SOCIAL EMOTIONAL CHARACTER DEVELOPMENT STANDARDS

Kent Reed

Kansas Social, Emotional and Character Development Model Standards

Adopted by the Kansas State Board of Education, April 17, 2012
Revised July 2018
A new study reveals that students who participate in school-based programs focused on social and emotional learning benefit in multiple ways as compared to students who do not experience programming in social and emotional learning.

Check out these incredible findings!

<table>
<thead>
<tr>
<th>Benefit</th>

All 50 States now have preschool SEL competencies

- 8 states have K-12 SEL competencies (up from 1 in 2011)
- 8 states have SEL-related web pages
- 16 additional states are developing guidelines

Source: 2017, Collaborating States Initiative, CASEL
WHY FOCUS ON SOCIAL-EMOTIONAL GROWTH

Every $1 invested in Social Skills instruction = $11 in economic returns for the community.

Source: Teachers College, Columbia University (2015)
Kansas was the first state to adopt Social, Emotional and Character Development standards. The standards were adopted in 2012.

2018 Revisions
- Prevention statutes
- Employability
- School mental health
- Civic engagement
- First read for BOE will be in June
KANSAS SOCIAL, EMOTIONAL AND CHARACTER EDUCATION STANDARDS

Character Development
- Core Principles
- Responsible Decision Making
- Problem Solving

Social Development
- Social Awareness
- Interpersonal Skills

Personal Development
- Self-Awareness
- Self-Management
STATE BOARD SOCIAL-EMOTIONAL GROWTH GOAL

Each student develops the social, emotional, and character competencies that promote learning and success in life.
Social, Emotional, and Character Development (SECD) Standards provide schools a framework for integrating social-emotional learning (SEL) with character development so that students will learn, practice and model essential personal life habits that contribute to academic, career, and personal success.
DEFINITION

SECD standards encompass practicing good citizenship as respectful, responsible, empathetic and ethical individuals, through making healthy decisions, practicing personal safety, understanding risk prevention, promoting a positive school culture, problem solving effectively, and valuing excellence.
CORE BELIEFS

- SECD skills are teachable and measurable.
- SECD skills are essential for academic achievement.
- SECD skills are developed within a continuous growth process throughout life.
- SECD skills are acquired by students through intentional, integrated efforts of the entire school, family and community.
- SECD skills are best learned in a respectful, safe and civil school environment where adults are caring role models.
CHARACTER DEVELOPMENT

**Definition:**
Developing skills to help students identify, define and live in accordance with core principles that aid in effective problem solving and responsible decision making.

**Rationale:**
Our schools have the job of preparing students for citizenship in a global society. Success in school and life is built upon the ability to make responsible decisions, solve problems effectively, and to identify and demonstrate core principles.
SOCIAL, EMOTIONAL AND CHARACTER DEVELOPMENT STANDARDS

CHARACTER DEVELOPMENT

Definition: Developing skills to help students identify, define and live in accordance with core principles that aid in effective problem-solving and responsible decision-making.

Rationale: Our schools have the job of preparing our children for American citizenship and participation in an interdependent world. Success in school and life is built upon the ability make responsible decisions, solve problems effectively, and to identify and demonstrate core principles.

Core Principles

1. Recognize, select, and ascribe to a set of core ethical and performance principles as a foundation of good character and be able to define character comprehensively to include thinking, feeling, and doing.
2. Develop, implement, promote, and model core ethical and performance principles.
3. Create a caring community.

Responsible Decision Making and Problem Solving

1. Develop, implement, and model responsible decision making skills.
2. Develop, implement, and model effective problem solving skills.
SUGGESTED EDITS/INCLUSION

- Jason’s Law (youth suicide)
- Erin’s Law (child sexual abuse)
- KSA 72-8256 (bullying)
- School Mental Health
- Trauma-Informed/ACES

- Self-Harm
- Recovery and Resiliency
- Growth Mindset
- Civic Engagement
- Ethical Use of Technology

**Notes**

- **Core Principles**
  - Address statutory social-emotional requirements (1.1)
  - Identify adult care-givers

- **Character Development**
  - Self-harm awareness
  - Community of caring
  - Self-respect
  - Self-harm interventions
  - Identify adult care givers
  - Recovery/Resiliency

- **Social Development**
  - Be aware and understand the indicators of self-harm in others (I.A, B; II. A, B, C)
  - Understand how to help others (I. A, B; II. A, B, C)
  - Effective communications skills (I. A, B; II. A,B,C)
  - Community of caring (1.B)
  - Conflict resolution (I.A, B)
  - Bullying awareness (1.A, B; II. A,B,C)

- **Personal Development**
  - Self regulation
  - Growth mindset
  - Recovery and resiliency
  - Refusal skills

---

#KansansCan
II. Responsible Decision Making and Problem Solving

1. Develop, implement, and model responsible decision making skills.
2. Consider multiple factors in decision-making including ethical and safety factors, personal and community responsibilities, and short-term and long-term goals.

9-12

a. Assess lessons learned from experiences and mistakes while demonstrating the ability to build resiliency.

b. Implement responsible decision making skills when working towards a goal and assess how these skills lead to goal achievement.

c. Utilize skills and habits of applying standards of behavior by asking questions about decisions that students or others make, are about to make, or have made.

d. Evaluate situations that are safe or unsafe and how to avoid unsafe practices.

e. Effectively analyze and evaluate evidence, arguments, claims, and beliefs.

f. Students recognize consequences of sexual behavior, including sexual consent, pregnancy and the inability of minors to give consent.

#KansansCan
PERSONAL DEVELOPMENT

II. Self Management
   B. Reflect on perspectives and emotional responses.

K-2
1. Describe personal responsibilities to self and others.
2. Describe responsibilities in school, home, and communities.
3. Describe how they react to getting help from others (for example, surprise, appreciation, gratitude, indifference and resentment).
4. Describe common responses to success, challenge, failure, and disappointment.
PERSONAL DEVELOPMENT, CONT.

3-5  1. Acknowledge personal responsibilities to self and others.
2. Recognize and demonstrate environmental responsibilities.
3. Examine the personal impact of helping others.
4. Reflect on your personal responses to success, challenge, failure, and disappointment.
5. Understand causes and effects of impulsive behavior.

6-8  1. Demonstrate personal responsibilities to self and others (for example, friends, family, school, community, state, country, culture, and world).
2. Practice environmental responsibilities.
3. Practice and reflect on democratic responsibilities.
4. Describe positive and negative experiences that shape personal perspectives.
5. Demonstrate empathy in a variety of settings and situations.
6. Evaluate causes and effects of impulsive behavior.
SOCIAL DEVELOPMENT

II. Interpersonal Skills

B. Develop and maintain positive relationships.

6-8
1. Evaluate how self-regulation and relationships impact your life.
2. Understand how safe and risky behaviors affect relationships and one’s health and well-being.
3. Respond in a healthy manner to peer-pressure against self and others.
4. Identify the impact of social media in relationships.
5. Identify the difference between safe and risky behaviors and understand effective responses.

9-12
1. Practice strategies for maintaining self-regulation and positive relationships.
2. Identify consequences of safe and risky behaviors.
3. Practice refusal strategies and reporting of unhealthy behaviors and relationships.
4. Define the impact of social media on reputation and relationships.
5. Develop understanding of relationships within the context of networking and careers.
STANDARDS USE

• Framework for:
  • Needs assessment
  • Vetting for “best practices” curriculum and instruction
  • Evaluation

• Verbiage for:
  • SIT Teams
  • IPS
  • IEP
  • Behavior plans

• KESA
PUBLIC COMMENTS

Feedback

• KSDE conducted more than a dozen public comment sessions
  ▪ Conferences (Kansans CAN, KCA etc.)
  ▪ In-Services (i.e. USD 500, USD 233)
  ▪ Superintendents Association
  ▪ Webcasts
  ▪ Service Center Workshops
  ▪ Standards posted on-line and sent out over list serve

• 98% of more than 300 attendees Agreed or Strongly Agreed with the statements:
  ▪ “The SECD Standards will be useful to me in my position”
  ▪ “The SECD Standards will support positive change in the climate and culture (Conditions for Learning) of Kansas Schools.”
PUBLIC COMMENTS

Most frequently stated concerns

• “… help with implementing these standards.”
• “… staff support.”
IMPLEMENTATION FOR SECD STANDARDS, CURRICULUM, INSTRUCTION AND EVALUATION
INTEGRATION AND ALIGNMENT

• SECD Standards Revisions
  ▪ Incorporated prevention statutes

• Integration with content areas
  ▪ ELA
  ▪ Math and Growth Mindset
  ▪ Employability (CTE)

• Board Outcomes
  ▪ IPS
  ▪ Graduation
  ▪ Post-Secondary

• Career Development Cycle

• Civic Engagement

• Kansas Schools of Character Recognition Program

• Anti-Bullying Awareness Week

• Measuring Social-Emotional Growth Toolkit

• CASEL’s Collaborative States Initiative
Measuring Social-Emotional Character Growth Tool Kit

SUICIDE PREVENTION

Monica Kurz
CDC report - Suicide Deaths across States

- KS had the 5th largest increase in suicide deaths between 1999-2016 (45%)

- 54% of the suicide deaths investigated did not have a known mental health condition at the time of death

- Other life stressors were contributing factors such as relationship problems, criminal/legal, housing loss or impending crisis
Suicide is Complex

More investigation will be needed to understand the increasing suicide death rate trend.

Suicide prevention has often prioritized identifying suicidal individuals and treatment of mental health conditions. The information from the CDC report shows that more upstream work is needed due to the large percentage of suicide deaths which occurred when no mental health condition was identified.
Differences exist among those with and without mental health conditions. People without known mental health conditions were more likely to be male and to die by firearm.

No known mental health conditions

<table>
<thead>
<tr>
<th>Sex</th>
<th>Method</th>
</tr>
</thead>
<tbody>
<tr>
<td>Female</td>
<td>16% Poisoning 10% Suffocation 27% Other 8% Firearm 55%</td>
</tr>
<tr>
<td>Male</td>
<td>84%</td>
</tr>
</tbody>
</table>

Known mental health conditions

<table>
<thead>
<tr>
<th>Sex</th>
<th>Method</th>
</tr>
</thead>
<tbody>
<tr>
<td>Female</td>
<td>31% Poisoning 20% Suffocation 31% Other 8% Firearm 41%</td>
</tr>
<tr>
<td>Male</td>
<td>69%</td>
</tr>
</tbody>
</table>
Many factors contribute to suicide among those with and without known mental health conditions.

- Relationship problem (42%)
- Problematic substance use (28%)
- Job/Financial problem (16%)
- Loss of housing (4%)
- Physical health problem (22%)
- Crisis in the past or upcoming two weeks (29%)
- Criminal legal problem (9%)

Note: Persons who died by suicide may have had multiple circumstances. Data on mental health conditions and other factors are from coroner/medical examiner and law enforcement reports. It is possible that mental health conditions or other circumstances could have been present and not diagnosed, known, or reported.

Public Health Approach

- Availability of physical and mental health care
- Safe and supportive school and community environments
- Sources of continued care after psychiatric hospitalization
- Connectedness to individuals, family, community and social institutions
- Supportive relationships with health care providers
- Coping and Problem Skills
- Reasons for living (e.g., children in the home)
- Moral objection to suicide

Societal
- Availability of lethal means of suicide
- Unsafe media portrayals of suicide

Community
- Few available sources of supportive relationships
- Barriers to health care (e.g., lack of access to providers or medications, prejudice

Relationship
- High conflict or violent relationships
- Family history of suicide

Individual
- Mental Illness
- Substance Abuse
- Previous suicide attempt
- Impulsivity/aggression

Risk Factors
CDC Report - Youth specific data

- For the age group 10-24 years: more suicides occurred in individuals without an identified mental health condition
  - Around 57% did not have an identified mental health condition

- 19.9% of suicide deaths (10-18 years) identified having “school problems” as a contributing factor
  - The majority of these deaths (92 or 162) did not have a known mental health condition
Kansas Communities that Care Survey

Assess current perceptions, opinions, attitudes and behaviors of youth in Kansas.

Expanded module available to assess depression and suicide experiences in 8th, 10th and 12th graders.

No statewide data available for 2015 due to low participation of school districts.

80% utilizing the KCTC use depression/suicide module.
Have you seriously thought about killing yourself, in the past year?

14.31  13.76  17.92
Have you made a plan to kill yourself, in the last year?

- 2013: 9.41%
- 2014: 9.01%
- 2015: 11.59%
Have you tried to kill yourself, in the last year?

- 2013: 4.61%
- 2014: 4.03%
- 2015: 5.08%
- 2016: 4.61%
- 2017: 4.03%
- 2018: 5.08%
- 2019: 5.08%
During this school year, how often have you been bullied at school?

- Never: Depression = No: 78.9, Depression = Yes: 21.1
- Sometimes: Depression = No: 66.2, Depression = Yes: 33.8
- Regularly: Depression = No: 40.0, Depression = Yes: 60.0
- Every day: Depression = No: 33.8, Depression = Yes: 66.2
National Suicide Prevention Lifeline

- Higher suicide rates in rural and frontier counties
- Lower call volumes from the Western parts of the state
- Increase in call volume from all ages to the Lifeline
  - 65% increase from 2015 to 2018

NSPL Calls To HQ 2018
“I just get sad. I don’t know how to pull myself out of it and all I can think is whether it’s always going to be like this. Then I think about suicide. I tried talking to my mom about it, but she just freaked out. My friends are great to talk to, but they just tell me to smile and get over it. When I call Headquarters, they don’t tell me what to do. They listen and understand. It makes me feel validated and really helps. They’ve helped me figure out who and how to talk about my feelings with my friends and family. Without Headquarters, I probably would have killed myself. They totally saved my life.”

-High School Caller to the NSPL, 2018
Teen Help Seeking

Teens are more likely to talk to their peers than adults when they have serious concerns like suicide.

Two approaches

● Programs that are youth peer led which attempt to change this social norm. One example is Sources of Strength.

● Peer resource like the Teen Line in California which trains teens to talk with other teens while providing support to teen listeners to ensure they know what to do and how to get help.
Jason Flatt Act

- Passed by the legislature and requires schools to provide one-hour of suicide awareness training to all school staff.
- Some schools are using free online training
- Some schools are creating their own programs
- No requirement to do suicide prevention programming to students
  - In fact, there is some perception among school officials that this is not safe. The evidence tells us it is SAFE and IMPORTANT to communicate with students about suicide and mental health.
KSPRC staff has learned that school mental health professionals value the Jason Flatt training requirement

- Referrals for students from a variety of school personnel
- Continued challenges across the state in getting information about the outcome of mental health referrals
- Questions about how to best support students who return to school after a mental health intervention
Local Work

Kansas Prevention Collaborative

- Statewide coalition made up of local prevention coalitions
- Emphasis on integrated prevention including suicide

Kansas Suicide Prevention Resource Center

- Existing Suicide Prevention Coalitions supported in the past through federal funding (GLS) distributed by Headquarters to localities
- Currently consultation and training available on fee for service basis
Current Efforts - ASIST

ASIST is a two day workshop which teaches professionals and lay people to complete a suicide intervention with a person at risk. In 2017-2018

- Manhattan
- Lawrence
- Scott City
- Hutchinson
- Abilene
- Emporia
- Sterling
- Kansas City, KS
School Based

Yellow Ribbon- a gatekeeper program that teaches students about warning signs for suicide and provides an avenue for asking for help

- Dodge City has most robust program in state
- Liberal

More Than Sad- a classroom presentation and discussion on depression and suicide

- Wichita
- Herrington
School Based

Signs of Suicide- student and parent education around suicide

- Abilene Schools are implementing Sources of Strength-youth led suicide and mental health program. Some evidence showing positive effects on substance use and dating violence reduction

- No current schools that KSPRC is aware
- Newton, KS and Johnson County are pursuing funding
School Based

There is not a robust system for tracking which schools are addressing suicide risk and in which ways they are doing so.

School districts must find room in their budgets or work with community partners to find funding to implement evidence-based programming.
