**Employment/Educational Opportunity Agency**

The Kansas State Department of Education does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities. The following person has been designated to handle inquiries regarding the non-discrimination policies:

KSDE General Counsel  
120 SE 10th Ave.  
Topeka, KS 66612

785-296-3204	<p>The State, through its authorized representative, agrees to comply with all requirements applicable to the School Improvement Grants program, including the assurances contained herein and the conditions that apply to any waivers that the State receives through this application</p>
--------------	--

**A. SCHOOLS TO BE SERVED: An LEA must include the following information with respect to the schools it will serve with a School Improvement Grant.**

An LEA must identify each Priority school the LEA commits to serve and identify the model that the LEA will use in each Priority school.

		<b>Intervention Model</b>			
<b>School Name:</b>	<b>NCES ID #</b>	<b>Turnaround</b>	<b>Restart</b>	<b>Closure</b>	<b>Transformation</b>

**Refer to Appendix A, p. 26-32 and Appendix B, p. 33-45 for more information on the grant requirements and general information.**

**B. DESCRIPTIVE INFORMATION: An LEA must include the following information in its application for a school improvement grant.**

**Step 1a: Needs Assessment -- The LEA has analyzed the needs of each school and selected an intervention for each school.**

**Needs Assessment Process:** Describe the **needs assessment process** that the school went through before selecting the Intervention Model.

**Data Analysis:** Write a brief summary of the school's data analysis results/findings. Include:

**Achievement Data**

- School Leading Indicator Report (in Appendix E, p. 78-79 of LEA Application)
- School AYP Data
- School Report Card Data

**Perception Data**

**Contextual (school processes/ programs)**

**Demographic Data**

**Root Cause Analysis:** Based on the school's data analysis results, describe the root cause(s) that support the selection of an appropriate intervention model.

**Step 1b: The LEA has the capacity to use school improvement funds to provide adequate resources and related support to each Priority school identified in the LEA’s application in order to implement, fully and effectively the required activities of the school intervention model it has selected.**

**Using the needs assessment results, select the Appropriate Intervention Model**, elaborate on how the school utilized the School Intervention Model Selection Rubrics to choose a model. **Refer to Appendix C, p. 46-76.**

**Model that Supports School:** Describe why the model will be an appropriate fit for the school.

**Using the Needs Assessment and the Selected School Intervention Model, Assess the District and School Capacity**, elaborate on how the school used the Innovation Configuration Matrix (ICM) for Schools. It is located at <http://www.kansasmtss.org/resources.htm>

**Strengths and Weaknesses:** Discuss the **strengths and weaknesses** identified in the capacity appraisal that was done for the school using the Innovation Configuration Matrix (ICM) for Schools.

**Use of Improvement Funds:** Provide an explanation of the school's capacity to use school improvement funds to provide adequate resources and related support for full and effective implementation of all required activities of the selected model.

**2. The LEA must describe actions it has taken, or will take, to design and implement interventions consistent with the final requirements.**

**Interventions Consistent with Final Requirements:** Describe the actions the school will take to design and implement interventions consistent with the final requirements of the grant. (*Using the appropriate table for model selected – complete only one chart.*)

**Turnaround Model Requirements: Refer to Appendix B, p. 33-36.**

**(Fill out this box ONLY if you are choosing the Turnaround Model.)**

*Write a brief narrative explaining how this school will address each of the Required Activities listed below. (Required Activities)*

<p>A. Replace the principal and grant the principal sufficient operational flexibility (including staffing, calendars/time, and budgeting) to implement fully a comprehensive approach in order to substantially improve student achievement outcomes and increase high school graduation rates;</p>	
<p>B. Using locally adopted competencies to measure the effectiveness of staff who can work within the turnaround environment to meet the needs of students,          1) Screen all existing staff and rehire no more than 50 percent;          and          2) Select new staff;</p>	
<p>C. Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in the turnaround school;</p>	
<p>D. Provide staff ongoing, high-quality, job-embedded professional development that is aligned with the school’s comprehensive instructional program and designed with school staff to ensure they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies;</p>	

<p>E. Adopt a new governance structure, which may include, but is not limited to, requiring the school to report to a new “turnaround office” in the LEA or SEA, hire a “turnaround leader” who reports directly to the Superintendent or Chief Academic Officer, or enter into a multi-year contract with the LEA or SEA to obtain added flexibility in exchange for greater accountability;</p>	
<p>F. Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with State academic standards;</p>	
<p>G. Promote the continuous use of student data (such as from formative, interim, summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students;</p>	
<p>H. Establish schedules and implement strategies that provide increased learning time (as defined in this notice); and</p>	
<p>I. Provide appropriate social-emotional and community-oriented services and supports for students.</p>	

**Restart Model Requirements: Refer to Appendix B, p. 37-39.  
(Fill out this box ONLY if you are choosing the Restart Model.)**

<p><b><i>Write a brief narrative explaining how this school will address <u>each</u> of the Required Activities listed below. (Required Activities)</i></b></p>	
<p>A. The LEA creates a “rigorous review process” and examines prospective restart operator’s reform plans and strategies. The prospective operator demonstrates that its strategies are research-based and that it has the capacity to implement the strategies it is proposing.</p>	

<p>B. The LEA allows former students, within the grades it serves, to attend the schools.</p>	
<p>C. The LEA requires all former students who wish to attend the restart school to sign student or parent/student agreements covering student behavior, attendance, and other commitments related to academic performance.</p>	
<p>D. The LEA provides the operator with considerable flexibility, not only with respect to the school improvement activities it will undertake, but with respect to the type of program it will offer.</p>	
<p>E. The LEA includes accountability agreements for meeting final requirements with the operator and can terminate the contract if performance measures are not met.</p>	
<p>F. The LEA reviews and meets fee and service requirements as defined by guidance in grant.</p>	

**Closure Model Requirements: Refer to Appendix B, p. 39-40.  
(Fill out this box ONLY if you are choosing the Closure Model.)**

<p><i>Write a brief narrative explaining how this school will address <u>each</u> of the Required Activities listed below. (Required Activities)</i></p>	
<p>A. Families and Communities are engaged by the LEA in the process of selecting the appropriate school improvement model. The data and reasons to support the decisions to close the school are shared with families and the school community and they have a voice in exploring quality options.</p>	

<p>B. The families and communities are allowed to help plan for a smooth transition for students and their families at the receiving schools.</p>	
<p>C. The LEA determines whether higher-achieving schools are within reasonable proximity to the closed school and whether any students are unduly inconvenienced by having to travel to the new location.</p>	
<p>D. Leadership will devise a school closure plan to address all Kansas Learning Network Correlates (Leadership, Culture and Human Capital, Curriculum and Assessment, and Professional Development). The plan would include:</p> <ul style="list-style-type: none"> <li>✓ Personnel placement</li> <li>✓ Policy</li> <li>✓ Board decisions</li> <li>✓ Student Assignment</li> <li>✓ Transfer of Records</li> <li>✓ Transportation</li> <li>✓ Resource Reassignment</li> <li>✓ Transfer of equipment</li> <li>✓ Building numbers</li> <li>✓ Facility issues</li> <li>✓ Community PR</li> <li>✓ Parent Communication</li> <li>✓ Special Education Issues</li> <li>✓ Title I Issues</li> <li>✓ Records</li> <li>✓ Fiscal Services</li> <li>✓ Accreditation Issues</li> <li>✓ Safety and Security Considerations.</li> <li>✓ Communication with state</li> </ul>	

**Transformation Model Requirements: Refer to Appendix B, p. 40-45.  
 (Fill out this box ONLY if you are choosing the Transformation Model.)**

<p><i>Write a brief narrative explaining how this school will address <u>each</u> of the Required Activities listed under the numbered strategies.</i></p>	
<p><b>(1) Developing and increasing teacher and school leader effectiveness.          (Required Activities)</b></p>	
<p>A. Replace the principal who led the school prior to commencement of the transformation model; (Note: USDE will accept 2 years of previous experience if the transformation has begun.)</p>	
<p>B. Use rigorous, transparent, and equitable evaluation systems for teachers and principals that--</p> <ul style="list-style-type: none"> <li>3) Take into account data on student growth (as defined in this notice) as a significant factor as well as other factors such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduation rates; and</li> <li>4) Are designed and developed with teacher and principal involvement;</li> </ul>	
<p>C. Identify and reward school leaders, teachers, and other staff who, in implementing this model, have increased student achievement and HS graduation rates and identify and remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so;</p>	

<p>D. Provide staff ongoing, high-quality, job-embedded professional development (e.g., regarding subject-specific pedagogy, instruction that reflects a deeper understanding of the community served by the school, or differentiated instruction) that is aligned with the school’s comprehensive instructional program and designed with school staff to ensure they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies; and</p>	
<p>E. Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in a transformation school.</p>	
<p><b>(2) Comprehensive instructional reform strategies. (Required Activities)</b></p>	
<p>A. Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with State academic standards; and</p>	
<p>B. Promote the continuous use of student data (formative, interim, summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students.</p>	
<p><b>(3) Increasing learning time and creating community-oriented schools. (Required Activities)</b></p>	
<p>A. Establish schedules and strategies that provide increased learning time (as defined in this notice); and</p>	
<p>B. Provide ongoing mechanisms for family and community engagement.</p>	

<b>(4) Providing operational flexibility and sustained support. (Required Activities)</b>	
<p>A. Give the school sufficient operational flexibility (such as staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; and</p>	
<p>B. Ensure that the school receives ongoing, intensive technical assistance and related support from the LEA, the SEA, or a designated external lead partner organization (such as a school turnaround organization or an EMO).</p>	

**External Providers:** Describe the actions the school will take to recruit, screen and select external providers, if applicable to ensure their quality.

**Resources Aligned to Interventions:** Describe how the school will align other resources with the interventions.

**Practices and Policies:** Explain what practices or policies, if necessary, will need to be modified to enable the school to implement the interventions fully and effectively.

**Sustainability:** Explain how the school will sustain the reforms after the funding period ends.

**3. The LEA must include a timeline delineating the steps it will take to implement the selected intervention in each Priority school identified in the LEA’s application.**

Implementation Steps	SEA Timeline	LEA Timeline and Explanation
<p><b><u>Exploration and Adoption</u></b></p> <ol style="list-style-type: none"> <li>1. **4. The LEA must describe the annual goals for student achievement on the State’s assessment in both reading/language arts and mathematics that it has established in order to monitor its Priority schools. Additional goals may be provided based on the root cause analysis findings.**

**5. As appropriate, the LEA must consult with relevant stakeholders regarding the LEA’s application and implementation of school improvement models in its Priority schools.**

**C. BUDGET: An LEA must include a budget that indicates the amount of school improvement funds the LEA will use each year in each Priority school it commits to serve. Refer to Appendix F, p. 80 & Appendix G, p. 81-82.**

The LEA must provide a budget that indicates the amount of school improvement funds the LEA will use each year to—

- Implement the selected model in each Priority school it commits to serve;
- Conduct LEA-level activities designed to support implementation of the selected school intervention models in the LEA’s Priority schools; and
- Support school improvement activities, at the school or LEA level, for each Tier III school identified in the LEA’s application.
- The LEA must include a budget and budget narrative to support each line item.

Note: An LEA’s budget should cover three years of full implementation and be of sufficient size and scope to implement the selected school intervention model in each Priority school the LEA commits to serve. Any funding for activities during the pre-implementation period must be included in the first year of the LEA’s three-year budget plan.

An LEA’s budget for each year may not exceed \$2,000,000 per school per year it commits to serve or no more than \$6,000,000 over three years.

**D. ASSURANCES: An LEA must include the following assurances in its application for a School Improvement Grant.**

The LEA must assure that it will --

- Use its School Improvement Grant to implement fully and effectively an intervention in each Priority or Tier I and Tier II school that the LEA commits to serve consistent with the final requirements;
- Establish annual goals for student achievement on the State's assessments in both reading/language arts and mathematics and measure progress on the leading indicators in section III of the final requirements in order to monitor each Priority or Tier I and Tier II school that it serves with school improvement funds, and establish goals (approved by the SEA) to hold accountable its Tier III schools that receive school improvement funds;
- If it implements a restart model in a Priority, Tier I or Tier II school, include in its contract or agreement terms and provisions to hold the charter operator, charter management organization, or education management organization accountable for complying with the final requirements;
- Monitor and evaluate the actions a school has taken, as outlined in the approved SIG application, to recruit, select and provide oversight to external providers to ensure their quality.
- Monitor and evaluate the actions schools have taken, as outlined in the approved SIG application, to sustain the reforms after the funding period ends and that it will provide technical assistance to schools on how they can sustain progress in the absence of SIG funding.; and
- Report to the SEA the school-level data required under section III of the final requirements.

## **APPENDIX A**

### **GENERAL INFORMATION ABOUT THE GRANT:**

**Please read this before beginning the application on p. 3.**

#### **Purpose:**

The School Improvement Grants under the Elementary and Secondary Educational Act (ESEA) are grants awarded to State Educational Agencies (SEAs), to Local Educational Agencies (LEAs) for assisting their Title I schools identified as Priority schools. The Kansas State Department of Education (KSDE) will ensure the funds will be granted to those schools that demonstrate the greatest need and have the strongest commitment toward providing the resources necessary to raise substantially the achievement of their students.

#### **Eligible Schools and Districts:**

Districts that have schools identified as Priority schools and are requesting funds must utilize this application.

#### **Eligibility Criteria**

The School Improvement Grant (SIG) Section 1003 (g) Amended Final Requirements and Guidance published in the Federal Register in January 2010, states that school improvement funds are to be focused on persistently lowest-achieving schools. Further guidance was provided on November 1, 2010. As identified by the Local Education Agency (LEA) as a Priority school, the LEA must implement one of the four school intervention models: Turnaround Model, Restart Model, School Closure, or Transformation Model.

**Kansas**  
**Revised Definition of Persistently Lowest Achieving Schools (PLA)**  
**For**  
**Section 1003(g) School Improvement Grants (SIG)**

Kansas revised its definition of the Persistently Lowest Achieving Schools (PLA) for the Section 1003(g) School Improvement Grants (SIG) to be compatible with the ESEA Flexibility Waiver approved by the US Department of Education in July 2012. The revised definition of PLA is the definition used to identify Priority Schools. Kansas was required to identify 5% or 33 Title I schools as Priority Schools.

The Priority Schools are the Title I schools with the lowest levels of achievement and lack of progress. The identification of these schools is based on the “All Students” group on the state reading and mathematics assessments. Only students enrolled for the full academic year (by September 20) are included in the calculations. The reading and mathematics assessment results for the most recent 4 years are combined using the Assessment Performance index (API). The API is the measurement tool used for determining the lowest 5% of Title I schools.

In the API, each performance level is assigned points. The number of test results (students) in each performance level is multiplied by the assigned points. The total points for each school are divided by the total number of students assessed. This becomes the index score for the school. The Title I schools are ranked based on API scores with the lowest 5% identified as Title I Priority Schools.

**Calculating Assessment Performance Index (API) – Example**

Performance Category	Points per Category	# Students (Tests)	% of Students	Total Points
Exemplary	1000	55	21%	55,000
Exceeds Standard	750	90	35%	67,500
Meets Standard	500	82	31%	41,000
Approaching Standard	250	30	11%	7,500
Academic Warning	0	4	2%	0
Totals				171,200

## **Selection of a Model**

For each Priority school that the LEA commits to serve, the LEA must demonstrate that –

- The LEA has analyzed the needs of each school and selected an intervention for each school; and
- The LEA has the capacity to use school improvement funds to provide adequate resources and related support to each Priority school identified in the LEA’s application in order to implement, fully and effectively, the required activities of the school intervention model it has selected.

The Intervention Model Selection Rubrics, which is in Appendix C, should be used by the district when selecting a model. In the LEA application the district will be asked to provide answers to specific questions about the model they have selected.

### **A. TURNAROUND MODEL**

The following information comes from Guidance from School Improvement Grants on Turnaround Models, Appendix B, p. 26-31.

A turnaround model is one in which an LEA must do the following:

- (1) Replace the principal and grant the principal sufficient operational flexibility (including in staffing, calendars/time, and budgeting) to implement fully a comprehensive approach in order to substantially improve student achievement outcomes and increase high school graduation rates;
- (2) Using locally adopted competencies to measure the effectiveness of staff who can work within the turnaround environment to meet the needs of students,
  - (A) Screen all existing staff and rehire no more than 50 percent; and
  - (B) Select new staff;
- (3) Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in the turnaround school;
- (4) Provide staff ongoing, high-quality job-embedded professional development that is aligned with the school’s comprehensive instructional program and designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies;
- (5) Adopt a new governance structure, which may include, but is not limited to, requiring the school to report to a new “turnaround office” in the LEA or SEA, hire a “turnaround leader” who reports directly to the Superintendent or Chief Academic

- Officer, or enter into a multi-year contract with the LEA or SEA to obtain added flexibility in exchange for greater accountability;
- (6) Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with State academic standards;
  - (7) Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students;
  - (8) Establish schedules and implement strategies that provide increased learning time; and
  - (9) Provide appropriate social-emotional and community-oriented services and supports for students.

## **B. RESTART MODEL**

The following information comes from Guidance from School Improvement Grants on Restart Model, pg. 31-34.

A restart model is one in which an LEA converts a school or closes and reopens a school under a charter school operator, a charter management organization (CMO), or an education management organization (EMO) that has been selected through a rigorous review process. A restart model must enroll, within the grades it serves, any former student who wishes to attend the school.

- A CMO is a non-profit organization that operates or manages charter schools by centralizing or sharing certain functions and resources among schools.
- An EMO is a for-profit or non-profit organization that provides “whole-school operation” services to an LEA.

## **C. SCHOOL CLOSURE MODEL**

The following information comes from Guidance from School Improvement Grants on School Closure Model, pg. 34-35.

School closure occurs when an LEA closes a school and enrolls the students who attended that school in other schools in the LEA that are higher achieving. These other schools should be within reasonable proximity to the closed school and may include, but are not limited to, charter schools or new schools for which achievement data are not yet available.

## **D. TRANSFORMATION MODEL**

The following information comes from Guidance from School Improvement Grants on Transformational Model, pg. 36-42.

An LEA implementing a transformation model must:

- (1) Replace the principal who led the school prior to commencement of the transformation model;
- (2) Use rigorous, transparent, and equitable evaluation systems for teachers and principals that —
  - (a) Take into account data on student growth as a significant factor as well as other factors, such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduation rates; and
  - (b) Are designed and developed with teacher and principal involvement;
- (3) Identify and reward school leaders, teachers, and other staff who, in implementing this model, have increased student achievement and high school graduation rates and identify and remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so;
- (4) Provide staff ongoing, high-quality, job-embedded professional development that is aligned with the school's comprehensive instructional program and designed with school staff to ensure they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies; and
- (5) Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in a transformation model.

## **ADDITIONAL REQUIREMENTS WHEN ADOPTING A MODEL**

### **Capacity:**

The LEA must demonstrate the capacity to use school improvement funds to provide adequate resources and related support to each Priority school identified in the application.

### **Goal Setting and Reporting:**

An LEA must set annual goals for student achievement related to their results on the Kansas assessments (i.e., reading/language arts and mathematics).

The annual goals for the LEA need to be approved by the State Educational Agency.

For each Priority school the following will be reported:

- identity of the school;
- the interventions adopted, and
- the amount of funding awarded.

In addition,

- Achievement measures must be reported annually (i.e., improvements in student performance) and leading indicators (e.g., student and teacher attendance rates) for each identified school.
- Funding awards for years two and three will be determined from data received from the LEA receiving funding in year one.

### **Evaluation Criteria:**

The actions listed are required by the LEA and must be completed prior to submitting the application for a School Improvement Grant.

Based on the analysis of the Priority schools the LEA will:

- a) Describe the need for each school identified and what interventions have been selected for each school.
- b) Describe how capacity was determined.
- c) Describe how the LEA plans to use school improvement funds to provide adequate resources and related support to each Priority school(s) identified in the application in order to implement, fully and effectively, the selected intervention in each of those schools.
- d) Include a budget to sufficiently implement the funds for the selected interventions named in each Priority school(s) as identified in the application.

### **The Role of the SEA:**

- 1) Identify Priority schools;
- 2) Establish criteria to evaluate the quality of applications;
- 3) Analyze the needs and selected intervention(s) for each Priority school(s) identified in the LEA application;
  - a. demonstrated their capacity to use the funds to provide adequate resources and
  - b. to support each Priority school identified in the application in order to implement fully and effectively the selected intervention in each school; and
  - c. developed a budget with sufficient funds to implement the selected interventions fully and effectively in each Priority school identified.

- 4) Establish criteria to assess LEA commitment to:
  - a. design and implement the interventions; recruit, screen, and select external providers, if applicable, to ensure their quality;
  - b. align other resources with the interventions;
  - c. modify their practices or policies, if necessary, to be able to implement the interventions fully and effectively; and
  - d. sustain the reforms after the funding period ends.
- 5) Award SIG funds to eligible LEAs in amounts of sufficient size and scope to implement the selected interventions;
- 6) Monitor LEA implementation of the selected interventions.
- 7) Hold each LEA accountable annually for meeting, or making progress toward meeting, student achievement goals and leading indicators in each Priority School.
- 8) Post on its website, within 30 days of awarding SIG grants, all final LEA applications and a summary of the grants.
- 9) Report school-level data on student achievement outcomes and leading indicators in Priority schools.

## **APPENDIX B**

### **Intervention Model Requirements November 1, 2010 Guidance**

#### **B. TURNAROUND MODEL**

##### **B-1. What are the required elements of a turnaround model?**

A turnaround model is one in which an LEA must do the following:

- (1) Replace the principal and grant the principal sufficient operational flexibility (including in staffing, calendars/time, and budgeting) to implement fully a comprehensive approach in FY 2010 Guidance 27 order to substantially improve student achievement outcomes and increase high school graduation rates;
- (2) Using locally adopted competencies to measure the effectiveness of staff who can work within the turnaround environment to meet the needs of students,
  - (A) Screen all existing staff and rehire no more than 50 percent; and
  - (B) Select new staff;
- (3) Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in the turnaround school;
- (4) Provide staff ongoing, high-quality job-embedded professional development that is aligned with the school's comprehensive instructional program and designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies;
- (5) Adopt a new governance structure, which may include, but is not limited to, requiring the school to report to a new —turnaround office in the LEA or SEA, hire a —turnaround leader who reports directly to the Superintendent or Chief Academic Officer, or enter into a multi-year contract with the LEA or SEA to obtain added flexibility in exchange for greater accountability;
- (6) Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with State academic standards;
- (7) Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students;
- (8) Establish schedules and implement strategies that provide increased learning time; and
- (9) Provide appropriate social-emotional and community-oriented services and supports for students.

**B-2. In addition to the required elements, what optional elements may also be a part of a turnaround model?**

In addition to the required elements, an LEA implementing a turnaround model may also implement other strategies, such as a new school model or any of the required and permissible activities under the transformation intervention model described in the final requirements. It could also, for example, implement a high-quality preschool program that is designed to improve the health, social-emotional outcomes, and school readiness for high-need young children or replace a comprehensive high school with one that focuses on science, technology, engineering, and mathematics (STEM). The key is that these actions would be taken within the framework of the FY 2010 Guidance 28 turnaround model and would be in addition to, not instead of, the actions that are required as part of a turnaround model. (Modified for FY 2010 Guidance)

**B-3. What is the definition of —staff as that term is used in the discussion of a turnaround model?**

As used in the discussion of a turnaround model, —staff includes all instructional staff, but an LEA has discretion to determine whether or not —staff also includes non-instructional staff. An LEA may decide that it is appropriate to include non-instructional staff in the definition of —staff as all members of a school’s staff contribute to the school environment and are important to the success of a turnaround model. In determining the number of staff members that may be rehired, an LEA should count the total number of staff positions (however staff is defined) within the school in which the model is being implemented, including any positions that may be vacant at the time of the implementation. For example, if a school has a total of 100 staff positions, only 90 of which are filled at the time the model is implemented, the LEA may rehire 50 staff members; the LEA is not limited to rehiring only 45 individuals (50 percent of the filled staff positions). (See G-1c for additional information on how an LEA should determine the number of staff members that must be replaced when taking advantage of the flexibility to continue or complete interventions that have been implemented within the last two years.) (Modified for FY 2010 Guidance)

**B-3a. The response to B-3 states that —staff includes —all instructional staff. Does —all instructional staff mean only teachers of core academic subjects or does it also include physical education teachers and teachers of other non-core academic subjects?**

—All instructional staff includes teachers of core academic subjects as well as teachers of non-core academic subjects. Section I.A.2(a)(1)(ii) of the final requirements requires an LEA to measure the effectiveness of —staff who work within the turnaround environment. As is stated in B-3, an LEA has discretion to determine whether or not to include non-instructional staff, in addition to instructional staff, in meeting this requirement. An LEA may decide it is appropriate to include non-instructional staff in the definition of —staff as all members of a school’s staff contribute to the school environment and are important to the success of a turnaround model.

**B-4. What are —locally adopted competencies?**

A —competency, which is a skill or consistent pattern of thinking, feeling, acting, or speaking that causes a person to be effective in a particular job or role, is a key predictor of how someone will perform at work. Given that every teacher brings a unique skill set to the classroom, thoughtfully developed assessments of such competencies can be used as part of a rigorous recruitment, screening, and selection process to identify educators with the unique qualities that equip them to succeed in the turnaround environment and can help ensure a strong match between teachers and particular turnaround schools. As part of a rigorous recruitment, screening and selection process, assessments of turnaround teachers’ competencies can be used by the principal or district leader to distinguish between very high performers and more typical or lower-performing teachers in a turnaround setting. Although an LEA may already have and use a

set of tools to screen for appropriate competencies as part of its normal hiring practices, it is important to develop a set of FY 2010 Guidance 29 competencies specifically designed to identify staff that can be effective in a turnaround situation because, in a turnaround school, failure has become an entrenched way of life for students and staff, and staff members need stronger and more consistent habits in critical areas to transform the school's wide-scale failure into learning success. While each LEA should identify the skills and expertise needed for its local context, in addition to reviewing evidence of effectiveness in previous teaching positions (or other pre-service experience) in the form of recommendations, portfolios, or student outcomes, examples of locally adopted competencies might include acting with initiative and persistence, planning ahead, flexibility, respect for and sensitivity to norms of interaction in different situations, self-confidence, team leadership, developing others, analytical thinking, and conceptual thinking. The value and utility of turnaround competencies for selection are dependent on the process by which an LEA or school leader or team uses them. In addition to assessing a candidate's subject knowledge and mastery of specific instructional practices that the turnaround school uses, using a robust and multi-tiered selection process that includes interviews that ask about past practice in the classroom or situational scenarios, reviewing writing samples, observing teachers in their classrooms, and asking teachers to perform job-related tasks such as presenting information to a group of parents, are all common techniques used to screen candidates against turnaround competencies. Note that these are merely examples of a process and set of competencies an LEA might measure and use in screening and selecting staff to meet the unique needs of the schools in which it will implement a turnaround model.

**B-5. Is an LEA implementing the turnaround model required to use financial incentives, increased opportunities for promotion and career growth, and more flexible conditions as strategies to recruit, place, and retain staff with the skills necessary to meet the needs of the students in a turnaround model?**

No. The specific strategies mentioned in this requirement (see B-1(3)) are merely examples of the types of strategies an LEA might use to recruit, place, and retain staff with the skills necessary to meet the needs of the students in a school implementing the turnaround model. An LEA is not obligated to use these particular strategies, so long as it implements some strategies that are designed to recruit, place, and retain the appropriate staff.

**B-6. What is job-embedded professional development?**

Job-embedded professional development is professional learning that occurs at a school as educators engage in their daily work activities. It is closely connected to what teachers are asked to do in the classroom so that the skills and knowledge gained from such learning can be immediately transferred to classroom instructional practices. Job-embedded professional development is usually characterized by the following:

- It occurs on a regular basis (*e.g.*, daily or weekly);
- It is aligned with academic standards, school curricula, and school improvement goals; FY 2010 Guidance 30
- It involves educators working together collaboratively and is often facilitated by school instructional leaders or school-based professional development coaches or mentors;
- It requires active engagement rather than passive learning by participants; and
- It focuses on understanding what and how students are learning and on how to address students' learning needs, including reviewing student work and achievement data and collaboratively planning, testing, and adjusting instructional strategies, formative assessments, and materials based on such data.

Job-embedded professional development can take many forms, including, but not limited to, classroom coaching, structured common planning time, meetings with mentors, consultation with

outside experts, and observations of classroom practice. When implemented as part of a turnaround model, job-embedded professional development must be designed with school staff.

**B-7. Does the requirement to implement an instructional program that is research-based and aligned (vertically and with State standards) require adoption of a new or revised instructional program?**

Not necessarily. In implementing a turnaround model, an LEA must use data to identify an instructional program that is research-based and vertically aligned as well as aligned with State academic standards. If an LEA determines, based on a careful review of appropriate data, that the instructional program currently being implemented in a particular school is research-based and properly aligned, it may continue to implement that instructional program. However, the Department expects that most LEAs with Tier I or Tier II schools will need to make at least minor adjustments to the instructional programs in those schools to ensure that those programs are, in fact, research-based and properly aligned.

**B-8. What are examples of social-emotional and community-oriented services that may be supported with SIG funds in a school implementing a turnaround model?**

Social-emotional and community-oriented services that may be offered to students in a school implementing a turnaround model may include, but are not limited to: (a) safety programs; (b) community stability programs that reduce the mobility rate of students in the school; or (c) family and community engagement programs that support a range of activities designed to build the capacity of parents and school staff to work together to improve student academic achievement, such as a family literacy program for parents who need to improve their literacy skills in order to support their children's learning. If funds are not reasonably available from other public or private sources to support the planning and implementation of the services and the LEA has engaged in a comprehensive needs assessment, SIG funds might be used to hire a coordinator or to contract with an organization to facilitate the delivery of health, nutrition, and social services to the school's students in partnership with local service providers. SIG funds also might be used for (1) professional development necessary to assist teachers, pupil services personnel, other staff, and parents in identifying and meeting the comprehensive needs of students, and (2) as a last resort when funds are not reasonably available FY 2010 Guidance 31 from other public or private sources, the provision of basic medical equipment, such as eyeglasses and hearing aids. An LEA should examine the needs of students in the turnaround school to determine which social emotional and community-oriented services will be appropriate and useful under the circumstances. Further, like all other activities supported with SIG funds, any services provided must address the needs identified by the needs assessment the LEA conducted prior to selecting the turnaround model for the school and must be reasonable and necessary. (See I-30.) (Modified for FY 2010 Guidance)

**B-9. May an LEA omit any of the actions outlined in the final requirements and implement its own version of a turnaround model?**

No. An LEA implementing a turnaround model in one or more of its schools must take all of the actions required by the final requirements. As discussed in B-2, an LEA may take additional actions to supplement those that are required as part of a turnaround model, but it may not implement its own version of a turnaround model that does not include all of the elements required by the final requirements. Thus, an LEA could not, for example, convert a turnaround school to a magnet school without also taking the other actions specifically required as part of a turnaround model.

## **C. RESTART MODEL**

### **C-1. What is the definition of a restart model?**

A restart model is one in which an LEA converts a school or closes and reopens a school under a charter school operator, a charter management organization (CMO), or an education management organization (EMO) that has been selected through a rigorous review process. A restart model must enroll, within the grades it serves, any former student who wishes to attend the school (see C-6).

### **C-2. What is a CMO?**

A CMO is a non-profit organization that operates or manages charter schools by centralizing or sharing certain functions and resources among schools.

### **C-3. What is an EMO?**

An EMO is a for-profit or non-profit organization that provides —whole-school operational services to an LEA.

### **C-4. Prior to submitting its application for SIG funds, must an LEA know the particular EMO or CMO with which it would contract to restart a school?**

No. Prior to submitting its application, an LEA need not know the particular EMO or CMO with which it would contract to restart a school, but it should at least have a pool of potential partners that have expressed an interest in and have exhibited an ability to restart the school in which the LEA proposes to implement the restart model. An LEA does not need to enter into a contract prior to receiving its SIG funds, but it must be able to provide enough information in its application for the SEA to be confident that, if awarded SIG funds, the LEA would in fact enter into a contract with a CMO or EMO to implement the restart model. (FY 2010 Guidance 32)

### **C-5. What is the purpose of the —rigorous review process used for selecting a charter school operator, a CMO, or an EMO?**

The —rigorous review process permits an LEA to examine a prospective restart operator's reform plans and strategies. It helps prevent an operator from assuming control of a school without having a meaningful plan for turning it around. The purpose of the rigorous review process is to provide an LEA with an opportunity to ensure that the operator will use this model to make meaningful changes in a school. Through the rigorous review process, an LEA might, for example, require a prospective operator to demonstrate that its strategies are research-based and that it has the capacity to implement the strategies it is proposing.

### **C-6. Which students must be permitted to enroll in a school implementing a restart model?**

A restart school must enroll, within the grades it serves, all former students who wish to attend the school. The purpose of this requirement is to ensure that restarting the school benefits the population of students who would be served by the school in the absence of —restarting the school. Accordingly, the obligation to enroll any former student who wishes to attend the school includes the obligation to enroll a student who did not actually previously attend the school — for example, because the student was previously enrolled in grade 3 but the school serves only grades 4 through 6 — but who would now be able to enroll in the school were it not implementing the restart model. If the restart school no longer serves a particular grade or grades that previously had been served by the school, the restart school is not obligated to enroll a student in the grade or grades that are no longer served.

**C-6a. May an EMO or CMO with which an LEA contracts to implement a restart model require students or parents to agree to certain conditions in order to attend the school?**

Yes, under the restart model, a provider may require all former students who wish to attend the restart school to sign student or parent/student agreements covering student behavior, attendance, or other commitments related to academic performance. In other words, a decision by a student or parent not to sign such an agreement amounts to an indication that the student does not wish to attend the school implementing the restart model. A provider may not, however, require students to meet, for example, certain academic standards prior to enrolling in the school.

**C-7. May a restart school serve fewer grades than were previously served by the school in which the model is being implemented?**

Yes. An LEA has flexibility to work with providers to develop the appropriate sequence and timetable for a restart partnership. Thus, for example, an LEA could allow a restart operator to take over one grade in the school at a time. If an LEA allows a restart operator to serve only some of the grades that were previously served by the school in which the model is being implemented, the LEA must ensure that the SIG funds it receives for the school are used only for the grades being served by the restart operator, unless the LEA is implementing one of the other SIG models with respect to the other grades served by the school. For example, if the school in question previously served grades K-6 and the LEA allows a FY 2010 Guidance 33 restart operator to take over the school only with respect to grades K-3, the LEA could use SIG funds to serve the students in grades 4-6 if it implements a turnaround model or school closure, consistent with the final requirements, with respect to those grades.

**C-8. May a school implementing a restart model implement any of the required or permissible activities of a turnaround model or a transformation model?**

Yes. A school implementing a restart model may implement activities described in the final requirements with respect to other models. Indeed, a restart operator has considerable flexibility not only with respect to the school improvement activities it will undertake, but also with respect to the type of school program it will offer. The restart model is specifically intended to give operators flexibility and freedom to implement their own reform plans and strategies.

**C-9. If an LEA implements a restart model, must its contract with the charter school operator, CMO, or EMO hold the charter school operator, CMO, or EMO accountable for meeting the final requirements?**

Yes. If an LEA implements a restart model in a Tier I or Tier II school, the LEA must include in its contract or agreement terms and provisions to hold the charter school operator, CMO, or EMO accountable for complying with the final requirements. An LEA should bear this accountability requirement in mind at the time of contracting with the charter school operator, CMO, or EMO, and should consider how best to reflect it in the contract or agreement.

**C-10. May an LEA use SIG funds to pay a fee to a CMO or EMO to operate a restart model?**

Yes, but only to the extent the fee is reasonable and necessary to implement the restart model. An LEA, thus, has the responsibility, in entering into a contract with a CMO or EMO, to ensure that any fee that is part of the contract is reasonable and necessary. *See* Office of Management and Budget Circular A-87, Attachment A, C.1.a (to be allowable under a Federal grant, costs must be —necessary and reasonable for proper and efficient performance and administration of [the Federal grant]). In making this determination, the LEA must ensure that there is a direct relationship between the fee and the services that the CMO or EMO will provide using SIG funds and that those services are necessary to implement the SIG model in the school being restarted. It may not be reasonable, for example, for a CMO or EMO to charge a flat percentage

of the SIG funds available, irrespective of the services to be provided, particularly in light of the significant amount of SIG funds that would be available to a school for three years. For example, if a CMO or EMO normally charges a fee of five percent of gross receipts to operate a school, it may not be reasonable to calculate that percentage on the additional \$6 million in SIG funds that could be available, absent a very strong demonstration that its costs for providing services increase commensurately with the large amount of SIG funds available. Moreover, the LEA must be able to demonstrate, as part of its commitment to obtain SIG funds, that it can sustain the services of the CMO or EMO and any attendant fee after the SIG funds are no longer available (Sections I.A.4(a)(vi) and II.A.2(a)(iv)) and include a budget for each school it intends to serve that identifies any fee (Section II.A.2(a)(vi)). In addition, an SEA has the responsibility, in reviewing and approving an LEA's application to implement the restart model in one or more of its Tier I or Tier II schools, to consider the LEA's capacity to implement the model, including the reasonableness of its SIG budget and its ability to FY 2010 Guidance 34 sustain the model after SIG funds are no longer available, and may approve the LEA's application only if the SEA determines that the LEA can implement fully and effectively the model. See Sections I.A.4(b) and II.B.2(b)(ii) and (iv). (New for FY 2010 Guidance)

## **D. SCHOOL CLOSURE**

### **D-1. What is the definition of —school closure?**

School closure occurs when an LEA closes a school and enrolls the students who attended that school in other schools in the LEA that are higher achieving. These other schools should be within reasonable proximity to the closed school and may include, but are not limited to, charter schools or new schools for which achievement data are not yet available.

### **D-1a. How important is it for an LEA to engage families and the community in the LEA's decision to close a persistently lowest-achieving school?**

It is extremely important to engage families and the school community early in the process of selecting the appropriate school improvement model to implement in a school (see H-4a), but doing so is particularly important when considering school closure. It is critical that LEA officials engage in an open dialogue with families and the school community early in the closure process to ensure that they understand the data and reasons supporting the decision to close, have a voice in exploring quality options, and help plan a smooth transition for students and their families at the receiving schools. (New for FY 2010 Guidance)

### **D-2. What costs associated with closing a school can be paid for with SIG funds?**

An LEA may use SIG funds to pay certain reasonable and necessary costs associated with closing a Tier I or Tier II school, such as costs related to parent and community outreach, including, but not limited to, press releases, newsletters, newspaper announcements, hotlines, direct mail notices, or meetings regarding the school closure; services to help parents and students transition to a new school; or orientation activities, including open houses, that are specifically designed for students attending a new school after their prior school closes. Other costs, such as revising transportation routes, transporting students to their new school, or making class assignments in a new school, are regular responsibilities an LEA carries out for all students and generally may not be paid for with SIG funds. However, an LEA may use SIG funds to cover these types of costs associated with its general responsibilities if the costs are directly attributable to the school closure and exceed the costs the LEA would have incurred in the absence of the closure.

### **D-3. May SIG funds be used in the school that is receiving students who previously attended a school that is subject to closure in order to cover the costs associated with accommodating those students?**

No. In general, the costs a receiving school will incur to accommodate students who are moved from a closed school are costs that an LEA is expected to cover, and may not be paid for with SIG funds. However, to the extent a receiving school is a Title I school that increases its population of children from low-income families, the school should receive additional Title I, Part A funds through the Title I, Part A funding formula, and those Title I, Part A funds could be used to cover FY 2010 Guidance 35 the educational costs for these new students. If the school is not currently a Title I school, the addition of children from low-income families from a closed school might make it an eligible school.

**D-4. Is the portion of an LEA’s SIG sub grant that is to be used to implement a school closure renewable?**

Generally, no. The portion of an LEA’s SIG sub grant for a school that is subject to closure is limited to the time necessary to close the school — usually one year or less. As such, the funds allocated for a school closure would not be subject to renewal.

**D-5. How can an LEA determine whether a higher-achieving school is within reasonable proximity to a closed school?**

The school to which students who previously attended a closed school are sent should be located —within reasonable proximity to the closed school. An LEA has discretion to determine which schools are located within a reasonable proximity to a closed school. A distance that is considered to be within a —reasonable proximity in one LEA may not be within a —reasonable proximity in another LEA, depending on the nature of the community. In making this determination, an LEA should consider whether students who would be required to attend a new school because of a closure would be unduly inconvenienced by having to travel to the new location. An LEA should also consider whether the burden on students could be eased by designating multiple schools as receiving schools. An LEA should not eliminate school closure as an option simply because the higher-achieving schools that could be receiving schools are located at some distance from the closed school, so long as the distance is not unreasonable. Indeed, it is preferable for an LEA to send students who previously attended a closed school to a higher-achieving school that is located at some distance from, but still within reasonable proximity to, the closed school than to send those students to a lower-performing school that is geographically closer to the closed school. Moreover, an LEA should consider allowing parents to choose from among multiple higher-achieving schools, at least one of which is located within reasonable proximity to the closed school. By providing multiple school options, a parent could decide, for example, that it is worth having his or her child travel a longer distance in order to attend a higher-achieving school. Ultimately, the LEA’s goal should be to ensure that students who previously attended a closed school are able to enroll in the highest performing school that can reasonably be offered as an alternative to the closed school.

**D-6. In what kinds of schools may students who previously attended a closed school enroll?**

The higher-achieving schools in which students from a closed school may enroll may include any public school with the appropriate grade ranges, including public charter schools and new schools for which achievement data are not yet available. Note that a new school for which achievement data are not yet available may be a receiving school even though, as a new school, it lacks a history of being a —higher-achieving school. FY 2010 Guidance 36

**E. TRANSFORMATION MODEL**

**E-1. With respect to elements of the transformation model that are the same as elements of the turnaround model, do the definitions and other guidance that apply to those elements as they relate to the turnaround model also apply to those elements as they relate to the transformation model?**

Yes. Thus, for example, the strategies that are used to recruit, place, and retain staff with the skills necessary to meet the needs of students in a turnaround model may be the same strategies that are used to recruit, place, and retain staff with the skills necessary to meet the needs of students in a transformation model. For questions about any terms or strategies that appear in both the transformation model and the turnaround model, refer to the turnaround model section of this guidance.

**E-2. Which activities related to developing and increasing teacher and school leader effectiveness are required for an LEA implementing a transformation model?**

An LEA implementing a transformation model must:

- (1) Replace the principal who led the school prior to commencement of the transformation model;
- (2) Use rigorous, transparent, and equitable evaluation systems for teachers and principals that —
  - (a) Take into account data on student growth as a significant factor as well as other factors, such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduation rates; and
  - (b) Are designed and developed with teacher and principal involvement;
- (3) Identify and reward school leaders, teachers, and other staff who, in implementing this model, have increased student achievement and high school graduation rates and identify and remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so;
- (4) Provide staff ongoing, high-quality, job-embedded professional development that is aligned with the school’s comprehensive instructional program and designed with school staff to ensure they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies; and
- (5) Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in a transformation model. FY 2010 Guidance 37

**E-3. Must the principal and teachers involved in the development and design of the evaluation system be the principal and teachers in the school in which the transformation model is being implemented?**

No. The requirement for teacher and principal evaluation systems that —are designed and developed with teacher and principal involvement refers more generally to involvement by teachers and principals within the LEA using such systems, and may or may not include teachers and principals in a school implementing the transformation model.

**E-4. Under the final requirements, an LEA implementing the transformation model must remove staff —who, after ample opportunities have been provided for them to improve their professional practice, have not done so. Does an LEA have discretion to determine the appropriate number of such opportunities that must be provided and what are some examples of such —opportunities to improve?**

In general, LEAs have flexibility to determine both the type and number of opportunities for staff to improve their professional practice before they are removed from a school implementing the transformation model. Examples of such opportunities include professional development in such areas as differentiated instruction and using data to improve instruction, mentoring or partnering with a master teacher, or increased time for collaboration designed to improve instruction.

**E-5. In addition to the required activities, what other activities related to developing and increasing teacher and school leader effectiveness may an LEA undertake as part of its implementation of a transformation model?**

In addition to the required activities for a transformation model, an LEA may also implement other strategies to develop teachers' and school leaders' effectiveness, such as:

- (1) Providing additional compensation to attract and retain staff with the skills necessary to meet the needs of students in a transformation school;
- (2) Instituting a system for measuring changes in instructional practices resulting from professional development; or
- (3) Ensuring that the school is not required to accept a teacher without the mutual consent of the teacher and principal, regardless of the teacher's seniority.

LEAs also have flexibility to develop and implement their own strategies, as part of their efforts to successfully implement the transformation model, to increase the effectiveness of teachers and school leaders. Any such strategies must be in addition to those that are required as part of this model.

**E-6. How does the optional activity of —providing additional compensation to attract and retain certain staff differ from the requirement to implement strategies designed to recruit, place, and retain certain staff?**

There are a wide range of compensation-based incentives that an LEA might use as part of a transformation model. Such incentives are just one example of strategies that might be adopted to recruit, place, and retain staff with the skills needed to implement the transformation model. The FY 2010 Guidance 38 more specific emphasis on additional compensation in the permissible strategies was intended to encourage LEAs to think more broadly about how additional compensation can contribute to teacher effectiveness.

**E-7. Which activities related to comprehensive instructional reform strategies are required as part of the implementation of a transformation model?**

An LEA implementing a transformation model must:

- (1) Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with State academic standards; and
- (2) Promote the continuous use of student data (such as from formative, interim, and summative assessments) in order to inform and differentiate instruction to meet the academic needs of individual students.

**E-8. In addition to the required activities, what other activities related to comprehensive instructional reform strategies may an LEA undertake as part of its implementation of a transformation model?**

In addition to the required activities for a transformation model, an LEA may also implement other comprehensive instructional reform strategies, such as:

- (1) Conducting periodic reviews to ensure that the curriculum is being implemented with fidelity, is having the intended impact on student achievement, and is modified if ineffective;
- (2) Implementing a schoolwide —response-to-intervention model;
- (3) Providing additional supports and professional development to teachers and principals in order to implement effective strategies to support students with disabilities in the least restrictive environment and to ensure that limited English proficient students acquire language skills to master academic content;

- (4) Using and integrating technology-based supports and interventions as part of the instructional program; and
- (5) In secondary schools—
  - (a) Increasing rigor by offering opportunities for students to enroll in advanced coursework, early-college high schools, dual enrollment programs, or thematic learning academies that prepare students for college and careers, including by providing appropriate supports designed to ensure that low-achieving students can take advantage of these programs and coursework;
  - (b) Improving student transition from middle to high school through summer transition programs or freshman academies; FY 2010 Guidance 39
  - (c) Increasing graduation rates through, for example, credit recovery programs, reengagement strategies, smaller learning communities, competency-based instruction and performance-based assessments, and acceleration of basic reading and mathematics skills; or
  - (d) Establishing early-warning systems to identify students who may be at risk of failing to achieve to high standards or to graduate.

**E-9. What activities related to increasing learning time and creating community-oriented schools are required for implementation of a transformation model?**

An LEA implementing a transformation model must:

- (1) Establish schedules and strategies that provide increased learning time; and
- (2) Provide ongoing mechanisms for family and community engagement.

**E-10. What is meant by the phrase —family and community engagement‖ and what are some examples of ongoing mechanisms for family and community engagement?**

In general, family and community engagement means strategies to increase the involvement and contributions, in both school-based and home-based settings, of parents and community partners that are designed to support classroom instruction and increase student achievement. Examples of mechanisms that can encourage family and community engagement include the establishment of organized parent groups, holding public meetings involving parents and community members to review school performance and help develop school improvement plans, using surveys to gauge parent and community satisfaction and support for local public schools, implementing complaint procedures for families, coordinating with local social and health service providers to help meet family needs, and parent education classes (including GED, adult literacy, and ESL programs).

**E-10a. How should an LEA design mechanisms to support family and community engagement?**

To develop mechanisms to support family and community engagement, an LEA may conduct a community-wide assessment to identify the major factors that significantly affect the academic achievement of students in the school, including an inventory of the resources in the community and the school that could be aligned, integrated, and coordinated to address these challenges. An LEA should try to ensure that it aligns the family and community engagement programs it implements in the elementary and secondary schools in which it is implementing the transformation model to support common goals for students over time and for the community as a whole. (New for FY 2010 Guidance)

**E-11. In addition to the required activities, what other activities related to increasing learning time and creating community-oriented schools may an LEA undertake as part of its implementation of a transformation model?**

In addition to the required activities for a transformation model, an LEA may also implement other strategies to extend learning time and create community-oriented schools, such as FY 2010 Guidance 40:

- (1) Partnering with parents and parent organizations, faith- and community-based organizations, health clinics, other State or local agencies, and others to create safe school environments that meet students' social, emotional, and health needs;
- (2) Extending or restructuring the school day so as to add time for such strategies as advisory periods that build relationships between students, faculty, and other school staff;
- (3) Implementing approaches to improve school climate and discipline, such as implementing a system of positive behavioral supports or taking steps to eliminate bullying and student harassment; or
- (4) Expanding the school program to offer full-day kindergarten or pre-kindergarten.

**E-11a. What are examples of services an LEA might provide to create safe school environments that meet students' social, emotional, and health needs?**

Services that help provide a safe school environment that meets students' social, emotional, and health needs may include, but are not limited to: (a) safety programs; (b) community stability programs that reduce the mobility rate of students in the school; or (c) family and community engagement programs that support a range of activities designed to build the capacity of parents and school staff to work together to improve student academic achievement, such as a family literacy program for parents who need to improve their literacy skills in order to support their children's learning. (New for FY 2010 Guidance)

**E-12. How does the optional activity of extending or restructuring the school day to add time for strategies that build relationships between students, faculty, and other school staff differ from the requirement to provide increased learning time?**

Extra time or opportunities for teachers and other school staff to create and build relationships with students can provide the encouragement and incentive that many students need to work hard and stay in school. Such opportunities may be created through a wide variety of extra-curricular activities as well as structural changes, such as dividing large incoming classes into smaller theme based teams with individual advisers. However, such activities do not directly lead to increased learning time, which is more closely focused on increasing the number of instructional minutes in the school day or days in the school year.

**E-13. What activities related to providing operational flexibility and sustained support are required for implementation of a transformation model?**

An LEA implementing a transformation model must:

- (1) Give the school sufficient operational flexibility (such as staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; and
- (2) Ensure that the school receives ongoing, intensive technical assistance and related support from the LEA, the SEA, or a designated external lead partner organization (such as a school turnaround organization or an EMO). FY 2010 Guidance 41

**E-14. Must an LEA implementing the transformation model in a school give the school operational flexibility in the specific areas of staffing, calendars/time, and budgeting?**

No. The areas of operational flexibility mentioned in this requirement are merely examples of the types of operational flexibility an LEA might give to a school implementing the transformation model. An LEA is not obligated to give a school implementing the transformation model operational flexibility in these particular areas, so long as it provides the school sufficient operational flexibility to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates.

**E-15. In addition to the required activities, what other activities related to providing operational flexibility and sustained support may an LEA undertake as part of its implementation of a transformation model?**

In addition to the required activities for a transformation model, an LEA may also implement other strategies to provide operational flexibility and sustained support, such as:

- (1) Allowing the school to be run under a new governance arrangement, such as a turnaround division within the LEA or SEA; or
- (2) Implementing a per-pupil school-based budget formula that is weighted based on student needs.

**E-16. In implementing the transformation model in an eligible school, may an LEA gather data during the first year of SIG funding on student growth, multiple observation based assessments of performance, and ongoing collections of professional practice reflective of student achievement, and then remove staff members who have not improved their professional practice at the end of that first year?**

Yes. Although we expect an LEA that receives FY 2010 SIG funds and/or FY 2009 carryover SIG funds and decides to implement the transformation model in a Tier I or Tier II school to implement that model fully at the start of the 2011–2012 school year, we recognize that certain components of the model may need to be implemented later in that process. For example, because an LEA must design and develop a rigorous, transparent, and equitable staff evaluation system with the involvement of teachers and principals, implement that system, and then provide staff with ample opportunities to improve their practices, the LEA may not be able to remove staff members who have not improved their professional practices until later in the implementation process. (See E-3, E-4, and F-2.) (Modified for FY 2010 Guidance)

**E-17. May an LEA implement the transformation model in a high school that has grades 9-12 by assigning the current principal to grades 10-12 and hiring a new principal to lead a 9th-grade academy?**

No. The final requirements for the SIG program are intended to support interventions designed to turn around an entire school (or, in the case of the school closure model, provide better educational options to all students in a Tier I or Tier II school). Removing a single grade from a Tier II high FY 2010 Guidance 42 school to create a new school for that grade as part of a strategy to improve the performance of feeder schools would not meet this requirement for whole-school intervention. Similarly, to meet the requirement that a principal be replaced, the new principal must serve all grades in a school, not just one particular grade.

**Appendix C**

<p>Implement strategies that will recruit, place, and retain staff with the skills necessary to meet the needs of the students in the turnaround school, which may include, but are not limited to**:</p> <ul style="list-style-type: none"> <li>✓ Financial incentives,</li> <li>✓ Increased opportunities for promotion and career growth,</li> <li>✓ Flexible work conditions</li> </ul>	<p>The school has adopted and implemented multiple innovative and aggressive strategies to help recruit, place, and retain staff.</p>	<p>The school has adopted and is in the process of implementing multiple innovative and aggressive strategies to help recruit, place, and retain staff.</p>	<p>The school is investigating multiple innovative and aggressive strategies to help recruit, place, and retain staff.</p>	<p>The school has made no changes in their strategies to help recruit, place, and retain staff.</p>

\*As used in the discussion of a turnaround model, “staff” includes all instructional staff, but an LEA has discretion to determine whether or not “staff” also includes non-instructional staff. An LEA may decide that it is appropriate to include non-instructional staff in the definition of “staff,” as all members of a school’s staff contribute to the school environment and are important to the success of a turnaround model.

In determining the number of staff members that may be rehired, an LEA should count the total number of staff positions (however staff is defined) within the school in which the model is being implemented, including any positions that may be vacant at the time of the implementation. For example, if a school has a total of 100 staff positions, only 90 of which are filled at the time the model is implemented, the LEA may rehire 50 staff members; the LEA is not limited to rehiring only 45 individuals (50 percent of the filled staff positions).

<b>STANDARD: CULTURE AND HUMAN CAPITAL</b>

	4 Exemplary level of development and implementation	3 Full function and operational level of development and implementation	2 Limited development and partial implementation	1 Little or no development and implementation
Grant the principal sufficient operational flexibility in calendars/time.	The new principal was hired before the process began and was involved in making decisions at every level of the calendar/time process.	The new principal was actively involved in making decisions during the calendar/time process but was not hired before the actual process began.	The new principal had limited involvement and/or decision making authority in the calendar/time process or was involved in only parts of the process.	The new principal was not involved in the calendar/time process.
Grant the principal sufficient operational flexibility in budgeting.	The new principal was hired before the process began and was involved in making decisions at every level of the budget process.	The new principal was actively involved in making decisions during the budget process but was not hired before the actual process began.	The new principal had limited involvement and/or decision making authority in the budget process or was involved in only parts of the process.	The new principal was not involved in the budget process.
Grant the principal sufficient operational flexibility in implementing fully the Turnaround Model.	The new principal was hired before the process began and was involved in making decisions at every level the reform process.	The new principal was actively involved in making decisions during the reform process but was not hired before the actual process began.	The new principal had limited involvement and/or decision making authority in the reform process or was involved in only parts of the process.	The new principal was not involved in the reform process.
Provide appropriate social-emotional services* and supports to students.	The school has adopted and implemented appropriate social-emotional services and supports to students.	The school has adopted and is in the process of implementing appropriate social-emotional services and supports to students.	The school is investigating appropriate social-emotional services and supports to students.	The school offers no social-emotional services and supports to students.

<b>STANDARD: CULTURE AND HUMAN CAPITAL</b>				
<b>Indicator</b>	<b>Rating of Performance</b>			
	4 Exemplary level of development and implementation	3 Full function and operational level of development and implementation	2 Limited development and partial implementation	1 Little or no development and implementation
Provide community-oriented services* and supports to students.	The school has adopted and implemented community-oriented services and supports to students.	The school has adopted, and is in the process of implementing, community-oriented services and supports to students.	The school is investigating community-oriented services and supports to students.	The school offers no community-oriented services and supports to students.

\*\*A “competency,” which is a skill or consistent pattern of thinking, feeling, acting, or speaking that causes a person to be effective in a particular job or role, is a key predictor of how someone will perform at work. Given that every teacher brings a unique skill set of the classroom, thoughtfully developed assessments of such competencies can be used as part of a rigorous recruitment, screening, and selection process to identify educators with the unique qualities that equip them to succeed in the turnaround environment and can help ensure a strong match between teachers and particular turnaround schools. As part of a rigorous recruitment, screening and selection process, assessments of turnaround teachers’ competencies can be used by the principal or district leader to distinguish between very high performers and more typical or lower-performing teachers in a turnaround setting. Although an LEA may already have and use a set of tools to screen for appropriate competencies as part of its normal hiring practices, it is important to develop a set of competencies specifically designed to identify staff that can be effective in a turnaround situation because, in a turnaround school, failure has become an entrenched way of life for students and staff, and staff members need stronger and more consistent habits in crucial areas to transform the school’s wide-scale failure into learning success. (See pg. 17 of the guidance document for further information.)

An LEA is not obligated to use these particular strategies, so long as it implements some strategies that are designed to recruit, place, and retain the appropriate staff.)

\*Social-emotional and community-oriented services that may be offered to students in a school implementing a turnaround model may include health, nutrition, or social services that may be provided in partnership with local service providers, or services such as a family literacy program for parents who need to improve their literacy skills in order to support their children’s learning. An LEA should examine the needs of students in the turnaround school to determine which social-emotional and community-oriented services will be appropriate and useful under the circumstances.

**STANDARD: CURRICULUM AND ASSESSMENT**

Indicator	Rating of Performance			
	4 Exemplary level of development and implementation	3 Full function and operational level of development and implementation	2 Limited development and partial implementation	1 Little or no development and implementation
<p>Use data to identify and implement an instructional program that is*:</p> <ul style="list-style-type: none"> <li>✓ Aligned with State academic standards;</li> <li>✓ Vertically and horizontally aligned;</li> <li>✓ Research-based.</li> </ul>	<p>The school used its data to identify and implement a research-based instructional program that is horizontally and vertically aligned as well as aligned with State academic standards.</p>	<p>The school used its data to identify a research-based instructional program that is horizontally and vertically aligned and aligned with State academic standards, and is in the process of implementation.</p>	<p>The school is investigating research-based instructional programs that are horizontally and vertically aligned and aligned with State academic standards.</p>	<p>The school's instructional program is not research-based, horizontally and vertically aligned, and/or aligned with State academic standards.</p>
<p>Promote the continuous use of student data to inform and differentiate instruction, such as:</p> <ul style="list-style-type: none"> <li>✓ Formative assessments,</li> <li>✓ Interim (progress monitoring) assessments,</li> <li>✓ Summative assessments.</li> </ul>	<p>Across the building, the school continuously utilizes student data in such forms as formative assessments, progress monitoring assessments, and summative assessments to inform and differentiate instruction.</p>	<p>The school has adopted formative assessments, progress monitoring assessments, and summative assessments and is in the process of implementing their use to inform and differentiate instruction.</p>	<p>The school is investigating different forms of assessment to inform and differentiate instruction.</p>	<p>The school does not use student data to inform and differentiate instruction.</p>

\*In implementing a turnaround model, an LEA must use data to identify an instructional program that is research-based and vertically aligned as well as aligned with State academic standards. If an LEA determines, based on a careful review of appropriate data, that the instructional program currently being implemented in a particular school is research-based and properly aligned, it may continue to implement that instructional program. However, the Department of Education expects that most LEAs with Tier I and Tier II schools will need to make at least minor adjustments to the instructional programs in those schools to ensure that those programs are, in fact, research-based and properly aligned.

**STANDARD: INSTRUCTION AND PROFESSIONAL DEVELOPMENT**

Indicator	Rating of Performance			
	4 Exemplary level of development and implementation	3 Full function and operational level of development and implementation	2 Limited development and partial implementation	1 Little or no development and implementation
Provide staff ongoing, high quality, job-embedded professional development* that is aligned with the school’s comprehensive instructional program and designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement the turnaround model.	The school has adopted and implemented ongoing, high quality, job-embedded professional development* that is aligned with the school’s comprehensive instructional program and designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement the turnaround model. The school is investigating high quality, job-embedded professional development* that is aligned with the school’s comprehensive instructional program and designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement the turnaround model.	Professional development is not high-quality, job-embedded and/or aligned with the school’s comprehensive instructional program and/or not designed with school staff.
Establish schedules and implement strategies that provide increased learning time.	The school has adopted and implemented strategies that provide increased learning time.	The school has adopted and is in the process of implementing strategies that provide increased learning time.	The school is investigating schedules and strategies that provide increased learning time.	The school has not adopted or implemented strategies that provide increased learning time.

\*Job-embedded professional development can take many forms, including, but not limited to, classroom coaching, structured common planning time, meetings with mentors, consultation with outside experts, and observations of classroom practice.

*An LEA implementing a turnaround model in one or more of its schools must take all of the actions required by the amended final guidance requirements. As discussed in B-2 of the final requirements, an LEA may take additional actions to supplement those that are required as part of a turnaround model, but it may not implement its own version of a turnaround model that does not include all of the elements required by the final requirements. Thus, an LEA could not, for example, convert a turnaround school to a magnet school without also taking the other actions specifically required as part of a turnaround model.*

## Appendix D

### **ESEA Turnaround Principles**

**Turnaround Principles:** Meaningful interventions designed to improve the academic achievement of students in priority schools must be aligned with all of the following “turnaround principles” and selected with family and community input:

1. providing strong leadership by: (a) reviewing the performance of the current principal; (b) either replacing the principal if such a change is necessary to ensure strong and effective leadership, or demonstrating to the SEA that the current principal has a track record in improving achievement and has the ability to lead the turnaround effort; and (c) providing the principal with operational flexibility in the areas of scheduling, staff, curriculum, and budget;
2. ensuring that teachers are effective and able to improve instruction by: (a) reviewing the quality of all staff and retaining only those who are determined to be effective and have the ability to be successful in the turnaround effort; (b) preventing ineffective teachers from transferring to these schools; and (c) providing job-embedded, ongoing professional development informed by the teacher evaluation and support systems and tied to teacher and student needs;
3. redesigning the school day, week, or year to include additional time for student learning and teacher collaboration;
4. strengthening the school’s instructional program based on student needs and ensuring that the instructional program is research-based, rigorous, and aligned with State academic content standards;
5. using data to inform instruction and for continuous improvement, including by providing time for collaboration on the use of data;
6. establishing a school environment that improves school safety and discipline and addressing other non-academic factors that impact student achievement, such as students’ social, emotional, and health needs; and
7. providing ongoing mechanisms for family and community engagement.

A priority school that implements one of the four Section 1003(g) School Improvement Grant (SIG) models is implementing an intervention that satisfies the turnaround principles.

## APPENDIX F

### **SEA ALLOCATIONS TO LEAS AND LEA BUDGETS**

#### **LEA Budgets**

An LEA's proposed budget should cover a three-year period and should take into account the following:

1. The number of Priority schools that the LEA commits to serve and the intervention model (turnaround, restart, closure, or transformation) selected for each school.
2. The budget request for each Priority school must be of sufficient size and scope to support full and effective implementation of the selected intervention over a period of three years. First-year budgets may be higher than in subsequent years due to one-time start-up costs.
4. The portion of school closure costs covered with school improvement funds may be significantly lower than the amount required for the other models and would typically cover only one year.
5. The LEA may request funding for LEA-level activities that will support the implementation of school intervention models in Priority schools.
6. The number of Priority schools that the LEA commits to serve, if any, and the services or benefits the LEA plans to provide to these schools over the three-year grant period.
7. The maximum funding available to the LEA each year is determined by multiplying the total number of Priority schools that the LEA is approved to serve by \$2 million (the maximum amount that an SEA may award to an LEA for each participating school).

#### **SEA Allocations to LEAs**

An SEA must allocate the LEA share of school improvement funds (*i.e.*, 95 percent of the SEA's allocation from the Department) in accordance with the following requirements:

1. The SEA must give priority to LEAs that apply to serve Priority schools.
2. In making awards consistent with these requirements, an SEA must take into account LEA capacity to implement the selected school interventions, and also may take into account other factors, such as the number of schools served and the overall quality of LEA applications.
3. Consistent with the final requirements, an SEA may award an LEA less funding than it requests. For example, an SEA that does not have sufficient funds to serve fully all of its Priority schools may approve an LEA's application with respect to only a portion of the LEA's Priority schools to enable the SEA to award school improvement funds to Priority schools across the State..

An SEA's School Improvement Grant award to an LEA must:

1. Include not less than \$50,000 or more than \$2 million per year for each participating school (*i.e.*, the Priority schools that the LEA commits to serve and that the SEA approves the LEA to serve).
2. Provide sufficient school improvement funds to implement fully and effectively one of the four intervention models in each Priority school the SEA approves the LEA to serve or close. An SEA may reduce an LEA's requested budget by any amounts proposed for interventions in one or more schools that the SEA does not approve the LEA to serve (*i.e.*, because the LEA does not have the capacity to serve the school or because the SEA is approving only a portion of Priority schools in certain LEAs in order to serve Priority schools across the State). An SEA also may reduce award amounts if it determines that an LEA can implement its planned interventions with less than the amount of funding requested in its budget.
3. Include any requested funds for LEA-level activities that support implementation of the school intervention models.

<b>1000 Instruction</b>	
<b>100</b>	<b>Personnel Services—Salaries</b> Instructional salaries for full & part-time certified and non-certified employees, substitute pay, & stipends.
<b>200</b>	<b>Employee Benefits</b> FICA, Group Insurance, Workman’s Compensation, etc., for personnel in line 100 above.
<b>300</b>	<b>Purchased Professional &amp; Technical Services</b> Into District: Consultants, subcontracts, mini-grants, counseling, guidance, medical and accounting services.
<b>400</b>	<b>Purchased Property Services</b> Lease, repair, maintain, & rent property & equipment, owned or used by the district.
<b>500</b>	<b>Other Purchased Services</b> Out of District: Staff travel, workshops/conference registrations, per diem, mileage, lodging, staff development.
<b>600</b>	<b>Supplies &amp; Materials</b> Items that can be consumed, worn out, or deteriorated through use. This includes software that was purchased independently of a hardware package. For Title I, this may be no more than 10% of the total allocation.
<b>700</b>	<b>Property</b> Initial, additional or replacement equipment. This includes software that was purchased as part of a hardware package. For Title I, this amount may be no more than 10% of the total allocation, or \$2,000, whichever is greater.
<b>2000 Support Services</b>	
<b>2100</b>	<b>Support Services --Students</b> Activities designed to assess and improve the well-being of students and to supplement the teaching process. Include only staff in attendance, social work services, substance abuse, guidance and health services, and parent involvement.
<b>2200</b>	<b>Support Services – Instructional Staff</b> Activities associated with assisting the instructional staff in planning, developing and evaluating the process of providing learning experiences for students. These activities include curriculum development, techniques of instruction, child development and understanding, staff training, etc.

<b>2300</b>	<b>Support Services (General Administration)</b> Activities concerned with the overall general administration of the program. These include all personnel and materials required to support the program. If a federal program is audited by a state auditor, the CPA audit costs may not be charged to the federal program.
<b>2329</b>	<b>Other Executive Administration Services</b> Amount of funds generated by the indirect cost rate. (i.e., general operating costs such as duplicating, postage, room rental, telephone, etc.)
<b>2400</b>	<b>Support Services</b> Activities that have been assigned in addition to the normal contract concerned with directing and managing the operation of a particular school. Examples would include extended days, Title I summer school or alternative high school.
<b>2700</b>	<b>Student Transportation Services</b> Providing transportation for students. Activities concerned with conveying students to and from school, as provided by State and Federal law. This includes trips between home and school, and trips to and from school activities. Federal funds may not be used to supplant regular transportation costs.
<b>3000 Non-Instructional Services</b>	
<b>3300</b>	<b>Community Services Operations</b> <i>Providing community services to staff or students.</i>
<b>3400</b>	<b>Student Activities</b> Providing activities associated with the students in these programs.

# LEA Grant Scoring Form

**A. SCHOOLS TO BE SERVED: An LEA must include the following information with respect to the schools it will serve with a School Improvement Grant.**

- 5 pts.** The LEA must identify each Priority school the LEA commits to serve and identify the model that the LEA will use in each school.
- (a) the name and NCES ID # of each school
  - (b) the intervention model that will be implemented in each school

**Scoring Rubric**

Marginal (0-1 pts.)	Somewhat Rigorous (2-3 pts.)	Most Rigorous (4-5 pts.)
<p>Identification:</p> <ul style="list-style-type: none"> <li>• List of schools is missing.</li>   <li>• Models have not been identified for each school.</li> </ul>	<p>Identification:</p> <ul style="list-style-type: none"> <li>• List of schools has been provided.</li>   <li>• Some models have been identified for individual schools but the list is incomplete.</li> </ul>	<p>Identification:</p> <ul style="list-style-type: none"> <li>• List of schools has been provided.</li>   <li>• Models of intervention have clearly been identified that will be implemented for each school.</li> </ul>
