Combining CTE Courses

CTE
Work-based Learning

Kansas leads the world in the success of each student.
CPPSA/KCCMS and your Local SIS

• The KCCMS course record that is selected in Pathways must match the course code at the local level (PowerSchool etc.) for auditing and KIDS submissions. Use Pathway Courses report in Pathways & KCCMS to verify course numbers every Fall.

• When a course is selected in section 3 of a CPPSA, you are agreeing to teach the state approved competencies for the course. Once that Pathway is approved by KSDE, the state weighted funding is activated for the eligible courses that are selected.

• All .5 weighted funding eligible courses in a KSDE approved Pathway must not also receive Excel in CTE funding.
Career Technical Education (CTE)

Follow the CTE policy on Combining CTE Courses:  Policy on Combining CTE Courses

Double-up: 2 Pathways courses taught within same class period to 2 separate groups of students – 1 teacher licensed for both

a. CTE courses with related content in the same Pathway may be doubled-up
b. CTE courses with related content in the same Cluster may be doubled-up
c. CTE courses with related content in different Clusters may be doubled-up with prior approval.

Introductory courses: Are intended to be taught as stand-alone courses. KSDE does not recommend doubling or nesting Introductory courses. In some Pathways, where safety is not an issue, exceptions may be approved by the consultants.

Integrated courses: Teaching one (same) group of students the content from 2 courses – teacher licensed for both or team taught

However: No 0.5 CTE funding if integrated with non-Pathway course
Career Technical Education (CTE)

Nested courses: Three (3) or more courses taught within the same class period, by the same instructor to (3) or more separate groups of students in the same classroom/lab. Must be approved annually by the KSDE pathway consultant. Teacher must be appropriately licensed to teach all courses.

Approval for nesting CTE courses in the same Pathway must occur by October 15th of each school year. Schools are encouraged to contact a Pathway consultant as soon as possible before nesting CTE courses. The written approval must be kept on file locally and made available to the auditors.
Career Technical Education (CTE)

Preparing for audit: From KSDE Audit Director’s Counting KIDS

• Submit the correct # of CTE minutes in KIDS for each student (D45)
• Maintain a September 20 roster for each approved class

• Licensing – Actual teacher is appropriately licensed
• Have available - copies of all Pathways approval letters

• Get approval for any nested courses – by October 15
Work-Based Learning

Other Work-Based Learning Criteria:

• Maintain a portfolio
• Experience should related to the student’s career goals
• Weekly meetings with the student
• Worksite visits – at least one every nine weeks

Each of these helps ensure a quality Work-Based Learning experience
Work-Based Learning

**Enrollment and Attendance:** Work-Based Learning

Again, must be currently *enrolled* in or have already completed course

**CTE-related course:**
- max of 1 hour counts toward .5 *weighted funding* – few exceptions by course code
- max of 2 hours count toward student’s *attendance*

**Non-CTE-related course:**
- Max of 2 hours count toward student’s *attendance*

Regardless, maximum of 2 hours counts toward student’s *attendance*  
(used to be 1 to 1: 1 hour class to 1 hour work-based learning)

Perkins Changes

Kansas leads the world in the success of each student.
Things are rapidly changing!

You might need to change your purchase requests within your Perkins grant.

In order to make changes to your Perkins grant, you will need to either submit a Perkins Change Request Form OR send an email with details.
Change Request by Email

If you choose to email your change request, please be sure to include the following information:

• Which Pathway(s) does this change impact?
• What is the item or Professional Development Activity that you are adding?
• What is the item or Professional Development Activity that you are deleting?
• Where is the money coming from to pay for the new purchase (i.e. what are you not going to buy or do?)

Amounts should match - if not, explain (for example: if you adding PD, and it costs $500, but you are not buying a new item and it costs $2,000, what will you do with the remaining $1,500?)

COVID-19's Impact on CTE: Defining the Challenge and the Opportunity

What makes Career Technical Education (CTE) unique, like the ability to participate in hands-on, work-based learning experiences, earn meaningful industry-recognized credentials and connect directly with employers, present specific and complex challenges when being delivered virtually. Within these challenges lies opportunity, and the pandemic can and should serve as a catalyst for change in the way states consider offering CTE programs to ensure that each learner - no matter their race, ethnicity, age, gender or zip code - is afforded access to and equitable delivery of high-quality CTE in their communities.

Advance CTE new resource, COVID-19's Impact on CTE: Defining the Challenge and the Opportunity, identifies the challenges that impact the design, delivery and assessment of CTE programs across the country during COVID-19 (coronavirus) and beyond. Our work continues to provide members and the entire CTE community with the tools, resources and supports needed during this time.
