- Work of the School Mental Health Advisory Council
The Mission of the **State Board of Education** is to prepare Kansas students for lifelong success through rigorous, quality academic instruction, career training and character development according to each student's gifts and talents.
SCHOOL MENTAL HEALTH ADVISORY COUNCIL

Purpose (Why)

Advise the Kansas State Board of Education of unmet needs within the state in the area of school mental health;

Coordinate with legislators and stakeholders to address relevant issues effectively, to best meet the needs of students; and

Coordinate statewide collaborative social emotional character development partnerships with stakeholders that will benefit students.

Process (How)

Council meets as needed to review areas of need related to school mental health:

- Legislation, statutes, regulations, etc.
- Efforts within the Kansas State Department of Education, the Technical Assistance System Network, districts, related state-level committees, and community partners
  - State-level data

Product (What)

Council considers needs, considers options for meeting the needs, and coordinates education and partner resources to address them:

- Resources
- Training
- Strategic and streamlined processes

Formed in July 2017.
1st meeting in August 2017.
Numerous pieces of legislation, regulations, statutes, and initiatives - including Erin’s Law – which require education professionals to receive ongoing training, prompted the Kansas State Board of Education to:

- Review efforts to address all forms of adverse childhood experiences which impede child/adolescent well-being and development;
- Identify the number of trainings already required for school staff, to determine the manageability of adding additionally required trainings and determine a more strategic approach;
- Explore a more comprehensive, streamlined approach for enhancing “school mental health practices” and building on social, emotional, and character development;
- See how we can partner with community agencies to help meet the vast number of needs.

Kansans CAN
Kansas leads the world in the success of each student.
The Kansas multi-tier system of supports framework establishes a system that intentionally focuses on leadership, professional development, and an empowering culture.

The Learning Forward Standards for Professional Learning, adopted by the Kansas State Board of Education in April 2012, outline the characteristics of professional learning that leads to effective teaching practices, supportive leadership, and improved student results.
Five of the 19 projects which provide technical assistance to support school districts' systematic implementation of evidence-based practices within the Kansas Integrated Multi-Tier System of Support Framework.

Several epidemiological studies of children’s mental health needs and services have led to the conclusion that school is the de facto mental health system for children.

20% of children & youth have a clearly identified need for mental health services but only about one-third of these children receive any help at all.

For children who do receive any type of mental health service, over 70% receive the service from their school.

Advancing Education Effectiveness: Interconnecting School Mental Health and School-wide Positive Behavior Support

Kansas leads the world in the success of each student.
Objective 1
Build capacity for cross-system school/community teams to implement a structured process for recognizing, assessing, identifying, and responding to students at risk or experiencing mental health difficulties and mental health emergencies.

Objective 2
Implement evidence-based, multi-tier, trauma-informed mental health interventions with fidelity.

Objective 3
Data-based decision making for continuous improvement.

Objective 4
All Kansas districts and communities will have access to evidence based resources, protocols, processes, and professional learning shown to be effective in meeting the mental health needs of Kansas students.

April 2017: Grant submitted.
September 2017: Notification of award.
Addresses a critical priority area necessary to achievement the Kansas State Board of Education's Kansan's Can vision and five associated outcomes:

- Each student develop the social, emotional, and character competencies that promote learning and success in life.

State Board of Education School Mental Health Advisory Council and multiple collaborative partnerships derived from the plan’s conceptual framework will be used to achieve the long-term goal:

- Improve the resilience and achievement of Kansas children and adolescents through the sustained implementation of systematic tiered levels of evidence-based mental health interventions.
