Website to search address and determine USD affiliation

Do you need to confirm whether an address lies within your district boundaries? Go online to one of the KSDE website links below and open the Kansas GIS (Geographic Information System) **School District Map Lookup**. Enter a street address in the search box. A satellite snapshot appears marking the address and USD affiliation. Use the zoom feature to view the surrounding area. The map also shows school building locations.

Access the School District Map Lookup in two places on KSDE's website:

- KSDE Fiscal Auditing homepage:** <https://www.ksde.org/Agency/Fiscal-and-Administrative-Services/Fiscal-Auditing>
- Scroll down to the heading **Additional Resources**
 - Select: *****New*** - School District Map Lookup – District Boundaries – ArcGIS**

School Bus Safety Unit homepage:

- <https://www.ksde.org/Agency/Fiscal-and-Administrative-Services/School-Finance/School-Bus-Safety/Kansas-School-District-Maps>
- Select: **ArcGIS KSDE School District Lookup**

Note: The **School District Map Lookup** has a distance measuring tool. This tool has been made available for your convenience. KSDE does not use the distances generated from this mapping tool to help determine whether a student is eligible for transportation funding.

Need a printable District Boundary Map?

Please contact your county clerk's office for a printable map of your district's boundaries. The county clerk is also the official source for boundary disputes.
