Required and Recommended Training Resources (repeat-listserv message sent 7/24)

In preparation for the 2020-2021 school year, many of you will be developing professional development to address required trainings. This is a reminder that KSDE has developed an online resource site to assist you in providing quality professional development for these required training topics. This site has been updated for the upcoming year with several new resources.

The online resource site provides access to a list of training resources clustered around three themes – Leadership Training, Prevention and Responsive Culture, and Student Safety and Wellness. Each section identifies who the training is geared toward and if it is required or recommended. You can access the **Required and Recommended Student and Staff Training resources** at www.ksde.org/Agency/Division-of-Learning-Services/Student-Staff-Training.

Please feel free to contact Myron Melton if you have any questions.
