

# Categorical Aid Special Teacher Vacancy Report

This information is used for reports to the Federal Government, planning by the Kansas State Board of Education, the Kansas Legislature, universities and colleges, and local education agencies. This report is the ONLY collection of data on non-KSDE licensed personnel in special education positions such as paraeducators, Nurses, Speech Language Pathologists, Physical Therapists, etc.

## INSTRUCTIONS:

  - Anticipated vacancies for next school year should not be included.

  - Unfilled can include positions that are not filled by permanent employees.
    - Permanent employees:
      - May be on a waiver.

Because there are no unique identifiers, what you upload is exactly what you will have, **anything not included in the upload will be deleted.**

There is a downloadable .csv file. The fields are the same as manual entry with the addition of the District.

	Local								
District	Position	New/	Available	Professional/		Low	High		
Code	Number	Replacement	Date	Non Professional	Area	Level	Level	FTE	

When you click “Upload” after choosing your upload file, you will have a warning pop up, reminding you that this will delete all your vacancies that already exist and replace everything with what is in the file you are uploading. **Please believe the warning!**
