The Honorable Ian Rosenblum  
Deputy Assistant Secretary for Policy and Programs,  
Delegated the authority to perform the functions and  
duties of the Assistant Secretary  
Office of Elementary and Secondary Education  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, DC 20202

Dear Assistant Secretary Rosenblum,

The Kansas State Department of Education (KSDE) request a Tydings waiver to extend the period of availability of FY 2016 1003(g) SIG funds (CFDA 84.377A) through September 30, 2022. The KSDE requests this waiver, as authorized by section 421(b) of the General Provisions Act.

Consistent with the requirements of ESEA section 8401(b)(1)(C) and (F), the KSDE has provided the following details supporting how the waiving of such requirements will advance student academic achievement and how schools will continue to provide assistance to the same populations served by program for which waivers are requested.

- The previous extension of the period of availability of 1003(g) SIG funds has allowed the KSDE to better coordinate school improvement resources across all funding sources in order to ensure that schools are able to provide effective, evidence-based supports as part of a coherent and sustainable framework that results in systemic improvement in student outcomes. Granting this additional extension in the period of availability enables the KSDE and Kansas schools to continue to coordinate these resources in a manner that is responsive to the ongoing COVID-19 pandemic, and the additional challenges it has presented.
- Local Education Authorities (LEAs) that were not able to effectively spend their allocations will be able to better plan and use these funds in conjunction with relief funds and state and local funds to plan on providing students the needed support for remediation and/or enrichment. LEAs have worked on identifying areas of need for their students following the pandemic. LEAs will continue to identify those students most in need of support for the ESEA programs and will provide services to the students and

*Kansas leads the world in the success of each student.*

professional development to teachers and staff in identifying the needs and providing the resources to the students.

In seeking these waivers, I assure that:

- The SEA will use, and ensure that its subgrantees use, funds under the respective programs in accordance with the provisions of all applicable statutes, regulations, program plans, and applications not subject to these waivers.
- The SEA will work to mitigate, and ensure that its subgrantees work to mitigate, any negative effects that may occur as a result of the requested waivers.
- The SEA has provided the public and all LEAs in the State with notice of, and the opportunity to comment on, this request by posting information regarding the waiver request and the process for commenting on the State website in the manner in which the SEA customarily provides such notice and opportunity to comment and has enclosed with this waiver request any comments received and a description of how the SEA addressed such comments.

Thank you for your consideration,

Randy Watson

Commissioner of Education
