Review of Membership

Colleen reviewed the process used to select members of this council. The Title 1 Practitioners workgroup has evolved into the ESEA Advisory Council. Council membership has continued to

evolve with help from the commissioner and deputy commissioner. Membership has expanded to include people with positions relevant to the work. This council has membership from various stakeholders groups that are involved in providing or supporting title programs and services for students served by Title I investments. There is only one voting member from each organization.

All are welcome to attend the council's public meetings.
