SUCCESS DEFINED
A successful Kansas high school graduate has the
• Academic preparation,
• Cognitive preparation,
• Technical skills,
• Employability skills and
• Civic engagement
to be successful in postsecondary education, in the attainment of an industry recognized certification or in the workforce, without the need for remediation.

OUTCOMES
• Social-emotional growth
• Kindergarten readiness
• Individual Plan of Study
• Civic engagement
• Academically prepared for postsecondary
• High school graduation
• Postsecondary success
KESA Compliance
Compliance: Definitions, Review Process, and Role in Accreditation

General Definitions:

- **In compliance** - all required components as defined by the compliance area are in place

- **Working towards compliance** - “warning”; a system has two years to resolve their compliance issues.
  - Two years maximum for “working towards compliance”; if, on the third year, the system hasn’t improved, the status will change to “not in compliance.”
    - Example - October 2022 Working Towards, October 2023 Working Towards, October 2024 Not In Compliance
  - Note - For some compliance areas, you must be in compliance or working toward compliance annually. If you are not in compliance within the school year, you will be marked as out of compliance.

- **Not in compliance** - compliance issues still exist after two years of “working towards compliance” or the system has not resolved compliance within the school year as called for in certain compliance areas (e.g. Special Education, Title, and Child Nutrition and Wellness)

Who is ultimately responsible for making the decision on “In, Working Towards, Not” Compliance?

- The Lead for each compliance area will make the annual determination in the fall regarding each system’s compliance standing. Systems marked as ‘working toward compliance’ will be reexamined in the spring to ensure compliance is met in every area by each system.

What will be the Accreditation & Design Team’s response to “Not in compliance”?

- Once a system is marked as Not in compliance and the A & D is made aware, as soon as possible, the AD team will submit the system to the Accreditation Review Council (ARC) for a review. If the system in question is currently fully accredited, our guidance to the ARC would be to recommend the system be moved to conditionally accredited.

Secondary: Julie Ewing (jewing@ksde.org)

Compliance Expectation:

| In Participation (95%) based on Section 1111(c)(4)(E) of ESEA has been met. | Working Towards As compliance is based on the previous year of testing, systems will either be “In Compliance” or “Not in Compliance”. Systems can work towards establishing testing and increasing participation to move to “In compliance” status in the following year. | Not Federal requirement of 95% participation requirement for statewide assessments of all students has not been met. State requirement of statewide testing in core academic areas has not been met. |

Compliance Area - Dyslexia

Contacts -
Primary: Dr. Laurie Curtis (lcurtis@ksde.org)
Secondary: Joann McRell (jmcrell@ksde.org)

Rationale:
To identify students who may be at risk for reading failure, systems will use a universal screener that provides specific sub scores relative to determining risk. K-3 utilizes specific screeners to report spring scores: K - Phoneme Segmentation, 1st – Nonsense Word Fluency, 2nd – Oral Reading Fluency (rate and accuracy), 3rd - Oral reading fluency (rate and accuracy), and 8th grade comprehension.

To provide professional development centered on dyslexia, structured literacy, and/or tiered frameworks of support is required.

Compliance Area – Educator Mentoring and Induction Planning

Contacts -
  Primary: Ed Kalas (ekalas@ksde.org)
  Secondary: Shane Carter (scarter@ksde.org)

Rationale:
All districts must submit a mentoring plan for the purpose of providing a mentor program for upgrading an initial to a professional license for their teachers/school specialists and administrators (NOT just those whose mentor will be receiving stipends). The district can designate that they are using an outside their district provider for their mentoring or that they are using a district developed plan.

Compliance Area – Individual Plan of Study

Contacts -
   Primary: Natalie Clark (ndclark@ksde.org)
   Secondary: Helen Swanson (hswanson@ksde.org)

Rationale:
All students, beginning in middle school, will develop an IPS based on their career interests. An IPS is both the product a student develops and a process the school implements to guide students in developing future plans. A student’s IPS is developed cooperatively between the student, school staff members, and family members.

Compliance Expectation:
There are four minimum components of a student’s IPS:
   • A graduated series of strengths finder and career interest inventories to help students identify preference toward career clusters.
   • Eighth- through 12th-grade course-builder function with course selections based on career interests.
   • A general postsecondary plan (workforce, military, certification program, two- or four-year college).
   • A portable electronic portfolio.

The vision requires that every middle and high school student in Kansas will have an IPS.

Question 7 (7-11).

What level of implementation is your building at?

   7. Relating Academic/Interests Assessment to Career
   8. Interest, Ability, Profilers and Skills Assessments
   9. Course Mapped to Interests
   10. Postsecondary Plan
   11. Exportable, Electronic Portfolio

   No Evidence = 0 / Implementing = 1 / Transitioning = 2 / Modeling = 3

Compliance Area – Kindergarten Readiness Snapshot (ASQ)

Contacts -
Primary: Amanda Petersen (apetersen@ksde.org)
Secondary: Stacy Clarke (kansasicc@ksde.org)

Rationale:
Engaging families as children transition into kindergarten supports kindergarten readiness and later student success. All Kansas elementary schools are required to partner with families of incoming kindergarten students to complete the Kansas Kindergarten Readiness Snapshot (the ASQ-3 and the ASQ:SE-2), as outlined in K.A.R. 91-31-32: Each education system seeking accreditation shall meet the following requirements...have in place a method of data collection approved by the state board for collecting kindergarten-entry data.

Questionnaires should be completed by the September Count Day. KSDE will establish an October deadline for systems to finalize data in the ASQ Online system. Beginning in the 2023-2024 school year, KSDE will make its analysis of a system's Kindergarten Readiness Snapshot data, including the system's participation rate for incoming kindergarten students, available to the system in the AMOSS authenticated application. A system’s compliance status will then be updated in the KESA authenticated application.
