Indicate when students are formally admitted into your initial teacher certification program:

Junior year

Does your initial teacher certification program conditionally admit students? No

Please provide any additional about or exceptions to the admissions information provided above:

Applicant's essays are read individually by two individual faculty members using a scoring rubric. Separation of greater than two numbers on a 4 point Likert scale requires a third reader. A numeric rating is also provided for prior experience with children and youth, experience with diverse populations or applicant diversity, and letters of recommendation. These numeric ratings are entered into a data base and statistical analysis procedures provide a weighted score across all elements. Applicants for each program are then ranked by order of score. Four of our programs--elementary, unified early childhood, and secondary English and social studies--have a capped number of applicants accepted. Middle and secondary math, middle and secondary science, and foreign language programs accept all qualified applicants.

Section I.b Program Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

Total number of students enrolled in 2009-10:	754
Unduplicated number of males enrolled in 2009-10:	206
Unduplicated number of females enrolled in 2009-10:	548

American Indian or Alaska Native:	1
Asian:	13
Black or African American:	14
Native Hawaiian or Other Pacific Islander:	10
White:	650
Two or more races:	9

Section I.c Supervised Experience

Provide the following information about supervised clinical experience in 2009-10.

Average number of clock hours required prior to student teaching	42
Average number of clock hours required for student teaching	760
Number of full-time equivalent faculty in supervised clinical experience during this academic year	17
Number of full-time equivalent adjunct faculty in supervised clinical experience during this academic year (IHE and PreK-12 staff)	330
Number of students in supervised clinical experience during this academic year	160

Please provide any additional information about or descriptions of the supervised clinical experiences:

Section I.d Teachers Prepared

Section I.e Program Completers

Provide the total number of initial teacher certification preparation program completers in each of the following academic years:

2009-10: 183

2008-09: 166

2007-08: 154

Section II. Annual Goals

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative routes to state certification or licensure program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. IHEs that do not have a teacher preparation program in one or more of the areas listed below can enter NA for the area(s) in which the IHE does not have that program.

Section II. Assurances

Please indicate whether your institution is in compliance with the following assurances.

Training provided to prospective teachers responds to the identified needs of the local educational agencies or States where the institution's graduates are likely to teach, based on past hiring and recruitment trends.

Yes

Training provided to prospective teachers is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers receive coursework in core academic subjects and receive training in providing instruction in core academic subjects.

NA

General education teachers receive training in providing instruction to children with disabilities.

Yes

General education teachers receive training in providing instruction to limited English proficient students.

Yes

General education teachers receive training in providing instruction to children from low-income families.

Yes

Prospective teachers receive training on how to effectively teach in urban and rural schools, as applicable.

Yes

Describe your institution's most successful strategies in meeting the assurances listed above:

We have made the coursework necessary for the added special education endorsement much more accessible to our students getting an initial teaching license. This has allowed more students to complete the coursework at the same time they are finishing their initial license. Thus, many more students have opted to complete the added endorsement in conjunction with their initial license, at least at the provisional level (individuals can teach special education students in Kansas with a provisional endorsement). We allow the prospective teachers who have completed the required provisional coursework to either blend (in same classroom) or split (in another school) their second student teaching placement. This means that they are assigned a fully certified general education teacher and fully endorsed special education teacher and student teach with both.

Section IV. Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State

NCATE

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

No

Section V. Technology

Does your program prepare teachers to:

- **integrate technology effectively into curricula and instruction**
Yes
- **use technology effectively to collect data to improve teaching and learning**
Yes
- **use technology effectively to manage data to improve teaching and learning**
Yes
- **use technology effectively to analyze data to improve teaching and learning**
Yes

Provide a description of how your program prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of how your program prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All of our teacher candidates take an Educational Technology methods course during their preparation program. Integrating technology into classroom instruction means more than teaching basic skills and software programs in a separate computer class. Our technology training incorporates the key components of learning—active engagement with hardware and software, participation in group and individual projects, frequent interaction and feedback, and making a connection to real-world application. Our teacher candidates are taught to use technology to enhance their students' learning opportunities, reach different types of learners, and assess and analyze student understanding by multiple means. The state requires that all candidates complete and pass the Kansas Performance Teaching Portfolio (KPTP) during their student teaching. As a part of this culminating experience, each candidate must provide evidence that he/she incorporated technology to enhance student learning, and gather and analyze preassessment, formative, and summative student data.

Section VI. Teacher Training

Does your program prepare general education teachers to:

- **teach students with disabilities effectively**
Yes
- **participate as a member of individualized education program teams**
Yes
- **teach students who are limited English proficient effectively**
No

Provide a description of how your program prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

All of our teacher candidates take two courses in instructional methodology for students with special needs during their preparation program. Within these courses candidates learn practices that will allow them to develop a class climate reflecting respect of both diversity and inclusiveness; to insure that all materials and activities are accessible by all students; use accessible instructional methods that address multiple learning modalities; encourage effective interactions between all students; use multiple and accessible assessment methods and tools and adjust instruction accordingly; and plan for accommodations and adaptations for students when the instructional design does not meet their needs. The state requires that all candidates complete and pass the Kansas Performance Teaching Portfolio (KPTP) during their student teaching. As a part of this culminating experience, each candidate must provide evidence that he/she can use each of these elements to address identified students with special needs including those with disabilities and students with limited English proficiency.

Does your program prepare special education teachers to:

- **teach students with disabilities effectively**
NA
- **participate as a member of individualized education program teams**
NA
- **teach students who are limited English proficient effectively**
NA

Provide a description of how your program prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Kansas does not have an initial teaching license in Special Education.

Section VII. Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is

especially interested in any evaluation plans or interim or final reports that may be available.
