Date Transition Survey Completed ____/____/______

MM DD YYYY

Transition is broadly defined to include transitions for children in any 0-5 early childhood programs as well as children transitioning into Kindergarten. This may include children who are in more than one early childhood program at the same time and transition from one to another program on a regular basis as well as transitions of children that leave one early childhood program to attend another. The following questions are to be completed by a knowledgeable program staff regarding this program’s transition practices that are currently in place.
