# In the Classroom After Concussion: Best Practices for Student Success

# 564,000

children and adolescents  
visit emergency rooms  
for traumatic brain injury  
every year.\*

I believe **all teachers**  
and teaching staff  
could benefit from  
this program.

Educator

The **Center on Brain Injury Research and Training** offers **comprehensive, web-based training** for classroom teachers.

- **Discover** how brain injury differs from other disabilities.
- **Create** a classroom that supports student success.
- **Learn** simple, practical strategies to use in your classroom.

# 100%

of teachers recommended  
this program to others
