 - iii. Community based preschool
 1. Session minutes mirror the local elementary school.
 2. Head Start or All other preschool session types only
- c. Contact KSDE if settings remain unapproved

October 2019 MIS – FAQ

2. Review Current Year reports.

- a. Projected December 1 report
 - i. List of all student served by the LEA on December 1. Are all students accounted for?
 - ii. Check for duplicates. No student should be listed more than once. See FY19 workbook
- b. Overlap report
 - i. List of students with service dates overlapping with another agency. More than one agency is claiming to have served the same student on the same dates in two or more different locations.
 - ii. To resolve overlaps, modify service start and / or exit dates to remove overlaps
 - iii. Speak with the Data Clerk from the overlapping agency and coordinate efforts as all overlaps must be resolved.

Tip – Move in student – Check to see if the same IEP services that were delivered from the prior agency are listed on your current year service lines

If yes, delete the service lines from the other agency

Tip – Move out student – Is the overlap start date days before your exit date? If yes, then you exit date and service end dates may be long. The student was already in the new agency before the exit date. To fix it change the exit date and latest service end dates to equal the day before the overlaps starts.

The Overlap report should not have any students listed through the school year.

Tip – New discovered Exiters from last school year (May exits) are not reported with the first day of school as the exit date.

If a current year student record was entered for a student who exited at the end of last school year or over the summer, the fix is to delete the current year profile from the MIS
