

University of Saint Mary
Traditional Program

2013 | Title II
Reports

Complete Report Card

AY 2011-12

Institution Information

Name of Institution: University of Saint Mary
Institution/Program Type: Traditional
Academic Year: 2011-12
State: Kansas

Address: 4100 S 4th St

Leavenworth, KS, 66048

Contact Name: Dr. Gwen Landever
Phone: 913.758.6159
Email: gwen.landever@stmary.edu

Is your institution a member of an HEA Title II Teacher Quality Partnership (TQP) grant awarded by the U.S. Department of Education?
(<http://www2.ed.gov/about/offices/list/oii/tqp/index.html>)

No

If yes, provide the following:

Award year:

Grantee name:

Project name:

Grant number:

List partner districts/LEAs:

List other partners:

Project Type:

Section I.a Program Information

List each teacher preparation program included in your traditional route. Indicate if your program or programs participate in a Teacher Quality Partnership Grant awarded by the U.S. Department of Education as described at <http://www2.ed.gov/about/offices/list/oii/tqp/index.html>.

Teacher Preparation Programs	Teacher Quality Partnership Grant Member?
Elementary Education	No
Secondary Education-Biology	No
Secondary Education-Chemistry	No
Secondary Education-English	No
Secondary Education-History, Government, and Social Studies	No
Secondary Education-Mathematics	No
Secondary Education-Speech and Theater	No
Total number of teacher preparation programs: 7	

Section I.b Admissions

Indicate when students are formally admitted into your initial teacher certification program:

Junior year

Does your initial teacher certification program conditionally admit students?

No

Provide a link to your website where additional information about admissions requirements can be found:

www.stmary.edu

Please provide any additional comments about or exceptions to the admissions information provided above:

Students must attend our university at least one semester before being eligible for formal admission into the teacher education program.

Section I.b Undergraduate Requirements

Please provide the following information about your teacher preparation program's entry and exit requirements. (§205(a)(1)(C)(i))

Are there initial teacher certification programs at the undergraduate level?

Yes

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the Undergraduate level.

Element	Required for Entry	Required for Exit
Transcript	Yes	Yes
Fingerprint check	No	No
Background check	No	No
Minimum number of courses/credits/semester hours completed	Yes	Yes
Minimum GPA	Yes	Yes
Minimum GPA in content area coursework	No	Yes
Minimum GPA in professional education coursework	Yes	Yes
Minimum ACT score	No	No
Minimum SAT score	No	No
Minimum basic skills test score	Yes	Yes
Subject area/academic content test or other subject matter verification	Yes	Yes
Recommendation(s)	Yes	No
Essay or personal statement	Yes	Yes
Interview	No	No
Other	Data not reported	Data not reported

What is the minimum GPA required for admission into the program?

2.75

What was the median GPA of individuals accepted into the program in academic year 2011-12

3.2

What is the minimum GPA required for completing the program?

2.75

What was the median GPA of individuals completing the program in academic year 2011-12

3.4

Please provide any additional comments about the information provided above:

Section I.b Postgraduate Requirements

Please provide the following information about your teacher preparation program's entry and exit requirements. (§205(a)(1)(C)(i))

Are there initial teacher certification programs at the postgraduate level?

Yes

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the Postgraduate level.

Element	Required for Entry	Required for Exit
Transcript	Yes	Yes
Fingerprint check	No	No
Background check	No	No
Minimum number of courses/credits/semester hours completed	Yes	Yes
Minimum GPA	Yes	Yes
Minimum GPA in content area coursework	Yes	Yes
Minimum GPA in professional education coursework	Yes	Yes
Minimum ACT score	No	No
Minimum SAT score	No	No
Minimum basic skills test score	Yes	Yes
Subject area/academic content test or other subject matter verification	Yes	Yes
Recommendation(s)	Yes	Yes
Essay or personal statement	Yes	Yes
Interview	No	No
Other	Data not reported	Data not reported

What is the minimum GPA required for admission into the program?

2.75

What was the median GPA of individuals accepted into the program in academic year 2011-12

3.26

What is the minimum GPA required for completing the program?

2.75

What was the median GPA of individuals completing the program in academic year 2011-12

Please provide any additional comments about the information provided above:

Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

[Additional guidance on reporting race and ethnicity data.](#)

Total number of students enrolled in 2011-12:	54
Unduplicated number of males enrolled in 2011-12:	16
Unduplicated number of females enrolled in 2011-12:	38

2011-12	Number enrolled
<i>Ethnicity</i>	
Hispanic/Latino of any race:	1
<i>Race</i>	
American Indian or Alaska Native:	0
Asian:	0
Black or African American:	3
Native Hawaiian or Other Pacific Islander:	0
White:	45
Two or more races:	0

Section I.d Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2011-12.

Average number of clock hours of supervised clinical experience required prior to student teaching	80
Average number of clock hours required for student teaching	525
Average number of clock hours required for mentoring/induction support	0
Number of full-time equivalent faculty supervising clinical experience during this academic year	6

Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	82
Number of students in supervised clinical experience during this academic year	54

Please provide any additional information about or descriptions of the supervised clinical experiences:

Candidates are in the K-12 school setting the final two years of their teacher education program. During this time, they complete practicum experiences in addition to student teaching.

Section I.e Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2011-12. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

Subject Area	Number Prepared
Education - General	
Teacher Education - Special Education	
Teacher Education - Early Childhood Education	
Teacher Education - Elementary Education	19
Teacher Education - Junior High/Intermediate/Middle School Education	
Teacher Education - Secondary Education	5

Section I.e Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2011-12. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Academic Major	Number Prepared
Education - General	
Teacher Education - Special Education

Section I.f Program Completers

Provide the total number of teacher preparation program completers in each of the following academic years:

2011-12: 24

2010-11: 28

2009-10: 27

Section II Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (**§205(a)(1)(A)(ii), §206(a)**)

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in mathematics in 2011-12?

Yes

How many prospective teachers did your program plan to add in mathematics in 2011-12?

2

Did your program meet the goal for prospective teachers set in mathematics in 2011-12?

No

Description of strategies used to achieve goal, if applicable:

Prospective candidates were connected with current candidates at the university. The math department faculty helped identify prospective candidates and candidates met with education department faculty to encourage interest in math education.

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We will continue to work collaboratively with the math department faculty and first year experience faculty to identify candidates who are interested in math and becoming a teacher. During the first year experience course, candidates learn about different careers and the education department faculty plan to be more involved in those activities to showcase careers in teaching.

Personal one on one recruiting works well to help identify and follow through with students who might be interested in math education, but it takes the right temperament of a candidate to make a good math teacher.

We plan to continue current practices of partnering with our math department in inviting middle and high school students to campus for specific events to promote

math education. Current students are encouraged to attend campus events and meetings promoting math and education professions such as ASCD and SMURF. In addition alumni are invited to join current students at our Science and Math club (SAM) to share information about education careers in these fields.

Provide any additional comments, exceptions and explanations below:

We learned that not all math majors are good teacher candidates. We will continue to recruit those interested in math but make sure they are also a good fit for becoming a teacher.

Academic year 2012-13

Is your program preparing teachers in mathematics in 2012-13?

Yes

How many prospective teachers did your program plan to add in mathematics in 2012-13?

2

Provide any additional comments, exceptions and explanations below:

We have 2 strong math teacher candidates accepted into the teacher education program. They will be good role models and can assist with recruitment of their peers who may be a year or two behind them in math coursework.

Academic year 2013-14

Will your program prepare teachers in mathematics in 2013-14?

Yes

How many prospective teachers does your program plan to add in mathematics in 2013-14?

1

Provide any additional comments, exceptions and explanations below:

We have one prospective student who is a math major and plans to enter the teacher education program as a junior next academic year.

Section II Annual Goals - Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (**§205(a)(1)(A)(ii), §206(a)**)

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in science in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in science in 2011-12?

Yes

How many prospective teachers did your program plan to add in science in 2011-12?

1

Did your program meet the goal for prospective teachers set in science in 2011-12?

No

Description of strategies used to achieve goal, if applicable:

The science department faculty tried to help identify prospective candidates along with working with local high school teachers to help encourage and promote science education. We had one prospective candidate who planned to become an elementary education major with a biology minor, but changed her mind.

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Plans are in place with our Science department to take advantage of student life events to promote Science education during orientation week during upcoming years to help recruit prospective science education majors. In addition, Science and Education faculty will speak as part of the freshman year experience courses to help recruit prospective science education teachers. Additionally the Science faculty are planning to hold another high school science and math night where our alumni teachers bring their high school students to campus for an event for science lab and mathematic activities to help promote the fields. We also are planning to have speaker events over lunch with students in the pre-health professions. Frequently we find some students in these fields realize they love the sciences, but are not cut out to work in health professions and are looking for other career opportunities. Becoming a teacher may be a better career choice for them.

Provide any additional comments, exceptions and explanations below:

Academic year 2012-13

Is your program preparing teachers in science in 2012-13?

No

How many prospective teachers did your program plan to add in science in 2012-13?

Provide any additional comments, exceptions and explanations below:

Academic year 2013-14

Will your program prepare teachers in science in 2013-14?

No

How many prospective teachers does your program plan to add in science in 2013-14?

Provide any additional comments, exceptions and explanations below:

Section II Annual Goals - Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in special education in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in special education in 2011-12?

No

How many prospective teachers did your program plan to add in special education in 2011-12?

Did your program meet the goal for prospective teachers set in special education in 2011-12?

NA

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Provide any additional comments, exceptions and explanations below:

Academic year 2012-13

Is your program preparing teachers in special education in 2012-13?

No

How many prospective teachers did your program plan to add in special education in 2012-13?

Provide any additional comments, exceptions and explanations below:

Academic year 2013-14

Will your program prepare teachers in special education in 2013-14?

No

How many prospective teachers does your program plan to add in special education in 2013-14?

Provide any additional comments, exceptions and explanations below:

Section II Annual Goals - Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (§205(a)(1)(A)(ii), §206(a))

Information about teacher shortage areas can be found at <http://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in instruction of limited English proficient students in each of three academic years.

Academic year 2011-12

Did your program prepare teachers in instruction of limited English proficient students in 2011-12?

No

How many prospective teachers did your program plan to add in instruction of limited English proficient students in 2011-12?

Did your program meet the goal for prospective teachers set in instruction of limited English proficient students in 2011-12?

Data not reported

Description of strategies used to achieve goal, if applicable:

Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Provide any additional comments, exceptions and explanations below:

Academic year 2012-13

Is your program preparing teachers in instruction of limited English proficient students in 2012-13?

No

How many prospective teachers did your program plan to add in instruction of limited English proficient students in 2012-13?

Provide any additional comments, exceptions and explanations below:

Academic year 2013-14

Will your program prepare teachers in instruction of limited English proficient students in 2013-14?

No

How many prospective teachers does your program plan to add in instruction of limited English proficient students in 2013-14?

Provide any additional comments, exceptions and explanations below:

Section II Assurances

Please certify that your institution is in compliance with the following assurances. (§205(a)(1)(A)(iii), §206(b)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

Yes

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

NA

Prospective general education teachers are prepared to provide instruction to students with disabilities.

Yes

Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families.

Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

Yes

Describe your institution's most successful strategies in meeting the assurances listed above:

Clinical experience is required in diverse settings including urban and rural areas to provide candidates the experience of working with students of limited English proficiency, low income, or with disabilities. The curriculum focuses on building the candidates' background knowledge related to these areas as well. Beginning Fall 2012, all candidates take a course "Methods for Diverse Learners" that address strategies for working with students who have disabilities, limited English proficient, and students from low income families.

Group	Number taking tests	Number passing tests	Pass rate (%)
All program completers, 2011-12	20	17	85
All program completers, 2010-11	26	26	100
All program completers, 2009-10	26	24	92

Section IV Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State
NCATE

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- **integrate technology effectively into curricula and instruction**
Yes
- **use technology effectively to collect data to improve teaching and learning**
Yes
- **use technology effectively to manage data to improve teaching and learning**
Yes
- **use technology effectively to analyze data to improve teaching and learning**
Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Candidates are required to utilize technology in the classroom while they are completing their clinical experiences. They provide learning opportunities through virtual field trips and actively engage their students in the use of technology for creative projects and research. Candidates incorporate traditional technology as well as newer technologies such as interactive whiteboards or tablets. With attention to universal design, candidates seek multiple ways of representing information in order to accommodate different learning styles.

During the student teaching semester, candidates must complete a teaching portfolio that assesses their use of data to improve student learning. Candidates must utilize technology in the collection, management, and analysis of data to track student learning progress. Programs such as Excel provide the structure for spreadsheets, tables, and charts that are useful in the analysis and display of the data. In order to prepare the candidates for their role as a professional teacher in using data for instructional decisions, the steps in this process are addressed throughout our teacher education program.

Candidates in early coursework have been introduced to AIMS web and KSDE's REALWORLD System to utilize student data for practicing using data to make instructional decisions that they can apply to future experiences when analyzing their own students' data.

Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- **teach students with disabilities effectively**
Yes
- **participate as a member of individualized education program teams**
Yes
- **teach students who are limited English proficient effectively**
Yes

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the

Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

All teacher candidates for general education take a course that specifically focuses on areas of disabilities and effective interventions. Other courses such as reading methods for elementary and content area reading for secondary students also provide examples of appropriate strategies to address the special needs of students with disabilities or students with limited English proficiency. Beginning in Fall, 2012 candidates will be required to take a new course "Methods of Diverse Learners" to assist candidates with methods and strategies to meet the needs of students with disabilities, limited English proficient, and students from low income families. During clinical experiences candidates adapt instruction to meet the diverse students in the classroom. Student teachers document their participation on school teams, including IEP teams, to address needs of specific students.

Does your program prepare special education teachers to:

- **teach students with disabilities effectively**
NA
- **participate as a member of individualized education program teams**
NA
- **teach students who are limited English proficient effectively**
NA

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

We do not currently offer a special education program.

Section VII Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The University of Saint Mary is a small liberal arts institution. The teacher education program prepares teachers for the surrounding communities that include urban, suburban and rural areas. Courses in the teacher education program are offered during the day as well as in the evenings to accommodate individuals seeking a career change. All candidates participate in the required clinical experiences. Efforts at building caring communities are prevalent among candidates, faculty, and staff. Faculty members are academic advisors and get to know candidates personally and professionally to better meet individual needs and recognize diverse gifts. Because of the small class size, instructors are able to provide individual attention to candidates. Secondary education candidates major in their content area. Faculty from the arts and sciences participate in teaching method courses and observing candidates in 6-12 classrooms during their practicum and student teaching semesters.
