Jackson St., Topeka, Kansas. He acknowledged guests from educational leadership academies in Geary and Riley counties, as well as superintendents and their mentor from the KELI program. Sally Cauble  Steve Roberts
Deena Horst  Janet Waugh
Ann Mah  Ken Willard

STATE BOARD MISSION STATEMENT, MOMENT OF SILENCE AND PLEDGE OF ALLEGIANCE
Chairman Porter read both the Board’s Mission Statement and Kansans Can Vision Statement. He then asked for a moment of silence after which the Pledge of Allegiance was recited.

APPROVAL OF AGENDA
Mrs. Busch moved to approve the Tuesday agenda. Mrs. Horst seconded. Motion carried 10-0.

APPROVAL OF THE NOVEMBER MEETING MINUTES
Mrs. Horst moved to approve the minutes of the November Board meeting. Mrs. Waugh seconded. Motion carried 10-0.

COMMISSIONER’S REPORT
In his monthly report to the Board, Commissioner Randy Watson focused on three topics. He first presented information on high school graduation rates from 2015 through 2018, looking at overall growth as well as forward movement within subgroups of the most vulnerable student populations. Dr. Watson also commented on postsecondary progress as it relates to graduation rates. He next summarized findings in the released audit report from Berberich Trahan and Company P.A. The audit was authorized by the State Board to determine whether distribution of state aid complied with state law and whether measures were in place to ensure quality control. The findings affirmed the answer was yes for both objectives. Lastly, the Commissioner shared the timeline for the Apollo phase of the Kansans Can School Redesign project. Applications will be accepted beginning Feb. 4, 2019.

CITIZENS’ OPEN FORUM
Chairman Porter declared the Citizens’ Forum open at 10:33 a.m. There were no speakers for public comment this month.

ACTION ON GEMINI I REDESIGN PLANS FOR FOWLER USD 225
Fowler USD 225 is participating in the Gemini I phase of the Kansans Can School Redesign project through Fowler Elementary and Fowler Junior-Senior High. Representatives from each building
shared how they are focusing on specific pillars of redesign within the broader outcomes established by the Kansas State Board of Education. Examples of initiatives were creating more real-world experiences for students, foundational leadership programs to enhance social emotional character development and Project Week. Mrs. Cauble moved to accept the redesign plans of Fowler USD 225 for the Gemini I project. Mrs. Busch seconded. Motion carried 10-0.

BREAK

Board members took a break until 11:50 a.m. for photos and banner presentation.

ACTION ON AMENDMENTS TO LICENSURE REGULATIONS

Last month, KSDE staff proposed additional amendments to specific licensure regulations already going through the formal adoption process. Mischel Miller and Susan Helbert from Teacher Licensure and Accreditation explained that the additional amendments would reinstate driver education as a teaching endorsement and create a limited use teaching license based on the Coalition of Innovative School Districts’ specialized certificate. Mrs. Helbert reviewed criteria of the limited use license. There were questions about the notification process, current pilot programs and license renewal.

MOTION

Mrs. Cauble moved to approve the submission of additional proposed amendments to licensure regulations 91-1-200, 91-1-201, 91-1-202, 91-1-203, 91-1-204 and 91-1-209 through the formal regulation adoption process. Mrs. Horst seconded. Motion carried 7-3, with Mrs. Mah, Mr. Roberts and Mr. Bacon in opposition.

ACTION ON PROPOSAL FROM COALITION OF INNOVATIVE SCHOOL DISTRICTS

Commissioner Watson reviewed a request from current members of the Coalition of Innovative School Districts (CISD) seeking State Board consideration to release each individual district from participation in the Coalition. USD 364 Superintendent Bill Mullins, past chair of the CISD, was available by phone to answer questions. The Coalition was created by the legislature in 2013, and consists of the following school districts: USD 364 Marysville, USD 333 Concordia, USD 418 McPherson, USD 210 Hugoton, USD 484 Fredonia, USD 500 Kansas City Kansas and USD 229 Blue Valley. The Coalition, it was noted, is separate from the Mercury 7 school redesign project. Mr. McNiece moved to recognize and endorse the desire of all current members of the Coalition of Innovative School Districts to cease participation in the Coalition effective immediately. Mrs. Horst seconded. Motion carried 8-2, with Mr. Bacon and Mr. Roberts in opposition.

LUNCH

Chairman Porter recessed the meeting for lunch at 12:33 p.m.

RECOGNITION OF NATIONAL FINALISTS FROM KANSAS FOR THE PRESIDENTIAL AWARD FOR EXCELLENCE IN MATHEMATICS AND SCIENCE TEACHING

The meeting resumed at 1:30 p.m. at which time Deputy Commissioner Dale Dennis introduced the 2016 National Finalists from Kansas for the Presidential Award for Excellence in Mathematics and Science Teaching. The Board recognized Heidi Harris, mathematics teacher at Union Valley Elementary School in Buhler USD 313, and Nancy Smith, science teacher at Bentwood Elementary School in Olathe USD 233. Each honoree shared remarks about ways she fosters student learning in her classroom. Examples included use of hands-on manipulatives for math and an “I wonder” curiosity board for science. (Finalists for this specific award are announced by the White House. The process is currently two years behind schedule.)

ACTION ON SAFE AND SECURE SCHOOLS STANDARDS

Safe and Secure Schools Standards have been developed in response to legislation passed in 2018. KSDE School Safety Specialists John Calvert and Susan McMahan, along with staff from multiple agencies, were involved in the development of the standards. State Board members learned that the standards address these main areas: critical infrastructure, communications, crisis plans, training, drills and collaboration within the community. There was discussion about Standard Nine which
referenced a specific curriculum stated in the law, and whether or not to omit the reference since the State Board does not choose school curriculum. Because of the deadline for approving the standards, Mr. Willard moved to suspend Board practice and allow for a vote this month on the standards following a first read. Mr. Roberts seconded. Motion carried 10-0. Mrs. Cauble then moved to approve the Safe and Secure Schools Standards as required in 2018 House Substitute for Senate Bill 109, Section 76. Mr. Willard seconded. Mrs. Waugh offered an amendment to the motion that would specify the curriculum was “per Kansas state law.” Mrs. Horst seconded the proposed amendment. Additional discussion followed. A vote on the motion to amend the original motion failed to receive six votes required for passage. A vote on the original motion (Mrs. Cauble, Mr. Willard) carried 10-0.

UPDATE ON KANSAS BUILDING REPORT CARD AND INFORMATION ON SCHOOLS RECEIVING TECHNICAL ASSISTANCE UNDER ESSA
Director Scott Smith referenced changes to the Kansas Building Report Card, which reflect requirements of the Every Student Succeeds Act (ESSA). He described the indicators used to determine where to direct resources for improving academic achievement of disadvantaged students. The categories of assistance are Comprehensive Support and Improvement, Targeted Support for Improvement and Additional Targeted Support. Criteria for each category was described. KSDE staff addressed the purpose of support identification at the building level, consideration of risk factors and data collection.

Board members took a 10-minute break at 3:15 p.m.

ACTION ON RECOMMENDATIONS OF THE PROFESSIONAL PRACTICES COMMISSION
Linda Sieck, Chair of the Professional Practices Commission, participated remotely to present recent recommendations of the PPC. Mr. McNiece moved to adopt the findings of fact and conclusions of law as stated in the initial orders, accept each voluntary surrender, and revoke the licenses of Justin Adrian and Marian Antoinette “Toni” Reynolds. Mr. Willard seconded. Motion carried 10-0.

RECEIVE PROPOSED CHANGE IN OPERATING PROCEDURE FOR PROFESSIONAL PRACTICES COMMISSION
General Counsel Scott Gordon presented information on behalf of the Professional Practices Commission (PPC) regarding a proposed procedural change for breach of contract cases that come before the PPC. Breach of contract is covered in K.A.R. 91-22-7. The current operating process could be expedited by authorizing the Hearing Officer to determine whether a settlement provision or liquidated damages clause exists in local policy or in the contract of the employee. The Hearing Officer will make that determination on behalf of the PPC. The State Board is expected to act on this proposal in January.

RECOGNITION OF KANSAS SUPERINTENDENT OF THE YEAR
The Kansas School Superintendents’ Association selected Glen Suppes, Smoky Valley USD 400, as the 2019 Kansas Superintendent of the Year. State Board members recognized Mr. Suppes for this honor during Tuesday’s meeting. He has been superintendent of the Smoky Valley district since 2000. Mr. Suppes offered remarks, commending the State Board and Commissioner for their leadership with the Kansans Can vision.

UPDATE ON FAMILY AND CONSUMER SCIENCE INTEGRATION WITH SOCIAL EMOTIONAL LEARNING
Social/emotional growth measured locally is one of the five statewide outcomes for measuring progress of the Kansans Can vision to lead the world in the success of each student. During this update, KSDE staff members Gayla Randel and Pam Lamb explained how Family and Consumer Science
Education in the schools is integrated with social emotional learning and growth. Co-presenters Stella Tharp from Ottawa USD 290 and Juanelle Garretson from Southeast of Saline USD 306 described ways in which FCS foundational elements align to social emotional learning for adolescents and provide real world contexts. They also commented on career exploration, civic engagement opportunities and the connection between FCCLA and the definition of a successful high school student.

**ACTION ON NEW APPOINTMENT TO THE LICENSURE REVIEW COMMITTEE**

There were four nominees for an opening on the Licensure Review Committee to represent higher education. Mrs. Busch moved to appoint Ashlie Jack, Assistant Dean at Wichita State University, to complete a partial term on the Licensure Review Committee representing Chairperson of a Department of Education of a Teacher Education Institution, effective Dec. 1, 2018 to June 30, 2019. Mr. McNiece seconded. Motion carried 10-0.

**LEGISLATIVE MATTERS**

Deputy Commissioner Dale Dennis provided official election results to Board members and an updated list of House and Senate leadership. He also shared information on State General Fund revenue estimates for fiscal year 2019, and initial estimates for FY 2020 and FY 2021. School Finance Director Craig Neuenswander assisted in recapping the Kansas Supreme Court Decision Gannon VI opinion, discussing inflation adjustments and estimated state aid increases.

REQUEST AND RECOMMENDATION FOR BOARD ACTION

Item Title:
Act on proposed change to State Board Policy for legislative coordinator description

Recommended Motion:
It is moved that the Kansas State Board of Education approve a change to Board Policy that allows for the appointment of two Legislative Liaisons who shall be elected by the State Board at its organizational meeting.

Explanation of Situation Requiring Action:
State Board Policy 1009 addresses the Governance Process. Section B (3) specifically references the positions of Legislative Coordinator and Assistant Legislative Coordinator, who shall be elected by the State Board at its organizational meeting. The original policy was adopted in 1989. (See attached excerpt from the Kansas State Board of Education Policies)

Beginning with the 2019 reorganization meeting, a change is proposed to elect two Legislative Liaisons from the State Board membership rather than a Coordinator and an Assistant Coordinator. If approved, the change would become effective immediately. The budget allocation already determined as one share (coordinator) and one-half share (assistant) would be divided equally for travel expenses.

The responsibilities and time commitments in serving as liaisons with the Kansas legislature have increased over the years, giving merit to the proposed change.
POLICY: APPOINTMENTS TO COMMITTEES AND COMMISSIONS

Policy Type: Governance Process

A. The State Board makes appointments to the following types of committees:

1. Committees created by the State Board and having State Board membership, e.g., the State Board Policy Committee and the State Board Communications Committee.

2. Committees to which the State Board is required by law to appoint one or more of its members, e.g., KSHSAA's Board of Directors.

3. Committees to which the State Board is required by law to appoint one or more persons who are not members of the State Board, e.g., Professional Standards Board, Special Education Advisory Council and Professional Practices Commission.

4. Committees to which the State Board determines to appoint one or more of its members at the request of some organization, agency or government entity, e.g., the KSHSAA's Executive Board, Kansas Teacher of the Year and NASBE Government Affairs Committee.

B. Appointments to Standing Committees of the State Board

1. At the organizational meeting, the chairman shall declare all memberships on State Board committees vacant. Then, representation of the State Board on such committees shall be determined by vote of the Board.

2. There shall be a standing State Board Policy Committee which shall be elected by the State Board at its organizational meeting. Three members shall serve on this committee.

3. There shall be a Legislative Coordinator and Assistant Legislative Coordinator who shall be elected by the State Board at its organizational meeting.
C. Appointments to Temporary Committees of the State Board:

The chairman and members of each temporary committee of the State Board shall be appointed by the chairman of the State Board from a list of those Board members who have expressed an interest in serving on the committee.

D. Appointments to Other Committees:

The State Board may appoint persons to committees on which State Board members do not serve in accordance with the following guidelines:

a. Prior to making an appointment, the State Board may receive nominations from statewide organizations, individuals, or State Board members.

b. Nominations may remain open until the time of appointment.

c. In appointment of members, the State Board may provide representation as required by law and seek broad representation by giving consideration to various appropriate factors, including the following:
   • geographic representation;
   • representation by school district enrollment;
   • representation by school level;
   • representation by various educational stakeholders; and
   • special knowledge or expertise.

Adopted: August 9, 1989
Amended: March 13, 1990; July 10, 1991; October 13, 1992; March 10, 1998;
December 12, 2001; September 9, 2003; December 10, 2003; March 11, 2014;
August 8, 2017
Subject: Board Reorganization: Member-elected positions (continued)

Reorganization of the Kansas State Board of Education includes election of members to assume additional responsibilities. Representation shall be determined by a vote of the Board in selecting two members to serve as Legislative Liaisons and three members to serve on the State Board Policy Committee. The Chair will initiate the process.
Subject: Citizens’ Open Forum

During the Citizens’ Open Forum, the State Board of Education provides an opportunity for citizens to share views about topics of interest or issues currently being considered by the State Board.

Each speaker shall be allowed to speak for three minutes. Any person wishing to speak shall complete a presenter’s card, giving his or her name and address, and the name of any group he or she is representing. (Ref. Board Policy 1012) The speaker’s card should be completed prior to 10:30 a.m.

If written material is submitted, 13 copies should be provided.

Subject: Commissioner’s Report

Commissioner Randy Watson will provide his monthly update to State Board members.
The Kansas Special Education Advisory Council (SEAC) serves as a liaison between the statewide populace and the Kansas State Board of Education. In its role as a liaison, SEAC advises the State Board on issues relevant to the area of education supports and services for students ages 3-21 with disabilities. The Kansas SEAC will work collaboratively to provide leadership for continuous improvement of educational systems to ensure equity and enhance learning for all students. Citizens of Kansas are encouraged to communicate with the Council and can address the SEAC during regularly scheduled meetings.

The SEAC is required to submit an annual report of its activities each year to the State Board. Council members will be introduced at the January 2019 meeting and Joan Macy, SEAC Chairperson for the 2017-2018 year, will highlight Council activities. A copy of the Kansas Special Education Advisory Council 2017-2018 Annual Report will be provided at the meeting.
To: Commissioner Randy Watson  
From: Regina Peszat  
Subject: Information on Visiting International Teachers program  

Dr. Regina Peszat and Sarah Perryman, KSDE consultants and coordinators of the Visiting International Teacher program, will provide the State Board with an overview of this year’s participants and the impact of the program. Two teachers from Spain, who were hired by schools in Topeka, will also be present to speak and answer questions about their experiences in Kansas this year.
In 2019, Kansas has the opportunity to build and enhance Kansas’ early childhood infrastructure to deliver high quality services to children. The Kansas State Department of Education has collaborated with early childhood partners to develop a plan to engage in the following activities in 2019:

- **Activity 1:** Develop Comprehensive Statewide Early Childhood Needs Assessment
- **Activity 2:** Develop Comprehensive Statewide Early Childhood Strategic Plan
- **Activity 3:** Maximize Parental Choice and Knowledge
- **Activity 4:** Share Best Practices
- **Activity 5:** Improve Overall Quality

Information will be shared with the Kansas State Board of Education regarding these planned activities, and how they will help ensure that each Kansas student enters kindergarten at age 5 socially, emotionally and academically prepared for success.
Item Title:

Act on recommendations of the Professional Practices Commission (grant)

Recommended Motion:

It is moved that the Kansas State Board of Education adopt the findings of the Professional Practices Commission and its recommendation for the issuance of licenses for Shelby Bucher, Colby Gottschalk, Michael Onderko and Mary Scholl.

Explanation of Situation Requiring Action:

1. Shelby Bucher 18-PPC-31
Ms. Bucher applied for an Initial Teaching License. Two years prior to her application, Ms. Bucher was arrested and completed diversion for misdemeanor theft. Ms. Bucher provided testimony of no further criminal wrongdoing, remorse, and evidence of rehabilitation.

2. Colby Gottschalk 18-PPC-48
Mr. Gottschalk has applied for an Emergency Substitute Teaching License. Two years prior to his application, Mr. Gottschalk had been arrested and completed diversion for offenses related to possession of marijuana. Mr. Gottschalk presented testimony and evidence of rehabilitation and remorse.

3. Michael Onderko 18-PPC-52
Mr. Onderko has applied for an Out-of-State Teaching License based upon his current licensure by the California Commission on Teacher Credentialing. Mr. Onderko’s California license had previously been suspended for 100 days due to breaching a contract with a school district in California. Mr. Onderko did not disclose the suspension on his application with the Kansas State Board of Education because he was unaware of it. The suspension ended in 2016.

4. Mary Scholl 18-PPC-12
Ms. Scholl is currently licensed by the Kansas State Board of Education and has been since July 29, 2016. Ms. Scholl was previously licensed by the Missouri Board of Education, where she taught during the 2015-2016 school year. Ms. Scholl signed a contract with a Missouri school district to teach during the 2016-2017 school year. After finding her in breach of that contract, the Missouri State Board of Education suspended Ms. Scholl’s Missouri license from December 1, 2017 through July 6, 2019. On March 5, 2018 a complaint was filed by the Independence School District of Independence, Missouri requesting suspension of Ms. Scholl’s Kansas license based on the suspension of her Missouri teaching license. The Commission determined that in light of the amount of time between the offense and the filing of the complaint as well as the differences between Missouri and Kansas laws, Ms. Scholl should not be disciplined by the Kansas State Board of Education.

4. Mr. Onderko did not disclose on his pending application for licensure by the Kansas State Board of Education that he had previously had a professional license suspended in another state.

CONCLUSIONS OF LAW

1. Mr. Onderko testified that he never received notice that his California teaching credentials
were suspended. Mr. Onderko testified that if any documentation to that effect was mailed to him, it was mailed to an old address. Mr. Oderko denied many of the allegations contained in the California Commission on Teacher Credentialing order.

2. The evidence shows Michael Onderko can be placed in a position of trust.

THEREFORE the Professional Practices Commission recommends to the State Board by a vote of 6 – 0 that Michael Onderko receive any license for which he may apply assuming he meets all other requirements.

This Initial Order is made and entered this November 30, 2018.

PROFESSIONAL PRACTICES COMMISSION

Dr. Dale Herl, Superintendent,
Independence 30 School District

Independence, Missouri, OAH No. 18ED0015
Case No. 18-PPC-12

Complainant,

v.

Mary Elizabeth Scholl,

Respondent.

INITIAL ORDER

Statement of Case

This matter comes before the Professional Practices Commission ("Commission") of the Kansas State Department of Education ("KSDE") upon the Complaint filed by the Dr. Dale Herl, Superintendent, and the Independence 30 School District, Independence, Missouri (District), seeking discipline of Mary Elizabeth Scholl’s teaching license due to an alleged breach of her employment contract with the District.

The hearing was held on September 27, 2018. Appearing for the Commission were chairperson, Linda Sieck, and members, William Anderson, Laura Batson, Aaron Edwards, Eric Filippi, Jennifer Holt, Sylvia Ramirez and Nathan Reed. Loren F. Snell, Jr., Administrative Law Judge (ALJ) with the Office of Administrative Hearings (OAH), presiding officer on behalf of the Commission.

Vincent M. Cox, attorney, appeared on behalf of the respondent, Mary Elizabeth Scholl (Scholl). J. Drew Marriott, attorney, appeared on behalf of the District.

Procedural

Scholl filed a motion to dismiss asserting that the complaint should be dismissed: 1) because the complainant lacked standing to pursue the complaint; 2) because the provisions in Missouri law were substantially different than Kansas law, precluding an action based on K.A.R. 91-22-1a(a)(13); 3) because no remedy was available to the complainant under Kansas law since Kansas law imposes suspensions "for the remainder of the term for which such contract was made (K.S.A. 77-2216); and, because K.A.R. 91-
22-7 requires dismissal of a complaint if the contract or local board policy contains a settlement provision or liquidated damages clause which would allow an employee to make a financial settlement to the school district.

Pursuant to K.A.R. 91-22-25, the Commission has the authority to render a decision on a matter and make a recommendation to the State Board of Education as to the action to be taken. It was determined that this same authority applies to dispositive motions such as the Scholl’s motion to dismiss. Therefore, the Commission heard arguments of the parties and rendered a decision.

K.A.R. 91-22-7 states, “A complaint filed directly with the state board pursuant to K.S.A. 72-1383 or K.S.A. 72-5412, and amendments thereto, alleging that a license holder is in breach of the license holder's employment contract with a local board shall be referred to the commission for investigation, hearing, and the entry of an initial order regarding licensure. If the investigation reveals a settlement provision or liquidated damages clause in local board policy or in the contract of the employee, so that the employee could make a financial settlement to a local district governing authority or be relieved of contractual commitment by other agreed means, the case shall be dismissed by the commission.” [Emphasis added].

The Commission, having heard the arguments of counsel and applying the appropriate statutes and regulations, decided, on a vote of 6 in favor, 1 opposed and 1 abstention, to recommend denial of Scholl’s motion to dismiss. The Commission reasoned that the proceedings were brought pursuant to the provisions of K.A.R. 91-22-1a(a) and directory language of K.A.R. 91-22-7 was not relevant. The Commission reasoned that the issue presented was not a question of breach of the employment contract, invoking K.A.R. 91-22-7, but the imposition of a penalty based on a suspension by the State of Missouri on grounds similar to those set forth in K.A.R. 91-22-1a(a). Therefore, the Commission was not mandated to dismiss the complaint pursuant to K.A.R. 91-22-7.

It was understood that due to the Commission’s limited authority to make recommendations, that the evidentiary hearing would occur regardless of the Commission’s decision on the motion to dismiss. That combined with the Commission’s decision to deny the motion to dismiss led to the evidentiary hearing that was decided as set forth below.

Findings of Fact

1. Scholl was licensed to teach in the State of Missouri.

2. Scholl taught for the District under a teaching contract for the 2015-2016 school year.
3. On March 18, 2016, Scholl voluntarily signed a contract to teach special education for the District for 185 days over the 2016-2017 school year.

4. On July 6, 2016, Scholl emailed Dr. Dale Herl (Dr. Herl), formally requesting a release from her contract so that she could accept a job closer to where she was living and getting ready to build a house.

5. On July 6, 2016, Dr. Herl responded to Scholl’s email. Dr. Herl advised Scholl that she would need to submit a check to the District for liquidated damages, noting that the board of education would have to vote on granting her release and that “Typically it is contingent upon finding a suitable replacement.”

6. On July 11, 2016, Scholl obtained a cashier’s check in the amount of $1,690.00 and submitted it to the District.

7. On July 14, 2016, Dr. Cindy Grant (Dr. Grant), with the District, sent Scholl a letter advising her that the Board of Education accepted her request to be released “pending a suitable replacement.” Scholl testified that she felt comfortable that she could move forward with her new job after receiving the letter from Dr. Grant.

8. On July 29, 2016, Scholl received her initial teaching license from the State of Kansas.

9. On August 2, 2016, Dr. Grant sent Scholl a letter advising her that a suitable replacement had not been found and therefore her request was denied. Dr. Grant further informed Scholl she was expected to report to work on August 5, 2016.

10. Scholl testified that she emailed Dr. Grant to let her know that she would not be reporting to work on the August date. The District acknowledged receiving and email from Scholl on August 4, 2016, indicating that she had accepted a new position and would not be fulfilling her contract. Dr. Grant responded, reminding Scholl that she was only going to be released if a suitable replacement was found, which did not happen. Dr. Grant further reminded Scholl that she was under contract and expected to report to the District on August 5, 2016.

12. From August 5, 2016, to October 14, 2016, Scholl did not report to work for the District. The District paid Scholl for sick time she had accumulated. On or about September 20, 2016, the District paid Scholl $2,365.62.
13. On October 10, 2016, the District found a replacement for Scholl. Dean Katt (Katt), Human Resources Director for the District, testified that the District did not make a special posting to fill Scholl’s position. Katt testified that nothing extraordinary was done by the District in an attempt to find a suitable replacement.

14. On October 11, 2016, the District terminated Scholl’s employment for breaching her teaching contract and incurring excessive unexcused absences. On this same date, the Board of Education for the District approved, by majority vote, seeking discipline against Scholl’s teaching license.

15. On or about October 21, 2016, the District filed a complaint with the State Board of Education of the State of Missouri.

17. On February 8, 2017, a hearing officer for the Missouri State Board of Education conducted a hearing on the District’s complaint.

18. During the hearing Scholl acknowledged abandoning her contract with the District, stating “I truly apologize for abandoning my position at Independence School District. That was not my intention. I really tried to give enough notice where I thought the position could be filled.”

19. On November 3, 2017, the hearing officer for the Missouri State Board of Education issued a decision in which the hearing officer found that the Missouri State Board of Education was authorized to suspend, or revoke Scholl’s Missouri teaching license based upon her “annulling of a written contract” with the District. The hearing officer recommended that Scholl’s teaching certificate be suspended for two (2) years.

20. On November 17, 2017, Scholl received her professional license from the State of Kansas.

22. Scholl did not seek judicial review of the suspension enforced by the Missouri State Board of Education.

23. On March 5, 2018 Dr. Herl and the District filed a complaint with the Kansas State Board of Education seeking suspension and/or revocation of Scholl’s State of Kansas teaching license based upon the provisions of K.A.R. 91-22-1a(a)(13) which provides for
discipline in Kansas if the teacher’s license was disciplined in another state on “grounds similar to any of the grounds described in [K.A.R. 91-22-1a(a)].”

24. Scholl testified that at some point during this process she called the District about the cashier’s check she had paid towards the liquidated damages and was advised that it would be mailed back to her. Scholl was not able to pick up the check, so it was returned to the District. Scholl has never received the cashier’s check.

25. Scholl testified that she takes full responsibility for her actions. She stated that had she known that there was a possibility that she would find a job closer to her home she would not have signed the contract with the District, but the new job opportunity came up and would reduce her commute by at least ten (10) minutes each way. Once she found out about the new job she acted as quickly as possible to let the District know and make arrangements to end her employment with the District.

Conclusions of Law  
and  
Discussion

2. A complaint seeking discipline against Scholl’s State of Kansas teaching license was filed by the District in compliance with K.A.R. 91-22-3a.

3. K.A.R. 91-22-1a(a) provides, in pertinent part, that “[a]ny license issued by the state board may be suspended or revoked, or the license holder may be publicly censured by the state board for misconduct or other just cause” including: “(13) denial revocation, cancellation, or suspension of a license in another state on grounds similar to any of the grounds described in this subsection.”

4. K.A.R. 91-22-1a(a)(9) allows for suspension or revocation of a teacher’s license for “breach of an employment contract with an education agency by abandonment of the position.”

5. K.S.A. 72-2216 states, in relevant part:

“All contracts shall be binding on both the teacher and board of education of the school district until the teacher has been legally discharged from such teacher’s teaching position or until released by the board of education from such contract. Until such teacher has been discharged or released, such teacher shall not have authority to enter into a contract with the board of
education of any school district for any period of time covered in the original contract. If upon written complaint, signed by 3/5 of the members of the board of education of the school district, any teacher who is reported to have entered into a contract with another school or board of education without having been released from such former contract, or for other reasons fails to fulfill the provisions of such contract, such teacher, upon being found guilty of such charge at a hearing held before the state board of education, shall have such teacher’s license suspended for the remainder of the term for which such contract was made.”

6. Scholl was disciplined in Missouri under Mo. Rev. Stat. § 168.071.2 (2016), which states that “A public school district may file charges seeking the discipline of a holder of a certificate of license to teach based upon ... annulment of a written contract. Charges shall be in writing, specify the basis for the charges, and be signed by the chief administrative officer of the district, or by the president of the board of education....”

8. In considering the comparison of the Kansas and Missouri laws at issue, the Commission noted that under Kansas law, the suspension would have been for the term of the contract, meaning that the suspension would have ended at the conclusion of the 2016-17 school year. Missouri law, on the other hand, permits suspension of the teaching certificate for much longer period of time. Scholl’s certificate is still subject to suspension in the State of Missouri although the breach occurred in 2016. Finally, the Commission was critical of the amount of time that had elapsed in this matter while being handled in the State of Missouri. The complaint was filed in October of 2016, the hearing took place in February of 2017, and the decision was rendered in November of 2017. The matter had already been ongoing for more than 2 years by the time it reached a hearing in the State of Kansas.

9. The Commission disagreed with the District’s suggestion that the State of Kansas should impose a harsher penalty than Kansas statute would require had the breach occurred under Kansas law.

10. The Commission, in determining whether to recommend to the Board that an individual’s application should be granted, is required to determine the extent of the applicant’s efforts at rehabilitation as well as the fitness of the applicant to be a member of the teaching profession. Wright v. State Bd. of Educ., 268 P.3d 1231 (Kan.App. 2012). The Commission felt that these same principles could be considered in determining if Scholl’s license should be suspended or revoked.
11. As this matter was pursued by the District under K.A.R. 91-22-1a(a), the Commission felt it was appropriate to consider the factors set forth in K.A.R. 91-22-1a(g)(1) in determining if Scholl’s license should be suspended or revoked, or if there was sufficient evidence that she had been rehabilitated since she abandoned her contract with the District. The factors considered were:

(A) The nature and seriousness of the conduct that resulted in the denial or revocation of a license;

(B) the extent to which a license may offer an opportunity to engage in conduct of a similar type that resulted in the denial or revocation;

(C) the present fitness of the person to be a member of the profession;

(D) the actions of the person after the denial or revocation;

(E) the time elapsed since the denial or revocation;

(F) the age and maturity of the person at the time of the conduct resulting in the denial or revocation;

(G) the number of incidents of improper conduct; and

(H) discharge from probation, pardon, or expungement.

12. In considering the factors the Commission felt that Scholl had accepted responsibility for the wrongfulness of her actions and expressed remorse for the position she placed the District in. Based upon the evidence and testimony presented by Scholl, it served to demonstrate her fitness to retain her license to teach. The Commission felt that she remained suitable to be placed in a position of trust and would be a suitable role model for students. The Commission also felt that she was forthcoming and truthful in her testimony. The Commission also took into account the amount of time that had elapsed since Scholl breached her contract, noting, again, that had this occurred in Kansas the disciplinary period would have already been completed.

13. Finally, the Commission felt that it would not be in the best interests of Scholl or the children that she teaches through the special education program for her to be suspended.
CONCLUSION

On a vote of 8-0, it is recommended by the Professional Practices Commission to the Kansas State Board of Education that the District’s complaint seeking the suspension or revocation of Mary Elizabeth Scholl’s teaching license be denied.

7. The Licensee’s conduct in demonstrates a lack of fitness to perform the duties and responsibilities of a member of the teaching and school administration professions and is sufficient and just cause for revoking Applicant’s license.

THerefore the Professional Practices Commission, by vote of 8-0, recommends the Kansas State Board of Education revoke the Professional license of Christopher Young based on his felony convictions of sexual exploitation of a child, and for not requesting a hearing or submitting an answer in response to the Complaint.

Item Title:

Act on change in operating procedure of the Professional Practices Commission

Recommended Motion:

It is moved that the Kansas State Board of Education authorize a change in the operating procedure of the Professional Practices Commission for breach of contract cases, allowing the presiding Hearing Officer to determine whether a settlement provision or liquidated damages clause exists in local policy or in the contract of the employee.

Explanation of Situation Requiring Action:

K.S.A. 72-2216 authorizes the board of education of a local school district to file a complaint with the Kansas State Board of Education alleging a licensed teacher has breached her or his contract. The investigation and subsequent hearings of these complaints are held by the Professional Practices Commission (PPC). The PPC is bound by statute as well as K.A.R. 91-22-1a through 91-22-25.

The Professional Practices Commission has proposed an appropriate and efficient method to investigate and resolve such complaints. The PPC therefore seeks State Board approval to implement the change.

Subject: Information on federal investments and purpose regarding Special Education and Title Services

Annually, the Kansas State Department of Education (KSDE) receives federal investments for approximately $330,000,000 per year distributed across the state to provide services to infants, children and youth. These federal funds are supplemental to state funds.

The KSDE Special Education and Title Services team (SETS) utilizes required federal set-aside funds to provide coordinated monitoring and technical assistance to local school districts in order to meet the state's obligations for general supervision oversight under the Individuals with Disabilities Education Act (IDEA) the Elementary Secondary Education Act (ESEA), Kansas Exceptional Children’s Act and the Kansas Freedom from Unsafe Restraint and Seclusion Act.

Coordinated effort of these obligations is accomplished through cohesive operation of a network of contracted projects collectively known as the Kansas Technical Assistance System Network (TASN). A primary purpose of TASN is to improve the capacity of Kansas educators to select and effectively implement evidence-based instructional practices which will result in improved outcomes for infants, toddlers, children and youth with disabilities and their families, while maintaining compliance under the IDEA and ESEA. These projects are supplemental to the full complement of resources within the KSDE to accomplish the Board’s Kansas Can Vision. Example deliverables provided under these contracts include:

**Autism and Tertiary Behavior Supports** – Provides training and coaching of educators to support students who have challenging behaviors and/or complex needs, including de-escalation techniques.

**General Supervision, Timely and Accurate Data** – Provides data management for the federally required State Performance Plan and Annual Performance Report, including reporting district performance of students with disabilities, also supports the Kansas Integrated Accountability System.

**Infinitec** – Provides educators in Kansas with access to digital resources, information, and training on state of the art assistive technology and Universal Design for Learning and provides a platform for sharing resources and professional learning options with educators. This includes statewide access to an on-line repository of digitized instructional materials including textbooks and other classroom related printed materials.
Kansas Co-Teaching – Provides training, coaching, and support to districts and educators statewide to effectively use co-teaching practices within classrooms at all levels.

Kansas Instructional Resources Center for the Visually Impaired – Provides, or assists in the procurement of, Braille, large print, or recorded textbooks and other educational materials for Kansas students who are blind/visually impaired.

Kansas Learning Network – The Kansas Learning Network project provides targeted intensive support and ongoing coaching to districts and schools identified by KSDE as required by ESEA. These schools are referred to as Comprehensive Support and Improvement, Targeted Support and Improvement and Additional Targeted Support schools.

Kansas Multi-Tier System of Supports and Alignment (MTSS) – Provides resource development, training, and support for districtwide implementation of the Kansas MTSS and Alignment framework to ensure educators are providing high quality evidence based instruction and interventions. This includes implementation in early childhood through high school.

Kansas Parent Information Center – Provides information, training and support to educators and families in developing and implementing effective parent engagement practices.

Kansas Recruitment and Retention – Provides support to Kansas districts, schools and educators through the Kansas Education Employment Board and to early career special education staff through the Kansas e-Mentoring for Student Success effort.

Kansas School Mental Health Initiative – Provides school communities with resources, consultation, and training to aid in the development and integration of a continuum of social, emotional, behavioral, and mental health practices and supports for children within a multi-tier system framework. Recent examples include suicide prevention, awareness of sexual abuse and exploitation.

KSDE Special Education and Title Services – The Kansas State Department of Education Special Education and Title Services team provides leadership and support to all learners receiving special education or Title services throughout Kansas schools and communities.

Kansas Teachers of Students who are Blind or Visually Impaired (TVI) and Certified Orientation and Mobility Specialists (COMS) Preparation and Mentorship – Supports the preparation and mentoring of TVIs and COMS in order to provide effective instruction for students who are blind or visually impaired across the state.

Kansas Teachers of the Deaf Master’s Degree Project – Supports the preparation and mentoring of teachers of students who are deaf or hard of hearing.

TASN Coordination – Works closely with KSDE SETS leadership in ensuring that TASN is meeting statewide needs. Assists educators and families in connecting to coordinated resources and supports available through TASN and partners such as:
Families Together, Inc. – Families Together is the federally required Parent Training and Information Center for Kansas. They provide support to families of children with disabilities. This support includes programs designed to build and sustain strong, healthy, informed, and actively involved family members who can work together to improve the lifelong outcomes for their child or sibling with a disability.

Kansas CHAMPS and Discipline Training Cadre – A group of educators from across the state of Kansas who have received training and ongoing professional development to be able to provide deep knowledge of use of positive behavior supports in classroom management on an as needed basis to educators and districts state wide.

Kansas LETRS Training Cadre – A group of educators from across the state of Kansas who have received training and ongoing professional development to be able to provide the deep knowledge of reading contained with the Language Essentials for Teachers of Reading and Spelling (LETRS) professional development modules on an as-needed basis to educators and districts statewide.

TASN Evaluation – Assists the entire TASN system in designing and implementing an evaluation system that focuses on measuring the effectiveness, implementation, and sustainability of efforts.

Technical Assistance for Excellence in Special Education – Maintain an effective and efficient dispute resolution system as part of IDEA required general supervision responsibilities, maintain an effective and efficient monitoring system for positive student outcomes as part of IDEA required general supervision responsibilities, and coordinates, and administers a valid and research-based Educational Interpreter Performance Assessment to eligible school-based sign language interpreters within the State of Kansas in order to improve services and outcomes for children and youth who are deaf.

New Priority: Redesigning/Rethinking Special Education in Kansas. Request for Proposal will be posted soon.

Subject: Report on Mental Health Intervention Pilot Program

The Mental Health Intervention Program was passed by the 2018 Legislature as a one-year pilot. The program was a proviso contained in Substitute for Senate Bill 423 and 61. A total of nine unified school districts are participating in the program for the 2018-19 school year. These are Wichita, Kansas City, Topeka, Garden City, Parsons, Abilene, Chapman, Herington and Solomon.

The goal was to provide treatment and track the behavioral health needs of two groups of youth referred to as the alpha group and the beta group.

1) The alpha group consists of youth who are Children in Need of Care (CINC) and in state custody. They have experienced multiple placements that may range from one end of the state to another or one end of a school district to the other with varying timeframes as short as just a few days.

2) The beta group consists of youth who may move from time to time but just as likely may reside in one school district throughout their education. These are youth who need more behavioral health treatment outside of the normal school day, whether that is after 5 p.m. on a weekday or on the weekend or during the summer.

Community Mental Health Centers (CMHCs), in coordination and cooperation with the school districts, will lead these efforts. Schools and CMHCs will strive to meet the mental health needs of students by sharing and collaborating on this project.

Listed below are the four separate grants contained in the legislation:

1) School District Liaison Grant to hire staff
   - Total Appropriation $3,263,110

2) School District Grant for Payments to Community Mental Health Centers for Uninsured/Underinsured Students
   - Total Appropriation $1,541,030

(continued)
3) School District Grant for Payments to the Kansas Department of Health and Environment for Medicaid Purposes
   o Total Appropriation $2,649,726

4) State Online Student Data System
   o Total Appropriation $2,500,000

Established by the Kansas State Board of Education in July of 2017, the Kansas School Mental Health Advisory Council (SMHAC) is a statewide collaborative that coordinates with legislators and stakeholders to identify unmet needs in school mental health within the State of Kansas. The SMHAC has identified two such needs relative to the awareness and prevention of child abuse and neglect (to include sexual abuse) and suicide. The SMHAC will share with the Kansas State Board of Education recommendations to address these areas of need.

Act on Calendar Year 2019 licenses for recommended commercial driver training schools

Recommended Motion:

It is moved that the Kansas State Board of Education issue licenses to the recommended commercial Kansas driver training schools listed below, for the period Jan. 15, 2019 to Dec. 31, 2019:

Behind the Wheel Defensive Driving School, Wichita
Wichita Driving School of Derby, Derby

Explanation of Situation Requiring Action:

The Driver's Training School License Act (K.S.A. 8-273 et seq.) requires that any person, partnership, or corporation providing driving instruction to ten (10) or more persons per calendar year for the purpose of meeting requirements of licensed driving of motor vehicles in Kansas, must secure a license from the State Board of Education. If approved, the proposed commercial driver training schools will be able to provide driving instruction to each qualified enrollee. The Driver's Training School License Act (K.S.A. 8-273 et seq.) was established in 1965. Each year the commercial schools must be audited by the Department of Education.
ITEM TITLE:

Act on recommendations for licensure waivers

RECOMMENDED MOTION:

It is moved that the Kansas State Board of Education accept the attached recommendations for licensure waivers.

EXPLANATION OF SITUATION REQUIRING ACTION:

SBR 91-31-42 allows any school district to request a waiver from one or more of their accreditation requirements imposed by the State Board. Requests by schools to waive school accreditation regulation SBR 91-31-34 (appropriate certification/licensure of staff) are reviewed by the staff of Teacher Licensure and Accreditation. The district(s) must submit an application verifying that the individual teacher for whom they are requesting the waiver is currently working toward achieving the appropriate endorsement on his/her license. A review of the waiver application is completed before the waiver is recommended for approval.

The attached requests have been reviewed by the Teacher Licensure and Accreditation staff and are being forwarded to the State Board of Education for action. If approved, school districts will be able to use the individuals in an area outside the endorsement on their license, and in the area for which they have submitted an approved plan of study. The waiver is valid for one school year.

REQUEST AND RECOMMENDATION FOR BOARD ACTION

Commissioner: Randy Watson
Meeting Date: 1/15/2019

Item Title:

Act on recommendations from the Evaluation Review Committee for higher education accreditations and program reviews

Recommended Motion:

It is moved that the Kansas State Board of Education accept the following recommendations of the Evaluation Review Committee for “Accreditation” for MidAmerica Nazarene University, Tabor College and Washburn University, and “Program Approval” for Fort Hays State University, Kansas State University, Pittsburg State University and University of Saint Mary.

Explanation of Situation Requiring Action:

Following the institutional application and receipt of a complete institutional report, a review team of trained evaluators was appointed to review the education preparation provider or teacher education programs (as appropriate) for the above institutions based on adopted State Board policies, procedures and regulations. These are available for review by any member or members of the State Board. Each review team's report and each institution's response to the report, along with the institutional reports, were submitted to the Evaluation Review Committee (ERC) of the Teaching and School Administration Professional Standards Advisory Board. The ERC, in accordance with procedures adopted by the State Board, prepared written initial recommendations regarding the appropriate status to be assigned to each education preparation provider or teacher education program.

The initial recommendation was submitted to the teacher education institution and the institution was given 30 days to request a hearing to appeal the initial recommendation. If requested, the ERC conducted a hearing and prepared a written final recommendation regarding the appropriate status to be assigned to the teacher education program. If a request for a hearing was not submitted, the initial recommendation became the final recommendation. These final recommendations have been submitted to appropriate representatives of the teacher education institutions and are now submitted to the State Board, as attached, for consideration and approval of the ERC recommendations for accreditation and program approval status.

A copy of the regulations covering this process is also attached. Staff will be on hand to answer any questions.

*If approved, new programs are assigned the status of "new program approved with stipulation." New programs must be operationalized within two years, after which they submit a new program progress report, and if recommended, are added to the institution’s continuing program review schedule.

Subject: Final Recommendation for Accreditation for MidAmerica Nazarene University

**Introductory Statement:**

On November 27, 2018, the Evaluation Review Committee reviewed the application for educator preparation provider accreditation for MidAmerica Nazarene University.

Documents that were received and considered include the Institutional Self-Study Report, Visitation Team Formative Feedback Report, Institutional Addendum, Visitation Team Final Report, Institutional Rejoinder, Team Lead’s Response, Inquiry Brief pathway guidance, and state consultant's statement on special circumstances of the visit.

**ACCREDITATION RECOMMENDATION**

Recommend “Accreditation” status through December 31, 2025 [next visit Spring 2025].

**KSDE/CAEP Accreditation Visit – Initial Teacher Preparation; Inquiry Brief pathway**

**Areas for Improvement:**
- Standards 1-3
- None

**Standard 4**

AFI 1: The provider does not document, using multiple measures that program completers contribute to an expected level of student-learning growth.

**Rationale 1:** The provider submitted a Case Study Plan (Appendix H). Observation instruments were included in the Case Study Plan but had not yet implemented. The plan does not meet CAEP requirements for plans regarding “phasing in accreditation evidence.”

**Standard 5**

AFI 1: Evidence did not show that the EPP systematically used data analysis results for continuous improvement.

**Rationale 1:** The EPP holds regular meetings with teacher education faculty, content faculty, and the advisory board. Suggestions from these groups are documented, but not systematically tracked. Program modifications listed were vague or not attributed to specific data from assessments. Data from assessments are presented in isolation to faculty and advisory board and not summarized or grouped.

Introductory Statement:

On November 27, 2018, the Evaluation Review Committee reviewed the application for educator preparation provider accreditation for Tabor College.

Documents that were received and considered include the Institutional Self-Study Report, Visitation Team Formative Feedback Report, Institutional Addendum, Visitation Team Final Report, Institutional Rejoinder, and Team Lead’s Response.

ACCREDITATION RECOMMENDATION

Recommend “Accreditation with stipulation for two years with a targeted visit” through December 31, 2021.

KSDE Accreditation Visit – Initial Teacher Preparation

Areas for Improvement:

Standard 2
None

Standard 1:
AFI 1: The process for measuring dispositions is inconsistent across instrumentation, administration, and analysis.

Rationale 1: Instrumentation is inconsistent between the teacher candidate self-assessment and components of the three-way conference among the university supervisor, cooperating teacher, and teacher candidate. At this time, there is only the administration of a candidate self-assessment instrument. No other independent rating of the candidate dispositions is conducted. The data provided match neither the indicators on the self-assessment nor on the matrix used in the three-way conference. Additionally, the dispositions conferences between candidates and EPP faculty does not result in valid and reliable data.

Standard 3
AFI 1: There is limited evidence that the EPP is systematically working to address state or regional needs for hard to staff locations or fields where staffing is challenging.

Rationale 1: There do not appear to be enrollment goals articulated and plans to specify and support the trends in employment vacancies identified in the region, such attending to such hard to staff urban or rural areas or fields such as STEM or special education.
Standard 4
AFI 1: The EPP does not collect valid and reliable data on program completers' employment milestones such as promotion and retention.

Rationale 1: Information about program completers' employment milestones consists of anecdotal statements made primarily by completers and school administrators who are locally situated. The EPP stated that it does not have a process or the instrumentation to collect valid and reliable data on its completers.

AFI 4.2: The EPP does not have structured and validated observation instruments and/or student surveys that measure completers' ability to apply the professional knowledge, skills, and dispositions that their preparation experiences were designed to achieve.

Rationale 4.2: The EPP stated that aside from anecdotal comments and comments made in the Graduate Survey, no other instrumentation and approaches to measure completers' teaching effectiveness, have been developed or implemented at this time.

Standard 5
AFI 1: The EPP did not provide evidence of systematic review of assessment data.

Rationale 1: Although the EPP provided two flowcharts representing the process of data review, minutes and interviews with the decision-making committees did not demonstrate a systematic approach to analysis of data. Data are reviewed when deemed convenient and/or timely, but the analysis is not systematic.

AFI 5.2: The EPP provides insufficient documentation to support collaborative public school partnerships.

Rationale 5.2: The only evidence presented was informal.

Stipulations:
Standards 1-4
None

Standard 5
Stipulation 1: The reliability and validity of EPP-created assessment instruments is unknown.

Rationale 1: No evidence has been provided that reliability and validity studies have been conducted or are planned for key assessments. The EPP has not provided evidence of systematic training or calibration on the use of assessment tools.

Standard 4
AFI 1: It is not clear how the EPP documents, using multiple measures, that program completers contribute to expected levels of P-12 student learning growth.

Rationale 1: Insufficient evidence was presented to demonstrate how the EPP collects, analyzes, and disseminates completer impact on P-12 student learning and growth.

Standard 5
AFI 1: The EPP does not systematically engage in continuous improvement processes

Rationale 1: The EPP did not provide evidence of systematic and regular reviews of program data and use of data-driven decision making. There was insufficient evidence to demonstrate that program modifications are linked back to evidence and data. Limited evidence was provided to demonstrate that the EPP regularly shares data with stakeholders. There was insufficient documentation of decision-making and implementation that resulted from stakeholder input.

ACCREDITATION AND PROGRAM REVIEW PROCESS

The responsibilities of the Commissioner and State Board regarding unit accreditation under regulations 91-1-231(d), 91-1-232b and 91-1-70a are as follows:

KSDE’s Evaluation Review Committee (ERC) renders accreditation and program approval recommendations for the initial teacher preparation and advanced program levels of the unit.

When Kansas has an institution that wishes to initiate a teacher preparation program for the first time, the State Board begins the accreditation process by authorizing a review of documents during a visit to that unit to determine the capacity of that unit to deliver quality preparation programs. After the initial visit, ERC will recommend one of the following accreditation decisions:

**Limited Accreditation.** This accreditation decision indicates that the unit has the ability to meet the requirements of an educator preparation education institution and the capacity to develop programs for the preparation of educators and has three years before a full accreditation visit is conducted.

**Denial of Accreditation.** This accreditation decision indicates that the unit has pervasive problems that limit its ability to offer quality programs that adequately prepare quality candidates.

In addition, the Evaluation Review Committee of KSDE and the Accreditation Council of CAEP render separate recommendations/decisions for institutions undergoing their first joint accreditation visit and a continuing accreditation visit. The following accreditation decisions apply to all institutions seeking accreditation.

**ACCREDITATION DECISIONS AFTER THE FIRST VISIT**

**After an institution’s first accreditation visit, the ERC will render one of the following accreditation decisions:**

- **Accreditation.** This accreditation decision indicates that the unit meets each of the five KSDE standards for unit accreditation. Areas for improvement may be cited, indicating problems warranting the institution’s attention. In its subsequent annual reports, the unit may describe progress made in addressing the areas for improvement cited in KSDE’s and CAEP’s action letters in preparation for its next visit. The next on-site visit is scheduled for five years following the semester of the accreditation visit.

- **Provisional Accreditation.** This accreditation decision indicates that the unit has not met one or more of the standards. When the ERC renders this decision, the unit has accredited status, but must satisfy provisions by meeting previously unmet standard(s) within an established time period.

If provisional accreditation is granted, the ERC will require (1) submission of documentation that addresses the unmet standard(s) within six months of the accreditation decision or (2) a focused visit on the unmet standard(s) within two years of the semester of the accreditation decision. When a decision is made by the ERC to require submission of documentation, the institution may choose to waive that option in favor of the focused visit within two years.
If documentation is submitted under the terms specified in the above paragraph, the ERC may (1) grant accreditation or (2) require a focused visit within one year of the semester in which the documentation was reviewed by the ERC. After a focused visit, the ERC will (1) grant accreditation or (2) revoke accreditation. If accreditation is granted, the next on-site visit is scheduled for five years following the semester in which the accreditation visit occurred. This scheduling establishes and maintains the unit’s five-year accreditation cycle.

If accreditation is granted, the next on-site visit is scheduled for five years following the semester in which the first accreditation visit occurred.

**Denial of Accreditation.** This accreditation decision indicates that the unit does not meet one or more of the KSDE standards, and has pervasive problems that limit its capacity to offer quality programs that adequately prepare candidates.

**Revocation of Accreditation.** Following a focused visit that occurs as a result of a provisional accreditation decision, this accreditation decision indicates that the unit has not sufficiently addressed the unmet standard(s).

Accreditation can also be revoked by action of the ERC/Accreditation Council under the following circumstances: (1) following an on-site visit by a BOE team initiated by the Complaint Review Committee acting on behalf of the Executive Board; (2) following an on-site visit by a BOE team initiated by the Accreditation Council at the recommendation of its Annual Report and Preconditions Audit Committee; (3) following a motion from the President of CAEP to revoke accreditation on grounds that an accredited unit (a) no longer meets preconditions to accreditation, including but not limited to loss of state approval and/or regional accreditation; (b) refuses to pay the fees that it has been assessed; (c) misrepresents its accreditation status to the public; (d) has falsely reported data and/or plagiarized information submitted for accreditation purposes; or (e) fails to submit annual reports or other documents required for accreditation.

**ACCREDITATION DECISIONS AFTER A CONTINUING ACCREDITATION VISIT**

After a continuing accreditation visit, the ERC will render one of the following decisions:

**Accreditation.** This accreditation decision indicates that the unit meets each of the five KSDE standards for unit accreditation. Areas for improvement may be cited, indicating problems warranting the institution’s attention. In its subsequent annual reports, the unit may describe progress made in addressing the areas for improvement cited in KSDE’s and/or CAEP’s action letters in preparation for its next visit. The next on-site visit is scheduled for seven years following the semester of the continuing accreditation visit.

When one level of the unit receives continuing accreditation and a new level is accredited for the first time, the next accreditation visit will be in seven years if the state agency has agreed to a seven-year cycle of reviews.

**Accreditation with Conditions.** This accreditation decision indicates that the unit has not met one or more of the KSDE standards. When the ERC renders this decision, the unit maintains its accredited status, but must satisfy conditions by meeting the previously unmet standard(s) within an established time period.
If accreditation with conditions is granted, the ERC will require (1) submission of documentation that addresses the unmet standard(s) within six months of the accreditation decision or (2) a focused visit on the unmet standard(s) within two years of the accreditation decision. When a decision is made by the ERC to require submission of documentation, the institution may choose to waive that option in favor of the focused visit within two years.

If documentation is submitted under the terms specified in the above paragraph, the ERC may (1) continue accreditation or (2) require a focused visit within one year of the semester in which the documentation was reviewed by the ERC. After a focused visit, the ERC will (1) continue accreditation or (2) revoke accreditation. If accreditation is granted, the next on-site visit is scheduled for seven years following the semester in which the continuing accreditation visit occurred. This scheduling maintains the unit’s original accreditation cycle.

**Accreditation with Probation.** This accreditation decision indicates that the unit does not meet one or more of the KSDE standards, and has pervasive problems that limit its capacity to offer quality programs that adequately prepare candidates.

If accreditation with probation is granted, the unit must schedule an on-site visit within two years of the semester in which the probationary decision was rendered. The unit must address all KSDE standards in effect at the time of the probationary review. Following the on-site review, the ERC will (1) continue accreditation or (2) revoke accreditation. If accreditation is continued, the next on-site visit is scheduled for five years after the semester of the probationary visit.

**Revocation of Accreditation.** Following a comprehensive site visit that occurs as a result of a decision by the ERC to accredit with probation or to accredit with conditions, this accreditation decision indicates that the unit does not meet one or more of the KSDE standards, and has pervasive problems that limit its capacity to offer quality programs that adequately prepare candidates.

Accreditation can also be revoked by action of the ERC/Accreditation Council under the following circumstances: (1) following an on-site visit by a BOE team initiated by the Complaint Review Committee acting on behalf of the Executive Board; (2) following an on-site visit by a BOE team initiated by the Accreditation Council at the recommendation of its Annual Report and Preconditions Audit Committee; (3) following a motion from the President of CIE to revoke accreditation on grounds that an accredited unit (a) no longer meets preconditions to accreditation, including but not limited to loss of state approval and/or regional accreditation; (b) refuses to pay the fees that it has been assessed; (c) misrepresents its accreditation status to the public; (d) has falsely reported data and/or plagiarized information submitted for accreditation purposes; or (e) fails to submit annual reports or other documents required for accreditation.

PROGRAM REVIEW PROCESS

The responsibilities of the Commissioner and State Board regarding unit accreditation under regulations 91-1-231(d), 91-1-232b and 91-1-70a are as follows:

KSDE’s Evaluation Review Committee (ERC) renders program approval recommendations for the initial teacher preparation and advanced program levels of the unit.

PROGRAM DECISIONS

New program approval decisions are:
• New Program Approved with Stipulation
• Not Approved.

Renewal program decisions are:
• Approved
• Approved with Stipulation
• Not Approved.

The responsibilities of the Commissioner and State Board regarding program approval are under regulations 91-1-235 and 91-1-236.

91-1-235. Procedures for initial approval of teacher education programs.
(a) Application.
(1) Each teacher education institution that desires to have any new program approved by the state board shall submit an application for program approval to the commissioner. The application shall be submitted at least 12 months before the date of implementation.
(2) Each institution shall submit with its application a program report containing a detailed description of each proposed program, including program coursework based on standards approved by the state board, and the performance-based assessment system that will be utilized to collect performance data on candidates’ knowledge and skills. Each program report shall be in the form and shall contain the information prescribed by the commissioner. The program report shall include confirmation that the candidates in the program will be required to complete the following successfully:
   (A) Coursework that constitutes a major in the subject at the institution or that is equivalent to a major;
   (B) at least 12 weeks of student teaching; and
   (C) a validated preservice candidate work sample.
(b) Review team. Upon receipt of a program report, a review team shall be appointed by the commissioner to analyze the program report. The chairperson of the review team shall be designated by the commissioner. The number of review team members shall be determined by the commissioner, based upon the scope of the program to be reviewed. Any institution may challenge the appointment of a review team member. The institution’s challenge shall be submitted in writing and received by the commissioner no later than 30 days after the notification of review team appointments is sent to the institution. Each challenge to the appointment of a review team member shall be only on the basis of a conflict of interest.
(c) Program review process.
(1) In accordance with procedures adopted by the state board, a review team shall examine and analyze the proposed program report and shall prepare a report expressing the findings and conclusions of the review team. The review team’s report shall be submitted to the commissioner. The report shall be forwarded by the commissioner to an appropriate representative designated by the teacher education institution.
(2) Any institution may prepare a response to the review team’s report. This response shall be prepared and submitted to the commissioner no later than 45 days of receipt of the review team’s report. Receipt of the review team’s report shall be presumed to occur three days after mailing. The review team’s report,
any response by the institution, and any other supporting documentation shall be forwarded to the evaluation review committee by the commissioner.
(d) Initial recommendation. The evaluation review committee, in accordance with procedures adopted by the state board, shall prepare a written initial recommendation regarding the appropriate status to be assigned to the proposed program, which shall include a statement of the findings and conclusions of the evaluation review committee. The recommendation shall be submitted to an appropriate representative designated by the teacher education institution and to the commissioner.
(e) Request for hearing.
(1) Within 30 days of receipt of an initial recommendation of the evaluation review committee, the teacher education institution may submit a written request by certified mail to the evaluation review committee for a hearing before the committee to appeal the initial recommendation. Receipt of the initial recommendation of the evaluation review committee shall be presumed to occur three days after mailing. This request shall specify, in detail, the basis for the appeal, including an identification of each item disputed by the institution.
(2) If a request for a hearing is submitted, the evaluation review committee shall conduct a hearing. The committee shall then prepare a written final recommendation regarding the appropriate status to be assigned to the proposed program, which shall include a statement of the findings and conclusions of the evaluation review committee. The final recommendation shall be submitted to an appropriate representative designated by the teacher education institution and to the commissioner. The final recommendation shall be submitted by the commissioner to the state board for its consideration and determination.
(3) If a request for a hearing is not submitted by certified mail within the time allowed under paragraph (e) (1), the initial recommendation of the evaluation review committee shall become the final recommendation of the review committee. The committee’s final recommendation shall be submitted by the commissioner to the state board for its consideration and determination.
(f) Approval status. Each new program shall be approved with stipulation or not approved.
(g) Annual report.
(1) If a new program is approved with stipulation, the institution shall submit a progress report to the commissioner within 60 days after completion of the second semester of operation of the program and thereafter in each of the institution’s annual reports that are due on or before July 30.
(2) Each progress report shall be submitted by the commissioner to the evaluation review committee for its examination and analysis. Following review of the progress report, the evaluation review committee may remove any areas for improvement and change the status to approved until the institution’s next program review.
(h) Change of approval status.
(1) At any time, the approval status of a teacher education program may be changed by the state board if, after providing an opportunity for a hearing, the state board finds that the institution either has failed to meet substantially the program standards or has materially changed the program. For just cause, the duration of the approval status of a program may be extended by the state board. The duration of the current approval status of a program shall be extended automatically if the program is in the process of being reevaluated by the state board. This extension shall be counted as part of any subsequent approval period of a program.
(2) At the time of an institution’s next on-site visit, the new program shall be reviewed pursuant to K.A.R. 91-1-236.
(3) For licensure purposes, each teacher education program that is approved with stipulation shall be considered to be approved. (Authorized by and implementing Article 6, Section 2(a) of the Kansas Constitution; effective Aug. 6, 2004; amended Aug. 12, 2011; amended July 7, 2017.)

91-1-236. Procedures for renewing approval of teacher education program.
(a) Application for program renewal.
(1) Each teacher education institution that desires to have the state board renew the approval status of one or more of its teacher education programs shall submit to the commissioner an application for program renewal. The application shall be submitted at least 12 months before the expiration of the current approval period of the program or programs.
(2) Each institution shall also submit a program report, which shall be in the form and shall contain the information prescribed by the commissioner. The program report shall be submitted at least six months before the expiration of the current approval period of the program or programs. The program report shall include confirmation that the candidates in the program will be required to complete the following:

(A) Coursework that constitutes a major in the subject at the institution or that is equivalent to a major; and

(B) at least 12 weeks of student teaching.

(b) Review team. Upon receipt of a complete program report, a review team shall be appointed by the commissioner to analyze the program report. The chairperson of the review team shall be designated by the commissioner. The number of review team members shall be determined by the commissioner, based upon the scope of the program or programs to be reviewed. An institution may challenge the appointment of a review team member only on the basis of a conflict of interest.

(c) Program review process.

(1) In accordance with procedures adopted by the state board, each review team shall examine and analyze the program report and prepare a review report expressing the findings and conclusions of the review team. The review team's report shall be submitted to the commissioner. The report shall be forwarded by the commissioner to an appropriate representative of the teacher education institution.

(2) Any institution may prepare a written response to the review team's report. Each response shall be prepared and submitted to the commissioner within 45 days of receipt of the review team's report. The review team's report, any response filed by the institution, and any other supporting documentation shall be forwarded by the commissioner to the evaluation review committee.

(d) Initial recommendation. The evaluation review committee, in accordance with procedures adopted by the state board, shall prepare a written initial recommendation regarding the appropriate status to be assigned to the program or programs, which shall include a statement of the findings and conclusions of the evaluation review committee. The recommendation shall be submitted to an appropriate representative of the teacher education institution and to the commissioner.

(e) Request for hearing.

(1) Within 30 days of the receipt of an initial recommendation of the evaluation review committee, the teacher education institution may submit a written request to the commissioner for a hearing before the evaluation review committee to appeal the initial recommendation of the committee. This request shall specify, in detail, the basis for the appeal, including an identification of each item disputed by the institution.

(2) If a request for a hearing is submitted, the evaluation review committee shall conduct a hearing. The committee shall then prepare a written final recommendation regarding the appropriate status to be assigned to the program or programs, which shall include a statement of the findings and conclusions of the evaluation review committee. The final recommendation shall be submitted by the commissioner to the state board for its consideration and determination of program approval status according to paragraph (f)(1).

(3) If a request for a hearing is not submitted within the time allowed under paragraph (1) of this subsection, the initial recommendation of the evaluation review committee shall become the final recommendation of the review committee. The committee's final recommendation shall be submitted by the commissioner to the state board for its consideration and determination.

(f) Approval status.

(1) The status assigned to any teacher education program specified in this regulation shall be approved, approved with stipulation, or not approved.

(2) Subject to subsequent action by the state board, the assignment of approved status to a teacher education program shall be effective for seven academic years. However, the state board, at any time, may change the approval status of a program if, after providing an opportunity for a hearing, the state board finds that the institution either has failed to meet substantially the program standards adopted by the state board or has made a material change in a program. For just cause, the duration of the approval status of a program may be extended by the state board. The duration of the approval status of a program shall be extended automatically if the program is in the process of being reevaluated by the state board.

(3) (A) If a program is approved with stipulation, that status shall be effective for the period of time specified by the state board, which shall not exceed seven years.
(B) If any program of a teacher education institution is approved with stipulation, the institution shall include in an upgrade report to the commissioner the steps that the institution has taken and the progress that the institution has made during the previous academic year to address the deficiencies that were identified in the initial program review.

(C) The upgrade report shall be submitted by the commissioner to the evaluation review committee for its examination and analysis. After this examination and analysis, the evaluation review committee shall prepare a written recommendation regarding the status to be assigned to the teacher education program for the succeeding academic years. The recommendation shall include a statement of the findings and conclusions of the evaluation review committee. The recommendation shall be submitted to an appropriate representative of the teacher education institution and to the commissioner. If the institution does not agree with this recommendation, the institution may request a hearing according to the provisions in subsection (e).

(D) For licensure purposes, each teacher education program that is approved with stipulation shall be considered to be approved.

(4) Students shall be allowed two full, consecutive, regular semesters following the notification of final action by the state board to complete a program that is not approved. Summers and interterms shall not be counted as part of the two regular semesters. Students who finish within these two regular semesters may be recommended for licensure by the college or university. (Authorized by and implementing Article 6, Section 2(a) of the Kansas Constitution; effective Aug. 6, 2004; amended Aug. 12, 2011.)

Act to authorize the continuation funding of contracts for the Special Education and Title Services System of Technical Assistance

Recommended Motion:

It is moved that the Kansas State Board of Education authorize the Commissioner of Education to update contracts and data sharing agreements with qualified providers for a cumulative five-year amount not to exceed $90,945,008 to be paid out of funds received under the Elementary and Secondary Education Act (ESEA) and the Individuals with Disabilities Education Act (IDEA) for the period of July 1, 2020 through June 30, 2025.

Explanation of Situation Requiring Action:

Annually, the KSDE receives federal investments of approximately $330,000,000 per year distributed across the state to provide services to infants, children and youth. These federal funds are supplemental to state funds.

The KSDE Special Education and Title Services team (SETS) utilizes required federal set-aside funds to provide coordinated monitoring and technical assistance to local school districts in order to meet the state’s obligations for general supervision oversight under the Individuals with Disabilities Education Act (IDEA) and the Elementary Secondary Education Act (ESEA), Kansas Exceptional Children’s Act, and Kansas Freedom from Unsafe Restraint and Seclusion Act.

Coordinated effort is accomplished through cohesive operation of a network of contracted projects collectively known as the Kansas Technical Assistance System Network (TASN). A primary purpose of TASN is to improve the capacity of Kansas educators to select and effectively implement evidence-based instructional practices which will result in improved outcomes for infants, toddlers, children and youth with disabilities and their families, while maintaining compliance under the IDEA and ESEA. These projects are supplemental to the full complement of resources within the KSDE to accomplish the Board’s Kansas Can Vision.
