curriculum but health and safety of thousands of students and educators. This is many lives being impacted if schools open in August.

7/20/2020 22:17:57	Gail	Hofstetter	former teacher currently	Hill City	I agree with the delay until after Labor Day. We have had several cases in our county in the last two weeks. Until then we were at zero. I think it would be better to delay than start and then have to stop. To be honest, the people that I have seen be the most vocal on social media about getting school started are families with students that are good athletes and they want their kids playing sports and parents that want to get their babysitting bill to go away when school starts. The teachers could go ahead and start at the time their school was scheduled to start. Teachers are going to need the extra time to get ready to teach or make adjustments in their rooms and find ways they can make social distancing work in their classroom. In our district, it would only be twelve student contact days if the delay happens.
7/20/2020 22:17:59	Sara	Vancil		Lawrence	It is imperative that the Board of Education do the right thing and allow Governor Kelly's order to stand. All this is doing is giving us more TIME. More time for school districts to plan on how to do this RIGHT. More time for all Kansans to do their part to reduce the spread. More time for teachers to learn how to adapt to the new online teaching environment. Let's be the bellwether for the rest of the nation and do the smart thing. Please when you vote, vote on the side of public health, not politics.
7/20/2020 22:18:07	Kelly	Emmons	High school kids	BERRYTON	My kids need to go to school. They are bored and restless. They miss their friends and being on a team. If we can keep grocery store workers and restaurants and hair salons safe, we can keep schools safe. There are so many more dangers to kids NOT being in school than there are to them going to school. Start school on time. Be safe. Trust the local school districts to do the job. Mandating a one size fits all approach to the whole state is ridiculous. There are some districts that have no cases. Let the hot spots delay, if they choose. Leave the others alone. To all the kids who have been working hard all summer to stay safe, going to school camps and workouts without incident, don't slam the door in their faces.
7/20/2020 22:18:15	Anna	Cannon	Lyons USD 405	Lyons	I'm a middle school counselor and I'm asking you to go along with the governor in delaying the start of the school year until after Labor Day. With the increasing COVID-19 cases in Kansas I'm fearing the risk you will put people in by not follow this guideline. In my building alone, I have two adults going through cancer, one who has recovered from cancer, two diabetic and two new parents to brand new unvaccinated babies. This is only a fraction of who or what you could be putting at risk in my district, town, and county. Please stand with many teachers and students considering science and health in your decision making. Thank you for your time. Respectfully, -Anna Cannon
7/20/2020 22:18:18	Kayla	Wombacher	Rawlins Co	Atwood	As a teacher I feel we need the extra time to prepare for all of the requirements of us to bring kids back safely, after Labor Day. I do feel activities should continue for the betterment of our students. They need their sports, music, drama, etc. we as teachers need the time to prepare and get organized with all we have to do each day to keep our students and ourselves safe. I am 53 and see over 200 kids a day in 2 buildings. We need time to figure out how to do all of this safely! Thank you!
7/20/2020 22:18:18	Teresa	Edgar		Overland Park	As a parent of school age children and a teacher myself, I support Governor Kelly's delay of the start to the school year. With Covid cases continuing to rise, in person classes pose too great a risk to our staff and students. Even with the mask mandate, we all know it will be impossible to enforce reliably, so not offering as much protection as some may think. A return to in person learning would be too great a risk were we to return before cases in our area are declining. Thank you for carefully considering the safety of all involved!
7/20/2020 22:18:20	Carol	Edmisten	Edmisten home	Wichita	I work in USD 265. Our children NEED to be in school. It is ridiculous to think we can prevent people from getting sick. We didnt prevent people from getting sick when we were shut down. They are padding the numbers. PLEASE OPEN THE SCHOOLS!!! If people dont feel safe then let them to do online learning! Why wouldn't that work.
7/20/2020 22:18:23	Jillian	Korte		Goodland	Thank you for your work! Please consider following the governor's suggestion and delay the beginning of the school year. It will help schools and communities prepare for the school year and better form contingency plans. Thank you!

7/20/2020 22:18:33	Amy	Hawk	Kansas parenr	Wyandotte	Please open our schools. My girls want to attend school in person. My oldest will be a senior in high school at Kansas City Christian school. She wants to have a cross country season. My middle daughter will be a freshman. She has plans for a great start to her highschool career. My youngest will be in the second grade. She has dyslexia. Right now we are paying 66\$ a week for a 30min online session. She needs school. She needs help from teachers to be a successful student. My family believes we should have the choice of attending school in person or online. Kids need social interaction. Depression is going to be in the rise if students can't go back to school. Don't allow politics to ruin education. Many students do not have access to the internet or have the support to be successful at online school. I have read about many cleaning products and air filtration systems. Why are we not hearing about any of these. Schools should be looking into this stuff. Please help kansas kids be successful. Thank you
7/20/2020 22:18:51	Nicole	Vulgamore		Cheney	I think the school year should be delayed until schools can get proper masks, sanitation, social distancing, and planning for the school year for the safety of the student and staff. It is not worth people going to work and school when it is spreading so fast! KS just added over 1,300 cases since Friday!
7/20/2020 22:18:54	Natosha	Pitcock	My family who attends	Preston	No state mandates. Allow the district to make the decisions based on their own community. I trust my school board to make wise choices. Our needs are different than Wichita or Kansas City
7/20/2020 22:19:05	Samantha	Crabbs	Teacher at USD231 and	Wellsville	As a first grade teacher (two years cancer free) and a single mom to two kids (one with an autoimmune deficiency) I hope that you take teachers lives and the lives of fragile students into consideration. As a teacher I will do whatever I can and make it work but I promise you another three weeks academic wise will not make as much difference as it could health wise. Please vote to keep schools closed until after Labor Day. I'm worried for myself, my children, my colleagues, and my students. Please be a voice of reason keeping us all safe and healthy. Thank you for your time.
7/20/2020 22:19:08	Anna	Bertholf		Roeland park	Schools need to open up, period. What are working parents suppose to do???? Will the state of KS be paying us to hire a nanny since our taxes toward the schools won't be used??
7/20/2020 22:19:08	Pamela	Graber	Parent	Wichita	These students need to get back into the classroom. Not only for the social/ mental aspect but for the learning aspect. My children learned nothing from the continuous learning packets our district felt were enough to keep our students engaged. They learned more from household chores and home improvement projects we did as a family. I know alot of people are scared right now. However, I don't feel that keeping students home for an unknown amount of time is a good solution. The families that are scared to send their students to school in person can choose the online option. Those that feel it's safe, send your kids to school buildings for the much needed interaction they get from being in the classroom. Have temperature checks, that's ok. Have teachers video their lectures via Microsoft Teams or post to respective classes Google classroom. Students that are ill and need to stay home can then login and get the instruction for each class missed as well as assignments. If they have questions, email/ call the teacher for that class. Teacher can set up "office" hours like they do at universities or teacher can email to set up a time to help. Yes, this will require some extra time and "outside the box " thinking but it's not impossible. As far as the mask issue is concerned, there are many students with underlying issues that will not permit them to wear a mask an entire school day, if at all. Besides, most kids will use it as a distraction instead of paying attention to the necessary instruction happening in front of them. I have one child with asthma and she's pretty OCD. A mask will only hinder her breathing as well add contribute to her nervous tic that she has pretty well under control. My other child has many seasonal allergies that requires her to frequently blow her nose. Is she just supposed to sneeze into her mask and then live with snot on her face all day. I should hope not. My children are pretty average when it comes to kids these days. I can't imagine what it would be like for a child with sensory issues to be expected to wear a mask 8 hours a day.
7/20/2020 22:19:27	Laura	Thielen		Arkansas City	I support delaying school until labor day for the safety of our students, teachers, and community as a whole.
7/20/2020 22:19:42	Madeline	Prelogar	MiddleSchool staff USD	Leawood	SUPPORT Gov Kelly-DELAY opening and keep kids and staff safe!!!

7/20/2020 22:19:52	Darcy	Darbro		Madison	Children have to get back to routine and structure. Many households have 2 working parents which leaves children on their own ALL day long. This virus is serious, but very few children have battled it because it primarily affects adults with underlying medical conditions. Yes; staff are at risk, but so are us nurses that have continued to work through all of this. It is a known fact that going into the medical field that we may be exposed to harmful diseases. This is similar to a teacher, they know that they will spend their days with germ carrying children, they use precautions, good hand hygiene and common sense. There are risk with most jobs out there, we just have to do what we can to decrease the risk. Children are sacrificing and suffering right now. We are causing more harm than protection to them. We need to teach our children NOT to fear the real world, it will not get better anytime soon.
7/20/2020 22:19:54	Jane	Doe	Kindergarten teachers	Overland Park	As a teacher, I am desperate to get back to school IN PERSON WITHOUT MASKS. Let us go back as scheduled. Make masks OPTIONAL! It is impractical to expect small children to wear masks all day, to remain at the same seat in the same classroom all day, to be forbidden to be within 6 feet of anyone, etc. Under any other conditions, some of these behaviors would be considered harsh and abusive. Have you ever tried to teach a kindergartener to read? From SIX FEET AWAY?! It. Will. NOT. Work. We need to sit with them, point to letters and words, show them the way our mouths forms sounds, etc. If you're going to mandate masks and 6 feet rules we might as well not go back at all. Schools are not businesses; it's not like going to the store where you can mind your own business 6 feet away from other people. We can't accomplish any of our goals with these restrictions in place. Do you honestly expect ANY growth or achievement from these kids if you delay our start, require masks, and force us to stay 6 feet apart? Fat chance.
7/20/2020 22:20:03	Jamie	Lira	USD 437	Topeka	I would like to see votes in support of EO 2058 to delay the start date until after Labor Day. I teach music and I am higher risk for Covid as an asthmatic, cancer survivor, and a bone marrow transplant recipient. My younger 11 year old son had a congenital heart defect and is also higher risk for problems if he were to contract it. I feel we need more time to plan as well since health needs keep changing as well. Thank you for your time. I appreciate you reading this.
7/20/2020 22:20:03	Tim	Scott	Parent	Columbus	I do not agree with the mask, I believe it will cause more harm than good. I think the temperature checks is a good idea. It should be up to the parents.
7/20/2020 22:20:07	Angela	Kuta	Catholic Schools	Topeka	One size does not fit all districts. The Archdiocese Of Kansas City has been working for months putting together an extremely detailed plan to get our children back in the classroom. School districts should be able to decide what time frame works best for them to start classes. Our children are falling behind and it is time to get them back to school for education, socialization and stability. We need to move past the fear of this virus and look at what is important for our children's development. Districts that have plans, equipment and processes ready should be able to start school according to their school calendar. One size does not fit all.
7/20/2020 22:20:07	Jenny	Wright	Teacher and KNEA member	Kansas City	Please support Gov. Kelly's EO to postpone the beginning of the school year to after Labor Day. Teachers need the time to plan their best practices, parents need the time to prepare their children, and health officials need time to assess public safety. A vote for support is a vote for putting kids first. Thank you.
7/20/2020 22:20:11	Jill	Moos		Great Bend	I don't believe the delay is necessary, but if that's what it takes for teachers to get prepared, whatever. But I'm totally against masks being required. This should be a personal option.
7/20/2020 22:20:24	Chelsea	Lynn	Berryton Elementary School	Berryton, KS	Please open schools back up in August!! These kids deserve a normal learning environment.
7/20/2020 22:20:27	Michelle	Vielhauer		Tonganoxie	Please support the governor's orders to delay the start of the year. Please give our state time to get infection numbers down and give schools and teachers time to prepare.
7/20/2020 22:20:38	Nicole	Davis	Uniontown Junior High	Uniontown	The schools need to re-open. If it is truly going to open after Labor Day then I am ok with that but no more putting it off. My sons schooling was an absolute joke the last 8 weeks last year. It was way below his grade level and there was absolutely no effort put into the lessons from the teachers. One of his assignments was to make a virus and kill off his classmates. He received a zero for that as I felt that was very inappropriate for a child to do. These kids deserve an education and their mental health is just as important as their education. Depression and suicide numbers are going to climb if the kids do not get back to a normal life!
7/20/2020 22:20:47	Jodi	Testa		Junction City	As an elementary school principal I recognize schools need more time to prep for the safe return of students. Please delay the start of school to 9/8 AND make it very clear that the hours of education our students get remains at 1116. This is the best plan for students.
7/20/2020 22:20:47	Rachel	Plummer	Colby Public Schools	Colby	I do not support delaying schools until Labor Day

					<p>To Whom It May Concern,</p> <p>My children have a number of medical and developmental complexities. Both are on IEPs and require intensive support. We have been working months on wearing masks, and my son is still unable to tolerate them for more than 30 seconds. I purchased face shields as well in the hope of keeping others safe. My son has had 2 open heart surgeries, my daughter spent 83 days in the NICU.</p> <p>We understand that transmission rates will never be zero, this virus is here to stay. However, we need transmission under control so that there is enough room in the hospitals when at risk people go into the hospital. We are currently out of control. We need to take the time to wear our masks and reduce the speed of transmission before we add the incubators that schools inevitably become.</p> <p>Please support the Governor's delay of the start of school. Please put leadership above politics.</p> <p>Thank you, Christine Panus My Children are in the Blue Valley School District</p>
7/20/2020 22:20:53	Christine	Panus	My family	Overland Park	
7/20/2020 22:21:15	Tricia	Oren		Haviland	Our school has a plan safety protocols such as masks, hand sanitizer, and temp check already in place. No need to wait a whole month.
7/20/2020 22:21:21	Leslie	Caldwell	KSD therapist and Parent	Olathe	Please do not reopen schools until our Covid cases numbers are lower and school can be held safely for all staff and students. Please support Governor Kelly's executive order. We cannot teach and learn if we are worried about surviving.
7/20/2020 22:21:30	Casey	Long		Dodge City	I think it's a good idea to wait to open schools. This will give each district the time needed to formulate plans and put them into place, as well as educating us teachers/paras/aides on how to keep the kids and ourselves safe.
7/20/2020 22:21:41	Tamra	Coopman	School employee	Pomona	School should be delayed until after Labor Day! Please protect the school staff and students.
7/20/2020 22:21:42	Stacy	Tidwell	Myself	Wamego	Please follow Governor Kelly's orders. It's not safe right now.
7/20/2020 22:21:42	Andrea	Hicks	My kids goin back to school	Kansas City KS	Things are too risky to jeopardize my children life
7/20/2020 22:21:46	Rosa	Garey	Usd 233	Olathe	Delay start of upcoming school year
7/20/2020 22:21:47	Nicole	Hesseltine	SMSD family	Overland Park	Please do everything in your power to make the start of school safe for all. If the "one safe place" for many children becomes a place of starts/stops/restarts and a major source of community spread of COVID, I fear major mental harm will be done to our kids. We are ALL missing what school used to provide—safe socialization, developmentally appropriate learning, and community. Please wait until our state can provide those things in a safe way before opening our schools to in-person learning.
7/20/2020 22:21:48	Jana	Collins		Overland Park	Please delay the opening of school until after Labor Day like the governor recommends for the safety of the school staff and the children.
7/20/2020 22:21:59	Samantha	Turk		Marion	I think school should be online again for the year but if not then for sure until after labor day.

7/20/2020 22:22:01	Meredith	Lenfestey		Overland Park	<p>As a Kansas educator, I am writing to urge you to reaffirm Governor Kelly's executive order on the DELAY - not cancelling - of schools for the 2020-2021 school year.</p> <p>A fundamental aspect of education is to prioritize Maslow's Hierarchy of needs over Bloom's Taxonomy. In other words, our basic human needs - physiological &amp; those of safety - must be met before any critical thinking or learning can occur. Teachers learn this fundamental truth at the very beginning of their own education, and for good reason. The simple truth is that returning to schools in August would be unsafe, and therefore, we would not provide that basic needs foundation for learning to even be supported.</p> <p>The current infection rate &amp; lack of supplies (sanitizer, disinfectants, masks, etc.) that schools MUST have in their possession to mitigate risk are proof that more time is needed to adequately and safely open our doors. The additional time this order would afford also gives educators the ability to better assess potential learning gaps &amp; adjustments that must be made to our instruction, in addition to identifying and preemptively solving logistical safety concerns (transitions, transportation, distancing practices in classrooms, etc.).</p> <p>As an educator, I want so badly to return to my passion - I miss my students every day - but I am not willing to sacrifice their, their families', or my own's health over the matter, nor should any other educator or parent face that decision. Your reaffirmation would ensure educators across our great state could eventually get back in the classroom, doing what they love, while lowering the risks that could come in doing so.</p> <p>Please choose the right option - the most logical option - and vote to reaffirm and support Governor Kelly's plan to delay the start of our school year. Kansas lives depend on it.</p>
7/20/2020 22:22:04	Laura	Nordgren		Topeka	Please give local school districts the option to make their own decisions and rules that are tailored to their individual district and community needs. Kansas is so diverse that what is needed in KCK is drastically different than what is needed in Abilene.
7/20/2020 22:22:08	Elizabeth	Hiersche	Myself	Olathe	Do NOT delay schools! I am a teacher in Missouri school district. Please do elearning until labor day so that schools can prepare to get what they need to do for inperson with the exception of special needs children that can not do elearning. Use those three weeks to get those students the time to acclimate to all the adjustments to teach them the life skills during these times and have them do in person. Those students did NOT get any support since march when schools were closed! They need the support. The numbers are low in their classrooms. Example the autism classrooms as 8 or less in each classroom.
7/20/2020 22:22:13	Caroline	Dawson		Mission, KS	Please support the Governor's order to delay school opening.
7/20/2020 22:22:16	Alicia	Haupt	Prairie View High School	LaCygne	Please think about our kids education and open schools as soon as possible.
7/20/2020 22:22:17	Amy	Norton	USD 494	Syracuse	As a teacher and coach at USD 494, I would like to see school open on time. We live in western Kansas where there are few cases in our county and the surrounding counties. Please consider small towns/schools when making your vote. Our students need to be in a structured/organized environment. 70% of our students are on free/reduced lunches and come from low socioeconomic backgrounds. The school provides more to them than just school. I also believe in the need for activities to return, using all safety precautions that we can. Students also need activities/athletics. During this time, our students mental health has raised many concerns. Activities/athletics/school helps to combat and provide an outlet/release for students with low confidence/concerns for mental health. Please consider these things moving forward in your decision.
7/20/2020 22:22:18	Lydia	Vasquez	Teacher	Lenexa	I support the governors order
7/20/2020 22:22:23	Elaina	Johnson		Sedgwick county	I do not believe we should delay school. This is more damaging to our kids and their education. Delaying is just prolonging the inevitable.

					<p>I think it is time that the governor quit acting like a dictator and let the people of Kansas make up their minds on what they want. Whether it be not allowing school to start on time, mandating masks in school, or whatever bird-brained idea this incompetent governor may come up with, Laura Kelly is not a licensed medical doctor, and neither is the Board of Education. Therefore, I feel the decision for kids to start school and whether they wear a mask while in school, should be left up to their parents and/or their personal physicians. There should not be a one size fits all plan, because some areas aren't affected like others.</p> <p>It is also not the Board of Education nor Governor Kelly's job to hand out medical advice and/or mandates to the people of Kansas, unless they wish to be held liable for lawsuits for medical malpractice when there starts to be other health problems in these children from wearing masks and/or mental issues due to the trauma of being socially isolated from their friends.</p> <p>Get these poor kids back in school, back to their friends, and stop this ridiculous madness! If we are going to delay school even longer, maybe teachers should be placed on unemployment like the rest of us were, and the state should return the tax money they have stolen from the Kansas tax payers under the guise of educating our children. When our children are not getting the education we all are paying for, the teachers and educators contractual agreements are null and void. If they are therefore null and void, any and all tax money paid in the guise of educating our children should be refunded immediately!</p>
7/20/2020 22:22:29	Nathan	Houser	I am a parent of a child	Plainville, Kansas	
7/20/2020 22:22:33	Tonya	Greenleaf		Wilmore	It should be a local decision. We live in a county with 6 total cases in 3 months.
7/20/2020 22:22:38	Melissa	DeWitt	USD 323 Rock Creek	Saint George	I am a middle school teacher and a parent to two elementary kids. I want nothing more than to return to normal but the reality is that "normal" doesn't exist anymore. We are grieving the loss of normal as a nation but we can do better and take care of each other by SAFELY and WISELY getting back to school. Kansas is in the height of the pandemic outbreak and our district and staff need much more training to purposefully implement the changes in daily business and curriculum presented in the Navigating Change document. We owe it to our kids, our selves, and to fellow Kansans to do the right thing and at least wait until after Labor Day to officially begin school.
7/20/2020 22:22:40	Katie	Cox	Turner	Roeland Park	Teachers care about our students. Teachers want to be with our students. It's why we became teachers. What we put above all though is the care and safety of our students. We cannot fully keep our students safe if we are back in schools too soon without adequate time to plan. Please listen to governor Kelly. Please keep our students safe.
7/20/2020 22:22:45	Lisa	Hittle		Wichita	Agree with no school until after Labor Day. Also need to do part virtual, part in person.
7/20/2020 22:22:45	Aunita	Combs	n/a	Wichita	" At All Cost -- Our children MUST be kept safe ". They are counting on us to do that. The Cost of Covid -is too numerous to mention, kids need a complete package during this time of their lives to propel them forward in life ( we all know this ). However -- This will past and we will have the chance to be creative and generate a fast past learning strategy for our future Americans. It's a hard decision to make -- it WILL effect The Whole Community --- not just the kids. I have nothing to offer but this truth that we will get past this -- Only GOD knows when -- but keep the kids safe.
7/20/2020 22:22:50	Amber	Martinez		Olathe	Don't pass. Kids need to start school ASAP.
7/20/2020 22:22:51	Judy	Gray	Children	Overland Park	Our children need to be in school for the whole school year. Each child needs to experience the benefits of a quality education, along with the social relationships of their peers. It is time to allow parents to decide on their child's education not the state. Stop making decisions that are not yours to make.
7/20/2020 22:22:52	Leah	Wiehl		Smith Center	I am a rural physician in one of the counties least affected by coronavirus. Despite this, cases are on the rise all around us. In a neighboring county's nursing home, they have had an outbreak leading to 6 deaths so far. Our community consists of a lot of elderly people. We cannot take the risk of opening schools at this time. This is not a time to take a chance. We need to be proactive not reactive. I have no doubt our local officials would allow schools to open if given the chance, and I really think we need to try to slow down this virus which we are failing at doing at this time. Keep schools closed for now. Reevaluate as time goes on. The kids will catch up. We need to stop this pandemic. Listen to the scientists, public health officials, and those in healthcare. Please. I am sacrificing my own health and the health of my unborn child to work through this.

7/20/2020 22:22:53	Brooklyn	Chesney		Gorham	<p>Please let the kids back!!!! They need it. I have 4 step kids and 1 biological in school. On top of both parents trying to work. I cannot adequately teach these children like they need. They need the teachers. They need a decent education. If I can still work and other kids can go to daycare why can't school age kids go??? It has nothing to do with convenience and everything to do with what my kids deserve. Please don't keep them out</p> <p>As an elementary school teacher, I am eager to return to my classroom, but not at the risk of the health and the lives of my students, coworkers, or their families. While I think that there are precautions that can be put in place to make school in person a possibility, these things take time and careful planning to properly prepare and implement.</p> <p>My school originally was supposed to start one month from today. With guidance only just recently having come from the state and the status of the virus always changing, teachers have been given very little information and opportunities to plan. A delay would not only give the opportunity to hopefully see positives cases across the state go down, but it would give teachers and administrators time to get supplies needed to mitigate the risk of spread of the disease. It would give us time to train staff to do remote learning more effectively as it is very likely that we will have to shut schools down again. At the very least we will have families that opt for online learning or students or faculty who have to quarantine at some point in time. We need to be prepared to do remote learning well when it will be necessary.</p> <p>There are so many logistics involved in an ordinary school day. Teachers carefully plan out procedures for every single thing that students do during the day. We are having to take in all new guidelines and we will have to be ready to rework all of our classroom procedures to align with those guidelines. Then we have to work out how to best teach and practice all of those new procedures with our students. With everything being very new and different for both students and staff, more time to make these plans carefully and implement them well will only help teachers to do their job the best they can. Teachers feeling confident with well prepared plans going into the school year - for remote learning, for social distancing, for all new procedures - is what is going to be best for our students.</p> <p>Students are going to need extra reassurance and support as they return to a school that looks very different from the one they left in the spring. So why not give schools some extra time to be extra prepared to provide that extra support.</p> <p>Anyone who believes that rushing back into school because we need a return to normal is kidding themselves. Anyone who knows anything about a normal day in an elementary school knows that normal will not be safe. The new normal that is necessary for the health and safety of our students and staff will not be anything like the school we are used to. I love my school family and being in the school building with them. I want that. But I love and care about all of these</p>
7/20/2020 22:22:52	Paige	Blankenship		Dodge City	<p>I work for USD 229. I am not comfortable at all returning to school until cases are declining - ideally, no new cases for two weeks, per CDC reopening guidelines that were released in April. Grateful for this order to allow time to get closer to that.</p>
7/20/2020 22:22:56	Mikayla	Dreyer		Kansas City MO	<p>Please delay for safety of students and faculty. Also for all of the families. Colby is just now seeing COVID cases and the town unfortunately is doing risky things: prom, graduation, the fair, demo derby, rodeo is coming up.. people are having huge BBQ's and golf tournaments. Recently several businesses have had to close: Caseys, McDonalds, Starbucks, and a few Hospital employees have been positive. We live in a rural area with little healthcare if we were to have serious cases. It isn't fair to the ones who unfortunately have weakened immune systems like 2/3 of my children. I also feel an online option should be available. Please do not make light of this situation. Delaying frivolous teacher in services, field trips, sporting events would maybe even out days in the end. It will give teachers a chance to plan for safety of our community as a whole, for example being able to try to social distance, change activities for younger kids so they aren't always touching each other. I've seen more parents from here complain because sports need to go on. This should be based on education only not sports because sports are not required and not all kids attend.</p>
7/20/2020 22:23:01	Catherine	Rohr	Parent	Colby	
7/20/2020 22:23:02	Lyn	Boone	USD 369	Hutchinson	Keep teachers, staff, and students safe. Support the delay and give us time to prepare properly.
7/20/2020 22:23:07	Matthew	Croft		Olathe	I support the governors order. We, as a state, need to get the virus under control. Many federal employees are still working from home-- I don't see how we can send students and staff when it's not safe for Government employees. I don't see how having 2300 people in a building is safe. I realize it's inconvenient for many parents, but all it takes is for one student or teacher to end up on ventilator. It's just not worth it. Thanks for your time.

7/20/2020 22:23:21	Kristen	Knight	School	St. John	Please wait until after Labor Day! We need time to collect all the resources necessary to ensure the safety and health of our students and staff. We need time to prepare for remote, virtual, hybrid and in person teaching. We love and miss our students terribly, but we are not willing to risk their lives or our own. Especially if we can take steps now to prevent anything terrible.
7/20/2020 22:23:28	Pam	Patterson	None	St. John	Can grade school kids wear face shields. I think they are just as affective as a mask. Kids would get along better with a shield. It covers from ear to ear and to their neck.
7/20/2020 22:23:31	Kenya	Hageman		In Wichita	I think we need to do everything possible to keep our children safe. I think a hybrid school is the way to go.
7/20/2020 22:23:36	Melanie	Newberry		Cimarron	Students need to return to school
7/20/2020 22:23:37	Courtney	Gooch	Parent	Tribune	Student being required to wear masks during school hours is ludicrous! I'm all for wearing masks when out and about in businesses but masks in school will not create a productive learning environment. Also please keep in mind that rural Ks schools may not need the same requirements as larger schools. We only have 10-25 students per GRADE. Please let this be a county by county basis if anything. My fear of delaying school beyond Labor Day is that it will only continue to be delayed. The very little social life my 7 year old has right now is starting to affect him emotionally. I'm afraid no school for him will be much more damaging than any covid virus ever would be. Please let our kids get back to some normalcy! I'm fully aware that an extended break may need to take place at some point but I'd rather do that than keep these kids from getting back to school now. Thanks for your time!
7/20/2020 22:23:41	John	Sitzman		Olathe	Delay opening schools until COVID cases see a sustained daily drop over a 3 week period.
7/20/2020 22:23:47	Garren	Hutchison	Andover Community	Andover	Let's get these kids back to school. You are in for far worse problems if you don't. You will be dealing with children growing up with mental illness issues at a rate that will create literal hell on earth. A few sick with a virus kids is not worth losing a generation.
7/20/2020 22:23:51	Alison	Lecuyer		Downs	Please support this order. The time schools could have to be fully prepared is invaluable.
7/20/2020 22:23:54	Nola	Miller	Teacher	Dwight	Please approved Governor Kelly's order. This will allow for teachers, admin and others to get a solid plan ready to start school. I am starting at a new school this year and do I ever want to be with kids in the classroom. This extra time will allow things to take place for use to be able to get the kids back in the classroom and stay in the classroom. Thanks for your support of educators in Kansas!
7/20/2020 22:23:56	Amy	Speer	USD 468	Dighton	Please support Governor Kelly's Executive order to delay school until after Labor Day. Even as a 30 year experienced teacher, I feel the extra time will allow the opportunity for teachers, administrators and staff to adequately prepare and provide the best possible education and environment for our students in these unprecedented times and hopefully by that time the overall number of COVID cases will be decreasing and the risk to going back to in person teaching will not be as great. Thank you for your consideration in this matter.
7/20/2020 22:23:59	Luke	Chaffee	USD 437	Topeka	I'm a teacher and a parent. Please do not support the governor's executive order to delay the start of schools. That decision should be left in the hands of individual counties and school districts.
7/20/2020 22:24:03	Erin	Johnston		Altamont	Please uphold the executive order to give teachers and schools the opportunity to prepare the physical space according to brand new guidelines
7/20/2020 22:24:07	Erin	Perez	USD 231	Gardner	Vote to start in person school after Labor Day without a mask
7/20/2020 22:24:10	Nicole	Vaughn	Mother	Topeka	If the time is needed to make it safer for my child to resume school then I am on board with the delay.
7/20/2020 22:24:23	Megan	McCrary	USD 458 as a parent	Basehor	I would like to encourage you to vote in favor of delaying the start of school until after Labor Day. I feel it will give our district time to better prepare to keep the students and staff as safe as possible.
7/20/2020 22:24:24	Shannon	Rebolledo	KMC Parent	Wichita	Please support the EO—delay the start of school and require masks and social distancing.

					<p>It is my understanding that you are meeting virtually to discuss the impact of COVID 19 on our educational system. I know this is not a simple issue, and I have discussed this with many parents of school age children, and most parents believe their children learn and retain material better on site.</p> <p>I have served as a School Nurse in the State of Kansas for 20 years and I served as Health Care Coordinator for the district. I know this is an overwhelming situation.</p> <p>My concern is proper preparation of the classrooms to provide safe environments for learning. Masks are only one aspect of safety. Distancing, frequent air exchange with fresh air during the day, and air cleansing apparatus in each class rooms as well as frequent disinfectant cleansing are as important in my professional opinion.</p> <p>Let us consider our teachers who return home to their families every single day and their safety. Some of our teachers are at extremely high risk of COVID 19. What precautions are being taken to minimize their risk and promote their safety? Let us consider the significant others in their lives and in our community.</p> <p>If you decide to return our students to their classrooms, let us ensure that proper conditions are created and maintained for everyone in our public school buildings. We should monitor air quality within our schools. We should monitor the health of everyone entering our buildings, with or without students, and periodically during the day to ensure the safety of all within our buildings.</p> <p>Please ONLY consider the educational, social, emotional, and physical well beings of our students, faculty, and staff within the educational system. They are at your mercy. Please be responsible.</p>
7/20/2020 22:24:30	Debra Boyert	DeSeure		Basehor	
7/20/2020 22:24:34	Susan	Blake	Seniors at Home	Wichita	Why not wait until 15 days after Labor Day, two weeks for safety with a Covid19 quarantine.
7/20/2020 22:24:36	Krysten	Hearron		Overland Park	<p>As a Senior in high school I have already missed a very influential portion of my junior year which meant losing a lot of guidance for beginning a new step into college. Losing the last quarter of my junior year was something that I will not be able to get back, and not starting off my senior year on time will only lead to more stress for my class. Delaying school means extending it farther into our summer, which is the time we will be using to prepare for our arrival to our next step in life whatever that may mean. As someone who suffers from chronic asthma and other pulmonary issues, I cannot find a justifiable reason to continue with this order. If you must send us with masks that we will do it. But considering this disease is droplet spread and not airborne, if we have masks as previously ordered there would be even more lack of reason to send us to school. Just like every other disease to plague the US in current times it will most likely be around for a long time coming, and holding us back from social interaction at this point in time would be more for a political show than for the so called safety of the people being affected.</p>
7/20/2020 22:24:52	Leah	Gerber		Colby	I would like schools to open normally without any delay.
7/20/2020 22:24:52	Rebecca	Alderman	Parent USD290	Ottawa	<p>Postponing opening until AT LEAST after Labor Day allows more data to be collected regarding the trend in cases and the safety of congregate settings. Additionally it provides teachers and administrators more time to properly prepare for school without overlooking details in haste or making sacrifices that put not only our children's lives at risk but also every teacher, custodian, administrator, and staff person at risk. Listen to the scientists and epidemiologists and follow their advice. Please don't make our children a pawn in a political game of chicken.</p>
7/20/2020 22:24:55	Greg	Newberry		Cimarron	Return to school with no masks

					It is a severe disadvantage to students to delay the start of school. If safety measures are in place, and work as the CDC says they do, I see no reason to delay the start of the school year. I understand giving districts time to plan and make sure they have enough resources (masks, cleansers, hand sanitizers, etc.), but I'm sure most districts have been planning to some degree since March. I am concerned about the widening gap in academics, mental health, lack of physical activity for students, and the lack of structure and routine that help students thrive. I'm also concerned about executive orders like this because they don't consider the data, current cases, needs, etc. of my small town and take away local decision making and control. I know that some parts of the state have significantly higher positive cases right now and the governor is basing her orders on total numbers and not taking into consideration the extreme differences in various parts of the state. In Hill City, we have had 9 positive cases, 7 of which have recovered. Delaying school for 2 currently positive cases seems a little extreme. Of course, if things were to worsen in Hill City, I would trust my local health department to make safe decisions for our county and schools. Please consider voting no against this executive order and leaving control up to individual counties and school districts. I know it's a terrible position to be in and I appreciate all that you do. Thank you.
7/20/2020 22:24:58	Rebecca	Richmeier	Parent and Teacher	Hill City	
7/20/2020 22:25:06	Mary	Carr	Parent of 2 and teacher	Shawnee, KS	Online school, for the health of our students and staff.
7/20/2020 22:25:14	Kimberle	Curtis	None	Salina	Please keep schools closed until August. I am not comfortable with sending my child back to school with 1400 other kids.
7/20/2020 22:25:15	Linda	Tillitson	USD 303	Ransom	We need to follow the orders that are put in place by the governor
7/20/2020 22:25:15	Hailey	Quinn		Mission	Please pass this order. It is what is best to ensure safety for our students and children.
7/20/2020 22:25:15	Melanie	Curtis		Emporia	I am a mother of two and fully support this mandate.
7/20/2020 22:25:15	Kristi	Wibson	Parent Pratt USD 382	Peatt	Do not delay!!! Children need to be in school with all scheduled sports and extracurricular activities!
7/20/2020 22:25:16	Michael	Allen	Teacher	Olathe	I for one appreciate the extra time to prepare. Teaching in a large urban district the logistics to ramp up for whatever this may be are huge. At this point I still have no idea how I will be teaching. I would appreciate the time to really be ready for my students. I also have a lot of students living in multigenerational homes. Their safety is paramount and is way more important than my time. Keep them safe give us the time to prep.
7/20/2020 22:25:20	Melissa	Weber	Mill valley	Shawnee	It might be beneficial in order to provide the school's time to organize and get all the resources needed when school reopens.
					My family of 9 had Covid 19 from December - March. Before America took action against protecting it's people. Our 3 youngest suffer from severe asthma. We had 4 ER visits in the middle of the night, due to O2 stats being at 80%, their peak flow meter was on the red for weeks on end. After oral steroids, nebulizer treatments every 4 hours, on top of 104 degree fevers, that didn't break for weeks. I work from home, and I'm fortunate enough to be able to keep my kids home when they're sick. Each of them missed 12-17 days of school each, before governor Kelly decided to close down schools. To say I'm TERRIFIED to send our children back to school, is an understatement. I will not be entertaining the idea of in school, until Kansas flattens the curve for at least a month. I know this situation isn't an option for other parents who have to work full time, to provide for their families. I don't no if there is a correct answer to protect our children AND teachers. If we send everyone back before there's no new cases for multiple days, weeks, or months, we'll be right back to our "house arrest". Our family appreciates every one of the teachers, admin, and BOE who will hopefully make the best decision in protecting the health of our kids, and faculty come this fall. Thank you for your time.
7/20/2020 22:25:20	Brianna	Lathrom	USD 348	Baldwin City	An exhausted mom that "kicked Covid's butt, but still feels the after effects, everyday".
7/20/2020 22:25:39	Juan	Rebolledo	Parent if high schoolers,	Wichita	Please support the order yo delay school.
7/20/2020 22:25:40	Rachel	Stone	Olathe USD 233	Olathe	I am a 4th grade teacher in Olathe USD 233 and I urge you to please support Governor Kelly's order. Please allow us to have time to prepare to open our schools as safely as possible and to allow cases to go down before we do so.
7/20/2020 22:25:45	Bailey	Mueting	USD 333	Concordia	I feel school needs to get started up before cold and flu season starts. Our kids need a education after being out for 5 months! 1 month is not going to make a difference on Covid numbers. As long as people are out and about numbers will rise.

7/20/2020 22:25:48	Annette	Viner		LaCygne	I support the delay in reopening to after Labor Day. I am a teacher 4 years from retirement but can't afford to do so yet. I also have several health concerns that put me in the higher risk category and a spouse who is at high risk. I love my students and I want to work but I also want to feel safe. I am a fine arts teacher and I contact 95% of my elementary school's student body over a 2 day period. The only students I do not contact in my buildings are the preK students. Please vote to NOT reopen until after Labor Day. Thank you.
7/20/2020 22:25:49	Amy	Moore		Prairie Village	Delaying school only a few weeks allows teachers and administrators to better prepare to have kids back in school and hopefully allow time for Kansas to reduce case numbers
7/20/2020 22:25:51	Brett	Clark	Self-Parent	St. George	Reject the Governor's EO and let districts decide what is best for their school district. School districts still have the option to delay school opening. Let them have that choice.
7/20/2020 22:25:53	Erica	Morgan	Teacher and parent	Saline County	I ask that you support in delaying schools. I believe it will give us time to work out some of the issues in the school we will have as well as time for Covid to hopefully flatten a little bit. My son has a heart condition and as much as I want to go back to my students; I can't handle sending him back right now. However, if I have to go back, it doesn't leave me any other options.
7/20/2020 22:25:58	Melissa	Hembrey	Kansas educator & parent	Shawnee, KS	I encourage our school board to vote to uphold Governor Kelly's order to delay school until after Labor Day. This would give teachers much needed time to address their plans for safety as well as time for our Covid numbers to subside. As a public first grade teacher and a parent of two Elementary aged children, I would feel more comfortable in all of us returning to school once our staff has had time to thoroughly come up with a safety plan in line with the KSDE guidelines. Thank you for letting the current data drive your decision, like all decisions in education are meant to be data driven.  Melissa Hembrey
7/20/2020 22:26:00	Crystal	Cummins		Isabel KS	At no time is it OK for the government (at any level: federal, state or local) to step in and decide what is the best medical treatment for people. People have an individual right to decide what medical treatment they will get. Forcing people to wear a mask for medical purposes is doing just that; it is prescribing a treatment and then forcing said treatment on a patient. The government needs to step back and stop over stepping their role. It is an individuals right to to choose how to protect their health and the health of their family. Stop forcing medical treatment on individuals because each person has a unique set of circumstances that the government has no way of knowing about. We care far more about our children than you ever could and want what is the best for them. What is best for our children might not look the same between every family and that's ok because that is what works for them. Stop over stepping and let us parent our children the way we as parents see fit. Benjamin Franklin once said: "Those who would give up essential Liberty, to purchase a little temporary Safety, deserve neither Liberty nor Safety." I will not stand by silently as you try to strip Kansans of our God given Liberty to parent our children.
7/20/2020 22:26:02	Allison	Polifka		QUINTER	Coming from a small town with no active cases, I would hate to see a one-size fits all approach. We fear that September 9 could be the start of serious cases for us. We would love to start school in August to help students acclimate to their new teachers, classes, and online learning platform. Then, if it hits our small town in September, we can easily transition online.
7/20/2020 22:26:06	Amanda	Miner	USD 457	Garden City	I think it would be a fine idea to wait and start school after Labor Day, BUT we need to still end school before Memorial Day. The amount of student/teacher contact time needs to be adjusted to meet ALL of our needs. It is not fair to start school late and then end later as well. That would be a punishment to teachers and students. Also, we need to give teachers extra work days at the beginning of this school year to get supplies organized and prepared for students (no matter what the start date is). In my district we only get 1 work day before we start school with kids, this is hardly enough time to start a "normal" year, let alone all the precautions and mandates and recommendations we are going to have to put into place this year. We need more time to prepare this year, not just with in-services and professional development, but to work in our rooms! I will be ok with any decision, but whether we start in August or after Labor Day, we still need an extra day or two of in class prep time.

7/20/2020 22:26:09	Natalie	Limoges	Prince of Peace Catholic	Lenexa	I'm an educator and am in full support of Governor Kelly's Executive Order #20-58 and #20-59. Yes, a new school year is just around the corner. Yes, students want to socialize and hang out with their friends again. Yes, teachers want to teach from their classrooms instead of their living rooms. Yes, everyone is tired of Covid-19 and wants normalcy again. But NO to an August start date! For EVERYONE'S safety, health, and well-being, the start date to the 2020 school year MUST BE DELAYED until Kansas sees its number of positive cases decline over a period of at least two weeks. We must be absolutely sure we are moving in the right direction before we even begin to consider bringing students and faculty together in large numbers under the same roof. If not, THIS will become our new normal. I urge the Kansas Board of Education to approve Governor Kelly's order. Our lives matter!
7/20/2020 22:26:13	Kala	Davis		Plainville	Let Counties decide
7/20/2020 22:26:18	Dottie	Sheets		Saint John	I want what best for my children, whatever that maybe. Please put the kids safety first. That's all I ask.
7/20/2020 22:26:26	Emily	Desir	Speech language patholog	Olathe	The delay in the start to school is gravely important in setting up schools and staff for a safe return to face to face learning. Please vote in support of Gov. Kelly's executive order! The safety of our students and schools staff should be of the utmost importance!
7/20/2020 22:26:28	Meghan	Rice	Usd 500	Kansas City, ks	Moving the school year back would definitely allow the state to recover from Covid much better.
7/20/2020 22:26:39	Robert	Massa	teachers	Girard	Follow Gov. Kelly's order for the safety of ALL Kansans. Make no doubt there WILL be outbreaks once schools start.
7/20/2020 22:26:47	Kinda	Williams	Teacher and parent	Paola	Schools need to be open with all activities up and running in August, the mental and emotional well being of Kansas students is in serious jeopardy and far outweighs a virus that is 99.9% survivable!!
7/20/2020 22:26:52	Rhonda	Hill	Self	Kansas City, Ks	Please delay opening of schools for the fall. Our kids lives cannot be replaced, their learning can be!
7/20/2020 22:26:55	Michael	Rhuems	My family	In Kansas hell like the re	No delay and no masks! Fools think the masks work.
7/20/2020 22:26:57	Erin	Deenihan		Hays, KS	As a teacher, I appreciate the idea of a late start so that we can use the time to adapt to the released plan for reopening. I have been anxious about the idea of starting school. Surprisingly it was less about the number of COVID-19 cases increasing and more about how I was going to plan for something where I didn't know the ground rules until the last minute. I am pushing for the late start so that educators and all stakeholders have time to make informed decisions on what is best for the community. Yes, local planning should have a major role in reopening, but time is something you have the ability to help us with. Additionally, the idea of masking has been made political. I personally wear a mask to help protect the ones around me. It is my hope that students will do the same, but without a mandate I am not feeling reassured. You have the power to make educators feel valued and safe. I hope that you make the right decision. Thank you for your consideration.
7/20/2020 22:27:01	Braedon	Morrison	Olathe Public Schools	Lawrence	I am an elementary PE teacher in the Olathe USD 233 district. I am strongly against the reopening of in person schools and I fully support delaying opening until after Labor Day. This will allow teachers necessary planning time to prepare for the school year given we are not back on contract until August 7th. I would love to have in person school, but it is nowhere near safe enough right now for me to be willing to risk my health and safety as well as the health and safety of my family members. To me this is a common sense decision based on the science, the data, and the facts.
7/20/2020 22:27:12	Josh	Gooch	Greeley County HS	Tribune	Leave it up to the county or district. Everyone is ready for online or in person or both.
7/20/2020 22:27:13	Regina	Berns		Abilene, KS	As a teacher, of course I'm ready to get back to school with my kids, but I feel like waiting until September will give us more time to come up with a good plan to keep us all safe. There are so many new guidelines to consider and plans that need to be made so we are prepared to make this an awesome school year for our students. I feel like this will be better achieved with more time instead of throwing us all into an unfinished plan. Our cases are also rising, so it will give us time to evaluate the situation and hopefully see a downward slide before sending our precious kids off to school. Thank you for your time and consideration.
7/20/2020 22:27:14	Jennifer	Hopkins		tribune	please give power to local counties and districts to decide best path for their area based on current cases
7/20/2020 22:27:16	Venkat	Vallurupalli		Overland Park	That was a great decision by our beloved Kansas Governor Laura Kelly during these times.
7/20/2020 22:27:22	Ariel	Stoppkotte	USD 457	Holcomb	Please agree to follow the executive order
7/20/2020 22:27:22	Melissa	Hittle	Parent	Pratt	School needs to start on time and with no face masks! Covid has a 98% survival rate! Why is this still an issue?
7/20/2020 22:27:29	Cristina	Hardin		Olathe	start with online classes for the first semester and keep the regular start date

7/20/2020 22:27:34	Laurie	Rose	USD 259	Wichita	We need to wait to open schools not only to keep our kids safe but staff members. I work in a school and I have health issues. I can't wear a mask very long as I get light headed and I have respiratory problems, but I will have to when we start back. We have kids in our school that will not follow social distancing rules and mask rules. We have behavior problems and kids will spit on other kids and teachers, smear poop on walls and touch others.
7/20/2020 22:27:36	Amanda	Fehr	Maranatha Christian Ac	Shawnee	Since Maranatha is a private school and is funded by the parents it is difficult to abide by the executive order. If we can already put masks in place, temperature checks, and require distance where we can, I think we should get able to open on time. Fees could be given for those that do not abide the state requirements. I feel private schools should be individually evaluated or approved for opening on time.
7/20/2020 22:27:37	Laura	Howard	Prairie View High School	Louisburg	We SHOULD delay school until after Labor Day. This will give other schools across the country roughly 16 days of in-person teaching and (including weekends) will allow for 2 full COVID-19 cycles. If there are no spikes in cases, then we can move forward confidently and avoid the pitfalls that other schools faced. If there are spikes in cases, then we can adjust accordingly and continue to keep our students and teachers safe.  The board should vote in favor because the schools need to be protected. Many schools are being pressured by parents to open and are trying to justify in-person teaching despite the risks. If delaying and observing other schools happens, then they will have the data they need to make the best decisions.
7/20/2020 22:27:40	Kim	Epley	Wichita Public Schools	Andover	We should do remote learning until COVID cases are greatly reduced and it's safe for students, staff and families.
7/20/2020 22:27:43	Angela	Kuta	Catholic Schools	Topeka	One size does not fit all districts. The Archdiocese Of Kansas City has been working for months putting together an extremely detailed plan to get our children back in the classroom. School districts should be able to decide what time frame works best for them to start classes. Our children are falling behind and it is time to get them back to school for education, socialization and stability. We need to move past the fear of this virus and look at what is important for our children's development. Districts that have plans, equipment and processes ready should be able to start school according to their school calendar. One size does not fit all.
7/20/2020 22:27:45	Seanna	Viggers	Ascension catholic scho	Overland Park	Please delay school or have KS go virtual for the Fall. Too many unknowns and dangers
7/20/2020 22:27:46	Melissa	Huckabey	Students	Olathe	Please don't let our kids continue to sacrifice. Please open our schools on time. I have faith in our district and teachers that they will and have been acting responsibly to ensure everyone's safety in the classroom. For those that are still unsure, please give them the option to learn online rather than making the entire student body continue to wait. For their health and safety, please consider starting school as scheduled. Thank you for your consideration!
7/20/2020 22:27:48	Megan	Rives		Overland Park	I vote to uphold the decision to wait until after Labor Day to open schools.
7/20/2020 22:27:49	Sarah	Nickel		Olathe	Open after Labor Day. Give this a chance to get under control, for people to settle down their summer travel and gatherings. Give teachers more time to prepare. I hope that there are hybrid options available for hotspot areas. Thank you for all the work you are doing. Please make sure this is safe for our teachers and staff as well.
7/20/2020 22:27:55	Amber	Hennessey		Ottawa	Yes keep them closed until after Labor Day at the least. Let the schools have more time to formulate safe plans for all involved.
7/20/2020 22:27:56	Angie	Neill	I am a parent of 2 school	Effingham	I think delaying the start of school is a great idea so districts have a little more time to prepare for students. I hope every school in Kansas will offer parents the OPTION of in-person, online, or a hybrid of both so parents can choose what they feel most comfortable with.
7/20/2020 22:27:56	Michele	Pennington		Dodge City	I would prefer that school starts after Labor Day. It gives the districts more time to prepare & give more guidance to the schools. There are so many unknowns about the virus & at this point I really don't know who or what to believe. I only wish the flu season was taken this serious.
7/20/2020 22:27:57	Jason	Reece	Christ Prep Academy	Overland Park	This is simply a decision made void of the facts! Please look at actual statistics - an increase in positives does NOT mean we need to escalate the fear for political gain - the death rate continues to decline and 6 months from now the facts will continue to prove this is simply a different flu bug that politics has blown WAY out of proportion. You are only protecting yourself while ruining the lives of families with this blatant gross over reach. End the nonsense and open the schools!
7/20/2020 22:28:01	Julie	Lumpkin	Blue Valley School Dist	Overland Park	Please support the delay. We need the numbers to be decreasing
7/20/2020 22:28:02	Susan	Blake	Seniors at Home	Wichita	Why not wait until 15 days after Labor Day, two weeks for safety with a Covid19 quarantine.
7/20/2020 22:28:03	J	J		Approve	Please let schools open up after Labor Day, for our safety

7/20/2020 22:28:07	Donna	Sibaa		Wichita	<p>We appreciate your service to the people and especially the students of Kansas. I do not believe it is in the best interests of students to delay opening and I am in favor of increased protocol and protections in place for the safety of students and teaches I do believe those mandated by the governor may be hard to facilitate.</p> <p>In preparation for the Kansas School Board of Education Vote the mandate to delay school opening.</p> <p>I respectfully request that we work with you to ensure a safe school environment that accomplishes both of the following:</p> <p>Safe School opening following the Board of Education Return to School Plan</p> <p>No delay to student participation in school, athletics, and activities.</p> <p>In response to the Mandate delaying School opening statewide, Please vote the mandate down and allow the individual districts to make their own decisions.</p> <p>This will allow each district to make the decision that is best for its community. The situations vary widely across the state and a one size fits all approach does not make sense.</p> <p>I am one of the over 6,200 people who have signed the #HelpThemPlayKansas petition supporting all #Kansas High School Students who voluntarily choose to engage in 2020 sports and activities this fall without delay. OUTDOOR practices have already been taking place safely and should not be impaired. Club sports have been taking place all summer and will continue throughout the rest of the summer. Kansas students have suffered enough, please don't take another season of sports away from High School players.</p>
7/20/2020 22:28:21	Ruth	Abrahams	Grandparent	Newton	<p>It seems like a very wise move to give our school districts more time to get plans into place for safe schools for our children and staff. Also, did you realize that Kansas now is #1 in per capita transmission of CoVid19 in the nation?</p> <p>This is not a good time to open schools! Please vote yes on this executive order.</p>
7/20/2020 22:28:33	Mary	Pedroza		Shawnee	<p>Please listen to what people are saying and what we need — a later start date.</p>
7/20/2020 22:28:36	Jennifer	Sissell	USD 259	Wichita	<p>Please uphold the governor's executive order in order to allow schools time to prepare for the many scenarios the 20-21 school year will undoubtedly bring. Teachers want to do their jobs, but safely &amp; well, whether face-to-face or via distance learning.</p>
7/20/2020 22:28:48	Amy	Davis	Teachers	Silver Lake	<p>Please delay the start of school until after Labor Day! Teachers need the extra weeks to prepare for all the safety measures we need to put in place! WE ARE NOT READY TO DO THIS!!</p>
7/20/2020 22:28:56	Kim	Walters		Overland Park	<p>Please I beg you all NOT to delay the start of the school year. My 13 year old who is hard of hearing and has a IEP is falling further down the rabbit hole. He needs and wants to be back in school. To listen to a kid who hates to wear a mask say "mom I promise I will wear a mask and do everything they say if they'll let me go back" just breaks my heart. He had a extremely hard time with the online learning to where he regressed back to behaviors we worked so hard to correct. He deserves to be back in school, he needs the structure, the socialization, and most of all the education from a professional. I know you all are faced with this difficult decision but you all voted on guidelines for the schools to open in the safest possible way. So let the schools open and get the kids back to school where they belong and where they can start to feel somewhat normal again. If you have parents who want a delay they can always choose online learning, if you have teachers who want a delay, ask yourself why? You have recommended your guidelines for their safety face mask, hand sanitizing just to list a few, if those guidelines can protect healthcare workers, Walmart, Lowe's, and all those other essential employees it should work for teachers. I feel like if you delay the opening of school now then it's going to continue and once again be a complete mess and the kids will once again be the ones suffering.</p>
7/20/2020 22:28:57	Deanna	Kolle	School	Linn	<p>Please delay the start of school. This way we have adequate time to implement the guidelines set before us by the Kansas dept of Education</p>
7/20/2020 22:29:02	Deb	Travers	Self	Garden City	<p>Please honor Gov.Kelly's orders and delay school reopening until Sept 9th. Not only are Covid numbers rising, in Kansas, but staff need time to organize and implement the mandates to keep students and staff safe. Please listen to science and keep us safe.</p>
7/20/2020 22:29:04	Maranda	Matlack	USD 369	Burrton	<p>Please make the safest decision for BOTH students and staff. Delaying school maybe the safest way to start school. Don't let this be a politics decision only what's the SAFEST!</p>
7/20/2020 22:29:17	Doug	Piper		WAVERLY	<p>Please follow Governor Kelly's order and open Schools on Sept. 8. Governor Kelly has done a great job and has the best interest of the citizens of Kansas at heart!</p>

7/20/2020 22:29:19	Gloria	Rains	Grandparents for Comm	Newton	Please don't allow Dictator Kelly to subject our children to wearing masks all day. How many medical professionals will it take to convince you that masks are not healthy? Your decision will determine how many parents will send their children to private schools as well as home school.
7/20/2020 22:29:22	Heather	Johnson		Wichita	Children need to get back to school. They need to be around their peers. They have been out since March. They are not going to have any social skills if they can't go back and be around friends. I also disagree with the children wearing masks. Especially younger children. Its important that they be able to see facial expressions as they are learning about their own emotions and the emotions of others. Theres also the issue of households with both parents working or single parent households. It will be extremely difficult for them to be able to keep up with online/hybrid plans. If parents have to work all day , their only option will prob add bly be helping their children after work. They with have to cramps a days worth of work into a few hours. Or, a parent may need to leave a job, causing financial trouble for the family. Please override the governor's orders and allow children to go back to school at their normal time and with out masks. Perhaps face shields would be more appropriate for younger kids. These children need to get back to normal life.
7/20/2020 22:29:23	Kyle	Lowe		Lenexa	I am in favor of Gov Kelley's order. Additionally, I believe that schools should be delayed until it is deemed safe by the CDC, not the federal government.
7/20/2020 22:29:31	Amy	Smith		Overland Park	We should not have in person school until 2021. I don't like saying this but the numbers are spiking and we can't send kids to school.
7/20/2020 22:29:33	Kimberly	Studer		Olathe	I agree with Gov Kelly for pushing school back to make sure proper measures are taken before we go back to in face learning again. Our children our the future and we won't have a future with kids who have long term health issues from this virus. We need to protect the staff and these children. Parents are going to give their children Tylenol before school so they don't have a temperature, we have all seen it happen so taking temperatures at arrival is pointless in that matter. As a parent as well I have done all the proper measures so my children don't get sick so I expect the school district to help protect them while they get an education
7/20/2020 22:29:33	Jeffrey	Stone	My Family	Olathe	I believe delaying the start of school is a necessity and will give families and schools time to prepare. It will also allow families time to consider whether or not they will send students or utilize remote learning or homeschool. Please uphold the governors order!
7/20/2020 22:29:34	Kyle	Kaemmer	Oak Park Carpenter elen	Overland Park	Delaying the school year or especially not letting the kids who's parents want/need their children to go back to school as normal would be detrimental to the children's' futures! For the teachers that don't want to teach they shouldn't get paid. In the private sector (where there's risk of Covid too) where the majority of the parents work, if we don't work which is what happens when we are forced to "play" teacher, we can't make money which is detrimental to the children. Our children's mental health is suffering as well! They need the social interaction! To quote the American Academy of Pediatrics, "Schools are fundamental to child and adolescent development and well-being and provide our children and adolescents with academic instruction, social and emotional skills, safety, reliable nutrition, physical/speech and mental health therapy, and opportunities for physical activity, among other benefits. Beyond supporting the educational development of children and adolescents, schools play a critical role in addressing racial and social inequity. ... With the above principles in mind, the AAP strongly advocates that all policy considerations for the coming school year should start with a goal of having students physically present in school. The importance of in-person learning is well-documented, and there is already evidence of the negative impacts on children because of school closures in the spring of 2020." THEY NEED TO GET BACK "IN" SCHOOL AS SCHEDULED! If they don't parents WILL find other educational routes outside of the public school system! People in the private sector have risks of contracting Covid too! We too have a choice, work and make money or don't work and don't make money! Make it the same for teachers!
7/20/2020 22:29:39	Wendy	Krause		Overland Park	These kids need to be in the school buildings. Fall sports need to happen with safety measures. The risk for school age kids is so low that it does not trump their scholastic needs to be in the classroom with proper in-person teaching and attention. PLEASE do not take another senior class' year from them! My son is finally a senior on his football team, interested in playing college ball like his father. Let him play! Give the scouts an opportunity to see our seniors for recruitment and college opportunities!!!!

7/20/2020 22:29:53	Angela	Epps		Shawnee	Please uphold the governors executive order to delay the start of school. Schools need the TIME to prepare. The communities need TIME to bring the case numbers down by wearing masks. Please support this EO.
7/20/2020 22:29:56	Jamie	Paget		Overland Park	I think Governor Kelly's order to delay school start is appropriate as so many counties and individuals will not comply with the mask order. As the parent of a HS senior who is deeply involved in co-curricular and extra curricular activities it breaks my heart to delay things. But I am also the mom of an immunocompromised child and a husband in a higher risk category. Provide full and extra funding for schools, mandate masks, support a newer, healthy community.
7/20/2020 22:30:09	Amanda	Griffin	KCKPS	KCMO	Delay
7/20/2020 22:30:28	Julis	Angell		Plains	I hope you will support the Governor's Mandate to delay the start of the school year & mask be worn. We currently have a rise in cases going on.
7/20/2020 22:30:50	Sharon	Bonura	My family!	Berryton	I believe this executive order should not go through. Kansas is made of many different counties in many different sizes. There is no way that a one-size-fits-all mandate should be handed down to every school. This does not look like a democracy!
7/20/2020 22:30:57	Melissa	Harris		Tribune	I think it should be up to each school district to decide when they want to open. Each school district should have their own set if guidelines for staff, students, and parents to follow.
7/20/2020 22:31:02	Sabrina	Grienke	USD 434	Carbondale	I would really like to see you approve Governor's order to delay school until after Labor Day. Our school districts are scrambling to figure how open safely with the resources we have and we are down to the last 3 weeks before school is to begin. This is not enough time! As a teacher, I am concerned about going back to school to begin with but really nervous if we don't have the time to prepare. I am not only concerned as a teacher but also as a parent. Please consider agreeing with Governor Kelly because it is what is best for the health of students and staff.
7/20/2020 22:31:12	Maureen	Goetz	Sacred heart	Desoto	Open the schools.
7/20/2020 22:31:12	Jackie	Scott		Weir	Please do not give a one-size-fits-all mandate. A large school in Wichita or Topeka have much different needs of smaller schools and counties prevalence of COVID will fluctuate. Please clarify the confusing rules of when students and staff can return. For example there is no logic in requiring a 14 day quarantine for just being exposed to covid while allowing those who are symptomatic (but don't get tested) to return after 10 days. That doesn't make any sense. And please consider lesser restrictions for exposure without symptoms. At my local hospital when we are exposed, we go through a 14 day symptom check and temperature checks, wear an not mask but can still work!! It seems unreasonable for staff to have to self quarantine for 2 weeks for just an exposure. That could happen multiple times throughout the school year and potentially for no reason.
7/20/2020 22:31:14	Melanie	Kasten-Mauk	KCKPS USD 500	Kansas City	Please approve the executive order to postpone the start of the school year due to Covid-19 safety issues.
7/20/2020 22:31:18	Amy	Jenkins	Parent and teacher in em	Admire	I think the longer we can wait, the better! I'm very worried to send my kids and for me to be exposed to 100 plus kids a day. Virtual school was amazing for our family!!!
7/20/2020 22:31:22	Helen	Woolsey	USD 368	Paola	As a teacher, I NEED school delayed and training provided in order to teach either partially or fully online.
7/20/2020 22:31:29	Lauren	Robinette	USD 500 - Sumner Acad	Kansas City	Please support the delay of school start. I'm two weeks away from the first day of school and have zero information from my district on what to expect this year. We need time to plan. We need time to prepare classrooms. We need time to train on helping our students transition back into school during a pandemic and all the trauma and mental health issues that have come from the last five months. We need time to train on Black Lives Matter issues to be more culturally responsive in our teaching. We need time for Kansans to get COVID numbers back down for a safe physical return to school.
7/20/2020 22:31:31	Iris	Wigley	WPS	Wichita	The delay the start of school idea a good idea.
7/20/2020 22:31:34	Andrew	Kneisler	Blue Valley Southwest	Overland Park	Although I am concerned for anyone to get sick. This virus has proven to be deathly mild and not as significant as other flu-like novel viruses before this one. All Children under 17 are the lowest risk age groups. I say let's open the schools for the mere sake of increase DV in homes is on the continued rise — children are more long-term hurt & damage. Get these kiddos on a schedule and return to patterns that limit DV in homes.  Let's care of our older aged population with more attention and focus restrictions on more "at risk" human age groups.

7/20/2020 22:31:36	Kristal	Werth	Quinter Public Schools	Quinter	Our children desperately need to be back in school! Our school officials should have control over our local schools, we are not in the same situation as schools in large cities!
7/20/2020 22:31:44	Jessica	Baxter	Olathe Northwest High School	Lenexa	I support delaying the start of the 20-21 school year. I feel more time is needed to ensure the health and safety of students and facility.
7/20/2020 22:31:44	Samantha	Martin		Olathe	I support delaying this school year
7/20/2020 22:31:56	Abby	Cornelius	Blue Valley School District	Stilwell	I am a teacher at Blue Valley North High School and parent at Stilwell Elementary. During my 15 years at BVN, we have lost students, parents, and teachers in our community for various reasons. Even one death is traumatic for the entire school community regardless of whether it is a student, teacher, or parent. We have the ability to take a little more time to keep the spread low and wait to open schools and it is our responsibility to take it and prevent deaths. Many times, people say, if you even help just one person, it's all worth it. Well in this case, we can prevent MANY deaths and it definitely will be worth it when kids don't have to suffer because the chances of losing family members, parents, teachers or even possibly classmates will be so much lower if we delay the opening of in-person schooling.
7/20/2020 22:32:07	Terese	Quenette		Lenexa	LOVE keeping our staff and students safe! With all the unusual plans to mix between in person and virtual learning this year, teachers certainly need extra time to plan well and prepare safely. We have no right to put students and teachers at risk. Data shows we need to do more to keep our community safe. Economic strain should be alleviated by legislators. Let schools focus on education.
7/20/2020 22:32:21	Tonya	Keeten	USD 325 Phillipsburg	Phillipsburg	Do NOT delay!!Go forward with School and Fall Sports
7/20/2020 22:32:29	Cheryl	Bergwell	Myself	Overland Park, Kansas	Let's do the first semester online. It is safer for everyone. We as teachers are better prepared. Let's protect everyone.
7/20/2020 22:32:38	Kim	Sipp	NONE	Topeka	I hope that the Board will carefully consider health providers and officials, parents, school district administrators, KSDE, and KNEA before voting. Please keep politics out of your decision making. You each have to make a decision in the best interest of our state's children, their families, and staff in all of Kansas schools. This is not about academics! This is about making the school environment as safe as it can be for our children and staff! Yes, I am a Special Education Teacher. I have mixed feelings about this matter, so I do not envy your position. This is why I want you to review and consider all available current information. I want to be in school with my students, but I want to make sure that each of my students and staff are in the safest environment possible!! There are no guarantees that any individual will not get COVID, spread it, or how the virus will effect any who do contract it, but we can make the best decisions that we can to keep everyone safe. My thoughts are with each of you as you make this decision. It cannot be easy. Thank you for your careful consideration as you make your decision.
7/20/2020 22:32:40	Pamela	Taylor	Stakeholder/Parent/Teacher	Olathe	Vote yes to delay the start of the school year in order to allow COVID numbers to decrease within CDC's recommended guidelines, protect students/staff and time for appropriate preparations for the start of school. Thank you for your consideration.
7/20/2020 22:32:57	Kathleen	O'Brien	Derby High School teacher	Derby	Please vote yes to delay the start of school. I just sat through a four hour school board meeting where the only consensus was we don't have enough information or enough time. We want to get back to our classrooms and I want my son in school but my district and building need more time to plan. Sedgwick county numbers are on the rise and we need direction from the state to delay. Please don't leave it up to our county commissioners!
7/20/2020 22:32:57	TIFFANI	Pauls	My family	Wichita	Please allow each school public and private to make their own decisions on how to navigate Covid-19. Each community and school is different and the individual schools knows best how to serve their students and families.
7/20/2020 22:33:01	Debra	Ramsey	Retired teacher	Uniontown, KS	I feel strongly that schools should stay closed until AT LEAST following Labor Day. In all honesty, I feel schools should take a time out during this pandemic for the entire year. Teachers could provide supplemental and enrichment learning activities for students to participate in online and by choice. Formal grade level instruction would remain on hold; each student would enter the 2021-2022 school year at the grade level they would have entered in the 2020-2021 school year. Yes the students will be a year older than what has been typical but this is not a typical time. YOU CAN REMEDIATE ACADEMIC DECLINE BUT WHEN A LIFE IS GONE IT IS GONE FOREVER!
7/20/2020 22:33:04	Melissa	Edmondson	USD 315	Colby	Start school on time these kids need to be in a classroom & participating In their extra Curricular activities. Online curriculums last spring was a joke!

7/20/2020 22:33:09	Heather	Albers	Usd511 and SCKSEC	Kingman	I believe the schools should follow Governor Kelly's late start mandate as I work in a rural school that is not taking this seriously. The school board last week voted that you could wear a mask if you desired but had to provide your own. They also stated they were putting the responsibility on the parents to temperature check their children as they were the best informed about their children. We are not socially distancing we are starting like nothing is happening. Our area has recently saw a rise in covid from 0 to now 7 in 2 to 3 weeks. The school I teach in has went from one to 4 in 2 weeks. Most of the people work put of town in Wichita, Hutchinson, or even Oklahoma. The teachers for this school 2 come from Kingman, 2 come from Pratt, one comes from Medicine Lodge, one from Winfield. We also utilize the special coop for services and the slp, pt, ot, along with many others cover an area with multiple counties. The exposure will be tremendous. We have old buildings with in adequate air systems and small classroom where 6 feet will be hard to manage so a mask is vital. I am really afraid to go back with out Governor KELLY'S mandates as I feel we are just being lead to our slaughter as our local board is not going to do anything proactive to help mitigate the exposure to all.
7/20/2020 22:33:16	Jennifer	Moore	Circle School District	Towanda	I would rather postpone the start of school and then have them going to school everyday than to do any distance or online. Childcare and transportation is hard enough to figure out without having to add on the stress and worry of shorter days/schedules or kids being home alone. Require masks and provide hand sanitizer and soap for hand washing. And also hire some people who are out of work to sanitize and clean the schools more effectively. to whom it may concern,
7/20/2020 22:33:17	Nicole	Taylor	Southeast of Saline USD	Assaria, KS	Please allow each individual school/district to decide what is best for their students. Our kids will be out of in person classrooms just shy of 6 months if we don't allow our students back into the classroom until Sept 9th. I think that if districts are able to abide by the mandates set forth to them they should be able to open on time. And clearly, we closed down schools in March, I would assume we have had plenty of time to put safety measures in place by now.  We already know that this previous Spring online/distance/remote learning was completely watered down and the educators were just trying to keep their head above water. I can't imagine what it would be like to have to do this the whole school year with a 1st grade student, a Kindergarten student and two full time working parents.  I know you can't do anything about Governor Kelly's other executive order but simply mandating all students, especially young ones, to wear a mask all day is absurd. I think students should be temperature checked and then monitored throughout the day, with proper handwashing. Kids and adults are supposed to be exposed to germs, that's how we build an immune system. Now, COVID-19 is a virus that we are still trying to figure out. I understand the logistics for keeping staff and children safe but we also need to worry about their mental and emotional health as well. And why should one person be able to decide what is best for everyone's children? It should be up to the parents to decide if they want their children wearing a mask all day long.  If there is nothing that can be done about the masking mandate, I will still be sending my children to school, because I know the education they are receiving from Southeast of Saline USD 306 is much more than what my husband and I can offer them at home. So please, if school districts are able to open safely and can abide by the safety mandates set forth for them, let them bring their students back! Don't make them wait another 4 weeks to get back to the education they so rightfully deserve.  Sincerely,
7/20/2020 22:33:18	Debi	Horn		Linn valley	Please allow this order to proceed. I teach third grade and we are planning on face to face teaching. If we don't delay until after Labor Day we go back August 13. We need time to plan for this school year. We need time to get things ready for our students.
7/20/2020 22:33:21	Rebecca	Eason		Haysville	I support this order. Please vote in favor of this.

7/20/2020 22:33:25	Rosemary	Beyer		Wichita	I believe that we must take precautions and delay school/find online solutions for the duration of the school year. COVID-19 numbers are continuing to rise and it's just not safe. The health and safety of students and teachers must be the #1 priority, even over an education. We must refund extra costs for things that are not provided online and make sure that people have safe housing and that they are receiving financial support during this time as well. I believe it is also important to cancel rent for the duration of the pandemic and make sure that all of our citizens are provided for, through the dollars that we as citizens collectively invested in this country. It is time for our investments to be put to use in keeping us safe.
7/20/2020 22:33:31	Beth	Burns		Newton	Please uphold the governor's order to delay the start of the school year. This is the best way for schools to be prepared to provide the best and safest learning environment for students and communities. Please so not make this political. It is the right thing to do.
7/20/2020 22:33:32	Beth	Derr		Overland Park, KS	supporting the Governor's order to delay school does NOTHING more than give all schools in Kansas a few weeks to make sure we are prepared to keep students and staff safe. It guarantees equity for all Kansans. Vote YES
7/20/2020 22:33:33	Bethany	Vokac		Olathe	As a teacher and parent I urge you to support Governor Kelly's EO to delay the start of school. Allow time for schools to adequately prepare for the safest in person learning possible and/or prepare for virtual learning. Allow time for Covid cases to decline before bringing large groups of people together in schools. Prioritize the health and safety of students, teachers, and school staff.
7/20/2020 22:33:45	Carol	Souders	Educator	Lawrence	Please allow us to delay the start of school so we can adequately prepare. This is a necessity for the health and safety of the students and the teachers and staff.
7/20/2020 22:33:51	Patricia	Connelly	Parent of an elementary	Overland Park	I think it is essential to get students back to school whose parents feel comfortable making that decision. I think there should be a virtual option for families that don't feel comfortable. I feel like the teachers in high risk categories should be given options. I think for the average healthy family in person school is ESSENTIAL!
7/20/2020 22:34:00	Lacey	Mosley	USD368/USD367	Osawatomie	I am a para and a mother of 2 but as a para I need to work and my special needs kids need structural teaching and a schedule and not to just be at home!! As a mother my kids need a normal life of school and sports but most of all learning at home is something neither of my children do well!!! I think that going back to school is a must!!!!
7/20/2020 22:34:02	Courtney	Weber	Parent of USD 230 stud	Olath	Please delay school so staff can receive accurate training and put protocol in place
7/20/2020 22:34:07	Maria	Hernandez		Dodge City	I agree with Governor Kelly. Our schools are overcrowded and our schools can you use the extra time to prepare on how we can keep our children healthy and our teachers healthy.
7/20/2020 22:34:10	Sarah	Neeb		Garden City	Open schools! Three weeks is not going to make a difference. Let the kids be kids.
7/20/2020 22:34:19	Sabrina	Muller		Kansas city	It is costing me another 1000 for daycare and as single mom have already paid for 4 month of cost.
7/20/2020 22:34:31	Courtney	Dowty	Special education teache	Topeka	As an educator in a building of 500 and as a parent I do not feel comfortable returning back to school on August 7th. The number of positive Covid tests are still rapidly increasing. It would be silly to send teachers and students back to a building where their health will be in danger. Please agree to push back the start date and keep our educators healthy!!!
7/20/2020 22:34:41	Leslie	Karlin		Hays	Please vote to uphold Governor Kelly's order to delay the opening date of schools. I am a teacher, and my colleagues and I need time to prepare at the district, building, and classroom level in order to implement guidance in opening safely. Thank you.
7/20/2020 22:34:41	Alison	Crane	Blue Valley School Dist	Overland Park	I support the governor in her recommendation to delay the opening of schools. As a high school educator, I believe the few extra weeks will both give the community appropriate time to make progress on lowering the community spread of COVID-19 as well as give educators time to make plans and preparations for an unprecedented school year. As this situation has continued to change rapidly since March, we have had little time to adapt and have done the best with what we have been given. Three additional weeks will be a gift to teachers and administrators to strategize for opening their buildings to hundreds of children, and only a short time for students to miss instruction, especially if it means their teachers will have less anxiety and be better prepared to welcome their students. I appreciate the governor's thoughtful solution that neither puts educational staff, students, and families at unnecessary risk nor asks schools to unanimously shutter their doors completely.
7/20/2020 22:34:45	Brenda	Stanton	USD 458	Basehor	Please support the September school start date. Keep ALL of us safe!!!

7/20/2020 22:34:51	C.	Chelladurai	Parent in Blue Valley Se	Overland Park	Governor Kelly's order gives schools additional time to prepare for an unprecedented situation which will result in stronger schools this year. Support her decision to delay school openings, which in turn shows your support for teachers and educators. As a parent, I value a strong school opening (regardless of delivery system) over opening by a certain date.
7/20/2020 22:35:02	Jennifer	Cleeton		Kansas city	Yes it should be delayed
7/20/2020 22:35:02	BJ	Schultz		Lucas	Please, allow the kids to go back to school as soon as possible. Please, do not make children under twelve wear masks. It will be too much of a distraction and a huge burden on the educators.
7/20/2020 22:35:10	Erica	McIntyre	High school teacher	Olathe	Keep schools closed until cases decline and steady. I know kids are less at risk, but teachers are in the age range of higher risk. Kids are gross. You cannot social distance in a classroom as a teacher or as a student. Effective learning will not take place.
7/20/2020 22:35:24	Megan	Bubb	Prairie creek elementary	Olathe	I support delaying school opening until after Labor Day. This will give us much needed time to prepare to open safely, with appropriate guidance, and gives for the chance to hopefully lower the COVID curve again. Please delay the opening of schools.
					<p>I support the governor's order to delay the start of the school year, despite thinking it is not strong enough. I personally believe we need to continue the online learning like we did in the spring. But, her plan is better than reopening before we are ready to. Our buildings are not ready, I'm not convinced they will be by the time school would begin if they opened on the previously scheduled date. Additionally, I feel that we need time to adjust our instruction to the hybrid model with some students being in school, and some out. We also need the time to learn our new duties and responsibilities as it relates to COVID-19. This would include, but is not limited to, new screening, cleaning, sanitation, and routines. We need extra Professional Development to revamp our procedures within the buildings and to discuss and plan for the semester to come as well as build contingency plans for when the impending outbreak hits.</p> <p>Our district is in one of the state's hotspots. People here travel to Dodge City, Garden City, and Amarillo, TX regularly, even during the lockdown. All of those locations are COVID-19 hotspots as well. Our townspeople have refused to self-quarantine, social distance, or wear masks. We have teachers in the hospital, one in peril. Our hospital has performed admirably, with a death rate below the national average, but they are overworked with more 1,200 positive tests in a town of 18,000. If we return to school too early or unprepared, those numbers will grow exponentially. Despite all of that, our school board was prepared to charge headlong into reopening. Roughly half of our district workforce is high risk when you take into account our cooks, paraeducators, and support staff along with our teachers.</p> <p>I personally hated teaching online last year. I hated doing that as well as helping my sons with their classwork. I missed my students and my coworkers, my kids missed their friends. I want to coach my boys and win a league title. But, more than all of that, I want my kids, my students, my players, and my peers to be safe.</p> <p>I don't want to bring home a deadly virus to my wife who has been told by her doctor that it is unsafe for her to work because of a pre-existing condition and I don't want to bring it home to my 70-year-old mother who we help care for now that she has Alzheimer's. That is why I would prefer we hold the 20-21 school year online, but it is also why I support the governor's plan, as it is better than simply starting back on day one as planned. If the state chooses to reopen too early, I urge you to send us grief councilors. We will need them.</p>
7/20/2020 22:35:35	Michael	Campbell	USD 480 and KNEA	Liberal, KS	
7/20/2020 22:35:40	John	Lenfestey		Overland Park	Comment removed due to profanity
7/20/2020 22:35:58	Melanie	Krehbiel	USD 423 Moundridge	Newton	Thank you so much for supporting Governor Kelly's order to delay the school year until after Labor Day. As a high school teacher in a small district, I am very concerned about keeping my students and coworkers safe. I fully understand parent and student concerns, and I believe we as educators need time to get the necessary supplies (many of which are now on back-order) and plan for fall teaching. Because there are so many unknowns with how the virus will affect our small rural communities, I believe measures such as wearing masks, social distancing, etc., during this time can make a big difference. Please uphold Kelly's executive order to help keep Kansans safe! Thank you for your time.

7/20/2020 22:35:59	Christine	McKellip	NA	Newton	<p>I am writing to urge you to support Governor Kelly's order to delay the start of the 20/21 school year until after Labor Day.</p> <p>I am a retired special education teacher and can only imagine the challenges this school year is bringing. In addition to usual planning and relationship building that comes with every new school year, educators will be faced with concerns for their health as well as the health of our students. Additionally, they will be facing the possibility of delivering education to students in ways we have never experienced.</p> <p>Your leadership at this critical time is more important than ever before. Please show our educators and students that you will do what it takes to support them by voting to uphold Governor Kelly's order.</p> <p>Thank you for your commitment to public education.</p>
7/20/2020 22:36:07	Kim	Keiser		Pratt	<p>As an educator I feel that it is in the best interest of the students and staff to delay opening until after Labor Day. With the increase in COVID numbers a school building is not a safe place for anyone to spend 8 hours a day in. Social distancing cannot be maintained and I fear that the spread would be worse. When schools do open I would like to see everyone 5 years and older in a mask. It protects me and it protects you. We have medically fragile students, we have teachers with underlying health conditions, and we have families that cannot be subjected to COVID 19.</p> <p>I urge to please delay the opening of school and make Governor Kelly's requests required.</p>
7/20/2020 22:36:18	Katie	McWhirter	Kindergarten at KCKPS	KCMO	<p>To Whom It May Concern-</p> <p>I believe it is extremely necessary to delay the start of the 2020-2021 school year by a few weeks. It will allow us teachers to be better prepared for the upcoming school year. If we are given time to plan for not only curriculum that needs to be retaught from summer brain drain, missed content from the end of spring semester, safe transitions in the classroom, play grounds, lunch rooms, hallways, bathrooms, entrance into and out of the school, etc. I believe if we are given ample time to plan with our peers in our buildings-in my specific district we will lessen the chances of contracting COVID-19 this fall for both adults and adolescents. No matter the size of district, school or classroom we all need to plan for our students well being, and our staffs too. If we are given just a few extra weeks, not months we will be able to continue to flatten the curve that has clearly spiked in our wonderful state of Kansas. Please take into consideration what each teacher, parent and support staff are stating as they just too want what is best for the kids and teachers.</p> <p>Sincerely,</p> <p>Katie McWhirter Kindergarten Teacher of KCKPS</p>
7/20/2020 22:36:29	Chris	McLean		Shawnee	<p>This is a no-brainer. Opening schools in August is both irresponsible and dangerous. At a minimum schools need to have the opportunity suggested by the Governor to start school after Labor Day.</p>
7/20/2020 22:36:30	Tamara	Riggs		Garden City	<p>Please delay the start of school until after Labor Day so school districts have time to make their buildings safe for students and school staff. They also need time to look at the state plan and make sure it works for their district-get masks, shields, hand sanitizer, cleaning materials, hire more custodians, discuss plan for at risk students and school staff with virtual learning, etc.</p>

7/20/2020 22:36:42	Dana	Castor		Wichita	I definitely think we need to delay school starting until after Labor Day. We are in no way prepared to start safely. I have listened to comments about what the students need. Most importantly they need to be SAFE. We need the state numbers to decline. Yes, there are a few places that are not increasing as drastically as Wichita, but, it is coming. Schools will be a petri dish of contamination because there is no way to safely socially distance. We just need time to decrease numbers and to put the safety protocols in place. Things are planned. Things are on order. They are not installed. They have not arrived. PLEASE delay our start. It truly will not affect our calendars that much. Safety before convenience.
7/20/2020 22:36:43	Jill	Burgen		Baldwin City	Please vote to uphold the Gov executive order delaying the school year. Please vote in accordance with science and the medical community recommendations.
7/20/2020 22:36:46	Mark	Beyer	Self	Wichita	I believe school should be delayed until a responsible plan that protects community health is in place. Schools must figure out how to stagger in class activities and supplementing with online assignments to keep the number of students in close proximity within recommenced levels. School workers, teachers, bus drivers, etc must all continue to be paid. We will not likely be back to normal until spring next year after vaccinations have been available for some time and evidence of risks are demonstrated to be under control and minimal. Students are resilient and will adjust. We may discover new creative ways to do school. Families with two working parents will be the ones to make the biggest adjustments.
7/20/2020 22:36:51	Amanda	Sandoval	Stafford Schools USD 3	Stafford	I want to do whatever is safe and suggested. I'm okay either way.
7/20/2020 22:36:57	Brandi	Burkett		Haysville	Keep schools closed
7/20/2020 22:36:59	Paula	Skidmore	My home	Smith Center	No late start, no masks, and no hand sanitizer. I don't think this will happen so we plan to homeschool.
7/20/2020 22:37:05	Brenda	Kirk	USD 417 Parents as Tea	Council Grove	I support delaying the 20-21 k-12 school year. With the rapid rise in covid-19 cases in Kansas at this time, I feel it would be best to wait. This will give districts added time to prepare for how to handle moving forward, whether it's an online option or in-person with appropriate precautions such as masks, good hand hygiene and social distancing.
7/20/2020 22:37:08	Aileen	Raymer	Parent and educator	Marion	I am not in favor for taking a statewide approach, rather I think the way districts handle the openings/closures/in-person/remote learning can be decided within their own communities. We have too diverse of communities that the virus' progression is different, which will result in different timing of impact within communities/districts. I'm all in favor of keeping people safe, let's just keep common sense in mind when doing this. Please look at the science and information that is out there for our student population. Let's keep in mind about other risks that are rising in our children...depression, anxiety, exploitation, etc. They need to be back to school to socialize and learn. Is it really worth the risk to take by keeping them home longer? We eventually have to move forward because this is not going away. I believe planning can begin for a safe start of the school year now, so that when the time is right schools can get going. Please allow for that decision and timing be made at a local level!
7/20/2020 22:37:11	Andres	Tran		Wichita	I do agree with Gov Kelly
7/20/2020 22:37:12	Craig	Bowman		Bucklin Kansas	Let the local school districts decide how they want to proceed. Why should we not have a voice for the children in our community? Can't even have online options through the school? We can do better than doing nothing. In small communities we're always around each other anyway ie Sports conditioning, daycare, church activities, Etc. This mandate accomplishes nothing other than exacerbate the education discrepancy between the affluent school districts and lower tax base rural and inner city schools. Please help!
7/20/2020 22:37:18	Lenay	Marteny		Rural Riley county	Start the school year, build the herd immunity, understand that delaying And putting things off until flu season hits too and more viruses can be spread Is silliness. We aren't seeing the hospitalizations predicted - the death rate numbers have been skewed from the start. The majority of people in our county and state are not requiring hospitalizations or ventilators. Let's move forward with life again - it's well past time.
7/20/2020 22:37:26	Anita	Parks	Parent	Wichita	Please delay the start of school or start school online until our covid cases have decreased.
7/20/2020 22:37:32	Tish	Roberts	Teacher in BVUSD	Olathe	Let the governor's order stand

7/20/2020 22:37:36	Amanda	Grosserode		Lenexa	Though I disagree with delaying public schools from beginning before September 8th, I'm choosing specifically to address private schools and public virtual schools. There is no reason why there should be a restriction on public virtual schools to begin instruction. Those schools should be able to proceed as normal. Private schools, as well, have made plans to address the health needs of their students. If the public schools are lacking in those plans, then by all means restrict their physical gathering. Though they've had all summer to plan, they still could begin school with an online delivery. The lack of readiness of the public brick and mortar schools should not hold back the students of public virtual schools and private schools.
7/20/2020 22:37:39	Julie	Smith		Overbrook, Kansas	Please allow local school districts to determine what's best for their communities. Ours has been working tirelessly since the shut down to formulate a plan for this fall. I've seen the draft. It's a pretty darn good one, despite the fact our education leaders are facing insurmountable challenges every step of the way. Our kids need to begin school on time. Maybe that's in person, and maybe it's not, but I believe local boards are better equipped to decide that for their communities based on the data available that is specific to their communities. Thank you for your time.
7/20/2020 22:37:46	Hallie	Slavens	Tri-County Special educ	Pittsburg	I am thankful for the delay. As a teacher and a parent, I feel the delay gives school districts time to have multiple plans in place. I teach in a different district than my kids attend and I have concerns.
7/20/2020 22:37:48	Jim	Connelly	SMSD parent	Overland Park	In person school needs to happen and it should start on time. These kids have already suffered so much and continuing the isolation from teachers and friends in a structured environment is harming them.
7/20/2020 22:37:52	Megan	Meads	Elementary Teacher	Linn Valley, KS	Please allow districts to make their own decisions on re-opening schools.
7/20/2020 22:37:53	Gerald	Nichols	N/a	Olathe	Please start schools at the normal start date. Our kids need school and to get back to normal.
7/20/2020 22:37:54	Tonya	Winger		Colby	Let local districts decide what's best for their situation. Get back to school ASAP WITHOUT mandatory masks!
7/20/2020 22:38:02	Stephanie	Titus		Great Bend	I agree with the decision to delay school until Sept. 9.... I feel the districts need this time to implement a plan so we can all return to school safely
7/20/2020 22:38:07	Amy	Reinhold	USD207	Leavenworth	As a teacher, I believe, given the rising number of COVID-19 cases in Kansas, and the fact that only 3 of our 100+ counties have zero cases, that the only responsible choice for the safety of students and staff is to vote yes to Governor Kelly's executive order delaying the start of school until after Labor Day. This will allow districts time to procure PPE and other safety equipment, as well as teachers extra time to plan deeply and intentionally for a school year fraught with uncertainty and inconsistencies. Thank you for supporting students and teachers in voting yes on Wednesday!
7/20/2020 22:38:11	Taylor	Hardin		Kensington	A mask will only be a distraction, and harmful to our children's learning. How do you expect elementary students to learn while wearing that garbage. This is outrageous.
7/20/2020 22:38:13	Gabrielle	Elliott	Parent of high school, K	Johnson	I rarely if ever take an interest in day to day political activities, but the events of late are going to require more of us to begin to speak up as wrongful executive actions are taken to restrict freedoms and cause harm to our society having consequences both immediate and far into the future. With that, I'm sure you will not be surprised that I believe the shuttering of our schools nationwide (not to mention our entire economy) was an extraordinary overreaction and foolish. Thus, further delays (which unless we speak out against them appear likely to be extended) are equally foolish and harmful to the development, overall wellbeing, and futures of our children. The fearmongering press and most unfortunate politicization of the new corona virus cross over strain(s) necessitates that we step up on a local level and defend freedoms and the wellbeing of our children. Thus, I would ask that you use your judgement and authority to get our children back in school and return at least that portion to some normalcy for them.
7/20/2020 22:38:16	Beth	Folks		Oskaloosa	I believe kids should start school at the normal time. They've been off since March, and I know my kids have desperately needed the social interaction that they received at school. I know it's just another month, but that would equal SIX months of no in-person classes. That's just not right in my opinion.
7/20/2020 22:38:18	Jeremy	McGuire		Hays	This will be better for the students and staff. That's what it should be about, not politics. I fully support the delayed start of school.
7/20/2020 22:38:22	Sarah	Williams	My family	Linwood	I support Governor Kelly's delayed start to school. I will keep/teach my kids at home if KS rushes schools to open before COVID is tamed such that numbers are declining. We will not participate in traditional school otherwise. Wear a mask, every single one of us. Instead of pretending life is normal, how about we acknowledge it is anything but. Thank you, Gov. Kelly!!

7/20/2020 22:38:28	Renee	Brown		Kansas City, KS	We need to delay the opening of school.
7/20/2020 22:38:34	Emily	Gates		Overland Park	Hi! Please vote against Gov. Kelly's request to delay the opening of schools. Thank you!!
7/20/2020 22:38:42	Hearher	Koehn	My family, myself as a t	Newton	Please support the EO to delay the opening of schools, community spread of covid is on the rise in Harvey County. A delay would give us a better chance to be safely prepared for what in-person, hybrid and remote learning might look like. Thank you
7/20/2020 22:39:08	Katie	Lowe		Lenexa	The school should not be opened until deemed safe by the governor and or the CDC. children should not be put at risk.
7/20/2020 22:39:09	Candace	Stewart	USD #497	Olathe	Please postpone the beginning of school. Put the health of our students and teachers before money
7/20/2020 22:39:15	Tess	Modrow		Salina	A Delay in school any longer is impacting the future of our children. There is absolutely no substitute to being in school with teachers and peers committed to learning. There are an abundance of viruses and ailments that children can contract - precautions can be taken but we can't continue to keep them out of school. Honestly, they are running all over town anyway!
7/20/2020 22:39:27	Stephnaie	Knutson	Teachers	Maize	Forcing children to wear a mask all day and not interact with their peers is an overreach of power at best. 7 hours of kids being forced to sit and get when everyone in education knows that isn't best practice. I had a student die at age 11 from the flu a couple years ago. Nobody cared beyond our school. Flu kills more each year but we haven't forced kids to deal with the consequences. Our neighbor to the north is giving two face masks per student and allowing parents to decide if their child will wear one. Quit overstepping your power and let parents decide what is right for their children
7/20/2020 22:39:30	Colleen	Farthing	Special Education Teach	Shawnee	With cases rising, please keep schools closed to protect all students and staff, but especially those with medical issues that make them more susceptible. I am one of those and so are some of my students. I want to feel safe, and make sure it is truly safe for my students and my own children . Thank you!
7/20/2020 22:39:55	Penny	Grabber		Wamego	Please vote to delay the start of school until September 9 so that teachers have time to prepare for the changes that need to be made to effectively teach our children and to keep them safe. Thank you!
7/20/2020 22:39:56	Laurie	Ackerman	My 7 children	Pratt	Kids need school and normalcy again!!
7/20/2020 22:39:57	Anna	Hinton	USD 500 teachers	Olathe	I am a teacher at FL Schlagle and I do not feel safe returning to school in any capacity. We need to teach remotely from our own homes. Please protect us teachers, too.
7/20/2020 22:39:58	Brian	Staek		Overland Park	96 total deaths in Johnson County as of 7/19. 2 of 96 under 60 years old. 74 of 96 over age of 80. Average age of deceased, 81. 80 of the deceased lived in long term care facility. Closing schools is absurd.
7/20/2020 22:40:15	Traci	Wood	USD 385	Andover	This is a time to step, up and show leadership and support for teachers. Schools need time to process the navigating change document, plan, and get teachers trained. Teachers want to do a good job and need time to prepare for the new way of school. There will be many hoops and changes this year, and the extra time will allow a little breathing room to make sure all schools and teachers are successful. The governor has not made these decision on her own, many medical personnel are in agreement.
7/20/2020 22:40:17	Annessa	Russell		Newton	As a parent of an elementary school child I am totally behind Gov Kelly and the mandate to postpone the opening of schools. Our districts need more time to make sure that everything is in order and procedures are in place to keep both students and all staff safe and healthy. I would also like to see the districts given more directives on class size, teacher ratio and cleaning/safety procedures. Thank you for your time and leadership.
7/20/2020 22:40:21	Leslie	Pruitt		Shawnee	Please vote AGAINST the Governor's executive order to keep schools closed until after Labor Day. The American academy of pediatrics recommends in person school for students this fall, schools in Europe have reopened, and parents need to get back to work.
7/20/2020 22:40:38	Susanne	Mahoney	kckps	kansas city kansas	please consider the science and delay the opening of schools to allow in depth training of staff for dealing with COVID as well as social distancing plans.
7/20/2020 22:40:41	Nicole	BARKLEY	USD 356	Viola	One size does not fit all when it comes to opening schools back up. Counties/Districts should be in control of their schools not the governor.
7/20/2020 22:40:47	Delia	Trowbridge	USD 469	Lansing	School should be closed until after Labor Day

7/20/2020 22:40:49	MANDY	PROLAGO		WICHITA	Thank you so very much, for considering the welfare of our children, whom are coming and going from their homes, where some of us are caretakers for high risk people! My family greatly appreciates this order and will do everything in our power to take advantage of this opportunity to socially isolate, strengthen our bond, and educate our children! When it's time to resume in-person, please consider the option of online learning, and/or do so when the virus is manageable, has a treatment and/or vaccine. Thank you!
7/20/2020 22:40:50	Susan	Klankey	Turner USD#202	Olathe	Please consider the reality of how specials teachers In elementary schools will operate if school districts are rushed into opening. The fact of the matter is that schools count on specials teachers for teacher planning periods. I teach music and I have over 600 students I see in one week. I think it is going to be difficult to address this one issue as well as others.
7/20/2020 22:40:50	Amanda	Jolly	Teacher in USD262	Wichita	Please delay the start of the school year and put the health and safety of staff and students first. Actions speak louder than words, so if you're going to say that safety is foremost, then let your actions follow suit. Please don't let this be made into a political decision-lives are at stake.
7/20/2020 22:40:53	Alexa	Daily		Wichita	There are many more cases of Covid-19 now than when we shut down schools in March. The numbers of those infected continues to rise. It would be illogical to send children back for face-to-face instruction given the current data. In addition, to throw the decision on starting times back to individual districts is irresponsible. Consider the reaction of the majority of county commissioners to the governor's mask order. Doing the "right thing" may mean that the safety of children will have to take precedence over the desires of many (perhaps the majority) of your constituents.
7/20/2020 22:41:02	Diane	Thoman	Concerned Grandparent	Olathe	To continue attending schools this year, still seems too soon. There is no sure vaccine yet, teachers are parents, grandparents and administration. Those persons, after spending 8+ hours daily around students and other outsiders, will not stop the rise of Covid cases. They can carry the virus from the school, to their home, and infect others. We need to continue the social distancing, and keep the children at home, till we have the vaccine, all can really feel safe, and the virus cases had subsided, or flattened.
7/20/2020 22:41:10	Barbara	Ramos	I wish the vius would go	Yes	I wish the virus would go away
7/20/2020 22:41:14	Lena	Duncan		Andover	This should be a county decision, not state. There are several counties that have very low COViD numbers. Blanket orders are unnecessary and harmful. Also, sports need to happen! Take all the precautions, but we are beginning to harm our kids' mental health with all the cancellations!
7/20/2020 22:41:34	Dee Ann	Beam	USD 107 Rock Hills, Fi	Mankato, Kansas	I support the delay to start school after Labor Day to give teachers and staff adequate time to prepare for changes and safety guidelines that will need to be implemented. Rushing into a school year when not fully prepared could be detrimental to the safety of our students.
7/20/2020 22:41:43	Jon	Link	Parent citizen	Larned	No masks for kids. I do not support this at all nor will I back anything as such. If this is the case what's next, mandatory vaccine for covid next. No thank you. Think about it more. No kid is going to wear a mask they long
7/20/2020 22:41:46	Tricia	Stogsdill		Chanute	I am very pro these mandates as a minimum for moving forward. As an educator I am very concerned for my wellbeing as well as that of my students and family. I strongly believe that we should keep schooling remote next year until there is widespread vaccination.
7/20/2020 22:42:01	Persis	Lugalia	Wichita Public Schools	Wichita	We spoiled open up the schools and the masks be optional. I couldn't imagine wearing a mask all day while I teach music. I couldn't imagine having to stop my lesson multiple times because of children continuously playing with their masks. We should at least do half days or alternative days and not be required to wear masks.

7/20/2020 22:42:14	Sue	Gorman		Overland Park, KS	I would encourage the KSDE board members to put politics aside when making your decision about delaying the start of school until after Labor Day. Those additional three weeks may be the precious time needed to help quell Covid 19. It is three weeks. Do your part to help slow down the spread. It is three weeks. Calendars can be adjusted, back in the day, we didn't start mid August. It's three weeks. Perhaps the legislature could amend the days need for this 2020 - 2021 school year. It's three weeks. Thank you for your work regarding the education of our Kansas children. Thank you for taking the health and safety of teachers, students, staff, nurses, therapists, bus drivers, cafeteria workers and custodians into consideration when making your decision about delaying the start of school. It's three weeks. Sincerely, Sue Gorman, retired teacher
7/20/2020 22:42:17	Jody	Gorges	Parent in parochial scho	Goddard, Ks	I understand there may be areas of the state experiencing a surge in COVID-19 that makes it difficult to have in person school. But these decisions need to be left up to the local school boards. At least let us start online August 13 like we were scheduled. I have an 8th grader with an IEP for Reading. He was on track to be able to transition well into high school next year. Now, I worry that will no longer be the case. Friendships are tough for him. He hasn't had a friend/peer to talk to since March 12th, the last day he was in school. What do you think that does to a 13-14 year old, shy, boy. PLEASE DO SOMETHING!!!
7/20/2020 22:42:18	Jeri	Harris		Olathe	Protect students, teachers, and staff. Delay school start so we can prepare and flatten the curve. Masks required for all when we do go face to face. Science over politics, please.
7/20/2020 22:42:20	Cindy	Wichman	USD 260	Derby	Please do not start school until after Labor Day!! Online only is preferred!
7/20/2020 22:42:22	Candace	Fish	Usd 259 teacher	Wichita	If delaying the year helps I'm fine with that. However I honestly don't have time to police masks all day if we are expected to teach. I teach behavior kids and they are not going to keep them on! Also, the senior class of 21 has already missed the spring of their junior year. Please don't take away their senior year too. They deserve to get their athletic seasons, dances and graduation.
7/20/2020 22:42:26	Tina	Donnelly	Teacher	Salina	Schools need to be delayed according to the governor's order. This is necessary due to the rising cases in Kansas, including Saline county. It would more safe to hold off on school to see if the mask mandate results in cases decreasing in the next month. It also would give schools the necessary time to plan and put into place the necessary safety precautions that are needed to try to keep staff and students as safe as possible.
7/20/2020 22:42:29	Kara	Sorenson	Teacher/Parent	Derby	I am asking that the Board support Governor Kelly's Executive Order 20-58 delaying the 2020-2021 school year. As a parent, I am opting to keep my children home learning via a remote option. The risks are too high for me to feel comfortable to send them back to school in-person. Additionally, we have the privilege of being able to keep our kids home, which lowers the number of students in the buildings for those who do not have that privilege. Our state closed school buildings in March when the number of cases was far fewer than we have now. The current increase in positive cases of COVID-19 is truly a crisis. Pushing back the start date gives districts the opportunity and time to implement the guidelines laid out in KSDE Navigating Change plan. We currently do not have enough information to determine how this virus affects children. They have been one of the most isolated populations since remote learning was implemented. We simply do not know how this will spread once they are back in school buildings. I am not okay risking our children's health due to politics and public pressure. As a teacher, I will always do what is best for my students. We are being asked, once again, to completely upend everything and create new ways of teaching and building connections. Even if we are in-person, group activities and lessons have to be reworked and reimagined. We have to plan lessons that can easily transition from in-person to hybrid to online seamlessly. We are being asked to do all of this in the face of budget cuts and uncertainty. Having a few extra weeks will allow teachers across the state time to prepare high-quality lessons and learning experiences for their students. I hope that you stand behind Governor Kelly in her decision to do what is best for Kansas children.
7/20/2020 22:42:32	Shelly	Francis		Olathe	Thank you

7/20/2020 22:42:38	Sussanna	Hardaway	BVNEA	OLATHE	I would like to see school delay in opening so that schools and staff have time to prepare for students. If it is in person there needs to be time for planning and meeting the new guidelines. If it is virtual there needs to be time to train teacher so to meet the requirements for virtual teaching. I would love to see teacher report at their originally scheduled time with students delayed until September. Also if there is virtual teaching I would love to be able to teach from my classroom virtually.
7/20/2020 22:42:39	Beth	Schmelzle	USD 378	Riley	Start as normal. The kids need to return to normal! My daughter asked if she could sue the governor over the delay. She's 15.
7/20/2020 22:42:43	Rick	Evans	Help them play	Eudora	PLEASE for the sake of our kids mental health and safety, please let them play fall sports. The depression and anxiety are FAR worse than the risk of a viral infection that NOBODY under the age of 36 has died from in the state!!!
7/20/2020 22:42:52	Dominic	Roberson	USD 373	Newton	Delaying school until September allows teachers to get much needed planning in. This allows us to be better equipped to create as safe and efficient learning environment as possible. This also allows for communities to come together to stop the spread of COVID. The extra time would allow more incubation cycles to go through with the mask mandates in place.
7/20/2020 22:42:56	Lesli	George-Mitzner		La Cygne	I support Gov Kelly and her decision to wait for schools to open. Her concerns are valid and I would ask that you allow her order to stand.
7/20/2020 22:42:56	Stephanie and S	Dunkley	Concerned parents	Olathe	We understand that additional time may be necessary to plan for in person school. The extra time required for the Olathe School District is prudent. However, we are concerned for those families that this delay will cause a financial burden. Further, we do have a few points we would like for you to consider. - mask wearing for elementary aged students will likely be more detrimental (ability to enforce, distractive and arguably unhygienic over the course of time) - taking daily temperatures upon arrival at school each day will create a logistical nightmare for everyone involved (why can't this be done by parents/guardians before sending the kids to school?) - as for middle and high school, mask wearing will come with its own set of challenges (besides enforcement issues and classroom management, it wouldn't be surprising if toilets would be backed up as a result of discarded masks) - we also support the commencement of school related activities as soon as possible with appropriate social distancing measures
7/20/2020 22:42:58	Rachael	Roberts		Topeka	Delay the opening! Protect teachers and students!
7/20/2020 22:42:59	Dawn	Longbine		Wichita	I fully support the governor's order to delay school a few weeks. The kids will still be required to get their full hours in for the year and this will give districts much needed time to prepare and help keep our children and school staff safer. As a parent I am thankful for the delay to take extra precautions. With the number on the rise in Kansas, starting school in August would be a high risk. Please do your part in ensuring the safety of these children and support the governor's decision.
7/20/2020 22:43:12	Johnna	Frantz	Colby area schools	Colby	Let the kids get back to school without masks. Mental health is so important and there will be side effects to delaying school and overuse of sanitizers.
7/20/2020 22:43:13	Jack	Herbert	Abilene Baptist Academ	Abilene	Delaying only leads to more issues with the calendar and creates greater hardships for our parents. After a less than stellar conclusion to last year, we will face plenty of challenges this year. The closer to normal we can keep things the better for students. I have serious objections to the other mandate but I don't believe this is the forum for that.
7/20/2020 22:43:14	Meagan	Lowe	Mission Valley Junior H	Maple Hill	I agree with the governor delaying school. If starting school after Labor Day is the magic potion to start school as normal as possible, I support it fully. Summer activities should have been shut down weeks ago! Give people less to do so they will stay home and away from large crowds!!!
7/20/2020 22:43:23	Anna	Metcalfe		Hartford	Please open the schools up, kids need interaction with other kids. They are getting exposed at child care while parents work but we can't educate them?

7/20/2020 22:43:25	Michael	Schatz	USD220	Ashland	<p>Please Do Not push back school opening. Our students have lost enough contact hours. These hours will never truly be made up and it jeopardizes our children's education and future of becoming productive members of society. We all know there are risks, but the fact is that this virus has a 99.5% Survival rate where Most positive cases are a systematic. The stats of dying from car accidents are higher than contracting COVID from a safely sanitized school facility.</p> <p>Current positive rates are low, if the ratios should rise in the fall, then local districts Can decide whether to close or not.</p> <p>Please allow schools to open in August. It comes down to parents' choice of whether or not their child be allowed in school.</p>
7/20/2020 22:43:31	Heidi	McKennon	Skyline Schools	Pratt	<p>Good evening. I am the school nurse for USD #438. Not only am I employed by the school, but I have a son who will be a Junior in high school this coming school year. Our school has had a team in place since March to plan the reopening of our school. We have had to revise our plan several times to accommodate the changing recommendations, but we are ready to execute that plan. I know some may think that waiting a few more days or weeks will not be a big deal, but to our students it will. These children have been out of the building for far too long already. There are many studies that show that children have low Covid transmission rates, Low infection rates, mild symptoms, and have far more negative side effects from the disruption in their lives than from contracting the virus. It is unwise to ignore the mental health issues that go along with the extended closing of schools. Physical health is not the only concern we should have in this situation. Why should mental health be any less important? We can safely open our doors. Our plan already included daily screening, extended absences for ill staff and students, increased hygiene practices, cohorting of classes, Increased sanitation, isolation of ill persons, strictly limiting visitors, and masking. We will need to revise our masking protocol should that executive order be upheld, but as a medical professional I agree with the American Academy of Pediatrics recommendations that children 12 and under should not be wearing masks, and I also think it should be a personal choice that parents should make for their own children. Particularly in our area where we have very few cases. I understand that you have no control over that, but please be aware that we can open our school with the measures we have planned. Please do not delay that start of school any longer than we already have. Thank you for asking for input from your districts.</p>
7/20/2020 22:43:38	Ashley	Lang	My family	Gardner	<p>I want children to be able to safely return to school. No lives (teacher, staff, child or family) should be risked so that we can "feel a sense of normalcy."</p>
7/20/2020 22:43:42	Dwayne	Abrahams		Newton	<p>Please support Governor Kelly's plan to delay the start of our public schools. Lives are at stake. You have a great responsibility!</p>
7/20/2020 22:43:44	Kami	Van Slyke		Olathe	<p>At a minimum, please consider opening schools on-time for students on free or reduced lunches. Children living in low-income situations are high-risk for more detrimental and long-lasting delays if kept from a consistent and adequate education.</p>
7/20/2020 22:44:09	Tiffani	Knowles		Live in Hesston / teach i	<p>One size doesn't fit all! Hesston a smaller town has the ability to have a plan and keep things consistent for students. Wichita should be able to make the accommodations they need because they are larger and their covid cases are higher. Don't punish the rural small communities to make it fit the need of the larger.</p>
7/20/2020 22:44:10	Doug	Pauls		Newton	<p>I support waiting until after Labor Day to start school for the safety of all.</p>
7/20/2020 22:45:05	Patricia	Parker		Manhattan	<p>To require elementary children to wear masks is not healthy. Children have immune systems that need fed to help build stronger immune systems. If you want to do anything, give them immune building foods and not processed foods that tear down immune systems.</p>
7/20/2020 22:45:07	Kati	Channell	KCKPS	Overland Park	<p>As both an educator in Kansas and the parent of a middle school student in Kansas, I believe the BEST decision is to delay the start of school. It is not the decision any of us want to make, but it is what is best for the safety and health of both students AND staff. Please make this decision.</p>

7/20/2020 22:45:10	Amanda	Wahlmeier		Colby	First, thank you for your service on the State Board. I am in support of in person classes for the coming school year in my area. Northwest Kansas looks different than other parts of the state and I would feel comfortable sending my middle and high schoolers. I realize that if a spike occurred in our area we might have to adapt to online, but would rather go to that if needed. Kids need to be in school and our economy also depends on it. These kids are our future and they need in person school. Again, thank you for your service.
7/20/2020 22:45:19	Jana	Hutton	USD 315	Colby	I would like to have the decision be made by our county health department, in coordination with our school district.
7/20/2020 22:45:50	Marianne	Dittmer	Cunningham usd 332	Nashville	kids are ready to go back to school. I really don't want to do homeschooling as virtual school didn't work for us. let's get these kids back in school. bring back some normal for these kids!!!
7/20/2020 22:45:51	Amy	Wiese	Blue Valley	Leawood	The scheduled start of school is August 13. Our district has provided teachers NOR parents with any solid plans or protocol as of 7/20, therefore limiting the ability to plan and make informed decisions in a PANDEMIC. We care about quality of education and the health of our teachers/staff/students enough to accept the delay in order to accomplish two things: to hopefully see a decline in cases and % positive and 2) to give teachers more time to plan for a safe return to schooling — whatever that may be. This is NOT a political manner, this is about the health and well-being of ALL present day-day in a school setting. I would love to see younger kids in-person, while HS start online due to their increased transmission.
7/20/2020 22:45:55	Courtney	Dunn	USD 507 Business Educ	Satanta	Open in August please.
7/20/2020 22:45:58	Terry	Presta	Liberty PAC	Overland Park	Based on all science it is clear that Covid-19 poses ZERO risk of death to the majority of healthy Kansas Citizens much less Children. You have to put in context the TREMENDOUS damage you are doing to children everywhere if you go along with the governor. Please do NOT agree with Governor Kelly, open the schools on time.
7/20/2020 22:46:03	Kate	Nicolai		Overland Park	Yes, I do think school "opening" should be delayed to allow teachers to develop the quality online classes our kids deserve and for admins to figure out how this is going to work if we don't have buses, or don't have teachers willing to risk long term disability or death due to Covid. There's no way many parents in the KC metro will send their kids to in-person classes, possibly this entire academic year. So yes, let's wait a few weeks.
7/20/2020 22:46:08	April	Springer		Cimarron	Absolutely NO mask! Kids need to see emotions. No cloth mask is going to stop a virus. Do your research.
7/20/2020 22:46:12	Stephanie	Brown		Augusta	As a teacher, parent of a teacher, and grandparent of a new kindergartener, it is my hope that we you will decide to wait the 3 weeks to start school. I'm not only concerned health-wise, but am also concerned about the time it is going to take to disseminate information in in order to plan for this VERY unusual school year. I only wish everyone would take this virus seriously and do their part to help see a decrease begin to happen.
7/20/2020 22:46:13	Jennifer	neywick	Cunningham	Cunningham	no
7/20/2020 22:46:19	Susana	Ramirez	Parent	Kansas City	I do not want my child to be in school while a pandemic is in affect. Please delay the 2020-2021 school year. I wish for her to be safe as well as her teachers.
7/20/2020 22:46:39	Sharla	Marriott	Mother of a student at m	Olathe	Our family thinks it is in the best interest of our child for school to start on time and not delay until after Labor Day. They need to have their school routine back and have some normalcy back In their lives. We fully support in school learning.
7/20/2020 22:46:40	Brian	Prendergast	parents	Lenexa	Please vote no on mandate to delay schools opening.
7/20/2020 22:46:47	Erin	Ybarra	Parent and teacher in use	Wichita	Thank you in advance for passing this executive order. As a public school teacher in Kansas, as well as a parent, I can breathe a sigh of relief knowing that we will have a few more weeks to plan and prepare for the upcoming year, as well as hopefully lower our numbers in our city/State.
7/20/2020 22:46:50	Kaylyn	Bruns	USD 450	Topeka	Schools should remain closed until after Labor Day. Teachers and staff need ample time to plan for several scenarios for this school year.
7/20/2020 22:46:58	Betsy	Meeks	Teacher	Shawnee	I appreciate that leaders are listening to the science and have delayed the beginning of the school year. I am personally fearful to return to teach in the classroom as my school has stated they believe 3 feet will be acceptable social distancing. Of course the science tells us 6 to 8 feet is how far this airborne pathogen can travel. This, along with poor ventilation, puts an older teacher like myself at a very high risk. I am considering resigning if we return in person. My life is worth more than the desire I have to continue in the job I love! Please consider the teachers when making decisions. I understand students need to be at school, but in the big scheme of things this is only a short period of time!

7/20/2020 22:46:58	Lori	Austin	Plainville Public School	Plainville	Please do not delay the school year any longer. Let the kids go to school, play sports, play in concerts and choir, go on field trips, learn, thrive, grow, succeed. Please do not require kindergarten classes to wear masks. Kindergarten holds 5 and 6 year olds. I can't think of an elementary grade level that would be able to successfully wear masks without causing other issues. We do not want to scare our kids. We do not want to detour or dampen their drive to learn, to succeed, to enjoy education. We want to encourage learning, entrepreneurship, team playing, social and emotional health and growth. Please do not force small communities to follow rules and regulations that may fit well in a large city, but smaller schools makes it unnecessary. Please allow each school, and school board to decide what is best for their communities without feeling pressured or guilty.
7/20/2020 22:47:00	Kristi	Kyle	Citizen and voter and pr	Kingman	Start school now. Kids need to be there. Parents need to be working. Totally unrealistic to expect little kids to wear masks. Online learning does not work- collaborative groups and manipulative are absolutely necessary for K-5. Sports are also needed. Consider the needs of kids. Get them back in school. No masks for littles. Research randomly controlled tests about the science of masks. Active learning requires the student to engage with the speaker. Visual learners need to be watching the teacher's speak as they listen to the speaker speak. Not possible with the teacher wearing a mask. Please get our kids back in school now!
7/20/2020 22:47:02	Sara	Cahoone	Parent	McPherson	Please start school in August. We are already so far behind starting this year without finishing the last. Please do not delay any longer sending kids back to school. There have been no children that have died in KS. Cases are up but deaths ARE NOT. What will you take away next? Kids need to be in school. We need to have herd immunity!
7/20/2020 22:47:06	Rachel	Cochran		Overland Park	I refuse to jeopardize the health and safety of teachers, staff, and students. They cannot go into a regular school setting safely. Even one life lost is too many. Please listen to scientists and medical doctors not politicians when making this decision. Please make this decision by removing politics and truly looking out for the best interests of the families involved!
7/20/2020 22:47:07	Alicia	Beeson		Norton	Make a decision and stick with it! Delaying school isn't going to help anyone. Kids are such a small percentage of the positive population. Let the districts decide like they always do.
7/20/2020 22:47:07	Mikaela	Moore	Self	Hiawatha	Do as Gov Kelly says and do not open schools before Labor Day. Schools need more time to prepare both their plans for multiple modalities so that it can be effective this year for our students and need time to prepare for logistics of distancing and also supplies for sanitizing. Products are difficult to get right now and schools need time if they are going to do this right. We saw how a rushed approach to planning turned out last year. Let's not repeat that. Quit being political and follow the lead of the governor. Support her decision and start schools after Labor Day. It's the right thing to do.
7/20/2020 22:47:12	Mistie	Roberts		Olathe	OPEN THE SCHOOLS!! Our kids can't keep being denied this basic right of education. Leave it to the parents to decide whether or not they send them.
7/20/2020 22:47:13	Chanda	Bush	My family	Dighton	We have no active cases. Requiring adults to wear a mask is not right and especially not children.
7/20/2020 22:47:16	Brecken	Mangan		Tribune	As a mom that works full time from home with 3 kids, I ask that school start as planned. These last several months have been very hard on my family. I had to spend 1-2 hours a day with my each kid when we were homeschooling. So 3-6 hours a day working on school...and I also had to find time to work 8 hours. I don't know that it's fair to say all of Kansas schools have to do everything the same. Our county has only had 3 cases. I feel like we would be in a safe position to start. And when we do start, I think trying to social distance and wear masks is a terrible idea. The masks will be a distraction and I think the social distancing will be hard on those kids. These kids (and their parents) have been thru enough. We need some sense of normalcy back. When this all started the goal was to flatten the curve. I feel like we've succeeded in that. But now all of the sudden it seems like we don't expect to have any cases? Of course we will, that was the whole idea, spread it out of several months instead of just 1 or 2. Mission accomplished, let's get these kids back into school where they actually have a chance at learning something. They need school, they need social interaction, they need sports and competition...they need this all for their mental health, physical health, and as a family we need it for our emotional health. Please help us to keep our kids healthy in other ways besides just COVID health concerns. There are many, many more health concerns that come about from what is going on now. Please keep their overall well being in mind when making your decision, thank you.

7/20/2020 22:47:17	Lizabeth	Rosewicz	Geary County USD475	Pottawatomie	I request that the State Board of Education supports the Governor's executive order pushing the start date of school to after Labor Day. I am a high risk person for contracting the virus and have been feeling high amounts of stress over this and have not been able to sleep well. I teach elementary art to three buildings and see over 1,500 students per month and have contact with each teacher in the building as well as other personnel. Please, I implore you to support the Governor and make the healthiest and safest decision for our teachers, staff and students!
7/20/2020 22:47:20	Deanna	Ketner	Blue Valley School Dist	Olathe	My preference is for the start of school to be delayed until after Labor Day.
7/20/2020 22:47:22	Kate	Gulick	My family	Olathe	I agree with the Governor that delaying the start of the school year gives the districts more time to come up with useful and hopefully successful guidelines and alternatives to traditional in person school.
7/20/2020 22:47:25	Emily	Freeman		Shawnee	We agree with the delay of school starting, but truly hope that it encourages school districts to come up with a creative plan for getting schools at least partially in-person. We are hoping for a hybrid approach.
7/20/2020 22:47:31	Sarah	Doerfler	Teacher	Hays	Upon many conversations with my fellow teachers, we all agree to wait and open school in order to receive extra time for training in many areas: online classroom applications, sanitation, and extended routine & procedure protocols. We want to be as prepared as possible during these times of uncertainty, as a standing foundation for all of the children. Thank You.
7/20/2020 22:47:32	Merri	Meyers	Olathe school district	Olathe	I support Governor Kelly's desire to keep our students safe by opening later (after Labor Day). I also support a hybrid schedule for my Olathe North High School student, where he would attend in person in a smaller class size some of the days and online class the other days.
7/20/2020 22:47:39	Samantha	W.	Junction City Middle Sc	Junction City, KS	Keep schools closed!
7/20/2020 22:47:53	Alyssa	Cole		Wichita	As a first-year teacher, I definitely understand the health concerns with students returning to school at the normal time. However, I am concerned about the safety of children. Kids will have been out of school for nearly six months if school openings are postponed until after Labor Day, and many of these children may be in unsafe situations that have been exacerbated by the economic hardships and added stress of the pandemic in recent months. As teachers and other school professionals are often the reporters of child abuse and neglect, I worry about these children who likely do not have eyes on them at this time and for whom school is the only safe place. In addition, many students have had no engagement in education for months, and they are missing out on valuable learning. While I do not know exactly what the best decision for Kansas schools is, I believe these things are worth consideration and that the physical safety, emotional health, and educational opportunities of these students must be weighed and addressed in whatever decision is made.
7/20/2020 22:47:57	Melissa	Merriam		Overland Park	Please keep the governors mandate to start on Sept. 9. It is important to keep teachers, faculty and students safe. Covid cases are at all time high in Joco
7/20/2020 22:48:08	Pam	Hale	Children's Mercy Pharm	Shawnee	Please support the proposal to delay school opening. Our kids need to be in physical schools, but it also needs to be safe. An alternative schedule for this year is our best option to keep everyone safe& still have school.
7/20/2020 22:48:13	Jackie	Roy	Olathe School District	Olathe	Please delay the school year or go digital. I am a first grade teacher and know my kids will come to school sick and pass it on. Parents send them to school sick all the time. I want to go back to my students but only when it is safe! I don't want to get this nor do I want to pass it to anyone else. Please take politics out of this and do what is right for our kids.
7/20/2020 22:48:13	Diane	Owen	USD497	Lawrence	I work at Lawrence High School. With adults, there are over 2000 individuals in the building. I can't even imagine 2000 people together for 7 hours at this time. Why are you even hesitating giving us time to prepare for that? I am 63 with 3 stents. I would retire, but I need health care. Why can't we have 3 miserable weeks to prepare to jam 2000 people in a building for 7 hours with Covid circulating? NO LOGICAL REASON. Please be reasonable.
7/20/2020 22:48:23	Jennifer	Scheer		Lenexa - Olathe School	Kids need an education. They need structure and stimulation among other things. I don't want them at risk, but they have been out of school 4 months. It will be 6 months after Labor Day. There is no vaccine yet and nothing truly is going to change between now and September due to that. Schools have had plenty of time to plan online or in person. If they don't yet have the supplies to open in person, then let them open online. Let each area decide what is best for their district vs a one size fits all approach for the entire state.
7/20/2020 22:48:30	Michele	Schieferecke	USD434	Carbondale	Please vote against this order.
7/20/2020 22:49:06	Cindy	Kirby		Overland Park	please do not start until AFTER September, I would prefer online only until numbers go down or vaccine.
					I agree with starting school after Labor Day as long as school sports can resume with caution as well.

7/20/2020 22:49:06	Karen	Block	KCKPS	Raytown	I am very worried about a return to in-person schooling until a vaccine and/or reliable treatment is available. I am 62 and have asthma. My husband is 73 and has diabetes. A member of my extended family has metastasized cancer and is immuno-compromised. I am an itinerant speech pathologist in my district and am assigned to 2 different school buildings. I have 60+ children that I see multiple times weekly on my caseload and over 30 teachers I interact with regularly to provide services to those students. My chances of coming in contact with the virus while in school are very high. I hope I don't have to choose between doing my job and protecting my life and the life of my loved ones.
7/20/2020 22:49:27	Aimee	Rosenow		Topeka	Please allow for in person learning options for the 2020-21 school year as well as on time school start. As a parent of older elementary and preK students, it seems unfair that one child can start as scheduled but the older kids can't. My children struggled with virtual learning during lockdown in the spring and I struggled teaching them. One of my children, who is very outgoing, even struggled with depression. That is not a situation we want to relive. Please open schools!
7/20/2020 22:49:35	Sherrie	Wiedeman	My Children	Colby	I am okay with starting school after Labor Day, but only if you can guarantee that is when it will start. A guarantee that there will not be another start delay because of rise in cases etc. In addition, I am extremely opposed to kids wearing masks. It is ridiculous that the Governor is saying masks for 6th through 12th grades but not the younger children. I have a teaching degree and was an educator for several years. The younger children exchange germs at a much more rapid rate than the older students who know how to cough into their arm, sneeze in a kleenex, and not pick their noses in public!!! Please do not make any students wear masks. I mean seriously if they have to wear masks during school are they also going to wear masks playing football, volleyball, etc. I think the masks will be a constant source of distraction during the day!!! Furthermore, I worry about the health consequences of wearing a mask the entire day for children!!
7/20/2020 22:49:41	Patricia	Judy		Olathe	I agree with the delay
7/20/2020 22:49:42	Jennifer	Wilson		Prairie Village	I am a parent in the Shawnee Mission District and I fully support the executive order to postpone the start of school due to the rising cases across the state.
7/20/2020 22:49:44	Kathryn	Tanner		Olathe	Thank you for your time.
7/20/2020 22:49:52	Kori	Green	Self/high school teacher	Wichita	I would like schools to delay opening. Safety HAS to reign supreme here. One life is too many to sacrifice.
7/20/2020 22:49:56	Shannon	Little	Self, taxpayer, parent	Topeka	We need to follow the advice of our medical experts and give our state the opportunity to get the current outbreak under control before we send students back to the classroom. We do not fully understand what this virus does with children and what the long term consequences might be. Please accept Gov Kelly's EO and give our schools a chance to be successful. We are an innovative state and we can handle this with your support.
7/20/2020 22:50:00	Amy	Fenner		Goodland	Please adopt all of the Governor's Executive Orders. I support all and especially a delayed school start date, masking, temperature checks, and hand washing policies.
7/20/2020 22:50:14	Amber	Rikoric		Leavenworth	Conditions are not the same state-wide, so why should the implementation be? Return the power to the people and allow our individual school boards to decide what's best for their area. We elect you to represent us, not control us.
7/20/2020 22:50:17	Abigail	Buser		Manhattan	I am worried about making sure I get paid. I wonder if teachers can return to do training and prepare before Labor Day.
7/20/2020 22:50:19	Cathy	Eftink		Goodland	As an educator, I would appreciate the delay. It will be important in being as prepared as possible. With the extra few weeks, teachers will be able to be trained and be ready for online learning if that situation arises.
7/20/2020 22:50:20	Erinn	Whalen	Parent	Osage City	I don't think it's right to make a decision that applies statewide when the entire state is affected differently. Each school board should be allowed to make plans/decisions for their own district after the state board makes recommendations. The governor's orders from the spring and just recently had massive impacts on our schools and children when we had no cases. The orders were issued because of what was going on in schools on the east side of the state.
					I think we should delay at least the first semester until March. After cold and flu season and continuing to flatten the curve without exposing more kids that could spread Covid. School could go into the summer months to make up the time missed. The infection rates are still too high to put the kids and staff into a petrie dish. I'm am open to remote learning but I'm not a teacher and my child needs the professional educators.

7/20/2020 22:50:21	Whitney	Rohlman	Cunningham USD 332	Cunningham	Allow decisions to be made at the local level. I want my kids back in school on time and in person. If we start late and have to extend the school year it will have an impact on wheat harvest. Our small district of less than 200 students is smaller than some city daycares centers. Our rural district is not the same as an urban school. Please keep the decisions up to the local boards.
7/20/2020 22:50:24	Katy	Congdon	Cair Paravel Latin School	Topeka	Please give each organization control over what they decide. Our school has only 350 students and the administration has had things in place for safety and precautions for months. They are prepared and we want our 3 grammar school boys back in the classroom. Please let them go back.
7/20/2020 22:50:39	Jessica	Kannady	USD 352	Goodland	Start in Aug. please
7/20/2020 22:50:40	Nancy	Mateos	Myself	Overland Park	I 100% support the delay. Thank you, Governor Kelly, for providing the leadership we need!
7/20/2020 22:50:58	Tara	West		Lenexa, KS	Keep schools closed until Sept.
7/20/2020 22:51:02	bryan	wiese		Leawood	I'm in strong support of Governor Kelly's executive order delaying the start of school for two reasons - 1) safety of our teachers, admins, and students and 2) gives our teachers adequate time to fully prepare to teach in this environment, with state/district guidelines turned into actions
7/20/2020 22:51:10	Stacy	Millerskow		Maize	Please delay the start of school until cases drop. Safety of our children should be put first! To many what ifs if returning to school to soon. I don't want my kids crammed in a classroom of 25 kids. NOT SAFE.
7/20/2020 22:51:11	Livia	Custer		Minneola, KS	To begin with, thank you for your service and making this tough decision. I am in support of Gov. Kelley's order to delay schools starting until after Labor Day. I have been teaching for 16 years in Kansas and I couldn't be more proud of our state and its educational leaders. A few reasons I support the delay... 1) First and foremost Student, family, and community safety. We are a small 1A school but just this week we are beginning to see a rise in cases. Our rural communities do not have the medical infrastructure in place it handle many Covid patients. It will also provide time for schools to retrofit their facilities to meet the PPE requirements. 2) Educational Equity across the state. This will help provide consistency, clarity, and equal opportunity for education for all Kansas students. 3) Time for professional development of staff for safety implementation and curriculum development 4) Curriculum/Planning development opportunity - This will allow teachers, admin, and parents time to develop cohesive learning plans that will follow the KSBE recommendations that were released less than a week ago. 5) Increase School Board collaboration and effectiveness - This opportunity will allow local school boards to have more time to develop and implement comprehensive learning plans based on their community needs. Those are just a few of the reasons that I can foresee delaying school opening. I know that this decision cannot be taken lightly and I can see many valid reasons for the other side of this debate. Again, thank you for your time and service to our students, teachers, admin, communities, and state.
7/20/2020 22:51:22	Jennie	Watts	Parent of USD 450	Topeka	I do not feel that delaying the start of school is necessary. Let's get the students back in the classrooms on time.
7/20/2020 22:51:23	Evie	Unrein	Parent and Elementary	Wichita	I am requesting that you support Governor Kelly's Executive Order to delay the start of Kansas schools until after labor day. As a teacher, and a parent, I am very concerned about returning to school while our cases of covid continue to rise.  My small family has been obnoxiously strict about social distancing and safety measures. We don't go out except for grocery pick ups, and if family comes to visit we all wear masks inside our house. I'm worried about being in close quarters with so many staff and students who may not be distancing well outside of school. As an elementary school technology teacher, I teach every student (nearly 500 of them) two or three times each week.  I'm eager to get back to school when we can do so safely. I am also in support of bringing teachers back on our previously scheduled start date so that we can begin planning together.
7/20/2020 22:51:24	Drinda	Harter	Parent	Johnson County	Thank you for your time and hopefully your support. Don't delay school opening and no mask for 5th grade and below.

7/20/2020 22:51:33	Ashby	Rowan	Teachers	Olathe	As a teacher that regularly goes above and beyond to teach young children I would greatly advise not opening schools or opening virtually. Every year I have parents disregard fever protocol and have students at school with parents who knew they were sick. I can only imagine the havoc covid will cause in a first grade classroom with no masks. If my students don't show symptoms, who's to say that won't spread further through the community with silent spreaders. I do not feel comfortable teaching students and coming home to my newborn child and husband. Please keep our students, teachers, paras, and subs safe.
7/20/2020 22:51:37	Teresa	Commerford		Bucklin	We need to open schools on time (mid-August/before Labor Day) with use of the KSDE guidelines. Our district has a high number of at-risk kids that need to be back in the classroom, because home isn't safe. In addition, I have higher performing students who have stated they will work to get a GED and either start college or join the workforce if schools are delayed and sports are postponed/cancelled. I am a high school teacher, and am willing to take extra precautions to be able to open up on time.
7/20/2020 22:51:42	JoAnn	Romano	United States of Americ	Olathe	Children need to be back in school-without mandates masks! This is purely a political parlay and NOT in the best interests of Kansas families!
7/20/2020 22:51:42	Jennifer	Duncan		Newton	As a teacher in the great state of Kansas, I urge you to accept Governor Kelly's executive order delaying the start of school. We must listen to the advice of our medical professionals when it comes to ALL people inside our school buildings, not just the students. The research is currently inconclusive on whether or not children transmit the disease as easily, or get sick as often, but children are not the only ones in our buildings. Unless you teach in an elementary school, you work with teenagers who spread the disease as easily as adults. There are staff members, staff member families, and student's families to also consider here. The additional time before the start of school will give districts time to procure the items they need to make school as safe as possible. PPE, sanitizing supplies, plexiglass shields- these are all in high demand and hard to find. Districts across the state have been working to find and purchase these items all summer, but many are on backorder or not in stock. We have to make sure that our school district's have the time to get these essential supplies. The issue of Covid has somehow become a political point, but let me be clear, it should NOT be political in any way, shape or form. What we are dealing with is a public health emergency and it should be dealt with as such. If Governor Kelly's order is not upheld, we will see the same things that happened when Kansas' county commissioners refused to enforce the mask mandate-exponential infection rates and spread of this virus. I beg you, DO NOT make the same mistakes they did. We can't keep making the same decisions and expecting different results. Our children and staff deserve the best and to learn in an environment that is safe.
7/20/2020 22:51:45	Robin	Block	Myself	Topeka	School needs to start on time and run normal hours.
7/20/2020 22:52:03	Melanie	Nicsinger		Overland Park	In-person school is dangerous for the staff and students. Even with masks, students won't comply and will spread COVID-19 to each other, the adults in the buildings and then bring it home to parents and grandparents. The children may have non-life-threatening symptoms, but too many adult lives will be lost. Also, the expense of paying teachers sick leave or paying them when they have to be quarantined for 14 after exposure is outrageous. Also, to the same point, as children test positive, the other children who were exposed will need to be quarantined and within weeks of school starting, it will be unmanageable trying to educate children online in quarantine while at the same time in the school building. Best solution is to start online and hope that by the spring the numbers of COVID-19 cases will drop enough to lower the risk.
7/20/2020 22:52:04	Laura	Vind		Lincolnville	Do not open schools!!!! It is not safe!

					<p>I respectfully request that we work with you to ensure a safe school environment that accomplishes both of the following:</p> <ul style="list-style-type: none"> <li>•Safe School opening following the Board of Education Return to School Plan</li> <li>•No delay to student participation in school, athletics, and activities.</li> </ul> <p>In response to the Mandate delaying School opening statewide, Please vote the mandate down and allow the individual districts to make their own decisions.</p> <p>This will allow each district to make the decision that is best for its community. The situations vary widely across the state and a one size fits all approach does not make sense.</p> <p>Based upon the information available, I believe we are able to send them safely back to school and activities now. I also believe we do more harm than good if we delay starting school and activities on time.</p> <p>We all are thankful for the leadership you have provided in leading through the Covid-19 pandemic and know that you have our support.</p>
7/20/2020 22:52:06	Lori	Turner	USD 232 Parent	Shawnee, KS	
7/20/2020 22:52:06	LynAnn	Bowman		Bucklim	<p>As a mother of eight children and a teacher I value a quality education and as a family we work hard to educate beyond the walls of the school. The problem is in our small town our family is not typical. We have many low socioeconomic families who can barely make it, let alone thrive. Many single parent families rely on the school to educate their children as well as provide much needed food. Our schools teachers really help raise the children in our community. When you look at the fact that our children have been out of school since mid March and possibly won't go back until September that is very concerning! Children in our community and others like ours need their school family back .. they need the routine of seeing those friendly teachers and peer groups, they need to feel the social and emotional stability of school. Please reconsider the decision Governor Kelly made and put our children back in school where they can thrive and not merely survive!</p>
7/20/2020 22:52:23	Sara	Dwyer		Wichita	<p>Considering Kansas has the second highest amount of covid-19 cases in the country, I do not think it is wise to reopen schools. I believe distance learning is the safest option for not only the students, but the adults who are working in that building as well who also need to be considered.</p>
7/20/2020 22:52:26	Terri	Detrick	Olathe Public Schools U	Olathe	<p>Please vote to not begin school until after Labor Day. We need time to be trained and prepare for movement of students and staff safely. If you know the mindset of middle schoolers you know this task of keeping distance, correctly wearing a mask, plus new learning environment must be orchestrated in such a way to keep not only students safe but staff as well.</p> <p>Thank you.</p>
7/20/2020 22:52:28	Bobbi	Murray	USD 329	Belvue	<p>Please delay start</p>
7/20/2020 22:52:35	Tasha	Koker	#437 Auburn Washburn	Topeka	<p>Please consider delaying school to give school districts and staff adequate time to clean and plan for the school year. I want my child to go to school and I want to teach, but would like time to have to get prepared.</p>
7/20/2020 22:52:50	Blair	Hollis	Blue Valley USD229	Prairie Village	<p>Please think about the safety of your students and teachers. Delay the start of school and divide a safe learning environment. If that can't happen, provide an online option until a safe environment can be provided. Last February I asked for two big bottles of hand sanitizer and my principal told me it wasn't in the budget. Hopefully that budget is being reworked.</p>
7/20/2020 22:52:55	Kalynn	Johnson		ELKHART	<p>I feel that the decision to open up later in September or sooner in August, should be decided by the local school board and the school administrator's and staff. Each county in Kansas is different. Sure, the bigger cities in Eastern Kansas and a few in Central and Western Kansas are having spikes right now. But, majority of the Kansas Counties do not have many cases and all have been contained and not community spread. The kids need to get back into a routine. They were yanked out of their routine a month and a half early and they need this normalcy. As long as the schools have a good plan in place for keeping things more clean, let the schools open up. The American Pediatric Society says let the kids go back.</p>

7/20/2020 22:52:56	Gail	Snowbarger	Parent and staff member	Olathe	<p>I support delaying students until after Labor Day and delaying STAFF the same respective number of days or as many as possible. I also believe we have had enough "out of the norm" in the past six months to last a life time :) so I also support district calendars being allowed to finish at their typical time, meaning flexibility in completing mandated contact hours with students (example: extended school day, shortened breaks)</p> <p>Taking into consideration the varying needs of the districts across the state of Kansas, I also support allowing districts either the choice to begin as schedule or to delay until after Labor Day. Another variation of this might be to delay the start of the school year state wide and allow districts in areas with little to no outbreak to write a variance to begin as regularly scheduled.</p> <p>I desire to see the state of Kansas work together for the good of students and educators. I would be so terribly disappointed to see our amazing students and hardworking staff pay the price for Democrats and Republicans jockeying for power. Please be the wonderful Kansans that I know you are! Show the world how to cooperate, instead of how to compete and fight.</p>
7/20/2020 22:53:01	Ken	Morris		TOPEKA	<p>There is no reason to have school start before Labor Day, and zero reason to have kids in physical classrooms at all. There is a real danger in COVID, and putting kids that close together will cause the spread of the virus to their parents, siblings, grandparents, friends, and on and on.</p> <p>What good does it do to send a kid into school to a science class when they will later be told that science shouldn't be used in appropriate decision making? This debate is a farce.</p>
7/20/2020 22:53:06	Melissa	Hixon	Olathe public schools	Olathe	In person 8/14
7/20/2020 22:53:07	Mary	Courtney	United Methodist Church	Johnson	When I started teaching in Rolla in 1987, we were one of many schools that started the day after Labor Day. The students were ready to begin, and they were successful in their classes. Now, they are threatened by an unseen, incredibly dangerous virus that thrives in crowds. It will not hurt to delay the start to insure safety measures and equipment are in place.
7/20/2020 22:53:20	Phillip	Wrigley		Lawrence	Please uphold the order. We have one chance to get this right.
7/20/2020 22:53:22	Sara	Sowers	Parent	Bird City KS	Reopen public schools and no mask requirements please!
7/20/2020 22:53:23	Cori	Wegner	Parent	Silver Lake	Please send our kids back to school. I have a senior who had a 3.8 GPA the beginning of March. He ended with a 2.9. The guilt I felt being an essential worker and working more hours than normal due to Covid. I was not able to stay home with him and failed him as a parent regarding online learning. He needs to be in the classroom.
7/20/2020 22:53:25	Brandy	Rea	Students with Disabilities	Leawood	I am blessed to be the mother of an amazing son with autism. Before the schools shut down, Brody was part of a wonderful program called LIFT run by the Blue Valley School District that provided all day one-on-one support that he needs due to his differences. He had exceptional occupational therapy, speech therapy, behavior therapy, social skill development, individualized special education and more all under an Individualized Education Plan (IEP). Due to COVID and the schools being closed, this amazing program is closed, his IEP has been suspended and him and children like him no longer have proper access to essential services they need that used to be provided through the school district. While I completely understand and appreciate the risks of reopening school for typical children, I do ask for consideration for children like Brody. We can no longer suspend these essential services and we need plans in place to accommodate children with disabilities in the State of Kansas if schools continue to be closed. We need help. I much appreciate consideration for finding a way to properly reinstate these services and I know, as a community, we can do it. For these children it is not just about education - it is about their health, safety and ability to thrive in life. I know that these are difficult times and I pray for all of us to come together and be kind, love each other, and provide support for those that may need it. In conclusion, I am kindly asking for your support for my son - and other kids like him - and allow schools to at least reopen partially to serve students with disabilities and reinstate these essential medical, behavioral and mental health services.
7/20/2020 22:53:28	Whitney	Wilson		Prairie Village	In light of the fact that cases in the Kansas City metro, including Johnson County, are on the rise, I see no reason to rush into sending our children back to school. I think Governor Kelly's order delaying the start of the school year was a well-informed decision made with the best interests of families, faculty, and staff in mind, and I firmly believe it should stand. Academic progress can be replaced; lives cannot.

7/20/2020 22:53:34	Jessica	Navarro		Stafford	I do not mind that school has been delayed until after Labor Day as this is when school used to start anyways before inching their way forward. I do not feel as though it should be delayed past then. Students mental, emotional, and physical state are at risk with not being in school. If we continue to have kids out of school we are creating a much bigger problem.
7/20/2020 22:53:35	Ody	Jacobs		Derby	This cannot happen, our children have suffered enough. We will not sacrifice our children's future over a political agenda. There is no coming back from this.
7/20/2020 22:53:36	Fiona	Turner	Myself	Gardner, KS	I believe that it is in the best interest for public health and safety to delay the 2020-2021 school year. Education can be replaced and supplemented, lives cannot.
7/20/2020 22:53:56	Michle	Haunschild		Valley Center	A decision of this magnitude is never an easy one. I plead with you to put the health of our children, teachers, staff and parents as your top priority. My child of course wants to go back to school. He misses his friends and his teachers. He also deserves a top of the line education. None of that will mean a thing if his teacher, friends or family gets sick and doesn't get better. Cancelling school is not an option either. Online options are real options that pose little risk. You have time to put together a curriculum that will actually benefit the kids and improve their learning experience. Please consider this as a option for re opening our schools.
7/20/2020 22:53:59	Jill	Strahm		Topeka	Open schools. This has gone way too far. Keep the on-line option for those parents who don't want to send their kids back.
7/20/2020 22:54:02	Sarah	Jerby		Phillipsburg	I believe for our little community it's essential to stay closed until after the holiday. 1rst reason is we have the rodeo coming up which brings tons of visitors right before school is to open, which gives us virtually no time to see how this will affect our community if we start on our normal August 13th date. 2nd reason is this gives our district time to properly plan out not only which route they wish to go down education wise but it also gives them time to aquire masks and sanitizer. 3rd reason is it gives us as parents proper time to decide which route is best for our children based off of how our district plans to move forward. I firmly believe if we as a state do not listen to the warning about social distancing, proper mask wearing, and proper hygiene such as hand washing and sanitizing we will not see a great outcome from opening up too soon. As a parent who takes my childs education very seriously, I do keep my kids home when they are sick, and I do make sure they are using proper hygiene, but I can only do my part and other parents unfortunately will not. To some school os simply a child care facility and in our district we have had kids told to go back to class with a fevwr or children who have vomited told to just go back to class and try and ride it out. I jave seen it first hand as I worked as a dietician for over 5 years on my district before following a different career path. We are fighting a virus here, not a political war. We need to not only worry about the safety of our children but the safety of everyone, insulin depentent, the elderly, and those with other underlined conditions. Thank you for your time. Gods speed and prayers for all while making this tough decision.
7/20/2020 22:54:02	Fabienne	Parker	My home	Olathe	I agree with the executive order that Gov. Kelly issued in regards to delaying school. My families health is worth everything to me. We can NOT afford to be wrong about covid 19 and I will trust science and not political opinion. Until a safe downward trend is sustained in my area in person learning can not happen!
7/20/2020 22:54:13	Lindsay	Murillo	KNEA	Olathe	The Kansas Board of Education needs to seriously take into consideration the state of Kansas' students and teachers. Delaying classes until September is for the best. However, outdoor sports training should be okay because it is easier to adhere to social distancing outside for conditioning and weight training. Cramming classrooms full of students with masks is not ideal for anyone. Kansas needs to go back to the drawing board and come up with a hybrid model for schools to use. It is easy to make decisions from an office on other people's lives and well-being. Support your teachers and not your ego. Be smart and listen. Everyone wants things to be normal, however, that is not reality at this time.

					.008 percent of total KS population has tested positive .08 percent of total KS population has tested negative .01 percent of positive cases end in death Currently 481 people in Kansas hospitals Figures from Kansas Hospital Association website. 7/20/2020
7/20/2020 22:54:32	Malia	Lindner	Elementary special educ	Augusta	Open the schools
7/20/2020 22:54:40	Tanya	Szanto		Goodland	Please follow the governor's recommendation and delay the start of school to give schools and teachers (of which I am one) time to plan for this new school year.
7/20/2020 22:54:42	David	Robinett		Salina	I think it should be up to the individual districts to decide what is best for their kids. This isn't a one size fits all. Saline County has many COVID-19 cases compared to many counties around the state that have less than 10. As a teacher and parent I want my kids, students, and myself to be safe when we go back but I'd rather have our district and local health department decide what is best for us. Thank you!
7/20/2020 22:54:42	Roxanne	Zillinger		Topeka	For the safety of everyone in our state, I strongly support delaying the start of school. I want my children to be in school, interacting with their peers and teachers, but not if it increases the spread of COVID-19 and puts people's lives in danger; especially right now as numbers continue to rise daily.
7/20/2020 22:54:43	Sheralyn	Goering	None	Newton	Please follow governor Kelly's executive order. Kansas covid numbers are out of control.
					I support the delay, though I do not necessarily think it needs to be statewide. Some smaller districts may not have the same impact currently that places like Wyandotte are seeing.  My personal concern is, who will cover my class when me, my 2 toddlers and husband get Covid and have to quarantine for 14+ days? What is the plan, when there were sub shortages BEFORE the pandemic? Should I expect to have 30-40 second graders in my room when my colleagues are out, as well? How would social distancing work without subs to cover absent teachers?  If my family did not get sick at the same time, but back to back, I could possibly have to quarantine 56 days, or more if there was a hospitalization. These are the scenarios stressing me out right now. Is your Magic 8 Ball working? Because mine is on the fritz...
7/20/2020 22:54:45	Stacy	Fletcher	USD 204	Kansas City, KS	
					As both a parent and a teacher, I implore you to please uphold the Governor's executive order. I wish that all local districts would make the right choice to start late and give their teachers and administrators the chance to take the guidance given by KSDE and develop the best plans for their situation but I'm not confident in that and teachers and administrators need that time, regardless of the case count in their district. If there happens to be an uptick in cases later in a district that has very few now, this time will allow them to put plans in place so if a shift has to be made mid year they will be ready. Prior planning is essential and having back up plans in place will be key to ensuring that our students get the best possible education regardless of the situation. I also believe that activities need to be halted immediately and not August 10. It does not make sense to keep pushing activities if we're worried about virus spread. Shut it down for now and let's get some plans in place so we can come back in September.
7/20/2020 22:54:56	Rebecca	Jones		Basehor	
7/20/2020 22:55:02	Afaf	Bounouar	I am a parent of an 8th a	Olathe	I like the school buildings to open for summer activities and would like my kids to go back to school in August.
7/20/2020 22:55:05	Justin	Reich	Garden City High Schoo	Garden City	Completely against delaying the start of school.
7/20/2020 22:55:09	Madison	Richardson		Olathe	School in-person start dates should be suspended until after Labor Day to endure schools have measures in place to support protecting our children (PPE, thermometers, hand sanitizing stations, etc.).
7/20/2020 22:55:11	Debi	Von Lintel	Parent	Goodland	Think we should wait till after labor day
7/20/2020 22:55:11	Lisa	Guzman	KCKPS USD 500	Kansas City, KS	More time is required to prepare buildings, to establish best safety practices and procedures, and to be prepared for all possibilities.

7/20/2020 22:55:13	Megan	Evans		Medicine lodge	No mask for school children
7/20/2020 22:55:14	Jessica	Brunsmann		Olathe	I propose school begins virtually or 1-2 half days a week at first, working our way up to full face-to-face IF or WHEN it's safe. That may not be this school year. That may be short lived. But I would like to see the energy of our educators spent formulating a strong plan, ensuring each child has the opportunity to learn, and engaging our students, even if it's virtual. This is possible. Let's trust our educators, allow them some freedom to explore technology over the next few weeks, and give them the tools to do the jobs they do so well. It will look different this year, but in the grand scheme of things, this is short lived. I am against sending kids to in person school at this time, until we know more about the long-term effects of the virus on our children's organs. I have held onto the words of a superintendent from the East coast throughout this, "We may never know if we overreacted, but we will know quickly if we under-reacted." School can start safely on time if the technology we have access to is utilized.
7/20/2020 22:55:28	K	P	Parent of student in Catl	Wichita	School needs to open in August. This virus is going to be around for a while, we need to get our kids back in school. We can't keep them out forever!
7/20/2020 22:55:32	Amanda	Marrufo	USD 428 parent	Great Bend	School she continue. Our children need education full and set on please don't allow them to fall behind anymore
7/20/2020 22:55:39	Carla	Melia		Dodge City	As educators, I'm sure you all understand that for most children they learn in many forms, primarily in group settings. Elementary students specifically aren't great with "social distancing" nor should they have to be. Please tell us how will an environment that is covered in plexi glass or whatever type of shield chosen to maintain this distance encourages learning? School should be a welcoming and safe environment where learning is what is focused on! If you all approve the EO 20-58, and children are required to wear masks, we would like to know what kind of assurance that the Kansas Board of Education is going to implement to keep our children safe? How are you going to assure that any type of activities, physical or not, our kids will be safe while wearing a mask? What metrics are you going to use to ensure their safety, both physically and mentally? Our children should not have to be put through all of those unnecessary restrictions to get an education! They need to be in the classroom, learning in an environment where they feel safe and ready to learn. We have complete faith that our school districts are ready to welcome our children to a clean and safe environment, where they do not need to wear masks! These kids are our future and it is our duty and honor to set them up for success. Please help make the right decision for our kids and disapprove Governor Kelly's Executive Order 20-58. Thank you all for your time and help.
7/20/2020 22:55:57	Becca	Semkin	Kansas City Kansas Pub	Kansas City, MO	I feel that with pushing it back for all after Labor Day will give districts and schools to fully prepare to education to start in person or online.  As a School Social Worker I will need ample time to get individual social emotional boxes ready for students. I miss my students but I also want all and anyone to be safe. Remember we are in a pandemic and cases and numbers continue to rise in Kansas.  Sincerely, Becca Semkin Devoted School Social worker who only wants the best for the students in my district and building. Please help keep us safe.
7/20/2020 22:56:03	Amy	Kepler		Lenexa	I fully support delaying the start of school until after Labor Day as our state tries to get our covid numbers back down. With numbers rising I don't feel comfortable sending my kids back to school and more time would allow parents to make a more informed decision as well all give schools more time to get all safety precautions in place before hundreds of kids gather together in school buildings. My daughter's middle school has over 700 kids.
7/20/2020 22:56:07	Laura	Thompson		Manhattan	I hope the state board of education will vote to uphold the executive order to allow school districts the time needed to safely re-open schools. Thank you!

7/20/2020 22:56:09	Stephanie	Bridwell	Kckps: usd 500. & smsd	Shawnee	I am a teacher in usd 500 and a parent of usd 512. I want more than anything for myself and my child to go back to school, but safely. I want to be provided all the safety measures for myself, my child and my students to learn in the buildings as much as possible. Funding needs to be provided to do so. Funding for adequate shields at group learning tables, funding for individual supplies and manipulatives. Also, please do not forget about special education students. We provide a second learning environment and need to have supplies in our rooms, also. We often do not get recognition for being teachers and also needing supplies and materials for our students in the gen ed classroom and in the resource room. We all want to be in school. Please help us to do this safely.
7/20/2020 22:56:11	Holly	Hageman		Abilene	Please do not delay the start of school until after Labor Day. These kids need to get back to school and to solid routines. If masks work to control the virus there should be no reason that school can't start on time.
7/20/2020 22:56:14	Mindy	Messmer	Classroom teacher	Lenexa	Please consider data in higher populated areas. I believe more rural areas have different circumstances. More urban/suburban areas need to be by area. I teach approximately 150 students and miss them and am ready to do back 100%. What I need from you is safety precautions so I am protected and my family is as well when I get home. If this can't be provided- please do what is right until it can be. Thank you:
7/20/2020 22:56:18	Kaitlin	Clawson	N/A	Ellinwood	Please keep schools closed till after Labor Day. I am a teacher, and I believe we need more time to gather information about this virus, and teachers need more time to create lessons and schedules for these new changes heading our way. After what happened last year, we deserve more time to come up with better lessons that are more engaging and rigorous for our kids.
7/20/2020 22:56:22	Billie	Palmer	Goddard Eisenhower HS	Wichita, KS	Please lock it down. Please keep our kids safe. Postpone, postpone, postpone! We beg you.
7/20/2020 22:56:23	Dom	Derosa	NEA - kck	Kansas City	I support the Governor's executive order. Gives districts and teachers to properly prepare for the safe return of students and staff. Gives everyone time to prepare for the formats of school.
7/20/2020 22:56:26	Anita	DeWeese	Skyline School	Pratt	As A teacher with 7 preps (4 of which are lab classes), please consider starting classes at the date Governor Kelly recommends. This extra time will allow me to better prepare for teaching labs in individual setting instead of group. Additionally, extra time will be required to get my lab and classroom ready to be able to meet the requirement needed.
7/20/2020 22:56:33	Elizabeth	Koch	Parent	Olathe, KS	I fully support the Governors' executive order in order to allow time for schools to make additional plans and preparations to ensure the safety of the teachers, staff and students. These people are our community, and we need to make sure we take care of them and support them so we can have a full year or education. Thank you for your willingness to lead during these challenging times!
7/20/2020 22:56:39	Lori	Lockhart		Ramona	Please support the delay of the opening of schools. My husband and I are both teachers and we are the sole caregivers for my mom. This decision impacts staff, students and the families they return home to on a daily basis. Honestly, we could teach online for a few weeks if necessary. We need to look at safety first. Literally, lives are on the line. There is too much unknown about this disease and any long term effects it may cause.
7/20/2020 22:56:57	Gina	Turner		Salina	As a specialist teacher and a parent, I'm extremely concerned about returning to school. My husband is also a teacher. I worry about quarantining. I worry about bringing the virus home to my immuno-compromised son. I worry that we aren't ready. Our doors are supposed to open Aug 11. That's less than 3 weeks from now. And there are so many unknowns. Please—I beg you—vote to delay school so we can calm the virus down.
7/20/2020 22:57:08	Melissa	Browning	USD 368, Paola KS	Paola KS	I work in USD 368 and I have a 5th grader and an 8th grader. We support the governors mandate to start school after Labor Day. This gives time for schools to implement the necessary safety measures, train teachers, inform and educate parents, and let teachers and special educators come up with an effective plan to best provide education to all kids,.
7/20/2020 22:57:13	Laura	Holland	Early childhood teachers	Overland Park	Plas delay school until after Labor Day or until the COVID numbers go down. I am a high risk teacher with serious concerns about starting school now.
7/20/2020 22:57:14	Denise	Humphrey	Olathe Public Schools	Olathe, Ks	Vote Yes to uphold Governor Kelly's Executive order to delay the opening of school until after Labor Day. Give the time for virus numbers to go down, and for the schools to have equipment, training and protocols in place, before sending staff and students back into a dangerous environment.

7/20/2020 22:57:26	Amye	Schneider		Bison	My concern....my son missed the last couple months of his junior year. The proposal is to miss the first month of his senior year and with this Governor, I would bet that she will extend delaying the start of school, further putting our children's futures in jeopardy or at the bare minimum delaying their opportunity to be successful by being several months behind, instead of being on schedule to begin their futures upon graduation. I already see students entering College unprepared and this will further put our students at a disadvantage and further behind. I would like to see students start on time with the option of attending f2f and/or via ZOOM/video conference and no matter the delivery that all students are required to do the same work. I would propose that schools set up a schedule where half of the class is f2f while the other is Zoom. Alternate so all students experience both delivery methods and get to see/socialize while social distancing with their classmates. Mix up the classes so it isn't a set group all the time. While I think this would be ideal for high school and most junior high students, I'm not sure this delivery method would work for K-5. These students need to start on time and requiring young students/any age K-12 students to wear masks seem unreasonable and impractical for numerous reasons. This is putting a bigger burden of responsibility on our teachers and administrators who already have enough on their plate. Seriously, how will you enforce kids wearing a mask and if they don't what are the consequences? Expulsion? Failure? Is that fair? If anything is delayed or cancelled, let it be sports; although there are great benefits to sports. Please, do not further delay our kids education and futures. If education is now optional, please let us know ASAP so as I parent, I can make a plan that will best benefit my child and his future, since the State of Kansas doesn't seem to be responsible anymore.
7/20/2020 22:57:29	Ashley	Matthews	Myself	Overland Park/Stilwell	I have looked at the numbers in our county as a RN. I have seen the effects on my children being out of school, the looks on their face when I say I have no idea if you will have school. My daughter breaks down and cries. We have 5 children. Four of our children are in school still. There needs to be some kind of in person schooling for our children starting on time. I wish we would have thought like some colleges and started earlier. Broke at Thanksgiving and gone back mid January. Cut out all this meaningless small breaks. Please our children need their teachers to teach! Also what about children that have asthma, or disabilities will face shields or something be ok instead of a mask?? We have this in our home. I just need to know what to plan for..... that's the other we as parents don't all have the luxury to stay home I am a essential worker. I am a RN my job doesn't stop. I need to be making plans and arrangements for my family to keep going!!!!
7/20/2020 22:57:35	Shawn	Springer	Derby USD 260	Derby	I truly hope you uphold Gov. Kelley's request to delay the start of school. Our cases in Sedgwick county are out of control. Please, not all local districts in our area will adjust the school calendars and do what's best. I am truly concerned for kids, parents, staff, and our community if schools open full like our district is planning to do. The state will loose many teachers and staff if we open fully on time.
7/20/2020 22:57:37	Michaela	Lake		Topeka	I urge you to heed the advice of the the American Academy of Pediatrics in holding off on school, at least in person schooling. By at least waiting until after Labor Day, it gives the chance to determine how the virus trends will rise and fall and if it will be able to curb the spread. Our children, their teachers and the support staff in schools should not be sacrificed for politics. Politics should have no part in the safety of our schools. Data is the only thing that should have a role in it. At this point the data shows it is not safe to do so.  NPR article on AAP pulling their support of opening schools in favor of following the data. <a href="https://www.npr.org/sections/coronavirus-live-updates/2020/07/10/889848834/nations-pediatricians-walk-back-support-for-in-person-school">https://www.npr.org/sections/coronavirus-live-updates/2020/07/10/889848834/nations-pediatricians-walk-back-support-for-in-person-school</a>
7/20/2020 22:57:46	Steve	olson		abilene	Follow the advice of the superintendents. Do what needs to be done to keep the children safe.
7/20/2020 22:58:01	Craig	Scheer		Lenexa	School should NOT be delayed
7/20/2020 22:58:22	John	Palmer	Goddard Eisenhower HS	Wichita, KS	Please postpone opening. It's for everyone safety. Give the masks time to work. We beg you.
7/20/2020 22:58:42	Amy	McGavran	Olathe Northwest High	Lenexa	Start school in August!!! Our kids need structure. They are depressed and need socialization.
7/20/2020 22:58:44	Trina	Riffel		Gypsum	I feel it is important to have kids back in school in August and not delay it further into September. Social/emotional factors are so important, especially at the younger grades! I am a teacher and am strongly for starting in August!
7/20/2020 22:58:52	gabby	scheer		olathe	i want to go back to school i'm bored 🙄

7/20/2020 22:59:04	Jericho	Johnson		Salina	I believe school should start remotely at the start of the year! Schools have a hard enough time controlling head lice and can't even do that accurately but yet we want to send our kids to school. I know there will be no correct answer that will make everyone happy but we must put politics aside and think about the safety of our children and educators.
7/20/2020 22:59:09	Bev	Birney		Bucklin	Open schools in August
7/20/2020 22:59:19	Jennifer	Guffey	None	Codell - 67663	I'm ok with the delay. However, schools should not be required to make up those missed hours/days of school. Requiring the days to be made up puts a strain on teachers & administrators. Many of these will be made up at the cost of school breaks, professional development days, and the end of school contracted days. State assessments should also be forgone the upcoming school year. Students missed out last year and the beginning of this year, and will be returning on a modified schedule. The teachers will pay the highest cost, as some school boards want all the days made up or cutting the teachers pay. Teacher pay needs to be protected as well as other school personnel who may be missing out on pay they desperately need.
7/20/2020 23:00:00	Lisa	Littlejohn	Parent	Newton Kansas	Please consider overturning the executive order for schools to not start until September 8th. We are not a one size fits all, and we have several counties that schools could be open. Our children can safely attend school, with proper safety measures, and need in person class settings. Thanks for your consideration.
7/20/2020 23:00:14	Alyssa	Vanderhoof	usd 105	Bird City	I fully support waiting until Sept. 9 given the guidance from the state was just released. If the BOE wants teachers and staff prepared to teach the competencies and be ready to go remote at any time, we NEED time to plan better than we were able to in March!
7/20/2020 23:00:14	Lisa	Allen		Olathe	I am a parent of a student in the Olathe school district. I implore you to delay the start of school until after Labor Day and then to offer virtual and hybrid options for students. This should not be political and the focus should, first and foremost, be on safety for both students and teachers. A safe return to school is impossible and requiring students to return will only cause harm in the long run. Please make the responsible choice and protect our children and their teachers.
7/20/2020 23:00:36	Jeff	Bubb	Pioneer Ridge Middle S	Olathe	I support EO 20-58
7/20/2020 23:00:41	Julie	Adams	USD259	Wichita	Please vote to delay in person classes. There should be a steady decline for 14 days before school resumes in a brick and mortar setting. Staff and student health MUST come first.
7/20/2020 23:00:41	Maia	Carter		Lindsborg, KS	I think delaying school is a good idea until our numbers are down.
7/20/2020 23:00:45	Christina	Hess		Lawrence	Virtual and online school should be allowed to start as scheduled.
7/20/2020 23:01:08	Andrew	Kocukov		Wichita	As a husband of a classroom teacher and father of 2 elementary age daughters. I do not think wearing masks at school is a good decision. In fact, I find it to be more dangerous than not due to how many times kids will touch their face as a result of wearing the mask. Please do not vote in favor of this mandate.
7/20/2020 23:01:10	Shelley	Pollak		Overland Park	I support having in person school as soon as teachers and schools are ready. The sooner the better for our 3 kids. Online school did not and will not work well for our kids, and is an impossibility for 2 working parents. Our daughter has done multiple weeks of summer camp both indoor and outdoor with great results using recommended precautionary measures. There's no reason why they can't work at a school.
7/20/2020 23:01:12	Molly	Anderson		Olathe	Delay school opening!
7/20/2020 23:01:23	Marcia	Smith	Parent from SMSD	Lenexa	Please open our schools as planned in August. My child has special needs and has regressed without school and a social network.
7/20/2020 23:01:41	Sarav	Gregory		Holyrood	Decisions should be left up to each school district and their board, teachers, and voters. Not an all in one plan for the whole state.
7/20/2020 23:02:19	Larissa	Davidson		Olathe	Keep closed until after Labor Day or longer. If the positive test numbers are not steadily declining us, as parents, are facing a very tough decision on returning to school and the safety of our children.
7/20/2020 23:02:14	Cathryn	Linney	Blue Valley School Dist	Leawood	We support delay of school until COVID cases decreasing in the state & all CDC safety guidelines are met for reopening.

					<p>Please approve the executive order delaying school! It is in the best interest of the children, school staffs and our communities! We are in the midst of a spike in covid cases. I do not feel confident ( despite the dedication and best efforts of local school boards and administration) in the school's ability to implement your safety recommendations in such a short amount of time.</p> <p>Our district is scheduled to have students in buildings on Aug. 10. I am very uncomfortable with this!</p> <p>Even with the options of on line, and hybrid bring available, I feel that extra time would be beneficial and necessary! The extra weeks would allow for teachers to better prepare for the more stringent expectations of online learning/teaching. It would allow them to prepare their classrooms for socially distant learning. I believe strongly that in person classes are the best for both students and teachers. But only when it is safe to do so.</p> <p>Postponing the start could allow for communities to focus on decreasing cases so that we could have a safe in person start to the year.</p> <p>I know that many feel that local communities Rather than the governor should control the calendar on their own. The fact is that this isn't happening. Local agencies have not embraced mask ordinances and are frequently voting based on political influence rather than science. In our own district, they are working very hard to prepare but have not considered postponing school. Despite significant increases in cases in our county, the health department has not delivered a plan for what to do when an out break occurs in the school. They have also not indicated that they intend for anything other than an in person start. This greatly concerns me. I feel that it puts my children and my own health and safety at risk.</p> <p>Please put politics aside and vote for the delayed start in order to protect all of the children and school staff in the state of Kansas!</p>
7/20/2020 23:02:18	Kristin	Prophet	I am a mother of 3 publi	Salina	
7/20/2020 23:02:57	Holly	Taylor	parent	Olathe	Open up schools and all activities sooner rather than later!
7/20/2020 23:03:27	Chris	Ollig	Teacher in a metro schoo	Olathe	Please accept Governor Kelly's executive order to delay the start of school and require safety precautions. As a high school teacher I implore you to consider the health and safety of everyone involved. People's lives are genuinely at risk including mine and those of my family members, students, and colleagues. The emotional tole that, god forbid, a death of just one teacher or classmate on a student would be difficult to overcome let alone the potential for multiple. It is simply too great a risk and these measures are the absolute minimum we should consider to keep our schools safe.
7/20/2020 23:03:21	Shelsie	Moyer		Columbus, Kansas	I believe that schools should open on the original date they planned to open. Postponing it will likely causes damages for children who do not have a very good home life. It will also make students with disabilities suffer by not having a routine. Our county only has 7 current positive cases with no one hospitalized. I believe that it is best for the students to go back to school as they are already behind. School is some kids only safe place.
7/20/2020 23:03:35	Heavenly	McQuillan	School/ Parent	Weskan	<p>If we mandate the masks, there are smaller school systems that won't have a school to go back to next year. We need the schools open, so we can keep these schools open. There are parents thinking about home schooling their kids, that would take away even more funding from the schools.</p> <p>This decision this to be decided by each different school board members, along with the superintendent &amp; county health nurse. Each school has a committee I am sure that could make a wise decision for themselves. What works for one school does NOT work for all.</p> <p>Please let the children &amp; staff get back to school. We need to get some normalcy back!!</p>
7/20/2020 23:03:55	Victoria	Rall		Atwood	As a teacher I have watched families and kids struggled over the past month with what is coming next. I personally feel delaying school any longer will not be beneficial at all, especially in my district where we have 0 cases. If we wait until after Labor Day the only thing we will be doing is holding back children's education another month. A lot of these kids will be going on 6 months without being in a classroom and as an educator that is unacceptable. Kids coming back will already be behind due to the shutdown in March and delaying them more will benefit no one. Again I feel we should start school as soon as possible and leave major school delays up to the counties.

7/20/2020 23:04:08	Deb	Meyers	USD 270	Plainville	We need to not mandate masks and delay school opening! Masks have not been scientifically proven to help the spread of disease. It should be a CHOICE to wear one or not!
7/20/2020 23:04:08	Kim	Crabbs		Salina	Please start school. Even if it is online classes that may or may not morph into face to face classes. Our children need to have some normalcy by starting school on time.
7/20/2020 23:04:20	Morgan	murphy	parent	paola	Thank you for your time.
7/20/2020 23:04:29	Aaron	Edwards		Lansing	Kids in elementary school should not be mandated to wear masks. I encourage the ruling to fall on the school district. You are mandating things for areas that still have no cases. How does this work for kids that are already scared to start kg in the fall. There are so many things wrong with forcing such young kids to wear masks.
7/20/2020 23:05:11	Jill	O'Connor	None	Overland Park, Kansas	As a parent, teacher, and coach in Kansas I want to urge our State Board of Education to delay starting schools and activities. Educators need the time prepare for a safe return to in person classes and set up a rigorous system for remote learning. We have many teachers that either are or have family in the house at higher risk if they contract the disease. Educators want their students back to school, we also want to provide a safe place for learning too. We do also worry about our students that rely on school to be their safe place in their lives but in order to make it the safest we can we desperately need time. Let's do this the right way for our students and our educators.
7/20/2020 23:05:22	Nicole	Elliott	Olathe public schools	Lenexa	Open the schools on time and NO MASKS on these kids!!!
7/20/2020 23:05:35	Jennifer	Addington		olathe	We need to start school. We are doing damage to our kids that can't be reversed. Start school!
7/20/2020 23:05:45	Kari	Otero	Parent and educator	Garden City	please uphold the governor's order. Do not start school. The reward does not outlay the risk.
7/20/2020 23:06:12	Rick	Moyer	Usd476	Copeland	No mask mandates for educators and students and no hourly hand sanitization. Leave decisions about health and protection to the people. Parents should be able to make those decisions for their families. Let students play sports and activities. Require social distancing and promote hybrid model of school. Do not allow teacher or principals to be fired by refusing mask mandates when they are doing so for fear of their own health.
7/20/2020 23:06:24	Lisa	Sage		Topeka	Do not let the governor decide what is best for our schools
7/20/2020 23:06:25	Chad	Swift		Topeka	NA
7/20/2020 23:06:30	Todd	Stramel		Colby	Do not delay schools. Let each disteic decide!
7/20/2020 23:06:34	Scott	Schechter	Myself and my family at	Hugoton	My children are ready to start back to school. We live in an area of the state with very little Covid. Please allow local control for all aspects of the school year. Recommendations are appropriate. But a local district knows what's best for their community. Thanks.
7/20/2020 23:06:39	Karen	Horton	William Allen White Ele	Emporia	Leave us alone, we have always taken care of ourselves. We can do it now. We are intelligent enough to take care of one another and social distance when necessary. We do not need the state or federal government to tell us how to do it. We are independent.
7/20/2020 23:06:48	Carrie	Henderson		Overland Park	I feel it is best for students and staff to delay school until after Labor Day.
7/20/2020 23:06:51	Andy	Thompson	Parent of student and sp	Manhattan	Stay closed until after Labor Day to see if we can flatten the curve again before reopening schools.
7/20/2020 23:06:53	Andrea	Anderson	Classified hourly employ	Lawrence	It is imperative we put politics aside and vote to uphold the Governor's order. We are in no rush and the safety of our children and families needs to take priority in this moment. Please do not make a selfish and uninformed decision this week. The safety of our children are in your hands.
					I appreciate a delay in the start of school however hope and pray that we are able be back in our buildings. I have noticed with some of the organized activities I recently attended (youth sports, dance competitions, meetings, etc.) that the kids seem to be so adaptable with a "go with the flow" mentality... whatever it takes to participate. The adults seem to be the ones resistant to adjust, adapt, and change. It is frustrating to me that doctors, nurses, truck drivers, cashiers, fast food workers, construction workers and more have assumed risk for us and now we who work in education are not willing to assume that same risk in return? I do have hope that some normalcy in life is achievable with appropriate risk management. I think about it like this: every time I get in a car I'm taking an assumed risk that I find acceptable with appropriate management such as wearing my seatbelt and following traffic laws.... we just need to find appropriate management for the risk of Covid being part of our lives. And our children need to be in school. I am willing to take that risk for them. Let's get to work, let's get back in our buildings!

7/20/2020 23:06:54	Jessica	Denio	Special education teacher	Phillipsburg	Please keep teachers, staff and students safe by postponing the start of the school year. This will give districts and schools time to implement the necessary precautions to keep us safe. Thank you for your consideration.
7/20/2020 23:06:55	Brian	Elliott	Olathe School District	Lenexa	Everyone is going back to work, schools need to be I. Session. We are doing more damage keeping them at home. Kids need school.
7/20/2020 23:07:00	Jamey	Borchers	Olathe Public Schools	Olathe	As a Kansas parent and teacher, I ask that you please consider upholding Governor Kelly's executive order to delay the start of school. Not only would this give districts time to implement the state guidelines well, it would also allow time for our Covid numbers to again decline. I want nothing more than to start school and see my students, but the reality is it is simply unsafe right now. As much as I want to see my students in person again, it should not come at the cost of risking their lives, their family's lives, the teacher's lives, and our family's lives.
7/20/2020 23:07:00	Jennifer	Stearns		Olathe	Schools should not open until after Labor Day. Our COVID-19 numbers are worse now than when we shut down school in March. If it wasn't safe for students to be close together in an enclosed space then it isn't safe now.
7/20/2020 23:07:00	Tamara	benhassine	my kids	olathe/ blue valley school	I think it is extremely important that the schools are delayed. This is just getting worse. It is the responsibility of you all to keep the kids safe. I personally think virtual is the way to go. The likely hood of children wearing the mask at school is slim to none. The fact that you guys will be checking temperature is worthless because the kids won't be tested before getting on the bus. Or they will be waking in groups to and from school.
7/20/2020 23:07:00	Luke	Bauman		Arlington	I am a special education teacher at Pratt High School, my own children attend Fairfield High School. Let's open on time and allow fall sports. Kids need it and teachers and entire Communities do too.
7/20/2020 23:07:01	Leanna	Keller		WaKeeney	With currently having zero active cases in our county, I feel it is a disservice to our students and the rest of our community to delay the start date for school. We have only had 5 cases total, which is an extremely low percentage of our population. I teach kindergarten and do not understand the reasoning behind having students ages 5-6 go to daycare for three more weeks instead of going to school. Our school has been planning out safety measures since last spring; if there is already a plan in place, why wait longer and allow our students to fall further behind? Most of the students within our community are around each other as is with the pool being open and summer basketball/baseball/softball being played. I understand the severity and the risks in other counties, but please do not forget the ones who are doing well thus far, and please do not forget the well-being of parents and those families whose income relies on students going to school.
7/20/2020 23:07:03	Tim	Watta	Parent in USD 450	Topeka	It is in our students best interest to return to school full time and in the classroom.
7/20/2020 23:07:06	Wyatt	Smith		Garden City	If the KSDE board approves Kelly's mandate I fear for the future of Kansas schools. How can a single Governor have the audacity or the authority to mandate anything for hundreds of school districts who have put in countless hours and worked with experts in every field to develop safe and effective strategies for going back. We must give individual teachers and families the options of whether to go back in person, hybrid, or on-line. No one person or entity should be able to decide what is best for hundreds of different locales and demographics. I'm from Finney county which saw some of the highest numbers and we are at 98% recovered with being fully open for several weeks now and no outbreaks or any such nonsense. I implore you to maintain local control. We've already seen how state wide mandates are balked at, and honestly we need to give each school district the freedom to make decisions for their own students, teachers, and communities. Please believe in the people of Kansas enough to see that an umbrella mandate is not what is needed. Thanks!
7/20/2020 23:07:27	Robyn	Schmidt	Lincoln Elementary, Junction City	Junction City	I think it is a good idea to push back the start of the school year so extra precautions can be taken and be put in place before school starts. Also gives the State a chance to hopefully lower the amount of Covid cases.
7/20/2020 23:07:38	Debbie	Ruff	USD 227	Hanston	Please open schools as scheduled!
7/20/2020 23:07:47	Anneliece	Lusk	Taxpayer	Junction City	Please delay until after Labor Day for safety.

7/20/2020 23:08:03	LeAnna	Soehner	Parent of children at US	Colby	<p>I want to thank you in advance for taking the time to read my concerns. I have two daughters, 5th and 6th grade. They want to go back to school and learn from their teachers in a normal setting with no masks. They want to be around their friends and enjoy learning in public school like they are used to. They want to be able to have PE, band, choir, art and all the other extra curricular classes they have enjoyed learning in the past. We can NOT continue living in fear and passing that fear to our children. Labor Day will mark over 5 months that my children have not been in school. They need to be back in school at the regular time in August. Kids need routine, they need schedules and they need the support of their teachers to learn. The online experience we had for the end of the year schooling was a joke! I have much respect for our teachers as both my mom and my mother-in-law were teachers for over 25 years each, but putting our teachers in that place last year was so hard for them.</p> <p>My kiddos have a stable home life but there are so many out there that don't and those 8 hours of school are a safe haven for them. We can't ignore the statistics that show how abuse is rising with these kids. My heart breaks for them.</p> <p>There are also many statistics and studies showing the inefficiency of cloth masks. Please do not make our kids wear these. If you look at our states statistics, if the masks worked then the counties that instituted a mask ordinance should have lower numbers but that's not the case. They have numbers increasing just as much as those counties that didn't issue a mask order. The reporting of cases is so skewed. Counting "probable" cases as positives without having absolute confirmation is so deceptive and manipulative.</p> <p>We Kansans deserve better than half truths and lies.</p> <p>I myself along with a number of other mothers in my town of Colby are seriously considering homeschooling our children if things don't go back to the way they were. You start having multitudes of families pulling their kids from public school and your public school systems are going to be in a world of hurt.</p> <p>I pray that God leads your decision making. May God bless your board and again thank you for listening to my concerns</p>
7/20/2020 23:08:28	Audrey	Lothman		Pratt	<p>The kids have been out of school too long as it is. Teachers in our community (Skyline) are prepared and ready. Kids need to get back to school. They require stability and routine. No masks!! It will be an utter failure. They cannot be required to wear them for 8hrs straight. There should be no mandate on hand sanitizer. Governor Kelly is violating our rights as Americans. Too many parents are considering homeschooling. What would hapoen to our schools if there werent any kids? I understand some people are scared, online learning is an option for those. Teachers are essential, just like doctors, nurses, walmart employees. They are doing their jobs, and its time for the teachers to do theirs! How long is this going to continue!/? She is failing our children, please put a stop to it!</p>
7/20/2020 23:08:40	Mary	Van Schuyver	my household	Plainville	<p>Please, please do not push back the start of school. Our children need to be in school, not only to learn but to be among other students and friend. No matter how hard our teachers try it is not the same as being in a classroom setting. Thank you.</p>
7/20/2020 23:08:51	Paula	Jacobson	Grandparent	Horton	<p>I think delaying school till after Labor Day is a wise decision. What I don't agree with is face masks for all students. Elementary children are not emotionally or mentally ready for this. They are still struggling with how abruptly last school year ended and masks will cause added stress for them and major problems for the teachers. Contact KDHE about daycare procedures and how that is working without masks! The children's mental health needs to be considered too!!!!</p>
7/20/2020 23:08:53	Stacey	Tischhauser	Council Grove elementa	Wilsey	<p>I believe school should be pushed back to after labor day, but the time prior to that should be part of the teacher's contract to prepare for in person and/or online learning. Then we should re-evaluate at the beginning of September to determine if we should start online or in person at that time. The board needs to lessen the amount of contact hours to allow for this change as teachers should not be forced to work a longer school year as many rely on summer jobs or, many people like me are an integral part of agricultural work that occurs in June. Please consider the needs of all teachers and students. Please protect us and respect our contracts while protecting kids.</p>

7/20/2020 23:08:55	Rebecca	Barrett-Fox	Offender Victim Minis	Newton	<p>I am dismayed that people pushing to reopen schools are using domestic violence and child neglect as a reason to reopen. Reopening is not safe for any student, regardless of their family status. Families where abuse occurs are not better off if their students are also exposed to the risk of COVID; indeed, illness and its attendant economic disruptions are predictors of increased violence.</p> <p>Please do not use victims of domestic violence as pawns in school reopening. If we choose to do so, we can end family violence whether schools reopen or not. That we've chosen not to during when schools were in session tells us that it's not our priority and those who use it as a reason to reopen insincere. That is another kind of victimization of already-hurting people.</p>
7/20/2020 23:09:20	Diana	Sutter	Parent of student	Plainville	Offer options: Zoom schooling and in classroom settings, or a little of both
7/20/2020 23:09:48	Maria	Young		Kansas City, KS	I fully support delaying the opening of school &/or moving to online learning. The safety of students, teachers and staff must be the first priority.
7/20/2020 23:09:53	Justina	Denison	USD	Hutchinson	I support starting in September. This gives the district and staff to prepare for all learning styles that will be coming due to COVID. The students will still obtain contact hrs and learn this year, that will not be hindered. Give the district and staff time to prepare for the mandates and ensure quality online learning!
7/20/2020 23:10:02	Jenny	Burgess		Sterling	Please leave the decision to the districts on when to start. They have the best knowledge for their area and situation. Please don't hold our children's education hostage.
7/20/2020 23:10:03	Renaec	Frost		Assaria	<p>Please do not make these children wear a mask to school. I am an RN. In nursing school we were taught how to wear masks and the purpose of a mask. There is no way children or even teens can wear a mask appropriately.</p> <p>Of even bigger concern is the extra burden it places in educators to enforce this mask policy.</p> <p>Can the school really enforce the policy? What will be consequences for kids of any age that don't comply?</p>
7/20/2020 23:10:31	Kirsten	Brandt	School Social Worker-	U Wichita KS	I agree with Governor Kelly. With the surge in COVID-19 cases, districts need time and resources to address safety concerns for students, staff, and their families. This summer at least two of our teachers were infected by COVID-19. If they had been in school teaching 1/2 of eighth grade at the middle school would have had to be quarantined. At the high school 157 students would have been quarantined. So sending kids back to school is not safe, but also detrimental to students moving in and out of in-class and virtual because of quarantines,. Staff and students will get sick and some will die. Some will take it home and infect loved ones. How does this affect our students mental health? Thank you for upholding Governor Kelly's executive order.
7/20/2020 23:10:37	Beth	Dean	Teacher - Olathe USD 2	Olathe	<p>I have dedicated 16 years of my life to education. I spend hours upon hours at my school, often choosing my job over my husband and daughter. I have high blood pressure, and am fearful of this virus, not only from my own students, but from my daughter who will be attending 4th grade. I would give anything to be back in the classroom, however, I think the thought that I could potentially have to give up my life is a bit extreme. Johnson County numbers are high, it's terrifying to think that something that I love with my whole heart could eventually kill me. I realize at some point I will need to return to the classroom while this virus is still a problem, however I think there needs to be time to train staff, to give admin time to make important decisions, and allow for virus numbers to hopefully decline.</p> <p>Of all the times I have lobbied for my students, I'm taking a much overdue moment to lobby for myself, which I never envisioned having to do, but here we are. Please give us this time. I beg of you.</p>
7/20/2020 23:10:48	Lori	Strnad	Parent of Blue Valley m	Overland Park	Please delay the schools a few more weeks so that we as a state can get our numbers under control. I would much rather my kids start in-person vs virtual and I think we need a few weeks to plan, implement, and adjust. Since a number of large retailers have just now started requiring masks hopefully we can get the numbers a little lower before school starts. A September start would give us the time we needs to plan for in-person or virtual. Thanks for delaying for the safety of our kids, school staff, and parents.
7/20/2020 23:10:59	Taney	Browning		Scott City	I have one child that needs to have the teacher in front of him to help learn things. Both of my children are ready to be back in the school rooms learning. I think the you should leave it up to each county to decide if they are requiring mask or leaving it up to the people. We live in a small town and my family feel safe with Not wearing a mask.

7/20/2020 23:11:01	Karen	Elliott	Blue Valley Northwest H	Overland Park	Most importantly, high school and college students need to be present and amongst each other. This time in life needs exposure and immediate feedback from fellow classmates. In person with their teachers allows for direct assessments and the ability to “notice” each student in person where a computer zoom call or alike cannot capture what’s truly going on. Also, there needs to be statewide documents about the rules for safety & COVID. For example, Colorado has the same fliers on everyone of its businesses doors of entry including outdoor places. The communication is precise & consistent. Plus they are required to enforce no mask, no entry or business. Walking around people wore their masks outside of public places as well. Our schools should have the same expectations for the staff and students. Our teenagers need to be all in at school with masks & frequent hand washing times required. We need to face this mess straight on. Put our teenagers in the classroom face to face where they will best benefit not on a computer screen where there is ways to hide your struggles and lose site of direction and understanding. These are the years specifically to educate but even more intense is the need to prepare them for their college/post high school plans. You cannot achieve this without a well formed student done so through all the personal relationships, direct connections and academic fortitude one gets in the social environment in HS. The staff gets to know their students in many ways by the students present in their classrooms not virtual where everyone has a varying environment in which to learn. Be CONSISTENT Kansas with expectations and make the message clear and if not followed, fine the entity not following the guidelines.
7/20/2020 23:11:10	Peggy	Berls	USD 352	Goodland	We have very few cases of COVID -19 in our county. Our district is ready to do what is necessary to keep people safe in schools. Please let us reopen schools and get back doing our jobs and educating students.
7/20/2020 23:11:16	Dana	Markley	#WethePeople	Overland Park	Mental and emotional issues in our youth and also parents are building as we push back the start of the school year. This is way more destructive than Covid has shown to be. We need to get our kids back in schools. I am a parent of three kids- one in HS, one in MS and one in elementary school. I know that three weeks may seem like a small amount of time to push school back, but this time away from friends, in person instructive learning and sports is dragging on too long. Let parents decide if and when to send their kids back to school. Don’t dictate for us when they can go back. There is still ample time over the next month to get schools ready to safely start school in mid-August.
7/20/2020 23:12:03	Kate	Thornton	USD 473	Chapman	I have emailed Dr. Horst but appreciate the opportunity to write to all of you, as I have not had communication. On January 16th each Kansas school district received a document (over 1,000 pages) to help guide our plan for reopening in a global pandemic. As a mom, assistant principal and daughter of a teacher; it is my hope and prayer that the State Board of Education gives us more than a month to follow and implement a 1,000 page document. We are talking about the lives of Kansas educators and students. States around us will the same or different precautions set in place. Give us a chance to see what works and what does not. I would rather learn from others than be the guinea pigs in a global pandemic. I want my two elementary students back in the classroom as much as the next person. Childcare will be difficult for my family in the next few weeks. However, my headache and stress is nothing compared to the lives of Kansas kids and educators.
7/20/2020 23:12:06	carlie	scheer		lenexa	i’m a sophomore in high school and would like to start school whether online or in person
7/20/2020 23:12:43	Michelle	Thompson	USD 457	Holcomb	I vote to wait until September 9 to start school.
7/20/2020 23:12:48	Jackie	Rieder		Overland Park	We want the schools to open. Keeping the schools closed is causing more harm than opening the schools. Education is essential and many families need to go back to work and cannot if school does not open. I am very unhappy with Governor Kelly and she no longer has my support or vote. It is time to open up. We have to live our lives. If you want to give parents a personal choice if they send their kids back then great, but we also need the option to be back in the classroom. I am for beginning school ON TIME 100%

7/20/2020 23:13:10	Susan	Borchardt	Parent	Lawrence	<p>I would like to ask the KBOE to accept the governor's mandates regarding both the masks and the delay in schools returning. It is clear to me, after watching the board meetings of my own district and reading the latest science and guidance from medical professionals that our schools are not prepared to begin in-person instruction safely. Delay and remote learning are the only clear ways to ensure that our children, our teachers, our administrators, and other professionals (Paras, nurses, maintenance, tech) do not carry, pass on, or contract the virus.</p> <p>As an educator, I understand and value in-person learning. I miss it dearly. However, it is not worth risking death or damage to health to be in a building. Learning can be made up. Learning can be retooled, rethought, remote. Lives cannot be regained. As a parent, I would much prefer to have my son be in a position to need to catch up with his work than to be in a position that requires him to understand why his peers and adults are sick or dying because we made an ill-advised choice, because we decided that classrooms were a great experiment for this virus.</p> <p>This is not a matter of politics. It is a matter of public health and well-being.</p> <p>Furthermore, when our children return to school buildings, masks must be mandated. We have our kindergarten students trained in lockdown drills for active shooters. Wearing a mask for protection may take time, but let's not underestimate their understanding of safety. And let us not underestimate the risk that we put them and all school communities in by failing to require the most basic of protection.</p> <p>It is enough that schools are thought of as daycares, that teachers are considered human shields, deeply underpaid and undervalued ones at that. We cannot demand that they also become the lab rats we choose to sacrifice.</p>
7/20/2020 23:13:12	Gayle	Price	USD512	Shawnee	It is unfortunate that school districts did not make safety plans before the starts of school. However, based on current data delaying the start of school so we can have a "safe" opening would be in everyone's best interest.
7/20/2020 23:13:17	Diane	Lloyd	Parent	Fort Scott	If the kids have to stay 6 feet apart and wear mask. Which I think sitting at their desk they could take it off. Then let's get started on time. They need their teachers and friends. My son hasn't seen them since March. Thank you
7/20/2020 23:13:58	Hailey	Martin		Towanda	I believe we should hold off on opening schools until after Labor Day because people's lives are more important than learning. Everyone's health and safety should always come first. I'm so scared for my children and myself. I work for the school and I'm scared of going to work. The virus is at it's highest right now. So I pray that the people making this decision think about the health and safety of all involved. Thank you for your time.
7/20/2020 23:14:00	Lisa	Nagabhushan		Wichita	I support the governor's order to delay the return to in person K - 12 education. Moving forward cautiously is in the best interest of public health and our economy.
7/20/2020 23:14:02	Alicia	Yahaya	Open Minds	Olathe	I love the idea of delaying school
7/20/2020 23:14:21	Alexandrea	Rall		Hoxie, KS	I believe we should start school in August like normal. Due to smaller population.
7/20/2020 23:14:22	Lindsay	Black	Kansas City, KS Public	Overland Park	As a parent and educator of elementary students, I implore the board to uphold Governor Kelly's executive order. As someone with family members with fragile medical conditions, opening schools again places them at an extreme risk that is completely avoidable. We are all aware that distance learning is far from ideal, but postponement gives us a chance to avoid that and get a solid plan in place to keep ALL staff and students safe. My job as a gifted facilitator means that I serve multiple buildings, and routinely set foot in 8+ schools per week. There are many other related service providers in the same position, and that's just one of the major hurdles our district needs to make plans for. This extra 3 weeks allows for that to happen. Thank you for your thoughtful consideration.
7/20/2020 23:14:34	Elizabeth	Eyhorn		Wichita	Schools should remain closed until there has been a significant amount of time with no new cases. Schools have plenty of time to prepare quality virtual learning if they know that is the goal.

7/20/2020 23:14:36	Patricia	Kramer	Self	Smith Center	Open the schools. No mandates, no masks. Masks are unsafe for the person wearing them and does more harm than good. They are not fitted, not ventilated, keeps Bacteria in, no oxygen out. Our immune systems is made for sickness. Let families decided the health and safety for their own families. Government has never intervned before and they should not now. The swine flu was far worse than this. I pray that you allow the kinds to go back to a normal serving where they can learn and play and be reunited with their friends. Isolation is not good for any age. Thank you
7/20/2020 23:14:43	Sara	Brockman		Clay Center	I would like Gov. Kelly's mandate upheld to reopen schools after Labor Day so we can get the case numbers down.
7/20/2020 23:14:58	Stacy	Sprague	Myself as a teacher	Kincaid	I support the delay of school until after labor day
7/20/2020 23:15:22	Krista	Heimberger		TOPEKA	In difficult times, leaders are faced with difficult decisions that impact the lives of many people. The responsibilities you have in making these decisions require you to consider all those who are stakeholders. In the decision you have in front of you regarding the reopening of schools this fall, the stakeholders include students, educators, administrators, support staff, residents in general - in other words, every single person in the state of Kansas. The accountability that resides with your decision is to give every school district the best opportunities to respond in the most positive manner to the 1,000+ pages of Navigating Change 2020, which was approved on July 15th. Successful implementation of each school district's individual plan should have priority over fast implementation. Therefore, it seems to me, a concerned grandmother of students and parent of educators, the most practical way to accomplish this is to provide the school districts the extra few weeks to put some final touches to their implementation plans. Please vote yes for Executive Order 20-58 delaying the 20-21 K-12 school year.
7/20/2020 23:15:25	Caroline	Clayton	a	b	I NEED TO GO BACK TO SCHOOL BECAUSE I AM SO BORED AND I WANT TO PLAY SCHOOL SPORTS, SEE MY FRIENDS, AND BE ABLE TO INTERACT WITH PEOPLE AGAIN
7/20/2020 23:15:32	Jessica	Eimers		Gardner	Our kids need back to school! Our family isn't able to make it on one income for me to stay home and homeschool
7/20/2020 23:15:57	Jessica	Adams	USD 232 (Riverview an	Shawnee, KS	Please start school on time and do not require masks for students under 5th grade. Thank you!
7/20/2020 23:16:04	Kari	Rettinger	Rose Hill USD	Rose Hill, KS	We need to open the schools for the students, the sooner the better!!
7/20/2020 23:16:37	Esa	Parker	USD 259	Wichita	Buildings should be closed until after Labor Day, and should be closed for at least 8 weeks after to make sure we, teachers, and our kids and families will be safe.
7/20/2020 23:17:16	Susan	Reusser	Myself a retired teacher	Wichita	Schools need the additional time to get safety measures into place based upon sound, data driven science and teachers must have time to formulate instruction and the logistic in delivery of that instruction
7/20/2020 23:17:26	Angie	Seaton	Parent of 2 students at O	Olathe	A delay in the opening of schools is a reasonable step to help us slow the transmission of the virus. Beginning the school year during a time of a very large surge in the number of cases is inviting disaster.
7/20/2020 23:17:26	Courtney	Hadley	None	Tecumseh, KS	Delay school starting. Let's take some time to figure this out. If we aren't sending adults back yet (how many of you are back full time/not working from home?), don't send our kids back. Maybe show other states that we can pull together and get it done.
7/20/2020 23:17:48	Angie	Dorrell		Olathe	Please help keep us safe as a community by delaying school starting.

					<p>I really believe the best thing you can do is to vote in favor of Governor Kelly's executive order and delay starting schools in Kansas.</p> <p>I am a teacher with an infant at home, my husband teaches as well. Schools need time to properly prepare for the enormous amount of germs that students bring in a daily basis to school, and one of those germs will be COVID-19. As a state we need to think not solely about the economy, but about what science is telling us. The leader Kansans elected into office is trying to do what is best for Kansans, remember that.</p> <p>I live in an area that depends on a meat packing plant, and even with the precautions put in, COVID-19 ran rampant through the building. This same thing WILL happen in schools if schools reopen too soon and are not prepared.</p> <p>I am nervous about the return to school, but I know how important it is for students to be with their peers and teachers. I foresee many issues like passing periods, lunch and passing out copies of an assignment, these close contact times greatly increase the chance of contracting this disease. As a middle school teacher I know we will have battles with students to keep their masks on and staying away from each other. Schools more time to get their teachers prepared for the new policies and routines that will go into place. We are under enough stress just thinking about the many different possibilities this school year will hold, these extra weeks will help us be more prepared for this crazy year ahead.</p> <p>Please vote in favor of delaying schools, your teachers will thank you.</p>
7/20/2020 23:17:54	Katie	Novack		Garden City	<p>I agree with Governor Kelly in making safety the priority not only for our students but for educators and staff as well. Many don't understand how elementary schools actually function, with kids having a difficult time remembering to keep hands out of nose, mouth, ears, and anywhere else they can fit them into. As a Special Education Paraprofessional, I know first hand that with our kiddos, this is even more difficult. It is also appropriate to keep in mind that some of our kiddos have auto immune system deficiencies. I would hate for a place of learning, positivity, laughter, and smiles become a place of harm, worry, and scary anxiousness (even more for some our kids). Another thing to keep in mind is our staff is also put at risk. Being in a room with 25-30 kids, in a building of 300 people is a scary thought. If one, just one were to contract the virus, it is only certain this will spread like wildfire to everyone. It is already almost impossible for a teacher to find a sub sans virus, now for the teacher to be out for 2-3 weeks, is unimaginable. For the safety of everyone, most importantly, our future, the children of our community, it is best to follow all safety procedures and not be afraid to be too cautious. I'm sure we can all agree that no life is worth losing over negligence. Thank you for your time.</p>

					<p>I am writing as a concerned citizen and as a teacher.</p> <p>Please vote no on Governor Kelly's executive order to delay the school start date.</p> <p>Educational decisions should be made at the lowest possible level of government, and it is presumptuous of Governor Kelly to mandate a delayed start to the school year for all of Kansas, with its diverse communities and geographic expanse.</p> <p>There is no reason students in rural counties should be barred from returning to school in mid-August. This order puts thousands of rural Kansas parents in a bind for childcare and acts as a detriment to the educational and social wellbeing of students, solely because COVID-19 cases (but not deaths) are spiking in Johnson and Sedgwick Counties.</p> <p>As a young and healthy teacher in Johnson County, I want to be teaching in person on our original start date, just as there are many parents who want their students back in school at the same time. Conversely, I have colleagues and former students who have legitimate reasons to stay home. Our local school board can find a way to competently balance these concerns.</p> <p>Our board members live in our community. They are the neighbors of their constituents and recognize the specific names and faces of their friends on both sides of this issue. They know the nuances of how our system runs and the myriad situations that need to be addressed. By contrast, Governor Kelly is out of touch with the specific operations of any individual school district and is therefore not equipped to make decisions on their behalf.</p>
7/20/2020 23:18:39	Bethany	Rexroth		Olathe	Vote no and allow our duly elected and competent school boards to do their best work.
7/20/2020 23:18:58	Anna	Patrick		Rose Hill, KS	Please delay school opening, thank you
7/20/2020 23:19:08	Renee	Marcotte		Damar	I do not want school year delayed or mask to be mandated! There's not enough information or studies report test done to know all the health issues this can cause mental and physical! I have grandkids with asthma and some just plain freak out with something over their faces! I believe the mental damage and risk is greater than the virus risk! Very upset with our Governor's leadership!
7/20/2020 23:19:14	Amber	Hock	I teach in USD 260	Mulvane	Please honor Gov Kelly's order and delay the start of school for the safety of our students and staff
7/20/2020 23:19:44	Virginia	Porter	Retired teacher	Lenexa, KS	Do not open the schools until we have this virus under control!!
7/20/2020 23:19:50	Cindy	Branham	SHHS student	Tecumseh, Kansas	<p>School needs to start. My freshman in high school needs to go back to school. She busted her butt in the online portion, but for her even though she is a all A student by zoom learning was hard and took 8 hours a day. Now as she starts high school we do not want her to get behind on her high school career and don't want her education to be below standards. Our children need normalcy for their mental and physical health.</p> <p>They need to be a priority, not inflated Covid case numbers that reflect higher Covid testing numbers.</p> <p>Facts need to be taken to make wise decisions, not fear based political agendas.</p> <p>Please be wise in your decisions.</p>
7/20/2020 23:19:55	Sharon	Fries	Bethany Lutheran Schoc	Overland Park	Opening date is not one size fits all. Definitely can be decided locally and effectively. We are ready to open safely!
7/20/2020 23:20:05	carolyne	sramek	none	Louisburg	Children have been home long enough. I am confident that school districts are eager to get back to school using all the necessary precautions per schools district on time in August. One size fits all didnt and wont work. Staff members have been working dilligently to open school on time. It was really tempting to retailate to the Governor once again throwing district staff and undermining The Board of Education for the second time this year but we will just wait for an election.
7/20/2020 23:20:09	Courtney	Cooper	Olathe Public Schools: U	Olathe	Vote YES! We, as teachers, do not get the option to opt-out of in person instruction. As a pregnant teacher, it is vital I feel safe when I return to my classroom to teach and protect my kiddos. The extra few weeks would allow our district to obtain the resources needed to make our buildings safe and ready for the return for both students & staff.

7/20/2020 23:20:27	Jena	Meyer	None	Hiawatha	Please vote against delaying school opening and allow this call to be made on a local level. What is appropriate for one area of KS is not the same for another
7/20/2020 23:20:34	Geoffrey	Burgess		Sterling	The kids need to be back in school asap for their own well being. If the district's are ready let them start on time. If the bigger districts need more time let them have it but don't put all the kids in the state in one basket. LET THE LOCAL DISTRICTS DECIDE.
7/20/2020 23:21:01	Elizabeth	Finley	Parent of a student in 18	Valley Falls	We need the schools to be open and back in session. Our student needs the routine of the school day to keep her mind and body on an even keel. Other students are wasting away and have no motivation to even try. Think how well they will adjust, if at all, when school doors are opened up again. We need to open schools to keep our country strong.
7/20/2020 23:21:02	Teresa	Pendergrass		Towanda	I do not believe school should start until the virus has substantially slowed down. All students and staff lives matter more than learning anything. It's just a matter of weeks that could potentially save many lives. Please set politics aside and put lives first. Teresa Pendergrass "Voter"
7/20/2020 23:21:34	Kayla	Prochnow		Pomona KS	our governor is taking away our childrens safety by implementing masks for all ages, small children in elementary school shouldn't be confined to mask wearing to get an education and delaying schools to open is a ridiculous joke, the first day of school has been set for a year and they've had a very extended summer theres no need to delay their education any further.
7/20/2020 23:21:46	Amanda	Hill		Tecumseh	I'm ok with a 2 week delay so teachers can get all their ducks in a row , but after that our kids need to get into the school.
7/20/2020 23:21:46	Jessica	Dee	Parent/ Elementary Para	Junction City	As a parent, and a para educator, I am very concerned about the rising Covid cases, as well as the lack of clear and consistent plan for how to safely proceed with the year. Following the Governor's plan to delay the start of school will give schools a chance to plan the year better, and also hopefully, allow the virus to die down a bit.
7/20/2020 23:22:00	Elizabeth	DeRoulet	KCKPS	Kansas City	Please support gov. Kelly's order.  I have worked in rural and urban districts in KS and the small towns would be over run with an outbreak. Think of Logan, KS as an example. Rural towns don't have many cases yet because the lifestyle there is very spread out. I feel that the mandate to close schools saved a lot of the smaller towns from being devastated. We can make up for lost time. We cannot resurrect the dead.
7/20/2020 23:22:04	RaeAnna	Rutherford		Coffeyville	I believe delaying ALL SCHOOLS is a NECESSARY thing to protect the entire communities health!!!
7/20/2020 23:22:18	Carolyn	Johnson	Teacher/coach	Gaylord	I agree on the late start. The teacher need time to get programs in place. I am concerned about sports. I love sports as much as others but feel it was be hard to keep everyone safe with volleyball and games. Not sure of what the answer is for this.
7/20/2020 23:22:26	Kimberly	Maley		Stilwell	Please err on the side of caution and keep schools closed until after Labor Day. The safety of our kids is far more important than an arbitrary start date.
7/20/2020 23:22:48	Amber	Cunningham	My school aged children	Dodge City KS	If starting in September means that we have to go into summer, we are against it! These kids have already had so much time off!!! My son has fallen so behind! I will also not be forcing my kids to wear a mask all day! There's no way my son will keep it on with his allergies being so bad and my high schooler won't either! Please take all these things into consideration! I know there are many other families that share my sentiments. Thank you!
7/20/2020 23:22:55	Rebecca	Fernandez	Parent	Mankato, kansas	Please start school...
7/20/2020 23:22:56	Kristan	merz		horton	open school as normal in August!
7/20/2020 23:23:29	Melissa	Alley	Self	Wichita	Please delay the school year.
7/20/2020 23:23:33	Jan	Rudicel		Buhler	Start in person schools. Offer options to those with health risks. Kids learn better when taught in person!
7/20/2020 23:23:43	Jenno	Osburn	Usd 259	Wichita	Keep schools online until the numbers are lower

7/20/2020 23:23:48	Shannon	Callahan	KCKPS	Kansas City	Delaying school will give districts and teachers the time to prepare for whatever type of instruction is the best for the community after Labor Day. Teachers are concerned with how to keep masks on students and social distance in small classrooms with large class sizes. We must be given the time to work together in planning what is best for our schools, in order to be safe for all. We have families to come home to and keep safe just like everyone else. We will be placed in enclosed rooms, with approximately 25+- students, that we pray their parents are being safe and following the social distancing and mask mandates with fidelity. We must have a plan to be prepared and must be given the grace to prepare. We are not daycare and must be respected as others.
7/20/2020 23:24:21	Steven	Watkins	Watkins Realty/First Ins	Hoxie	Would like schools to open on time and have local control. Our county currently has. 0 active cases.
7/20/2020 23:24:25	Lynn	Zimmerman	Parent and a teacher	Hays	I support the Governor's EO for delaying school until after Labor Day. We need the time for our school district to establish protocols in order to insure that our schools are safe for students and staff. Staff needs the time to modify curricula to meet the needs of students, whether they are getting instruction in-person, online, or a type of hybrid format.
7/20/2020 23:24:25	Angie	Jennings	Parent/school volunteer	Maize	For the health and safety of our students, their families, school staff, and their families please comply with our governor's executive order and delay the start of the 20-21 school year. Many express their concern for the mental health of students if they must be out of school any longer. However, I do not believe we can dismiss the extreme distress children will experience if/when parents, grandparents, friends, and beloved school staff become seriously ill and even die. Children are flexible and resilient by nature. We can process these pandemic issues at a later time, but only if students, families, and staff are physically healthy. I plead that you put what is best for students and staff at the top of your priorities, listen to our top medical experts both locally and nationally, and do not allow this to be a decision based on politics. Thank you.
7/20/2020 23:24:45	Karen	Brown		Maize	I disagree with delaying the start of the school year. What will it achieve? Supposing cases aren't lower by then? That's three weeks of schooling children will have missed. Allow school districts to set their own methods of instruction, hopefully most will offer parents the option of in-person schooling for those who want it, or on-line. But delaying all instruction does nothing but deprive kids of an education. School districts have had all summer to work out their plans and get necessary equipment, and I'm sure most have done that. Creating more delay and uncertainty just makes it worse.
7/20/2020 23:24:52	Cara	Santaularia	Self	Shawnee	Schools need more time to figure out the logistics needed to make this school year work. Starting at the initially scheduled date, will be a total mess. I could repeat all the valid arguments to back up this request, but you've been hearing them for weeks. Now you just need to do the right thing!
7/20/2020 23:25:38	Whitney	Larson	Mother	Sharon springs	We are a zero case county and I would love for my 5 and 7 year old kids to attend school mask free. If they are required to wear masks we will be pulling them and homeschooling them unfortunately. Please re consider that western Kansas is much different than eastern right now. Allow our county health department make our choices. Thank you so much

				<p>First, I am writing to you to recognize your leadership and support you in this unprecedented situation. I am thankful for you and know your heart is to do what is best for the people of Kansas.</p> <p>Second, I am writing to you in preparation for the Kansas School Board of Education Vote the mandate to delay school opening.</p> <p>I respectfully request that we work with you to ensure a safe school environment that accomplishes both of the following:</p> <ul style="list-style-type: none"> <li>•Safe School opening following the Board of Education Return to School Plan</li> <li>•No delay to student participation in school, athletics, and activities.</li> </ul> <p>In response to the Mandate delaying School opening statewide, Please vote the mandate down and allow the individual districts to make their own decisions.</p> <p>This will allow each district to make the decision that is best for its community. The situations vary widely across the state and a one size fits all approach does not make sense.</p> <p>Based upon the information available, I believe we are able to send them safely back to school and activities now. I also believe we do more harm than good if we delay starting school and activities on time.</p> <p>I am one of the over 6,200 people who have signed the #HelpThemPlayKansas petition supporting all #Kansas High School Students who voluntarily choose to engage in 2020 sports and activities this fall without delay.</p>	
7/20/2020 23:25:38	Joy	Modrcin		Olathe	We all are thankful for the leadership you have provided in leading through the Covid-19 pandemic and know that you
7/20/2020 23:26:00	Taylor	McCluskey		Holton, KS	I understand the teachers saying “they didn’t sign up for a death sentence.” I am a veterinarian in this state and I too did not sign up for a death sentence. However, throughout this whole pandemic I have gone to work and helped Kansas farmers and pet owners. We have kept our doors opened and allowed clients to come in and out of the building, as they don’t want to leave their animals side. We have worked tirelessly throughout all of this, because that’s what our clients expect of us. That’s the oath I took when I decided to become a veterinarian. That I would use my medical knowledge and do what’s right for the animals in their time of need. In the same fashion, I believe that teachers took a similar stance when they agreed to the role of a Kansas educator. Children need normalcy, structure, and relationships with others their age for healthy development. This is not something most working parents are able to achieve for their children. It’s crazy to expect members of our working class to continue to work their jobs, but then also to return home to teach their kids everyday. Especially when educating their kids in a classroom setting is not something they have been equipped or trained to do. The return and reopening of schools is essential for the growth and development of our children.
7/20/2020 23:26:32	Jaime	Rogers	Kansas City Christian S	Overland Park	Please open schools! Or at least exclude private schools that are much smaller in size and don't have the numbers that private schools do.
7/20/2020 23:27:31	Jennifer	Neywick	Cunningham School	Cunningham	you can't put grade school kids in masks for 8 to 9 hours a day. These kids are going to be trading masks multiple times a day spreading more germs then they normally spread. Making them miss more school then normal.

7/20/2020 23:27:48	Jenn	Bycroft		Iola	With the rising cases in Kansas, and the fear that so many of our teachers, our parents in sending our kiddos, and possibly many students afraid of the unknowns - I think it is wise to delay the starting of school until after Labor Day. I am not a fan of my 9, almost 10 year old, wearing a mask all day at school - as parents, we have some big decisions to make concerning this year. With the mask order in place by Governor Kelly, it just makes sense to wait a few more weeks to see what the info and numbers looks like with the covid cases then. Let's give our teachers and admin some more time to adjust to these hard things, and our parents more time to consider what we might do in terms of sending our kids to school, or just teaching them from home. I understand not all cities are the same, our districts are different, and not every town has the same amount of cases, but I care about teachers and their safety and health everywhere, and certainly will put my child first. Her health is top priority. I'm praying for wise decisions to be made. And I do realize that this affects sports and activities. I love sports - my recently graduated senior (finally last week) lost out on her entire senior track season with her coaches and teammates. Her career will continue in college fortunately. She had a teaching internship with first graders. That was one of her most favorite things, probably even over sports. It was heartbreaking when schools closed last Spring. So I get it. We've been there. That was so hard. And my heart goes out to this incoming group of seniors especially. But track won't always be there. Or any other sport or activity. But our friends, our family, our teachers and staff, our kids?? We need them around. Let's keep them safe. Let's keep them healthy. We all need some peace of mind.
7/20/2020 23:27:49	Brooke	Fiocati	My family	Johnson county ks	Thank you!!!
7/20/2020 23:27:56	Aimee	Heinisch		Wamego	We absolutely believe that keeping schools closed until after Labor Day is the right decision.
7/20/2020 23:28:18	Amanda	Porter	My Family	Lenexa Kansas	We are opposed to the Governors order as a whole and believe that our children should be back in the classroom and they're should not be a delay in starting! It is scary to see the control that our Governor is trying to have over the citizens of our State.
7/20/2020 23:28:26	Jessica	Vogt		Eudora	We need to start school ASAP. 3 weeks will not change anything.
7/20/2020 23:28:52	Jody	Bures-Helton	Myself, school psycholo	Wichita	Please reopen schools and allow local districts to determine when school resumes.
7/20/2020 23:28:55	Susan	Vice Bennett		Bucklin	Delay school until after Labor Day please. Thank you!
7/20/2020 23:28:58	Stephanie	Smith	Teacher at KCKPS	Kansas City	I agree with Governor Kelly !
7/20/2020 23:28:58	Lori	Drouhard	Chaparral Schools	Danville	Please support the executive orders.
7/20/2020 23:29:19	Kara	Nelson	Parent/Cheer Coach/Lib	Attica, Kansas	Delaying school for our small town of less than 600, would be awful!! Some of these kids are so ready to get back to school, and learning that school could be delayed has only upset them!! They have been away from structure long enough, and pulling them further away from that is only going to do more harm than good.  I worry about kids that depend on school for happiness, home-cooked meals, and socializing. When all these things are taken away from them, you are messing with their mental health. It's sad to think these kids are going through more than necessary....if this virus was wiping out the state with an 80% death rate, or even 50% for that matter, I could understand shutting things down. But when the death rate is less than 1% of the population of Kansas, this seems unreal to delay school any longer. They have already been stripped away from all kinds of things and events, it is finally time for some normalcy and get these kids back to structure. The headlines are always stating "for the safety of our kids" but really? I think for the safety of the kids, let school start when our district had it set for...they are so ready!
7/20/2020 23:29:20	Laura	McFarren	Derby North Middle Sch	WICHITA (reside) / Der	I'm asking that you consider the delay to the start of school. While I know there are many communities and districts in our state that may not need the delay, in the bigger cities and counties, it's imperative that we allow the mask-order time to lower the cases... AND it gives us (teachers) time to review the state document in order to more effectively implement the recommendations and guidelines. I am supportive of the delay.
7/20/2020 23:29:30	Tracy	Thayer		Merriam	I think the plan is ridiculous. Masks required for students? If I were still a student, I'd rather just stay home. Wearing one shoots my blood pressure through the roof; how do you know this won't happen to students? Are they going to be punished for not wearing?
7/20/2020 23:29:36	A	C	Teacher/parent	Mankato	Please wait to open after Labor Day! We need more time. We have more cases in the past few days. I'm beyond scared to go back to work and to send my children!
7/20/2020 23:29:42	Scott	Snavelly	myself	Spring Hill	Please support the Governor's executive order! Students can go into June and I really don't want my son or myself to bring it home.

7/20/2020 23:30:06	Tim	Vesco		Frontenac	<p>My name is Tim Vesco and I am a fourth grade teacher at Frank Layden Elementary in Frontenac, Kansas.</p> <p>I am writing you to ask that you please support Governor Laura Kelly's executive order and delay the opening of school until September.</p> <p>With the usual August opening of the school year only a few weeks away, there is not adequate time to thoroughly review, debate, and consider the best manner of reopening for each school district based on the recommendations from Navigating Change document. By delaying the start of school, districts will have adequate time to plan and include staff, students, parents, community members, and business leaders in the process. It is imperative we assure our communities we have adequately planned for every possibility and schools will be as safe as can possibly be guaranteed. The whole community must have confidence in the school's ability to open, be safe, and stay open.</p> <p>Not only will this delay allow for effective planning, it will provide the opportunity for districts to provide staff members with appropriate professional development to implement the plan. We must be sure all staff understand the district's reopening plan and what each individual's role in the implementation will be. This will inspire confidence in both the school staff and the parents whose children are in their care. Additionally, smooth implementation assures students that schools are ready for them.</p> <p>Thank you for your time.</p>
7/20/2020 23:30:25	Dawn	Dennis		Topeka	I am a science teacher at a private high school and I worry about my health as well as my family's and coworkers. I am ok with waiting until we have a handle on this virus. We need more information and that requires more time. We can wait.
7/20/2020 23:30:52	Cheryl	Duerksen	Stay at home parent	Hillsboro	Please do NOT delay school. 3 wks is crucial time to learn and not waste before fall sickness sets in.

7/20/2020 23:30:52	Shanda	Brown	Kindergarten teacher	Colby	<p>I feel very strongly that we should be in school, in person, full-time. Not online, not hybrid. I have many students that school is their safe place, the only place where they can be clean, be fed, and be shown kindness and love. I have other families who have no ability to take off work and teach their children at home or wait for school to start. We will create bigger problems in the home if we keep parents away from work, limiting what they may be able to provide for their families. We also run a serious risk of increase of abuse of all kinds, whether it be physical, mental, emotional or sexual. All of these aren't as easy to see on a computer screen. The trust it requires for kids to come forward with that information truly can only be gained in person. I strongly suggest we look into some kind of outdoor schooling if we are worried about the spread of the virus.</p> <p>I also strongly disagree with young children wearing a mask. They run a greater risk of infection because they constantly touch their faces, will be licking the mask, or taking it off and putting it down places they shouldn't. The mask will also completely hinder their growth in learning to read and speak properly. Young children need to see how a mouth moves to mimic that to make their sounds correctly, which impacts their reading ability. Taking away that visual will have so many unseen consequences that could affect several generations for the rest of their lives. My daughter is hearing impaired, and when she was in grade school, if others were wearing a mask she would have struggled immensely to learn to speak and read correctly. The visual aspect also comes into play with children seeing our faces and reactions. With a mask, emotion can't be conveyed in a way they can process. They can't see an encouraging smile or the facial expressions of their peers that teach them the proper ways to interact with each other.</p> <p>All of our students in this time of terror have experienced a large amount of trauma. They were ripped from school, told they couldn't see anyone, and kept secluded and expected to learn in a brand new way. Please, I beg you, don't add to this trauma. I spoke to 5 and 6 year olds daily who cried and cried, because they were scared to death and missed everyone and everything. They missed learning so much. They begged to be back in their classroom with people. The loneliness they experienced caused sadness kids that age shouldn't have to experience. Their mental well-being is at risk if you keep them from school, from learning, and from their friends. That isn't just a percentage of the kids, that is all of them. And it's also putting so many others in harms way with no escape from abusive homes, or a home so poverty stricken they rely solely on the school lunch to keep them through the day.</p>
7/20/2020 23:31:17	Darlene	Behnke	USD #350 St. John scho	Stafford	<p>Educators and school staff need support, resources and training to be able to completely reopen schools. I would like to see a hybrid between on-site learning and online learning. I would like to see fewer people are in the school building at a time, lower class size and credit stacking or more project based learning that ties several subjects together.</p> <p>Testing and contact tracing is not robust enough either. I feel that not enough preparation and research was done to be able to start a "normal" school year. We do not understand enough to use best practices.</p> <p>We have only been dealing with this virus a few months. Across the nation and in our start we are seeing a trend of increasing infection rates.</p> <p>Our small towns and school districts do not have the resources or talent to restaff if a lot of educators get sick. Also, in our small towns we have a lot of older folks who still work full time jobs, work on a farm and raise grand children. We can not allow C19 to get a foot hold in our schools.</p> <p>Please help schools, educators and students by giving them the resources and support they need. We need clear direction for the best safe practices. We need the community to pull together to stop the spread and keep C19 out.</p>
7/20/2020 23:31:27	Angel	Fetty		Leoti	I do not agree with masks for our kids!
7/20/2020 23:31:37	Heather	Williams	USD 260	Derby	PLEASE uphold the order to delay school starting until September. Please do not make this a political issue. Please make the safety of staff and students the highest priority!

7/20/2020 23:31:42	Christy	Lemuz	My Children	Larned	I'm concerned with students wearing a mask for 7+ hours 5 days a week. I'm concerned this will cause more touching of the face as they don't properly know how to take on or off a mask without contamination. Most of these children have been practicing sports this summer and hanging out. I would like to see schools and sports resume as normal or maybe give the parents the option of online or in person for nine weeks and then Re evaluate.
7/20/2020 23:32:15	Kristen	Schweitzer		Manhattan	I know you guys have a tough job and won't make everyone happy. Thank you Please do not open schools before Labor Day. Cases are on the rise and this would put all of us at increased risk.
7/20/2020 23:32:16	Julie	Glendening	Parent/Community Mem	Stockton	I would love to have my girls attend in-person school this fall. I understand the health risks and scientific data that lends to the support of children and adults wearing masks in the classroom and school building. What I can't begin to grasp is the thought of my young children (Kindergarten and 3rd grade) having to wear a mask almost continuously for 8 hours per day, 5 days a week and applying hand sanitizer a minimum of once every hour. My thoughts also go to the teachers, staff, and administration who would be responsible for gathering the necessary supplies and enforcing these measures while struggling to meet all the other demands of their job. Our school has been blessed as a Mercury 7 Redesign School so I have no doubt our staff will do their best to try and meet the needs of all students in our district. As a parent, I think this can be done in an alternative manner that would include virtual learning until the immediate concern of COVID-19 has been mitigated. My husband and I are fortunate to have full-time jobs and my employer, the State of Kansas, has provided great flexibility in these uncertain times. I understand not every parent, student, and family situation allows for an alternative learning environment. Their needs and concerns should be considered as well. While there may not be a perfect solution, I hope that each school district will have the ability to determine what is in the best interest of their students, staff, and community and the flexibility to adopt and incorporate measures to protect that interest. Through the great challenges ahead I have faith in our administration and believe Stockton is TIGER ready. Touchstones, Innovative, Grit, Empowered, Relationships
7/20/2020 23:32:34	Jordanne	Tillman		Kansas City, KS	Please don't make our child the canaries in the coal mines. It astonishes me that educators who claim the love and support our children are actively trying to put them in harm's way. My child currently has COVID and I wouldn't wish this on anyone else. Listen to the scientists, not the politicians. You will literally save lives by switching to online classes
7/20/2020 23:33:00	Ashley	Johnson		Humboldt	I'm all for starting school after the Labor Day holiday. I'm NOT for doing hybrid or at home learning. My family lives 4 miles outside of town, and I can NOT for the life of me find an internet provider that can reach my house. We tried like 8 different companies! We must live in a hole surrounded by too many trees. My husband and I both work full time jobs, and when the school was closed in March, it REALLY put a curve into our lives, as well as everyone else's I'm sure! Luckily my children are only 4th and 2nd graders, because it was a struggle coming home from work at 4:30 and getting all of our chores done, dinner done, leaving the house to go hook up to the Wi-Fi in our vehicle because you couldn't go in anywhere, and then getting home at a decent time to get to bed. It was a struggle!! So please, I'm BEGGING, don't MAKE kids do hybrid or at home learning unless that's what a family chooses to do. My family can not emotionally do that much in the evening. My children will fail and HATE school. Right now, they are looking forward to GOING to school. If that means putting a plexi glass between teacher and students and everyone wear a mask, so be it! Kids need other kids....they are sick of their own family! (LOL) God bless you all on one of the toughest decisions you'll have to make in the history of schools..I can't even begin to imagine the stress y'all have going into the school year!
7/20/2020 23:33:25	Erica	Seago	USD 500	Shawnee	Please vote in favor of the order to delay schools!
7/20/2020 23:33:50	Andrea	Aguilera		Wichita	As a mother of four and certified employee of an alternative school in the USD 259, I support Governor Kelly's executive order 100%. The numbers in my area are rapidly increasing and we need to delay the school year to flatten the curve & ensure the safety of the students and staff of our schools! We are still in the midst of a pandemic and need to adopt flexibility in order to meet the challenges this crisis is presenting! I ask that all of you support our courageous Governor who believes in science and cares about the citizens of Kansas! Safety should NOT be a partisan idea and regardless of whether you have an R or a D next to your name, you should vote to support our Governor's delay!

7/20/2020 23:33:53	Sarah	Crumrine	Parent of 3 Kansas students	Sedgwick	Local schools and health departments should be given control. Masks and social distancing and temp checks will be impossible and likely damaging for kids. Each district should have a remote option and also an in person option. I fear for the teenagers' mental health if they are not back with activities and school this fall. I am also a teacher. I'm ready to be back in my classroom. If we need masks to start the year, that's fine. But there needs to be an end in sight. When cases are down, health departments can lessen the restrictions. Social distancing isn't how humans interact and it can't be enforced in schools. This latest mandate has gone too far. I am heartbroken for the kids.
7/20/2020 23:34:00	Jessica	Short	USD 500	Kansas City	Please take the time to think about everything that will need to be in place before we can begin a school year in person. I work in an elementary school where kids spread germs rampantly, as they are learning how to grow. I also have to handle a lot of behaviors, which requires that I'm touching/holding/restraining/standing very close to students. We will need A LOT more time and training to get ourselves prepared for a whole new way of teaching.
7/20/2020 23:34:17	Rebecca	Woolery	My children's education	Ottawa	What sense does it impose to start school late and require the use of face mask as a safety precaution? Yet daycares have been open through this whole COVID-19 event and not one single event has been brought to light of any daycares closing due to any positive tested CHILD or their daycare workers. No mask have been used in these environments and so shouldn't be in any school environment as well. Me as a parent should be more worried about bullies in schools then wether or not my children will pass out and die from carbon dioxide poisoning from wearing a mask or have to worry about long term health effects down the road. Enough is enough!!!! Open up our schools and get rid of this ridiculous order to start late and require face mask in not only schools but public areas as well!!!!!!
7/20/2020 23:34:30	Kelly	Hall	USD 265	Wichita	We need the delay and the masks for safety of children and teachers.
7/20/2020 23:34:52	Alicia	Worthington	Teacher	Cummings	Get us back in school
7/20/2020 23:34:52	Jereny	Stover	Usd415	Hiawatha	With less than 1 half of 1 percent affected and the vast majority of those in 5 large cities in Kansas, it is extremely irresponsible to hold back our children from education knowing there is already alot of catching up from this spring to do. Open the schools and let our fabulous teachers do what they do best.
7/20/2020 23:35:29	Vicki	Steffen	Cunningham and Skylin	Cunningham	Please, do not delay the 20-21 school year. Based on current research, it is not necessary and would be detrimental to students and staff both mentally and educationally. Small schools such as ours, are prepared to start the year with appropriate social distancing, since class sizes are small, and good common sense hand washing and cleaning practices. Please consider not following the Governor's mandate if possible. If not, allow county commissioner's to do so. Thank you for your consideration
7/20/2020 23:36:15	Tamara	Clymer	Myself as a parent	Brewster	Please do not delay the start of school. We still face a second wave of Covid... waiting to start school until September will only mean even less time in the classroom. Many children, including ours, are looking forward to being back in school. There are no reasonable medical reasons for the delay... please allow SOMETHING good to happen for the kids this year.
7/20/2020 23:36:33	Celeste	Goddard	Self	Minneapolis	I do not feel it is in the best interest of our kids and teachers to postpone school. They need to be back to some normalcy!
7/20/2020 23:36:48	Ye	Wang		Overland Park	These executive orders are overreach of executive power. The amount of learning that kids are missing due to daleyng school opening and the months' long close down is devastating to kids. The literature on Spanish flu shows that the only thing that did not recover was education. It was an entire generation's loss. Kids are statistically less likely to get Covid 19. I understand the risk of the other parts of the population, but one essential workers bravely served the communities during the hardest time. Schools should do the same. Also, have we asked our kids? Are their voice heard? My kids told me, no more online learning, and the miss school. Meanwhile, we should also let the schools to decide which health recommends to follow. One-size-fits-all is a formula for disaster for sure. People know what is the best for themselves, not the governor. The right thing for the governor to do is to provide options, not to limit freedom!
7/20/2020 23:37:16	Stacie	Tharp	Public School	Pratt	I'm all for the delay.

7/20/2020 23:37:35	Kristol	Stenstrom	Parent of middle & high	Shawnee, KS (Johnson C	As a medical professional the past 26 years, and being an essential worker since the beginning of this pandemic, kids NEED to attend school to regain the time lost in behavioral, educational, and social development. FACT: children are NOT a source of community transfer; FACT: if PPE works for those of us in healthcare working with ill individuals, then PPE will work for teachers instructing HEALTHY children; FACT: the infection rate of essential workers is very very low (this includes grocery store workers, department store workers, day care facility workers, hospital workers, doctor's office staff, veterinary office doctors and staff, etc. Teachers should be considered ESSENTIAL. Enough is enough.
7/20/2020 23:38:06	Nichole	Milleville	Renwick School District	Wichita	Please don't open schools till after Labor Day for our students and teachers safety. I am a teacher and am horrified to be rushing back to school.
7/20/2020 23:38:15	Scott	Logan		Hutchinson	Please do not allow the governor to shut down all music and athletic programs between August 10 and September 8. This will CRIPPLE music and athletic programs all over the state and will be EXTREMELY harmful and demoralizing to thousands of middle school and high school students. The schools and students who will suffer the most are students in smaller districts where the infection rate is lower anyway. Students in smaller schools already have to fight harder to "keep up" with students in larger schools. This will only widen the gap between larger schools with more money/students/programs/facilities and smaller schools. Closing down athletic and music programs for a month will only add insult to injury for what these students have already lost since last March. Athletics and activities are quite often the only things that keep kids coming to school. Don't rob our students of those opportunities. Don't add to their already compromised social-emotional well-being. Don't allow the governor to inflict pain and harm on our students and our schools' athletics and activities programs. Please fight FOR our students, not against them.
7/20/2020 23:38:19	Raschel	Jolly		Wathena	Keep schools closed Board members,
7/20/2020 23:39:15	Jonathan	Eshnaur	Teacher	Olathe, Kansas	<p>This is a difficult decision that you are facing that was forced upon you. I appreciate the service during this difficult time, in the midst of a pandemic. I think it is important to pause and reflect upon the moment we find ourselves, in the midst of a worldwide pandemic.</p> <p>A major job of any school system is the safety of our students. In the midst of a pandemic, we need a standardized approach to the start of the school year for all Kansas schools. This executive order provides schools with a much-needed gift, the gift of time so that districts have time to fully read the Navigation Change and adjust their plans for re-entry into the school building.</p> <p>In a normal year, time is a very critical resource that we often never have enough of during a non-pandemic year. The gift of time provides school staff to develop safety procedures that we've never had to do before. Time provides us with the ability to make sure that educators have the materials needed in the classroom to keep students safe. Time provides us with the ability to learn new technology tools that we will need to teach students. Time gives us the ability to focus on the hows that are filling our heads at night as we fall asleep.</p> <p>Educators want to return to teach our students. I myself would love to make this pandemic disappear with the wave of a whiteboard eraser. What I've learned over the past few months is that no matter how much wishful thinking I might have, Covid-19 is not going away or getting any better. We cannot ignore hard data facing Kansas.</p> <p>Kansas continues to see high numbers of people infected with Covid-19. This executive order allows the education system the most important gift of all, time to lower the number of infections of Covid-19. Please see the data on this chart that Kansas now has more infections than April or May. <a href="https://covidtracking.com/data/state/kansas">https://covidtracking.com/data/state/kansas</a>. I am fearful that if we do not lower the number of infections now, what will happen after school starts to my students and fellow co-workers. A recent story from a small town in Kansas shows that any Kansas town can become a hotspot. <a href="https://www.kansascity.com/news/coronavirus/article244268532.html?fbclid=IwAR3NdTqDrebMgLO7uEih5fm6MrZn">https://www.kansascity.com/news/coronavirus/article244268532.html?fbclid=IwAR3NdTqDrebMgLO7uEih5fm6MrZn</a></p>
7/20/2020 23:39:32	Barbara	McDonald	Concerned citizen	Salina	Please support Governor Kelly by passing the start date of public schools in Kansas until after Labor day at the earliest.

7/20/2020 23:39:33	Danelle	Johnson	my family	Lindsborg	please get kids back in school with no delay and continue all activities as they have been already doing. Stopping sports and activities for middle and high school kids is beyond confusing to them when they have been preparing for them for 2 months. We are teaching our kids that there isn't logic to what is being decided. They are doing what is asked for them with success. These kids need their activities and their school experiences. Please don't delay in opening schools. Thank you kindly
7/20/2020 23:40:04	Ragena	Duling	Resident of Kansas	Columbus	Please let our children go to school on the original date and please do not require them to wear a mask. This fear has to STOP. Let us make a personal choice for our children and ourselves.
7/20/2020 23:40:08	Deborah	Glenn	None	Overland Park	Please consider facts, medical experts and the KSDH when making your decision. Kids get the virus, kids cannot under any circumstances or at any age be trusted to keep a mask on for an entire day, wash their hands when they should or maintain social distance. This is not about football or falling behind some imagined line of academia, people will die. Go slow. Be safe. Pray.
7/20/2020 23:40:26	Reagan	Proctor		Lawrence	I do believe schools should stay closed until sept 9th and then continue online only until KS can get our cases per day down to 0 for fourteen days. We have no business putting adults and students in classrooms when thousands or hundreds of thousands will die.
7/20/2020 23:40:34	Marc	Anderson	Derby Public Schools	Derby, Kansas	Kansas is a red zone. The majority of the county commissions threw caution to the wind in opening their county after the governor's authority was taken away. The Kansas BOE can make a strong statement to those county commissioners by backing the governor's executive order. All stakeholders in our public schools deserve the opportunity to start this school year in a safer environment. This delay would give the nay sayers a chance to show just how important school and the lives of Kansans are to all of us.
7/20/2020 23:40:38	Ashleigh	Downs	Kansas City Kansas pub	Kansas City	I am beyond delaying schools start virtual and go from there! Funding should not become before our children! Many children have pre-existing conditions! Please consider that and for those families who need school to provide for there family give options that can work with them like small classroom Less than 10 kids ! Teachers report soon and for this to keep getting pushed and is left in the air does not feel like the importance and our safety is really the first mindset of our educational system in Kansas
7/20/2020 23:41:06	Kathy	Hershberger	Self	66618	I am a medical provider and mother who is a life long resident of Kansas. I have done much reading and processing of information and research regarding COVID19. I have been frustrated from a professional standpoint regarding the inflammatory portrayal of COVID19 signs, symptoms and treatments as well as illogical and poor care given to patients during this pandemic. In any given situation, when things are out of control you need to return to the basics. We as medical providers are not grounding ourselves in the basic fundamentals that have been the cornerstone of providing care. Additionally we as Kansans are not grounding ourselves in the basic fundamentals of educating our children which will have rippling consequences for our children and our society long into the future. Different schools, different students, different teachers have unique challenges and unique talents and unique experience. I implore you as members of the state board of education to reject Governor Kelly's current mandate regarding school reopening and leave the decisions to the individual schools and/or districts. Thank you for your time and consideration.
7/20/2020 23:41:08	Kim	Horinek		Goodland	These kids need to get back to school! Get things back to a normal state! No matter if you start now or wait it will still be around! Take precautions and get back to school!!
7/20/2020 23:41:09	Jamie	Tast-Pasley	Topeka public schools u	Topeka	Please no in person school before labor day. Our children are our future and we must protect them.
7/20/2020 23:41:22	Terah	Yoder		Hesston	I fully support Executive Order 20-58. School districts need extra time to finalize details for effectively implementing COVID-19 safety measures. It is vitally important for ALL children and adults to wear face masks to mitigate risk for disease transmission.
7/20/2020 23:41:22	Charlotte	Hagman	My 3rd grade children	Overland Park	Please, please follow Gov. Kelly and do not open the schools prior to September. For the safety of our children, their teachers and the staff I feel that schools should not open during the fall semester.
7/20/2020 23:41:53	LaRae	Schneider	Middle School parent	Concordia	Core classes only and separate kids into 2 groups and do each 2 full days per week.
7/20/2020 23:42:06	Abbi	Markowitz		El Dorado	I believe teachers need adequate time to prepare for this upcoming year. By delaying the start of school for kids I think that gives educators that time necessary to make this year successful.
7/20/2020 23:42:10	Heather	Good	Parent - Shawnee Missio	Overland Park	As a parent to three elementary aged students, one of whom has type-1 diabetes, I strongly support Governor Kelly's executive orders to delay school until after Labor Day. I also strongly support her executive order for requiring masks for all students. Thank you.

7/20/2020 23:42:11	Mason	Bennett		Bucklin	Please delay until Labor Day. Thanks!
7/20/2020 23:42:15	Rachel	Hancock	David Brewer Elementary	Kansas City	I believe we need to delay the start of the 20-21 school year until at least after Labor Day to allow school staff to prepare according to the guidelines set out by the state. I also believe this is in the best interest for the students/staff to allow more time to hopefully flatten the curve and lower local cases. Thank you.
7/20/2020 23:43:01	Chris	Belknap	USD Iola Middle School	Iola	Please support the governor! Giving teachers and school admin 3 weeks to prepare for students is imperative. Everyone is buying hand sanitizer and masks, so just to get those items will take awhile. We also need time to figure out how to reorganize classrooms to keep student desks apart or build partitions on tables. This is all going to take time. Thank you!
7/20/2020 23:43:24	Megan	Trimble	USD 229	Overland Park	Approve Gov. Kelly's EO delaying the start of the academic year until after Labor Day. By approving the EO you are NOT taking away the power of local school boards. Approving the EO empowers local school boards to make decisions based on student/staff health & safety. Shutdowns are inevitable and the risks outweigh the benefits of rushing back into in-person learning this fall. By approving a delayed start we will be setting-up all Kansans for success.
7/20/2020 23:43:35	Pam	Baker		Olathe	I am actually happy with school starting after Labor Day regardless of the pandemic. I think starting in early August is nuts and would love to see the kids go back later and then extend till the end of May.
7/20/2020 23:43:47	Marcy	Bizal	Blue Valley Schools	Overland Park	As a parent and as an employee , I am so grateful for this order, so the districts can try to make the safest and best decision possible. It may look different than any other school year, but considering the fact that we are in the midst of a pandemic, it's to be expected. I am nervous about going back to work with the special education population with whom I work the most.
7/20/2020 23:43:48	Dana	Roemer	aunt who schools her sh	Emporia KS	My cousin says it best - I am "just" a teacher and I will do whatever needs to be done in the best interest of my students. However, please keep in mind that I did not sign up to be a front line worker, which is exactly what you are asking us to do when discussing in person school. We shouldn't be hearing things like "death waiver", personal protective equipment, or normal. Nothing about this school year is going to be normal, but it can be safe. We should be making the decisions about In person school based on scientific facts, not political or economical beliefs and wishes. Science doesn't yet know the extent to which kids can contract, carry, or transmit the virus. Science doesn't yet know the long term effects of contracting this virus. Science doesn't yet know who will or will not be effected and to what extremity that person could develop symptoms. There are a lot of people that we are putting at risk when we discuss in person school. Instead, let's uphold Governor Kelly's order to postpone school and give educators the chance to plan effective distance learning that ensures the safety of everyone involved.
7/20/2020 23:44:06	marybel	castilleja		Satanta	I know that these orders are placed for our safety. But I don't believe masks really help anything I have 2 kids with asthma and this is not going to work for them. Something also about breathing your own carbon monoxide can not be healthy. I believe it would be best to cancel the rest of the school year. Flu season is coming up and it's only going to get worse 🙄🙄
7/20/2020 23:44:10	Julie	Davis	Self/grandchildren	Olathe ks	Plz do not Re-open schools. Children will learn more virtually rather than trying to learn under the stress of in person education. It is our duty to protect the children and their families from the spread of this disease by returning to school. The generalized anxiety disorders that the younger generation will develop due to the stress of what they will experience is not healthy. The economic toll of businesses having to either shut down again or people not having confidence to be out again due to the increased spread sending children back to school will cause. The benefits do not outweigh the risk. Keep children safe at home to learn. Keep teachers safe by teaching virtually. This has been proven in other states and countries. Long term damage by this disease has not even been determined yet.
7/20/2020 23:44:18	Rosella	Madere	My family	Hiawatha	We need to wait until at least after Labor Day to start school. We need to do what the governor says she has the kids best interests at heart.
7/20/2020 23:44:28	Mandi	Miller		Brewster	My kids go to colby middle and grade school. They need things to be normal again. Dont postpone school any longer.
7/20/2020 23:44:57	Jaylyn	Davis		Columbus	I don't feel as if we should delay school starting. It's only going to push back the timing on everything and it's not going to be gone in 3 weeks. Sorry. :)

7/20/2020 23:45:10	Margaret	Leigh		Olathe	I am in favor of keeping schools closed until after Labor Day and until our numbers have been declining for 14 days. I have lost 3 friends to COVID. My son's best friend is 11 & is very sick with COVID right now, as are his parents. Covid is a very real threat in Johnson Country. We had to shut down our summer camp due to COVID, and I understand there Jewish Community Center in Overland Park had to close their camps last week, too. When schools open, it won't be long before we are sending entire classes home to quarantine. If a teacher gets Covid, will every teacher who was in the teacher's lounge at the same time or in the office at the same time quarantine? Please let the numbers decline significantly before opening. There are scientific facts for how an epidemic should be handled. As educators, we can't turn our backs on knowledge. It isn't easy, but we know what we have to do. Wait for the downward trend before we open schools. If you're still undecided, I would love to introduce you to my nurse practitioner friend who is working a pediatric COVID ICU. Her entire floor in the hospital was converted for kids in ICU with COVID. She said less kids are hospitalized than adults, but that the ones who are hospitalized get every bit as sick as the adults. My friends has pediatric patients on ventilators. She's in PA, but KS could be next. You have the power to keep kids and teachers safe. KS is trusting you. Science supports you.
7/20/2020 23:45:23	Nicholas	Green	Wichita Public Schools	Wichita	No in-person learning for the first semester.
7/20/2020 23:45:49	Holly	S		Overland Park	Governor Kelly continues to ignore the advice of experts, including the American Academy of Pediatrics, who are saying that kids need in-person learning to thrive. Please follow the experts and not the political pressure. Let our schools re-open without a delay. Let our kids learn again, grow again, and thrive. The sooner, the better. On a related note, daycares have been functioning much like normal throughout this pandemic without significant issues, the school should be no different. Also, please do everything you can to follow the expert advice to let children under 12 years old NOT wear masks to school. As the Board of Education's report Navigating Change said in Appendix C, pages 8-9, masks are not effective for this young age group as the masks will serve as a distraction from learning, cause the kids will touch their faces more, and the benefit from wearing masks at such age is low as they have been shown not to be "super spreaders" of the virus. If you haven't personally tried to keep a mask on a 6 year old, I would ask you to try it before acquiescing to the governor's unworkable order. Thank you for your time and service.
7/20/2020 23:46:25	Katie	Stout		Derby	I know my opinion really doesn't matter, but I will share it anyway. I am filled with anxiety with the thought of being forced to make a decision that could impact my children's health. Opening schools for in person instruction with our current infection rate is irresponsible. I fully support the delay. Hopefully this will give time for the new mask mandates to start impacting our infection rates and those will begin to lower. Our children are not political pawns. This isn't a Republican vs Democrat decision. Look at the science. I find it funny that all these adults making the decision to open schools are doing so on Zoom meetings from the safety and comfort of their own homes. If it isn't safe for them together for a 2 hour meeting, how am I to feel ok about sending my child to a building with 600+'kids for 6 hours a day? Please support the governor's executive order.
7/20/2020 23:46:31	Katen	Bannister	Retired central admin O	Gardner	I support the governor's order to postpone KS schools start date to after Labor Day. School personal need extra time to prepare for the year knowing, likely both online and in person instruction will be offered. Please keep foremost on your minds the mental wellbeing and health risks of the people you are asking to do this work. Delaying the opening of schools while Covid 19 cases have increased is in the best interest of staff and students, as it will hopefully, limit the number of times schools have to start and stop in-person instruction. Please do not make this a political issue!!!! I have 2 grandchildren who are abnormally susceptible to the virus! Thank you very much for hearing our concerns.
7/20/2020 23:46:36	Kevin	Dority		Salina	Do NOT make kids wear mask!
7/20/2020 23:46:46	Robert	Farris		Overland Park	If a decision is made to not allow schools to open after Labor Day, as a teacher, I request that we be considered essential personnel. This would allow us access to needed resources, technology, and pieces of equipment that don't have at home. If all the teachers are in their rooms, we are physically distant from each other, which will reduce the possibility of spreading the virus. If a teacher does not want to work from school, he or she could stay home.
7/20/2020 23:46:49	Chad	Weinand		Olathe	As a parent of two kids in public schools and spouse of a teacher in Public schools, I support the delay of the school year until after Labor Day. If COVID trends continue as they are currently, I'd support a further delay. The safety of our kids and teachers should not be jeopardized.

7/20/2020 23:46:58	Melissa	Bigge		Stockton	When school was called off for the remainder of the year back in March, I felt like it was a little over the top. However, when the governor announced last week that school would be delayed until after Labor Day, I felt a great sense of relief. As things have opened up and cases of Covid have increased, I have felt anxious about sending my child back to school until numbers are under control. I feel like the delay gives some time to have more answer of the direction of spread and if more caution needs to be taken. Also, I know the importance of kids being in school, especially those who aren't safe at home and those who have working parents. It is important for kids to be able to socialize with their peers too. When I read the regulations of desks all facing the same direction and being six feet apart and everyone wearing masks, I have great concern that we are taking the social aspect away from school and going back to the model of the past that the Kansas Redesign is trying to get away from. I feel like it is moving in the direction of the teacher lecturing while students sit in rows and stare at the teacher. At this point, I feel like we are losing the social interaction that is a driving factor in going back to school. It is my hope that the State Board of Education will vote to uphold the Executive Order delaying the start of school until after Labor Day and in the future even longer if necessary.
7/20/2020 23:47:28	Kevin	Edmonson		Overland Park	As a nurse, I fully support Gov. Kelly's EO.
7/20/2020 23:47:47	Desirae	Kessler		St. John	I would not like school delayed.
7/20/2020 23:47:53	Latanisha	McGuire		Wichita	It is not safe to begin school on site. I support the governor's executive order. When cases decrease then we can open up safely.
7/20/2020 23:48:04	Stacey	Coad	OSD teacher	Lenexa	Please keep our schools open and allow athletes to participate in sports! If parents choose they can have their child enroll in the online option. Thank you!
7/20/2020 23:48:07	Caitlin	Naylor	I am a teacher in a school	Kechi	I am urging you to please approve the Executive Order. My district only just began the initial phase to plan for instruction. Instead of starting to plan in June, my district waited until the KSDE recommendations were approved. Our first district meeting about reopening our district was on July 20th. As a teacher, I feel districts need more time to not only plan, but to also see if cases can begin to decrease. Also, as a teacher, it is not my responsibility to keep the economy open. My job is to love and teach my students. I cannot do that if I am sick or dead because local agencies do not take this pandemic seriously. I firmly believe that lives are at stake, and even 1 death of a child, teacher or family member that can be traced to a school is completely unacceptable. I strongly urge you to think of the best interest of the people in Kansas and to please approve the EO. Thank you for taking this huge task on.
7/20/2020 23:48:10	Suzanne	McDonald		Lenexa	I agree with delaying the start of the school year until after Labor Day. I'm hoping with the extra time, efficient plans and procedures can be implemented and more options can be made available to try to open as safely as possible. I would love for my kids to be able to go back to their schools but I do not feel it would be safe right now.
7/20/2020 23:48:35	Barbara	Head		Coffeyville, ks	Let school start in August
7/20/2020 23:48:38	Stephanie	Conner		Paola	I would like to see the executive order stay in place. Teachers need the time to be able to get school ready for students and right now they don't have that time. This will be of great benefit to everyone in the long run.
7/20/2020 23:48:39	Beth	Krum	USD 233	Olathe	Please do what is best for our state by voting yes to support Kelly's EO to delay the start of school. Allow teachers the time needed to get trained and adjusted. It doesn't make sense to start school when we are in the worst position we have been in since this pandemic started. Lives are depending on our leaders to do the right thing.
7/20/2020 23:48:56	Zachary	Shoemaker	Teacher	Eudora	Please delay the reopening of our schools by supporting the advice from governor Kelly. Please encourage our schools to start with remote learning. We have to keep each other safe.
7/20/2020 23:48:56	Jamie	Edwards		Topeka	Close the schools
7/20/2020 23:49:04	Brittney	Menges		Salina	As a teacher, I think delaying the start of school will be very effective. It will give teachers time to plan and make sure safety measures are taken without being rushed into anything. This will ensure the most safety for our students.
7/20/2020 23:49:33	Stacey	Coad	OSD teacher	Lenexa	Please keep our schools open and allow athletes to participate in sports! If parents choose they can have their child enroll in the online option. Thank you!

					<p>Please support Gov. Kelly's plan to postpone the opening of school.</p> <p>I offer a perspective some may not have considered.</p> <p>As a (newly pregnant, high risk pregnancy) elementary music teacher, I fear for my own health as well as the health of my unborn child. I also worry about my fellow staff members and most importantly, my students and their families/community.</p> <p>I personally see about 500 students twice a week for 30 minutes at a time.</p> <p>Even following socially responsible protocols, my risk of being exposed to and then transmitting COVID-19 is exponentially higher than many other staff members.</p> <p>There are many of us who could be infected with the virus and be completely fine, but there are dozens (possibly hundreds) of others who are either higher risk or would be in contact with someone who is high risk who could die.</p> <p>We have to consider community spread and our responsibility to protect each other.</p> <p>We also do not know the long term affects of this virus, so even if someone doesn't die, they could still have detrimental long term affects.</p> <p>Any life lost is one too many. We cannot risk that.</p> <p>From the beginning, we have been told that large gatherings were the quickest way to spread this virus. Because of this we CANNOT allow students and staff to convene for 5 days a week, 8 hours at a time while the case numbers are higher than they have ever been.</p> <p>There are many other things I am concerned about, here a just a couple of my main concerns.</p> <p>1) substitute teachers. If a staff member gets sick in any way, we'll need to take time off work. There is already a sub shortage for many districts, this will only get worse. And many substitute teachers serve multiple schools, how would they continue to do that? We would have even less substitutes available. In the past if we haven't had a substitute available, we've "simply" combined classes, how can we do that and stay socially distant?</p> <p>2) if a teacher is tested positive, everyone they come into contact with would need to isolate/quarantine. As the music</p>
7/20/2020 23:49:53	Bernadette	Ferraro		Kansas City, Kansas	
7/20/2020 23:50:30	Pam	McCoy Greene	Shawnee County Democ	Topeka	<p>Thank you Governor Kelly, for taking a stand to protect all Kansans. I realize you have the Republicans nipping at your heels continuously and I admire your strength and determination.</p> <p>I have four generations residing here and my son is in Tempe AZ. I worry daily for their health like many families. You are saving lives, I wish those in government would step back and let you pave the way to a better future for us all. High praise to you.</p>
7/20/2020 23:51:21	Lori	Klein	Silver Lake Schools	Silver Lake	<p>Start school. 99 percent survival rate, we live in rural Kansas. We are not New York. No masks, they don't stop viruses.</p>
7/20/2020 23:51:30	Angie	Draney	USD260	Derby	<p>Please value public health over politics. Uphold the Governor's order and support the delay of KS schools opening.</p>
7/20/2020 23:51:45	Halli	Linkn	USD 352	Goodland	<p>I think our districts should be able to do what is best for our students! One size does not fit all of Kansas!</p>
7/20/2020 23:52:05	Evangeline	Hart		Fort Scott	<p>The high school students who are reluctant learner's which seems to be most of them, failed to do any work following the shut down in March. This will further delay their learning. We know students lose a significant amount of what they have learned in a school year just over summer break and this will be double that time. They need to be in a learning environment not turned loose on the streets or in a restrictive or abusive one.</p>
7/20/2020 23:52:18	Rachel	Johnson	Parent	Wichita	<p>Support following CDC guidelines, schools should not reopen for on site classes until the guidelines set by health professionals can be met. This includes delay and use of remote learning as new information and guidelines evolve. Students and staff should have the support of leadership that is not being pulled by forces other than medical guidelines with the top priority being safety. Furthermore, resources for staff should be a secondary priority to ensure safety measures can truly be met.</p>
7/20/2020 23:52:28	Jacob	Will	Parent	Leavenworth	<p>Schools should open on time without any screenings or mask wearing.</p>

7/20/2020 23:52:34	Colleen	Cunningham	none	Overland Park	I support delaying the start of the school year. A delay gives the general population additional time to flatten the curve so there is less community spread, as well as giving school districts and families a bit of wiggle room to figure out how this will all work for them. We are in an unprecedented situation, and it's okay--even wise-- to move with caution.
7/20/2020 23:52:47	Danielle	Holtzman	St. Catherine of Siena C	Wichita	I believe schools should DELAY until after Labor Day in order to ensure that schools have appropriate plans in place to keep students distancing, implement online programming if needed, and finalize sanitation plans.
7/20/2020 23:52:53	Danita	Long	Kckps	Lawrence, ks	I support Gov Kelly's EO
7/20/2020 23:52:56	Jeanneyy	Valdovinos		Liberal	Please think about the safety of students, staff, and families and pass EO to delay school made by Governor Kelley.
7/20/2020 23:53:19	Ashley	Petty		Protection	Open schools at their original start dates!!
7/20/2020 23:54:49	Melissa	Dunn		Topeka	I stand with science, safety, & Governor Kelly. Going back to school while numbers spike is so incredibly foolish I can't believe it's even being debated.
7/20/2020 23:54:50	April	Hoffman	Kckps teachers	Lenexa	PLEASE uphold the Governor's executive order! It truly is the right thing to do!
7/20/2020 23:55:10	Veronica	García	Self	Scott city	How do we make it a law for the little kids to keep their masks on! Not all kids are ready for the change in their lives. So my point is how do make it a rule for the little kids that are barely going to start school ( one change) wear masks ( second change) the whole school year
7/20/2020 23:55:16	Aubrey	Deegan		Overland Park	Yes delay
7/20/2020 23:55:33	Justin	Rugg		Greensburg	The delay in starting school should not be based on big city numbers of covid. Where we live we have almost no cases and not one K-12 student has been diagnosed. Why should our kids be punished because of some big city spike of Covid? This needs to be looked at district by district. Not city by city or town by town. For the most part, western Kansas has different needs then let's say Wichita or Kansas City. You can not base delaying schools just because some cities show a spike. It's not our Childrens fault that the big cities have this going on. Please we pray that you override the Gov and let school start on time so that the students get the education they need!!
7/20/2020 23:55:38	Rachel	Swearengin		Olathe	Based upon the information available, I believe we are able to send students and staff safely back to school and activities now. I also believe we do more harm than good if we delay starting school and activities on time. Please do not approve the governor's executive order. Leave this decision up to each school district.
7/20/2020 23:55:47	Gwen	Jenner		Goodland	Delay school until after labor day
7/20/2020 23:56:39	Nathan	Shaw	Parent	Maize	Don't delay school openings. Kids need school and they're not at risk of Covid

7/20/2020 23:56:50	Lauren	Wohlford	Teacher	Olathe, KS	<p>Good evening,</p> <p>My name is Lauren wohlford. In full disclosure, I'm an elementary school teacher but I'm so much more than a teacher. I'm a mom, wife, friend, sister, daughter, etc and all these people NEED me. I'm honestly terrified to go back to school.</p> <p>We learn more conflicting information about COVID 19 daily. Because of this, I absolutely do not feel safe in a poorly ventilated classroom amongst 20+ third graders.</p> <p>I have a two year old with severe asthma, a four year old with periodic high grade fevers. I am terrified to bring covid home to either of them. I watched one of my daughters sit lifeless at children's mercy at 2 weeks old. She stayed for a week fighting RSV/Bronchiolitis. I am terrified to be put back in this situation where I sit helplessly watching my child struggling to breathe and unable to eat in a hospital.</p> <p>As a parent, I understand the frustration and anger. I would be lying if I said I wasn't disappointed to hear that my daughters preschool had been cancelled for the 2020-2021 school year. Despite my disappointment, I understand the reasoning behind it and I stand behind the preschools decision. While I fully want my child to have the social interaction and academic support, I would be devastated if her school had a single death due to the risk we put on students and staff.</p> <p>Please, I beg of you, please vote to uphold Governor Kelly's executive order to start schools after Labor Day. This will allow teachers and districts the time needed to fully implement the new education plan. It will also give our community time to social distance in order to bring our case numbers down.</p> <p>Thank you for considering, Lauren Wohlford</p>
7/20/2020 23:57:42	Allison	Swilley	Circle, USD 375	Towanda	<p>As a first grade teacher and parent of three elementary age children, I am so thankful for Governor Kelly's plan to push back the start of school. Our district will not complete our official plan until approximately July 30th. My report date is August 7th. That would only give us one week (that is supposed to be our last week of summer with our families) to frantically plan and gather the proper protective equipment. Please consider accepting her proposal for the safety and well-being of the students and adults working in my building, and all other buildings across the state. Thank you!</p>
7/20/2020 23:57:59	Dana	Collins	Kckps parents	Kansas city	<p>Please think about everyone involved before make a choice. Think about the grandparents who take care of their grandkids and more. We need to protect the teachers and students. Would you send your grandparents into a school for 8+ hours a day during this. If not why would we send our kids and teachers. They released prisoners to make room to avoid Covid. So why send our kids and teachers. Delay school reopening until number drop. We closed in march to keep everyone safe when numbers where at there lowest. Why would we send everyone back when they are at there highest.</p>
7/20/2020 23:58:42	Melissa	Fullen		Salina	<p>I agree with Governor Kelly and school should be started in September after Labor Day to hopefully give a little more time for things to slow down with this virus and also to allow schools to be more prepared. I think most kids want to get back to school the sooner the better but I also think the truancy laws are going to have to be relaxed so if there is a question a parent isn't in trouble for keeping a sick kid home. If kids are coughing and sneezing I don't want them in school or any other symptom where they could be rapidly spreading the virus. I hate the idea of them wearing masks all day with asthma and other health concerns I am worried and maybe giving another month can help parents feel better about sending them back to school. I am so torn on whether to send my son on site or to do online and I need more time to ride out this second round of cases and hopefully feel more confident in my decision.</p>

7/20/2020 23:59:11	Treva	Prieb		Canton	School needs to open as planned for the mental health of our children. Sports need to be played & we need to resume our lives. If people do not want to send their children, that is their choice. Please... let them have their lives back!
7/20/2020 23:59:35	Rebecca	Mulanax		Paxico	Open schools with restrictions and alternate options for those who are uncomfortable sending their children, or with immunocompromised children. Keeping schools closed will negatively impact children's education and mental health. Keeping schools closed will devastate our economy for many years to come. Colleges will likely close as well, furthering the devastation. Alcohol use, illicit drug use, and unwanted pregnancies will likely increase due to children being left home alone. Most parents are unable to teach their children while working full time jobs. Young children will stay home alone because their parents cannot afford daycare or the daycares are already at full capacity. Too many children will suffer silently because there will be no one to see the bruises or their lack of nutrition. What percentage of students completed their online school work? What is the difference of 50 children in a daycare center that do not wear masks, touch their face constantly, share toys, put those toys in their mouth, and have contact with all of the daycare providers, than kids who can wear masks, and can wash their hands effectively? Why can children go to pools and play at parks with other kids but recess is a concern? Children need interaction with other children to fully develop their brains. If you choose to keep schools closed, you will find in years to come that you deprived them of so many things that you will not be able to undo.
7/20/2020 23:59:44	Gerie	Byrum	Parent	Wichita	Please follow the Governors mandates & give schools more time to plan how they are going to handle schools opening. They are under so much pressure. I don't envy the decision makers in this situation.
7/20/2020 23:59:54	Rachelle	Menard		McPherson	No, schools should NOT be delayed. We must learn to live with a virus that isn't going to magically disappear sept 8th when the Governor says schools May open. Also, a one-size-fits-all approach doesn't make any sense. Counties with minimal ACTIVE cases should not have to adhere to the same rules as counties with many ACTIVE cases. The size of districts also plays a factor as there is a wide range across the state. Let individual school boards do what is best for their county and cities. Kids need to get back in to the classroom!!
7/21/2020 0:00:12	Judith	Hernandez	Substitute Blue Valley,	Olathe	Thank you for reading this. I would not want to have to be in your position to make such an important, potentially live altering decision. I am writing to simply give my thoughts on this situation. I haven't worked since March, I need to work, but I am also willing to continue to wait in order for it to be safe for all teachers, children, and staff to return. I have read lots of scientific literature on this virus and although I understand that children are not in a high risk group, teachers, bus drivers, paras, staff, and family members could be. I'm very concerned that children could carry this virus home or could bring it from home to school infecting those they care the most about. I'm concerned for the students as they may lose friends, teachers, or family to this virus. Many children live in multi-generational families that are at high risk. They could lose their loved ones needlessly and I cannot imagine the guilt they would carry for life if that were to happen. I understand that children need to be back at school but not at the cost of their lives or the lives of those in the schools or their families. Until this virus is under control, the risk is just too high. Other countries that have opened successfully did so when numbers were negligible and they had stringent plans in place to protect their students. That is not possible with the current rising numbers in this country and class sizes In our schools. I'm honestly dumbfounded that we have to even have this conversation. That Governors in some states have acknowledged children may die, but we must open. The death of one child is too many. Could you go into a school and pick out a few children to die out of each school? If you cannot then this is the wrong time to open because that is essentially what you are doing. You may never know if staying closed was the right or wrong thing to do, but if you open and children, staff, and families begin to die you will surely have your answer. Can you live with that? Please, for the lives of our children, staff, and families wait to open until it is safe.

7/21/2020 0:00:26	Cheryl	Sostarich		Kansas City	I support Governor Kelly's delaying the opening of schools. The Governor helped to keep the numbers low because of her decision in March. We are seeing an increase of cases in Wyandotte County. The highest since the beginning of the pandemic. It would be irresponsible to have in person classes. You would be putting the health of myself, my family, my students and their families at risk. In my classroom at the beginning of the pandemic I had 2 students who lost relatives to this virus. One was an uncle and the other their father. It is real and can be deadly. Now there is an increase in the number of younger people being affected. I would love to go back to school. As a teacher I truly missed my students. I missed the connections we had. As a teacher it was very difficult to not be in the classroom with my kids. But I knew it was the best thing for everyone! Put politics aside and protect all of us!
7/21/2020 0:01:09	Amanda	Smith		Olathe, 66062	Schools need to stay closed. There are a high number of cases of Covid in the metro area, and we haven't had time or enough closure to take care of the rise in cases by the time school will start. Starting now is dangerous.
7/21/2020 0:01:16	Annette	Bradbury	USD 233	Olathe	Please allow this delay AND help encourage citizens to stop the spread. I know this is not a one-size-fits-all situation, but across the state, this short delay could save lives.
7/21/2020 0:01:27	Shalan	Field		Wichita	It is a joke and a disgrace to our kids that school is pushed back another 3 weeks. 9f its that bad...start it up remotely? My children already lost out on 9 weeks of education last year. One of my children is on an IEP and lost out on 1 hour a day of her gifted services. I am at a total loss as to what Usd 259 has done the past 5 months...but collect a paycheck. 259 has failed the students this past year. I understand that not all students have the means or technology to remotely learn...but my children did and the only thing they were offered was a packet sent in the mail every week. I look at all the other districts and businesses scramble something together to get the job done. You are telling me that a teacher did not have the means nor technology to offer something to the kids that had that same ability as they are still getting paid for 8 hours a day of work. You are telling me that the librarian, the gym teacher, the music teachers, the school social worker nor the art teacher could send out an email for a zoom meeting and have kids remotely be apart of something kind of normal...even just one hour once a week? If for even a minute anyone in the education or political field feels that a child's education is not essential then they need to find another profession. Our children deserve better than this. Quit playing games with people lives and do the right thing. Let the kids and teachers that want be in the building be there! After all we live in America don't we.

					<p>I truly support the Governor's delayed start mandate and respectfully ask you to uphold it.</p> <p>Our schools need to prepare for the Department of Education guidelines that were released last week. Please give staff time to truly understand the considerations for this upcoming school year, to obtain the needed protective and sanitation supplies, and give our community time to try to turn the curve back around. As school ended in May, Kansans had done an admirable job of flattening our COVID curve. We all expected to return to a healthier situation this fall than is actually happening. And now, they must navigate this pandemic with a few long-standing realities:</p> <ol style="list-style-type: none"> <li>1. Our schools rely heavily on parents to send in hand sanitizer &amp; disinfecting wipes? These items have been exceptionally difficult for families to purchase since early March. Schools will now have to find robust disinfecting and sanitation supplies in a tight market. I know my family does not have enough extra to send to the school right now - I was able to find ONE package of disinfectant wipes last month for the first time, and haven't found any since. I would normally send an additional \$50 worth of sanitation supplies to our school midyear but doubt I will be able to this year. We can't ask parents to carry that burden any longer, and we can't let schools whose families can't afford to send extra cleaning supplies in go without. This needs to be a permanent funding shift.</li> <li>2. Do you realize how many students arrive at school with medication on board to hide fevers? I've lost track of how many times one of my kids has reported a classmate arrived and disclosed they have been vomiting all night. Families send their kids to school sick. This is the sad truth, but now in the midst of this pandemic, the illness families may be hiding carries a real threat of dire consequences for our staff and fellow students.</li> <li>3. Kansans are still gathering in large groups, not wearing masks, not distancing, returning from quarantine states and hiding where they had been, or flat out refusing to quarantine. Testing is taking 10+ days to get back - including for symptomatic pediatric cases. How will schools manage containment when it takes a week and a half or two to even begin contact tracing? Our testing system needs time to improve.</li> </ol>
7/21/2020 0:01:29	Carrie	Humiston	Parent, Blue Valley 1st	Overland Park	Please, give the schools these extra weeks to manage all of this, and be willing to encourage our legislators to revise
7/21/2020 0:02:17	Michele	Friesen	Teachers	SpringHill Kansas	Please give us time to open safely! Please delay opening
7/21/2020 0:02:43	Rachel	Gayley		Salina, KS	Please approve starting school after Labor Day. Doing so would allow schools be better prepared and allow for a safer environment. Given how much The numbers of positive cases have risen in recent weeks, it doesn't seem safe for teachers and support staff, nor for families at home, to have children attend school in person any times soon. Hopefully mask mandates will allow those numbers to decrease in coming weeks. Our children and the adults that work with them should not be guinea pigs in a situation where there are so many unknowns, particularly in regards to long term health risks and issues that may arrive from COVID-19. Thank you for your time and attention.
7/21/2020 0:02:52	Kelly	Oaks	Horton schools	Horton	I believe school should start as normal without masks. Sanitizing and good hygiene is understandable and should be done but the masks for children is absolutely not what's in their best interest and the kids are the priority. The majority of them will not be able to focus let alone function with them on.
7/21/2020 0:03:21	Tim	Hoffman	USD 204	Lawrence	Vote to uphold the EO. I've seen first hand the impact COVID has when my spouse (also a teacher) was hospitalized for a week in Lawrence Memorial Hospital ICU. She tested positive for COVID and needed supplemental oxygen in order to stay conscious. Although home now, she is still struggling to regain normal lung function. Do not rush other people into the same situation by forcing teachers and students back to schools that haven't been able to prepare to keep them safe.
7/21/2020 0:03:39	Kathy	Beach	Teacher SKACD 613 w	Dodge City	We need to wait to start school after Labor day. Time to get a good plan in place and hopefully bring down spread.
7/21/2020 0:03:48	Lauren	Turner	USD 305	Salina	Please allow this later start date. I'm a teacher and single mother and we need this time to be fully prepared to allow children back into the school setting. I worry about everyone's well being. We must have the supplies needed and if we start at regular time then we won't have the plans and supplies needed to protect everyone. This in return would cause more illness.

					<p>The activities around schools are critical for the proper development of young men and women. These students will grow through the activities. It will help them gain a stronger sense of working to a common goal. They will learn even more about how to succeed with the adversity. They have put in the work and they have listened to the science. Participating in these activities always involves a component of risk. Allowing the to participate now will help them learn more ways of mitigating the risk while continuing to accomplish the tasks at hand.</p> <p>Athletics will bring out leaders who help the others do their part. It will help many face up to their fears of the real world so that they are better prepared for life.</p> <p>These students must be allowed to perform to be a part of the community and their teams. The community needs these students to be out there as they cheer them on while practicing the social distancing.</p> <p>Taking more things now is a higher risk than the disease itself. It would be robbing them of both the present and the future.</p> <p>When we asked our young men and women in years past to prepare to go off to battle at 16,17 and 18 years old they rose to the challenge of those deadly plagues of war. These young men and women need to be able to rise up and face what is out there. The parents know there is a risk. The students know there is a risk as do all the fans. But any activity contains a certain amount of risk. We are ready to face that risk. And we also know that part of taking to risk means we are also going to help protect the vulnerable while we are still living the life we are meant to live.</p> <p>There are many dangerous things in the world and we don't cower away. We find solutions and we work the problem but ultimately the only way to move is to move forward. These students must play the game.</p>
7/21/2020 0:04:21	Chuck	Peters		Lindsborg	
7/21/2020 0:05:30	Lexi	Denn	USD 305	Salina	After Labor Day or until numbers drop.
					<p>I write today to request your approval of Governor Kelly's Executive Order to delay the first day of school until after September 9. I have been working closely as a parent representative with USD 500 and strongly believe there is just too much that needs to be done to keep our staff, students, and families safe.</p> <p>As someone who works in pediatrics, I understand there are fewer risks of student to student transmission of Covid-19, but I can also tell you the research is ever changing and limited. What we thought we knew last month about this virus has changed, and the risk of sending our children and educators is far too great.</p> <p>Give it time. Time for more research. Time for more thorough plans. Time for our communities to work together and support working families.</p>
7/21/2020 0:06:34	Lisa	Hamrick	Frank Rushton Elementa	Kansas City	Vote to delay the start of school.

7/21/2020 0:06:55	Angela	Combed	Emporia	<p>My name is Angela Combes and I am a special education teacher and a single parent of a soon to be first, third, and sixth grader here in Emporia. I wanted to take a moment to let you know that this is my 15th year of teaching and as a teacher and parent, this year I am filled with more anxiety and now fear than ever before. A sigh of relief came when Governor Kelly made the announcement to delay schools because I am confident that the added time will allow my district, as well as the Flint Hills Special Education Cooperative, time to construct well-thought-out reopening procedures and protocols.</p> <p>The beginning of the school year is always a whirl wind of activity and the delay will provide extra time for professional development around safety measures and remote learning. As a special education teacher I am responsible for a two hour teacher orientation for my para professionals to kick off the school year. How can I orient them through this uncharted territory when I am struggling to navigate it myself. How can I train them on how to be safe in a classroom, when I don't know myself. How do I keep my students with high needs safe but still adhere to social distancing and health protocols?</p> <p>This summer has not been an enjoyable one because the unknown is scary. How do I meet the needs of my family? My middle child is scared that he will get COVID at school and die, how do I comfort him that he is safe, when I don't know that he is. I LOVE teaching but this year I feel torn between being an advocate for my personal children and a career that I take great pride in.</p> <p>I am not confident in how to keep my children, my students, my paras, nor myself safe. To teach special education you have to have a lot of patience and understanding and that is what we teachers need. Please allow us time to look through the Navigating Change document and decide how to best meet the needs of our students and staff.</p> <p>Thank you for your time.</p>
-------------------	--------	--------	---------	---

					<p>I am writing to you to ask you to not make a blanket state wide decision on if schools should open on the normal scheduled day. This is a decision that local school boards should make, and after reading the draft plan released the other day, I thought that that was the plan, to let local representatives make decisions for their schools. The governor's announcement that school will be postponed until after Labor Day is disheartening and frankly the wrong decisions for our local school districts. As an example of how the more rural schools are not a consideration when making these plans, please refer to your own comment request form I am filling out now. We do not reside in a city. However, your form assumed that everyone that will be impacted by this decision lived in a city. We rural patrons, once again, have been forgotten.</p> <p>Please understand I am not saying that when there is an outbreak of COVID in the local area that schools should ignore it. However, I am saying that there should at least be an outbreak within the vicinity before going to that measure. For many of the counties in Western Kansas, there are no to a very small number of active cases. This should be a fluid, local decision taking into account children, parents and staff at that school. Our small 1A school with less than 15 kids per classroom should not be closed because 6A schools can't achieve social distancing. We can. We can hold classes in the school, in downtown buildings, in the gym, etc., and we can have in person school in a safe way, even as other schools cannot.</p> <p>Most of the parents in our school have essential jobs, and many had multiple kids to teach last year. As I'm sure you know, the last nine weeks of school last year was not optimal in any way. Parents that are essential were working full time and then having to teach their kids after long hours of work and drive time, afraid their kids would be left behind. I know quite a few that reached out after the governor's announcement of the executive order in a panic because of the announcement, frankly saying that they physically and emotionally could not teach their kids and work full time again.</p> <p>Please vote to overturn the executive order and return the planning to our local school districts.</p> <p>thank you, Christina Mullender</p>
7/21/2020 0:06:40	Christina	Mullender		Waldo, KS (in the count	
7/21/2020 0:07:28	Amanda	Devine	My children.	Topeka	I believe the Executive order and the mandates are unnecessary. We should have local control. We're all in different situations with our children and we should have the right to make choices accordingly.

					Discretion is the better part of valor.  You, as a state board, have been entrusted with nothing less than the very lives of every student, teacher, and staff member who enters the doors of any educational facility in Kansas. I urge you, please consider each one of those lives and vote in favor of Governor Kelly's Executive Order 20-58.  I believe there are two major considerations to this order: 1. Health of students and staff, and 2. Curricular and lesson planning for student success.  It is not responsible nor sensible to block an order that is designed specifically to better our children's educational experience under current health conditions. Nor is it responsible to advocate for schools opening prematurely, while a very real pandemic, unlike anything seen in the past century, is breathing in our faces. The potential threat to our children's health notwithstanding, even with safety protocols in place, the inevitable spread of the virus to teachers and support staff will place an unbearable amount of pressure on our local districts.  What is a responsible course of action for our State Board of Education is to send the citizens of our state a message - if you want your kids back in school, follow recommended safety protocols (staying home, masking, and social distancing) so that we can greatly reduce the risk of infection facing our children, our educators, our school support staff, and the families of everyone within our school communities.  We knew long ago that the state's recommendations would not be released until mid-July, which already gave educators little time to study the document prior to the planned start of the new school year; what we did not know at the time was that so many Kansans would be so careless in their actions during this global pandemic, allowing the novel coronavirus to spread throughout the communities in our state. Give our citizenry an opportunity to redeem themselves and reduce the viral risk, and give our teachers an opportunity to fully review the document and adjust teaching plans accordingly, for our students' benefit.
7/21/2020 0:08:09	Ryan	Nichols		Ottawa	
7/21/2020 0:09:22	Eddie	Saldanha-Olson		Topeka	Please keep schools facilities closed until after labor day, in order to facilitate proper preparation and safety measures as needed to protect our children and educators alike. This is a moment to save lives and families. Not to. Push useless politics.
7/21/2020 0:09:52	shana	watson		bennington	I think it doesn't matter when you open, 2-3weeks wont make a difference. I am hoping that since it's being pushed back though, that covid will flatten when they come back from the holiday and will be good to go back to normal. My concern is more regards to making them wear a mask. I dont feel it's best for kids to wear it 7-8 hrs a day. I want all kids and teachers to be safe but think there are other ways to go about it. I think we need to think of all the kids who struggle with it.. please think about each county different Nd their numbers
7/21/2020 0:10:05	Marianne	Murphy	USD 233 and USD 512	Lenexa	As a teacher and a parent, schools should not reopen until we have no new cases in Johnson County for 14 days. Remote learning is not ideal, but it will save the lives of staff and students. No one wants to bury a child because we couldn't make the right decision.
7/21/2020 0:10:34	Kim	Hall	Teacher	Baxter springs	I support the delay - this will allow time to put procedures into place, review the new document, and be prepared for the students.
7/21/2020 0:10:39	Heather	Wood		Larned, KS	I do not think schools should be postponed till September. Our kids have lost way to much time away from school as it stands now and by delaying the start of school puts are kids further behind. School needs to start as scheduled.
7/21/2020 0:10:42	Shelly	DeFrain	Parent	Pretty prairie	Wearing masks is ridiculous and delaying sports and schools also. Our ancestors lived and survived worse. What happened to living in the land of the free. I am so upset with all this!
7/21/2020 0:11:03	Sarah	Fawbush	Im a mother and a para	Paola	I feel we should push back the start date for school opening. The safety of students and staff are so important. Not to mention the cost and time needed to properly prepare and gather supplies to even give school a chance to open and stay open. Also the cost of testing, subs and medical costs to children and staff that may contract covid 19.

7/21/2020 0:12:42	Julie	Littrell	SMSD	Shawnee	School needs to open on the 17th. I know many children who suffered mentally from lack of instruction and friends to be with last March-May. My 3 kids learned nothing on line. It was a disaster!! All the kids are together now anyway. Implement MO's lead and do what they are doing. Kids need to Physically be in school. Covid is amongst us all. We just have to learn to live with it. We are suppressing our immune systems and making things worse in the long run from hiding from it.
7/21/2020 0:12:47	Andrew	Gaylor	Educator in USD 405	Lyons	I am writing to you to ask you to vote no on the Governor's EO. Our community has done a great job at slowing the spread of COVID-19. We have very few total cases and very few active cases right now. I have talked with some of my students and they are excited to get back to school and be back in the building. I feel if we delay the start of school almost a month that it will be punishing the students and the community that has done such a wonderful job of slowing the spread. If there is ever a time for local control this would be it. Why should our stakeholders be punished for doing a great job by the big cities who haven't been able to slow the spread as well. What happens if/when we have to close school down later in the fall, winter, or spring and our students miss this month of school as well even though it is okay to attend. I trust my district BOE and Superintendent to make the right call and to have protocols in place to keep us as safe as possible. I believe this should be a local decision being made from the people in the community and not from 1 person in Topeka. I know Gov. Kelly mention South Korea today in her remarks but if you look at more studies most say children aren't as susceptible to the virus and are not super spreaders of the virus either. Germany came out with a study just last week. Child care facilities have been open in most states throughout the pandemic and very few have had clusters. Schools in KS have done summer weights, camps, and other activities all summer long and there hasn't been any clusters from them. Again I ask you to vote no on the EO and let local districts make the decision on what is best for all the stakeholders. One size fits all hardly ever works in education. Thank you. I know my kid needs to be in school I can not teach him like our wonderful teachers can
7/21/2020 0:12:57	Melinda	LeBoeuf		Pomona	<ul style="list-style-type: none"> <li>• If a teacher tests positive for COVID-19 are they required to quarantine for 2-3 weeks? Is their sick leave covered, paid?</li> <li>• If that teacher has 5 classes a day with 30 students each, do all 150 of those students need to then stay home and quarantine for 14 days?</li> <li>• Do all 150 of those students now have to get tested? Who pays for those tests? Are they happening at school? How are the parents being notified? Does everyone in each of those kids' families need to get tested? Who pays for that?</li> <li>• What if someone who lives in the same house as a teacher tests positive? Does that teacher now need to take 14 days off of work to quarantine? Is that time off covered? Paid?</li> <li>• Where is the district going to find a substitute teacher who will work in a classroom full of exposed, possibly infected students for substitute pay?</li> <li>• Substitutes teach in multiple schools. What if they are diagnosed with COVID-19? Do all the kids in each school now have to quarantine and get tested? Who is going to pay for that?</li> <li>• What if a student in your kid's class tests positive? What if your kid tests positive? Does every other student and teacher they have been around quarantine? Do we all get notified who is infected and when? Or because of HIPAA regulations are parents and teachers just going to get mysterious "may have been in contact" emails all year long?</li> <li>• What is this stress going to do to our teachers? How does it affect their health and well-being? How does it affect their ability to teach? How does it affect the quality of education they are able to provide? What is it going to do to our kids? What are the long-term effects of consistently being stressed out?</li> </ul>

7/21/2020 0:14:02	Carmen	Cutting	Mom of 3 children in Ka	Overland park	Kids need to go to school for mental and social stability! The risks of Covid are minimal for kids and a much smaller risk than the common flu. Pediatricians even recommend that they go to school. Our Governor is STEALING school experiences (including sports) from our kids. If some don't want to send their kids, then they should have that choice, BUT don't make that mandatory for others who want to go! Have each school determine the risks they have. It's not the same for all schools. Our Democratic Governor is trying to CONTROL us!
7/21/2020 0:14:09	Erin	Buster	Teacher	Wichita	Schools need to be delayed. We need more time try to bring numbers down. Schools opening is going to have an impact on cases. But, teachers need preparation to teach under these new regulations. Just because schools open does not mean they will be the same. Teachers have to reconsider all of their collaborative structures to social distance. We are going to have to educate students on regulating emotions with masks on. We are going to be discouraging physical touch which is a huge way Young students learn emotions communication. There is no answer that makes everyone happy. But, at least give us time for it To be more safe.
7/21/2020 0:14:35	Kelly	Ulmer	USD 233 and my family	Olathe	Sooooooooo many questions, most of which are entirely reliant on our COVID status, which changes daily.  When teaching science safety/ lab safety I always tell my students that I have a responsibility to teach them, but first I must keep them alive and safe. It usually gets their attention and sparks a giggle or two, but it's true.  As a mandated reporter I'm required to report when as child is suspected to be put in harms way.  Because we love our kids, their families, our communities, we owe it to them to be prudent and prepared and to offer them the best education possible.  Three additional weeks will provide us the time we need to address safety, the professional development required to provide incredible instruction which will lend itself to the realities of transitioning between in class and remote learning if/as it becomes necessary. We can problem solve for the unique needs of our individual buildings. We need time to realign classes and schedules to adjust staffing for those families choosing remote learning and those sending children to school.
7/21/2020 0:15:37	Pam	mccue	usd259	wichita	We need this time like we never have before, and we are truly grateful for your support!!! I support pushing back until after Labor day and extending days.
7/21/2020 0:15:54	Sherry	Shannon		Overland Park	Great idea to delay until Sept. Gives schools more time to prepare and hopefully infection rates begin to decline so students can go back to school (hopefully) in a more normal fashion. So far, KS plan is one of the most logical I have heard from any state. Uncertain why so many are taking issue with a 3 week delay when the positive far out weighs the negative.

7/21/2020 0:16:28	Craig	Balzer		Wichita, but in Circle di	<p>Taking all of the below into consideration, and the mental health of the students, I honestly believe that the risk to the students lives and wellbeing is more at danger staying home than going back to school in person (I have heard a handful of parents in just my small circle talk of concerns with their kids acting unusually depressed and suicidal, and I personally know more people that have died from suicide since COVID started than have actually died from getting COVID)</p> <p>“I don’t care what the media says, I think Kansans have done a great job of containing Covid, and our medical professionals have rocked at keeping us healthy and alive!</p> <p>Number of Covid deaths in Kansas of people under the age of 25: 0</p> <p>Number of Covid deaths in Kansas of people under age 75: 126</p> <p>Number of people living in Kansas: 2,913,314</p> <p>Percentage of Kansans under the age of 75 who have died from Covid: .00432%</p> <p>Percentage of Kansans under the age of 75 who have survived Covid: 99.99568%</p> <p>Number of pneumonia/flu deaths in Kansas during the 2018-2019 flu season: 1,400 (4.5 times more than covid deaths this year)“</p> <p>I believe these stats to be real, along with the fact that these COVID death numbers are falsely high (even at these small mortality rates) because we ALL KNOW that facilities are paid more for COVID cases/deaths than non-covid and it is widely known that if someone dies with Covid, even if it has nothing to do with the cause of death, it is recorded as a COVID death.</p>
7/21/2020 0:17:18	Kassandra	Strube	None	Eudora	<p>If schools are not delayed, I will not be enrolling my child for the upcoming year. We can all argue back and forth until we are blue in the face about if kids will get sick and how sick they will get and what potential as of yet unknown long term consequences health consequences we happen to our children but the fact of the matter is this: I can get sick. My husband can get sick. My child's teacher can get sick. And all of us have a potential fatal risk attached to getting sick depending on our various health conditions. What happens when my husband and I get sick? Who watches my child? Her even more vulnerable grandparents? Do I ask my friend to take in a child who could potentially make them ill? Would you? Until each of you are individually comfortable spending 2 weeks in a classroom during a pandemic at a time where our states numbers are at near crisis levels for our healthcare facilities, I don't think you should be asking any teacher, child, or support staff to do so.</p>
7/21/2020 0:17:42	Heidy	Acosta		Wichita, Ks	<p>I want schools to start after Labor Day. Districts and teachers need time to plan and prep for a year like no other before. Students need to be in school for their social-emotional wellbeing but that shouldn't be at the cost of students or staff lives. Please don't open schools until after Labor Day. Thank you for your time.</p>
7/21/2020 0:18:17	Elizabeth	Voyles	Parent of elementary stu	Derby KS	<p>Please open up the schools for in seat instruction as soon as possible.</p>
7/21/2020 0:18:23	Casey	Moss		Dodge city	<p>I think it should be delayed to allow complete things in place. This is cause I have 6 kids within the school district</p>
7/21/2020 0:18:55	Kelly	Reimer		Eudora	<p>Please support the Governor's Executive Order and give us as educators more time to plan for the upcoming school year and keep students out of the buildings to keep staff and students safe. Numbers are rising and rash decisions will not be helpful to anyone.</p>

					<p>The governor's order does not specifically address private, non-accredited schools that may be associated with churches or home school cooperatives. These types of institutions are seemingly in a gray area regarding this order, as these groups typically do not fall under the state's regulation in any other way, other than registering the organization with the Kansas Department of Education per K.S.A. 72-4345 through 72-4347. Most private, non-accredited schools are relatively small and typically do not have the same preparation, logistical, or space concerns that a public school has; however, compliance with a one-size-fits-all order would certainly have an impact.</p> <p>While it doesn't necessarily fall under the purview of the Board, it would be nice if someone were to clarify the status of private, non-accredited schools with respect to the governor's executive order.</p> <p>As far as the order itself goes, requiring masks for younger elementary aged children seems almost unworkable. Personal masks are germ catchers, and children are prone to manipulating and touch the masks. This may invite more viral spread by secondarily passing the virus to touched surfaces in the classroom. Once an hour hand washing or sanitizing may not be enough to prevent spread. Requiring daily temperature checks of every student also seems logistically unworkable for not much gain, especially for large schools. I'm just thinking of accommodations for lines with social distance spacing, student drop off, loss of instructional time, administration and record keeping, personnel, and privacy and security. Also, by the time a student presents with a temperature, they will likely have been infectious, with an unknown contagion (flu, Covid) or infection (strep), for several days. Anecdotally, I've heard that, currently, testing is taking over 7-10 days to return results in some places. The lack of speedy testing will keep students (and teachers) out of the classroom for longer periods of time than may be necessary if they can not be cleared by a test in a timely manner. The science on whether children spread at the same rate as adults still seems inconclusive. However, the Australians and many European countries kept their grade schools open during the early stages of the pandemic, with little student-to-adult or student-to-student transmission. Children in general seem to be at low risk for this virus. So the threat of children passing the virus to family members, which is one of the stated reasons for doing all this, may be over stated and the provisions overkill. Overall, it seems like the mandate is poorly thought out from a school's perspective, even though I'm sure many people pondered over this for many days. I would suggest a revision of the requirements especially for younger children (K-3), but that is unlikely to happen.</p>
7/21/2020 0:19:33	Scott	Parish	Covenant Academy, Pitts	Arma	
7/21/2020 0:19:53	Kara	Washington	Teacher - Maize USD 20	Wichita/Maize, KS	I support Executive Order 20-58.
7/21/2020 0:19:56	Stacy	Miller		Lenexa	I support beginning in person school on Aug. 13 and certainly NOT after Sept. 9. If you delay school once more, when will the delays stop before all of our precious children are learning in front of screens for an entire year? We are made for human interaction. No in person school will harm many of our children emotionally, socially, and/or academically. I am a teacher and a mom with a vested interest in our children.
7/21/2020 0:20:13	Jody	Dendurent		Goddard	Please consider our the detrimental impact of our public school system. It pains me to hear of people pulling their students from their school districts to join virtual schools or hire private teachers. We will never recover :(.
7/21/2020 0:20:54	Joanna	Yeager		Larned	Thank you for providing this outlet to share our thoughts.
7/21/2020 0:20:54					I like the delay. It will give everyone a chance to get organized: administrators, teachers, and parents.
7/21/2020 0:22:44	Laura	Mallon	Teacher/ Parent	Gardner	Please do not delay school further - including sports for the kids.
7/21/2020 0:23:53	Bart	Ricke	USD #332	Cunningham	Please uphold the executive order to delay the start of school. Delaying the start of school is a necessary step to best prepare staff in keeping our students and staff healthy and safe in addition to planning to educate students through the variety of modalities that will be offered.
7/21/2020 0:24:28	Kate	Clark		Kansas City	Please consider the science and data in reference to children age 18 and under in reference to the virus. I know there will be some teachers that will support the executive order, but as you all know this not about us teachers, it's about the children. Get them back to school as originally scheduled by each district. Three more weeks, in my opinion, will do more harm than good for the students.
7/21/2020 0:24:58	Sarah	Homan	USD 458	Basehor, KS	Yes - Delay the start of school
					Please vote for a late opening of schools. It will be good to see where we stand with virus numbers and can go from there. Help us to get closer to an available vaccine and a chance for masks and social distancing to work. This would be such a great time to reconsider the public school model and offer more flexibility and support to kids, parents, and teachers. Thank you.

7/21/2020 0:26:15	Julie	Bergkamp	Olathe North High Scho	Bonner Springs	Thank you Governor Kelly for delaying schools and thinking about the safety of students and staff. I saw on a site that the mortality rate for children is 0.16%. Well, in my district of around 30,000 students that's 48 students. So if there are 490,000 school aged kids in Kansas, that's 784 dead children. I only have one child, what if she's one of those 784 kids? So if you want to sacrifice children, open the schools. The mortality rate for adults is higher. There is already a shortage of teachers, who's going to step up when that number could be permanently (as in dead teachers) lower? More hypothetical questions... How are 2,000 students supposed to wash their hands every hour with 5 restrooms? How are we going to do duty free lunch? How are we really going to keep head strong teenagers 6 feet apart, or wearing masks? They already have a hard time keeping goggles on for 50 minutes while doing a lab! You know the same parents that are pushing hard for schools to open are also the same parents that will sue if their child dies. Killing a student, my own child, another family member, or having long term effects from this virus are NOT acceptable risks of my job.
7/21/2020 0:28:19	Angela	Miller	Parent of Senior child	Ashland school	1st... Why would the school need to wait 4 more weeks to open school? The reason was so they can prep and get things ready for safety protocols. How do they not have enough time right now, when they still have 3 weeks or so, to do just that!? What is really the situation that is making a month delay to open school?  2nd question... All the comments that school age kids aren't vulnerable to covid... How do we really know how susceptible they are, as we had school closures to prevent exposure?  3rd... What about the organ inflammatory illness that kids are getting, will that be a concern and are there different safety measures for that?
7/21/2020 0:28:48	Jerrime	Fobbs		Kansas City	In regard to the governors plan to delay reopening of schools until after Labor Day, I would like the board to affirm the position of the governor. As an educator, watching the increasing numbers of those infected with the coronavirus gives me pause. To this effect, the best course of action would be to delay school until numbers have sufficiently dropped and the recommendations of the medical and scientific communities have been met by the state. Reopening schools at this time, in light of prevailing medical data, would be detrimental to both the health of teacher such as myself and to our students, and their families by proxy. As such, it is my hope that you all will take the recommendation of the governor and agree with the delay of re-opening schools for physical and work face-to-face teaching/learning. In the interim, we can work together as a staff, community, and school district to reach all of our families and their students and find online opportunities for them to continue their learning safely until the challenges of this pandemic have been resolved and or affectively mitigated to the point where it is no longer a communal threat.
7/21/2020 0:28:51	Gil	Perea	USD 457	Garden City	I believe this should be a district decision. If numbers are not spiking or showing any significant growth, but is minimal compared to the rest of the hot spots, we shouldn't have to stay closed. Especially if there has been a plan developed and put in place taking precautions for our teachers and kids.
7/21/2020 0:29:30	Marco	Hernandez		Wichita, Ks	I agree with the Governor that schools should open after Labor Day. My wife is a teacher and by taking this time she will be able to adequately prepare for a safe return for students and herself. Returning to a school environment is already unsafe at the moment; giving all teachers and districts this extra time can help save lives. Thank you for your consideration.
7/21/2020 0:29:33	George	Lucas	None	Sterling	Open schools
7/21/2020 0:29:42	Elainne	Fulenwider	USD 260	Maize	Support the Governor's mandate and delay the start of school until after Labor Day
7/21/2020 0:30:21	Katie	Wendt	Wendt	SHAWNEE	I support the governor's executive order and urge you to as well. The schools need more time to plan for the schools to reopen and we must get these numbers under control. I want my child to go to school but only when it's safe. There's no way schools can implement all the changes needed in the time allotted. Give us time to ensure our children and communities can keep the infection down.

7/21/2020 0:30:23	Michael	Price		Wichita	I think your decision to delay the school year is foolish and will only hurt the local economy and people who need to work. If teachers aren't going to teach in the school, we may as well homeschool, we'd certainly do a better job.
7/21/2020 0:30:31	Amanda	Abrahams		Hillsboro	Please vote to follow the governor's order to delay the start of school until after labor day. Thank you
7/21/2020 0:30:33	Corene	Smith		Norton	My concern is implementing all of these mandates for children PreK- 6, that the actual learning will be sacrificed. Are we creating an environment more stressful to our children. Are children's mental health being considered? Not all kids come from supportive, loving homes, and coping skills are not a top priority in schools anymore. I am concerned on forcing my second grader into a mask all day without it causing more distraction, and in causing further delays for her learning. It's going to be a bigger challenge as these kids are going to new classrooms, a different grade, new classmates and teachers than what the kids were taken abruptly away from. That said, I do believe school needs to start back, but I'm just very concerned with all of the rules, if it will be more traumatic than nurturing.
7/21/2020 0:30:47	Alex	Lewis	Myself	Wakefield	Delaying school is a smart idea. It gives us time to monitor the situation and schools to plan for a safe return. Everyone is focused on the kids and that is fabulous. But let's remember teachers are at a high risk. They don't get the PPE that Health care workers do. They don't get the Luxury of tending to one patient in a room at a time. They have 20-30 small people to care for.
7/21/2020 0:31:00	Danielle	Seitz		Topeka	Support Gov Kelly. Don't play politics with the health and safety of students and staff. Kids have been protected worldwide throughout the pandemic and there is not yet enough information about how this will manifest in a school environment. Additionally students will not be in schools in a vacuum. The safety of school staff and teachers need to be taken into account as well. Health is not partisan. Make the right choice! Support our governor.
7/21/2020 0:31:32	Daichi	Tadokoro	Teacher	Emporia	I personally would like it if we are able to delay the start of the school year. This way the Administration have more time to look through the document that was created by the Board of Education and make a thought out decision.  Another suggestion that might be harder is to delay the school where the covid case is high. As much as I know 8 have over 1,000 cases of Covid and about 12 counties between 100-1000 while the rest being a low number. If the counties shows a low number with consistent daily cases of 0 cases they should be okay to open like normal, but if the cases are high like Kansas City and Wichita, they should not open yet for the safety for the students and the staff.
7/21/2020 0:31:51	Amanda	Powell	Parent	Olathe	Please keep the schools closed. I love the Olathe school district and want to keep my children enrolled here but I have autoimmune diseases and my son has heart and lung issues. We can't have our children attending in person at this time.
7/21/2020 0:32:24	Betsy	Hermreck	parent	Basehor- Linwood	Please wait to start school until after Labor Day to give schools a chance to get things in order.
7/21/2020 0:33:16	Patricia	LANTER	Parent	Olathe	Want to delay until where we stopped in March. Start where we left off and give the kids back their year. It is supposed to be the best time of their lives. Instead they are experiencing family deaths due to covid, missing out on prom, sports, band, etc. Give it back!
7/21/2020 0:34:44	Daniel	Leebrick		Atwood, KS	Open schools in time please.
7/21/2020 0:34:48	Shannon	Armendariz	Parent	Wichita	I want to say that the BOE needs to make a decision that is best for our children. My office rushed into getting people back in and we had ten people in a matter of days get the virus and they had to close our office back down. Where I can appreciate smaller districts small success with summer school they don't have near the volume as a typical Wichita school then you throw our large middle school and high school populations and honestly it is scary. Children in their teens are rebellious anyway so there is no guarantee they will wear masks. It only takes one ill person or someone who has been exposed but is a symptomatic at first and we could possibly look at hundreds of young people's lives in danger and families lives in danger. Our children need to get back to school but it needs to be when there is a vaccine approved. Until then hybrid is the next closest thing that is available. I urge you to think about all the nursing homes where people got sick and died. Those residents don't go anywhere so people from the outside made poor choices and people died. Please don't force our children back into school too soon. This could have catastrophic results for USD 259. Thank you

7/21/2020 0:35:17	Grace	Powell	Usd226	Meade	School does not need to be delayed. Decisions need to be made and finalized so schools can make preparation now. I am a teacher and I am ready to teach. COVID-19 is here. Quarantine the sick and let's keep schools open please. So much more harm is being done to precious babies stuck in homes with unstable parents. Not to mention children being left at home alone. Please give control to local districts.
7/21/2020 0:35:50	Mike	Gilliland		Topeka	Let each school district decide how to handle the return to school. Each district is different, and nobody knows their district like its patrons.
7/21/2020 0:36:37	Keighley	Miller		Louisburg	I'm terrified to return to work before this virus is under control. We should not be sending any students or staff back to schools until there is a steady decline in cases. Going back to school buildings before then will only add fuel to the fire. There will be more cases, and more damage done to public schools because of that.
7/21/2020 0:37:23	Katherine	McGuire	Special Education Teach	Overland Park, KS	<p>Personally, I feel it is an excellent idea to delay the start of the school year until after Labor Day. The rationale behind my thinking is for several reasons. Administrators and teachers need adequate time to prepare to receive students within the school setting due to the current pandemic which is above and beyond what a normal start of a school year would be. The start of a normal school year is very stressful due to professional development requirements and classroom preparation to receive students. Covid-19 preparation adds another layer to the preparation process. Administrators, educators, nurses, and support staff will need to be educated about Covid-19 safety measures and educators will need time to prepare their classroom settings accordingly. All will need to prepare for what they will face each day in the presence of Covid-19. Also, it is very concerning to me, as an educator, that the Covid-19 numbers are higher than they have ever been in my location since the pandemic began in March in regard to school starting this fall. I am deeply concerned about putting myself and the well being of the students I serve in harms way each day. Doing so could make finding teacher subs to replace educators who become ill very difficult or impossible, students may witness the loss of a beloved teacher, or a peer. I personally know of two daycares that have closed due to children 0 - 12 coming down with Covid-19 in Mason City, IA as well as centers in TX in regard to transmission through children. I am concerned about what staff and student Covid-19 cases will do to local hospital numbers. The district I am employed in alone has 30,000 students and 5,000 staff members. It makes sense to me to begin with on-line instruction due to the continuing increase of Covid-19 cases, move to a split of on-line and/or rotation of students based upon pandemic data to avoid having to up root students and educators due to possible increased numbers of Covid-19 cases. No matter what is decided, school will look very different for students who will be attending in thinking about how they will be able to socialize with their peers, receive instruction, participate in instruction, attend specials and recess, and the holding of normal school events within the school setting. For example, fall open house, music programs, parent/teacher conferences, etc. Please give consideration to Governor Kelly's recommendation to begin school after Labor Day and possibly beyond her recommendation with a plan of integration back to school as was done for opening the economy for students, educators, support staff, and administrators.</p> <p>Thank you!</p>

					<p>We have talked many times about the possibility of homeschooling but always resort back to how we were raised, how our lives were impacted by teachers, and how we were shaped by the education we received. We are now faced with a tough decision as our first daughter is off to kindergarten. We know this is an unprecedented time and deciding what the right decision moving forward is a difficult task. The data I am coming across shows that kids are a very very very low risk for COVID19. Families and kids have spent the last several weeks attending weekend baseball/softball/basketball tournaments and the statistics of hospitalizations in our area for young people just is not there to use this as a reason to push school back and to force my 5 year old to wear a mask all day. As we attempt to use this as a way to "slow the spread" we are just prolonging how long we are going to be battling this virus. My fear is that this is decision is one small step that will be a catalyst to reshape the entirety of public education as we know it.</p> <p>Based on the upcoming decision your department must make, we are seriously considering homeschooling as an option. Not because we are fearful of the virus, but rather as a way to state that we do not agree with the decisions made and refuse to let our children's worldview be shaped by a political agenda we do not agree with.</p>
7/21/2020 0:38:31	Konner	Bergstrom		McPherson	
7/21/2020 0:38:38	Emily	Matthews		Galena	Delay or not, my kids will be staying home because nobody knows what the right choice is at this point! I do think a delay will give schools more time to prepare and decide what they're going to do for virtual learning considering it's so close to school starting and the governor just made her announcement!
7/21/2020 0:40:18	Janene	Follmer	None	Winfield	Schools should reopen as soon as possible. Kids need each other, kids need to learn, and taxpayers are paying for schools to function!
7/21/2020 0:40:46	Amanda	Witty		Overland Park	This teacher and mother of a school-aged child would like you to support the Governor's Executive Order to delay the start of school. All school staff need time to prepare and ready ourselves and our buildings for new procedures and processes.
7/21/2020 0:40:59	Heidi	Crowley		Topeka	Wait until after Labor Day
7/21/2020 0:41:02	Michelle	Augustine		Salina	Make kids and staff members health and safety top priority. Delay the start of the school year. Our city has rising cases and our state is seeing a spike.
7/21/2020 0:41:03	Heidi	Crowley		Topeka	Wait until after Labor Day

7/21/2020 0:41:10	Stephanie	Anderson		Concordia	<p>I very strongly feel that kids need to return to school in August.</p> <p>At all grades and age levels, school plays such an important role in a child's life. Of course their education is crucial, but the social aspect is just as critical. We will have four school-aged children - two in high school and two in elementary school. They have already missed out on so much since in-school learning was put on hold in March.</p> <p>My husband and I both work outside the home. We survived the "homeschooling" from March thru May, but we had to rely almost entirely on grandparents and our daycare provider to help get us and our children thru that time. We managed because it was short-term. We are very blessed to have a support system, but I honestly don't know how we will be able to manage any sort of extended homeschool set up with four children in four different grades. The prospect of that is very daunting.</p> <p>I have often wondered throughout this ordeal why families that are not comfortable returning to regular school don't pursue online learning options that are already available in the state of Kansas. Perhaps that could be suggested, and allow others to return as scheduled. I have also wondered why schools were not considered an essential function through all of this.</p> <p>While I realize that Covid could create health risks to certain individuals, I think it's important to consider that life in general has risks. There is inherent risk in everything we do, but I don't want our children to live in fear; to constantly worry about what "could happen".</p> <p>School creates structure and stability for a lot of children that otherwise have very little or none. It is (or was) a constant in many little lives, and I think it's vital that school is restored.</p> <p>Thank you, Stephanie Anderson</p>
7/21/2020 0:43:15	Chance	L	Myself	Topeka KS	<p>I think that Gov. Kelly is hurting our young kids by not sending them to school I'm for putting kids back where they belong in school out of trouble my generation is dumb enough and we went to school can you imagine the next generation without going to school i am dumbfounded by our governor!!</p>
7/21/2020 0:44:17	Stephanie	Baez	USD225 Fowler School	Dodge City	<p>I think we should delay for the safety of our children and staff. I work with kids K-12 and I want all these kids to be safe and healthy. I want our wonderful staff to be safe and healthy. I worry if we open to soon we might pay the ultimate price. Please think of the children and staff who want nothing but what's best. Protect our kids.</p>
7/21/2020 0:44:45	Katrina	Goscha	Usd 253	Emporia	<p>Support science and approve the executive order</p>
7/21/2020 0:46:17	Amy	Davidson	USD 259	Wichita	<p>I miss my students more than anything, but I beg you not to send us back before the case rates are decreased.</p>

7/21/2020 0:46:24	Kelley	Lowe	Parent and Kansas Teac	Derby	I appreciate the Governor's delay on school beginning and the push for masks of all children over the age of 5. As a parent of a soon-to-be kindergartner and a fifth grader, I fear sending them to school when our beautiful state shows that virus cases are up and have not yet shown decline. It makes no sense to send thousands of children to school, putting them in harms way. I am also a teacher in a primary school. This year, I will be teaching preschool. It scares me to think these children may be exposed and affected by the virus but also the teachers and staff that care about their littles so much. I think about myself, bringing the virus home to my own family and even giving it to my own students who are so young. We halted Kansas schools in March (with less than 50 cases in the state) - which was a brave decision by Governor Kelly - that made it so we were sure students would be safe. Why now is it ok to send them back to school when there are over 20,000 confirmed cases and deaths are rising? These are children. I know that my 5 year old daughter and 9 year old son will be placed in school where Social distancing is not possible. If anything, classes must be made smaller and that seems like it will not be considered. Until the virus is under control in our state and numbers drop drastically, I feel that virtual learning is the safest option. I hope it is considered at the beginning of the year until we see Kansans taking initiative and doing what they are supposed to be doing - wearing masks and social distancing. Gov. Kelly, thank you for working so hard to do the right thing, even when you have others fighting so hard against you. You have compassion, a heart, and you truly care about the children of your state.
7/21/2020 0:46:55	Melody	Funkhouser Gaugler		Overland Park	School needs to be delayed longer or online only but actually be like normal online schools rather than what we had in the spring. Things are only getting worse and people here are not taking it seriously. They travel to FL and don't quarantine at all yet send their kids to baseball and have other kids over to play. It's been like this the whole time, even when we were supposed to shelter in place. These are the people who will be sending their kids to schools here.
7/21/2020 0:47:01	Tait	Holtwick	USD 508	Baxter Springs	The kids can wait until after Labor Day or longer if need be.
7/21/2020 0:47:03	Kate	Works	Parent	Humboldt	I am in favor of the Governor's EOs. It will allow us more time to better assess the Covid situation & ensure the safety of our children and ultimately our community. I am both a parent and a healthcare provider and see these EOs as a way to hopefully decrease the risk of spreading Covid until a vaccine is developed.
7/21/2020 0:47:10	Brandon	Fisher	Prairie view high school	Lacygne	While the premise of face-to-face instruction is appealing, there are more than a few issues coming with opening the schools to instruction. Firstly, teachers need protection from the virus as well, even if kids don't get very sick teachers will potentially be exposed as soon as they meet the first class of children. Not to mention without proper air circulation in classrooms all children will be potentially exposed. Secondly, the children will be exposed to the virus as well, remember when flu season comes around we ask any children that have the flu to stay home and away from the rest of the class, so with this more virulent disease having in classroom teaching will take a chance on every kids ability to stay healthy. Thirdly, even schools that are in areas with few cases could see huge increases with opening up the schools as children interacting will then go home and then interact with their families. It's about limiting spread. If you have to open face to face schooling at all, I implore you to wait and see how this will impact communities that don't take the same precautions.
7/21/2020 0:47:36	Rochelle	Baker	Self	Linn Valley	Delay & continue with home schooling if diagnosed cases continue to rise.
7/21/2020 0:48:04	Morgan	Johnson	Parent-Leavenworth US	Leavenworth	Based on Leavenworth cases going up (doubling in the last couple of days, as well as doubling in the weeks before this), I feel as though school should be delayed. This county has already decided not to follow the mask mandate, which is why cases continue to go up. Unfortunately, this decision cannot be left to local boards because they will only make suggestions and not do what is right for safety of students, parents, and their extended family.
7/21/2020 0:50:24	April	Sloan		Frontenac	My concern with waiting until after Labor Day, is will it push the last day of school to the first two weeks of June. It is hard enough to get students to do their school work, once it starts warming up in April/May. Also if doctors are right and once cold and flu season is here again. We might have to do school from home from November to spring. Then the students will have only been in the classroom for two months. My kids are ready to be back in the classroom with Teachers and start playing sports again.
7/21/2020 0:52:35	Kim	Herring		Overland Park	After 5 months out of the classroom, our children need to be back. Not online or for just a few days, but fully back with teachers, classmates, learning and recess. The academic, social and physical ramifications are too great to delay a decision.

7/21/2020 0:55:25	Keli	Kennedy		Haysville	<p>Get them back to school and without masks! Their mental health is at stake! We are living in the midst of a crisis right now, and we cannot afford to get this wrong. Imagine if this crisis were a tornado or a flood, and the school buildings were no longer safe to use. Would you send the children of Kansas and the teachers who love them back in to those buildings without learning the best safety precautions? Or even send them back at all, when distance learning could truly save lives? Several cases of COVID19 have already been diagnosed in children around the country in large numbers, with many children dying or suffering, and it is foolish to believe that we live in some kind of magic bubble that will prevent it from happening here. Even if the majority of children suffer less, we do not know the long-term health damage that can happen to them or to staff, for that matter.</p> <p>Kansas students and the teachers &amp; staff who serve them deserve the right to live and work in a safe environment. Reopening our schools without proper safety measures is completely unacceptable. If we open doors without every precaution being taken, the virus will spread exponentially into our communities because children will bring it home to their families, who will then spread it further, causing casualties that would be completely avoidable with distance learning. Many children don't yet understand how to social distance and don't understand the importance of good hygiene. Doctors and scientists say that the best prevention is to keep a 6 foot distance from others, wear a mask, wash hands frequently, and sanitize surfaces often. Yet you are asking us teachers to stay 8 hours a day in a room packed full of children, where it is impossible to social distance, constantly police children for all necessary safeguards - masks, hand-washing, temperatures, social distancing as well as implementing quality, rigorous teaching on top of that? When will we have time to teach? Yes, we want to go back to normal, but NORMAL IS NO LONGER AN OPTION. We will try our best, but we have to face the fact that going back to school will look different from before and won't be able to offer children the socializing and fun times that used to be had in schools. I won't even be able to offer a hug to comfort a child who needs it and they won't be able to see my warm smile behind my mask to reassure them everything is okay (though teachers will have fear lingering at every step that if we miss something or do something wrong, it could unwillingly infect someone or ourselves). We, at the very least, need these few weeks of delay to do our best to prepare for this impossible task you have set before us.</p> <p>If your meeting is virtual because it's not safe to meet in person right now, then you already know it's not safe for students and school staff, either. We cannot teach from a grave! Please, I beg of you, vote to delay the opening of this school year, or else take responsibility for the infections and deaths that are sure to come, and the trauma our students and staff will incur when they have to say goodbye to beloved members of our school communities.</p>
7/21/2020 0:56:28	Jennifer	Beer		Shawnee	
7/21/2020 0:57:40	Michael	Whaley		Chspman	<p>I believe all things considered our children need to be in school as soon as possible. Yes some may get sick with vivid 19 and or the flu. They usually do. Teachers will get sick too, they usually do. But statistics show, even with the inflated case numbers that 99% of the teachers, administrators and other school personnel are going to be alright. Institute whatever safety policies you feel necessary, but open our schools.</p> <p>Thank you.</p>
7/21/2020 0:59:15	Stephanie	Hanson	Students	Kansas	<p>Online learning in my sons high school should be an option this year! Majority of his class work is through google documents already! Teachers need to feel safe as well, if there busy consumed with safety 75 percent of their attention will be to safety concerns and 25 will be to academic instruction how is that fair to our children.</p>
7/21/2020 1:01:03	Jennifer	Lake-Ramsey		Olathe	<p>I support delaying school at the minimum, and preferably virtual classes for the fall semester.</p>
7/21/2020 1:02:02	Jamie	Schnaithma	Parent	Garden city	<p>Please help keep my son safe, delay the start of schools to give teachers and support staff the appropriate time to be trained correctly.</p>
7/21/2020 1:02:22	Ali	S		Merriam	<p>Please vote in favor of delaying. Schools need time to appropriately prepare and train staff.</p>
7/21/2020 1:02:40	Catherine	Hollyer		Lawrence	<p>Please delay the start of school and consider online instruction. In an age when many grown-ups are only willing to have meetings via Zoom, why on earth would we send children and teachers into a crowded school? This is unconscionable.</p>

7/21/2020 1:02:45	Crystal	Brown	A concerned parent of st	Wallace	I beg of you to think of our children when considering any changes. I know that they say wearing a mask will help. This is not what I want our 5 year old to experience entering into Kindergarten for the first time..... I believe the masks will cause more harm than good. It will be a carrier to ALL of the sicknesses we already worry about going through our household. I have 5 children, yes 5 the last thing I want is for anyone to get sick cause by the time it gets through their systems the last person that gets it gives it back to the first person. It's tough getting past that point sometimes even with just a cold. We have never shut down everything because of the H1N1, Flu, influenza A B or C and they are super contagious, chicken pox, or foot and mouth disease. We have put our lives on hold long enough and if we are going to have to get it and die from it I at least want to go out living. Not locked up at home or my children experiencing school worse than an inmate in a prison. I beg of you to think of how these how these children are missing their friends and how many children are raising themselves right now cause parents don't have an opportunity to stay at home and this will only Make it worse for them and their futures when considering their education. How little towns like I live in will not survive if we homeschool all of our children or put them in online courses because of all of this.
7/21/2020 1:02:48	Madison	Loomis	Public School Teacher	Wichita	I have a question about supplies and resources: Will each school district have access to cleaning supplies, hand sanitizer, PPE (including masks for students who will arrive to school without one), etc by the scheduled start date? Will they be l'm competition with health care services to obtain these resources in large quantities? I have also seen a lot of talk among staff bout what the schools will provide them in terms of PPE. Will we have to supply it ourselves?
7/21/2020 1:03:06	Kelly	Brende		Leawood	I fully support moving the starting day of school to after Labor Day. It gives school districts more time to figure everything out. It allows us to see how Covid-19 is progressing. It just makes sense. Please support!
7/21/2020 1:04:03	Kate	Miller	Teachers	Hiawatha	We need to delay the start for everyone's safety - kids will get sick, educators will get sick. People will die. Teachers need time to learn how to prep for all of this - to truly be ready for what is to happen. I beg you to listen to our governor and delay the start of school.
7/21/2020 1:05:42	Kira	Ryan	Mother	Lincoln KS	Honestly, sickness comes & goes thru out every life, catch em/or not. With recovery from this newest feared virus being so positive... there's hardly any reason why we can't get on with our lives. Get sick, get over it. Practice excessive hand washing, hand sanitizers at doors, extra cleaning of frequent touch items but all the extreme excessive measures seem to not have enough merit to warrant putting em to use (I.e. masks, 6ft, virtual class).
7/21/2020 1:06:27	Diane	Petrella		Leawood	These executive orders are outrageous. The governor should not have shut schools down in March when there were hardly any cases in Kansas- our kids have now been out of school, sports and activities for over four months. Please don't support another sweeping mandate- our kids are not okay!!!!
7/21/2020 1:08:32	Niccole	Vogel	USD #413 Chanute Pub	Chanute	As a Computer Technology teacher at Royster Middle School in Chanute, KS. I urge you to please vote yes and support the governor's executive order. The extra time for us to plan and prepare for a safe return and start of the school year is so very important to all school districts! Please help us do what is best for ourselves & our students!

					<p>Not only is delaying the school year absurd but completely ridiculous. What is all this planning that districts and the state have been doing this entire time since May? Now only to push back school a whole 3 weeks?? The data does not support pushing school out and the Governor refused to bring up any actual data reporting other than increased cases. Schools should be able to implement policies and safety measures without government overstepping. Governor Kelly went against not only the school board but the association of pediatricians board and the KS covid workgroup.</p> <p>She has also overstepped with her next announcement for mandatory masks, hand sanitizer, and temp checks. I sat on my BOE meeting tonight and they all stated it was impossible to do temp checks within our large district. The CDC does not support hand sanitizer as the primary option and it's not actually beneficial like hand washing to kill viruses. My child also has extreme eczema and I have doctors notes stating the importance of hand washing and allowing my child to wash his hands vs hand sanitizer. So she thinks she's smarter than physicians and science???? Her orders only continue to prove she is not doing these out of safety but to appease certain appellates. And children should not be mandated to do anything. Adults and teachers should be stepping up there safety measures to assure children have the utmost normalcy returning to school and these EO are far from it. You can order adults around but you're crossing so many lines when you go after people's children. Our state is not a one size fits all approach and that is the only way she has been handling all of this mess. I'm just so upset. I love my school district but we will be looking elsewhere if these EO are promoted and supported. They are not in the interest of our children. She is continuing to hurt and divide so many and now she's coming after our children, when is enough going to be enough for all of you to see she needs stopped.</p>
7/21/2020 1:08:40	Melissa	Foster	My child and the right a	Derby	Thank you for reading this.
7/21/2020 1:08:54	Cristen	Williams	Parent	Spring Hill	<p>Please delay the start of the 20-21 school year until the rate of community transmission starts to decline. OR implement a staggered learning schedule that allows 1/2 class sizes, fewer hours in a room and more room during lunch periods where masks need to be off. My 14 year old daughter falls in to the "high risk" category due to a chronic condition. By all accounts she is a normal teen excited to start her first year of high school, finally see her friends, and cheer for SHHS. If school starts full time in session 8/12-I will have no choice but to enroll her in online schooling, to protect her. Which also means she will lose her spot on the cheer squad. She is so sad. But she understands that safety comes first. 20 kids in a room is too much right now. We have the opportunity to wait a few weeks and see what happens as other states open their schools. Let's not take a chance on our kids or our valuable teachers. Please help me not have to isolate my daughter to protect her. Many oppose masks in this town and I can only assume their children will have the same views-masks will not be worn properly. Wearing masks only work if everyone in the room wears one over their mouth and nose. We can do this safely and get EVERYONE back in class. Please. Please.</p>
7/21/2020 1:10:12	Jasmyn	Ostmeyer		Spring Hill	<p>With the high number of cases, the delay would be beneficial to help get the numbers down, allow time to get proper ppe supplies, allow time for teacher prep, collaboration, and development. Plus it will help parents feel better about sending their kids back to school, knowing they are in a safer environment.</p>
7/21/2020 1:11:53	Holly	Corman	Special Education Teach	Larned	<p>I work with the youngest students that are provided public education - teaching 3 year old preschool. These students have many health needs and most are IEP students. How can we possibly teach students in this time safely? I feel we need time, we need resources, and we need to follow the directives of our state Governor. Education should NEVER be POLITICAL! Please do the right thing and give us time by supporting the mandate presented by our Governor.</p>
7/21/2020 1:12:11	Michael	Gossenauer		Kansas City, KS	<p>Please chose to delay school openings this fall so that our state has time to reverse the disturbing spike in the spread of the pandemic so that teachers have time to plan appropriately to keep themselves and all of the kids as safe as possible.</p>
7/21/2020 1:13:19	Lacey	Shank		Lenexa	<p>Yes we should delay the start of school. The number of cases should be trending down.</p>

					<p>First, I am writing to you to recognize your leadership and support you in this unprecedented situation. I am thankful for you and know your heart is to do what is best for the people of Kansas.</p> <p>Second, I am writing to you in preparation for the Kansas School Board of Education Vote the mandate to delay school opening.</p> <p>I respectfully request that we work with you to ensure a safe school environment that accomplishes both of the following:</p> <ul style="list-style-type: none"> <li>•Safe School opening following the Board of Education Return to School Plan</li> <li>•No delay to student participation in school, athletics, and activities.</li> </ul> <p>In response to the Mandate delaying School opening statewide, Please vote the mandate down and allow the individual districts to make their own decisions.</p> <p>This will allow each district to make the decision that is best for its community. The situations vary widely across the state and a one size fits all approach does not make sense.</p> <p>Based upon the information available, I believe we are able to send them safely back to school and activities now. I also believe we do more harm than good if we delay starting school and activities on time.</p> <p>I am one of the over 6,200 people who have signed the #HelpThemPlayKansas petition supporting all #Kansas High School Students who voluntarily choose to engage in 2020 sports and activities this fall without delay.</p>
7/21/2020 1:13:27	Heather	Zimmer	Blue Valley School Dist	Overland Park, KS	We all are thankful for the leadership you have provided in leading through the Covid-19 pandemic and know that you
7/21/2020 1:14:39	Amy	Hatcher	Student/teacher	Olathe	Please wait to open schools.
7/21/2020 1:17:47	Pat	Igleheart		Marion	Delay opening school yet it was ok to play summer baseball
7/21/2020 1:18:01	Charity	Horinek		Sublette	<p>I believe the Board of Education should accept Governor Kelly's executive order. I have heard from several school nurses that they were very relieved by the order, as much of the preparations fall on them and they are grateful for the extra time. I have talked to several teachers who are also grateful for the extra time to get their classrooms and lessons ready. And as a parent myself, I am</p> <p>Grateful the governor and the Board of Education care enough about my children to take enough time to open schools properly.</p>
7/21/2020 1:22:03	Katherine	Schlem	Parent	Olathe	I fully support delaying school until after labor day. There is no reason to open sooner. The science supports us taking a wait-and-see position, to see if continued masking will get the outbreaks under control in various areas of Kansas. There is no need to worry about the school year ending next May. I feel going longer into June 2021 is preferable to starting school in August. Children, though resilient, can still contract COVID-19. They can also be asymptomatic carriers and bring the virus home to family and close friends who are vulnerable. School in Kansas used to begin after Labor Day, and we are not as agrarian as we once were. There's no real need to have kids out for three months in the Summer next year. I fully support Governor Kelly's proposal to allow an extra three week lee start time.
7/21/2020 1:22:52	Gail	Fisher	self	Wichita	Please allow Gov Kellys orders to be implemented. It's all just common sense.
7/21/2020 1:25:19	Andrea	Knakmuhs	My family	Lenexa	The only way for school districts to have a fighting chance of giving our children a good education, in the midst of a pandemic, is to delay the start of school.
7/21/2020 1:27:31	Stacy	Wright		Shawnee	Please push back start date

7/21/2020 1:28:07	Ashley	Walz	Holy Name Catholic Sch	Wichita	Please have us start school after Labor Day. It will be cooler for us to do fun academic activities outside. This is my second year of teacher and I'm teaching at a new school. As a Type 1 diabetic, we need time to prepare for all our students to be in their safe place, school. I'm scared, but the extra time will help me in preparing to have the safest environment as possible.
7/21/2020 1:28:58	Cristel	Heffron		Peck	Please vote to delay school until the spread of Covid19 has decreased. It is nowhere near safe at this point for students and staff.
7/21/2020 1:30:15	Staci	Prawl		Eudora	Our kids need to be in the classroom and extracurricular activities. If you follow KU Med's teleconferences each day, you will find that a panel of 4 doctors and a psychologist were stating these very things today! Online only works for some children, it was terrible for mine, and several other kids I know! Kids are less likely to carry Covid-19 and we have had no pediatric deaths from Covid-19 in Kansas at all. Some counties have not even had one single Covid case. There is absolutely no reason to support Executive Order 20-58. Please leave decisions up to local school boards. Please veto this order.
7/21/2020 1:32:31	C.	Alpers	My children	Dodge city	I am all for delaying school until September, but I am ready for some sort of normalcy. I would hope if staff and children attend physical school, precautions are put in place. Masks are fine but smaller classroom sizes and frequent sanitization would make masks much more effective. I do hope districts plan on offering an alternative schooling for parents who have issues with masks or children with health risks.
7/21/2020 1:32:47	Christopher	Shull	Myself	Haysville	This delay will further hurt our students, the tyrannical governor should resign over this unconstitutional abuse of power.
7/21/2020 1:33:55	Liz	Krueger	Shawnee Mission School	Overland Park	<p>Dear KS BOE,</p> <p>PLEASE uphold Governor Kelly's executive order to keep teachers, staff and kids home and healthy. The Shawnee Mission School District, at the very least, needs time to collaborate and become acquainted with our new online platform (which teachers still don't have access to).</p> <p>Furthermore, it is negligent to expect the School Districts, as employers, to place their teachers at risk in their school buildings as numbers of Covid-19 cases continue to rise across the state. 1 teacher, 1 student, 1 grandparent or parent of a student, one school secretary is one too many to risk. Furthermore, the effects of Covid 19 in children are unclear and suggest potential long term effects.</p> <p>Don't make the mistake that our country's leadership has - put in place a plan that most mitigates risk until our entire state is trending the correct direction.</p> <p>I am a mother of an incoming freshman, 7th grader and a 3rd grader. My kids want NOTHING more than to go back to school. But they don't feel safe. They worry they will bring it home to me, an immunocompromised Mom, or their Grandmother who is a part of our family's everyday life.</p> <p>When schools do reopen in September, I am prepared to keep my children home (because we are fortunate and have resources, a safe home and our employers are flexible) so that the kids who NEED to be in school buildings can get there ASAP, but the next few weeks is no time to send children with cognitive or behavioral delays, young kids (and preteens) who pick their noses, high schoolers who have little regard for social distancing back into our schools.</p> <p>My nephew is Covid positive. He lives in a major Southwest Missouri county that only has ONE testing site in the entire county. That said, his high school aged peers are riddled with positive Covid diagnosis. It is spreading like wildfire, I assume in part to the inaccessibility to testing and to the disregard for the wearing of masks and social distancing. These kids are dropping like flies from participating in typical school activities - conditioning, scrimmages,</p>
7/21/2020 1:34:45	Maggie	Buttram		Springfield Mo	Keep them closed for the ones like my son who wouldn't survive. Teachers and students shouldn't be risking their life's hoping they will recover with no permanent damage.
7/21/2020 1:38:59	Shelley	Lane	USD 372	507 Mariner, Silver Lake	I support Governor Kelly's order to delay he started of school until after Labor Day.
7/21/2020 1:39:41	Kristen	Long	General Public	Beloit	Comment removed due to profanity

7/21/2020 1:39:52	Kaylene	Rudy	Parent	St John	I am writing in regards to governor Kelly's school order. My son is 7 years old I am concerned about him not being able to really focus pay attention and communicate well with everyone wearing a mask. I am concerned about the extra work and efforts put on our teachers especially the grade school teachers they already have so much to keep in order let alone another list to try to keep in order along with keeping track of kids and making sure they Are staying sanitized and apart. I worry about the impact this change in school will have on him and the other kids. In my opinion if it counts the masks Are not worth it. They will be "contaminated" when the children are not distanced 6 ft apart while they have the masks on then they take it off and then the mask is contaminated and they are touching it. I would like to see school start normally based on county health dept and school boards and cases. If that is not possible I wonder if it is almost better to keep the school at home. Thank you for your time.
7/21/2020 1:41:43	Crystal	Weakley	USD312 staff, USD 259	Wichita, KS	Delay in person instruction until September, but let us start school online. We can teach virtual so the kids don't get even further behind. Masks should be mandatory, not recommended. (With exceptions as listed in the 20-59 order.) PLEASE require hand sanitizer in ALL classrooms. I am a Specials teacher, and I see 400 students a week. I want to get back to school to see my kiddos, but it should be done safely. If we can't do ANY teaching until Sept, at least modify the school year (required days) so the teachers and administrators are not MORE stressed then we already are.
7/21/2020 1:47:34	Linda	Innes		Mulvane, KS	I appreciate the time given so that school districts have adequate time to plan, purchase, and redesign what the school year will look like in order to keep ALL CHILDREN SAFE, HEALTHY, AND LEARNING!
7/21/2020 1:51:03	Cecilia	Hodde	Public	Ensign	Yes, delay school. If this saves children, then yes, delay school
7/21/2020 1:51:50	Amanda	Long		Hays	Start with online schooling. And slowly transition
7/21/2020 1:51:52	Tracy	Mayfield	Public	Augusta	I plead that Kansas schools i person opening delayed/go to online model be delayed till Kansas Covid 19 positive cases trends are in declining for over a month. It is not safe for students, their families and staff to return to indoor school attendance till we have community management of Covid 19.
7/21/2020 1:53:23	Dorothy	Lewis	Ms	Norton	Delay school start!! School used to start after Labor day every year. This will not hurt ANYTHING and could make a difference in the safety of Kansas children! DO NOT PUT OUR CHILDREN AT RISK FROM COVID-19!

					<p>and guidance from the local health department for not allowing the individual counties to decide return to school dates when there has been a decline of Covid 19 for 14 straight days?</p> <p>If not, then could you please provide guidance on the following concerns;</p> <p>Could you please address the guidelines of social distancing a class of 26 third grade students to 3-6 feet apart in a room that was only designed to accommodate 18.? (Considering it is only a guideline.)</p> <p>How would you advise on answering the questions from parents who have requested social distancing from others, but expect their teacher to provide individual small groups instruction when the materials needed for a safe zone are not available?</p> <p>(Not supplied due to lack of resources.)</p> <p>Who will provide hand sanitizer needed for students who do not supply their own? (no sharing of supplies.)</p> <p>When a child or teacher has had exposure /contact with Covid 19 who will be the substitute for the class? (there is already a shortage of available teachers.)</p> <p>Have any of the acting Board Members given thought of consequences/ ramifications of returning to classrooms if a member of staff is exposed and then exposes associated staff members?</p> <p>Will the entire grade get sent home or disbursed to different schools?</p> <p>(Please do not reply with the answer of that is a local district decision.They are looking to you as the State Board Members to answer to set guidelines.)</p> <p>Has the academic school year calendar been adjusted to provide for testing measures?</p> <p>Will state testing still be required? If so when and under what circumstances?</p> <p>Has there been discussion to policy and procedures to deal with sick children whose parents are unable to collect from school once temp exceeds 100 degrees?</p> <p>Who will be disinfecting classrooms and materials on a daily basis? (following JOCO board of health regulations?)</p> <p>Thank you for the time and effort in answering all of my concern Please do not hesitate to call upon me to assist in your next campaign. 7/21/2020 1:53:27	Mary	Gerling	Teacher of 3rd grade Ele	Leawood	
7/21/2020 1:55:46	Katherine	Ryan	USD 383	Manhattan	<p>I am asking that school opening not be delayed, or not be delayed as late as the EO suggests. My reason is for special needs children. Our children have gone without services since March. Professional, therapeutic services that are desperately needed. They have regressed significantly as we cannot replicate these professional services at home. Four-six more weeks would be very hard on them and would cause even more damage. I am asking that services for special needs children are allowed to begin immediately. I also ask that local districts be allowed to decide concerning mask usage. Each district needs to be able to make that decision based on their independent district. Thank you.</p>
7/21/2020 1:56:53	Ann	Kauten		Norton	<p>Do not risk the health of children. Do not have in person school until it is clear that they will be safe.</p>

7/21/2020 1:57:06	Danielle	Baker		Easton	<p>I am writing to recognize your leadership and support in this unprecedented situation. I am thankful for you, and your leadership role in deciding what is best for the people of Kansas.</p> <p>I respectfully request working together to ensure a safe school environment that accomplishes both of the following:</p> <ul style="list-style-type: none"> <li>•Safe School opening following the Board of Education Return to School Plan</li> <li>•No delay to student participation in school, athletics, and activities.</li> </ul> <p>In response to the Mandate delaying School opening statewide, please vote the mandate down. Allow the individual districts to make their own decisions that is best for its community. The situations vary widely across the state, and a one size fits all approach does not make sense.</p> <p>I believe we are able to send them safely back to school and activities now. I also believe we do more harm than good if we delay starting school and activities on time.</p> <p>Keeping kids from an in-person education is not going to stop the spread. Our kids are not the vulnerable one's (the stats don't lie). Of course the one's that do have health issues, please have other schooling options for them in place. What will kill our kids is social isolation, anxiety, depression, suicide. Child and adolescent physical, and sexual abuse are on the rise. Along with substance abuse. We are making our kids vulnerable, by isolating them.</p> <p>In-Person classes are essential to a child's social, emotional, and educational well-being. The risk of kids contracting Covid-19 are far less then the long-lasting damage it can have on the development of children by not returning to class. Kids need structure, academic instruction, social &amp; emotional support, safety, nutrition, physical activity, access to mental health therapy, and peer interaction. Being in school provides this fundamental role. Losing out on the opportunity to help grow one's mind is only going to cause more mental health issues within our society. We are socially isolating kids, whom of which will end up having severe social anxiety, among many others.</p>
7/21/2020 2:04:31	Jennifer	Swisher	Blue Valley schools	Overland Park, Kansas	<p>Thank you for this executive order to keep residents safe. Please do not offer in school classes this fall due to the surge in Covid cases. Please offer online classes instead and allow flexibility in submitting school work when there are two working parents.</p>
7/21/2020 2:11:45	Lisa	Duerksen	Usd 262	Valley Center	<p>I think it should be each districts choice when to open. Yes each district needs time to figure out the year and how to teach online and in class and how to go virtual if needed but a blanket policy for everyone is not best.</p>
7/21/2020 2:16:44	Kelsey	Beat	Cunningham USD332	Cunningham	<p>I am completely heart broken by the decisions Governor Kelly made today. I will be a first year teacher this year and I am not afraid of this virus. Kids NEED to be in school and sports NEED to be played! STOP taking the childhood from our children. Making everyone wear mask is also disgusting and inhuman. Kids NEED to breathe fresh air and build up their immune systems. Kids NEED to SEE smiling faces from their teachers. I, myself, will not wear a mask because it gives me anxiety and I can't breathe when I have one on. How do you think a 5 year old is going to keep one of these things on? It's not going to happen. I pray that you all realize how ridiculous this mandate she is creating has. We are a school of approximately 60 kids!!!!!! K-12!!!! Do NOT PUNISH US!! Let us make our our decisions. There have been multiple parents (especially ones who are apart of our school board) that say they will not send their child if they have to wear a mask. I do not blame them and will not send my daughter to preschool if she has to wear one either. The Death percentage rate of this "virus" Is less than 1%!!!!!! You all know everyone is being lied to about the actual number of positive cases and deaths. People get sick with something ever single day. This country needs to stand up for what is RIGHT and what this Governor is doing to these kids and teachers are WRONG!!! Give the choice to allow the scared ones to stay home, etc. but DONT PUNISH US ALL!!!</p>
7/21/2020 2:19:22	Michelle	Ray	Self, children	Eudora	<p>Keep it closed as the Gov. ordered.</p> <p>Give our school some time to figure out a safe way to open if it can open at all. I don't want to risk our children and our families.</p>
7/21/2020 2:22:54	Janie	Parsons		Leavenworth	<p>Please, don't start school until after Labor Day.</p>

7/21/2020 2:32:07	Ross	Dessert	Bishop Miege High Sch	Westwood	Please support governor Kelly's order to delay opening. I am a teacher. Our schools are not safe to reopen in the coming weeks. More time is needed to plan for the proper And safe reopening
7/21/2020 2:38:34	Becky	Stephens	USD 500 KCKPS	DeSoto	I'm a Therapist that works with Special Needs kids and with the number of positive number of COVID numbers increasing I feel that school should be delayed until proper protocol are in place!
7/21/2020 2:38:35	Thomas	Hall	Parent	Tecumseh	Open schools up completely with no masks. Other euro countries have had no impact by keeping schools open.
7/21/2020 2:39:00	Amelia	Williams	Shawnee mission Schoo	Lenexa	Please delay the opening of schools and uphold the governors executive order. Thank you for caring about students' life as well as staff.
7/21/2020 2:41:33	April	Sikes		Lawrence	I am the mother of four children attending public schools in the Lawrence School District USD 497, and I am asking the KSBOE to please pass Governor Kelly's executive order, E.O. 20-58, to delay the opening of Kansas schools until after Labor Day. Thank you.
7/21/2020 2:42:48	Aaron	Rittmaster	None	Overland Park	<p>Though difficult, Executive Order 20-58 delaying the 2020-21 K-12 school year is the safe and proper choice to protect the health, safety and well-being of all Kansans. Community spread of the novel coronavirus continues to grow, and sadly far too many of my fellow Kansans continue to display selfish disregard for their neighbors' health.</p> <p>There is no practical way to effectively implement the practices necessary to adequately protect our children in school right now. Buildings aren't large enough. Too many schools have inadequate ventilations systems under the circumstances. The tragic irony is that the same physical presence and connection that our children are yearning for would represent a clear and present danger to their health and the health of their families.</p> <p>While children have generally had milder symptoms and the majority of recovered successfully from COVID-19 infections, that does not mean they are unaffected. A significant proportion of children who survive COVID-19 infections will suffer disabilities for the rest of their lives, affecting multiple organ systems. Even those children who legitimately experience the least discomfort from the symptoms of COVID-19, present a substantial infectious spread risk to the adults they come into contact with, including school teachers and administrators, and the parents and grandparents of their schoolmates.</p> <p>Thank you for taking the life and well-being of our children and, indeed, our entire community seriously. PLEASE SUPPORT this executive order, delaying the start of the school year.</p>

7/21/2020 2:45:15	Alisha	Farmer		Wichita	<p>The BOE in the district I will be working for just voted two options for the start of the school year. Parents can either enroll their student full time in person or full time online. Sedgwick county's numbers continue to rise. I have always purchased cleaning/ sanitizing materials for my classroom, but I have been unable to purchase these things for my home since March, let alone my classroom. I am truly, truly concerned about the increased risk about transmission. Public schools have always been a breeding ground for illness. I have taught in the public school for 14 years prior to this. Best teaching practices require educators to be in very close contact with students. One of the best ways to prevent or defuse behavior issues in the classroom is proximity and movement in the room. In a classroom with 20-30 students, it is difficult to limit proximity on a good day. Adding new classroom procedures, which is going to happen for the safety of our staff and students is going to take time and should not be something we rush into. I fear that push back from parents is pushing us into a dangerous situation that we simply not prepared for. Extra time would, at the very least allow educators time to: 1) prepare online curriculum as it does require extra planning and work and 2) create a better plan of how we can apply safer practices in the event that we face classrooms full of 20-30 students.</p> <p>I want to be in my classroom. I really do. I know that in person classes is best for student learning and emotional health, but at the same time, I know I have more than one family member with chronic health conditions, one of which is at high risk due to severe lung issues. I have students who have medically fragile family members as well. I have friends and family that view this as a hoax; they refuse to social distance and rarely wear masks. I know that we will have students whose families will feel the same way. We have students that are sent to school when they were sick during cold a flu season. Are we really prepared with how we will handle this when a student comes to school ill with COVID? What about students who are asymptomatic? Will we be able to get subs when teachers fall ill? Doubling classes will increase potential problems and reduce space in already crowded classrooms.</p> <p>In a normal school year, I would have started preparing my classroom and lesson plans last week. Many of my colleagues would have done the same, but this year we've had to wait. Buildings that would have normally open by now still have limited access while districts wait for guidance. It is in everyone's best interest that we allow ourselves a little extra time to do this right. We have more work to do with less time to do it if we move forward as scheduled. Please allow us the time to do this the best way possible.</p>
7/21/2020 2:50:45	Brandy	Ford		Leawood	<p>Our district is unprepared to open on the 15th. Teachers still haven't been given guidelines as to what they are prepping for as far as how the school year will go and haven't had access to prepare their classrooms. We have already pushed daycare classes at my facility to accommodate for the delay and prepared the kids. Stop playing politics with our kids and altering their schedule again! Approve the delay and move on. It would have been helpful if in your 1100 page plan you actually gave guidance ( beyond the normal cdc items) to assist our schools. Thank goodness we have 1000 pages on curriculum and how to make sure we test these kids! None of you from the state board to local boards have given any guidance on how you will try to protect these kids! You just keep pushing responsibility down the line! Take the extra time the Governor has given the districts to figure it out ( since apparently 6 months wasn't enough).</p>
7/21/2020 2:55:15	Brianne	Lucius	Cedar Vale Schools	Cedar Vale	<p>I understand you all are under tremendous pressure, and you all have important, pressing decisions that must be made and will impact every student, teacher, para, specialist, administrator, superintendent, cafeteria worker, bus driver, custodian, maintenance worker, coach, parent, and family in our great state. A monumental task of this magnitude requires cool heads, flexibility, teamwork, and patience. I pray all of those things in your favor as you lead education in our state.</p> <p>I do not wish to sway your decision. I simply wish to encourage you in your endeavor to make the best decision possible for the lives you will impact. You will make the best decision for our state's public education. I believe in all of you to do so!</p>
7/21/2020 2:55:36	Amanda	VanSkike	KS Educator	Great Bend	<p>As an educator, I appreciated the consistency that KS provided to our students and staff. Many states went back and forth between online and in-class learning throughout the 4th quarter. PLEASE give us consistency again. Kids need consistency. Working parents need consistency. Teachers with children at home need consistency. Think of all of these factors to try and make things as consistent and stable as possible.</p>

7/21/2020 2:59:53	Kim	Lambdin	Wichita Public Schools	Wichita	Schools need to open! Our sped kids have lost almost 6 months of services, kids who connect with no one else but their teachers need socialization and our most at risk academic students are falling further behind. Put precautions in place and let's get back to school.
7/21/2020 3:03:37	Elizabeth	Hickerson	Oakpark Carpenter, Indi	Overland Park	I think it is a very good idea moving school back to make sure the schools are ready and prepared.
7/21/2020 3:06:28	Ryan	Bach		Topeka	<p>I implore the Board to uphold Governor Kelly's order delaying the start of school. This will give Kansas school districts time to prepare for eventual in-class and distance learning - both in preparing for instruction and gathering required materials (masks, thermometers, hand sanitizer, etc.)</p> <p>Many teachers are anxious about the reopening, as about a third of teachers nationwide are in the at-risk age group (as I've seen in some sources). Please, remember that adults are in the buildings, and as we've seen in Florida, the young are able to contract the virus, with about 30% of those tested in Florida turning up positive. We need to make sure we are as safe as possible, especially now that Kansas is seeing an uptick in cases - it is worse now than it was in March.</p> <p>As you are aware, Kansas districts have until June 30, 2021, to get in the required hours of learning. Governor Kelly's order does not cancel school, it only delays it. The weeks will be made up.</p>
7/21/2020 3:11:31	Tiffany	Pettit	Parent	Medicine Lodge	The Governor should not dictate what my child's school year should look like. Recommendations are understandable, but let the individual school districts determine what is best for their students. "One size fits all" does not work for a school district of 500 students.
7/21/2020 3:11:46	Val	Vazquez		Wichita	The delay only makes sense to get a solid plan in place for when school does start, protect staff and students, and hopefully see an overall reduction in Covid cases before school does start.
7/21/2020 3:13:33	Amie	Nelson		Larned	Please, allow schools to open in August!
7/21/2020 3:18:45	Tim	Vesco		Frontenac	<p>My name is Tim Vesco and I am a fourth grade teacher at Frank Layden Elementary in Frontenac, Kansas.</p> <p>I am writing you to ask that you please support Governor Laura Kelly's executive order and delay the opening of school until September.</p> <p>With the usual August opening of the school year only a few weeks away, there is not adequate time to thoroughly review, debate, and consider the best manner of reopening for each school district based on the recommendations from Navigating Change document. By delaying the start of school, districts will have adequate time to plan and include staff, students, parents, community members, and business leaders in the process. It is imperative we assure our communities we have adequately planned for every possibility and schools will be as safe as can possibly be guaranteed. The whole community must have confidence in the school's ability to open, be safe, and stay open.</p> <p>Not only will this delay allow for effective planning, it will provide the opportunity for districts to provide staff members with appropriate professional development to implement the plan. We must be sure all staff understand the district's reopening plan and what each individual's role in the implementation will be. This will inspire confidence in both the school staff and the parents whose children are in their care. Additionally, smooth implementation assures students that schools are ready for them.</p> <p>Thank you for your time.</p>
7/21/2020 3:26:09	Emily	Gordon		Overland Park	Support delayed start for purposes of preparation to protect students and staff. Schools need to then open virtually or in-person.
7/21/2020 3:33:33	Katie	Patee	USD240	Lincoln	I do think it is a good idea to keep things closed until after Labor Day. This will allow for more preparation time for Teachers and other staff members to ensure that we have a solid plan before students return to school.

7/21/2020 3:43:18	Nichole	Lind	Parent & USD 489	Hays	<p>Please delay the start of school and encourage legislators to suspend the required seat hours for this year. We are in unprecedented times and the rules cannot apply as they always have. Schools need the extra time to develop safety, health, instruction, and crisis response plans. We are expected to creatively meet the guidelines to ensure safety for our communities with limited resources. That creativity takes time and collaboration.</p> <p>In addition, our school does not have the supplies needed to ensure proper disinfection or personal protection. Those supplies have been ordered but are in short supply across the nation.</p>
7/21/2020 3:45:31	Rayne	Swezey	Parent of 2 public school	arma	<p>These are vulnerable little innocent lives you are speaking for. Until a vaccine or cure is founded there should be no kids gathering in public schools. They can be home schooled.</p> <p>I think we have a moral obligation to our children that can be easily summarized: number one, protect them from harm. #NotMyKid</p> <p>( I'm not political, I'm practical )</p> <p>NO SCHOOL until there are other options besides 6 ft rule/masks OR permanent damage/death. DO THE RIGHT THING..I WAS SO PROUD OF GIV KELLY WHEN SHE SHUT DOWN THE SCHOOLS IN MARCH !!!</p>
7/21/2020 3:47:27	Jason	Broxterman	Self	Meriden	I don't think putting our children's education on hold is the right answer. A 3 week delay wouldn't be terrible but you have already canceled nearly half a semester. We need to get this school year rolling. We are delaying out of fear not facts. Your job is to educate after all. How far behind are you willing to put these kids' education.
7/21/2020 3:47:52	Terrance	Bohm	The kids of Salina Ks.	Salina	Get the kids back in school to a totally normal environment!!!! Quit being scared!!!!
7/21/2020 4:05:43	Katherine	Judy	Olathe USD233	Olathe	As a teacher, I think the 20-21 school year should not only be delayed, but should only happen remotely. I love my job, but I love myself, my family, and my students even more. We need to think of the consequences that opening schools will bring. Simply stating that the number of individuals who are predicted to die is very "low" is unacceptable. Why take the chance? Any number is too high in my opinion, especially when we're talking about children. This includes my own infant child. I am not willing to put him at risk when there are other options.
7/21/2020 4:13:54	Hattie	Lee		Carbondale	Opening schools while our Covid-19 numbers are climbing is irresponsible, and puts the health of our teachers, staff, families and communities at great risk. Please support delaying the opening of our schools.
7/21/2020 4:18:45	Dana	LeRow		Baldwin City	I personally wouldn't want my child going to the public school unless masks are worn because I have diabetes and for any reason if he should catch it and pass it to me would NOT BE GOOD FOR ME!! So therefore I wouldn't want to send my child to school until after knowing the virus has backed down quite a bit!!
7/21/2020 4:21:10	Michelle	Eastwood	Prairie View USD 362	Fontana, KS	Please let the schools make their own decision on whether to open. Our district has not had the number of cases in the area that larger cities have. The virtual learning program DOES NOT work for elementary kids. I feel my son could get behind if he has to do it again. He is bored and does not get challenged when doing it.
7/21/2020 4:21:21	Melissa	Laughlin	None	Overland park	I strongly agree with the decision to delay school.covid is not under control and we should not be sending our teachers into school right now given the situation with covid in kansas
7/21/2020 4:22:47	Amanda	Bernard		De Soto, Ks	With numbers rising I don't even understand why this is being debated. I will NOT send my child to school to possibly expose himself, his family or teachers to a virus we know so little about. If you deem it necessary to hold zoom meetings vs in person meetings regarding school then there is your answer. I am a single mom with a compromised immune system doing the best I can in an unknown world. It is a given that the school year will be difficult for all but these are lives we are discussing not some political agenda. The politics of education are already failing so many children with IEP or 504s. If this means that I must agree to let my child drop out and obtain a GED at a later date because of risks associated with his health and safety then you have failed yet another child. Who are we to say that a child must be at a certain point by a certain age? Yes, education is important, but at what expense?
7/21/2020 4:26:57	Anthane	Cobb	ANW Special Education	Frontenac	I think we need to delay start times and consider distance learning options in order to protect our kids, teachers, and staff
7/21/2020 4:28:56	Alison	Russo	Parent	Overland Park	yes, please delay
7/21/2020 4:29:18	Karen	Adams	Myself and family	Wichita	Open.
7/21/2020 4:35:47	Randall	Allen	citizens of Kansas	Lawrence	I support the Governor's delay of schools opening. Districts should ONLY open when community transmission is nearly 0.

7/21/2020 4:40:46	Angie	Roberts		Topeka	<p>Hi, I am writing to you today to express my hope that you will uphold Governor Kelly's executive order. I am sure you have been inundated with emails and so I want to express my thanks for your time.</p> <p>I am a current 3rd grade teacher in Shawnee County. I am also a new mom. Returning to school during such unprecedented times is terrifying. I am very nervous to bring COVID home to my little guy or worse yet, not be able to nurse him. I know how hard it is to try to keep things like the common cold, flu, and lice out of my classroom. Those are things that we have medicines for that will help resolve some of the symptoms. COVID has no cure and we do not know the lasting effects of this disease. If we were to open schools without a proper plan it would be a petri dish experiment gone bad. Also I know it has been stated that local control is what is needed. While I agree with that statement to an extent, I also know that if some schools were to start now and others wait, we would be dealing with a whole slough of scheduling problems. Scheduling will be a nightmare in the elementary school alone as it is. I can't imagine at the junior high and high school levels. Thank you again for your time and I hope you stand with Governor Kelly.</p>
7/21/2020 4:43:07	Janice	Plum	Olathe Schools	Olathe	Districts need to time to pivot and implement safety protocols...and see what the science/data looks like in early September in regards to reopening schools face to face at all!
7/21/2020 4:43:48	Brandi	Robinson	USD 500	Kck	Please vote in favor of Laura Kelly's EO to delay school start date. I need a little more time to find an appropriate babysitter for my toddler, whom was staying with my 71 year old mother. If school starts in person my children will no longer be able to be with my recently widowed mother. I am a teacher and will not want to spread COVID-19 to her. This is a HUGE transition for our family as my mother was staying with us. Thank you for reading my story. Please vote in favor.
7/21/2020 4:46:01	Halee	Johannsen		sterling	get school started! The kids need it, it's been way to long without
7/21/2020 4:47:54	Kelsey	Perez	USD 268	Cheney	We desperately need this extra time to wrap our heads around and plan for all of the new guidelines that we are expected to follow this year.
7/21/2020 4:53:17	Sonya	Roberts		Olathe	Absolutely no school until after Labor Day and possibly beyond. With the rise of cases it would be irresponsible to open.
7/21/2020 4:56:43	carol	clark	myself	Garden city	kids need to be back in school in August. Have family who teach. they need to be there to perform needed work to accomplish yearly goals. Kids need to be back in their early fall activities.
7/21/2020 5:01:56	Rusty	Lueger	St. John's Catholic High	Beloit	<p>I am deeply concerned for a couple reasons about Governor Kelly's use of executive action to mandate postponing the start date for school until after Labor Day for all schools in the State of Kansas. I am a teacher of mathematics and science at St. John's Catholic High School in Beloit and a father of two students (K &amp; 1) and humbly ask you to vote to rescind this action and allow that decision to be made on a local level.</p> <p>First, one of my biggest frustrations--especially in hindsight--has been both the state and federal response as a one-size-fits-all, top-down approach. The State of Kansas is vast and diverse. I am particularly not opposed to moving the start date until after Labor Day, IF that is what local authorities deem best for their particular school. Our local public school had already decided to lengthen their school day and start a week later. Our principal at the Catholic school had also considered to delay our start date by a couple days to allow more in-service/work days for the teachers to be prepared. However, there are still some counties without a single, COVID-19 case and I would be VERY upset if I were in their shoes. This may be the best time of the year to even have students present in the classroom, and for some reason, local authorities are deemed too stupid or incapable of handling such decisions. The governor's 'I-know-better-than-you' decisions and actions are very frustrating.</p> <p>Second, if we allow the governor to continue to make one-size-fits-all, top-down decisions, I feel it could (and probably would) be a slippery slope. Will she feel emboldened to continue to wield her power and make decisions for all Kansans? However, if you stand and vote to send that power and those decisions to the local level, it will set a powerful precedent if future situations occur.</p> <p>I thank you for your public service and humbly ask once again for you to vote against Governor Kelly's mandate.</p>

7/21/2020 5:01:57	Kellie	Belleau	Parent of two USD 211	Norton	I have no problem sending my children back to school as planned. I also have no problem with a delay. What ever our district needs to make sure the staff and children can get an education and remain safe from Covid. I have faith that our district will have measures in place to keep them safe for a return to school.
7/21/2020 5:02:00	Rusty	Lueger	St. John's Catholic High	Beloit	<p>I am deeply concerned for a couple reasons about Governor Kelly's use of executive action to mandate postponing the start date for school until after Labor Day for all schools in the State of Kansas. 7/21/2020 5:02:00	Rusty	Lueger	St. John's Catholic High	Beloit	I thank you for your public service and humbly ask once again for you to vote against Governor Kelly's mandate.
7/21/2020 5:03:51	Jordan	Fitzpatrick-Buell		Wichita	Starting school before the science and medical professionals advise it, would be a betrayal of our City's children. I don't care who a person supports for President— but anyone telling me to send my children to school during a pandemic has lost my support, and will never again receive it.
7/21/2020 5:04:02	Jordan	Fitzpatrick-Buell		Wichita	Starting school before the science and medical professionals advise it, would be a betrayal of our City's children. I don't care who a person supports for President— but anyone telling me to send my children to school during a pandemic has lost my support, and will never again receive it.
7/21/2020 5:04:50	Nicholas	Hofmeier	Olathe School District	Paola	Please follow the directive from Governor Kelly for a delayed start. The COVID cases are going up in many places and will surely go up even more. If schools open too early students, teachers, and families will likely suffer from either getting sick or dealing with the death of loved ones. I, like many educators, want to teach; however, I am unwilling to sacrifice the health of my students, colleagues, and family. Please give districts more time and allow for the number of cases to drop significantly before school begins again.
7/21/2020 5:08:13	Mary	Holm	personal	Lawrence	Please protect the health of students, staff and the larger community by delaying the opening of school. As an elementary teacher, I very much want to work with my students face to face, but not at the risk to their health or mine.
7/21/2020 5:09:20	B	I	USD 290	Ottawa	Reopen after 9/7 to give teachers and staff time to safely prepare
7/21/2020 5:09:43	Kelli	Torres		Wichita	I believe schools should be delayed in opening until after Labor Day, maybe even longer, as the cases of COVID-19 are still continuing to rise, even with mask mandates in place. I, as a parent to three school age children, do not feel comfortable with my children returning to school with the way that things are at this very moment. I feel that waiting would also give the district more time to figure out what they need to do since it seem like they are scrambling. Thank you for taking the time to consider my response.

7/21/2020 5:10:38	Guy	Claudy	A parent	Lenexa	I recommend that you do not support the EO as it is currently written. Delaying the opening is just delaying the inevitable. What happens in 3 weeks when the numbers haven't changed? We wait three more weeks? 3 more months? Skip the entire year? Open the schools and start educating our children. If the teachers don't want to go in because they feel unsafe, then why not do remote learning? Why not conduct classes from home? If the teachers prefer to go into their classroom to do delivery the lesson then they should be allowed. The first choice should be trying to get the children back into the classrooms, and even if it is on a rotating schedule. But to just delay they opening because the teacher union refuses to do allow their members to work is ridiculous. How will this affect the amount of contact hours? Are teachers now willing to work into the summer next? What about parents who have made plans based on the released schedule?
7/21/2020 5:13:20	Mary	Harden	Teacher	Bucklin	Let's start school!
7/21/2020 5:16:21	Shirley	Chavez		Dighton	I think depending on ages groups of kids preschool through 6 grade should not wear masks and all school district should go to school back in August. Trump clearly stated school needs to go back to school normal time otherwise he will cut back funding.
7/21/2020 5:16:52	Monica	Cadwallader		DeSoto	There shouldn't be any school starting due to COVID-19! They closed schools when there weren't anywhere near the amount of cases and now they are climbing and want to open? How wrong! I refuse to send my child to school to possibly become exposed and bring home to others.
7/21/2020 5:18:17	Shane	Ewing	Commonsense	Wichita	My wife will be 8 weeks pregnant when school is set to begin. There are countless other staff members who are at-risk for major disruptions to their lives and health if they come in contact with the virus. They are all paid poorly and will be forced to spend thousands of dollars they don't have if hospitalized, as well as possibly lose their sick leave days if districts don't make adequate accommodations for missed time. Please do not leave me to wonder all day if my wife and unborn child are left to go into a warzone together each day. I can't even believe that plea would even need to be made. The fact that it does, though, shows how indelicate our world has become. Fortunately for you, you have the ability to ignite civility and honor in it once again by doing what you know is right and protecting the people who have dedicated their lives to education, and will continue to dedicate their lives to education in an improved virtual setting. Thank you.
7/21/2020 5:19:15	Kay	Moeder	A concern parent	Quinter	We have to start school. These poor kids need it and with as little restrictions as possible. My son as horrible anxiety and I know wear a mask all day won't even be possible. What is the difference starting school when our kids have been going and doing sports every where with everyone with no mask. We NEED in person school.
7/21/2020 5:19:42	Cathy	Enneking	USD115	Seneca	Please let the locals decide the direction for their schools. Our county has been "open" and mask free since June 19 and have very few cases. I am also a 59 year old teacher in our district. I do NOT want to teach wearing a mask. I am not worried about my safety. Do not require that we wear masks when our county doesn't require them!
7/21/2020 5:19:43	Shay	Carter	Doniphan County Educa	Highland	Our students have a right to instruction. I prefer that we return to in person, if we can safely do so, however online instruction is better than no instruction. We must provide instruction to all!!
7/21/2020 5:20:04	Tim	Krause		Overland Park	Please do Not delay or cancel in-person school this year! The actual risk of death/significant morbidity is so low in these age groups that doesn't even come close to overriding the benefit of a good education. We as parents desire education for our children. Also, the rural and underserved communities are hurt the most by this due to lack of access and quality follow up in a total virtual environment. Thank you.
7/21/2020 5:22:38	Tommy	Triplett	Valley Center Middle Sc	Wichita	With cases on the rise, I feel as though waiting to see if the general public can help contain the virus is the right call. If cases stop rising at an alarming rate, districts can evaluate if in-person classes are safe. If cases continue to rise, districts can explore online options to keep their respective communities safe.  Those calling for school to be in session need to remember that students and staff will not be returning to a normal school setting. We need to choose the option that is safest for our communities. Rushing ahead can make matters worse for months to come. At the absolute worst, rushing ahead could cause deaths.
7/21/2020 5:24:08	Debra	Wells	Self	Fredonia	Please keep safety as the primary motivator for your choice. Thank you.  As desperately as my three young grandsons need to be back in the classroom, my first concern is their physical health and that of their families. Please support the Governor's order delaying the start of school until September.

7/21/2020 5:24:57	Heather	Dowling	Our Family	Smith Center	Starting school later is not a problem for us. Our children being required to wear masks is. If this condition stands, we will homeschool our children.
7/21/2020 5:25:19	Jeanne	Koontz		Hutchinson	Please uphold the governor's mandate to delay the start of school until after labor day. School districts need more time to prepare for implementing the recommendations provided by the State task force.
7/21/2020 5:26:00	Debra	Seiler		Garden Plain	By delaying the school year, it will help schools better prepare for educating our students and implement safety training for all. It will also help teachers and staff time to work on plans how to do a better job if we have to move into hybrid or online teaching if the need arises instead of just "winging" it. We can also better prepare our students this time as well. Kansas needs to bring our numbers down and flatten our curve. We need to be able to protect our students and well as our teachers and staff.
7/21/2020 5:26:52	Emily	Komarek	USD 307	Salina	Please delay the start of school until after Labor Day. It is important that the schools have time to adequately prepare for a safe return and that children are not thrown into another chaotic situation.
7/21/2020 5:28:51	Kenny	Eaton		Topeka	Bottom line is, This is real but there's worse and more dangerous virus's and germs out there to catch. Always has been. Always will be. This one is just being "promoted".  "Of the 60,000 types of germs that people come in contact with on a daily basis ... only about 1 to 2 percent are potentially dangerous to normal people with "normal immunity,". That works out well for us, because pretty much any surface contains some of these microscopic organisms. We need our immune systems to be healthy instead of damaging them. Please open up our schools or at least make it an option. Thank you.
7/21/2020 5:32:56	Molly	Rapp		Olathe	Please uphold Governor Kelly's mandate. I work in the 2nd largest school district in Kansas. We need more time to ensure that all safety measures are put into place.
7/21/2020 5:33:56	Nedra	Auer	USD 392	Osborne	No mask for students
7/21/2020 5:33:58	Alyssa	Passmore	SMSD educators	Shawnee	It is not safe to put teachers in classrooms with kids until we have more data on how the virus effects or spreads through students. We need to wait to start in person learning. Period.
7/21/2020 5:34:03	Matthew	Clay		Dighton	As an education professor and husband of a teacher I am asking you to uphold the executive order. Schools need more time to get proper safety measures in place. Furthermore, forcing this decision to a local level will put administrators in the impossible situation of choosing between what is safe and what is socially acceptable in their communities.
7/21/2020 5:35:30	Jenny	Parker	Ellinwood Grade School	Ellinwood Ks	Our kids need to be in school. Not only for the learning aspect but the social as well. Mental health issues are on the rise due to these kids not being able to interact with their peers for months. Staying home when they should be in sports. This is only hurting our children. There is no reason to delay school opening. Our kids are faced with other virus during the school year that wipe out classrooms example influenza and we don't shut down the schools. Economy etc. influenza has a higher death rate then COVID and yet we still send our kids to school each and everyday with possible exposure. Send our children to school and on time. Us parents who work full time don't have the time to come home and do online classes with multiple children. I didn't go to college to be a teacher. I went to college to be a nurse. I should not be expected to try and teach my children their schooling as well. Please do not agree with Governor Kelly's order. Get our children back amongst their peers and learning in a classroom. Thank you
7/21/2020 5:36:58	Barbara	Reed		Paola	If you open schools and make everyone social social distance and wear masks is fine BUT what are you thinking allowing sports? You need to cancel fall sports or you have defeated the purpose of social distancing. There is much more contact during sports.
7/21/2020 5:37:28	Michael	Fenner	Fenner Family	Goodland	School year start should be left up to the individual districts! Every district has different circumstances!
7/21/2020 5:37:50	Deborah	Gregoire		Leavenworth	Do not delay reopening of schools. In Kansas it is much too difficult for everyone to school from home because Kansas doesn't put money into the communications infrastructure to support rural communities. Living just 10 miles outside of Leavenworth/Lansing I know there is little to no internet access with enough capability to stream education content or anything else. I can barely keep access to do my government job for teleworking which does not involve significant amounts of streaming. Driving across Kansas you find many locations with no service. Satellite is expensive and isn't reliant all of the time. If the students don't have streaming video access to their teachers (a minimum for education today) then the education is basically worthless, boring, and reliant on the education of the adult at home. DO NOT DELAY reopening of schools.

7/21/2020 5:39:36	Donitta	Wiles	none	Dodge City	DO NOT DELAY reopening of schools. It is a mark that must be met to show we believe in Kansas and the residents of Kansas can fight this. Delay is not good for rural Kansas with little to no internet access.
7/21/2020 5:39:51	Sherry	Marcie	Usd 428	Great Bend	They need to open. Not every parent stays home. We both work and can't stay home to homeschool or make sure they are online for class. With younger grade school students someone has to be with them to help them.
7/21/2020 5:39:51	Chelsi	Nolan		Dodge City	I think delaying the start of school until after Labor Day is a wise decision, as it gives districts more time to prepare plans for reopening and gather the necessary materials to properly implement their plans. While I agree that students need to be back in classrooms learning with their peers as soon as possible, it must be done in the safest way possible in the interests of students, teachers, staff, and their families. Failure to properly create and implement safe reopening plans will undoubtedly have severe lasting consequences for our state and its people. While education is of great importance, nothing is more important than the health and safety of our students, teachers, staff, and families.
7/21/2020 5:40:25	Don	Wiles	none	Dodge City	DO NOT DELAY REOPENING OF SCHOOLS IN KANSAS.
7/21/2020 5:40:48	Helen	Kirkpatrick		Marion	Please vote yes, to delaying school until after Labor Day. Our county is experiencing a rapid growth of Covid 19. Our school leaders need time to plan and act accordingly. I am an elementary school librarian with underlying health conditions, the start of school concerns me, please give our admin. the extra time they need to do this right, for kids and staff!
7/21/2020 5:42:09	Dezerae	Poole	Self and family	Mound City	Mandatory face masks in school is not ok. I have children going into kindergarten, 6th, and 9th grade. Kindergarten children learn so much by watching their teachers lips when it comes to the correct way to pronounce things and learning to read. Daycares have not had to wear face masks at all during this entire time. How can we keep saying it's mandatory for one thing involving children, yet as soon as you get out of school and have to attend daycare with a bunch of children don't worry about that mask ? I have no problem with social distances of 6 ft, hand washing, etc., but this is our children's education that is being messed with.
7/21/2020 5:43:15	Andrea	Taylor	Abilene Middle School	Abilene	Get the kids back in school!!!!
7/21/2020 5:43:29	Debbie	Bond	Myself	Overland Park	<p>1. Our first priority needs to be the safety And well being of students and staff. Areas - such as JOCO should not be permitted to open schools because of COVID19 and the serious numbers. Schools cannot keep students socially distanced with 24-30 students in a 450 square foot area. It is not safe to open schools in areas with high community transmission. The health and well-being of students and staff depend on your judgement.</p> <p>2. It is a fallacy to think that school will be good for student's social development during this time. Schools will not be the same. How will 5,6,7 year olds understand 6.5 hours of sitting away from people? Keeping a mask on and being safe? How can staff stay safe? How will the open/shut/open/ - no substitutes....high anxiety- be good for children?</p> <p>3. THE ECONOMY - if we open schools the impact of mass transmission will possibly be devastating on the economy. Teachers will run out of covered leave with 2 quarantines and if they get sick- they will not get paid. The impact on hospitals and healthcare workers could be horrific and a shutdown becomes more likely. What impact will all the hospital bills from covid19 patients have on our economy if schools become part of the transmission?</p> <p>Thank you for your consideration. This world-wide pandemic is terrible. This is not the flu. This is not a simple virus. For those wanting life as usual- they are not understanding the reality of the situation. There are NO easy decisions. As the leaders making the decisions - the health and well-being of Kansas students relies on you making the decision to protect them. Thank you for your service.</p>
7/21/2020 5:44:00	Christina	Bunker	USD 350	St John	Delaying school past Labor Day is not the answer, our children need to be in school and getting back to normal. We have wasted too many in school learning days, zoom is not the answer.
7/21/2020 5:44:27	Dana	Steinwart		Overland Park	Please follow Governor Kelly's executive order and keep schools closed until after Labor Day. I am a teacher and feel that opening schools while our county is seeing a spike in COVID cases is a recipe for disaster. I fear for my health and safety as well as my students. Thank you!

7/21/2020 5:44:25	Heather	Vincent		Topeka	Please no masks at schools
7/21/2020 5:44:36	Darcie	Gomez		Leon	I would like the board to reconsider the ordered requirement of k-12 to wear masks. While I am 100% on board with keeping our children safe & healthy I do not believe, especially in the grade school age and younger, wearing masks will benefit our children at all and instead it will be a huge distraction for them and hinder their learning. My heart hurts for our country right now and what it is going thru & it's our innocent children that are suffering the most. I hope and pray schools are back in session and that it can be left up to each schools superintendent to make the final decision on what he/she wants to do within their school district. It seems to me that the "open door" way of thinking so less cross contaminated touching will happen is also counterproductive to enforce safety from the terror or threat of an active shooter. I just wish that when deciding the "fear" of the what if's is pushed aside so the rational what wills can make more sense. Thank you for your time.
7/21/2020 5:45:30	Hina	Baig	Parenthood!! / The Univ	Overland Park	Yes, schools should remain close until we have some treatment and/or effective preventive measures against Covid-19. Children are not going to wear the mask throughout the day, especially younger kids. They're not going to wash their hands after every possible interaction with other folks and most likely won't maintain 6-foot distance. Data is showing that younger healthy adults and children are catching the virus too now. If children and/or teachers do catch Covid-19 (whether become symptomatic or remain asymptomatic), then they'll spread it to the rest of their family members; and the vicious process of spread will continue.
7/21/2020 5:46:12	Diana	Fahring		Haysville	Let the kids go back to school . This mask thing is stupid . And also they make you have more issues wearing a mask . Also they dont work for covid 19
7/21/2020 5:48:26	Cheri	Ricke	USD 511	Attica	Kids are depressed and need interaction and teachers to teach them. Online is too lax! They are not being educated enough online. Please open schools with no masks! We really need this!!
7/21/2020 5:49:21	David	Heath	Self	WICHITA	You need to look at the KDHE July 7th virus map; the numbers do not justify neither a Statewide delay of school nor mask-wearing students. Of 105 counties, 50 have single digit cases (0-9); a further 15 have <25 cases. 40 counties have 25 cases or more & of these 40, 16 have <50 cases. Only 24 of 105 counties (23% of the State) have 50+ cases. Those counties with cases that rise into the hundreds or more have the only true claim to needing the Governor's two Executive Orders. This is a very clear case of Statewide Governmental overreach and Gov. Kelly not paying attention to her own statistics.
7/21/2020 5:50:07	Becky	Price	Usd 459 Bucklin	Bucklin	Please open schools on time! Do not wait til Labor Day! Kids need to be in school and to play sports!
7/21/2020 5:51:08	Jamie	Panek		Pratt, KS	I ask that you fight the governor's order to delay the start of school until after Labor Day. My daughter has not been in school since March and has already missed so much. She's in Pre-K and online learning is not conducive to 4 and 5 year olds. We have a limited number of active COVID-19 cases and our schools/administrators/teachers have action plans in place and are ready. I think that delaying the school start date is going to limit my child's learning as a resurgence is expected in the fall. If anything, our children should be in school now...not later.  I understand the need to delay the school start date for schools that are experiencing higher numbers of COVID19, but one size does not fit all. That decision needs to be up to the districts, health departments and city to best determine, not the Governor.  Please push for school start date determined by individual communities. Thank you.
7/21/2020 5:52:27	Amanda	Goebel	USD 361 school board	Anthony	Yes, please postpone school until September
7/21/2020 5:53:18	Emily	Nichols		Hesston	I don't feel strongly either way about a start date. But I do feel strongly that my child needs to be back in school. I'm more concerned with teachers being ready than exposure to Covid. Exposure will most likely happen and I've made peace with that. Last spring was a disaster. If we have to work online again I want the teachers to be ready with good, valuable content, not busy work.
7/21/2020 5:54:14	Gayla	Peterson-Whitney		Kensington	I am ok for wearing masks, we have 2 children our oldest (asthmatic) will be in 4 year old preschool this year. Our youngest has viral induced asthma and pharyngeal phase dysphagia she struggles with poor lungs. They both know how to properly wear a mask. I feel that with the unknown of how Covid-19 will affect each person that becomes positive and that asymptomatic carriers can spread it with out knowing it will be the safest option for our household. I am fine with a later start date if it will help figuring out how to get the kids back in school.

7/21/2020 5:54:26	Stacy	Edmondson	My family	Columbus	School needs to start in August .....as regularly scheduled. The kids routine has already been thrown way out of whack. There is no reason to delay them anymore, move on with life. I am a bus driver, and a single mother of 4, I cannot afford to be unpaid for 1 month. We are already prepared enough, just rip off the band aid, and dive in head first and deal with it as it appears.
7/21/2020 5:54:40	Adam	McDaniel	Myself	Elkhart	Please support the order, it only makes sense!
7/21/2020 5:54:47	Lindsey	Peterson		Burlington	I think that the last six months is more than enough time for a plan to be developed. My children want to go back. They are bored, depressed and have been less active. They miss interaction with their peers and miss challenging themselves and learning new things. I am a nurse. I have been going to work non-stop since this has happened. I wear a mask everyday. I have not nor has my family gotten Co-vid 19. Wear masks and have the children go to school.
7/21/2020 5:55:06	Tabatha	Welch	My children	Cherryvale	I have no issue delaying school. It's just a few weeks. - so far anyways. I do have an issue with mandating masks and hourly hand sanitizer. They are kids. Let their immune systems do their job!
7/21/2020 5:56:18	Marshall	Kolb	Family	Overland Park	Please don't delay. The students need to be in school to learn. They need to be in school for their education, emotional and mental health. Give the kids hope by opening schools! Be BRAVE! ... not cowardly.
7/21/2020 5:57:40	Carrie	Miller	USD430	Everest	Kids wearing masks is useless. They will not be cleaned or worn correctly by most students or staff. This mandate of waiting until after Labor Day is useless she will just keep pushing back the date to start. Next it will be blamed on travel over this holiday. Each school should be evaluated individually not all counties have a lot of active cases. She should NOT have the say it should be made at the local level.
7/21/2020 5:59:14	Barbara	Kolb		Overland Park	Please consider opening schools on time. I believe students need structure for growth and learning. There needs to be a balance between the fear of the virus and the social emotional well-being of the children.
7/21/2020 6:00:37	Deana	Stroer		Wichita	It is negligent to reopen schools before we have control of this virus. Do not be negligent with the lives of children and staff.
7/21/2020 6:02:25	Alisa	Whitacre	OUR FAMILY	Olathe	I am grateful for the delay. I am concerned for everyone's health in the schools. The stress involved to keep social distance & cleaning is going to be overwhelming. I see a teacher shortage in our future. I see children full of anxiety they will become sick.
7/21/2020 6:04:23	Christina	Roberson		Cherryvale	I have a few thoughts- either leave this up to individual schools/districts to decide what to do, or don't require the hours to be made up. I teach kindergarten/first grade at a Catholic school. We only have 70 kids K-8th grade. We will not have the difficulties social distancing that larger schools will have. There are also counties that only have 10-15 cases total since this started. I see no reason why they couldn't go back as well. If we can't go back to in person teaching, allow us to do something educational with our students. Let us send home packets, do zoom meetings, etc. I don't understand why we couldn't do things online and on paper from home during this time. Again, I would like this part of the decision to be left to the local decision makers. I don't want to fight the parents every step of the way like we did last spring so I think allowing individual schools to decide how to proceed would help . If you insist on keeping us from teaching and going to school don't require the hours to be made up. We are going to have a difficult enough time this year, don't add this to it. Thank you for giving us a way to express our thoughts on this matter.
7/21/2020 6:04:39	Sean	Hayden		Eudora	I agree with the order in regards to the delayed start of school. On the other hand- sports have been operating all summer safely and this is a smaller percentage of student population. We should be able to begin sport practices before school starts so that our fall seasons aren't cut short. We have already been doing it all summer.
7/21/2020 6:04:59	Madison	Rogers		Leonardville	While I understand the concern for starting school at normal times with the raising questions on if we will have another spike in the virus this fall, I also see and feel personally the need to start school as usual. Our kids need this structure and direction that they are looking forward to. Not every parent has the opportunity to take the time off work to provide elearning for their student, myself included in this. Each child has the right to a well rounded public education.

7/21/2020 6:05:49	Joanna	Nickson		Overland Park	Please open schools as scheduled! My son has not had his IEP assessed since February. Waiting till after Labor Day will mean over six months of no services! How will he catch up and recover!? He needs face to face services as soon as possible!
7/21/2020 6:05:50	Jennifer	Clark	Christian Learning Cent	Girard	Please allow schools to open on their original start date.
7/21/2020 6:06:00	Elaine	Parker	Mission Valley USD330	Harveyville	Please open schools and let the students be in the classroom. The kids need school, sports and the other clubs.
7/21/2020 6:07:15	Shannon	Hendricks	Lyons USD 405	Sterling	I agree with the governor's mandate. School districts need time to plan and provide professional development for all staff. We want to have a safe plan for both our students and staff members.
7/21/2020 6:07:52	Rebecca	Heiman	Parents	Garden City	I don't mind that we wait until after Labor Day to start classes because I feel we start too early normally. I do feel strongly that students need to be in the classroom and not learning online at home. If it's decided to go online, I will probably use Khan Academy, or another proven online platform, to teach my child (8th grader).
7/21/2020 6:08:47	Cory	Clausing	Family	Topeka	School should start on time in August with kids being present in the classroom. K to 6th grade should have NO mask.
7/21/2020 6:09:06	Joy	Schmidt		Pratt	I have already emailed my district representative regarding this matter, but my views have changed. I still do not feel a one size fits all model is what is best for Kansas communities. With that being said educators are in a loop of not knowing or waiting for a decision. Guidelines were made and then we had to wait to get them, then Governor Kelly announces a delay on the 17th, it is now the 21st and we are still waiting to know what will happen. Some schools are planning on starting in 3 weeks. As an educator being in the middle of all this limbo, I feel strongly that the delay will give us all time to help our students be the best. I have always been told that if you do what is best for the students then you will never go wrong. Is that getting them back in the classroom ASAP or giving the schools, teachers, and faculty time to get their rooms ready and curriculum being taught 3 different ways ready? When teachers are at their best then students will feel safer and have a better learning environment. I thank you all for your time and dedication to education in Kansas. I pray for each of you as you make a decision regarding this matter, as I am sure it is no easy task in these unprecedented times.
7/21/2020 6:09:21	Marlene	Lira	Parent	Lenexa Ks	Please make our schools safe. I work in healthcare and Covid is real! Look at the science, not the politics
7/21/2020 6:09:38	Melissa	Straus		Lenexa	Please follow the Governor's order as that is in the best interest to our public health. The virus will continue to spread rapidly as we don't have a handle on it and we can't all agree on public safety. Masks need to be mandatory for all citizens.
7/21/2020 6:10:10	Jaimie	Clausing	Family	Topeka	Kids should be present in school full time. K to 6th grade NO mask. The kids could not concentrate with masks on.
7/21/2020 6:11:32	Lindsey	guillen	Shawnee Mission School	Overland Park	please uphold Governor Kelly's decision to delay the start of the school year. With cases rising this is one of the best things we can do right now. We can't even buy hand sanitizer or clorox wipes at this point. Our best option right now would be to do virtual school for the first semester. There are too many people involved, with too many uncontrollable variables.
7/21/2020 6:12:16	Tammy	Thompson		Caldwell	Please start school as normal! My son needs to be back in class. Virtual learning is not best for all! Give us the choice!
7/21/2020 6:12:41	Kit	Blackwood		Overland Park	Even considering in person school right now is completely irresponsible. I don't have children, but this affects so much more than just the families with kids. The students, teachers, and staff would be in danger. Their families as well and our communities as large. I have several friends that are teachers that I am downright terrified for.
7/21/2020 6:13:03	Bret	Goter	USD 259	Wichita	Please vote in favor of the executive orders. We NEED the time to prepare!
7/21/2020 6:15:19	Brenda	Diederich	Usd320	Wamego	Online school only this fall. Don't want to die.
7/21/2020 6:15:29	Jennifer	Wahrman	USD 382	Pratt	I'm a high school business teacher at Pratt High School, and I feel the school year needs to begin as normal as possible. Masks should be a parent choice, and using hand sanitizer is dangerous, especially for children, and so often during the day. You've already provided many options for parents to choose - classroom, remote, or virtual. Don't take these options away from families by continuing to push the school start date further and further back. I do have many questions for my district such as remote teaching and sick leave, but I believe those are local decisions. Every district in KS is different, and we need to do what's best for our facility, staff, and students. Thank you for all you've done during these trying times.

7/21/2020 6:15:58	Hallee	Piechocki	I am a parent and a teacher	Olathe	What kind of lifelong therapy will be provided to students that lose teachers and peers to Covid-19? Dealing with the loss of precious children and valued community members that have dedicated their lives to helping children and families is an absolute certainty if we ignore experts and medical professionals.
7/21/2020 6:16:43	Anna	Cyr		Buhler	<p>Please continue to do the best by our state and allow our local districts to make the final decisions regarding their individual start of school plans rather than enforcing a statewide mandate that likely does not reflect the true needs of the students in our great state.</p> <p>It feels as though our state's leading office has no trust in our local educators. We understand the risks involved with returning groups of students to classrooms. We also understand the great risk involved in not returning students to the place where their mental health and progress to being the future leaders of our great state is best addressed.</p> <p>As a parent whose children desperately desire to be in school and also as a special educator, I understand we are in the midst of a crisis in which physical safety is in jeopardy. I ask that you also consider the ongoing impact on the mental health of our students after not being in their safe place for nearly 6 months. Keeping our hospitals within capacity to care for the physically ill is crucial. However, keeping our already stressed social services, foster care and mental health organizations from breaking is also crucial. Physical safety is of little benefit if the mental health of our state is in extreme jeopardy.</p>
7/21/2020 6:17:00	Denah	Jensen	The United States of America	Lincoln	The school year needs to start on time... no delays.... NO MASK NO SHIELDS, NO SOCIAL DISTANCING...and NO DEATH WAVIER EITHER!!!! most of these kids have already interacted with many other kids throughout the summer, most of the teachers and school staff have as well. There will be no fake SCAMDEMIC POSITIVE test that shuts down the school and hold the children hostage from their parents! NO MORE COMMON CORE indoctrination education! NO MORE PEDOPHILE EDUCATION!!!! NO GENDER IDENTIFICATION EDUCATION EITHER!!! TEACH OUR CHILDREN TO READ, WRITE, DO MATH and SCIENCE!!! THAT IS WHAT OUR TAXES ARE PAYING FOR!!! If this is something that is refused... then my taxes and the taxes of my fellow citizens need refunded! and the School Board of Education and All entities related need to be dissolved. With no school YOU are NOT NEEDED!!!
7/21/2020 6:17:23	Terri	Luebbers	USD 480	Liberal	Kids need to go back to school! Kids need socializing, learning & a consistent environment.
7/21/2020 6:18:22	Robert	Schofer	Teachers	Lansing	The delay is a very necessary tool for preparations of Covid safety: the ordering safety equipment/supplies and the creation of new lessons/procedures to keep our students safe while learning high quality content. We NEED this time for training and for making sure we are consistent in following the guidelines adopted by the Kansas State Board of Education.
7/21/2020 6:19:36	Becky	Weaver	USD 348	Baldwin City	I'm in favor of not opening schools until they can be a safe environment for all attending and working in them.
7/21/2020 6:20:08	Laci	Lewis		Edgerton	Please do not do online schooling, parents will not be able to work and provide for their families and monitor their kids school. If schools can do strength and conditioning like they currently are then we can have school
7/21/2020 6:21:10	Karen	Bishop	Olathe Schools - both parents	Olathe	Please support the governor's order to delay the start of school so the state has time to get cases under control and the schools have time to prepare.
7/21/2020 6:21:49	Catherine	Horton		Atwood	Please consider the full well-being of our children & let them begin the school year as soon as possible..
7/21/2020 6:22:03	Kimberly	Lewis	Concerned grandparent	Wichita	No school til after September
7/21/2020 6:22:31	Abbie	Wells	USD-457	Garden City	I am very in favor of delaying school opening until after Labor day
7/21/2020 6:22:47	Debra	McElroy		Wichita	Delay start until no new cases!

7/21/2020 6:23:11	Jessica	Lang	Valley Center USD 262	Park City	Delaying school until Sept. 9th is fine, but after that these children need to be back IN PERSON to school. I have a daughter who fits that "perfect student" mold, 3.7-4.0 GPA and this has effected her emotionally, mentally, and physically by not attending school. On-line is a joke, you lose EVERYTHING school represents. My son has and IEP and being without physical attendance in person has done nothing but drive him farther and farther behind. We are losing him if I can't get him back to his routine with teachers, SPED, support staff. We have NEVER shut schools down for a sever influenza season before or viruses until now and it needs to stop. We are risking ruining this next generation because further delay will only weaken their mental health, physical health, and knowledge. Please make the right decision to get schools rolling again in person and mandate school districts to do so. If people are afraid to send their kids, fine, make a virtual school available for them. But, don't make all the kids suffer since a few voices are louder than others. Our school district took an online survey and 78.8% of parents request in person learning at school to reassume. Thank you for your time.
7/21/2020 6:23:11	Cris	Altman		Overland Park	We have been fighting this since March. Shouldn't schools have been working all this time to secure items needed and prepare plans to begin school on time. I am not sure we are sending our children to school. I don't think rules will be observed to distance and wear masks. Honestly, we are unsure what we will do. However, we have been sitting in limbo all summer waiting to find out and just when our district is close to releasing a plan, the governor pulls this move, which not only delays the start of school, but also delays the plan, which will give parents the information they need. This order should have been issued no later than May, allowing schools to plan appropriately. Further, I believe that schools have been planning to include most, if not all items needed to meet the requirements of her order. If not, they are delinquent. This order seems superfluous to me and more of a political move than anything. If she wanted to provide the most benefit, she could have relaxed bureaucratic rules that will undoubtedly handcuff local school districts. My children, starting school in September, now will likely not see school end until some time in June, which will affect their ability to attend camps, visit family, work, etc. all of which also provide them important educational opportunities because summer next year will be a month shorter at a time when they will be again able to do these things as a vaccine should be in place by that time. It seems that with ample planning, schools should be able to start on time, even if it be in an online situation, had they been given the information needed early enough.
7/21/2020 6:23:17	Leroy	Lewis	Concerned grandparent	Wichita	No school til after September
7/21/2020 6:24:27	Gabrielle	Radford	None	Kansas City, Ks	We should absolutely delay the opening of schools until it is sad for teachers and students. I actually don't believe the governor's executive goes far enough. We know from experience that people are going to gather on Labor Day. The incubation period for this virus is two weeks. I do not believe our kids should be in school buildings before that incubation period is complete. We should do online school if possible.
7/21/2020 6:25:09	Karen	Vlamis	Teacher	Wichita	I do support the Governor's school start delay until after Labor Day. I believe this gives our district staff time to acquire supplies and to digest the State Board's document in order to implement appropriately. I also believe that this delay gives us a better chance of implementing in-person school quicker. Thank you.
7/21/2020 6:25:17	Amanda	Riggs	USD 305	Salina	We need to precede with school as planned in August whether it be remote or on site. Our students need some normalcy and routine back, especially our special education students.  As a parent I feel safe sending my daughter back and I know she is longing for her routine to return.  As an educator with an Autoimmune Disease, I feel protected by the measures CKCIE/USD 305 are implementing. I understand all districts are not prepared and this is where they can start off remotely.  We also have IEPs that are due prior to September and currently the state is still requiring us to have them completed on time. We cannot thoroughly do this without interaction with our students.
7/21/2020 6:25:18	David	Pollak		Overland Park	Stop putting the kids mental health at risk by keeping them out of school. The science backs the kids being in school. Stop making this a political decision. Do the RIGHT thing Governor Kelly and get the kids back in school.

7/21/2020 6:25:32	Laura	Armstrong	Usd 233	Olathe	Vote yes to follow Governor Kelly's mandate. I keep hearing about how this is the school board's decision and some of you are afraid of what will happen in the future. This is a pandemic. We need to deal with the future now. Keep is safe.
7/21/2020 6:27:29	Brenda	Nicholas	Brenda's Child Care	Olathe	No way should school be held for this first semester! Reevaluate in November/ December to consider for next semester! You should never risk a child's life with a virus that has killed so many! And the child could take this virus home and expose parents, grandparents or daycares to it! If my child or grandchild were made ill because if a choice the school made I would hold the school liable. There is no reason why you can not keep kids safe and have elearning at home with the teachers teaching the kids! Please keep all our kids safe!!!!
7/21/2020 6:28:22	Scott	Schechter	Myself and my family at	Hugoton	Leave us alone, we have always taken care of ourselves. We can do it now. We are intelligent enough to take care of one another and social distance when necessary. We do not need the state or federal government to tell us how to do it. We are independent.
7/21/2020 6:28:31	Brandie	Sliger		Baxter springs	I truly feel like it should be delayed due to all the new cases that keep coming up.. And i don't feel virtual school works being the kids aren't learning anything. And some parents are doing the work for their child. Which is hurting them more than helping. So delay the yr till after labor day and see how its going then.. My son is a senior at Baxter springs high school and on the football team there. This is supposed to be his best yr..but we understand completely about the unprecedented times right now. We'd rather be healthy and alive then push school openings and several of our own children getting sick and possibly dieing.
7/21/2020 6:28:53	Wayne	Carter	School transportation	Highland	I feel we should base decisions on returning back to school by district. Having a district with low Covid cases shouldn't be compared to a district with higher numbers. Also returning virtual for the first 9 weeks would be a much safer approach than taking the chances of infecting the whole school. Small, safe and gradual steps to reopening schools. Our kids need learning even if it means virtually. We can't let this be political.
7/21/2020 6:29:28	Heidi	Thies		Augusta	Please keep our schools open. Our children need to be in school learning in-person amongst their peers. I have seen first hand, how the social and emotional affects are taking a toll on my children. I also strongly encourage you to not make masks required for those under 12 years of age. My 8-yo can't even keep it on for church or a doctors appt without playing with it and trying to eat it. He will not be the only child that struggles with it. They will be a huge distraction to their learning. Thank you for taking consideration for our thoughts. May God bless you all.
7/21/2020 6:29:43	Alexandria	Curtisbush	305 district	Salina , ks	My son has a lung disease and if he were to catch coronavirus, he would not make it. I have an immune condition, I would be the same outcome. Starting school is not something we are prepared for with how things are right now.
7/21/2020 6:29:43	Julie	Kichler	Sek interlocal rise center	Mecune	I Believe that delaying schools is a great idea because this will give schools time to get the proper supplies needed to keep the students and teachers safe. I dont think delaying schools is a big problem right now.
7/21/2020 6:29:45	Meg	Pilla		Valley Center	I support the delay of schools. Please consider ALL who are in the buildings. Students, teachers, paras, admin, cooks, custodians, and so on.
7/21/2020 6:30:03	Troy	Fischer		Wichita	Thank you to the board for reading these comments. As a 5th-12th grade educator for the past 12 years, here are my thoughts on the decision to delay the start of school to after Labor Day:  Yes, this is the right thing to do. School districts need more time to prepare social distancing / mask guidelines in their buildings and more time to train teachers on procedures for this pandemic year. The advice in Harry Wong's "First Days of School" rings so true here—the first few weeks of school are HUGELY important to the effectiveness of each teacher over this entire year. A rushed, half-hearted, roll out of Covid 19 regulations and guidelines in KS schools will leave teachers, and students, in awkward, uncomfortable, and ultimately risky positions.  The goal is to keep our society as open as possible and normalcy to return. A few extra weeks for district's leadership to get procedures and directives to each teacher and classroom is the right thing to do for the longevity, and effectiveness, of this school year. Help keep students, teachers, and at risk family members safe from this potentially deadly virus we are still learning how to fight.
7/21/2020 6:30:24	Jennifer	Potter		Girard	Although I'm very excited to get back to "normal" and see my school kids, I'm very worried about what opening up too soon could cause. I think pushing school opening back until after Labor Day would be the best and safest route as of now. Thank you.

7/21/2020 6:30:30	Cory	Graupmann		Goddard	I am a mom of 3 public school kids and I am also a para. I think school should be left to start after Labor Day. Kansas kids have dealt with so many changes since March. We all know what the Governor said last week, our kids know that and I don't feel it's good for Kansas kids to reverse what the Governor said. That would be another change. We need school, we need to be back in the building and this also gives Kansas schools plenty of time to prepare.
7/21/2020 6:30:33	Crystin	Domsch		Goodland	School delays and measures taken to prevent Covid-19 should be left up each individual district school board. We have many small schools in Kansas in which students are basically social distanced already due to the small nature of the school. Covid-19 has a 99% survival rate and studies are showing that asymptomatic carriers do not infect others at high rates, if at all. I have attached a link for reference. <a href="https://pubmed.ncbi.nlm.nih.gov/32513410/">https://pubmed.ncbi.nlm.nih.gov/32513410/</a> Delaying school only hurts our children mentally. Myself, as a Mother, of 4 have seen the effects first hand. My children are stressed at the idea of homeschool (they love school) and are sad about not seeing their friends. Social distancing has directly effected their happiness. In a fast paced world with constant stressors our children deserve to feel safe and as stress free at school as possible. Implementing masks in schools will only harm our children further. Rebreathing CO2, your bodies natural waste, can have many negative effects on the body. As a Mother of two children born with lung issues and another with severe allergies I will not subject my children to anything that could further harm their bodies and enhance these issues. I, for one, will not be sending my children to school if this happens. We have very competent school boards in Kansas and I fully believe that each district will make the best decision for their schools due to the schools size, number of cases in the area and the precautions they deem necessary. After all, many of the board members where I reside also have children in the schools they oversee. Our childrens safety should be something discussed us, as parents, and board members we trust, not a governor that thinks "one size fits all" in every situation. Thank you for your time and allowing the public to comment. I look forward to hearing your determination.
7/21/2020 6:31:55	Amanda	Glotsbach	USD 330 Mission Valle	Wamego	I think extending the start date will give Admistration, staff, teachers, and parents the much needed TIME to get in person, online, AND hybrid models created for the beginning of the year. I am an educator, I know some responsibility for sanitizing will fall on me, I feel it will be necessary to have proper training on how this should be accomplished. A single day for professional development on sanitizing is NOT enough when we are talking about 100+ students who will be in my room daily without a schedule change. I feel that if staff goes back at our normal date this will give us three weeks to practice, prepare, and set up essential programs and practices we will need to provide when school is back in session, regardless of what model will be best for students.
7/21/2020 6:32:15	Christina	Long	Self	Wamego	I support both of Governor Kelly's orders - requiring masks for kids in school and pushing the start of the year after September. These are common sense approaches to a public health crisis that center on the health and well being of kids (not to mention teachers, parents and grandparents). Thank you.

					<p>I implore you to support Governor Kelly's order to delay the start of our public schools until after Labor Day. I also ask you to support any efforts to implement remote instruction until it is safe to return to school in person. Believe me I need to return to my classroom to teach. It is my job, it is part of my identity, and it is what brings me joy; however, at this time it is not safe. I will do whatever it takes to teach this year, but I cannot and will not do it in person until it is safe to do so.</p> <p>I am a full-time, high school teacher, and this will be my 21st year in education. I am also a parent of a middle school student, a wife, and a daughter of elderly parents in the high risk category. For selfish reasons I do not wish to put myself or any of my loved ones in danger. I also would not know how to live with the idea that I could potentially cause the illness to spread to a student, a colleague, a staff member, or any of their loved ones.</p> <p>I'm sure you have been bombarded with all kinds of questions and requests, and I'm sure you will carefully consider each as you decide.</p> <p>Thank you for your consideration and for your service.</p>
7/21/2020 6:32:16	Shelley	Moran	None	Overland Park	
7/21/2020 6:32:22	Claudia	Oehmler		Lacygne	<p>Please vote DOWN the governor's orders. It is major overreach. Many counties are ready to open, which is why one size fits all doesn't work. We need to let local boards decide!</p> <p>Good morning</p>
7/21/2020 6:32:31	Kelly	Byrd		Leawood	<p>My husband is an oncologist and I am a pediatrician. I wanted to comment of school openings. I cannot understand medically how delaying school opening for 3 weeks will accomplish anything (aside from confusion and angst for kids, decreased education, difficulty with parental career stability, etc.). Clearly, COVID did not just go away after the first peak and will likely be dealt with in one way or another for a while now. However, the whole point of "flattening the curve" was to keep the medical community from being overwhelmed. I can tell you this clearly never came close to being reality in Kansas, and really questionably never happened in the U.S. (i.e. no patient ever died due to lack of ventilator). The details of that are important because one must ask what is the point of delaying schools opening. While we have seen a spike in COVID cases (some, but not all, is related to increased testing), the cases are clearly less severe overall. Most importantly, daily deaths from COVID has not significantly increased with the latest increase in cases. Also, clearly kids rarely become very sick from the illness and not a single person under 29 in Kansas has died from it. The only case I could see being made for delaying school openings is if the hospitals were about to be overwhelmed, but they are not. Therefore, delaying school openings for three weeks does nothing more than delays the inevitable. Clearly more people will get COVID. That will be true if schools open in August or at Labor Day. We must do what we can to reasonably mitigate risk (i.e. NOT taking temperatures on site of all students daily and NOT having kindergartners wearing masks at school), but schools must reopen and it makes most sense for them to open on schedule.</p> <p>With all the said, I think COVID statistics must also be kept in perspective. We live in Johnson County, so I have looked mostly at their data.</p> <ul style="list-style-type: none"> <li>- Johnson County is a county of 600,000 people. In JOCO, 96 people have died from COVID. In the same average 60-day span, around 1700 people die from all causes in JOCO (assuming daily US deaths are distributed equally around the nation)</li> <li>- Another way to look at it is that daily COVID deaths in Kansas is recently less than 2 per day. Each day in Kansas there are 74 all cause deaths.</li> <li>- In Kansas, not a single person under age 29 has died of COVID. Of note there are tragically over 9,000 all cause</li> </ul>
7/21/2020 6:32:42	Tamara	Piccone	Usd 482 and 303	Dighton	No to both masks for everyone not just students and no to delayed start.
7/21/2020 6:32:51	Cassie	Nech		Lawrence	I stand by Laura Kelly and her Executive Order to delay the start of schools. This will give both schools and parents time to better prepare.

7/21/2020 6:33:18	Wanda	Thill	Mulvane Kansas	Mulvane	I am for this delay! I have a lower immune system child and waiting to go to school till we have a immunization I am for.
7/21/2020 6:34:00	Angela	Wagoner		Olathe	It would be acceptable to open schools after Labor Day, as long as there is a plan / direction for what will happen if we still cannot do all in person learning after that. These kids need to be in school.
7/21/2020 6:34:11	Wendy	Elmore	My grandson (2nd grade	Derby KS	We need to keep our school Employees and students safe. Covid has effected all of us in some way. Starting school late is not much of a price to pay to keep people safe. Our numbers are climbing in part because people don't follow guide lines. Our health care workers are publicly pleading with us to wear masks and social distance. My message to you is follow the guide lines. We aren't taking any of your rights but you are taking away the students right to go back to a safe environment. We are all in this together if all work together we can beat this thing businesses can open up and we all can get to some kind of normal. WEAR YOUR MASK and SOCIAL DISTANCE!!!
7/21/2020 6:34:15	Briana	White	Parent	Great Bend	I feel like school needs to be delayed here until everyone is comfortable with the plan moving forward. Our number of cases is higher now then it has ever been. We are one of the families that have a child with special needs (weakened immune system) and we are very worried. To outright deny what science is telling us is absurd. Everyone does need to take this virus seriously.
7/21/2020 6:34:18	Frankey	Schmidt		Ingalls	We need time to prepare for the start of school - waiting until after labor day would help us accommodate our students/ teachers. Getting the PPE needed will take some time, preparing for the many changes that will likely occur - we need the extra time.
7/21/2020 6:34:58	bryan	wiese		Leawood	I'm in strong support of Governor Kelly's executive order delaying the start of school for two reasons - 1) safety of our teachers, admins, and students and 2) gives our teachers adequate time to fully prepare to teach in this environment, with state/district guidelines turned into actions
7/21/2020 6:35:06	Rhonda	Willome	USD 259	Wichita	Please delay school so we can have few more weeks to get past rise in virus and have more time to prepare for safe return of staff and students. Wichita especially needs this, but to drop rates of virus in ALL of Kansas, we need a uniform decision. I know smaller districts are ready to roll, but most Wichita parents will send kids regardless of illness symptoms and ability to keep kids home. Thank you.
7/21/2020 6:35:10	Debra	Hamilton	Parent	Pratt	World Health Organization released April 6. says healthy people don't need to wear face masks.  1. Schools had all summer to create safe environments for students. They do not need another 3 weeks to continue to create safe spaces. 2. What is to stop the governor from repeatedly delaying and forcing more E.O. On schools? 3. Will the next E.O. Or forced decision be forced vaccine to attend school with no opt out options? 4. Why are school districts not being allowed to not make the proper determination for their size and outbreak status? Rural VS metro have different needs. JO, LV, DG, SH, FO, FI, SE & SG have larger population/outbreaks therefore different needs. 5. Were masks used during flu season? No! But now they are being made mandatory for the children just in case someone might be carrying the virus without symptoms. Dr. Raszka, a pediatric infectious disease specialist at the University of Vermont's Larner College of Medicine, said children are not good spreaders of the virus to adults.  Does this include every school in Kansas? Every child required to wear a mask regardless of age? Is there no opt out? Parental rights are no longer allowed/respected at school??

7/21/2020 6:35:13	Erica	Shook	Educator	McPherson	<p>I am writing to you today as a concerned educator--one who is begging you to follow Governor Kelly's executive order to hold off the start of school.</p> <p>Here is the reality: we all want to be back in our classrooms with our kids. I do not care for teaching online, and my own children do not learn particularly well online. The problem, though, is that there is absolutely no way that going back to school can be done safely following CDC guidelines at this time. Class sizes are too big. Staff numbers are too small. Competitive salaries to employ enough custodial help to keep things adequately sanitized are non-existent. Many districts don't have the technology or infrastructure to successfully pull off simultaneous in-person and remote learning. While school funding has begun to look better under Governor Kelly's leadership, it was so inadequate for so long that funding to purchase the supplies that are going to be needed to come close to pulling this off won't be available. And if they are, it will again be at the expense of appropriate teacher raises at a time when teachers are working exponentially harder with less than they ever have. Teachers can not keep supplying these things out-of-pocket.</p> <p>Here are my other concerns:</p> <ol style="list-style-type: none"> <li>1. I am hearing very few conversations about the safety of Kansas teachers. I am certainly not seeing anyone trying to gather data on how many Kansas teachers have their own health issues that put them at high risk. I am not seeing anyone trying to gather data on how many Kansas teachers have loved ones at home with health issues that put them at high risk. Why are our lives and families less important in these discussions?</li> <li>2. I am not hearing anyone talk about the safety of our pregnant teachers or brand new mothers with infants at home.</li> <li>3. I am hearing very few conversations about the logistics of meeting IEP requirements when many of our paras are older and at high risk.</li> </ol> <p>BUT, here is the big one for me. I am hearing A LOT of arguments about students not receiving adequate meals at home, or worse yet, that many are being abused at home and school is their safe haven. This breaks my heart. Every</p>
7/21/2020 6:35:17	Carol	Lipke-Hyle		Haysville	<p>Let them go to school. They have already missed out on so much with closing school last March. It is not any worse or better than any other viruses or flu that we have had to overcome in last 100s of years. If you want to keep your child home do it but let everyone else let their kids go to school. They need the socialization. And masks for k-5th is insane. They will not leave them on.</p>
7/21/2020 6:35:20	Craig	Koehn		Montezuma KS	<p>I don't think we should delay from starting school on normal time. I do want students to be safe. I accept the hand washing needs to be more often, the masks on every student, teacher and staff when in close contact (no mask when social distancing or eating. I don't see how it's feasible to take temperatures of every student before school starts. Especially standing in line at 1 or 2 main entrance. Seems like that should be parents job to make sure their children are healthy before heading to school. I just don't see how delaying the start of school changes anything. The stay at home orders flatten the curve. After things opened back up the number of cases went up again and that was expected. Unfortunately we need to learn how to live without being forced to stay home or delaying school or school activities.</p>
7/21/2020 6:35:51	Devin	Scrogum	Self	Prairie Village	<p>With a growing number of CoVID cases, it would be irresponsible to start schools as normal. Since we can not mandate distance learning, we have to delay the start till cases go down for 2 weeks straight.</p>

					<p>With over 25 years in the field of education, I implore each of you to agree to delay the start of the Kansas school year. It is imperative that the BOE follow the guidelines and data provided by our health professionals and infectious disease specialists.</p> <p>Do not be swayed by political agendas. As BOE members, you all have a sworn duty to protect the lives of Kansas students, teachers, and staff whom will be placed in environments conducive to Covid-19 exposure.</p> <p>Keep in mind there are a number of US school systems that normally do not begin the school year until after the Labor Day holiday. These school systems have just as many school days as Kansas schools. They simply start later and end later.</p>
7/21/2020 6:36:04	Holly	Milkowart		Louisburg	Thank you.
7/21/2020 6:36:15	Kelly	Jenkinson	Student	Difhton	Please allow school to start on time and no masks. My child will not keep it on all day and it's not good to keep them on all day.
7/21/2020 6:36:49	Holly	Engel		Halstead	I do not support the delay of the start of school. My 12 year old daughter commented to me the other day that her reading and vocabulary skills had declined. That was devastating for me to realize that she is acutely aware that not having classroom instruction has not benefited her in any form. The kids are yearning to get back to learning. I don't feel the delay will change the transmission of COVID. We can not be scared of what might or might not happen with the transmission of COVID. I am 100% not concerned about my children getting COVID at school.
7/21/2020 6:36:54	Amber	Montgomery	Sun	Salina	Yes, delay opening schools.
7/21/2020 6:36:58	Jami	Reever	NA	Emporia	Please support Governor Kelly's executive order. Waiting a few more weeks to start school gives us a better chance to decrease the cases and be able to stay in school. The date that classes start shouldn't be the issue, the issue should be making sure we can safely. Masks should be required.
7/21/2020 6:37:04	Katy	Hendry	KCKPS	Merriam	Please approve these measures as it will help ensure the safety of all staff and students! It will give us more time to prepare for whatever school will look like. Cases are out of control and our number one job is to keep kids safe. You need to keep us safe so we can in turn keep them safe.
7/21/2020 6:37:37	Aaron	Chiappetti	USD 259	Wichita	Kansas BOE, keep your political views and sides out of your decision and vote to delay schools so we have time to prepare. The safety of the children and staff of Kansas should be your number one priority. Your priority should not be doing what "conspiracy politics" would do.
7/21/2020 6:38:33	Kendra	Heinen	Parent	Everest	I do not believe a one-size-fits-all approach is appropriate in KS; therefore, the Governor's executive orders regarding start time and masks for students should be negated. Pushing back the start time to after Labor Day, giving schools more time to plan, in itself is a fine idea, but how do we know the push back ends on Sept 9? What if there are schools who have worked on their plan all summer and feel confident reopening as regularly scheduled? What if there are schools (rural KS) where social distancing and other measures are easily accomplished? Should they not have the right to open? Should they be required to wear masks? I do not want anyone (staff, student, citizen) to be infected with Covid (or any other illness for that matter) if it can be avoided; however, I believe there are other considerations besides physical health which need to be considered. Many of our students did not, and even with better plans in place, will not receive age/grade/learning level appropriate course work through remote learning. What about those requiring special education services such as speech/OT/PT? Have you weighed the mental health concerns for all children, but especially those in unstable, at-risk families? I believe a segment of our population will choose another option this year, so children don't have to participate in this roller coaster of uncertainty. Have you considered that some of those will have a successful experience with homeschool or private school and will not return to public education? Going back to school sooner, rather than later, is the right choice! A choice I hope you make!

7/21/2020 6:40:08	Meaghan	Coble	Teacher in KCK	Kansas City	It is irresponsible to open school when protections can't be guaranteed for students or staff. I understand opening if we had the necessary funding for PPE (including N95s for teachers, not paper masks), abundant cleaning supplies, etc, but our district has only proposed 2 masks per person and maybe some face shields. This doesn't protect us. I am a music teacher who is high risk for the virus. I will come in contact with 500+ students per week with virtually no protection. Please do not ask your staff to risk their lives to teach. It isn't safe. The wise thing would be to start after Labor Day when protections can be in place.
7/21/2020 6:40:29	Beth	Skalsky		Olpe, ks	Rural schools can open safely on time, not delayed
7/21/2020 6:40:42	Kendra	Bringman	Tax Payer, Mother of St	Overland Park	Gov. Kelly recommended schools close Wednesday, July 15. KSDE is voting A WEEK LATE! 7 days where parents could have been arranging child care for back to school or prepping for back to school. Instead we are in a purgatory of waiting. Please make a decision and confidently walk in that choose path. The lack of confidence from the districts, school boards and the wishy-washy statements are annoying. Everyone in the education field has lost credibility with my tax payers. I would like my kids to go back to school. I would not like the NEA to instill fear of death into the teacher. Resources are available if someone puts forth the effort.
7/21/2020 6:40:55	Mike	Kelso	Kelso Family Farms	Eudora	I am writing this to encourage your support of the Orders from Governor Keny in regards to the start of the school year. As a current member of the Eudora USD 491 School Board, I take my responsibilities in regards to Public Education in Kansas very seriously. I do understand how important the education of our young people is and how important face to face education is, but I also know we must do it the right, safe and correct way. Delaying (not cancelling) for three weeks will allow districts across the state to gather the necessary supplies, train their employees, and craft and implement their own individual plans on opening our schools back up.  I have many other concerns that hit really close to home for me. •My wife is the Assistant Principal at Fort Scott High School. If school starts without the three-week delay, I am absolutely concerned for her health and safety. It is extremely difficult to have to sit down with your loved family members and discuss wills, and what to do just in case. If she comes down with the Virus – with the hospital rules that are in place I may not even be able to see her. •My wife is also the co-guardian of her 60-year-old developmentally disabled brother, who lives in a group home in Lawrence. We are having to visit with an attorney, to see what would happen if she is unable to make critical decisions for her brother's health and safety, if she is possibly on a ventilator or in a coma. •My wife and I are primary care-givers to her 86-year-old mother, who lives in a nursing facility in Eudora. My wife hasn't been able to give her mom a hug since March. She is horribly worried, she may never be able to do so, if something happens to either herself or her mother.  I do want all of our students to be able to get the education that we as Kansans should give them. There is no doubt in my mind, that this is best in person, but it needs to be done correctly and safely. There is no way we can safely bring all of our school aged students back into the buildings on the current schedule. We as a district have to create our own plan, purchase the necessary supplies, line up the substitutes that we will inevitably require, hire the extra people we will need to keep everyone safe. Delaying is not closing schools. We still have our state mandated requirement to meet the minimum number of hours. If that means lengthening days or going later in the sprint, so be it. We aren't asking for schools to be closed, just to delay the opening a small amount of time.
7/21/2020 6:41:10	Joan	Gilson		Olathe	A delay for public health and safety is absolutely necessary
7/21/2020 6:41:37	Sarah	Weltmwr	USD 270	Plainville	I want my child to be able to go back to school. Last year was really rough on her. I don't feel masks are necessary either. We have immune systems for a reason! Sometimes they work, other times it doesn't. I don't want to risk losing the immune we have built over the years. Please at least let the kids go back to school when scheduled. We are in a smaller community and hardly have any cases.
7/21/2020 6:41:59	Kari	Bell	My family	Hutchinson	My husband and I both work. Our kids want to be in school. I work in special education and I can do my job more effectively if I am WITH my students. The governor doesn't know what's best for MY kids and MY family and she certainly doesn't speak for us. Open schools!

7/21/2020 6:42:01	Emily	Sewell	Parent	Bucyrus, KS	<p>If schools are going to be kept close until after Labor Day then our kids need to start virtual school On the original start date (our district Aug 13). They have been out of school since March. If this is upheld we will have been off for 6 months. Q4 was a joke, our teachers didn't teach anything new. My kids have defiantly regressed in their reading skills (elementary), even though we continue to review at home.</p> <p>I fear Gov. Kelly is making pawns of Kansans.</p>
7/21/2020 6:42:14	Damian	Johnson	Myself	Eudora	<p>Please do what you feel is best for the kids and adults who learn, teach and work in Kansas schools. We elected you all to see beyond politics and to make decisions on teaching and learning in this state. I am quite sure making a decision like this is not what you had in mind...me either, quite frankly. But I just ask that you take in all the evidence, the work you have done and make the decision so we can all move on. Thank you for your work.</p>
7/21/2020 6:42:37	Travis	Evans	Usd 435	Abilene	<p>I do not feel that delaying the start of school is a good idea. It has been proven by epidemiologists, and studies from other countries have shown, that there is little to no transmission child to child or child to adult. Let the older students and staff wear masks. We can take safety precautions. But the students need to be in their seats in their classrooms sooner rather than later. Let's not go down the slippery slope of delay, delay, delay!</p> <p>First, thank you for your service and time as you serve on the Kansas State Board of Education.</p>
7/21/2020 6:42:41	Tami	Schepmann	USD 428 & USD 112	Holyrood	<p>I'm reaching out to you today as a parent and local school board member of USD 112-Central Plains. I am also an Instructional Coach for Great Bend Middle School and serve in numerous leadership roles in my building and district. I have not only made education my career...it is my passion. I am urging you to accept and approve Governor Kelly's Executive Order next week. It is imperative that districts, schools, and teachers have appropriate time to prepare for the 2020-2021 school year. We need to continue to provide top-notch education to our students. However in the middle of a pandemic, education must look different for the safety of our students and staff.</p> <p>In March, districts and schools were provided with guidance that was put together in a mere 72 hours. That guidance was needed and appreciated, and schools/teachers did the best they could given the abruptness in the course of education. The brick and mortar buildings may have been closed, but SCHOOL and education continued! Was the education the level that most were accustomed, probably not.</p> <p>Throughout the month of June, many teachers and administrators worked to provide a more comprehensive guidance for schools to continue--still in the middle of a pandemic! The guidance is needed and appreciated! However, please allow for districts, schools and teachers to peel back the layers of the 1100 pages and put well thought-out plans in place for our students. Students deserve the best we can provide, and we need TIME to prepare for our students. Our students deserve more than a quick band-aid type approach to the 2020-2021 school year.</p> <p>I spent all yesterday morning reading through the Navigating Change Document. While the Operational guidance is not lengthy, there are many factors that need to be addressed with staff. Schools need to have the time to provide training so the protocols are implemented effectively and efficiently. Classrooms and materials and typical daily operations and most importantly curriculum needs to be modified for the 20-21 year. I am more concerned with the academic implications of school this year. Leaders and teachers need time to develop the best models (of on site, hybrid, remote) for our students. By delaying the start of school, you are providing districts, schools and teachers the gift of time to adequately prepare for opening school buildings in the middle of a pandemic. Kansas kids deserve the very best!!</p>
7/21/2020 6:42:51	Cheri	Ruff		Hanston	<p>I am asking you today to please vote against the governors executive order to delay the start of school. These decisions need to be left up to each individual district and county ruling boards. What's right for a large city in eastern Kansas, is not what's right for a small rural town in western Kansas. Those in control locally, can do what's best for the students in their districts. I also would ask you to please look at the mask mandate she has placed on all students in grades K-12. There is no way to make children of any age sit in a mask for 8 hours. I fear we will see an increase in illness of all types from this. Thank you for your time.</p>
7/21/2020 6:42:52	Lucas	Moody		Emporia	<p>I fully support delayed opening, abbreviated/hybrid weeks and mandatory masks. Keep making decisions that protect kids, their families and the educators that support and educate our children.</p>

7/21/2020 6:43:30	Cassie	Isaacson	Parent	Olathe	Delay the start but be well prepared with options...preferably hybrid option for students AND a very challenging online learning option. Last spring was an absolute joke in my opinion. I was spending more time trying to find other resources to supplement my kids since teachers weren't allowed to give any suggestions or help.
7/21/2020 6:43:57	Kelsey	Metro	Students (my children)	Marion	Allow school to start prior to Labor Day. The likelihood of a child contracting/spreading COVID-19 is extremely low. These students need their friends and education. I feel we are harming students more by keeping them home. For many students, school is their safe place.
7/21/2020 6:44:02	Marcia	Barber		Lenexa, KS	Keep schools closed through Labor Day. Even then, our children will do distance learning.
7/21/2020 6:44:19	Samantha	Anderson	Myself but I am in the N	North Newton, KS	I think that the extra time will be incredibly valuable to those districts trying to plan out their year. The state guidance wasn't released till last week, so the more time that can be given the better the plans will be and the safer the students will be. Additionally, waiting the extra few weeks will give us a better idea of what the virus is doing.
7/21/2020 6:44:30	Ruth	Harder	USD 493	Cassoday	We are ready to open school back up. Please stand up to the governor and open schools. Our kids need school this year. Please put down her order on face masks in school. Our kids will not wear a mask and need to be able to have a choice. We tired of being told what we should and shouldn't do. Please let each school district make there own choice I trust my school board they know what the majority of our school thinks and wants. Govnornor kelly has never spent a day with my children or me. Defend our rights make our voices heard. Praying for you all.
7/21/2020 6:44:40	Eric	Magnus	Shawnee Mission Schoo	Roeland Park	It is not safe to open schools for in-person classes at this time. The pandemic is too infectious and potentially dangerous to subject students and adults to exposure in a setting that cannot support social distancing. It would be irresponsible to reopen schools before we can be fully prepared to protect ourselves, our students and their families.
7/21/2020 6:44:49	Chelsea	Britain		Emporia	I feel with numbers still not going down, opening schools is a horrible idea. Remote learning is definitely not ideal but having a bigger chance of our kids getting exposed to Covid is not a risk I'm willing to take.
7/21/2020 6:45:16	Chrisy	Owens		Overland park	Take temps at the door , wear masks , Have hand sanitizer available, and send them back to school. Maybe sports count for PE cresit. Or walking at home. Or club sports. To free up the gym for choir to use it. Be creative. We can do this.
7/21/2020 6:45:27	Brenda	Sharp	USD 265	Kingman	I support Governor Kelly's EI delaying the start of school until after Labor Day.
7/21/2020 6:45:28	Mindy	McDonald		Emmett	The masks in school mandate is absurd. No child can learn from a teacher who has their face covered. Likewise, no child can learn well from the distraction of a face covering on themselves. I am concerned about their oxygen levels wearing a mask all day. This is not physically or mentally healthy for our children.
7/21/2020 6:46:22	Michelle	Mitchell	Mom/parent	Overland Park	Please take some time to analyze the COVID data among children and weigh the very slim risk of a COVID death to young people against all of the resulting complications created for our children when they are not being educated in person (academic, physical and social). If I can get my teeth cleaned in a safe manner, then teachers can protect themselves in a classroom. These kids were forced to stay home for two months this Spring and now are socializing and cross contaminating in club sports, HOA pools and each other's basements. If they are already sharing space outside of school in mass numbers, and the mortality rate is near nothing, the decision to education them in person should be straightforward. Bear in mind that school districts have online-only options for anyone who is concerned or compromised. Please give parents the opportunity to take informed risk and decide whether or not to send our children to school in person. Give us a choice.

					<p>I have two concerns.</p> <ol style="list-style-type: none"> <li>1. My son who had learning disabilities is falling further behind. He is already significantly behind. We have already been out 4 months and he his getting further behind. He needs daily intervention and is not getting this now.</li> <li>2. I work at a behavioral school and the kids there need the routine, guidance, and social aspects of school.</li> </ol> <p>I guess I don't see why we can't start school and give the parents the right to choose to stay home and do virtual or send our kids to school.</p>
7/21/2020 6:46:30	Briana	House		Leon	I feel we need to start school in August like we are suppose to.
7/21/2020 6:46:52	Diana	Evans	Parent of students	Eudora	I think school should be delayed. Ideally, no new COVID cases in our area for 14 days.
7/21/2020 6:47:14	Teresa	Tosh	Myself but I am a KS su	El Dorado	<p>While I realize this has become a political issue, I want to take that off the table. I am a registered Republican. That shouldn't matter, but just in case it does, it's there. Before that, I am a wife, mother, daughter, and a superintendent. My support lies in supporting Governor's Executive Order to delay the start of school.</p> <p>I opened Facebook this morning to read of someone in my community who lost a 28 year-old to COVID and they are concerned. Staff and parents read these things every day. We were having conversations about delaying our year BEFORE the Governor made her announcement last week. I am aware of a district in the Metro area that was planning on Sept.9th. The delay provides us time to prepare staff and parents. Keep in mind, teachers have not been on contract all summer. They have very little idea of what these changes will entail for them. They deserve that time to be adequately prepared. Our students deserve our teachers being prepared.</p> <p>Yes, a local Board could make its own decisions and many will. I think it's time we provide that united leadership to tackle this problem together instead of working in isolation. Our state deserves it. We are better together!!</p>
7/21/2020 6:47:47	Meghann	Finlay	Usd 402	Augusta	Keep our kids and families safe. Including teachers and school staff. Don't rush this but don't make this a political move. If it's safe to go back we'll go back but if not don't force us all back.

					<p>for you and know your heart is to do what is best for the people of Kansas.</p> <p>Second, I am writing to you in preparation for the Kansas School Board of Education Vote the mandate to delay school opening.</p> <p>I respectfully request that we work with you to ensure a safe school environment that accomplishes both of the following:</p> <ul style="list-style-type: none"> <li>•Safe School opening following the Board of Education Return to School Plan</li> <li>•No delay to student participation in school, athletics, and activities.</li> </ul> <p>In response to the Mandate delaying School opening statewide, Please vote the mandate down and allow the individual districts to make their own decisions.</p> <p>This will allow each district to make the decision that is best for its community. The situations vary widely across the state and a one size fits all approach does not make sense.</p> <p>Based upon the information available, I believe we are able to send them safely back to school and activities now. I also believe we do more harm than good if we delay starting school and activities on time.</p> <p>I am one of the over 6,200 people who have signed the #HelpThemPlayKansas petition supporting all #Kansas High School Students who voluntarily choose to engage in 2020 sports and activities this fall and winter without delay.</p> <p>We all are thankful for the leadership you have provided in leading through the Covid-19 pandemic and know that you have our support.</p>
7/21/2020 6:48:02	Brandy	Thomas		Olathe	
					<p>Thank you for the gift of time so that our school leaders, teachers, and all stake holders can have time to prepare both mentally and physically for a safe , confident, and ready learning environment for our kids.</p> <p>We need to make sure we come back to school as safe and flawlessly as possible. With the unknown being a reality and an ever changing world daily, please take the responsible amount of time to adjust and be ready.</p> <p>As a teacher we need time to learn/create new platforms and procedures. The logistics of a school day must be thoughtfully planned out at every level.</p> <p>Please honor the governor's recommendation of starting after Labor Day.</p>
7/21/2020 6:47:54	Julie	Williams	Olathe teacher and olath	Olathe	
7/21/2020 6:48:24	Alex	Supple		Atchison	Support the governor!
					<p>The lives of our students and staff are so important. It isn't worth the risk of opening up. Our numbers in Kansas are rising QUICKLY. As a teachers, I don't feel safe going back to school with our numbers rising. I would hate to see staff members or students die because we opened up too quickly.</p>
7/21/2020 6:48:26	Jessica	Carey	USD 402	AUGUSTA	

7/21/2020 6:48:32	Caitlin	Neneman		Olathe	Thank you for taking the time to read my comment. I am an educator for almost 10 years, and I am writing in support of Laura Kelly's executive order to delay the start of the school year until after Labor Day. Right now, cases have soared higher than many of us thought possible. If schools do not have ample time to get proper supplies and work through plans to the best of their abilities, it puts lives at risk. At first, many did think this virus was relatively harmless to children; however, it turns out, that is not the case, as Gov. Kelly explained with the South Korea study. We can also attest that this information was probably delayed because many schools closed early before kids were able to get exposed to it on a massive level. We also do have to think of not only the deaths that could happen with reopening schools too early (and the mental health implications on students who lose a teacher or a classmate), but also the long-term health implications that could happen as well. There have even been scientists recently who have found that asymptomatic COVID-19 patients could have long-term health implications, such as lung damage. So, if we have students who get this, it could also impact them for the rest of their lives. The fact is: cases are rising in Kansas. Educators are scared, for our families, for our students, for our own lives. Asking school to delay three weeks to make sure we can be as safe as possible and watch the cases increase or decrease in that time is honestly the best course of action. I am sure many of you are considering allowing school districts to choose on their own local level, but please do remember the community impact all of this will have. Kansas is not a bubble. When people go to the doctor, they do not ask if we have traveled out of the county; they ask if we have traveled out of the state recently. Cases in one can severely impact cases in another. Another thing to consider is the pressure school districts are under to appeal to everyone, including parents who still do not believe this is a real virus. Please do not make everyone suffer because of ignorance. Thank you again for reading my thoughts on this matter.
7/21/2020 6:49:24	Ashley	Brown		Olathe	Please uphold the delay of starting school. As a high risk family, this delay allows Kansas the opportunity to get our numbers under control before sending our children to the petri dish of school. I would, in fact, like a longer delay to start in person school and only have the option for virtual until Kansas numbers go in the other direction. There is no reason to put our teachers, administrators and children as test subjects for a virus that we really don't know much about. Just because the death rate is not increasing exponentially doesn't mean that there are not long term damages that could happen. I don't want my kids to be test subjects. Please delay!
7/21/2020 6:49:31	Jeff and Brooke	Potucek	Individual	Peck, KS	Please open our schools per the original calendar. Parents need to work and children are not learning at home, they are falling behind. We need our kids back at school. Our districts are going to lose kids (and money) to homeschooling if they don't get back to normal ASAP. Thank you for considering our comments.
7/21/2020 6:49:32	Jackie	Betteridge		Goddard	I support Governor Kelly. As a nurse dealing with the surge of cases in Kansas, we should do all that we can to protect our children, our loved ones and ourselves. Please vote in support of the delay.
7/21/2020 6:49:47	Chelsea	Fuller		Olpe	Please start school like normal. I am a medical professional and increased mask wearing and hand washing is sufficient to help spread covid. Kids need to be at school and learning by certified teachers. My child suffered last semester with online school and I believe there should be an in person option and a virtual option for those that need it.
7/21/2020 6:49:52	Damien	Page	The Post-Secondary Edu	Emporia	The delay of schools is necessary to prevent the spread of COVID-19. We really should be pushing for remote learning in the majority of these schools to soften the blow of the second wave of this virus.
7/21/2020 6:49:54	Patricia	Chandler		Bonner Springs	Please support Governor Kelly! We need a chance to flatten the curve before risking additional lives. If you're meeting virtually, then we shouldn't be opening schools.
7/21/2020 6:50:33	Shannon	Lutz		Andale	I am a second grade teacher and while I miss my students desperately, I do not think it is safe to open schools yet. So many of my students have asthma or other underlying health issues, I do not want them to be put at risk. I also don't want to be exposed and put my family at risk. This is such a touchy, political subject but it shouldn't be: please keep our kids safe and delay the school year!
7/21/2020 6:51:04	Megen	Rodvelt		Troy	I respectfully agree that we need to delay starting school until after Labor Day to safely allow teachers and schools to make the best plan possible. I do not agree with masks being required. Thank you.

7/21/2020 6:51:08	Laura	Mozingo	Parent of school children	Olathe	While the benefits of in person instruction are clearly apparent, the current case rate and risks supports the order to delay school. I am especially concerned about middle and high schools being able to open safely. At the minimum, the delay will allow extra time to develop plans and train educators.
7/21/2020 6:51:12	Lauren	Cody		Leawood	I agree schools should wait to open until after Labor Day. It will give them more time to plan for a successful reopening. As it stands, full plans have not been released despite a "date" of school starting in just a few weeks. It is responsible to push the start date back a few weeks but a decision does need to be made so parents can plan. Thank you for your work on this very important matter.
7/21/2020 6:51:49	Kim	Hibbert	Elementary Schools	Auburn	Yes!
7/21/2020 6:52:03	Suzie	Shepherd	Elementary school	Overland Park	Please resume school on the adjusted date of the 17th of August I believe it was.
7/21/2020 6:52:13	Holly	Tittel	USD428	Great Bend	I totally support our governor's decision to hold off on starting school. I believe she has the best interest of not only educators, but students and families at heart. I have a son starting Kindergarten this year and I am so scared for his safety. I know that no 5 year old is going to keep his mask on all day, and again am frightened for his safety. We had summer school this summer with all the precautionary measures in place, and we still had a student test positive for Covid. The student showed no symptoms (never had a fever, answers to questions didn't indicate any illness, etc.) All that they displayed was a sneeze that was very similar to allergies. I would like to see a totally online model for schools right now.
7/21/2020 6:52:14	Rebecca	Gutzmann	Parent	OLATHE	I very much support the governor's action to delay school until after Labor Day. This will hopefully give us additional time to suppress the rising cases in our community, as well as give schools and staff -- especially those who are underfunded -- extra time needed to set up safety measures to help keep students, faculty and support staff safe.
7/21/2020 6:52:15	Lynsi	Giles	Buhler kansas	Hutchinson ks	I don't not feel school should be delayed but if it is sports and other KASHAA events should continue but only in a delayed schedule....she first football game would be mid September
7/21/2020 6:52:21	Karen	Barron	Washburn University	Alma	I'm asking that the state school board NOT overturn Governor Kelly's order.
7/21/2020 6:52:25	Sheri	Graham		Moundridge	Please over turn Gov. Kelly's executive orders and allow local school boards to decide what is best for their community.
7/21/2020 6:52:38	Melissa	Reed	Teachers	Colby	I feel each school board knows their area. Let them decide as we have no idea what the rest of the year may bring.
7/21/2020 6:52:53	Danira	Fernandez	A citizen of the state of	Lawrence	I support the Governor's decision for a later start of school. This will ensure all district can plan for whatever lies ahead and gives time for the rate of infection to become more manageable and traceable.
7/21/2020 6:53:01	Kristalyn	Shinn	Parent	Maize	I am against delaying all Kansas schools reopening. It may never feel or be safe for kids to physically attend classes this year. If we delay the reopening of schools, we may be at the same impasse after Labor day. We should let each school district decide what's best for their school depending on the number of cases in their county. Parents should be given the choice to send their child to school or to stay home with online learning. Schools have known online schooling was a possibility for many months. Delaying school officially for all children in all classrooms will stop those children and parents who are ready to proceed with online learning because the school districts wont offer online curriculum until after labor day. The children are already behind, why delay them further? Give those people who want to start school the option to start school. If it's not physically safe, start with online and transition to in class later. In addition, it puts those who have custody agreements in a lurch because the wording of their agreements may make it vague who physically has the kids until Labor day, creating more legal issues, legal filings, and legal fees for those parents. It may also keep that child in a physically abusive situation with one parent for additional weeks. Domestic violence is on the rise during covid. If schools are in session, those kids without food will be fed.
7/21/2020 6:53:13	Holly	Nickel	USD 410	Hillsboro	We need to get the kids back in school! The delay doesn't bother me as much as the requirements this bill sets forth. We as parents are capable of making decisions on whether our children are safe. Putting in place a mandatory mask and 6 ft social distance is not acceptable and will never work in a school setting. Putting those requirements in place is hindering everything for these students.

7/21/2020 6:53:36	Meghan	Fischer	My children go to Cunn	Cunningham	We need our children back in school. They need a normalcy in the midst of this election year. I have no concerns for health issues from the virus. I feel it's just another sickness and has been blown out of proportion for political reasons. One of my children thrives on a schedule. Without school that is something hard to do. They need their friends and teachers. There is no logical reason to keep them from school any longer!
7/21/2020 6:53:54	Aspen	Rank	Mcperson USD 418	Mcperson	If we are too go back in person, which I don't think is safe or ideal yet, We NEED the extra 3 weeks and time to be able to train and fully prepare ourselves, our rooms, our families, schools, communities, and more for the new school we will be experiencing. We are NOT trained as custodians, in the medical field or in any way to fully protect our students and ourselves yet. This time is crucial for teachers and school staff.  That being said, I believe remote learning is the only safe way to go back right now. We can re-learn skills if needed, we can not re-learn life. And just one loss among students or staff is far too much.
7/21/2020 6:54:04	Christina	Nelson		Topeka	Keep closed until after Labor Day.
7/21/2020 6:54:20	Misty	Carreno		Topeka	Please delay schools till numbers are down. My husband works IT in a high school, I also have a grade school son and 2 teenage daughters in High School, one being a senior. While I want her to have a great Senior year, not at the cost of her health, our families health and the teachers health. Please consider Gov Kelly's executive order and keep politics out of the decision. Thanks for your time.
7/21/2020 6:54:38	Joell	Ransdell	KCPS	Shawnee	Students carry the same viral laid and spread the disease just as much as adults, according to studies from Australia and South Korea. With the massive increases in cases in KS and MO, along with many people choosing not to wear a mask, schools cannot safely open without exponentially expanding exposure and risk of causing illness and death to our students and educators.
7/21/2020 6:55:01	Letitia	Kneuper	USD 460	Hesston	Please delay the school year! More time to prepare is crucial.
7/21/2020 6:55:02	Melanie	DeRousse		Lawrence	Please approve the Governor's delay of the start of school until after September 8, and later if she so determines. There is no possible way to prevent children and teachers from contracting this deadly disease if they are placed indoors, together while cases are still spreading throughout Kansas. We do not know what devastating, lifelong effects our children will suffer, and I hope we don't have to find out. We cannot afford to lose our teachers, paras, and other school staff, and I am not prepared to walk my kids through grieving for teachers and friends and friends' parents. I am not ready to raise them to the constant reminder that they can lose so many people so quickly. We don't have to. Please exercise leadership. All of this is so preventable with simple statewide adherence to evidence-based recommendations.  I work full time. I don't have good child care options. I desperately want a return to normal. But sending kids and teachers back to school before science supports it will not be normal; it will be a devastating change from all we tried to protect them from as the disease spreads and takes hold on our communities. We simply cannot take this risk.  Please support the Governor's attempts to protect all of us.
7/21/2020 6:55:07	Raqlrl	Anderson	Teacher	Topeka	I want to go back to school and in person learning. I need to see my kids and be with them! However, I don't believe it is possible to social distance children all day long.
7/21/2020 6:56:00	Bonita	Hayes		Medicine Lodge	Children should be able to go to school on time. They need to be in school. No masks as it has been proven they don't work and are a health hazard. Let the children go to school as normal. Here in Barber county we have had 2 or 3 cases.
7/21/2020 6:56:15	Sondra	Moore	Nyaelf	Ozawkie	Please keep our students and staff safe at home until Numbers go down
7/21/2020 6:56:20	Chris	VanGilder		Arkansas City	While I am a firm believer that kids should be in schools, I believe that now is the time to be cautious and delay the start date.
7/21/2020 6:56:36	Victoria	Metzger	Public school	Oskaloosa	Please support governor Kelly's executive order delaying the opening of schools until after Labor Day.

7/21/2020 6:56:37	Darrell	Stewart		Caldwell, KS	I do not tend to agree with Governor Kelly's position on many state issues. This time, however, I think she's got it right. Delaying the start of school will give teachers time to prepare for the new realities of masks, social distancing, and classroom cleaning when they meet the students in person. It will also give districts time to develop policies and teaching strategies that will be more effective than the online mess that was the experience last spring. Shorting teaching hours and extra curricular activities are a real concern that I believe can be mitigated through schedule changes and compromise on the part of all stake holders. Finally, a post-Labor Day start date for students used to be common place in agricultural communities and would not be as inconvenient as closing down schools all together.
7/21/2020 6:56:41	Katie	Kohman		Abilene	We need to be cautious of the virus but not fearing it. We need our students back in school. Back to a routine. I have a 4 year old that has been in her daycare/preschool since April 1 when I had to return to my work. They have not had any issues with getting the virus and there has been a rise in cases in our county. They keep the students in their classes and don't mix age groups together. Follow strict cleaning and hand washing throughout the day. No issues. My fear is we won't start after Labor Day as cases will rise from the long weekend. Why can't we get them started then off for a couple weeks. They can still work on school work. Also, each school has to have a certain amount of hours in a year. I hope with this late start we are not going into June later. We are a rural community like a good percentage of this state. These farmers/families rely on kids to help with farming in the summer. We need to be mindful of our rural state what keeping kids in school into June will do to some communities and some students. They might not be able to attend school because they are needed to help their families provided for them and this country. Please think of the whole state not just those bigger communities when deciding on the fate of these students.
7/21/2020 6:56:43	Beth	Tindell		Topeka	Send the children back to school.
7/21/2020 6:56:45	ryan	gregoire	none	Leavenworth KS	As an educator, I believe we need to get the schools open now and not delay. Hands on with an educator is very important and distance learning with a parent isn't always a very good answer. DO NOT DELAY REOPENING
7/21/2020 6:56:58	Carrie	Augustine	USD 495	Larned	Kids need to be in school ASAP. Our county has had only 7 cases. I'm not a strong supporter of mask wearing all day. I have been forced to wear mask for several hours and end up with headaches and angry sinuses. Cleaning the buildings and encouraging our kids to wash hands and cover sneezes and coughs. Please don't group our school district with big city districts.
7/21/2020 6:57:24	Kathy	Minor	Teacher	Shawnee	I teach in KCK. These kids must be in school! The lack of parental supervision and structure is evident. The students have already been out of a structured environment long enough. Online education proved to be a disaster in the Spring and won't improve in the fall. Give the families the option if needed but my vote is let's start on schedule and implement cleanliness and masks if needed. The mental state can definitely outweigh this virus in kids.
7/21/2020 6:57:24	Sam	Dollins		Live in Atchison teach in	I am fine with any decision the state school board decides because I want to teach. however, if you(state school board) are not willing To meet in person without being socially distanced, why do you think it is okay for students and teachers? That being said, I want to be in person with students but at what cost
7/21/2020 6:57:25	Kennedy	Brown	USD 383	Manhattan, KS	I have serious doubts about the ability of Kansas schools to begin "on-time" this year. While we all would like to return to school and see our students, we would rather the delayed gratification of knowing we can do that safely. We can and will make up the deficits of missed learning but safety is the utmost priority. We don't know the long-term effects of this virus yet but we do know that people who recover have symptoms for months after they've had it. I'd rather our students be educated from the safety of their homes, while receiving food support from the school, social emotional support when they can, services in small, regulated groups if deemed possible. Give our schools, state-wide, time to prepare ourselves for the school year. If we aren't going to be safe about reopening, at the very least, let us be prepared.
7/21/2020 6:57:27	Brooke	Pfeuffer	My family	Olathe	Please reject the proposal. Our kids need school and need it now. They need people and socialization for their mental and emotional well-being.

7/21/2020 6:57:29	Sarah	Hoffmann	Parent of student	ElDorado	I don't think delaying is going to be better. Kids are losing time in the classroom. We know what precautions need to be taken and schools with a plan should be allowed to begin as scheduled if they are ready. Many smaller schools are already ready.
7/21/2020 6:57:48	Mandy	Adcock	Cedar Creek Elementary	Olathe	Please support the governors executive order to protect teachers and staff in school buildings. We need the extra time to be prepared to teach during the pandemic.
7/21/2020 6:57:51	Jennifer	Middleton		Salina	School does NOT need to be delayed. Students, atleast elementary age need to be in classes getting an education. It's completely ridiculous to allow daycare facilities to remain open, allowing those teachers to be exempt from wearing masks and delaying the start of school or forcing kids to wear masks. Since march, my daycare facility has been open with NO issues regarding the virus. The teachers are/we're exempt from wearing masks and gloves. The only thing they changed was increased hand washing and increased Sanitation measures. Those daycare teachers would have been exposed to kids whose parents were essential workers especially during the SAHO. Delaying school and requiring kids to wear masks is an absurd requirement from the governor who isn't living the lives of the Kansans she represents.
7/21/2020 6:57:56	Heather	Kirchner		Mulvane	My kids are eager to go back to school. They felt like they didn't learn as much staying home!
7/21/2020 6:58:11	Jamie	Pflugrad	Community member	Basehor	If the State Board of Education has to meet via Zoom because it is not safe to meet in person, that gives you your answer on whether students should be attending in-person classes. NO! They should not! Delaying the student contact days by a few weeks gives the teachers and staff time to navigate this unprecedented school year. Teachers are so desperately underpaid as it is, they should at least be given more time to figure out a plan for the school year.
7/21/2020 6:58:20	Mitch	Garner		Pittsburg	Do not change the school calendar. Open school on time. If this requires preparation in advance to make this happen, call the required staff back early to make the preparations. Do not make the kids suffer because the preparations have not been made. If the kids' education is truly a top priority then we need to act like it and do whatever it takes to meet this challenge.
7/21/2020 6:58:43	Molly	Newell		Wichita	Schools have been preparing for this before the Gov. got involved, let them open at their scheduled start time.  Masks under the age of 12 goes against recommendations and for good reason.  Lastly, there are options for online & in person learning available (and have been for some time). If someone feels uncomfortable there is always still choice in the matter of their child(ren)'s education.
7/21/2020 6:58:50	Tarah	Fricke		Basehor	I am 100% against delaying school. My fear of delay is that the kids will never actually begin in-school schooling. The more we delay, the closer we get to actual "sick season." If we're looking to do the greater good, why are we sacrificing our children's education? Teachers are essential, therefore they should be required to do their job at 100%, in-school, not online. Focus resources on PPE for teachers. Look at the statistics. Look at what we know. Look at how childcare was handled and the outcome in NYC during their peak. You can't look at the exceptions or anomalies. You have to look at the statistics. Look at what is measurable. COVID-19 IS NOT A HIGH RISK FOR CHILDREN. COVID-19 IS NOT A HIGH RISK FOR AN OVERWHELMING MAJORITY OF TEACHERS AND STAFF. Look at the statistics. Thank you for your time and consideration.
7/21/2020 6:59:31	Nikki	Morgan		Assaria	We have a child going into 2nd grade and would like to see us resume school with as much normalcy as possible. We do not want masks in the classroom for teachers or students. We understand having lunch in the classroom and limiting kids outside for recess, if necessary.
7/21/2020 6:59:41	Lindsey	Keating		Overland Park	Governor Kelly has been an excellent decision maker through these difficult times, leaning on science and the facts to guide her decisions. I totally agree with her decision to delay the start of school. Our children will not be safe in a normal school setting and teachers need time to prepare for whatever is to come.
7/21/2020 6:59:45	Dana	Jewett	El Paso Elementary	Derby	Please allow the order to remain to start school after Labor Day.
7/21/2020 7:00:10	Bj	Smith	I am just a teacher.	Lyons	School district have been preparing for many scenarios of what re-opening school could look like. Have faith in your local leaders to do what is best for their communities. Let the local school districts decide.
7/21/2020 7:00:19	Kerri	Kemp		Garden City	I support governors mandate delaying start of school until Labor Day. I think we have to think of safety of teachers, students and staff. This 3 weeks gives the time to become prepared for students returning.

7/21/2020 7:00:34	Elisa	Horinek		Colby	As a mother of two speech delayed children, I stand firmly against the governor's mandate to force masks upon elementary aged children. My children (and many others like them) desperately need school to receive proper services under their IEPs. This mandate is a violation of the services my child is legally guaranteed, as there is no way my children will make the necessary gains in their speech if they are forced to wear a mask all day. My sons' classroom teachers AND speech therapists agree that the masks will prohibit crucial progress. Thank you for your time and consideration.
7/21/2020 7:00:52	Heather	Swanson	USD 263(parent) USD 2	Mulvane	Please allow Governor Kelly's EO to start school after Labor Day.  The districts all set their current schedules pre-pandemic and need the extra time to get staff adequately trained and protected. Especially with the state coming out with their recommendations so late.  This isn't about her taking away local control. She is trying to save lives and has the best interest of Kansans at heart. Please see it for what it is. This isn't a political game. This is public health and safety. These are real lives of Kansas children, parents, and teachers. Three of the 4 members of my family will be spending time at a school daily. Any one of us can bring it home to the rest of us and share on from there to a new classroom. This will grow exponentially fast once it gets into a school. We need to have everything possible in place to limit its ability to do that. Rushing into the school year isn't what is best or safest for our teachers, children, and their families.
7/21/2020 7:01:10	Alicia	Julian	Elementary teacher	TOPEKA	Please approve the delay. We need schools to be as protective as possible, and I think smaller districts and private schools may not have had plans in place for temperature checks, masks for everyone, and meeting the social distancing guidelines. Thank you.
7/21/2020 7:01:15	Julie	Stull	CSW	Wichita	Open
7/21/2020 7:01:30	Kristina	Egan	I am a special education	Derby	I believe that we need to continue with the plan to open after Labor Day. When all of the restrictions were removed in June, numbers began with an exponential trend. I realize testing also increased so some of the data is likely a tad skewed, however the trend of the data does not change. We are at an all time high. I personally, am high risk and so is my son. I don't have a choice to return to work or not if I want my own children to have a roof over their head. Therefore I want to return safely. I want to allow additional time for plans to be in place so that students and staff are safe. Please consider your teachers in this right now. We won't have substitutes readily available as there was a shortage before the pandemic. We need to be healthy. Which means safety precautions in place. We are trained to do the same with a shooter drill, fire drill, tornado drill or any other crisis in a school. Why are we treating this any differently? Safety precautions have to be in place. We have to have adequate cleaning supplies to sanitize after every student. We have to have appropriate PPE, proper ventilation and the ability to social distance. Classrooms of 25+ for over 90 minutes is not following any of those demands. Please make the right decision. Protect teachers and students.
7/21/2020 7:01:52	Dena	Befort		Topeka	Schools did start virtually online on time. Our district already has a plan for the first 6 weeks. Then we could start paying students to in person classes. We could make an exception for K students to return to alternating days or half days.
7/21/2020 7:02:18	Lindsey	McFall	None	Overland Park	I support Governor Kelly's order as it is guided by science.
7/21/2020 7:02:32	Rhonda	Lanier	Parents of Derby School	Derby	We cannot choose to live in fear; more importantly, we need to TEACH our children how to LIVE life even during the most challenging times. Yes, be cautious, take precautions - wash hands, use hand sanitizers, wear masks if necessary, but DO NOT SHUT DOWN or delay the start of school and especially those extra curricular activities (which keep so many kids emotionally & mentally stable). Especially given the drastic DECREASE in the hospitalizations & deaths. I am the Mother of high school senior & a 22 yr old substitute teacher (who is also pregnant).
7/21/2020 7:02:40	Lisa	West		Wichita	I support the September start date. With the release of the KSBOE document just last week, the extra time can be used to better adapt and adjust in order to best serve the students. Also, this will give our cities & towns the opportunity to refocus efforts to slow the spread of COVID. Giving the mask recommendation a few more weeks and giving the state time to get the spread under control, will hopefully mean that once school starts it won't have to be interrupted again.

7/21/2020 7:02:57	Marshall	Kolb	Family	Overland Park	Don't take anything the NYT says at face value! Their agenda is obvious. The Korean study is not anything to hang draconian decisions on.
7/21/2020 7:03:06	Cailley	Crenshaw		Colby	I really think it isn't going to make a difference keeping them out two more weeks and think they need school. I feel if we follow the masks and other guidelines then it benefits the kids more to be at school or their new normal won't have as much structure and all of these kids will lack socially and emotionally.
7/21/2020 7:03:16	Anna	Luna	Kansas schools	Plainville	My thoughts are, every county is different. We need to get the kids back in school, on a routine. Right now Rooks County has kids turning to vandalism, theft, and so much more because their families are not watching and the kids have become bored! They seek the classroom, peers and most of the approval of the educators. We continue to say this is best for the "kids" but is it truly? Time for all students to return to classrooms and get started. Covid is not going away but we need to return to a normal and give these kids something to look forward to.
7/21/2020 7:03:33	Tiffany	Kennedy		Luray	It is time to let our kids go back to school.
7/21/2020 7:03:27	Joyce	Nichols	Self	Lenexa	In-person school is dangerous for the staff and students. Even with masks, students won't comply and will spread COVID-19 to each other, the adults in the buildings and then bring it home to parents and grandparents. The children may have non-life-threatening symptoms, but too many adult lives will be lost. Also, the expense of paying teachers sick leave or paying them when they have to be quarantined for 14 after exposure is outrageous. Also, to the same point, as children test positive, the other children who were exposed will need to be quarantined and within weeks of school starting, it will be unmanageable trying to educate children online in quarantine while at the same time in the school building. Best solution is to start online and hope that by the spring the numbers of COVID-19 cases will drop enough to lower the risk. Thank you for your time.
7/21/2020 7:03:44	Janelle	Reese	None	Valley Center	I have two teachers and one student in my household. This rush to open schools against the recommendation of health professionals while community spread is increasing is dangerous and will cause long term harm to our community and economy. This is a blatant attempt by Republicans to try to pull a rabbit out of a hat to improve election chances. The result will be a short term reopening followed by widespread closings once clusters develop within the schools. Reduction in spread, testing and tracing must be in place first!
7/21/2020 7:03:51	Lana	Webster		Overland Park	Please uphold the Governors Kelly order. My uncle and aunt just came down with COVID 19 after attending a small party in someones house. Having our kids, teachers, staff, parents being exposed everyday in the buildings that some of them have poor ventilation and windows that don't open is irresponsible and playing with peoples lives. If you have to have a meeting virtually to discuss opening schools in person, then we are not ready to open schools. My preference would be if the schools be online for the first semester or longer, but if that is not possible, at least give it time for the mask order to work. Thank you
7/21/2020 7:03:53	Amber	Carlson		Kansas City, KS	I am a special education teacher in the Kansas City, KS school district and I would feel much safer at school if we waited. I support Gov. Kelly's decision to delay the start of school until after Labor Day. I want to be back in my classroom with my students but would feel safer and more comfortable doing that of given more time to make sure the necessary precautions are in place to keep both students and staff safe. While I will return to my job whenever I am told to, I would feel much safer and more comfortable waiting until after Labor Day to return to the classroom. COVID-19 cases have been rising in Kansas and placing students and teachers back into the classroom too soon is just asking for an outbreak to occur. This is another reason why I think we should delay the start of school.
7/21/2020 7:04:28	Tony	Dornbush		Wichita	The schools need to be opened. I f teachers are afraid to teach. Fire them. We need strong courage people teaching our children, not people lead by irrational fear.
7/21/2020 7:04:49	Alan	Gales	USD259	Wichita	I will support whatever the Governor thinks is safe for us, as I believe she has better access to critical information than I do, and she seems to really care. Like anyone else, I'd like to be able to work as soon as I can, but safety of kids and staff should always be the first priority. I do believe when we start school, we need to be provided with cleaning and sanitizing materials in each room, along with masks that are safe, so we can all be sure our rooms can be as safe as possible, without having to rely strictly on custodians to take care of it.

7/21/2020 7:05:31	Justin	Linot		Derby	I, like many others in Kansas have an autoimmune disease. My autoimmune disease requires drug therapy to treat, requiring that I take a medication that suppressed my immune system. In my case if one of my children comes home with the corona virus, I have a much greater possibility of dying from contracting the virus. By waiting a few weeks or simply by returning to distance learning this entire scenario for my family and I can be entirely avoidable. There should not be a rush to get back to normal when the consequences are the possibility of more needless deaths in our community.
7/21/2020 7:05:43	Ronald	Turner	Myself	Belpre	If your not going to let the schools open then quit taxing me for it.
7/21/2020 7:05:46	Kim	Olson		Louisburg	We do not need a delay in the public school system shut down. Kids need to be back to school with OPTIONAL masks. We do not need extra mandates other than keeping kids from arms reach of each other. There is no overwhelming data that says our kids will be at risk if they go back to school. Only rare cases will be affected, the rest need to be in school
7/21/2020 7:05:50	Christel	Parsons		OVERLAND PARK	This virus is new and the long term effects are unknown. More time to allow our schools to be safely prepared for our children should be allowed. Please put politics aside and listen to the science. Our children do need school, but three weeks is going to negatively affect them in the long run. Please vote to push back the start of the school year and allow more time for schools to prepare.
7/21/2020 7:05:54	Lopez-Goldstein	Socorro		Overland Park	Our children need to start school on the day BVSD had planned, Aug 13. I have 2 daughters, elementary and middle school age. They are both counting down the days to return to class. The extended time period out of school is affecting their mental/emotional state of being. They miss the routine of going to school, interacting with their friends but most importantly applying themselves to the learning process. Many of us parents have made plans to return to work it's not fair for politicians to keep moving dates which have impact on plans that affect our families. Schools had plenty of time to prepare and pushing school openings additional weeks out is inconvenient and appears political in nature.
7/21/2020 7:06:15	Peter	Bastian		Valley Center	Please vote in favor of delaying school until after Labor Day.
7/21/2020 7:06:17	Chere	Jackson	Usd 259 teacher	Wichita	I support online schooling only until there is a vaccine that can be received By anyone attending public school.
7/21/2020 7:06:29	Kevin	Farlow	Parent/ teacher	Newton	If you expect us to teach using evidence based practices then use that same standard in your decision. Open later when it's safe. How many teachers and/or students need to die before it's too many?
7/21/2020 7:06:49	Kelley	Stewart		Olathe	The districts need time to implement changes. Give them that chance to do!!!!
7/21/2020 7:07:07	Amy	Gulley	None	Olathe	<p>Please follow the Gov's executive orders for delaying the opening of school. Her reasons are based on science and advice from medical professionals. The amount of cases were much lower when school was closed in the spring so why would we open it now? This should not be a political decision or a decision based on what is most popular. It should be based on what the people who are educated in science and medicine feel is best for the teachers, school staff and the children.</p> <p>I want to provide an example; I work in a correctional facility. We were proactive at the beginning, following the Gov's orders, and saw no COVID cases in our facility. As soon as everything was lifted or left up to individuals to decide what to do people went "back to normal", because you know that is what a lot of people think the lifting of Orders meant, we got a case and then another, and another etc. and it spreads like a wildfire. So in a matter of a couple weeks we are now having to move backwards in to a lock down again. And, it is causing a lot of 'unrest' and fear among both staff and inmates because, people are more frustrated when the rules keep changing than they are if they are given a set of restrictions to follow and those restrictions are slowly lifted. Are they still going to complain, yes, but they at least feel like sound decisions are being made rather than randomly thrown out there.</p> <p>If you don't delay school and give them time to prepare for the new guidelines, or if you don't wait until the spread is slower, the same thing is going to happen with schools. It is going to be harder to move the public backwards than it is to have them upset now and slowly move forward.</p> <p>Thank you for your time.</p>

7/21/2020 7:07:09	Krista	Tankoano	Self as a parent of a first	Lawrence	Please uphold the governors decision to delay school opening. We are less that a month from when we were supposed to go back and have seen no plan that takes into account the safety of the students AND the teachers. I understand there is no easy answer but our kids educations should not be driven by economics.
7/21/2020 7:07:15	Sherry	Wellman	USD 430	Horton	I am a teacher. I want school to begin on schedule.
7/21/2020 7:07:50	Kevin	Reese	Just me	Valley Center	Yes, delay until we KNOW it will be a safe, masked, distanced environment for our precious students, teachers, and staffs. Do not use them as guinea pigs.
7/21/2020 7:07:51	Aubrey	Brooks		Eudora	Waiting until after Labor Day to get the classroom prepared for safety is a good idea. We all know the kids and adults will spread the virus and adults will get sick at the schools so preparing the environment to minimize this is vital.
7/21/2020 7:07:52	Michele	Ediger	personal (I am employed	Walton	Please honor our Governor's order and delay the opening of our schools until after Labor Day (at least). Schools need extra time to prepare safety measures, and COVID-19 cases need to start ticking DOWN! Please. We've always said "Safety of our children is our #1 priority," let's put our actions behind our words. Thank you.
7/21/2020 7:07:56	Amy	Wilkens		Saint George	I feel we should follow the governor's orders & delay the opening of schools.
7/21/2020 7:08:00	Brian	Wetta	Former teacher	Andale	Our kids' education has already been disrupted this past spring. We do not need to delay their educational growth any longer. Online education is not nearly as effective as in person classes, especially for the younger students. As a former teacher, I realized that sickness spreads in schools. Teachers, students, and parents are very aware of this and can make their own decisions about the risk of getting sick. We don't need government making decisions about our health. Tax dollars are collected for education and should be used for the purpose of educating students in person. Please don't politicize the closing of schools. Our students are the only ones who suffer.
7/21/2020 7:08:06	Stephanie	Brachtenbach		Olathe	As a public school parent and a public school teacher I am in full support of school being delayed until after Labor Day. The Covid 19 situation in Kansas is constantly changing and not for the better. We need more time to plan and prepare.
7/21/2020 7:08:10	Gary	Humbolt		Mulvane	I don't want to bury my wife because we rush back and she is out in danger along with the children and our grandson we are adopting. Learning is important, but what good is learning in a coffin? Who knows the lasting effects this illness will have either. Schoop never started before labor day when I was going to school and my parents etc. It was only moved up because schools now have Ac...but the ventilation is horrible, worse than an airplane it will be a hot spot breeding ground.
7/21/2020 7:08:15	Jamie	Evans		Olathe	Please push back until after Labor Day! We need time to prepare the facilities and for numbers to stop increasing.
7/21/2020 7:08:19	Emily	Rico		Salina, Ks	Student needs to attend school as planned and not after Labor Day. The schools have had ample time to prepare for the new year and giving them an extra month to purchase supplies to sanitize properly is a poor excuse as to why schools should start late. Schools have had until March and until now (4 months) to prepare for our children to return to school. The social development is crucial for these children.
7/21/2020 7:08:30	Sherry	Treece	Classified employee	Hutchinson	If we do not open schools until September that means all these classified staff are without a job and no we cannot claim Unemployment when really we just want to get back into the school and work whether that is just grant work or if that's where Humiston either way put us back to work I have kids I have to support and I can't go knowing that I may not have a job until October I can't support my family on that I also have children that would be enough I was cold system and I am A-OK with him wearing a mask and social distancing two of my three children do not thrive in an online schooling environment that we need schools
7/21/2020 7:08:36	Kristina	Courbot	Usd 305	Salina	I would like to see the start of school delayed while Covid cases are in the rise.

7/21/2020 7:09:01	Tiffany	Rogers		Olathe	Our children are ready and need to go back to school. Please let the schools open either on time in August or immediately after Labor Day. Please allow the students to participate in sports, music, theatre, debate, clubs, and other school sponsored activities. This are important to their life, health, and development. We also have a daughter in high school who is taking several AP classes. She is missing three weeks of class time due to pushing back the starting date of school. This is time she needs to learn new material so she can be prepared to the AP tests at the end of the semester. I understand COVID-19 is serious. However, it the virus is not going to disappear anytime soon. We need to learn coexist with COVID-19 as we have done with so many other diseases. Part of this includes businesses reopening, adults returning to work, and schools reopening. Several organizations like the Boys and Girls Clubs and the YMCA have been running their programs all summer without significant outbreaks of COVID-19. In addition, the two schools that operate a year round school year in North Kansas City opened in July. Opening schools can and should be done. Students, parents, teachers, administrators, and community leaders can work together to make this happen.
7/21/2020 7:09:19	Shannon	Myres		Shawnee	Please allow our children to return to school. I understand there are concerns with the number of cases but the majority of those are with minimal symptoms. The risk for school age children is so low. Education is essential and any attempt at online learning does not provide our kids with the education they deserve and our tax dollars pay for. Even in Johnson county the number of deaths outside of a nursing home is only 16. We need to return to school!
7/21/2020 7:09:21	Steve	Castro-Miller	My family	Wichita	There are now multiple valid studies from other countries about the safety of opening schools - especially K-8. Child-to-anyone transmission is virtually non-existent and they are at greater death risk from many other dangers. Open the schools.
7/21/2020 7:09:46	Becky	Purvis	Parent	Goodland	Let us go back to school. We have very few cases and we do not want our kids wearing masks. I think of the chicken pox parties. Our kids need to be in school. Please listen to us..
7/21/2020 7:09:58	Sean	Monaghan	Self/parent	Newton	Please allow the Governor's two order to both go in to effect. The order to delay the start of education and the order to mandate safety protocols.
7/21/2020 7:10:13	Rebecca	Khosravipour	USD 423	Elbing	Please follow the governor's timeline. We need more time to prepare for the safe return of our staff and students.
7/21/2020 7:10:13	Danelle	Bieker	USD 489	Hays	My daughter has severe anxiety she cannot handle wearing masks on her face without having a full blown out anxiety and panic attacks!
7/21/2020 7:10:16	Kelsey	Dorian	Mrs	Wichita	We shouldn't be opening our schools yet and putting young children at risk for covid and the effects that it can cause if you survive it. It's not enough to just wear masks or distance. Children will struggle with that and there are still a lot of people and parents refusing to follow cdc guidelines. It's not safe enough. Kids can still learn at home. We shouldn't be risking their lives. They depend on us to protect them so let's do that and keep them home until the numbers are actually flattened.
7/21/2020 7:10:20	Dawn	Rose		Luray	Yes, I feel that for protection of kid's health, wait until after Labor Day to open school
7/21/2020 7:10:25	Carey	Bickford	Mother to 2nd grader an	Prairie Village	As much as I wish we weren't in this situation, and as eager as I am to have my kids back with their friends and teachers in school, unfortunately the viral spread right now doesn't look like that would be the safest choice particularly for their beloved teachers. Pushing back the school year a few weeks gives us some time to get the virus under control and better prepare for a way to take care of each other and get back to class. Please support the governor's Executive Order.
7/21/2020 7:10:30	Leslie	Adams	Self	Overland Park	Please delay the opening of schools per the order issued by our governor. New cases of COVID are being reported daily and so much is still unknown about effects on children. Please keep teachers, staff and kids safe by allowing extra time for the virus spread to slow, and for all schools to prepare. Thank you.
7/21/2020 7:11:15	Hollie	Ankerholz		Lyons	I do not agree with this order. It seems like a delay tactic so that if case numbers are higher at the time school is supposed to start, Governor Kelly can again delay or even cancel in person school at that point. I think it should be left up to each District.
7/21/2020 7:11:16	Amy	Landreth	a parent of children that	Overland Park	School should begin in-person 8/17. If not able to open in-person begin e-learning on 8/17 and do not delay the start of school.
7/21/2020 7:11:31	Curtis	Hall		Gardner	Open school / No Restrictions

7/21/2020 7:11:32	Fres	Britten	None	Hays	Accept the Governor's plan. It makes sense. Protect the kids and the staff. Listen to the proven science on this issue. A few weeks will help schools get better prepared. Do the right thing and don't make this political...we've got to get this turned around and delaying the start of school is a huge step in the right direction. Support Governor Kelly's plan.
7/21/2020 7:11:48	Michelle	Lucht	USD 501 instructional C	Topeka	I strongly support Governor Kelly's executive orders to delay school and then to use safety measures such as masks and social distancing, for the sake of students and staff. As an Instructional Coach, parent of two children going into 2nd and 7th grade, and a diabetic, I am deeply concerned with taking safety precautions and starting school too soon while we are facing huge rises in this pandemic.
7/21/2020 7:11:50	Tiffany	Riffel	Parent	Wichita	I believe that my children will benefit the most from in person classes this year
7/21/2020 7:11:51	Adrienne	Clevenger	-- Year --	OLATHE	This delay is necessary to assure the safety of our children and the staff and teachers. It might create some issues for parents, but otherwise we'd be closed again by Labor Day anyway. This gives us a chance to make it until October without being closed again. Our numbers are rising daily, especially in JoCo. An early return without taking these precautions is sentencing our older or immunocompromised staff to a future of intense lung damage or worse, death. Our schools need this time to be the best environment they can be. As a parent, I thank you for this delay!
7/21/2020 7:12:00	Jennifer	Collins	Myself	Ark City	I support Governor Kelly's decision. Schools are not ready to open safely. This delay gives more time to do just that.
7/21/2020 7:12:12	Becky	Linot	My family	Derby	Hello! I strongly urge you to approve the governor's new start date for schools (after Labor Day). Our school districts just c
7/21/2020 7:12:20	Lisa	Twombly		Troy	These are not normal times. In normal times, I would support leaving decisions to local authorities. Local authorities chose politics over safety in the case of face masks. The same will happen in the case of reopening schools. Please uphold the governor's executive order.
7/21/2020 7:12:24	Nancy	Pickler		Park City	Please open the schools as normal, follow the science instead of the media. The children are our future and they need in school learning. On line learning is not helpful for a large majority of the students. Thank you for your consideration.
7/21/2020 7:12:47	Cynthia	Larcom	parent	Shawnee, Ks	Support Governor's 2 orders. Counties with high transmission rates need to be online only. Then as community transmission numbers go down open buildings for hybrid (reduced building capacity 25%, then 50%) learning. If it works for extended periods of time, maybe can finish the year at 100%.
7/21/2020 7:12:58	Sarah	Horinek	St. John the Baptist Sch	Beloit	I feel that a state wide executive order to delay schools is not in the best interest of the children. The social and economic problems that will arise from the implications of this far far greater an more dangerous than the implications of COVID. As Gov. Kelly said in her address COVID is not going anywhere. We need to build immunities to this illness. We can just continue to delay the inevitable until the other problems such as abandonment, child abuse, starvation, increased screen time, obesity, pornography, pedophilia, etc continue to increase and then we realize we better get kids back in school. This decision is so saddening to me.
7/21/2020 7:13:10	Juan	Yin	Parent	Overland park	Please start school on time with online teaching before the school can start in person . Thanks
7/21/2020 7:13:21	Jennifer	Coats	USD 259	Wichita	I am in agreement with bring students back to the classroom; however, I also agree we need the suggested delay in starting school. Due to the number of changes that will need to be made, I believe our District needs the additional time to prepare properly for the safety of our students, staff and community. I don't feel it would be harmful to allow this delay, if anything it would reassure our staff, parents, student we are taking COVID-19 and their concerns serious. I respect all of you and know you will do right by our children.
7/21/2020 7:13:58	Lee	McCartney		Stilwell	There is ZERO reason not to put children back in school; the transmission rate of children is next to null. If schools are not opened 100%, I want my tax \$\$\$ back! By keeping these kids from socializing, you're stunting their development academically, physically and socially...God forbid you create another mass shooter by your lack of responsibility to the children & kowtowing to the left wing mob rule mentality.
7/21/2020 7:14:02	Thomad	Krause		Overland Park	We need to trust Private & parochial schools to be able to decide on their own what is best for their students & parents. Thank you for making this exception to the policy!
7/21/2020 7:14:25	Kristin	Wright		Clay Center	We are blessed to have a governor that supports public education and educators, I believe that the KBOE should reciprocate that support and go along with the governor's orders. If I can plan well for three weeks, my students will gain much more in quality than what they might lose in quantity of school days. Thank you all for your willingness to serve in your positions.

7/21/2020 7:14:32	Laura	Pace		Fairway	I support the delay in opening schools in the state of Kansas to allow for us to manage the COVID 19 outbreak that currently ranks Kansas as a "red zone" according to a White House report.
7/21/2020 7:14:41	Collene	Stucky	Elementary Teacher	Osage City	I strongly believe and agree with the executive order Governor Laura Kelley made on Monday. I also feel this will give parents more time to make a decision that will be best for their family.
7/21/2020 7:14:48	Sarah	Livesay	USD 373	Newton	Please delay the start of school so school staff can prepare to safely open for students and staff.
7/21/2020 7:15:29	Sandi	Bartz	Oarent	Larned ks	Let's get started earlier than later withClasses and sports. Our kids need this.
7/21/2020 7:15:50	Jayson	Horton	Concerned parents all lo	Garden City	I urge all board members to leave reopening plans in the hands of the local districts. If they follow your well thought processes they will not be at the whims of the govenor. In study of the science following observation in other countries Ireland/Norway & childcare settings in U.S. such as YMCA's offering care during shutdowns. Transmission in schools/care centers among children is minimal or non existent if care is taken. The governor of our state is not currently following the will of the people, please do not follow her lead.
7/21/2020 7:15:55	Tim	Hansen	None	Milford	I support the Governor's plan to delay school openings until after Labor Day.
7/21/2020 7:15:59	Alexis	Ayers		overland Park	I have a daughter who is a teacher who has 2 children. I am not comfortable with school opening at all. It isn't safe. Covid-19 causes laying damage, why risk lives? Are the board members willing to spend time in the classroom teaching kids? Are you willing for your kids and grandchildren to be at risk? If the answer is no, why risk the teachers and children?  Also, we used to start school after Labor Day and get out prior to Memorial Day. We didn't have a spring break. It's not unreasonable.
7/21/2020 7:16:03	Cassie	Banka		Wichita	Leave politics out and please listen to the doctors and scientists.  Please support the governor's executive order to delay the start of school. Districts need time to develop plans for re-opening buildings that encorporate the recently released Navigating Change document, procure supplies, and teachers need time to plan.
7/21/2020 7:16:28	Belena	Brantley		Arkansas City	Sending students and teachers to schools knowing people will become sick and even die is THE most irresponsible and damming thing anyone can do. I could go on and on about this, but, we need to stop making schools fix all of society's social problems. Kids will not die without sports. Then end. They will not even die without friends, although mental health can suffer. That issue is a separate, albeit frightening issue. We need to make sure a return in physically safe and then we need to figure our out the mental health applications that will come up and address them - without someone dying of COVID. If you override this decision, every death that occurs, every long term health effect that ruins someone's quality of of life, every medical bill that breaks a family is on your heads. The governor was right when she shut down schools the first time. Ark City had a long term sub who would have brought the virus into the building because he had it and didn't become ill until three days after he would have exposed our entire high school. He later died. She was right to shut down the state. Only when opening back up did cases in my county grow from 5 to our current 118 total. She was right about masks. Why I'm the world would you think she's wrong about this? Every time the legislature or Kansas have bucked her decisions, it has been a fail. You fail today if you don't listen to her decisions. You fail publicly and you fail knowing that politics and agendas mean more than the job you have been tasked to do.
7/21/2020 7:16:30	Abby	Keith	My children	Goodland	Leave it up to the local school board to decide when to start!!! Goodland is not the same as Kansas City!!!
7/21/2020 7:16:32	Michelleh	Haverkamp	Sts. Peter and Paul Scho	Seneca	I believe that the State Board of Education should give the local school boards control when deciding their school calendar and start date. We cannot take a one size fits all approach. Our kids need to get back in school for their social and emotional well being. Please let our local school boards and district administrators decide what is best for their students. I believe the Kansas Pediatricians group should be trusted in that they believe kids NEED TO BE BACK IN SCHOOL. I am our school's assistant principal and I trust their recommendations more than the governor who has no medical background or experience in the educational setting with students. Please vote NO on Governor Kelly's executive order!

7/21/2020 7:16:44	Michelle	Van pelt		Overland Park	Please allow in person classes this year. An online school year does not allow for a true experience and exploratory opportunities. Many need this for social and mental health. Many need to be in school for personal safety and nutrition. People are exposed in so many other areas, be smart and safe but let them meet.
7/21/2020 7:16:52	Darryl	Irion		Goddard	Please overrule our Marxist Governor and return our schools to local control.
7/21/2020 7:17:00	Amelia	B	parent and teacher	Topeka	The acceptable number of staff or student deaths is zero. Also, students and staff shouldn't be required to make up for loss instruction time due to keeping everyone safe at home. It is unacceptable to risk lives based on whether or not students will be behind on standards. The rigor of the standards have changed for this generation and they are forced to learn things at a younger age and teaching is being done to them and not with them. Teachers should be given the freedom to teach core subjects online with the options of smaller groups for learners that are exceeding or struggling. It is NOT healthy for students to spend multiple hours on a device!
7/21/2020 7:17:04	Samantha	Radefeld	Basehor Linwood high s	Kansas City	Please do not reopen the schools if you cannot even do a meeting in person. These teachers were life changing for me in high school and they deserve a choice and a long happy life. Don't take that from them.
7/21/2020 7:17:16	Michelle	Pankratz	St. Thomas Aquinas Cat	Wichita	I am writing to express my support for mandating online school this fall. Delaying the start is simply kicking the can down the road. There is no way to ensure the safety of our children. They will get this virus and spread it. I believe if our children return to school, the consequences will be devastating. Online is not ideal, I understand, but the alternative is worse. Children will not maintain 6 feet distance just because they are told to. They touch desks that others touch and there is no amount of sanitizing that will keep them from getting this. We should be focusing our energy on making the online experience the best it can be. Please do the right thing for the health of our children and the health of the broader Kansas community.
7/21/2020 7:17:17	Kenya	Patzer	USD 501	Topeka	Please keep students, their families, and their teachers safe by voting to delay the opening of schools. I fear that if we reopen on time, it will be nearly impossible to coerce certified staff to fill open positions and to get qualified substitutes into buildings - and we will most assuredly need subs. There is nothing to be lost by opening late and everything to be gained, especially the lives of our - of your - constituents. Thank you for making the best choice.
7/21/2020 7:17:23	Doug	Ott	Parent	Benton	Science supports kids being in school! From a health and well being standpoint they should be in school. For many kids that is where they are able to eat and be safe! School age children are not at high risk to coronavirus and according to studies in other countries they don't shed the virus either. If their are children or teachers with underlying health issues that make them more at risk then make exceptions for them to educate from home but don't force all kids to stay home because of that. Parents and their kids should decide if they want to attend not the governor. Same goes for playing sports! Kids need that and should be allowed to if them and their parents choose to.
7/21/2020 7:17:30	Keshia	Walden	Cheylin USD 103	Bird City	Our students need normalcy and to be back in school on the regular start date. If schools cannot start until after Labor Day, that will make it 6 months for students to not have received any face to face instruction. Some kids need to be in school for more than just the learning part. Especially in a rural area like Cheyenne County that has only had 2 positive cases, we want to open as soon as possible. For us, the waiting game is not worth our children's education.
7/21/2020 7:17:35	Allison	Hanson		Lenexa	Please keep all school staff and students safe and healthy by delaying in-school learning until COVID-19 numbers have gone down tremendously.

7/21/2020 7:17:56	Jenelle	Korte		Rural Latham	I would like to see the Kansa BOE vote to allow district superintendents to determine the start date of the school year for their respective districts. I disagree with forcing every district to postpone until after Labor Day. There could be many benefits to starting on time for schools where COVID-19 isn't currently escalating. For example, being able to take a break mid semester or end the semester early should virus numbers begin to spike. Also, having even a few weeks of in-person classes would make it easier for students to transition back to online or a combination of in-person/online classes after having such an extended summer break. Our kids go to a small school, where safety protocols and reasonable social distancing can be implemented easier than in a larger district. I don't understand the benefit of taking these important decisions away from local school boards so long as exceptions are made for teachers and staff who prefer not to come back or are high risk and an alternative learning option for students who prefer to stay home. Thank you for your consideration.
7/21/2020 7:18:07	Miriam	Krause		Overland Park	I believe that school districts and private/religious schools should have the freedom to decide their schedule for opening school for the 2020-21 school year.
7/21/2020 7:18:28	Darin	Seidel		Olathe	This executive order is a common sense solution to give districts the time they need to prepare for this school year. It also, if people will wear masks in the interim, will allow cases to hopefully come down prior to the kids starting school. I wholeheartedly support this executive order and urge the board to approve it.
7/21/2020 7:18:35	Michael	Fink		Olathe	Please vote to oppose Governor Kelly's executive order on delaying the start of the school year and let that decision be made by the local Boards of Education.  I grew up in north central KS, and this order should not be required of them. Just like a winter storm in KS, there are varying degrees of severity from county to county. Please let their local BOE have their voice heard.  Thank you,
7/21/2020 7:18:50	Michael	Austin	Parent	Lawrence, KS	I urge the State Board of Education to allow the decision to delay the start of school to a local level decision. Doing so allows parents and school districts most impacted by COVID to create a plan that works for them. In addition, areas that are not impacted by COVID can also do the same. This approach both minimizes COVID spread while ensuring education of our children remains a top priority.  Thank you for your time.
7/21/2020 7:19:05	Rachel	Snowbarger	Private tutor	Derby	Government is overstepping. The Covid vaccine has not been tested correctly (went straight to humans). Please allow schools to open. If someone wants to wear a mask, let them. If someone wants to do virtual school or homeschool, that's fine too. America stands for freedom! Please allow that to continue.
7/21/2020 7:19:19	Meg	Hoth		Overland park	Please do not delay the school year. That will only increase the exposure to our children!
7/21/2020 7:19:24	Jenny	Anderes		Riley	Please consider the opening of K-12 schools on their original time schedule. Delaying could very well make it so another delay and then another will keep them out for another semester. We have to try. Some schools may have to close but many won't. Many schools have been having summer workouts with no issues. Our kids need to have in person education. Online was a short term fix for the decision last year. It is not a sustainable form of education at a high level.
7/21/2020 7:19:32	Jason	Hoover		Mcperson	Tough times and i understand folks concern, but we need to get back to school as scheduled.
7/21/2020 7:20:27	Justine	Wilson		Colby	I believe that schools need to be open. Kids need to learn how to socialize and be around their peers. The students that learn hands-on will struggle with not being able to perform the task that is at hand if it's online. We all know that Covid is a disease but we haven't had schools canceled or delayed openings because of influenza, which is as deadly as Covid.
7/21/2020 7:20:21	Susan	Rokey	USD 113	Sabetha	Please open schools prior to Labor Day. Allow students and staff to wear if desired (not mandated). Use common sense. Schools don't need a lot of regulations. We don't regulate Influenza this way nor any other virus.
7/21/2020 7:20:30	Jeanne	Bates		leawood	Please hold back the opening of school until at least 2 weeks have passed since hospitalizations deaths and cases have spiked. Cases are still going up and you must wait until they start down and then Give It 2 to 3 weeks before bringing the students back. Teachers are terrified and students can also get sick and have after effects even if they're not hospitalized

7/21/2020 7:20:50	Kara	Herrman		Colby	<p>Please don't treat all of Kansas the same. Not all areas have the same amount of cases. When all of Kansas is treated the same, our kids question why and it is teaching them fear. So much fear and anxiety right now that our kids are taking on but shouldn't have to. The rural areas with lower numbers matter too- don't just look at the places with high Covid-19 numbers and make blanket statements, decrees because of them.</p> <p>Our kids need interaction with their classmates. Our 2 parent working homes need their children in school (for the record, I stay at home with our kids). We all made distance learning work (the teachers were amazing) but Covid-19 is here to stay and we have to learn how to live again. Please don't delay school anymore for those who have low Covid-19 numbers.</p>
7/21/2020 7:21:04	Darcy	Demetre Hill		Olathe	I support Gov. Kelly's executive order to delay school until after a Labor Day. While I'm eager for our kids to return to the classroom, I think schools need additional time to plan and implement a safe return.
7/21/2020 7:21:13	Katy	Fassnacht		Overland Park	I support the later starting date to give our schools time to plan for the proper safety restrictions AND to give our state's overall cases time to stabilize back down to a lower daily case count level. I have children that attend public school in Kansas. Providing families with additional help so that they do not have to rely on schools for daycare would help with the stress of the decision. Demanding companies let parents with kids work remotely or provide flexibility for parents is one way to help.
					<p>Thank you for your time and effort throughout this process, it is a daunting one, I am sure.</p> <p>As a former educator, I firmly believe Governor Kelly's plan to push schools reopening plans back is a very poor decision for all stakeholders. When voting, please consider the following:</p> <ol style="list-style-type: none"> <li>1. Students- they need school. They need it for their emotional, social, mental, and educational health. My own children and I... we can do an extra two weeks. They are in a stable household. Other children.... I worry about them so much. Recognizing that the virus has a high number of cases (or so they say), children have a very low contraction rate and to say they will have long term effects of this (what has happened from March on...) is an understatement.</li> <li>2. Parents- again... I'm a former educator and stay at home/work from home mom. I can homeschool my kids and adjust my daytime routines and we will survive. Other parents, bless their hearts, cannot. Please consider how this affects working parents and those who are not guaranteed a salary. I know you have parental complaints and those who think if schools do reopen will be upset because they claim their children's lives are in jeopardy. With the many plans every school district has worked so hard on all summer, these parents with these concerns and those who have children with poor immune systems can choose an alternative schooling method.</li> <li>3. Teachers- they need and want to be with their students again! While some may be concerned for their own health or the health of their family members that they go home to, I know most are prepared to move forward and be present for their students just like every other business and entity has done over the last couple months. People are ready to get back to their jobs and doing what they enjoy, and with all the many precautions already planned and prepared for, why wait? Those who are concerned should be able to also have an alternative teaching plan developed within their school. Let them work with their administrators on a plan that is best for them, even if it be a different role within the school system for a while.</li> <li>4. Administrators and those on leadership committees- Governor Kelly's order to keep schools closed is a huge slap in the face. She did not forewarn them, she did not give anyone a heads up that this was the direction she was taking.</li> </ol>
7/21/2020 7:21:16	Chelsea	Mellinger	Catholic Diocese of Wichita	Wichita	PLEASE heed the governor's executive order. It is not yet SAFE to return to schools. If you rush this, lives will be lost or endangered.
7/21/2020 7:21:19	Elizabeth	Walter	My family	Prairie Village	
7/21/2020 7:21:38	Becky	Sledd	Kansas City Kansas Pub	Overland Park Kansas	I am 57, my husband 60. I am not a scared most days, but the thought of being in a classroom of 20 kids that may be exposed to COVID and then exposing me terrifies me. I love my students, but the thought of one of them getting sick on my watch terrifies me most. I will teach online gladly until it is safe to go back. I am not feeling safe to teach while our number are rising.

7/21/2020 7:22:10	Michaela	Divoll	my family	Burlington	Makes no sense to delay school further or not have in Kerstin school this year as isolation is not happening in so many other cases. Like shopping at Walmart, csmps, pools, etc. Don't rob my children of their school year!
7/21/2020 7:22:13	Eric	Wilson	Maize USD 265	Wichita	Our family is in favor of delaying the start of school until after Labor Day due to the rising cases currently in Kansas and to allow teachers more time to prepare for what will be a year unlike any other. I have 2 elementary-aged kids in Maize schools and appreciate any steps you can take to protect kids and teachers. I believe a delayed start is best at this point. Please support this delayed start and do not undermine the governor's order. Also if there is surging you can do to reduce the required student contact hours so school can end by Memorial Day 2021 that would be greatly appreciated. Thank you
7/21/2020 7:22:15	Jaida	Mosier		St. George	Delay opening of schools.
7/21/2020 7:22:23	Kendal	Moore	Parent- Trinity Academy	Wichita	I truly believe the CDC recommendations are mentally damaging to children. The governor has overstepped her bounds and we must regulate. My incoming 1st and 4th grader will not be forced into a mask. I can not justify it and will not subject them to it. Stop the ridiculous government overstep for this politically overdriven virus.
7/21/2020 7:22:34	Chuck	Leininger		Hugoton	Not all communities have the same issues and should not be viewed as the same. Give control to the local communities to decide what's best for their schools.
7/21/2020 7:22:39	Trenton	Mart	Parent	Andale	Open school on time.
7/21/2020 7:22:50	Brooke	Woodworth	Parent of HS students at	Enterprise	I agree with the plan to delay the start of school until after Labor Day. That will give our schools LKE ty of time to have a good plan implemented and may allow the virus to slow down in our community. Please don't make this decision based on politics.
7/21/2020 7:22:59	Amie	Parsons	USD 420 Osage City	Osage City	Please vote to back the Governor's executive order to allow schools to start after Labor Day. It is the right thing to do for everyone in our State.
7/21/2020 7:23:05	Jacquelyn	Lindberg	SMSD #512	Overland Park	Yes, The numbers are high and the schools shouldn't open right now anyway. This will give them more time to get tech and/or protective equipment ready.
7/21/2020 7:23:13	Michael	Foxhoven		Auburn	Fully open schools and no masks for grade schoolers please.
7/21/2020 7:23:17	Amy	Hughes	Teacher	Gardner, KS	Do not open schools.
7/21/2020 7:23:28	Jeremy	Bayer	Midland Adventist acad	Shawnee	Please keep schools closed to at least after Labor Day. Thank you for all you do. I am a teacher and I am very concerned
7/21/2020 7:23:40	John	Clark		Olathe	I'd like to go to school in appointments to meet with the teacher or small groups for labs or projects and have online learning for the first quarter. Then if the numbers stabilize we can go to school 2nd quarter or continue with mostly online if we need to until the next quarter.... Either way, I would like practice work and homework to Be done at home so the students learn to Do school work at home so they Are accustomed to doing that. Even if the students go to school they need to be familiar with the online program. There will be days when they have to be home working this year if a class is quarantined.
7/21/2020 7:23:58	Nancy	Carson	Mother of teacher	Olathe	My son, awarded as a "teacher of promise" by the state of Kansas was excited to begin his first assignment as a middle school teacher & coach. Now he's terrified for his life. My son has Shwachman-Diamond Syndrome, a rare inherited bone marrow failure syndrome. He is immunocompromised. Being in a classroom right now is like a death sentence to him. He's hopeful he can be assigned homebound teaching to help kids like himself who cannot attend school in person either, but as first year, unsure they'd do that. Our family is extremely stressed about this! PROTECT OUR TEACHERS & staff! Remember that teens are often silent carriers. Please spare more lives that these students will spread COVID to! Thank you. Nancy Carson

7/21/2020 7:24:24	bob	smith	parent	salina	No matter the decision that is made, there will be people disagreeing with the choice made. These children have been physically out of school since March. Some, have been away from their friends since this started. Most, have been at daycare, out playing summer ball or working (at essential businesses none the less). These kids need to get back into the routine of school. Our school list always includes hand sanitizer and disinfectant wipes. Yes, they can be hard to find right now, but 3 extra weeks to get things in order? Starting school after Labor Day means that school will end sometime towards the end of June. Are we going to continue from here on out to always require school to start after Labor Day? If not, think of the short summer these kids will have next year. You are only giving them the month of July 2021 to have a break. Is that fair? Think of everything that has been slowly taken away from these children. It is not fair, nor do they deserve to have these things ripped from them. Schools have already set up alternative means if parents feel the need to keep some at risk students at home away from physically being in school. What happens if you wait until after Labor Day, and more cases continue to rise? Is school going to be delayed once again? How long are we going to keep delaying education from our children? This will always be a part of our lives now, just as the cold and flu season. We are to adapt and live with it, not to shelter our children. Most communities in Kansas have not seen a huge rise in cases. How is it fair to those communities to keep delaying school? Bigger metropolitan cities might have more of an issue, but there are other means of learning besides delaying the school year. We had to end with virtual learning, either start virtual in August for a month (we all know that the first month will most likely be a recap of the end of school anyways) or get these kids back into school. Request parents to provide a mask for their child until the school gets extras in. If we delay now, we will keep delaying. Lets get our kids back to some what of a normal.
7/21/2020 7:24:25	Amy	Sederstrom	Self	Goodland	Schools need to re-open before Labor Day. Children need to be in school and receive the education and resources that they deserve. More harm is happening at many of their homes. Lastly, please look at the rural areas that have very few cases of active Covid19. There is no reason they should not be open. I wish you could see how normal life is in rural Kansas.
7/21/2020 7:24:32	Martha	McDaniel	USD 511	Sharon	The Surgeon General says no children under 10 or 12 should be wearing masks. Why would our governor require that?! I have taught early primary for 41 years and cannot imagine the disaster it would be requiring those young students to mask up. It will be hard enough trying to teach without them seeing the teacher's mouth! But those masks will be everywhere except across their faces. Much worse chances of contamination and germ sharing. Please stop our out of control governor. We have NO active cases in our area. Why demand the same restrictions throughout the state? Allow local boards to set their own requirements. They know what's best for their communities.
7/21/2020 7:24:42	Denise	Stutey	259	Wichita	I believe we should not return to in person classes until it is safe to do so. I support the governors orders but actually I believe we should start with online classes instead of going in person. There are too many lives at stake and in a high school with over 2,000 students it will be impossible to social distance.
7/21/2020 7:25:10	Debra	Ringler	Teacher	Hutchinson	Please delay opening school. It is not safe, with the virus surging, for students or teachers to be placed in large group settings.
7/21/2020 7:26:19	Denise	Sanders		Eudora	Eudora elementary school is a very large school. I am worried for our teachers, staff and children. I feel.. -Masks must be worn by all. -Very limited school visitors (if any) -Classes to eat lunch in school rooms -Limited contact with multiple teachers and other students. -No shared school supplies 1) each child has own cubby area with items that belong to them  -Before coming into the school.... 1) Temp check 2) Asked if given meds (to lower any fever) 3) Asked how they feel
7/21/2020 7:26:37	April	dunker	parent	atwood	no....open schools back up...our kids have been out of school since march and not one case in our entire county...let each school district decide what is best for their areas

7/21/2020 7:27:08	Robert	Craft		Gladstone	Please delay school until after Labor Day. Teachers and children's safety should be considered first. Virus cases are increasing throughout the city, and it doesn't look like it'll get better any time soon.
7/21/2020 7:27:14	Alicia	King		Conway Springd	Please follow the EO by Governor Kelly. As a teacher, I feel it is important to give school districts and teachers time to implement a solid plan for the upcoming school year. It also allows for them to ensure their buildings are ready as well. This is not something that can be thrown together if we want our schools to be safe for all.
7/21/2020 7:27:18	Kaylynn	Singh	USD 321	St. Marys	I fully support the governors orders!!!
7/21/2020 7:27:23	Kara	Holdman	None	Lenexa	If the schools do not open on time they are failing essential workers who will struggle to homeschool their children.  Schools need to open on time or they are showing us that in person public school is no longer essential.  If families cannot count on an in-person option, they will find new options and they may not return. Why would they? Schools cannot be trusted to be there for their children when needed.  When other places like donut shops and liquor stores have never closed for a day, closing schools shows us that donuts and liquor are more important.
7/21/2020 7:27:24	Molly	Kengor	KCK Public School Tea	Kansas City Kansas	We need to delay schools and have schools online this year due to covid19. We need to keep students, families and teachers safe.
7/21/2020 7:27:35	Shirlena	Springmeyer	Delaying the 20-21 K-12	Medicine lodge	Even the warning signs on the box say they do not prevent against covid. I feel the mask is more harmful than good, when worn in hot work environments, when worn for a long period of time.
7/21/2020 7:27:40	Maria	Cicenas	Teacher USD259	Wichita	I appreciate Governor Kelly's order. It gives Kansas time to see its infection rate drop and district leaders and teachers more time fully prepared for what is destined to be an unprecedented academic year.
7/21/2020 7:27:45	Drew	Shirack		El Dorado	Hello, our community has very low case numbers of COVID-19. My child has suffered tremendously not being able to attend school. I'm really afraid he's going to need therapy after all of this and I feel he really needs to start school on time next month. Thank you for all you're doing.
7/21/2020 7:27:50	Beth	Noland	Olathe Public schools	Olathe	I believe the physically buildings schools should remain closed. On-line school is learning and teachers are engaging their students with this concept, the reports of total failure of this are very suspect and most likely not the norm, especially when we are talking about fourth quarter versus each first quarter attitudes for students. Mist districts have worked all summer to prepare for on-line learning of a very high quality. Students are socially interacting with their peers everywhere, if you look around. Risking students, teachers and other support staff is not acceptable. Due to the total failure of the federal government's response to disregard medical professional's guidelines of testing, contact tracing and quarantine. In addition the public's non-compliance with masking wearing has made this the disaster that it has become. Too many have needlessly lost lives and their livelihoods due to this total the politicalization of a biological virus. Without significant financial support from the federal government, there is absolutely no way that having face to face school is at all safe. Kids will be much more involved in distance learning this time due to the excitement at the beginning of the year and kids are resilient. They will catch up, it is called brain elasticity and well proven. Unfortunately most Kansans did not have the wisdom or courage to do the right thing by wearing a mask and we have zero choice but to close schools and stop the spread. Please do not risk more lives.
7/21/2020 7:28:08	John	Indellicate	Parents	Shawnee	Keep them closed. The districts aren't ready to handle the inevitable outbreaks
7/21/2020 7:28:49	Dani	Heinrich	My family	Deefield	I will not send my children into a school that will have such controlling mandates it will seem as if it were a prison. Let the local districts decide for themselves. Our children have been in activities together all summer with no cluster outbreaks....
7/21/2020 7:29:00	Derek	Dillinger	Self	Stevens county	No reason for a delay, implement the safety standard and move on
7/21/2020 7:29:11	Kelly	Urban	USd 431 school board m	Hoisington	We are a very small town with very few cases we need to Open our schools on time. Our teachers and students need to be in the classroom.
7/21/2020 7:29:23	Abraham	Kersting	Andover central	Andover	Comment removed due to profanity
7/21/2020 7:29:39	Denise	OLeary	My children	Wichita	My son has an IEP he also has special needs with a processing disorder requiring him to wear a mask for 8 hours a day is ridiculous and it's also unhealthy and will cause undue behavior problems at school.

7/21/2020 7:30:19	Kaleb	Hale		Olathe	Open our schools. Kids need structure, social interaction, and curriculum to grow. They have been out almost half the year.
7/21/2020 7:30:37	Nicole	Eaton		Caldwell	As a teacher, I feel that it would be beneficial to have the extra few weeks to go over the new guidelines and plan accordingly, so that we can safely reopen. Please give the schools the extra time to prepare our classrooms for students to return. Please vote to uphold the Governor's mandate to delay the school start date until after labor day.
7/21/2020 7:30:38	Deanna	Williams	USD 373	Haysville, KS	School should not start until after Labor Day. It is dangerous for the teachers and the students.
7/21/2020 7:30:41	Jennifer	Savage	Olathe Schools	Olathe	The 20-21 school year should begin on September 9th as the governor has ordered.
7/21/2020 7:31:20	Jennifer	Elliott		Chapman ks	Please have in person school starting in August. We need to get as much school in before flu season. Please look at the percentages of school age children that are sick or have died. Flu is as much a threat as covid. Please consider working parents. This past spring was the worst of our lives. And virtual school was a joke. Our kids need to be with others, not locked away at home staring at screens all day. Thank you.
7/21/2020 7:31:32	Teresa	Denk Smajda	None but live in usd232	Shawnee	I am in complete support of delaying school.
7/21/2020 7:31:42	Sandra	Wilson		Wichita	Please have schools in areas with high virus numbers delay their start until September
7/21/2020 7:31:44	Brandi	Wark	School board member/p	Colby	Let school and ALL activities resume on schedule for the best interest of our children.
7/21/2020 7:32:01	Derek	Sawyer	Sawyer Land & Cattle	Inman, KS	Please get students back in the classrooms ASAP. My "great student" went backwards with online learning and needs social interaction. We will never be completely safe to do any activities in life and the students' mental health and wellbeing, especially at this age, is extremely important. Please disregard the Executive Order and get them back to school! Thank you.
7/21/2020 7:32:20	Rachel	Thomas		Lawrence	Please support this executive order. In Lawrence, cases spiked due to college students visiting recently reopened bars. While our county health department closed bars again, when college students return to Lawrence very little will stop them from gathering together at houses, dorms, restaurants, etc. Plus, several families commute to other counties and cities in Kansas, like Johnson County, Kansas City or Topeka, for work. We need the time Governor Kelly is trying to provide to assess what our situation will be when college students return to school and provide a healthy environment for educators and students in school and their families who will return to work in other counties because of school reopening.  It saddens me to know this will even be a discussion for the state school board. Please do what you are elected to do and protect our school community.
7/21/2020 7:33:03	Carrie	Lindley		Olathe	Schools need to be opened, not just for education but for the mental health of kids. They need to be back into a routine and they need to be around their peers.
7/21/2020 7:33:19	Marjory	Eisenman		Overland Park	Please follow Governor Kelly's Executive Order and delay the start of school to after Labor Day. I know this is a hardship for many as I'm a single parent who works full time too. But the lives of our teachers and children are more important than our inconveniences. Give our schools more time to plan online education. Governor Kelly has had Kansans best interests at heart throughout this challenging time. Please support her order for Kansas schools.
7/21/2020 7:33:19	Robert	Hodgson		Overland Park	So glad school was postponed, though it's not remotely enough.
7/21/2020 7:33:26	Kelsey	Fanders		Atwood	I don't mind the later start- what I do mind is forcing my child to wear a mask for 8 hours. If that will be the case we will probably be homeschooling.
7/21/2020 7:33:30	Jessica	Kimball		Andover	Delaying school is the best option. It gives everyone more time to prepare and gather supplies. The kids will be okay! They'll be okay without sports for a year, they'll be okay without field trips for a year, they'll be okay! The health of the kids is important but also, and maybe especially, the health of the staff at the schools is important! Time is needed to figure out plans for substitutes and quarantine needs, if necessary.
7/21/2020 7:33:33	Rachel	W		Wichita	I support the delay. I want my children's teachers to be prepared and use this extra time to make the best decisions about what instruction will look like, and not rush back in. Thank you.

7/21/2020 7:33:54	Alisha	Gravel		Coffeyville	I greatly appreciate the public being allowed a voice in this matter. It is an issue with many viewpoints and no easy answers. Having said that, I keep going back to a very simple idea - delayed learning can be recouped, but lost lives cannot. I would like to think the decision of school start dates could be made by individual counties and districts. However, with the phases of opening Kansas up and mask wearing, we saw that all too often people will ignore the smarter choice in favor of the easy one. Now is not a time that easy and convenient choices should be at the forefront. Now is the time for the general public to be saved from ourselves by those who have the power to do so. To open schools in August only to have a spike at the K-12 level and have children's and staff's lives in danger is reckless. Please support EO 20-58.
7/21/2020 7:33:57	Elizabeth	Kelly		Olathe	If you don't want the blood of 14,000 dead kids on your hands, don't open the schools. But hey, whatever helps you sleep at night.
7/21/2020 7:33:59	Laura	Rogers	Haysville USD 261 Prin	Sedgwick	<p>I am the principal of a school with approximately 570 Pre-K through fifth grade students and over 80 staff. We all want to go back to school, understand that our children need to be in school for many reasons, and just plain miss them!</p> <p>But please give us time to develop plans for the safety of all. My staff is scared. Many of them have family members that are high-risk. I honestly don't know who will be willing to put their loved-one's life on the line to come back at this time.</p> <p>There are many complexities to figuring out the governors orders and moving forward. My classrooms are very small. We could only fit 10-12 students with social distancing and I normally have 24-27 students. How to move through the building, recess, where students eat - so many decisions have to be made.</p> <p>I know first hand how people screaming in your ear feels. Sometimes we have to make the unpopular decision for the greater good. Delay school and give the schools time to prepare as best we can.</p> <p>I'm praying for all of us in leadership to have wisdom. Thank you for your service.</p> <p>Laura Rogers Rex Elementary Principal Haysville USD 261</p>
7/21/2020 7:34:17	Jennifer	Dilday		Olathe, Johnson County	Please delay our school year as the Governor has proposed. I do not have the option of homeschooling and we do not have any other siblings. I don't know how to protect my daughter health and mental health at the same time. My wish is for her to go back to an actual classroom, but the risk are just to high right now. Please give these kids a fighting chance. We our anxiety is so high right now just leaving the house. Please give us additional time.
7/21/2020 7:34:33	Julie	Ellerman	Teacher	Atchison	Giving schools the opportunity to stock up on supplies and preparing for getting students back in school is never a bad thing. Delay the start will only benefit everyone. It's not saying we are not going to have school just simply allowing districts and communities to better prepare during this Covid time where our state is seeing results above 10% positive results. I want to get back into the classroom just as much as the next but I also want my students, family and myself safe.
7/21/2020 7:34:36	Mandy	Wilcox		Augusta	Please open the schools as scheduled on August 13th
7/21/2020 7:34:43	Stephanie	Eck		St Marks/Colwich	Our kids need to be back in school!! They need to be building their immune systems because this virus isn't just going to go away.
7/21/2020 7:34:46	Amber	Nowels		Olathe	Due to the rising positive cases and due to health concerns we feel delaying school start till September and offering online classes will be best for our children, teachers, and community family members.
7/21/2020 7:34:48	Ike	Uri		Beloit, KS	The start of school should be delayed.
7/21/2020 7:34:55	Kellie	Herndon	USD 470	Arkansas City	I feels masks should not be worn by kindergarten aged students.

7/21/2020 7:35:02	Patricia	Booth	Retired teacher	Topeka	To delay the opening of school is a public health and educational win. The weeks before Labor Day will allow the preparedness of school districts and individual buildings and staffs to be safe and effective environments for both students and staffs. And it allows those staffs to prepare curricula and strategies for all students to provide parents options as they choose the best learning environment for their children whether in a class with other students or online at home.
7/21/2020 7:35:10	Elizabeth	Lane		Olathe	Yes, I think school should remain closed until after Labor Day. I also feel 100% online school for the first semester is mandatory considering all of the Covid cases. Protect our children and their teachers. Liberty makes it possible for 100% online school, why can't we reach out to them for curriculum help and get these kids a good education online. Asking another district for help isn't a bad thing to do. I want my children to live to have their own children, not to mention my husband and I are high risk and my Kids would be heart broken if they brought the virus home from school. Give them a good option with online.
7/21/2020 7:35:13	Cheri	Smith		Topeka, KS	Children need to start school on schedule, and without masks and separation. They need normalcy, and the irrational fear that is not borne out by the numbers needs to stop. You are playing politics with the lives and educations of these babies, and causing their young hearts anxiety for no reason.
7/21/2020 7:35:28	Melody	Bearley	My family	Ludell	Please open our schools on schedule. With regular class room rules and good hygiene practices. As a parent of four boys I know routine is very important to development. I can not at home mimic the wonderful routine and social skills development that the classroom provides. I believe the covid-19 data from Kansas health departments so very little risk in youth and that youth may be dead end hosts. Meaning they do not develop high enough viral loads to shed the virus. Some teachers with risk factors may need to take precautions around their fellow workers or not teach this year. However our children need to get back to routine for their own mental health! Please open schools as scheduled and with usual classroom rules.
7/21/2020 7:35:32	Kim	Schleich	Buhler High School	Hutchinson	The schools have been offering 1-hr skill sessions, under the guidance of KSHSAA since June 15th. As a VB Asst coach, we've taken temps, used sanitizer before & after practice, Sanitized equipment & gyms each night, used no-touch huddles, & worn masks - athletes as well. While I have some issues w/athletes wearing the masks - conditioning is very tough, especially for those w/asthma - I believe that we've done everything asked of us and more in order to have a safe return to school & sports! I may be misinformed, but I don't think the cases surrounding sports have come from this environment. They've come from larger day-long or weekend-long events put on by private entities. Schools have smart, caring people working in them. Please allow them to continue their plans that have been working, for both school and athletics! Schools will likely incorporate more virtual learning anyway, so why not offer that hybrid option to those who are fearful, instead of taking it away from the majority? I've talked to many parents with young kids who have no idea how they're going to continue to work & provide for their families if kids cannot go back to school. They have no idea where child care will come from, or how they will be able to facilitate learning from home when they still have to work themselves. Please allow sports & activities to continue safely & to start sooner! We've done so much to protect our kids all summer - let us continue to do so in the safe manner we have been!
7/21/2020 7:35:34	Kaylee	Busick	Goddard Public Schools	Goddard	I think delaying it until after Labor Day will give teachers/ admin/ districts ample time to review guideline and plan accordingly for the school year. With the cases on the rise here in Sedgwick county, this is a no brainer. The coronavirus affects all people differently and we also have many on staff who are high risk. Not only are you putting kids potentially at risk, you are putting all the adults that interact with them at risk even more. Thank you for your time and the opportunity to voice our opinions! We support you no matter what!
7/21/2020 7:35:37	Colleen	McGuire	None	Pittsburg	Yes! Wait until after Labor day.
7/21/2020 7:35:41	Shannon	O'Connor		Lawrence	I am an educator and a parent. I know the value of in-person instruction. I also know how much we value our children and our colleagues. To delay school is the only course of action. Too many Kansans have forgotten our motto, ad astra per aspera. We (in the collective; I know my family and I have done our individual best) have done a terrible job of stemming the tide of this virus. We need three more weeks at least to have everyone come to their senses and take the virus seriously. Teachers and admins need three more weeks to digest the Navigating Change document and make robust plans. Please understand that we want our children in school and we want to be in school. What we are unwilling to do is sacrifice ourselves and our children for political gain.

7/21/2020 7:35:48	Blair	Hollis	Blue Valley USD229	Prairie Village	Please think about the safety of your students and teachers. Delay the start of school and divide a safe learning environment. If that can't happen, provide an online option until a safe environment can be provided. Last February I asked for two big bottles of hand sanitizer and my principal told me it wasn't in the budget. Hopefully that budget is being reworked.
7/21/2020 7:35:48	Beth	Loosbrock	Parent	Shawnee	Schools need more time to make the necessary adjustments in day to day operations, professional development for teachers, and much more in order for students and teachers to be safe.
7/21/2020 7:35:49	Kay	Howie	USD 444	Little River, Ks	Give teachers the time needed to make sense of the document provided to us by all the teachers who worked a good portion of the summer on it, give administrations time to make sense of it and obtain necessary supplies to keep students and staff safe, give districts time to survey their constituents and to listen to their questions, concerns, and ideas, give school boards time to approve plans prepared by the stake holders. Districts want to do best for their students but going in blind is not the way to do it. Uphold the governor's order.
7/21/2020 7:35:52	Kara	Adams y		Tecumseh	As a teacher and parent, I support governor Kelly's order to delay the start of school. As a teacher, I would like to have the opportunity to plan and prepare for my students, in whatever comes my way.
7/21/2020 7:36:17	Ashley	White	USD 259	Wichita	Delay the start of school or choose the virtual model. There is no other safe option.
7/21/2020 7:36:22	Barbara	Burdick		Wichita	Please support the delay of school starting for 2020-2021
7/21/2020 7:36:32	Samantha	Curtis	Parent	Valley center	I am all for the late start. I personally would like to keep my kids home for the rest of 2020. I know some parents are worried about their children being out of school for too long. Maybe we could start on time just have it all be virtual until our numbers start trending downward.
7/21/2020 7:36:34	Rachel	McClaran	Self and family	Valley Center	As an elementary principal and parent of public school students, I have spent sleepless nights and hours of worry over the past month about the return to school. School administrators and teacher leaders are working right now to decipher the guidance from the state and put a plan in place. Our district operations team is working on protocols to ensure that any return of students and staff to the buildings is as safe as possible. Our district learning team is working to create a cohesive plan that prepares us for the event that the learning environment is digital or hybrid while honoring our district's commitment to educational excellence.  These things take time and delaying the start of school gives us the time to fully prepare. Requiring the wearing of masks protects the countless educators who give everything to their students.  I respectfully urge you to uphold both of the executive orders that Governor Kelly is issuing regarding education. Our educator and student lives depend on it.
7/21/2020 7:36:44	Justin	Crain		Pittsburg	Please consider teachers and their families who have serious health conditions that have been informed if they get COVID, there is a very high chance it would be fatal. Is this political and is the media and social media keeping the issue stirred with a lot of misinformation? Most definitely. Yes, I believe children should be in school learning. Teacher want to teach as they chose the teaching profession as one they love. As I said earlier, no one wants to discuss the health and safety of teachers. Please, for once, put teachers first, especially ones with serious health conditions. Thank you fir your consideration. God bless.
7/21/2020 7:36:52	Jennifer	Shanks	Parent/Teacher	Wichita	Waiting to begin the school year until after Labor Day is a small thing that can be done to help ensure the safety of our community. Please consider delaying the start of school until our COVID cases go down. Thank you!
7/21/2020 7:36:55	Melissa	Camerer		Overland Park	Keep schools closed through Labor Day.
7/21/2020 7:37:09	Kelly	Hale		Kansas City, Kansas	You need to get back in school or start giving me my tax dollars that go to schools back. You Re creating hardships on families that work. And what about students who will continue to lag behind in school? Or the ones on the free lunch programs?
7/21/2020 7:37:08	Katherine	Cook	USD 348	Eudora	Please help protect us. Delaying the start of school is only a first step to protect teachers and students. Governor Kelly supports your work. Please support her.

7/21/2020 7:37:11	Erica	Benson	Teacher	Overland Park	<p>I am a high school teacher in Blue Valley School District and my children attend school in Shawnee Mission School District and I am concerned that schools do not have the staffing and infrastructure to keep students, their families and teachers/staff safe.</p> <p>High school questions/ideas:</p> <ul style="list-style-type: none"> <li>-Worried about PPE, sanitation, number of student contacts, lack of compliance with quarantines and who is going to keep track of student compliance and contact tracing? One sick student could dismantle an entire school. Many students live with their grandparents and in multigenerational families.</li> <li>-Teachers cannot prepare in class lessons AND effective online lessons to accommodate the inevitable number of students who will be quarantined for 14+ days at any given time.</li> <li>-The school districts do not have the necessary subs or sick leave systems in place for this to work. Our district already doesn't have enough subs to cover our classes in a typical year.</li> <li>-Everyone could do remote learning but essential workers or those who cannot accommodate kids at home should be able to send their kids to school for remote learning under adult supervision (para educators and volunteer teachers) and in a socially distant setting.</li> <li>-Until we have more effective testing it's all going to crash and burn by September anyway, why risk the lives of our children and families?</li> <li>-Our Districts have spent millions securing buildings from an active shooter, why are we now willing to let people die? New York Public Schools lost 75 staff members to COVID 19 in only two months.</li> </ul> <p>Please confirm Gov. Kelly's Executive Order to delay the opening of schools, our districts have not coordinated and they are not ready to keep everyone safe.</p>
7/21/2020 7:37:14	Laurie	Traylor		Johnson County	<p>I'm a mother of Elementary aged children and a teacher of Elementary aged children. I'm 100% for going back to school as normal in August. However, I also know there is a threat to immunocompromised individuals but there always has been. Now that we can manage it better, our education system should be giving people the opportunity to remote learn if that's what they're more comfortable with! Let's give people who want to return that option and those that feel safer at home that option!</p>
7/21/2020 7:37:30	Jena	Gunter	Myself	Lawrence	<p>Please keep schools closed until after Labor Day or longer. Our kids safety should be your priority. Not only that but our lives should be your priority. Kids are going to get the virus and then they are going to bring it home. Someone is going to lose their parent or grandparents. It's foolish to think we should be in a classroom when we can learn online until it's safe to do so.</p>
7/21/2020 7:37:49	Lauren	Niccum	ONEA	Olathe	<p>First of all, please know that we have an awesome governor who is trying to keep us all safe. I believe that you need to support the Governor Kelly's executive order to delay the start of school until after Labor Day. Please know that I miss the students dearly and want to go back to school, but not at the cost of the students and teachers becoming sick with this deadly virus and spreading it to others. I feel that a lot of the talk has been that students will be okay and it's all for the students. Well, what about the teachers? Are we just a bunch of teachers that can be replaced sickness after sickness? Two teachers have already died while teaching summer school because of this virus. That is two teachers too many! This is not just another virus like the flu and any person that thinks that is being irresponsible and ignorant. Listen to the doctors from KU Medical Center; listen to Dr. Fauci. They are experts in their field. If they say it's not safe to go back, then it's not safe. This week, I'm attending a 4 day conference virtually. I'm doing it virtually because it's not safe for myself and co-workers to attend in person. Therefore, why would it be okay to attend school in person for both students and staff members in 3 weeks? It just doesn't make sense to do so at this time and it's not safe, period.</p>
7/21/2020 7:38:09	Kim	G		Overland Park	<p>We cannot open schools safely at this time as positive COVID cases are higher than ever. Yes other countries have opened but that was only after they had COVID contained. We do not. Also, local doctors have stated that studies now show kids age 10 and over spread the virus at a rate the same as adults. Putting kids in crowded schools is recipe for disaster.</p>

7/21/2020 7:38:27	Carrie	Garraway		Lenexa	Start the kids out online and then take it month by month. This will allow the school year to stay on track for the kids.
7/21/2020 7:38:41	Kathy	Jansen		Wichita	Please support the Executive Order and delay school. It is not safe to open schools right now; not for our children or our teachers and staff! We don't want to send them in just to get shut down!
7/21/2020 7:39:04	Georgia	Brown		Olathe	<p>I am as excited as anyone for my children to keep learning from experts, well trained in engaging young minds, BUT daily new COVID-19 case counts are growing. Delaying the start of school may give us time to reverse that trajectory. If nothing else, it helps us all prepare for what will be a very different learning experience. At least for our family, the potential upside of a three week delay outweighs the downside of a little longer summer.</p> <p>Like most people and educational organizations, upon hearing Governor Kelly's announcement we immediately began evaluating options, put a plan in place, and discussed with our young children (kindergarten and 2nd grade). Why dismantle yet another set of plans? Let's keep marching toward September and take the time to prepare. I cannot imagine being a teacher or administrator and going from planning toward post-Labor Day to having less than a month to start in an environment full of unknowns.</p> <p>I do not have all the facts so perhaps there is something I am missing, but more time to prepare generally helps more than it hurts. Thank you.</p>
7/21/2020 7:39:09	Tiffany	Wegerer	St Mark's Elementary S	Wichita, KS	PLEASE allow our kids to start their school year! Allow our local districts to decide this, please do not enforce a one size fits all plan for our state as it just isn't right! Each county and district is unique in its surroundings and what is going on in their area, please allow them to decide what is best for their students and teachers. Over and over this virus has been found to NOT target our children, it has also been proven to be very unlikely for children to pass it to adults. School IS a safe environment for our children AND our teachers. Those who are compromised in some way can take the measures they need to keep themselves safe, not relying on others to do it for them. Please, please turn down the governor's mandate!
7/21/2020 7:39:14	Colby	Hudson		Medicine Lodge	No Mask for Our School
7/21/2020 7:39:18	Cynthia	Blixt	none	Merriam	I understand this is difficult but school isn't safe.

7/21/2020 7:39:41	Alex	Benson	Parent/spouse of a teacher	Overland Park	<p>My family and I are residents in Overland Park. My oldest child is a soon-to-be 2nd grader in the Shawnee Mission School District and my wife teaches U.S. History at Blue Valley North. I am a lifelong Kansan having grown up in Salina and attended the University of Kansas. I am of the strongest of proponents for our public education system.</p> <p>I am writing you as Greater Kansas City representatives of the Board of Education and pursuant to Governor Kelly's Executive Order delaying the opening of school's until after Labor Day.</p> <p>My sincere hope is that you'll vote to confirm the order. I applaud the Governor's effort to secure adequate PPE and ready the schools for reentry. I hope you will support this effort to keep our children and teachers as safe as reasonably possible.</p> <p>Every individual will have their own conclusions, but objectively I believe the following to at least be significantly concerning (supporting of the Executive Order):</p> <p>The reporting out of Florida related to infection rates in children is terrifying. There is not a consistent approach across school districts, there is very little Federal coordination or guidance for these districts to benefit from.</p> <p>The Federal response, specifically the Secretary of Education's position that schools should be opening given private sector has opened is reckless. To be clear, the private sector is not going back to work en masse, as it is undeniably unsafe (and I'm sure employers don't want the liability). I work for a Fortune 500 company; we announced our workforce is remaining virtual until early 2021.</p>
7/21/2020 7:39:40	Dana	Ravert	USD 233 Olathe (teacher)	Spring Hill, KS	Please vote yes on 20-58. We are not ready to start school without a safe plan for our students and staff. I am very concerned because I am considered high risk. Thank you.
7/21/2020 7:39:39	Victoria	Brinkman	Teacher	Olathe	DO NOT open schools at all! Delaying is a must so teachers and staff can prepare, but, please consider not opening schools at all! All learning should be online for the safety of our students and teachers. Have you been in a room full of 6th graders lately?
7/21/2020 7:39:47	Jennifer	Stillwell	Usd 273	Scottsville	<p>Please leave scheduling up to local districts. Although after all the governors edicts it is likely our district won't start until after Labor Day, this is a decision best left up to local districts. If covid numbers are low, starting in August may be the best weeks possible for school.</p> <p>I know you don't get to vote on this, but I am also very disappointed with the mandates about hourly hand sanitizer and masks at the elementary level. It's obvious Governor Kelly is not and has not been a teacher in the elementary grades.</p>
7/21/2020 7:39:56	Abby	Sage	USD 501	Auburn	I believe that if most districts are going to be starting online then we should be able to start school at our normal August start date and be online for August. I don't see a difference of starting online in August vs starting online in September. This will also help with districts trying to figure out new schedules to account for the 18 or so days missed since we will be required to make them up. Thank you for your time and hard work.
7/21/2020 7:39:59	Erin	McCormick	Manhattan-Ogden USD	Manhattan	Please consider voting yes, to pass the EO. As a teacher, we need some more time to get things figured out before starting in order to stay safe. The extension would do this. I understand that some counties/school districts are not as affected as others however if you voted yes to keep it consistent across the state then maybe those teachers from the districts not as affected will be well enough prepared as well so that their schools do procedures right and do not end up with all online learning due to outbreaks at their schools.
7/21/2020 7:40:04	Sara	Dick		Newton	Please support enacting all public health best practices in our schools, and delaying the start of the school year to allow districts to prepare for the additional burden of operating during a pandemic--and to allow our state to reduce community spread of the virus. Thank you.

					My kids need and want to go back to school. Please over rule our governor Wednesday.  Based on all the data and the American Pediatric Association- please pass this along! I'm watching them regress daily for a virus they don't catch, pass on, or die from.
7/21/2020 7:40:13	Lynn	Auslander		Overland Park	Get em back in school just like all our neighboring states Iowa, Nebraska, and Missouri!
7/21/2020 7:40:23	Michelle	Iwig-Harmon	My family	Lawrence	I support exec. order 20-58 and request that the BOE approve it to allow districts more time to prepare for the coming school year and hopefully time for the current spike in COVID cases to flatten out. The safety of my children is the most important thing in my life. Please vote to push the earliest start of school to September. Thanks.
7/21/2020 7:40:41	Mindy	Mayfield	USD 315	Colby	What is the point in delaying school? COVID will be around forever now. Can we just get back to our normal lives but keep encouraging masks and frequent hand washing? These kids have been out of the classroom setting for way too long! And it's not ok! Just start school at the normal date please!
7/21/2020 7:40:44	Austin	Belote	Anthony Middle School	Manhattan	I do believe the school year needs to be delayed. It's quite simply too risky to start at the beginning of August considering the limited amount of precautions our district is taking.
7/21/2020 7:41:07	Kristin	Rosen		Fairway	Please delay the opening of school to give our teachers time to make lesson plans suited to remote or hybrid options. Further the covid numbers in Kansas show us that in person school is not safe at this time.
7/21/2020 7:41:23	Aphrodite	Ahmadi	Parent	Overland Park	I'm in favor to delay the 20-21 school year. Our child's health is more important than any school work.
7/21/2020 7:41:32	Kristen	Grove	Parent	Peck	I agree with delaying the start until after labor day.
7/21/2020 7:41:52	Kelli	Sallman	Parent of high school stu	13100 Benson Street, O	This delay is common sense and good policy. With the current rise of COVID-19 cases, opening schools on the original date will only add fuel to the fire, endangering teachers and the parents and families of these students. I am seeing first hand from family and close friends in Texas, a state that opened ahead of Kansas, how these teenagers are bringing the virus home to parents after contact others in structured group settings, even socially distanced. The teens may have had mild cases but the parents are suffering with it. The extra time given by this delay is essential for schools to be prepared with masks and policies that will truly promote a safe opening. And the delay will give Kansas time to assess if we can reduce our numbers such that opening the schools fully will be wise. I say this as a parent whose high schooler would like to sing in his top choir group, play in band, and make the soccer team this year. But mostly, he wants his friends and family to stay safe. The KC Star reported just this morning on Overland Park pediatrician Dr. Natasha Burgert's comments regarding the number of calls she is receiving from teens contracting and spreading the virus in our community. We must delay, reduce the spread, and provide funds and time to get all safety measures in place.
7/21/2020 7:42:00	Karen	Elizabeth	Ms.	OVERLAND PARK	Schools need to be fully open and kid's sports resumed. Teachers are essential workers just as those who work in our food provision supply chains are essential workers. The latter feed our bodies while teachers feed the minds, knowing education and the social interaction is essential to our society.
7/21/2020 7:42:09	Matt	Bell	None	Plains	I believe school needs to start as scheduled for the well being of the students. Many do not have the resources for online schooling, especially those in rural and poverty stricken areas. Many districts found this out first hand last spring, including us. The number of kids that came to bus stops just for food was so high it shows that school is an incredibly important part of their every day lives and they depend on it for their well being, physically, socially and emotionally.
7/21/2020 7:42:15	Stefanie	Lane	Usd379	Clay Center, KS	As a teacher and mom, I fully support Governor Kelly's mandate!
7/21/2020 7:42:18	D	B	Schools	Wichita	Please delay
7/21/2020 7:42:32	Maria	Skiles		Overland Park, KS	School openings should be delayed for the safety of our students, our teachers and the rest of school faculty and staff.
7/21/2020 7:42:46	Tammy	Wachsicht		Junction City	School needs to go as scheduled, a month from now. There is always a fear of my child catching something at school, to me this is no different. We are working parents who cannot sit at home and school him, he is also an only child who needs the interaction with others. If you hold school off until September then what, another discussion another push back. We can't stop what's going on with the virus, but we can give our kids the education they are going to need when and if things get better.

7/21/2020 7:42:53	Mike	Paul		Salina	I feel it needs to be left up to local school boards I'm sure some school district would choose to start late but some have everything in place and Covid-19 are low so they may want to start earlier so they are not in a bind getting their hours in if we have a rough winter and have to close because of weather
7/21/2020 7:43:06	Rae	Carlton	USD 259	Wichita	Let us go back! Even if it's only online, there's not reason why we can't start in August.
7/21/2020 7:43:25	Jennifer	Laflamme	Utw. Usd259 teachers	Wichita	Please delay the start of school for everyone's safety.
7/21/2020 7:43:27	Laressa	Nordgren	Parent	Abilene	Please let this come down to each school board's decision and county.m by county!
7/21/2020 7:43:42	Wendy	Johnson		Lyons	Children need to get back in the classroom. They are out there socializing with their peers not quarantining. Some holdup basements with groups on video games. If they do not get back k to the classroom, America will continue to produce children that are behind in intelligence. Most school districts did not even grade the work that was turned in remotely. Pass. Children have the lowest rate of infection. Teacher's need to take precautions but need to get back in the classroom as well. Do the job you are getting paid for. We cannot live in a bubble of fear.
7/21/2020 7:44:03	Jessie	Robinette		Mission	We are a military family from Kansas, currently raising in Florida, returning in the fall. We see every day in Florida the havoc wreaked by unsound governmental decisions. Don't be a Florida. Delay school opening.
7/21/2020 7:44:37	Lori	Woodbury		Olathe	I agree with the Governor's order to delay school until at least after Labor Day.
7/21/2020 7:44:37	Ashley	Lafond		Lawrence	School should just start online and not in person until it's safer to return.
7/21/2020 7:44:38	Kathryn	Rickley	None/Parent	Olathe, KS	I strongly support the delay to give our schools and parents additional time to determine the best way to safely educate our children.
7/21/2020 7:44:49	Amanda	Frost		Goddard	Pushing back the start date is a step in the right direction. I think this allows for cases to go down and potentially get students to safely return to in person instruction. I also think there will be a time where schools would/should close down again due to the increase of cases that are sure to come with students back in buildings.
7/21/2020 7:45:24	Janet	Green	none	Wichita	I support delay. Actually, it should be delayed until every child and school official has been tested and cleared of COVID19. That along with mask mandates and social distancing practicing should help.  People also must remember that a lot of grandparents watch the after school and maybe placed in vulnerable situations, if every precaution is not initially taken.
7/21/2020 7:45:49	Ann	Mason	Myself	Olathe	I am a teacher. I have social distanced, worn mask whenever I go out, declined invitations to larger gatherings. I believe the districts need more time to safely prep for our return to brick and mortar. After everything I've done to keep myself and others safe, an Aug. return is throwing me and those I care about to the wolves.
7/21/2020 7:45:51	Doug	Mulqueen	My family	Topeka	Show me the effectiveness of a mask before mandating my children Have their learning negatively impacted by being forced to wear one. Please take a common sense approach to what you are going to try to enforce. Also, look at the actual impact of not wearing a mask and weigh it against being forced to wear one.  Finally, if I have to home school my children again, please understand that I will never vote for any increase in school funding again, and will absolutely stop doing anything to support my local schools.
7/21/2020 7:46:19	Ethan	Denton		El Dorado	Executive order 20-58 I believe is necessary to help ensure a safer environment in schools for all parties involved. It's not about being afraid of COVID-19, it is about being smart and doing the right thing.
7/21/2020 7:46:23	Eric	Fassnacht		Overland Park	I have elementary school age children that attend public school. It's important that we get our kids back to school as safely as possible. Minimizing schools as a virus transmission vector is critical. I support delaying the start of the school year to finalize effective virus mitigation and control procedures for schools and to allow administrators to procure necessary supplies. I support requiring masks for all children in public schools, increased distancing, increased outdoor breaks and learning opportunities, and strict adherence to cleanliness best practices. Rules for safe schooling must be strictly enforced if they are to be effective.

7/21/2020 7:46:23	Sarah	Masem	None	Newton	Delaying the start of the school year provides ample time for educators to plan, adjust, and troubleshoot issues related to bringing teachers and students back into buildings. USD 373 teachers haven't been allowed into some schools in the district all summer to prep for the upcoming year. Actually, no plan has been communicated by the district yet. Those students with special needs such as deaf/HOH must be accommodated differently considering many of them utilize some form of lip reading to communicate. With masking, this makes communication a challenge. Delaying the start of school gives educators time to figure out how to accommodate students with individual or specialized needs.
7/21/2020 7:46:31	Jessica	Good	Teacher	Goddard	Please delay starting school
7/21/2020 7:46:35	Kimberly	Nolte		Hiawatha	I feel that the local school districts should be the ones to determine their opening dates. Many districts have already spent time making their plans and they know best what they are ready to handle.
7/21/2020 7:46:36	Theresa	Martin	Lawrence Public School	Lawrence	Covid 19 cases are still rising dramatically in Kansas. Delaying the start of the school year until after Labor Day will give Kansans additional weeks to flatten the curve (assuming that everyone wears masks and maintains their social distance) to make it safer for schools to re-open. It also gives school districts more time to figure out HOW to safely re-open schools.  If Kansas jumps into this school year without a) the virus being under control in their communities and b) without adequate protections for students and staff, then the numbers are going to explode. I've read recent articles about how older children (ie middle and high school age) are just as likely to transmit the virus as adults, and school transmission will turn into a nightmare.  The additional time will help mitigate that.
7/21/2020 7:46:42	Sandra	Macias	Private practice- mental	Wichita	Please support Laura Kelly's executive order.  Please vote against Governor Kelly's order. From the standpoint of a mental health professional, I support children returning to school. Kids are a very low risk with the virus, and it will do more harm than good to continue to keep them out any longer. Please help our children.
7/21/2020 7:46:54	Tracey	Casey		Lawrence	We need to have a plan in place that protects the children, family members, teachers, and staff before we put students in situations that could put so many people at risk for death. We don't even know the longterm effects of this disease and how we could be forever altering these children's lives.
7/21/2020 7:47:02	Chris	Pace		Fairway	Delay in-person classes until it's safer for everyone.  I support this order.
7/21/2020 7:47:06	Tony	Chesney	USD305	Salina	Our demographic will struggle to make ends meet without a regular school schedule. While our city has seen a sharp increase in cases, our hospitalizations have stayed at a manageable rate and deaths have remained stagnant for months. The lack of daycare opportunities and the need for online learning support will stretch families beyond the breaking point. We need our kids in our schools so we can support them and help keep their families employed. I do understand that further distancing and restriction to large gatherings such as the school landscape helps flatten the curve of Covid, the toll it will take on our families might be too much to recover from.
7/21/2020 7:47:24	Aaron	Miller		Salina	I do agree with school being pushed back to the late Labor Day start in hopes of having more time to set up the schools and get the funding for safety for our children! I do not believe we are ready to do that safely in August! Please do the right thing and think of our kids, it's not worth the risk!!!!
7/21/2020 7:47:24	Betsy	McQueen	Turner USD 202	Kansas City	I strongly support the delay of opening school until after Labor Day.

7/21/2020 7:47:32	Kelly	Mooney		Cherokee	Please do not support Governor Kelly's EO 20-58. I have three children who are ready to get back to school (and participate in extracurricular activities) without a mask. Please allow such decisions to be made on a local level not as a state-wide mandate. Education is not the same in Cherokee County as it is in Johnson or Sedgwick County. One of my children participated in the KRR summer boost camp (without a mask requirements). The students (approx 50) were in the building for four weeks and there was not a virus outbreak. My daughters have participated in various sports tournaments this summer from Goddard to Overland Park to Springfield, Missouri with hundreds of other children (and their families). And as far as I am aware, there have been not any outbreaks or clusters associated with those activities. Thank you for your consideration!
7/21/2020 7:47:37	Laura	VanLeeuwen	Olathe West High School	Overland Park	Please vote in favor for this order to delay the start of schools in Kansas. It is the right, responsible decision for all students, their families, and teachers. With three extra weeks, we can, hopefully, flatten the curve and resume school in a healthier, unpanicked environment. If all of these state and district meetings are happening virtually, then without question, it makes no common sense to try and cram students back in classrooms in three weeks putting so many people at risk. The decision should not be based on sports or activities at all. As a choir director entering my 22nd year of HS teaching, I can tell you that we'll do our best to get back to singing when we can. Keeping teachers and students healthy should be the main factor. Thank you taking the time to read this message.
7/21/2020 7:47:56	Carter	Clem		Olathe	I agree with Governor Kelly's executive order. As a teacher, I miss my students tremendously and would love to be back in person, but it does not feel safe right now. While thankfully the students may not be affected too much by the virus, I worry about the more vulnerable faculty and staff. I also worry about the shortage of substitute teachers. There is already a shortage and I can't imagine more substitutes wanting to sign up during the pandemic. Thank you.
7/21/2020 7:48:26	Jennifer	Gaytan		Abilene	I believe we should base our decision on the numbers if we are trending at less than 5% covid cases on a 2 week period then we can proceed to open schools with safety precautions. If our numbers get above 9% in a 2 week period at anytime during the school year we need to go draw back to a virtual based learning. We cannot use our kids as guinea pigs to see what happens. We have already seen what happens when people get together. I have 3 kids in 3 different schools, I feel our family is at a triple threat. Potentially exposing us to 3 times the different amount of families. You can take temperatures, but it only takes 1 asymptomatic person to infect the school. What about bus riders, you would have to check temperatures before they board the bus. Maybe to help with the amount of kids at school at one time, do half a day with 2 grades in the building and the other half of the day with the rest of the grades in that building, or even on different days all together. We could start school virtually on time, and in person at a delayed time. Changes will have to be made to the normal school attendance, because these are not normal times.
7/21/2020 7:48:41	Linda	Piper	Parents at Olathe School	Olathe Ks	Vote NO to this Exec Order. Please vote to get kids to school without delay! Our kids need to get back to school for educational, psychological and emotional reasons. Please put the kids first and vote NO.
7/21/2020 7:48:55	A	Teacher	USD259	Wichita	I'm a teacher in Wichita who is concerned about starting school with buildings full of students. Every time I see a state BOE meeting I see a couple of reps virtual attending a meeting or a big plastic partition between members. If you aren't willing to sit next to a member with just a mask, how do you expect a building full of 1000 students to do the same. Ask teachers how difficult it will be to enforce this in a class. With a class full of 25 students or more, it's not possible to be 6ft apart. But do us all a favor, show leadership remove the partition, wear only a mask and sit as close to you can to other members. Now do this for 7 hours. This is what school will really look like.
7/21/2020 7:49:03	Nicole	Robles	Olathe Public Schools	Olathe	Please vote to uphold Governor Kelly's executive order. Keep our families safe!
7/21/2020 7:49:04	William	Wilson		Lawrence	Delay opening schools until after Labor Day. This would be enough time for cases to trend down.

7/21/2020 7:49:13	Jessica	Knight	ESOL Teacher KCK	Overland Park	Please do not let kids go back yet! I'm so scared and have never felt this anxiety before. I am all over the building helping over 140 ESL students. I need my district to have time to think about ALL areas and how we will run school next year) I admire how Governor Kelly is thinking of ALL that help make a building function. Personally, I'm anxious I'm for so many reasons. One being that I don't know what to do with my own kids (4 yo, 2yo) they usually go to our parents and grandparents. Do I send them there if I have to go back to the building and risk their health? Do I send my kids to preschool or do I teach them? (No clue how I will do this if im at work) SO MANY THINGS TO THINK ABOUT. We have not been over to my families since March. Please clarify that teachers will go back later As well but if needed we can hold zoom meetings to help get us prepared. We can not go back when the virus is at it's worse. There are so many reasons to not go back til after Labor Day... If you do not like that order then let's just do virtual learning) losing a life is not worth the risk. Thank you for taking the time to get everyone thoughts. You are doing a great job figuring out our 2020-2021 school year and I'm proud to live in Kansas!!!
7/21/2020 7:49:18	Misty	Peterson		Topeka	There are still places in Kansas that aren't effected by the virus, why should we make them conform to a broad plan that doesn't help them. Some places in Kansas have already met and formed a plan with many options and seem ready to start, let them go ahead with their well thought out plan that was planned by them for their needs. If a district needs more time let them manage it on their own, if they need help let them ask. If we delay school and then delay it again later you will be cutting into hours required to spend learning. Another point that I noticed. Many sports have been played throughout the summer. What message are we sending to kids when they can play sports and do activities at camp but we can't value their education by starting on time? I am all for sports and the benefits it provides kids (my sports scholarship helped me pay for college), but if we need to provide a good education for all kids not just in school but by our actions as well.
7/21/2020 7:49:29	Eric	Eaton		Caldwell	I support the delayed start until after Labor Day. Many schools have done this in the past while I was in grade school, I am now 45. Also this will give the teachers & administrators the extra time to prepare the buildings and figure out how to implement the safety guidelines for reentry. It is important we get kids back into the classrooms and this delay will help make sure that can happen.
7/21/2020 7:49:30	John	Buttenhoff	Buttenhoff Farms	Lincoln	Please do not punish counties with low virus count, less than five, by grouping them with big cities, we are not all the same. We need to have local control of our schools and be able to let our health department and sups decide what we need. Also the mask mandate for kids under 6th grade is going to be a colossal waste of time and when be a huge detriment to the learning environment for our children. It must not be mandated, optional for worried parents but forcing that on teachers and small school districts will cause unneeded expense that at this point in our economy these small town school districts can't afford. Please let us have local control.
7/21/2020 7:49:51	Sarah	Christopher	My children's education	Ottawa	I'm writing you today in concern to the re opening of Kansas schools. I absolutely understand the concern people have and in no way think districts & parents should be forced to go back/send their children if they don't feel it's what's best for their district/their child(ren). The problem I have is that I don't believe it should be just a one size fits all standard for all schools across Kansas. I believe there are some smaller schools that may be in a much better place to open with the safety precautions they have already planned to implement. So I'm begging you to please allow each individual to send their children if they feel comfortable doing so. I strongly believe this should be decided at a local level by the districts as to whether they open or not.  Thank you so much for your time and thank you for all your hard work that you do for the students of Kansas! Have a wonderful day!
7/21/2020 7:50:17	K.	DELARUE	parent	WICHITA	delay school. I like Derby schools proposal. Seems flexible enough to alter if need be
7/21/2020 7:50:21	Dyan	Cornelison		Frankfort	As a special education teacher for preschool age children I feel the governors order is causing undo harm to the population I serve. These students have had limited services due to the school closure and they are missing out on getting services during a critical time in their brain development. Please consider opening school sooner than recommend by the governor. Where I live we could of held school last spring as we had no cases reported here until this summer and now we only have 6 positive cases and all have recovered. Please stop punishing children by not allowing them the in person education and services they need.

7/21/2020 7:50:23	Jeff	Witters	Teacher in Olathe	Olathe	I am a biologist and I do not support schools reopening under the current circumstances. I teach at a school with 2400 people in the building, and without fast (<1 day turnaround) testing and effective contact tracing, schools will quickly become hot spots of community transmission. Mask mandates help, but even with full compliance the masks come off during 2000 kids all eating lunch. And there is simply no way to spread out kids kids enough while they eat. Should we callously discount potential long term complications for even non-hospitalized victims, we must consider that sick kids go home to other people, not just an empty apartment. This means family members at risk of sickness and hospitalization, which then tanks the economy further. I believe F2F learning is vastly superior to distance learning, but until capacity is built for rapid testing and effective contact tracing, opening schools will only lead to closed schools and much more avoidable morbidity and mortality.
7/21/2020 7:50:53	Mandy	Harmon		Andover	If delaying the school year helps teachers and administrators prepare for the year and feel good about teaching our kids, then that's what we should do. If delaying the school year is simply that - a delay - then we need to start at the normal time of year.  Additionally, I hope schools will allow students to participate in extracurricular activities as normal. If other organizations like the YMCA and other sports clubs can hold competitions, gymnastics, swimming lessons, etc. this summer and do so safely, schools can as well.
7/21/2020 7:51:27	Stacy	Randle	USD 389	EUREKA	Should be local control, local decisions.
7/21/2020 7:51:54	Dr. Robyn	Kelso	Fort Scott School District	Fort Scott KS	Good morning - I am contacting you to urge you to support and vote to uphold Gov Kelly's executive order to delay the opening of school buildings until after Labor Day. As an assistant principal in Southeast Kansas, I have been deeply worried about buildings reopening. I am an immuno suppressed individual who is also responsible for caring for my disabled brother. The fact that I could fall ill and be intubated and no one could make decisions on behalf of my brother sent me to bed in tears many nights.  Similarly, my husband is a cancer survivor who is missing a kidney, spleen and thyroid because of cancer treatment. Needless to say, I would have to find alternative living arrangements if school buildings re-opened as I can't risk bringing home covid to my husband.  Additionally mom is 88 years old and lost her house in the May 2018 tornadoes that ripped through eastern Kansas. Since that time, she's chosen to live in a care facility where many of her friends and neighbors reside. She was happy and well adjusted....until March 2020, when her care facility went into quarantine mode - no one in or out of the facility, which continues to this day. Her mental health is deteriorating rapidly and I worry that if she were to go into an end of life situation, I could not visit her if you choose to override Gov Kelly's order to delay schools.  If you choose NOT to uphold the Gov Kelly's order, not only will I not be able to see my husband, but I won't be able to see my mom even if she moves into an end of life situation because of the potential exposure to Covid I will face if schools are re-opened and cases are not trending downward/under control.  This morning I woke up after another sleepless night, worrying about my family - both school and personal family. Yesterday was spent looking for a lawyer to help me navigate guardianship issues where my disabled brother is concerned. As I have mentioned previously, if I am to get sick and become incapacitated, there will be no one to make decisions on his behalf and time is not on my side right now.  Please vote to uphold Gov Kelly's delay of schools so I have time- time to plan for my own personal family, time to plan

7/21/2020 7:52:27	Maria	Black	Black Family	Lawrence	I am a single working mother with a child starting kindergarten this year. My child has an IEP to help with a speech delay and cognitive/social issues. It is vitally important that my child receive the help needed to be success in the future. Schools and what they can offer my child in way of helping accommodate special needs is needed. School has been out for almost 6 months, my child needs to get back to regular lessons and learning in order to possibly have a future. As a working mom there is only so much I can give to my child. I implore you that school starts back within the buildings that are equiped to meet each childs needs and begins sooner rather than later because I do believe my child and other children need to get back to their regular stable schedules. The amount of stress being put on this children is uncalled for and the stress of putting parents in limbo is doing more damage we have to get back to normal. We have to face the reality that by shutting the doors for some children it created a handicap for their future that they will now have to overcome. Please open our schools when they are suppose to open, open the buildings and allow the children back inorder to regain the knowledge they need and finally give us parents back our schedules. I think it is time and we must return to some kind of normalcy.
7/21/2020 7:52:38	Michelle	Thompson		Lakin	Our students have been having basketball camps, summer activities, drivers ed, out of town sporting events and graduation since June and we have not seen significant cases. If those activities have been able to continue without incident why should school be delayed? What is good for a metro area is not the same for rural districts. Please take into consideration the vastly different needs of communities in Kansas and opt for local control and allow our local heath departments and school board to make the choice that is best for each community.
7/21/2020 7:52:43	Brenda	Diederich	USD 320	Wamego KS	Even with masks and 6' distancing, I see no way to stay safe--what about breathing air in windowless rooms for multiple hours? Its not safe in movie theaters and prisons--it can't be safe for teachers!
7/21/2020 7:52:58	Jeff	Neneman		Olathe	I support waiting until after Labor Day per governor's mandate. My wife is a teacher and we have an infant. We do not want to risk the kids and their families on the spread of COVID-19. I support implementing CDC guidelines for schools.
7/21/2020 7:53:07	Jacinta	Carter		Damar, KS	I am about to start my second year of teaching 8-12 English at Palco High School. I am also in the process of writing my will before the age of 30. This might seem like I'm overreacting, but considering how little we truly know about COVID-19, I decided to plan for anything that might happen. Speaking of planning, that's all I've been doing for the past few months, but still feel completely unprepared for the upcoming school year. From March-May, my co-workers and I scrambled to transfer all of our lessons from in-person to online. Since mid-May, I've been alternating between fixing up my classroom and creating lessons that can be easily delivered both in-person and online, just in case we have to shut down again. Despite these weeks of work, my room and my lessons are not ready for the start of the year. Starting the school year after Labor Day would help teachers, such as myself, to finish preparing flexible lessons, make sure our classrooms comply with the safety guidelines, and purchase any additional items to keep our classrooms and students clean and safe. I urge the members of the Board of Education to put politics aside and think of the children and those who teach them, and vote to uphold Governor Kelly's mandate to delay the start of the school year.
7/21/2020 7:53:28	Zach	Dowell	USD 482	DIGHTON	I am a school board member for USD 482, we do not agree with the governor's mandate on masks or the delaying of school. We would support any decision that would limit her powers. Our current county has zero cases and we would prefer to have the control in our local leaders and health professionals. She should not have the authority to make such drastic decisions for us. Please vote down her executive order.
7/21/2020 7:53:32	Rachel	Ryan	Usd 383/KSU/Ryan fam	Manhattan	Closing schools for another month will take away resources for special education students who have regressed over the past couple of months due to being out of school. Pushing school back will also cut a month off of time required for student teachers to be in the classroom, which will affect that I'm getting the best experience and the most training needed before going out into the world and having their own classroom. Also hourly workers who rely on school being in session to be paid will have an additional month off of work. I am a student teacher expecting to do her internship at Bergman elementary when school starts. I am also a para educator that relies on the hourly wage to help pay my tuition fees. Above all of that I am the older sister of two special needs kids who truly need the resources provided by the school, and has seen regression and not only my siblings, but other students that I have worked with. The school district tried very hard to provide resources at home, but it's fell short due to extremely hard to replicate a school setting for a lot of these kids, and especially harder for those in single-parent homes or homes were both parents have to work to provide for the family.

7/21/2020 7:53:45	Amber	Mettlen		Wichita	At this point, I don't care if we open in September or August. Just open them up even if they have to wear masks!
7/21/2020 7:54:14	Katie	Johnson	Parent and teacher	Shawnee	Please delay the start of school until at least Labor Day. I honestly think we should resume remote learning for at least first quarter, but waiting to start until after Labor Day will allow districts to better plan for the returning of students.
7/21/2020 7:54:23	Guillermo	Rodriguez	Teacher at USD 473	Abilene	After hearing that my district plans are not completely formalized and resources that are not available yet. I truly hope for school to be delayed until after Labor Day. Everyone is competing for the same resources, smaller districts in Kansas need more time to secure computers, cleaning supplies, and solidify plans. Large districts have a very detailed plan ready to go, but smaller districts do not. Especially as very important studies are continuing to be done and released that greatly change plans.
7/21/2020 7:54:27	LuAnn	Fox	Teacher	Kansas	Comment removed due to profanity
7/21/2020 7:54:46	William	Meyer		Colby	I do not agree with delaying our children's education for a virus that I not near as serious as the flu. There is no change in school during flu season
7/21/2020 7:55:06	Danielle	Perry		leavenworth	We have to be safe - stay closed at least until then.
7/21/2020 7:55:07	Hillary	Saffels		Lenexa	Don't open schools until after Labor Day and so online. Have the option for in person but only if absolutely necessary for the family, which they have to bring proof of both parents having to go to work in person or their student needing the in person for high needs special education, so that it will cut the numbers down dramatically and make it so the families who truly need to have their kids in school there.
7/21/2020 7:55:16	Tammy	Morriso	ANW COOP USD 257	Iola	Schools and athletics should carry on as scheduled. School personel know how to sanitize for flu/ colds ( covid 1-18). Data has not proven that Covid 19 is any different. If someone is uncomfortable with exposing their student- then keep them at home. If you value your students education and want them in school then sign a waiver and lets move on. These kids have been around each other and other adults all summer. We are doing more damage socially and intellectually by playing into these fear tactics. Our children are paying the price!!
7/21/2020 7:55:49	Elizabeth	Kopfmann		Marienthal	I'm willing to accept a delay, take precautions to protect my children, and make accommodations to make all those work. I struggle asking my kids to wear a mask all day everyday. I'm more worried about bullying, lack of healthy interaction, suicide should be brought to light before mandating a mask. Yes, corona virus isn't good, but my child and other children's mental well being is just as, if not more important. Let masks be optional. Make kindness MANDATORY!
7/21/2020 7:56:16	Melissa	Mitchell	Myself, teach at USD29	Baldwin City	I live in Baldwin but teach in Ottawa and strongly feel we should delay opening schools until after Labor Day. I'm not even sure it will be safe then if the COVID-19 numbers continue to rise. We do not know enough about this virus to have face to face instruction. If each district is given more time, then plans can be made for face to face, hybrid, or all online instruction otherwise I am to report to work on August 7. That is too soon and unsafe for everyone. Thank you for your time and consideration. Melissa Mitchell
7/21/2020 7:56:22	Ann	Pint	Family	Leawood	Schools need to be reopened - the facts don't support further lockdown of schools
7/21/2020 7:56:26	Melissa	Jobe	My family of 5	Olathe	I support Governor Kelly's order to delay the opening of schools in Kansas.
7/21/2020 7:56:31	Jill	Gherardini		Leawood	Please Implement the Gov. Kelly's Executive Order and extend the school year until after Labor Day. I am a Republican and I understand the political pressure that is being placed on the board by my party. I also plan on physically sending my children back to school when in opens (rather than online). However, with the considerable spike we have seen in COVID cases we have seen in the past few weeks, I think that it would be advantageous to push the start date out out a few weeks. Hopefully some of the active cases will subside especially with an increased requirement by big box stores and some smaller businesses to wear face coverings. Thank you for your consideration.

7/21/2020 7:56:37	Kris	Jenkins	USD #309 Nickerson/S	Hutchinson	Our students can be asymptomatic carriers, bringing the virus in to schools and giving it to others who, in turn, take it home to their families, some of whom could be immuno-compromised. I, for one, am not willing to 1. have my classroom be a petri dish or 2. jeopardize our state's greatest natural resource--our children! Our children are not lab rats! Do I want to be with my students? Of course I do! They bring me the greatest joy every single day! Teaching is my passion and I've been doing this for 37 years!
7/21/2020 7:56:42	Jaime	Davis	Parent of students at Cai	Topeka	We are in unprecedented times, and we need to do what is best for our children both physically and mentally. I want to see individual school administrators make that decision for our children. A decision made at a high level for all children does not take into account the individual needs of a school community. I trust our school administrators to make sound decisions. Leave it up to the schools to decide.
7/21/2020 7:56:44	Melanie	Deterding	Parent and also a Kiowa	Greensburg	I am a Kansas educator, as is my husband, and we are ready to return to school with students. I have two school aged boys ready to return to school and sports. However, we support Governor Kelly's executive order. I genuinely feel she has Kansans best interest at heart.  At this point, schools can't continue to be in limbo. A decision needs made, and we need to stick to it so we can get plans in place. The unknowns have made this the most unenjoyable summer break I've ever had because of constant wonder and worry. I finally felt last week like we had a decision and now can move forward to figure out how this will look for us. Then, when I heard that same day that decision can be overturned by the State BOE, I felt uneasy and disheartened again because of more unknowns and waiting.  I feel prolonging the start of school until after Labor Day gives us adequate time to prepare now that we have the KSDE guidance document. With cases of COVID-19 increasing, it also gives us a little more time to monitor the situation and make sure we have all of our safety precautions in place for students and staff both.
7/21/2020 7:56:49	Collene	Hammock		Shawnee	I do agree with the Governor's order. Schools should not open until community transmission has ceased or the Kansas State Board of Education believes it is safe to hold an in person meeting.
7/21/2020 7:56:58	Lisa	willis	parent	pretty prairie	NO MASKS! Let school districts have that control!!
7/21/2020 7:57:02	Devin	Werner	Parent	Cimarron	Please open schools on time. As a parent that also runs a full time daycare I can tell you these kids need to be back in school!!! They are asking to go back at this point. Daycares are over crowded already and parents have to work!! Our kids are going to fall way behind if we are forced to keep them out or do online learning. It's just not fair that the governor can make this decision for everyone. We have very few active cases in our county and honestly very few cases overall.
7/21/2020 7:57:25	David	Thompson	My Children	Haysville	Children's lives should not be politicized. One child dying is unacceptable when there are other options. At some point money and politics needs to go away, and the health and safety of the public need to be the priority.

7/21/2020 7:57:33	Christie	McBride	USD 259	Park City	I support Governor Kelly's delay in starting school. Schools need to prepare as well as teachers. Teachers are scared and making out their wills, which is horrifying to think about. I'm a teacher and parent. The numbers in Sedgwick county are rising exponentially, Sedgwick county schools should all start with virtual learning until the numbers come down significantly. The quality of in person instruction will not be good for kids, if we are constantly washing hands, disinfecting the classrooms, teachers wearing masks and trying to teach, and kids need to stay 6 feet away from teachers. This is not the best learning environment for anyone. If I have to go back in person with the numbers of cases rising, I will only if all safety precautions are met, but the quality of teaching will, not be there. Students will get much better and appropriate instruction from virtual learning at this time. One more thing, we still don't know everything about this virus, we hear every day in the news something different. Thousands of younger kids are testing positive which just a few weeks ago that wasn't the case, and until school starts, children haven't been gathered in large groups, so this is a gamble on lives. What about teachers and their families. Long term health effects of this virus is real even with asymptomatic people. There will be lots of teachers and students who get the virus at school, do you want their lives in your hands, I know I wouldn't be able to live with myself if I unknowingly got someone sick whether it be a staff member or a student, do you want that burden when teachers and students start going to the hospital on a ventilator and dying? Please support Governor Kelly and the lives of all our students, staff, and families.
7/21/2020 7:57:45	Shannon	Wedel	USD 428	Great Bend	I support the delay.
7/21/2020 7:57:47	Terri	Nickel		Colwich	I do not support waiting. COVID is a guessing game as it is. Require masks, distancing and offer virtual learning academy for those that are worried.
7/21/2020 7:58:00	Nicole	Yarbrough		De Soto	As a parent of a Senior and the wife of a teacher, I ask that you please allow schools to remain closed until after Labor Day. I also strongly support online learning after that date. Please help protect our children and teachers.
7/21/2020 7:58:00	S	W	My family of 6	Dodge City	I believe that families should be able to make the right decision for themselves. If they want to send their children to school and feel it is safe to do so, they should be able to. If the families feel that their children should wear a mask, they should and if they feel like their family should not wear a mask, they should be allowed to do that as well. If a Muslim person is not asked to take off their headscarf, then one person should be asked to put on a mask. It goes against our freedoms.
7/21/2020 7:58:25	Rachelle	Webb	Parent	Smith Center	The decisions on when to start and masks need to be left up to each school district or at least each county.
7/21/2020 7:58:27	Adrienne	Rost		Overland Park	Please uphold the governor's order to delay school and to wear masks
7/21/2020 7:58:32	Beth	Smith		Andover	Please give districts the extra time to get things in order to start school by not starting in September. Plus, Starting schools when the infection and death numbers are on the rise doesn't seem like an ideal plan. I am personally for being online for 20-21, but if that isn't an option, give the schools a chance to get everything properly ready.
7/21/2020 7:58:33	Laurie	Spencer	Family	Kansas City, MO. 2 sons	Please open the schools for our children
7/21/2020 7:58:56	Jody	Free		Salina	CDC is not showing children to be primary source of transmission. Open the schools as scheduled as they are already far enough behind. Do not require masks on any age child. Provide medical masks for any staff member who chooses to wear one. Require masks for all adult visitors. Thank you
7/21/2020 7:58:59	Leslie	Pruitt		Shawnee	Please vote AGAINST the Governor's executive order to keep schools closed until after Labor Day. The American academy of pediatrics recommends in person school for students this fall, schools in Europe have reopened, and parents need to get back to work.
7/21/2020 7:59:09	Aliasha	Daniels	USD 383	Manhattan	I am a parent and a teacher. I teach a district level program for children with emotional disturbances at the elementary level. My concern is most students frequently spit and bite along with physical aggression. How am I supposed to keep my staff and myself as well as the other students safe? I do not believe they will keep their masks on and they would most likely rip off the adults' masks. I know my students will benefit more with in person since they are on an IEP and online learning was helpful with meeting their behavior IEP goals, but I just don't feel safe going back knowing the risks we all will face with my students known behaviors.
7/21/2020 7:59:41	Kelly	Lonesk	Parent of Shawnee Miss	Lenexa	Delay the start of school
7/21/2020 7:59:43	Linda	Piper		Overland Park	Please vote NO. Let schools open as normal
7/21/2020 7:59:48	Robyn	Fulks	Shawnee Mission School District	Mission	I am in full support of the governor's executive order to delay the opening of schools. The health and safety of our children and our school staff is the most important thing.

7/21/2020 8:00:11	Lisa	Feingold	Maternal Order of Lunch Ladies	Merriam	Public schools need proper funding and time to develop effective plans that can be executed successfully.
7/21/2020 8:00:15	Karla	Kramer		Seneca	Once cold and flu season starts, I have a feeling things are going to spiral downward fast! We need to get started now so that our kids have as much face to face time as possible!! Learning online does not cut it. Our kids NEED to be in school!!! Open things up!
7/21/2020 8:00:33	Jill	Watkins	Prairie Creek Elementary	Olathe	Our 3 kids are ready to be in school! We take risks daily with health as we always have. No school until a vaccine means we will be waiting another year. The people who are uncomfortable can CHOOSE to stay home but the choice should not be taken away from the rest of us!
7/21/2020 8:00:53	Brenda	Gutierrez	Live Well Saline County	Salina	Teachers and staff need time to plan. Nutrition and food service need time to plan and to order food and supplies. Every school in every community needs a plan for substitutes. I am willing to step up and help in our community. Do NOT make a rushed decision.
7/21/2020 8:01:04	Jamie	Clark		CARBONDALE	I feel that the schools need to open up and the children need to start school on time.
7/21/2020 8:01:14	Beth	Payne		Hutchinsonn	I believe school shouldn't happen in person until this virus is over and kids can be normal and not wear masks
7/21/2020 8:01:33	Tennille	Piper	Piper family	Bennington	Please do not mandate masks all day or temperature checks or hand sanitizing. Go back to school as normal
7/21/2020 8:01:39	Debbie	Hagans	Principal of Sacred Heart School / Ness City	Ness City	<p>Dear Members of the State Board of Education in Kansas,</p> <p>I have sent several emails to Mrs. Clifford, my region member, however, I take this opportunity to ask you to grant schools with successful Online Programs to begin school with the same program.</p> <p>As Principal of Sacred Heart School in Ness City, I saw my teachers continue teaching from March 16 to May 15. Our parents were very supportive and receptive and we all feel strongly that we should be given the option to reinstate our Online Learning Program and begin our school on schedule August 20.</p> <p>No child, teacher, or staff member would be placed in danger and quality learning can continue with the use of Google Classroom. Students who need a device to access Google Classroom will be loaned that from the school.</p> <p>We have worked all summer to make sure we were able to open school face-to-face or online. We are ready to begin online! I encourage you to allow us to maintain our educational values and to provide the special services some of our students need.</p> <p>Sincerely, Debbie Hagans, Principal Sacred Heart School / Ness City</p>
7/21/2020 8:01:58	Laura	Lawler	my family	Topeka	<p>Please vote down the Gov. mandate to start school and activities late. She is playing games and was very clear that she did not give a date when school could start, just that it would not be before Labor Day. She will delay again, and again and again. PLEASE allow the districts to do what is best for their communities and get these kids back in school. They need and deserve an education. They are discouraged and depressed and I fear we are going to see the drop out rate and suicide rates increase far faster than the COVID death rate among our students. PLEASE look at the numbers and the facts and not the political agenda.</p> <p>Thank you for your time.</p>
7/21/2020 8:02:04	Ryann	Brooks	Parent in USD 253	Emporia	I support the delay in reopening schools. Our children and the teachers and staff in our schools need to be kept safe. I do not believe it is safe. Numbers in Lyon County continue to rise. I realize there are some areas in the state that have not been as hard hit — yet. They have been lucky so far, but we have seen how quickly this disease can spread and how hard it can hit once it takes hold in a community. The Kansas Legislature has used this entire situation as an excuse to play politics, when our governor has shown time and again that her utmost concern is for the well-being of everyone in the state.
7/21/2020 8:02:17	Randi	Ryan		Mulberry	Please do the right thing and support the governor's mandate. You aren't even meeting in person right now because it's not safe. Why would you expect our students to meet in person?
					Start school ASAP - no mask for small kids!

7/21/2020 8:02:23	Fire	OP	EMS	Overland Park	<p>The ordeal started in March with one of Green's daughters, then the other shortly contracted it after they returned from a volleyball tournament in Colorado.</p> <p>"There was no test available for my daughters. They were sick but not near as sick as me and my wife," Green said.</p> <p>Green is also on the Johnson County Emergency Medical Science Advisory Board. It was before the shutdown, but he knew enough about symptoms to wonder if his daughters had come in contact with coronavirus.</p> <p>But soon, for him and his wife there'd be no doubt.</p> <p>"I was on a ventilator for 18 days. I was in the hospital for a month. When I woke up, I was unable to stand or walk," he said.</p> <p>He started physical therapy and about a month later was well enough to thank his caregivers with his family by his side. He returned to work about three weeks ago.</p> <p>"When I got COVID, I actually was working on departmental plans of how we were going to handle this," Green said.</p> <p>And three months later, perhaps because they saw their boss literally on what doctors thought was his death bed, he said the department is taking what he called very aggressive measures to stop the spread of the virus.</p> <p>"One of the first things that we do when we walk in the door, if you don't have a mask on, all of our patients, we are going to hand you a mask," he said.</p> <p>It's what they've always done for respiratory illness, but now it's a policy for patients citywide. The department is doing its own contact tracing for anyone who calls in sick with possible symptoms.</p>
7/21/2020 8:02:43	Sue	Runer	Teachers	Horton	<p>Please support the Governor. She's leading Kansas with her heart, and not her own personal agenda, as it appears so many other Kansans are now doing.</p> <p>Teachers DO need that extra time to prepare, but more importantly.. we need time to see where our COVID numbers are before sending kids and teachers into the petri-dish.</p> <p>Please support her EO. And, if one comes out again to further delay schools, please vote yes on that one, too.</p> <p>Too many of our local leaders do not see this virus as real. So many think it's a hoax, and that is soo dangerous. Decisions like that can mean the difference between life and death.</p>
7/21/2020 8:03:09	Reagan	Parr		Great Bend	<p>Our kids need to be back in school !! How will their immune system ever be strong to fight stuff off when they want us to stay home and not be around anyone ..they need socialization!! my son who has adhd is struggling right now big time !! He needs to be around his peers and back into the classroom !! It is very critical for these kiddos to be back in school and learning !!! These kids have been out since middle of March and it's taken a toll On them !! My kids struggled with the online stuff it didn't work for them !! My main priority and concern is the kids they need to be back to school and get to learning and being with their peers !!</p>
7/21/2020 8:03:11	Lacey	Martin	Saint Thomas Aquinas	Overland Park	<p>I believe kids need to be in school. Simple as that. Studies have shown that kids aren't passing this virus. A delayed start isn't necessary in Kansas. Thank you for all that you do. Prayers for all of the decision makers!</p>

					I sincerely hope that everyone is taking this decision seriously and is thinking in the best interests of ALL involved. While educators and schools understand that, in many cases, we are the multi-faceted system of support to many families (and in some cases, to society as well), we also want to be SAFE in delivering our services and supports to students and families. Cases of Covid 19 are STILL on the rise in most places in our state, and we simply CANNOT say "well, parents need to get back to work and kids need to socialize" as a justification for opening up school buildings when it is NOT safe to do so at this time. Right now, I have many friends and colleagues who are contemplating things we NEVER had to think about before, as the possibility of returning to in-person school looms before us: what clothes are best to wear that can be laundered on high heat to kill germs and viruses, how to manage and police students in mask wearing and social distancing, how to disinfect our shoes and the interior of our cars, how to manage keeping students safe while still maintaining the rigor and fidelity of our lessons, and some who are even updating and/or writing their wills "just in case". In my opinion, the recent surge in cases of the virus should be reason enough to keep the buildings closed at this time. We ALL realize that remote learning is not ideal, but neither is the worry and stress that educators and staff are going through at this time while decisions are being made that directly affect our health and safety and that of our own families. If meetings and professional development sessions are still being held remotely on Zoom "out of an abundance of caution", how can you even think of over-turning the Governor's mandate about the opening of schools? Please do what is right for our educators AND our students at this time.
7/21/2020 8:03:17	Corrie	Stanley	USD 501	Berryton	
7/21/2020 8:03:17	Akilah	Harrold	Washington High school	Kansas City	Hello, I am the treasurer at Washington High school. One of my daughters is a student at Schlagle and the other one at New Chelsea. Please do not open the schools back up. The numbers are rising everyday. It is not safe!
7/21/2020 8:03:41	Emily	Dennis		Lawrence	My name is Emily Dennis. I am a mother of two students in Tonganoxie, current 5th grade Teacher, and wife of a Farmer. I am writing to urge you to vote in support of Governor Kelly's Executive Order to delay the opening of school in Kansas as well as other mandates outlined in her order. School is important to the well being of children but the risks to children, their families and adults who work in schools is too great to open schools any sooner that Governor Kelly outlines. Children won't be able to receive all the benefits of the free quality education they have a right to if they're sick or die from COVID-19.
7/21/2020 8:03:52	Lisa	Sonsthagen	public school Parent and educator	Olathe	With the astronomical rise in infection rates and the progression of how younger students can get COVID and pass on to others, the BOE needs to approve the EO based on the data. The school districts need more time to obtain the supplies needed and train staff. And as a state we must do better to lower the spread, Prayerfully with the additional three weeks, we will see a decline in rates. If the concern is really for the students, the students would do better with a consistent routine virtually than the trauma of having teachers gone for extended times and various subs in to take place. However many subs have said it would not be worth the personal and family risk to accept sub jobs. So what happens when the teacher is sick and the job is infilled? Pack then in another classroom? Have different staff come in for 30-60 minutes chunks who don't know the curriculum nor the students? What is best for kids is delaying the start of school.
7/21/2020 8:04:08	Andrea	Hargitt		Quinter	Since Gove county COVID numbers have not spiked or even gone past 2 positive cases this entire time, we should not delay the start of school. If our numbers spike before August 17, then yes we should delay.
7/21/2020 8:04:08	Joy	Granade		Overland Park	As a parent I ask that you uphold Gov. Kelly's order to delay the start of school. I think it gives our teachers and students the best chance of staying health while still providing much needed social services and education.
7/21/2020 8:04:09	Rebecca	Nordyke		Wichita	I am a university professor who has chosen the option of teaching remotely for fall semester. My four grandchildren in USD 259 need the same option for their health and safety. They are not expendable, and neither are their teachers, school staff or parents. Please err on the side of caution and keep schools closed. Siding with politicians who argue that European schools are open is the fallacy of false analogy. Numbers of infected individuals have significantly dropped in those countries. Numbers have not dropped in Kansas. Put lives, not politics first.
7/21/2020 8:04:09	Rachel	Everhart		Topeka	Please allow schools to open. Our children need to have in-school classes.
7/21/2020 8:04:11	Brett	Wedel		Tonganoxie	Please uphold the Governor's order to delay the start of school to allow schools to gather the proper equipment.
7/21/2020 8:04:17	Vicki	Smith	Education	Lawrence	For safety of students and educators as well as their families, please approve delayed start of school year.

7/21/2020 8:04:21	Marla	Gibson	Teacher	Overland Park	Until it is safe for all involved, students, teachers and staff, the state should be virtual. The world is working on a vaccine, that should be here around the holidays. If we stay virtual many people will still be alive to share the holidays with their family that might have died if we rush back. Kansas has amazing teachers that will do their best virtually. Give them a chance to start preparing now and vote virtual until semester. Why would we open, loose human life and then shut down anyways? People, teachers, staff, grandparents might be gone from family celebrations and our future if we don't stay virtual. Please vote to stay virtual.
7/21/2020 8:04:24	April	Neuman		Cimarron	Open up please. Don't wait until after labor day. Please no masks, or masks optional!
7/21/2020 8:04:29	Julie	Taylor	Parent	OP	I support the decision to delay the start date for this school year and require masks for any in person learning down the line. Thank you for being proactive in keeping our kids, families and cities healthy!
7/21/2020 8:04:52	Shelsea	Terrones	Parent and school employee	El Dorado	Schools should remain closed for now, our children and teachers will not be safe. Especially because you cannot ensure a younger student will wear a mask or social distance. You are giving the option for virtual yes, but what about those teachers who have to work that have children in the school that are being put in a position to endanger their lives and those of others. Or those that are high risk. Who will be responsible when we do have a case or God forbid, a death from COVID, as a result of rushing back before it is safe. I say begin with online with everyone, then once it is safe to return then we could do so. Our children are the future, they are also very resilient and will get through this, even if they have to wait a little longer.. I would rather keep my child healthy and alive then risk catching a potentially deadly virus. Why is now any different from when schools closed, the numbers are worse and still rising.
7/21/2020 8:05:01	Teresa	Spencer		Wichita	I am in support of the governor's order to keep schools closed until after Labor Day, as well as masks for students when we return. I am a teacher with a family of my own and I just want everyone to be safe and healthy.
7/21/2020 8:05:05	Mindy	Fry	USD 232	Shawnee	PLEASE delay school. There are currently no safeguards in place and we need time to implement them. Teachers are not medical personnel and schools are not medical facilities. A simple delay will allow us to do our best to protect Kansas students and teachers. Including installing air purifiers in the HVAC, getting mask shipments in bulk, reformatting our teaching styles to be safer and distanced, adjust scheduling to help with distancing, inform school families, etc. Dont throw us into the petri dish of a school without protection.
7/21/2020 8:05:18	Erin	Kenendy		Lenexa	In-person learning should not occur until the number of new cases has decreased for 14 days. Once that goal has occurred then school reopening should be done in phases just like business we're reopened. Ease into the possibility of having face-to-face learning. Staff and student lives are not worth risking!
7/21/2020 8:05:18	Kim	Mittermeier	The Mittermeier family	Topeka	Thank you for accepting feedback on the Governors order to delay the start of school. I am the parent of a high school sophomore at Washburn Rural High School. His father and I are both over 60, meaning we are in the danger zone for the virus. My son might be ok, but his father and I might not. I urge you to support and uphold the governors order. Pushing back the start of the school year will give the schools and community two things. #1 Time to flatten the curve. The mandatory mask order has only been in effect for a week here in Topeka. Of course we all know the dreaded 14 day window of incubation. This additional time will give the community a chance to get ahead of and hopefully slow down infections. #2 Schools will have time to better prepare. Everyone says they have had all summer to prepare! What in the world have they been doing?! They were preparing for what they THOUGHT was going to be school with the virus on the decline, not for when it was rising and actually WORSE that it was when they left! They need time to train teachers and staff members. Time to read through and implement all of the mandates that the KSBOE handed down just last week. They need time to make a plan for an executive order that was handed down just this week! We all want the safest environment for our children. I have spent six months keeping my son safe from this virus by keeping him home where I know it is safest for him to be right now. He desperately wants to return to school and to STAY in school. Please, let's give the schools the TIME they need to make it safe so our kids and teachers can return to school, and stay there for the whole school year. Thank you, Kim Mittermeier Concerned parent

7/21/2020 8:05:33	Landra	Fair	teacher	Lawrence	As a high science teacher in Johnson County I am terrified about in-person teaching. This virus is not contained and being in groups in enclosed places is the worst thing we can do at this time. I will not feel safe to go back to in-person schooling until the COVID cases numbers in my county are acceptable.
7/21/2020 8:05:31	Amy	Calhoun		Topeka	Support the mandate to keep schools closed to allow the virus to slow down and school staff time to prepare for the year with new restrictions
7/21/2020 8:05:43	Shannon	Schuh		Holton	I either say close down the schools for entire semester or open them back up in full swing in August. And if you are opening them back up and quarantining the teacher and class that has a positive case or comes in contact with someone, you're gonna have a problem in the smaller towns. Say you have a kindergarten student whom get a positive test. Then the whole class has to quarantine. Well then all the siblings of said class has to quarantine. Now you pretty much have the whole school under quarantine. That's a small town school. Just saying. I appreciate you guys very much and pray fo each and everyone of you during this difficult time♥□
7/21/2020 8:05:49	Nicole	Freubd	Parent	Wichita	The delayed start is common sense. It gives everyone more time to figure out how to approach an unprecedented challenge to public health and safety.
7/21/2020 8:05:51	Alyssa	Simon		Dighton	We currently have NO active cases of COVID-19 in our county. Delaying the start of school will merely be hurting the students. If we don't go back to school until September, our students will not have had in-person instruction for nearly 6 months. That is NOT in the best interest of our kids.
7/21/2020 8:05:54	Anthony	Fasl	Student Parent	Lenexa	Resuming schools shouldn't be delayed nor should school activities be delayed. Cases are rising but have seen little impact on serious conditions for children and the need for education, social interaction and structure outweigh the low risk factors. Additionally if these student don't return to school they will still be engaging with other students outside of the classroom so closing schools will do little to impact impacts on students, controlling conditions in the classroom will benefit the overall health of the students. For the long term health of the students the schools need to be open.
7/21/2020 8:06:03	Leslie	Smith	parent	Prairie Village, KS	Gov. Kelly's delay of the school year was a VERY good thing. It gives more time for teachers to prepare for the inevitabilities of hybrid learning and to help get our soaring Covid-19 rates down with a few more weeks of mandated mask-wearing.
7/21/2020 8:06:53	Jenny	Havermann	Olathe USD 233	Olathe	I support the delay of the start of the school year. I ask that you also support the delay.
7/21/2020 8:07:20	Erin	Gibson		Hays, KS	Delay is fine but if my child is made to wear a mask we will be home schooling
7/21/2020 8:07:11	Jacob	Weston		Wichita	Let individual districts decide what is right for them. Local leaders have been working on plans since schools were closed. Ditch the one-size-fits-all approach. Districts in a county with thousands of COVID cases should not be doing things exactly the same as districts in an area with a dozen cases.
7/21/2020 8:07:28	Linda	Piper		Overland Park	Please vote NO. Let schools open as normal
7/21/2020 8:07:33	Emily	Reimer	Parent	Lawrence	Please abide by Governor Kelly's executive order to keep schools closed until after Labor Day. This gives teachers more time to prepare and offer a solid education plan for our students.
7/21/2020 8:07:35	Stephen	Webster	Citizen	Great Bend	With any plan to resume schools, why is there not a mask requirement for students but there is one for teachers? It makes no sense not to try an protect teachers who will be the most vulnerable. With no teachers there are no classes. I feel everyone understands the importance of getting children back in the classroom but please include teachers in your concern.  Whatever decision you make, I hope it is based on the best information you have available and not which side of the political isle you lean to.
7/21/2020 8:07:35	Danielle	Pippitt		Shawnee	Tough decisions. Thank you for your efforts.  I support the executive order. At a time when the number of COVID cases are increasing in our area, I think it is wise to delay school openings. In September we will hopefully be at a better and safer place in our state.

7/21/2020 8:07:36	Candi	Chay	Usd 259	Wichita	<p>Online only please we don't need teachers and kids dead for teaching or going back to school make it simple and just do it online maybe face to face in the spring ? If covid cases are 14 days no cases.. cases are going up each day in Wichita this is not ok.</p> <p>Online is the only way right now.</p> <p>School might be longer after May into the summer we will have to see ? But I think ☹️ it would probably be good.</p> <p>I also think a lot of the paras working in the schools some of them are one on one or a group but you have some you still have to be right by them to help them they are also more able to get Covid. On top of that a lot of school don't have air conditioning that works all the times or no circulation of air or no windows bathroom with no ventilation that is all asking for problems.</p> <p>Kids are going to be more restless with probably no outside time and no pe or music out of the class I see more kids having problems.</p> <p>Some kids are very social and it will be very hard for them to be apart from friends most of these kids haven't seen any of there friends at all</p> <p>It's sad</p> <p>Online Only</p> <p>14 days no Cases of Covid</p>
7/21/2020 8:07:59	Jessica	Eggleston	Olathe USD 233	Overland Park	As a teacher, I feel it is very important for students to not go back until after Labor Day. The numbers are rising and we need to gather the important resources before we can begin. I would rather be prepared and go longer than jump too quickly back in the classroom.
7/21/2020 8:08:29	Brigitte	Gray	Teachers	Kansas City Kansas	We should follow the executive order.
7/21/2020 8:08:29	Kelly	Sullivan	Myself-retired public school teacher	Wichita, Ks	Delay school until virus threat is controlled.
7/21/2020 8:08:30	Leah	Mehl	Usd475	Junction City	Please support EO 20-58 , open schools when the numbers of positive cases show a decrease. Keep our communities safe.
7/21/2020 8:08:34	Glen	Sharp	Private citizen	Baldwin City	Sustain the Governor's order to start schools after Labor Day. Not the time to vote ideology.
7/21/2020 8:08:42	Jenny	Duld	USD 233	Shawnee,	<p>Please consider upholding the governors delay in the start of schools until after Labor Day. While some counties has not seen the spike, Johnson County has seen and continues to see growing cases on a daily basis.</p> <p>I want my child to be able to go back to school and interact with teachers, classmates, etc. Remote learning is a temporary fix that can work in the short term but not for the duration of the semester or school year. Also, please consider the teachers at all levels who risk exposure stepping into a classroom.</p> <p>The bottom line is this delay is not forcing us to go remote, go in person, etc. but gives a chance to catch our breath and approach this with preparation and planning.</p>
7/21/2020 8:08:42	Tresa	Burger	Teachers	Sabetha	This decision should be left to individual school boards. Not every place will have outbreaks at the same time, and each school district needs the flexibility to stay home or attend in person according to whatever their particular community needs dictate. One size does not fit all!
7/21/2020 8:08:47	Dana	Gering		Spring Hill	We have two children and we want them in school. If people don't want to risk it then they can do at home. I do have questions that I will need answered if you all decide no in school option. Since we are working parents how do you plan for us to be able to do school at home? And will there be money given to working parents when we have to hire a nanny or tutor to teach our children? Im not trying to be rude but these are all real life questions we will have to answer and figure out. Thank you

					<p>Schools SHOULD NOT open until after labor day. Please consider the following questions and concerns.</p> <ul style="list-style-type: none"> <li>• If a teacher tests positive for COVID-19 are they required to quarantine for 2-3 weeks? Is their sick leave covered, paid?</li> <li>• If that teacher has 5 classes a day with 30 students each, do all 150 of those students need to then stay home and quarantine for 14 days?</li> <li>• Do all 150 of those students now have to get tested? Who pays for those tests? Are they happening at school? How are the parents being notified? Does everyone in each of those kids' families need to get tested? Who pays for that?</li> <li>• What if someone who lives in the same house as a teacher tests positive? Does that teacher now need to take 14 days off of work to quarantine? Is that time off covered? Paid?</li> <li>• Where is the district going to find a substitute teacher who will work in a classroom full of exposed, possibly infected students for substitute pay?</li> <li>• Substitutes teach in multiple schools. What if they are diagnosed with COVID-19? Do all the kids in each school now have to quarantine and get tested? Who is going to pay for that?</li> <li>• What if a student in your kid's class tests positive? What if your kid tests positive? Does every other student and teacher they have been around quarantine? Do we all get notified who is infected and when? Or because of HIPAA regulations are parents and teachers just going to get mysterious "may have been in contact" emails all year long?</li> <li>. Does every classroom and/or Office have an air purifier? Do every bus that transports students have air purifiers? Does every bus driver and school staff have PPE equipment? What equipment and/or materials have been purchased to sanitize every bus and school?</li> </ul>
7/21/2020 8:08:49	Donisha	Hoffine	Parent of 6th grader	Wichita	
7/21/2020 8:08:52	Abby	Ryan		Overland Park	I have three kids — one in elementary, one in middle school and one in high school. They need to be back in school with their friends and teachers. Being out of school has had a negative effect on all of them — I've seen increased sadness, depression, anxiety and weight gain. Teachers and administrators are essential workers. Please get our kids back in school ASAP. The numbers show that kids are not "sick" with Covid. I feel like we're sacrificing the mental health of our kids for the older population that is at risk. Virtual school did not really work for our family.
7/21/2020 8:09:00	Mark	Nelson	None	Courtland	I support Governor Kelly's current request to delay the opening of schools. I would even prefer that schools didn't open back up until a vaccine is available to stop the spread of Covid 19. We will not be sending our child back to school this fall. Distance, or online learning is the only responsible approach at this point.
7/21/2020 8:09:10	Ginger	Scripsick	Buhler USD 313	Buhler	Give the decision to each individual school district! This is not a one size fits all situation. Whether school starts in 3 weeks or 6 weeks the virus will still be here, it is not going away no matter what restrictions are in place. That is a fact! We have to learn to live with it, kids need to be in school, districts can decide what is best for their children!
7/21/2020 8:09:11	Rachel	Jones	my family	gardner ks	open the schools. Sooner, rather than later. Ditch the masks-at least for the Elementary schools.  This is such a hard decision. I don't envy you your position. Regardless of what you do, we will support your decision and our teachers.
7/21/2020 8:09:12	Mary	Vanausdall	Teachers	Shawnee	I think that we need to start school after Labor Day, to make sure Covid numbers go down.
7/21/2020 8:09:22	Don	Johnson		Minneola	We don't really know how it will affect children in the long run. Let schools open now. Let faculty and students wear mask if they want to, do not force them to wear it.

7/21/2020 8:09:30	Debi	Bazzel		Shawnee	<p>As you consider your vote to allow our governor to delay the start of school for the coming academic year, I implore you to consider all stakeholders, but most importantly, students &amp; staff. I believe that the best place for our students to learn is in the classroom, but these are unusual times. In my opinion, the plan to delay the start of the school year accomplishes two very important goals with one common factor - time.</p> <ol style="list-style-type: none"> <li>1. Delaying the start of the school year gives this global pandemic, having a very real effect right here in Kansas, a little more time to play out. Maybe we can make some headway and feel confident in decisions to reopen schools. Or, maybe we see this crisis continue to worsen, and it will be apparent that we can't safely reopen our schools.</li> <li>2. Delaying the start of the school year gives administrators time to plan and, even more important, gives our teachers time to plan and train for what is bound to be another historic year. The demands on our teachers will be greater than ever before. My children attend school in the Shawnee Mission district. I understand that our district has purchased a new online learning platform, one that most of our teachers have no experience with. Let's give our teachers every opportunity to have success teaching students at home or in the school building.</li> </ol> <p>I am asking you to vote to approve the governor's plan to delay the start of the school year. Thank you for your service.</p>
7/21/2020 8:09:46	Maureen	Engen	Bishop Miege High School	Roeland Park	<p>I am the principal of Bishop Miege high school. While we agree with the September 9 start of in school instruction, we have great cause for concern that there cannot be online learning taking place in August. Our teachers are going to return on August 10 and have two weeks of professional development. They will prepare to be able to teach online as well as in class. We need to bring in our students for orientation beginning August 24 and begin to teach online August 30.</p> <p>It is the opinion of our administrative team that the decision for reopening schools should be made by our Archdiocesan office rather than an executive order.</p>
7/21/2020 8:09:45	Kami	Brady	Parent	Olathe	<p>For the safety of students, teachers, staff and families, please vote yes to support the delay of school until after Labor Day. Please ensure schools are equipped with PPE, social distancing policies and mask requirements if in-person school is offered.</p>
7/21/2020 8:09:51	Christina	Barkley		Salina (Saline County)	<p>I am in support of Governor Laura Kelly's plan to delay the start of school until after the Labor Day Holiday. The extra time helps ease some parents anxiety as well as teachers and staffs anxiety and allows superintendents the added time they need to get supplies and implement the guidelines to the best of their ability. It also allows us time to see if we can get the numbers trending down with the mask mandates. I live in Salina and I have 3 children whom attend USD 305 and our cases have been on a steady increase for 4 weeks now and this decision will ultimately help me decide which way I choose to enroll my children. If you choose to decline Kelly's recommendation, then I will have no choice, but to enroll remote because my children are not guinea pigs in all this and politics needs to stay out of it. We need to do what is best for these children, teachers, superintendents, janitors, and staffs health.</p>
7/21/2020 8:10:14	Adam	Kengor		Kansas City KS	<p>Schools are not safe to reopen. Any attempt to do so will be reflected on voting day when those responsible will be swiftly voted out of office.</p>
7/21/2020 8:10:15	Dave	Clapham		Burdett,KS	<p>Personally I am not a fan of wearing a face mask. However, I believe while at school, students, staff, and visitors should be required to wear them. The risk of people coming to the school infected are great since we don't know where they have been or who they might have been in contact with. The spread of the covid-19 or any other contagious infection are great and in a small school it can spread like wildfire. Thus the school may have to close for a couple of weeks to quarantine and to be cleaned. We need to keep everyone safe and healthy the best the schools can do.</p>
7/21/2020 8:10:13	Amy	Schreiner		Tescott	<p>I support the delay of school until after Labor Day.</p>
7/21/2020 8:10:22	James	Wilson		Wichita	<p>Delay the school year because we are a hotspot in a pandemic.</p>
7/21/2020 8:10:26	Susan	Raleigh Rome		Windom	<p>START UP SCHOOL! Our kids need structure. They need an education. THEY NEED A LIFE BACK!</p>

7/21/2020 8:10:50	Megan	Major	Manhattan Catholic School	Manhattan	deny late start. Continue to keep our kids in school with appropriate safety measures. Do NOT go remote!! Our children should not suffer from our lack of knowledge and fear!
7/21/2020 8:10:52	Anne	Collins	Public Schools	Olathe	Please delay the start or opening of schools and reconsider if numbers continue to rise through August. Academics can be made up, lives cannot be recovered.
7/21/2020 8:10:55	Nicole	Leonard		Salina	I think the decision on when to start back at school should be on the district. I feel that our district has been preparing for this for months now and seem ready to go. Kids should get established back in the classroom sooner rather than later even if it is in a hybrid design to begin.
7/21/2020 8:10:56	Melody	Johnson	Teacher/Parent of 3 School age Children	Cimarron	I am okay with school districts attending school after Labor Day, but I think it should be up to each district to decide when it will be safe for everyone to return to school. School districts can work with their School Board, Health Department and Co. Commissioners to make that final decision. If a school district chooses to start before Labor Day and a parent isn't comfortable with that date, then their children can start online. I don't think the decision to start later is right for every school district in Kansas, however we do currently have school districts that traditionally start school after Labor Day, so it is doable. Thanks for listening.
7/21/2020 8:11:04	Jackie	Stancil	Parent and school psychologist for USD 450	Lawrence	I support Governor Kelley's order to delay the start of school and hopes the school board does also.
7/21/2020 8:11:27	Pam	Dankenbring	USD 364 BOE	marysville	We're prepared to open and invite students back in. There is a definite population that are more harmed by not being in school than the risk of virus offers. We need kids to be in school for the future of our state and for the kids in unsupported and abusive homes.
7/21/2020 8:11:34	Sanja	Bajic	Parent	OVERLAND PARK	COVID-19 is a disease that we never dealt with before. It will take time to get to understand how it works.  Sending kids and teachers to school right now is like making willing decision to sacrifice 5% of students and teachers' population of Kansas. I worked in Kansas school for two years. I had inside look into how teachers take amazing care of our kids. Based on my experience, it will be impossible to have all kids keep their masks on for even a part of the day, not to mention full school day. What will you do when first cases of COVID-19 occur at just opened schools? It will not take long for that to happen (maybe 3-4 weeks into school). What is your plan?  I cannot even believe that we are at this point when we are discussing if kids should go back to school before or after Labor Day! I sincerely hope that common sense will prevail. These are unprecedented times and they call for genuine leaders.
7/21/2020 8:11:38	Rachel	Pierce		Kansas City	How come your meeting isn't in person, but you want teachers to go back to teaching in person?
7/21/2020 8:11:48	Patricia	Palmer	KSDE students in household	Leawood	Please approve the Gov. order on delayed start
7/21/2020 8:11:50	Karissa	Hoag	Arkansas city high school	Winfield, KS	I agree with the order, and am not hopeful that schools will even start then. There are too many what ifs, and not enough funding to reopen at 100% brick and mortar capacity. I truly think our best option is online/hybrid learning.

7/21/2020 8:11:51	Tracy	McCurley		Overland Park	<p>We support schools opening on time and working (as quickly as possible) on resuming "normalcy." We all agree that we should make strong efforts to protect the elderly, but the death total across the state for those individuals under 65 years old is 39 (there are almost 3 million people in Kansas). There is so much loss to students and families by not opening our schools/extracurriculars.....the cost to benefit ratio doesn't make sense.</p> <p>Please support our kids returning to schools. We expect all other essential workers to return to their jobs and teaching our kids is definitely on that category.</p>
7/21/2020 8:12:20	Paige	Vulgamore	Scott Community High School	Scott City	Counties like Scott County should not be in the same boat as counties such as Wyandotte. It is not fair for us to not get to go to school and not have sports when we only have a few cases in our whole county. If the coronavirus suddenly gets much worse in our county, then that is when we should consider taking more precautions; however we are not even close to being there yet.
7/21/2020 8:12:30	Jana	Elkins		13020 El Monte Street, Leawood	Please vote in favor of the delay of Kansas schools. This would allow districts, schools, and staff time to make decisions and preparations for a safe restart. Thank you
7/21/2020 8:12:32	Abbigail	Epperson		Overland Park, KS	As a teacher, I wholly support the decision to delay the start of school. At this time, we are not yet ready to implement the necessary safety procedures in school to create a safe environment for our students and staff. It is important to have a few extra weeks to better understand the necessary procedures that will need to be taken this year to ensure the safety of our schools. I urge you to consider the ramifications of opening schools before teachers and administrators are completely prepared. We are educators and we will jump head first into whatever situation we need to for our students, but we need your support in order to ensure a successful and safe school year for all across the state of Kansas. Thank you.
7/21/2020 8:12:33	Michelle	Wilson	Parent of high school student in Kansas	Oakley	We need our students back in the classroom. This virus is a virus with less death cases than Influenza. I understand you are not able to override EO #20-59. I am for the hand washing etc BUT I am strongly opposed to my child wearing a face mask only because it is FAR MORE DANGEROUS to wear a mask than COVID-19. Our children and our country's future is depending on you to make the best decision. 🙏 Praying for my state and country right now like never before!!!!
7/21/2020 8:12:35	Jesse	Werner	Just myself	Salina	Please do online only. Some kids want to go back in person and some parents aren't comfortable with that. When teachers are updating their WILLS, we probably should stay online.
7/21/2020 8:12:48	GINGER	BAERG	Usd263	Mulvane	I believe we should not start in person until our numbers are way down
7/21/2020 8:12:50	Mercedes	Schlapper	Parent	Lawrence	We delay for weather, tornados, storms and heat - how is a virus not also an act of god we must be patient with? Delay school until we are prepared or we are more foolish than sending a child to school without a rain jacket in a thunderstorm.
7/21/2020 8:12:51	Nick	Long	Future America	Valley Center Ks	I do not agree with the continual delay of education for our children any longer. The hardship that this is causing is 2 fold, both on the children and the parents. We have one parent who can no longer work due to this situation, and 2 children who are receiving sub-par online education that we are acting like is equal to what they would be receiving in a school setting. The teachers have put together the best online education package possible given the situation, but in a home setting, being pushed by a parent, they dont seem like they are absorbing it as they would be in a school setting. Do not postpone education longer due to covid 19.
7/21/2020 8:13:11	Katelyn	Austin		Pratt	I do not think mask are necessary in school for students or staff. Nor do I believe that delaying school is necessary. Let's quit being afraid of a virus and get back to living a normal life!!
7/21/2020 8:13:32	Caitlyn	Sample	Student	Olathw	Both of my parents are teachers. Please wait until the day after Labor Day. I want my parents to have time to have the proper safety precautions in place for themselves as well as their students like myself. I want to get back to school like everyone else but want safety ensures so that I don't get ill and my parents and sibling doesn't get ill. My family knows 3 people who have been hospitalized with this disease and 1 passed away from it.
7/21/2020 8:13:36	Jami	Schurr		Goodland, ks	School should resume for children, they need the normal schedule and learning.

7/21/2020 8:13:36	Erika	Kramer		Lawrence	Please do not open schools up for in person learning this Fall. I implore you to think about the lives of our children but just as importantly the lives of teachers, paras, custodial staff and others AND their families. COVID-19 must be respected, our virus numbers are continuing to rise and will do so until a proper vaccine is available. No amount of safety precautions you implement in brick and mortar schools will have the same curve flattening effect as staying at home. Hybrid scheduling, delaying of reopening only partially delays the inevitable spread throughout our schools. Do no make this about the economy, politics or simply because some cannot bear to distance learn again. If we as Kansans don't take a stand together we will not snuff Covid out, it will snuff US out. Our children and the people that we entrust them to care for and nurture while they are at school must not be used as a testing ground.
7/21/2020 8:13:36	Nancy	Davis	Myself	Linn Valley	I see nothing unreasonable about delaying school until until September 8 after Labor Day. But I do think for the students social, mental and educational stability it should NOT be delayed any longer than that.  However I do think it's unreasonable and unrealistic to expect students and staff to wear masks and etc.  FYI: I grew up in Iowa and we never started school before Labor Day. School was also dismissed before Memorial Day. Winter break in Iowa is also shorter than here and school was never cancelled everytime a snowflake fell! I've never understood why Kansas resumes school in the middle of summer and has such a long winter break!!!
7/21/2020 8:13:41	Michael	Viser		Olathe	Please, in God's Great Name, exercise some wisdom and support the Governors Executive Order to delay the start of school. Put the health and safety of the teachers, staff and kids at the forefront and not politics.  This is the easiest decision that you can all go on record as making and should have been made days ago.
7/21/2020 8:13:47	Jennifer	Perry	Parent	Salina	I am a mother of a middle school student in Salina, Kansas. I, like many, want nothing more than to see our children back in classrooms this fall. What I don't want, is our children to become political pawns in this fight between Republicans and our Governor. I am appalled that Kansas has failed to take common sense steps to control this outbreak. Had we phased in reopening and mandated mask wearing statewide, we may not be in this situation. Your job is to help provide a safe and appropriate education for our children, not to play political games at the expense of our teachers and children. School should only reopen in person with solid requirements for protecting both students and teachers. Our community is currently in an uptick of cases and I, in good faith, could not send my child back to the classroom. Delaying the start of schools is the responsible choice. If the case count has not improved, it should only start remotely with a few exceptions for children that need additional services not available out of the school setting. There should be a required trend of new cases decreasing or stabilizing before students are allowed in the classroom. Counties should not be allowed to choose politics over safety. I am currently being asked by USD 305 to enroll my child blindly without knowing how school will function or what remote learning will look like. As a parent, I will not make a choice without clear facts. As of right now, I am choosing to enroll my child in a virtual school out of district. It is not my first choice. I would rather my student be with friends and the wonderful staff at his middle school, but with no real plan or guidelines that will not happen. I will not risk his health or his grandparents' health. I will also not contribute the risk of teachers that have no choice, but to return to the classroom. I implore you to make the right choice. Protect our children and delay school. Mandate safety requirements so parents, students, and teachers can return to school safely and with confidence.
7/21/2020 8:13:58	Shannon	Cannon	My kid	Hoyt	The governor is the only one listening to science. Asymptomatic people are losing parts of their brain to this disease. Maybe kids don't get it as bad, meaning they don't die but they are likely to suffer lifelong health problems. No one wants that for their kids. Not even the people who don't believe the scientists. There is no good way to keep kids safe in school. Online or hybrid with only partial kids in school.

7/21/2020 8:14:08	Jeannie	Koehn		Galva	I feel educators need the time to plan and gather all materials necessary for reopening. So an after Labor Day start will give time. As a teacher with Asthma, I do Worry about a room of kids coughing and sneezing all over EVERYTHING will increase the spread. I have read lots of comments about starting and the support to start. One main fight to open is the kids mental health. Has anyone considered the kids mental health by having their temperature taken and being encouraged to maintain distance from others? What are we going to do about the parents that give Tylenol so they can pass the temperature screen in the morning? This happens all the time in elementary classrooms. Young children are honest and tell teachers they took medicine so they can come to school. Schools will have to have procedures rewritten to cover all these scenarios. So an after Labor Day start is better to allow time for educators to discuss and prepare for various things including how to deal with mental health issues that kids may feel with all these new mandates.
7/21/2020 8:14:31	Shanee	Steinmeier		Overland Park	I support the delay in opening the schools until after Labor Day. With the increasing number of cases, I do not feel as if it is a safe option for neither families nor teachers and staff to open up. A recent study from South Korea of 65,000 people demonstrated that while COVID-19 does not transmit as easily from children to adults ages 0-10, it still transmits just as much as adults in children ages 10-19. Also, there are cases of children who have tested positive for COVID-19, been hospitalized and died. Not only that, schools are a community of adults. Social distancing will be difficult. Teachers are facing the tough choices of returning to work or not because of fear of contracting the virus. This is a difficult decision with no good solutions. My first grader wants to go to school and see her friends. I want her to be able to go to school, but I don't feel like it makes sense as a community at the moment. Thanks for making the hard choices.
7/21/2020 8:14:41	DAVID	JUMPER	david jumper	Newton	i fell we should wait till after labor day for safety of everyone and to make the time up shorten winter break
7/21/2020 8:14:44	Molly	Campbell		Overland Park	I am a teacher in Johnson County. I am immunocompromised. I am not comfortable going back to school with students in August. We do not have the time to get our rooms or our procedures ready. We have just been given our district plan and our plan written by the state board of education. Our district's plan is 54 pages (with a specific building plan to follow). The plan from the state board of education, which we will be following especially as our district plan is not specific with academics like the board's plan, is over a thousand pages. We do not yet have our building plan. We are only scheduled to have 3 days to prepare our classrooms and ourselves to implement these plans. We need to push back the start date to give all educators in the state the time to do prepare for students. Cases in our state have been rising dramatically. We need time to get those numbers down so we can see students in person. When we see students in person, our entire teaching strategy will need to change. I cannot use cooperative learning strategies. I need to change so many of my lesson materials and instruction to be prepared to teach in a socially distanced way. We need to be ready for this, and to be ready we need time. If we can't see them in person, we will be able to teach remotely with a higher quality of instruction than we did in the spring. Regardless of individual county case numbers, all teachers in the state need this time to prepare. Give us the time to do our jobs well, instead of rushed and confused like the spring. Please, give everyone time.
7/21/2020 8:14:54	Colleen	Harrington		Cheney	I believe you should be looking at the number of children with positive tests in KS under the age of 18, not the total number across all age groups. It's my understanding that kids are the least susceptible age group. Also, if masks are so effective as claimed, then what's the problem? What happened to the mantra "masks save lives" that led to them being mandated? Now it's masks save lives but not at school? Masks save lives but only after labor day? C'mon! Put whatever safety measures in place you feel are necessary but open the schools and get our kids back on time. Thank you!
7/21/2020 8:15:05	Ashley	Weldon	Parent of Elementary student	Wichita	I support the mandate to close schools through Labor Day.
7/21/2020 8:15:08	Heather	McKee		Topeka	PLEASE err on the side of caution and keep schools closed until after Labor Day! It is in the best interest of all involved. Thank yoj

7/21/2020 8:15:26	Kori	Crouse		Overland Park	<p>It is more than safe for students to return to school FULL time - precautions can be taken and life must go on. We cannot continue to live in fear. We cannot continue to hold our children back socially, emotionally, mentally..... Why can we gather in restaurants, churches, stores - but we can't send our kids to school?</p> <p>Delaying school solves nothing. The economy will continue to struggle until parents can return to work. The impact falls disproportionately on women to stay home and teach their kids.</p> <p>And where are my tax dollars going? Why am I paying to fund schools and pay teachers when I am getting none of those benefits. Delaying school and/or moving to only virtual learning creates IMMENSELY more problems than it solves.</p> <p>Thank you.</p>
7/21/2020 8:15:32	Melissa	Kautz		Wichita	I have no problem with school starting after Labor Day. When I was a kid, school started after Labor Day and ended first week in June. However, I do have a son with autism who needs to be in school. Those with autism and other special needs, needs the classroom environment.
7/21/2020 8:15:37	Starla	Nelson	Parent	Jamestown	I fully support the governor's executive order to delay the opening of schools. We live in a rural area and most of our nearby hospitals are 25 bed facilities that cannot handle a mass influx of patients. School will only increase the spread among households and our community. Many at risk individuals need us to do our part to slow the spread. Inconvenience is acceptable during a pandemic.
7/21/2020 8:15:36	Rachel	Hyatt	USD 253	Emporia	I believe a delay may be a step in the right direction, but in person classes should not take place while positive case numbers continue to rise. My county is one with very high numbers and as a teacher and single parent, I am terrified. I made a will this week after my six year asked what happens if I die. I hope I live for many more years (I am in my thirties), but I need to be prepared. This who chose the medical profession knew they would face disease and death regularly. This who chose law enforcement knew they would be placed in life and death situations. I chose teaching because I am a wimp. I wanted a job where people would generally like me, I wouldn't be placed in dangerous conditions , and my work schedule would allow me to be an involved parent. I am no longer parenting if I become hospitalized or die.
7/21/2020 8:15:40	Trissa	McCabe	USD 309	Buhler	I urge you to support the EO. I am a middle school teacher eager to get back to the classroom but with all the unknowns that need to tackled, it will need time. I understand and support local control within in the districts but these are unprecedented times where unity seems to make sense.
7/21/2020 8:15:43	Jeff	Shaw	teacher	Arkansas City	I support Governor Kelly's executive order 20-58 delaying the start of the 20-21 school year. It will give time for all districts to have a safe return to school plan.
7/21/2020 8:15:47	Sheryl	Musfelt		Salina	<p>First it was 15 days to flatten the curve to mandated mask with threats of being fined.</p> <p>Now Kelly is hinting at closing the economy this fall over the rise in COVID cases.</p> <p>From the ages of 0-24 ZERO children have died from COVID19.</p> <p>Open the schools, stop all the testing, live life. STOP the masks! STOP the LIES! Enough is enough. Schools should not be a political tool.</p> <p>We can't get immunity without being exposed!</p>
7/21/2020 8:15:47	Camden	Vulgamore	Koch	Jim minnix	Don't open schools till at least October!
7/21/2020 8:15:50	Danielle	Farr		Medicine Lodge	Please reconsider supporting the governor's executive order to delay school openings. This is not a one size fits all solution. What is going on in my community and county vs. Wichita and Sedgwick county is no where near the same. Have enough trust in the individual school districts to guide the reopening based off of our current situation, not a statewide perspective. Our kids need and want to be back in school!

7/21/2020 8:16:12	Terri	DeWerff	Central Plains USD 112 Teacher	ELLINWOOD	It is important at this time to put politics aside and children's lives at the forefront. We must stay safe! The Covid 19 cases are higher in the state of Kansas than they were in March so please think of the state's future and their safety in this decision. As our principal tells us at each faculty meeting--GRACE and PATIENCE. Thank you
7/21/2020 8:16:14	Savanna	Clark	My children go to school	In St. John	The kids need to get back in school and have some normalcy back!
7/21/2020 8:16:16	Ryan and Emily	Bradbury	We are writing as parents of two students in Wellsville USD 289	Wellsville	We are writing to ask you to support Governor Kelly's executive order to delay the start of school until September 8.  The rise in cases of COVID-19 in Kansas is a point of concern for us. For many, this decision has become one of politics not science. The science is clear - the best decision for our students, staff and community is to delay the start of school until September 8.  Not only will the delay allow us to (possibly) flatten the curve once more, delaying the start of school will allow educators additional time to make the necessary adjustments to create an educational model that can be safe for all students.  Thank you for your consideration.
7/21/2020 8:16:34	Heidi	Stevens	Usd 466 Scott County parent	Scott City	Please reject the governor's mandate. Every community and school district in Kansas is different and unique. Please allow local school districts to make a safe plan for their own districts. A blanket mandate is unfair and unnecessary. No school district in Kansas wants to see students or staff gets sick. We will all do what's necessary to keep our own schools safe when the time comes in our own community. It is ridiculous to expect small communities in Western Kansas to follow the same guidelines as the urban schools on the east side of the state. When our small communities are eventually affected by this virus, we need the freedom to make the decisions that need to be made at that time.
7/21/2020 8:16:53	Amber	Rusche		Baileyville	Please do not delay the opening of schools..how much further do the kids need to possibly fall behind or be more scared of coronavirus... I think we need to open like normal... yes I know it's a pandemic but at the same time do we freak out when it's influenza? No... if we delay the opening of schools kids are going to become more scared of even going
7/21/2020 8:17:07	S	N	Teacher	Wichita	If delaying school openings until September 9th saves one life, then it's worth it. One death is too many. Please keep politics out of this and listen to the real experts. I invite you to visit the smallness of my classroom with a one rectangular window pane that opens about 3 inches. My room where I can only physically distance 7 students. This will be after I remove my desk. I invite you to come sub in any room where a district has not been allowed time to create a safe environment.  I challenge you to hold your meeting face to face in a room that's 3 times smaller than the one you normally meet. Also 3 of you should remove your mask or show your defiance by wearing it beneath your nose or looped on one ear. No plexiglass to serve as a shield between you and the next person. And before leaving? Grab a Lysol wipe that can't be found anywhere and clean up.  As you leave, look for your school bus that holds 10 - 109 other people packed 2 and 3 to a seat. And when you get home, sleep in those same clothes you wore today only to get up and do it all over again.
7/21/2020 8:17:10	Jon	West		Kansas City	This is the reality of where I teach.  Great job! Keep it up!
7/21/2020 8:17:11	Lindsay	Drees	Parent	Wichita, KS (Goddard USD)	I support postponing the school year start date to get case numbers regulated and to give districts and teachers time to implement any required changes for the safety of students and staff. Safety has to be the priority and I don't think any district in the state can start on-time with a high degree of certainty that they are doing the best for their staff and students.

7/21/2020 8:17:19	Matt	Pankratz		Wichita	PLEASE do not open schools to in-person attendance until a vaccine is available.  Our children and our teachers are the most valuable resources we have as a country. Putting them in peril for the sake of commerce is a mortal sin.  Stand tall and firm in the face of insanity. And I will stand right along side of you.
7/21/2020 8:17:22	Emily	Barnes	I'm a parent and i own Barnes Childcare	Olathe	Please vote IN FAVOR of the executive order. Our communities have not worked hard enough to reduce the spread of the virus. It is irresponsible to send children back into school without putting in simple measures like washing hands, wearing masks, and avoiding large gatherings first. We have enough time with this order to make a positive effect. Please show that Kansans can make responsible choices to care for each other.
7/21/2020 8:17:25	Jami	Tabor		Andover	Masks should be optional to those wanting additional protection, not mandatory.
7/21/2020 8:17:34	Carla	Lauber	Usd 266	Wichita	All schools should be hybrid. Not just high schools. Covid 19 does not know your age, race, sex or religion- everyone is at risk. What happens if a child get it's and gives it to their parents/grandparents/daycare provider. Furthermore, if a child does get it we are saying that 24-28 kids plus their teacher would need to quarantine- hybrid all schools to make to impact less great. Schools should be cleaned nightly for the next set of students the following day. Unemployment is high- enhancing nightly might require more hands which would help with unemployment. Mandate masks- if you don't want you kid in a mask the alternative is remote learning for your child. Keep everyones health in mind.
7/21/2020 8:17:50	Vergie	Opdycke	Myself	De Soto	Please support the governor's decision to delay the start of school until after Labor Day, providing parents, students, and school faculty more time to make plans for the education of the children. Thank you
7/21/2020 8:17:56	Alicia	Utley		Hutchinson	As a medical professional and a mom of two kids, I think we should follow the recommendation to start in-person school in September. I also think in September schools should only start if the health department officials agree that community spread is decreasing or decreased enough to do so. Understanding that this is a trying time for parents, children, and communities... things will be worse if we open too early. While the majority kids may not be as negatively affected by this disease widespread, there are plenty that will be affected by its potentially long lasting side effects or death. In addition to the kids, the staff and teachers will be making a major sacrifice to teach these children. So, unless you have sufficient N95 respirators to supply to everyone on a consistent basis, I beg of you to start when the time is right. I also ask that you give schools and athletes direction on sports practice as those things are still occurring in our area and we have had teams exposed as a result. Thank you for your time, hard work, and consideration.
7/21/2020 8:17:59	Jenny	Newberry	My child	Scott City	There are no scientific studies showing that masks actually protect us from viruses, which our world is full of, some germs, some not. There are multiple studies showing multiple layers of harm being done to our children by keeping them out of school and isolating them from peers.  There are already fantastic options in place for those that choose online schooling. There are fantastic options for those that choose to homeschool. I choose public school. I have carefully weighed the risks on this for 25 years, it is still my top choice. Let them go to public school, social distance them, if you must, but please let them breathe freely. Sincerely, Jenny

7/21/2020 8:18:04	Amy	Maddy	I am a parent of 2 children...9th grade and 7th grade for the 20-21 school year	Chanute	I am in favor of schools delaying opening until after Labor Day. With the increasing number of cases, I think this is a necessary measure to keep students, teachers, and school staff safe and healthy. I do not think schools need to do online only as we did in the spring; that was not helpful for either of my children. And while I feel teachers and staff did the best they could with what was thrown at them, I think overall it was a flop. I also think that if schools delay opening and all Kansas districts start on the same day, then all districts should end on the same day as well and school should end before Memorial Day (and ONLY go the number of days required by the state). Our school district starts earlier than any other school in our area and ends AFTER other area districts that start later than ours (and we go more days than what is required). In the midst of this pandemic, the 2020-2021 school year will not look the same as a typical school year and I think everyone just needs to realize that. Once the number of cases begin to level out or decrease, then we can go back to a more normal school year. However, this is not the year to go back to "normal." Let's think of the best interest for our students, teachers, and staff. I believe that Gov. Kelly's Executive Order 20-58 to delay the start of schools is in the best interest of students, teachers, and staff, and will allow for everyone to be prepared for what this school year will bring with masks, social distancing, extra cleaning, etc. Please do the right thing and delay school opening, while also mandating a set end date for all Kansas school districts that doesn't have anyone going to school after Memorial Day.
7/21/2020 8:18:22	Lisa	Pelton	Usd443	Dodge City	I am a teacher and have 4 kids in HS, MS and elementary. I understand the need to delay the start. My concern the time. Pushing back three weeks makes us go into June. Taking time away from needed breaks to absorb some time is difficult as I know how bad we will need them. It is inevitable that at some point a large portion if not the whole school will be shut down again. I would like to see some guidelines about the amount of time so we do not end up losing out on next summer and our much needed breaks for family time. Thank you for all you are doing to keep us safe!
7/21/2020 8:18:36	Carl	Rowles		Salina	Though many parts of the state do not have inclining cases, it would be respectful of you to defer to representatives who represent districts where corona virus cases are on the rise to allow them necessary time to SAFELY reopen schools.
7/21/2020 8:18:56	Gerardo	Perez		Wichita	I agree for the safety of our students and staff, including teachers, bus drivers, and any other person who contributes to our students education.
