2019 KANSAS STATE BOARD OF EDUCATION

MISSION

To prepare Kansas students for lifelong success through rigorous, quality academic instruction, career training and character development according to each student's gifts and talents.

VISION

Kansas leads the world in the success of each student.

MOTTO

Kansans Can

SUCCESS DEFINED

A successful Kansas high school graduate has the

- Academic preparation,
- Cognitive preparation,
- Technical skills,
- Employability skills and
- Civic engagement

to be successful in postsecondary education, in the attainment of an industry recognized certification or in the workforce, without the need for remediation.

OUTCOMES

- Social-emotional growth measured locally
- Kindergarten readiness
- Individual Plan of Study focused on career interest
- High school graduation
- Postsecondary success

GUIDELINES FOR THE KANSAS SEAL OF BILITERACY

I. Purpose of the Seal of Biliteracy

The Kansas Seal of Biliteracy will be awarded by the Kansas State Department of Education (KSDE) and a local school district to recognize each student who has attained proficiency in English and one or more other world languages by the time of graduation. It is a statement of accomplishment that recognizes a student's readiness for career and college, and for engagement as a global citizen.

"Knowledge of more than one language and culture is advantageous for all students ... Bilingualism is an individual and societal asset."¹

The student receives a certificate of recognition from KSDE, and the data for students earning the Seal of Biliteracy in Kansas schools is collected and stored by KSDE. Recognition for attaining functional proficiencies in two or more languages becomes part of students' high school records. The Seal of Biliteracy should be noted on a student's transcript, not on the

diploma. The Kansas Seal of Biliteracy is not an actual seal affixed to a diploma.

Four national organizations originated guidelines for the Seal of Biliteracy in 2015: the American Council on the Teaching of Foreign Languages (ACTFL), the National Association of Bilingual Education (NABE), the National Council of State Supervisors for Languages (NCSSFL) and TESOL International Association. Since that time, the majority of states have adopted the Seal of Biliteracy.

Students who attend private schools can still earn a Seal of Biliteracy through the Global Seal of Biliteracy. For more information, visit globalsealofbiliteracy.com.

To ensure consistency, the KSDE Seal of Biliteracy Advisory Council is responsible for adopting, implementing and revising state guidelines.

GUIDELINES FOR THE KANSAS SEAL OF BILITERACY

II. Definition of Terms/Foundations

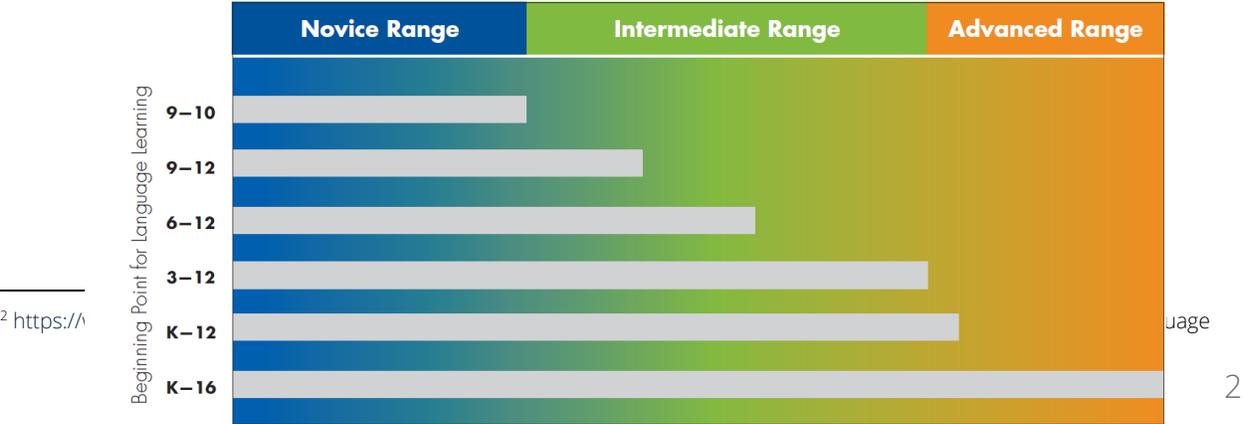

“Biliteracy” refers to having a functional level of proficiency in two or more languages. Educators, learners and the public need to be realistic regarding the expectation for proficiency outcomes of world language programs. Factors, including time, age levels of students, types of programs and intensity and amount of exposure to quality use of the language, all contribute to the development of language proficiency.

This award isn't based on a prescribed number of courses offered or taken, number of credits earned or knowledge about grammar rules, but rather on how well a person functions in the target language. Students who begin the study of a world language in ninth grade can typically expect to achieve proficiency in the novice range after two years and in the intermediate range after three or four years. The level of proficiency is not

necessarily identical for all languages, but must include both social and academic language skills. This includes listening, speaking, reading, and writing skills.

Proficiency may vary depending on the language studied and type of program. For example, English speakers may require more years of study to learn Chinese than to acquire the equivalent level of proficiency in French because there are more similarities between French and English than there are between Chinese and English. For a list of the timelines for English 1 speakers to learn a particular second language, see the US Foreign Service Institute website.² Students who begin the study of a world language in earlier grades, including immersion programs, have a greater possibility of achieving higher levels of proficiency, as seen in the chart below.³

Time as a critical component for developing language performance

² <https://>

Quality immersion programs beginning at young ages, i.e. early elementary school or preschool, can produce students ready to enter secondary school with intermediate-level proficiency. Traditional high school programs, however, won't meet the needs of these immersion students without modification to secondary language programs. With continuous, appropriately articulated secondary school instruction, former immersion school students can achieve advanced proficiency by high school graduation. Foreign Language Elementary School (FLES) programs can lay a foundation for students to achieve intermediate proficiency in secondary school. Secondary school programs that include content-based instruction, e.g. International Baccalaureate, Advanced Placement, and Heritage courses, may result in higher proficiency levels than traditional secondary school language instruction.

Students may have gained proficiency through any number of traditional or nontraditional methods, as a heritage

language learner or as a new language learner.

Students with skills in languages other than English should be encouraged by ESOL teachers and counselors to maintain and further develop literacy skills in their first language by enrolling in upper level and/or heritage classes. Students with some proficiency in more than one language tend to acquire proficiency in a third or fourth language more rapidly. More than 30 years of research continues to shed light on the cognitive, social, economic and health benefits of being multilingual.

Districts are encouraged to provide other forms of recognition prior to high school, reflecting progress along the pathway toward achieving the specified level of biliteracy. This is particularly appropriate for dual language programs, English learners (ELs) and other populations. More ideas for appropriate recognition can be found at sealofbiliteracy.org.

GUIDELINES FOR THE KANSAS SEAL OF BILITERACY

III. Eligibility

Students must demonstrate the state-determined level of proficiency in English, as well as one or more additional language(s), be they native languages, heritage languages or languages learned in school or other settings. The Kansas State Seal of Biliteracy is only awarded to students who also have met all of the requirements for high school graduation. Students not graduating from high school - or who already have graduated - are eligible to earn the Global Seal of Biliteracy. Information about earning the Global Seal of Biliteracy can be found at theglobalseal.com.

“All students” means all, regardless of language background or any documented cognitive or physical condition that may exclude demonstration of language proficiency in one of the modes of

communication. Accommodations, such as those already in place for state English and English Language Proficiency Assessments, should be available to qualify for the Seal of Biliteracy as allowable by the assessment. All students should receive information on the Seal of Biliteracy upon entering middle and high school settings so that they are able to organize their Individual Plan of Study (IPS) to plan in advance to meet the requirements of this credential.

Cost of assessments, which vary, should be discussed with appropriate school personnel. Some districts may be able to help low-income students defray the costs.

GUIDELINES FOR THE KANSAS SEAL OF BILITERACY

IV. Language Proficiency Requirements

Kansas has adopted a two-tier Seal of Biliteracy, awarding a Kansas Silver Seal of Biliteracy and a Kansas Gold Seal of Biliteracy based on language proficiency levels. Some student assessment scores can be “banked” from earlier high school grades. World language assessments can be taken and retaken in the junior and senior years.

Proof of proficiency in English

All students must provide comparable evidence from one of the Kansas validated assessments of English-language proficiency. The Kansas English Language Proficiency Assessment (KELPA) score is accepted as proof of proficiency in English from any year in high school, but a student who has passed the KELPA in earlier grades must provide another

assessment in high school to prove proficiency in English. The Kansas English Language Arts Assessment is taken in 10th grade. See the appendices for specific scores needed to achieve the respective certificate levels. **For a list of all validated assessments, see the appendix at the end of this document.**

Proof of proficiency in languages other than English

All students must provide evidence of proficiency in another world language other than English. For a list of validated assessments, see Appendix E at the end of this document. Students may earn a Seal of Biliteracy in more than two languages. In cases where validated assessments of specific languages are not available, see the Seal of Biliteracy Alternative Assessment Portfolio (SoBAAP)

Manual. This manual can be found on the KSDE Seal of Biliteracy website. If you have questions or need help finding an assessment for a language, contact the KSDE Seal of Biliteracy coordinator. Also, please contact the Seal of Biliteracy Coordinator at KSDE if you have questions about banking scores, retaking specific sections of an assessment or need help finding an assessment for a language.

GUIDELINES FOR THE KANSAS SEAL OF BILITERACY

V. State Certification Process

The Seal of Biliteracy will be awarded to a qualifying student upon high school graduation. KSDE will identify which students will receive this credential after receiving from school districts the assessment scores, student data and the other information requested on the Excel spreadsheet.

The process for collecting, recording and maintaining the data on students receiving the Seal of Biliteracy and the evidence upon which it is based shall be as simple as possible. The school district determines that the necessary criteria have been met by collecting appropriate evidence as described above. The district will complete the Seal of Biliteracy Excel spreadsheet for that academic year and send its list of recipients to the Seal of Biliteracy coordinator at KSDE. This spreadsheet and other informational documents can be found on the KSDE Seal of Biliteracy website. The Excel spreadsheet can be found here:

www.ksde.org/Agency/Division-of-Learning-Services/Career-Standards-and-Assessment-Services/Content-Area-M-Z/World-Languages/Seal-of-Biliteracy.

The Excel spreadsheet calculates the level of certificate automatically. The spreadsheet should not be edited to add or

delete columns of information. The spreadsheet should be self-explanatory, but if you need more help, contact the coordinator or consult the directions for completing the spreadsheet. The directions can be found on the KSDE website on the Seal of Biliteracy webpage.

The Seal of Biliteracy certificates will be sent to the district in a PDF format. The certificates can be printed and signed by a district administrator. Each certificate will indicate the languages and the level of achievement (gold or silver).

- Districts are strongly encouraged to note the Seal of Biliteracy credential on the students' high school transcripts.
- Local districts and schools are encouraged to award the Seal of Biliteracy certificate as part of graduation or senior award ceremonies.
- Resources for purchasing regalia for high school graduation and award ceremonies are located on the KSDE Seal of Biliteracy webpage.

VI. Suggestions for Implementing the Seal of Biliteracy in Your District

Starting the implementation process

- Create a district team (counselors, EL teachers, WL teachers) that will plan and carry out promotion of the program and facilitate assessments. Identify roles and create support teams for students who will need to submit alternative assessments (SoBAAP).
- Identify the person who will coordinate the Seal of Biliteracy effort, keep records and communicate with KSDE.
- Present to building principals and counselors to get their support.

Getting district board of education support

- Propose to district leadership and request adoption by the school board.
- Present to the school board.
- Bring a group of supporting parents and businesses to the school board for a presentation or when the vote is taken.

District advertising and promotion

- Print or request promotional materials (posters, flyers, videos, graphics) available on KSDE website.
- Explain the benefits and process at parent night with enrollment information.
- Teachers advertise in all of their classes.
- Counselors include the Seal of Biliteracy in IPS discussions and goal setting beginning in middle school (or earlier) and high school.
- District world language coordinator or counselor visits all upper level language classes to explain benefits and logistics of seal.
- Send an email blast to all freshmen for planning, adding to IPS.
- Send an email blast to all seniors and senior parents.
- Send a letter home to students meeting English requirements and enrolled in Level 4 or 5 of world language study.
- Send email blast to all freshmen ELs for planning purposes.

GUIDELINES FOR THE KANSAS SEAL OF BILITERACY

Assessment timing

(examples from various districts in Kansas)

- Students can take one or two of the validated assessments in October/February on a Saturday (if necessary).
- Students can take one or two of the validated assessments once in the fall or once in the spring at scheduled times during high school (as juniors or seniors).
- Students can take the AP at end of junior or senior year; or IB exam at the end of senior year.
- Students submitting the alternative assessment (SoBAAP) must be identified by beginning of their senior year at the latest and submit by February.

Recognition Options

- Hold an awards event in April or May for those students who are expected to earn the Seal of Biliteracy. (The KSDE Seal of Biliteracy Excel spreadsheet calculates automatically who does and doesn't qualify, so this should be a reliable indicator. If you have questions, contact the KSDE coordinator.)
- Order and/or rent cords, stoles, medals to wear at graduation ceremony. Explain the Seal of Biliteracy in the graduation program.
- Make sure the Seal of Biliteracy is added to the students' transcripts.
- Add a symbol in the graduation program that indicates that the student has earned the Silver or Gold Seal of Biliteracy.
- Hand out state certificates and letters from the Commissioner of Education.

Take responsibility as a department, school, district

- Examine practices of entire district K-12 teachers and support staff for ELLs to ensure that home languages other than English are valued, nurtured and developed to age appropriate and academic levels of proficiency. Keep in mind that this might be a paradigm shift that feels threatening to basic beliefs about a school's mission.
- Examine district practices that need to be changed if ELs test out during lower grades, but don't make the grade as they move up into higher grades and harder subjects.
- Examine curriculum in world languages and make adjustments to more proficiency-based (rather than grammar-driven) standards and instruction. Don't be afraid to change.
- Don't be afraid to expect more of students – novice mid or high by end of level 1, novice high or intermediate low by end of level 2, etc.
- Have articulation meetings twice a year for teachers across the district. Use can-do statements (state standards) across the district. What are issues from elementary to middle school, and from middle school to high school?
- Assess on a regular basis using can-do statements; provide students clear definitions of proficiency and honest feedback about progress toward attaining proficiency levels.
- Provide students resources to encourage independent study of languages. Recognize the potential for students studying languages other than those offered in your school.
- Create and follow an annual timeline.
- Create and support a K-12 timeline that produces bilingual students. Forecast the need for EL heritage language support in early grades, early second language study, and/or taking continuously through high school.
