# State Aid

## (General State Aid/State Foundation Aid)

---

Note: In 2017-2018, Senate Bill 25 referred to “General State Aid” as “State Foundation Aid”. For simplicity reasons in this document, we will refer to it as “State Aid”.

---

State Aid is calculated using weightings for each type of State Aid. The weighting is then multiplied by the BASE in order to calculate State Aid for the specific weighting. For more information on how weightings are computed, please see the Enrollment Handbook.

---

Note: Weightings were not applicable during the Block Grant Years (2015-2016 & 2016-2017). Instead, districts were funded based on the same FTE they had for the 2014-2015 school year.

---

The following are calculated by multiplying the Weighted FTE for each category  $\times$  BASE:

- High Enrollment
  - Low Enrollment
  - School Facilities
  - Transportation
  - At-Risk (K-12)
  - Preschool-Aged At-Risk (4-Years Old)
  - High Density At-Risk
  - Career & Technical Education (CTE)
  - Bilingual
  - Ancillary
  - Cost of Living
  - Declining Enrollment
- 

Note: High Density At-Risk weighting is the higher of the Building Level FTE (sum of all buildings) and District Level FTE. However, the use of the building level weighting is set to expire July 1, 2024 (2024-2025 School Year).

Declining Enrollment weighting was only applicable through the 2017-2018 school year per K.S.A. 72-5160.

---

## Base State Aid

(Adjusted FTE Enrollment + current year KAMS FTE)  $\times$  BASE

## Special Education State Aid

The [Block Grant](#) did not affect how Special Education state aid is calculated.

### Medicaid Entitlement

[K.S.A. 72-3440](#) requires the State Board of Education to set aside \$9,000,000 of the amount of monies appropriated for Special Education Services State Aid for Medicaid replacement state aid. Kansas State Department of Health & Environment (KDHE) submits the list of Medicaid students receiving Special Education and related services on March 1 to KSDE.

*Districts receive payments based on a per pupil amount:*

$\$9,000,000 \div \text{number of students eligible for Medicaid Replacement} = \text{Amount per Pupil}$

### Catastrophic Aid Entitlement

Districts report the number of students and net costs of servicing special education students who have unique or severe needs. Reimbursement is granted at 75% of costs that exceed twice the per teacher entitlement for categorical aid from prior school year after deducting all other state and federal aid for the student.

### Transportation Entitlement

Per [K.S.A. 72-3422](#), each school district shall receive reimbursement in an amount equal to 80% of actual travel expenses incurred for providing transportation for exceptional children.

### Adjustments

Overpayment of special education state aid for the prior year is applied as an audit adjustment to result in a reduction of current year entitlement.

### Teacher Entitlement

Teacher Entitlement is the amount left in the Special Education Services Aid fund after [adjustments](#) and the pay out of [Transportation](#), [Catastrophic](#) and [Medicaid Entitlement](#).

Total appropriations of Special Education Services Aid fund - Transportation Entitlement - Catastrophic Entitlement - Medicaid Entitlement - Total Adjustments = Teacher Entitlement

Teacher Entitlement  $\div$  Teacher FTE = Amount per Teacher

---

Note: The amount appropriated to the Special Education Services Aid fund is

determined by the legislature each year.

---

## Virtual State Aid

(Virtual Full-Time FTE  $\times$  Virtual Full-Time BASE) + (Virtual Part-Time FTE  $\times$  Virtual Part-Time BASE)  
+ (Virtual Credits  $\times$  Virtual Credits BASE)

Virtual state aid is not based on a weighting, but rather on minutes enrolled, with 360 minutes being considered full-time for students 19 & under on 9/20. Students that are 20 & older on 9/20 are only eligible for credits.

## Extraordinary Need State Aid

For the 2017-2018 school year, school districts were required to submit applications to request Extraordinary Need State Aid. Districts with a decline in enrollment from September 20<sup>th</sup>, 2014 to September 20<sup>th</sup>, 2016 were considered and priority was given to school districts with low cash balances.

Extraordinary Need State Aid was only applicable during the 2014-2015 through the 2017-2018 school years.
