Charts

The scale for each chart will vary based on each individual district’s data.

Block Grant Years

Per K.S.A. 72-6465 Districts operated under the Block Grant in 2015-2016 and 2016-2017 school years, which was funded the same as the 2014-2015 school year. The following were not applicable during the Block Grant:

- Weightings for calculating State Aid
  - School Facilities Weighting was still used during the Block Grant.
- February 20th enrollment counts

Notes: 2/20 counts for the Block Grant years were retroactively collected and audited in the 2017-2018 school year.

2017-2018 Report: Since 2/20 counts were not applicable for the Block Grant years, the only school year on this report that includes 2/20 counts is 2017-2018.

2018-2019 Report: 2/20 counts are included in the FTE for all years on this report, including the 2016-2017 Block Grant year.

**FTE Enrollment (incl. KAMS):** Enrollment counts from September 20th & February 20th including KAMS (Kansas Academy of Math & Science at Fort Hays State University).

February 20th Count

Per KSA 72-5139, school districts are eligible for a second enrollment count on February 20th if the FTE of military students enrolled on 2/20 is:

State Aid

State Aid is calculated using weightings for each type of State Aid. The weighting is then multiplied by the BASE in order to calculate State Aid for the specific category. For more information on how weightings are computed, please see the Enrollment Handbook.

Note: Weightings were not applicable during the Block Grant Years (2015-2016 & 2016-2017). Instead, districts were funded based on the same FTE they had for the 2014-2015 school year.

The following are calculated by multiplying the Weighted FTE for each category × BASE:

- High Enrollment
- Low Enrollment
- School Facilities
- Transportation
- At-Risk (K-12)
- Preschool-Aged At-Risk (4 Year Olds)
- High Density At-Risk
- Career & Technical Education (CTE)
- Bilingual
- Ancillary
- Cost of Living
- Declining Enrollment

Note: High Density At-Risk weighting is the higher of the Building Level and District Level. However, the use of the building level weighting is set to expire July 1, 2020 (2020-2021 School Year).

Declining Enrollment weighting was only applicable through the 2017-2018 school year per K.S.A.72-5160.

Base State Aid

(Adjusted FTE Enrollment + current year KAMS FTE) × BASE
Special Education State Aid

The Block Grant did not affect how Special Education state aid is calculated.

Medicaid Entitlement

KSA 72-3440 requires the State Board of Education to set aside $9,000,000 of the amount of monies appropriated for Special Education Services State Aid for Medicaid replacement state aid. We receive a list of Medicaid students receiving Special Education and related services on March 1 from the Kansas State Department of Health and Environment (KDHE).

Districts receive payments based on a per pupil amount:
$9,000,000 ÷ number of students eligible for Medicaid Replacement = Amount per Pupil

Catastrophic Aid Entitlement

Districts report the number of students and net costs of servicing special education services for students who have unique or severe needs. Reimbursement is granted at 75% of costs that exceed twice the per teacher entitlement for categorical aid from prior school year after deducting all other state and federal aid for the student.

Transportation Entitlement

Per KSA 72-3422, each school district shall receive reimbursement in an amount equal to 80% of actual travel expenses incurred for providing transportation for exceptional children per KSA 72-3422.

Adjustments

Overpayment of special education state aid for the prior year is applied as an audit adjustment to result in a reduction of current year entitlement.
Teacher Entitlement

Teacher Entitlement is the amount left in the Special Education Services Aid fund (1000-0700) after adjustments and the pay out of Transportation, Catastrophic and Medicaid Entitlement.

Total appropriations of fund 1000-0700 - Transportation Entitlement - Catastrophic Entitlement - Medicaid Entitlement - Total Adjustments = Teacher Entitlement

Teacher Entitlement ÷ Teacher FTE = Amount per Teacher

Note: The amount appropriated to the Special Education Services Aid fund is determined by the legislature each year.

Virtual State Aid

(Virtual Full-Time (FT) FTE x FT Virtual BASE) + (Virtual Part-Time (PT) FTE x Part-Time Virtual BASE) + (Virtual Credits x Virtual Credits BASE)

Virtual state aid is not based on a weighting, but rather on minutes enrolled, with 360 minutes being considered full-time, and credits for students that are 20 or older on September 20th.

Extraordinary Need State Aid

For the 2017-2018 school year, school districts were required to submit applications to request Extraordinary Need State Aid. Districts with a decline in enrollment from September 20th, 2014 to September 20th, 2016 were considered and priority was given to school districts with low cash balances.

Extraordinary Need State Aid was only applicable during the 2014-2015 through the 2017-2018 school years.
