Standard 4 (Met)

AFI 4.1: The Assessments do not cover the Standard in its entirety.

Rationale 4.1: The Assessments do not cover the ability of the candidate to help students do scientific inquiry. The EPP indicates in the rejoinder that moving forward assessment#3 will utilize CPAST item F to evaluate candidate's ability to engage learners in critical thinking, a component of scientific inquiry. Assessments currently identified do not assess candidate's ability to engage in the whole process of scientific inquire.

Motion: It was M/S by Rhodes / Eckstrom to continue AFI 4.1,

AFI 5.1: The achievement of the evaluation score is confusing on Assessment 3.

Rational 5.1: While proficiency is noted, it is unclear how an evaluator determines the appropriate score based on the Likert Scale provided. There is no description provided that defines what constitutes the lower range of the score – from the higher range score for each category on the rubric.

Motion: It was M/S by Minde / Rhodes to continue AFI 5.1,
