| 11/2018| Recodification of Chapter 72 of the Kansas Statutes Annotated, Schools – Effective Dec. 21, 2017  
The Kansas Office of Revisor of Statutes recodified statutory sections of Chapter 72 for the purpose of providing clarity and uniformity with subject matter related to elementary and secondary education. In some cases, the subject matter of the section required transfer to another chapter, such as Chapter 13 or Chapter 74. A table of the transferred sections and their newly assigned section numbers can be found at this website: http://www.ksrevisor.org  
All statutes referenced in this guide have been revised to reflect the new section numbers. | 1.0     |
Mission
To prepare Kansas students for lifelong success through rigorous, quality academic instruction, career training and character development according to each student’s gifts and talents.

Vision
Kansas leads the world in the success of each student.

Motto
Kansans CAN.

Successful Kansas High School Graduate
A successful Kansas high school graduate has the
- Academic preparation,
- Cognitive reparation,
- Technical skills,
- Employability skills and
- Civic engagement
to be successful in postsecondary education, in the attainment of an industry recognized certification or in the workforce, without the need for remediation.

Outcomes for Measuring Progress
- Social-Emotional growth measured locally
- Kindergarten readiness
- Individual Plan of Study focused on career interest
- High school graduation
- Postsecondary success

GENERAL FUND

A. 1. "GENERAL FUND" means the fund of a school district from which operating expenses are paid and in which is deposited all amounts of state foundation aid provided under this act, payments under K.S.A. 2017 Supp. 72-528, and amendments thereto, payments of federal funds made available under the provisions of Title I of Public Law 874, except amounts received for assistance in cases of major disaster and amounts received under the low-rent housing program, and such other moneys as are provided by law. (K.S.A. Supp. 72-5132)

2. "OPERATING EXPENSES" means the total expenditures and lawful transfers from the general fund of a district during a school year for all purposes, except expenditures for the purposes specified in K.S.A. Supp. 72-5168, and amendments thereto. (K.S.A. Supp. 72-5132)

3. "GENERAL FUND BUDGET" means the amount budgeted for operating expenses in the general fund of a district.

4. "BUDGET PER STUDENT" means the general fund budget of a district divided by the enrollment of the district. (K.S.A. Supp. 72-5132)

5. "CATEGORICAL FUND" means and includes the following funds of a district: Adult education fund; adult supplementary education fund; at-risk education fund; bilingual education fund; career and postsecondary education fund; driver training fund; educational excellence grant program fund; extraordinary school program fund; food service fund; parent education program fund; preschool-aged at-risk education fund; professional development fund; special education fund, and summer program fund. (K.S.A. Supp. 72-5132)

B. "DISTRICT" means a school district organized under the laws of this state which is maintaining public school for a school term in accordance with the provisions of K.S.A. 72-3115.

C. 1. a."STUDENT" means any person who is regularly enrolled in a district and attending kindergarten or any of the grades one through 12 maintained by the district or who is regularly enrolled in a district and attending kindergarten or any of the grades one through 12 in another district in accordance with an agreement entered into under authority of K.S.A. 2017 Supp. 72-13,101, and amendments thereto, or who is regularly enrolled in a district and attending special education services provided for preschool-aged exceptional children by the district.

COUNTING FTE –
Except as otherwise provided in this subsection, a student in attendance full time shall be counted as one student.

– A student in attendance part time shall be counted as that proportion of one student (to the nearest 1/10) that the student's attendance bears to full-time attendance.

– A student enrolled in and attending an institution of postsecondary education which is authorized under the laws of this state to award academic degrees shall be counted as one student if the student's postsecondary education enrollment and attendance together with the student's attendance in either of the grades 11, or 12 is at least 5/6 time, otherwise the student shall be counted as that proportion of one student (to the nearest 1/10) that the total time of the student's postsecondary education attendance and attendance in grades 11 or 12, as applicable, bears to full-time attendance.
COUNTING FTE –

- A student enrolled in and attending a technical college, a career technical education program of a community college or other approved career technical education program shall be counted as one student if the student's career technical education attendance together with the student's attendance in any of grades nine through 12 is at least 5/6 time, otherwise the student shall be counted as that proportion of one student (to the nearest 1/10) that the total time of the student's career technical education attendance and attendance in any of grades nine through 12 bears to full-time attendance.

- A student enrolled in a district and attending special education and related services, except special education and related services for preschool-aged exceptional children, provided for by the district shall be counted as one student. Students with IEP’s who enroll in virtual schools may have their enrollment FTE prorated between the school they are physically attending and the virtual school.

- A student enrolled in a district and attending special education and related services for preschool-aged exceptional children provided for by the district shall be counted as ½ student.

- A pre-school aged at-risk student enrolled in a district and receiving services under an approved at-risk student assistance plan maintained by the district shall be counted as ½ student.

- A student enrolled in a school district who is not a resident of Kansas shall be counted as follows:
  a. for school year 2018-19 one student;
  b. for school year 2019-20 and 2020-21, ¾ of a student; and
  c. for school year 2021-22 and each school year thereafter, ½ of a student.

- A student residing at the Flint Hills job corps center shall not be counted. A student confined in and receiving educational services provided for by a district at a juvenile detention facility shall not be counted.

- A student enrolled in a district but housed, maintained, and receiving educational services at a state institution shall not be counted.

- A student enrolled in a virtual school in a district but who is not a resident of the state of Kansas shall not be counted. (K.S.A. 72-3715)

C. 2. "PRESCHOOL-AGED EXCEPTIONAL CHILDREN" means exceptional children, except gifted children, who have attained the age of three years but are under the age of eligibility for attendance at kindergarten. (K.S.A. 72-5132)

3. "AT-RISK STUDENTS" means students who are eligible for free meals under the national school lunch act and who are enrolled in a district which maintains an approved at-risk student assistance plan. (K.S.A. 72-5132)
C. 4. **“PRESCHOOL-AGED AT-RISK STUDENT”** means an at-risk student who has attained the age of three years, is under the age of eligibility for attendance at kindergarten, and has been selected by the state board in accordance with guidelines governing the selection of students for participation in head start programs. *(K.S.A. 72-5132)*

5. **“ENROLLMENT”** means:

   a. The number of students regularly enrolled in the district on September 20 of the preceding school year plus the number of preschool-aged at-risk students regularly enrolled in the school district on September 20 of the current school year, except a student who is a foreign exchange student shall not be counted unless such student is regularly enrolled in the district on September 20 and attending kindergarten or any of the grades one through 12 maintained by the district for at least one semester or two quarters or the equivalent thereof;

   b. If the enrollment in a school district in the preceding school year has decreased from enrollment in the second preceding school year, the enrollment of the school district in the current school year means the sum of:

      i. The enrollment in the second preceding school year, excluding students under paragraph (2)(B), minus enrollment in the preceding school year of preschool-aged at-risk students, plus enrollment in the current school year preschool-aged at-risk students; and

      ii. the adjusted enrollment in the second preceding school year of any students participating in the tax credit for low income students scholarship program, in the preceding school year, plus the adjusted enrollment in the preceding school year of preschool-aged at-risk students who are participating in the tax credit for low income students scholarship program.

   c. For any school district that has a military student, and that received federal impact aid for the preceding school year, if the enrollment in such school district in the preceding school year has decreased from enrollment in the second preceding school year, the enrollment of the school district in the current school year means whichever is the greater of:

      i. The enrollment determined under paragraph (2); or

      ii. the sum of the enrollment in the preceding school year of preschool-aged at-risk students, and the arithmetic mean of the sum of:

         A. The enrollment of the school district in the preceding school year minus the enrollment in such school year of the preschool-aged at-risk students,

         B. The enrollment of the school district in the second preceding school year minus the enrollment in such school year of the preschool-aged at-risk students,

         C. The enrollment of the school district in the third preceding school year minus the enrollment in such school year of the preschool-aged at-risk students.
ENROLLMENT ADJUSTMENT FOR MILITARY STUDENTS

(a) Each school year the, state board shall:
   (1) Determine number of students enrolled in each school district on September 20; and
   (2) Determine number of military students enrolled in each school district on February 20, who were not enrolled on the preceding September 20.

(b) If the number obtained under (a)(2) is 25 or more, or such number is at least 1% of the number determined under (a)(1), an amount equal to the number obtained under (a)(2) shall be added to the number determined under (a)(1). The resulting number is the enrollment of the school district. (K.S.A. 72-5139)

6. "ADJUSTED ENROLLMENT" means enrollment adjusted by adding at-risk student weighting, high density at-risk weighting, bilingual weighting, career technical education weighting, low enrollment weighting, high enrollment weighting, school facilities weighting, ancillary school facilities weighting, cost of living weighting, special education and related services weighting, and transportation weighting to enrollment. (K.S.A. 2005 Supp. 72-5132)

7. "AT-RISK STUDENT WEIGHTING" means an addend component assigned to enrollment of districts on the basis of costs attributable the maintenance of at-risk educational programs. (K.S.A. 72-5132) The at-risk student weighting of each district shall be determined by the state board by multiplying the number of at-risk students included in enrollment of the district by .484. The product is the at-risk student weighting of the district. (K.S.A. 72-5151)

8. "HIGH ENROLLMENT WEIGHTING" means an addend component assigned to enrollment of districts pursuant to K.S.A. 72-5149(b), on the basis of costs attributable to maintenance of educational programs by such districts. (K.S.A. 72-5132)

9. "LOW ENROLLMENT WEIGHTING" means an addend component assigned to enrollment of districts pursuant to K.S.A. 72-5149(a), and amendments thereto, on the basis of costs attributable to maintenance of educational programs by such districts. (K.S.A. 72-5132)

10. "HIGH-DENSITY AT-RISK STUDENT WEIGHTING" means an addend component assigned to enrollment of districts to which the provisions of K.S.A. 72-5149(b), apply. (K.S.A. 72-5132)

11. "SCHOOL FACILITIES WEIGHTING" means an addend component assigned to enrollment of districts on the basis of costs attributable to commencing operation of new school facilities. (K.S.A. 72-5132) School facilities weighting may be assigned to enrollment of a district only if the district adopted a local option budget in an amount equal to at least 25% of the amount of the state financial aid determined for the district in the school year 2014-15, and the contractual bond obligations incurred by the district were approved by the electors in an election on or before July 1, 2015. School facilities weighting may be assigned to enrollment of the district only in the school year in which operation of a new school facility is commenced and in the next succeeding school year. (K.S.A. Supp. 72-5156)

12. "TRANSPORTATION WEIGHTING" means an addend component assigned to enrollment of districts pursuant to K.S.A. 72-5148, on the basis of costs attributable to the provision or furnishing of transportation. (K.S.A. 72-5132)
13. “COST-OF-LIVING WEIGHTING” means an addend component assigned to enrollment of districts pursuant to K.S.A. 72-5159, and amendments thereto, on the basis of costs attributable to the cost of living in the district. (K.S.A. 72-5132)

14. “ANCILLARY SCHOOL FACILITIES WEIGHTING” means an addend component assigned to enrollment of districts pursuant to K.S.A. 72-5158, and amendments thereto, apply on the basis of costs attributable to commencing operation of new school facilities. Ancillary school facilities weighting may be assigned to enrollment of a district only if the district has levied a tax under authority of K.S.A. 72-5158, and amendments thereto, and remitted the proceeds from such tax to the state treasurer. Ancillary school facilities weighting is in addition to assignment of school facilities weighting to enrollment of any district eligible for such weighting. (K.S.A. 72-5132)

15. “JUVENILE DETENTION FACILITY” means any public or private facility which is used for the lawful custody of accused or adjudicated juvenile offenders and which shall not be a jail; and “PSYCHIATRIC RESIDENTIAL TREATMENT FACILITY” means a facility which provides psychiatric services to individuals under the age of 21 and which conforms with the regulations of the Centers for Medicare/Medicaid Services, is licensed by the Kansas Department for Aging and Disability Services. (K.S.A. 72-1173)

16. “SPECIAL EDUCATION AND RELATED SERVICES WEIGHTING” means an addend component assigned to enrollment of districts pursuant to K.S.A. 72-5157, on the basis of costs attributable to the maintenance of special education and related services for students determined to be exceptional children. (K.S.A. 72-5132)

17. “VIRTUAL SCHOOL” means any school or educational program that: (1) Is offered for credit; (2) uses distance-learning technologies which predominately use internet-based methods to deliver instruction; (3) involves instruction that occurs asynchronously with the teacher and student in separate locations; (4) requires the student to make academic progress toward the next grade level and matriculation from kindergarten through high school graduation; (5) requires the student to demonstrate competence in subject matter for each class or subject in which the student is enrolled as part of the virtual school; and (6) requires age-appropriate students to complete state assessment tests. (K.S.A. 72-3712)

A student enrolled in a virtual school in a district but who is not a resident of the state of Kansas shall not be counted. (K.S.A. 72-5132)

D. "SEPTEMBER 20" has its usual meaning, except that in any year in which September 20 is not a day on which a school is maintained, it shall mean the first day after September 20 on which school is maintained. (K.S.A. 72-5132)

E. "FEBRUARY 20" has its usual meaning, except that in any year in which February 20 is not a day on which school is maintained, it shall mean the first day after February 20 on which school is maintained. (K.S.A. 72-5132)
GENERAL FUND CONTINUED

F. 1. "STATE FOUNDATION AID" means an amount of aid distributed to a school district as determined by the state board pursuant to K.S.A. 72-5134, and amendments thereto. (K.S.A. 72-5132)

2. "BASE AID FOR STUDENT EXCELLENCE (BASE)" means an amount an amount appropriated by the legislature in a fiscal year for the designated year. The amount of BASE aid shall be as follows:
   a. for school year 2018-19, $4,165;
   b. for school year 2019-20, $4,302;
   c. for school year 2020-21, $4,439;
   d. for school year 2021-22, $4,576;
   e. for school year 2022-23, $4,713; and
   f. for school year 2023-24, and each school year thereafter, the BASE aid shall be the BASE aid amount for the immediately preceding school year plus an amount equal to the average percentage increase in the consumer price index for all urban consumers in the Midwest region as published by the Bureau of Labor Statistics of the U.S. Department of Labor during the three immediately preceding school years rounded to the nearest whole dollar amount. (K.S.A. 72-5132)

3. "LOCAL FOUNDATION AID" means the sum of the following: an amount equal to any unexpended and unencumbered balance remaining in the general fund of the district, except amounts received by the district and authorized to be expended for the purposes specified in K.S.A. 72-5168, and amendments thereto, and an amount equal to any remaining proceeds from taxes levied under authority of K.S.A. 72-7056 and K.S.A. 72-7072 and amendments thereto, prior to the repeal of such statutory sections, and an amount equal to the amount deposited in the general fund in the current school year from amounts received in such year by the district under the provisions of subsection (a) of K.S.A. 72-3123(a), and amendments thereto, and an amount equal to the amount deposited in the general fund in the current school year from amounts received in such year by the district pursuant to contracts made and entered into under authority of K.S.A.72-3125, and amendments thereto, and an amount equal to the amount credited to the general fund in the current school year from amounts distributed in such year to the district under the provisions of articles 17 and 34 of chapter 12 of Kansas Statutes Annotated and under the provisions of articles 42 and 51 of chapter 79 of Kansas Statutes Annotated, and an amount equal to the amount of payments received by the district under the provisions of K.S.A. 72-3423, and amendments thereto, and an amount equal to the amount of any grant received by the district under the provisions of K.S.A. 72-3425, and amendments thereto, and an amount equal to 70% of the federal impact aid of the district. (K.S.A. 72-5132)
4. “FEDERAL IMPACT AID” means an amount equal to the federally qualified percentage of the amount of moneys a district receives in the current school year under the provisions of Title I of Public Law 874 and congressional appropriations therefore, excluding amounts received for assistance in cases of major disaster and amounts received under the low-rent housing program. The amount of federal impact aid shall be determined by the state board in accordance with terms and conditions imposed under the provisions of the public law and rules and regulations thereunder. (K.S.A. 72-5132)

G. 1. ANY LAWFUL TRANSFER OF MONEYS FROM THE GENERAL FUND of a district to any other fund shall be an operating expense in the year the transfer is made. The board of any district may transfer moneys from the general fund to any categorical fund of the district in any school year.

2. The board of any district may transfer moneys from the general fund to the contingency reserve fund of the district in any school year.

H. 1. The board of each district shall LEVY AN AD VALOREM TAX upon the taxable tangible property of the district in the school years specified in subsection (b) for the purpose of:

a. Financing that portion of the district’s general fund budget which is not financed from any other source provided by law;

b. paying a portion of the costs of operating and maintaining public schools in partial fulfillment of the constitutional obligation of the legislature to finance the educational interests of the state; and

c. with respect to any redevelopment district established prior to July 1, 1997, pursuant to K.S.A. 12-1771, and amendments thereto, paying a portion of the principal and interest on bonds issued by cities under authority of K.S.A. 12-1774, and amendments thereto, for the financing of redevelopment projects upon property located within the district.

2. The tax required under subsection (a) shall be levied at the rate of 20 mills in the school year 2017-18 and 2018-19.

3. The proceeds from the tax levied by a district under authority of this section, except the proceeds of such tax levied for the purpose of paying a portion of the tax levied for the purpose described in subsection (a)(3), shall be remitted to the state treasurer in accordance with the provisions of K.S.A. 75-4215, and amendments thereto.

I. Special education state aid received by a school district must deposited into the general fund. That amount then must be transferred to the special education fund of the district. (K.S.A. 72-3423)
J. GENERAL STATE AID (Distribution of final payment)

If any amount of general state aid that is due to be paid during the month of June of a school year pursuant to the other provisions of this section is not paid on or before June 30 of such school year, then such payment shall be paid on or after the ensuing July 1, as soon as moneys are available therefore. Any payment of general state aid that is due to be paid during the month of June of a school year and that is paid to school districts on or after the ensuing July 1 shall be recorded and accounted for by school districts as a receipt for the school year ending on the preceding June 30. (K.S.A. 72-5135)

K. Listed below is the table which shows potential revenue that shall be deposited in the general fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

</table>

Note 1: 70% of P.L. 382 (except for disaster payments, the excess revenue received above a normal student for special education students, excess revenue for Indian students and low-rent housing).

Note 2: Federal funds for a specific purpose, such as special education, must be deposited in the specific fund. It is recommended that other federal funds be deposited in a separate federal fund account.

Note 3: Includes Juvenile Detention/Flint Hills Job Corp payments and State Aid received as a result of adjustments to prior year P.L. 382 deduction.

*REIMBURSEMENTS* - Includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund.

If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under K.S.A. 72-5166 and is placed in one of the special funds authorized by that law.
SUPPLEMENTAL GENERAL FUND a.k.a. Local Option Budget (LOB)

As a general principal, the law provides that, in addition to the Total Foundation Aid, a school district board may approve LOB spending in any amount up to the state-wide average (currently 30.0 percent) of its total foundation aid. School boards may increase the LOB up to the state prescribed percentage as outlined below.

A. “STATE PRESCRIBED PERCENTAGE” means 33% of the total foundation aid of the school district in the current school year. Any resolution authorizing the adoption of a local option budget in excess of 30% of the total foundation aid of the district must be passed by a majority of the school district board members, must be published once in the designated local newspaper, and is subject to a protest petition signed by not less than 10% of the qualified electors of the school district within 40 days of publication. Unless specifically state otherwise in the resolution, the authority to adopt a LOB shall be continuous and permanent. (K.S.A 72-5143)

B. Revenue for LOB. School districts are authorized to levy property taxes to fund their portion of the LOB. State aid is provided for the purpose of equalizing the ability of a district to utilize this provision.

Supplemental general state aid is based on an equalization feature designed to treat each district as if its assessed valuation per pupil (AVPP) were equal to that of the district at the 81.2 percentile of AVPP. For each school district that uses all or a portion of its LOB, the State Board divides the district’s average AVPP (see footnote*) in each of the three preceding years by the 81.2 percentile AVPP and subtracts the ratio so determined from 1.0. If the ratio resulting from this calculation equals or exceeds 1.0, the district is entitled to no LOB supplemental general state aid. If the ratio resulting from the calculation is less than 1.0, the district’s adopted LOB is multiplied by such ratio to determine the district’s LOB supplemental general state aid entitlement.

A proportional proration provision applies in the event the state appropriations for this aid are not sufficient to fully fund school district entitlements.

School districts also receive a share of the motor vehicle tax, motor vehicle 16/20M truck property tax, rental/leased vehicle sales tax, recreational vehicle tax, and industrial revenue bond payments in lieu of taxes as resources to the supplemental general fund.

C. Authorized LOB Expenditures. With a few exceptions, school districts may spend LOB revenues for any purpose for which expenditures from the general fund are authorized or these revenues may be transferred to any categorical fund of the district. One exception is that school district boards are prohibited from making LOB expenditures for a lease-purchase agreement involving the acquisition of land or buildings under K.S.A. 72-1149, as amended. (K.S.A. 72-5143) In addition, transfers cannot be made to capital outlay fund or the contingency reserve fund.

* Where Kansas Neighborhood Revitalization Act tax increment financing rebates are involved, the county clerk submits to the Commissioner of Education an adjustment (reduction) in the district’s assessed valuation, determined by dividing the total of tax increment rebates paid by the district during the preceding 12 months by the total of the ad valorem levy rates of the district in the previous year.
SUPPLEMENTAL GENERAL FUND (LOB) CONTINUED

D. LOB Balances. Any unexpended and unencumbered cash balance remaining in the supplemental general fund at the conclusion of any school year is treated as follows:

1. If the district received supplemental general state aid in the school year, the state board shall determine the ratio of the amount of supplemental general state aid received to the amount of the local option budget of the district for the school year and multiply the total amount of the unexpended budget remaining by such ratio. An amount equal to the amount of the product shall be transferred to the general fund of the district or remitted to the state treasurer. Upon receipt of any such remittance, the state treasurer shall deposit the same in the state treasury to the credit of the state school district finance fund.

2. Each year the state board of education shall determine the statewide average percentage of local option budgets legally adopted by school districts for the preceding school year. (K.S.A. 72-5143)

E. Supplemental General State Aid Payments. Supplemental general state aid payments are made at times determined by the state board. The state board certifies to the director of accounts and reports the amount due to each district and the director prepares the warrants. The aid is deposited in the district’s supplemental general fund. In practice this aid is paid in three installments during the school year. Payments are made on October 1 (40%), February 1 (40%), and June 20 (prorated amount).

F. Listed below is the table showing potential revenue that may/shall be deposited in the Supplemental General Fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories:

ADULT EDUCATION FUND

A. "Adult basic education program" means a program of one or more courses in general education subjects taught at the grade school or high school level under the supervision of a board for eligible persons which is included in the state plan and for which federal funds are received pursuant to federal law." (K.S.A. 74-32,253)

"Eligible persons" means persons who (1) have attained the age of 16, (2) have not graduated from high school and have not been recognized as having achieved an equivalent level of education, and (3) are not now regularly enrolled in school." (K.S.A. 74-32,253)

"Each board is authorized to establish, conduct, maintain and administer an adult basic education program and such program shall meet standards and criteria set by the state board. Cooperative agreements among boards may be entered into for providing in conformity with the purpose of this act, such programs, facilities, equipment and services as may be necessary or desirable. No such cooperative agreement shall be effective until the same has been approved by the state board which approval shall be granted if such agreement complies with the standards and criteria established by the state board." (K.S.A. 74-32,256)

"The state board may enter into agreements with any board for the establishment and operation of adult basic education programs and any board desiring to secure state and federal funds for the cost of conducting the same shall certify and file an application with the state board for the approval of such adult basic education program. The application shall be on a form prescribed and furnished by the state board and shall contain such information as the state board shall require and shall be filed on or before July 1 of each year. Approval of the application and the program shall be prerequisite to payment of state and federal funds to any board." (K.S.A. 74-32,257)

1. The board of any school district may make an annual tax levy for a period not to exceed 5 (five) years upon the assessed taxable tangible property within the school district to maintain and operate an adult basic education program at a level approved by the state board and for the purpose of paying a portion of the principal and interest on bonds issued by cities under authority of K.S.A. 12-1774, and amendments thereto, for the financing of redevelopment projects upon property located within the school district. The tax levy limit was repealed in K.S.A. 79-5040.

Proceeds from the tax levy, except for an amount to pay a portion of the principal and interest on bonds issued by cities under authority of K.S.A. 12-1774, and amendments thereto, for the financing of redevelopment projects upon property located within the school district, shall be deposited in the adult education fund of the school district, which fund is hereby established. Notwithstanding any other provision of law, all moneys received by the school district from whatever source for adult basic education shall be credited to the adult education fund established by this section. The expenses of a school district directly attributable to adult basic education shall be paid from the adult education fund. (K.S.A. 74-32,259)
ADULT EDUCATION FUND CONTINUED

2. No tax levy shall be made under this section until a resolution authorizing the levy is passed by the board and published once a week for three consecutive weeks in a newspaper having general circulation in the school district. The resolution shall specify the millage rate of the tax levy and the period of time for which the tax levy shall be made under authority thereof. After adoption of the resolution, the levy may be made unless, within 90 days following the last publication of the resolution, a petition in opposition to the levy, signed by not less than 5% of the qualified electors of the school district, is filed with the county election officer of the home county of the school district. In the event a petition is filed, the tax shall not be levied without the question of levying the same having been submitted to and approved by a majority of the qualified electors of the school district voting at an election which shall be Called for that purpose or at the next general election." (K.S.A. 74-32,259)

3. “The board of any school district which has made a tax levy authorized under the provisions of this section may initiate procedures to renew its authority to make such a tax levy at any time after the final levy under a current authorization is certified to the county clerk.” (K.S.A. 74-32,259)

B. All transfers from the general fund to the adult education fund are considered to be a general fund expenditure in the year the transfer is made. This transfer should be recorded as revenue in the adult education fund. (K.S.A. 72-5167)

C. All expenditures attributable to approved adult education programs shall be paid from the adult education fund. (K.S.A. 74-32,261) These expenditures include but are not limited to salaries for principals, supervisors, teachers, secretarial/clerical, textbooks, teacher supplies, salaries for operation of plant, utilities/heat, replacement of equipment, social security, worker's compensation, unemployment insurance, equipment, and tuition.

* REIMBURSEMENTS - Includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund. If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under K.S.A. 72-5166 and is placed in one of the special funds authorized by that law.

ADULT SUPPLEMENTARY EDUCATION FUND

A. "Adult supplementary education program means a program of one or more courses in any subject, other than courses in the adult basic education program, or courses approved for state funding purposes, which is conducted under the supervision of a board for persons who have attained the age of 16." *(K.S.A. 74-32,253)*

1. “Any board may establish and maintain an adult supplementary education program for the instruction of persons desirous of attending such a program. (b) The cost of instruction for adult supplementary education programs shall be borne by the school district or community college and the board shall obtain and furnish the necessary teaching personnel and supplies. Tuition or fees shall be charged by the board to offset expense of operation of adult supplementary education programs in part or in total." *(K.S.A. 74-32,261)*

B. All expenditures attributable to adult supplementary education programs shall be paid from the adult supplementary education fund. *(K.S.A. 74-32,261)* These expenditures include but are not limited to salaries for principals, supervisors, teachers, secretarial/clerical, textbooks, teacher supplies, salaries for operation of plan utilities/heat, replacement of equipment, social security, worker’s compensation, unemployment insurance, equipment, and tuition.

*REIMBURSEMENTS* - Includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund.

If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under K.S.A. 72-5166 and is placed in one of the special funds authorized by that law.

AT-RISK EDUCATION FUND (K-12)

A. The at-risk student weighting of each district shall be determined by the state board by multiplying the number of at-risk students included in enrollment of the district by 0.484. The product is the at-risk student weighting of the district. *(K.S.A. 72-5151)*

B. The high-density at-risk student weighting of each school district shall be determined by the state board as follows:

1. a. If the enrollment of the school district is at least 35% at-risk students, but less than 50% at-risk students:
   i. Subtract 35% from the percentage of at-risk students included in the enrollment of the school district:
   ii. multiply the difference determined under subsection (B)(1)(a)(i) by 0.7; and
   iii. multiply the product obtained under (B)(1)(a)(ii) by the number of at-risk students included in the enrollment of the school district: or

   b. if the enrollment of the school district is 50% or more at-risk students, multiply the number of at-risk students included in the enrollment of the school district by 0.105; or

2. a. If the enrollment of a school in the school district is at least 35% at-risk student, but less than 50% at-risk students:
   i. Subtract 35% from the percentage of at-risk students included in the enrollment of the school:
   ii. multiply the difference determined under subsection (B)(2)(a)(i) by 0.7; and
   iii. multiply the product obtained under (B)(2)(a)(ii) by the number of at-risk students included in the enrollment of the school: or
AT-RISK EDUCATION FUND (K-12) CONTINUED

b. if the enrollment of the school in the school district is 50% or more at-risk students, multiply
   the number of at-risk students included in the enrollment of the school by 0.105; and

c. add the products determined under subsections (B)(2)(a)(iii) and (B)(2)(b) for each school
   in the school district, respectively.

3. The high-density at-risk weighting of the school district shall be the greater of the product
   determined under subsection (B)(1) or the sum determined under subsection (B)(2)(C).

4. Commencing in 2018-19, school districts that qualify to receive high-density at-risk weighting
   shall spend any money attributable to that weighting on the at-risk best practices developed by
   the state board pursuant to KSA 72-5153(d). (K.S.A. 72-5151)

C. There is hereby established in every school district a fund which shall be called the at-risk
   education fund, which fund shall consist of all moneys deposited therein or transferred thereto
   according to law. The expenses of a district attributable to providing at-risk assistance or programs
   shall be paid from the at-risk education fund. (K.S.A. 72-5153)

D. Any balance remaining the in the at-risk education fund at the end of the budget year shall be
   carried forward for succeeding budget years. Such fund shall not be subject to the provisions of
   K.S.A. 79-2925 through 79-2937, and amendments thereto. Interest earned on the investment of
   moneys in any such fund shall be credited to that fund. (K.S.A. 72-5153)

E. Each year the board of education of each school district shall prepare and submit a report on the
   at-risk education program or assistance provided by the district. Such report shall include the
   number of at-risk students who were served or provided assistance, the type of service provided,
   the research upon which the district relied in determining that a need for service or assistance
   existed, the results of providing such service or assistance, and any other information required by
   the state board. (K.S.A. 72-5153)

F. In order to achieve uniform reports of the number of at-risk students provided service or assistance
   by school districts in at-risk programs, districts shall report the number of at-risk students served
   or assisted in the manner required by the state board. (K.S.A. 72-5153)

G. Listed below is the table which shows potential revenue that may/shall be deposited in the At-Risk
   Education Fund (K-12). When filing reports with the State of Kansas and the State Department of
   Education, all revenue should be identified in the following categories.

AT-RISK EDUCATION FUND (Preschool-Aged)

A. There is hereby established in every school district a fund which shall be called the preschool-aged at-risk education fund, which fund shall consist of all moneys deposited therein or transferred thereto according to law. The expenses of a district attributable to providing preschool-aged at-risk assistance or programs shall be paid from the preschool-aged at-risk education fund. (K.S.A. 72-5154)

B. Any balance remaining in the preschool-aged at-risk education fund at the end of the budget year shall be carried forward for succeeding budget years. Such fund shall not be subject to the provisions of K.S.A. 79-2925 through 79-2937, and amendments thereto. Interest earned on the investment of moneys in any such fund shall be credited to that fund.

C. Each year the board of education of each school district shall prepare and submit a report on the preschool-aged at-risk education program or assistance provided by the district. Such report shall include information specifying the number of students who were served or provided assistance, the type of service provided, the research upon which the district relied in determining that a need for service or assistance existed, the results of providing such service or assistance, and any other information required by the state board.

D. Listed below is the table which shows potential revenue that may/shall be deposited in the Preschool-Aged At-Risk Education Fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

* REIMBURSEMENTS - Includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund. If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under K.S.A. 72-5166 and is placed in one of the special funds authorized by that law.
Preschool Programs, Interlocal Agreements, Contracts to Provide Programs, Fees:

1. The board of education of any school district may:
   a. offer and teach courses and conduct preschool programs for children under the age of eligibility to attend kindergarten;
   b. enter into cooperative or interlocal agreements with one or more other boards for the establishment, operation and maintenance of such preschool programs;
   c. contract with private, nonprofit corporations or associations or with any public or private agency or institution for the establishment, operation and maintenance of such preschool programs;
   d. prescribe and collect fees for providing such preschool programs (fees shall be prescribed and collected only to recover costs incurred).

2. Revenues from fees collected shall be deposited in the general fund of the school district and shall be considered reimbursements to the district for the purpose of the Kansas school equity and enhancement act and may be expended whether the same have been budgeted or not. Amounts so expended shall not be considered operating expenses. (K.S.A. 72-3215)

BILINGUAL EDUCATION FUND

A. "There is hereby established in every school district a fund which shall be called the 'bilingual education fund,' which fund shall consist of all moneys deposited therein or transferred thereto according to law. Any balance remaining in the bilingual education fund at the end of the budget year shall be carried forward into the bilingual education fund for the succeeding budget years. (K.S.A. 72-3613)

Each year the board of education of each school district shall prepare and submit to the state board a report on the bilingual education program and assistance provided by the district. Such report shall include information specifying the number of students who were served or provided assistance, the type of service provided, the research upon which the district relied in determining that a need for service or assistance existed, the results of providing such service or assistance and any other information required by the state board.

B. The expenses of a district attributable to bilingual education shall be paid from the bilingual education fund. (K.S.A. 72-3613) These expenditures include but are not limited to salaries for principals, supervisors, teachers, secretarial/clerical, textbooks, teacher supplies, salaries for operation of plant, utilities/heat, replacement of equipment, social security, worker's compensation, unemployment insurance, equipment, and tuition.
BILINGUAL EDUCATION FUND CONTINUED

C. The bilingual weighting of each school district shall be determined by the state board as follows:

1. Determine the full-time equivalent enrollment in approved programs of bilingual education and multiply by 0.395;

2. determine the number of students enrolled in approved programs of bilingual education and multiply by 0.185; and

3. the bilingual weighting shall be the greater of the amount determined under subsection (1) or (2). *(K.S.A. 72-5150)*

D. School districts may also join together as a cooperative or through an interlocal agreement to provide bilingual education services on a shared-cost basis. *(K.S.A. 72-3611)*

E. Listed below is the table which shows potential revenue that may/shall be deposited in the bilingual education fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund. If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under K.S.A. 72-5166 and is placed in one of the special funds authorized by that law.

BOND & INTEREST FUND (a.k.a. Capital Improvements Fund)

In each school year, each school district which is obligated to make payments from its capital improvements fund shall be entitled to receive payment from the school district capital improvements fund in an amount determined by the state board of education as provided in this law. Payments from the state’s school district capital improvement fund shall be distributed to school districts at times determined by the state board of education to be necessary to assist school districts in making scheduled payments pursuant to contractual bond obligations, and apply only to contractual obligations incurred by school districts pursuant to general obligation bonds issued upon approval of a majority of the qualified electors of the school district voting at an election upon the question of the issuance of such bonds. *(K.S.A. 72-5462)*

The detailed information for bonds are contained in the publication entitled, "SCHOOL BOND GUIDE." This publication can be accessed on the School Finance home page on the KSDE website.

CAPITAL OUTLAY FUND

A. "The board of education of any school district may make an annual tax levy at a mill rate not to exceed the statutorily prescribed mill rate upon the assessed taxable tangible property in such school district for the purposes specified in this act. No levy shall be made under this act until a resolution is adopted by such board of education in the following form:

Unified School District No. ____, __________ County, Kansas

RESOLUTION

Be It Resolved that:

The above-named school board shall be authorized to make an annual tax levy in an amount not to exceed _____ mills upon the taxable tangible property in the school district for the purpose of acquisition, construction, reconstruction, repair, remodeling, additions to, furnishing maintaining, and equipping of school district property and equipment necessary for school district purposes, including: (1) Computer software; (2) performance uniforms; (3) housing and boarding pupils enrolled in an area vocational school operated under the board; (4) architectural expenses; (5) building sites; (6) undertaking and maintenance of asbestos control projects; (7) school buses and (8) other fixed assets, and with respect to any redevelopment district established prior to July 1, 2017, pursuant to K.S.A. 12-1771, and amendments thereto, for the purpose of paying a portion of the principal and interest on bonds issued by cities under the authority of K.S.A. 12-1774, and amendments thereto, for the financing of redevelopment projects upon property located within the school district. The tax levy authorized by this resolution may be made, unless a petition in opposition to the same, signed by not less than 10% of the qualified electors of the school district, is filed with the county election officer of the home county of the school district within 40 days after the last publication of this resolution. In the event a petition is filed the county election officer shall submit the question of whether the tax levy shall be authorized to the electors in the school district at an election called for the purpose or at the next general election, as is specified by the board of education of the above school district.

CERTIFICATE

This is to certify that the above resolution was duly adopted by the board of education of Unified School District No. ____, __________ County, Kansas, on the ____ day of ________, year.

_____________________________________
Clerk of the board of education

All of the blanks in the above resolution shall be appropriately filled. The blank preceding the words "mills" shall be filled with a specific number. Such resolution shall be published once a week for two consecutive weeks in a newspaper having general circulation in the school district." (K.S.A. 72-53,113)
CAPITAL OUTLAY FUND CONTINUED

B. There is hereby established in every school district of the state a fund which shall be called the "capital outlay fund." The capital outlay fund shall consist of all moneys deposited therein or transferred thereto in accordance with law. The proceeds of any tax levied under article 88 of chapter 72 of Kansas Statutes Annotated, except for an amount to pay a portion of the principal and interest on bonds issued by cities under the authority of K.S.A. 12-1774, and amendments thereto, for financing of redevelopment projects upon property located within the school district, shall be deposited in the capital outlay fund of the school district making such levy. (K.S.A. 72-53,115)

C. All expenditures attributable to capital outlay shall be paid from the capital outlay fund except any district may make capital outlay expenditures from its general fund for acquisition of equipment (excluding buses) and repair of school buildings.

D. The following expenditures may be paid from the capital outlay fund: acquisition, construction, reconstruction, repair, remodeling, additions to furnishing, maintaining and equipping of school district property and equipment necessary for school district purposes, including (1) computer software; (2) performance uniforms; (3) housing and boarding pupils enrolled in an area vocational school operated under the board of education; (4) architectural expenses; (5) building sites; (6) undertaking and maintenance of asbestos control projects; (7) school buses; and (8) other fixed assets, and with respect to any redevelopment district established prior to July 1, 2017, pursuant to K.S.A. 12-1774, and amendments thereto, for the financing of redevelopment projects upon property located within the school district. (K.S.A. 72-53,113)

E. Listed below is the table which shows potential revenue that may/shall be deposited in the capital outlay fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

*REIMBURSEMENTS - Includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund. If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under K.S.A. 72-5166 and is placed in one of the special funds authorized by that law.
CAREER AND POSTSECONDARY EDUCATION FUND

A. There is hereby established in every district a career and postsecondary education fund, which shall consist of all moneys deposited therein or transferred thereto according to law. All moneys received by a district for any course or program authorized and approved under the provisions of article 38 of chapter 72 of Kansas Statutes Annotated, except for courses and programs conducted in an area vocational school, shall be credited to the vocational education fund. All moneys received by the district from tuition, fees or charges or from any other source for career technical education courses or programs, except for courses and programs conducted in an area vocational school, shall be credited to the career and postsecondary education fund. The expenses of the district directly attributable to career technical education and postsecondary education shall be paid from the career and postsecondary education fund. *(K.S.A. 72-5162)*

B. All transfers from the general fund to the career and postsecondary education fund are considered to be a general fund expenditure in the year the transfer is made. This transfer should be recorded as revenue in the career and postsecondary education fund. *(K.S.A. 72-5167)*

C. Any balance remaining in the career and postsecondary education fund at the end of the budget year shall be carried forward into the career and postsecondary education fund for succeeding years. *(K.S.A. 72-5162)*

D. All expenditures attributable to approved vocational education programs shall be paid from the career and postsecondary education fund. The programs which receive approval for the extra career and technical education weighting and all Carl Perkins grants would be paid from the career and postsecondary education fund. These expenditures include but are not limited to salaries for principals, supervisors, teachers, secretarial/clerical, textbooks, teacher supplies, salaries for operation of plant, utilities/heat, replacement of equipment, social security, worker’s compensation, unemployment insurance, equipment, and tuition. *(K.S.A. 72-5162)*

E. Listed below is the table which shows potential revenue that may/shall be deposited in the career and postsecondary education fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

* REIMBURSEMENTS - includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund.

If moneys are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under *K.S.A. 72-5166* and is placed in one of the special funds authorized by that law.
COST-OF-LIVING FUND

A. The board of any district to which the provisions of this subsection apply may levy an ad valorem tax on the taxable tangible property of the district for the purpose of financing the costs incurred by the state that are directly attributable to assignment of cost-of-living weighting to enrollment of the district. *(K.S.A. 72-5159)*

B. The state board shall determine whether a school district may levy a tax under this section as follows:

1. Determine the statewide average appraised value of single family residences for the calendar year preceding the current school year;
2. multiply this amount by 1.25;
3. determine the average appraised value of single family residences in each school district for the calendar year preceding the current school year; and
4. subtract the amount determined under (2) from the amount determined under (3). If the amount determined for the school district is a positive number and the local board of education has adopted a local option budget in an amount equal to at least 31% of the total foundation aid for the school district, the school district qualifies for cost of living weighting. *(K.S.A. 72-5159)*

C. No tax may be levied under this section unless the board of education adopts a resolution authorizing such a tax levy and publishes the resolution at least once in a newspaper having general circulation in the school district. The resolution shall take effect unless a protest petition signed by not less than 5% of the qualified electors of the school district is filed with the county election officer within 30 days after the publication of the resolution. *(K.S.A. 72-5159)*

D. There is hereby established in every school district a cost-of-living fund, which shall consist of all moneys deposited therein or transferred thereto in accordance with law. All money derived from a tax imposed pursuant to this section shall be credited to the cost-of-living fund. The proceeds from the tax levied by a school district credited to the cost-of-living fund shall be remitted to the state treasurer in accordance with the provisions of *K.S.A. 75-4215*. *(K.S.A. 72-5159)*

CONTINGENCY RESERVE FUND

A. There is hereby established in every district a fund which shall be called the contingency reserve fund, such fund shall consist of all moneys deposited therein or transferred thereto according to law. (K.S.A. 72-5165)

B. The fund shall be maintained for payment of expenses of a district attributable to financial contingencies as determined by the board. (K.S.A. 72-5165)

C. The only source of revenue for the contingency reserve fund is a transfer from general fund.

DRIVER TRAINING FUND

A. "There is hereby established in every district a fund which shall be called the 'driver training fund,' which fund shall consist of all moneys deposited therein or transferred thereto according to law." (K.S.A. 72-5163)

B. All moneys received by the district from distributions made from the state safety fund and the motorcycle safety fund and from tuition, fees or charges for driver training courses shall be credited to the driver training fund. The expenses of a district directly attributable to driver training shall be paid from the driver training fund. (K.S.A. 72-5163)

C. All transfers from the general fund to the driver training fund are considered to be a general fund expenditure in the year the transfer is made. This transfer should be recorded as revenue in the driver training fund. (K.S.A. 72-5167)

D. The expenditures directly attributable to approved driver training programs shall be paid from the driver training fund. (K.S.A. 72-5163) These expenditures include but are not limited to salaries for principals, teachers, secretarial/clerical, textbooks, teacher supplies, leased/purchased vehicles, replacement of equipment, insurance, social security, worker’s compensation, unemployment insurance, and equipment.

E. Listed below is the table which shows potential revenue that may/shall be deposited in the driver training fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

EXTRAORDINARY GROWTH FACILITIES FUND

A. The board of any district to which the provisions of this subsection apply may levy an ad valorem tax on the taxable tangible property of the district each year for two years in an amount authorized by the state board of tax appeals for the purpose of financing the costs incurred by the state that are directly attributable to assignment of ancillary school facilities weighting to enrollment of the district. (K.S.A. 72-5158)

B. The state board of tax appeals shall certify to the state board of education the amount authorized to be produced by the levy of a tax under subsection (a). (K.S.A. 72-5158)

C. The state board of tax appeals may adopt rules and regulations necessary to effectuate the provisions of this subsection including rules and regulations relating to the evidence required in support of a district’s claim that the costs attributable to commencing operation of one or more new school facilities are in excess of the amount that is financed from any other source provided by law for such purpose. (K.S.A. 72-5158)

D. The provisions of this subsection apply to any district that (a) commenced operation of one or more new school facilities in the school year preceding the current school year or has commenced or will commence operation of one or more new school facilities in the current school year; (b) has adopted a local option budget; and (c) is experiencing extraordinary enrollment growth as determined by the state board of education. (K.S.A. 72-5158)

E. The board of any district that has levied an ad valorem tax on the taxable tangible property of the district each year for a period of two years under authority of subsection (a) may continue to levy such tax under authority of this subsection each year for an additional period of time not to exceed six years in an amount not to exceed the amount computed the state board of education as provided in this subsection if the board of the district determines that the costs attributable to commencing operation of one or more new school facilities are significantly greater than the costs attributable to the operation of other school facilities in the district. (K.S.A. 72-5158)

EXTRAORDINARY SCHOOL PROGRAM FUND

A. As used in this section, the term "extraordinary school program" means a program which is established by the board of education of a school district, operated before or after regular school hours during the regular school term, and maintained for any or all of the following purposes: (1) providing students with additional time to achieve learner exit or improvement plan outcomes; (2) giving students remedial instruction or independent study assistance; (3) affording students an opportunity to strengthen or attain mastery of basic or higher order thinking skills; and (4) conducting special projects and activities designed to enrich and enhance the educational experience of students. (K.S.A. 72-3239)

B. There is hereby established in every district which establishes, operates and maintains an extraordinary school program a fund which shall be called the extraordinary school program fund, which fund shall consist of all moneys deposited therein or transferred thereto according to law. All moneys received by a district from fees collected under this section or from any other source for extraordinary school programs shall be credited to the extraordinary school program fund. The expenses of a district directly attributable to extraordinary school programs shall be paid from the extraordinary school program fund. (K.S.A. 72-3239)

C. The board of education of any school district may: (1) establish, operate and maintain an extraordinary school program for students who meet the district's criteria for attendance of such programs; (2) enter into cooperative or interlocal agreements with one or more other boards of education for the establishment, operation and maintenance of an extraordinary school program for students; and (3) prescribe and collect fees for providing an extraordinary school program for students or provide such program without charge. (K.S.A. 72-3239)

D. Fees for providing an extraordinary school program for students shall be prescribed and collected only to recover the cost incurred as a result of and directly attributable to the establishment, operation and maintenance of the program. (K.S.A. 72-3239)

E. No school district may collect fees for providing an extraordinary school program for students who are required to attend such a program in accordance with the provisions of law, rules and regulations of the State Department of Education, policy of the board of education, or an individualized education plan developed for an exceptional child or who are eligible for free or reduced price meals under the national school lunch act. (K.S.A. 72-3239)

F. Listed below is the table which shows potential revenue that may/shall be deposited in the extraordinary school program fund. When filing reports within the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

FOOD SERVICE FUND

A. "There is hereby established in every district a fund which shall be called the 'food service fund,' which fund shall consist of all moneys deposited therein or transferred thereto according to law." (K.S.A. 72-5164)

B. All moneys received by the district for food service and from charges for food service shall be credited to the food service fund. The expenses of a district attributable to food service shall be paid from the food service fund. (K.S.A. 72-5164)

C. All transfers from the general fund to the food service fund are considered to be a general fund expenditure in the year the transfer is made. This transfer should be recorded as revenue in the food service fund. (K.S.A. 72-5167)

D. The expenditures attributable to approved food service shall be paid from the food service fund. (K.S.A. 72-5164) These expenditures include, but are not limited to, salaries for supervisors, secretarial/clerical, operation of plant, contractual services, utilities/heat, replacement of equipment, social security, worker's compensation, unemployment insurance, salaries for food service, food, and transportation.

E. Listed below is the table which shows potential revenue that may/shall be deposited in the food service fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

* REIMBURSEMENTS - Includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund. If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under K.S.A. 72-5166 and is placed in one of the special funds authorized by that law.
KPERS SPECIAL RETIREMENT CONTRIBUTION FUND

Through the 2005 omnibus appropriations bill, the Legislature amended the procedures for the state paying the school districts’ employer’s share of KPERS. The change requires KPERS to certify to the State Department of Education the employer’s share of KPERS for every school district on a quarterly basis.

Participating employers shall certify to the state board of education before September 15 of each year the anticipated total compensation to be paid during the next fiscal year to employees who are or are to become members.

The State Department of Education will send the money to the school districts which in turn will immediately return the money to KPERS.

The Legislature established a special fund in school district budgets for this purpose called KPERS Special Retirement Contribution Fund. This is a flow-through fund and an unencumbered cash balance is not allowed.

Estimated transaction dates: July 15; October 15; January 15; April 15. (K.S.A. 74-4939a)

PARENT EDUCATION PROGRAM FUND

A. "A program developed and operated by a board for the purpose of providing expectant parents and parents of infants or toddlers or both with information, advice, assistance, resource materials, guidance and learning experiences regarding such measures as parenting skills and the various styles of parenting, the processes and principles of growth and development of children, home learning activities designed for infants and toddlers, techniques emphasizing a positive approach to discipline, effective methods of communicating and interacting with children so as to foster the development of self-esteem, strategies for structuring behavioral limits and increasing mutual positive regard, and other elements of effective parenting that are conductive to the structuring of a home environment in which children are encouraged to be successful and productive learners." (K.S.A. 72-4161)

B. "INFANT AND TODDLER" means a child who has not attained the age of three years old.

C. “The board of every school district may: (1) Develop and operate a parent education program; (2) enter into cooperative or interlocal agreements with one or more other boards for the development and operation of a parent education program; (3) contract with private, non-profit corporations or associations or with any public or private agency or institution whether located within or outside the state for the provision of services which are appropriate to a parent education program; and (4) apply for a grant of state moneys to supplement amounts expended by the school district for development and operation of a parent education program. Approval by the state board of the program and the application is prerequisite to the award of a grant." (K.S.A. 72-4162)
PARENT EDUCATION PROGRAM FUND CONTINUED

D. "There is hereby established in every school district which has developed and is operating a parent education program for which grants are awarded under this act a fund which shall be called the parent education program fund, which fund shall consist of all moneys deposited therein or transferred thereto according to law. Notwithstanding any other provision of law, all moneys received by a school district from whatever source for a parent education program operated under this act shall be credited to the fund established by this section. Amounts deposited in the parent education program fund shall be used exclusively for the payment of expenses directly attributable to the program."  (K.S.A. 72-4165)

E. The board of any district may transfer moneys from its general fund to its parent education program fund. Expenditures for parent education programs shall not be made from the general fund of a district.  (K.S.A. 72-5167)

F. Listed below is the table which shows potential revenue that may/shall be deposited in the Parent Education Program Fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories:

*REIMBURSEMENTS* - Includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund.

If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under K.S.A. 72-5166 and is placed in one of the special funds authorized by that law.

PROFESSIONAL DEVELOPMENT FUND

A. "Professional development" means any planned learning opportunities provided to certificated personnel employed by a school district or other authorized educational agency for purposes of improving the performance of such personnel in already held or assigned positions."  (K.S.A. 72-2545)

B. Each board shall establish and maintain a professional development program for certificated personnel of the school district. Professional development programs shall meet standards and criteria set by the state board. Each board, in complying with the requirements in section B, may:
1. Develop policies and plans for the provision of professional development programs based on identified needs at the individual, building and district levels;

2. Provide for professional development programs at any time during the school year;

3. Contact with area professional development centers and authorized educational agencies in providing for professional development programs; and

4. Enter into cooperative or interlocal agreements with one or more other school districts in providing for professional development programs. (K.S.A. 72-2547)

C. In each school year, each board which has established and is maintaining an approved professional development program and which desires to secure state aid for part of the cost of maintaining the program shall certify and file an application with the state board for approval of the program. (K.S.A. 72-2548)

D. "There is hereby established in every school district a fund which shall be called the Professional Development Fund, which fund shall consist of all moneys deposited therein or transferred thereto according to law. All moneys received by the school district from whatever source for professional development programs established under this act shall be credited to the fund established by this section. The expenses of a school district directly attributable to professional development programs shall be paid from the Professional Development Fund." (K.S.A. 72-2552)

E. The board of any district may transfer moneys from its General Fund to its Professional Development Fund. (K.S.A. 7-25167)

F. Listed below is the table which shows potential revenue that may/shall be deposited in the Professional Development Fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

SPECIAL EDUCATION FUND

A. "(a) There is hereby established in every district a fund which shall be called the special education fund, which fund shall consist of all moneys deposited therein or transferred thereto according to law. Notwithstanding any other provision of law, all moneys received by the district from whatever source for special education shall be credited to the special education fund established by this section, except that: (1) amounts of payments received by a district under K.S.A. 72-3423, and amendments thereto, and amounts of grants, if any, received by a district under K.S.A. 72-3425, and amendments thereto, shall be deposited in the general fund of the district and transferred to the special education fund, and (2) moneys received by a district pursuant to lawful agreements made under K.S.A. 72-3412, and amendments thereto, shall be credited to the special fund established under the agreements. (K.S.A. 72-3422)

B. All transfers from the general fund to the special education fund are considered to be a general fund expenditure in the year the transfer is made. This transfer should be recorded as revenue in the special education fund. (K.S.A. 72-5167)

C. All expenditures attributable to approved special education programs shall be paid from the special education fund. These expenditures include but are not limited to salaries for supervisors, teachers, secretarial/clerical, textbooks, teaching supplies, transportation salaries, transportation, salaries for operation of plant, utilities/heat, replacement of equipment, social security, worker’s compensation, unemployment insurance, equipment, and tuition. (K.S.A. 72-3422)

D. Listed below is the table which shows potential revenue that may/shall be deposited in the special education fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

* REIMBURSEMENTS - Includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund. If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under K.S.A. 72-5166 and is placed in one of the special funds authorized by that law.
COOPERATIVE SPECIAL EDUCATION FUND (sponsoring districts only)

A. 1. “Each board, in order to comply with the requirements of this act shall have the authority to:

   a. Provide appropriate special education and related services for exceptional children within its schools.

   b. Provide for appropriate special education and related services in the home, in a hospital or in other facilities.

   c. Contract with another school district for special education and related services. Any such contract may provide for the payment of tuition and other costs by the contracting school district in which the child is enrolled.

   d. Enter into cooperative agreements with one or more other school districts for special education and related services.

   e. Contract with any private non profit corporation or any public or private institution, within or outside the state, which has proper special education or related services for exceptional children. Whenever an exceptional child is educated by a private non profit corporation or a public or private institution as provided under this paragraph, such child shall be considered a student of the school district contracting for such education to the same extent as other students of such school district for the purpose of determining entitlements and participation in all state, federal and other financial assistance or payments to such school district.

   f. Furnish transportation for exceptional children, whether such children are residents or non-residents of such school district, for the provision of special education or related services. In lieu of paying for transportation, the board of the school district in which an exceptional child resides may pay all or part of the cost of room and board for such exceptional child at the place where the special education or related services are provided.

2. Special education and related services which are provided for exceptional children shall meet standards and criteria set by the state board and shall be subject to approval by the state board.

3. Any contract entered into by a board under the provisions of this section shall be subject to change or termination by the legislature." (K.S.A. 72-3411)

B. “The boards of any two or more school districts within or outside the state may make and enter into agreements providing for cooperative operation and administration in providing special education and related services for exceptional children on a shared-cost basis, subject to the following:

1. An agreement shall be effective only after approval by the state board, which approval shall be granted if the special education services provided for in such agreement meet standards and criteria set by the state board.
2. a. The duration of an agreement shall be perpetual but the agreement may be partially or completely terminated as hereinafter provided.

b. Partial termination of an agreement made and entered into by the boards of three or more school districts may be accomplished only upon petition for withdrawal from the agreement made by a contracting school district to the other contracting school districts and approval by the state board of written consent to the petition by such other school districts or upon order of the state board after appeal to it by a school district from denial of consent to a petition for withdrawal and hearing thereon conducted by the state board. The state board shall consider all the testimony and evidence brought forth at the hearing and issue an order approving or disapproving withdrawal by the school district from the agreement.

c. Complete termination of an agreement made and entered into by the boards of two school districts may be accomplished upon approval by the state board of a joint petition to the state board for termination of the agreement by both of the contracting school districts after adoption of a resolution to that effect by each of the contracting school districts or upon petition for withdrawal from the agreement made by a contracting school district to the other contracting school district and approval by the state board of written consent to the petition by such other school district or upon the order of the state board after appeal to it by a school district from denial of consent to a petition for withdrawal and hearing thereon conducted by the state board. The state board shall consider all the testimony and evidence brought forth at the hearing and issue an order approving or disapproving withdrawal by the school district from the agreement.

d. Complete termination of an agreement made and entered into by the boards of three or more school districts may be accomplished only upon approval by the state board of a joint petition made to the state board for termination of the agreement by not less than 2/3 of the contracting school districts after adoption of a resolution to that effect by each of the contracting school districts seeking termination of the agreement. The state board shall consider the petition and approve or disapprove termination of the agreement.

e. The state board shall take such action in approving or disapproving the complete or partial termination of an agreement as the state board deems to be in the best interests of the involved school districts and of the state as a whole in the provision of special education services for exceptional children. Whenever the state board has disapproved the complete or partial termination of an agreement, no further action with respect to such agreement shall be considered or taken by the state board for a period of not less than three years.

3. An agreement shall designate the sponsoring school district and shall provide for a separate fund thereof, to which each contracting district shall pay the moneys due from it under the agreement. Any school district which is a party to an agreement may be designated the sponsoring district.
4. An agreement shall specify the method or methods to be employed for disposing of property upon partial or complete termination.

5. Within the limitations provided by law, an agreement may be changed or modified by mutual consent of the contracting school districts.

6. An agreement shall be subject to change or termination by the legislature.

   a. The provisions of this section apply to every agreement entered into under authority of this sections after the effective date of this act and to every agreement entered into under this section prior to the effective date of this act, and extant on the effective date of this act, regardless of any provisions in such agreement to the contrary. (K.S.A. 72-3412)

B. Unified school districts who contribute to the special education cooperative shall not transfer moneys from the general fund directly to the cooperative special education fund. They must be transferred from the general fund to the special education fund, and then to the special education cooperative fund.

C. All expenditures attributable to approved cooperative special education programs shall be paid from the cooperative special education fund. These expenditures include but are not limited to salaries for principals, supervisors, teachers, secretarial/clerical, textbooks, teacher supplies, salaries for transportation and operation of plant, utilities/heat, replacement of equipment, social security, worker’s compensation, unemployment insurance, and equipment.

D. Listed below is the table which shows potential revenue that may/shall be deposited in the cooperative special education fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

*REIMBURSEMENTS* - Includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund. If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under K.S.A. 72-5166 and is placed in one of the special funds authorized by that law.
SPECIAL LIABILITY EXPENSE FUND

A. There is hereby established in every school district a special liability expense fund. Moneys in such fund shall be used to:

1. Pay the cost of providing for its defense and the defense of employees pursuant to the Kansas tort claims act and for the payment of claims and other direct and indirect costs resulting from the implementation of such act; and

2. Pay judgments rendered against the district. (K.S.A. 72-1179)

B. The district shall credit to the special liability expense fund any moneys received by the district from any source which may be lawfully utilized for the purposes specified by this section including the proceeds of tax levies hereinafter authorized and provided. Any balance remaining in the special liability expense fund at the end of the budget year shall be carried forward into that fund for succeeding budget years. Such fund shall be subject to the provisions of K.S.A. 79-2925 through 79-2937, and amendments thereto. In making the budget of the district, the amounts credited to and the amount on hand in such special fund, and the amount expended therefrom, shall be included in the annual budget for the information of the residents of the district. Interest earned on the investment of moneys in any such fund shall be credited to that fund. (K.S.A. 72-1179)

C. Whenever the governing body of any school district determines that moneys from other sources will be insufficient to pay such costs, the governing body is hereby authorized to levy an annual tax upon all taxable tangible property within the district in an amount determined by the governing body to be necessary for such purpose and to pay a portion of the principal and interest on bonds issued by cities under the authority of K.S.A. 12-1774, and amendments thereto, for the financing of redevelopment projects upon property located in such school district. (K.S.A. 72-1179)

D. Revenue from such levy shall be deposited in the special liability expense fund of the school district. (K.S.A. 72-1179)

E. Listed below is the table which shows potential revenue that may/shall be deposited in the special liability expense fund. When filing reports within the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

SPECIAL RESERVE FUND

A. There is hereby established in every school district a special reserve fund. Moneys in such fund shall be used to:

1. pay claims, judgments, expenses and other purposes relating to health care services, disability income benefits and group life insurance benefits as authorized by K.S.A. 72-1893, and amendments thereto;

2. pay costs relating to uninsured losses; and

3. pay the cost of workers’ compensation insurance and workers’ compensation claims, awards, expenses and other purposes authorized by the workers’ compensation act.

B. Any balance remaining in the special reserve fund at the end of the budget year shall be carried forward into that reserve fund for succeeding budget years. Such fund shall not be subject to the provisions of K.S.A. 79-2925 through 79-2937, and amendments thereto. In preparing the budget of such school district, the amount credited to and the amount on hand in the special reserve fund, and the amount expended therefrom shall be included in the annual budget for the information of the residents of the school district. Interest earned on the investment of moneys in such fund shall be credited to such fund. (K.S.A. 72-1180)

SUMMER SCHOOL FUND

A. The board of education of any school district may: (1) Establish, operate and maintain a summer program for students; (2) enter into cooperative or interlocal agreements with one or more other boards of education for the establishment, operation and maintenance of a summer program for students; and (3) prescribe and collect fees for providing a summer program for students or provide such program without charge. (K.S.A. 72-3238)

B. Fees for providing a summer program for students shall be prescribed and collected only to recover the costs incurred as a result of and directly attributable to the establishment, operation and maintenance of the program. (K.S.A. 72-3238)

C. No school district may collect fees for providing a summer program for students required to attend such a program in accordance with the provisions of law, rules and regulations of the State Department of Education, policy of the board of education, or an individualized education plan developed for an exceptional child. (K.S.A. 72-3238)

D. There is hereby established in every district which establishes, operates and maintains a summer program a fund which shall be called the summer program fund, which fund shall consist of all moneys deposited therein or transferred thereto according to law. All moneys received by a district from fees collected under this section or from any other source for summer programs shall be credited to the summer program fund. The expenses of a district directly attributable to summer programs shall be paid from the summer program fund. (K.S.A. 72-3238)
E. As used in this section, the term "summer program" means a program which is established by the board of education of a school district and operated during the summer months for the purpose of giving remedial instruction to students or for the purpose of conducting special projects and activities designed to enrich and enhance the educational experience of students, or for both such purposes. *(K.S.A. 72-3238)*

F. Listed below is the table which shows potential revenue that may/shall be deposited in the summer program fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

*REIMBURSEMENTS* - Includes those revenues which are received for materials and supplies purchased by students which were paid out of this fund. This would also include reimbursement for items such as insurance premium payments if the cost(s) were paid from that fund. If monies are received after the close of a fiscal year for an expense that was paid in a previous year, then the money is considered miscellaneous revenue under *K.S.A. 72-5166* and is placed in one of the special funds authorized by that law.
TEXTBOOK AND STUDENT MATERIALS REVOLVING FUND

A. 1. There is hereby established in every school district a textbook and student materials revolving fund. Moneys in such fund shall be used to:
   a. Purchase any items designated in K.S.A. 72-3352, and amendments thereto;
   b. pay the cost of materials or other items used in curricular, extracurricular or other school-related activities; and
   c. purchase textbooks as authorized by K.S.A. 72-3346, and amendments thereto. (K.S.A. 72-3355)

2. Any balance remaining at the end of the budget year shall be carried forward into that fund for the succeeding years. Such fund shall not be subject to the provisions of K.S.A. 79-2925 through 79-2937, and amendments thereto. In preparing the budget of such school district, the amounts credited to and the amount on hand in the textbook and student materials revolving fund, and the amount expended therefrom shall be included in the annual budget for the information of the residents of the school district. (K.S.A. 72-3355)

B. The board of education of any school district may purchase, for the use of the students of the district, any of the following:
   1. Workbooks and materials which are supplemental to textbooks used in specific sources;
   2. specialized clothing and towels for use in physical education, shop and science courses;
   3. musical instruments for use in band or orchestra;
   4. instructional materials for the use of technology in specific courses; and
   5. materials or supplies which are consumed in specific courses or projects or in which the student may retain ownership upon completion of such courses or projects. (K.S.A. 72-3352)

C. 1. The board of education may prescribe, assess and collect fees and supplemental charges for:
   a. the use, rental or purchase by students of any of the items designated in K.S.A. 72-3352, and amendments thereto, to offset, in part or in total, the expense of purchasing such items; and
   b. participation in activities, or the use of facilities, materials and equipment which participation or use is not mandatory but optional to students, whether incidental to curricular, extracurricular or other school-related activities.

2. Moneys received by a board of education under this section shall be deposited in the textbook and student materials revolving fund. (K.S.A. 72-3353)
VIRTUAL EDUCATION FUND

A. There is hereby established in every school district a fund which shall be called the virtual school fund, which fund shall consist of all moneys deposited therein or transferred thereto according to law. The expenses of a district directly attributable to virtual schools offered by a school district shall be paid from the virtual school fund. The cost of an advance placement course provided to a student by a virtual school shall be paid by the virtual school. (K.S.A. 72-3715)

B. Any balance remaining in the virtual school fund at the end of the budget year shall be carried forward into the virtual school fund for succeeding budget years. Such fund shall not be subject to the provisions of K.S.A. 79-2925 through 79-2937, and amendments thereto. (K.S.A. 72-3715)

C. In preparing the budget of such school district, the amounts credited to and the amount on hand in the virtual school fund, and the amount expended therefrom shall be included in the annual budget for the information of the residents of the school district. Interest earned on the investment of moneys in any such fund shall be credited to that fund. (K.S.A. 72-3715)

D. The state board of education shall determine the amount of virtual school state aid a school district is to receive as follows:

1. Multiply the total number of full-time students, excluding those over 19 years of age, by $5,000.

2. Multiply the total full-time equivalent enrollment of part-time students, excluding those over 19 years of age, by $1,700.

3. Multiply the number of one-hour credit courses students over 19 years of age have passed, not to exceed six credit courses per student, by $709.

4. Add the amounts calculated above. The resulting sum is the amount of virtual school state aid the school district shall receive.

E. Listed below is the table which shows potential revenue that may/shall be deposited in the virtual education fund. When filing reports with the State of Kansas and the State Department of Education, all revenue should be identified in the following categories.

OTHER RELATED BUDGET ISSUES

A. FIXED ASSET ACCOUNTING (GENERALLY ACCEPTED ACCOUNTING PRINCIPLES) WAIVER
Municipalities, including unified school districts, are authorized by K.S.A. 75-1120a to request a waiver from the Generally Accepted Accounting Principles (including fixed asset accounting). The governing body must pass a resolution annually. Waiver procedures and a sample resolution are available on the Municipal Services website: https://admin.ks.gov/offices/chief-financial-officer/municipal-services

B. REPUBLISHING FUNDS
Unified school districts are authorized to amend their current budgets by complying with the same publication notice and public hearing requirements as is required for the adoption of the original budget. Any proposed increase in expenditures shall be balanced by previously unbudgeted increases in revenue other than ad valorem property taxes. (K.S.A. 79-2929 and 79-2929a)

C. GIFTS AND GRANTS FUND
This provision shall be construed, but not by way of limitation, as being particularly applicable to powers and authorities with respect to bequests, legacies, trusts, and property or interest in property of any kind whatsoever. Any bequest, legacy, trust or donation may be deposited in a separate fund of the district and if placed in such fund the same shall be exempt from budget law requirements and shall be used in compliance with the wishes of the donor as nearly as may be. (K.S.A. 72-1142)

D. MEDICAID - Funds received by school districts under the school district administrative claiming program funded through Medicaid.
A number of districts have completed all the paperwork to participate in the Kansas School District Administrative Claiming Program. Monies received from this program are federal dollars and are considered as a reimbursement to the General Fund. In other words, monies under this program would be deposited in the General Fund but can be spent above the Legal Maximum General Fund Budget if funds are received during the same year. If funds are received from a previous year, they are treated as miscellaneous revenue and deposited in a special fund authorized by K.S.A. 72-5166.

E. TUITION REIMBURSEMENT FUND
The secretary of social and rehabilitation services shall pay tuition to the board of education of any school district for children in any institution under the jurisdiction of the secretary who attend any of the schools of such school district. The amount of tuition shall be determined on the basis of the average operating cost per student of the school district, less the proportionate amount of state aid received by such school district as determined by the state board of education.

There is hereby established in every district a fund which shall be called the tuition reimbursement fund, which fund shall consist of all moneys deposited therein or transferred thereto according to law. The expenses of a district attributable to the costs of providing educational services to a child in an institution under the jurisdiction of the secretary who attends the school shall be paid from the tuition reimbursement fund. (K.S.A. 72-1172)
Much of this document is based on the Association of School Business Officials International (Reston, VA), Guidelines to Student Activity Fund Accounting. We express our gratitude to the Association for allowing us to use its material.

The nature of activity funds makes them particularly vulnerable to misuse and fraud. For this reason this document focuses on policies and procedures a school district can adopt to improve controls over these funds. Except for certain disbursement procedures and reporting these funds in the district’s financial statements, these guidelines are not mandated, but are suggested procedures with two objectives in mind: 1) to safeguard activity fund moneys, and 2) to provide the USD with an efficient and effective means to administer activity funds.

Many USDs will find that these guidelines constitute minimum controls they want to adopt. To adopt anything less would likely increase the risk of misuse or fraud. Therefore, before discounting any of these suggested policies and procedures, you should consult your auditor. Your auditor cannot only explain the importance of these internal controls, but can also assist you in implementing them.

Application and Effective Date
These guidelines apply to all unified school districts in Kansas and are effective beginning July 1, 1995.

Exemption from Guidelines
K.S.A. 72-1178, includes the following provisions:

1. School district boards may authorize, by resolution, school activity funds to account for “activities” (athletics, music, forensics, dramatics, one-time special projects, etc.), and school district employees shall account for these school activity funds. The uniform payment of claims requirements of K.S.A. 12-105b shall not apply to school activity funds established by such resolutions.

2. Moneys from sale of admissions for “activities” (athletics, music, forensics, dramatics, one-time special projects, etc.), shall be credited to activity funds following policies and procedures of the school district board, but these moneys are not subject to K.S.A. 72-1136.

Thus, a USD which uses its discretionary authority to create such activity funds under the provisions of K.S.A. 72-1178 appears to be exempt from the provisions of these guidelines for such funds. Instead, such activity funds are to be handled, as noted above, in accordance with policies and procedures of the school district board. All other activity funds should follow these guidelines.

Summary
Activity funds are accounting funds, similar to the general fund and special revenue funds. They are created for the purpose of accounting for moneys related to co-curricular activities such as student organizations and athletics. Activity funds can be divided into two categories based on who the money belongs to: 1) student activity funds (money belongs to the students) and 2) district activity funds (money belongs to the school district).
ACTIVITY FUNDS – Summary

The collection, disbursement, and accounting for activity fund moneys is usually centralized at the building level, with the building principal designated as the activity fund supervisor. The principal’s secretary normally acts as activity fund bookkeeper.

In addition to handling activity fund moneys, the activity fund supervisor and bookkeeper may also account for non-activity fund moneys such as fee collections, sales tax, and petty cash. These non-activity fund moneys can be accounted for with activity fund moneys in the same checking account.

Thus, the activity fund supervisor may be responsible for several different types of funds at the building level: 1) student activity funds which belong to the students, 2) district activity funds which belong to the district, and 3) non-activity funds which normally belong to the district. Student activity funds are usually collected and disbursed at the building level. District funds, on the other hand, must be disbursed at the district level. This means that district moneys collected at the building level must be transferred to the district treasurer.

Petty cash at the building level can be treated much like an activity fund in the same checking account. However, a separate checking account for petty cash may be necessary if using different check signers.

Introduction

A. What are activity funds? Activity funds are unique to school districts.

1. Activity funds are accounting funds just like a general fund or a special revenue fund.

2. Each activity fund is an independent accounting entity, its purpose being to segregate its financial activity from that of other funds because of special restrictions or limitations on how its money can be spent.

3. They account for moneys related to co-curricular activities, which are activities outside the classroom which complement the curriculum. Co-curricular activities include:
   i. those of student clubs and organizations, and
   ii. district-administered activities such as sports events, drama productions, and music concerts.

B. Two types of activity funds - 1) student activity funds, and 2) district activity funds. The distinction between these two types is in who the money belongs to. To put it another way, who controls how the money is spent? As the name implies, student activity fund moneys belong to the students. Similarly, district activity fund moneys belong to the school district.

1. Student Activity Funds
   a. Student activity funds consist of those student activities that revolve around a student organization.
   b. The students in the organization not only participate in the activities of the organization, but also are involved in the management of the organization’s activities.
   c. Disbursement of the organization’s moneys is subject to the approval of the student organization (and its sponsor), and not the school’s board of education.
   d. Only student organizations should be classified as a student activity fund. A listing of typical student activity funds is shown in Exhibit 1 at the end of this publication.
ACTIVITY FUNDS - Types of Activity Funds

2. District Activity Funds
   a. District activity funds consist of co-curricular activities that have student participation in the activity, but are administered by the district.
   b. Approval for disbursement of district activity fund moneys rests with the school’s board of education, not the students. In other words, the district controls how district activity fund moneys are spent.
   c. Except for those district activity funds created under K.S.A. 72-1178, these funds must be treated like any other district fund.
      i. They should be deposited in the district’s bank account by the district treasurer and,
      ii. expended in accordance with the Uniform Payment of Claims Act.
   d. See Exhibit 2 for a listing of typical district activity funds at the end of this publication.

C. All activity funds must be reported in the school district’s financial statements.
   1. This includes student activity funds, even though such funds do not “belong” to the district. Student activity funds should be reported in the district’s financial statements as agency type funds.
   2. District activity funds should be reported in one or more special revenue funds.

A. Controls for Establishing and Maintaining Activity Funds

To establish and maintain proper control over activity funds, one should first recognize the general lines of authority over such funds. Then, the local board of education should formally adopt activity fund policies. From these policies, more specific internal controls should be created at both the district and building levels.

1. Lines of Authority for Activity Funds - The following illustrates the lines of authority that most school districts should follow for activity funds:
   a. Board of Education –
      i. The board of education should adopt policies to govern the establishment and operations of all activity funds.
   b. Superintendent -
      i. The superintendent is responsible for administering all board policies.
   c. District Treasurer -
      i. The district treasurer, being the fiscal officer of the school district, has overall responsibility for the accounting and reporting of all activity funds to the board.
      ii. The district treasurer is also responsible for implementation and enforcement of required internal control procedures.
      iii. The district treasurer may delegate custodial and other functions to other district employees.
Controls for Establishing and Maintaining Activity Funds

d. Principal - The principal is normally designated as the activity fund “supervisor” for that building. As supervisor of the activity fund for the building, the principal has overall responsibility for the operation of the activity funds, which includes:

i. collection and deposit of activity fund moneys,

ii. approving disbursements of activity fund moneys, and

iii. bookkeeping responsibilities.

iv. Depending on the circumstances, the principal may delegate all or some of their supervisory responsibilities. For example, the bookkeeping function may be delegated to an office worker such as the principal’s secretary. And the approval of disbursements and signing of checks may be delegated to an assistant principal.

e. Sponsors (Advisors) -

i. The sponsor or advisor is responsible for supervising the activities of the student organization or program and other duties assigned by proper administrative authority. The sponsor or advisor may be a teacher or an administrative employee of the district.

B. Suggested school board policies to establish and operate activity funds

1. Suggested school board policies for the establishment and operation of activity funds. In no way are these policies intended to be all-inclusive.

a. All activity funds should be approved by the board of education or its designee.

i. Application for creation of a student organization should be accompanied by a statement of the organization’s purpose and proposed fund-raising activities.

ii. The name of the student organization should, insofar as possible, indicate its purpose.

iii. Acronyms should be avoided as much as possible in naming the organization.

b. All activity funds should be operated in accordance with sound internal control procedures and forms prescribed by the district treasurer.

c. All fund-raising activities for activity funds should be approved in advance by the superintendent or designee.

d. Activity fund moneys should, insofar as possible, be expended in such a way as to benefit those students who have contributed to the accumulation of such moneys.

e. Each activity fund must comply with the cash-basis law. That is, no commitments or indebtedness should be incurred unless there is available cash in the fund.

f. All activity funds must be audited along with other funds of the district.

g. The superintendent should designate one or more activity fund supervisors. Generally, there should be no more than one activity fund supervisor at each building or attendance center. More or less supervisors can be designated, depending on the needs of the district.

h. Each activity fund supervisor should maintain a checking account and/or petty cash account at the attendance center, depending on the needs of the center. Using more than one checking account per attendance center should be discouraged.
Suggested school board policies to establish and operate activity funds

i. Activity fund moneys should not be used for any purpose that represents an accommodation, loan, or credit to school employees or other persons.

C. Segregation of Duties Related to Activity Funds
Proper segregation of duties should be implemented whenever possible.

1. Three critical duties that should be separated for internal control purposes:
   a. signing checks
   b. maintaining fund accounting records
   c. reconciling the bank statement

2. Activity fund bookkeeper tasks related to activity funds include:
   a. collection of activity fund moneys,
   b. preparation of the deposit slip and deposit of the moneys,
   c. maintenance of the fund accounting records, and
   d. preparation of the checks for disbursement.

3 It is best to require two signatures on the checks:
   a. The principal of the attendance center should normally be the primary check signer.
   b. The second check signer preferably should be someone other than the activity fund bookkeeper.

4. Reconciling the bank statement: If possible, someone other than the bookkeeper should reconcile the bank statement to the fund accounting records. At a minimum, however, the principal should review the bank reconciliation.

D. Activity Fund Cash Collections - Internal Accounting Controls

1. Because substantial amounts of activity fund cash receipts are collected in the form of currency, as opposed to checks, particular emphasis should be placed on internal control procedures designed to safeguard moneys collected.

   Particularly important is providing an audit trail that creates documentary (physical) evidence for each step in the flow of transactions. For example, all moneys collected should be substantiated by pre-numbered receipts, cash register receipts which show cumulative readings, pre-numbered tickets, or other auditable, checkable records.

   The following suggestions should be considered:
   a. Procedures should be in writing and distributed to all activity fund supervisors and sponsors.
   b. Generally, all forms, receipts, and tickets should be pre-numbered.
   c. A perpetual inventory should be maintained on pre-numbered forms, receipts, and tickets.
   d. Where tickets are used, ticket reports and unsold tickets should be available for audit.
Activity Fund Cash Collections - Internal Accounting Controls

   e. Pre-numbered forms should not be printed in the school printing office.
   f. The student organization’s sponsor should keep records of cash collections by source.
   g. The person who collects cash for an event should be changed frequently. For example, you should rotate persons used as cash collection agents for sporting events, concessions, and vending machines. To the extent possible, DO NOT ALLOW the same person to collect cash for the same event or purpose continuously.
   h. Generally for gate receipts, such as cash collected at sporting events, the cashier should sell tickets which are then collected by a second person. This two-person arrangement may not be feasible for low-attendance events.
   i. For concession stands, it is preferable to use one cashier. This procedure will normally speed up concession operations and reduce cash handling problems. This arrangement may not be feasible depending on the volume of activity and physical arrangement of the stand.
   j. No collections should be turned over to a cashier, such as the activity fund bookkeeper, without receiving a pre-numbered receipt.
   k. The activity fund bookkeeper should use pre-numbered, bound receipts for all currency or checks received. One copy of each receipt should be retained in the receipt book.
   l. The activity fund bookkeeper should deposit all receipts intact. This means that all receipts should be deposited in the form they are collected. They should not be used for making change or disbursements.
   m. The activity fund bookkeeper should deposit all receipts as often as possible, preferably on a daily basis. Receipts not deposited should be kept under lock with limited access.

E. Disbursement Procedures for Student Activity Funds

   1. The activity fund supervisor will be handling two types of funds at the building level:
      a. Student activity funds which contain moneys belonging to the students.
         i. Student activity funds normally stay at the building level.
         ii. Disbursement is controlled at the building level.
         iii. Disbursement of student activity funds requires approval of the student organization’s sponsor and activity fund supervisor (principal).
      b. District activity funds contain moneys belonging to the district.
         i. District activity funds will be transferred to the district treasurer, usually by means of a check being written on the activity fund checking account.
         ii. District moneys collected at the building level (i.e., moneys belonging to the district as opposed to the students) must by law be transferred to, and deposited by, the district treasurer (unless exempt under K.S.A. 72-1178) and a policy approved by your local board of education).
         iii. Disbursement of district activity funds requires the approval of the governing body (local school board).
Disbursement Procedures for Student Activity Funds

2. Generally speaking, the disbursement procedures for student activity funds at the building level should parallel the disbursement procedures at the district level as closely as possible. The following procedures are recommended specifically for student activity funds. You may wish to add additional procedures, or change these procedures, depending on your situation.

a. Student activity fund cash disbursements should be first approved by the student organization and then by the organization’s sponsor. It is a good idea to also require the approval of the activity fund supervisor (principal).

b. The district may wish to establish a dollar limit for student activity fund disbursements, any disbursement in excess of the limit requiring approval at the district level by either the superintendent or the school board.

c. Student activity fund disbursements should be substantiated by a voucher signed by the organization’s sponsor and/or the principal. A voucher system similar to that used at the district level would be appropriate.

d. All disbursements should be made by a pre-numbered check. The checks normally will be prepared by the active fund bookkeeper and signed by the activity fund supervisor (principal).

e. Certain “small-dollar” purchases may not require the formal use of a purchase order or voucher. However, this does not mean that approval of the disbursement and related documentation is eliminated. Assuming a formal purchase order/voucher form is in use, a form similar to the voucher should be completed at the time the activity fund bookkeeper writes the check for the disbursement. This documentation of the disbursement should then be filed in the same manner as the purchase order/voucher forms. This alternative voucher form should show:

i. who requested the purchase,
ii. what the purchase was for,
iii. which activity fund is to be charged,
iv. the amount, and
v. the check number.

f. The activity fund bookkeeper should prepare each month a report showing the financial activity for each fund the bookkeeper is responsible for. This report should be titled “Activity Fund Monthly Report of Cash Receipts and Disbursements” and have the following column headings:

i. beginning cash balance (this figure should agree with ending cash balance on prior month's report)
ii. cash receipts,
iii. cash disbursements,
iv. ending cash balance,
v. unpaid purchase orders, and
vi. unencumbered cash.
Disbursement Procedures for Student Activity Funds

If unpaid purchase orders exceed the ending cash balance for any fund, a cash basis law violation has occurred. This report should be reviewed by the activity fund supervisor (principal) and submitted to the superintendent or designee on a timely basis.

g. The activity fund bookkeeper should prepare a financial report for each student organization showing, at a minimum, the organization’s cash receipts and disbursements. Preferably these reports should be prepared monthly. The reports should be reviewed by the activity fund supervisor (principal) and submitted to the student organization’s sponsor.

h. Each student organization sponsor should compare the report prepared by the activity fund bookkeeper with the sponsor’s records. Any discrepancies should be resolved immediately.

Non-Activity Funds: Fee Funds, Sales Tax, Revolving Funds, Petty Cash

Even though reference is made to the “activity fund” supervisor and the “activity fund” bookkeeper, this is not to say that non-activity funds must be handled differently. More often than not, moneys will be collected at the building level which do not fit into the “activity fund” category. Some of these moneys are more closely identified to curricular activities rather than co-curricular activities (remember that activity funds are related to co-curricular activities). Thus, by strict definition these would not be considered activity funds.

Like activity funds being collected at the building level, non-activity fund moneys must also be accounted for at the building level, even if only temporarily until the money can be transferred to the district treasurer. And because of the need to deposit all moneys collected intact and on a timely basis, it may be necessary for the activity fund bookkeeper to include non-activity fund moneys along with activity funds in the same checking account. There is no problem with doing this. Generally, it will be easier to use the same checking account for all moneys collected at the building level, rather than creating separate checking accounts for specific types of moneys. But the same internal control procedures should be observed for all moneys collected.

A. Non-activity funds at the building level include:
   1. fee funds,
   2. sales tax moneys,
   3. revolving funds, and
   4. petty cash.

All of these can be treated as separate “accounting funds” by the activity fund bookkeeper. But because of their special nature, each is discussed separately below.

1. Fee Funds
   a. School districts usually have numerous fee funds such as those shown in Exhibit 3.
   b. These funds are not presented in the district’s financial statements like the general, special revenue, and other district funds. They are merely vehicles to accommodate the collection of fees and user charges.
   c. Fees collected by teachers and administrative employees of the district must be credited to a specific district fund. The most common one is the Textbook and Student Materials Revolving Fund.
Non-Activity Funds

Fee funds continued

i. Fees collected are given directly to the district treasurer, and the district treasurer will deposit the moneys in the appropriate district fund immediately.

d. Often, however, it is not feasible on a daily basis to give the fees collected at the building level directly to the district treasurer. Therefore, the fees must be deposited temporarily in the activity fund checking account for safekeeping.

e. Periodically (at least at the end of each month), the activity fund bookkeeper should write a check (to be signed by the activity fund supervisor) to the district treasurer and submit, along with the check, a statement which breaks down the check into the amounts to be credited to one or more district funds.

f. The district treasurer then will deposit the check into the district checking account and credit the appropriate district funds, such as the Textbook and Student Materials Revolving Fund.

g. These fee funds are “receipt only” funds. Disbursements should not be made from them except by the activity fund bookkeeper to transfer the money to the district treasurer, who will then deposit the money into the district’s checking account.

h. It is not necessary for the activity fund bookkeeper to create a separate checking account for fee funds. Fee receipts can be deposited into the same checking account that is used for activity funds, but they should be transferred out at the end of each month. That is, a check for the total amount of fee receipts collected during the month should be written to the district treasurer on the last day of the month. This is especially important at year-end to ensure that the moneys are reflected in the appropriate district fund on the district’s books at the end of the fiscal year.

2. Sales Tax
It is possible that sales tax moneys will be collected at the building level for co-curricular related activities. For districts that have obtained multiple sales tax numbers, it may be more practical to report and remit sales tax to the Department of Revenue from the building level for some numbers and from the district level for other numbers. The Department of Revenue encourages entities to consolidate, to the extent possible, this reporting and remitting.

3. Revolving Funds
Some school districts currently use revolving funds to accommodate instruction in vocational education classes such as shop, automotive, and body classes. Use of such funds is especially common at vocational schools. These revolving funds should be abolished at school districts (but not vocational schools) and replaced with petty cash. If miscellaneous receipts cannot be deposited with the district treasurer on a timely basis, a fee fund should be created for such receipts.

4. Petty Cash
NOTE: Gate receipts funds established under the authority of K.S.A. 72-1178 are not subject to these activity fund guidelines. Therefore, the following discussion related to replacing gate receipts funds with petty cash accounts would not apply. But the discussion does apply to all gate receipts funds not established under the authority of K.S.A. 72-1178.
Petty Cash Guidelines and Recommendations

A. What is Petty Cash?

1. Petty cash is a source of cash used for making small disbursements.
2. Depending on need, petty cash may consist of currency on hand (say, $100), or moneys in a checking account (say, $1,500).
   a. If the purpose of the petty cash is to avoid writing checks for small amounts, a small amount of currency on hand is sufficient.
   b. If, however, the purpose is to expedite certain disbursements, a larger amount in a checking account may be needed.
3. Both types of petty cash are commonly used by school districts.
4. The use of petty cash is authorized by *K.S.A. 72-1177* for the purpose of making emergency type disbursements.

B. Who uses petty cash accounts?

1. Depending on your needs, you may wish to establish petty cash accounts for some or all activity fund bookkeepers.
2. In addition, the athletic director or certain student organization “sponsors” may need to have petty cash.
3. Petty cash is normally not needed for student activity funds. Because student activity funds are controlled at the building level, even emergency type disbursements can be made with relative ease.
4. For certain disbursements chargeable to district funds, petty cash is often necessary because it is not feasible to gain governing body approval in advance.
   a. For example, petty cash is appropriate to pay referees who work at an athletic event.

How to Create a Petty Cash Account

C. *K.S.A. 72-1177* specifies how petty cash accounts are established.

1. Each petty cash account must be approved by a resolution of the local school board, and cannot exceed $1,500.
2. In authorizing the petty cash, the board should clearly state:
   a. the amount of petty cash authorized for this purpose,
   b. what types of disbursements can be made in advance, and
   c. a dollar limit of such disbursements, above which board approval is required.
3. Usually petty cash will be approved for more than one type of disbursement.
4. The petty cash account should normally be maintained by the activity fund bookkeeper, along with activity fund moneys.
Petty Cash Guidelines and Recommendations

D. To create the petty cash account:

1. The district treasurer normally will write a check to the activity fund bookkeeper (i.e., the petty cash custodian), who will then deposit the check into the activity fund checking account along with activity fund moneys.

2. The activity fund bookkeeper will track the receipts and disbursements of the petty cash account just as if it were an activity fund.

3. Cash receipts posted to the petty cash account will always be checks written to the bookkeeper by the district treasurer to replenish the petty cash.

Creation of Petty Cash Account Does Not Change Cash Balance of General Fund

E. Even though a check is written on the district treasurer’s checking account to establish the petty cash account, this check is not a disbursement that reduces the cash balance of the general fund. Charges to the general, or any other fund, are not appropriate until the petty cash is replenished.

1. So if you don’t reduce the cash balance of the general fund when you create the petty cash account, what do you do?
   a. Move a portion of the district’s cash from one location (the district level checking account) to another location (the petty cash account). From an accounting, or book entry, standpoint, creating a petty cash account is no different than moving money from a checking account to a savings account, or writing a check to invest in a CD. These transactions have no impact on any book fund (general fund, bond and interest fund, etc.) balances.

2. If you don’t record a disbursement in the district’s accounting records, how then do you reconcile the bank statement to the district’s accounting records when the checks per the bank will not equal the disbursements recorded in the books?
   a. The answer is that you will have a reconciling item for the transaction. The bank’s records and the district’s records will almost always disagree because of legitimate reconciling items such as deposits in transit, outstanding checks, the bank’s charging and redepositing of NSF checks, etc.
   b. Setting up a petty cash account will also set up a recurring reconciliation item for the amount of the petty cash account.

Petty Cash Account Is Not Tied Into the General Fund.

F. At the time a petty cash account is established, the initial “seed” money comes from idle funds.

1. The creation of the petty cash account basically involves transferring the money from one checking account (i.e., the district treasurer’s checking account) to another checking account (i.e., the activity fund bookkeeper’s account).

2. It is not an advance from the general fund, or any other fund. It is not tied to the general fund any more than a savings account is tied to the capital outlay fund, or a CD is tied to the bond and interest fund.
Petty Cash Guidelines and Recommendations

Petty Cash Account Is Not a Fund

G. A petty cash account is not an accounting fund, in the sense that the general fund is an accounting fund, even though it is often referred to as a petty cash fund. But it is not a fund.

1. Petty cash represents cash available to the petty cash custodian for making disbursements, very much like the district checking account is used by the district treasurer for making disbursements. Petty cash is no more an accounting fund than is the district checking account.

2. This may sound confusing because at the building level, petty cash is treated just like a student organization fund.
   a. From the viewpoint of the activity fund bookkeeper, petty cash is another “fund” that must be segregated for accounting purposes.
   b. However, from the viewpoint of the district, the petty cash “fund” maintained by the bookkeeper is not a fund. Rather, it is a part of the district’s cash balance.

How to Report Petty Cash in the District’s Financial Statements

H. Reporting Petty Cash in the district’s financial statements

1. Petty cash is NEVER reported as an accounting fund anywhere on the district’s financial statements.

2. Instead, it should be reported as a source of the district’s idle funds, or cash, along with other sources of cash like the district checking account, a savings account, and investments.

3. If the petty cash account is closed out at year-end, the related moneys will simply be deposited into the district’s checking account.
   a. Just as no fund balances were changed when the petty cash account was created, the same can be said when the petty cash account is closed out. No entries are needed in the accounting system which would change the balance of any accounting fund.

Petty Cash Policy Recommendations

I. If you decide to use one or more petty cash accounts, you should adhere to the following special rules:

1. The petty cash account should be approved by the district’s board of education in an amount and for the purposes determined by the board. A limit should be placed on individual petty cash disbursements, above which the disbursement must be approved by the board.

2. Any petty cash account should be financed by the district’s idle funds. The district treasurer should write a check for the amount of the petty cash account payable to the petty cash custodian. There is no change in the balance in any fund. Transferring cash from the district treasurer to a petty cash custodian does not represent an expenditure from any fund. It is simply moving cash from one source to another, much like moving cash from the checking account to a savings account.
Petty Cash Guidelines and Recommendations

3. After the petty cash account has been established, all reimbursements to it are made from the respective funds that should be charged for the petty cash disbursement. That is, charges are made to the respective accounting funds, such as the general fund, when the petty cash is replenished.

4. The petty cash should be in the sole custody of a single employee, the petty cash custodian. Generally, the activity fund bookkeeper should act as petty cash custodian.
   a. If the petty cash account requires a checking account, it should be incorporated into the activity fund bookkeeper’s checking account. That is, the petty cash should be deposited into the activity fund checking account along with activity fund moneys.
   b. There is no need for a separate checking account unless different check signers are needed for the petty cash disbursements.

5. The petty cash custodian is responsible to see that all disbursements are properly accounted for, usually by means of receipts signed by the person receiving the cash.
   a. The receipt should document what the disbursement was for and which fund should be charged.
   b. A charge is made to the appropriate fund at the time the petty cash is replenished.

6. Petty cash should be replenished to its original cash position, usually at the end of each month or more often if needed.
   a. To replenish the petty cash account, a check is issued to the petty cash custodian in the amount of the sum of the “receipts” presented by the petty cash custodian.
   b. That check will usually be issued by the district treasurer for charges to district funds.
   c. At the time the check is written to reimburse the petty cash custodian, the district treasurer will make entries to record the related disbursements similar to this:

<table>
<thead>
<tr>
<th>Dr.</th>
<th>Cr.</th>
</tr>
</thead>
<tbody>
<tr>
<td>21600 - Gen Fund, Supp Serv, Supplies</td>
<td>47.45</td>
</tr>
<tr>
<td>23530 - Gen Fund, Gen Adm, Commun</td>
<td>19.20</td>
</tr>
<tr>
<td>24300 - Gen Fund, Sch Adm, Purch Prof Serv</td>
<td>125.00</td>
</tr>
<tr>
<td>26400 - Gen Fund, Op &amp; Maint, Rep Bldgs</td>
<td>32.15</td>
</tr>
<tr>
<td>Cash Account</td>
<td>223.80*</td>
</tr>
</tbody>
</table>

   To replenish Lincoln Building Petty Cash Account to authorize $1,200 level at month end.

   * - Check made payable to “Lincoln Building Petty Cash Account”
   d. The amount of the replenishing check should always be for the exact amount of the disbursements previously made from the petty cash account.

7. You should close out the petty cash accounts at the end of the school year, and “physically” return the money to the district treasurer. At the beginning of the next school year, the same petty cash accounts should be re-established without formal board approval.

**IMPORTANT:** This procedure is recommended for internal control purposes. If the general fund cash balance was reduced when the petty cash account was created, this procedure is critically important to ensure the general fund unencumbered cash balance is correctly reported at year-end.
Petty Cash Guidelines and Recommendations

8. Petty cash should never be reported in the financial statements either as a district fund or a student activity fund. It is nothing more than a source of cash, just like the moneys in the district’s checking or savings account.

Classification of Activity Funds in Financial Statements

J. All activity fund moneys, as well as non-activity fund moneys, should be reflected in the school district’s financial statements. Just because such funds may be accounted for at the building level does not mean that they need not be shown in the district’s statements. While these moneys are treated like individual funds by the activity fund bookkeeper at the building level, they are treated very differently for financial reporting at the district level.

1. Student Activity Funds
   a. Student activity funds should be classified as agency funds in the school’s financial statements.
   b. The school (i.e., the activity fund supervisor) acts as custodian for student organizations’ moneys, but has no say in how the money is spent.
   c. The school acts as an agent for the various student organizations for which it holds money.

2. District Activity Funds
   a. District activity funds generally are classified as special revenue funds in the school’s financial statements.
   b. These funds are district funds, much like other special revenue funds, and require approval of the board of education to be spent.

3. Fee Funds
   a. Fee funds should never be shown as funds in the district’s financial statements.
   b. All fee fund moneys should be transferred to the district treasurer at year-end for the purpose of recording the amounts as revenues in the appropriate district fund.
   c. If this transfer is not made at year-end, the district’s financial statements should be presented as if the transfer had been made.
   d. Most fees are provided in K.S.A. 72-3346 and 72-3352 and 72-3353, and are deposited in the Textbook and Student Materials Revolving Fund at the district level.

4. Petty Cash
   a. Petty cash should be replenished at year-end to make sure that the related disbursements are properly reflected in the district’s financial statements.
   b. If, after being replenished, the petty cash funds are not transferred back to the district treasurer, the moneys should be shown on the financial statements as another source of cash, just like the district checking account or a savings account.
Exhibit 1 - Student Activity Funds - authorized student clubs and organizations

List of Authorized Student Activity Funds
(not intended to be all-inclusive)

Art Club  Drill Team  Lettermen’s Club
Auto Club  Electronics Club  Marching Band
Camera Club  Foreign Language Club  Math Club
Cheerleaders Club  Future Farmers of America  National Honor Society
Chorus Club  FACS Club  Pep Club
Class of 2019  Honor Piano Club  Pep Band
Class of 2020  Humanities Club  S.A.D.D.
Class of 2021  Industrial Arts Club  Singers Group Club
Class of 2022  International Club  Speech Club
Computer Club  Journalism Club  Student Council
Debate Club  Key Club  Student Athletic Booster Club
Drama Club

Exhibit 2 - District Activity Funds

List of Authorized District Activity Funds
(not intended to be all-inclusive)

Lyceums
Band Uniforms
Book Fair
Special Field Trips

Exhibit 3 – Authorized Fee Funds for collection of fees and user charges

Information on next page
Exhibit 3 – Authorized Fee Funds for collection of fees and user charges
(not intended to be all-inclusive)

These fees are generally required to be deposited in the Textbook and Student Materials Revolving Fund under K.S.A. 72-3353.

1. Class Materials Charges - Use for the collection of fees for materials and supplies used in the classroom. This fee fund should not be used for charges for workbooks and materials which are supplemental to textbooks (these charges should be included in the Textbook and Student Materials Revolving Fund). A separate student materials revolving fund is authorized at the district level and may be used for charges of this type.

2. Food Service Charges (Deposit in Food Service Fund at district level) - Food service collections might have to be broken down between various “reimbursable” and “non-reimbursable” sources for federal reporting purposes. If this is necessary, you may wish to create the following four food service collection fee funds:
   a. Food Service Charges - Student School Lunch
   b. Food Service Charges - Student School Breakfast
   c. Food Service - Student Special Milk
   d. Food Service - Non-Reimbursable

3. Family and Consumer Science Fees

4. Lab Fees

5. Musical Instrument Rental Fees - Use for rental fees only. Collections for materials and supplies should be accounted for in the “Class Materials Charges” fee fund.

6. Physical Education Fees

7. Shop Fees

8. Textbook Rental Fees - Use for textbook rental, fines, sales of workbooks and materials supplemental to textbooks, and payments for lost or destroyed textbooks.

9. Transportation Charges - Use for charges to students for transportation to special events.

10. Vending Machine Collections - Use to account for certain or all vending machine collections. If a particular student organization is in charge of one or more vending machines, the money should be accounted for through that organization’s activity fund. If not assigned to a student club or organization, then the money would be treated as miscellaneous revenue and deposited in a district fund specified in that law. (K.S.A. 72-5166)
