Purpose: The purpose of this document is to establish consistent instructions, rules, and procedures for submitting Part B and gifted MIS data to KSDE. All agencies submitting MIS data to KSDE must strictly obey and comply with all instructions stipulated in this Data Dictionary, and do not have the authority to invent, change or ignore any instruction, definition, rule or procedure specified in this document. per §300.645, §300.211, §300.600(e)

Reporting standard: Each LEA is required to keep the data as up to date and current as possible. Student records are reported at a minimum of monthly updates. Active and exiting students are reported together.

DATA SUBMISSION SCHEDULE
Current School Year Collection Cycle

Time Line: -

July 1 - Application is open for all 618 data submissions, imports and keyboard entry

Beginning Year Set-up:

July 1 - Complete calendars for the current school year
July to August 31 - Building settings are entered and submitted to KSDE for approval.
August 31 - Current year providers are entered.

September 1 - Target date for initial submission of current year student records. This initial submission will meet the Reporting Standard requirement of monthly updates. The initial population of current year students are also used to determine “Unresolved Exits” from the prior school year.

December 31 - Target date for accounting for SPED students enrolled and receiving services up to and through December 1 of the current school year.

February 28 - KSDE pulls the finalized December 1 child count from the MIS system. Subsequent records, revisions or updates to the December 1 population will not be included. All verifications, discrepancies, duplicates / overlaps, corrections to the preliminary child count and Indicators 5, 6, 9 & 10 must be resolved in the application by the Feb. 28 target data pull.

April 1 to April 30 - Data Required - All students with Non-Public Equivalency contracts and / or Catastrophic Aid claims in the current school year are accounted for in the MIS

May 1 - Target for the KSDE data pull of the finalized Non-Public Equivalency contracts and / or Catastrophic Aid claims from the MIS system

June 30 - Deadline for submission of Suspension / Expulsion data to the KIAS system. Review and correction to building level discipline incidents must be completed by June 30.

September 15 - KSDE pulls the finalized End of Year, Exiting and Discipline data from the MIS system. Subsequent records or updates will not be included in the final reports. All final verifications, discrepancies, duplicates / overlaps must be resolved by the Sept. 15.

Continuous ongoing activity - Tasks Required – All Students served at any time during the current school year (July 1 through June 30) must be accounted for in the MIS application. Review of projected reports are completed frequently. Maintenance of current year data, including revisions, data corrections, and updates are completed in a timely manner. Resolving verifications, discrepancies, duplicates / overlaps must be completed as close to “real time” as possible.
General Supervision – Timely and Accurate Reporting

Timely and Accurate submission of data: All Part B and gifted student data submitted to KSDE must be an accurate representation of the student's special education program, determined by the student's IEP team. Data elements shall not be manipulated, fabricated or altered in any way that creates a distortion of the frequency, duration or location of services or attempts to avoid detection by the KSDE verification process. KSDE will not accept any data that contain fabricated or manipulated information. KSDE will examine the accuracy of ALL data for timeliness and accuracy and reports this on the District Scoresheet. Any district not meeting the deadline or identified as submitting invalid or inaccurate data will be considered non-compliant for timeliness, accuracy and/or Internal Controls.

Key dates used to measure timeliness

Reporting Standard Monthly updates – Data is to be kept as up-to-date as possible with revisions and submissions at a minimum of monthly updates.

December 1 Child Count Data Extraction:

December 31 – All current year students, their activity for the school year is accounted for in the MIS system

January 31 – The process of responding to unresolved verifications for the current school year must begin before January 31. Those organizations starting after this date will be counted as untimely on the Timely, Accurate & Internal Control scoresheet.

February 28 – Target date of final data pull of students served on December 1.

All discrepancies and verifications must be resolved by this date to be counted as timely on the District score sheet.

End of Year Comprehensive Data Report Extraction:

June 30 - All current year students, their activity for the school year is accounted for in the MIS. Initial entries after this date will be considered untimely on the District Score Sheet.

August 15 – The process of responding to unresolved verifications for the current school year must start by August 15. Those organizations starting after this date will be counted as untimely on the Timely, Accurate & Internal Control scoresheet.

September 15 – Target date of final data pull of students served during the school year.

All discrepancies and verifications must be resolved by this date to be counted as timely on the District Score Sheet. Subsequent data changes will result in loss of points for Timely and Accurate

March 1 to 31 - Timely and Accurate results are released in early March for internal review. Any questions or challenges to Timely and Accurate results must be presented to KSDE during March. In April the final results are released to superintendents

Date Stamps – The following methods will be used to measure the timeliness of data reported to KSDE.

● Data files uploaded to KSDE are date stamped by the MIS application.
● Keyboard corrections to student records are date stamped by the MIS application

Unreliable Data: Upon discovery of uncorrected inaccurate, erroneous or unreliable data, KSDE will inform, present evidence and require the responsible agency to make data modifications as directed prior to the report finalization. Failure to make the correction may result in loss of Timely and Accurate points for not following KSDE directions or guidance.

The District Score Sheet – An annual report of timeliness and accuracy of data submitted to KSDE by organization. The score sheet awards points (on an all or nothing basis) for the successful completion of submitting timely and accurate data to KSDE in accordance with the collection timelines and requirements, standards, guidelines and rules. Timeliness and accuracy will be measured for several categories, including 618 data, SPP indicators and training attendance. LEAs that submit data for multiple districts may be awarded or subtracted points by member district.
FY 2022 ASCII TEXT FILE SPECIFICATION

All information contained in MIS files and submitted to KSDE must conform to the following specifications:

1) The data reported to KSDE must be applicable, relevant and germane only to the 2021 –2022 school year. Data from prior school years or anticipated data for future school years is irrelevant to this collection.

2) Each student record will contain 1 header (fields 1-21) and at least 1 set of service data (fields R1-R18). For students receiving more than 1 service, additional sets of service data will be appended to the student's record.

3) All individual student records must be reported in ASCII text file format. Each field must be delimited with a tab character (→) ending a carriage return (¶) following the last sequential field.

2021-2022 KSDE - IDEA Part B and Gifted Special Education Data Dictionary

Creating Batch Import Files

ASCII Text File Importing Method: The data is submitted to KSDE at a minimum of monthly updates.

Procedural overview: A student import file will have all services accounted from the responsible agency for the current school year. Each student record has 1 set of Header data (fields 1-21) followed by all IEPs and services (fields R1- R18) listed in a single record per student. Subsequent imports will include all IEP and service data for the current year. Please note: the system does not combine or merge data with student records existing in the application. Each import would contain the school snapshot of current year services known at the time of the import.

Example 1 – A student with more than one IEP e.g. a November 18, 2019 & Nov. 3, 2021 IEP dates
  Initial submission – (August 2021) report the services associated to the 11/18/2019 IEP.
  Subsequent submission – (November 2021) Report all current school year services from both IEPs, on one record including both IEPs. List the service from the Nov. 18, 2019 IEP starting on the first day of school to Nov. 2nd, the Nov 3, 2021 IEP with services from Nov. 3rd to the end of the school year. If there are no ensuing data changes, no additional imports are required.

Example 2 – A continuing student with an April 10, 2021 IEP date
  Initial submission – Report all current school year services, first day of school to Apr. 9, 2022
  Subsequent submission – Report all current school year services, first day of school to Apr. 9, 2022, Include next IEP and report all current school year services to last day of school or exit date, (Whichever event happens first).

Example 3 – A new student begins special education in your LEA for the first time in October 2021
  Initial submission – Report all services from the first day of service to the last day of school
  Subsequent submission – Not required unless an ensuing data change occurs before years’ end

Please note: In the case of example 3, the student had no subsequent activity or changes, no amended or new IEP, did not exit, etc. Thus, the student data is complete for the school year. There is no requirement to resubmit. The initial submission will apply to all current year MIS reports.

Example 4 – A student exits your agency
  Initial submission – The initial submission contains current year service up to exit date.
  Subsequent submission – required if the student returns to SPED in the current school year.

Example 5 – A student exits your agency, then returns to IEP services
  If the student exits and returns under the same IEP
  Report all current school year services, first day of service to exit. Then additional services for service return to annual IEP review date or last day of school which ever date comes first.
  If the student exits and returns with services covering multiple IEPs
  Report all current school year services as above from all IEPs.
  Note: Because the student is returning, service lines are marked as “allow gap” to avoid gap verifications.

Example 6 - A student exits IDEA services, and (returns) or (continues) only in a gifted program

Student record layout
  a. Field R4 (Primary disability) is populated, Field R5 is conditional
  b. Field 18 (Claiming) has a Yes (1) value.
  c. Field 09 (Status) contains an exit status, Field 10 (Exit date) contains an exit date
  d. Field R14 (service end date) of all IDEA services equals the exit date (Field 10)
  e. Field R13 (service start dates) subsequent to the exit date are GI only
  f. Field R6 (Gifted indicator) has a Yes (1) value
  g. Field R10 (service code) only contains Gifted (GI) services, for all service lines starting after the exit date on the student profile.
Creating a School Calendar

Step 1 - Go to the calendar list on the navigation pane.

Step 2 - **Set the calendar parameters** - Create a default master calendar for the district or organization and select all grades. This calendar will apply to all service locations unless a different calendar overrides the district level calendar (Step 5). Select the new calendar button to create a new calendar for the building / program that does not follow the master calendar.

Step 3 - **Mark the days not in session** – Step 3 - Using the board approved calendar,

1. Enter the students’ first day of school (attendance) and last day of school. ESY is not considered.
2. Identify all days students are not in attendance, by clicking on the specific day and graying out the specific day as not in session. Partial or half school days count as a whole day and are **not** marked or grayed out as not in session.
3. The number of student contact days will determine the number of total days in session for the school year for which a student may receive services.
4. Create a separate school calendar for each district within a COOP or Interlocal.

The above calendar is only an arbitrary example of how to mark calendar days not in session.

Step 4 - **Save the calendar** - Click the save button

Step 5 - **Accounting for a Relationship between Calendars and all locations of service**

D0 organizations, public school districts – A district level calendar for all grades is required for all districts. **Only** create a building or program calendar if the days in session are different from the district level calendar by building or grade level.

S0 organizations, State operated schools – Create a default master calendar for the organization. This calendar will apply to all service locations unless a different calendar overrides the organization level calendar (Step 2).

X0 / Z0 organizations, Private / Parochial schools - Create individual building level calendars for X0 / Z0 buildings. Do not create a district / organization level calendars for X0 / Z0 organizations.

Snow days
Reporting snow days in the MIS depends on how providers are reporting snow days on the student’s IEP. If providers are adjusting the service line start and end dates to account for the snow days, then the district calendar in the MIS is also adjusted so the dates and total days of service match.

Early Childhood Special Education Services 32
Special Education Program Types – Guidance 33
Reporting Full sessions of Service 34
Providers – Roles, Batch file Import specs 34
Verification codes – Descriptions 35-36
Verification association to OSEP data and OSEP reports 37
Virtual Schools and Virtual Programs - Guidance 37-38
STUDENT DATA ITEM DESCRIPTIONS

All Day or Extended Kindergarten / Preschool Time (Field, #16) - [Grades values 01-05] -
Permitted Import Values 1 = Yes, Student attends more than 1 session, this school year.
0 = No, Student attends a ½ day session or less, this school year.
Examples of Yes:
Blank is treated as zero
1) A student attends a full day kindergarten or preschool program.
2) A student attends two daily - ½ day sessions of any preschool / kindergarten / home combination.
3) Any combination of services that exceeds a building’s single scheduled ½ day session.

Assign Child Count – (Field 6) Select the responsible USD or agency belonging to the responsible
building claiming the student. Organization associated with the Accountability or Funding school in the
student’s KIDS records. For students who move within a Coop or Interlocal, the ACC is the
organization associated to the most recent (last) responsible school of the school year.
Allowable Import Values USD / agency must be a member of the of the submitter’s organization
Organization must have a D0 or S0 prefix.
Outside districts / agencies will fail to import.
Null / Blank value will fail to import

Behavior Intervention Plan (Field, #17) - The term “Behavior Intervention Plan” means a plan (a
separate document, goal or accommodation addressed on an IEP), consisting of strategies and services
to address the behavior of a child with a disability.
Permitted Import Values 1 = Yes, Student had a BIP during the current school year
0 = No, Student did not have a BIP during the current school year
Blank is treated as zero

BUILDINGS -

Building / Program Numbers – The unique building identifier as listed in the State Educational
Directory. All buildings / programs must be 4 digits and active for the school year being reported.
New buildings & programs numbers not present may requested to open in the State Directory.

Attendance Building/ Service location (Field, #R7), - The location where special education services are
delivered. (Include participation in regular early childhood or kindergarten programs in school buildings vs.
community-based buildings or non-school locations for the recording of K time.)
Allowable Import Values 4-digit building identifier found in State Educational Directory
Null / Blank value will fail to import

Primary Service Location (Field, #R8) – A Student may be associated with a primary service location
for local MIS reports such as roster reports or case load reports. This is not a required field.
Allowable Import Values 1 = Yes, building is the primary service location
0 = No, building is not the primary service location
Blank is treated as zero

Neighborhood School Building (Field, #7) – The student’s neighborhood school (A – D) is determined by:
First – Parental selection for general education by residence or private / parochial choice - apply tier I.
Or Second – If placed because of IEP team decision for special education services, apply tier II.
I. 1) The school the parent chooses to enroll (including open enrollment) their child for general education.
2) Preschoolers - The anticipated school the parent will choose to enroll their student for general ed.*
Then Neighborhood school = A. Public School   B. Private / Parochial School   C. Home School
* If the anticipated school remains unknown from test 2, then apply test IV (i - iii), below, in that order:
II. The school where the student would attend if not placed elsewhere for educational services.
3) If the student is placed by an LEA in a building for special education services, thus general
education is delivered in the same building. or
4) If the student is placed in KSB, KSD, state special purpose schools by an LEA or by the parent. or
5) If the student is placed by KDOC, KDCF or JJA in a Psychiatric Residential Treatment Ctr., residential,
out of state SPED day school or correctional facility. Then the Neighborhood School = IV below
III. The local school where the student would enroll / attend if s/he was not placed in the above programs. For students in tier II, the neighborhood school is determined for type “D” students, either i, ii or iii.
   i) The school the parent chooses to enroll the student’s siblings for general education.
   ii) The local school determined by the student’s family residence.
   iii) If i or ii are unknown, report the student’s last elementary or secondary school of enrollment

Please contact the KSDE MIS Data Manager if assistance is needed in determining neighborhood school. Out of state students served in Kansas, list building 0114 (X0440) as neighborhood school.

Allowable Import Values 4-digit building identifier found in State Educational Directory
Null / Blank value will fail to import

**Multiple Service Locations** - If a student receives services in more than one location, then additional sets of service data are appended to the student’s record. There is no limit to the number of special education service locations that can be reported on the student record.

**Responsible District or Agency** – Means the USD or agency responsible for the provision of FAPE (Free and Appropriate Education), including providing special education or related services to students enrolled in the Agency, USD or private, parochial or home schools within the USD’s jurisdiction. **Enter the responsible district or agency number into the assign child count field.**

**Responsible School Building** – (Field, #R3) - The school building identified by the LEA in terms of Accountability and / or funding. These buildings are identified in the KIDS Collection Record in the Accountability School field (KIDS D2) or the Funding School field (KIDS D15). The Accountability School identifies the building for which the student’s average daily attendance and assessment scores are assigned and reported to KSDE. **No other factor determines responsible school.**

Allowable Import Values 4-digit active building identifier found in State Educational Directory
Buildings outside the submitter’s organization will fail to import.
Null / Blank value or 3 digits or less will fail to import

Possible variances - USD building or central office listed as funding school:
  A private / parochial student receiving services from an LEA would use the funding school.
  A home school student receiving services from an LEA would use the funding school.

* Enrollment information for determining responsible school is found in the student’s KIDS record.

**Assigning Correct Buildings:**

Before assigning buildings, it must be determined if the student is:
A) Public Schooled   B) Private / Parochial Schooled   C) Home Schooled   D) Other Cases

**A) Public School Students**

A student is enrolled in a public school and receives services from the public school.
   NBH BLDG - the public school building number as determined by test (A. 1-2) or [B. 3-5(i, ii or iii)] above.
   (1) ATT BLDG - the building where the student receives special education services.
   Assign Child Count – the current responsible public-school USD number, claiming the student in KIDS.
   Responsible BLDG – the public accountability school as claimed in KIDS, for the range of IEP services received.

A student attends and/or receives services in a Special Purpose, State School, KDOC, JCF, local correctional facility.
   NBH BLDG - the public school in the student’s home district where the student received general education.
   (2) ATT BLDG - the building where the student receives special education services.
   Assign Child Count – the current responsible public-school USD number, claiming the student in KIDS.
   Responsible BLDG – the public accountability school as claimed in KIDS, for the range of IEP services received.

A public preschool student is receiving services from the public school or it’s contracted agency.
   NBH BLDG - the public school building number where s/he will enroll for kindergarten (local elementary).
   (3) ATT BLDG - the building where the student receives special education services. (home, preschool, etc.)
   Assign Child Count – the current responsible public-school USD number, claiming the student in KIDS.
   Responsible BLDG – the public accountability school as claimed in KIDS, for the range of IEP services received.
A Virtual school student is receiving services from the public school.

- **NBH BLDG** - the Virtual school's building number where the student is enrolled for general education.
- **ATT BLDG** - the building where the student receives special education services. (Home, virtual school, etc.)
- **Assign Child Count** - the current responsible public school USD number, claiming the student in KIDS.
- **Responsible BLDG** - the responsible public school as claimed in KIDS, during the range of IEP services received.

**B) Private / Parochial School Students**

A private / parochial school student receives services **at the** private / parochial school.

- **NBH BLDG** - the private / parochial school building number where the student receives general education.
- **ATT BLDG** - the private / parochial school where the student receives services.
- **Assign Child Count** - the current responsible public-school USD number, reporting the student in KIDS.
- **Responsible BLDG** - the public school as reported in KIDS, during the range of IEP services received.

A private / parochial student attends and/or receives services from a Special Purpose School, KDOC, or State school.

- **NBH BLDG** - the private / parochial school building number where the student received general education.
- **ATT BLDG** - the building where the student receives special education services.
- **Assign Child Count** - the current responsible agency, claiming the student in KIDS.
- **Responsible BLDG** - the accountability school as reported in KIDS, during the range of IEP services received.

A private / parochial preschool student is receiving services from the public school.

- **NBH BLDG** - the private / parochial school where s/he will enroll for kindergarten. (Parents school of choice)
- **ATT BLDG** - the building where the student receives special education services.
- **Assign Child Count** - the current responsible public school USD number, claiming the student in KIDS.
- **Responsible BLDG** - the public school as reported in KIDS, during the range of IEP services received.

If a family traditionally home schools their children and their preschool child is receiving services from the public school.

- **NBH BLDG** - the public elementary school providing services.
- **ATT BLDG** - the building where the student receives special education services.
- **Assign Child Count** - the current responsible public school USD number, claiming the student in KIDS.
- **Responsible BLDG** - the responsible public school as claimed in KIDS, during the range of IEP services received.

**C) Home School Students**

A student is home schooled and receives services **at the** public school.

- **NBH BLDG** - USD Home building (number)
- **ATT BLDG** - the public school building where the student receives special education services.
- **Assign Child Count** - the current responsible public-school USD number, claiming the student in KIDS.
- **Responsible BLDG** - the responsible public school as claimed in KIDS, during the range of IEP services received.

If a family traditionally home schools their children and their preschool child is receiving services from the public school.

- **NBH BLDG** - the public elementary school providing services.
- **ATT BLDG** - the building where the student receives special education services.
- **Assign Child Count** - the current responsible public school USD number, claiming the student in KIDS.
- **Responsible BLDG** - the responsible public school as claimed in KIDS, during the range of IEP services received.
D) Other Special Cases

A student is enrolled in your district, but attends out of state.
NBH BLDG - the building number as determined by test (I. 1-2) or [II. 3-5 (i or ii)] above.
(13) ATT BLDG = the out of state building 0114 under organization X0440
Assign Child Count – the current responsible public-school USD number, claiming the student in KIDS.
Responsible BLDG – the public accountability school as claimed in KIDS, for the range of IEP services received.

A student resides out of state, or is an out of state placement made by an outside agency and attends / receives services in your district or agency.
NBH BLDG = Out of state building (organization X0440, - building # 0114)
(14) ATT BLDG - the building where the student receives services.
Assign Child Count – the current responsible organization number, claiming the student in KIDS.
Responsible BLDG – the responsible public-school as claimed in KIDS, during the range of IEP services received.

A student is under suspension or expulsion and the district provides services off campus.
NBH BLDG - the building number as determined by test (I. 1-2) or [II. 3-5 (i, ii or iii)] above.
(15) ATT BLDG = USD off-site location, home or temporary service location (building number).
Settings: = U – Under suspension / Under expulsion
Assign Child Count – the current responsible public school USD number, claiming the student in KIDS.
Responsible BLDG – the public accountability school as claimed in KIDS, for the range of IEP services received.

A student is placed by KDCF or JJA in a residential or correctional facility within the Responsible LEA’s catchment area.
NBH BLDG - the school in the student’s home district where the student received general education.
(16) ATT BLDG - the building number of the residential or correctional facility.
Assign Child Count – the current responsible organization number, claiming the student in KIDS.
Responsible BLDG – the public accountability school as claimed in KIDS, for the range of IEP services received.

Examples of aligning K time participation to the K time Service location

A student participates in an Integrated "R" classroom in the morning. In the afternoon his parents pay for him to attend Frog Family Group Daycare. The USD does not have a Froggy Family Daycare building in the Directory
NBH BLDG - the public school building number where s/he will enroll for kindergarten (local elementary).
(17) ATT BLDG - the K – Time without SPED services building, “K” setting & same dates range as the IEP services.
Assign Child Count – the current responsible public school USD number, claiming the student in KIDS.
Responsible BLDG – the public accountability school as claimed in KIDS, for the range of IEP services received.

A Student attends a district Group Day Care in a USD buildings / or a local Community based preschool.
NBH BLDG - the public school building number where s/he will enroll for kindergarten (local elementary).
(18) ATT BLDG - USD building / Community based preschool, "K" setting & same dates range as the IEP services.
Assign Child Count – the current responsible public school USD number, claiming the student in KIDS.
Responsible BLDG – the public accountability school as claimed in KIDS, for the range of IEP services received.

A student participates in a regular early childhood preschool (B) classroom in a USD building / elementary school.
NBH BLDG - the public school building number where s/he will enroll for kindergarten (local elementary).
(19) ATT BLDG - the USD building / same classroom, “K” setting & same dates range as the IEP services.
Assign Child Count – the current responsible public school USD number, claiming the student in KIDS.
Responsible BLDG – the public accountability school as claimed in KIDS, for the range of IEP services received.

Note: K time must be within the same service date range as the IEP services. K time cannot start before or end after the IEP services. K time participation outside the range of IEP services is not applicable in the Indicator 6 calculations.
Example 17 represents participation in a qualified K time program outside of school hours.
Example 18 – 19 represents participation in a qualified K time program during school hours’ excluding IEP support time

Catastrophic Aid – See appendix for the catastrophic aid file specifications.

Catchment Area – The geographical area served by an LEA, COOP or Interlocal. Individual districts within the COOP or Interlocal are part of the COOP’s catchment area. This is a factor in determining the basis of exit when a student moves. See exiting.
2021-2022 KSDE - IDEA Part B and Gifted Special Education Data Dictionary

**Claiming Indicator** - (Field, #18)

**Claiming Code 1 = Yes** - Student is to be counted / claimed for Federal and State MIS collections and reports by the submitting organization.

**Claiming Code 0 = No** – Student is not being counted / claimed for Federal and State MIS collections and reports by the submitting organization. These students are not required to be submitted to KSDE.

**Examples of Students with Claim Code = No:**
A) Students served by your LEA under contract with the student’s responsible district.
B) Students who have not reached their 3rd birthday.
C) Public school students attending KSB or KSD,
D) Students claimed for NPE reimbursement for the KSD or KSB summer term.

**Allowable Import Values**
1 = Yes, the student is being claimed by the reporting agency
0 = No, the student is not being claimed by the reporting agency
Null / Blank value will fail to import

**County of Residence:** (Field, #20) – School residence; definitions. (a) Any child who has attained the age of eligibility for school attendance may attend school in the district in which the child lives if: (1) The child lives with a resident of the district and the resident is the parent, or a person acting as parent, of the child; or (2) subject to the provisions of subsection (c), the child lives in the district as a result of placement therein by a district court or by the secretary for children and families; or (3) the child is a homeless child. §72-3122. Students placed by KDCF or JJA would report the county which the KDCF or JJA facility is located.

Other optional codes: OC – Other Country, UU – Unknown, ZZ – Other States

For residents of neighboring states use: CO – Colorado, MO – Missouri, NE – Nebraska, OK – Oklahoma

**DATES - Note:** Format for all dates is MM/DD/YYYY.

**Birth Date** - (Field, #4), (KIDS D9) the date of birth as reported in the student’s KIDS record.

Allowable Import Values MM/DD/YYYY as reported in the student’s KIDS record
Exit Date - (Field, #10), - The date the student exited from all SPED services. The date the last IEP service was delivered in the school year. Exit date is equal to the latest service end date. The student must be reported as an exit in the school year in which services ceased.

Special Case: Unknown Exit Dates Research all sources to ascertain the (exit) date services ended.
- If an exit date remains uncertain because the student did not enroll or attend this school year, enter the last day of school from the prior school year as the exit date.

Invalid Exit Dates - Examples of situations that would not yield legitimate exit dates
- The day the exit is discovered that the student is no longer being served by the LEA.
- The day a request for student records was received.
- The date withdrawal documents were signed.
- Anticipated dates the student is expected to exit, such as anticipated graduation date.
- The first day of school for students who moved over the summer.
- Students who move between a Coop or Interlocal’s member districts do not qualify as exiters.
- Students who exit and subsequently return to a Coop or Interlocal’s member districts in the same school year do not qualify as exits from the original organization.

Invalid IEP Dates -
- The next anticipated or scheduled IEP meeting to review the IEP currently in effect.
- Meeting dates held to determine change of placement for students exiting SPED. (Exit Date)
- Re-evaluation dates for students determined to no longer qualify for services. (Exit Date)
- Dates of meetings held to assess the student’s progress or to determine participation or attendance in an ESY term and the meeting was not designated as the IEP annual review date.

Disability Categories

PRIMARY DISABILITY - (Field, #R4) from the following list of codes, Enter the student’s category of disability as determined by the Eligibility Team.

<table>
<thead>
<tr>
<th>AM: Autism</th>
<th>DB: Deaf-Blindness</th>
</tr>
</thead>
<tbody>
<tr>
<td>DD: Developmentally Delayed - Students age 3 – 9 only.</td>
<td></td>
</tr>
<tr>
<td>ED: Emotional Disturbance</td>
<td>HI: Hearing Impairment</td>
</tr>
<tr>
<td>ID: Intellectual Disability</td>
<td>LD: Specific Learning Disability</td>
</tr>
<tr>
<td>MD: Multiple Disabilities</td>
<td>OH: Other Health Impairment</td>
</tr>
<tr>
<td>OI: Orthopedic Impairment</td>
<td>SL: Speech / Language Disabilities</td>
</tr>
<tr>
<td>TB: Traumatic Brain Injury</td>
<td>VI: Visual Impairment</td>
</tr>
</tbody>
</table>

For districts using Developmentally Delayed –
Students age 3 through 9 - Developmentally Delayed must stand alone as a primary disability. Students who meet the eligibility criteria and are identified with another disability would not use Developmentally Delayed as a primary or secondary disability.

**SECONDARY DISABILITY** - (Field, #R5) if the student qualifies and is identified as having a secondary disability, enter the category from following list of codes.

<table>
<thead>
<tr>
<th>AM: Autism</th>
<th>DB: Deaf-Blindness</th>
<th>ED: Emotional Disturbance</th>
</tr>
</thead>
<tbody>
<tr>
<td>HI: Hearing Impairment</td>
<td>ID: Intellectual Disability</td>
<td>OH: Other Health Impairment</td>
</tr>
<tr>
<td>MD: Multiple Disabilities</td>
<td>SL: Speech / Language Disabilities</td>
<td>TB: Traumatic Brain Injury</td>
</tr>
<tr>
<td>VI: Visual Impairment</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Multiple Disabilities:** For cases where a student is identified as having three or more disabilities, the Eligibility Team determines which exceptionality is the Primary and which is Secondary. Students may receive any service as determined by the IEP team and not necessarily be identified with another disability, for example, an LD only student receiving speech / language as a related service.

**Dual-program kindergarteners** – Kindergarten students who participate in both Kindergarten class and other early childhood or preschool programs. IEP support in each program is reported separately by program type / setting and session minutes.

**Exiting** – When the responsible LEA has discontinued providing services.

Exiting means exiting special education from the responsible LEA. Special education or related services have been discontinued by the responsible LEA. See page 16 for the Basis of Exiting Coeds.

❖ All exited students must be reported in the same school year in which the exit occurred.

If a student is inactive (absent, no service delivery) for 2 consecutive weeks or 10 consecutive school days, then the student must be exited from the MIS.

**Reporting Exits to KSDE** – Criteria for reporting a student as exited:

❖ A student must have exited in the current school year, (July 1 – June 30).
❖ Use the last day of delivered services to determine the exit date and school year
❖ Report a student as an exit only once in a given school year.
❖ The last exit of the school year takes precedent over prior exits earlier in the school year.

**Gifted Students with a Disability who Exit Part B Services** – Students identified with a disability who exit IDEA services, and continue or begin Gifted services are considered an exit for OSEP reporting

1. On the student profile enter an inactive status as the basis of exit from the IDEA services
2. List an exit date from the IDEA services on the student profile.
3. Exit date will match the service line end dates of the IDEA services & disability category.
4. Report all continuing gifted services on the service lines with Gifted identifier = Value 1 (Yes).

Note: Verification 0018 will trigger as an alert the data is reported correctly.

**Criteria for Moved category** – Students who exit (as above) and leave the catchment area.

❖ Evidence must be obtained confirming the student is continuing in either general or special education (Request for records) to qualify a student for the Moved, known to be continuing category.
❖ If there is no evidence or any proof of continuing elsewhere, then student is reported as Drop Out. Evidence or lack of evidence that the student is continuing in general or special education is the only factor used to determine the correct moved category.

**Not an Exit** – Examples of when the student data is not reported to KSDE as an exit.

❖ Duplicate exit – A student can be reported an exit only once in a school year. See Exiting.
❖ Promotion from preschool to elementary school, elem. to middle school, middle to high school.
❖ Objectives are completed for one service, yet other services continue (excluding Gifted)
❖ An IDEA student is removed from their educational placement because of suspension or expulsion.
❖ Students who drop out of school then re-enrolls in any district within the same school year.

07/01/2021
Students withdraw from special education and re-enter special education in the same school year.

Students move out and move back into the same organization in the same school year.

Students who move between a Coop or Interlocal’s member districts do not qualify as exited

**Exit Date** – The last day of delivered services, equal to the latest service line end date.

**Extended School Year Services** (Field, #14) – Participation in an ESY program in the months preceding the current school year. Attendance records for ESY participation would be the data source.

Allowable Import Values

1 = Yes, student participated in an ESY program  
0 = No, student did not participate in an ESY program  
Blank is treated as zero

ESY Attendance records are the data sources for determining ESY

1) 1 if, student received ESY services during the summer session prior to the start of the fall term.

2) ESY is marked only once in the Fiscal year, after completion of the ESY session.

3) **Do not** enter a 1 or any ESY data for anticipated services to be delivered in future sessions.

4) ESY services are **never** combined with regular term placement settings or service times.

5) ESY service lines are not reported to KSDE.

6) Leave **BLANK** if student received **NO** Extended School Year Services.

**Fiscal / School Year** – (Field, #05)

The fiscal year / school year begins each year on July 1 and ends on June 30. The fiscal / school year that begins on July 1, 2021 and concludes on June 30, 2022 is reported as FY 2022.

Allowable Import Values YYYY format

School years for which a collection is not currently open, will fail to import  
Null / Blank value will fail to import

**Gaps in Service** – A gap in service means: there is a break in service dates from the latest service line end dates to the beginning date of subsequent services, in the same school year. Gaps are not measured across agencies. If the gap in service is due to an elapsed period between IEPs (delay of annual meeting), then the end date on the prior IEP is incorrect and would be extended to show continuous services.

**Gap Allowed** – (Field, #R2) Mark to indicate all services ceased at a point in time and resumed later in the same school year, as defined as a gap (above).

Allowable Import Values

1 = Yes, Gap in services is valid  
0 = No, Gap is service is not valid  
Blank is treated as zero

**Gender of the Student** (Field, #03) – Gender of the student as reported in KIDS collection (D8)

Allowable Import Values

0 = Female  
1 = Male

**Gifted** - (Field, #R6) Students identified with an exceptionality of Gifted.

Allowable Import Values

1 = Yes, Student is gifted  
0 = No, student is not gifted  
Blank is treated as zero

**Grade Level** (Field, #08), - The student’s current grade level as documented upon enrollment. For school age students, the number of earned credits can also be used to ascertain the student’s grade level. All preschool grade levels apply equally in determining calendar and classroom sessions.

Students who have been officially retained will have their grade levels adjusted accordingly.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>PR → 01-03</td>
<td>KG → 05</td>
</tr>
<tr>
<td>6th → 11</td>
<td>7th → 12</td>
</tr>
</tbody>
</table>

Grade crosswalk between MIS (displayed value) and KIDS (reported value in the MIS import file).

07/01/2021
IEP Data – Data to be entered into the MIS - Enter into the MIS all special education and related services provided to the student as documented on the student’s IEP or amended IEP. Enter all IEPs that document services delivered to the student throughout the current school year or services delivered up to the student’s exit date from responsible district organization. Include all services from IEPs authored by the responsible organization and all applicable IEPs adopted from other organization.

Overlapping or modified IEPs - If a new IEP is written prior to the expiration of the current IEP, then the anticipated services on the preceding IEP must be reduced to the actual amount delivered. The total amount of days of service for all IEPs entered cannot exceed the LEA’s maximum per the LEA’s school calendar.

Change of placement: If a student’s placement changes for any reason, including interim alternative placements due to suspension or expulsion, the time the student is served in such placements must be accounted for on separate services lines with the relevant frequency, duration and location of services.

Artificial Gaps in service – If a new IEP has not been written by the annual review date, then the anticipated end date from the prior IEP may create a gap in service when the subsequent IEP is entered. If services continued during the service gap, the service end date(s) from the prior IEP must be extended to close the gap in service. Modify the service end date(s) from the prior IEP to the day before the subsequent IEP date.

Sets of service data – A new set of MIS service data is added to the student record if:
- Initial IEP is written (New student) – Enter the anticipated services per the initial IEP
- A new IEP is written (Continuing student) – A New set of Service Data is appended to the record
- Amended IEP is written (Modified IEP) - The old data is prorated; the new services sets are appended.
- Exiting student – Anticipated end dates are truncated to the exit date. Future services are deleted.
- IEP team changes placement – Original services are truncated. New services are added.

Invalid IEP Data and Dates – Data and Dates that are not entered into the MIS – Do not enter new IEP dates, service, placement or time information if one of the following conditions is met:
- Scheduled or future IEP data, with new anticipated services, frequency, duration or locations.
- New IEPs written for students who are inactive, but are expected to return at a future date.
- IEPs in development when a student moves. The IEP is completed, but the student is in another LEA.
- Erroneous IEP dates submitted to match service start dates of entering or returning students.

KIDS ID – (Field, #01), (KIDS D13)
This is the student’s state assigned ID number. This number will be provided to the LEA by KSDE and will remain with the student until the student reaches the age of 21. This number will remain with the student if the student moves from agency to agency. If a student enters your LEA and the KIDS ID number is unknown, log onto and query the KIDS Assignment System found at: https://online.ksde.org/authentication/login.aspx

Allowable Import Values 10-digit active KIDS ID number. Null / Blank value will fail to import

Language of the Parent (Field, #21) - The language commonly spoken by the student’s parent.

| ARA – Arabic | FRE – French | LAO – Lao | M – Mode of Communication |
| BOS – Bosnian | GER – German | POR – Portuguese | - American Sign Language |
| CHI – Chinese | HMN – Hmong | RUS – Russian | - CASE / Signed English, - SEE II |
| DIN – Dinka | HRV – Croatian | THA – Thai | - Oral Communication Methods |
| ENG – English | KMN – Khmer / Cambodian | SOM – Somali | N – Non-Verbal and Non-Sign |
| FIL – Filipino | KOR – Korean | SPA – Spanish | - Augmentative Communication |
| NAI – Native American (Kickapoo, Pottawatomie, etc.) | VIE – Vietnamese | O – Other |

Additional Language codes – Appendix D, KIDS Collection file specifications

Last Name (Field #02), (KIDS D4) - Last name as reported in the student’s KIDS record
Allowable Import Values - Exact spelling of last name as reported in the student’s KIDS record

Optional field
Not required to submit
Exact match of Last Name will pass match to KIDS record
Null / Blank / mis-matching value will trigger import alert
Modification of Data - Criteria for addressing verifications, corrections or modifications of student data in the MIS. Revisions may be based on discrepancies found through the verification process, Projected reports or data quality reports. KSDE will analyze all data submissions and modifications. KSDE will require additional data verification, modification or correction if the reported information is determined to be erroneous, illogical or impossible. KSDE will require modification or correction to any student data record when supporting evidence is presented that existing MIS data is inaccurate, erroneous or unreliable.

- Consult with service providers, administrators, or IEP teams to obtain correct data.
- Data may not be fabricated for any reason, including setting false data trends, avoiding verification checks.
- Impossible, erroneous service settings or time scenarios may NOT be verified as OK, but must be corrected.
- Contrived exceptionalities may not be added to student records in an attempt to match specific services.
- Updated IEP information must include all updated data fields, not just the new IEP date.
- Service times must accurately reflect the actual service delivery models - not averaged across a date range.
- Inactive or exited students must have complete data entered in all fields. Blank fields are not an option.
- Evidence must be presented to KSDE to override flagged discrepancies found to be accurate and legitimate.
- Data corrections must also be made in local databases to assure maintenance of correct data.
- KSDE will not accept any data files, corrections or modifications that contain fabricated data.

Overlaps and Duplicates - OSEP reports require an unduplicated count of students. Duplicate records include, students reported by the LEA more than once, or service dates between 2 or more LEAs overlapping on the same day(s). See Index of MIS support documents for identifying and removing duplicate records.

Part C to Part B Transition – When a Part B IEP team decides to use an IFSP to serve as the IEP for children found eligible under Part B, enter the determination date in the IEP date Field, regardless of who provides the service. For example: Current IFSP is dated January 12, student turns 3 on May 9, on May 1st the IEP team decides services in the IFSP are appropriate and Pt. C (infant Toddler Network) will provide services through an agreed upon future date. Thus, the IEP date in the MIS = May 1st. Service beginning date = May 9. For summer birthdays, report the appropriate service beginning date in the fall. Students who do not transition in the school year they turn 3 and begin services in the subsequent school year are considered New Referrals in the school year services begin under Part B

Placed by Code (Field, #19) – for local calculations of Indicators 5, 6, 9 & 10. Report the corresponding code of the decision maker responsible for the student’s December 1 placement.

Allowable Import Values

J = JJA placement
L = LEA placement
P = Parental placement
S = KDCF placement
Null / Blank value will fail to import

If the student was placed by an LEA IEP team, enter the value L for LEA.

Placements made outside of the IEP team are entered as S for KDCF, J for JJA, P for Parent if ALL of the following 3 conditions are met:
1. The student is attending and receiving services in a residential facility, correctional facility, hospital or Psychiatric Residential Treatment Facility.
2. The Dept. of Children and Families (KDCF), the Juvenile Justice Authority (JJA) or the child’s parent placed the student in the residential, correctional facility, hospital or PRTF (above #1).
3. The LEA is providing services because the above facility is in the LEA’s catchment area.

Students reported with KDCF /JJA or Parental placements are removed from local SPP / APR calculations for Indicators 5, 6, 9 & 10. Those not marked as such will be included in the total population for these indicators and may impact indicator 20 if these fields are added after the collection is finalized and submitted to OSEP. Please contact KSDE MIS Data Manager if KDCF / JJA status on a building needs to be updated.

Promotion of Grade and Status – Students must be reported with current year grade level and active status upon initial submission (Import or keyboard entry). Students with status of B, E, I, N, & R in the prior school year are promoted to C – continuing as of July 1 before initial current school year submission.
Note – The student’s IEP, IEP origin, IEP meeting and/or the IEP date are not factors in determining a student’s annual or current status. July 1 is the only factor that establishes a student’s annual status.

Providers – Each teacher/provider must be assigned at least one role. These roles are based on their responsibilities as associated to students they serve.

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Case Manager</td>

<tr>
<td>5.</td>
<td>Service line provider – a required role for all service line providers</td>
</tr>
</tbody>
</table>

NPE Providers – Are defined as service providers for Non-Public Equivalency contract claims. The same providers are listed on the student’s service at the non-public service location.

NPE contract providers are sent to the KSDE 618 data manager in March for review prior to marking this role on the provider’s profile in the MIS. Provider’s contracted service location will be verified.

Service line data is associated to specific providers. Reporting fictitious providers and fictitious ID numbers (9999999999) are not allowed. Creating fictitious provider profiles is considered a fabrication of data. This include listed Assignment organization where the providers do not work or provide services. Erroneous information affects the data accuracy, reliability and organization’s level of determination.

**School Psychologist** (Field, #11) – The Provider ID of the school psychologist associated with the student.

**Speech Language Pathologist** (Field, #12) – The Provider ID of the Speech Language Pathologist associated with the student

**Case Manager** (Field, #13) – The Provider ID of the case manager associated with the student

School Psychologist, Speech Language Pathologist, Case Manager are optional. Reporting is not required.

**Service Providers ID** (Field, #R11) - The ID number of the qualified teacher, supervising professional or related service provider. The unique number assigned by the state Educator Licensure System, or in the Categorical Aid Personnel System (CAPS). Do NOT enter the Provider ID of the paraprofessional, parent, or caregiver.

**Primary Provider** (Field, #R12) – A Student may be associated with a primary provider for local MIS reports such as roster reports or case load reports. This is not a required field.

<table>
<thead>
<tr>
<th>Allowable Import Values</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Yes, provider is the primary provider</td>
</tr>
<tr>
<td>0</td>
<td>No, provider is not the primary provider, Blank is treated as zero</td>

</tbody>
</table>

**Regular early childhood program** – A program that contains at least 50% non-disabled children. These programs may include, but is not limited to Head Start centers; community based or private preschools, group child development/child care centers, Preschool age at risk programs, preschool classes offered to eligible pre-kindergarten children by the public school. Informal settings such as weekly school-based or neighborhood playgroups or home settings do not qualify as Regular Early childhood programs. Informal settings do not qualify for K time participation minutes.

**School Year** (Field, #5) the ending year of the current school year. For example, if it is the 2021-2022 school year, enter 2022.

**Security** – Personally identifiable information (PII) – Including PII (student name and demographics), attached to or embedded in E-mail correspondences to KSDE, is a violation of the KSDE security policy. Infractions of this policy will result in a point deduction from the LEA Timely and Accurate report.

**Service Setting Delivery Models**

**Indirect Service** - When service providers deliver special education or related services to a student through another person. For example, a provider consults with someone who has direct contact with the student. The time spent in consultation shall be entered as an indirect setting of X.

**Direct Service** - When special education personnel provide the service to the student through direct contact, rather through an intermediate party. Direct service providers include: a) Special Education personnel who hold a valid certificate with the appropriate endorsement, license or waiver. b) paraeducators acting on behalf of certified special education personnel.
SERVICE SETTINGS-
The service setting is the location where special education or related service is being delivered. * Service Settings for Special Education Students: (Field, #R9)

Note: Do not assign a Service Setting / location code for buildings that do not have classrooms.

CODES:
A: Home-Based: "Home-based program" The delivery of any direct special education service provided in a home environment, for students of any age who are not “Homebound” (P) or “Home Schooled” (O). A Home-based setting may include, but is not limited to, the delivery of early childhood services in the child’s home, a relative’s home, a non-licensed child care / baby sitters’ home or virtual school students who receive services at home.

B: Early Childhood Locations: Includes programs for preschoolers or (dual-program) kindergarteners with disabilities that receive special education or related services in educational programs designed primarily for students without disabilities. Also includes district run universal preschools offering early childhood programming to 3, 4, and 5-year-olds. Matching Directory program types are Head Start, Preschool age at risk, all other district sponsored preschool.

C: Special Ed Direct Services in a Regular Ed Classroom in an Elementary or Secondary Building: Includes locations where students with disabilities are educated with typically developing peers, this includes but is not limited to general education classrooms, lunch room / cafeteria, recess, passing periods, and nurse or counselor office. “C” may be used Gifted services in any location.

D: Non-School locations: Includes locations for students who receive special education or related services in non-school or off-campus centers, such as Public libraries, doctor offices, rehabilitation centers, private speech pathologist / related service provider facility or office, church facilities, community centers, KDCF Group Home, public parks, recreational centers, locations on school property typically not used, etc. For children age 3, 4, 5 include service provider locations that the student is brought to for the child’s only special education or related service.

E: Community Based Direct Instruction: Includes the actual off-campus locations in which students develop skills where they will ultimately be performed. Service locations include but are not limited to job sites, work study, life skills programs in business, shopping centers or restaurants and other organizations or establishments within the community.

G: Special Ed Direct Services outside Regular Ed Classrooms, / programs, / other locations. Locations where students with disabilities or giftedness are removed from the general education environment or preschool classrooms or other programs for additional IEP support. Including resource room settings for preschool children who come to the elementary school on an itinerant basis. Note: Settings may also blend non-identified peers receiving similar support.

H: Alternative School: A school / program that is nontraditional, especially in education ideals, methods of teaching. Include virtual school classrooms in district buildings.

I: Incarceration: Includes programs for students who are incarcerated in any facility under the jurisdiction of the criminal justice system, including but not limited to local or Co. jails, juvenile or adult detention facilities, state penal institutions, PRTF or level 6 facilities. K.S.A. 72-8187.

J: Special Day School: "Special day school" means the delivery of special education services in a special purpose school, building or any segregated program that provides any of the following: (1) specialized curricula for exceptional children; (2) modified facilities and equipment for exceptional children; or (3) interdisciplinary, ancillary, medical, psychiatric, or social services for exceptional children, or some combination of these services. Examples include but are not limited to: buildings or programs exclusively for IEP students only, transitional programs for 18-21-year-old IEP students, other programs for non-residential IEP students
SERVICE SETTING CODES: Continued;

K: Early Childhood Program Time without Services (for ages 3, 4, 5) – The portion of the school day a child is **not** in special education and participates in a qualified in a regular early childhood program. These qualified programs may include: Head Start centers; community based or private preschools, group child development / child care centers, Preschool age at risk programs, district run universal preschool programs, preschool classes offered to eligible pre-KG children by the public-school system. K time programs not have to be publicly funded to qualify as regular early childhood program. **The amount of K time is limited to the class minutes of the program the student participates in.** Note: K time only applies to the calculation of OSEP environment (Indicator 6) category using only services intersecting December 1 and are measured by participation in a qualified program based a 600 min. / 10 hours per week threshold. Informal settings do not qualify for K time participation minutes.

L: Hospital: For students confined to hospitals or convalescent homes for psychiatric or medical treatment on an in-patient basis and receive their special education services in this location.

M: Residential: Placement in residential setting means a facility where students receive IEP services in educational programs and live at the facility during the school week. Includes any facility, which provides living accommodations and is considered the domicile or temporary sojourn of the students attending and receiving services at the facility.

O: Home School: For students who receive their general education and special education services in the home school environment. Neighborhood and attendance buildings are listed as home.

P: Homebound: "Homebound instruction" means the delivery of special educational services in the home of a child whose health conditions (physical or mental) are so serious that school attendance is impossible. Students receiving special education services at home because of suspension or expulsion do not meet the definition of Homebound instruction.

R: E.C. Special Education program classroom: (age 3, 4, and 5): Includes locations for preschoolers or (dual-program) kindergarteners with disabilities who receive their special education and related services in programs designed primarily for students with disabilities, and may be integrated with non-IEP peers at a ratio from 0% to no more than 50%. Matching Directory program type is "Integrated".

T: Extracurricular: Includes locations for students who receive their special education or related services to support participation in school sponsored activities outside of the accredited school day. These locations may include; counseling or health facilities, athletics, supported transportation (outside of school hours), recreational activities, special interest groups or clubs, music programs, theatrical presentations, etc., sponsored by the public agency.

U: Under Suspension / Under Expulsion: Includes locations for students who receive special education or related services in non-school locations or Interim Alternative Educational Settings (IAES) due a disciplinary removal by district administrators.

W: Reverse Mainstream ECSE Classroom: SPED programs for preschoolers or (dual-program) kindergarteners with disabilities age 3, 4, 5 who receive special education or related services in special education locations attended by children without disabilities at a ratio of 50 % or more. Matching Directory program type is Reverse mainstream

X: Indirect Services: When special education personnel deliver services to a student through another person, meaning the student is not physically present or there is no interaction / contact with the student. This includes but is not limited to services such as brailing, scribing etc. or consultation between service providers, service providers and administrators, parents, employers etc. Classroom / curriculum / teacher preparation time or teacher training are not considered an indirect service.

Y: Juvenile Correction Facility: For students receiving special education services in schools operated at a state juvenile correction facility. Including the Lawrence Gardner School Topeka.

* Unless noted to the contrary, all definitions for the above service locations are Non-regulatory definitions for the regular school term developed by KSDE for data collection purposes.
SERVICE TIMES - Enter the actual amount of service time as specified on the IEP for each special education or related service delivered to a student for each different service setting.

Do not average times or services.

- Minutes and total days must be a consistent, accurate representation of service delivery models.

Minutes Per Day - (Field, #R15) - The actual number of minutes per day of special education or related services delivered. Service line minutes have a Maximum limit equal to the Class minutes of the associated session as listed in the Directory. Amounts higher will result in a verification.

Note: If the student receives IEP support during the lunch period, then a separate service line is required to account for the lunch period minutes. - Allowable Import Values; Integer 1-999 or blank.

Days Per Week - (Field, #R16) - The actual number of days per week the service is delivered.

Allowable Import Values - Integer 1-5 or blank.

Frequency - (Field, #R17) - The regularity for which the service is delivered during the duration of the service between the start and end date, used to determine total days. Frequency can be reported incrementally by selected the frequency value in the MIS or by listing a frequency code in the import file.

Allowable Import Values - Integer 1-4, 8-9, 12, 18, 19, 99 or blank.

Service Beginning and End Dates. Start (Field, #R13) - End (Field, #R14)

Services are reported to KSDE within the defined regular school year calendar. For a continuing student - services start on the first day of school, ending before the annual review date. With the subsequent IEP, services resume from the IEP date to the end of the regular term school year. KSDE does not collect summer term / ESY service data nor data prior to a child’s 3rd birthday.

Begin date - From the IEP date, the starting point of the service addressed in the student’s IEP.

For children who start Part B services before age 3, use their 3rd birthdate as the service begin date.

End date – The anticipated day service(s) would cease, becoming the known date when services end.

Allowable Import Values - MM/DD/YYYY format for FY collection being submitted. Dates outside the FY collection being submitted, will fail to import. Null / Blank value will fail to import.

Note: Responsible building, area of disability and Gifted indicator must be consistent within a range of IEP services. If Responsible building, area of disability or gifted change due to an amendment, (not a new IEP), then all service lines end with the old values and start anew with the new values.

Total Days - (Field, #R18) - The actual number of days of services delivered to the student for each special education service within the service start and end dates range. Rank Order: - Importing a total day value overrides Frequency and days per week if both are included in the import record.

Total days may be arrived at / reported using 1 of 2 methodologies between the start and end dates. Keyboard - Total days only (Value of total days is applied), or

Keyboard - Days per week x Frequency = total days, (Applicable calendar determines total days)

Import - Total days (R18) only, (Value in R18 is applied) or

Import - Days per week (R16) x Frequency (R17) = total days only, or (Calendar determines total days)

Import - Total days (R18) and Days per week (R16) x Frequency (R17). (Value in R18 is applied)

R18 Allowable Import Values = Integer 1-365 or blank. Blank / null (not zero) is reported when desired total days’ determination is intended to use the frequency and days per week method.

Note: Upon Import the system applies total days (R18), but retains Frequency reported for roll over to next year.

07/01/2021
Special Education / Related Service Codes - (Field, #R10)

Services - Enter the code of the service the student is receiving from the following list of codes.

- **AC**: Attendant Care – A non-instructional paraeducator.
- **AP**: Adapted PE
- **AS**: Assistive Technology – Services and / or support for hardware and software devices. Typically addressed in the accommodations section of the IEP not in the services section.
- **AT**: Art Therapy
- **AU**: Audiology
- **CM**: Case Management *
- **CS**: Counseling *
- **DI**: Diagnostic Medical
- **DM**: Dance Movement Therapy
- **GI**: Gifted Education Services. Specially designed instruction for students identified as Gifted. *
- **IN**: Interpreter Services
- **KT**: Participation in an early childhood program w/o SPED support.
- **MA**: Mobility Assistance
- **MS**: Special Music Education
- **MT**: Music Therapy
- **NU**: School Nurse Services – Services provided by a qualified nurse in accordance with the IEP.
- **OM**: Orientation and Mobility-for individuals with visual impairments
- **OT**: Occupational Therapy
- **PC**: Parent Counseling *
- **PS**: Psychological Services *
- **PT**: Physical Therapy
- **RC**: Rehabilitation Counseling
- **RE**: Recreation Therapy
- **SE**: Special Education Services. Specially designed instruction, at no cost to the parents, to meet the unique needs of a child with a disability. KSA 72-962(i)
- **SH**: School Health Services – IEP services provided by a school nurse or other qualified person.
- **SS**: Speech and Language as a related service. For students not identified with a S/L disability.
- **ST**: Special education transportation as related service as documented on the student’s IEP. *
- **SU**: Supplementary Service – Supported / routine services delivered by an aide or Paraeducator under the supervision of a licensed OT or PT.
- **SW**: Social Work Services *
- **TS**: Transition Services
- **TT**: Travel Training
- **VO**: Vocational Special Education – Criteria examples for Vocational Special Education settings: * Community Based Setting (E) – Direct support - job coaches, para support, etc. Indirect Service Setting (X) – No direct support – consultation with "work study" employer, etc. Note – Time participating in a VO program without direct support is not reported as an Indirect service. This is considered general education and not reported in the MIS. * These services may be appropriate and will not generate verifications for a Gifted only student.

All Services – All special education and related services contained in the student’s IEP must be itemized and reported on the MIS service lines or specific data confirmation fields (BIP, Transportation). No service may be excluded. This includes but is not limited to indirect services, vocational or transition services addressed in various sections of the IEP. The MIS is not limited to only those services listed on the placement section of the IEP or the teacher information page.

Multiple Services - For each special education / related service a student receives, an additional “Service Data Set” must be appended to the student’s MIS record. There is no limit to the number of sets of service data that can be reported on the student’s record.
**Current Status Codes** - (Field, #09) Current status of the student when the record is submitted.

**ACTIVE STATUS:** The status of student during the course of receiving special education services.

- **B** - Children age 3 who transition from Part C services to Part B by their 3rd birthday.
- **C** - Continuing Student – from previous school year. Served continuously by the responsible LEA last school year.
- **E** - Entering from another District, Agency, State or Country – from outside the catchment area, this school year.
- **I** – Reinitiation of Services; - IDEA Students who have had all of their services revoked by the parent or self (if 18 years of age or older) and services have been restarted this school year.
- **N** - New Referral – Students who are referred for special education services the first time in their life under Part B of IDEA or as Gifted by the Part B agency. Gifted only students who are later found eligible under IDEA, are New Referrals the first school year served as an IDEA student.
- **R** - Returning to a Special Education Program: Students who previously received special education services at some point in their life; completed objectives, dropped out or left services without a written revocation are reported as “R” in the school year they returned to services.

**Annual Status** – The student’s first active status of the current school year. This status is stored.

**Current Status** – As determined by student activity. Exiting, reinitiation, returning, entering anew.

**Assigning an Active Status Code**

The only factor used for determination of an active status code is how the student started in special education in the current school year. Active status codes do not change until the school year changes or the student exits. The IEP or subsequent IEP are not factors for changing an active status code.

**Continuing Status** – Active students served last school year must be promoted to Continuing Status prior to importing current year records. The promotion process is completed at the beginning of the school year (July 1) and remains with the student throughout the school year.

Children who transition from Part C, Entering, New Referral and Returning status codes are assigned at the time of their occurrence and remain with the student until the end of the school year (June 30), or until the student exits special education, whichever comes first.

**Note:** The first record reported for the student in the school year must be a record with an active status code. This is to determine the student’s annual status. A student may not start a school year as inactive.

- **Initial records with inactive status will fail to import and do not save if keyboard entered.**

**How to code a student who exit, then later re-enter special ed in the responsible LEA.**

1) For students who move out of an agency (L- Left State or T- Moved known to be continuing) and; Returns in the same school year, status = E. Returns in a future school year, status = E. 

2) For students who exit from SPED due to D - dropping out, or O- completing objectives and; Returns to SPED in the same school year status = R. Returns to SPED in a future school year status = R.

3) For children turning age 3 during the current school year; the only possible active status is B or N. The child begins services in your district or agency served under your initial IEP, status = B or N The child enters your district or agency with an IEP from another district or agency, status = B or N

4) For IDEA students who exit as W - Revoke Consent for services and subsequently began services again; Returns in the same school year, status = I. Returns in a future school year, status = I.

5) For students who exit due to A - action taken by parent. Then subsequently restart IEP services again; For students grade KG – 12th who transfer from private / parochial, or home school, status = R. For Preschoolers (age 4 or 5 only) who discontinue services and are not KG eligible, status = R.
**Current STATUS CODES** - (Field, #09)

**INACTIVE (EXIT) STATUS: ** - For Students who no longer receive special education services.

**The basis of the student’s exit** – Based on the intent or reason why the IEP services are ceasing. Documentation must be kept on file to support reported basis of exit.

**Note:** The reported basis may change if evidence of subsequent activity (relevant to the same school year) occurred after the date of the initial reported exit.

- **A** – Action initiated Withdrawn from Special Education – by parent or student to cease IEP services by an act taken by parent or student (without written revocation of services) and the LEA has evidenced the student is continuing / participating in the general education environment.
- **D** – Dropped Out of School – (KIDS D27 - 14) Students who were enrolled at the start of the reporting period, were not enrolled at the end of the reporting period, and did not exit special education through any other basis listed below. This includes but not limited to: dropouts, runaways, status unknown, students who moved (not known to be continuing in another educational program), and Revocations required as part of the formal drop out process. Reported to OSEP as a Drop Out.
- **G** – Graduation with Diploma – (KIDS D27 - 8) Students who meet the same graduation standards and receive a high school diploma identical to that which student without disabilities are eligible.
- **H** – Has earned, is enrolled or participating in a GED program (KIDS D27 - 19). Including Revocations required as part of the formal process of transferring to a to GED program.
- **L** – Left State - (KIDS D27 - 3) LEA has obtained evidence student is continuing in General or Special Education in an LEA outside the state of Kansas.
- **M** – Maximum Age – (KIDS D27 - 13) Student reaches age 21 in the current school year.
- **O** – Objectives completed – Student no longer meets eligibility criteria and does not qualify as a child with a disability.
- **S** – Gifted only students who have ceased receiving services due to out of school suspension or expulsion.
- **T** – Moved, known to be continuing – (KIDS D27 - 2) Students who moved outside of the responsible LEA’s catchment area and the LEA has obtained evidence student is continuing / participating in a General or Special Education in another Kansas district or agency during the same school year.
- **W** – Written revocation of services - by parent or by student (if 18 years of age or older) and the LEA has evidenced the student is continuing / participating general education after the revocation.
- **X** – Deceased (KIDS D27 - 10)

**Special Education Transportation Provided** (Field, #15), during the current school year.

Permitted Import Values

1 = Yes, Student had SPED transportation provided 
0 = No, Student does not have SPED transportation provided
Blank is treated as zero

**Student profiles** – A student profile represents the student’s current organization association. A student would have only 1 profile per school year per LEA. Students who move within a Coop or Interlocal during the school year, only list one profile, new profiles are not created. A profile with exit information from a prior organization within the LEA catchment is not valid and not reported.

**Unresolved Exits** - Active students from the prior year not found in the current school year will be listed as unresolved exits. To resolve these students, update the prior year record with exit data or include the student in the current year population. Unresolved Exits may affect the determination of reporting accuracy.
2021-2022 KSDE - IDEA Part B and Gifted Special Education Data Dictionary

Verification Process - All data submitted to KSDE will be verified for accuracy. If any data element is missing or invalid according to the verification parameters, the student will be flagged indicating the nature of the discrepancy. LEAs submitting data modifications to KSDE must make the same data modifications in their local source database systems. This assures the validity of the instructions made to KSDE and the modifications are legitimate. Below is the verification criterion. 20 U.S.C. 1418

07/01/2021
Catastrophic Aid

The 1994 Legislature authorized reimbursement to school districts for excessive expenditures incurred in providing special education services. Reimbursement is granted at 75% of costs that exceed twice the per teacher entitlement for categorical aid (from the prior school year), after deducting all other state and/or federal aid for the student.

Amounts requested under this act can be used only to reimburse school districts for excessive expenditures in providing special education services for students who have unique or severe needs. All reimbursement granted to the school district must be deposited in its special education fund. Districts also are required to provide financial information to KSDE upon request. KSA 2000 Supp. 72-983

All Catastrophic Aid claims must be submitted through the current year KSDE MIS collection application. The form may be submitted through keyboard data entry or as a batch file import.

A MIS student record must be submitted first then the catastrophic aid application amended to the student record. The catastrophic aid data must be reported to KSDE no later than the close of business April 30, of the current school year.

1. Kids ID - **REQUIRED** Must be a current year student profile with matching KIDS ID.
2. Student Last Name - Must Match the Student's Legal Last Name OR blank
3. Student Gender – 0 = Female, 1 = Males, or blank
4. Student First Name - Must Match the Student's Legal Last Name OR blank
5. School year – **REQUIRED** format YYYY, For the School Year for which the claim is being submitted.
6. Payment LEA – **REQUIRED** must match a valid LEA or Assign Child Organization associated to the student claimed as Catastrophic.

The application Justification – This section consists of 3 open ended questions
7. Describe the student's unique or severe physical, mental, social, emotional or educational characteristics that require additional costs.
8. Justify the cost of the services/placement, as specified in all of the student’s IEPs in effect during FY2017, explaining why the student needed the services/placement.
9. If your district is contracting with another school district or private agency for provision of the services/placement specified in the current IEP, justify the cost of contracting with the other school district or private agency
10 – 44. The Breakdown of Expenditures – Must be whole dollars from 1 - 999999 OR blank (is treated as zero)

D1 – D6 - Deductions – Must be whole dollars from 1 - 999999 OR blank (blank is treated as zero).

A worksheet is available at [www.ksde.org](http://www.ksde.org) to assist with these calculations

Note: Due process and administrative costs are NOT reimbursable under this program. Also, staff development and in-service for teachers are NOT allowable costs

Approval Process

All applications will be reviewed by the KSDE administrators for payment approval. Those applications with sufficient expenditures, valid justification and complete MIS data will be approved for payment. Justifications are compared to the MIS data for consistency. Conversely those applications with insufficient expenditures, inadequate justification or incomplete MIS data will be denied. Districts will be notified of a rejected application, the basis of the rejection and may reapply for funds if time allows. Valid Provider ID numbers is required for all providers to assure proper licensure and payment of catastrophic aid.

Data verification – the following verifications codes and descriptions may appear upon submission to KSDE

- **0137** Payment LEA is invalid

Please submit an ASCII text file (Tab Delimited) in the above field sequence.
Catastrophic Aid Itemized Deductions

Catastrophic Aid applications require itemization of both expenditures / cost of services and deductions for other sources of reimbursement. Total expenditures and total deductions determine the total net cost applied in the reimbursement formula.

**D1.** State SPED Transportation reimbursement. The total cost of SPED transportation of the student, including attendant care providers / bus paras accompanying the student during the travel time. Transportation costs are submitted to KSDE School Finance on form 308. These costs are listed in section 2700 of the catastrophic aid application.

Deduction = 80% of the total transportation cost submitted on form 308 is listed on line D1

**D2.** State Categorical Aid: Students proportionate share. In cases of students served by licensed providers and / or para educators who are submitted for categorical aid by any USD, COOP or Interlocal.

Deduction = the provider’s case load can be used to determine the students proportionate share. For example:

A provider serving 8 students receives $28,000* in categorical aid. ($28,000* ÷ 8) = $3,500.

Hours of service may also be used. For example, provider serves the student 279 hours of the school year, (279 ÷ 1116) = 25%. ($28,000* x 25%) = $7,000. This amount is entered on line D2. Paras are done at 40%

Non-Public Equivalency reimbursement: NPE pays on the number of hours for all services delivered by fully licensed providers from the qualifying agency for the fiscal school year. The NPE formula memo lists the rate per hour which converts to an FTE in the payment formula.

Deduction = Calculate each contracted service separately by the rate per hour fraction by service type, unless the provider is only licensed in a lower payment category. The licensed Speech provider * (example below) cannot be paid at the higher Autism rate. Related services not listed in the memo pay at the rate of the student’s primary disability. Sum each service line subtotal to a grand total. Multiply the grand total by the estimated per teacher entitlement for categorical aid to determine the dollar amount. Enter the resulting dollar amount on line D6. See Formula:

**Formula:** based on hours of service from contractor invoices, IEP services or provider service delivery log.

<table>
<thead>
<tr>
<th>Service</th>
<th>Hours</th>
<th>Agency</th>
<th>Start date</th>
<th>End date</th>
<th>Provider License</th>
</tr>
</thead>
<tbody>
<tr>
<td>AM</td>
<td>1090</td>
<td>Heartspring</td>
<td>7/1/2015</td>

<td>IR</td>
</tr>
<tr>
<td>AM</td>
<td>50</td>
<td>Heartspring</td>
<td>7/1/2015</td>
<td>6/30/2016</td>
<td>SL *</td>
</tr>
</tbody>
</table>

1. Multiply the number of hours for each service by the hourly rate on the formula memo
   a) 1090 hrs. x .000149 (hourly rate for AM service) = .16241 - FTE equivalent
   b) 50 hrs. x .000045 (hourly rate for SL service) = .00225 - FTE equivalent
2. Sum fractional - FTE equivalents
   a) .16241 + .00225 =.16466
3. Multiply total FTE equivalent by the estimated current year categorical aid per teacher entitlement
   a) .16466 x $28,000* = $4,610
4. Enter the dollar amount from step 3 on line D2 or D6 of the application.

**D3.** Federal VI-B flow thru Funds- the student’s proportionate share, based on the student’s age on December 1 of the current school year. A student age 3, 4 or 5 would deduct both the VI-B preschool grant and 3-21 funds received.

Deduction = the total Federal VI-B flow thru Funds (grants excluded) awarded to the LEA for the current Fiscal Year divided by the number of students on the LEA December 1 child count of the current school year. For example, the 3-21 COOP grant for FY2012 was $3,089,555, on December 1 the agency had a total of 2,371 IDEA students ($3,089,555 ÷ 2,371) = $1,303. The amount of $1,303 is entered on line D3.

**D4.** Medicaid funds received

Deduction = enter the amount of Medicaid funds received on line D4

**D5.** Medicaid replacement funds received

Deduction = enter the amount of Medicaid funds received on line D5

**D6.** All other state or federal funds received not deducted under categories D1-D5 above.

*$28,000 is used for an example only. It is not intended to be actual per teacher entitlement.
**Contracts for Provision of Special Education Services**

This section refers to students who receive specific special education or related services delivered by a contracted provider pursuant to K.S.A. 72-967(a)(5). These services are contracted by the USD, Interlocal, or COOP (the first party) to be delivered by a private nonprofit corporation or public or private institution (the second party) to a student within the jurisdiction of the first party.

The purpose of Non-Public Equivalency contracts is to provide a vehicle for the USD, Interlocal, or COOPs to access categorical aid reimbursement for those services delivered under contract by the second party providers. All NPE claims must be submitted through the current year KSDE MIS collection application. A MIS student record must be submitted first then the NPE application amended to the student record. The form may be submitted through keyboard data entry or as a batch file import by April 30 of the current school year. Do not mail form KSDE C-03a to KSDE.

**Data Fields for Contracted Services:** Submit an ASCII text file (Tab Delimited) in the following field sequence.

<table>
<thead>
<tr>

</tbody>
</table>

Application form data elements:
- **KIDS ID** – **REQUIRED**, must be a KIDS ID for which a Profile exists in the Target School Year
- **Student Last Name** - Must Match the Student's Legal Last Name OR blank
- **Student Gender** - Must Match the Student's Gender OR blank
- **Date of Birth** - Must Match the Student’s Birth Date OR blank
- **School year** – format YYYY, **REQUIRED**, must be a School Year for which data entry is Open
- **R1. IEP date** – **REQUIRED**, must be a valid date that is equal to or prior to the date the File is imported
- **R3. Contract hours** – must be an integer between 1-1116
- **R4. Contract Service** – from the service code table below
- **R5. Providing / contracted agency, – open text. Consistent spelling of the agency is required**
- **R6. Service start date** – Format MM/DD/YYYY
- **R7. Service end date** – Format MM/DD/YYYY
- **R8. Provider ID - **REQUIRED**, must be a valid provider ID
- **R9. Provider license code - **REQUIRED**, must be a valid provider license code
- **R10. Provider first name** – must match provider first name or blank
- **R11. Provider last name** – must match provider last name or blank
Criteria for Submitting NPE Contracted Services Data:

Assign Payment LEA (F# R2) - LEA that entered into the contractual agreement – REQUIRED, Must match a valid LEA or Assign Child Organization for which the user’s has access

Contracted Hours (F# R3) – The total number of hours for each service in-between the start and end date range. Must be an integer between 1 – 1116

Round fractional hours up to the next highest hour.

Contracted Special Education or Related Service Codes (F# R4) - From the table below.
⇒ If the contracted service is not listed below, use the student’s Primary Exceptionality as the service code for students age 6-21. List only one service per service line with corresponding service dates.

Note: * Service types will default payment to the corresponding provider license

Providing / contracted Agency (F# R5) - The name of the 2nd party agency providing services under the terms of the contract. Agency name must be entered exactly the same for all students on all fields.

Provider ID (F# R8) - REQUIRED Must be a valid Provider ID code with a provider role of Contract Provider

Contracted Delivery Dates – Dates for contracted services delivered to student within a fiscal year.

First Date of the Delivered Service: (F# R6) – The first date the contracted provider delivers the service directly to the student. Contracts may begin on or after July 1 of the current fiscal year.

Last Date of the Delivered Service: (F# R7) - The last day the contracted provider delivers the service directly to the student. Contracted services must end on or after June 30 of the current fiscal year.

*Note: Contract end dates may not be a future date beyond a student’s exit date.

Area of provider licensure (F# R9) - Select from the table below

Contracts between school districts and
Private non-profit Corporations, Public or Private Institutions
Instructions for KSDE Form C-03(a)(b) and MIS Contract for Services Data under K.S.A. 72-967

1) Form C-03(a) must be completed whenever a school district wishes to contract with a private non-profit corporation, public or private institution or agency for the provision of special education and/or related services for a student identified with an exceptionality.

2) The school district receiving the service(s) is designated as the First Party, and the agency is designated as the Second Party.

3) The first party must hold the original (with all signatures) and one copy for auditing purposes for 5 years.

4) Non-public equivalency contracts cannot be written for any student receiving services from a specific individual service provider. To access categorical aid reimbursement for individual providers; list these providers on the KSDE Personnel Report.

First Party is eligible for the following reimbursable expenses provided through an approved contractual agreement with a providing agency:

Part of the cost of the Contracted Services:
Reimbursement due to a district for a contract with an accredited providing agency is based on a ratio of children served in an average special class size for a given category of exceptional children by hourly increments of service. State Board as authorized by K.S.A. 91-12-37(a)(4).
See Formula memo for Nonpublic School Equivalents for the current School Year for hourly rates.

Transportation Reimbursement
Do NOT include transportation reimbursement. The amount equal to eighty (80%) of the actual travel expenses incurred for providing transportation for an exceptional child to special education services is submitted on Form #308, Special Education Transportation Reimbursement. The School Finance Department of KSDE mails this form to school districts on or about May 1.

6) Second Party is not eligible for any special education entitlements under K.S.A. 72-986.

7) Services provided by an accredited providing agency, or any other entity, using district personnel should not be submitted to KSDE on this contract form.

Reimbursement will be based on the hours documented in the individual students’ Service Delivery Log. State auditors will compare contracts to Service Delivery Logs. Payments may be prorated if contract hours and Service Delivery Logs are not identical, or if there was a break in the student’s direct services. See Appendix D of the Special Education Reimbursement Guide.

Revision of Contracts-Form KSDE C-03(c) Notice of Contract Revision or Termination

1). If the duration of the contract changes, i.e. services begin at a later date or are terminated prior to the original dates, then a contract revision must be completed to reflect the actual service start and end dates, and hours adjusted accordingly.

2) If the frequency of services changes from the original contracted amount, then a contract revision must be completed to reflect the actual amount (in hours) delivered up to that point, plus the anticipated amount to be delivered to the contacted end date. In the case of a new IEP or IFSP, the duration of the contract may be unaffected, only the hours of service are revised.

3) If a student changes programs (IT program 1 to IT program 2) and is still receiving services from the same agency and the dates of the contract have not changed, neither the contract nor the MIS needs to be revised.

Note: New contract data must be entered on separate MIS contract service lines if:
- A contracted providing agency changes.
- A contract expires and services resume at a later date, or if there is a break in service delivery.
- A different service is delivered, i.e. from Developmentally Delayed (DD) to Speech / Language (SL)
- Multiple services are provided by different provider or at different times
- An exited student returns and services are resumed.

Directory Updates – Guidance

The State Educational Directory is completed each annually with schools, building and program data. The Directory is a KSDE web application named Directory Updates. Each school year, class schedules are reported by start and dismissal time, lunch time times, kindergarten and preschool sessions by program type, and days per week. The Superintendent, district board clerk and KSDE SPED Data manager have permissions to complete Directory updates.

Recommended guidance for entering Directory data:

Schedules require starting and dismissal times by A.M. and P.M. Do not use military times.
Preschools and Kindergarten - enter the district standard schedule for each session by program type *
SPED programs - Home, off site, off campus, community locations, Hospitals, etc. – enter the district standard schedule *
Local correctional facilities, programs without a set schedule, – enter the district standard schedule *
Non-accredited private / parochial school Organization X0440, – enter the actual daily schedule
Before or after school K time programs w/o IEP support in other locations. Enter 8 am to 4 pm with zero lunch minutes.
SPED programs - Address, phone number, e-mail, contact information – use the special education office.
SPED programs - Administrators – list the director of special education as head teacher or principal.
Preschool program types for each directory session by start, dismissal times and days / week

<table>

* Note – A local elementary school schedule for Grades PR, KG, 1-12 should be used as the district standard schedule.
Early Childhood Special Education Services

Full Sessions

Children that are enrolled in early childhood special education programs such as integrated special education classrooms or reverse mainstream (RMS) classroom would be considered to be receiving special education support for the entire time they attend these programs.

Example 1 – The RMS program has 180 minutes per session 4 days per week. Student 1 attends the program 2 days per week for 150 days. The MIS would be reported; Line 1 = 180 min for 150 days.

Example 2 - The RMS program has 180 minutes per session 4 days per week. Student 2 attends the program 4 days for 150 days and receives pull out services for 30 minutes 2 days per week. The MIS would be reported; Line 1 = 180 min for 75 days, Line 2 = 30 min for 75 days, and Line 3 = 150 min for 75 days.

If a student falls on the “Not in full session” verification report; respond addressing these points
Student attends a full session. Refer to the “Reporting Time as it Occurs” or “Time by days” support document. Correct the service lines to account for a full day session of services and resubmit the student record.
Student attends part time / not a full daily session. Respond as such on the verification report and return the verification report to KSDE.
The test for full sessions does not apply to general education programs such as headstart, Preschool age at risk, community based / private preschools, group day care facilities etc.

Participation in Regular Early Childhood Programs

OSEP LRE environments for early childhood students (age 3, 4 or 5 on December 1) are tiered between those children who attend a Regular Early Childhood Program (page 14) and those who do not. To assure children who participate in these Regular Early Childhood Programs are correctly accounted for; the MIS uses a data element known as K-Time. K-time represents the portion of the child’s day that they are not receiving special education services and are participating in a program that has a ratio of 50% or more non-disabled peers. Support documents for collecting and calculating K-time are found at found on the MIS and Student Data page @ www.ksde.org. Selected clarifications are provided below.

Example 3 - Child 3 attends a RMS program for 180 minutes 4 days a week. The program has a 20-minute recess and a 15-minute snack time daily during the 180-minute session. Is the recess and snack times considered K-Time? No, because recess and snack times are part of the RMS program.

Example 4 - Child 4 comes to the preschool for breakfast before the start of the RMS session. Is the pre-session breakfast considered K-time? Yes - if the meal time is open to all children attending any early childhood program in the facility. No - if the meal time is only open to children participating in the special education program.

Example 5 - Child 5 attends both a morning and afternoon RMS session and stays for a lunch period between the sessions. Is the lunch period considered K-time? Same as example 4 above.

Example 6 - Child 6 attends a morning Headstart session and spends the afternoon hours with his brother at babysitter’s house. Is the time at the babysitters considered K-time? No – babysitters do not qualify as a regular early childhood program. However, the time the child spends in the Headstart classroom without SPED support does qualify as K-Time.

* - Indicates these programs only list the “All Other” preschool session in the Directory.
+ - Indicates Daily Schedule, Preschool session & KG sessions are required in the Directory.
* Note – A local elementary school schedule for Grades PR, KG, 1-12 should be used as the district standard schedule.
Reporting Full sessions of Services

Full Sessions Defined- Students participating in special education programs such as Day Schools (J), Residential facilities (M), Integrated (R) and Reverse Mainstream (W) classrooms typically participate for the entire session for each day of attendance. Full sessions are determined by the sum of classroom minutes plus pull out minutes of services for each day of attendance. Interpreter, Attendant care, Nurse and School health services are not deductions from the session minutes because these services can occur simultaneously with special education and related services or are part of the special education program that the student participates in. Students in these programs with less than a full session will be flagged for verification.

Providers

Data Fields for Provider Imports: Submit an ASCII text file (Tab Delimited) in the following field sequence.

<table>
<thead>
<tr>
<th>Sequence</th>
<th>Field Name</th>
<th>Field Size</th>
</tr>
</thead>
<tbody>
<tr>
<td>R1</td>
<td>Organization</td>
<td>5</td>
</tr>
<tr>
<td>R2</td>
<td>Staff Role</td>
<td>1</td>
</tr>
</tbody>
</table>

Field descriptions:
- **Header**
  - School Year – format YYYY, must be for a year a collection is open
  - Provider ID – must have an ID from KSDE teacher licensure or CAPS
  - Provider First Name - Must Match the Provider’s Legal First Name
  - Provider Last Name - Must Match the Provider's Legal Last Name

- **Repeating values** - for each different set of applicable organization, role and / or licensure
  - R1. Organization – The organization associated to the buildings where the provider delivers services. Organizations associated to the student are not relevant in the provider profile. Format – D0, S0, X0, Z0 prefix followed by 3-digit organization number.
  - R2. Provider Role – Must be a valid Staff Position (codes - 1, 2, 3, 4, or 5)
    1. Case Manager
    2. School Psychologist
    3. Speech Language Pathologist
    4. NPE provider
    5. Service line provider

Importing note:
If the provider data is cut from the template and pasted into a blank text file such as Notepad, be sure the cursor is positioned to the right of the last data field submitted. If the cursor falls to the beginning of a new row below the data, simply backspace once to move the cursor to the end of the row above, to the right of the last data field submitted and save it.

Verification Checks for Student MIS

Codes Description

0083  Student is identified as Gifted and there are no Gifted services on services lines.
0084  Gifted services are listed on lines and Gifted exceptionality is not marked YES
0085  There is more than 1 active student profile for the same student
0090  Secondary disabilities are reported without a primary disability
0096  Service line provider not found by ID and service location in provider list
0123  Service line start date is causing an overlap with another service line on another IEP
0124  Service line end date is causing an overlap with another service line on another IEP
0139  Primary and Secondary exceptionalities cannot be the same
0143  All day KG / preschool marked for a student grade 1 or higher
0144  Student's exit date is not the date services ended. Align the latest service end date and exit date to be equal.
0145  Data in MIS shows student is entering from another agency; change Status to “E”
0147  Continuing student does not have services within 10 days of the first day of school.
0148  Active students without services within 10 days of the last day of school. This verification becomes functional on June 1 of the current school year.
0169  There is a gap in services between the service end date and the subsequent start date within the same school year.
0170  Student's Current Status is "B" and student's third birthday was in the prior school year.
0171  Student's Status is "D" and student has appeared in another district.
0172  Assign Child Organization is not valid for the current School Year
0173  There is not a KIDS record for this combination of school year and responsible building
0174  Primary disabilities is blank and gifted is not marked YES.
0175  Days per week on the service line exceeds the number of days per week the program is in session
0176  Student in a (R, W, M, or J) program and has less than a full session of service time
0177  IEP is over 1-year-old
0178  Student was included on the Final OSEP Table 5 Discipline Report but no longer meets the criteria to be included on the report for this LEA.
0179  Student was excluded from the December 1 final report, but new data includes on the December 1 child count report
0180  Student was counted on OSEP table 4 but modified data removes the student from the report.
0181  Student did count on OSEP table 4 but modified data includes the student from the report.
0182  Student was included on the December 1 final report, but new data excludes / removes the student from the final report.
0183  K time start and end dates are outside of the IEP service line start and / or end range of dates
0184  Student has status “S” and student is not Gifted only at the time of the exit.
0185  Service line program type by setting code is not found in the directory
0186  Annual status is an inactive, blank or does not match to current active status.
0187  Student does not have a disability and has services not appropriate for Gifted only
0188  Services lines within a specific date range are not consistently listing primary / secondary disability, and / or gifted values
0189  December 1st service lines have different responsible schools
0190  December 1st Responsible school, area of Disability or Educational Environment has changed from the final 12-1 report.
0191  Multiple Responsible Schools reported for the same period of time.
0192  SPED Transportation service code and Yes / No Transportation indicator do not align
0193  Most recent responsible school is not an Assign child count school on student profile
0194  KT service and setting code K do not align
Verifications that address accurate reporting of OSEP data categories

OSEP Environment – 0004, 0007, 0008, 0011, 0012, 0014, 0035, 0036, 0039, 0041, 0042, 0044, 0045, 0047, 0058, 0068, 0070, 0072, 0075, 0077, 0123, 0124, 0146, 0147, 0148, 0198, 0199, 0212, 0214, 0224
OSEP Age – 0005, 0073, 0176
OSEP Exiting – 0019, 0020, 0028, 0063, 0067, 0144, 0171, 0172
OSEP Disability – 0022, 0049, 0050, 0053, 0055, 0090, 0139, 0197, 0220, 0224
OSEP Responsible school – 0060, 0175, 0176, 0221, 0224
OSEP Unduplication requirement – 0085, 0123, 0124, 0169
OSEP Timely and accurate requirement – all above are factors, plus - 0203, 0204, 0205, 0210, 0220, 0221, 0224

Verifications that address accurate reporting of state level data

State level data – 0010, 0043, 0056, 0058, 0065, 0083, 0084, 0096, 0145, 0170, 0207, 0215, 0216,

MIS reports that address accurate reporting of OSEP & State Level data categories

OSEP Environment – Projected 12-1 report,
OSEP Age – Projected 12-1, Projected EOY reports
OSEP Exiting – Projected EOY, Unresolved Exit, Exit status, Unknown Exit, Projected Table 4 Exit reports.
OSEP Disability – Projected 12-1, Projected EOY reports
OSEP Responsible School – Projected 12-1, Projected EOY reports
OSEP Discipline – Projected 12-1, Projected EOY reports
OSEP Unduplication requirement – Projected 12-1, Projected EOY, Overlap reports
OSEP Timely and accurate requirement - Projected 12-1, Projected EOY, Overlap, Gained student, Verification reports.
State Level Data – Projected Gifted Summary, Projected EOY, NPE Summery reports

Verification Alerts, - FYI

0018 - Gifted student Exiting Part B services has been reported correctly.
0146 - Student is Claimed but does not show service on December 1. Confirm allow gap and ask KSDE to remove.

Virtual school or Virtual programs Guidance for IEP students’ participation

Service line guidance

Location of Service - Direct SPED support from responsible LEA.
Home - for students accessing the virtual curriculum from their home and SPED support is delivered in the home through visits by the SPED provider or through interactive software, the service location setting = A
On Campus - for students participating in the virtual classroom in a district building and SPED support is delivered in this classroom by the SPED provider, the service location setting = H. Because this classroom can have a blend of IEP and Non-IEP students.
If the student is removed from the virtual classroom to a resource room setting the location of service = G
Off Campus - for students accessing the virtual curriculum non-school location such as the public library or internet café, etc. and SPED support is delivered in this building by the SPED provider or through interactive software, the service location setting = D.
Location of Service - Indirect SPED support

a) Consultative - for students participating in the virtual curriculum in any location and the virtual teacher consults with the SPED provider regarding the virtual student; the service location is X.

2) Building numbers for location of services
a) Virtual School - this building has a KSDE assigned building number in the state directory
b) Virtual program - the building where the program is housed, such as Public off-campus.
c) Other locations -
   i) Home is the XXXX building in the relevant USD where the student resides
   ii) Non-school location is the YYYY location in the relevant USD's catchment area.

3) Responsible school - the school accountable in terms of AYP or funding
1) Accountability School - the building where the average daily attendance and assessment score are assigned and reported to KSDE for public school students
2) Funding School - the public school building for which funds are assigned for private, parochial or home school students

Student profile guidance

1) Neighborhood school - where the student chooses to enroll for general education
   a. Virtual School - this building has a KSDE assigned building number in the state directory
   b. Virtual program - the building where the program is housed, such as the high school
   c. Out of State Students – Report the neighborhood school as the All Out of state building 0114 under organization X0440
      i. Students who reside outside of the state of Kansas are not eligible for general state aid.
      ii. Students, who reside outside of the state of Kansas, may enroll in a Kansas Virtual school or program and may be required to pay tuition as a condition of enrollment.
      iii. Students, who reside outside of the state of Kansas, and are enrolled in a Kansas Virtual school or program, will be required to submit a KIDS collection record to KSDE.
      iv. IEP procedures for out of state virtual students would be the same as out of state student who move
      v. Kansas special education providers can receive categorical aid for out of state students who receive support in Kansas schools.

Other cases

1) Students receiving educational support from more than 1 Kansas school system
   a. The general state aid is determined by the amount of educational support provided by each agency by the number of minutes of support and the Sept. 20 FTE is divided proportionately.
   b. For the December 1 MIS collection KSDE will assign the child count to the district providing the greatest amount of special education support
   c. For the June MIS collection each agency will have the SPED support provided applied to their SPED FTE calculation.

2) Part time students - student who participate in both virtual programs and in programs in local school buildings.
   1. December 1 collection
      a) The child count will be awarded to the organization providing direct service in the "brick and mortar" building on December 1
   2. June Collection
      a) Records from both organizations will be collected and the relevant amount of student FTE will apply to both organizations.
