   *Select Yes* if the answers are yes to all three of the following questions: 
   a) Can the goal(s) that covers Education or Training be counted or measured? 
   b) Will the goal(s) that covers Education or Training occur after the student graduates from school? 
   c) Based on the information available about this student (e.g., present level of performance, student interests, student preferences), does (do) the postsecondary goal(s) that covers Education or Training seem appropriate for this student?

   *Select No* if any of the above questions cannot be answered yes OR if a postsecondary goal that covers Education or Training is not stated.

   **Special Note:** The IEP must include measurable postsecondary goals in the areas of training, education and employment and, where appropriate, independent living skills. It is up to the IEP team to determine whether an IEP goal(s) related to the development of independent living skills is appropriate for each student. In some instances, training and education goal(s) can be combined into one or more goals. Employment, however, is a distinct activity from the areas related to training and education and each student’s IEP must include a separate postsecondary goal in the area of employment.

   **Special Note:** The IEP must include measurable postsecondary goals in the areas of training, education and employment and, where appropriate, independent living skills. It is up to the IEP team to determine whether an IEP goal(s) related to the development of independent living skills is appropriate for each student. In some instances, training and education goal(s) can be combined into one or more goals.    *Select No* if any of the postsecondary goal areas addressed in questions #3, #4, and #5 has no annual goal or short-term objective included in the IEP related to the student’s transition services needs.

   **Special Note:** Measurable postsecondary goals are different from measurable annual goals in that they measure an outcome that occurs after a student leaves high school where a measurable annual goal measures annual progress of the student while in school. It is important that each postsecondary goal be supported by one or more annual goals, and each annual goal may support more than one postsecondary goal. When developing postsecondary goals, the team should understand what annual goals support the postsecondary goal.
