Evidence-based - Given the novel context created by the COVID-19 pandemic, an activity need not have generated such evidence during the COVID-19 pandemic to be considered evidence-based. The ARP Act defines the term “evidence-based” as having the meaning in section 8101(21) of the ESEA. Accordingly, “evidence-based” includes several tiers of evidence. Specifically, “evidence-based,” when used with respect to an SEA, LEA, or school activity, means an activity, strategy, or intervention that:

- Demonstrates a statistically significant effect on improving student outcomes or other relevant outcomes based on—
 - Strong evidence from at least one well-designed and well-implemented experimental study (“tier 1”);
 - Moderate evidence from at least one well-designed and well-implemented quasi experimental study (“tier 2”); or
 - Promising evidence from at least one well-designed and well-implemented correlational study with statistical controls for selection bias (“tier 3”); or
- Demonstrates a rationale based on high-quality research findings or positive evaluation that such activity, strategy, or intervention is likely to improve student outcomes or other relevant outcomes and includes ongoing efforts to examine the effects of such activity, strategy, or intervention (“tier 4”).

Expended - The actual spending of money; an outlay. For purposes of this reporting, reimbursements that are made in the current reporting period that reimburse expenditures made prior to the start of the reporting period and on or after June 30, 2022, are considered “expenditures” for this reporting period.

Full-Service Community School - The term “full-service community school” means a public elementary school or secondary school that—participates in a community-based effort to coordinate and integrate educational, developmental, family, health, and other comprehensive services through community-based organizations and public and private partnerships; and provides access to such services in school to students, families, and the community, such as access during the school year (including before - and after-school hours and weekends), as well as during the summer.

An SEA must reserve at least 7 percent of its ARP ESSER award for mandatory set-asides for evidence-based interventions, as described below, and up to 3 percent for emergency needs as determined by the SEA (the “SEA Reserve”). An SEA may also reserve up to ½ of 1 percent of its total ARP ESSER award for administrative costs, which must come from the 3 percent for emergency needs.
